Whereas the Republican proposal would disproportionately harm groups of Americans who are hardest hit by unemployment and long-term unemployment, including older Americans, low-income Americans, Americans from racial and ethnic minority groups, and Americans without a high school diploma;

Whereas now that emergency assistance is about to expire, the Republican proposal reflects comfort with \$180 billion in tax breaks for the wealthiest 3 percent of Americans for 2012, but not the \$50 billion needed to help millions of the neediest Americans who still cannot find a job;

Whereas the Economic Policy Institute estimates that the Republican proposal would result in as much as \$22 billion in lost economic growth, and the Center for American Progress estimates that the Republican proposal would lead to a loss of approximately 275,000 jobs in 2012;

Whereas it will tarnish the dignity and integrity of the House proceedings if the House considers a bill that cuts critical emergency assistance to millions of Americans, hinders economic recovery, and disproportionately harms older Americans, Americans from racial and ethnic minority groups, low-income Americans, and Americans without a high school degree;

Whereas it will tarnish the dignity and integrity of the House proceedings if the Republican Leadership holds hostage the 2.5 million Americans who, the Department of Labor estimates, will lose their benefits by March 2012 if Congress fails to act, in order to push a radical agenda the American people have already rejected; and

Whereas failure to allow consideration of amendments to protect vulnerable Americans during consideration of a bill that substantially and permanently changes Federal unemployment benefits tarnishes the integrity of the legislative process: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) recognizes the immediate need to extend current emergency unemployment benefits to promote our Nation's economic recovery by stimulating purchases, creating jobs, and preventing the loss of jobs;

(2) recognizes the immediate need to extend current emergency unemployment benefits to help the approximately 6 million un-

employed Americans who will lose benefits if current emergency unemployment benefits are not extended through 2012;

(3) disapproves of drastically limiting Federal unemployment benefits until economic growth is robust and the Nation is in a period of full employment; and

(4) calls on the Leadership of the House to bring to a vote a clean extension of all current emergency unemployment benefits for a full year to protect the millions of Americans who will lose benefits if the current statute sunsets at the end of December 2011 or if H.R. 3630, as posted by the Committee on Rules on December 9, 2011, is enacted.

The SPEAKER pro tempore. Does the gentleman from Illinois wish to present argument on why the resolution is privileged under rule IX to take precedence over other questions?

Mr. DAVIS of Illinois. I do.

The SPEAKER pro tempore. The gentleman will present those arguments.

Mr. DAVIS of Illinois. Mr. Speaker, in order to qualify as a question of the privileges of the House under rule IX, the resolution must address "the rights of the House collectively, its safety, dignity, and the integrity of its proceedings."

The resolution I offer seeks to express the position of the House that the Republican proposal to address the unemployment crisis facing our Nation and the procedures used to bring it to the floor tarnish the dignity and integrity of the House proceedings and the integrity of the legislative process.

All Members of the House of Representatives have a responsibility to protect Americans and our country from physical and economic harm, especially during times of national crisis. Yet, contrary to this mandate, the Republican proposal to address the unemployment crisis threatens to damage our national economy as well as the well-being of millions of Americans.

By drastically cutting benefits—especially for employees and States hardest hit by unemployment—by 40 weeks and imposing punitive restrictions on access to benefits, the Republican proposal will almost certainly harm millions of Americans and our Nation's economic well-being.

The SPEAKER pro tempore. The Chair would remind the gentleman from Illinois that argument must be confined as to whether or not the matter is privileged under rule IX, and may not address the substance of the resolution.

Mr. DAVIS of Illinois. Thank you very much, Mr. Speaker.

Given the unemployment crisis that does in fact exist in our country, and given the great needs that exist for people to feel a sense of comfort and security, given the fact that older Americans, low-income Americans, Americans from racial and ethnic minority groups, and Americans with—

The SPEAKER pro tempore. The Chair would again ask the gentleman to address whether or not this resolution is privileged under rule IX.

Mr. DAVIS of Illinois. Mr. Speaker, it is my position and my belief that the Republican proposal tarnishes the legislative process by making substantial permanent changes to Federal unemployment benefits, and that, when passed—if passed—that the country will have experienced difficulties that could have been avoided.

The SPEAKER pro tempore. The Chair would ask the gentleman if he has any additional observations relative to the question of privilege, and not on the substance of the resolution.

Mr. DAVIS of Illinois. Mr. Speaker, let me thank you for your comments. Actually, I am at the end of my comments, and I would yield back the balance of my time.

The SPEAKER pro tempore. The Chair thanks the gentleman for his creativity.

Does any other Member wish to be heard on the question of privilege?

The Chair is prepared to rule.

As the Chair ruled in similar circumstances on October 2 and October 3, 2002, a resolution expressing the sentiment that Congress should act on a specified legislative measure does not constitute a question of privileges of the House under rule IX.

The mere invocation of legislative powers provided in the Constitution coupled with identification of a desired policy end does not meet the requirements of rule IX and is really a matter properly initiated through introduction in the hopper under clause 7 of rule XII.

Accordingly, the resolution offered by the gentleman from Illinois does not constitute a question of the privileges of the House under rule IX.

#### MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT OF 2011

Mr. CAMP. Mr. Speaker, pursuant to House Resolution 491, I call up the bill (H.R. 3630) to provide incentives for the creation of jobs, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 491, the amendment printed in House Report 112-328 is considered adopted, and the bill, as amended, is considered read.

The text of the bill, as amended, is as follows:

H.R. 3630

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

(a) SHORT TITLE.—This Act may be cited as the “Middle Class Tax Relief and Job Creation Act of 2011”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title.

#### TITLE I—JOB CREATION INCENTIVES

##### Subtitle A—North American Energy Access

Sec. 1001. Short title.

Sec. 1002. Permit for Keystone XL Pipeline.

##### Subtitle B—EPA Regulatory Relief

Sec. 1101. Short title.

Sec. 1102. Legislative stay.

Sec. 1103. Compliance dates.

Sec. 1104. Energy recovery and conservation.

Sec. 1105. Other provisions.

##### Subtitle C—Extension of 100 Percent Expensing

Sec. 1201. Extension of allowance for bonus depreciation for certain business assets.

#### TITLE II—EXTENSION OF CERTAIN EXPIRING PROVISIONS AND RELATED MEASURES

##### Subtitle A—Extension of Payroll Tax Reduction

Sec. 2001. Extension of temporary employee payroll tax reduction through end of 2012.

##### Subtitle B—Unemployment Compensation

Sec. 2101. Short title.

#### PART 1—REFORMS OF UNEMPLOYMENT COMPENSATION TO PROMOTE WORK AND JOB CREATION

Sec. 2121. Consistent job search requirements.

Sec. 2122. Participation in reemployment services made a condition of benefit receipt.

Sec. 2123. State flexibility to promote the reemployment of unemployed workers.

Sec. 2124. Assistance and guidance in implementing self-employment assistance programs.

Sec. 2125. Improving program integrity by better recovery of overpayments.

Sec. 2126. Data standardization for improved data matching.

Sec. 2127. Drug testing of applicants.

#### PART 2—PROVISIONS RELATING TO EXTENDED BENEFITS

Sec. 2141. Short title.

Sec. 2142. Extension and modification of emergency unemployment compensation program.

Sec. 2143. Temporary extension of extended benefit provisions.

Sec. 2144. Additional extended unemployment benefits under the Railroad Unemployment Insurance Act.

#### PART 3—IMPROVING REEMPLOYMENT STRATEGIES UNDER THE EMERGENCY UNEMPLOYMENT COMPENSATION PROGRAM

Sec. 2161. Improved work search for the long-term unemployed.

Sec. 2162. Reemployment services and reemployment and eligibility assessment activities.

Sec. 2163. State flexibility to support long-term unemployed workers with improved reemployment services.

Sec. 2164. Promoting program integrity through better recovery of overpayments.

Sec. 2165. Restore State flexibility to improve unemployment program solvency.

##### Subtitle C—Medicare Extensions; Other Health Provisions

#### PART 1—MEDICARE EXTENSIONS

Sec. 2201. Physician payment update.

Sec. 2202. Ambulance add-ons.

Sec. 2203. Medicare payment for outpatient therapy services.

Sec. 2204. Work geographic adjustment.

#### PART 2—OTHER HEALTH PROVISIONS

Sec. 2211. Qualifying individual (QI) program.

Sec. 2212. Extension of Transitional Medical Assistance (TMA).

Sec. 2213. Modification to requirements for qualifying for exception to Medicare prohibition on certain physician referrals for hospitals.

#### PART 3—OFFSETS

Sec. 2221. Adjustments to maximum thresholds for recapturing overpayments resulting from certain Federally-subsidized health insurance.

Sec. 2222. Prevention and Public Health Fund.

Sec. 2223. Parity in Medicare payments for hospital outpatient department evaluation and management office visit services.

Sec. 2224. Reduction of bad debt treated as an allowable cost.

Sec. 2225. Rebasement of State DSH allotments for fiscal year 2021.

##### Subtitle D—TANF Extension

Sec. 2301. Short title.

Sec. 2302. Extension of program.

Sec. 2303. Data standardization.

Sec. 2304. Spending policies for assistance under State TANF programs.

Sec. 2305. Technical corrections.

#### TITLE III—FLOOD INSURANCE REFORM

Sec. 3001. Short title.

Sec. 3002. Extensions.

Sec. 3003. Mandatory purchase.

Sec. 3004. Reforms of coverage terms.

Sec. 3005. Reforms of premium rates.

Sec. 3006. Technical Mapping Advisory Council.

Sec. 3007. FEMA incorporation of new mapping protocols.

Sec. 3008. Treatment of levees.

Sec. 3009. Privatization initiatives.

Sec. 3010. FEMA annual report on insurance program.

Sec. 3011. Mitigation assistance.

Sec. 3012. Notification to homeowners regarding mandatory purchase requirement applicability and rate phase-ins.

Sec. 3013. Notification to members of congress of flood map revisions and updates.

Sec. 3014. Notification and appeal of map changes; notification to communities of establishment of flood elevations.

Sec. 3015. Notification to tenants of availability of contents insurance.

Sec. 3016. Notification to policy holders regarding direct management of policy by FEMA.

Sec. 3017. Notice of availability of flood insurance and escrow in RESPA good faith estimate.

Sec. 3018. Reimbursement for costs incurred by homeowners and communities obtaining letters of map amendment or revision.

Sec. 3019. Enhanced communication with certain communities during map updating process.

Sec. 3020. Notification to residents newly included in flood hazard areas.

Sec. 3021. Treatment of swimming pool enclosures outside of hurricane season.

Sec. 3022. Information regarding multiple perils claims.

Sec. 3023. FEMA authority to reject transfer of policies.

Sec. 3024. Appeals.

Sec. 3025. Reserve fund.

Sec. 3026. CDBG eligibility for flood insurance outreach activities and community building code administration grants.

Sec. 3027. Technical corrections.

Sec. 3028. Requiring competition for national flood insurance program policies.

Sec. 3029. Studies of voluntary community-based flood insurance options.

Sec. 3030. Report on inclusion of building codes in floodplain management criteria.

Sec. 3031. Study on graduated risk.

Sec. 3032. Report on flood-in-progress determination.

Sec. 3033. Study on repaying flood insurance debt.

Sec. 3034. No cause of action.

Sec. 3035. Authority for the corps of engineers to provide specialized or technical services.

**TITLE IV—JUMPSTARTING OPPORTUNITY WITH BROADBAND SPECTRUM ACT OF 2011**

Sec. 4001. Short title.  
Sec. 4002. Definitions.  
Sec. 4003. Rule of construction.  
Sec. 4004. Enforcement.  
Sec. 4005. National security restrictions on use of funds and auction participation.

**Subtitle A—Spectrum Auction Authority**

Sec. 4101. Deadlines for auction of certain spectrum.  
Sec. 4102. 700 MHz public safety narrowband spectrum and guard band spectrum.  
Sec. 4103. General authority for incentive auctions.  
Sec. 4104. Special requirements for incentive auction of broadcast TV spectrum.  
Sec. 4105. Administration of auctions by Commission.  
Sec. 4106. Extension of auction authority.  
Sec. 4107. Unlicensed use in the 5 GHz band.

**Subtitle B—Advanced Public Safety Communications**

**PART 1—NATIONAL IMPLEMENTATION**

Sec. 4201. Licensing of spectrum to Administrator.  
Sec. 4202. National Public Safety Communications Plan.  
Sec. 4203. Plan administration.  
Sec. 4204. Initial funding for Administrator.  
Sec. 4205. Study on emergency communications by amateur radio and impediments to amateur radio communications.

**PART 2—STATE IMPLEMENTATION**

Sec. 4221. Negotiation and approval of contracts.  
Sec. 4222. State implementation grant program.  
Sec. 4223. State Implementation Fund.  
Sec. 4224. Grants to States for network build-out.  
Sec. 4225. Wireless facilities deployment.

**PART 3—PUBLIC SAFETY TRUST FUND**

Sec. 4241. Public Safety Trust Fund.

**PART 4—NEXT GENERATION 9-1-1 ADVANCEMENT ACT OF 2011**

Sec. 4261. Short title.  
Sec. 4262. Findings.  
Sec. 4263. Purposes.  
Sec. 4264. Definitions.  
Sec. 4265. Coordination of 9-1-1 implementation.  
Sec. 4266. Requirements for multi-line telephone systems.  
Sec. 4267. GAO study of State and local use of 9-1-1 service charges.  
Sec. 4268. Parity of protection for provision or use of Next Generation 9-1-1 services.  
Sec. 4269. Commission proceeding on autodialing.  
Sec. 4270. NHTSA report on costs for requirements and specifications of Next Generation 9-1-1 services.  
Sec. 4271. FCC recommendations for legal and statutory framework for Next Generation 9-1-1 services.

**Subtitle C—Federal Spectrum Relocation**

Sec. 4301. Relocation of and spectrum sharing by Federal Government stations.  
Sec. 4302. Spectrum Relocation Fund.  
Sec. 4303. National security and other sensitive information.

**Subtitle D—Telecommunications Development Fund**

Sec. 4401. No additional Federal funds.  
Sec. 4402. Independence of the Fund.

**TITLE V—OFFSETS**

**Subtitle A—Guarantee Fees**

Sec. 5001. Guarantee Fees.

**Subtitle B—Social Security Provisions**

Sec. 5101. Information for administration of Social Security provisions related to noncovered employment.

**Subtitle C—Child Tax Credit**

Sec. 5201. Social Security number required to claim the refundable portion of the child tax credit.

**Subtitle D—Eliminating Taxpayer Benefits for Millionaires**

Sec. 5301. Ending unemployment and supplemental nutrition assistance program benefits for millionaires.

**Subtitle E—Federal Civilian Employees**

**PART 1—RETIREMENT ANNUITIES**

Sec. 5401. Short title.  
Sec. 5402. Retirement contributions.  
Sec. 5403. Amendments relating to secure annuity employees.  
Sec. 5404. Annuity supplement.

**PART 2—FEDERAL WORKFORCE**

Sec. 5421. Extension of pay limitation for Federal employees.  
Sec. 5422. Reduction of discretionary spending limits to achieve savings from Federal employee provisions.  
Sec. 5423. Reduction of revised discretionary spending limits to achieve savings from Federal employee provisions.

**Subtitle F—Health Care Provisions**

Sec. 5501. Increase in applicable percentage used to calculate Medicare part B and part D premiums for high-income beneficiaries.  
Sec. 5502. Temporary adjustment to the calculation of Medicare part B and part D premiums.

**TITLE VI—MISCELLANEOUS PROVISIONS**

Sec. 6001. Repeal of certain shifts in the timing of corporate estimated tax payments.  
Sec. 6002. Repeal of requirement relating to time for remitting certain merchandise processing fees.  
Sec. 6003. Points of order in the Senate.  
Sec. 6004. PAYGO scorecard estimates.

**TITLE I—JOB CREATION INCENTIVES**

**Subtitle A—North American Energy Access**

**SEC. 1001. SHORT TITLE.**

This subtitle may be cited as the “North American Energy Security Act”.

**SEC. 1002. PERMIT FOR KEYSTONE XL PIPELINE.**

(a) **IN GENERAL.**—Except as provided in subsection (b), not later than 60 days after the date of enactment of this Act, the President, acting through the Secretary of State, shall grant a permit under Executive Order 13337 (3 U.S.C. 301 note; relating to issuance of permits with respect to certain energy-related facilities and land transportation crossings on the international boundaries of the United States) for the Keystone XL pipeline project application filed on September 19, 2008 (including amendments).

(b) **EXCEPTION.**—

(1) **IN GENERAL.**—The President shall not be required to grant the permit under subsection (a) if the President determines that the Keystone XL pipeline would not serve the national interest.

(2) **REPORT.**—If the President determines that the Keystone XL pipeline is not in the national interest under paragraph (1), the President shall, not later than 15 days after the date of the determination, submit to the Committee on Foreign Relations of the Senate, the Committee on Foreign Affairs of the House of Representa-

tives, the majority leader of the Senate, the minority leader of the Senate, the Speaker of the House of Representatives, and the minority leader of the House of Representatives a report that provides a justification for determination, including consideration of economic, employment, energy security, foreign policy, trade, and environmental factors.

(3) **EFFECT OF NO FINDING OR ACTION.**—If a determination is not made under paragraph (1) and no action is taken by the President under subsection (a) not later than 60 days after the date of enactment of this Act, the permit for the Keystone XL pipeline described in subsection (a) that meets the requirements of subsections (c) and (d) shall be in effect by operation of law.

(c) **REQUIREMENTS.**—The permit granted under subsection (a) shall require the following:

(1) The permittee shall comply with all applicable Federal and State laws (including regulations) and all applicable industrial codes regarding the construction, connection, operation, and maintenance of the United States facilities.

(2) The permittee shall obtain all requisite permits from Canadian authorities and relevant Federal, State, and local governmental agencies.

(3) The permittee shall take all appropriate measures to prevent or mitigate any adverse environmental impact or disruption of historic properties in connection with the construction, operation, and maintenance of the United States facilities.

(4) For the purpose of the permit issued under subsection (a) (regardless of any modifications under subsection (d))—

(A) the final environmental impact statement issued by the Secretary of State on August 26, 2011, satisfies all requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 106 of the National Historic Preservation Act (16 U.S.C. 470f);

(B) any modification required by the Secretary of State to the Plan described in paragraph (5)(A) shall not require supplementation of the final environmental impact statement described in that paragraph; and

(C) no further Federal environmental review shall be required.

(5) The construction, operation, and maintenance of the facilities shall be in all material respects similar to that described in the application described in subsection (a) and in accordance with—

(A) the construction, mitigation, and reclamation measures agreed to by the permittee in the Construction Mitigation and Reclamation Plan found in appendix B of the final environmental impact statement issued by the Secretary of State on August 26, 2011, subject to the modification described in subsection (d);

(B) the special conditions agreed to between the permittee and the Administrator of the Pipeline Hazardous Materials Safety Administration of the Department of Transportation found in appendix U of the final environmental impact statement described in subparagraph (A);

(C) if the modified route submitted by the Governor of Nebraska under subsection (d)(3)(B) crosses the Sand Hills region, the measures agreed to by the permittee for the Sand Hills region found in appendix H of the final environmental impact statement described in subparagraph (A); and

(D) the stipulations identified in appendix S of the final environmental impact statement described in subparagraph (A).

(6) Other requirements that are standard industry practice or commonly included in Federal permits that are similar to a permit issued under subsection (a).

(d) **MODIFICATION.**—The permit issued under subsection (a) shall require—

(1) the reconsideration of routing of the Keystone XL pipeline within the State of Nebraska;

(2) a review period during which routing within the State of Nebraska may be reconsidered and the route of the Keystone XL pipeline through the State altered with any accompanying modification to the Plan described in subsection (c)(5)(A); and

(3) the President—

(A) to coordinate review with the State of Nebraska and provide any necessary data and reasonable technical assistance material to the review process required under this subsection; and

(B) to approve the route within the State of Nebraska that has been submitted to the Secretary of State by the Governor of Nebraska.

(e) **EFFECT OF NO APPROVAL.**—If the President does not approve the route within the State of Nebraska submitted by the Governor of Nebraska under subsection (d)(3)(B) not later than 10 days after the date of submission, the route submitted by the Governor of Nebraska under subsection (d)(3)(B) shall be considered approved, pursuant to the terms of the permit described in subsection (a) that meets the requirements of subsection (c) and this subsection, by operation of law.

#### Subtitle B—EPA Regulatory Relief

##### SEC. 1101. SHORT TITLE.

This subtitle may be cited as the “EPA Regulatory Relief Act of 2011”.

##### SEC. 1102. LEGISLATIVE STAY.

(a) **ESTABLISHMENT OF STANDARDS.**—In place of the rules specified in subsection (b), and notwithstanding the date by which such rules would otherwise be required to be promulgated, the Administrator of the Environmental Protection Agency (in this subtitle referred to as the “Administrator”) shall—

(1) propose regulations for industrial, commercial, and institutional boilers and process heaters, and commercial and industrial solid waste incinerator units, subject to any of the rules specified in subsection (b)—

(A) establishing maximum achievable control technology standards, performance standards, and other requirements under sections 112 and 129, as applicable, of the Clean Air Act (42 U.S.C. 7412, 7429); and

(B) identifying non-hazardous secondary materials that, when used as fuels or ingredients in combustion units of such boilers, process heaters, or incinerator units are solid waste under the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.; commonly referred to as the “Resource Conservation and Recovery Act”) for purposes of determining the extent to which such combustion units are required to meet the emissions standards under section 112 of the Clean Air Act (42 U.S.C. 7412) or the emission standards under section 129 of such Act (42 U.S.C. 7429); and

(2) finalize the regulations on the date that is 15 months after the date of the enactment of this Act.

(b) **STAY OF EARLIER RULES.**—The following rules are of no force or effect, shall be treated as though such rules had never taken effect, and shall be replaced as described in subsection (a):

(1) “National Emission Standards for Hazardous Air Pollutants for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters”, published at 76 Fed. Reg. 15608 (March 21, 2011).

(2) “National Emission Standards for Hazardous Air Pollutants for Area Sources: Industrial, Commercial, and Institutional Boilers”, published at 76 Fed. Reg. 15554 (March 21, 2011).

(3) “Standards of Performance for New Stationary Sources and Emission Guidelines for Existing Sources: Commercial and Industrial Solid Waste Incineration Units”, published at 76 Fed. Reg. 15704 (March 21, 2011).

(4) “Identification of Non-Hazardous Secondary Materials That Are Solid Waste”, published at 76 Fed. Reg. 15456 (March 21, 2011).

(c) **INAPPLICABILITY OF CERTAIN PROVISIONS.**—With respect to any standard required

by subsection (a) to be promulgated in regulations under section 112 of the Clean Air Act (42 U.S.C. 7412), the provisions of subsections (g)(2) and (j) of such section 112 shall not apply prior to the effective date of the standard specified in such regulations.

##### SEC. 1103. COMPLIANCE DATES.

(a) **ESTABLISHMENT OF COMPLIANCE DATES.**—For each regulation promulgated pursuant to section 1012, the Administrator—

(1) shall establish a date for compliance with standards and requirements under such regulation that is, notwithstanding any other provision of law, not earlier than 5 years after the effective date of the regulation; and

(2) in proposing a date for such compliance, shall take into consideration—

(A) the costs of achieving emissions reductions;

(B) any non-air quality health and environmental impact and energy requirements of the standards and requirements;

(C) the feasibility of implementing the standards and requirements, including the time needed to—

(i) obtain necessary permit approvals; and

(ii) procure, install, and test control equipment;

(D) the availability of equipment, suppliers, and labor, given the requirements of the regulation and other proposed or finalized regulations of the Environmental Protection Agency; and

(E) potential net employment impacts.

(b) **NEW SOURCES.**—The date on which the Administrator proposes a regulation pursuant to section 1012(a)(1) establishing an emission standard under section 112 or 129 of the Clean Air Act (42 U.S.C. 7412, 7429) shall be treated as the date on which the Administrator first proposes such a regulation for purposes of applying the definition of a new source under section 112(a)(4) of such Act (42 U.S.C. 7412(a)(4)) or the definition of a new solid waste incineration unit under section 129(g)(2) of such Act (42 U.S.C. 7429(g)(2)).

(c) **RULE OF CONSTRUCTION.**—Nothing in this subtitle shall be construed to restrict or otherwise affect the provisions of paragraphs (3)(B) and (4) of section 112(i) of the Clean Air Act (42 U.S.C. 7412(i)).

##### SEC. 1104. ENERGY RECOVERY AND CONSERVATION.

Notwithstanding any other provision of law, and to ensure the recovery and conservation of energy consistent with the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.; commonly referred to as the “Resource Conservation and Recovery Act”), in promulgating rules under section 1012(a) addressing the subject matter of the rules specified in paragraphs (3) and (4) of section 1012(b), the Administrator—

(1) shall adopt the definitions of the terms “commercial and industrial solid waste incineration unit”, “commercial and industrial waste”, and “contained gaseous material” in the rule entitled “Standards of Performance for New Stationary Sources and Emission Guidelines for Existing Sources: Commercial and Industrial Solid Waste Incineration Units”, published at 65 Fed. Reg. 75338 (December 1, 2000); and

(2) shall identify non-hazardous secondary material to be solid waste only if—

(A) the material meets such definition of commercial and industrial waste; or

(B) if the material is a gas, it meets such definition of contained gaseous material.

##### SEC. 1105. OTHER PROVISIONS.

(a) **ESTABLISHMENT OF STANDARDS ACHIEVABLE IN PRACTICE.**—In promulgating rules under section 1012(a), the Administrator shall ensure that emissions standards for existing and new sources established under section 112 or 129 of the Clean Air Act (42 U.S.C. 7412, 7429), as applicable, can be met under actual operating

conditions consistently and concurrently with emission standards for all other air pollutants regulated by the rule for the source category, taking into account variability in actual source performance, source design, fuels, inputs, controls, ability to measure the pollutant emissions, and operating conditions.

(b) **REGULATORY ALTERNATIVES.**—For each regulation promulgated pursuant to section 1012(a), from among the range of regulatory alternatives authorized under the Clean Air Act (42 U.S.C. 7401 et seq.) including work practice standards under section 112(h) of such Act (42 U.S.C. 7412(h)), the Administrator shall impose the least burdensome, consistent with the purposes of such Act and Executive Order No. 13563 published at 76 Fed. Reg. 3821 (January 21, 2011).

#### Subtitle C—Extension of 100 Percent Expensing

##### SEC. 1201. EXTENSION OF ALLOWANCE FOR BONUS DEPRECIATION FOR CERTAIN BUSINESS ASSETS.

(a) **EXTENSION OF 100 PERCENT BONUS DEPRECIATION.**—

(1) **IN GENERAL.**—Paragraph (5) of section 168(k) of the Internal Revenue Code of 1986 is amended—

(A) by striking “January 1, 2012” each place it appears and inserting “January 1, 2013”, and

(B) by striking “January 1, 2013” and inserting “January 1, 2014”.

(2) **CONFORMING AMENDMENTS.**—

(A) The heading for paragraph (5) of section 168(k) of such Code is amended by striking “PRE-2012 PERIODS” and inserting “PRE-2013 PERIODS”.

(B) Clause (ii) of section 460(c)(6)(B) of such Code is amended to read as follows:

“(ii) is placed in service—

“(I) after December 31, 2009, and before January 1, 2011 (January 1, 2012, in the case of property described in section 168(k)(2)(B)), or

“(II) after December 31, 2011, and before January 1, 2013 (January 1, 2014, in the case of property described in section 168(k)(2)(B)).”

(3) **EFFECTIVE DATE.**—The amendments made by this subsection shall apply to property placed in service after December 31, 2011.

(b) **EXPANSION OF ELECTION TO ACCELERATE AMT CREDITS IN LIEU OF BONUS DEPRECIATION.**—

(1) **IN GENERAL.**—Paragraph (4) of section 168(k) of such Code is amended to read as follows:

“(4) **ELECTION TO ACCELERATE AMT CREDITS IN LIEU OF BONUS DEPRECIATION.**—

“(A) **IN GENERAL.**—If a corporation elects to have this paragraph apply for any taxable year—

“(i) paragraph (1) shall not apply to any eligible qualified property placed in service by the taxpayer in such taxable year,

“(ii) the applicable depreciation method used under this section with respect to such property shall be the straight line method, and

“(iii) the limitation imposed by section 53(c) for such taxable year shall be increased by the bonus depreciation amount which is determined for such taxable year under subparagraph (B).

“(B) **BONUS DEPRECIATION AMOUNT.**—For purposes of this paragraph—

“(i) **IN GENERAL.**—The bonus depreciation amount for any taxable year is an amount equal to 20 percent of the excess (if any) of—

“(I) the aggregate amount of depreciation which would be allowed under this section for eligible qualified property placed in service by the taxpayer during such taxable year if paragraph (1) applied to all such property, over

“(II) the aggregate amount of depreciation which would be allowed under this section for eligible qualified property placed in service by the taxpayer during such taxable year if paragraph (1) did not apply to any such property.”

The aggregate amounts determined under subclauses (I) and (II) shall be determined without regard to any election made under subsection (b)(2)(D), (b)(3)(D), or (g)(7) and without regard to subparagraph (A)(ii).

“(i) **LIMITATION.**—The bonus depreciation amount for any taxable year shall not exceed the lesser of—

“(I) the minimum tax credit under section 53(b) for such taxable year determined by taking into account only the adjusted minimum tax for taxable years ending before January 1, 2012 (determined by treating credits as allowed on a first-in, first-out basis), or

“(II) 50 percent of the minimum tax credit under section 53(b) for the first taxable year ending after December 31, 2011.

“(iii) **AGGREGATION RULE.**—All corporations which are treated as a single employer under section 52(a) shall be treated—

“(I) as 1 taxpayer for purposes of this paragraph, and

“(II) as having elected the application of this paragraph if any such corporation so elects.

“(C) **ELIGIBLE QUALIFIED PROPERTY.**—For purposes of this paragraph, the term ‘eligible qualified property’ means qualified property under paragraph (2), except that in applying paragraph (2) for purposes of this paragraph—

“(i) ‘March 31, 2008’ shall be substituted for ‘December 31, 2007’ each place it appears in subparagraph (A) and clauses (i) and (ii) of subparagraph (E) thereof,

“(ii) ‘April 1, 2008’ shall be substituted for ‘January 1, 2008’ in subparagraph (A)(iii)(I) thereof, and

“(iii) only adjusted basis attributable to manufacture, construction, or production—

“(I) after March 31, 2008, and before January 1, 2010, and

“(II) after December 31, 2010, and before January 1, 2013, shall be taken into account under subparagraph (B)(ii) thereof.

“(D) **CREDIT REFUNDABLE.**—For purposes of section 6401(b), the aggregate increase in the credits allowable under part IV of subchapter A for any taxable year resulting from the application of this paragraph shall be treated as allowed under subpart C of such part (and not any other subpart).

“(E) **OTHER RULES.**—

“(i) **ELECTION.**—Any election under this paragraph may be revoked only with the consent of the Secretary.

“(ii) **PARTNERSHIPS WITH ELECTING PARTNERS.**—In the case of a corporation making an election under subparagraph (A) and which is a partner in a partnership, for purposes of determining such corporation’s distributive share of partnership items under section 702—

“(I) paragraph (1) shall not apply to any eligible qualified property, and

“(II) the applicable depreciation method used under this section with respect to such property shall be the straight line method.

“(iii) **CERTAIN PARTNERSHIPS.**—In the case of a partnership in which more than 50 percent of the capital and profits interests are owned (directly or indirectly) at all times during the taxable year by one corporation (or by corporations treated as 1 taxpayer under subparagraph (B)(iii)), each partner shall be treated as having an amount equal to such partner’s allocable share of the eligible property for such taxable year (as determined under regulations prescribed by the Secretary).

“(iv) **SPECIAL RULE FOR PASSENGER AIRCRAFT.**—In the case of any passenger aircraft, the written binding contract limitation under paragraph (2)(A)(iii)(I) shall not apply for purposes of subparagraphs (B)(i)(I) and (C).”

(2) **EFFECTIVE DATE.**—The amendment made by this subsection shall apply to taxable years ending after December 31, 2011.

(3) **TRANSITIONAL RULE.**—In the case of a taxable year beginning before January 1, 2012, and ending after December 31, 2011, the bonus depreciation amount determined under paragraph (4) of section 168(k) of Internal Revenue Code of 1986 for such year shall be the sum of—

(A) such amount determined under such paragraph as in effect on the date before the date of enactment of this Act taking into account only property placed in service before January 1, 2012, and

(B) such amount determined under such paragraph as amended by this Act taking into account only property placed in service after December 31, 2011.

## **TITLE II—EXTENSION OF CERTAIN EXPIRING PROVISIONS AND RELATED MEASURES**

### **Subtitle A—Extension of Payroll Tax Reduction**

#### **SEC. 2001. EXTENSION OF TEMPORARY EMPLOYEE PAYROLL TAX REDUCTION THROUGH END OF 2012.**

Subsection (c) of section 601 of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 is amended by striking ‘calendar year 2011’ and inserting ‘calendar years 2011 and 2012’.

### **Subtitle B—Unemployment Compensation**

#### **SEC. 2101. SHORT TITLE.**

This subtitle may be cited as the ‘Extended Benefits, Reemployment, and Program Integrity Improvement Act’.

### **PART I—REFORMS OF UNEMPLOYMENT COMPENSATION TO PROMOTE WORK AND JOB CREATION**

#### **SEC. 2121. CONSISTENT JOB SEARCH REQUIREMENTS.**

(a) **IN GENERAL.**—Section 303(a) of the Social Security Act is amended by adding at the end the following:

“(11)(A) A requirement that, as a condition of eligibility for regular compensation for any week, a claimant must be able to work, available to work, and actively seeking work.

“(B) For purposes of this paragraph, the term ‘actively seeking work’ means, with respect to an individual, that such individual is actively engaged in a systematic and sustained effort to obtain work, as determined based on evidence (whether in electronic format or otherwise) satisfactory to the State agency charged with the administration of the State law.

“(C) The specific requirements that must be met in order to satisfy this paragraph shall be established by the State agency, and shall include at least the following:

“(i) Registration for employment services within 10 days after making initial application for regular compensation.

“(ii) Posting a resume, record, or other application for employment on such database as the State agency may require.

“(iii) Applying for work in such manner as the State agency may require.”

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall apply to weeks beginning after the end of the first session of the State legislature which begins after the date of enactment of this Act.

#### **SEC. 2122. PARTICIPATION IN REEMPLOYMENT SERVICES MADE A CONDITION OF BENEFIT RECEIPT.**

(a) **SOCIAL SECURITY ACT.**—Paragraph (10) of section 303(a) of the Social Security Act is amended to read as follows:

“(10)(A) A requirement that, as a condition of eligibility for regular compensation for any week and in addition to State work search requirements—

“(i) a claimant shall meet the minimum educational requirements set forth in subparagraph (B); and

“(ii) any claimant who has been referred to reemployment services shall participate in such services.

“(B) For purposes of this paragraph, an individual shall not be considered to have met the minimum educational requirements of this subparagraph unless such individual—

“(i) has earned a high school diploma;

“(ii) has earned the General Educational Development (GED) credential or other State-recognized equivalent (including by meeting recognized alternative standards for individuals with disabilities); or

“(iii) is enrolled and making satisfactory progress in classes leading to satisfaction of clause (i) or (ii).

“(C) The requirements of subparagraph (B) may be waived for an individual to the extent that the State agency charged with the administration of the State law deems such requirements to be unduly burdensome.”

(b) **INTERNAL REVENUE CODE OF 1986.**—Paragraph (8) of section 3304(a) of the Internal Revenue Code of 1986 is amended to read as follows:

“(8) compensation shall not be denied to an individual for any week in which the individual is enrolled and making satisfactory progress in education or training which has been previously approved by the State agency;”

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to weeks beginning after the end of the first session of the State legislature which begins after the date of enactment of this Act.

#### **SEC. 2123. STATE FLEXIBILITY TO PROMOTE THE REEMPLOYMENT OF UNEMPLOYED WORKERS.**

Title III of the Social Security Act (42 U.S.C. 501 and following) is amended by adding at the end the following:

##### **“DEMONSTRATION PROJECTS**

“SEC. 305. (a) The Secretary of Labor may enter into agreements, with up to 10 States per year that submit an application described in subsection (b), for the purpose of allowing such States to conduct demonstration projects to test and evaluate measures designed—

“(1) to expedite the reemployment of individuals who have established a benefit year and are otherwise eligible to claim unemployment compensation under the State law of such State; or

“(2) to improve the effectiveness of a State in carrying out its State law with respect to reemployment.

“(b) The Governor of any State desiring to conduct a demonstration project under this section shall submit an application to the Secretary of Labor. Any such application shall include—

“(1) a general description of the proposed demonstration project, including the authority (under the laws of the State) for the measures to be tested, as well as the period of time during which such demonstration project would be conducted;

“(2) if a waiver under subsection (c) is requested, a statement describing the specific aspects of the project to which the waiver would apply and the reasons why such waiver is needed;

“(3) a description of the goals and the expected programmatic outcomes of the demonstration project, including how the project would contribute to the objective described in subsection (a)(1), subsection (a)(2), or both;

“(4) assurances (accompanied by supporting analysis) that the demonstration project would operate for a period of at least 1 calendar year and not result in any increased net costs to the State’s account in the Unemployment Trust Fund;

“(5) a description of the manner in which the State—

“(A) will conduct an impact evaluation, using a methodology appropriate to determine the effects of the demonstration project; and

“(B) will determine the extent to which the goals and outcomes described in paragraph (3) were achieved; and

“(6) assurances that the State will provide any reports relating to the demonstration project, after its approval, as the Secretary of Labor may require.

“(c) The Secretary of Labor may waive any of the requirements of section 3304(a)(4) of the Internal Revenue Code of 1986 or of paragraph (1) or (5) of section 303(a), to the extent and for the period the Secretary of Labor considers necessary to enable the State to carry out a demonstration project under this section.

“(d) A demonstration project under this section—

“(1) may be commenced any time after the date of enactment of this section;

“(2) may not be approved for a period of time greater than 3 years, subject to extension upon request of the Governor of the State involved for such additional period as the Secretary of Labor may agree to, except that in no event may a demonstration project under this section be conducted after the end of the 5-year period beginning on the date of enactment of this section; and

“(3) may not be extended without sufficient data to show that the project—

“(A) did not increase the net cost to the State's account in the Unemployment Trust Fund during the initial demonstration period; and

“(B) may be reasonably projected not to increase the net cost to the State's account in the Unemployment Trust Fund during the extended period requested.

“(e) The Secretary of Labor shall, in the case of any State for which an application is submitted under subsection (b)—

“(1) notify the State as to whether such application has been approved or denied within 30 days after receipt of a complete application; and

“(2) provide public notice of the decision within 10 days after providing notification to the State in accordance with paragraph (1).

Public notice under paragraph (2) may be provided through the Internet or other appropriate means. Any application under this section that has not been denied within the 30-day period described in paragraph (1) shall be deemed approved, and public notice of any approval under this sentence shall be provided within 10 days thereafter.

“(f) The Secretary of Labor may terminate a demonstration project under this section if the Secretary determines that the State has violated the substantive terms or conditions of the project.

“(g) Funding certified under section 302(a) may be used for an approved demonstration project.”.

#### **SEC. 2124. ASSISTANCE AND GUIDANCE IN IMPLEMENTING SELF-EMPLOYMENT ASSISTANCE PROGRAMS.**

(a) *IN GENERAL.*—For purposes of assisting States in establishing, improving, and administering self-employment assistance programs, the Secretary shall—

(1) develop model language that may be used by States in enacting such programs, as well as periodically review and revise such model language;

(2) provide technical assistance and guidance in establishing, improving, and administering such programs; and

(3) establish reporting requirements for States in regard to such programs, including reporting on—

(A) the number of businesses and jobs created, both directly and indirectly, by self-employment assistance programs; and

(B) the estimated Federal and State tax revenues collected from such businesses and their employees.

(b) *MODEL LANGUAGE AND GUIDANCE.*—The model language, guidance, and reporting requirements developed by the Secretary pursuant to subsection (a) shall—

(1) allow sufficient flexibility for States and participating individuals; and

(2) ensure accountability and program integrity.

(c) *CONSULTATION.*—In developing the model language, guidance, and reporting requirements pursuant to subsection (a), the Secretary shall consult with employers, labor organizations, State agencies, and other relevant program experts.

(d) *ENTREPRENEURIAL TRAINING PROGRAMS.*—The Secretary shall coordinate with the Administrator of the Small Business Administration to ensure that adequate funding is reserved and made available for the provision of entrepreneurial training to individuals participating in self-employment assistance programs.

#### **SEC. 2125. IMPROVING PROGRAM INTEGRITY BY BETTER RECOVERY OF OVERPAYMENTS.**

(a) *USE OF UNEMPLOYMENT COMPENSATION TO REPAY OVERPAYMENTS.*—Section 3304(a)(4)(D) of the Internal Revenue Code of 1986 and section 303(g)(1) of the Social Security Act are amended by striking “may” and inserting “shall”.

(b) *USE OF UNEMPLOYMENT COMPENSATION TO REPAY FEDERAL ADDITIONAL COMPENSATION OVERPAYMENTS.*—Section 303(g)(3) of the Social Security Act is amended by inserting “Federal additional compensation,” after “trade adjustment allowances,”.

(c) *EFFECTIVE DATE.*—The amendments made by this section shall apply to weeks beginning after the end of the first session of the State legislature which begins after the date of enactment of this Act.

#### **SEC. 2126. DATA STANDARDIZATION FOR IMPROVED DATA MATCHING.**

(a) *IN GENERAL.*—Title IX of the Social Security Act is amended by adding at the end the following:

##### **“DATA STANDARDIZATION FOR IMPROVED DATA MATCHING**

##### **“Standard Data Elements**

“SEC. 911. (a)(1) The Secretary of Labor, in consultation with an interagency work group which shall be established by the Office of Management and Budget, and considering State and employer perspectives, shall, by rule, designate standard data elements for any category of information required under title III or this title.

“(2) The standard data elements designated under paragraph (1) shall, to the extent practicable, be nonproprietary and interoperable.

“(3) In designating standard data elements under this subsection, the Secretary of Labor shall, to the extent practicable, incorporate—

“(A) interoperable standards developed and maintained by an international voluntary consensus standards body, as defined by the Office of Management and Budget, such as the International Organization for Standardization;

“(B) interoperable standards developed and maintained by intergovernmental partnerships, such as the National Information Exchange Model; and

“(C) interoperable standards developed and maintained by Federal entities with authority over contracting and financial assistance, such as the Federal Acquisition Regulations Council.

##### **“Data Standards for Reporting**

“(b)(1) The Secretary of Labor, in consultation with an interagency work group established by the Office of Management and Budget, and considering State and employer perspectives, shall, by rule, designate data reporting standards to govern the reporting required under title III or this title.

“(2) The data reporting standards required by paragraph (1) shall, to the extent practicable—

“(A) incorporate a widely-accepted, non-proprietary, searchable, computer-readable format;

“(B) be consistent with and implement applicable accounting principles; and

“(C) be capable of being continually upgraded as necessary.

“(3) In designating reporting standards under this subsection, the Secretary of Labor shall, to the extent practicable, incorporate existing non-proprietary standards, such as the eXtensible Business Reporting Language.”.

(b) *EFFECTIVE DATE.*—The amendment made by this section shall apply after September 30, 2012.

#### **SEC. 2127. DRUG TESTING OF APPLICANTS.**

Section 303 of the Social Security Act is amended by adding at the end the following:

“(k)(1) Nothing in this Act or any other provision of Federal law shall be considered to prevent a State from—

“(A) testing an applicant for unemployment compensation for the unlawful use of controlled substances as a condition for receiving such compensation; or

“(B) denying such compensation to such applicant on the basis of the result of such testing.

“(2) For purposes of this subsection—

“(A) the term ‘unemployment compensation’ has the meaning given such term in subsection (d)(2)(A); and

“(B) the term ‘controlled substance’ has the meaning given such term in section 102 of the Controlled Substances Act (21 U.S.C. 802).”.

#### **PART 2—PROVISIONS RELATING TO EXTENDED BENEFITS**

##### **SEC. 2141. SHORT TITLE.**

This part may be cited as the “Unemployment Benefits Extension Act of 2011”.

##### **SEC. 2142. EXTENSION AND MODIFICATION OF EMERGENCY UNEMPLOYMENT COMPENSATION PROGRAM.**

(a) *EXTENSION.*—Section 4007 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended—

(1) in subsection (a)—

(A) by striking “Except as provided in subsection (b), an” and inserting “An”; and

(B) by striking “January 3, 2012” and inserting “January 31, 2013”; and

(2) by amending subsection (b) to read as follows:

“(b) *TERMINATION.*—No compensation under this title shall be payable for any week subsequent to the last week described in subsection (a).”.

(b) *MODIFIED TIERS OF EMERGENCY UNEMPLOYMENT COMPENSATION.*—

(1) *IN GENERAL.*—Section 4002 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended by striking subsections (b) through (e) and inserting the following:

“(b) *FIRST-TIER EMERGENCY UNEMPLOYMENT COMPENSATION.*—

“(1) *IN GENERAL.*—The amount established in an account under subsection (a) shall be an amount (in this title referred to as ‘first-tier emergency unemployment compensation’) equal to the lesser of—

“(A) 80 percent of the total amount of regular compensation (including dependents’ allowances) payable to the individual during the individual’s benefit year under the State law; or

“(B) 20 times the individual’s average weekly benefit amount for the benefit year.

“(2) *WEEKLY BENEFIT AMOUNT.*—For purposes of this subsection, an individual’s weekly benefit amount for any week is the amount of regular compensation (including dependents’ allowances) under the State law payable to such individual for such week for total unemployment.

“(c) *SECOND-TIER EMERGENCY UNEMPLOYMENT COMPENSATION.*—

“(1) IN GENERAL.—If, at the time that the amount established in an individual’s account under subsection (b)(1) is exhausted or at any time thereafter, such individual’s State is in an extended benefit period (as determined under paragraph (2)), such account shall be augmented by an amount (in this title referred to as ‘second-tier emergency unemployment compensation’) equal to the lesser of—

“(A) 50 percent of the total amount of regular compensation (including dependents’ allowances) payable to the individual during the individual’s benefit year under the State law; or

“(B) 13 times the individual’s average weekly benefit amount (as determined under subsection (b)(2)) for the benefit year.

“(2) EXTENDED BENEFIT PERIOD.—For purposes of paragraph (1), a State shall be considered to be in an extended benefit period, as of any given time, if—

“(A) such a period would then be in effect for such State, under the Federal-State Extended Unemployment Compensation Act of 1970, if section 203(d) of such Act—

“(i) were applied by substituting ‘4’ for ‘5’ each place it appears; and

“(ii) did not include the requirement under paragraph (1)(A) thereof; or

“(B) such a period would then be in effect for such State, under the Federal-State Extended Unemployment Compensation Act of 1970, if—

“(i) section 203(f) of such Act were applied to such State (regardless of whether or not the State by law had provided for such application); and

“(ii) such section 203(f)—

“(I) were applied by substituting ‘6.0’ for ‘6.5’ in paragraph (1)(A)(i) thereof; and

“(II) did not include the requirement under paragraph (1)(A)(ii) thereof.

“(3) LIMITATION.—The account of an individual may be augmented not more than once under this subsection.”.

(2) TECHNICAL AND CONFORMING AMENDMENTS.—Section 4002 of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note), as amended by paragraph (1), is further amended—

(A) by striking subsection (f); and

(B) by redesignating subsection (g) as subsection (d).

(C) ORDER OF PAYMENTS REQUIREMENT.—

(1) IN GENERAL.—Section 4001(e) of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note) is amended to read as follows:

“(e) COORDINATION RULE.—An agreement under this section shall not apply (or shall cease to apply) with respect to a State upon a determination by the Secretary that, under the State law or other applicable rules of such State, the payment of extended compensation for which an individual is otherwise eligible may or must be deferred until after the payment of any emergency unemployment compensation under section 4002, as amended by the Unemployment Benefits Extension Act of 2011, for which the individual is concurrently eligible.”.

(2) TECHNICAL AND CONFORMING AMENDMENTS.—Section 4001(b)(2) of such Act is amended—

(A) by striking “or extended compensation”; and

(B) by striking “(except as provided under subsection (e))”.

(d) FUNDING.—Section 4004(e)(1) of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note) is amended—

(1) in subparagraph (F), by striking “and” at the end; and

(2) by inserting after subparagraph (G) the following:

“(H) the amendments made by section 2302 of the Unemployment Benefits Extension Act of 2011; and”.

(e) EFFECTIVE DATES; TRANSITION RULES RELATING TO SUBSECTION (b).—

(1) IN GENERAL.—The amendments made by—

(A) subsection (a) shall take effect as if included in the enactment of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (Public Law 111–312);

(B) subsections (b) and (c) shall take effect on December 28, 2011, and shall apply with respect to weeks of unemployment beginning after that date; and

(C) subsection (d) shall take effect on the date of enactment of this Act.

(2) TRANSITION RULES FOR THE APPLICATION OF THE AMENDMENTS MADE BY SUBSECTION (b) IN THE CASE OF INDIVIDUALS HAVING RESIDUAL AMOUNTS IN THEIR ACCOUNT.—

(A) EXHAUSTION OF RESIDUAL AMOUNTS.—In the case of an individual who, as of any time during the last week ending before January 3, 2012, has amounts remaining in an account established under section 4002 of the Supplemental Appropriations Act, 2008, emergency unemployment compensation shall continue to be payable to such individual from the amounts so remaining, subject to section 4007(b) of such Act, as amended by this subtitle.

(B) NON-AUGMENTATION RULE.—

(i) IN GENERAL.—Except as provided in clause (ii), after exhausting the amounts remaining in the individual’s account under subparagraph (A), no augmentation (or further augmentation) to such account may be made.

(ii) EXCEPTION.—In the case of an individual whose residual amounts (as described in subparagraph (A)) represent amounts that were established in such individual’s account under section 4002(b) of the Supplemental Appropriations Act, 2008, as in effect before the date of enactment of this Act, no augmentation to such account may be made except in accordance with section 4002(c) of such Act, as amended by this subtitle.

(3) TRANSITION RULES FOR THE APPLICATION OF THE AMENDMENTS MADE BY SUBSECTION (b) IN THE CASE OF INDIVIDUALS BETWEEN TIERS.—

(A) IN GENERAL.—In the case of an individual for whom an emergency unemployment compensation account has been established under section 4002 of the Supplemental Appropriations Act, 2008, as in effect before the date of enactment of this Act, but who is not covered by paragraph (2), no augmentation (or further augmentation) to such account shall be allowable, except as provided in subparagraph (B).

(B) EXCEPTION.—

(i) RULE.—In the case of a first-tier exhaustee, augmentation shall be allowable in a manner similar to that described in paragraph (2)(B)(ii).

(ii) DEFINITION.—For purposes of this subparagraph, the term “first-tier exhaustee” means an individual—

(I) who is described in subparagraph (A); and

(II) whose emergency unemployment compensation account—

(aa) has been exhausted of amounts described in section 4002(b) of the Supplemental Appropriations Act, 2008, as in effect before the enactment of this Act; but

(bb) has never been augmented.

(4) WEEK DEFINED.—For purposes of this subsection, the term “week” has the meaning given such term under section 4006 of the Supplemental Appropriations Act, 2008.

SEC. 2143. TEMPORARY EXTENSION OF EXTENDED BENEFIT PROVISIONS.

(a) IN GENERAL.—Section 2005 of the Assistance for Unemployed Workers and Struggling Families Act, as contained in Public Law 111–5 (26 U.S.C. 3304 note), is amended—

(1) by striking “January 4, 2012” each place it appears and inserting “January 31, 2013”; and

(2) in subsection (c), by striking “June 11, 2012” and inserting “January 31, 2013”.

(b) EXTENSION OF MATCHING FOR STATES WITH NO WAITING WEEK.—Section 5 of the Unemployment Compensation Extension Act of 2008 (Public Law 110–449; 26 U.S.C. 3304 note) is amended by striking “June 10, 2012” and inserting “January 31, 2013”.

(c) EXTENSION OF MODIFICATION OF INDICATORS UNDER THE EXTENDED BENEFIT PROGRAM.—Section 203 of the Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) is amended—

(1) in subsection (d), by striking “December 31, 2011” and inserting “January 31, 2013”; and

(2) in subsection (f)(2), by striking “December 31, 2011” and inserting “January 31, 2013”.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the enactment of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (Public Law 111–312; 26 U.S.C. 3304 note).

SEC. 2144. ADDITIONAL EXTENDED UNEMPLOYMENT BENEFITS UNDER THE RAILROAD UNEMPLOYMENT INSURANCE ACT.

(a) EXTENSION.—Section 2(c)(2)(D)(iii) of the Railroad Unemployment Insurance Act, as added by section 2006 of the American Recovery and Reinvestment Act of 2009 (Public Law 96 111–5) and as amended by section 9 of the Worker, Homeownership, and Business Assistance Act of 2009 (Public Law 111–92) and section 505 of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (Public Law 111–312), is amended—

(1) by striking “June 30, 2011” and inserting “June 30, 2012”; and

(2) by striking “December 31, 2011” and inserting “January 31, 2013”.

(b) CLARIFICATION ON AUTHORITY TO USE FUNDS.—Funds appropriated under either the first or second sentence of clause (iv) of section 2(c)(2)(D) of the Railroad Unemployment Insurance Act shall be available to cover the cost of additional extended unemployment benefits provided under such section 2(c)(2)(D) by reason of the amendments made by subsection (a) as well as to cover the cost of such benefits provided under such section 2(c)(2)(D), as in effect on the day before the date of enactment of this Act.

PART 3—IMPROVING REEMPLOYMENT STRATEGIES UNDER THE EMERGENCY UNEMPLOYMENT COMPENSATION PROGRAM

SEC. 2161. IMPROVED WORK SEARCH FOR THE LONG-TERM UNEMPLOYED.

(a) IN GENERAL.—Section 4001(b) of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note) is amended—

(1) by striking “and” at the end of paragraph (2);

(2) by striking the period at the end of paragraph (3) and inserting “; and”; and

(3) by adding at the end the following:

“(4) are able to work, available to work, and actively seeking work.”.

(b) ACTIVELY SEEKING WORK.—Section 4001 of such Act is amended by adding at the end the following:

“(h) ACTIVELY SEEKING WORK.—

“(1) IN GENERAL.—For purposes of subsection (b)(4), the term ‘actively seeking work’ means, with respect to any individual, that such individual is actively engaged in a systematic and sustained effort to obtain work, as determined based on evidence (whether in electronic format or otherwise) satisfactory to the State agency charged with the administration of the State law.

“(2) SPECIFIC REQUIREMENTS.—The specific requirements that must be met in order to satisfy subsection (b)(4), to the extent that it relates to actively seeking work, shall be established by the State agency, and shall include the following:

“(A) Registration for employment services within 30 days after the date on which occurs whichever of the following events occurs first, in the case of the individual referred to in paragraph (1):

“(i) The submission of the claim on the basis of which amounts described in section 4002(b) (as amended by the Unemployment Benefits Extension Act of 2011) first become payable to such individual.

“(ii) The submission of the claim on the basis of which amounts described in section 4002(c) (as amended by the Unemployment Benefits Extension Act of 2011) first become payable to such individual.

“(B) Posting a resume, record, or other application for employment on such database as the State agency may require.

“(C) Applying, in such manner as the State agency may require, for work.”.

**SEC. 2162. REEMPLOYMENT SERVICES AND REEMPLOYMENT AND ELIGIBILITY ASSESSMENT ACTIVITIES.**

(a) IN GENERAL.—

(1) PROVISION OF SERVICES AND ACTIVITIES.—Section 4001 of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note) is amended by inserting after subsection (h) (as added by section 2161) the following:

“(i) PROVISION OF SERVICES AND ACTIVITIES.—

“(1) IN GENERAL.—An agreement under this section shall require the following:

“(A) The State which is party to such agreement shall provide reemployment services and reemployment and eligibility assessment activities to each individual—

“(i) who, on or after the 30th day after the date of enactment of the Extended Benefits, Reemployment, and Program Integrity Improvement Act, begins receiving amounts described in subsection (b) and (c) of 4002 of the Supplemental Appropriations Act of 2008, as amended by the Extended Benefits, Reemployment, and Program Integrity Improvement Act; and

“(ii) while such individual continues to receive emergency unemployment compensation under this title.

“(B) As a condition of eligibility for emergency unemployment compensation for any week—

“(i) a claimant shall meet the minimum educational requirements set forth in section 303(a)(10)(B) of the Social Security Act;

“(ii) a claimant who has been duly referred to reemployment services shall participate in such services; and

“(iii) a claimant shall be actively seeking work (determined applying subsection (h)).

“(2) DESCRIPTION OF SERVICES AND ACTIVITIES.—The reemployment services and in-person reemployment and eligibility assessment activities provided to individuals receiving emergency unemployment compensation described in paragraph (1)—

“(A) shall include—

“(i) the provision of labor market and career information;

“(ii) an assessment of the skills of the individual;

“(iii) orientation to the services available through the one-stop centers established under title I of the Workforce Investment Act of 1998; and

“(iv) review of the eligibility of the individual for emergency unemployment compensation relating to the job search activities of the individual; and

“(B) may include the provision of—

“(i) comprehensive and specialized assessments;

“(ii) individual and group career counseling;

“(iii) training services;

“(iv) additional reemployment services; and

“(v) job search counseling and the development or review of an individual reemployment

plan that includes participation in job search activities and appropriate workshops.

“(3) PARTICIPATION REQUIREMENT.—As a condition of continuing eligibility for emergency unemployment compensation for any week, an individual who has been referred to reemployment services or reemployment and eligibility assessment activities under this subsection shall participate in such services or activities, unless the State agency responsible for the administration of State unemployment compensation law determines that—

“(A) such individual has completed participating in such services or activities; or

“(B) there is justifiable cause for failure to participate or to complete participating in such services or activities, as determined in accordance with guidance to be issued by the Secretary.”.

(2) ISSUANCE OF GUIDANCE.—Not later than 30 days after the date of enactment of this Act, the Secretary shall issue guidance on the implementation of the reemployment services and reemployment and eligibility assessment activities required to be provided under the amendment made by paragraph (1).

(b) FUNDING.—Section 4002 of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note), as amended by section 2142(b), is further amended by adding at the end the following:

“(e) OPTIONAL FUNDING FOR REEMPLOYMENT SERVICES AND REEMPLOYMENT AND ELIGIBILITY ASSESSMENT ACTIVITIES.—In order to carry out section 4001(i)(2), a State may withhold up to \$5 from any amount otherwise payable to an individual under this title for any week.”.

**SEC. 2163. STATE FLEXIBILITY TO SUPPORT LONG-TERM UNEMPLOYED WORKERS WITH IMPROVED REEMPLOYMENT SERVICES.**

Title IV of the Supplemental Appropriations Act, 2008 (Public Law 110–252; 26 U.S.C. 3304 note) is amended by adding at the end the following:

**“DEMONSTRATION PROJECTS**

“SEC. 4008. (a) The Secretary may enter into an agreement under this section, with any State which has an agreement with the Secretary under section 4001 and which submits an application under subsection (b), for the purpose of allowing such State to divert, in any month, a number of emergency unemployment compensation beneficiaries not to exceed 20 percent of the total number of beneficiaries, attributable to such State and receiving emergency unemployment compensation for the first week of such month, to conduct demonstration projects to test and evaluate measures designed—

“(1) to expedite the reemployment of individuals who establish initial eligibility for unemployment compensation under the State law of such State; or

“(2) to improve the effectiveness of a State in carrying out its State law with respect to reemployment.

“(b) The Governor of any State desiring to conduct a demonstration project under this section shall submit an application to the Secretary. Any such application shall include—

“(1) a description of the activities to be carried out by the State to assist in the reemployment of eligible individuals to be served in accordance with this part, including activities the State intends to carry out and an estimate of the amounts the State intends to allocate to those respective activities;

“(2) a description of the performance outcomes to be achieved by the State through the activities carried out under this part, including the employment outcomes to be achieved by participants and the processes the State will use to track performance, consistent with guidance provided by the Secretary regarding such outcomes and processes;

“(3) the timelines for implementation of the activities described in the application and the number of emergency unemployment compensation claimants expected to be enrolled in such activities for each quarter;

“(4) assurances that the State will participate in the evaluation activities carried out by the Secretary under this section;

“(5) assurances that the State will provide appropriate reemployment services to individuals participating in the demonstration project;

“(6) assurances that the State will report such information as the Secretary may require relating to fiscal, performance and other matters, including employment outcomes;

“(7) the specific aspects of the project to which the waiver would apply and the reasons why such waiver is needed;

“(8) a description of the goals and the expected programmatic outcomes of the demonstration project, including how the project would contribute to the objective described in subsection (a)(1), subsection (a)(2), or both;

“(9) assurances (accompanied by supporting analysis) that the demonstration project would not result in any increased net costs to the emergency unemployment compensation program;

“(10) a description of the manner in which the State—

“(A) will conduct an impact evaluation, using a control or comparison group or other valid methodology, of the demonstration project; and

“(B) will determine the extent to which the goals and outcomes described in paragraph (8) were achieved; and

“(11) assurances that the State will provide any reports relating to the demonstration project, after its approval, as the Secretary may require.

“(c) Activities that may be pursued under a demonstration project under this section, including—

“(1) subsidies for employer-provided training, such as wage subsidies;

“(2) work sharing or short-time compensation; and

“(3) enhanced employment strategies, which may include services such as—

“(A) assessments, counseling, and other intensive services that are provided by staff on a one-to-one basis and may be customized to meet the reemployment needs of emergency unemployment compensation claimants and individuals;

“(B) comprehensive assessments designed to identify alternative career paths;

“(C) case management;

“(D) reemployment services that are provided more frequently and more intensively than such reemployment services have previously been provided by the State;

“(E) self-employment assistance programs;

“(F) services that are designed to enhance communication skills, interviewing skills, and other skills that would assist in obtaining reemployment;

“(G) direct disbursements to employers who hire individuals receiving emergency unemployment compensation to cover part of the cost of wages that exceed the unemployed individual's prior benefit level; and

“(H) other innovative activities which use a strategy that is different from the reemployment strategies described above and which are designed to facilitate the reemployment of individuals receiving emergency unemployment compensation.

“(d) The Secretary shall, in the case of any State for which an application is submitted under subsection (b)—

“(1) notify the State as to whether such application has been approved or denied within 30 days after receipt of a complete application; and

“(2) provide public notice of the decision within 10 days after providing notification to the State in accordance with paragraph (1).

Public notice under paragraph (2) may be provided through the Internet or other appropriate means. Any application under this section that has not been denied within such 30 days shall be deemed approved, and public notice of any approval under this sentence shall be provided within 10 days thereafter.

“(e) The Secretary may terminate a demonstration project under this section if the Secretary determines that the State has violated the substantive terms or conditions of the project.

“(f) Authority to carry out a demonstration project under this section shall terminate with respect to any State after compensation under this title ceases to be payable with respect to such State.”.

**SEC. 2164. PROMOTING PROGRAM INTEGRITY THROUGH BETTER RECOVERY OF OVERPAYMENTS.**

Section 4005(c)(1) of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended—

(1) by striking “may” and inserting “shall”;

(2) by striking “exceed” and inserting “be less than”;

(3) by striking “made.” and inserting “made, unless the amount to be repaid is less than 50 percent of the weekly benefit amount.”.

**SEC. 2165. RESTORE STATE FLEXIBILITY TO IMPROVE UNEMPLOYMENT PROGRAM SOLVENCY.**

Subsection (g) of section 4001 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is repealed.

**Subtitle C—Medicare Extensions; Other Health Provisions**

**PART 1—MEDICARE EXTENSIONS**

**SEC. 2201. PHYSICIAN PAYMENT UPDATE.**

(a) IN GENERAL.—Section 1848(d) of the Social Security Act (42 U.S.C. 1395w-4(d)) is amended by adding at the end the following new paragraph:

“(13) UPDATE FOR 2012 AND 2013.—

“(A) IN GENERAL.—Subject to paragraphs (7)(B), (8)(B), (9)(B), (10)(B), (11)(B), and (12)(B), in lieu of the update to the single conversion factor established in paragraph (1)(C) that would otherwise apply for 2012 and for 2013, the update to the single conversion factor shall be 1.0 percent for the year.

“(B) NO EFFECT ON COMPUTATION OF CONVERSION FACTOR FOR 2014 AND SUBSEQUENT YEARS.—The conversion factor under this subsection shall be computed under paragraph (1)(A) for 2014 and subsequent years as if subparagraph (A) had never applied.”.

(b) MANDATED STUDIES ON PHYSICIAN PAYMENT REFORM.—

(1) STUDY BY SECRETARY ON OPTIONS FOR BUNDLED OR EPISODE-BASED PAYMENT.—

(A) IN GENERAL.—The Secretary of Health and Human Services shall conduct a study that examines options for bundled or episode-based payments, to cover physicians' services currently paid under the physician fee schedule under section 1848 of the Social Security Act (42 U.S.C. 1395w-4), for one or more prevalent chronic conditions (such as cancer, diabetes, and congestive heart failure) or episodes of care for one or more major procedures (such as medical device implantation). In conducting the study the Secretary shall consult with medical professional societies and other relevant stakeholders. The study shall include an examination of related private payer payment initiatives.

(B) REPORT.—Not later than January 1, 2013, the Secretary shall submit to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance in the Senate a report on the study conducted under this paragraph. The Secretary shall include in the report recommendations on suitable alternative payment options for services paid under such fee schedule and on associated

implementation requirements (such as timelines, operational issues, and interactions with other payment reform initiatives).

(2) GAO STUDY OF PRIVATE PAYER INITIATIVES.—

(A) IN GENERAL.—The Comptroller General of the United States shall conduct a study that examines initiatives of private entities offering or administering health insurance coverage, group health plans, or other private health benefit plans to base or adjust physician payment rates under such coverage or plans for performance on quality and efficiency as well as demonstration of care delivery improvement activities (such as adherence to evidence based guidelines and patient shared decision making programs). In conducting such study, the Comptroller General shall consult, to the extent appropriate, with medical professional societies and other relevant stakeholders.

(B) REPORT.—Not later than January 1, 2013, the Comptroller General shall submit to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance in the Senate a report on the study conducted under this paragraph. Such report shall include an assessment of applicability of the payer initiatives described in subparagraph (A) to the Medicare program and recommendations on modifications to existing Medicare performance-based payment initiatives.

(3) MEDPAC STUDY OF ALIGNING PAYMENT INCENTIVES.—Not later than March 1, 2013, the Medicare Payment Advisory Commission shall conduct a study, and submit to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance in the Senate a report, that examines the feasibility of aligning private payer quality and efficiency programs with those in the Medicare program. In conducting such study, the Medicare Payment Advisory Commission shall consult with medical professional societies and other relevant stakeholders. Such report shall include recommendations on how to achieve such alignment.

(4) COLLABORATION.—The Secretary, Comptroller General, and Commission may collaborate to the extent beneficial in conducting their respective studies and submitting their respective reports under this subsection.

(c) STUDY AND REVIEW OF MEASURES TO IMPROVE PHYSICIAN PAYMENTS, HEALTH OUTCOMES, AND EFFICIENCY.—During the 112th Congress, the Committees on Energy and Commerce and Ways and Means of the House of Representatives and the Committee on Finance in the Senate shall each study and review value-based measures and practice arrangements which may improve health outcomes and efficiency in the Medicare program to the end of replacing the Medicare sustainable growth rate in a fiscally responsible manner and establishing a sustainable payment system. In conducting such study and review, the committees shall solicit comments from stakeholder physician groups, including State medical associations.

**SEC. 2202. AMBULANCE ADD-ONS.**

(a) GROUND AMBULANCE.—Section 1834(l)(13)(A) of the Social Security Act (42 U.S.C. 1395m(l)(13)(A)), as amended by section 106(a) of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended—

(1) in the matter preceding clause (i), by striking “2012” and inserting “2013”; and

(2) in each of clauses (i) and (ii), by striking “2012” and inserting “2013” each place it appears.

(b) SUPER RURAL AMBULANCE.—Section 1834(l)(12)(A) of the Social Security Act (42 U.S.C. 1395m(l)(12)(A)), as amended by section 106(c) of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended in

the first sentence by striking “2012” and inserting “2013”.

(c) GAO REPORT UPDATE.—Not later than October 1, 2012, the Comptroller General of the United States shall update the GAO report GAO-07-383 (relating to Ambulance Providers: Costs and Expected Medicare Margins Vary Greatly) to reflect current costs for ambulance providers.

(d) MEDPAC REPORT.—The Medicare Payment Advisory Commission shall conduct a study of—

(1) the appropriateness of the add-on payments for ambulance providers under paragraphs (12)(A) and (13)(A) of section 1834(l) of the Social Security Act (42 U.S.C. 1395m(l));

(2) the effect these additional payments have on the Medicare margins of ambulance providers; and

(3) whether there is a need to reform the Medicare ambulance fee schedule under such section and, if so, what should such reforms be, including rolling the add-on payments into the base rate.

Not later than July 1, 2012, the Commission shall submit to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance of the Senate a report on such study and shall include in the report such recommendations as the Commission deems appropriate.

(e) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply to ambulance services furnished on or after January 1, 2012.

**SEC. 2203. MEDICARE PAYMENT FOR OUTPATIENT THERAPY SERVICES.**

(a) APPLICATION OF ADDITIONAL REQUIREMENTS.—Section 1833(g)(5) of the Social Security Act (42 U.S.C. 1395l(g)(5)) is amended—

(1) by inserting “(A)” after “(5)”;

(2) by striking “December 31, 2011” and inserting “December 31, 2013”;

(3) in the first sentence, by inserting “and if the requirement of subparagraph (B) is met” after “medically necessary”;

(4) in the second sentence, by inserting “made in accordance with such requirement” after “receipt of the request”; and

(5) by adding at the end the following new subparagraphs:

“(B) In the case of outpatient therapy services for which an exception is requested under the first sentence of subparagraph (A), the claim for such services contains an appropriate modifier (such as the KX modifier used as of the date of the enactment of this subparagraph) indicating that such services are medically necessary as justified by appropriate documentation in the medical record involved.

“(C)(i) In applying this paragraph with respect to a request for an exception with respect to expenses that would be incurred for outpatient therapy services (including services described in subsection (a)(8)(B)) that would exceed the threshold described in clause (ii) for a year, the request for such an exception, for services furnished on or after July 1, 2012, shall be subject to a manual medical review process that is similar to the manual medical review process used for certain exceptions under this paragraph in 2006.

“(ii) The threshold under this clause for a year is \$3,700. Such threshold shall be applied separately—

“(I) for physical therapy services and speech-language pathology services; and

“(II) for occupational therapy services.”.

(b) APPLICATION OF THERAPY CAP TO THERAPY FURNISHED AS PART OF HOSPITAL OUTPATIENT SERVICES.—Paragraphs (1) and (3) of section 1833(g) of such Act are each amended by striking “but not described in section 1833(a)(8)(B)” and inserting “but (with respect to services furnished before July 1, 2012) not described in subsection (a)(8)(B)”.

(c) **REQUIREMENT FOR INCLUSION ON CLAIMS OF NPI OF PHYSICIAN WHO REVIEWS THERAPY PLAN.**—Section 1842(t) of such Act (42 U.S.C. 1395u(t)) is amended—

(1) by inserting “(1)” after “(t)”; and  
(2) by adding at the end the following new paragraph:

“(2) Each request for payment, or bill submitted, for therapy services described in paragraph (1) or (3) of section 1833(g) furnished on or after July 1, 2012, for which payment may be made under this part shall include the national provider identifier of the physician who periodically reviews the plan for such services under section 1861(p)(2).”

(d) **IMPLEMENTATION.**—The Secretary of Health and Human Services shall implement such claims processing edits and issue such guidance as may be necessary to implement the amendments made by this section in a timely manner. Notwithstanding any other provision of law, the Secretary may implement the amendments made by this section by program instruction. Of the amount of funds made available to the Secretary for fiscal year 2012 for program management for the Centers for Medicare & Medicaid Services, not to exceed \$7,500,000 shall be available for such fiscal year to carry out section 1833(g)(5)(C) of the Social Security Act (relating to manual medical review), as added by subsection (a). Of the amount of funds made available to the Secretary for fiscal year 2013 for such program management, not to exceed \$7,500,000 shall be available for such fiscal year to carry out such section.

(e) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall apply to services furnished on or after January 1, 2012.

(f) **MEDPAC REPORT ON IMPROVED MEDICARE THERAPY BENEFITS.**—Not later than March 1, 2013, the Medicare Payment Advisory Commission shall submit to the Committees on Energy and Commerce and Ways and Means of the House of Representatives and to the Committee on Finance of the Senate a report making recommendations on how to improve the outpatient therapy benefit under part B of title XVIII of the Social Security Act. The report shall include recommendations on how to reform the payment system for such outpatient therapy services under such part so that the benefit is better designed to reflect individual acuity, condition, and therapy needs of the patient. Such report shall include an examination of private sector initiatives relating to outpatient therapy benefits.

(g) **COLLECTION OF ADDITIONAL DATA.**—

(1) **STRATEGY.**—The Secretary of Health and Human Services shall implement, beginning on January 1, 2013, a claims-based data collection strategy that is designed to assist in reforming the Medicare payment system for outpatient therapy services subject to the limitations of section 1833(g) of the Social Security Act. Such strategy shall be designed to provide for the collection of data on patient function during the course of therapy services in order to better understand patient condition and outcomes.

(2) **CONSULTATION.**—In proposing and implementing such strategy, the Secretary shall consult with relevant stakeholders.

(h) **GAO REPORT ON MANUAL MEDICAL REVIEW PROCESS IMPLEMENTATION.**—Not later than May 1, 2013, the Comptroller General of the United States shall submit to the Committees on Energy and Commerce and Ways and Means of the House of Representatives and to the Committee on Finance of the Senate a report on the implementation of the manual medical review process referred to in section 1833(g)(5)(C) of the Social Security Act. Such report shall include aggregate data on the number of individuals and claims subject to such process, the number of reviews conducted under such process, and the outcome of such reviews.

#### SEC. 2204. WORK GEOGRAPHIC ADJUSTMENT.

(a) **IN GENERAL.**—Section 1848(e)(1)(E) of the Social Security Act (42 U.S.C. 1395w-4(e)(1)(E)) is amended by striking “January 1, 2012” and inserting “January 1, 2013”.

(b) **REPORT.**—Not later than June 1, 2012, the Medicare Payment Advisory Commission shall submit to the Committees on Ways and Means and Energy and Commerce of the House of Representatives and the Committee on Finance of the Senate a report that assesses whether any geographic adjustment is needed under section 1848 of the Social Security Act (42 U.S.C. 1395w-4) to distinguish the difference in work effort by geographic area and, if so, what that level should be and where it should be applied. The report shall also assess the impact of the work geographic adjustment under such section, including the extent to which the floor impacts access to care.

#### PART 2—OTHER HEALTH PROVISIONS

##### SEC. 2211. QUALIFYING INDIVIDUAL (QI) PROGRAM.

(a) **EXTENSION.**—Section 1902(a)(10)(E)(iv) of the Social Security Act (42 U.S.C. 1396a(a)(10)(E)(iv)) is amended by striking “December 2011” and inserting “December 2012”.

(b) **EXTENDING TOTAL AMOUNT AVAILABLE FOR ALLOCATION.**—Section 1933(g) of such Act (42 U.S.C. 1396u-3(g)) is amended—

(1) in paragraph (2)—

(A) by striking “and” at the end of subparagraph (O);

(B) in subparagraph (P), by striking the period at the end and inserting a semicolon; and  
(C) by adding at the end the following new subparagraphs:

“(Q) for the period that begins on January 1, 2012, and ends on September 30, 2012, the total allocation amount is \$450,000,000; and

“(R) for the period that begins on October 1, 2012, and ends on December 31, 2012, the total allocation amount is \$280,000,000.”; and

(2) in paragraph (3), in the matter preceding subparagraph (A), by striking “or (P)” and inserting “(P), or (R)”.

##### SEC. 2212. EXTENSION OF TRANSITIONAL MEDICAL ASSISTANCE (TMA).

(a) **EXTENSION.**—Sections 1902(e)(1)(B) and 1925(f) of the Social Security Act (42 U.S.C. 1396a(e)(1)(B), 1396r-6(f)) are each amended by striking “December 31, 2011” and inserting “December 31, 2012”.

(b) **EXTENDING APPLICATION OF TERMINATION OF ELIGIBILITY BASED ON INCOME TO INITIAL EXTENSION PERIOD.**—

(1) **INCOME REPORTING REQUIREMENTS.**—Subsection (b)(2)(B)(i) of section 1925 of such Act (42 U.S.C. 1396r-6) is amended—

(A) by striking “additional extended assistance under this subsection” and inserting “continued extended assistance under subsection (a)”; and

(B) by inserting “(and, in the case of a State that makes an election under subsection (a)(5), the 7th month and the 11th month)” after “4th month”.

(2) **TERMINATION.**—Subsection (a)(3) of such section is amended—

(A) in subparagraph (B)—

(i) by inserting “or (D)” after “subparagraph (A)”; and

(ii) by striking the period at the end and inserting the following: “, which notice shall include (in the case of termination under subparagraph (D)(ii), relating to no continued earnings) a description of how the family may reestablish eligibility for medical assistance under the State plan. No termination shall be effective under subparagraph (D) earlier than 10 days after the date of mailing of such notice.”;

(B) in subparagraph (C)—

(i) by designating the matter beginning with “With respect to” as a clause (i) with the head-

ing “DEPENDENT CHILDREN.—” and appropriate indentation; and

(ii) by adding at the end the following new clause:

“(ii) **MEDICALLY NEEDED.**—With respect to an individual who would cease to receive medical assistance because of subparagraph (D) but who may be eligible for assistance under the State plan because the individual is within a category of person for which medical assistance under the State plan is available under section 1902(a)(10)(C) (relating to medically needy individuals), the State may not discontinue such assistance under such subparagraph until the State has determined that the individual is not eligible for assistance under the plan.”; and

(C) by adding at the end the following new subparagraph:

“(D) **QUARTERLY INCOME REPORTING AND TEST.**—Subject to subparagraphs (B) and (C), extension of assistance during the 6-month period described in paragraph (1) to a family shall terminate (during the period) at the close of the 4th month of the 6-month period (or 4th, 7th, or 11th month in case of a State that makes an election under paragraph (5)) if—

“(i) the family fails to report to the State, by the 21st day of such month, the information required under subsection (b)(2)(B)(i), unless the family has established, to the satisfaction of the State, good cause for the failure to report on a timely basis;

“(ii) the caretaker relative had no earnings in one or more of the previous 3 months, unless such lack of any earnings was due to an involuntary loss of employment, illness, or other good cause, established to the satisfaction of the State; or

“(iii) the State determines that the family’s average gross monthly earnings (less such costs for such child care as is necessary for the employment of the caretaker relative) during the immediately preceding 3-month period exceed 185 percent of the official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

Information described in clause (i) shall be subject to the restrictions on use and disclosure of information provided under section 402(a)(9). Instead of terminating a family’s extension under clause (i), a State, at its option, may provide for suspension of the extension until the month after the month in which the family reports information required under subsection (b)(2)(B)(i), but only if the family’s extension has not otherwise been terminated under clause (ii) or (iii). The State shall make determinations under clause (iii) for a family each time a report under subsection (b)(2)(B)(i) for the family is received.”.

(3) **EFFECTIVE DATE.**—

(A) **IN GENERAL.**—The amendments made by this subsection shall, subject to subparagraph (B), apply to assistance furnished for months beginning with January 2012.

(B) **TRANSITION FOR CURRENT BENEFICIARIES.**—

(i) **IN GENERAL.**—Subject to clause (ii), such amendments shall not apply to any individual who is receiving extended assistance under subsection (a) of section 1925 of the Social Security Act for December 2011 during the period of assistance that includes such month.

(ii) **SPECIAL RULE FOR INDIVIDUALS ELIGIBLE FOR 12 MONTHS EXTENDED ASSISTANCE.**—In the case of a State that makes an election under paragraph (5) of such section, such amendments shall apply to an individual who is receiving such extended assistance for such month if such month is within the first 6 months of the 12-month period referred to in such paragraph but

only with respect to the second 6 months of such 12-month period.

**SEC. 2213. MODIFICATION TO REQUIREMENTS FOR QUALIFYING FOR EXCEPTION TO MEDICARE PROHIBITION ON CERTAIN PHYSICIAN REFERRALS FOR HOSPITALS.**

(a) *IN GENERAL.*—Section 1877(i) of the Social Security Act (42 U.S.C. 1395nn(i)) is amended—

(1) in paragraph (1)(A)—

(A) in the matter preceding clause (i), by striking “had”;

(B) in clause (i), by inserting “had” before “physician ownership”;

(C) by amending clause (ii) to read as follows:

“(ii) either—

“(I) had a provider agreement under section 1866 in effect on such date; or

“(II) was under construction on such date.”;

and

(2) in paragraph (3)—

(A) by amending subparagraph (E) to read as follows:

“(E) *APPLICABLE HOSPITAL.*—In this paragraph, the term ‘applicable hospital’ means a hospital that does not discriminate against beneficiaries of Federal health care programs and does not permit physicians practicing at the hospital to discriminate against such beneficiaries.”; and

(B) in subparagraph (F)(iii), by striking “subparagraph (E)(iii)” and inserting “subparagraph (E)”.

(b) *EFFECTIVE DATE.*—The amendments made by subsection (a) shall be effective as if as if included in the enactment of subsection (i) of section 1877 of the Social Security Act (42 U.S.C. 1395nn).

**PART 3—OFFSETS**

**SEC. 2221. ADJUSTMENTS TO MAXIMUM THRESHOLDS FOR RECAPTURING OVERPAYMENTS RESULTING FROM CERTAIN FEDERALLY-SUBSIDIZED HEALTH INSURANCE.**

The table specified in clause (i) of section 36B(f)(2)(B) of the Internal Revenue Code of 1986 is amended to read as follows:

<i>“If the household income (expressed as a percent of poverty line) is:</i>	<i>The applicable dollar amount is:</i>
Less than 100 percent	\$600
At least 100 percent and less than 150 percent	\$800
At least 150 percent but less than 200 percent	\$1,000
At least 200 percent but less than 250 percent	\$1,500
At least 250 percent but less than 300 percent	\$2,200
At least 300 percent but less than 350 percent	\$2,500
At least 350 percent but less than 400 percent	\$3,200.”.

**SEC. 2222. PREVENTION AND PUBLIC HEALTH FUND.**

Section 4002(b) of the Patient Protection and Affordable Care Act (42 U.S.C. 300u–11(b)) is amended—

(1) in paragraph (3), by adding at the end “and”; and

(2) by striking each of paragraphs (4) through (6) and inserting the following:

“(4) for fiscal year 2013 and each subsequent fiscal year, \$640,000,000.”.

**SEC. 2223. PARITY IN MEDICARE PAYMENTS FOR HOSPITAL OUTPATIENT DEPARTMENT EVALUATION AND MANAGEMENT OFFICE VISIT SERVICES.**

Section 1833(t) of the Social Security Act (42 U.S.C. 1395l(t)) is amended—

(1) in paragraph (3)—

(A) in subparagraph (D), by striking “The Secretary” and inserting “Subject to subparagraph (H), the Secretary”;

(B) by adding at the end the following new subparagraph:

“(H) *PARITY IN FEE SCHEDULE AMOUNT FOR SPECIFIED EVALUATION AND MANAGEMENT SERVICES.*—

“(i) *IN GENERAL.*—In the case of covered OPD services that are specified evaluation and management services furnished during 2012 or a subsequent year, there shall be substituted for the medicare OPD fee schedule amount established under subparagraph (D) for such services and year, before application of any geographic or other adjustment, an amount equal to the product of the conversion factor established under section 1848(d) for such year and the amount by which—

“(I) the non-facility practice expense relative value units under the fee schedule under section 1848 for such year for physicians’ services that are such specified evaluation and management services; exceeds

“(II) the facility practice expense relative value unit under such fee schedule for such year and services.

“(ii) *BUDGET NEUTRALITY.*—In determining the adjustments under paragraph (9)(B) for 2012 or a subsequent year, the Secretary shall not take into account under such paragraph or paragraph (2)(E) any changes in expenditures that result from the application of this subparagraph.

“(iii) *SPECIFIED EVALUATION AND MANAGEMENT SERVICES DEFINED.*—For the purposes of this subparagraph, the term ‘specified evaluation and management services’ means the HCPCS codes in the range 99201 through 99215

as of January 1, 2011 (and such codes as subsequently modified by the Secretary).”; and

(2) in paragraph (9)(B), by striking “If the Secretary” and inserting “Subject to paragraph (3)(H)(ii), if the Secretary”.

**SEC. 2224. REDUCTION OF BAD DEBT TREATED AS AN ALLOWABLE COST.**

(a) *HOSPITALS.*—Section 1861(v)(1)(T) of the Social Security Act (42 U.S.C. 1395x(v)(1)(T)) is amended—

(1) in clause (iii), by striking “and” at the end;

(2) in clause (iv)—

(A) by striking “a subsequent fiscal year” and inserting “fiscal years 2001 through 2012”; and

(B) by striking the period at the end and inserting “, and”; and

(3) by adding at the end the following:

“(v) for cost reporting periods beginning during fiscal year 2013, by 35 percent of such amount otherwise allowable,

“(vi) for cost reporting periods beginning during fiscal year 2014, by 40 percent of such amount otherwise allowable, and

“(vii) for cost reporting periods beginning during a subsequent fiscal year, by 45 percent of such amount otherwise allowable.”.

(b) *SKILLED NURSING FACILITIES.*—Section 1861(v)(1)(V) of such Act (42 U.S.C. 1395x(v)(1)(V)) is amended—

(1) in the matter preceding clause (i), by striking “with respect to cost reporting periods beginning on or after October 1, 2005” and inserting “and (beginning with respect to cost reporting periods beginning during fiscal year 2013) for covered skilled nursing services described in section 1888(e)(2)(A) furnished by hospital providers of extended care services (as described in section 1883)”;

(2) in clause (i), by striking “reduced by” and all that follows through “allowable; and” and inserting the following: “reduced by—

“(I) for cost reporting periods beginning on or after October 1, 2005, but before fiscal year 2013, 30 percent of such amount otherwise allowable;

“(II) for cost reporting periods beginning during fiscal year 2013, by 35 percent of such amount otherwise allowable;

“(III) for cost reporting periods beginning during fiscal year 2014, by 40 percent of such amount otherwise allowable; and

“(IV) for cost reporting periods beginning during a subsequent fiscal year, by 45 percent of such amount otherwise allowable; and”;

(3) in clause (ii), by striking “such section shall not be reduced.” and inserting “such section—

“(I) for cost reporting periods beginning on or after October 1, 2005, but before fiscal year 2013, shall not be reduced;

“(II) for cost reporting periods beginning during fiscal year 2013, shall be reduced by 15 percent of such amount otherwise allowable;

“(III) for cost reporting periods beginning during fiscal year 2014, shall be reduced by 30 percent of such amount otherwise allowable; and

“(IV) for cost reporting periods beginning during a subsequent fiscal year, shall be reduced by 45 percent of such amount otherwise allowable.”.

(c) *CERTAIN OTHER PROVIDERS.*—Section 1861(v)(1) of such Act (42 U.S.C. 1395x(v)(1)) is amended by adding at the end the following new subparagraph:

“(W)(i) In determining such reasonable costs for providers described in clause (ii), the amount of bad debts otherwise treated as allowable costs which are attributable to deductibles and coinsurance amounts under this title shall be reduced—

“(I) for cost reporting periods beginning during fiscal year 2013, by 15 percent of such amount otherwise allowable;

“(II) for cost reporting periods beginning during fiscal year 2014, by 30 percent of such amount otherwise allowable; and

“(III) for cost reporting periods beginning during a subsequent fiscal year, by 45 percent of such amount otherwise allowable.

“(ii) A provider described in this clause is a provider of services not described in subparagraph (T) or (V), a supplier, or any other type of entity that receives payment for bad debts under the authority under subparagraph (A).”.

(d) *CONFORMING AMENDMENT FOR HOSPITAL SERVICES.*—Section 4008(c) of the Omnibus Budget Reconciliation Act of 1987, as amended by section 8402 of the Technical and Miscellaneous Revenue Act of 1988 and section 6023 of the Omnibus Budget Reconciliation Act of 1989, is amended by adding at the end the following new sentence: “Effective for cost reporting periods beginning on or after October 1, 2012, the provisions of the previous two sentences shall not apply.”.

**SEC. 2225. REBASING OF STATE DSH ALLOTMENTS FOR FISCAL YEAR 2021.**

Section 1923(f) of the Social Security Act (42 U.S.C. 1396r–4(f)) is amended—

(1) by redesignating paragraph (8) as paragraph (9);

(2) in paragraph (3)(A) by striking “paragraphs (6) and (7)” and inserting “paragraphs (6), (7), and (8)”; and

(3) by inserting after paragraph (7) the following new paragraph:

“(8) REBASING OF STATE DSH ALLOTMENTS FOR FISCAL YEAR 2021.—With respect to fiscal 2021 and each subsequent fiscal year, for purposes of applying paragraph (3)(A) to determine the DSH allotment for a State, the amount of the DSH allotment for the State under paragraph (3) for fiscal year 2020 shall be treated as if it were such amount as reduced under paragraph (7).”.

#### Subtitle D—TANF Extension

#### SEC. 2301. SHORT TITLE.

This subtitle may be cited as the “Welfare Integrity and Data Improvement Act”.

#### SEC. 2302. EXTENSION OF PROGRAM.

(a) FAMILY ASSISTANCE GRANTS.—Section 403(a)(1) of the Social Security Act (42 U.S.C. 603(a)(1)) is amended—

(1) in subparagraph (A), by striking “each of fiscal years 1996” and all that follows through “2003” and inserting “fiscal year 2012”; and

(2) in subparagraph (B)—

(A) by inserting “(as in effect just before the enactment of the Welfare Integrity and Data Improvement Act)” after “this paragraph” the 1st place it appears; and

(B) by inserting “(as so in effect)” after “this paragraph” the 2nd place it appears; and

(3) in subparagraph (C), by striking “2003” and inserting “2012”.

(b) HEALTHY MARRIAGE PROMOTION AND RESPONSIBLE FATHERHOOD GRANTS.—Section 403(a)(2)(D) of such Act (42 U.S.C. 603(a)(2)(D)) is amended by striking “2011” and inserting “2012”.

(c) MAINTENANCE OF EFFORT REQUIREMENT.—Section 409(a)(7) of such Act (42 U.S.C. 609(a)(7)) is amended—

(1) in subparagraph (A), by striking “fiscal year” and all that follows through “2012” and inserting “a fiscal year”; and

(2) in subparagraph (B)(ii)—

(A) by striking “for fiscal years 1997 through 2011.”; and

(B) by striking “407(a) for the fiscal year,” and inserting “407(a).”.

(d) TRIBAL GRANTS.—Section 412(a) of such Act (42 U.S.C. 612(a)) is amended in each of paragraphs (1)(A) and (2)(A) by striking “each of fiscal years 1997” and all that follows through “2003” and inserting “fiscal year 2012”.

(e) STUDIES AND DEMONSTRATIONS.—Section 413(h)(1) of such Act (42 U.S.C. 613(h)(1)) is amended by striking “each of fiscal years 1997 through 2002” and inserting “fiscal year 2012”.

(f) CENSUS BUREAU STUDY.—Section 414(b) of such Act (42 U.S.C. 614(b)) is amended by striking “each of fiscal years 1996” and all that follows through “2003” and inserting “fiscal year 2012”.

(g) CHILD CARE ENTITLEMENT.—Section 418(a)(3) of such Act (42 U.S.C. 618(a)(3)) is amended by striking “appropriated” and all that follows and inserting “appropriated \$2,917,000,000 for fiscal year 2012.”.

(h) GRANTS TO TERRITORIES.—Section 1108(b)(2) of such Act (42 U.S.C. 1308(b)(2)) is amended by striking “for fiscal years 1997 through 2003” and inserting “fiscal year 2012”.

(i) PREVENTION OF DUPLICATE APPROPRIATIONS FOR FISCAL YEAR 2012.—Expenditures made pursuant to the Short-Term TANF Extension Act (Public Law 112-35) or section 403(b) of the Social Security Act for fiscal year 2012 shall be charged to the applicable appropriation or authorization provided by the amendments made by this section for such fiscal year.

(j) EFFECTIVE DATE.—This section and the amendments made by this section shall take effect on the date of the enactment of this Act.

#### SEC. 2303. DATA STANDARDIZATION.

(a) IN GENERAL.—Section 411 of the Social Security Act (42 U.S.C. 611) is amended by adding at the end the following:

“(d) DATA STANDARDIZATION.—

“(1) STANDARD DATA ELEMENTS.—

“(A) DESIGNATION.—The Secretary, in consultation with an interagency work group which shall be established by the Office of Management and Budget, and considering State and tribal perspectives, shall, by rule, designate standard data elements for any category of information required to be reported under this part.

“(B) REQUIREMENTS.—In designating the standard data elements, the Secretary shall, to the extent practicable—

“(i) ensure that the data elements are nonproprietary and interoperable;

“(ii) incorporate interoperable standards developed and maintained by an international voluntary consensus standards body, as defined by the Office of Management and Budget, such as the International Organization for Standardization;

“(iii) incorporate interoperable standards developed and maintained by intergovernmental partnerships, such as the National Information Exchange Model; and

“(iv) incorporate interoperable standards developed and maintained by Federal entities with authority over contracting and financial assistance, such as the Federal Acquisition Regulatory Council.

“(2) DATA REPORTING STANDARDS.—

“(A) DESIGNATION.—The Secretary, in consultation with an interagency work group established by the Office of Management and Budget, and considering State and tribal perspectives, shall, by rule, designate standards to govern the data reporting required under this part.

“(B) REQUIREMENTS.—In designating the data reporting standards, the Secretary shall, to the extent practicable, incorporate existing nonproprietary standards, such as the eXtensible Business Reporting Language. Such standards shall, to the extent practicable—

“(i) incorporate a widely-accepted, nonproprietary, searchable, computer-readable format;

“(ii) be consistent with and implement applicable accounting principles; and

“(iii) be capable of being continually upgraded as necessary.”.

(b) APPLICABILITY.—The amendments made by this subsection shall apply with respect to information required to be reported on or after October 1, 2012.

#### SEC. 2304. SPENDING POLICIES FOR ASSISTANCE UNDER STATE TANF PROGRAMS.

(a) STATE REQUIREMENT.—Section 408(a) of the Social Security Act (42 U.S.C. 608(a)) is amended by adding at the end the following:

“(12) STATE REQUIREMENT TO PREVENT UNAUTHORIZED SPENDING OF BENEFITS.—

“(A) IN GENERAL.—A State to which a grant is made under section 403 shall maintain policies and practices as necessary to prevent assistance provided under the State program funded under this part from being used in any transaction in—

“(i) any liquor store;

“(ii) any casino, gambling casino, or gaming establishment; or

“(iii) any retail establishment which provides adult-oriented entertainment in which performers disrobe or perform in an unclothed state for entertainment.

“(B) DEFINITIONS.—For purposes of subparagraph (A)—

“(i) LIQUOR STORE.—The term ‘liquor store’ means any retail establishment which sells exclusively or primarily intoxicating liquor. Such term does not include a grocery store which sells both intoxicating liquor and groceries including

staple foods (within the meaning of section 3(r) of the Food and Nutrition Act of 2008 (7 U.S.C. 2012(r))).

“(ii) CASINO, GAMBLING CASINO, OR GAMING ESTABLISHMENT.—The terms ‘casino’, ‘gambling casino’, and ‘gaming establishment’ do not include a grocery store which sells groceries including such staple foods and which also offers, or is located within the same building or complex as, casino, gambling, or gaming activities.”.

(b) PENALTY.—Section 409(a) of such Act (42 U.S.C. 609(a)) is amended by adding at the end the following:

“(16) PENALTY FOR FAILURE TO ENFORCE SPENDING POLICIES.—

“(A) IN GENERAL.—If, within 2 years after the date of the enactment of this paragraph, any State has not reported to the Secretary on such State’s implementation of the policies and practices required by section 408(a)(12), or the Secretary determines that any State has not implemented and maintained such policies and practices, the Secretary shall reduce, by an amount equal to 5 percent of the State family assistance grant, the grant payable to such State under section 403(a)(1) for—

“(i) the fiscal year immediately succeeding the year in which such 2-year period ends; and

“(ii) each succeeding fiscal year in which the State does not demonstrate that such State has implemented and maintained such policies and practices.

“(B) REDUCTION OF APPLICABLE PENALTY.—The Secretary may reduce the amount of the reduction required under subparagraph (A) based on the degree of noncompliance of the State.

“(C) STATE NOT RESPONSIBLE FOR INDIVIDUAL VIOLATIONS.—Fraudulent activity by any individual in an attempt to circumvent the policies and practices required by section 408(a)(12) shall not trigger a State penalty under subparagraph (A).”.

(c) CONFORMING AMENDMENT.—Section 409(c)(4) of such Act (42 U.S.C. 609(c)(4)) is amended by striking “or (13)” and inserting “(13), or (16)”.

#### SEC. 2305. TECHNICAL CORRECTIONS.

(a) Section 404(d)(1)(A) of the Social Security Act (42 U.S.C. 604(d)(1)(A)) is amended by striking “subtitle 1 of Title” and inserting “Subtitle A of title”.

(b) Sections 407(c)(2)(A)(i) and 409(a)(3)(C) of such Act (42 U.S.C. 607(c)(2)(A)(i) and 609(a)(3)(C)) are each amended by striking “403(b)(6)” and inserting “403(b)(5)”.

(c) Section 409(a)(2)(A) of such Act (42 U.S.C. 609(a)(2)(A)) is amended by moving clauses (i) and (ii) 2 ems to the right.

(d) Section 409(c)(2) of such Act (42 U.S.C. 609(c)(2)) is amended by inserting a comma after “appropriate”.

(e) Section 411(a)(1)(A)(ii)(III) of such Act (42 U.S.C. 611(a)(1)(A)(ii)(III)) is amended by striking the last close parenthesis.

### TITLE III—FLOOD INSURANCE REFORM

#### SEC. 3001. SHORT TITLE.

This title may be cited as the “Flood Insurance Reform Act of 2011”.

#### SEC. 3002. EXTENSIONS.

(a) EXTENSION OF PROGRAM.—Section 1319 of the National Flood Insurance Act of 1968 (42 U.S.C. 4026) is amended by striking “September 30, 2011” and inserting “September 30, 2016”.

(b) EXTENSION OF FINANCING.—Section 1309(a) of such Act (42 U.S.C. 4016(a)) is amended by striking “September 30, 2011” and inserting “September 30, 2016”.

#### SEC. 3003. MANDATORY PURCHASE.

(a) AUTHORITY TO TEMPORARILY SUSPEND MANDATORY PURCHASE REQUIREMENT.—

(1) IN GENERAL.—Section 102 of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a) is amended by adding at the end the following new subsection:

“(i) **AUTHORITY TO TEMPORARILY SUSPEND MANDATORY PURCHASE REQUIREMENT.**—

“(1) **FINDING BY ADMINISTRATOR THAT AREA IS AN ELIGIBLE AREA.**—For any area, upon a request submitted to the Administrator by a local government authority having jurisdiction over any portion of the area, the Administrator shall make a finding of whether the area is an eligible area under paragraph (3). If the Administrator finds that such area is an eligible area, the Administrator shall, in the discretion of the Administrator, designate a period during which such finding shall be effective, which shall not be longer in duration than 12 months.

“(2) **SUSPENSION OF MANDATORY PURCHASE REQUIREMENT.**—If the Administrator makes a finding under paragraph (1) that an area is an eligible area under paragraph (3), during the period specified in the finding, the designation of such eligible area as an area having special flood hazards shall not be effective for purposes of subsections (a), (b), and (e) of this section, and section 202(a) of this Act. Nothing in this paragraph may be construed to prevent any lender, servicer, regulated lending institution, Federal agency lender, the Federal National Mortgage Association, or the Federal Home Loan Mortgage Corporation, at the discretion of such entity, from requiring the purchase of flood insurance coverage in connection with the making, increasing, extending, or renewing of a loan secured by improved real estate or a mobile home located or to be located in such eligible area during such period or a lender or servicer from purchasing coverage on behalf of a borrower pursuant to subsection (e).

“(3) **ELIGIBLE AREAS.**—An eligible area under this paragraph is an area that is designated or will, pursuant to any issuance, revision, updating, or other change in flood insurance maps that takes effect on or after the date of the enactment of the Flood Insurance Reform Act of 2011, become designated as an area having special flood hazards and that meets any one of the following 3 requirements:

“(A) **AREAS WITH NO HISTORY OF SPECIAL FLOOD HAZARDS.**—The area does not include any area that has ever previously been designated as an area having special flood hazards.

“(B) **AREAS WITH FLOOD PROTECTION SYSTEMS UNDER IMPROVEMENTS.**—The area was intended to be protected by a flood protection system—

“(i) that has been decertified, or is required to be certified, as providing protection for the 100-year frequency flood standard;

“(ii) that is being improved, constructed, or reconstructed; and

“(iii) for which the Administrator has determined measurable progress toward completion of such improvement, construction, reconstruction is being made and toward securing financial commitments sufficient to fund such completion.

“(C) **AREAS FOR WHICH APPEAL HAS BEEN FILED.**—An area for which a community has appealed designation of the area as having special flood hazards in a timely manner under section 1363.

“(4) **EXTENSION OF DELAY.**—Upon a request submitted by a local government authority having jurisdiction over any portion of the eligible area, the Administrator may extend the period during which a finding under paragraph (1) shall be effective, except that—

“(A) each such extension under this paragraph shall not be for a period exceeding 12 months; and

“(B) for any area, the cumulative number of such extensions may not exceed 2.

“(5) **ADDITIONAL EXTENSION FOR COMMUNITIES MAKING MORE THAN ADEQUATE PROGRESS ON FLOOD PROTECTION SYSTEM.**—

“(A) **EXTENSION.**—

“(i) **AUTHORITY.**—Except as provided in subparagraph (B), in the case of an eligible area for

which the Administrator has, pursuant to paragraph (4), extended the period of effectiveness of the finding under paragraph (1) for the area, upon a request submitted by a local government authority having jurisdiction over any portion of the eligible area, if the Administrator finds that more than adequate progress has been made on the construction of a flood protection system for such area, as determined in accordance with the last sentence of section 1307(e) of the National Flood Insurance Act of 1968 (42 U.S.C. 4014(e)), the Administrator may, in the discretion of the Administrator, further extend the period during which the finding under paragraph (1) shall be effective for such area for an additional 12 months.

“(ii) **LIMIT.**—For any eligible area, the cumulative number of extensions under this subparagraph may not exceed 2.

“(B) **EXCLUSION FOR NEW MORTGAGES.**—

“(i) **EXCLUSION.**—Any extension under subparagraph (A) of this paragraph of a finding under paragraph (1) shall not be effective with respect to any excluded property after the origination, increase, extension, or renewal of the loan referred to in clause (ii)(II) for the property.

“(ii) **EXCLUDED PROPERTIES.**—For purposes of this subparagraph, the term ‘excluded property’ means any improved real estate or mobile home—

“(I) that is located in an eligible area; and

“(II) for which, during the period that any extension under subparagraph (A) of this paragraph of a finding under paragraph (1) is otherwise in effect for the eligible area in which such property is located—

“(aa) a loan that is secured by the property is originated; or

“(bb) any existing loan that is secured by the property is increased, extended, or renewed.

“(6) **RULE OF CONSTRUCTION.**—Nothing in this subsection may be construed to affect the applicability of a designation of any area as an area having special flood hazards for purposes of the availability of flood insurance coverage, criteria for land management and use, notification of flood hazards, eligibility for mitigation assistance, or any other purpose or provision not specifically referred to in paragraph (2).

“(7) **REPORTS.**—The Administrator shall, in each annual report submitted pursuant to section 1320, include information identifying each finding under paragraph (1) by the Administrator during the preceding year that an area is an area having special flood hazards, the basis for each such finding, any extensions pursuant to paragraph (4) of the periods of effectiveness of such findings, and the reasons for such extensions.”.

(2) **NO REFUNDS.**—Nothing in this subsection or the amendments made by this subsection may be construed to authorize or require any payment or refund for flood insurance coverage purchased for any property that covered any period during which such coverage is not required for the property pursuant to the applicability of the amendment made by paragraph (1).

(b) **TERMINATION OF FORCE-PLACED INSURANCE.**—Section 102(e) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a(e)) is amended—

(1) in paragraph (2), by striking “insurance.” and inserting “insurance, including premiums or fees incurred for coverage beginning on the date on which flood insurance coverage lapsed or did not provide a sufficient coverage amount.”;

(2) by redesignating paragraphs (3) and (4) as paragraphs (5) and (6), respectively; and

(3) by inserting after paragraph (2) the following new paragraphs:

“(3) **TERMINATION OF FORCE-PLACED INSURANCE.**—Within 30 days of receipt by the lender

or servicer of a confirmation of a borrower's existing flood insurance coverage, the lender or servicer shall—

“(A) terminate the force-placed insurance; and

“(B) refund to the borrower all force-placed insurance premiums paid by the borrower during any period during which the borrower's flood insurance coverage and the force-placed flood insurance coverage were each in effect, and any related fees charged to the borrower with respect to the force-placed insurance during such period.

“(4) **SUFFICIENCY OF DEMONSTRATION.**—For purposes of confirming a borrower's existing flood insurance coverage, a lender or servicer for a loan shall accept from the borrower an insurance policy declarations page that includes the existing flood insurance policy number and the identity of, and contact information for, the insurance company or agent.”.

(c) **USE OF PRIVATE INSURANCE TO SATISFY MANDATORY PURCHASE REQUIREMENT.**—Section 102(b) of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a(b)) is amended—

(1) in paragraph (1)—

(A) by striking “lending institutions not to make” and inserting “lending institutions—

“(A) not to make”;

(B) in subparagraph (A), as designated by subparagraph (A) of this paragraph, by striking “less.” and inserting “less; and”;

(C) by adding at the end the following new subparagraph:

“(B) to accept private flood insurance as satisfaction of the flood insurance coverage requirement under subparagraph (A) if the coverage provided by such private flood insurance meets the requirements for coverage under such subparagraph.”;

(2) in paragraph (2), by inserting after “provided in paragraph (1).” the following new sentence: “Each Federal agency lender shall accept private flood insurance as satisfaction of the flood insurance coverage requirement under the preceding sentence if the flood insurance coverage provided by such private flood insurance meets the requirements for coverage under such sentence.”;

(3) in paragraph (3), in the matter following subparagraph (B), by adding at the end the following new sentence: “The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation shall accept private flood insurance as satisfaction of the flood insurance coverage requirement under the preceding sentence if the flood insurance coverage provided by such private flood insurance meets the requirements for coverage under such sentence.”; and

(4) by adding at the end the following new paragraph:

“(5) **PRIVATE FLOOD INSURANCE DEFINED.**—In this subsection, the term ‘private flood insurance’ means a contract for flood insurance coverage allowed for sale under the laws of any State.”.

#### SEC. 3004. REFORMS OF COVERAGE TERMS.

(a) **MINIMUM DEDUCTIBLES FOR CLAIMS.**—Section 1312 of the National Flood Insurance Act of 1968 (42 U.S.C. 4019) is amended—

(1) by striking “The Director is” and inserting the following: “(a) **IN GENERAL.**—The Administrator is”;

(2) by adding at the end the following:

“(b) **MINIMUM ANNUAL DEDUCTIBLES.**—

“(1) **SUBSIDIZED RATE PROPERTIES.**—For any structure that is covered by flood insurance under this title, and for which the chargeable rate for such coverage is less than the applicable estimated risk premium rate under section 1307(a)(1) for the area (or subdivision thereof) in which such structure is located, the minimum annual deductible for damage to or loss of such structure shall be \$2,000.

“(2) **ACTUARIAL RATE PROPERTIES.**—For any structure that is covered by flood insurance under this title, for which the chargeable rate for such coverage is not less than the applicable estimated risk premium rate under section 1307(a)(1) for the area (or subdivision thereof) in which such structure is located, the minimum annual deductible for damage to or loss of such structure shall be \$1,000.”

(b) **CLARIFICATION OF RESIDENTIAL AND COMMERCIAL COVERAGE LIMITS.**—Section 1306(b) of the National Flood Insurance Act of 1968 (42 U.S.C. 4013(b)) is amended—

(1) in paragraph (2)—

(A) by striking “in the case of any residential property” and inserting “in the case of any residential building designed for the occupancy of from one to four families”; and

(B) by striking “shall be made available to every insured upon renewal and every applicant for insurance so as to enable such insured or applicant to receive coverage up to a total amount (including such limits specified in paragraph (1)(A)(i)) of \$250,000” and inserting “shall be made available, with respect to any single such building, up to an aggregate liability (including such limits specified in paragraph (1)(A)(i)) of \$250,000”; and

(2) in paragraph (4)—

(A) by striking “in the case of any nonresidential property, including churches,” and inserting “in the case of any nonresidential building, including a church,”; and

(B) by striking “shall be made available to every insured upon renewal and every applicant for insurance, in respect to any single structure, up to a total amount (including such limit specified in subparagraph (B) or (C) of paragraph (1), as applicable) of \$500,000 for each structure and \$500,000 for any contents related to each structure” and inserting “shall be made available with respect to any single such building, up to an aggregate liability (including such limits specified in subparagraph (B) or (C) of paragraph (1), as applicable) of \$500,000, and coverage shall be made available up to a total of \$500,000 aggregate liability for contents owned by the building owner and \$500,000 aggregate liability for each unit within the building for contents owned by the tenant”.

(c) **INDEXING OF MAXIMUM COVERAGE LIMITS.**—Subsection (b) of section 1306 of the National Flood Insurance Act of 1968 (42 U.S.C. 4013(b)) is amended—

(1) in paragraph (4), by striking “and” at the end;

(2) in paragraph (5), by striking the period at the end and inserting “; and”;

(3) by redesignating paragraph (5) as paragraph (7); and

(4) by adding at the end the following new paragraph:

“(8) each of the dollar amount limitations under paragraphs (2), (3), (4), (5), and (6) shall be adjusted effective on the date of the enactment of the Flood Insurance Reform Act of 2011, such adjustments shall be calculated using the percentage change, over the period beginning on September 30, 1994, and ending on such date of enactment, in such inflationary index as the Administrator shall, by regulation, specify, and the dollar amount of such adjustment shall be rounded to the next lower dollar; and the Administrator shall cause to be published in the Federal Register the adjustments under this paragraph to such dollar amount limitations; except that in the case of coverage for a property that is made available, pursuant to this paragraph, in an amount that exceeds the limitation otherwise applicable to such coverage as specified in paragraph (2), (3), (4), (5), or (6), the total of such coverage shall be made available only at chargeable rates that are not less than the estimated premium rates for such cov-

erage determined in accordance with section 1307(a)(1).”.

(d) **OPTIONAL COVERAGE FOR LOSS OF USE OF PERSONAL RESIDENCE AND BUSINESS INTERRUPTION.**—Subsection (b) of section 1306 of the National Flood Insurance Act of 1968 (42 U.S.C. 4013(b)), as amended by the preceding provisions of this section, is further amended by inserting after paragraph (4) the following new paragraphs:

“(5) the Administrator may provide that, in the case of any residential property, each renewal or new contract for flood insurance coverage may provide not more than \$5,000 aggregate liability per dwelling unit for any necessary increases in living expenses incurred by the insured when losses from a flood make the residence unfit to live in, except that—

“(A) purchase of such coverage shall be at the option of the insured;

“(B) any such coverage shall be made available only at chargeable rates that are not less than the estimated premium rates for such coverage determined in accordance with section 1307(a)(1); and

“(C) the Administrator may make such coverage available only if the Administrator makes a determination and causes notice of such determination to be published in the Federal Register that—

“(i) a competitive private insurance market for such coverage does not exist; and

“(ii) the national flood insurance program has the capacity to make such coverage available without borrowing funds from the Secretary of the Treasury under section 1309 or otherwise;

“(6) the Administrator may provide that, in the case of any commercial property or other residential property, including multifamily rental property, coverage for losses resulting from any partial or total interruption of the insured’s business caused by damage to, or loss of, such property from a flood may be made available to every insured upon renewal and every applicant, up to a total amount of \$20,000 per property, except that—

“(A) purchase of such coverage shall be at the option of the insured;

“(B) any such coverage shall be made available only at chargeable rates that are not less than the estimated premium rates for such coverage determined in accordance with section 1307(a)(1); and

“(C) the Administrator may make such coverage available only if the Administrator makes a determination and causes notice of such determination to be published in the Federal Register that—

“(i) a competitive private insurance market for such coverage does not exist; and

“(ii) the national flood insurance program has the capacity to make such coverage available without borrowing funds from the Secretary of the Treasury under section 1309 or otherwise;”.

(e) **PAYMENT OF PREMIUMS IN INSTALLMENTS FOR RESIDENTIAL PROPERTIES.**—Section 1306 of the National Flood Insurance Act of 1968 (42 U.S.C. 4013) is amended by adding at the end the following new subsection:

“(d) **PAYMENT OF PREMIUMS IN INSTALLMENTS FOR RESIDENTIAL PROPERTIES.**—

“(1) **AUTHORITY.**—In addition to any other terms and conditions under subsection (a), such regulations shall provide that, in the case of any residential property, premiums for flood insurance coverage made available under this title for such property may be paid in installments.

“(2) **LIMITATIONS.**—In implementing the authority under paragraph (1), the Administrator may establish increased chargeable premium rates and surcharges, and deny coverage and establish such other sanctions, as the Administrator considers necessary to ensure that insureds purchase, pay for, and maintain cov-

erage for the full term of a contract for flood insurance coverage or to prevent insureds from purchasing coverage only for periods during a year when risk of flooding is comparatively higher or canceling coverage for periods when such risk is comparatively lower.”.

(f) **EFFECTIVE DATE OF POLICIES COVERING PROPERTIES AFFECTED BY FLOODS IN PROGRESS.**—Paragraph (1) of section 1306(c) of the National Flood Insurance Act of 1968 (42 U.S.C. 4013(c)) is amended by adding after the period at the end the following: “With respect to any flood that has commenced or is in progress before the expiration of such 30-day period, such flood insurance coverage for a property shall take effect upon the expiration of such 30-day period and shall cover damage to such property occurring after the expiration of such period that results from such flood, but only if the property has not suffered damage or loss as a result of such flood before the expiration of such 30-day period.”.

#### SEC. 3005. REFORMS OF PREMIUM RATES.

(a) **INCREASE IN ANNUAL LIMITATION ON PREMIUM INCREASES.**—Section 1308(e) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(e)) is amended by striking “10 percent” and inserting “20 percent”.

(b) **PHASE-IN OF RATES FOR CERTAIN PROPERTIES IN NEWLY MAPPED AREAS.**—

(1) **IN GENERAL.**—Section 1308 of the National Flood Insurance Act of 1968 (42 U.S.C. 4015) is amended—

(A) in subsection (a), in the matter preceding paragraph (1), by inserting “or notice” after “prescribe by regulation”; and

(B) in subsection (c), by inserting “and subsection (g)” before the first comma; and

(C) by adding at the end the following new subsection:

“(g) **5-YEAR PHASE-IN OF FLOOD INSURANCE RATES FOR CERTAIN PROPERTIES IN NEWLY MAPPED AREAS.**—

“(1) **5-YEAR PHASE-IN PERIOD.**—Notwithstanding subsection (c) or any other provision of law relating to chargeable risk premium rates for flood insurance coverage under this title, in the case of any area that was not previously designated as an area having special flood hazards and that, pursuant to any issuance, revision, updating, or other change in flood insurance maps, becomes designated as such an area, during the 5-year period that begins, except as provided in paragraph (2), upon the date that such maps, as issued, revised, updated, or otherwise changed, become effective, the chargeable premium rate for flood insurance under this title with respect to any covered property that is located within such area shall be the rate described in paragraph (3).

“(2) **APPLICABILITY TO PREFERRED RISK RATE AREAS.**—In the case of any area described in paragraph (1) that consists of or includes an area that, as of date of the effectiveness of the flood insurance maps for such area referred to in paragraph (1) as so issued, revised, updated, or changed, is eligible for any reason for preferred risk rate method premiums for flood insurance coverage and was eligible for such premiums as of the enactment of the Flood Insurance Reform Act of 2011, the 5-year period referred to in paragraph (1) for such area eligible for preferred risk rate method premiums shall begin upon the expiration of the period during which such area is eligible for such preferred risk rate method premiums.

“(3) **PHASE-IN OF FULL ACTUARIAL RATES.**—With respect to any area described in paragraph (1), the chargeable risk premium rate for flood insurance under this title for a covered property that is located in such area shall be—

“(A) for the first year of the 5-year period referred to in paragraph (1), the greater of—

“(i) 20 percent of the chargeable risk premium rate otherwise applicable under this title to the property; and

“(ii) in the case of any property that, as of the beginning of such first year, is eligible for preferred risk rate method premiums for flood insurance coverage, such preferred risk rate method premium for the property;

“(B) for the second year of such 5-year period, 40 percent of the chargeable risk premium rate otherwise applicable under this title to the property;

“(C) for the third year of such 5-year period, 60 percent of the chargeable risk premium rate otherwise applicable under this title to the property;

“(D) for the fourth year of such 5-year period, 80 percent of the chargeable risk premium rate otherwise applicable under this title to the property; and

“(E) for the fifth year of such 5-year period, 100 percent of the chargeable risk premium rate otherwise applicable under this title to the property.

“(4) COVERED PROPERTIES.—For purposes of the subsection, the term ‘covered property’ means any residential property occupied by its owner or a bona fide tenant as a primary residence.”.

(2) REGULATION OR NOTICE.—The Administrator of the Federal Emergency Management Agency shall issue an interim final rule or notice to implement this subsection and the amendments made by this subsection as soon as practicable after the date of the enactment of this Act.

(c) PHASE-IN OF ACTUARIAL RATES FOR CERTAIN PROPERTIES.—

(1) IN GENERAL.—Section 1308(c) of the National Flood Insurance Act of 1968 (42 U.S.C. 4015(c)) is amended—

(A) by redesignating paragraph (2) as paragraph (7); and

(B) by inserting after paragraph (1) the following new paragraphs:

“(2) COMMERCIAL PROPERTIES.—Any nonresidential property.

“(3) SECOND HOMES AND VACATION HOMES.—Any residential property that is not the primary residence of any individual.

“(4) HOMES SOLD TO NEW OWNERS.—Any single family property that—

“(A) has been constructed or substantially improved and for which such construction or improvement was started, as determined by the Administrator, before December 31, 1974, or before the effective date of the initial rate map published by the Administrator under paragraph (2) of section 1360(a) for the area in which such property is located, whichever is later; and

“(B) is purchased after the effective date of this paragraph, pursuant to section 3005(c)(3)(A) of the Flood Insurance Reform Act of 2011.

“(5) HOMES DAMAGED OR IMPROVED.—Any property that, on or after the date of the enactment of the Flood Insurance Reform Act of 2011, has experienced or sustained—

“(A) substantial flood damage exceeding 50 percent of the fair market value of such property; or

“(B) substantial improvement exceeding 30 percent of the fair market value of such property.

“(6) HOMES WITH MULTIPLE CLAIMS.—Any severe repetitive loss property (as such term is defined in section 1366(j)).”.

(2) TECHNICAL AMENDMENTS.—Section 1308 of the National Flood Insurance Act of 1968 (42 U.S.C. 4015) is amended—

(A) in subsection (c)—

(i) in the matter preceding paragraph (1), by striking “the limitations provided under paragraphs (1) and (2)” and inserting “subsection (e)”; and

(ii) in paragraph (1), by striking “, except” and all that follows through “subsection (e)”; and

(B) in subsection (e), by striking “paragraph (2) or (3)” and inserting “paragraph (7)”.  
(3) EFFECTIVE DATE AND TRANSITION.—

(A) EFFECTIVE DATE.—The amendments made by paragraphs (1) and (2) shall apply beginning upon the expiration of the 12-month period that begins on the date of the enactment of this Act, except as provided in subparagraph (B) of this paragraph.

(B) TRANSITION FOR PROPERTIES COVERED BY FLOOD INSURANCE UPON EFFECTIVE DATE.—

(i) INCREASE OF RATES OVER TIME.—In the case of any property described in paragraph (2), (3), (4), (5), or (6) of section 1308(c) of the National Flood Insurance Act of 1968, as amended by paragraph (1) of this subsection, that, as of the effective date under subparagraph (A) of this paragraph, is covered under a policy for flood insurance made available under the national flood insurance program for which the chargeable premium rates are less than the applicable estimated risk premium rate under section 1307(a)(1) of such Act for the area in which the property is located, the Administrator of the Federal Emergency Management Agency shall increase the chargeable premium rates for such property over time to such applicable estimated risk premium rate under section 1307(a)(1).

(ii) AMOUNT OF ANNUAL INCREASE.—Such increase shall be made by increasing the chargeable premium rates for the property (after application of any increase in the premium rates otherwise applicable to such property), once during the 12-month period that begins upon the effective date under subparagraph (A) of this paragraph and once every 12 months thereafter until such increase is accomplished, by 20 percent (or such lesser amount as may be necessary so that the chargeable rate does not exceed such applicable estimated risk premium rate or to comply with clause (iii)).

(iii) PROPERTIES SUBJECT TO PHASE-IN AND ANNUAL INCREASES.—In the case of any pre-FIRM property (as such term is defined in section 578(b) of the National Flood Insurance Reform Act of 1974), the aggregate increase, during any 12-month period, in the chargeable premium rate for the property that is attributable to this subparagraph or to an increase described in section 1308(e) of the National Flood Insurance Act of 1968 may not exceed 20 percent.

(iv) FULL ACTUARIAL RATES.—The provisions of paragraphs (2), (3), (4), (5), and (6) of such section 1308(c) shall apply to such a property upon the accomplishment of the increase under this subparagraph and thereafter.

(d) PROHIBITION OF EXTENSION OF SUBSIDIZED RATES TO LAPSED POLICIES.—Section 1308 of the National Flood Insurance Act of 1968 (42 U.S.C. 4015), as amended by the preceding provisions of this title, is further amended—

(1) in subsection (e), by inserting “or subsection (h)” after “subsection (c)”; and

(2) by adding at the end the following new subsection:

“(h) PROHIBITION OF EXTENSION OF SUBSIDIZED RATES TO LAPSED POLICIES.—Notwithstanding any other provision of law relating to chargeable risk premium rates for flood insurance coverage under this title, the Administrator shall not provide flood insurance coverage under this title for any property for which a policy for such coverage for the property has previously lapsed in coverage as a result of the deliberate choice of the holder of such policy, at a rate less than the applicable estimated risk premium rates for the area (or subdivision thereof) in which such property is located.”.

(e) RECOGNITION OF STATE AND LOCAL FUNDING FOR CONSTRUCTION, RECONSTRUCTION, AND IMPROVEMENT OF FLOOD PROTECTION SYSTEMS IN DETERMINATION OF RATES.—

(1) IN GENERAL.—Section 1307 of the National Flood Insurance Act of 1968 (42 U.S.C. 4014) is amended—

(A) in subsection (e)—

(i) in the first sentence, by striking “construction of a flood protection system” and inserting “construction, reconstruction, or improvement of a flood protection system (without respect to the level of Federal investment or participation)”; and

(ii) in the second sentence—

(I) by striking “construction of a flood protection system” and inserting “construction, reconstruction, or improvement of a flood protection system”; and

(II) by inserting “based on the present value of the completed system” after “has been expended”; and

(B) in subsection (f)—

(i) in the first sentence in the matter preceding paragraph (1), by inserting “(without respect to the level of Federal investment or participation)” before the period at the end;

(ii) in the third sentence in the matter preceding paragraph (1), by inserting “, whether coastal or riverine,” after “special flood hazard”; and

(iii) in paragraph (1), by striking “a Federal agency in consultation with the local project sponsor” and inserting “the entity or entities that own, operate, maintain, or repair such system”.

(2) REGULATIONS.—The Administrator of the Federal Emergency Management Agency shall promulgate regulations to implement this subsection and the amendments made by this subsection as soon as practicable, but not more than 18 months after the date of the enactment of this Act. Paragraph (3) may not be construed to annul, alter, affect, authorize any waiver of, or establish any exception to, the requirement under the preceding sentence.

#### SEC. 3006. TECHNICAL MAPPING ADVISORY COUNCIL.

(a) ESTABLISHMENT.—There is established a council to be known as the Technical Mapping Advisory Council (in this section referred to as the “Council”).

(b) MEMBERSHIP.—

(1) IN GENERAL.—The Council shall consist of—

(A) the Administrator of the Federal Emergency Management Agency (in this section referred to as the “Administrator”), or the designee thereof;

(B) the Director of the United States Geological Survey of the Department of the Interior, or the designee thereof;

(C) the Under Secretary of Commerce for Oceans and Atmosphere, or the designee thereof;

(D) the commanding officer of the United States Army Corps of Engineers, or the designee thereof;

(E) the chief of the Natural Resources Conservation Service of the Department of Agriculture, or the designee thereof;

(F) the Director of the United States Fish and Wildlife Service of the Department of the Interior, or the designee thereof;

(G) the Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration of the Department of Commerce, or the designee thereof; and

(H) 14 additional members to be appointed by the Administrator of the Federal Emergency Management Agency, who shall be—

(i) an expert in data management;

(ii) an expert in real estate;

(iii) an expert in insurance;

(iv) a member of a recognized regional flood and storm water management organization;

(v) a representative of a State emergency management agency or association or organization for such agencies;

(vi) a member of a recognized professional surveying association or organization;

(vii) a member of a recognized professional mapping association or organization;

(viii) a member of a recognized professional engineering association or organization;

(ix) a member of a recognized professional association or organization representing flood hazard determination firms;

(x) a representative of State national flood insurance coordination offices;

(xi) representatives of two local governments, at least one of whom is a local levee flood manager or executive, designated by the Federal Emergency Management Agency as Cooperating Technical Partners; and

(xii) representatives of two State governments designated by the Federal Emergency Management Agency as Cooperating Technical States.

(2) **QUALIFICATIONS.**—Members of the Council shall be appointed based on their demonstrated knowledge and competence regarding surveying, cartography, remote sensing, geographic information systems, or the technical aspects of preparing and using flood insurance rate maps. In appointing members under paragraph (1)(H), the Administrator shall ensure that the membership of the Council has a balance of Federal, State, local, and private members, and includes an adequate number of representatives from the States with coastline on the Gulf of Mexico and other States containing areas identified by the Administrator of the Federal Emergency Management Agency as at high-risk for flooding or special flood hazard areas.

(c) **DUTIES.**—

(1) **NEW MAPPING STANDARDS.**—Not later than the expiration of the 12-month period beginning upon the date of the enactment of this Act, the Council shall develop and submit to the Administrator and the Congress proposed new mapping standards for 100-year flood insurance rate maps used under the national flood insurance program under the National Flood Insurance Act of 1968. In developing such proposed standards the Council shall—

(A) ensure that the flood insurance rate maps reflect true risk, including graduated risk that better reflects the financial risk to each property; such reflection of risk should be at the smallest geographic level possible (but not necessarily property-by-property) to ensure that communities are mapped in a manner that takes into consideration different risk levels within the community;

(B) ensure the most efficient generation, display, and distribution of flood risk data, models, and maps where practicable through dynamic digital environments using spatial database technology and the Internet;

(C) ensure that flood insurance rate maps reflect current hydrologic and hydraulic data, current land use, and topography, incorporating the most current and accurate ground and bathymetric elevation data;

(D) determine the best ways to include in such flood insurance rate maps levees, decertified levees, and areas located below dams, including determining a methodology for ensuring that decertified levees and other protections are included in flood insurance rate maps and their corresponding flood zones reflect the level of protection conferred;

(E) consider how to incorporate restored wetlands and other natural buffers into flood insurance rate maps, which may include wetlands, groundwater recharge areas, erosion zones, meander belts, endangered species habitat, barrier islands and shoreline buffer features, riparian forests, and other features;

(F) consider whether to use vertical positioning (as defined by the Administrator) for flood insurance rate maps;

(G) ensure that flood insurance rate maps differentiate between a property that is located in a flood zone and a structure located on such

property that is not at the same risk level for flooding as such property due to the elevation of the structure;

(H) ensure that flood insurance rate maps take into consideration the best scientific data and potential future conditions (including projections for sea level rise); and

(I) consider how to incorporate the new standards proposed pursuant to this paragraph in existing mapping efforts.

(2) **ONGOING DUTIES.**—The Council shall, on an ongoing basis, review the mapping protocols developed pursuant to paragraph (1), and make recommendations to the Administrator when the Council determines that mapping protocols should be altered.

(3) **MEETINGS.**—In carrying out its duties under this section, the Council shall consult with stakeholders through at least 4 public meetings annually, and shall seek input of all stakeholder interests including State and local representatives, environmental and conservation organizations, insurance industry representatives, advocacy groups, planning organizations, and mapping organizations.

(d) **PROHIBITION ON COMPENSATION.**—Members of the Council shall receive no additional compensation by reason of their service on the Council.

(e) **CHAIRPERSON.**—The Administrator shall serve as the Chairperson of the Council.

(f) **STAFF.**—

(1) **FEMA.**—Upon the request of the Council, the Administrator may detail, on a nonreimbursable basis, personnel of the Federal Emergency Management Agency to assist the Council in carrying out its duties.

(2) **OTHER FEDERAL AGENCIES.**—Upon request of the Council, any other Federal agency that is a member of the Council may detail, on a nonreimbursable basis, personnel to assist the Council in carrying out its duties.

(g) **POWERS.**—In carrying out this section, the Council may hold hearings, receive evidence and assistance, provide information, and conduct research, as the Council considers appropriate.

(h) **TERMINATION.**—The Council shall terminate upon the expiration of the 5-year period beginning on the date of the enactment of this Act.

(i) **MORATORIUM ON FLOOD MAP CHANGES.**—

(1) **MORATORIUM.**—Except as provided in paragraph (2) and notwithstanding any other provision of this title, the National Flood Insurance Act of 1968, or the Flood Disaster Protection Act of 1973, during the period beginning upon the date of the enactment of this Act and ending upon the submission by the Council to the Administrator and the Congress of the proposed new mapping standards required under subsection (c)(1), the Administrator may not make effective any new or updated rate maps for flood insurance coverage under the national flood insurance program that were not in effect for such program as of such date of enactment, or otherwise revise, update, or change the flood insurance rate maps in effect for such program as of such date.

(2) **LETTERS OF MAP CHANGE.**—During the period described in paragraph (1), the Administrator may revise, update, and change the flood insurance rate maps in effect for the national flood insurance program only pursuant to a letter of map change (including a letter of map amendment, letter of map revision, and letter of map revision based on fill).

#### **SEC. 3007. FEMA INCORPORATION OF NEW MAPPING PROTOCOLS.**

(a) **NEW RATE MAPPING STANDARDS.**—Not later than the expiration of the 6-month period beginning upon submission by the Technical Mapping Advisory Council under section 3006 of the proposed new mapping standards for flood insurance rate maps used under the national

flood insurance program developed by the Council pursuant to section 3006(c), the Administrator of the Federal Emergency Management Agency (in this section referred to as the “Administrator”) shall establish new standards for such rate maps based on such proposed new standards and the recommendations of the Council.

(b) **REQUIREMENTS.**—The new standards for flood insurance rate maps established by the Administrator pursuant to subsection (a) shall—

(1) delineate and include in any such rate maps—

(A) all areas located within the 100-year flood plain; and

(B) areas subject to graduated and other risk levels, to the maximum extent possible;

(2) ensure that any such rate maps—

(A) include levees, including decertified levees, and the level of protection they confer;

(B) reflect current land use and topography and incorporate the most current and accurate ground level data;

(C) take into consideration the impacts and use of fill and the flood risks associated with altered hydrology;

(D) differentiate between a property that is located in a flood zone and a structure located on such property that is not at the same risk level for flooding as such property due to the elevation of the structure;

(E) identify and incorporate natural features and their associated flood protection benefits into mapping and rates; and

(F) identify, analyze, and incorporate the impact of significant changes to building and development throughout any river or coastal water system, including all tributaries, which may impact flooding in areas downstream; and

(3) provide that such rate maps are developed on a watershed basis.

(c) **REPORT.**—If, in establishing new standards for flood insurance rate maps pursuant to subsection (a) of this section, the Administrator does not implement all of the recommendations of the Council made under the proposed new mapping standards developed by the Council pursuant to section 3006(c), upon establishment of the new standards the Administrator shall submit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate specifying which such recommendations were not adopted and explaining the reasons such recommendations were not adopted.

(d) **IMPLEMENTATION.**—The Administrator shall, not later than the expiration of the 6-month period beginning upon establishment of the new standards for flood insurance rate maps pursuant to subsection (a) of this section, commence use of the new standards and updating of flood insurance rate maps in accordance with the new standards. Not later than the expiration of the 10-year period beginning upon the establishment of such new standards, the Administrator shall complete updating of all flood insurance rate maps in accordance with the new standards, subject to the availability of sufficient amounts for such activities provided in appropriation Acts.

(e) **TEMPORARY SUSPENSION OF MANDATORY PURCHASE REQUIREMENT FOR CERTAIN PROPERTIES.**—

(1) **SUBMISSION OF ELEVATION CERTIFICATE.**—Subject to paragraphs (2) and (3) of this subsection, subsections (a), (b), and (e) of section 102 of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a), and section 202(a) of such Act, shall not apply to a property located in an area designated as having a special flood hazard if the owner of such property submits to the Administrator an elevation certificate for such property showing that the lowest level of the

primary residence on such property is at an elevation that is at least three feet higher than the elevation of the 100-year flood plain.

(2) **REVIEW OF CERTIFICATE.**—The Administrator shall accept as conclusive each elevation certificate submitted under paragraph (1) unless the Administrator conducts a subsequent elevation survey and determines that the lowest level of the primary residence on the property in question is not at an elevation that is at least three feet higher than the elevation of the 100-year flood plain. The Administrator shall provide any such subsequent elevation survey to the owner of such property.

(3) **DETERMINATIONS FOR PROPERTIES ON BORDERS OF SPECIAL FLOOD HAZARD AREAS.**—

(A) **EXPEDITED DETERMINATION.**—In the case of any survey for a property submitted to the Administrator pursuant to paragraph (1) showing that a portion of the property is located within an area having special flood hazards and that a structure located on the property is not located within such area having special flood hazards, the Administrator shall expeditiously process any request made by an owner of the property for a determination pursuant to paragraph (2) or a determination of whether the structure is located within the area having special flood hazards.

(B) **PROHIBITION OF FEE.**—If the Administrator determines pursuant to subparagraph (A) that the structure on the property is not located within the area having special flood hazards, the Administrator shall not charge a fee for reviewing the flood hazard data and shall not require the owner to provide any additional elevation data.

(C) **SIMPLIFICATION OF REVIEW PROCESS.**—The Administrator shall collaborate with private sector flood insurers to simplify the review process for properties described in subparagraph (A) and to ensure that the review process provides for accurate determinations.

(4) **TERMINATION OF AUTHORITY.**—This subsection shall cease to apply to a property on the date on which the Administrator updates the flood insurance rate map that applies to such property in accordance with the requirements of subsection (d).

#### SEC. 3008. TREATMENT OF LEVEES.

Section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101) is amended by adding at the end the following new subsection:

“(k) **TREATMENT OF LEVEES.**—The Administrator may not issue flood insurance maps, or make effective updated flood insurance maps, that omit or disregard the actual protection afforded by an existing levee, floodwall, pump or other flood protection feature, regardless of the accreditation status of such feature.”.

#### SEC. 3009. PRIVATIZATION INITIATIVES.

(a) **FEMA AND GAO REPORTS.**—Not later than the expiration of the 18-month period beginning on the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency and the Comptroller General of the United States shall each conduct a separate study to assess a broad range of options, methods, and strategies for privatizing the national flood insurance program and shall each submit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate with recommendations for the best manner to accomplish such privatization.

(b) **PRIVATE RISK-MANAGEMENT INITIATIVES.**—

(1) **AUTHORITY.**—The Administrator of the Federal Emergency Management Agency may carry out such private risk-management initiatives under the national flood insurance program as the Administrator considers appropriate to determine the capacity of private insurers, reinsurers, and financial markets to assist communities, on a voluntary basis only, in managing

the full range of financial risks associated with flooding.

(2) **ASSESSMENT.**—Not later than the expiration of the 12-month period beginning on the date of the enactment of this Act, the Administrator shall assess the capacity of the private reinsurance, capital, and financial markets by seeking proposals to assume a portion of the program's insurance risk and submit to the Congress a report describing the response to such request for proposals and the results of such assessment.

(3) **PROTOCOL FOR RELEASE OF DATA.**—The Administrator shall develop a protocol to provide for the release of data sufficient to conduct the assessment required under paragraph (2).

(c) **REINSURANCE.**—The National Flood Insurance Act of 1968 is amended—

(1) in section 1331(a)(2) (42 U.S.C. 4051(a)(2)), by inserting “, including as reinsurance of insurance coverage provided by the flood insurance program” before “, on such terms”;

(2) in section 1332(c)(2) (42 U.S.C. 4052(c)(2)), by inserting “or reinsurance” after “flood insurance coverage”;

(3) in section 1335(a) (42 U.S.C. 4055(a))—

(A) by inserting “(1)” after “(a)”;

(B) by adding at the end the following new paragraph:

“(2) The Administrator is authorized to secure reinsurance coverage of coverage provided by the flood insurance program from private market insurance, reinsurance, and capital market sources at rates and on terms determined by the Administrator to be reasonable and appropriate in an amount sufficient to maintain the ability of the program to pay claims and that minimizes the likelihood that the program will utilize the borrowing authority provided under section 1309.”;

(4) in section 1346(a) (12 U.S.C. 4082(a))—

(A) in the matter preceding paragraph (1), by inserting “, or for purposes of securing reinsurance of insurance coverage provided by the program,” before “of any or all of”;

(B) in paragraph (1)—

(i) by striking “estimating” and inserting “Estimating”;

(ii) by striking the semicolon at the end and inserting a period;

(C) in paragraph (2)—

(i) by striking “receiving” and inserting “Receiving”;

(ii) by striking the semicolon at the end and inserting a period;

(D) in paragraph (3)—

(i) by striking “making” and inserting “Making”;

(ii) by striking “; and” and inserting a period;

(E) in paragraph (4)—

(i) by striking “otherwise” and inserting “Otherwise”;

(ii) by redesignating such paragraph as paragraph (5); and

(F) by inserting after paragraph (3) the following new paragraph:

“(4) Placing reinsurance coverage on insurance provided by such program.”;

(5) in section 1370(a)(3) (42 U.S.C. 4121(a)(3)), by inserting before the semicolon at the end the following: “, is subject to the reporting requirements of the Securities Exchange Act of 1934, pursuant to section 13(a) or 15(d) of such Act (15 U.S.C. 78m(a), 78o(d)), or is authorized by the Administrator to assume reinsurance on risks insured by the flood insurance program”.

(d) **ASSESSMENT OF CLAIMS-PAYING ABILITY.**—

(1) **ASSESSMENT.**—Not later than September 30 of each year, the Administrator of the Federal Emergency Management Agency shall conduct an assessment of the claims-paying ability of the national flood insurance program, including the program's utilization of private sector reinsurance and reinsurance equivalents, with and

without reliance on borrowing authority under section 1309 of the National Flood Insurance Act of 1968 (42 U.S.C. 4016). In conducting the assessment, the Administrator shall take into consideration regional concentrations of coverage written by the program, peak flood zones, and relevant mitigation measures.

(2) **REPORT.**—The Administrator shall submit a report to the Congress of the results of each such assessment, and make such report available to the public, not later than 30 days after completion of the assessment.

#### SEC. 3010. FEMA ANNUAL REPORT ON INSURANCE PROGRAM.

Section 1320 of the National Flood Insurance Act of 1968 (42 U.S.C. 4027) is amended—

(1) in the section heading, by striking “REPORT TO THE PRESIDENT” and inserting “ANNUAL REPORT TO CONGRESS”;

(2) in subsection (a)—

(A) by striking “biennially”;

(B) by striking “the President for submission to”;

(C) by inserting “not later than June 30 of each year” before the period at the end;

(3) in subsection (b), by striking “biennial” and inserting “annual”;

(4) by adding at the end the following new subsection:

“(c) **FINANCIAL STATUS OF PROGRAM.**—The report under this section for each year shall include information regarding the financial status of the national flood insurance program under this title, including a description of the financial status of the National Flood Insurance Fund and current and projected levels of claims, premium receipts, expenses, and borrowing under the program.”.

#### SEC. 3011. MITIGATION ASSISTANCE.

(a) **MITIGATION ASSISTANCE GRANTS.**—Section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c) is amended—

(1) in subsection (a), by striking the last sentence and inserting the following: “Such financial assistance shall be made available—

“(1) to States and communities in the form of grants under this section for carrying out mitigation activities;

“(2) to States and communities in the form of grants under this section for carrying out mitigation activities that reduce flood damage to severe repetitive loss structures; and

“(3) to property owners in the form of direct grants under this section for carrying out mitigation activities that reduce flood damage to individual structures for which 2 or more claim payments for losses have been made under flood insurance coverage under this title if the Administrator, after consultation with the State and community, determines that neither the State nor community in which such a structure is located has the capacity to manage such grants.”;

(2) by striking subsection (b);

(3) in subsection (c)—

(A) by striking “flood risk” and inserting “multi-hazard”;

(B) by striking “provides protection against” and inserting “examines reduction of”;

(C) by redesignating such subsection as subsection (b);

(4) by striking subsection (d);

(5) in subsection (e)—

(A) in paragraph (1), by striking the paragraph designation and all that follows through the end of the first sentence and inserting the following:

“(1) **REQUIREMENT OF CONSISTENCY WITH APPROVED MITIGATION PLAN.**—Amounts provided under this section may be used only for mitigation activities that are consistent with mitigation plans that are approved by the Administrator and identified under subparagraph (4).”;

(B) by striking paragraphs (2), (3), and (4) and inserting the following new paragraphs:

“(2) **REQUIREMENTS OF TECHNICAL FEASIBILITY, COST EFFECTIVENESS, AND INTEREST OF NFIF.**—The Administrator may approve only mitigation activities that the Administrator determines are technically feasible and cost-effective and in the interest of, and represent savings to, the National Flood Insurance Fund. In making such determinations, the Administrator shall take into consideration recognized benefits that are difficult to quantify.

“(3) **PRIORITY FOR MITIGATION ASSISTANCE.**—In providing grants under this section for mitigation activities, the Administrator shall give priority for funding to activities that the Administrator determines will result in the greatest savings to the National Flood Insurance Fund, including activities for—

“(A) severe repetitive loss structures;

“(B) repetitive loss structures; and

“(C) other subsets of structures as the Administrator may establish.”;

(C) in paragraph (5)—

(i) by striking all of the matter that precedes subparagraph (A) and inserting the following:

“(4) **ELIGIBLE ACTIVITIES.**—Eligible activities may include—”;

(ii) by striking subparagraphs (E) and (H);

(iii) by redesignating subparagraphs (D), (F), and (G) as subparagraphs (E), (G), and (H);

(iv) by inserting after subparagraph (C) the following new subparagraph:

“(D) elevation, relocation, and floodproofing of utilities (including equipment that serve structures);”;

(v) by inserting after subparagraph (E), as so redesignated by clause (iii) of this subparagraph, the following new subparagraph:

“(F) the development or update of State, local, or Indian tribal mitigation plans which meet the planning criteria established by the Administrator, except that the amount from grants under this section that may be used under this subparagraph may not exceed \$50,000 for any mitigation plan of a State or \$25,000 for any mitigation plan of a local government or Indian tribe;”;

(vi) in subparagraph (H); as so redesignated by clause (iii) of this subparagraph, by striking “and” at the end; and

(vii) by adding at the end the following new subparagraphs:

“(I) other mitigation activities not described in subparagraphs (A) through (G) or the regulations issued under subparagraph (H), that are described in the mitigation plan of a State, community, or Indian tribe; and

“(J) personnel costs for State staff that provide technical assistance to communities to identify eligible activities, to develop grant applications, and to implement grants awarded under this section, not to exceed \$50,000 per State in any Federal fiscal year, so long as the State applied for and was awarded at least \$1,000,000 in grants available under this section in the prior Federal fiscal year; the requirements of subsections (d)(1) and (d)(2) shall not apply to the activity under this subparagraph.”;

(D) by adding at the end the following new paragraph:

“(6) **ELIGIBILITY OF DEMOLITION AND REBUILDING OF PROPERTIES.**—The Administrator shall consider as an eligible activity the demolition and rebuilding of properties to at least base flood elevation or greater, if required by the Administrator or if required by any State regulation or local ordinance, and in accordance with criteria established by the Administrator.”; and

(E) by redesignating such subsection as subsection (c);

(6) by striking subsections (f), (g), and (h) and inserting the following new subsection:

“(d) **MATCHING REQUIREMENT.**—The Administrator may provide grants for eligible mitigation activities as follows:

“(1) **SEVERE REPETITIVE LOSS STRUCTURES.**—In the case of mitigation activities to severe repetitive loss structures, in an amount up to 100 percent of all eligible costs.

“(2) **REPETITIVE LOSS STRUCTURES.**—In the case of mitigation activities to repetitive loss structures, in an amount up to 90 percent of all eligible costs.

“(3) **OTHER MITIGATION ACTIVITIES.**—In the case of all other mitigation activities, in an amount up to 75 percent of all eligible costs.”;

(7) in subsection (i)—

(A) in paragraph (2)—

(i) by striking “certified under subsection (g)” and inserting “required under subsection (d)”;

and

(ii) by striking “3 times the amount” and inserting “the amount”; and

(B) by redesignating such subsection as subsection (e);

(8) in subsection (j)—

(A) in paragraph (1), by striking “Riegle Community Development and Regulatory Improvement Act of 1994” and inserting “Flood Insurance Reform Act of 2011”;

(B) by redesignating such subsection as subsection (f); and

(9) by striking subsections (k) and (m) and inserting the following new subsections:

“(g) **FAILURE TO MAKE GRANT AWARD WITHIN 5 YEARS.**—For any application for a grant under this section for which the Administrator fails to make a grant award within 5 years of the date of application, the grant application shall be considered to be denied and any funding amounts allocated for such grant applications shall remain in the National Flood Mitigation Fund under section 1367 of this title and shall be made available for grants under this section.

“(h) **LIMITATION ON FUNDING FOR MITIGATION ACTIVITIES FOR SEVERE REPETITIVE LOSS STRUCTURES.**—The amount used pursuant to section 1310(a)(8) in any fiscal year may not exceed \$40,000,000 and shall remain available until expended.

“(i) **DEFINITIONS.**—For purposes of this section, the following definitions shall apply:

“(1) **COMMUNITY.**—The term ‘community’ means—

“(A) a political subdivision that—

“(i) has zoning and building code jurisdiction over a particular area having special flood hazards; and

“(ii) is participating in the national flood insurance program; or

“(B) a political subdivision of a State, or other authority, that is designated by political subdivisions, all of which meet the requirements of subparagraph (A), to administer grants for mitigation activities for such political subdivisions.

“(2) **REPETITIVE LOSS STRUCTURE.**—The term ‘repetitive loss structure’ has the meaning given such term in section 1370.

“(3) **SEVERE REPETITIVE LOSS STRUCTURE.**—The term ‘severe repetitive loss structure’ means a structure that—

“(A) is covered under a contract for flood insurance made available under this title; and

“(B) has incurred flood-related damage—

“(i) for which 4 or more separate claims payments have been made under flood insurance coverage under this title, with the amount of each such claim exceeding \$15,000, and with the cumulative amount of such claims payments exceeding \$60,000; or

“(ii) for which at least 2 separate claims payments have been made under such coverage, with the cumulative amount of such claims exceeding the value of the insured structure.”.

(b) **ELIMINATION OF GRANTS PROGRAM FOR REPETITIVE INSURANCE CLAIMS PROPERTIES.**—Chapter I of the National Flood Insurance Act

of 1968 is amended by striking section 1323 (42 U.S.C. 4030).

(c) **ELIMINATION OF PILOT PROGRAM FOR MITIGATION OF SEVERE REPETITIVE LOSS PROPERTIES.**—Chapter III of the National Flood Insurance Act of 1968 is amended by striking section 1361A (42 U.S.C. 4102a).

(d) **NATIONAL FLOOD INSURANCE FUND.**—Section 1310(a) of the National Flood Insurance Act of 1968 (42 U.S.C. 4017(a)) is amended—

(1) in paragraph (6), by inserting “and” after the semicolon;

(2) in paragraph (7), by striking the semicolon and inserting a period; and

(3) by striking paragraphs (8) and (9).

(e) **NATIONAL FLOOD MITIGATION FUND.**—Section 1367 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104d) is amended—

(1) in subsection (b)—

(A) by striking paragraph (1) and inserting the following new paragraph:

“(1) in each fiscal year, from the National Flood Insurance Fund in amounts not exceeding \$90,000,000 to remain available until expended, of which—

“(A) not more than \$40,000,000 shall be available pursuant to subsection (a) of this section only for assistance described in section 1366(a)(1);

“(B) not more than \$40,000,000 shall be available pursuant to subsection (a) of this section only for assistance described in section 1366(a)(2); and

“(C) not more than \$10,000,000 shall be available pursuant to subsection (a) of this section only for assistance described in section 1366(a)(3).”;

(B) in paragraph (3), by striking “section 1366(i)” and inserting “section 1366(e)”;

(2) in subsection (c), by striking “sections 1366 and 1323” and inserting “section 1366”;

(3) by redesignating subsections (d) and (e) as subsections (f) and (g), respectively; and

(4) by inserting after subsection (c) the following new subsections:

“(d) **PROHIBITION ON OFFSETTING COLLECTIONS.**—Notwithstanding any other provision of this title, amounts made available pursuant to this section shall not be subject to offsetting collections through premium rates for flood insurance coverage under this title.

“(e) **CONTINUED AVAILABILITY AND REALLOCATION.**—Any amounts made available pursuant to subparagraph (A), (B), or (C) of subsection (b)(1) that are not used in any fiscal year shall continue to be available for the purposes specified in such subparagraph of subsection (b)(1) pursuant to which such amounts were made available, unless the Administrator determines that reallocation of such unused amounts to meet demonstrated need for other mitigation activities under section 1366 is in the best interest of the National Flood Insurance Fund.”.

(f) **INCREASED COST OF COMPLIANCE COVERAGE.**—Section 1304(b)(4) of the National Flood Insurance Act of 1968 (42 U.S.C. 4011(b)(4)) is amended—

(1) by striking subparagraph (B); and

(2) by redesignating subparagraphs (C), (D), and (E) as subparagraphs (B), (C), and (D), respectively.

**SEC. 3012. NOTIFICATION TO HOMEOWNERS REGARDING MANDATORY PURCHASE REQUIREMENT APPLICABILITY AND RATE PHASE-INS.**

Section 201 of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4105) is amended by adding at the end the following new subsection:

“(f) **ANNUAL NOTIFICATION.**—The Administrator, in consultation with affected communities, shall establish and carry out a plan to notify residents of areas having special flood hazards, on an annual basis—

“(1) that they reside in such an area;

“(2) of the geographical boundaries of such area;

“(3) of whether section 1308(g) of the National Flood Insurance Act of 1968 applies to properties within such area;

“(4) of the provisions of section 102 requiring purchase of flood insurance coverage for properties located in such an area, including the date on which such provisions apply with respect to such area, taking into consideration section 102(i); and

“(5) of a general estimate of what similar homeowners in similar areas typically pay for flood insurance coverage, taking into consideration section 1308(g) of the National Flood Insurance Act of 1968.”.

**SEC. 3013. NOTIFICATION TO MEMBERS OF CONGRESS OF FLOOD MAP REVISIONS AND UPDATES.**

Section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101), as amended by the preceding provisions of this title, is further amended by adding at the end the following new subsection:

“(1) **NOTIFICATION TO MEMBERS OF CONGRESS OF MAP MODERNIZATION.**—Upon any revision or update of any floodplain area or flood-risk zone pursuant to subsection (f), any decision pursuant to subsection (f)(1) that such revision or update is necessary, any issuance of preliminary maps for such revision or updating, or any other significant action relating to any such revision or update, the Administrator shall notify the Senators for each State affected, and each Member of the House of Representatives for each congressional district affected, by such revision or update in writing of the action taken.”.

**SEC. 3014. NOTIFICATION AND APPEAL OF MAP CHANGES; NOTIFICATION TO COMMUNITIES OF ESTABLISHMENT OF FLOOD ELEVATIONS.**

Section 1363 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104) is amended by striking the section designation and all that follows through the end of subsection (a) and inserting the following:

“SEC. 1363. (a) In establishing projected flood elevations for land use purposes with respect to any community pursuant to section 1361, the Director shall first propose such determinations—

“(1) by providing the chief executive officer of each community affected by the proposed elevations, by certified mail, with a return receipt requested, notice of the elevations, including a copy of the maps for the elevations for such community and a statement explaining the process under this section to appeal for changes in such elevations;

“(2) by causing notice of such elevations to be published in the Federal Register, which notice shall include information sufficient to identify the elevation determinations and the communities affected, information explaining how to obtain copies of the elevations, and a statement explaining the process under this section to appeal for changes in the elevations;

“(3) by publishing in a prominent local newspaper the elevations, a description of the appeals process for flood determinations, and the mailing address and telephone number of a person the owner may contact for more information or to initiate an appeal; and

“(4) by providing written notification, by first class mail, to each owner of real property affected by the proposed elevations of—

“(A) the status of such property, both prior to and after the effective date of the proposed determination, with respect to flood zone and flood insurance requirements under this Act and the Flood Disaster Protection Act of 1973;

“(B) the process under this section to appeal a flood elevation determination; and

“(C) the mailing address and phone number of a person the owner may contact for more information or to initiate an appeal.”.

**SEC. 3015. NOTIFICATION TO TENANTS OF AVAILABILITY OF CONTENTS INSURANCE.**

The National Flood Insurance Act of 1968 is amended by inserting after section 1308 (42 U.S.C. 4015) the following new section:

**“SEC. 1308A. NOTIFICATION TO TENANTS OF AVAILABILITY OF CONTENTS INSURANCE.**

“(a) **IN GENERAL.**—The Administrator shall, upon entering into a contract for flood insurance coverage under this title for any property—

“(1) provide to the insured sufficient copies of the notice developed pursuant to subsection (b); and

“(2) require the insured to provide a copy of the notice, or otherwise provide notification of the information under subsection (b) in the manner that the manager or landlord deems most appropriate, to each such tenant and to each new tenant upon commencement of such a tenancy.

“(b) **NOTICE.**—Notice to a tenant of a property in accordance with this subsection is written notice that clearly informs a tenant—

“(1) whether the property is located in an area having special flood hazards;

“(2) that flood insurance coverage is available under the national flood insurance program under this title for contents of the unit or structure leased by the tenant;

“(3) of the maximum amount of such coverage for contents available under this title at that time; and

“(4) of where to obtain information regarding how to obtain such coverage, including a telephone number, mailing address, and Internet site of the Administrator where such information is available.”.

**SEC. 3016. NOTIFICATION TO POLICY HOLDERS REGARDING DIRECT MANAGEMENT OF POLICY BY FEMA.**

Part C of chapter II of the National Flood Insurance Act of 1968 (42 U.S.C. 4081 et seq.) is amended by adding at the end the following new section:

**“SEC. 1349. NOTIFICATION TO POLICY HOLDERS REGARDING DIRECT MANAGEMENT OF POLICY BY FEMA.**

“(a) **NOTIFICATION.**—Not later than 60 days before the date on which a transferred flood insurance policy expires, and annually thereafter until such time as the Federal Emergency Management Agency is no longer directly administering such policy, the Administrator shall notify the holder of such policy that—

“(1) the Federal Emergency Management Agency is directly administering the policy;

“(2) such holder may purchase flood insurance that is directly administered by an insurance company; and

“(3) purchasing flood insurance offered under the National Flood Insurance Program that is directly administered by an insurance company will not alter the coverage provided or the premiums charged to such holder that otherwise would be provided or charged if the policy was directly administered by the Federal Emergency Management Agency.

“(b) **DEFINITION.**—In this section, the term ‘transferred flood insurance policy’ means a flood insurance policy that—

“(1) was directly administered by an insurance company at the time the policy was originally purchased by the policy holder; and

“(2) at the time of renewal of the policy, direct administration of the policy was or will be transferred to the Federal Emergency Management Agency.”.

**SEC. 3017. NOTICE OF AVAILABILITY OF FLOOD INSURANCE AND ESCROW IN RESPA GOOD FAITH ESTIMATE.**

Subsection (c) of section 5 of the Real Estate Settlement Procedures Act of 1974 (12 U.S.C. 2604(c)) is amended by adding at the end the fol-

lowing new sentence: “Each such good faith estimate shall include the following conspicuous statements and information: (1) that flood insurance coverage for residential real estate is generally available under the national flood insurance program whether or not the real estate is located in an area having special flood hazards and that, to obtain such coverage, a home owner or purchaser should contact the national flood insurance program; (2) a telephone number and a location on the Internet by which a home owner or purchaser can contact the national flood insurance program; and (3) that the escrowing of flood insurance payments is required for many loans under section 102(d) of the Flood Disaster Protection Act of 1973, and may be a convenient and available option with respect to other loans.”.

**SEC. 3018. REIMBURSEMENT FOR COSTS INCURRED BY HOMEOWNERS AND COMMUNITIES OBTAINING LETTERS OF MAP AMENDMENT OR REVISION.**

(a) **IN GENERAL.**—Section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101), as amended by the preceding provisions of this title, is further amended by adding at the end the following new subsection:

“(m) **REIMBURSEMENT.**—

“(1) **REQUIREMENT UPON BONA FIDE ERROR.**—If an owner of any property located in an area described in section 102(i)(3) of the Flood Disaster Protection Act of 1973, or a community in which such a property is located, obtains a letter of map amendment, or a letter of map revision, due to a bona fide error on the part of the Administrator of the Federal Emergency Management Agency, the Administrator shall reimburse such owner, or such entity or jurisdiction acting on such owner’s behalf, or such community, as applicable, for any reasonable costs incurred in obtaining such letter.

“(2) **REASONABLE COSTS.**—The Administrator shall, by regulation or notice, determine a reasonable amount of costs to be reimbursed under paragraph (1), except that such costs shall not include legal or attorneys fees. In determining the reasonableness of costs, the Administrator shall only consider the actual costs to the owner or community, as applicable, of utilizing the services of an engineer, surveyor, or similar services.”.

(b) **REGULATIONS.**—Not later than 90 days after the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency shall issue the regulations or notice required under section 1360(m)(2) of the National Flood Insurance Act of 1968, as added by the amendment made by subsection (a) of this section.

**SEC. 3019. ENHANCED COMMUNICATION WITH CERTAIN COMMUNITIES DURING MAP UPDATING PROCESS.**

Section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101), as amended by the preceding provisions of this title, is further amended by adding at the end the following new subsection:

“(n) **ENHANCED COMMUNICATION WITH CERTAIN COMMUNITIES DURING MAP UPDATING PROCESS.**—In updating flood insurance maps under this section, the Administrator shall communicate with communities located in areas where flood insurance rate maps have not been updated in 20 years or more and the appropriate State emergency agencies to resolve outstanding issues, provide technical assistance, and disseminate all necessary information to reduce the prevalence of outdated maps in flood-prone areas.”.

**SEC. 3020. NOTIFICATION TO RESIDENTS NEWLY INCLUDED IN FLOOD HAZARD AREAS.**

Section 1360 of the National Flood Insurance Act of 1968 (42 U.S.C. 4101), as amended by the preceding provisions of this title, is further

amended by adding at the end the following new subsection:

“(o) **NOTIFICATION TO RESIDENTS NEWLY INCLUDED IN FLOOD HAZARD AREA.**—In revising or updating any areas having special flood hazards, the Administrator shall provide to each owner of a property to be newly included in such a special flood hazard area, at the time of issuance of such proposed revised or updated flood insurance maps, a copy of the proposed revised or updated flood insurance maps together with information regarding the appeals process under section 1363 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104).”

**SEC. 3021. TREATMENT OF SWIMMING POOL ENCLOSURES OUTSIDE OF HURRICANE SEASON.**

Chapter I of the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.) is amended by adding at the end the following new section:

**“SEC. 1325. TREATMENT OF SWIMMING POOL ENCLOSURES OUTSIDE OF HURRICANE SEASON.**

“In the case of any property that is otherwise in compliance with the coverage and building requirements of the national flood insurance program, the presence of an enclosed swimming pool located at ground level or in the space below the lowest floor of a building after November 30 and before June 1 of any year shall have no effect on the terms of coverage or the ability to receive coverage for such building under the national flood insurance program established pursuant to this title, if the pool is enclosed with non-supporting breakaway walls.”

**SEC. 3022. INFORMATION REGARDING MULTIPLE PERILS CLAIMS.**

Section 1345 of the National Flood Insurance Act of 1968 (42 U.S.C. 4081) is amended by adding at the end the following new subsection:

“(d) **INFORMATION REGARDING MULTIPLE PERILS CLAIMS.**—

“(1) **IN GENERAL.**—Subject to paragraph (2), if an insured having flood insurance coverage under a policy issued under the program under this title by the Administrator or a company, insurer, or entity offering flood insurance coverage under such program (in this subsection referred to as a ‘participating company’) has wind or other homeowners coverage from any company, insurer, or other entity covering property covered by such flood insurance, in the case of damage to such property that may have been caused by flood or by wind, the Administrator and the participating company, upon the request of the insured, shall provide to the insured, within 30 days of such request—

“(A) a copy of the estimate of structure damage;

“(B) proofs of loss;

“(C) any expert or engineering reports or documents commissioned by or relied upon by the Administrator or participating company in determining whether the damage was caused by flood or any other peril; and

“(D) the Administrator’s or the participating company’s final determination on the claim.

“(2) **TIMING.**—Paragraph (1) shall apply only with respect to a request described in such paragraph made by an insured after the Administrator or the participating company, or both, as applicable, have issued a final decision on the flood claim involved and resolution of all appeals with respect to such claim.”

**SEC. 3023. FEMA AUTHORITY TO REJECT TRANSFER OF POLICIES.**

Section 1345 of the National Flood Insurance Act of 1968 (42 U.S.C. 4081) is amended by adding at the end the following new subsection:

“(e) **FEMA AUTHORITY TO REJECT TRANSFER OF POLICIES.**—Notwithstanding any other provision of this Act, the Administrator may, at the discretion of the Administrator, refuse to accept the transfer of the administration of policies for

coverage under the flood insurance program under this title that are written and administered by any insurance company or other insurer, or any insurance agent or broker.”

**SEC. 3024. APPEALS.**

(a) **TELEVISION AND RADIO ANNOUNCEMENT.**—Section 1363 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104) is amended—

(1) in subsection (a), by inserting after “determinations” by inserting the following: “by notifying a local television and radio station,”; and

(2) in the first sentence of subsection (b), by inserting before the period at the end the following: “and shall notify a local television and radio station at least once during the same 10-day period”.

(b) **EXTENSION OF APPEALS PERIOD.**—Subsection (b) of section 1363 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104(b)) is amended—

(1) by striking “(b) The Director” and inserting “(b)(1) The Administrator”; and

(2) by adding at the end the following new paragraph:

“(2) The Administrator shall grant an extension of the 90-day period for appeals referred to in paragraph (1) for 90 additional days if an affected community certifies to the Administrator, after the expiration of at least 60 days of such period, that the community—

“(A) believes there are property owners or lessees in the community who are unaware of such period for appeals; and

“(B) will utilize the extension under this paragraph to notify property owners or lessees who are affected by the proposed flood elevation determinations of the period for appeals and the opportunity to appeal the determinations proposed by the Administrator.”

(c) **APPLICABILITY.**—The amendments made by subsections (a) and (b) shall apply with respect to any flood elevation determination for any area in a community that has not, as of the date of the enactment of this Act, been issued a Letter of Final Determination for such determination under the flood insurance map modernization process.

**SEC. 3025. RESERVE FUND.**

(a) **ESTABLISHMENT.**—Chapter I of the National Flood Insurance Act of 1968 is amended by inserting after section 1310 (42 U.S.C. 4017) the following new section:

**“SEC. 1310A. RESERVE FUND.**

“(a) **ESTABLISHMENT OF RESERVE FUND.**—In carrying out the flood insurance program authorized by this title, the Administrator shall establish in the Treasury of the United States a National Flood Insurance Reserve Fund (in this section referred to as the ‘Reserve Fund’) which shall—

“(1) be an account separate from any other accounts or funds available to the Administrator; and

“(2) be available for meeting the expected future obligations of the flood insurance program.

“(b) **RESERVE RATIO.**—Subject to the phase-in requirements under subsection (d), the Reserve Fund shall maintain a balance equal to—

“(1) 1 percent of the sum of the total potential loss exposure of all outstanding flood insurance policies in force in the prior fiscal year; or

“(2) such higher percentage as the Administrator determines to be appropriate, taking into consideration any circumstance that may raise a significant risk of substantial future losses to the Reserve Fund.

“(c) **MAINTENANCE OF RESERVE RATIO.**—

“(1) **IN GENERAL.**—The Administrator shall have the authority to establish, increase, or decrease the amount of aggregate annual insurance premiums to be collected for any fiscal year necessary—

“(A) to maintain the reserve ratio required under subsection (b); and

“(B) to achieve such reserve ratio, if the actual balance of such reserve is below the amount required under subsection (b).

“(2) **CONSIDERATIONS.**—In exercising the authority under paragraph (1), the Administrator shall consider—

“(A) the expected operating expenses of the Reserve Fund;

“(B) the insurance loss expenditures under the flood insurance program;

“(C) any investment income generated under the flood insurance program; and

“(D) any other factor that the Administrator determines appropriate.

“(3) **LIMITATIONS.**—In exercising the authority under paragraph (1), the Administrator shall be subject to all other provisions of this Act, including any provisions relating to chargeable premium rates and annual increases of such rates.

“(d) **PHASE-IN REQUIREMENTS.**—The phase-in requirements under this subsection are as follows:

“(1) **IN GENERAL.**—Beginning in fiscal year 2012 and not ending until the fiscal year in which the ratio required under subsection (b) is achieved, in each such fiscal year the Administrator shall place in the Reserve Fund an amount equal to not less than 7.5 percent of the reserve ratio required under subsection (b).

“(2) **AMOUNT SATISFIED.**—As soon as the ratio required under subsection (b) is achieved, and except as provided in paragraph (3), the Administrator shall not be required to set aside any amounts for the Reserve Fund.

“(3) **EXCEPTION.**—If at any time after the ratio required under subsection (b) is achieved, the Reserve Fund falls below the required ratio under subsection (b), the Administrator shall place in the Reserve Fund for that fiscal year an amount equal to not less than 7.5 percent of the reserve ratio required under subsection (b).

“(e) **LIMITATION ON RESERVE RATIO.**—In any given fiscal year, if the Administrator determines that the reserve ratio required under subsection (b) cannot be achieved, the Administrator shall submit a report to the Congress that—

“(1) describes and details the specific concerns of the Administrator regarding such consequences;

“(2) demonstrates how such consequences would harm the long-term financial soundness of the flood insurance program; and

“(3) indicates the maximum attainable reserve ratio for that particular fiscal year.

“(f) **AVAILABILITY OF AMOUNTS.**—The reserve ratio requirements under subsection (b) and the phase-in requirements under subsection (d) shall be subject to the availability of amounts in the National Flood Insurance Fund for transfer under section 1310(a)(10), as provided in section 1310(f).”

(b) **FUNDING.**—Subsection (a) of section 1310 of the National Flood Insurance Act of 1968 (42 U.S.C. 4017(a)) is amended—

(1) in paragraph (8), by striking “and” at the end;

(2) in paragraph (9), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(10) for transfers to the National Flood Insurance Reserve Fund under section 1310A, in accordance with such section.”

**SEC. 3026. CDBG ELIGIBILITY FOR FLOOD INSURANCE OUTREACH ACTIVITIES AND COMMUNITY BUILDING CODE ADMINISTRATION GRANTS.**

Section 105(a) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)) is amended—

(1) in paragraph (24), by striking “and” at the end;

(2) in paragraph (25), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following new paragraphs:

“(26) supplementing existing State or local funding for administration of building code enforcement by local building code enforcement departments, including for increasing staffing, providing staff training, increasing staff competence and professional qualifications, and supporting individual certification or departmental accreditation, and for capital expenditures specifically dedicated to the administration of the building code enforcement department, except that, to be eligible to use amounts as provided in this paragraph—

“(A) a building code enforcement department shall provide matching, non-Federal funds to be used in conjunction with amounts used under this paragraph in an amount—

“(i) in the case of a building code enforcement department serving an area with a population of more than 50,000, equal to not less than 50 percent of the total amount of any funds made available under this title that are used under this paragraph;

“(ii) in the case of a building code enforcement department serving an area with a population of between 20,001 and 50,000, equal to not less than 25 percent of the total amount of any funds made available under this title that are used under this paragraph; and

“(iii) in the case of a building code enforcement department serving an area with a population of less than 20,000, equal to not less than 12.5 percent of the total amount of any funds made available under this title that are used under this paragraph,

except that the Secretary may waive the matching fund requirements under this subparagraph, in whole or in part, based upon the level of economic distress of the jurisdiction in which is located the local building code enforcement department that is using amounts for purposes under this paragraph, and shall waive such matching fund requirements in whole for any recipient jurisdiction that has dedicated all building code permitting fees to the conduct of local building code enforcement; and

“(B) any building code enforcement department using funds made available under this title for purposes under this paragraph shall empanel a code administration and enforcement team consisting of at least 1 full-time building code enforcement officer, a city planner, and a health planner or similar officer; and

“(27) provision of assistance to local governmental agencies responsible for floodplain management activities (including such agencies of Indians tribes, as such term is defined in section 4 of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4103)) in communities that participate in the national flood insurance program under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), only for carrying out outreach activities to encourage and facilitate the purchase of flood insurance protection under such Act by owners and renters of properties in such communities and to promote educational activities that increase awareness of flood risk reduction; except that—

“(A) amounts used as provided under this paragraph shall be used only for activities designed to—

“(i) identify owners and renters of properties in communities that participate in the national flood insurance program, including owners of residential and commercial properties;

“(ii) notify such owners and renters when their properties become included in, or when they are excluded from, an area having special flood hazards and the effect of such inclusion or exclusion on the applicability of the mandatory flood insurance purchase requirement under section 102 of the Flood Disaster Protection Act of 1973 (42 U.S.C. 4012a) to such properties;

“(iii) educate such owners and renters regarding the flood risk and reduction of this risk in their community, including the continued flood risks to areas that are no longer subject to the flood insurance mandatory purchase requirement;

“(iv) educate such owners and renters regarding the benefits and costs of maintaining or acquiring flood insurance, including, where applicable, lower-cost preferred risk policies under this title for such properties and the contents of such properties;

“(v) encourage such owners and renters to maintain or acquire such coverage;

“(vi) notify such owners of where to obtain information regarding how to obtain such coverage, including a telephone number, mailing address, and Internet site of the Administrator of the Federal Emergency Management Agency (in this paragraph referred to as the ‘Administrator’) where such information is available; and

“(vii) educate local real estate agents in communities participating in the national flood insurance program regarding the program and the availability of coverage under the program for owners and renters of properties in such communities, and establish coordination and liaisons with such real estate agents to facilitate purchase of coverage under the National Flood Insurance Act of 1968 and increase awareness of flood risk reduction;

“(B) in any fiscal year, a local governmental agency may not use an amount under this paragraph that exceeds 3 times the amount that the agency certifies, as the Secretary, in consultation with the Administrator, shall require, that the agency will contribute from non-Federal funds to be used with such amounts used under this paragraph only for carrying out activities described in subparagraph (A); and for purposes of this subparagraph, the term ‘non-Federal funds’ includes State or local government agency amounts, in-kind contributions, any salary paid to staff to carry out the eligible activities of the local governmental agency involved, the value of the time and services contributed by volunteers to carry out such services (at a rate determined by the Secretary), and the value of any donated material or building and the value of any lease on a building;

“(C) a local governmental agency that uses amounts as provided under this paragraph may coordinate or contract with other agencies and entities having particular capacities, specialties, or experience with respect to certain populations or constituencies, including elderly or disabled families or persons, to carry out activities described in subparagraph (A) with respect to such populations or constituencies; and

“(D) each local government agency that uses amounts as provided under this paragraph shall submit a report to the Secretary and the Administrator, not later than 12 months after such amounts are first received, which shall include such information as the Secretary and the Administrator jointly consider appropriate to describe the activities conducted using such amounts and the effect of such activities on the retention or acquisition of flood insurance coverage.”

#### SEC. 3027. TECHNICAL CORRECTIONS.

(a) FLOOD DISASTER PROTECTION ACT OF 1973.—The Flood Disaster Protection Act of 1973 (42 U.S.C. 4002 et seq.) is amended—

(1) by striking “Director” each place such term appears, except in section 102(f)(3) (42 U.S.C. 4012a(f)(3)), and inserting “Administrator”; and

(2) in section 201(b) (42 U.S.C. 4105(b)), by striking “Director’s” and inserting “Administrator’s”.

(b) NATIONAL FLOOD INSURANCE ACT OF 1968.—The National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.) is amended—

(1) by striking “Director” each place such term appears and inserting “Administrator”; and

(2) in section 1363 (42 U.S.C. 4104), by striking “Director’s” each place such term appears and inserting “Administrator’s”.

(c) FEDERAL FLOOD INSURANCE ACT OF 1956.—Section 15(e) of the Federal Flood Insurance Act of 1956 (42 U.S.C. 2414(e)) is amended by striking “Director” each place such term appears and inserting “Administrator”.

#### SEC. 3028. REQUIRING COMPETITION FOR NATIONAL FLOOD INSURANCE PROGRAM POLICIES.

(a) REPORT.—Not later than the expiration of the 90-day period beginning upon the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency, in consultation with insurance companies, insurance agents and other organizations with which the Administrator has contracted, shall submit to the Congress a report describing procedures and policies that the Administrator shall implement to limit the percentage of policies for flood insurance coverage under the national flood insurance program that are directly managed by the Agency to not more than 10 percent of the aggregate number of flood insurance policies in force under such program.

(b) IMPLEMENTATION.—Upon submission of the report under subsection (a) to the Congress, the Administrator shall implement the policies and procedures described in the report. The Administrator shall, not later than the expiration of the 12-month period beginning upon submission of such report, reduce the number of policies for flood insurance coverage that are directly managed by the Agency, or by the Agency’s direct servicing contractor that is not an insurer, to not more than 10 percent of the aggregate number of flood insurance policies in force as of the expiration of such 12-month period.

(c) CONTINUATION OF CURRENT AGENT RELATIONSHIPS.—In carrying out subsection (b), the Administrator shall ensure that—

(1) agents selling or servicing policies described in such subsection are not prevented from continuing to sell or service such policies; and

(2) insurance companies are not prevented from waiving any limitation such companies could otherwise enforce to limit any such activity.

#### SEC. 3029. STUDIES OF VOLUNTARY COMMUNITY-BASED FLOOD INSURANCE OPTIONS.

(a) STUDIES.—The Administrator of the Federal Emergency Management Agency and the Comptroller General of the United States shall each conduct a separate study to assess options, methods, and strategies for offering voluntary community-based flood insurance policy options and incorporating such options into the national flood insurance program. Such studies shall take into consideration and analyze how the policy options would affect communities having varying economic bases, geographic locations, flood hazard characteristics or classifications, and flood management approaches.

(b) REPORTS.—Not later than the expiration of the 18-month period beginning on the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency and the Comptroller General of the United States shall each submit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate on the results and conclusions of the study such agency conducted under subsection (a), and each such report shall include recommendations for the best manner to incorporate voluntary community-based flood insurance options into the national flood insurance program and for a strategy to implement such options that would

encourage communities to undertake flood mitigation activities.

**SEC. 3030. REPORT ON INCLUSION OF BUILDING CODES IN FLOODPLAIN MANAGEMENT CRITERIA.**

Not later than the expiration of the 6-month period beginning on the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency shall conduct a study and submit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate regarding the impact, effectiveness, and feasibility of amending section 1361 of the National Flood Insurance Act of 1968 (42 U.S.C. 4102) to include widely used and nationally recognized building codes as part of the floodplain management criteria developed under such section, and shall determine—

(1) the regulatory, financial, and economic impacts of such a building code requirement on homeowners, States and local communities, local land use policies, and the Federal Emergency Management Agency;

(2) the resources required of State and local communities to administer and enforce such a building code requirement;

(3) the effectiveness of such a building code requirement in reducing flood-related damage to buildings and contents;

(4) the impact of such a building code requirement on the actuarial soundness of the National Flood Insurance Program;

(5) the effectiveness of nationally recognized codes in allowing innovative materials and systems for flood-resistant construction;

(6) the feasibility and effectiveness of providing an incentive in lower premium rates for flood insurance coverage under such Act for structures meeting whichever of such widely used and nationally recognized building code or any applicable local building code provides greater protection from flood damage;

(7) the impact of such a building code requirement on rural communities with different building code challenges than more urban environments; and

(8) the impact of such a building code requirement on Indian reservations.

**SEC. 3031. STUDY ON GRADUATED RISK.**

(a) **STUDY.**—The National Academy of Sciences shall conduct a study exploring methods for understanding graduated risk behind levees and the associated land development, insurance, and risk communication dimensions, which shall—

(1) research, review, and recommend current best practices for estimating direct annualized flood losses behind levees for residential and commercial structures;

(2) rank such practices based on their best value, balancing cost, scientific integrity, and the inherent uncertainties associated with all aspects of the loss estimate, including geotechnical engineering, flood frequency estimates, economic value, and direct damages;

(3) research, review, and identify current best floodplain management and land use practices behind levees that effectively balance social, economic, and environmental considerations as part of an overall flood risk management strategy;

(4) identify examples where such practices have proven effective and recommend methods and processes by which they could be applied more broadly across the United States, given the variety of different flood risks, State and local legal frameworks, and evolving judicial opinions;

(5) research, review, and identify a variety of flood insurance pricing options for flood hazards behind levees which are actuarially sound and based on the flood risk data developed

using the top three best value approaches identified pursuant to paragraph (1);

(6) evaluate and recommend methods to reduce insurance costs through creative arrangements between insureds and insurers while keeping a clear accounting of how much financial risk is being borne by various parties such that the entire risk is accounted for, including establishment of explicit limits on disaster aid or other assistance in the event of a flood; and

(7) taking into consideration the recommendations pursuant to paragraphs (1) through (3), recommend approaches to communicating the associated risks to community officials, homeowners, and other residents.

(b) **REPORT.**—Not later than the expiration of the 12-month period beginning on the date of the enactment of this Act, the National Academy of Sciences shall submit a report to the Committees on Financial Services and Science, Space, and Technology of the House of Representatives and the Committees on Banking, Housing, and Urban Affairs and Commerce, Science and Transportation of the Senate on the study under subsection (a) including the information and recommendations required under such subsection.

**SEC. 3032. REPORT ON FLOOD-IN-PROGRESS DETERMINATION.**

The Administrator of the Federal Emergency Management Agency shall review the processes and procedures for determining that a flood event has commenced or is in progress for purposes of flood insurance coverage made available under the national flood insurance program under the National Flood Insurance Act of 1968 and for providing public notification that such an event has commenced or is in progress. In such review, the Administrator shall take into consideration the effects and implications that weather conditions, such as rainfall, snowfall, projected snowmelt, existing water levels, and other conditions have on the determination that a flood event has commenced or is in progress. Not later than the expiration of the 6-month period beginning upon the date of the enactment of this Act, the Administrator shall submit a report to the Congress setting forth the results and conclusions of the review undertaken pursuant to this section and any actions undertaken or proposed actions to be taken to provide for a more precise and technical determination that a flooding event has commenced or is in progress.

**SEC. 3033. STUDY ON REPAYING FLOOD INSURANCE DEBT.**

Not later than the expiration of the 6-month period beginning on the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency shall submit a report to the Congress setting forth a plan for repaying within 10 years all amounts, including any amounts previously borrowed but not yet repaid, owed pursuant to clause (2) of subsection (a) of section 1309 of the National Flood Insurance Act of 1968 (42 U.S.C. 4016(a)(2)).

**SEC. 3034. NO CAUSE OF ACTION.**

No cause of action shall exist and no claim may be brought against the United States for violation of any notification requirement imposed upon the United States by this title or any amendment made by this title.

**SEC. 3035. AUTHORITY FOR THE CORPS OF ENGINEERS TO PROVIDE SPECIALIZED OR TECHNICAL SERVICES.**

(a) **IN GENERAL.**—Notwithstanding any other provision of law, upon the request of a State or local government, the Secretary of the Army may evaluate a levee system that was designed or constructed by the Secretary for the purposes of the National Flood Insurance Program established under chapter 1 of the National Flood Insurance Act of 1968 (42 U.S.C. 4011 et seq.).

(b) **REQUIREMENTS.**—A levee system evaluation under subsection (a) shall—

(1) comply with applicable regulations related to areas protected by a levee system;

(2) be carried out in accordance with such procedures as the Secretary, in consultation with the Administrator of the Federal Emergency Management Agency, may establish; and

(3) be carried out only if the State or local government agrees to reimburse the Secretary for all cost associated with the performance of the activities.

**TITLE IV—JUMPSTARTING OPPORTUNITY WITH BROADBAND SPECTRUM ACT OF 2011**

**SEC. 4001. SHORT TITLE.**

This title may be cited as the “Jumpstarting Opportunity with Broadband Spectrum Act of 2011” or the “JOBS Act of 2011”.

**SEC. 4002. DEFINITIONS.**

In this title:

(1) **700 MHZ D BLOCK SPECTRUM.**—The term “700 MHz D block spectrum” means the portion of the electromagnetic spectrum between the frequencies from 758 megahertz to 763 megahertz and between the frequencies from 788 megahertz to 793 megahertz.

(2) **700 MHZ PUBLIC SAFETY GUARD BAND SPECTRUM.**—The term “700 MHz public safety guard band spectrum” means the portion of the electromagnetic spectrum between the frequencies from 768 megahertz to 769 megahertz and between the frequencies from 798 megahertz to 799 megahertz.

(3) **700 MHZ PUBLIC SAFETY NARROWBAND SPECTRUM.**—The term “700 MHz public safety narrowband spectrum” means the portion of the electromagnetic spectrum between the frequencies from 769 megahertz to 775 megahertz and between the frequencies from 799 megahertz to 805 megahertz.

(4) **ADMINISTRATOR.**—The term “Administrator” means the entity selected under section 4203(a) to serve as Administrator of the National Public Safety Communications Plan.

(5) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Commerce for Communications and Information.

(6) **BOARD.**—The term “Board” means the Public Safety Communications Planning Board established under section 4202(a)(1).

(7) **BROADCAST TELEVISION LICENSEE.**—The term “broadcast television licensee” means the licensee of—

(A) a full-power television station; or

(B) a low-power television station that has been accorded primary status as a Class A television licensee under section 73.6001(a) of title 47, Code of Federal Regulations.

(8) **BROADCAST TELEVISION SPECTRUM.**—The term “broadcast television spectrum” means the portions of the electromagnetic spectrum between the frequencies from 54 megahertz to 72 megahertz, from 76 megahertz to 88 megahertz, from 174 megahertz to 216 megahertz, and from 470 megahertz to 698 megahertz.

(9) **COMMERCIAL MOBILE DATA SERVICE.**—The term “commercial mobile data service” means any mobile service (as defined in section 3 of the Communications Act of 1934 (47 U.S.C. 153)) that is—

(A) a data service;

(B) provided for profit; and

(C) available to the public or such classes of eligible users as to be effectively available to a substantial portion of the public, as specified by regulation by the Commission.

(10) **COMMERCIAL MOBILE SERVICE.**—The term “commercial mobile service” has the meaning given such term in section 332 of the Communications Act of 1934 (47 U.S.C. 332).

(11) **COMMERCIAL STANDARDS.**—The term “commercial standards” means the technical standards followed by the commercial mobile service and commercial mobile data service industries for network, device, and Internet Protocol connectivity. Such term includes standards

developed by the Third Generation Partnership Project (3GPP), the Institute of Electrical and Electronics Engineers (IEEE), the Alliance for Telecommunications Industry Solutions (ATIS), the Internet Engineering Task Force (IETF), and the International Telecommunication Union (ITU).

(12) **COMMISSION.**—The term “Commission” means the Federal Communications Commission.

(13) **EMERGENCY CALL.**—The term “emergency call” means any real-time communication with a public safety answering point or other emergency management or response agency, including—

(A) through voice, text, or video and related data; and

(B) nonhuman-initiated automatic event alerts, such as alarms, telematics, or sensor data, which may also include real-time voice, text, or video communications.

(14) **FORWARD AUCTION.**—The term “forward auction” means the portion of an incentive auction of broadcast television spectrum under section 4104(c).

(15) **INCENTIVE AUCTION.**—The term “incentive auction” means a system of competitive bidding under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by section 4103.

(16) **MULTICHANNEL VIDEO PROGRAMMING DISTRIBUTOR.**—The term “multichannel video programming distributor” has the meaning given such term in section 602 of the Communications Act of 1934 (47 U.S.C. 522).

(17) **NATIONAL PUBLIC SAFETY COMMUNICATIONS PLAN.**—The term “National Public Safety Communications Plan” or “Plan” means the plan adopted under section 4202(c).

(18) **NEXT GENERATION 9-1-1 SERVICES.**—The term “Next Generation 9-1-1 services” means an IP-based system comprised of hardware, software, data, and operational policies and procedures that—

(A) provides standardized interfaces from emergency call and message services to support emergency communications;

(B) processes all types of emergency calls, including voice, text, data, and multimedia information;

(C) acquires and integrates additional emergency call data useful to call routing and handling;

(D) delivers the emergency calls, messages, and data to the appropriate public safety answering point and other appropriate emergency entities;

(E) supports data or video communications needs for coordinated incident response and management; and

(F) provides broadband service to public safety answering points or other first responder entities.

(19) **NTIA.**—The term “NTIA” means the National Telecommunications and Information Administration.

(20) **PUBLIC SAFETY ANSWERING POINT.**—The term “public safety answering point” has the meaning given such term in section 222 of the Communications Act of 1934 (47 U.S.C. 222).

(21) **PUBLIC SAFETY BROADBAND SPECTRUM.**—The term “public safety broadband spectrum” means the portion of the electromagnetic spectrum between the frequencies from 763 megahertz to 768 megahertz and between the frequencies from 793 megahertz to 798 megahertz.

(22) **PUBLIC SAFETY COMMUNICATIONS.**—The term “public safety communications” means communications by providers of public safety services.

(23) **PUBLIC SAFETY SERVICES.**—The term “public safety services” has the meaning given such term in section 337 of the Communications Act of 1934 (47 U.S.C. 337).

(24) **REVERSE AUCTION.**—The term “reverse auction” means the portion of an incentive auc-

tion of broadcast television spectrum under section 4104(a), in which a broadcast television licensee may submit bids stating the amount it would accept for voluntarily relinquishing some or all of its broadcast television spectrum usage rights.

(25) **SPECTRUM LICENSED TO THE ADMINISTRATOR.**—The term “spectrum licensed to the Administrator” means the portion of the electromagnetic spectrum that the Administrator is licensed to use under section 4201(a).

(26) **STATE.**—The term “State” has the meaning given such term in section 3 of the Communications Act of 1934 (47 U.S.C. 153).

(27) **STATE PUBLIC SAFETY BROADBAND COMMUNICATIONS NETWORK.**—The term “State public safety broadband communications network” means a broadband network for public safety communications established by a State Public Safety Broadband Office, in accordance with the National Public Safety Communications Plan, using the spectrum licensed to the Administrator.

(28) **STATE PUBLIC SAFETY BROADBAND OFFICE.**—The term “State Public Safety Broadband Office” means an office established or designated under section 4221(a).

(29) **ULTRA HIGH FREQUENCY.**—The term “ultra high frequency” means, with respect to a television channel, that the channel is located in the portion of the electromagnetic spectrum between the frequencies from 470 megahertz to 698 megahertz.

(30) **VERY HIGH FREQUENCY.**—The term “very high frequency” means, with respect to a television channel, that the channel is located in the portion of the electromagnetic spectrum between the frequencies from 54 megahertz to 72 megahertz, from 76 megahertz to 88 megahertz, or from 174 megahertz to 216 megahertz.

#### SEC. 4003. RULE OF CONSTRUCTION.

Each range of frequencies described in this title shall be construed to be inclusive of the upper and lower frequencies in the range.

#### SEC. 4004. ENFORCEMENT.

(a) **IN GENERAL.**—The Commission shall implement and enforce this title as if this title is a part of the Communications Act of 1934 (47 U.S.C. 151 et seq.). A violation of this title, or a regulation promulgated under this title, shall be considered to be a violation of the Communications Act of 1934, or a regulation promulgated under such Act, respectively.

(b) **EXCEPTIONS.**—

(1) **OTHER AGENCIES.**—Subsection (a) does not apply in the case of a provision of this title that is expressly required to be carried out by an agency (as defined in section 551 of title 5, United States Code) other than the Commission.

(2) **NTIA REGULATIONS.**—The Assistant Secretary may promulgate such regulations as are necessary to implement and enforce any provision of this title that is expressly required to be carried out by the Assistant Secretary.

#### SEC. 4005. NATIONAL SECURITY RESTRICTIONS ON USE OF FUNDS AND AUCTION PARTICIPATION.

(a) **USE OF FUNDS.**—No funds made available by section 4102 or subtitle B may be used to make payments under a contract to a person described in subsection (c).

(b) **AUCTION PARTICIPATION.**—A person described in subsection (c) may not participate in a system of competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j))—

(1) that is required to be conducted by this title; or

(2) in which any spectrum usage rights for which licenses are being assigned were made available under clause (i) of subparagraph (G) of paragraph (8) of such section, as added by section 4103.

(c) **PERSON DESCRIBED.**—A person described in this subsection is a person who has been, for

reasons of national security, barred by any agency of the Federal Government from bidding on a contract, participating in an auction, or receiving a grant.

#### Subtitle A—Spectrum Auction Authority

#### SEC. 4101. DEADLINES FOR AUCTION OF CERTAIN SPECTRUM.

(a) **CLEARING CERTAIN FEDERAL SPECTRUM.**—

(1) **IN GENERAL.**—The President shall—

(A) not later than 3 years after the date of the enactment of this Act, begin the process of withdrawing or modifying the assignment to a Federal Government station of the electromagnetic spectrum described in paragraph (2); and

(B) not later than 30 days after completing the withdrawal or modification, notify the Commission that the withdrawal or modification is complete.

(2) **SPECTRUM DESCRIBED.**—The electromagnetic spectrum described in this paragraph is the following:

(A) The frequencies between 1755 megahertz and 1780 megahertz, except that if—

(i) the Secretary of Commerce—

(I) determines that such frequencies cannot be reallocated for non-Federal use because incumbent Federal operations cannot be eliminated, relocated to other spectrum, or accommodated through other means;

(II) identifies other spectrum for reallocation for non-Federal use that the Secretary of Commerce determines can reasonably be expected to produce a comparable amount of net auction proceeds; and

(III) submits to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that identifies such spectrum and explains the determinations under subclauses (I) and (II); and

(ii) not later than 1 year after the date of the submission of such report, there is enacted a law approving the substitution of the spectrum identified under clause (i)(II) for the frequencies between 1755 megahertz and 1780 megahertz;

the spectrum described in this subparagraph shall be the spectrum identified under such clause.

(B) The 15 megahertz of spectrum between 1675 megahertz and 1710 megahertz identified under paragraph (3).

(C) The frequencies between 3550 megahertz and 3650 megahertz, except for the geographic exclusion zones (as such zones may be amended) identified in the report of the NTIA published in October 2010 and entitled “An Assessment of Near-Term Viability of Accommodating Wireless Broadband Systems in 1675–1710 MHz, 1755–1780 MHz, 3500–3650 MHz, and 4200–4220 MHz, 4380–4400 MHz Bands”.

(3) **IDENTIFICATION BY SECRETARY OF COMMERCE.**—Not later than 1 year after the date of the enactment of this Act, the Secretary of Commerce shall submit to the President a report identifying 15 megahertz of spectrum between 1675 megahertz and 1710 megahertz for reallocation from Federal use to non-Federal use.

(b) **REALLOCATION AND AUCTION.**—

(1) **IN GENERAL.**—Notwithstanding paragraph (15)(A) of section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), not later than 3 years after the date of the enactment of this Act, the Commission shall, except as provided in paragraph (4)—

(A) allocate the spectrum described in paragraph (2) for commercial use; and

(B) through a system of competitive bidding under such section, grant new initial licenses for the use of such spectrum, subject to flexible-use service rules.

(2) **SPECTRUM DESCRIBED.**—The spectrum described in this paragraph is the following:

(A) The frequencies between 1915 megahertz and 1920 megahertz, paired with the frequencies between 1995 megahertz and 2000 megahertz.

(B) The frequencies described in subsection (a)(2)(A).

(C) The frequencies between 2155 megahertz and 2180 megahertz.

(D) The 15 megahertz of spectrum identified under subsection (a)(3), paired with 15 megahertz of contiguous spectrum to be identified by the Commission.

(E) The frequencies described in subsection (a)(2)(C).

(3) PROCEEDS TO COVER 110 PERCENT OF FEDERAL RELOCATION OR SHARING COSTS.—Nothing in paragraph (1) shall be construed to relieve the Commission from the requirements of section 309(j)(16)(B) of the Communications Act of 1934 (47 U.S.C. 309(j)(16)(B)).

(4) DETERMINATION BY COMMISSION.—If the Commission determines that either band of frequencies described in paragraph (2)(A) cannot be used without causing harmful interference to commercial mobile service licensees in the frequencies between 1930 megahertz and 1995 megahertz, the Commission may not—

(A) allocate for commercial use under paragraph (1)(A) either band described in paragraph (2)(A); or

(B) grant licenses under paragraph (1)(B) for the use of either band described in paragraph (2)(A).

(c) AUCTION PROCEEDS.—Section 309(j)(8) of the Communications Act of 1934 (47 U.S.C. 309(j)(8)) is amended—

(1) in subparagraph (A), by striking “(D), and (E),” and inserting “(D), (E), (F), and (G),”;

(2) in subparagraph (C)(i), by striking “subparagraph (E)(ii)” and inserting “subparagraphs (D)(ii), (E)(ii), (F), and (G)”;

(3) in subparagraph (D)—

(A) by striking the heading and inserting “PROCEEDS FROM REALLOCATED FEDERAL SPECTRUM”;

(B) by striking “Cash” and inserting the following:

“(i) IN GENERAL.—Except as provided in clause (ii), cash”;

(C) by adding at the end the following:

“(ii) CERTAIN OTHER PROCEEDS.—Notwithstanding subparagraph (A) and except as provided in subparagraph (B), in the case of proceeds (including deposits and upfront payments from successful bidders) attributable to the auction of eligible frequencies described in paragraph (2) of section 113(g) of the National Telecommunications and Information Administration Organization Act that are required to be auctioned by section 4101(b)(1)(B) of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011, such portion of such proceeds as is necessary to cover the relocation or sharing costs (as defined in paragraph (3) of such section 113(g)) of Federal entities relocated from such eligible frequencies shall be deposited in the Spectrum Relocation Fund. The remainder of such proceeds shall be deposited in the Public Safety Trust Fund established by section 4241(a)(1) of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011.”; and

(4) by adding at the end the following:

“(F) CERTAIN PROCEEDS DESIGNATED FOR PUBLIC SAFETY TRUST FUND.—Notwithstanding subparagraph (A) and except as provided in subparagraphs (B) and (D)(ii), the proceeds (including deposits and upfront payments from successful bidders) from the use of a system of competitive bidding under this subsection pursuant to section 4101(b)(1)(B) of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011 shall be deposited in the Public Safety Trust Fund established by section 4241(a)(1) of such Act.”.

**SEC. 4102. 700 MHZ PUBLIC SAFETY NARROWBAND SPECTRUM AND GUARD BAND SPECTRUM.**

(a) REALLOCATION AND AUCTION.—

(1) IN GENERAL.—On the date that is 5 years after a certification by the Administrator to the Commission of the availability of standards for public safety voice over broadband, the Commission shall, notwithstanding paragraph (15)(A) of section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j))—

(A) reallocate the 700 MHz public safety narrowband spectrum and the 700 MHz public safety guard band spectrum for commercial use; and

(B) begin a system of competitive bidding under such section to grant new initial licenses for the use of such spectrum.

(2) AUCTION PROCEEDS.—Notwithstanding subparagraphs (A) and (C)(i) of paragraph (8) of such section, not more than \$1,000,000,000 of the proceeds (including deposits and upfront payments from successful bidders) from the use of a system of competitive bidding pursuant to paragraph (1)(B) shall be available to the Assistant Secretary to carry out subsection (b) and shall remain available until expended.

(b) GRANTS FOR PUBLIC SAFETY RADIO EQUIPMENT.—

(1) IN GENERAL.—From amounts made available under subsection (a)(2), the Assistant Secretary shall make grants to States for the acquisition of public safety radio equipment.

(2) APPLICATION.—The Assistant Secretary may only make a grant under this subsection to a State that submits an application at such time, in such form, and containing such information and assurances as the Assistant Secretary may require.

(3) QUARTERLY REPORTS.—

(A) FROM GRANTEES TO NTIA.—A State receiving grant funds under this subsection shall, not later than 3 months after receiving such funds and not less frequently than quarterly thereafter until the date that is 1 year after all such funds have been expended, submit to the Assistant Secretary a report on the use of grant funds by such State.

(B) FROM NTIA TO CONGRESS.—Not later than 6 months after making the first grant under this subsection and not less frequently than quarterly thereafter until the date that is 18 months after all such funds have been expended by the grantees, the Assistant Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that—

(i) summarizes the reports submitted by grantees under subparagraph (A); and

(ii) describes and evaluates the use of grant funds disbursed under this subsection.

(c) CONFORMING AMENDMENTS.—Section 337(a) of the Communications Act of 1934 (47 U.S.C. 337(a)) is amended—

(1) in the matter preceding paragraph (1)—

(A) by striking “Not later than January 1, 1998, the” and inserting “The”; and

(B) by inserting “for either public safety services or commercial use,” after “inclusive,”;

(2) in paragraph (1)—

(A) by striking “24 megahertz” and inserting “Not more than 34 megahertz”; and

(B) by striking “, in consultation with the Secretary of Commerce and the Attorney General; and” and inserting a period; and

(3) in paragraph (2), by striking “36 megahertz” and inserting “Not more than 40 megahertz”.

**SEC. 4103. GENERAL AUTHORITY FOR INCENTIVE AUCTIONS.**

Section 309(j)(8) of the Communications Act of 1934, as amended by section 4101(c), is further amended by adding at the end the following:

“(G) INCENTIVE AUCTIONS.—

“(i) IN GENERAL.—Notwithstanding subparagraph (A) and except as provided in subparagraph (B), the Commission may encourage a li-

censee to relinquish voluntarily some or all of its licensed spectrum usage rights in order to permit the assignment of new initial licenses subject to flexible-use service rules by sharing with such licensee a portion, based on the value of the relinquished rights as determined in the reverse auction required by clause (ii)(I), of the proceeds (including deposits and upfront payments from successful bidders) from the use of a competitive bidding system under this subsection.

“(ii) LIMITATIONS.—The Commission may not enter into an agreement for a licensee to relinquish spectrum usage rights in exchange for a share of auction proceeds under clause (i) unless—

“(I) the Commission conducts a reverse auction to determine the amount of compensation that licensees would accept in return for voluntarily relinquishing spectrum usage rights; and

“(II) at least two competing licensees participate in the reverse auction.

“(iii) TREATMENT OF REVENUES.—Notwithstanding subparagraph (A) and except as provided in subparagraph (B), the proceeds (including deposits and upfront payments from successful bidders) from any auction, prior to the end of fiscal year 2021, of spectrum usage rights made available under clause (i) that are not shared with licensees under such clause shall be deposited as follows:

“(I) \$3,000,000,000 of the proceeds from the incentive auction of broadcast television spectrum required by section 4104 of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011 shall be deposited in the TV Broadcaster Relocation Fund established by subsection (d)(1) of such section.

“(II) All other proceeds shall be deposited—

“(aa) prior to the end of fiscal year 2021, in the Public Safety Trust Fund established by section 4241(a)(1) of such Act; and

“(bb) after the end of fiscal year 2021, in the general fund of the Treasury, where such proceeds shall be dedicated for the sole purpose of deficit reduction.

“(iv) CONGRESSIONAL NOTIFICATION.—At least 3 months before any incentive auction conducted under this subparagraph, the Chairman of the Commission, in consultation with the Director of the Office of Management and Budget, shall notify the appropriate committees of Congress of the methodology for calculating the amounts that will be shared with licensees under clause (i).

“(v) DEFINITION.—In this subparagraph, the term ‘appropriate committees of Congress’ means—

“(I) the Committee on Commerce, Science, and Transportation of the Senate;

“(II) the Committee on Appropriations of the Senate;

“(III) the Committee on Energy and Commerce of the House of Representatives; and

“(IV) the Committee on Appropriations of the House of Representatives.”.

**SEC. 4104. SPECIAL REQUIREMENTS FOR INCENTIVE AUCTION OF BROADCAST TV SPECTRUM.**

(a) REVERSE AUCTION TO IDENTIFY INCENTIVE AMOUNT.—

(1) IN GENERAL.—The Commission shall conduct a reverse auction to determine the amount of compensation that each broadcast television licensee would accept in return for voluntarily relinquishing some or all of its broadcast television spectrum usage rights in order to make spectrum available for assignment through a system of competitive bidding under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by section 4103.

(2) ELIGIBLE RELINQUISHMENTS.—A relinquishment of usage rights for purposes of paragraph (1) shall include the following:

(A) Relinquishing all usage rights with respect to a particular television channel without receiving in return any usage rights with respect to another television channel.

(B) Relinquishing all usage rights with respect to an ultra high frequency television channel in return for receiving usage rights with respect to a very high frequency television channel.

(C) Relinquishing usage rights in order to share a television channel with another licensee.

(3) **CONFIDENTIALITY.**—The Commission shall take all reasonable steps necessary to protect the confidentiality of Commission-held data of a licensee participating in the reverse auction under paragraph (1), including withholding the identity of such licensee until the reassignments and reallocations (if any) under subsection (b)(1)(B) become effective, as described in subsection (f)(2).

(4) **PROTECTION OF CARRIAGE RIGHTS OF LICENSEES SHARING A CHANNEL.**—A broadcast television station that voluntarily relinquishes spectrum usage rights under this subsection in order to share a television channel and that possessed carriage rights under section 338, 614, or 615 of the Communications Act of 1934 (47 U.S.C. 338; 534; 535) on November 30, 2010, shall have, at its shared location, the carriage rights under such section that would apply to such station at such location if it were not sharing a channel.

(b) **REORGANIZATION OF BROADCAST TV SPECTRUM.**—

(1) **IN GENERAL.**—For purposes of making available spectrum to carry out the forward auction under subsection (c)(1), the Commission—

(A) shall evaluate the broadcast television spectrum (including spectrum made available through the reverse auction under subsection (a)(1)); and

(B) may, subject to international coordination along the border with Mexico and Canada—

(i) make such reassignments of television channels as the Commission considers appropriate; and

(ii) reallocate such portions of such spectrum as the Commission determines are available for reallocation.

(2) **FACTORS FOR CONSIDERATION.**—In making any reassignments or reallocations under paragraph (1)(B), the Commission shall make all reasonable efforts to preserve, as of the date of the enactment of this Act, the coverage area and population served of each broadcast television licensee, as determined using the methodology described in OET Bulletin 69 of the Office of Engineering and Technology of the Commission.

(3) **NO INVOLUNTARY RELOCATION FROM UHF TO VHF.**—In making any reassignments under paragraph (1)(B)(i), the Commission may not involuntarily reassign a broadcast television licensee—

(A) from an ultra high frequency television channel to a very high frequency television channel; or

(B) from a television channel between the frequencies from 174 megahertz to 216 megahertz to a television channel between the frequencies from 54 megahertz to 88 megahertz.

(4) **PAYMENT OF RELOCATION COSTS.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), from amounts made available under subsection (d)(2), the Commission shall reimburse costs reasonably incurred by—

(i) a broadcast television licensee that was reassigned under paragraph (1)(B)(i) from one ultra high frequency television channel to a different ultra high frequency television channel, from one very high frequency television channel to a different very high frequency television channel, or, in accordance with subsection (g)(1)(B), from a very high frequency television channel to an ultra high frequency television

channel, in order for the licensee to relocate its television service from one channel to the other; or

(ii) a multichannel video programming distributor in order to continue to carry the signal of a broadcast television licensee that—

(I) is described in clause (i);

(II) voluntarily relinquishes spectrum usage rights under subsection (a) with respect to an ultra high frequency television channel in return for receiving usage rights with respect to a very high frequency television channel; or

(III) voluntarily relinquishes spectrum usage rights under subsection (a) to share a television channel with another licensee.

(B) **REGULATORY RELIEF.**—In lieu of reimbursement for relocation costs under subparagraph (A), a broadcast television licensee may accept, and the Commission may grant as it considers appropriate, a waiver of the service rules of the Commission to permit the licensee, subject to interference protections, to make flexible use of the spectrum assigned to the licensee to provide services other than broadcast television services. Such waiver shall only remain in effect while the licensee provides at least 1 broadcast television program stream on such spectrum at no charge to the public.

(C) **LIMITATION.**—The Commission may not make reimbursements under subparagraph (A) for lost revenues.

(D) **DEADLINE.**—The Commission shall make all reimbursements required by subparagraph (A) not later than the date that is 3 years after the completion of the forward auction under subsection (c)(1).

(5) **LOW-POWER TELEVISION USAGE RIGHTS.**—Nothing in this subsection shall be construed to alter the spectrum usage rights of low-power television stations.

(c) **FORWARD AUCTION.**—

(1) **AUCTION REQUIRED.**—The Commission shall conduct a forward auction in which—

(A) the Commission assigns licenses for the use of the spectrum that the Commission reallocates under subsection (b)(1)(B)(ii); and

(B) the amount of the proceeds that the Commission shares under clause (i) of section 309(j)(8)(G) of the Communications Act of 1934 with each licensee whose bid the Commission accepts in the reverse auction under subsection (a)(1) is not less than the amount of such bid.

(2) **MINIMUM PROCEEDS.**—

(A) **IN GENERAL.**—If the amount of the proceeds from the forward auction under paragraph (1) is not greater than the sum described in subparagraph (B), no licenses shall be assigned through such forward auction, no reassignments or reallocations under subsection (b)(1)(B) shall become effective, and the Commission may not revoke any spectrum usage rights by reason of a bid that the Commission accepts in the reverse auction under subsection (a)(1).

(B) **SUM DESCRIBED.**—The sum described in this subparagraph is the sum of—

(i) the total amount of compensation that the Commission must pay successful bidders in the reverse auction under subsection (a)(1);

(ii) the costs of conducting such forward auction that the salaries and expenses account of the Commission is required to retain under section 309(j)(8)(B) of the Communications Act of 1934 (47 U.S.C. 309(j)(8)(B)); and

(iii) the estimated costs for which the Commission is required to make reimbursements under subsection (b)(4)(A).

(C) **ADMINISTRATIVE COSTS.**—The amount of the proceeds from the forward auction under paragraph (1) that the salaries and expenses account of the Commission is required to retain under section 309(j)(8)(B) of the Communications Act of 1934 (47 U.S.C. 309(j)(8)(B)) shall be sufficient to cover the costs incurred by the

Commission in conducting the reverse auction under subsection (a)(1), conducting the evaluation of the broadcast television spectrum under subparagraph (A) of subsection (b)(1), and making any reassignments or reallocations under subparagraph (B) of such subsection, in addition to the costs incurred by the Commission in conducting such forward auction.

(3) **FACTOR FOR CONSIDERATION.**—In conducting the forward auction under paragraph (1), the Commission shall consider assigning licenses that cover geographic areas of a variety of different sizes.

(d) **TV BROADCASTER RELOCATION FUND.**—

(1) **ESTABLISHMENT.**—There is established in the Treasury of the United States a fund to be known as the TV Broadcaster Relocation Fund.

(2) **PAYMENT OF RELOCATION COSTS.**—Any amounts borrowed under paragraph (3)(A) and any amounts in the TV Broadcaster Relocation Fund that are not necessary for reimbursement of the general fund of the Treasury for such borrowed amounts shall be available to the Commission to make the payments required by subsection (b)(4)(A).

(3) **BORROWING AUTHORITY.**—

(A) **IN GENERAL.**—Beginning on the date when any reassignments or reallocations under subsection (b)(1)(B) become effective, as provided in subsection (f)(2), and ending when \$1,000,000,000 has been deposited in the TV Broadcaster Relocation Fund, the Commission may borrow from the Treasury of the United States an amount not to exceed \$1,000,000,000 to use toward the payments required by subsection (b)(4)(A).

(B) **REIMBURSEMENT.**—The Commission shall reimburse the general fund of the Treasury, without interest, for any amounts borrowed under subparagraph (A) as funds are deposited into the TV Broadcaster Relocation Fund.

(4) **TRANSFER OF UNUSED FUNDS.**—If any amounts remain in the TV Broadcaster Relocation Fund after the date that is 3 years after the completion of the forward auction under subsection (c)(1), the Secretary of the Treasury shall—

(A) prior to the end of fiscal year 2021, transfer such amounts to the Public Safety Trust Fund established by section 424(a)(1); and

(B) after the end of fiscal year 2021, transfer such amounts to the general fund of the Treasury, where such amounts shall be dedicated for the sole purpose of deficit reduction.

(e) **NUMERICAL LIMITATION ON AUCTIONS AND REORGANIZATION.**—The Commission may not complete more than one reverse auction under subsection (a)(1) or more than one reorganization of the broadcast television spectrum under subsection (b).

(f) **TIMING.**—

(1) **CONTEMPORANEOUS AUCTIONS AND REORGANIZATION PERMITTED.**—The Commission may conduct the reverse auction under subsection (a)(1), any reassignments or reallocations under subsection (b)(1)(B), and the forward auction under subsection (c)(1) on a contemporaneous basis.

(2) **EFFECTIVENESS OF REASSIGNMENTS AND REALLOCATIONS.**—Notwithstanding paragraph (1), no reassignments or reallocations under subsection (b)(1)(B) shall become effective until the completion of the reverse auction under subsection (a)(1) and the forward auction under subsection (c)(1), and, to the extent practicable, all such reassignments and reallocations shall become effective simultaneously.

(3) **DEADLINE.**—The Commission may not conduct the reverse auction under subsection (a)(1) or the forward auction under subsection (c)(1) after the end of fiscal year 2021.

(4) **LIMIT ON DISCRETION REGARDING AUCTION TIMING.**—Section 309(j)(15)(A) of the Communications Act of 1934 (47 U.S.C. 309(j)(15)(A)) shall not apply in the case of an auction conducted under this section.

(g) **LIMITATION ON REORGANIZATION AUTHORITY.**—

(1) **IN GENERAL.**—During the period described in paragraph (2), the Commission may not—

(A) involuntarily modify the spectrum usage rights of a broadcast television licensee or reassign such a licensee to another television channel except—

(i) in accordance with this section; or

(ii) in the case of a violation by such licensee of the terms of its license or a specific provision of a statute administered by the Commission, or a regulation of the Commission promulgated under any such provision; or

(B) reassign a broadcast television licensee from a very high frequency television channel to an ultra high frequency television channel, unless such a reassignment will not decrease the total amount of ultra high frequency spectrum made available for reallocation under this section.

(2) **PERIOD DESCRIBED.**—The period described in this paragraph is the period beginning on the date of the enactment of this Act and ending on the earliest of—

(A) the first date when the reverse auction under subsection (a)(1), the reassignments and reallocations (if any) under subsection (b)(1)(B), and the forward auction under subsection (c)(1) have been completed;

(B) the date of a determination by the Commission that the amount of the proceeds from the forward auction under subsection (c)(1) is not greater than the sum described in subsection (c)(2)(B); or

(C) September 30, 2021.

(h) **PROTEST RIGHT INAPPLICABLE.**—The right of a licensee to protest a proposed order of modification of its license under section 316 of the Communications Act of 1934 (47 U.S.C. 316) shall not apply in the case of a modification made under this section.

(i) **COMMISSION AUTHORITY.**—Nothing in subsection (b) shall be construed to—

(1) expand or contract the authority of the Commission, except as otherwise expressly provided; or

(2) prevent the implementation of the Commission's "White Spaces" Second Report and Order and Memorandum Opinion and Order (FCC 08-260, adopted November 4, 2008) in the spectrum that remains allocated for broadcast television use after the reorganization required by such subsection.

#### **SEC. 4105. ADMINISTRATION OF AUCTIONS BY COMMISSION.**

Section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)) is amended by adding at the end the following new paragraphs:

"(17) **CERTAIN CONDITIONS ON AUCTION PARTICIPATION PROHIBITED.**—Notwithstanding any other provision of law, the Commission may not prevent a person from participating in a system of competitive bidding under this subsection if such person—

"(A) meets the technical, financial, and character qualifications required by sections 303(l)(1), 308(b), and 310 to hold a license; or

"(B) could meet such qualifications prior to the grant of the license.

"(18) **CERTAIN LICENSING CONDITIONS PROHIBITED.**—In assigning licenses through a system of competitive bidding under this subsection, the Commission may not impose any condition on the licenses assigned through such system that—

"(A) limits the ability of a licensee to manage the use of its network, including management of the use of applications, services, or devices on its network, or to prioritize the traffic on its network as it chooses; or

"(B) requires a licensee to sell access to its network on a wholesale basis."

#### **SEC. 4106. EXTENSION OF AUCTION AUTHORITY.**

Section 309(j)(11) of the Communications Act of 1934 (47 U.S.C. 309(j)(11)) is amended by striking "2012" and inserting "2021".

#### **SEC. 4107. UNLICENSED USE IN THE 5 GHZ BAND.**

(a) **MODIFICATION OF COMMISSION REGULATIONS TO ALLOW CERTAIN UNLICENSED USE.**—

(1) **IN GENERAL.**—Subject to paragraph (2), not later than 1 year after the date of the enactment of this Act, the Commission shall begin a proceeding to modify part 15 of title 47, Code of Federal Regulations, to allow unlicensed U-NII devices to operate in the 5350–5470 MHz band.

(2) **REQUIRED DETERMINATIONS.**—The Commission may make the modification described in paragraph (1) only if the Commission determines that—

(A) licensed users will be protected by technical solutions, including use of existing, modified, or new spectrum-sharing technologies and solutions, such as dynamic frequency selection; and

(B) the primary mission of Federal spectrum users in the 5350–5470 MHz band will not be compromised by the introduction of unlicensed devices.

(b) **STUDY BY NTIA.**—

(1) **IN GENERAL.**—The Assistant Secretary, in consultation with the Commission, shall conduct a study evaluating known and proposed spectrum-sharing technologies and the risk to Federal users if unlicensed U-NII devices were allowed to operate in the 5350–5470 MHz band.

(2) **SUBMISSION.**—Not later than 8 months after the date of the enactment of this Act, the Assistant Secretary shall submit the study required by paragraph (1) to—

(A) the Commission; and

(B) the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(c) **5350–5470 MHz BAND DEFINED.**—In this section, the term "5350–5470 MHz band" means the portion of the electromagnetic spectrum between the frequencies from 5350 megahertz to 5470 megahertz.

### **Subtitle B—Advanced Public Safety Communications**

#### **PART 1—NATIONAL IMPLEMENTATION**

#### **SEC. 4201. LICENSING OF SPECTRUM TO ADMINISTRATOR.**

(a) **IN GENERAL.**—Not later than 60 days after the initial selection under section 4203(a) of an entity to serve as Administrator, the Commission shall assign to the Administrator a license for the exclusive use of the public safety broadband spectrum and the 700 MHz D block spectrum.

(b) **TERM OF LICENSE AND LICENSE CONDITIONS.**—

(1) **INITIAL LICENSE.**—The initial license assigned under subsection (a) shall be for a term of 10 years.

(2) **RENEWAL OF LICENSE.**—Prior to the expiration of the term of the initial license assigned under subsection (a) or the expiration of any renewal of such license, if the Administrator wishes to continue serving as Administrator after the license expires, the Administrator shall submit to the Commission an application for the renewal of such license in accordance with the Communications Act of 1934 (47 U.S.C. 151 et seq.) and any applicable Commission regulations. Such renewal application shall demonstrate that, during the term of the license that the Administrator is seeking to renew, the Administrator has fulfilled its duties and obligations under this title and the Communications Act of 1934 and has complied with all applicable Commission regulations. A renewal of the initial license granted under subsection (a) or any renewal of such license shall be for a term not to exceed 10 years.

(3) **USE OF SPECTRUM.**—Except as provided in section 4221(d), the license assigned under subsection (a) and any renewal of such license shall prohibit the Administrator from using the public safety broadband spectrum or the 700 MHz D block spectrum for any purpose other than authorizing the operation of State public safety broadband communications networks in accordance with the National Public Safety Communications Plan.

(4) **LIMITATION ON LICENSE CONDITIONS.**—The Commission may not place any conditions on the license assigned under subsection (a) or any renewal of such license or, with respect to the spectrum governed by such license, otherwise prohibit any action of the Administrator, a State Public Safety Broadband Office, or an entity with which such an Office has entered into a contract under section 4221(b)(1)(D), except as necessary to—

(A) protect other users from harmful interference;

(B) ensure that such spectrum is used in accordance with the National Public Safety Communications Plan; or

(C) enforce a provision of this title or the Communications Act of 1934 (47 U.S.C. 151 et seq.) that governs the use of such spectrum.

(5) **LICENSE CONDITIONED ON SERVICE AS ADMINISTRATOR.**—If an entity ceases to serve as Administrator, the Commission shall, as soon as practicable after the Assistant Secretary selects a different entity to serve as Administrator under section 4203(a)(2), transfer to such different entity the license assigned under subsection (a) or any renewal of such license.

(c) **ELIMINATION OF D BLOCK AUCTION REQUIREMENT.**—Notwithstanding section 309(j)(15)(C)(v) of the Communications Act of 1934 (47 U.S.C. 309(j)(15)(C)(v)), the Commission may not assign a license for the use of the 700 MHz D block spectrum except under subsection (a).

(d) **DEFINITION OF PUBLIC SAFETY SERVICES.**—Section 337(f)(1) of the Communications Act of 1934 (47 U.S.C. 337(f)(1)) is amended—

(1) in subparagraph (A), by striking "to protect the safety of life, health, or property" and inserting "to provide law enforcement, fire and rescue response, or emergency medical assistance (including such assistance provided by ambulance services, hospitals, and urgent care facilities)"; and

(2) in subparagraph (B)—

(A) in clause (i), by inserting "or tribal organizations (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b))" before the semicolon; and

(B) in clause (ii), by inserting "or a tribal organization" after "a governmental entity".

(e) **CONFORMING AMENDMENTS.**—Section 337(d)(3) of the Communications Act of 1934 (47 U.S.C. 337(d)(3)) is amended—

(1) in the matter preceding subparagraph (A), by striking "public safety services licensees and commercial licensees";

(2) in subparagraph (A), by inserting "public safety services licensees and commercial licensees" before "to aggregate"; and

(3) in subparagraph (B), by inserting "commercial licensees" before "to disaggregate".

#### **SEC. 4202. NATIONAL PUBLIC SAFETY COMMUNICATIONS PLAN.**

(a) **ESTABLISHMENT OF PUBLIC SAFETY COMMUNICATIONS PLANNING BOARD.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Commission shall establish a board to be known as the Public Safety Communications Planning Board.

(2) **MEMBERSHIP.**—The membership of the Board shall be as follows:

(A) **FEDERAL MEMBERS.**—

(i) **IN GENERAL.**—Four Federal members as follows:

(I) The Chairman of the Commission, or a designee.

(II) The Assistant Secretary, or a designee.

(III) The Director of the Office of Emergency Communications in the Department of Homeland Security, or a designee.

(IV) The Director of the National Institute of Standards and Technology, or a designee.

(ii) **DESIGNEES.**—If a Federal official designates a designee under clause (i), such designee shall be an officer or employee of the agency of the official who is subordinate to the official, except that the Chairman of the Commission may designate another Commissioner of the Commission or an officer or employee of the Commission.

(B) **NON-FEDERAL MEMBERS.**—Nine non-Federal members as follows:

(i) Two members who represent providers of commercial mobile data service, with one representing providers that have nationwide coverage areas and one representing providers that have regional coverage areas.

(ii) Two members who represent manufacturers of mobile wireless network equipment.

(iii) Five members who represent the interests of State and local governments, chosen to reflect geographic and population density differences across the United States, as follows:

(I) Two members who represent the public safety interests of the States.

(II) One member who represents State and local public safety employees.

(III) Two members who represent other interests of State and local governments, to be determined by the Chairman of the Commission.

(3) **SELECTION OF NON-FEDERAL MEMBERS.**—

(A) **NOMINATION.**—For each non-Federal member of the Board, the group that is represented by such member shall, by consensus, nominate an individual to serve as such member and submit the name of the nominee to the Chairman of the Commission.

(B) **APPOINTMENT.**—The Chairman of the Commission shall appoint the non-Federal members of the Board from the nominations submitted under subparagraph (A). If a group fails to reach consensus on a nominee or to submit a nomination for a member that represents such group, or if the nominee is not qualified under subparagraph (C), the Chairman shall select a member to represent such group.

(C) **QUALIFICATIONS.**—Each non-Federal member appointed under subparagraph (B) shall meet at least 1 of the following criteria:

(i) **PUBLIC SAFETY EXPERIENCE.**—Knowledge of and experience in Federal, State, local, or tribal public safety or emergency response.

(ii) **TECHNICAL EXPERTISE.**—Technical expertise regarding broadband communications, including public safety communications.

(iii) **NETWORK EXPERTISE.**—Expertise in building, deploying, and operating commercial telecommunications networks.

(iv) **FINANCIAL EXPERTISE.**—Expertise in financing and funding telecommunications networks.

(4) **TERMS OF APPOINTMENT.**—

(A) **LENGTH.**—

(i) **FEDERAL MEMBERS.**—The term of office of each Federal member of the Board shall be 3 years, except that such term shall end when such member no longer holds the Federal office by reason of which such member is a member of the Board (or, in the case of a designee, the Federal official who designated such designee no longer holds the office by reason of which such designation was made or the designee is no longer an officer, employee, or Commissioner as described in paragraph (2)(A)(ii)).

(ii) **NON-FEDERAL MEMBERS.**—The term of office of each non-Federal member of the Board shall be 3 years.

(B) **STAGGERED TERMS.**—With respect to the initial non-Federal members of the Board—

(i) three members shall serve for a term of 3 years;

(ii) three members shall serve for a term of 2 years; and

(iii) three members shall serve for a term of 1 year.

(C) **VACANCIES.**—

(i) **EFFECT OF VACANCIES.**—A vacancy in the membership of the Board shall not affect the Board's powers, subject to paragraph (8), and shall be filled in the same manner as the original member was appointed.

(ii) **APPOINTMENT TO FILL VACANCY.**—A member of the Board appointed to fill a vacancy occurring prior to the expiration of the term for which that member's predecessor was appointed shall be appointed for the remainder of the predecessor's term.

(iii) **EXPIRATION OF TERM.**—A non-Federal member of the Board whose term has expired may serve until such member's successor has taken office, or until the end of the calendar year in which such member's term has expired, whichever is earlier.

(5) **CHAIR.**—

(A) **SELECTION.**—The Chair of the Board shall be selected by the Board from among the members of the Board.

(B) **TERM.**—The term of office of the Chair of the Board shall run from the date when the Chair is selected until the date when the term of the Chair as a member of the Board expires.

(6) **REMOVAL OF CHAIR AND NON-FEDERAL MEMBERS.**—

(A) **BY BOARD.**—The members of the Board may, by majority vote—

(i) remove the Chair of the Board from the position of Chair for conduct determined to be detrimental to the Board; or

(ii) remove from the Board any non-Federal member of the Board for conduct determined to be detrimental to the Board.

(B) **BY CHAIRMAN OF THE COMMISSION.**—The Chairman of the Commission may, for good cause—

(i) remove the Chair of the Board from the position of Chair; or

(ii) remove from the Board any non-Federal member of the Board.

(7) **ANNUAL MEETINGS.**—In addition to any other meetings necessary to carry out the duties of the Board under this section, the Board shall meet—

(A) subject to the call of the Chair; and

(B) annually to consider the most recent report submitted by the Administrator under section 4203(f)(1).

(8) **QUORUM.**—Seven members of the Board, including not fewer than 6 non-Federal members, shall constitute a quorum.

(9) **RESOURCES.**—The Commission shall provide the Board with the staff, administrative support, and facilities necessary to carry out the duties of the Board under this section.

(10) **PROHIBITION AGAINST COMPENSATION.**—A member of the Board shall serve without pay but shall be allowed a per diem allowance for travel expenses, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Board. Compensation of a Federal member of the Board for service in the Federal office or employment by reason of which such member is a member of the Board shall not be considered compensation under this paragraph.

(11) **FEDERAL ADVISORY COMMITTEE ACT INAPPLICABLE.**—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Board.

(b) **DEVELOPMENT OF PLAN BY BOARD.**—

(1) **IN GENERAL.**—Not later than 1 year after the date on which the Board is established under subsection (a)(1), the Board shall submit

to the Commission a detailed proposal for a National Public Safety Communications Plan to govern the use of the spectrum licensed to the Administrator in order to meet long-term public safety communications needs.

(2) **LIMITATION ON RECOMMENDATIONS.**—The Board may not make any recommendations for requirements generally applicable to providers of commercial mobile service or private mobile service (as defined in section 332 of the Communications Act of 1934 (47 U.S.C. 332)).

(c) **CONSIDERATION OF PLAN BY COMMISSION.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of the submission of the proposal by the Board under subsection (b)(1), the Commission shall complete a single proceeding to—

(A) adopt such proposal, without modification, as the National Public Safety Communications Plan; or

(B) reject such proposal.

(2) **PROCEDURES IF PLAN REJECTED.**—If the Commission rejects such proposal under paragraph (1)(B), the Board shall, not later than 90 days thereafter, submit to the Commission a revised proposal. Such revised proposal shall be treated as a proposal submitted by the Board under subsection (b)(1).

(3) **REVISIONS TO PLAN.**—

(A) **SUBMISSION.**—The Board shall periodically submit to the Commission proposals for revisions to the Plan.

(B) **CONSIDERATION BY COMMISSION.**—Not later than 90 days after the submission of such a proposal, the Commission shall complete a single proceeding to—

(i) revise the Plan in accordance with such proposal, without modification of the proposal; or

(ii) reject such proposal.

(d) **REQUIREMENTS FOR PLAN.**—The Plan shall include the following requirements:

(1) **DEPLOYMENT STANDARDS.**—The Plan shall—

(A) require each State public safety broadband communications network to be interconnected and interoperable with all other such networks;

(B) require each State public safety broadband communications network to be based on a network architecture that evolves with technological advancements;

(C) require all State public safety broadband communications networks to be based on the same commercial standards;

(D) require each State public safety broadband communications network to be deployed as networks are typically deployed by providers of commercial mobile data service;

(E) promote competition in the public safety equipment market by requiring equipment for use on the State public safety broadband communications networks to be—

(i) built to open, nonproprietary, commercial standards;

(ii) capable of being used by any provider of public safety services and accessed by devices manufactured by multiple vendors; and

(iii) backward-compatible with prior generations of commercial mobile service and commercial mobile data service networks to the extent typically deployed by providers of commercial mobile service and commercial mobile data service; and

(F) require each State public safety broadband communications network to be integrated with public safety answering points, or the equivalent of public safety answering points, and with networks for the provision of Next Generation 9-1-1 services.

(2) **STATE-SPECIFIC REQUIREMENTS.**—The Plan shall require each State Public Safety Broadband Office to include in requests for proposals for the construction, management, maintenance, and operation of the State public safety broadband communications network of such State—

(A) specifications for the construction and deployment of such network, including—

(i) build timetables, which shall take into consideration the time needed to build out to rural areas;

(ii) required coverage areas, including rural and nonurban areas;

(iii) minimum service levels; and

(iv) specific performance criteria;

(B) the technical and operational requirements for such network;

(C) the practices, procedures, and standards for the management and operation of such network;

(D) the terms of service for the use of such network; and

(E) specifications for ongoing compliance review and monitoring of—

(i) the construction, management, maintenance, and operation of such network;

(ii) the practices and procedures of the entities operating on such network; and

(iii) the necessary training needs of network users.

(e) DEVELOPMENT OF BASELINE REQUEST FOR PROPOSALS.—

(1) DEVELOPMENT BY BOARD.—Not later than 1 year after the date on which the Board is established under subsection (a)(1), the Board shall submit to the Commission a draft baseline request for proposals for each State to use in developing its request for proposals for the construction, management, maintenance, and operation of a State public safety broadband communications network.

(2) CONSIDERATION BY COMMISSION.—

(A) IN GENERAL.—Not later than 90 days after the date of the submission of the draft baseline request for proposals by the Board under paragraph (1), the Commission shall complete a single proceeding to—

(i) adopt such draft, without modification; or

(ii) reject such draft.

(B) PROCEDURES IF DRAFT REJECTED.—If the Commission rejects such draft under subparagraph (A)(ii), the Board shall, not later than 60 days thereafter, submit to the Commission a revised draft baseline request for proposals. Such revised draft shall be treated as a draft submitted by the Board under paragraph (1).

(3) REVISIONS.—

(A) SUBMISSION.—The Board shall periodically submit to the Commission draft revisions to the baseline request for proposals adopted under paragraph (2)(A)(i).

(B) CONSIDERATION BY COMMISSION.—Not later than 90 days after the submission of such a draft revision, the Commission shall complete a single proceeding to—

(i) revise the baseline request for proposals in accordance with such draft revision, without modification of such draft revision; or

(ii) reject such draft revision.

#### SEC. 4203. PLAN ADMINISTRATION.

(a) SELECTION OF ADMINISTRATOR.—

(1) IN GENERAL.—The Assistant Secretary shall, through an open, transparent request-for-proposals process, select an entity to serve as the Administrator of the Plan. The Assistant Secretary shall commence such process not later than 120 days after the date of the adoption of the Plan by the Commission under section 4202(c)(1)(A).

(2) REPLACEMENT.—If an entity ceases to serve as Administrator under a contract awarded under paragraph (1) or this paragraph, the Assistant Secretary shall, through an open, transparent request-for-proposals process, select another entity to serve as Administrator.

(b) POWERS AND DUTIES OF ADMINISTRATOR.—The Administrator shall—

(1) review and coordinate the implementation of the Plan and the construction, management, maintenance, and operation of the State public

safety broadband communications networks, in accordance with the Plan, under contracts entered into by the State Public Safety Broadband Offices;

(2) transmit to each State Public Safety Broadband Office the baseline request for proposals adopted by the Commission under section 4202(e)(2)(A)(i) and any revisions to such baseline request for proposals adopted by the Commission under section 4202(e)(3)(B)(i);

(3) review and approve or disapprove, in accordance with section 4221(c), each contract proposed by a State Public Safety Broadband Office for the construction, management, maintenance, and operation of a State public safety broadband communications network;

(4) give public notice of each decision to approve or disapprove such a contract and of any other decision of the Administrator with respect to such a contract, a State Public Safety Broadband Office, or a State public safety broadband communications network;

(5) in consultation with State Public Safety Broadband Offices, conduct assessments for inclusion in the annual report required by subsection (f)(1) of—

(A) progress on construction and adoption of the State public safety broadband communications networks; and

(B) the management, maintenance, and operation of such networks; and

(6) conduct such audits as are necessary to ensure—

(A) with respect to contracts described in paragraph (3), the integrity of the contracting process and the adequate performance of such contracts; and

(B) that the State public safety broadband communications networks are constructed, managed, maintained, and operated in accordance with the Plan.

(c) LIMITATION ON POWERS OF ADMINISTRATOR.—The Administrator may not—

(1) take any action unless this title expressly confers on the Administrator the power to take such action or such action is necessary to carry out a power that this title expressly confers on the Administrator; or

(2) prohibit or refuse to approve any action of a State Public Safety Broadband Office or with respect to a State public safety broadband communications network unless such action would violate the Plan or the license terms of the spectrum licensed to the Administrator.

(d) REVIEW OF DECISIONS OF ADMINISTRATOR.—

(1) IN GENERAL.—The United States District Court for the District of Columbia shall have exclusive jurisdiction to review decisions of the Administrator.

(2) FILING OF PETITION.—Any party aggrieved by a decision of the Administrator may seek review of such decision by filing a petition for review with the court not later than 30 days after the date on which public notice is given of such decision.

(3) CONTENTS OF PETITION.—The petition shall contain a concise statement of the following:

(A) The nature of the proceedings as to which review is sought.

(B) The grounds on which relief is sought.

(C) The relief prayed.

(4) ATTACHMENT TO PETITION.—The petitioner shall attach to the petition, as an exhibit, a copy of the decision of the Administrator on which review is sought.

(5) SERVICE.—The clerk shall serve a true copy of the petition on the Administrator, the Assistant Secretary, and the Commission by registered mail, with request for a return receipt.

(6) STANDARD OF REVIEW.—The court may affirm or vacate a decision of the Administrator on review. The court may vacate a decision of the Administrator only—

(A) where the decision was procured by corruption, fraud, or undue means;

(B) where there was actual partiality or corruption in the Administrator;

(C) where the Administrator was guilty of misconduct in refusing to hear evidence pertinent and material to the decision or of any other misbehavior by which the rights of any party have been prejudiced; or

(D) where the Administrator exceeded the powers conferred on it by this title or otherwise did not arguably construe or apply the Plan in making its decision.

(7) REVIEW BY NTIA PROHIBITED.—The Assistant Secretary shall take such action as is necessary to ensure that the Administrator complies with the requirements of this title, the Plan, and the terms of the contract entered into under subsection (a), but the Assistant Secretary may not vacate or otherwise modify a decision by the Administrator with respect to a third party.

(e) AUDITS OF USE OF FEDERAL FUNDS BY ADMINISTRATOR.—Not later than 1 year after entering into a contract to serve as Administrator, and annually thereafter, the Administrator shall provide to the Assistant Secretary a statement, audited by an independent auditor, that details the use during the preceding fiscal year of any Federal funds received by the Administrator in connection with its service as Administrator.

(f) ANNUAL REPORT BY ADMINISTRATOR.—

(1) IN GENERAL.—Not later than 1 year after entering into a contract to serve as Administrator, and annually thereafter, the Administrator shall submit a report covering the preceding fiscal year to—

(A) the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate;

(B) the Assistant Secretary;

(C) the Commission; and

(D) the Board.

(2) REQUIRED CONTENT.—The report required by paragraph (1) shall include—

(A) a comprehensive and detailed description of—

(i) the results of assessments conducted under subsection (b)(5) and audits conducted under subsection (b)(6);

(ii) the activities of the Administrator in its capacity as Administrator; and

(iii) the financial condition of the Administrator; and

(B) such recommendations or proposals for legislative or administrative action as the Administrator considers appropriate.

#### SEC. 4204. INITIAL FUNDING FOR ADMINISTRATOR.

(a) BORROWING AUTHORITY.—Prior to the end of fiscal year 2021, the Assistant Secretary may borrow from the general fund of the Treasury of the United States not more than \$40,000,000 to enter into a contract with an entity to serve as Administrator under section 4203(a).

(b) REIMBURSEMENT.—The Assistant Secretary shall reimburse the general fund of the Treasury, without interest, for any amounts borrowed under subsection (a) from funds made available from the Public Safety Trust Fund established by section 4241(a)(1), as such funds become available.

#### SEC. 4205. STUDY ON EMERGENCY COMMUNICATIONS BY AMATEUR RADIO AND IMPEDIMENTS TO AMATEUR RADIO COMMUNICATIONS.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Commission, in consultation with the Office of Emergency Communications in the Department of Homeland Security, shall—

(1) complete a study on the uses and capabilities of amateur radio service communications in emergencies and disaster relief; and

(2) submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the findings of such study.

(b) **CONTENTS.**—The study required by subsection (a) shall include—

(1)(A) a review of the importance of emergency amateur radio service communications relating to disasters, severe weather, and other threats to lives and property in the United States; and

(B) recommendations for—

(i) enhancements in the voluntary deployment of amateur radio operators in disaster and emergency communications and disaster relief efforts; and

(ii) improved integration of amateur radio operators in the planning and furtherance of initiatives of the Federal Government; and

(2)(A) an identification of impediments to enhanced amateur radio service communications, such as the effects of unreasonable or unnecessary private land use restrictions on residential antenna installations; and

(B) recommendations regarding the removal of such impediments.

(c) **EXPERTISE.**—In conducting the study required by subsection (a), the Commission shall use the expertise of stakeholder entities and organizations, including the amateur radio, emergency response, and disaster communications communities.

## PART 2—STATE IMPLEMENTATION

### SEC. 4221. NEGOTIATION AND APPROVAL OF CONTRACTS.

(a) **STATE PUBLIC SAFETY BROADBAND OFFICES.**—Each State desiring to establish a State public safety broadband communications network shall establish or designate a State Public Safety Broadband Office.

(b) **NEGOTIATION BY STATES.**—

(1) **IN GENERAL.**—Each State Public Safety Broadband Office shall—

(A) use the baseline request for proposals transmitted under section 4203(b)(2) to develop a request for proposals for the construction, management, maintenance, and operation of a State public safety broadband communications network;

(B) negotiate a contract with a private-sector entity for such construction, management, maintenance, and operation;

(C) transmit such contract to the Administrator for approval; and

(D) if the Administrator approves such contract, enter into such contract with such entity.

(2) **FACTORS FOR CONSIDERATION.**—In developing a request for proposals under paragraph (1)(A) and negotiating a proposed contract under paragraph (1)(B), the State Public Safety Broadband Office shall take into consideration the following:

(A) The most efficient and effective use and integration by State, local, and tribal providers of public safety services within such State of the spectrum licensed to the Administrator and the infrastructure, equipment, and other architecture associated with the State public safety broadband communications network to satisfy the wireless communications and data services needs of such providers.

(B) The particular assets and specialized needs of such providers. Such assets may include available towers and infrastructure. Such needs may include the projected number of users, preferred buildout timeframes, special coverage needs, special hardening, reliability, security, and resiliency needs, local user priority assignments, and integration needs of public safety answering points and emergency operations centers.

(C) Whether any entities that are not providers of public safety services should have

emergency access to the State public safety broadband communications network, as described in subsection (e).

(D) Whether the State public safety broadband communications network provides for the selection on a localized basis of network options that remain consistent with the Plan.

(E) How to ensure the reliability, security, and resiliency of the State public safety broadband communications network, including through measures for—

(i) protecting and monitoring the cybersecurity of the network; and

(ii) managing supply chain risks to the network.

(3) **PARTNERSHIPS.**—

(A) **IN GENERAL.**—In choosing from among the entities that respond to the request for proposals developed under paragraph (1)(A), the State Public Safety Broadband Office shall—

(i) select a provider of commercial mobile service or commercial mobile data service; and

(ii) give additional consideration to providers of commercial mobile service or commercial mobile data service whose proposals include a partnership with a utility provider.

(B) **JOINT VENTURES.**—For purposes of subparagraph (A), a joint venture that includes a provider of commercial mobile service or commercial mobile data service shall be considered to be such a provider.

(c) **REVIEW BY ADMINISTRATOR.**—

(1) **IN GENERAL.**—Upon receiving from a State Public Safety Broadband Office a contract negotiated under subsection (b), the Administrator shall either approve or disapprove such contract but may not make any changes to its terms.

(2) **DISAPPROVAL.**—In the case of disapproval under paragraph (1), the State Public Safety Broadband Office may renegotiate the contract, negotiate a contract with another entity that responded to the Office's request for proposals, or issue a new request for proposals.

(d) **PUBLIC-PRIVATE PARTNERSHIPS.**—Notwithstanding any limitation in section 337 of the Communications Act of 1934 (47 U.S.C. 337), a contract entered into between a State Public Safety Broadband Office and a private entity under subsection (b)(1)(D) may permit—

(1) such entity to obtain access to the spectrum licensed to the Administrator in such State for services that are not public safety services; or

(2) the State Public Safety Broadband Office to share with such entity equipment or infrastructure of the State public safety broadband communications network, including antennas and towers.

(e) **EMERGENCY ACCESS BY NON-PUBLIC SAFETY ENTITIES.**—

(1) **IN GENERAL.**—Notwithstanding any limitation in section 337 of the Communications Act of 1934 (47 U.S.C. 337), as expressly permitted by the terms of a contract entered into under subsection (b)(1)(D) for the construction, management, maintenance, and operation of a State public safety broadband communications network, the Administrator may enter into agreements with entities in such State that are not providers of public safety services to permit such entities to obtain access on a secondary, preemptible basis to the State public safety broadband communications network of such State in order to facilitate interoperability between such entities and providers of public safety services in protecting the safety of life, health, and property during emergencies and during preparation for and recovery from emergencies, including during emergency drills, exercises, and tests.

(2) **PREEMPTION.**—The Administrator shall ensure that, under any agreement entered into under paragraph (1), providers of public safety services may preempt use of the State public

safety broadband communications network by an entity with which the Administrator has entered into such agreement.

(f) **MULTI-STATE NEGOTIATION.**—The State Public Safety Broadband Offices of more than one State may form a consortium for purposes of developing a request for proposals and negotiating and entering into a contract for the construction, management, maintenance, and operation of a State public safety broadband communications network for such States. While such Offices remain in the consortium, such States shall be treated as a single State, such Offices shall be treated as a single Office of a single State, and such network shall be treated as the State public safety broadband communications network of a single State.

### SEC. 4222. STATE IMPLEMENTATION GRANT PROGRAM.

(a) **IN GENERAL.**—From amounts made available under section 4223(b), the Assistant Secretary shall, in consultation with the Administrator, make grants to State Public Safety Broadband Offices to assist such Offices in carrying out the duties of such Offices under this part, except for making payments under contracts entered into under section 4221(b)(1)(D).

(b) **APPLICATION.**—The Assistant Secretary may only make a grant under this section to a State Public Safety Broadband Office that submits an application at such time, in such form, and containing such information and assurances as the Assistant Secretary may require.

(c) **MATCHING REQUIREMENTS; FEDERAL SHARE.**—

(1) **IN GENERAL.**—The Federal share of the cost of any activity carried out using a grant under this section may not exceed 80 percent of the eligible costs of carrying out that activity, as determined by the Assistant Secretary.

(2) **WAIVER.**—The Assistant Secretary may waive, in whole or in part, the requirements of paragraph (1) if the State Public Safety Broadband Office has demonstrated financial hardship.

(d) **PROGRAMMATIC REQUIREMENTS.**—Not later than 1 year after the date of the adoption of the Plan by the Commission under section 4202(c)(1)(A), the Assistant Secretary, in consultation with the Board, shall establish requirements relating to the grant program to be carried out under this section, including the following:

(1) Defining eligible costs for purposes of subsection (c)(1).

(2) Determining the scope of eligible activities for grant funding under this section.

(3) Prioritizing grants for activities that ensure coverage in rural as well as urban areas.

### SEC. 4223. STATE IMPLEMENTATION FUND.

(a) **ESTABLISHMENT.**—There is established in the Treasury of the United States a fund to be known as the State Implementation Fund.

(b) **AMOUNTS AVAILABLE FOR STATE IMPLEMENTATION GRANT PROGRAM.**—Any amounts borrowed under subsection (c)(1) and any amounts in the State Implementation Fund that are not necessary to reimburse the general fund of the Treasury for such borrowed amounts shall be available to the Assistant Secretary to implement section 4222.

(c) **BORROWING AUTHORITY.**—

(1) **IN GENERAL.**—Prior to the end of fiscal year 2021, the Assistant Secretary may borrow from the general fund of the Treasury such sums as may be necessary, but not to exceed \$100,000,000, to implement section 4222.

(2) **REIMBURSEMENT.**—The Assistant Secretary shall reimburse the general fund of the Treasury, without interest, for any amounts borrowed under paragraph (1) as funds are deposited into the State Implementation Fund.

(d) **TRANSFER OF UNUSED FUNDS.**—If there is a balance remaining in the State Implementation Fund on September 30, 2021, the Secretary

of the Treasury shall transfer such balance to the general fund of the Treasury, where such balance shall be dedicated for the sole purpose of deficit reduction.

#### **SEC. 4224. GRANTS TO STATES FOR NETWORK BUILDOUT.**

(a) **ESTABLISHMENT.**—From amounts made available from the Public Safety Trust Fund established by section 4241(a)(1), the Assistant Secretary shall make grants to State Public Safety Broadband Offices for payments under contracts entered into under section 4221(b)(1)(D).

(b) **APPLICATION.**—The Assistant Secretary may only make a grant under this section to a State Public Safety Broadband Office that submits an application at such time, in such form, and containing such information and assurances as the Assistant Secretary may require.

##### **(c) QUARTERLY REPORTS.**

(1) **FROM GRANTEEES TO NTIA.**—Not later than 3 months after receiving a grant under this section and not less frequently than quarterly thereafter until the date that is 1 year after all such funds have been expended, a State Public Safety Broadband Office shall submit to the Assistant Secretary a report on—

(A) the use of grant funds by such Office; and

(B) the construction, management, maintenance, and operation of the State public safety broadband communications network of such State.

(2) **FROM NTIA TO CONGRESS.**—Not later than 6 months after making the first grant under this section and not less frequently than quarterly thereafter until the date that is 18 months after all such funds have been expended by the grantees, the Assistant Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that—

(A) summarizes the reports submitted by grantees under paragraph (1); and

(B) describes and evaluates—

(i) the use of grant funds disbursed under this section; and

(ii) the construction, management, maintenance, and operation of the State public safety broadband communications networks under the contracts under which grantees make payments using grant funds.

#### **SEC. 4225. WIRELESS FACILITIES DEPLOYMENT.**

##### **(a) FACILITY MODIFICATIONS.**

(1) **IN GENERAL.**—Notwithstanding section 704 of the Telecommunications Act of 1996 (Public Law 104-104) or any other provision of law, a State or local government may not deny, and shall approve, any eligible facilities request for a modification of an existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station.

(2) **ELIGIBLE FACILITIES REQUEST.**—For purposes of this subsection, the term “eligible facilities request” means any request for modification of an existing wireless tower or base station that involves—

(A) collocation of new transmission equipment;

(B) removal of transmission equipment; or

(C) replacement of transmission equipment.

##### **(b) FEDERAL EASEMENTS AND RIGHTS-OF-WAY.**

(1) **GRANT.**—If an executive agency, a State, a political subdivision or agency of a State, or a person, firm, or organization applies for the grant of an easement or right-of-way to, in, over, or on a building or other property owned by the Federal Government for the right to install, construct, and maintain wireless service antenna structures and equipment and backhaul transmission equipment, the executive agency having control of the building or other

property may grant to the applicant, on behalf of the Federal Government, an easement or right-of-way to perform such installation, construction, and maintenance.

(2) **APPLICATION.**—The Administrator of General Services shall develop a common form for applications for easements and rights-of-way under paragraph (1) for all executive agencies that shall be used by applicants with respect to the buildings or other property of each such agency.

##### **(3) FEE.**

(A) **IN GENERAL.**—Notwithstanding any other provision of law, the Administrator of General Services shall establish a fee for the grant of an easement or right-of-way pursuant to paragraph (1) that is based on direct cost recovery.

(B) **EXCEPTIONS.**—The Administrator of General Services may establish exceptions to the fee amount required under subparagraph (A)—

(i) in consideration of the public benefit provided by a grant of an easement or right-of-way; and

(ii) in the interest of expanding wireless and broadband coverage.

(4) **USE OF FEES COLLECTED.**—Any fee amounts collected by an executive agency pursuant to paragraph (3) may be made available, as provided in appropriations Acts, to such agency to cover the costs of granting the easement or right-of-way.

##### **(c) MASTER CONTRACTS FOR WIRELESS FACILITY SITINGS.**

(1) **IN GENERAL.**—Notwithstanding section 704 of the Telecommunications Act of 1996 or any other provision of law, and not later than 60 days after the date of the enactment of this Act, the Administrator of General Services shall—

(A) develop 1 or more master contracts that shall govern the placement of wireless service antenna structures on buildings and other property owned by the Federal Government; and

(B) in developing the master contract or contracts, standardize the treatment of the placement of wireless service antenna structures on building rooftops or facades, the placement of wireless service antenna equipment on rooftops or inside buildings, the technology used in connection with wireless service antenna structures or equipment placed on Federal buildings and other property, and any other key issues the Administrator of General Services considers appropriate.

(2) **APPLICABILITY.**—The master contract or contracts developed by the Administrator of General Services under paragraph (1) shall apply to all publicly accessible buildings and other property owned by the Federal Government, unless the Administrator of General Services decides that issues with respect to the siting of a wireless service antenna structure on a specific building or other property warrant non-standard treatment of such building or other property.

(3) **APPLICATION.**—The Administrator of General Services shall develop a common form or set of forms for wireless service antenna structure siting applications under this subsection for all executive agencies that shall be used by applicants with respect to the buildings and other property of each such agency.

(d) **EXECUTIVE AGENCY DEFINED.**—In this section, the term “executive agency” has the meaning given such term in section 102 of title 40, United States Code.

#### **PART 3—PUBLIC SAFETY TRUST FUND**

##### **SEC. 4241. PUBLIC SAFETY TRUST FUND.**

(a) **ESTABLISHMENT OF PUBLIC SAFETY TRUST FUND.**

(1) **IN GENERAL.**—There is established in the Treasury of the United States a trust fund to be known as the Public Safety Trust Fund.

(2) **AVAILABILITY.**—Amounts deposited in the Public Safety Trust Fund shall remain available

through fiscal year 2021. Any amounts remaining in the Fund after the end of such fiscal year shall be deposited in the general fund of the Treasury, where such amounts shall be dedicated for the sole purpose of deficit reduction.

(b) **USE OF FUND.**—As amounts are deposited in the Public Safety Trust Fund, such amounts shall be used to make the following deposits or payments in the following order of priority:

(1) **REPAYMENT OF AMOUNT BORROWED FOR ADMINISTRATION OF NATIONAL PUBLIC SAFETY COMMUNICATIONS PLAN.**—An amount not to exceed \$40,000,000 shall be available to the Assistant Secretary to reimburse the general fund of the Treasury for any amounts borrowed under section 4204(a).

(2) **STATE IMPLEMENTATION FUND.**—\$100,000,000 shall be deposited in the State Implementation Fund established by section 4223(a).

(3) **BUILDOUT OF STATE PUBLIC SAFETY BROADBAND COMMUNICATIONS NETWORKS.**—\$4,960,000,000 shall be available to the Assistant Secretary to carry out section 4224.

(4) **DEFICIT REDUCTION.**—\$20,400,000,000 shall be deposited in the general fund of the Treasury, where such amount shall be dedicated for the sole purpose of deficit reduction.

(5) **9-1-1, E9-1-1, AND NEXT GENERATION 9-1-1 IMPLEMENTATION GRANTS.**—\$250,000,000 shall be available to the Assistant Secretary and the Administrator of the National Highway Traffic Safety Administration to carry out the grant program under section 158 of the National Telecommunications and Information Administration Organization Act, as amended by section 4265 of this title.

(6) **BUILDOUT OF STATE PUBLIC SAFETY BROADBAND COMMUNICATIONS NETWORKS AND DEFICIT REDUCTION.**—Of the remaining amounts deposited in the Fund—

(A) 10 percent of any such amounts, not to exceed \$1,500,000,000, shall be available to the Assistant Secretary to carry out section 4224; and

(B) 90 percent of any such amounts (or 100 percent of any such amounts after amounts made available under subparagraph (A) exceed \$1,500,000,000) shall be deposited in the general fund of the Treasury, where such amounts shall be dedicated for the sole purpose of deficit reduction.

(c) **INVESTMENT.**—Amounts in the Public Safety Trust Fund shall be invested in accordance with section 9702 of title 31, United States Code, and any interest on, and proceeds from, any such investment shall be credited to, and become a part of, the Fund.

#### **PART 4—NEXT GENERATION 9-1-1 ADVANCEMENT ACT OF 2011**

##### **SEC. 4261. SHORT TITLE.**

This part may be cited as the “Next Generation 9-1-1 Advancement Act of 2011”.

##### **SEC. 4262. FINDINGS.**

Congress finds that—

(1) for the sake of the public safety of our Nation, a universal emergency service number (9-1-1) that is enhanced with the most modern and state-of-the-art telecommunications capabilities possible, including voice, data, and video communications, should be available to all citizens wherever they live, work, and travel;

(2) a successful migration to Next Generation 9-1-1 service communications systems will require greater Federal, State, and local government resources and coordination;

(3) any funds that are collected from fees imposed on consumer bills for the purposes of funding 9-1-1 services, enhanced 9-1-1 services, or Next Generation 9-1-1 services should only be used for the purposes for which the funds are collected;

(4) it is a national priority to foster the migration from analog, voice-centric 9-1-1 and current generation emergency communications systems to a 21st century, Next Generation, IP-

based emergency services model that embraces a wide range of voice, video, and data applications;

(5) ensuring 9-1-1 access for all citizens includes improving access to 9-1-1 systems for the deaf, hard of hearing, deaf-blind, and individuals with speech disabilities, who increasingly communicate with non-traditional text, video, and instant-messaging communications services, and who expect those services to be able to connect directly to 9-1-1 systems;

(6) a coordinated public educational effort on current and emerging 9-1-1 system capabilities and proper use of the 9-1-1 system is essential to the operation of effective 9-1-1 systems;

(7) Federal policies and funding should enable the transition to Internet Protocol-based (IP-based) Next Generation 9-1-1 systems, and Federal 9-1-1 and emergency communications laws and regulations must keep pace with rapidly changing technology to ensure an open and competitive 9-1-1 environment based on the most advanced technology available; and

(8) Federal policies and grant programs should reflect the growing convergence and integration of emergency communications technology, such that State interoperability plans and Federal funding in support of such plans are made available for all aspects of Next Generation 9-1-1 service and emergency communications systems.

#### SEC. 4263. PURPOSES.

The purposes of this part are—

(1) to focus Federal policies and funding programs to ensure a successful migration from voice-centric 9-1-1 systems to IP-enabled, Next Generation 9-1-1 emergency response systems that use voice, data, and video services to greatly enhance the capability of 9-1-1 and emergency response services;

(2) to ensure that technologically advanced 9-1-1 and emergency communications systems are universally available and adequately funded to serve all Americans; and

(3) to ensure that all 9-1-1 and emergency response organizations have access to—

- (A) high-speed broadband networks;
- (B) interconnected IP backbones; and
- (C) innovative services and applications.

#### SEC. 4264. DEFINITIONS.

In this part, the following definitions shall apply:

(1) 9-1-1 SERVICES AND E9-1-1 SERVICES.—The terms “9-1-1 services” and “E9-1-1 services” shall have the meaning given those terms in section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942), as amended by this part.

(2) MULTI-LINE TELEPHONE SYSTEM.—The term “multi-line telephone system” or “MLTS” means a system comprised of common control units, telephone sets, control hardware and software and adjunct systems, including network and premises based systems, such as Centrex and VoIP, as well as PBX, Hybrid, and Key Telephone Systems (as classified by the Commission under part 68 of title 47, Code of Federal Regulations), and includes systems owned or leased by governmental agencies and non-profit entities, as well as for profit businesses.

(3) OFFICE.—The term “Office” means the 9-1-1 Implementation Coordination Office established under section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942), as amended by this part.

#### SEC. 4265. COORDINATION OF 9-1-1 IMPLEMENTATION.

Section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942) is amended to read as follows:

#### “SEC. 158. COORDINATION OF 9-1-1, E9-1-1, AND NEXT GENERATION 9-1-1 IMPLEMENTATION.”

“(a) 9-1-1 IMPLEMENTATION COORDINATION OFFICE.—

“(1) ESTABLISHMENT AND CONTINUATION.—The Assistant Secretary and the Administrator of the National Highway Traffic Safety Administration shall—

“(A) establish and further a program to facilitate coordination and communication between Federal, State, and local emergency communications systems, emergency personnel, public safety organizations, telecommunications carriers, and telecommunications equipment manufacturers and vendors involved in the implementation of 9-1-1 services; and

“(B) establish a 9-1-1 Implementation Coordination Office to implement the provisions of this section.

“(2) MANAGEMENT PLAN.—

“(A) DEVELOPMENT.—The Assistant Secretary and the Administrator shall develop a management plan for the grant program established under this section, including by developing—

“(i) plans related to the organizational structure of such program; and

“(ii) funding profiles for each fiscal year of the duration of such program.

“(B) SUBMISSION TO CONGRESS.—Not later than 90 days after the date of enactment of the Next Generation 9-1-1 Advancement Act of 2011, the Assistant Secretary and the Administrator shall submit the management plan developed under subparagraph (A) to—

“(i) the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and

“(ii) the Committees on Energy and Commerce and Appropriations of the House of Representatives.

“(3) PURPOSE OF OFFICE.—The Office shall—

“(A) take actions, in concert with coordinators designated in accordance with subsection (b)(3)(A)(ii), to improve coordination and communication with respect to the implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services;

“(B) develop, collect, and disseminate information concerning practices, procedures, and technology used in the implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services;

“(C) advise and assist eligible entities in the preparation of implementation plans required under subsection (b)(3)(A)(iii);

“(D) receive, review, and recommend the approval or disapproval of applications for grants under subsection (b); and

“(E) oversee the use of funds provided by such grants in fulfilling such implementation plans.

“(4) REPORTS.—The Assistant Secretary and the Administrator shall provide an annual report to Congress by the first day of October of each year on the activities of the Office to improve coordination and communication with respect to the implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services.

“(b) 9-1-1, E9-1-1, AND NEXT GENERATION 9-1-1 IMPLEMENTATION GRANTS.—

“(1) MATCHING GRANTS.—The Assistant Secretary and the Administrator, acting through the Office, shall provide grants to eligible entities for—

“(A) the implementation and operation of 9-1-1 services, E9-1-1 services, migration to an IP-enabled emergency network, and adoption and operation of Next Generation 9-1-1 services and applications;

“(B) the implementation of IP-enabled emergency services and applications enabled by Next Generation 9-1-1 services, including the establishment of IP backbone networks and the application layer software infrastructure needed to

interconnect the multitude of emergency response organizations; and

“(C) training public safety personnel, including call-takers, first responders, and other individuals and organizations who are part of the emergency response chain in 9-1-1 services.

“(2) MATCHING REQUIREMENT.—The Federal share of the cost of a project eligible for a grant under this section shall not exceed 80 percent. The non-Federal share of the cost shall be provided from non-Federal sources unless waived by the Assistant Secretary and the Administrator.

“(3) COORDINATION REQUIRED.—In providing grants under paragraph (1), the Assistant Secretary and the Administrator shall require an eligible entity to certify in its application that—

“(A) in the case of an eligible entity that is a State government, the entity—

“(i) has coordinated its application with the public safety answering points located within the jurisdiction of such entity;

“(ii) has designated a single officer or governmental body of the entity to serve as the coordinator of implementation of 9-1-1 services, except that such designation need not vest such coordinator with direct legal authority to implement 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services or to manage emergency communications operations;

“(iii) has established a plan for the coordination and implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services; and

“(iv) has integrated telecommunications services involved in the implementation and delivery of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services; or

“(B) in the case of an eligible entity that is not a State, the entity has complied with clauses (i), (iii), and (iv) of subparagraph (A), and the State in which it is located has complied with clause (ii) of such subparagraph.

“(4) CRITERIA.—Not later than 120 days after the date of enactment of the Next Generation 9-1-1 Advancement Act of 2011, the Assistant Secretary and the Administrator shall issue regulations, after providing the public with notice and an opportunity to comment, prescribing the criteria for selection for grants under this section. The criteria shall include performance requirements and a timeline for completion of any project to be financed by a grant under this section. The Assistant Secretary and the Administrator shall update such regulations as necessary.

“(c) DIVERSION OF 9-1-1 CHARGES.—

“(1) DESIGNATED 9-1-1 CHARGES.—For the purposes of this subsection, the term ‘designated 9-1-1 charges’ means any taxes, fees, or other charges imposed by a State or other taxing jurisdiction that are designated or presented as dedicated to deliver or improve 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services.

“(2) CERTIFICATION.—Each applicant for a matching grant under this section shall certify to the Assistant Secretary and the Administrator at the time of application, and each applicant that receives such a grant shall certify to the Assistant Secretary and the Administrator annually thereafter during any period of time during which the funds from the grant are available to the applicant, that no portion of any designated 9-1-1 charges imposed by a State or other taxing jurisdiction within which the applicant is located are being obligated or expended for any purpose other than the purposes for which such charges are designated or presented during the period beginning 180 days immediately preceding the date of the application and continuing through the period of time during which the funds from the grant are available to the applicant.

“(3) CONDITION OF GRANT.—Each applicant for a grant under this section shall agree, as a

condition of receipt of the grant, that if the State or other taxing jurisdiction within which the applicant is located, during any period of time during which the funds from the grant are available to the applicant, obligates or expends designated 9–1–1 charges for any purpose other than the purposes for which such charges are designated or presented, eliminates such charges, or redesignates such charges for purposes other than the implementation or operation of 9–1–1 services, E9–1–1 services, or Next Generation 9–1–1 services, all of the funds from such grant shall be returned to the Office.

“(4) **PENALTY FOR PROVIDING FALSE INFORMATION.**—Any applicant that provides a certification under paragraph (2) knowing that the information provided in the certification was false shall—

“(A) not be eligible to receive the grant under subsection (b);

“(B) return any grant awarded under subsection (b) during the time that the certification was not valid; and

“(C) not be eligible to receive any subsequent grants under subsection (b).

“(d) **FUNDING AND TERMINATION.**—

“(1) **IN GENERAL.**—From the amounts made available to the Assistant Secretary and the Administrator under section 4241(b)(5) of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011, the Assistant Secretary and the Administrator are authorized to provide grants under this section through the end of fiscal year 2021. Not more than 5 percent of such amounts may be obligated or expended to cover the administrative costs of carrying out this section.

“(2) **TERMINATION.**—Effective on October 1, 2021, the authority provided by this section terminates and this section shall have no effect.

“(e) **DEFINITIONS.**—In this section, the following definitions shall apply:

“(1) **9–1–1 SERVICES.**—The term ‘9–1–1 services’ includes both E9–1–1 services and Next Generation 9–1–1 services.

“(2) **E9–1–1 SERVICES.**—The term ‘E9–1–1 services’ means both phase I and phase II enhanced 9–1–1 services, as described in section 20.18 of the Commission’s regulations (47 C.F.R. 20.18), as in effect on the date of enactment of the Next Generation 9–1–1 Advancement Act of 2011, or as subsequently revised by the Commission.

“(3) **ELIGIBLE ENTITY.**—

“(A) **IN GENERAL.**—The term ‘eligible entity’ means a State or local government or a tribal organization (as defined in section 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(l))).

“(B) **INSTRUMENTALITIES.**—The term ‘eligible entity’ includes public authorities, boards, commissions, and similar bodies created by 1 or more eligible entities described in subparagraph (A) to provide 9–1–1 services, E9–1–1 services, or Next Generation 9–1–1 services.

“(C) **EXCEPTION.**—The term ‘eligible entity’ does not include any entity that has failed to submit the most recently required certification under subsection (c) within 30 days after the date on which such certification is due.

“(4) **EMERGENCY CALL.**—The term ‘emergency call’ refers to any real-time communication with a public safety answering point or other emergency management or response agency, including—

“(A) through voice, text, or video and related data; and

“(B) nonhuman-initiated automatic event alerts, such as alarms, telematics, or sensor data, which may also include real-time voice, text, or video communications.

“(5) **NEXT GENERATION 9–1–1 SERVICES.**—The term ‘Next Generation 9–1–1 services’ means an IP-based system comprised of hardware, software, data, and operational policies and procedures that—

“(A) provides standardized interfaces from emergency call and message services to support emergency communications;

“(B) processes all types of emergency calls, including voice, data, and multimedia information;

“(C) acquires and integrates additional emergency call data useful to call routing and handling;

“(D) delivers the emergency calls, messages, and data to the appropriate public safety answering point and other appropriate emergency entities;

“(E) supports data or video communications needs for coordinated incident response and management; and

“(F) provides broadband service to public safety answering points or other first responder entities.

“(6) **OFFICE.**—The term ‘Office’ means the 9–1–1 Implementation Coordination Office.

“(7) **PUBLIC SAFETY ANSWERING POINT.**—The term ‘public safety answering point’ has the meaning given the term in section 222 of the Communications Act of 1934 (47 U.S.C. 222).

“(8) **STATE.**—The term ‘State’ means any State of the United States, the District of Columbia, Puerto Rico, American Samoa, Guam, the United States Virgin Islands, the Northern Mariana Islands, and any other territory or possession of the United States.”.

#### **SEC. 4266. REQUIREMENTS FOR MULTI-LINE TELEPHONE SYSTEMS.**

(a) **IN GENERAL.**—Not later than 270 days after the date of the enactment of this Act, the Administrator of General Services, in conjunction with the Office, shall issue a report to Congress identifying the 9–1–1 capabilities of the multi-line telephone system in use by all Federal agencies in all Federal buildings and properties.

(b) **COMMISSION ACTION.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the Commission shall issue a public notice seeking comment on the feasibility of requiring MLTS manufacturers to include within all such systems manufactured or sold after a date certain, to be determined by the Commission, one or more mechanisms to provide a sufficiently precise indication of a 9–1–1 caller’s location, while avoiding the imposition of undue burdens on MLTS manufacturers, providers, and operators.

(2) **SPECIFIC REQUIREMENT.**—The public notice under paragraph (1) shall seek comment on the National Emergency Number Association’s “Technical Requirements Document On Model Legislation E9–1–1 for Multi-Line Telephone Systems” (NENA 06–750, Version 2).

#### **SEC. 4267. GAO STUDY OF STATE AND LOCAL USE OF 9–1–1 SERVICE CHARGES.**

(a) **IN GENERAL.**—Not later than 60 days after the date of the enactment of this Act, the Comptroller General of the United States shall initiate a study of—

(1) the imposition of taxes, fees, or other charges imposed by States or political subdivisions of States that are designated or presented as dedicated to improve emergency communications services, including 9–1–1 services or enhanced 9–1–1 services, or related to emergency communications services operations or improvements; and

(2) the use of revenues derived from such taxes, fees, or charges.

(b) **REPORT.**—Not later than 18 months after initiating the study required by subsection (a), the Comptroller General shall prepare and submit a report on the results of the study to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives setting forth the findings, conclusions, and recommendations, if any, of the study, including—

(1) the identity of each State or political subdivision that imposes such taxes, fees, or other charges; and

(2) the amount of revenues obligated or expended by that State or political subdivision for any purpose other than the purposes for which such taxes, fees, or charges were designated or presented.

#### **SEC. 4268. PARITY OF PROTECTION FOR PROVISION OR USE OF NEXT GENERATION 9–1–1 SERVICES.**

(a) **IMMUNITY.**—A provider or user of Next Generation 9–1–1 services, a public safety answering point, and the officers, directors, employees, vendors, agents, and authorizing government entity (if any) of such provider, user, or public safety answering point, shall have immunity and protection from liability under Federal and State law to the extent provided in subsection (b) with respect to—

(1) the release of subscriber information related to emergency calls or emergency services;

(2) the use or provision of 9–1–1 services, E9–1–1 services, or Next Generation 9–1–1 services; and

(3) other matters related to 9–1–1 services, E9–1–1 services, or Next Generation 9–1–1 services.

(b) **SCOPE OF IMMUNITY AND PROTECTION FROM LIABILITY.**—The scope and extent of the immunity and protection from liability afforded under subsection (a) shall be the same as that provided under section 4 of the Wireless Communications and Public Safety Act of 1999 (47 U.S.C. 615a) to wireless carriers, public safety answering points, and users of wireless 9–1–1 service (as defined in paragraphs (4), (3), and (6), respectively, of section 6 of that Act (47 U.S.C. 615b)) with respect to such release, use, and other matters.

#### **SEC. 4269. COMMISSION PROCEEDING ON AUTODIALING.**

(a) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the Commission shall initiate a proceeding to create a specialized Do-Not-Call registry for public safety answering points.

(b) **FEATURES OF THE REGISTRY.**—The Commission shall issue regulations, after providing the public with notice and an opportunity to comment, that—

(1) permit verified public safety answering point administrators or managers to register the telephone numbers of all 9–1–1 trunks and other lines used for the provision of emergency services to the public or for communications between public safety agencies;

(2) provide a process for verifying, no less frequently than once every 7 years, that registered numbers should continue to appear upon the registry;

(3) provide a process for granting and tracking access to the registry by the operators of automatic dialing equipment;

(4) protect the list of registered numbers from disclosure or dissemination by parties granted access to the registry; and

(5) prohibit the use of automatic dialing or “robocall” equipment to establish contact with registered numbers.

(c) **ENFORCEMENT.**—The Commission shall—

(1) establish monetary penalties for violations of the protective regulations established pursuant to subsection (b)(4) of not less than \$100,000 per incident nor more than \$1,000,000 per incident;

(2) establish monetary penalties for violations of the prohibition on automatically dialing registered numbers established pursuant to subsection (b)(5) of not less than \$10,000 per call nor more than \$100,000 per call; and

(3) provide for the imposition of fines under paragraphs (1) or (2) that vary depending upon whether the conduct leading to the violation was negligent, grossly negligent, reckless, or

willful, and depending on whether the violation was a first or subsequent offence.

**SEC. 4270. NHTSA REPORT ON COSTS FOR REQUIREMENTS AND SPECIFICATIONS OF NEXT GENERATION 9-1-1 SERVICES.**

(a) *IN GENERAL.*—Not later than 1 year after the date of the enactment of this Act, the Administrator of the National Highway Traffic Safety Administration, in consultation with the Commission, the Secretary of Homeland Security, and the Office, shall prepare and submit a report to Congress that analyzes and determines detailed costs for specific Next Generation 9-1-1 service requirements and specifications.

(b) *PURPOSE OF REPORT.*—The purpose of the report required under subsection (a) is to serve as a resource for Congress as it considers creating a coordinated, long-term funding mechanism for the deployment and operation, accessibility, application development, equipment procurement, and training of personnel for Next Generation 9-1-1 services.

(c) *REQUIRED INCLUSIONS.*—The report required under subsection (a) shall include the following:

(1) How costs would be broken out geographically and/or allocated among public safety answering points, broadband service providers, and third-party providers of Next Generation 9-1-1 services.

(2) An assessment of the current state of Next Generation 9-1-1 service readiness among public safety answering points.

(3) How differences in public safety answering points' access to broadband across the country may affect costs.

(4) A technical analysis and cost study of different delivery platforms, such as wireline, wireless, and satellite.

(5) An assessment of the architectural characteristics, feasibility, and limitations of Next Generation 9-1-1 service delivery.

(6) An analysis of the needs for Next Generation 9-1-1 services of persons with disabilities.

(7) Standards and protocols for Next Generation 9-1-1 services and for incorporating Voice over Internet Protocol and "Real-Time Text" standards.

**SEC. 4271. FCC RECOMMENDATIONS FOR LEGAL AND STATUTORY FRAMEWORK FOR NEXT GENERATION 9-1-1 SERVICES.**

Not later than 1 year after the date of the enactment of this Act, the Commission, in coordination with the Secretary of Homeland Security, the Administrator of the National Highway Traffic Safety Administration, and the Office, shall prepare and submit a report to Congress that contains recommendations for the legal and statutory framework for Next Generation 9-1-1 services, consistent with recommendations in the National Broadband Plan developed by the Commission pursuant to the American Recovery and Reinvestment Act of 2009, including the following:

(1) A legal and regulatory framework for the development of Next Generation 9-1-1 services and the transition from legacy 9-1-1 to Next Generation 9-1-1 networks.

(2) Legal mechanisms to ensure efficient and accurate transmission of 9-1-1 caller information to emergency response agencies.

(3) Recommendations for removing jurisdictional barriers and inconsistent legacy regulations including—

(A) proposals that would require States to remove regulatory roadblocks to Next Generation 9-1-1 services development, while recognizing existing State authority over 9-1-1 services;

(B) eliminating outdated 9-1-1 regulations at the Federal level; and

(C) preempting inconsistent State regulations.

**Subtitle C—Federal Spectrum Relocation**

**SEC. 4301. RELOCATION OF AND SPECTRUM SHARING BY FEDERAL GOVERNMENT STATIONS.**

(a) *IN GENERAL.*—Section 113 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923) is amended—

(1) in subsection (g)—

(A) by striking the heading and inserting "RELOCATION OF AND SPECTRUM SHARING BY FEDERAL GOVERNMENT STATIONS";

(B) by amending paragraph (1) to read as follows:

"(1) *ELIGIBLE FEDERAL ENTITIES.*—Any Federal entity that operates a Federal Government station authorized to use a band of eligible frequencies described in paragraph (2) and that incurs relocation or sharing costs because of planning for an auction of spectrum frequencies or the reallocation of spectrum frequencies from Federal use to exclusive non-Federal use or to shared use shall receive payment for such relocation or sharing costs from the Spectrum Relocation Fund, in accordance with this section and section 118. For purposes of this paragraph, Federal power agencies exempted under subsection (c)(4) that choose to relocate from the frequencies identified for reallocation pursuant to subsection (a) are eligible to receive payment under this paragraph."

(C) by amending paragraph (2)(B) to read as follows:

"(B) any other band of frequencies reallocated from Federal use to exclusive non-Federal use or to shared use after January 1, 2003, that is assigned by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j))."

(D) by amending paragraph (3) to read as follows:

"(3) *RELOCATION OR SHARING COSTS DEFINED.*—

"(A) *IN GENERAL.*—For purposes of this section and section 118, the term 'relocation or sharing costs' means the costs incurred by a Federal entity in connection with the auction of spectrum frequencies previously assigned to such entity or the sharing of spectrum frequencies assigned to such entity (including the auction or a planned auction of the rights to use spectrum frequencies on a shared basis with such entity) in order to achieve comparable capability of systems as before the relocation or sharing arrangement. Such term includes, with respect to relocation or sharing, as the case may be—

"(i) the costs of any modification or replacement of equipment, spares, associated ancillary equipment, software, facilities, operating manuals, training, or compliance with regulations that are attributable to relocation or sharing;

"(ii) the costs of all engineering, equipment, software, site acquisition, and construction, as well as any legitimate and prudent transaction expense, including term-limited Federal civil servant and contractor staff necessary to carry out the relocation or sharing activities of a Federal entity, and reasonable additional costs incurred by the Federal entity that are attributable to relocation or sharing, including increased recurring costs associated with the replacement of facilities;

"(iii) the costs of research, engineering studies, economic analyses, or other expenses reasonably incurred in connection with—

"(I) calculating the estimated relocation or sharing costs that are provided to the Commission pursuant to paragraph (4)(A);

"(II) determining the technical or operational feasibility of relocation to 1 or more potential relocation bands; or

"(III) planning for or managing a relocation or sharing arrangement (including spectrum coordination with auction winners);

"(iv) the one-time costs of any modification of equipment reasonably necessary—

"(I) to accommodate non-Federal use of shared frequencies; or

"(II) in the case of eligible frequencies reallocated for exclusive non-Federal use and assigned through a system of competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)) but with respect to which a Federal entity retains primary allocation or protected status for a period of time after the completion of the competitive bidding process, to accommodate shared Federal and non-Federal use of such frequencies for such period; and

"(v) the costs associated with the accelerated replacement of systems and equipment if the acceleration is necessary to ensure the timely relocation of systems to a new frequency assignment or the timely accommodation of sharing of Federal frequencies.

"(B) *COMPARABLE CAPABILITY OF SYSTEMS.*—For purposes of subparagraph (A), comparable capability of systems—

"(i) may be achieved by relocating a Federal Government station to a new frequency assignment, by relocating a Federal Government station to a different geographic location, by modifying Federal Government equipment to mitigate interference or use less spectrum, in terms of bandwidth, geography, or time, and thereby permitting spectrum sharing (including sharing among relocated Federal entities and incumbents to make spectrum available for non-Federal use) or relocation, or by utilizing an alternative technology; and

"(ii) includes the acquisition of state-of-the-art replacement systems intended to meet comparable operational scope, which may include incidental increases in functionality."

(E) in paragraph (4)—

(i) in the heading, by striking "RELOCATIONS COSTS" and inserting "RELOCATION OR SHARING COSTS";

(ii) by striking "relocation costs" each place it appears and inserting "relocation or sharing costs"; and

(iii) in subparagraph (A), by inserting "or sharing" after "such relocation";

(F) in paragraph (5)—

(i) by striking "relocation costs" and inserting "relocation or sharing costs"; and

(ii) by inserting "or sharing" after "for relocation"; and

(G) by amending paragraph (6) to read as follows:

"(6) *IMPLEMENTATION OF PROCEDURES.*—The NTIA shall take such actions as necessary to ensure the timely relocation of Federal entities' spectrum-related operations from frequencies described in paragraph (2) to frequencies or facilities of comparable capability and to ensure the timely implementation of arrangements for the sharing of frequencies described in such paragraph. Upon a finding by the NTIA that a Federal entity has achieved comparable capability of systems, the NTIA shall terminate or limit the entity's authorization and notify the Commission that the entity's relocation has been completed or sharing arrangement has been implemented. The NTIA shall also terminate such entity's authorization if the NTIA determines that the entity has unreasonably failed to comply with the timeline for relocation or sharing submitted by the Director of the Office of Management and Budget under section 118(d)(2)(C)."

(2) by redesignating subsections (h) and (i) as subsections (k) and (l), respectively; and

(3) by inserting after subsection (g) the following:

"(h) *DEVELOPMENT AND PUBLICATION OF RELOCATION OR SHARING TRANSITION PLANS.*—

"(I) *DEVELOPMENT OF TRANSITION PLAN BY FEDERAL ENTITY.*—Not later than 240 days before the commencement of any auction of eligible frequencies described in subsection (g)(2), a

Federal entity authorized to use any such frequency shall submit to the NTIA and to the Technical Panel established by paragraph (3) a transition plan for the implementation by such entity of the relocation or sharing arrangement. The NTIA shall specify, after public input, a common format for all Federal entities to follow in preparing transition plans under this paragraph.

“(2) CONTENTS OF TRANSITION PLAN.—The transition plan required by paragraph (1) shall include the following information:

“(A) The use by the Federal entity of the eligible frequencies to be auctioned, current as of the date of the submission of the plan.

“(B) The geographic location of the facilities or systems of the Federal entity that use such frequencies.

“(C) The frequency bands used by such facilities or systems, described by geographic location.

“(D) The steps to be taken by the Federal entity to relocate its spectrum use from such frequencies or to share such frequencies, including timelines for specific geographic locations in sufficient detail to indicate when use of such frequencies at such locations will be discontinued by the Federal entity or shared between the Federal entity and non-Federal users.

“(E) The specific interactions between the eligible Federal entity and the NTIA needed to implement the transition plan.

“(F) The name of the officer or employee of the Federal entity who is responsible for the relocation or sharing efforts of the entity and who is authorized to meet and negotiate with non-Federal users regarding the transition.

“(G) The plans and timelines of the Federal entity for—

“(i) using funds received from the Spectrum Relocation Fund established by section 118;

“(ii) procuring new equipment and additional personnel needed for relocation or sharing;

“(iii) field-testing and deploying new equipment needed for relocation or sharing; and

“(iv) hiring and relying on contract personnel, if any, needed for relocation or sharing.

“(H) Factors that could hinder fulfillment of the transition plan by the Federal entity.

“(3) TECHNICAL PANEL.—

“(A) ESTABLISHMENT.—There is established within the NTIA a panel to be known as the Technical Panel.

“(B) MEMBERSHIP.—

“(i) NUMBER AND APPOINTMENT.—The Technical Panel shall be composed of 3 members, to be appointed as follows:

“(I) One member to be appointed by the Director of the Office of Management and Budget (in this subsection referred to as ‘OMB’).

“(II) One member to be appointed by the Assistant Secretary.

“(III) One member to be appointed by the Chairman of the Commission.

“(ii) QUALIFICATIONS.—Each member of the Technical Panel shall be a radio engineer or a technical expert.

“(iii) INITIAL APPOINTMENT.—The initial members of the Technical Panel shall be appointed not later than 180 days after the date of the enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011.

“(iv) TERMS.—The term of a member of the Technical Panel shall be 18 months, and no individual may serve more than 1 consecutive term.

“(v) VACANCIES.—Any member appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term. A member may serve after the expiration of that member's term until a successor has taken office. A vacancy shall be filled in the manner in which the original appointment was made.

“(vi) NO COMPENSATION.—The members of the Technical Panel shall not receive any compensation for service on the Technical Panel. If any such member is an employee of the agency of the official that appointed such member to the Technical Panel, compensation in the member's capacity as such an employee shall not be considered compensation under this clause.

“(C) ADMINISTRATIVE SUPPORT.—The NTIA shall provide the Technical Panel with the administrative support services necessary to carry out its duties under this subsection and subsection (i).

“(D) REGULATIONS.—Not later than 180 days after the date of the enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011, the NTIA shall, after public notice and comment and subject to approval by the Director of OMB, adopt regulations to govern the workings of the Technical Panel.

“(E) CERTAIN REQUIREMENTS INAPPLICABLE.—The Federal Advisory Committee Act (5 U.S.C. App.) and sections 552 and 552b of title 5, United States Code, shall not apply to the Technical Panel.

“(4) REVIEW OF PLAN BY TECHNICAL PANEL.—

“(A) IN GENERAL.—Not later than 30 days after the submission of the plan under paragraph (1), the Technical Panel shall submit to the NTIA and to the Federal entity a report on the sufficiency of the plan, including whether the plan includes the information required by paragraph (2) and an assessment of the reasonableness of the proposed timelines and estimated relocation or sharing costs, including the costs of any proposed expansion of the capabilities of a Federal system in connection with relocation or sharing.

“(B) INSUFFICIENCY OF PLAN.—If the Technical Panel finds the plan insufficient, the Federal entity shall, not later than 90 days after the submission of the report by the Technical panel under subparagraph (A), submit to the Technical Panel a revised plan. Such revised plan shall be treated as a plan submitted under paragraph (1).

“(5) PUBLICATION OF TRANSITION PLAN.—Not later than 120 days before the commencement of the auction described in paragraph (1), the NTIA shall make the transition plan publicly available on its website.

“(6) UPDATES OF TRANSITION PLAN.—As the Federal entity implements the transition plan, it shall periodically update the plan to reflect any changed circumstances, including changes in estimated relocation or sharing costs or the timeline for relocation or sharing. The NTIA shall make the updates available on its website.

“(7) CLASSIFIED AND OTHER SENSITIVE INFORMATION.—

“(A) CLASSIFIED INFORMATION.—If any of the information required to be included in the transition plan of a Federal entity is classified information (as defined in section 798(b) of title 18, United States Code), the entity shall—

“(i) include in the plan—

“(I) an explanation of the exclusion of any such information, which shall be as specific as possible; and

“(II) all relevant non-classified information that is available; and

“(ii) discuss as a factor under paragraph (2)(H) the extent of the classified information and the effect of such information on the implementation of the relocation or sharing arrangement.

“(B) REGULATIONS.—Not later than 180 days after the date of the enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011, the NTIA, in consultation with the Director of OMB and the Secretary of Defense, shall adopt regulations to ensure that the information publicly released under paragraph (5) or (6) does not contain classified information or other sensitive information.

“(i) DISPUTE RESOLUTION PROCESS.—

“(1) IN GENERAL.—If a dispute arises between a Federal entity and a non-Federal user regarding the execution, timing, or cost of the transition plan submitted by the Federal entity under subsection (h)(1), the Federal entity or the non-Federal user may request that the NTIA establish a dispute resolution board to resolve the dispute.

“(2) ESTABLISHMENT OF BOARD.—

“(A) IN GENERAL.—If the NTIA receives a request under paragraph (1), it shall establish a dispute resolution board.

“(B) MEMBERSHIP AND APPOINTMENT.—The dispute resolution board shall be composed of 3 members, as follows:

“(i) A representative of the Office of Management and Budget (in this subsection referred to as ‘OMB’), to be appointed by the Director of OMB.

“(ii) A representative of the NTIA, to be appointed by the Assistant Secretary.

“(iii) A representative of the Commission, to be appointed by the Chairman of the Commission.

“(C) CHAIR.—The representative of OMB shall be the Chair of the dispute resolution board.

“(D) VACANCIES.—Any vacancy in the dispute resolution board shall be filled in the manner in which the original appointment was made.

“(E) NO COMPENSATION.—The members of the dispute resolution board shall not receive any compensation for service on the board. If any such member is an employee of the agency of the official that appointed such member to the board, compensation in the member's capacity as such an employee shall not be considered compensation under this subparagraph.

“(F) TERMINATION OF BOARD.—The dispute resolution board shall be terminated after it rules on the dispute that it was established to resolve and the time for appeal of its decision under paragraph (7) has expired, unless an appeal has been taken under such paragraph. If such an appeal has been taken, the board shall continue to exist until the appeal process has been exhausted and the board has completed any action required by a court hearing the appeal.

“(3) PROCEDURES.—The dispute resolution board shall meet simultaneously with representatives of the Federal entity and the non-Federal user to discuss the dispute. The dispute resolution board may require the parties to make written submissions to it.

“(4) DEADLINE FOR DECISION.—The dispute resolution board shall rule on the dispute not later than 30 days after the request was made to the NTIA under paragraph (1).

“(5) ASSISTANCE FROM TECHNICAL PANEL.—The Technical Panel established under subsection (h)(3) shall provide the dispute resolution board with such technical assistance as the board requests.

“(6) ADMINISTRATIVE SUPPORT.—The NTIA shall provide the dispute resolution board with the administrative support services necessary to carry out its duties under this subsection.

“(7) APPEALS.—A decision of the dispute resolution board may be appealed to the United States Court of Appeals for the District of Columbia Circuit by filing a notice of appeal with that court not later than 30 days after the date of such decision. Each party shall bear its own costs and expenses, including attorneys' fees, for any appeal under this paragraph.

“(8) REGULATIONS.—Not later than 180 days after the date of the enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011, the NTIA shall, after public notice and comment and subject to approval by OMB, adopt regulations to govern the working of any dispute resolution boards established under paragraph (2)(A) and the role of the Technical Panel in assisting any such board.

“(9) CERTAIN REQUIREMENTS INAPPLICABLE.—The Federal Advisory Committee Act (5 U.S.C. App.) and sections 552 and 552b of title 5, United States Code, shall not apply to a dispute resolution board established under paragraph (2)(A).”

“(j) RELOCATION PRIORITIZED OVER SHARING.—

“(1) IN GENERAL.—In evaluating a band of frequencies for possible reallocation for exclusive non-Federal use or shared use, the NTIA shall give priority to options involving reallocation of the band for exclusive non-Federal use and shall choose options involving shared use only when it determines, in consultation with the Director of the Office of Management and Budget, that relocation of a Federal entity from the band is not feasible because of technical or cost constraints.

“(2) NOTIFICATION OF CONGRESS WHEN SHARING CHOSEN.—If the NTIA determines under paragraph (1) that relocation of a Federal entity from the band is not feasible, the NTIA shall notify the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives of the determination, including the specific technical or cost constraints on which the determination is based.”

(b) CONFORMING AMENDMENT.—Section 309(j) of the Communications Act of 1934, as amended by section 4105, is further amended by striking “relocation costs” each place it appears and inserting “relocation or sharing costs”.

#### SEC. 4302. SPECTRUM RELOCATION FUND.

Section 118 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 928) is amended—

(1) by striking “relocation costs” each place it appears and inserting “relocation or sharing costs”;

(2) by amending subsection (c) to read as follows:

“(c) USE OF FUNDS.—The amounts in the Fund from auctions of eligible frequencies are authorized to be used to pay relocation or sharing costs of an eligible Federal entity incurring such costs with respect to relocation from or sharing of those frequencies.”;

(3) in subsection (d)—

(A) in paragraph (2)—

(i) in subparagraph (A), by inserting “or sharing” before the semicolon;

(ii) in subparagraph (B), by inserting “or sharing” before the period at the end;

(iii) by redesignating subparagraphs (A) and (B) as subparagraphs (B) and (C), respectively; and

(iv) by inserting before subparagraph (B), as so redesignated, the following:

“(A) unless the eligible Federal entity has submitted a transition plan to the NTIA as required by paragraph (1) of section 113(h), the Technical Panel has found such plan sufficient under paragraph (4) of such section, and the NTIA has made available such plan on its website as required by paragraph (5) of such section”;

(B) by striking paragraph (3); and

(C) by adding at the end the following:

“(3) TRANSFERS FOR PRE-AUCTION COSTS.—

“(A) IN GENERAL.—Subject to subparagraph (B), the Director of OMB may transfer to an eligible Federal entity, at any time (including prior to a scheduled auction), such sums as may be available in the Fund to pay relocation or sharing costs related to pre-auction estimates or research, as such costs are described in section 113(g)(3)(A)(iii).

“(B) NOTIFICATION.—No funds may be transferred pursuant to subparagraph (A) unless—

“(i) the notification provided under paragraph (2)(C) includes a certification from the Director of OMB that—

“(I) funds transferred before an auction will likely allow for timely implementation of reloca-

tion or sharing, thereby increasing net expected auction proceeds by an amount not less than the time value of the amount of funds transferred; and

“(II) the auction is intended to occur not later than 5 years after transfer of funds; and

“(iii) the transition plan submitted by the eligible Federal entity under section 113(h)(1) provides—

“(I) to the fullest extent possible, for sharing and coordination of eligible frequencies with non-Federal users, including reasonable accommodation by the eligible Federal entity for the use of eligible frequencies by non-Federal users during the period that the entity is relocating its spectrum uses (in this clause referred to as the ‘transition period’);

“(II) for non-Federal users to be able to use eligible frequencies during the transition period in geographic areas where the eligible Federal entity does not use such frequencies;

“(III) that the eligible Federal entity will, during the transition period, make itself available for negotiation and discussion with non-Federal users not later than 30 days after a written request therefor; and

“(IV) that the eligible Federal entity will, during the transition period, make available to a non-Federal user with appropriate security clearances any classified information (as defined in section 798(b) of title 18, United States Code) regarding the relocation process, on a need-to-know basis, to assist the non-Federal user in the relocation process with such eligible Federal entity or other eligible Federal entities.

“(C) APPLICABILITY TO CERTAIN COSTS.—

“(i) IN GENERAL.—The Director of OMB may transfer under subparagraph (A) not more than \$10,000,000 for costs incurred after June 28, 2010, but before the date of the enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011.

“(ii) SUPPLEMENT NOT SUPPLANT.—Any amounts transferred by the Director of OMB pursuant to clause (i) shall be in addition to any amounts that the Director of OMB may transfer for costs incurred on or after the date of the enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011.

“(4) REVERSION OF UNUSED FUNDS.—Any amounts in the Fund that are remaining after the payment of the relocation or sharing costs that are payable from the Fund shall revert to and be deposited in the general fund of the Treasury, for the sole purpose of deficit reduction, not later than 8 years after the date of the deposit of such proceeds to the Fund, unless within 60 days in advance of the reversion of such funds, the Director of OMB, in consultation with the NTIA, notifies the congressional committees described in paragraph (2)(C) that such funds are needed to complete or to implement current or future relocation or sharing arrangements.”;

(4) in subsection (e)—

(A) in paragraph (1)(B)—

(i) in clause (i), by striking “subsection (d)(2)(A)” and inserting “subsection (d)(2)(B)”;

(ii) in clause (ii), by striking “subsection (d)(2)(B)” and inserting “subsection (d)(2)(C)”;

(B) in paragraph (2)—

(i) by striking “entity’s relocation” and inserting “relocation of the entity or implementation of the sharing arrangement by the entity”;

(ii) by inserting “or the implementation of such arrangement” after “such relocation”;

(iii) by striking “subsection (d)(2)(A)” and inserting “subsection (d)(2)(B)”;

(5) by adding at the end the following:

“(f) ADDITIONAL PAYMENTS FROM FUND.—

“(1) AMOUNTS AVAILABLE.—Notwithstanding subsections (c) through (e), after the date of the

enactment of the Jumpstarting Opportunity with Broadband Spectrum Act of 2011, there are appropriated from the Fund and available to the Director of OMB for use in accordance with paragraph (2) not more than 10 percent of the amounts deposited in the Fund from auctions occurring after such date of enactment of licenses for the use of spectrum vacated by eligible Federal entities.

“(2) USE OF AMOUNTS.—

“(A) IN GENERAL.—The Director of OMB, in consultation with the NTIA, may use amounts made available under paragraph (1) to make payments to eligible Federal entities that are implementing a transition plan submitted under section 113(h)(1) in order to encourage such entities to complete the implementation more quickly, thereby encouraging timely access to the eligible frequencies that are being reallocated for exclusive non-Federal use or shared use.

“(B) CONDITIONS.—In the case of any payment by the Director of OMB under subparagraph (A)—

“(i) such payment shall be based on the market value of the eligible frequencies, the timeliness with which the eligible Federal entity clears its use of such frequencies, and the need for such frequencies in order for the entity to conduct its essential missions;

“(ii) the eligible Federal entity shall use such payment for the purposes specified in clauses (i) through (v) of section 113(g)(3)(A) to achieve comparable capability of systems affected by the reallocation of eligible frequencies from Federal use to exclusive non-Federal use or to shared use;

“(iii) such payment may not be made if the amount remaining in the Fund after such payment will be less than 10 percent of the winning bids in the auction of the spectrum with respect to which the Federal entity is incurring relocation or sharing costs; and

“(iv) such payment may not be made until 30 days after the Director of OMB has notified the congressional committees described in subsection (d)(2)(C).”

#### SEC. 4303. NATIONAL SECURITY AND OTHER SENSITIVE INFORMATION.

Part B of title I of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 921 et seq.) is amended by adding at the end the following:

#### “SEC. 119. NATIONAL SECURITY AND OTHER SENSITIVE INFORMATION.

“(a) DETERMINATION.—If the head of an Executive agency (as defined in section 105 of title 5, United States Code) determines that public disclosure of any information contained in a notification or report required by section 113 or 118 would reveal classified national security information, or other information for which there is a legal basis for nondisclosure and the public disclosure of which would be detrimental to national security, homeland security, or public safety or would jeopardize a law enforcement investigation, the head of the Executive agency shall notify the Assistant Secretary of that determination prior to the release of such information.

“(b) INCLUSION IN ANNEX.—The head of the Executive agency shall place the information with respect to which a determination was made under subsection (a) in a separate annex to the notification or report required by section 113 or 118. The annex shall be provided to the subcommittee of primary jurisdiction of the congressional committee of primary jurisdiction in accordance with appropriate national security stipulations but shall not be disclosed to the public or provided to any unauthorized person through any means.”.

### Subtitle D—Telecommunications Development Fund

#### SEC. 4401. NO ADDITIONAL FEDERAL FUNDS.

Section 309(j)(8)(C)(iii) of the Communications Act of 1934 (47 U.S.C. 309(j)(8)(C)(iii)) is amended to read as follows:

“(iii) the interest accrued to the account shall be deposited in the general fund of the Treasury, where such amount shall be dedicated for the sole purpose of deficit reduction.”.

#### SEC. 4402. INDEPENDENCE OF THE FUND.

Section 714 of the Communications Act of 1934 (47 U.S.C. 614) is amended—

(1) by striking subsection (c) and inserting the following:

“(c) INDEPENDENT BOARD OF DIRECTORS.—The Fund shall have a Board of Directors consisting of 5 people with experience in areas including finance, investment banking, government banking, communications law and administrative practice, and public policy. The Board of Directors shall select annually a Chair from among the directors. A nominating committee, comprised of the Chair and 2 other directors selected by the Chair, shall appoint additional directors. The Fund’s bylaws shall regulate the other aspects of the Board of Directors, including provisions relating to meetings, quorums, committees, and other matters, all as typically contained in the bylaws of a similar private investment fund.”;

(2) in subsection (d)—

(A) by striking “(after consultation with the Commission and the Secretary of the Treasury)”;

(B) by striking paragraph (1); and

(C) by redesignating paragraphs (2) through (4) as paragraphs (1) through (3), respectively; and

(3) in subsection (g), by striking “subsection (d)(2)” and inserting “subsection (d)(1)”.

### TITLE V—OFFSETS

#### Subtitle A—Guarantee Fees

#### SEC. 5001. GUARANTEE FEES.

Subpart A of part 2 of subtitle A of title XIII of the Housing and Community Development Act of 1992 is amended by adding after section 1326 (12 U.S.C. 4546) the following new section:

#### “SEC. 1327. ENTERPRISE GUARANTEE FEES.

“(a) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

“(1) GUARANTEE FEE.—The term ‘guarantee fee’—

“(A) means a fee described in subsection (b); and

“(B) includes—

“(i) the guaranty fee charged by the Federal National Mortgage Association with respect to mortgage-backed securities; and

“(ii) the management and guarantee fee charged by the Federal Home Loan Mortgage Corporation with respect to participation certificates.

“(2) AVERAGE FEES.—The term ‘average fees’ means the average contractual fee rate of single-family guaranty arrangements by an enterprise entered into during 2011, plus the recognition of any up-front cash payments over an estimated average life, expressed in terms of basis points. Such definition shall be interpreted in a manner consistent with the annual report on guarantee fees by the Federal Housing Finance Agency.

“(b) INCREASE.—

“(1) IN GENERAL.—

“(A) PHASED INCREASE REQUIRED.—Subject to subsection (c), the Director shall require each enterprise to charge a guarantee fee in connection with any guarantee of the timely payment of principal and interest on securities, notes, and other obligations based on or backed by mortgages on residential real properties designed principally for occupancy of from 1 to 4 families, consummated after the date of enactment of this section.

“(B) AMOUNT.—The amount of the increase required under this section shall be determined by the Director to appropriately reflect the risk of loss, as well the cost of capital allocated to similar assets held by other fully private regulated financial institutions, but such amount shall be not less than an average increase of 10 basis points for each origination year or book year above the average fees imposed in 2011 for such guarantees. The Director shall prohibit an enterprise from offsetting the cost of the fee to mortgage originators, borrowers, and investors by decreasing other charges, fees, or premiums, or in any other manner.

“(2) AUTHORITY TO LIMIT OFFER OF GUARANTEE.—The Director shall prohibit an enterprise from consummating any offer for a guarantee to a lender for mortgage-backed securities, if—

“(A) the guarantee is inconsistent with the requirements of this section; or

“(B) the risk of loss is allowed to increase, through lowering of the underwriting standards or other means, for the primary purpose of meeting the requirements of this section.

“(3) DEPOSIT IN TREASURY.—To the extent that amounts are received from fee increases imposed under this section that are necessary to comply with the minimum increase required by this subsection, such amounts shall be deposited directly into the United States Treasury, and shall be available only to the extent provided in subsequent appropriations Acts. Such fees shall not be considered a reimbursement to the Federal Government for the costs or subsidy provided to an enterprise.

“(c) PHASE-IN.—

“(1) IN GENERAL.—The Director may provide for compliance with subsection (b) by allowing each enterprise to increase the guarantee fee charged by the enterprise gradually over the 2-year period beginning on the date of enactment of this section, in a manner sufficient to comply with this section. In determining a schedule for such increases, the Director shall—

“(A) provide for uniform pricing among lenders;

“(B) provide for adjustments in pricing based on risk levels; and

“(C) take into consideration conditions in financial markets.

“(2) RULE OF CONSTRUCTION.—Nothing in this subsection shall be interpreted to undermine the minimum increase required by subsection (b).

“(d) INFORMATION COLLECTION AND ANNUAL ANALYSIS.—The Director shall require each enterprise to provide to the Director, as part of its annual report submitted to Congress—

“(1) a description of—

“(A) changes made to up-front fees and annual fees as part of the guarantee fees negotiated with lenders; and

“(B) changes to the riskiness of the new borrowers compared to previous origination years or book years; and

“(2) an assessment of how the changes in the guarantee fees described in paragraph (1) met the requirements of subsection (b).

“(e) ENFORCEMENT.—

“(1) REQUIRED ADJUSTMENTS.—Based on the information from subsection (d) and any other information the Director deems necessary, the Director shall require an enterprise to make adjustments in its guarantee fee in order to be in compliance with subsection (b).

“(2) NONCOMPLIANCE PENALTY.—An enterprise that has been found to be out of compliance with subsection (b) for any 2 consecutive years shall be precluded from providing any guarantee for a period, determined by rule of the Director, but in no case less than 1 year.

“(3) RULE OF CONSTRUCTION.—Nothing in this subsection shall be interpreted as preventing the Director from initiating and implementing an

enforcement action against an enterprise, at a time the Director deems necessary, under other existing enforcement authority.

“(f) AUTHORITY FOR OTHER INCREASES.—Nothing in this section may be construed to prohibiting, restricting, or limiting increases, other than pursuant to this section, in the guarantee fees charged by an enterprise.

“(g) EXPIRATION.—The provisions of this section shall expire on October 1, 2021.”.

### Subtitle B—Social Security Provisions

#### SEC. 5101. INFORMATION FOR ADMINISTRATION OF SOCIAL SECURITY PROVISIONS RELATED TO NONCOVERED EMPLOYMENT.

(a) COLLECTION.—Subsection (d) of section 6047 of the Internal Revenue Code of 1986 is amended by redesignating paragraph (2) as paragraph (3) and by inserting after paragraph (1) the following new paragraph:

“(2) DEFERRED COMPENSATION PLANS OF A STATE.—

“(A) IN GENERAL.—In the case of any employer deferred compensation plan (as defined in section 3405(e)(5)) of a State, a political subdivision thereof, or any agency or instrumentality of any of the foregoing, the Secretary shall in such forms or regulations require, to the extent such information is known or should be known, the identification of any designated distribution (as defined in section 3405(e)(1)) if paid to any participant or beneficiary of such plan based in whole or in part upon an individual’s earnings for service in the employ of any such governmental entity.

“(B) STATE.—For purposes of subparagraph (A), the term ‘State’ includes the District of Columbia, the Commonwealth or Puerto Rico, the Virgin Island, Guam, and American Samoa.”.

(b) DISCLOSURE.—Paragraph (1) of section 6103(l) of such Code is amended by striking “and” at the end of subparagraph (B), by striking the period at the end of subparagraph (C) and inserting “; and”, and by adding at the end the following:

“(D) any designated distribution described in section 6047(d)(2) to the Social Security Administration for purposes of its administration of the Social Security Act.”.

(c) EFFECTIVE DATES.—

(1) SUBSECTION (a).—The amendments made by subsection (a) shall apply to distributions made after December 31, 2012.

(2) SUBSECTION (b).—The amendment made by subsection (b) shall apply to disclosures made after December 31, 2012.

### Subtitle C—Child Tax Credit

#### SEC. 5201. SOCIAL SECURITY NUMBER REQUIRED TO CLAIM THE REFUNDABLE PORTION OF THE CHILD TAX CREDIT.

(a) IN GENERAL.—Subsection (d) of section 24 of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

“(5) IDENTIFICATION REQUIREMENT WITH RESPECT TO TAXPAYER.—

“(A) IN GENERAL.—Paragraph (1) shall not apply to any taxpayer for any taxable year unless the taxpayer includes the taxpayer’s Social Security number on the return of tax for such taxable year.

“(B) JOINT RETURNS.—In the case of a joint return, the requirement of subparagraph (A) shall be treated as met if the Social Security number of either spouse is included on such return.”.

(b) OMISSION TREATED AS MATHEMATICAL OR CLERICAL ERROR.—Subparagraph (1) of section 6213(g)(2) of such Code is amended to read as follows:

“(1) an omission of a correct Social Security number required under section 24(d)(5) (relating to refundable portion of child tax credit), or a correct TIN under section 24(e) (relating to child tax credit), to be included on a return.”.

(c) CONFORMING AMENDMENT.—Subsection (e) of section 24 of such Code is amended by inserting “WITH RESPECT TO QUALIFYING CHILDREN” after “IDENTIFICATION REQUIREMENT” in the heading thereof.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

**Subtitle D—Eliminating Taxpayer Benefits for Millionaires**

**SEC. 5301. ENDING UNEMPLOYMENT AND SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM BENEFITS FOR MILLIONAIRES.**

(a) ENDING UNEMPLOYMENT BENEFITS FOR MILLIONAIRES.—

(1) IN GENERAL.—Subtitle E of the Internal Revenue Code of 1986 is amended by adding at the end the following new chapter:

**“CHAPTER 56—EXCESS UNEMPLOYMENT COMPENSATION**

“Sec. 5895. Excess unemployment compensation.

**“SEC. 5895. EXCESS UNEMPLOYMENT COMPENSATION.**

“(a) IMPOSITION OF TAX.—There is hereby imposed a tax equal to 100 percent of the excess unemployment compensation received by a taxpayer in any taxable year.

“(b) EXCESS UNEMPLOYMENT COMPENSATION.—For purposes of this section, the term ‘excess unemployment compensation’ means, with respect to any State, the amount which bears the same ratio (not to exceed 1) to the amount of unemployment compensation received by the taxpayer from such State in the taxable year as—

“(1) the excess of—  
“(A) the taxpayer’s adjusted gross income for such taxable year, over

“(B) \$750,000 (\$1,500,000 in the case of a joint return), bears to

“(2) \$250,000 (\$500,000 in the case of a joint return).

“(c) ADDITIONAL DEFINITIONS.—For purposes of this section—

“(1) ADJUSTED GROSS INCOME.—The term ‘adjusted gross income’ has the meaning given such term by section 62.

“(2) UNEMPLOYMENT COMPENSATION.—The term ‘unemployment compensation’ has the meaning given such term by section 85(b).

“(d) ADMINISTRATIVE PROVISIONS.—For purposes of the deficiency procedures of subtitle F, any tax imposed by this section shall be treated as a tax imposed by subtitle A.

“(e) TRANSFER OF TAX RECEIPTS.—With respect to excess unemployment compensation received by any taxpayer from a State, there is hereby appropriated to the unemployment fund (as defined in section 3306(f)) of such State, an amount equal to the amount of the tax imposed under subsection (a) on such excess unemployment compensation received in the Treasury.”.

(2) TAX NOT DEDUCTIBLE.—Section 275(a) of the Internal Revenue Code of 1986 is amended by inserting after paragraph (6) the following new paragraph:

“(7) Tax imposed by section 5895.”.

(3) CLERICAL AMENDMENT.—The table of chapters for subtitle E of the Internal Revenue Code of 1986 is amended by adding at the end the following new item:

**“CHAPTER 56—EXCESS UNEMPLOYMENT COMPENSATION”.**

(4) EFFECTIVE DATE.—The amendments made by this subsection shall apply to unemployment compensation received in taxable years beginning after December 31, 2011.

(b) ENDING SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM BENEFITS FOR MILLIONAIRES.—

(1) IN GENERAL.—Section 6 of the Food and Nutrition Act of 2008 (7 U.S.C. 2015) is amended by adding at the end the following:

“(r) DISQUALIFICATION FOR RECEIPT OF ASSETS OF AT LEAST \$1,000,000.—Any household in which a member receives income or assets with a fair market value of at least \$1,000,000 shall, immediately on the receipt of the assets, become ineligible for further participation in the program until the date on which the household meets the income eligibility and allowable financial resources standards under section 5.”.

(2) CONFORMING AMENDMENTS.—Section 5(a) of the Food and Nutrition Act of 2008 (7 U.S.C. 2014(a)) is amended in the second sentence by striking “sections 6(b), 6(d)(2), and 6(g)” and inserting “subsections (b), (d)(2), (g), and (r) of section 6”.

**Subtitle E—Federal Civilian Employees  
PART 1—RETIREMENT ANNUITIES**

**SEC. 5401. SHORT TITLE.**

This part may be cited as the “Securing Annuities for Federal Employees Act of 2011”.

**SEC. 5402. RETIREMENT CONTRIBUTIONS.**

(a) CIVIL SERVICE RETIREMENT SYSTEM.—

(1) INDIVIDUAL CONTRIBUTIONS.—Section 8334(a)(1)(A) of title 5, United States Code, is amended—

(A) by striking “(a)(1)(A) The” and inserting “(a)(1)(A)(i) Except as provided in clause (ii), the”; and

(B) by adding at the end the following:

“(ii) The percentage of basic pay to be deducted and withheld under clause (i) shall—

“(I) for each of calendar years 2013, 2014, and 2015, be equal to the percentage that applied in the preceding calendar year (as increased under this subclause, if applicable), plus an additional 0.5 percentage point; and

“(II) for each calendar year after 2015, be equal to the applicable percentage for calendar year 2015 (as determined under subclause (I)).”.

(2) GOVERNMENT CONTRIBUTIONS.—Section 8334(a)(1)(B) of title 5, United States Code, is amended—

(A) in clause (i), by striking “Except as provided in clause (ii),” and inserting “Except as provided in clause (ii) or (iii),”; and

(B) by adding at the end the following:

“(iii) The amount to be contributed under clause (i) shall, with respect to a period in any calendar year specified in subparagraph (A)(ii), be equal to—

“(I) the amount that would otherwise apply under clause (i), reduced by

“(II) the amount by which the withholding under subparagraph (A) exceeds the amount which would (but for clause (ii) of such subparagraph) otherwise have been withheld under such subparagraph from the basic pay of the employee or elected official involved with respect to such period.”.

(3) OFFSET RULE.—Section 8334(k) of title 5, United States Code, is amended by adding at the end the following:

“(5) This subsection shall be applied in a manner consistent with subsections (a)(1)(A)(ii) and (a)(1)(B)(iii) of section 8334.”.

(b) FEDERAL EMPLOYEES’ RETIREMENT SYSTEM.—Section 8422(a) of title 5, United States Code, is amended—

(1) in paragraph (1), by striking “paragraph (2).” and inserting “this subsection.”; and

(2) by adding at the end the following:

“(4) Notwithstanding any other provision of this subsection, the percentage to be deducted and withheld under this subsection shall—

“(A) for each of calendar years 2013, 2014, and 2015, be equal to the percentage that applied in the preceding calendar year under this subsection (including this subparagraph, if applicable), plus an additional 0.5 percentage point; and

“(B) for each calendar year after 2015, be equal to the applicable percentage for calendar year 2015 (as determined under subparagraph (A)).”.

(c) FOREIGN SERVICE.—For provisions of law requiring maintenance of existing conformity—

(1) between the Civil Service Retirement System and the Foreign Service Retirement System, and

(2) between the Federal Employees’ Retirement System and the Foreign Service Pension System,

see section 827 of the Foreign Service Act of 1980 (22 U.S.C. 4067).

(d) CIARDS.—

(1) COMPATIBILITY WITH CSRS.—In order to carry out the purposes of this section with respect to the Central Intelligence Agency Retirement and Disability System, the authority under section 292 of the Central Intelligence Agency Retirement Act (50 U.S.C. 2141) shall be applied.

(2) APPLICABILITY OF FERS.—For provisions of law providing for the application of the Federal Employees’ Retirement System with respect to employees of the Central Intelligence Agency, see title III of the Central Intelligence Agency Retirement Act (50 U.S.C. 2151 and following).

(e) TVA.—Section 3 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831b) is amended by adding at the end the following:

“(c) The chief executive officer shall prescribe any regulations which may be necessary in order to carry out the purposes of the Securing Annuities for Federal Employees Act of 2011 with respect to any defined benefit plan covering employees of the Tennessee Valley Authority.”.

**SEC. 5403. AMENDMENTS RELATING TO SECURE ANNUITY EMPLOYEES.**

(a) DEFINITION OF SECURE ANNUITY EMPLOYEE.—Section 8401 of title 5, United States Code, is amended—

(1) in paragraph (35), by striking “and” at the end;

(2) in paragraph (36), by striking the period and inserting “; and”; and

(3) by adding at the end the following:

“(37) the term ‘secure annuity employee’ means an employee or Member who—

“(A) first becomes subject to this chapter after December 31, 2012; and

“(B) at the time of first becoming subject to this chapter, does not have at least 5 years of civilian service creditable under the Civil Service Retirement System or any other retirement system for Government employees.”.

(b) INDIVIDUAL CONTRIBUTIONS.—Section 8422(a) of title 5, United States Code (as amended by section 2(b)) is further amended—

(1) in paragraph (4) (as added by section 2(b)), in the matter before subparagraph (A), by inserting “and except in the case of a secure annuity employee,” after “this subsection”; and

(2) by adding after paragraph (4) (as so added) the following:

“(5) Notwithstanding any other provision of this subsection, in the case of a secure annuity employee, the percentage to be deducted and withheld shall be computed under paragraphs (1) through (3), except that the applicable percentage under paragraph (3) for civilian service shall—

“(A) in the case of a secure annuity employee who is an employee, be equal to 10.2 percent; and

“(B) in the case of a secure annuity employee who is not subject to subparagraph (A), 10.7 percent.”.

(c) AVERAGE PAY.—Section 8401(3) of title 5, United States Code, is amended—

(1) by striking “(3)” and inserting “(3)(A)”; and

(2) by adding “except that” after the semicolon; and

(3) by adding at the end the following:

“(B) in the case of a secure annuity employee, the term ‘average pay’ has the meaning determined applying subparagraph (A)—

“(i) by substituting ‘5 consecutive years’ for ‘3 consecutive years’; and

“(ii) by substituting ‘5 years’ for ‘3 years’.”.

(d) **COMPUTATION OF BASIC ANNUITY.**—Section 8415 of title 5, United States Code, is amended—

(1) by striking subsections (a) through (e) and inserting the following:

“(a) Except as otherwise provided in this section, the annuity of an employee retiring under this subchapter is—

“(1) except as provided under paragraph (2), 1 percent of that individual’s average pay multiplied by such individual’s total service; or

“(2) in the case of a secure annuity employee, 0.7 percent of that individual’s average pay multiplied by such individual’s total service.

“(b) The annuity of a Member, or former Member with title to a Member annuity, retiring under this subchapter is computed under subsection (a), except that if the individual has had at least 5 years of service as a Member or Congressional employee, or any combination thereof, so much of the annuity as is computed with respect to either such type of service (or a combination thereof), not exceeding a total of 20 years, shall be computed—

“(1) except as provided under paragraph (2), by multiplying 1.7 percent of the individual’s average pay by the years of such service; or

“(2) in the case of an individual who is a secure annuity employee, by multiplying 1.4 percent of the individual’s average pay by the years of such service.

“(c) The annuity of a Congressional employee, or former Congressional employee, retiring under this subchapter is computed under subsection (a), except that if the individual has had at least 5 years of service as a Congressional employee or Member, or any combination thereof, so much of the annuity as is computed with respect to either such type of service (or a combination thereof), not exceeding a total of 20 years, shall be computed—

“(1) except as provided under paragraph (2), by multiplying 1.7 percent of the individual’s average pay by the years of such service; or

“(2) in the case of an individual who is a secure annuity employee, by multiplying 1.4 percent of the individual’s average pay by the years of such service.

“(d) The annuity of an employee retiring under subsection (d) or (e) of section 8412 or under subsection (a), (b), or (c) of section 8425 is—

“(1) except as provided under paragraph (2)—

“(A) 1.7 percent of that individual’s average pay multiplied by so much of such individual’s total service as does not exceed 20 years; plus

“(B) 1 percent of that individual’s average pay multiplied by so much of such individual’s total service as exceeds 20 years; or

“(2) in the case of an individual who is a secure annuity employee—

“(A) 1.4 percent of that individual’s average pay multiplied by so much of such individual’s total service as does not exceed 20 years; plus

“(B) 0.7 percent of that individual’s average pay multiplied by so much of such individual’s total service as exceeds 20 years.

“(e) The annuity of an air traffic controller or former air traffic controller retiring under section 8412(a) is computed under subsection (a), except that if the individual has had at least 5 years of service as an air traffic controller as defined by section 2109(1)(A)(i), so much of the annuity as is computed with respect to such type of service shall be computed—

“(1) except as provided under paragraph (2), by multiplying 1.7 percent of the individual’s average pay by the years of such service; or

“(2) in the case of an individual who is a secure annuity employee, by multiplying 1.4 percent of the individual’s average pay by the years of such service.”; and

(2) in subsection (h)—

(A) in paragraph (1), by striking “subsection (a)” and inserting “subsection (a)(1)”; and

(B) in paragraph (2), in the matter following subparagraph (B), by striking “or customs and border protection officer” and inserting “customs and border protection officer, or secure annuity employee.”.

#### SEC. 5404. ANNUITY SUPPLEMENT.

Section 8421(a) of title 5, United States Code, is amended—

(1) in paragraph (1), by striking “paragraph (3)” and inserting “paragraphs (3) and (4)”; and

(2) in paragraph (2), by striking “paragraph (3)” and inserting “paragraphs (3) and (4)”; and

(3) by adding at the end the following:

“(4)(A) Except as provided in subparagraph (B), no annuity supplement under this section shall be payable in the case of an individual whose entitlement to annuity is based on such individual’s separation from service after December 31, 2012.

“(B) Nothing in this paragraph applies in the case of an individual separating under subsection (d) or (e) of section 8412.”.

### PART 2—FEDERAL WORKFORCE

#### SEC. 5421. EXTENSION OF PAY LIMITATION FOR FEDERAL EMPLOYEES.

(a) **IN GENERAL.**—Section 147 of the Continuing Appropriations Act, 2011 (Public Law 111–242), as amended by section 1(a) of the Continuing Appropriations and Surface Transportation Extensions Act, 2011 (Public Law 111–322; 124 Stat. 3518), is further amended—

(1) in subsection (b)(1), by striking “December 31, 2012” and inserting “December 31, 2013”; and

(2) in subsection (c), by striking “December 31, 2012” and inserting “December 31, 2013”.

(b) **APPLICATION TO LEGISLATIVE BRANCH.**—

(1) **MEMBERS OF CONGRESS.**—The extension of the pay limit for Federal employees through December 31, 2013, as established pursuant to the amendments made by subsection (a), shall apply to Members of Congress in accordance with section 601(a) of the Legislative Reorganization Act of 1946 (2 U.S.C. 31).

(2) **OTHER LEGISLATIVE BRANCH EMPLOYEES.**—

(A) **LIMIT IN PAY.**—Notwithstanding any other provision of law, no cost of living adjustment required by statute with respect to a legislative branch employee which (but for this subparagraph) would otherwise take effect during the period beginning on the date of enactment of this Act and ending on December 31, 2013, shall be made.

(B) **DEFINITION.**—In this paragraph, the term “legislative branch employee” means—

(i) an employee of the Federal Government whose pay is disbursed by the Secretary of the Senate or the Chief Administrative Officer of the House of Representatives; and

(ii) an employee of any office of the legislative branch who is not described in clause (i).

#### SEC. 5422. REDUCTION OF DISCRETIONARY SPENDING LIMITS TO ACHIEVE SAVINGS FROM FEDERAL EMPLOYEE PROVISIONS.

Section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended to read as follows:

“(c) **DISCRETIONARY SPENDING LIMIT.**—As used in this part, the term ‘discretionary spending limit’ means—

“(1) with respect to fiscal year 2013—

“(A) for the security category, \$685,000,000,000 in new budget authority; and

“(B) for the nonsecurity category, \$359,000,000,000 in new budget authority;

“(2) with respect to fiscal year 2014, for the discretionary category, \$1,063,000,000,000 in new budget authority;

“(3) with respect to fiscal year 2015, for the discretionary category, \$1,083,000,000,000 in new budget authority;

“(4) with respect to fiscal year 2016, for the discretionary category, \$1,104,000,000,000 in new budget authority;

“(5) with respect to fiscal year 2017, for the discretionary category, \$1,128,000,000,000 in new budget authority;

“(6) with respect to fiscal year 2018, for the discretionary category, \$1,153,000,000,000 in new budget authority;

“(7) with respect to fiscal year 2019, for the discretionary category, \$1,178,000,000,000 in new budget authority;

“(8) with respect to fiscal year 2020, for the discretionary category, \$1,204,000,000,000 in new budget authority; and

“(9) with respect to fiscal year 2021, for the discretionary category, \$1,230,000,000,000 in new budget authority;

as adjusted in strict conformance with subsection (b).”.

#### SEC. 5423. REDUCTION OF REVISED DISCRETIONARY SPENDING LIMITS TO ACHIEVE SAVINGS FROM FEDERAL EMPLOYEE PROVISIONS.

Paragraph (2) of section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985 is amended to read as follows:

“(2) **REVISED DISCRETIONARY SPENDING LIMITS.**—The discretionary spending limits for fiscal years 2013 through 2021 under section 251(c) shall be replaced with the following:

“(A) For fiscal year 2013—

“(i) for the security category, \$546,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$499,000,000,000 in budget authority.

“(B) For fiscal year 2014—

“(i) for the security category, \$556,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$507,000,000,000 in budget authority.

“(C) For fiscal year 2015—

“(i) for the security category, \$566,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$517,000,000,000 in budget authority.

“(D) For fiscal year 2016—

“(i) for the security category, \$577,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$527,000,000,000 in budget authority.

“(E) For fiscal year 2017—

“(i) for the security category, \$590,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$538,000,000,000 in budget authority.

“(F) For fiscal year 2018—

“(i) for the security category, \$603,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$550,000,000,000 in budget authority.

“(G) For fiscal year 2019—

“(i) for the security category, \$616,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$562,000,000,000 in budget authority.

“(H) For fiscal year 2020—

“(i) for the security category, \$630,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$574,000,000,000 in budget authority.

“(I) For fiscal year 2021—

“(i) for the security category, \$644,000,000,000 in budget authority; and

“(ii) for the nonsecurity category, \$586,000,000,000 in budget authority.”.

### Subtitle F—Health Care Provisions

#### SEC. 5501. INCREASE IN APPLICABLE PERCENTAGE USED TO CALCULATE MEDICARE PART B AND PART D PREMIUMS FOR HIGH-INCOME BENEFICIARIES.

(a) **IN GENERAL.**—Section 1839(i)(3)(C)(i) of the Social Security Act (42 U.S.C. 1395r(i)(3)(C)(i)) is amended—

(1) by striking “IN GENERAL.—” and inserting “IN GENERAL.—(I) For calendar years prior to 2017.”; and

(2) by adding at the end the following new subclause:

“(II) For calendar year 2017 and each subsequent calendar year:

<b>“If the modified adjusted gross is:</b>	<b>The applicable percentage is:</b>
More than \$80,000 but not more than \$100,000 .....	40.25 percent
More than \$100,000 but not more than \$150,000 .....	57.5 percent
More than \$150,000 but not more than \$200,000 .....	74.75 percent
More than \$200,000 .....	90 percent.”.

(b) CONFORMING AMENDMENT.—Section 1839(i)(3)(A)(i) of the Social Security Act (42 U.S.C. 1395r(i)(3)(A)(i)) is amended, by inserting “and year” after “individual”.

**SEC. 5502. TEMPORARY ADJUSTMENT TO THE CALCULATION OF MEDICARE PART B AND PART D PREMIUMS.**

(a) IN GENERAL.—Section 1839(i)(6) of the Social Security Act (42 U.S.C. 1395r(i)(6)) is amended in the matter preceding subparagraph (A) by striking “December 31, 2019” and inserting “December 31 of the first year after the year in which at least 25 percent of individuals enrolled under this part are subject to a reduction under this subsection to the monthly amount of the premium subsidy applicable to the premium under this section.”.

(b) APPLICATION OF INFLATION ADJUSTMENT.—Section 1839(i)(5) of the Social Security Act (42 U.S.C. 1395r(i)(5)) is amended—

(1) in subparagraph (A), by striking “In the case” and inserting “Subject to subparagraph (C), in the case”; and

(2) by adding at the end the following new subparagraph:

“(C) TREATMENT OF YEARS AFTER TEMPORARY ADJUSTMENT PERIOD.—In applying subparagraph (A) for the first year beginning after the period described in paragraph (6) and for each subsequent year, the 12-month period ending with August 2006 described in clause (ii) of such subparagraph shall be deemed to be the 12-month period ending with August of the last year of such period described in paragraph (6).”.

**TITLE VI—MISCELLANEOUS PROVISIONS**

**SEC. 6001. REPEAL OF CERTAIN SHIFTS IN THE TIMING OF CORPORATE ESTIMATED TAX PAYMENTS.**

The following provisions of law (and any modification of any such provision which is contained in any other provision of law) shall not apply with respect to any installment of corporate estimated tax:

(1) Section 201(b) of the Corporate Estimated Tax Shift Act of 2009.

(2) Section 561 of the Hiring Incentives to Restore Employment Act.

(3) Section 505 of the United States-Korea Free Trade Agreement Implementation Act.

(4) Section 603 of the United States-Colombia Trade Promotion Agreement Implementation Act.

(5) Section 502 of the United State-Panama Trade Promotion Agreement Implementation Act.

**SEC. 6002. REPEAL OF REQUIREMENT RELATING TO TIME FOR REMITTING CERTAIN MERCHANDISE PROCESSING FEES.**

(a) REPEAL.—The Trade Adjustment Assistance Extension Act of 2011 (title II of Public Law 112-40; 125 Stat. 402) is amended by striking section 263.

(b) CLERICAL AMENDMENT.—The table of contents for such Act is amended by striking the item relating to section 263.

**SEC. 6003. POINTS OF ORDER IN THE SENATE.**

(a) POINT OF ORDER TO PROTECT THE SOCIAL SECURITY TRUST FUND.—

(1) Notwithstanding any other provision of law, it shall not be in order in the Senate to consider any measure that extends the dates ref-

erenced in section 601(c) of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (26 U.S.C. 1401 note).

(2) The provisions of this subsection may be waived in the Senate only by the affirmative vote of two-thirds of the Members, duly chosen and sworn.

(b) POINT OF ORDER AGAINST AN EMERGENCY DESIGNATION.—Section 314 of the Congressional Budget Act of 1974 is amended by—

(1) redesignating subsection (e) as subsection (f); and

(2) inserting after subsection (d) the following: “(e) SENATE POINT OF ORDER AGAINST AN EMERGENCY DESIGNATION.—

“(1) IN GENERAL.—When the Senate is considering a bill, resolution, amendment, motion, amendment between the Houses, or conference report, if a point of order is made by a Senator against an emergency designation in that measure, that provision making such a designation shall be stricken from the measure and may not be offered as an amendment from the floor.

“(2) SUPERMAJORITY WAIVER AND APPEALS.—

“(A) WAIVER.—Paragraph (1) may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn.

“(B) APPEALS.—Appeals in the Senate from the decisions of the Chair relating to any provision of this subsection shall be limited to 1 hour, to be equally divided between, and controlled by, the appellant and the manager of the bill or joint resolution, as the case may be. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this subsection.

“(3) DEFINITION OF AN EMERGENCY DESIGNATION.—For purposes of paragraph (1), a provision shall be considered an emergency designation if it designates any item pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985.

“(4) FORM OF THE POINT OF ORDER.—A point of order under paragraph (1) may be raised by a Senator as provided in section 313(e) of the Congressional Budget Act of 1974.

“(5) CONFERENCE REPORTS.—When the Senate is considering a conference report on, or an amendment between the Houses in relation to, a bill, upon a point of order being made by any Senator pursuant to this section, and such point of order being sustained, such material contained in such conference report shall be deemed stricken, and the Senate shall proceed to consider the question of whether the Senate shall recede from its amendment and concur with a further amendment, or concur in the House amendment with a further amendment, as the case may be, which further amendment shall consist of only that portion of the conference report or House amendment, as the case may be, not so stricken. Any such motion in the Senate shall be debatable. In any case in which such point of order is sustained against a conference report (or Senate amendment derived from such conference report by operation of this subsection), no further amendment shall be in order.”.

**SEC. 6004. PAYGO SCORECARD ESTIMATES.**

(a) BUDGETARY EFFECTS.—Neither scorecard maintained by the Office of Management and

Budget pursuant to section 4(d) of the Statutory Pay-As-You-Go Act of 2010 (2 U.S.C. 933) shall include the budgetary effects of this Act if such budgetary effects do not increase the deficit for the period of fiscal years 2012 through 2021 as determined by the estimate submitted for printing in the Congressional Record pursuant to section 4(d) of such Act.

(b) DEFICIT.—The increase or decrease in the deficit in the estimate submitted for printing referred to in subsection (a) shall be determined on the basis of—

(1) the change in total outlays and total revenue of the Federal Government, including off-budget effects, that would result from this Act;

(2) the estimate of the effects of the changes to the discretionary spending limits set forth in section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985 in this Act; and

(3) the estimate of the change in net income to the National Flood Insurance Program by this Act.

The SPEAKER pro tempore. The gentleman from Michigan (Mr. CAMP) and the gentleman from Michigan (Mr. LEVIN) each will control 45 minutes.

The Chair recognizes the gentleman from Michigan (Mr. CAMP).

**GENERAL LEAVE**

Mr. CAMP. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and to include extraneous material on the subject of the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. CAMP. Mr. Speaker, I yield myself such time as I may consume.

There are four important facts everyone should know about the Middle Class Tax Relief and Job Creation Act:

First, it will strengthen our economy and help get Americans back to work by lowering the tax burden for middle class families and job providers alike;

Second, it prevents massive cuts to doctors working in the Medicare program to protect America's seniors and those with disabilities—providing more stability in the doctor payment schedule than there has been in a decade;

Third, it adopts a number of the President's legislative initiatives, which represents the bipartisan cooperation Americans are demanding; and

Fourth, it's fully paid for with spending cuts, not job-killing tax hikes. The CBO tables show the bill is fully offset and saves about \$1 billion. And when you add in the flood insurance provisions, the savings are closer to \$6 billion.

So it will help families struggling in this economy; it will help the unemployed get and keep a job; it helps seniors; it's bipartisan; and it is paid for.

The House should—and I expect it will—overwhelmingly pass this measure, and the Senate should quickly pass it so Americans can get what they truly want this holiday season—something that helps create jobs while helping those most in need.

While this bill includes the priorities of a number of committees, many of the provisions in H.R. 3630 are within the purview of the Ways and Means Committee.

This bill will extend for 1 year the payroll tax holiday to help middle class families struggling in this economy, while fully protecting the Social Security trust fund.

□ 1550

Mr. Speaker, I have a letter from the Social Security Chief Actuary confirming this fact that I would like to place in the RECORD.

SOCIAL SECURITY ADMINISTRATION,  
OFFICE OF THE CHIEF ACTUARY,  
Baltimore, MD, December 12, 2011.

Hon. DAVE CAMP,  
Chairman, Committee on Ways and Means,  
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: We have reviewed the language in the "Middle Class Tax Relief and Job Creation Act of 2011" (H.R. 3630), which you introduced on December 9, 2011. We estimate that the enactment of this bill would reduce (improve) the long range actuarial deficit of the Old Age and Survivors Insurance and Disability Insurance (OASDI) program by about 0.01 percent of taxable payroll. All estimates are based on the intermediate assumptions of the 2011 Trustees Report. Sections 2001 and 5101 would have a direct effect on the OASDI program, as described below.

Section 2001 of the bill, "Extension of Temporary Employee Payroll Tax Reduction through End of 2012" would extend through 2012 the provisions of subsection (c) of section 601 of the "Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010." Enactment of section 2001 would have a negligible effect on the financial status of the program in both the near term and the long term. We estimate that the projected level of the OASI and DI Trust Funds would be unaffected by enactment of this provision.

Specifically, this provision would make the following changes for payroll tax rates and OASDI financing in 2012: (1) for wages and salaries paid in calendar year 2012 and self-employment earnings in calendar year 2012, reduce the OASDI payroll tax rate by 2.0 percentage points, (2) transfer revenue from the General Fund of the Treasury to the OASI and DI Trust Funds so that total revenue for the trust funds would be unaffected by this provision, and (3) credit earnings to the records of workers for the purpose of determining future benefits payable from the trust funds so that such benefits would be unaffected by this provision. For wage and salary earnings, the 2.0-percent rate reduction would apply to the employee share of the payroll tax rate. For self-employment earnings, the personal income tax deduction for the OASDI payroll tax would be 59.6 percent of the portion of such taxes

attributable to self-employment earnings for 2012.

Section 5101 of the bill, "Information for Administration of Social Security Provisions Related to Noncovered Employment," would require that all State and local governments report to the Secretary of the Treasury all distributions from any employer deferred compensation plan made after December 31, 2012. This requirement would make available to the Treasury and the Social Security Administration any amount of such distributions that is based on earnings from employment with State and local governments that was not covered under the OASDI program. This required reporting by State and local governments would effectively eliminate most noncompliance with individual reporting of distributions from deferred compensation plans that results in the application of the windfall elimination provision and the government pension offset provision for OASDI benefits. Enactment of section 5101 of the bill would reduce (improve) the long-range OASDI actuarial deficit by about 0.01 percent of payroll.

We estimate that other sections of the bill would have no direct effects on the OASDI program. Please let me know if we may be of any further assistance.

Sincerely,

STEPHEN C. GOSS,  
Chief Actuary.

Without an extension, a worker earning \$50,000 would see his or her take-home pay decline by a \$1,000 in 2012, as compared to 2011.

Employers are helped too. Through an extension of 100 percent expensing, job creators down the supply chain will see more demand for their products. This will help boost economic activity and job creation. The President has endorsed both of these tax policies.

The bill will also extend unemployment benefits that are scheduled to expire at the end of the month, but does so while permanently reforming the program and adopting the President's plan to wind down recent expansions of the program.

Since 2008 extensions of unemployment benefits have added \$180 billion to the debt. We're putting an end to that deficit spending. This program is fully paid for, and it contains significant reforms, such as allowing States to screen and test unemployment insurance recipients for drug abuse, overturning a 1960s-era Labor Department directive; requiring all unemployed recipients to search for work; be in a GED program if they have not finished high school, with reasonable exceptions; and participate in re-employment services.

It also implements program integrity measures such as new data standardization to crack down on waste, fraud, and abuse. And just as we did in connection with welfare reform, we're giving the States flexibility to design their own re-employment programs similar to the sorts of programs the President has touted, like Georgia Works and wage subsidies.

Why are we making these reforms instead of just passing a straight extension? Because we know that a pay-

check is better than an unemployment check. These bipartisan reforms will help get Americans back to work while providing them with assistance during hard times, and that should truly be the focus of unemployment programs, getting people back to work.

In addition to reforming UI, we extend Federal benefits but reduce the maximum number of weeks of all benefits from 99 weeks to 59 weeks in most States by mid-2012. This reflects a more normal level typically available following recessions.

I should point out that phasing out 20 of those weeks is the President's policy. As a result of this extension, an estimated 5 million out-of-work Americans will receive an average of about \$7,000 in assistance they need in this tough economy. A "no" vote today is a vote to deny those Americans who are out of work those benefits.

We also end UI for millionaires. The bill simply says if you earn \$1 million you have to pay back your unemployment benefits. Though not in the jurisdiction of the Ways and Means Committee, the bill applies a similar policy to food stamps. Together, these policies save taxpayers \$20 million.

Additional savings are found by freezing the pay of Members of Congress and other civilian government workers for 1 year.

Next, the legislation prevents a 27 percent cut to doctors serving Medicare patients and replaces it with a 1 percent payment update in 2012 and 2013. The 2-year update is the longest that Congress has provided since 2004, which will give us time to develop a permanent solution.

In addition to the Medicare doc fix, the legislation reforms and extends temporary Medicare payment programs. Since 2002, Congress has blindly extended as many as a dozen of these programs. Given that we're running a \$1 trillion deficit and borrowing 40 cents out of every dollar we spend, the American taxpayer simply cannot afford to have Congress skip out on doing proper oversight. That's why we're extending only four of these provisions, and we're making reforms to some and requiring additional studies from the Centers for Medicare and Medicaid Services and the Government Accountability Office to get better data on how they're working.

These programs are the therapy caps exceptions process, premium assistance for low-income seniors, ambulance payment add-ons, and geographic payment adjustments for physician office visits, sometimes called GPCL.

In the health care field, the legislation also adopts a recommendation from President Obama that reduces subsidies to high-income seniors by requiring them to pay a greater share of their part B and D premiums. This single change reduces spending by \$31 billion in the next decade.

It saves \$13.4 billion in wasteful overpayments of exchange subsidies, similar to previous good government changes enacted by overwhelming bipartisan majorities and signed into law by the President, and repeals provisions in current law that hurt physician-owned hospitals.

With regard to the Nation's primary welfare program, the legislation extends through September 30, 2012, Temporary Assistance for Needy Families, TANF, which is set to expire on December 31st of this year. The TANF extension includes bipartisan, bicameral reforms to ensure that taxpayer funds are protected from abuse. Those reforms include improvements to program integrity, and closing the current strip club loophole so that welfare funds cannot be accessed at ATMs in strip clubs, liquor stores, and casinos.

In California alone, nearly \$4 million in State-issued cash benefits was withdrawn from ATMs in casinos between January 2007 and May 2010. Another \$20,000 in benefits was withdrawn from ATMs in adult entertainment establishments. I think we can all agree that this reform makes sense for taxpayers and for those on welfare.

Finally, the legislation takes two additional steps to better protect taxpayer dollars. First, it makes necessary changes to the additional child tax credit program by requiring the individual, or at least one spouse, to include a Social Security number on their tax return to claim the credit, just as you would have to do when filing for the earned income tax credit. This will reduce Federal spending by \$10 billion in the next decade alone.

Second, this legislation reduces Social Security overpayments by improving coordination with States and local governments, incorporating another recommendation from President Obama.

The Middle Class Tax Relief and Job Creation Act incorporates more than a dozen proposals that the President has either offered, supported, or has signed into law in one variation or another. In fact, more than 90 percent of the bill is paid for with such policies.

The list of job-creating provisions and those that help families is almost too long to list, but let me highlight just a few. A bipartisan payroll tax cut for every working American that also protects Social Security; a bipartisan energy project, Keystone XL, that will create more than 100,000 jobs and is supported by both employers and unions; a bipartisan tax cut for small and large businesses to invest now in new machinery and equipment to grow their businesses and create jobs; bipartisan reforms to make sense of Federal regulations like boiler MACT, which will protect as many as 20,000 jobs; bipartisan health care reforms that will help ensure a strong health care industry; a bipartisan push for spectrum

auctions that will unleash new growth and create new jobs in the technology sector; bipartisan reforms that help Americans find work faster, instead of just giving them an unemployment check.

The list goes on and on but, in short, this bill is about jobs, jobs, jobs, creating jobs and helping Americans find a job. It's paid for, it is bipartisan, and it will help get our economy back on track. I strongly urge my colleagues to vote in favor of the Middle Class Tax Relief and Job Creation Act.

I reserve the balance of my time.

Mr. LEVIN. Mr. Speaker, I yield myself such time as I may consume.

There are fewer than 3 weeks until the new year, and yet, here they go again. Republicans are seeking a path of confrontation instead of collaboration. If Republicans were serious, truly serious about trying to come together on behalf of American families, they would have reached out to Democrats in this House. They've done nothing of the sort. They've made a sham out of bipartisanship.

Instead, they, once again, targeted millions of seniors and middle class families for cuts without asking essentially anything of millionaires and billionaires. They've singled out Medicare premium increases that permanently increase seniors' costs by \$31 billion.

The bill also, when you look at it carefully, spends \$300 million on a special interest provision that helps a handful of specialty hospitals while cutting billions from community hospitals.

They've targeted the unemployed, slashing 40 weeks of unemployment insurance, impacting millions of families still struggling under the weight of the worst economic downturn since the Great Depression. Twenty-two jurisdictions, 22, with the highest unemployment rates would be hit the hardest: Alabama, California, Connecticut, D.C., Florida, Georgia, Illinois, Idaho, Indiana, Kentucky, Michigan, Missouri, Nevada, New Jersey, North Carolina, Ohio, Oregon, Rhode Island, South Carolina, Tennessee, Texas, and Washington.

□ 1600

The result would be in the State that Mr. CAMP and I come from, Michigan, a maximum of 46 weeks of unemployment insurance.

And what do they ask of the wealthiest Americans? Basically nothing. Not even after the wealthiest 1 percent saw their incomes nearly triple in the last three decades while salaries for middle class families barely budged.

On average, there are more than four unemployed Americans for every job opening. Never, on official records in our Nation's history, have there been so many unemployed Americans out of work for so long. There is nothing normal about this recession. Nothing normal.

One gentleman from my district, Phil of Clinton Township, put it this way, "I am by no means unintelligent. I am by no means lazy. And I am by no means giving up."

The unemployed are not people who can ante up \$10,000 bets or spend lavishly on jewelry at Tiffany. These are families scraping by, on average, on less than \$300 a week trying to keep food on the table, a roof over their heads, and clothes on their backs and the backs of their children as they look for work.

Republicans are out of touch with the families of America. I hope after today's exercise that is going nowhere in the Senate and which the President opposes, House Republicans will get serious about addressing very pressing end-of-year issues on behalf of the American people.

I reserve the balance of my time.

Mr. CAMP. Mr. Speaker, at this time I would note that the Ways and Means Committee has held 16 different hearings or markups on provisions contained in this legislation.

I yield 2 minutes to the distinguished chairman of the Health Subcommittee, the gentleman from California (Mr. HERGER).

Mr. HERGER. Mr. Speaker, it's critically important that we act to prevent physicians' Medicare payments from being cut by 27.4 percent on December 31. Such a drastic cut will result in many physicians ending their participation in the Medicare program, and many senior citizens would no longer be able to obtain the medical care they need.

The bill before us would prevent cuts under Medicare's sustainable growth rate, or SGR, formula for the next 2 years with physicians receiving a 1 percent inflation update in each of those years.

As I've said before, we need to do away with the SGR once and for all so that doctors do not have to constantly worry about cuts to their Medicare payments. I'm disappointed that we've run out of time to consider permanent reform this year, but the Ways and Means committee has been carefully examining different options for replacing the SGR, and I'm hopeful that we can move forward with these efforts next year.

For now, this legislation gives physicians the longest period of payment since 2004, and it is fully paid for with reforms to Medicare and other Federal health programs. Many of these reforms have bipartisan support and were included in the President's deficit reduction proposal. I hope we will have a strong bipartisan vote for this bill.

Mr. LEVIN. Mr. Speaker, I yield 1 minute to the gentleman from Washington (Mr. McDERMOTT).

Mr. McDERMOTT. Well, it's getting close to the Christmas tree, and here we come finally getting around to dealing with unemployment with the most

drastic attack on the unemployment system that we've had since 1933 without any hearings. I hear people talk about the Ways and Means Committee has talked about this. There hasn't been a single hearing on the proposal that's put here before us on the end of the session cutting a Federal program from 73 weeks to 33 weeks. You're taking 40 weeks of unemployment away from people who have thought this country cared, and it turns out the Republicans don't care at all.

This is bait and switch. This is like going on a used car lot and the guy shows you a Chevrolet over here and says, That's a thousand bucks.

The SPEAKER pro tempore (Mr. THORNBERRY). The time of the gentleman has expired.

Mr. LEVIN. I yield the gentleman an additional 30 seconds.

Mr. McDERMOTT. By the time you find another car that's worth nothing, that's been in a wreck, you drive out thinking you had the thousand-dollar car you were getting.

This is a phony attack on unemployment. Nobody should think of it as anything else. The press releases will say, We extended unemployment benefits. Yeah. Well, you pulled the rug out from under the long-term unemployment. This is not the usual unemployment. This is unemployment where we have the highest long-term unemployment in the history of this country in the last 50 years.

It's a bad bill. Vote "no."

Mr. CAMP. Mr. Speaker, I yield 3 minutes to a member of the Ways and Means Committee, the distinguished gentleman from Texas (Mr. SAM JOHNSON), who is an author of the reform to the refundable child tax credit.

Mr. SAM JOHNSON of Texas. I thank the gentleman for yielding.

Mr. Speaker, I rise in support of this bill.

I'd like to begin by thanking the leadership and the chairman for including in this bill a provision of mine that will help eliminate waste, fraud, and abuse with respect to the refundable child tax credit. This simple common-sense provision will save the American taxpayer \$9.4 billion by stopping illegal immigrants from getting the refundable child tax credit.

I first introduced this provision as a bill in January 2010 and reintroduced it this past May. My legislation is based on the good work of the Treasury Inspector General for Tax Administration which said in its report on the credit that although the law prohibits aliens residing without authorization in the United States from receiving most Federal public benefits, an increasing number of these individuals are filing tax returns claiming this refundable credit.

According to the IG, illegal immigrants bilked \$4.2 billion from the U.S. taxpayers last year. I think that it's time that we fixed it.

Currently, if individuals do not have a Social Security number, the IRS will give them an individual taxpayer identification number to get the credit. This provision will root out waste, fraud, and abuse by the IRS simply requiring individuals to provide their Social Security number in order to claim this refundable credit.

Mr. Speaker, there has been a lot of debate regarding the extension of the payroll tax cut and Social Security. Given this debate, as chairman of the Social Security Subcommittee, I would like to take this opportunity to briefly talk about the importance of securing this program's future.

Last year marked the first time since 1983 that Social Security paid out more in benefits than it took in in payroll taxes; 1983 was also the last major reform of Social Security. As a result, over the next 10 years, Social Security will be in the red by over half a trillion dollars. As a result, Social Security must rely on general revenues to pay back with interest the Social Security surpluses that Washington has spent. That means Treasury has to borrow more. According to the CBO, we do so at our own economic peril.

□ 1610

Mr. Speaker, the American people want, need, and deserve a fact-based conversation about how we can fairly and responsibly fix Social Security for good. That would send a powerful signal that we are serious about getting our fiscal house in order. Let's do it now.

Mr. LEVIN. It is now my privilege to yield 2 minutes to another distinguished member of our committee, the gentleman from Massachusetts (Mr. NEAL).

Mr. NEAL. I thank the gentleman for yielding.

Mr. Speaker, I am in opposition to this so-called Middle Class Tax Relief and Job Creation Act, largely because it's neither. The gentleman from Michigan (Mr. CAMP) is correct. He says there have been 16 hearings at the Ways and Means Committee, but never once has there been a conversation. That's the important matter for us to consider.

There has been no give-and-take in this legislation. This was brought to the floor today in the manner of ramming it through the House in order to protect talking points as we move into the new year. If we don't act, 160 million Americans are going to see a tax increase, with working American families seeing a tax increase of up to \$1,000 in 2012. We need to extend unemployment insurance to assist millions of unemployed Americans, and we need to fix the Medicare physician payment rate to ensure that seniors have access to their doctors.

I am also opposed to this proposal that they offer today. While I support

eliminating the scheduled reduction of 27 percent in Medicare payments to physicians, this is the wrong way to do it—offsetting it by taking \$17 billion away from hospital funding.

Now people in America rightly ask: How come it's so difficult to get something done in Congress?

We're going to quibble today with the 8.6 percent of American families who are without work about extending their unemployment benefits. Yet, just 3 years ago, after the company was run into the ground, the head of Merrill Lynch left with—left with—\$69 million. At Hewlett-Packard a month ago, the head of the company was dismissed for nonperformance, not in the way the unemployed are dismissed, which is by somebody escorting them to the door, but dismissed with \$10 million worth of salary and \$13 million of stock. At Enron, everybody at the top held out, and they locked down that stock so people at the bottom couldn't get out.

That's what this is about today.

Picking on the unemployed, 15 million members of the American family without work, as we proceed to this holiday season? We need a tax holiday for middle-income Americans, and that's what we should be doing today.

Mr. CAMP. I yield 1 minute to a distinguished member of the Ways and Means Committee, the gentleman from Texas (Mr. BRADY).

Mr. BRADY of Texas. No bill is perfect but this has much to admire in it.

Moving the unemployed back into the workforce after a year makes sense—so does allowing States to drug test, stopping taxpayer fraud, helping small businesses invest in equipment, paying local doctors fairly for treating our seniors, telling the President "he can't wait" to approve the thousands of jobs created by the Keystone pipeline, and spending cuts and entitlement reforms so we don't add to the dangerous deficit. All of that is very good.

Like many in Congress, I am very troubled about reducing Social Security revenue another year. The bill's authors have responsibly included reforms that fill this hole and then some; but over the long term, cutting Social Security contributions makes an already fragile program more fragile.

So in support, I want my constituents to know that 2012 is it. I will not support another extension of the Social Security tax holiday. Instead, I will work to replace it with tax relief of an equal amount that doesn't impact Social Security or that doesn't make it harder to preserve this program for future generations.

Mr. LEVIN. It is now my special privilege to yield 2 minutes to a leader in our party, the gentleman from South Carolina (Mr. CLYBURN).

Mr. CLYBURN. I thank the gentleman from Michigan for yielding me this time.

Mr. Speaker, I rise in strong opposition to this outrageously partisan and

unfair bill. The clock is ticking; working families are worrying; and my Republican friends are playing political games.

This bill cuts unemployment benefits for hardworking folks who have lost their jobs through no fault of their own. My home State and district contain some of the hardest-hit families and communities in this country, and it is unfair to blame these folks for the economic hard times they are experiencing. This bill proposes drug testing for unemployed workers drawing from insurance funds they have paid into. That is unfair and insulting. I don't see anyone in the Republican majority demanding drug testing for folks who receive oil and gas subsidies.

The President will veto this bill if it ever reaches his desk. This political game that's being played is just another round of the brinksmanship we have seen time and again this year.

We need to pass a clean extension of the payroll tax cut for working Americans. We need to pass a clean extension of the unemployment insurance for those who have lost their jobs. We need to pass a clean extension of the SGR doc fix so Medicare patients will know their doctors will be there for them.

We need for my Republican friends to stop playing political games with people's lives. I urge my colleagues to vote against this partisan bill.

Mr. CAMP. Mr. Speaker, I would just note that this legislation incorporates more than a dozen proposals that the President has either offered, supported, or signed into law. In fact, more than 90 percent of the bill is paid for with such policies.

With that, I would yield 3 minutes to a distinguished member of the Ways and Means Committee, the gentleman from Kentucky (Mr. DAVIS).

Mr. DAVIS of Kentucky. I thank the chairman for yielding.

Mr. Speaker, I rise in support of H.R. 3630, and tire of the empty rhetoric that I hear over and over again. As the chairman just pointed out, this bill includes many provisions that your party's President recommended. This is a bipartisan piece of legislation, and we are politicizing something at the expense of working families, which is a sad thing to see happen in this Chamber.

The legislation includes important provisions designed to promote job creation; but I would like to focus on the bill's provisions to reform and improve unemployment insurance, or UI.

These commonsense reforms expect UI recipients to search for work and to make progress towards a GED or other training they need to get back to work. We let States make reasonable exceptions, but the message is clear: UI needs to change to do a better job of helping people get back to work.

The bill also lets States apply for waivers of Federal law so they can test

better ways to engage the unemployed. Our colleagues are right—there are too many long-term unemployed today, and we need to hold government programs more accountable for helping more of them find work sooner, including through wage subsidies and other innovative approaches that have received bipartisan support.

Also contained in this bill is a program integrity provision to improve data standards in the UI program in order to help it operate more efficiently and effectively across States and to help it better coordinate with other programs. This same provision was included in the bipartisan child welfare legislation signed by President Obama in September and is included in another section of this bill covering the Temporary Assistance for Needy Families program.

H.R. 3630 also makes reasonable reductions in temporary Federal UI benefits while extending that program for another year and maintaining up to 59 weeks of benefits by the middle of 2012:

First, it ends 20 weeks of Federal benefits that were added to the program when the national unemployment rate was at 9.9 percent, or well above today's 8.6 percent. Second, we adopt the President's call to phase out a second 20 weeks of Federal UI benefits in the early months of 2012.

So, instead of cutting or slashing and so on, as many of my colleagues on the other side of the aisle dubiously claim, the facts show that the UI benefits extended in this bill would aid over 5 million people at a cost of \$34 billion—all paid for through other savings. That's an average of almost \$7,000 in Federal help for every person aided.

In fact, with this bill, the total UI spending since the start of 2008 will stretch to an astounding \$546 billion. That's not a typo. UI spending has totaled over a half a trillion dollars in the past 5 years. That's over five times—listen to this—over five times as much as it would cost to put a man on the Moon in today's dollars.

I urge the support of this much needed legislation and, most importantly, of its long needed reforms so that the UI program does a better job in helping Americans get back to work sooner.

□ 1620

Mr. LEVIN. Mr. Speaker, I yield myself 10 seconds.

I must say, to talk about a man on the Moon and to essentially disregard the needs of millions of people who are on the ground unemployed in this country is, I think, unconscionable.

I now yield 2 minutes to the gentleman from Oregon (Mr. BLUMENAUER), another member of our committee.

Mr. BLUMENAUER. I thank the gentleman from Michigan.

A year ago, our Republican friends talked about reforming the process so

that we wouldn't have legislation that was in a "must-pass" category that was laden with items that were unrelated or unnecessarily complicated. Well, here we are, less than a year after they adopted their rules, and we have legislation that is just that. Unemployment insurance has always been, I think, in times of economic stress, when benefits are threatened to expire, must-pass legislation. If you ask the American public, being able to keep \$1,000 or more in the pockets of the average family, by keeping the payroll tax reduction, that would be must-pass legislation. And the SGR, the sustainable growth rate problem, to avoid a draconian cut in physician reimbursement—which I mercifully say I did not support when it was proposed by my Republican friends and enacted into law some 15 years ago—that is certainly must-pass legislation.

And here we have a hodgepodge of jamming all of these together, plus—wait a minute—the Keystone pipeline, a variety of things that are complicated, expensive, and unfair, jammed together in a must-pass legislative situation.

Mr. Speaker, I am opposed to draconian cuts in benefit levels. In a State like mine, it's going to be very hard on rural and small-town America, where those extended benefits make a big difference. The jobs aren't there. Now you may force some of these people who don't have a high school education to start a training program, which you are not willing to pay for.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LEVIN. I yield the gentleman an additional 30 seconds.

Mr. BLUMENAUER. You are going to impose very significant cuts on hospitals. For example, the evaluation and management cap is going to impact dramatically hospitals that a number of us represent. It is going to scale up much higher costs for senior citizens who don't think they're high-income.

With all due respect, I think it's the wrong approach to serious problems that we face. We ought to deal with them one at a time in a balanced and thoughtful way, reject this Christmas tree, and do it right.

Mr. CAMP. I yield 2 minutes to the gentleman from Georgia (Mr. KINGSTON).

Mr. KINGSTON. Mr. Speaker, I would like to enter into a colloquy with the distinguished chairman.

Mr. Chairman, I thank you for including language in this bill that would remove current barriers for States to strengthen the unemployment insurance program through optional drug testing. By doing so, we can help increase individuals' ability to gain future employment and help ensure benefits are not being used to finance an individual's drug dependency. It is my understanding that the intent of this

language is to provide flexibility to States to establish drug screening methods if they so choose.

I yield to the gentleman from Michigan.

Mr. CAMP. That is correct. The language in the bill provides States with the option to screen and test UI program applicants for illegal drug use.

Mr. KINGSTON. Thank you.

I would like to call States' attention to drug screening assessments approved by the National Institutes of Health that identify individuals as having a high probability of drug use. Under the bill I introduced, individuals deemed by those assessments to be high risk would be required to complete and pass a drug test in order to receive benefits.

General tax dollars help fund payments after 26 weeks. So people who are unemployed should be looking for a job and should not become voluntarily ineligible by taking illegal drugs. In this tough budgetary environment, we must maximize tax dollar spending efficiently and effectively. I appreciate your commitment to hold a hearing on this issue no later than the spring, and I thank you for pointing toward further action.

Mr. CAMP. That is a helpful reminder, especially to those States that look to take advantage of how this legislation removes current bureaucratic barriers preventing them from doing that sort of screening and testing, if they so choose.

Mr. KINGSTON. I look forward to working with the committee on this proposal. I thank the chairman and the subcommittee chairman, Mr. DAVIS, for their support and their discussions of this language.

I thank the gentleman for engaging in this colloquy.

Mr. LEVIN. Mr. Speaker, I yield 3 minutes to our distinguished minority whip, the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. I thank the gentleman for yielding, and I rise in opposition to this bill.

We are now in overtime. The scheduled date for ending this session was December 8. That date, of course, was substantially later than we normally suggest ending the session. Notwithstanding that fact, we did not meet that deadline.

In the Pledge to America, our Republican colleagues, when they were running for office to seek the majority—which they got—they pledged to America that they would not put non-germane items in must-pass bills. That, apparently, was a campaign pledge not to be honored in practice. In the Pledge to America, they also said that we needed to do appropriation bills one after another. That, apparently, was a pledge to be honored during the campaign but not in practice.

So we have ourselves confronted with a bill that must pass. We must not

leave this city and our responsibilities without extending unemployment insurance. We must not leave Washington, D.C., for this holiday season, delivering a block of coal in the stockings of our constituents by failing to continue the tax cut from their payroll taxes. And we must not leave Washington, D.C., without affecting a continuation of the proper reimbursement of doctors to ensure that Medicare patients will be able to get their doctors' services.

We have three items to focus on to get done and nine appropriation bills. Now one of those appropriation bills has not even been reported out of subcommittee in this House, the Labor-Health bill. It hasn't been considered by the subcommittee. It hasn't been considered by the full committee. It hasn't been considered by this House. So we have a lot of business to do in essentially the next 72 hours.

What are we confronted with? We are confronted with a bill of over 350 pages, filed just a few days ago. We have heard a lot about reading the bills. I would be shocked if any Member has read this bill, shocked.

By contrast, the bill that was so criticized, the Affordable Care Act, was up for review for over a year, hundreds of hearings and essentially thousands of meetings around this country. This has not had a single town meeting, a single hearing, and a single perspective around this country.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LEVIN. I yield the whip an additional 1 minute.

Mr. HOYER. I thank the gentleman for yielding.

So, my Tea Party friends, I am sure you lament the fact and think this bill ought not be passed. But I haven't seen you. I haven't heard you. I haven't gotten a letter from you.

I tell my friends on the Republican side of the aisle, I have demonstrated throughout this year that when we had the opportunity to work together, I worked to get the votes so that together, we could pass legislation that was necessary to run this country. So I don't take a back seat to anybody in this Chamber willing to work together in a bipartisan fashion. But this bill was not worked together in a bipartisan fashion. This bill seeks to poke a finger in the eye of the President of the United States, who has said, I will veto this bill, not because of the three things that I said were absolutely essential but because of something that is not essential to pass. Now the majority leader lamented last week that this would create 5,000 jobs if we passed the Keystone pipeline project. But a bill that would create at least a million jobs, the American Jobs Act, lays languishing in the bowels of the committee.

□ 1630

The SPEAKER pro tempore. The time of the gentleman has again expired.

Mr. LEVIN. I yield the gentleman an additional 30 seconds.

Mr. HOYER. So I can conclude. Yes, the gentleman asked for regular order. I lament the fact that we are not pursuing regular order. We could act in a responsible, bipartisan fashion to accomplish the three objectives I set forth and the appropriations bills; but, no, we're playing politics. We're pandering to a base. We're having a pretense that this bill can pass. It cannot.

Let us defeat this bill and then let us come together in a responsible fashion as the American public wants us to do and act on their behalf, not on the behalf of our politics.

Mr. CAMP. Mr. Speaker, I yield 1½ minutes to the gentleman from Montana (Mr. REHBERG).

Mr. REHBERG. As the sponsor of the Keystone pipeline language, I support H.R. 3630. And, no, it doesn't put a block of coal in the socks. It puts a barrel of oil in a pipeline. In fact, it puts 150,000 barrels of oil in the pipeline daily.

The American people need jobs. They want Congress to work together to help the private sector create those jobs. Keystone XL is shovel-ready. It will create thousands of jobs. All we need is a Federal permit, something that has already taken 3 years.

So why have the President and his allies in the Senate said no to these jobs? It's not for the cost; the project is privately funded to the tune of \$7 billion. It's not to protect the environment; this pipeline will utilize the cleanest and safest new technology available, making it the safest pipeline in America. And it's not private property concerns because 97 percent of the landowners came to friendly settlements in earlier Keystone efforts. Frankly, there is no excuse. This is pure politics. With thousands of jobs hanging in the balance, it's time to put politics aside and do the right thing.

Mr. LEVIN. It is my privilege to yield 2 minutes to the gentleman from Texas (Mr. DOGGETT), who is the lead sponsor on our unemployment insurance bill.

Mr. DOGGETT. I thank the gentleman.

This proposal certainly does represent a visit from the ghost of Christmas past—last Christmas to be specific—when Republicans stood here and said only a lump of coal for the unemployed until you stuff every stocking to overflowing.

Well, today's Republican bill would eliminate up to 40 weeks of unemployment coverage with the biggest cuts coming in States like mine, Texas, with high unemployment rates. That means that next year over 3 million unemployed Americans and their families will be shortchanged if this bill is

enacted. Long-term unemployment in America today has not been this high, for this long, in 60 years. We have over 6 million fewer jobs now than when the recession began and more than four workers for every job opening. And in 10 States, this bill responds by making it possible to no longer require that unemployment insurance funds are used for unemployment insurance benefits.

Under the Democratic alternative that I have introduced, unemployment would be available only to those who are actively searching for a job, getting job training, or who are out there in a temporary layoff situation. Nor is an unemployment check any substitute for a paycheck. As *The New York Times* editorialized this morning: "When was the last time any Republican lawmaker tried to live on \$289 a week, the amount of the average unemployment benefit?"

And this same measure also offers a lump of coal for Medicare. I believe in seeking efficiencies in Medicare. That's one reason why we voted for the Affordable Care Act, to ensure that billions of dollars were saved. But the billions that are cut from other health care providers in today's bill come on top of across-the-board cuts that are already enacted and will be effective within about the next year.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LEVIN. I yield the gentleman an additional 15 seconds.

Mr. DOGGETT. At some point, cuts to hospitals and nursing homes mean that seniors and the disabled will be unable to access the quality care that they need. And this bill's \$8 billion cut to preventable chronic disease programs like heart disease and diabetes is shortsighted and will cost us more in the long run than it saves.

Mr. CAMP. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. RENACCI).

Mr. RENACCI. I thank the gentleman for yielding. I would like to thank Chairman CAMP and Chairman DAVIS for their hard work on the much-needed reforms to our unemployment insurance program.

The Bureau of Labor Statistics reported today that there are over 3.3 million job openings in America. According to studies earlier this year, 22 percent of American businesses and 57 percent of small businesses are looking for employees and are ready to hire, if they can just find the right people. Matching willing employers with able workers is an absolute must.

In this uncertain economy, helping to cover the risk of training a new employee will help the unemployed back to work. Using unemployment dollars to subsidize the training of a new employee to reenter the workforce is just good public policy.

In June, I was proud to introduce the bipartisan-supported EMPLOY Act, to

give States the flexibility to do precisely this. I remain very proud today that my concept is included in this package.

Support this bill, which gives States like Ohio the flexibility to use unemployment dollars for job-training services, and I want to thank the chairmen for working with me.

Mr. LEVIN. I yield 2 minutes to a very distinguished member of our committee, the gentleman from Georgia (Mr. LEWIS).

Mr. LEWIS of Georgia. Mr. Speaker, I want to thank my friend, my colleague, Mr. LEVIN, for yielding. And thank you for all of your great and good work.

Mr. Speaker, I rise in strong opposition to this bill. It is a very sad day for this body. Day in and day out, unemployed Americans beat the pavement applying for jobs everywhere and anywhere, sending hundreds of resumes applying for many jobs. These people lost their jobs through no fault of their own. They don't want a handout. They want a job.

In Atlanta we had a job fair where more than 4,500 people from as far away as New York showed up with the hope of just getting an interview. This bill is an insult to them. It is an affront to their dignity. It says that millions of Americans do not want to work or they are not searching hard enough for a job.

Instead of extending unemployment benefits before the holiday break, giving equal treatment for struggling Americans, as we do for the wealthy and large corporations, this legislation strips the program down to its bones. It's not right. It's not fair. It is not just.

This body represents the people, and we should not stomp on the souls of our fellow citizens. We can do better. We must do better. We must do better for the sake of our fellow citizens.

Mr. Speaker, is this the spirit of the season? Last night we offered an amendment to the Rules Committee that the Republicans refused to even consider. These amendments said, in effect, stop the politics, stop the games. Stand up for the people, for the people that voted for us, for our people that need our help. They are depending on us.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LEVIN. I yield the gentleman an additional 30 seconds.

Mr. LEWIS of Georgia. Mr. Speaker, we should stay here, stay here, don't go home until we can meet their expectations. We must come together and do what is right, and do it now. I urge all of my colleagues to oppose this bad bill and come together, pass a long-term, clean extension of unemployment benefits. That's the thing to do.

Mr. CAMP. Mr. Speaker, I yield myself such time as I may consume.

We think it is important to extend unemployment benefits, and that's what this bill does; but we do it with commonsense reforms, reforms that will help those who are unemployed get not just a paycheck from the government, but get a job and get a paycheck from the private sector.

□ 1640

These commonsense reforms are things like requiring unemployment insurance recipients to search for work and, if they don't have a GED, to get a GED. But we have a commonsense exception provision so that if you're an older worker and you've been a pipe fitter for 30 years, well, obviously, a GED isn't going to help you in your job search. But for those who are younger and who don't have the skills they need, it's clear that if you have that certificate, your chances of losing your job are much less.

And, third, we think they should participate in services to get them reemployed. Those are important. States need more flexibility in this area to get waivers from the Federal Government so they can enter in reemployment programs. There are many ideas in the States out there. We aren't mandating this from Washington. We want the States to be the laboratories of invention here.

We also think it's important to allow States to screen applicants for drugs. There's been a 1960s Department of Labor ruling that says States can't even look at this area. But with screening, you can get workers the proper help so they're not bounced from a job because they fail a drug test or don't get hired because they fail a drug test. These are all important, commonsense reforms, and they will help reduce our unemployment rates. They will help people get jobs.

And let me just say, in terms of job search, it is important that there be requirements in legislation to do that. Florida, for example, now requires those claiming benefits to report online each week five jobs they've applied for or to meet with a jobs counselor. The result? In the first 3 months of the new law, 65 percent of the claimants did not meet that obligation. Well, they need to be out there assisting in finding jobs that they need.

Now, those are then keeping those resources for those who truly are unemployed and who truly can't find a job. In this era of limited resources, we need to make sure that they're used in the best, most effective and most efficient possible way. And these commonsense reforms give States the flexibility to design programs that meet the needs of their State, whether it be in drug screening, whether it be in searching for work, whether it be in employment services, or even States

designing programs that allow the employers to receive part of the unemployment check so the workers get hired.

Those are the kinds of innovations that don't happen in Washington because they're saying, Extend the 99 weeks as is. Well, we can't afford to continue to deficit spend, as the other party did, \$180 billion worth, since 2008, of unpaid-for unemployment benefits.

This is an important program. It's an important program that must be extended. It should be extended, and it will be extended if my colleagues vote for this legislation. And I urge support.

Mr. Speaker, I reserve the balance of my time.

Mr. LEVIN. I yield myself 30 seconds.

Mr. CAMP, we've just received information from the Department of Labor that the Republican bill would cut unemployment benefits for 3.3 million Americans next year compared to an extension of current law. In the name of reform, don't cut the rug out from the unemployed of this country who are looking for work. That is, in one word, inexcusable—inexcusable.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would remind all Members to direct their remarks to the Chair.

Mr. LEVIN. I yield 2 minutes to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Mr. Speaker, I want to commend Mr. CAMP and Mr. LEVIN for working hard on these issues. I think they do try to put the country before the party. But this bill is terrible. It is terrible.

The holidays must have come early for the majority. What we have here is a serious proposal? It's a stocking stuffed to the brim with ideology. And I thought we could put that aside and put the country first, more important than parties, more important than ideology.

I agree with you. Let's weed out those people who literally are crooks and try to steal from the public trough and take advantage of unemployment. I went to an unemployment office yesterday in my area, in my district, in a major city, Paterson. I went to the unemployment center. I looked through all of those folks that were waiting online and working and looking and seeking work and being trained for specific jobs, particularly in health care. I looked through those records. And if you think you're going to reduce the amount of money that Americans have to spend to help their brothers and sisters, you are dead wrong. Dead wrong.

What we've done in the Bush tax cuts, they were for the least needy. Now we're talking about the most needy. The unemployment rate in New Jersey is 9.1 percent. The average in the United States is 8.6 percent.

I'm asking you, I'm begging you, let's get beyond this.

And why didn't we put employers in this? What if employers had their part shaved like the employee that we are suggesting here? How many jobs would be created if the employer had not to pay 6.2 and, instead, 4.2 percent? And I agree with the President. That should have been reduced to 3.1 percent. We could put a lot of people to work.

A thousand dollars maybe in your pocket or my pocket or your pocket, Mr. Speaker, may not be the end all, but \$1,000 in many people's who work every day for a living, who love this country, is an insult. And we're just making matters worse, Mr. Speaker. We're not making them better.

Mr. CAMP. Mr. Speaker, I ask unanimous consent for Mr. UPTON to control 15 minutes of the time.

The SPEAKER pro tempore. Is there objection?

Without objection, the gentleman from Michigan (Mr. UPTON) will control 15 minutes.

There was no objection.

Mr. UPTON. Mr. Speaker, I yield myself 2 minutes.

This bill does a lot of things. It has real reforms. It's driven in large part by the unemployment reforms and extending the payroll tax cut, and it's all paid for.

Most Americans don't really want unemployment. They want a job. The spectrum provisions in this bill help our first responders with the allocation of the D block and creates perhaps as many as 100,000 jobs. The Keystone pipeline decision is part of this bill, too. It requires the President to review and make a decision, either way, within 60 days of enactment.

Just this morning, there were a number of press accounts that perhaps Iran will soon be conducting exercises to close the Straits of Hormuz. The Keystone pipeline will connect Canadian oil sands with refineries here in the United States, adding 20,000 private sector jobs and perhaps as many as 118,000 indirect jobs. It reduces our reliance on non-North American oil, which is a good thing. And it brings perhaps as many as 1 million barrels of oil a day—1 million barrels a day—into the United States that we don't have to import from someplace else. Canada is going to develop this no matter what. And that oil, 1 million barrels a day, is either going to come to the United States or it's going to a place like China. We want it here.

This is a good thing. It creates jobs. It reduces our reliance on oil from overseas. It is something that ought to be part of this bill, and it is. I would urge my colleagues to support it.

I reserve the balance of my time.

Mr. LEVIN. I yield 2 minutes to another member of our committee, a distinguished, active member indeed, the gentleman from New York (Mr. CROWLEY).

Mr. CROWLEY. I thank my colleague and friend from the State of Michigan (Mr. LEVIN) for yielding me this time.

Mr. Speaker, I rise in strong opposition to H.R. 3630.

Today the Republican Party's true colors are fully exposed and on display—and it isn't pretty. The GOP argues time and time again against tax increases, but now it's clear. Their policy only applies when we are talking about increasing taxes on those making over \$1 million a year.

Now, I don't begrudge anyone from making a buck in this country. I do, however, begrudge those who want to help America's wealthiest at the expense of America's middle class, especially when working people are hurting as much as they are right now.

Where is the shared sacrifice? Where is the shared responsibility? I believe Americans of all economic classes want a Federal Government that has a vision for our future and a vision for how to keep America strong.

□ 1650

That is why Democrats have a plan to provide an immediate cut in middle class taxes. We are pushing to cut the payroll tax in half for all working people, as well as expand it to small businesses, the engine creator of jobs in America.

Unfortunately, this GOP bill denies any payroll tax relief to small businesses. My friends on the other side of the aisle argue taxes impede growth, hurt American businesses, and stunt our economy. But apparently those arguments don't apply when we're talking about lowering taxes for the middle class or small businesses.

President Obama and the Democratic Party are championing cutting the payroll tax in half for all workers; my Republican colleagues refuse to even consider that. Democrats want to expand and enhance the payroll tax cut for employers, yet there's no such relief for small businesses in this bill.

But aside from what is not in this bill, I also want to object to what is in this bill—a new tax on senior citizens. If this bill is signed into law, seniors' premiums for Medicare will go up, and go up dramatically.

The true colors of the Republicans are clear.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LEVIN. I yield the gentleman an additional 15 seconds.

Mr. CROWLEY. Seniors making \$40,000 a year are considered wealthy and deserve to see their Medicare costs go up; but a small, temporary income tax surcharge on people earning over \$1 million a year, that's not acceptable?

Let's reject this bill. Hardworking Americans deserve better. They deserve middle class tax relief that doesn't come at the expense of our seniors.

Mr. UPTON. May I inquire of the Chair how much time is available on each side?

The SPEAKER pro tempore. The gentleman from Michigan (Mr. UPTON) has 13 minutes remaining. The gentleman from Michigan (Mr. LEVIN) has 19 minutes remaining. The gentleman from Michigan (Mr. CAMP) has 4½ minutes remaining.

Mr. UPTON. At this point, I will yield 2 minutes to the chairman of the Communications Subcommittee, the gentleman from Oregon (Mr. WALDEN).

Mr. WALDEN. I thank the chairman.

Mr. Speaker, the American people have waited long enough for this Congress to act to create jobs. This legislation does that. It does that through the Jump-Starting Opportunity With Broadband Spectrum Act of 2011. There is no reason to delay this bill any further.

This unleashes spectrum, both licensed and unlicensed, that when put into service will unleash new technologies, new innovations. And the chairman of the Federal Communications Commission said this part of the bill we're debating today could create as many as 700,000 new jobs. Other estimates say between 300,000 and 700,000 American jobs.

It generates upwards of \$16 billion for companies who want to buy this broadband and pay the taxpayers for it because it is America's spectrum. And it does something that the Democrats, when they were in charge of the House for 4 years, failed to do: It makes this spectrum available, and it begins the process of building out an interoperable public safety broadband network as called for by the 9/11 Commission.

Now, this legislation didn't just drop out of the sky. It was thoughtfully and creatively crafted, and it finds the right balances. Its provisions were improved as the result of input and counsel from five separate public hearings we held, 11 months of negotiations, and discussions with Members of both sides of the aisle, the FCC, and the NTIA. But at some point the American people say stop talking and get it done, and that's what this legislation does as part of this bigger bill.

Hardworking middle class taxpayers want transparency and accountability; they don't want a blank check to anybody. So this legislation has the proper protections for the taxpayers. It builds out the public safety network. It creates 300,000 to 700,000 American jobs. Our economy needs the help, Americans need the jobs, and we need to generate revenue for the American taxpayer in a productive way, as this does. This legislation does all of these things and does them well. I urge support of this legislation.

Mr. LEVIN. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. As I am preparing to speak, I'm thinking about a debate we had 3 years ago where banks received \$700 billion, about the Fed 1 month ago

printing \$7.7 trillion for banks in this country and abroad, and here we're telling the American people who happen to be unemployed, you know, we're thinking of cutting benefits 40 weeks.

People want work, not welfare. People want work, not unemployment compensation. But when people do not have work, unemployment insurance is essential. It is a lifeline. And this legislation significantly cuts unemployment insurance, that safety net that millions rely on. It reduces the number of weeks unemployed workers are eligible for by as much as 40 weeks.

We need more jobs, and yet we have more long-term unemployed. We know the unemployment rate is actually higher because people have stopped looking for work. Nearly 14 million Americans are out of work, and among the long-term unemployed, more than half have been out of work for over a year.

The problem is not a lack of effort for those seeking a job, the problem is a lack of jobs. Let's get America back to work, not be cutting unemployment compensation.

Mr. UPTON. Mr. Speaker, I yield 2 minutes to the chairman of the Health Subcommittee, the gentleman from Pennsylvania (Mr. PITTS).

Mr. PITTS. Mr. Speaker, we are all well aware of the inadequacies of the sustainable growth rate formula as a payment policy for reimbursing physicians. Unfortunately, the greatest threat—arguably—facing the Medicare program, if not the entire health care system, was left out of the new health reform law.

In 2010, Congress passed five temporary fixes to a pending physician payment cut. Some were retroactive and some lasted mere weeks. In other words, Congress kicked the can down the road five times last year.

Physician practices need more certainty than week-to-week patches. When this legislation becomes law, it will be the first multiyear fix to Medicare physician rates since 2003. Instead of just addressing the next oncoming payment cliff, the Middle Class Tax Relief and Job Creation Act provides a level of stability and predictability in payments for providers not seen in years and will allow Congress and the administration to work together to develop a long-term answer to the Medicare sustainable growth rate.

This 2-year fix, with a 1 percent increase in the next 2 years, is the first step in a long-term solution to eliminate the SGR and develop a more equitable and affordable Medicare payment policy for physicians. Not voting for this and supporting this 2-year fix may leave physicians facing just a 1-year patch, or more kicking the can down the road with no plan on how to move forward.

I urge my colleagues to support this legislation.

Mr. LEVIN. Mr. Speaker, it is my privilege to yield 1 minute to the very distinguished gentlelady from California, LYNN WOOLSEY.

Ms. WOOLSEY. I thank the gentleman for yielding.

Well, I've walked in the shoes of those who are needy. I know what it's like to go without. I know what it's like to struggle. Forty years ago I found myself—no fault of my own—a single mother with three young children all under the age of 5 and barely a dime to my name. I was one of the lucky ones; I had a good education. And so I was able to get a job, and I didn't need unemployment benefits. But my job wasn't enough to feed those three little kids. I needed AFDC just to make ends meet.

Nobody asked me to take a drug test, nobody asked if I had a GED. I was in trouble, and a generous, compassionate government helped me get back on my feet. That was over 40 years ago, my friends. And I can assure you that my children and I have more than paid back for that generous help that we received.

The Republican bill is not consistent with American values as I've lived them and understood them during my 74 years on this Earth. We're all in this together, I believe. There but for the grace of God go I.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. LEVIN. I yield the gentlelady an additional 30 seconds.

Ms. WOOLSEY. It's time for this Congress to stop coddling millionaires and start standing up for all families and all children who are suffering in today's economy.

Mr. UPTON. Mr. Speaker, may I inquire again on the time? I think we're a couple of minutes ahead.

The SPEAKER pro tempore. The gentleman from Michigan (Mr. UPTON) has 9 minutes remaining. The gentleman from Michigan (Mr. LEVIN) has 16¾ minutes remaining. The gentleman from Michigan (Mr. CAMP) retains 4½ minutes.

Mr. UPTON. I reserve the balance of my time.

□ 1700

Mr. LEVIN. I yield 1 minute to the gentlewoman from Alabama (Ms. SEWELL).

Ms. SEWELL. I thank the ranking member for allowing me this time.

Today I rise in strong opposition to H.R. 3630, which makes dramatic and harmful changes to the Emergency Unemployment Compensation program. It makes significant cuts to Medicare that would hurt our Nation's seniors. This bill contains political and controversial language that should be discussed and debated in separate legislation.

Before Congress breaks for this year, we need to pass a bill that solely focuses on extending relief to the unemployed workers and middle class Americans who are still suffering in this recovering economy. This is not the time to play with the livelihood of millions of Americans.

Our voters sent us here to make their lives better, not more difficult. We were sent here to create jobs and stimulate the economy and protect our most vulnerable. To accomplish these goals, it will require a willing and compromising spirit.

The folks of the Seventh Congressional District of Alabama, that I am so proud to represent, want me to put people before politics and do what is in their best interest and not partisan interests. The American people expect and deserve more, not less from us. Therefore, I urge my colleagues to vote "no" on H.R. 3630.

Mr. LEVIN. Mr. Speaker, I ask unanimous consent that the gentleman from California (Mr. WAXMAN) control 10 minutes of my time.

The SPEAKER pro tempore. Is there objection?

Without objection, the gentleman from California will control 10 minutes of the time.

There was no objection.

Mr. UPTON. Mr. Speaker, I yield 2 minutes to the chairman of the Environment and the Economy Subcommittee, the gentleman from Illinois (Mr. SHIMKUS).

Mr. SHIMKUS. Thank you, Mr. Chairman.

My friend from Ohio came down and he said, you know, what we need, what America needs, is jobs. And so that's the important aspect of bringing the Keystone XL pipeline into this debate. Don't listen to me; listen to my friends in organized labor.

Brent Bookers, director of the construction department of Laborers International Union of North America, said in testimony: "For many members of the Laborers, this project is not just a pipeline; it's a lifeline."

David Barnett, United Association of Journeymen and Apprentices said: "The fact of the matter is Keystone XL would, upon completion, be the most environmentally safe pipeline anywhere in America."

And then Jeffrey Soth of the International Union of Operating Engineers said: "Without the Keystone XL pipeline, American crude oil from the Bakken Formation, the fastest-growing oil field in the United States, will continue to move out of the region in the most dangerous, most expensive way possible, by tanker truck."

Folks, this is about jobs. We're fortunate to be able to place this in this bill, 20,000 immediate jobs, 110,000 additional jobs.

I stood outside a refinery and I asked people, Where do you think the crude

oil comes in, and how does the refined product go out? In any refinery in this country it's done through pipelines. So the Keystone XL pipeline is a job creator. Organized labor is strongly behind this. It creates 20,000 immediate jobs.

And you know what, it's the best form of stimulus because we're not borrowing money, and it's not a government project.

So I appreciate what my colleagues have done, including it in this bill. I thank them. My organized labor friends thank you.

Mr. WAXMAN. Mr. Speaker, I yield myself 3 minutes.

I strongly oppose this legislation as presently structured and urge its defeat. There's no question that we must extend the payroll tax breaks, which puts money in the hands of most Americans so they can spend it and get our economy moving. We must make sure that unemployed people have the insurance so that they have a lifeline so they can pay their bills while they're looking for jobs. We have to keep our promises to those under Medicare to allow physicians to be adequately reimbursed.

But the price that the Republicans are imposing through this legislation is simply unacceptable. It contains dangerous poison pills, a series of riders and legislative provisions that could never pass the Senate or be signed by the President. The Republicans are trying to cram them through the back door by holding this bill hostage.

Now, doesn't that sound familiar, Republicans holding things hostage? It's what they did when we had to raise the debt ceiling or default on our debts, and they held that bill hostage to try to get some of their demands.

The provisions to pay for the Medicare reimbursement for doctors would cause 170,000 people who are now covered to be uninsured. We'd increase the already high out-of-pocket cost for Medicare beneficiaries, and subject a full quarter of Medicare beneficiaries to significantly higher premiums.

Reducing our commitment to public health and prevention activities is a prescription for more diabetes, heart disease, cancer, and obesity. But that's what the Republicans would have us do in this bill.

The Keystone XL tar sands pipeline has nothing to do with this legislation. It has to do with environmental concerns that the President is presently reviewing in an orderly manner. The Republicans would have the whole process short-circuited by demanding that he come to the conclusion that the Canadian pipeline owners, and maybe the Koch brothers, would like. But it would short circuit a conscientious review of what this would do throughout this country and how it would affect our environment.

The spectrum provisions are flawed. While they provide for spectrum auc-

tion incentives, the deployment of a public safety broadband network, and address spectrum usage by Federal agencies, there are many shortcomings in the governance provisions of how the public safety network would work, and how the spectrum auctions would take place. There are also extraneous provisions that undercut the open Internet and limit the FCC's ability to provide competitive safeguards. And, funding levels threaten to shortchange the public safety network itself.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. WAXMAN. I yield myself another 30 seconds.

This bill is filled with loopholes and riders and special interest provisions. It's a very bad process to bring this bill to the House floor. Some of the provisions that came out of our committee never had full committee consideration.

So I urge Members to defeat the bill. Let's get down to doing what needs to be done. Don't hold important measures that must pass hostage. Let's work together and get a decent bill and pass it into law.

I reserve the balance of my time.

Mr. UPTON. Mr. Speaker, I yield 2 minutes to cochair of the Doc Caucus and a member of the Health Subcommittee, the gentleman from Georgia, Dr. PHIL GINGREY.

Mr. GINGREY of Georgia. Mr. Speaker, I thank the gentleman for yielding.

Physicians will see a 27.4 percent decrease in Medicare payments if we fail to act before the new year. If Congress fails to act, seniors may find that no physician in their area can afford to accept their Medicare card. That is not the holiday cheer our seniors deserve.

This bill is not perfect. As a medical doctor, I would prefer to be voting today on a permanent fix to this flawed physician payment formula in Medicare known as SGR, but I do not have that choice.

My choice, Mr. Speaker, is simple: vote for the physician fix or vote against it. Vote in support of my former patients who need access to their doctor when they're sick, or vote against them.

Vote to open up spectrum availability and bolster job creation within a growing telecommunications marketplace, or vote against it.

Vote for timely approval of the Keystone XL pipeline and, yes, create 20,000 immediate jobs, along with domestic energy independence, or vote against that.

Allow the EPA to enact job-killing Boiler MACT rules on every State and every industry in the United States, or vote to rein them in.

Today I'll be voting "yes" for the constituents of the 11th District of Georgia and for my country.

□ 1710

Mr. WAXMAN. Mr. Speaker, I yield 2 minutes to the gentleman from Massachusetts (Mr. MARKEY).

Mr. MARKEY. Last year the Republicans refused to extend unemployment benefits unless the Bush tax cuts were extended for millionaires and billionaires. Well, here they go again, Mr. Speaker.

This year, the Republicans are trying to prevent continuation of jobless benefits and the payroll tax cut unless their wish list of goodies for America's biggest polluters is granted in full. During this Christmas season, instead of gold, frankincense, and myrrh, the Republicans are bearing gifts of arsenic and mercury and oil on behalf of their planet-polluting patrons, Big Oil and Big Coal. The GOP used to stand for "Grand Old Party." Now it stands for "Gang of Polluters." Now it stands for the "Gas and Oil Party."

This Republican bill: One, blocks and indefinitely delays standards that would reduce hazardous air pollution like lead and cancer-causing substances that are released from industrial boilers and sent to the lungs of the children of America;

Two, rushes approval for the Keystone pipeline that will bring the dirtiest oil on the planet through the United States so it can be reexported to other countries while hurting our health and our environment here; and

Three, cuts much needed Medicare payments to hospitals to care for the sickest in our country.

The Republicans are presenting a false choice to the American people. We should not have to choose between toxic chemicals and tax relief for American workers. We should not have to choose between pollution and prosperity.

In this Republican-controlled House of Representatives, billionaires, Big Oil, big bankers benefit while the rest of America bears the burden. Enough is enough.

We know we need to pass the middle class tax cuts. We know we need to extend unemployment benefits. If we fail to act, Congress will leave a giant legislative lump of coal in the stockings of struggling Americans. It is unacceptable, bad for children, bad for the elderly, bad for the unemployed, and bad for America.

Mr. UPTON. Mr. Speaker, I yield 2 minutes to the gentleman from Nebraska (Mr. TERRY).

Mr. TERRY. Mr. Speaker, it just seems logical that as we have a bill to extend unemployment insurance for those unemployed that we also have a measure for them to become employed, and that's the Keystone pipeline. It is a \$7 billion infrastructure project that is ready to start today, employing as many as 20,000 laborers—mostly union labor, by the way.

Now, not only will it employ, but the delays of the State Department and the

White House in permitting this project are costing jobs.

And I refer to Little Rock Fox Channel 16. There's their online story that says:

"Layoffs and a brief company shutdown is what employees face at Wellspun Tubular Company, which makes steel pipes for the oil industry.

"Company leaders say miles of pipeline are on the property, and that has caused five dozen employees to lose their jobs. The pipes would be part of the Keystone oil pipeline, which is a project running from Canada to Texas."

The President has said that he would veto this bill extending unemployment and his tax holiday if this Keystone jobs bill was put in it. Mr. President, this is about creating jobs. Please join us.

Also, they said that the State Department may have to say no because they're rushed. But this is the same State Department that back in June testified before our committee that they could have the decision made on this pipeline by December 31.

The environmental studies have been there for months. This application has been with the State Department for 3½ years. The State Department has everything they need to make a correct recommendation for the President.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members are again reminded to direct their remarks to the Chair.

Mr. WAXMAN. Mr. Speaker, I am pleased at this time to yield 2 minutes to the man who's going to be the chairman of the Health Subcommittee when the public gets a chance next year to vote out the Keystone Kops overreaching Republicans who are doing it again to the American people, the gentleman from New Jersey (Mr. PALLONE).

Mr. PALLONE. Thank you, Mr. WAXMAN.

The gentleman from California (Mr. WAXMAN) had said before that essentially the Republicans putting up this bill are not serious. They know that this bill is not going to pass the Senate. They know that the President won't sign it. And when I heard my colleagues on the other side talk about how, well, we have a deadline of December 31 and basically said, Take it or leave it, well, they're not serious. That's not the way this House and this Congress works.

If you want to get something done by this December 31 deadline, you need to work with the Democrats, work with the Senate, and come up with something. And I know that's not what's happening here today. I mean, this idea that basically you say we're going to give you extended unemployment benefits but we're going to cut back on the number of weeks or that we're going to extend the payroll tax and we're going

to come up with a doc fix, but we're going to pay for it dismantling the Affordable Care Act.

First, the Republicans cut the tax credits to help make insurance affordable, resulting in 170,000 additional people becoming uninsured; then they slash the public health and prevention fund, damaging efforts to realign the Nation's approach to health care; then they cut hospitals, affecting services that seniors depend on; and, finally, they increase the premiums under Medicare, resulting in millions of middle class seniors having to pay more for health care.

Now, we have a Democratic substitute that they wouldn't allow in order, and that Democratic substitute takes a very different approach. Unlike the Republicans, the Democratic substitute simply extends tax cuts for 160 million Americans. It extends unemployment insurance to help Americans stay afloat financially while they're out seeking work. And it ensures doctors in Medicare don't face large reductions next year and maintains access for seniors with a permanent SGR fix. And it does all of this by asking 300,000 people making more than a million dollars a year to pay their fair share and by capturing offshore contingency funds.

So if you want to actually pass something, put our substitute in order and we will meet that deadline of December 31 and actually do things that help people create jobs and reduce the deficit and make the doctors available so that if a senior wants to go to a doctor, they'll be able to do it.

Look at our substitute and don't continue with this sham.

Mr. UPTON. Mr. Speaker, I yield 1 minute to the gentleman from Virginia (Mr. GRIFFITH).

Mr. GRIFFITH of Virginia. Mr. Speaker, I hear my colleagues speaking about what will pass. Let me tell you that the Boiler MACT provisions of this bill would pass the Senate if only they were allowed to get a vote. Forty-one members of the Democrat Party voted for Boiler MACT in this House; 12 Members of the Senate of the Democrat Party are co-patrons of similar language in the Senate.

The Boiler MACT provisions of this bill help hospitals deal with their increasing costs. It helps universities. It does help business, but it helps businesses large and small.

The bill requires reasonable regulations, and it requires reasonable time in which to comply with those regulations. Currently, they're only allowed 3 years plus possibly a 4th if allowed by the EPA administrator. The bill will allow 5 years plus reasonable time. And when you're trying to change the way you've been doing things, sometimes you need a little more time to get things done than 3 years.

It was interesting in committee, the EPA came in and was talking to us

about projects they were trying to get done and money they'd left on the table. They couldn't get their projects done in 3 years. How do they expect American businesses to do so and provide jobs?

Mr. WAXMAN. Mr. Speaker, I am pleased to yield 2 minutes to the gentlelady from California, the next chair of the Telecommunications Subcommittee, Ms. ESHOO.

Ms. ESHOO. I thank the ranking member of the committee.

Mr. Speaker, within this bill are provisions on spectrum that will define our Nation's ability to lead the world in wireless broadband deployment. It will also define how we will finally provide our first responders with a nationwide interoperable broadband network that the 9/11 Commission called for.

□ 1720

I appreciate Chairman WALDEN's work with the minority, including the agreement on authorizing voluntary incentive spectrum auctions, reallocating the D-block for public safety, and providing the initial funding for Next Generation 9-1-1.

I do have four concerns, and I want to point them out:

The first pertains to the treatment of unlicensed spectrum. Unlicensed spectrum has created an innovative space for entrepreneurs, enabling Wi-Fi, Bluetooth and thousands of other devices and services—all meaning jobs. In fact, last month, the Consumer Federation of America released a new study which found the consumer benefits of unlicensed spectrum surpassing \$50 billion, that's with a "b," per year. Prohibiting the FCC, which is the expert agency, from using some of our Nation's best airwaves for unlicensed use, as the House language does, is simply foolhardy.

Secondly, I am very concerned about how the bill treats the spectrum public safety needs to create and manage a nationwide interoperable broadband network. The Republican bill, on the one hand, gives; but on the other hand, it takes away. This is not a solution, and I don't believe it's fair to public safety in our country.

Thirdly, the bill encourages the development of 50 separate networks instead of one nationwide network. Past experiences demonstrate that a state-based approach fails to achieve interoperability. I think it's going to cost money, and I don't think it's going to work.

Lastly, the provisions that restrict the FCC's ability to preserve competition and promote an open Internet simply do not belong in this legislation.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. WAXMAN. I yield the gentlelady an additional 30 seconds.

Ms. ESHOO. I think our country is counting on us to make smart and bi-

partisan choices, but I am sorry to say that I don't think this bill meets the standard. I do believe that the Senate accomplished these goals in S. 911. I believe we can too but not through this bill. So I urge opposition to it for the reasons I've stated.

Mr. UPTON. Mr. Speaker, at this point I will yield 1 of my 2 remaining minutes to the gentleman from Colorado (Mr. GARDNER).

Mr. GARDNER. I thank the chairman of the Energy and Commerce Committee for the time.

We've all heard about the need to address jobs, to act on jobs, so here we are today to address the issue of job creation for so many in this country who are currently unemployed. Perhaps to some, the creation of jobs is just a pipe dream; but to many Republicans and Democrats, job creation is a Keystone pipeline. It's not a pipe dream.

In Colorado alone, the Alberta oil sands could create as many as 6,000 jobs in the next 4 years, and the Keystone pipeline is an important part of that. We hear over and over again of the need to create jobs, of the need to address the issue of job creation. Yet here we are, hearing opposition to job creation.

For every dollar we spend on oil from Saudi Arabia, 50 cents is returned to the U.S. economy. For every dollar spent on Canadian oil, 90 cents is returned to the domestic economy. It's because, in Canada's oil fields, American products are used en masse—Case loaders, Michelin tires, Wolverine boots, Ford trucks. The list goes on. This is not the way it is in countries thousands of miles away.

I urge this Congress not to put politics before paychecks. Pass this bill.

The SPEAKER pro tempore. The time of the gentleman from California has expired. The gentleman from Michigan (Mr. LEVIN) has 5¾ minutes remaining. The gentleman from Michigan (Mr. UPTON) has 1½ minutes remaining. The gentleman from Michigan (Mr. CAMP) has 4½ minutes remaining.

Mr. UPTON. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. OLSON).

Mr. OLSON. I thank the chairman for yielding.

Mr. Speaker, at a time when our economy is struggling to recover, it's stunning to think that my friends on the other side of the aisle would deny an opportunity to reduce our reliance on Middle Eastern oil and create thousands of American jobs.

The Keystone XL pipeline does both. The project has been exhaustively studied and revised to ensure its safety. Our economy needs a safe, reliable source of energy. Canada can provide it, and it wants to provide it to help us reduce our reliance on Middle East oil while strengthening our national secu-

rity. Twenty thousand new American jobs will be created to build this pipeline.

Mr. Speaker, I urge my colleagues to pass this bill. Approve the Keystone XL pipeline now.

Mr. UPTON. Mr. Speaker, I ask unanimous consent that all of my remaining time be given back to the gentleman from the great State of Michigan (Mr. CAMP).

The SPEAKER pro tempore. Without objection, the gentleman from Michigan (Mr. CAMP) will have an additional 30 seconds.

There was no objection.

Mr. CAMP. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Louisiana (Mr. SCALISE).

Mr. SCALISE. I thank the gentleman from Michigan for yielding.

I think one of the strongest components of this bill that we're bringing to the floor today is the jobs component that's contained in the Keystone pipeline bill.

If you'll look at what we're trying to do right now, we've got some options here. The American people are clamoring for jobs. We've got the ability to force President Obama to get off the sidelines. The President has been good about running all around the country, giving these political speeches and campaigning. He's talking about jobs, and he's talking about the middle class. Yet here we have an opportunity to create 20,000 middle class jobs in America, and the President is saying "no." The President said he'll veto the bill over this one provision.

Now, think about that. There is a bill that deals with unemployment benefits, and the President is saying he'd rather people be unemployed than to actually get jobs. They would much rather have jobs than be unemployed. Yet there is the ability to create 20,000 American jobs with the Keystone pipeline, and the President is turning his back on those middle class families.

There is over \$7 billion of private investment. We can increase America's energy security. If that oil comes from Canada, our dependence on Middle Eastern oil can drop dramatically. We can eliminate a million barrels a day when this comes online, and we can reduce our dependence on Middle Eastern oil.

Let's create American jobs. What does President Obama have against 20,000 American jobs? I urge a "yes" vote.

Mr. LEVIN. Mr. Speaker, it is my privilege to yield 2 minutes to the distinguished gentleman from New York, (CHARLES RANGEL).

Mr. RANGEL. I was walking through the Cannon Building to get to one of the television stations when an older gentleman stopped me and asked me whether or not they were going to provide the unemployment tax benefits to them. He was trying to find out why we

were gridlocked and what the problem was. I assumed he was from my district, but he was from some part of Texas.

He heard my explanation as to why we were not just passing what Democrats believe in and what Republicans say they don't have a problem with. I told him it was about the Keystone pipeline, and he says, What the hell is that?

That made me think, of all the people at this time of the year who are going to sleep tonight with limited resources and with all of the polls that are saying that Congress is out of touch with the needs of America, they're not talking about Republicans; they're talking about the Congress—Republicans and Democrats.

Is anyone telling me that providing a tax break for people who work hard every day has to be connected with a pipeline? If you worked every day and, through no fault of your own, you lost your job when you'd paid into a fund from which you were supposed to get some comfort, are you telling them that we need the Keystone pipeline?

Let's get real. This is a political thing that's being done not to deliver on the promise that we made to the American people. So let me make a plea:

For all of the people who are in need, for all of the people who are looking for a little break from Big Government, for all of the people whom we made these promises to, say that we couldn't do it because of the Keystone pipeline. If you think that makes any sense, then we are just a disgrace to the American people.

If you want a Keystone pipeline, bring it to the floor. Let's debate it and vote up or down. But to hold hostage the American people who are suffering is just plain wrong.

□ 1730

Mr. CAMP. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman for yielding.

Mr. Speaker, I rise in support of H.R. 3630. I appreciate the efforts of the chairman and my colleagues who serve on the relevant committees in crafting a package that responds to the needs of all Americans right now.

The bill addresses the urgent struggles of the unemployed and small business owners. It recognizes that we cannot dig our way out of a recession with more taxes and higher deficits. Whether you are a job creator or a job seeker, the bill extends critical assistance at a time when millions of Americans need it most. The bill does all this and more without adding one penny to the deficit. Important government reforms and cost-saving measures were included in the bill to reduce the debt and implement long overdue reforms.

It's also important to note that this compromise takes steps to protect the Social Security Trust Fund.

Mr. Speaker, this bill is a smart step towards job creation and economic certainty. I urge my colleagues to support the bill.

Mr. LEVIN. I yield 1 minute to our distinguished leader, the gentlelady from California (Ms. PELOSI).

Ms. PELOSI. I thank the gentleman for yielding. I commend him for his extraordinary leadership on behalf of America's working families. He has demonstrated a long-term, consistent dedication to their well-being.

Mr. Speaker, I return to the floor. I spoke on the rule earlier. But I listened attentively to the debate, and I think a few points need to be made, and I will do that very briefly.

It is clear that the Republicans, in using the pipeline, are trying to change the subject. The subject at hand is, we have a proposal from the President of the United States which has within it proposals that have had bipartisan support over a period of time on how to have a payroll tax cut that benefits many middle-income families in our country, that respects that some people are out of work through no fault of their own and need unemployment insurance, and that our seniors want to have the doctor of their choice, and that issue has to be addressed here. The fact is is that because of the way the rules were set up—not to go into process—but the Republicans said, You are not even going to be able to bring the President's and the Democratic proposals to the floor. Instead, we are going to bring ours to the floor. But so that the public doesn't really understand the difference between the two, we are going to have a smokescreen go out there, a smokescreen of confusion by talking about the pipeline. And this is very interesting because this isn't about the pipeline.

We, as other speakers have said, could have a vote on the pipeline at any time, to vote it up or vote it down, consider what it means for jobs and the impact on the environment. And it doesn't reduce dependence on foreign oil. But nonetheless, that is a subject for debate at another time. I, myself, have not made a public statement one way or another. But many of our colleagues have. They are either supporting it or they are not, but that is not the point of the legislation. Many who support the pipeline are opposing this bill because they know it is being used. It is being used. And some of our friends in labor want this pipeline built. But I assure you that they want unemployment insurance for workers who, again, through no fault of their own, are out of work.

So let's just take a few points here. The proponents of this bill who are using the pipeline as a smokescreen and as an excuse say that it will create

20,000 jobs. Let's hope that that is correct. But what it's doing is standing in the way of the President's proposal, which will create 600,000 jobs, which will make an impact of 600,000 jobs on our economy. That's from the macroeconomic advisers. It will make the difference of 600,000 jobs. So while they are professing these 20,000 jobs, which may be a legitimate number—and let's say it's the highest number they could come up with, let's have that debate on another day. You may see a very big, strong vote on the floor for the pipeline, or you may not. So the point is, 20,000 jobs—if that's the argument—versus 600,000 jobs.

The other point is that the President's proposal affects 160 million Americans; 160 million Americans will have a payroll tax cut, according to his proposal, in a substantial way. This is not, as the Republicans want to do, to throw a bone to the middle class. This is about a thriving middle class. It's about a payroll tax cut that does what it sets out to do, puts \$1,500 in the pockets of America's families who need it and spend it and, in doing so, injects demand, demand, demand into our economy, which further creates jobs. And how that is paid for is by a surtax on those making over \$1 million a year.

So 160 million people affected; a surcharge on 300,000 of the wealthiest people in America. We don't begrudge them their wealth, their success. That's important. I don't think that any one of those 300,000 people would begrudge the 160 million Americans their payroll tax cut. But I do think it is the extremists on the Republican side in the House of Representatives who have an ideological point of view, and that is what is at work here. It isn't about those 300,000 begrudging the 160 million, and it isn't about the 160 million begrudging the 300,000. So let's understand the numbers here.

I want to reference the chairman's bill. Who sacrifices under the Republican bill? Seniors suffer \$31 billion. Instead of a surcharge on the 300,000 wealthiest people in our country making over \$1 million a year, the Republicans pay for the payroll tax by taking \$31 billion from seniors. Federal workers sacrifice \$40 billion. Unemployed Americans sacrifice \$11 billion. Billionaires sacrifice zero. I think all Americans are willing to do their fair share. We all have to do our part, take responsibility, zero. So again, 20,000 jobs, 600,000 jobs; 160 million Americans, 300,000 Americans; \$31 billion from Medicare.

The President's proposal and the Democratic plan that mirror each other reduce the deficit by \$300 billion. And according to the Congressional Budget Office—and I will read from a Congressional Budget Office letter to Mr. CAMP. The independent, nonpartisan Budget Office of the House, writing to Mr. CAMP said, "According

to Congressional Budget Office's and Joint Tax Committee's estimates, enacting H.R. 3630—the bill before us—“would change revenues and direct spending to produce increases in the deficit of \$166.8 billion in fiscal year 2012 and \$25.3 billion over the 2012–2021 period.”

So let's just take the lower number, \$25 billion in the life of the bill. That's what the CBO says about the bill before us. That's why earlier today, there was a motion to say that this was not in keeping with being revenue-neutral, as the Republicans espouse and we agree.

So again, the numbers: 20,000 jobs with the pipeline—and that may be a good thing, but this is not the place. This is a smokescreen. This is a distraction. This is a change of subject. This is the masters of confusion so you don't know what really is at stake here.

You couldn't possibly be sincere about a payroll tax cut that makes the middle class thrive if you put an obstacle like that in front of it and call it a jobs bill to create 600,000 jobs. One hundred sixty million Americans benefit from this. Please don't tax 300,000; instead, take \$31 billion from our seniors. Reduce the deficit by \$300 billion; increase the deficit by \$25 billion. The numbers are clear. They speak for themselves.

I urge my colleagues to vote “no.” I hope that we can come to the table and share a view that this middle-income tax cut is worth doing without obstacles to its being signed into law, and that we can do it soon. I say it over and over again: Christmas is coming. For some, the goose is getting fat; for others, there are very slim prospects. Let's change that. Let's do the people's work. Let's get this done. I urge a “no” vote.

□ 1740

Mr. CAMP. Mr. Speaker, I yield myself 30 seconds.

If the distinguished minority leader had read the next paragraph of the letter to me by the Congressional Budget Office, she would have read that the bill in its entirety reduces the deficit by \$1 billion.

Mr. Speaker, I would like to insert the entirety of the letter to me from the Congressional Budget Office into the RECORD.

U.S. CONGRESS,  
CONGRESSIONAL BUDGET OFFICE,  
Washington, DC, December 9, 2011.

Hon. DAVE CAMP,  
Chairman, Committee on Ways and Means,  
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office (CBO) and the staff of the Joint Committee on Taxation (JCT) have reviewed H.R. 3630, the Middle Class Tax Relief and Job Creation Act of 2011, as introduced on December 9, 2011. The attached tables provide CBO's and JCT's estimates of the legislation's budgetary effects.

Table 1 presents a summary of the expected impact on deficits from changes in revenues and direct spending, along with estimated changes from reductions in existing caps on discretionary funding (those effects are subject to future appropriation actions).

According to CBO's and JCT's estimates, enacting H.R. 3630 would change revenues and direct spending to produce increases in the deficit of \$166.8 billion in fiscal year 2012 and \$25.3 billion over the 2012–2021 period.

Relative to discretionary spending projected under current law and assuming compliance with the current-law caps on discretionary appropriations for the next 10 years, CBO estimates that the proposed changes in discretionary funding caps under H.R. 3630 would lead to a reduction in projected discretionary spending of \$26.2 billion over the 2012–2021 period (as shown in the bottom panel of Table 1).

Table 2 provides detail on the changes in revenues and direct spending for the major provisions of the legislation. Enacting the bill would reduce revenues by \$88.3 billion

over the 2012–2021 period and reduce direct spending by \$63.1 billion over that period, according to CBO's and JCT's estimates. Those changes are the budgetary effects that would be expected to occur directly from enactment of H.R. 3630, while proposed changes in spending subject to appropriation are contingent upon enactment of future legislation.

Table 3 shows the estimated impact of H.R. 3630 under the Statutory Pay-As-You-Go Act of 2010 (S-PAYGO Act). Under that act, budget-reporting and enforcement procedures apply to changes in the on-budget deficit from changes in revenues and direct spending. Those procedures call for automatic reductions in certain direct spending programs if there are positive balances in either the 5-year or 10-year compilations of pay-as-you-go budgetary effects.

Following the specifications in the S-PAYGO Act, which allows for an adjustment to reflect the continuation of current rates on the payments to physicians under Medicare, CBO estimates that on-budget changes in direct spending and revenues subject to the pay-as-you-go considerations would increase deficits by \$136.6 billion over the 2012–2016 period and would reduce deficits by \$4.0 billion over the 2012–2021 period.

H.R. 3630 would direct the Office of Management and Budget to exclude from its scorecard of balances under the S-PAYGO Act any estimated deficit reduction for the 10-year period spanning fiscal years 2012 through 2021. The bill also specifies that the estimate submitted for printing in the Congressional Record should reflect three types of effects that are not included under the S-PAYGO Act: off-budget effects, projected changes in discretionary spending from changes in the caps on new appropriations, and estimated changes in net income of the National Flood Insurance Program (but those adjustments are not included in Table 3 because the provision has not been enacted into law).

If you wish further details on this estimate, we will be pleased to provide them.

Sincerely,

ROBERT A. SUNSHINE  
(For Douglas W. Elmendorf, Director).

Enclosure.

Sources: Congressional Budget Office and the staff of the Joint Committee on Taxation.

Note: Components may not sum to totals because of rounding.

<sup>a</sup> For revenues, positive numbers indicate a decrease in the deficit; negative numbers indicate an increase in the deficit.<sup>b</sup> The bill would modify and extend the payroll-tax holiday for one year, causing a reduction in off-budget revenues credited to the Social Security trust funds. The bill also would transfer from the Treasury to the Social Security trust funds an amount equal to that off-budget revenue loss. The off-budget receipt would offset the lost revenue and, thus, section 2001 would have no net off-budget effect. (Other sections in the bill would have an off-budget effect.)<sup>c</sup> Title III of the bill would raise premiums for certain subsidized flood insurance policies, increasing net income to the National Flood Insurance Program by \$4.9 billion. However, because many policies would continue to be subsidized and the program would continue to face significant interest costs for borrowing over the past decade, CBO expects that additional receipts collected under this legislation would be spent to cover future program shortfalls, resulting in no net effect on the budget over the 2012-2021 period.**TABLE 2. Note: AMT = Alternative Minimum Tax; components may not sum to totals because of rounding.

<sup>a</sup> For revenues, positive numbers indicate a decrease in the deficit; negative numbers indicate an increase in the deficit.<sup>b</sup> The bill would modify and extend the payroll-tax holiday for one year, causing a reduction in off-budget revenues credited to the Social Security trust funds. The bill also would transfer from the Treasury to the Social Security trust funds an amount equal to that off-budget revenue loss. The off-budget receipt would offset the lost revenue and, thus, section 2001 would have no net off-budget effect. (Other sections in the bill would have an off-budget effect.)<sup>c</sup> Title III would raise premiums for certain subsidized flood insurance policies, increasing net income to the National Flood Insurance Program by \$4.9 billion. However, because many policies would continue to be subsidized and the program would continue to face significant interest costs for borrowing over the past decade, CBO expects that additional receipts collected under this legislation would be spent to cover future program shortfalls, resulting in no net effect on the budget over the 2012–2021 period.**TABLE 3. I would also note that the first bullet on the distinguished minority leader's chart was exactly the President's proposal. The President has asked to increase premiums on wealthy seniors; the President does.

So it is interesting the minority leader is criticizing the President's own proposal, which is put directly into this bill.

I reserve the balance of my time and would tell my colleague that I am prepared to close.

Mr. LEVIN. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from Michigan is recognized for 2¾ minutes.

Mr. LEVIN. I want to start by reading one of the 400-plus communications we received. This is from Jackie of Amherst, New Hampshire: "Unemployment benefits helped me make ends meet while I was using my savings and 401(k) to keep up with everything. Now they are gone. My savings are long gone. My 401(k) is almost gone. I am watching everything I worked so hard for, for my entire adult life, slip away from me. I am 50."

In the name of reform, what the House Republicans are doing is to retreat, to retreat from assisting the unemployed through no fault of their own. According to the data received from the Department of Labor, 3.3 million Americans would lose weeks of unemployment benefits under this bill compared to an extension of current law.

The President has made his position clear. The Statement of Administra-

tion Policy says: "The administration strongly opposes H.R. 3630. With only days left before taxes go up for 160 million hardworking American, H.R. 3630 plays politics at the expense of middle class families.

"Instead of working together to find a balanced approach that will actually pass both Houses of Congress, H.R. 3630 instead represents a choice to refight old political battles over health care and introduce ideological issues into what should be a simple debate about cutting taxes for the middle class.

"If the President were presented with H.R. 3630, he would veto the bill."

In good conscience, we should not support this bill. Remembering the 3.3 million who would have their benefits cut under this bill, there should be a resounding "no." A resounding "no."

I yield back the balance of my time.

Mr. CAMP. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from Michigan is recognized for 2½ minutes.

Mr. CAMP. This bill will strengthen our economy and help get Americans back to work by lowering the tax burden for middle class families and job providers.

It prevents massive cuts to doctors working in the Medicare program to protect American seniors and those with disabilities, providing more stability in the doctor payment schedule than there has been in a decade.

It adopts 12 of the President's legislative initiatives, which represents the bipartisan cooperation Americans are

demanding, and includes an increase in Medicare premiums for the wealthy, as the President requested.

It will extend Federal unemployment programs to 5 million Americans, those still struggling after the President's failed stimulus program. I'm still waiting for the 3.5 million jobs that were promised and the 6 percent unemployment rate. But we ensure in this bill that they get the assistance they need.

And under this bill, more than 1 year of benefits will be available. It's fully paid for with spending reductions, spending cuts, not job-killing tax hikes.

Commonsense reforms and savings in this bill include things like actually requiring those who receive an unemployment check to look for work and get a GED if they don't have a high school diploma, require undocumented workers who are seeking refundable—that's cash—tax credits to actually have a valid Social Security number, just like is required in the earned income tax credit.

And the bill freezes pay for Members of Congress and other nonmilitary government personnel. This legislation also protects critical programs by reducing the Federal tax subsidies that go to wealthier Americans. We put an end to millionaires and billionaires receiving unemployment benefits and food stamps, saving over \$20 million.

We also adopt the President's plan to reduce subsidies to high-income seniors by requiring them to pay a greater share of their Medicare premium. That reduces Federal spending by \$31 billion.

All told, this bill incorporates more than a dozen proposals the President has either offered, supported, or has signed into law in one variation or another. In fact, 90 percent of this bill is paid for with those policies.

I urge support of this legislation. This bill is about strengthening our economy, helping Americans find a job. It doesn't add one dime to the debt. It is bipartisan, and it will help get our economy back on track. Please vote "yes" for this bill.

I yield back the balance of my time.

Mr. HOLT. Mr. Speaker, instead of creating jobs—which is what the American people want and need from this body—we are here discussing a measure that has no chance of becoming law. Instead of working toward commonsense solutions to solve our jobs crisis and get Americans back to work, we are once again playing political games.

Mr. Speaker, we should not allow last year's one-year mistake to become a permanent attack on Social Security and the livelihood of its beneficiaries. Social Security should not be used as a rainy-day fund or a political bargaining chip. It should come as no surprise that President Roosevelt described it best. He said, "We put these payroll contributions there so as to give the contributors a legal, moral, and political right to collect their pensions and their unemployment benefits. With those taxes in there, no damn politician can ever scrap my social security program." Let's cut payroll taxes for 160 million Americans but make up the lost revenue by temporarily eliminating the cap on wages taxed for Social Security. As much as we need economic stimulus now, we will need Social Security for decades to come.

What else does this legislation do, Mr. Speaker? It contains irrelevant and controversial provisions like the Keystone Pipeline, which the President has promised to veto. It requires millions of American seniors to pay more for health care, while doing nothing to ask the wealthiest among us to pay their fair share. It reduces by 40 weeks the maximum length of unemployment benefits and cuts completely the benefits for millions of Americans who need this vital lifeline through no fault of their own. This bill cuts funding for preventative health care and endangers the health of our children by blocking air quality standards that will help combat pediatric asthma. It also fails to take seriously the question of Medicare reimbursement to physicians and instead simply puts a temporary patch on a problem that needs long-term reform.

But perhaps more important, Mr. Speaker, is to consider what this bill fails to do. This bill fails to address tax relief that could actually benefit middle-class families, expand our workforce, and grow our economy. This bill does nothing to address the Alternative Minimum Tax, which will affect more than 30 million Americans next year. It fails to provide tax relief for our Nation's teachers. It does nothing to address the need to invest in research and development. I have authored legislation to expand and make permanent the R&D tax credit and to promote increased investment in research-intensive small businesses. These measures are proven job creators, yet they have not been brought forward for consider-

ation by this body because the majority has blocked any attempt to include meaningful amendments. This is just another example of how a closed rule produces bad legislation.

Mr. Speaker, many of the provisions contained in this legislation make little sense to middle-class families. So why are we here debating it? Why are we wasting time on a measure that is sure to fail? I urge my colleagues to join me in demanding a measure that provides commonsense tax relief for middle-class families, protects Social Security, and helps put the unemployed back to work.

Ms. JACKSON LEE of Texas. Mr. Speaker, I rise today to oppose H.R. 3630, "Middle Class Tax Relief and Job Creation Act of 2011." This legislation sends the wrong message at the worst time for Americans. As we approach a new year, my colleagues on the other side of the aisle have once again targeted millions of seniors and middle class families for cuts without asking essentially anything of millionaires and billionaires.

They have singled out Medicare premium increases that permanently increase seniors' costs by \$31 billion. The bill also, when you look at it carefully, spends \$300 million on a special interest provision that helps a handful of specialty hospitals while cutting billions from community hospitals.

Republicans have targeted the unemployed, slashing 40 weeks of unemployment insurance, impacting millions of families still struggling under the weight of the worst economic downturn since the Great Depression. Twenty-two jurisdictions with the highest unemployment rates would be hit the hardest: Alabama, California, Connecticut, DC, Florida, Georgia, Illinois, Idaho, Indiana, Kentucky, Michigan, Missouri, Nevada, New Jersey, North Carolina, Ohio, Oregon, Rhode Island, South Carolina, Tennessee, Texas, and Washington. The result would be that in the state that Mr. CAMP and I come from—Michigan—the bill would cut unemployment insurance to 46 weeks.

Essentially the sacrifice will be borne by middle class and low income Americans, as the wealthiest among us have not been asked to join in this shared sacrifice. Not even after the wealthiest 1 percent saw their incomes nearly triple in the last three decades while salaries for middle class families barely budged.

There are more than four unemployed Americans for every job opening. Never on record in our Nation's history have there been so many unemployed Americans out of work for so long. There is nothing normal about this recession. Republicans are clearly out of touch with the needs of American families.

I am committed to producing tangible results in suffering communities through legislation that creates jobs, fosters minority business opportunities, and builds a foundation for the future. Every American deserves the right to be gainfully employed or own a successful business and I know we are all committed to that right and will not rest until all Americans have access to economic opportunity.

According to a report released by the Department of Labor late this afternoon, 3.3 million Americans would lose unemployment benefits as a result of the GOP bill compared to a continuation of current law. In the State of Texas alone 227,381 people will lose their sole source of income by the end of January.

This bill stands as a shining example of not keeping a pledge given to the American people. A little over a year ago, Republican leadership released to the public their Pledge to America in which they told the American people that they would "end the practice of packaging unpopular bills with 'must-pass' legislation to circumvent the will of the American people. [Further] Instead, [Republicans] will advance major legislation one issue at a time." This is what my colleagues stated less than one year ago. But before this body today they have presented us with a package that is the exact opposite of that pledge. This bill is riddled with provisions that I cannot support. I will not support needlessly adding to the burdens already being borne by hard working Americans. This is an inconsistent message being given to the American people. The Republicans need to honor their pledge to the American people.

This bill will reduce the current Payroll Tax Cut by 2 percent and addresses the Sustainable Growth Rate (SGR) for two years, providing a 1 percent update for both 2012 and 2013 and resulting in a scheduled 37 percent cut in 2014. It extends the Emergency Unemployment Compensation Program until January, 2013 but lowers the amount of time benefits are provided from 99 weeks currently to 59 weeks.

It also includes permanent provisions allowing drug testing of applicants and would allow states to require a high school diploma or being enrolled in classes for a GED to be eligible for benefits. The bill offsets the costs of these extensions by significantly increasing both the amount of Medicare premiums paid by high-income beneficiaries and the number of beneficiaries required to pay these higher premiums, and by cutting Medicare provider rates.

In addition, it prohibits immigrants without social security numbers from receiving the refundable portion of the Child Tax Credit. It further offsets the bill by freezing federal employee pay for an additional year through 2013, and increases fees charged by Fannie Mae and Freddie Mac to lenders. It also includes frequency Spectrum sales to help offset the cost of the bill, but with provisions related to net neutrality included in the language.

H.R. 3630 is a direct assault on the jobless. This legislation sends the wrong message at the worst time for Americans who are looking for employment, who are concerned about losing their homes and who are doing everything in their power to feed themselves and their families, and their neighbors.

If we allow these unemployment insurance benefits to expire in the next 17 days—there will be millions of people who will not be able to pay their mortgage or their rent in January and could find themselves homeless by February.

We are throwing millions of Americans out of their life boats, into an ocean without a life preserver. This is senseless. If those benefits run out, millions of people who've lost their jobs could see their sole source of income end in January. And this could have an effect on the larger economy.

While the bill extends the payroll tax deduction, it limits the availability of federally funded

unemployment assistance, and includes punitive provisions for the least skilled jobless workers.

If there is a single federal program that is absolutely critical to people in communities all across this Nation at this time, it would be unemployment compensation benefits. Unemployed Americans must have a means to subsist, while continuing to look for work that in many parts of the country is just not there. Families have to feed children.

According to the U.S. Bureau of Labor Statistics the state of Texas continues to have the largest year-over-year job increase in the country with a total of 253,200 jobs. However, there are still thousands of Texans like thousands of other Americans in dire need of a job.

The bill being brought to the Floor by my Republican Colleagues does not adequately address the needs of the unemployed.

The plan put forth by my Republican colleagues has provisions to slash the duration of federal unemployment benefits by 40 weeks. Since 2008, federal programs expiring in January have provided up to 73 weeks of compensation for workers who use up 26 weeks of state benefits.

In addition, the version heading to the House Floor would slash an additional 20 weeks of federal Emergency Unemployment Compensation and it would let states reduce benefits even further. It would also impose a uniform federal work search requirement and disqualify high school dropouts not actively pursuing GEDs and millionaires from receiving benefits. The unemployment reforms, sweeping as they are, may be lost amid other features of the Republican package.

A worker advocacy group recently described the drug testing element as the "most disturbing" part of the Republican unemployment reforms. "Devising new ways to insult the unemployed only distracts from the current debate over how to best restore the nation's economy to strong footing and the discussion over how to best support the unemployed and get them back to work."

The requirement to insist that to qualify for benefits that a person has earned should require a GED or a high school diploma will have a negative impact on minorities.

The labor force participation rate for persons without a high school diploma is 20 percentage points lower than the labor force participation rate for high school graduates.

Nationally, approximately 70 percent of all students graduate from high school, but African-American and Hispanic students have a 55 percent or less chance of graduating from high school.

Only 52 percent of students in the 50 largest cities in the United States graduate from high school. That rate is below the national high school graduation rate of 70 percent, and also falls short of the 60 percent average for urban districts across the Nation.

What is needed is job training programs that are funded rather than penalties for those who for a multitude of reasons have not attained a high school diploma or GED.

Unemployed workers, many of whom rely on public transportation, need to be able to get to potential employers' places of work. Utility payments must be paid. Most people

use their unemployment benefits to pay for the basics. No one is getting rich from unemployment benefits, because the weekly benefit checks are solely providing for basic food, medicine, gasoline and other necessary things many individuals with no other means of income are not able to afford.

Personal and family savings have been exhausted and 401Ks have been tapped, leaving many individuals and families desperate for some type of assistance until the economy improves and additional jobs are created. The extension of unemployment benefits for the long-term unemployed is an emergency. You do not play with people's lives when there is an emergency. We are in a crisis. Just ask someone who has been unemployed and looking for work, and they will tell you the same.

With a national unemployment rate of 9.1 percent, preventing and prolonging people from receiving unemployment benefits is a national tragedy. In the City of Houston, the unemployment rate stands at 8.6 percent as almost 250,000 individuals remain unemployed.

Indeed, I cannot tell you how difficult it has been to explain to my constituents who are unemployed that there will be no further extension of unemployment benefits until the Congress acts. Whether the justification for inaction is the size of the debt or the need for deficit reduction, it is clear that it is more prudent to act immediately to give individuals and families looking for work a means to survive.

Currently, individuals who are seeking work find it to be like hunting for a needle in a haystack. For every job available today, there are four people who are currently unemployed. You can not fit a square peg in a round hole and point fingers at the three other people who when that job is filled is left unemployed. Lets be realistic there are currently 7 million fewer jobs in the economy today compared to when this recession began.

#### UNEMPLOYMENT INSURANCE

Current law provides federal unemployment insurance benefits for up to 99 weeks, depending on the pervasiveness of unemployment in the state. The so-called Middle Class Tax Relief and Job Creation Act of 2011 reduces this to a maximum of 59 weeks in hardest hit states. Such a move fails to consider the weak jobs market and the harm reducing unemployment benefits would inflict on families and the national and local economies. Unemployment has been above 8 percent since April 2009, and the percent (43 percent in November 2011) of unemployed workers who have been without a job for six months or more has remained at record levels for 31 months.

This simply does not make sense. Reducing workers benefits does not solve the long-term unemployment crisis. It is illogical to reduce benefits at a time when long-term unemployment has broken records and is setting new ones.

My Republican colleagues not only cut the amount of unemployment benefits available by nearly fifty percent, this bill also includes provisions that would reduce access to and stigmatize those who receive unemployment insurance.

#### HIGH SCHOOL DIPLOMA OR GED REQUIREMENT FOR UNINSURANCE BENEFITS

This legislation denies unemployment insurance benefits to the most vulnerable workers, those without a high school diploma or GEDs, if they can't demonstrate they are enrolled in a program leading to a credential. Workers with less than a high school diploma are unemployed at significantly higher rates than workers with a bachelor's degree (13.2 percent v. 4.4 percent).

I understand the rationale behind wanting to advance the skills of our nation's work force. Believe me the hardships faced by those who have not attained a GED or high school diploma are indisputable.

The labor force participation rate for persons without a high school diploma is 20 percentage points lower than the labor force participation rate for high school graduates.

Nationally, approximately 70 percent of all students graduate from high school, but African-American and Hispanic students have a 55 percent or less chance of graduating from high school. If this measure passes, African-Americans and Hispanics will be hit the hardest. They have already been hit the hardest by this recession. And now we are throwing them out of their life boat!

Only 52 percent of students in the 50 largest cities in the United States graduate from high school. That rate is below the national high school graduation rate of 70 percent, and also falls short of the 60 percent average for urban districts across the Nation.

Over his or her lifetime, a high school dropout earns, on average, about \$260,000 less than a high school graduate, and about \$1 million less than a college graduate.

However, I vehemently disagree with how to address increasing the skills of our workforce. I do not believe we should blame those who for a variety of reasons were not able to attain a high school diploma or GED. We should not punish them by excluding them from benefits that they have earned! We should be focused on programs to encourage and retrain our workforce. Programs like those offered by organizations like the National Urban League.

#### DRUG TESTING REQUIREMENT FOR UNEMPLOYMENT INSURANCE

To make matters worse, this message also allows states to require drug testing as a condition of receiving unemployment insurance, a condition that is highly controversial and possibly unconstitutional when imposed on all applicants or recipients.

This is an additional stigma to the jobless. It implies that all they are doing are sitting around the house doing drugs. It is part of a systematic strategy of blaming the jobless for their predicament rather than focusing on building the economy so that there are more jobs for which they can apply. This is demeaning, demoralizing, and not how hard working Americans who have lost their jobs should be treated.

Republicans have not cited any data suggesting that drug use contributes to joblessness or that there is an elevated rate of drug abuse among the unemployed.

We must act now to extend unemployment insurance and remove these dastardly provisions that do nothing more than insult the integrity of the jobless. We have 17 days to act.

On Dec. 31, federal unemployment insurance benefits are set to expire, which means nearly 2 million will be cut off from unemployment insurance early next year if Congress doesn't act within the next 19 days. We must heed the immediate needs of their constituents who are worried about how they will meet their basic needs if they can't find a job and lose their unemployment insurance, and they should pass a clean bill that extends unemployment insurance and the payroll tax cut, vital lifelines for families struggling in this tough economy.

Under current law, states are not allowed to deny workers unemployment insurance for reasons other than on-the-job misconduct, fraud or earning too much money from part-time work.

Currently, 9.8 million people are receiving unemployment insurance in some form. In addition, an estimated 4.4 million families are receiving assistance through the Temporary Assistance for Needy Families program. Millions more get other kinds of aid.

The drug testing requirement is burdensome and onerous. Under current federal law an individual can not be required to pay for their own drug test. No funds have been extended to pay for drug testing. States that require drug tests will have to utilize administrative funds.

Testing costs around \$25.00, there are currently 15 million people going through the system, as unemployment is granted in weekly increments this could result in millions of tests being taken a week at an astronomical cost to the state.

States will have to pay to process an additional 15 million urine samples if drug testing for unemployment insurance is required.

Unemployment is at its highest in twenty-five years, the economy is in a downward spiral, millions of people are just getting by and government wants to further degrade them. There is no evidence to support that this requirement is effective. There is no evidence to support that the average person who applies for UI is an illegal drug user. The inference that those who need this benefit must be screened for drugs is offensive. Hardworking Americans are depending on a benefit they worked to attain.

#### UNEMPLOYMENT INSURANCE HELPS THE ECONOMY

A study was conducted the research firm IMPAQ International and the Urban Institute found Unemployment Insurance benefits:

Reduced the fall in GDP by 18.3%. This resulted in nominal GDP being \$175 billion higher in 2009 than it would have been without unemployment insurance benefits.

In total, unemployment insurance kept GDP \$315 billion higher from the start of the recession through the second quarter of 2010; kept an average of 1.6 million Americans on the job in each quarter: at the low point of the recession, 1.8 million job losses were averted by UI benefits, lowering the unemployment rate by approximately 1.2 percentage points; made an even more positive impact than in previous recessions, thanks to the aggressive, bipartisan effort to expand unemployment insurance benefits and increase eligibility during both the Bush and Obama Administrations. "There is reason to believe," said the study, "that for this particular recession, the UI program provided stronger stabilization of real output than

in many past recessions because extended benefits responded strongly."

For every dollar spent on unemployment insurance, this study found an increase in economic activity of two dollars.

According to the Economic Policy Institute that extending unemployment benefits could prevent the loss of over 500,000 jobs.

If Congress fails to act before the end of the year, Americans who have lost their jobs through no fault of their own will begin losing their unemployment benefits in January. By mid-February, 2.1 million will have their benefits cut off, and by the end of 2012 over 6 million will lose their unemployment benefits.

Congress has never allowed emergency unemployment benefits to expire when the unemployment rate is anywhere close to its current level of 9.1 percent.

Republicans seem to want to blame the unemployed for unemployment. But the truth is there are over four unemployed workers for every available job, and there are nearly 7 million fewer jobs in the economy today compared to when the recession started in December 2007.

The legislation introduced today would continue the current Federal unemployment programs through next year.

This extension not only will help the unemployed, but it also will promote economic recovery. The Congressional Budget Office has declared that unemployment benefits are "both timely and cost-effective in spurring economic activity and employment." The Economic Policy Institute has estimated that preventing UI benefits from expiring could prevent the loss of over 500,000 jobs.

In addition to continuing the Federal unemployment insurance programs for one year, the bill would provide some immediate assistance to States grappling with insolvency problems within their own UI programs.

The legislation would relieve insolvent States from interest payments on Federal loans for one year and place a one-year moratorium on higher Federal unemployment taxes that are imposed on employers in States with outstanding loans.

According to preliminary estimates, these solvency provisions will stop \$5 billion in tax hikes on employers in nearly two dozen States, as well as provide \$1.5 billion in interest relief. The legislation also provides a solvency bonus to those States not borrowing from the Federal government.

We must extend unemployment compensation. This will send a message to the nation's unemployed, that this Congress is dedicated to helping those trying to help themselves.

Until the economy begins to create more jobs at a much faster pace, and the various stimulus programs continue to accelerate project activity in local communities, we cannot sit idly and ignore the unemployed.

We cannot now, or ever, allow partisan politics to keep us from addressing the needs of American families, the unemployed and seniors. I encourage my colleagues on the other side of the aisle to drop these harmful policy riders.

Mr. DAVIS of Illinois. Mr. Speaker, I submit for your consideration opposition to drug testing and screening of unemployment insurance recipients and applicants as proposed in H.R.

3630 Middle Class Tax Relief and Job Creation Act of 2011. Never before has there been a greater need to ease the pain of millions of Americans attempting to make ends meet post economic/financial crisis and anemic jobs market. Daily, we are reminded of the rippling effects of these man-made disasters. Indeed, today's headline "America's Youngest Outcasts" shines the light on 1.6 million (one and 45 children) children homeless in 2010, a 38% spike from 2007. Yesterday's headline connected to dots and charted a direct correlation between the percentage of children living in poverty and unemployment rate. What will tomorrow's headline read with proposed unemployment insurance drug testing and screening?

Mandatory drug testing falls into the category of ill-conceived barriers. Implementing laws requiring mandatory "suspicionless" drug testing and screening for families is punitive and is not premised on any reasonable rationale. Such random testing is not only reckless and based on insidious stereotypes but mostly a costly and an inefficient way of identifying recipients in need of drug and substance abuse treatment. Additionally, imposing further sanctions on unemployment insurance recipients and applicants who've depleted savings or assets and at risk or in foreclosure will have harsh effects on children.

Our children's wellbeing is a measurement of our Nation's wellbeing. Lest anyone get carried away with the notion that unemployment insurance is a means of funding the purchase and usage of drugs, the fact is unemployment insurance promotes opportunity for the next generation.

The unrelenting partisan campaign to impose drug testing and screening requirements on the unemployed will be devastating. Beyond the toll on individuals, creating barriers to much needed unemployment insurance will have huge fiscal and social consequences. Congress can ill-afford to take a passive approach to helping millions of Americans waiting along the sidelines uncertain about employment opportunities. In these trying times we must hold fast to the words of James Madison, The Father of the Constitution, charging us to "promote the general Welfare. . . to ourselves and posterity." To do so otherwise is not only a disservice to our Constitution, but also a disservice to all Americans.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise to speak in opposition to H.R. 3630. I support the extension of the payroll tax holiday and Emergency Unemployment Compensation, but the current version forces us to make unfair, and unnecessary choices between those individuals in this country who are most in need.

This legislation would make drastic cuts to health care programs. If enacted, H.R. 3630 would cut over \$21 billion from Affordable Care Act programs, effectively increasing the number of uninsured Americans by 170,000. H.R. 3630 would also cut \$8 billion from the Prevention and Public Health Trust Fund, and over \$21 billion from Medicare provider rates. Mr. Speaker, as a registered nurse, I know that these cuts will fall largely on hospitals, and effectively cut off access to healthcare to the elderly, the sick, and the uninsured.

To suggest that this bill is an authentic attempt by the majority to resolve a lapse of

benefits that will occur if not extended is simply disingenuous. The majority has attached controversial provisions that have no chance of being considered by the Senate, and would be promptly vetoed by the President.

It was my hope to offer an amendment to H.R. 3630 that would address the increase we have seen in the number of children and others living in poverty. Unfortunately, my Republican colleagues have barred any amendments to this flawed piece of legislation.

Failure to extend these benefits will have immediate and drastic effects on American middle class families. We should not risk tax increases on these families, or cut off unemployment benefits for those out of work. I cannot support this bill as it is not consistent with American values.

Mr. CARNAHAN. Mr. Speaker, I rise in opposition to H.R. 3630, the Middle Class Tax Relief and Job Creation Act.

I apologize that I was not able to vote on the question of consideration of the resolution for the Rule on H.R. 3630. I was in an important meeting with constituents at the time the vote was called and was not able to make it to the capitol in time. Had I been available, I would have voted "no" on this resolution so the House could work on a serious proposal to extend the payroll tax holiday, unemployment insurance, and Medicare payments.

H.R. 3630 makes cuts to essential programs, such as education, healthcare, and energy and contains several poison pill policy riders unrelated to the crucial issues of payroll tax and unemployment insurance that make this bill a political stunt, not a legitimate policy proposal. This bill as currently constructed is not about tax cuts for the middle class or creating jobs, rather, it is about political ideologies and severing bi-partisan agreements.

H.R. 3630 will severely cut unemployment insurance and federal employee benefits at a time when our economy cannot afford the damage these cuts will inflict. We need to focus on cutting taxes for the middle class and closing loopholes so that big corporations and the ultra-rich pay their fair share.

Furthermore, H.R. 3630 includes cuts to hospitals which would devastate the patients and the communities these hospitals serve. Specifically, the plan calls for significant cuts to funding for hospital outpatient care and Medicare "bad debt" that helps hospitals care for low-income seniors. At the same time, the measure fails to include expiring provisions that help provide care in rural America. In my district in Saint Louis, hospitals are an important source of jobs, like many communities throughout America. I cannot support a bill that would surely lead to cut backs in not only services for our seniors, but also to cuts in jobs in my community.

I strongly oppose this legislation, and hope to work on a serious compromise that provides real relief for the middle class and creates jobs for Americans.

Mr. CONYERS. Mr. Speaker, I rise in opposition to H.R. 3630, an unacceptable, tone deaf response to the legitimate needs of the American people.

Unless Congress acts this month, millions of hardworking Americans—nearly 2 million in January alone and over 6 million in 2012—will

be cut off from the emergency lifeline provided by unemployment insurance. In my home State of Michigan, over 160,000 jobless Americans would be left adrift, without any way to weather the worst job market since the Great Depression.

Providing unemployment benefits during periods of economic crisis should be a no brainer. These benefits help keep the economy afloat and give job seekers the time necessary to find work in a tight job market. As such, previous Congresses have always come together to pass these benefits on a bipartisan and bicameral basis. In fact, since the unemployment insurance system was created, Congress has never cut back on federally-funded extended benefits when unemployment was over 7.2 percent.

Yet, this is exactly what this unacceptable proposal from the Republican Majority would do. H.R. 3630 would cut back the maximum weeks of unemployment benefits from 99 weeks to 59 weeks for current beneficiaries in Michigan. According to the National Employment Law Project, the proposed cuts could mean a loss of up to \$22 billion in economic activity next year and approximately 140,000 jobs lost nationally in 2012.

Additionally, the bill would add additional unnecessary restrictions on those seeking benefits. Applicants would be required to have a high school diploma, or use benefits to pay for the pursuit of a GED. It would also further humiliate those seeking unemployment benefits by requiring the unemployed to take drug tests in order to receive benefits. Insinuating that people are remaining unemployed because they're using illegal drugs is the height of ignorance and exemplifies how out of touch the Majority is when it comes to understanding the plight of Americans trying to survive the Great Recession. If anyone deserves to be drug tested, it's the Wall Street executives whose recklessness and irrational gambling problem caused the massive unemployment problem in the first place.

H.R. 3630 isn't a serious effort to extend these provisions. Instead, it's a package that's filled with riders and controversial cuts that won't pass the Senate. The bill includes language that would:

Create indefinite delay to standards that protect people's health from industrial boilers and incinerators, which would prevent up to 8,100 premature deaths, avoid 52,000 asthma attacks, and 5,100 heart attacks each year;

Short-circuit the review of the controversial Keystone XL Tar Sands Pipeline;

Make millions of seniors, some with incomes as low as \$80,000 a year, pay substantially more for their health care under Medicare—increasing the health care costs of these seniors by \$31 billion over 10 years;

Impose a pay freeze and benefit cuts that would take more than \$53 billion out of the pockets of federal workers;

Cut \$10.6 billion in Medicare "bad debt" payments, which help hospitals cover out of pocket costs that low-income seniors are unable to afford;

Cut \$6.8 billion for hospital outpatient payments for emergency room visits;

Cut \$4.1 billion to Medicaid DSH payments for hospitals that treat high numbers of uninsured patients; and

Relax restrictions on self-referral to physician owned hospitals, which would result in increased utilization of services and higher costs for the Medicare program.

The time is long past for partisan gamesmanship. In two short weeks, in addition to unemployment benefits running out, the taxes of middle class families in Michigan are scheduled to increase by \$1,800 and cuts in the reimbursements for doctors who participate in Medicare will kick in.

It is clear that the Majority needs to take a break from its war on the environment, seniors, and the uninsured and join with Democrats to create jobs and grow our economy.

Mrs. DAVIS of California. Mr. Speaker, it's nice to hear the House Majority finally talking about the importance of infrastructure jobs. They claim this bill will create thousands of jobs from one project—the Keystone Pipeline extension.

However, America has infrastructure needs in all corners of the nation and this bill ignores those needs.

In San Diego County, where my district sits, there has been a 3-percent loss in construction jobs dropping it to 226th out of 337 metro areas. This is according to a report just released by the Associated General Contractors of America.

And San Diego was not alone. The report noted that 145 other metro areas suffered losses in construction jobs.

The reason for this drop in jobs, you may ask? The contractors say it is because Congress is lagging in passing infrastructure and transportation bills.

Despite being touted as a jobs bill, H.R. 3630 fails to address other critical infrastructure projects to rebuild our schools, roads, and bridges.

Mr. Speaker, this House should be debating a real infrastructure bill that will provide needed jobs and meet our infrastructure needs.

Mr. DINGELL. Mr. Speaker, today I rise with disappointment over the legislative package put before us. As American families struggle to heat their homes, find jobs in their communities, and save for retirement or their children's education, my colleagues on the other side of the aisle are using this package to provide assistance to these families to insert controversial policy riders. Like all members of the U.S. House of Representatives, I agree that we must pass a sensible solution to fix the way providers are paid under Medicare, an unemployment extension, and tax relief for middle-class families, but I cannot in good conscience support H.R. 3630 as written.

Like my colleagues, I agree strongly that we must address the Sustainable Growth Rate, ensuring that our medical providers are paid sufficiently for the coverage they provide under Medicare. However, H.R. 3630 will address this problem for only the next two years, leaving us to once again deal with a massive payment cut—37 percent—in 2014. I believe strongly that we must come together and find a way to permanently address the way we pay our doctors rather than kicking the can down the road time after time. Further, I cannot stomach though the drastic cuts to our healthcare programs. H.R. 3630 will pay for these extenders by increasing Medicare premiums for some beneficiaries and increasing

the number of beneficiaries required to pay increased premiums. It also cuts over \$21 billion from Affordable Care Act programs, endangering the implementation of health reform, increasing the number of uninsured by 170,000 people, and breaking our promise to American families, seniors and children that they will have access to affordable health coverage.

In another act of blatant cynicism, my Republican colleagues seem to be blaming the recession on the unemployed by slashing their benefits. America's working families didn't cause our country's economic troubles, yet the Republicans seem bent on making them pay all the same. We're not out of this recession, and my friends on the other side of the aisle want us to swallow an unheard-of 40-week reduction in benefits for people struggling to make ends meet? As if that weren't enough, Republicans seek to ensure that state agencies can engage in all manner of bureaucratic rascality to deny the truly needy the benefits they must have to keep the heat on and put food on the table. This GOP strategy to keep America down so they can win elections next year sickens me. The people in Michigan are hurting badly and need more help, not less. The Republicans' solution to the economic woes of working men and women would do Ebenezer Scrooge proud.

The final nail in this legislative coffin is the decision by the Majority to roll back efforts to protect our environment. I believe it is important that the Clean Air Act's health-based and air quality standards be protected. The federal government has a system already in place to keep our air clean and maintain the health of our citizens and rather than dismantle this system, we must bolster it. I agree any solution to air pollution issues must represent an equitable balance among all affected industries and parties. The existing Clean Air Act is such a solution and before we take any steps to alter it, as the so-called "EPA Regulatory Relief Act" does, we need to know we have developed something much better to put in its place. In hearings on this and other bills to change the Clean Air Act, I've asked my colleagues to come up with real solutions but instead their only idea is to indefinitely postpone Clean Air requirements without any regard to air quality or health effects. As we work to improve our fragile economy, it is important that we support businesses so they can have the tools to create and maintain jobs and put Americans back to work. However, it is also important that we not cede ground in our efforts to keep our air clean; the health of our citizens is too important.

Mr. Speaker, this bill is yet another in a long list of partisan bills that my Republican colleagues have brought to the House floor with the knowledge and understanding that it is dead on arrival in the Senate. If Congress is to govern properly—by producing balanced plans to reduce our deficit, investing in our Nation's infrastructure, and creating jobs—then we must set aside the extreme ideological agenda and come together for a common cause. The American people want and need the federal government working to restore our economy, increase our competitiveness in the global marketplace, and provide American families with the opportunity to succeed. When this bill fails to move in the Senate, I hope my

Republican colleagues will realize that we cannot spend the rest of the 112th Congress legislating from the fringes of the political spectrum.

Mr. VAN HOLLEN. Mr. Speaker, I support extending the current payroll tax cut for 160 million working Americans. I support protecting the lifeline of unemployment insurance for those who remain out of work through no fault of their own. And I support fixing the broken Sustainable Growth Rate formula for physicians who participate in Medicare—which is precisely why I oppose this bill.

Everyone in this Chamber knows it won't pass the Senate. The President has said he won't sign it. In short, it has exactly zero chance of getting enacted into law.

Now, several weeks ago, that scenario sounded like it was actually the preferred outcome for a majority of my friends on the other side of the aisle. The Republican leadership stated that it opposed extending the payroll tax cut and unemployment insurance. If the Republican leadership has changed its mind and is now sincere about protecting the middle class, it's time to dispense with the posturing, throw out the poison pills, stop scapegoating the federal workforce and start seriously negotiating a package that can receive bicameral, bipartisan support.

Mr. GEORGE MILLER of California. Mr. Speaker, 1.1 million Californians stand to lose their unemployment benefits if Congress fails to do its job.

And the bill before us today is the perfect example of Congress failing to do its job—yet again.

Let's be clear what's going on here.

Republicans in Congress have opposed every effort by President Obama and Democrats in Congress to create more American jobs and to rescue our economy from the worst recession to since the Great Depression.

They even opposed extending the payroll tax cut that the President signed into law last year that expires at the end of this year. That tax cut is worth \$1,000 to the average American. If Congress does not extend the payroll tax cut, Congress will be increasing taxes on middle class workers by \$1,000.

Republicans in Congress have also opposed extending unemployment insurance for the millions of workers who have not been able to find work for no fault of their own.

First, they block efforts to create jobs. Then they oppose extending to them unemployment insurance.

Unbelievable.

Now, they are feeling enormous public pressure to extend the payroll tax cut and unemployment insurance benefits. Democrats would pay for the cost of the payroll tax cut for middle class workers by slightly increasing taxes on people who earn more than \$1 million per year.

Republicans refuse to increase taxes by any amount on people who earn more than \$1 million a year.

Instead, they propose paying for the payroll tax cut by cutting unemployment insurance benefits.

Unbelievable.

Their bill cuts 40 weeks of unemployment insurance benefits from people in my state of California, and in 20 other states as well.

We wouldn't need long-term unemployment insurance if Republicans were serious about solving America's economic problems, but they are not serious about solving problems. In fact, they refuse.

No new jobs under their watch.

No new taxes on people who earn more than \$1 million per year under their watch.

But, it's ok to cut unemployment benefits that help create jobs and keep food on middle class families' tables.

Now, to add to the indignity of it all, Republicans want to drug test those who lost their jobs through no fault of their own.

Have the Republicans in control of Congress forgotten how we got into this recession in the first place?

It was Wall Street that recklessly drove our nation's economy into the ditch. And millions lost their jobs because of it.

And the crisis persists in part because the majority refuses to do anything about it.

You'd think that the unemployed caused the job crisis.

The unemployed didn't sell toxic securities. They didn't sell trillions of dollars of phony credit default swaps. They didn't blow up the global economy.

No, that was Wall Street aided by lax oversight from Washington.

If the Republicans want to drug test people who get benefits from the federal government, I suggest they look at Wall Street bank executives who drove our economy into the ditch in the first place.

Congress should not demonize the unemployed who are desperate to get back to work. Unbelievable.

Mr. Speaker, Congress has a job to do. It is our responsibility to work together to help put Americans back to work, to ensure our tax policy is fair and balanced, and to make sure that Americans have unemployment insurance benefits to help carry them and their families through while they are looking for work.

This bill would cut unemployment benefits by 40 weeks for the unemployed in California and 20 other states, and then it would require drug tests for those who do get benefits. This bill should be rejected.

Mr. STARK. Mr. Speaker, I rise in strong opposition to H.R. 3630, which would be better entitled "the House Republicans' ultimate year-end wish list."

This Republican bill is an affront to senior citizens, middle class workers, and low-income families—at a time when Americans are enduring the toughest economy since the Great Depression.

As this bill details, Republicans would have seniors permanently pay increased Medicare premiums for just one year of a payroll tax cut for working Americans and a one-year gutted extension of unemployment insurance.

This bill is wrongheaded, it's heartless, and it's bad for our fragile economic recovery.

Republicans want one in four Medicare beneficiaries to start paying significantly higher Medicare premiums. If their proposal were fully in effect today it would hit people with \$40,000 in annual income—those aren't the rich.

They ignore the reality that wealthier seniors already pay more for Medicare benefits today—and they've also paid more in Medicare taxes during their working years. Republicans should be honest about their goal here.

This isn't to make the rich pay more, it is designed to undermine Medicare's guaranteed benefits for ALL of America's senior citizens and people with disabilities and get the government out of the business of guaranteeing health benefits.

Republicans have also tucked in a special interest giveaway that costs \$300 million. They would undo parts of the health reform law in order to give physician-owned hospitals more room to grow and to line their pockets. We already know these facilities have caused patient deaths and run up Medicare costs with unnecessary use of tests and procedures. This Republican handout is bad for Americans' health, but it's great for these special interest friends of the Republicans.

The Medicare provisions and giveaways are enough to oppose this legislation. Unfortunately, this bill is also a vehicle to attack working families and environmental protections.

This bill would eliminate 40 weeks of unemployment insurance benefits for workers in my state of California and many other states. Not only do House Republicans want to pull the rug out from unemployed people searching for work, they also want them to submit to the indignity of having to take a drug test to qualify for benefits. Not only are you out of a job, you are also a presumed drug user in the eyes of Republicans.

America may want to drug test House leaders for including terrible anti-environmental policy riders that are entirely unrelated to either tax cuts, unemployment insurance, or Medicare. In order to sweeten the pot for the more radical members of the Speaker's caucus, this legislation would block the EPA from reducing mercury pollution. It would also usurp Presidential authority and approve the Keystone tar sands pipeline without proper review.

We need to get down to the business of extending unemployment insurance, protecting seniors and preserving the middle class. This dangerous bill, once again, shows Republican's willingness to hang the middle class and senior citizens out to dry to further their special interest agenda.

Mr. WOLF. Mr. Speaker, while I support comprehensive tax reform, I do not support the flawed legislation presently before us. I have repeatedly said it is long past time to close tax loopholes, end the practice of tax earmarks and lower tax rates on American families and employers. I support a long-term "doc fix" to ensure that doctors continue to accept Medicare patients. I support the Keystone XL pipeline and efforts to reform unemployment insurance, all of which are included in this bill. However, these are not the central issues of the legislation we are considering today.

The issue today, as defined by both political parties and the president, is whether or not a temporary—and costly—one-year payroll tax "holiday" should expire at the end of the month. The real issue is whether it is responsible for Washington to further shortchange the Social Security Trust Fund at a time when it is already on an unsustainable path.

This "holiday" is a raid on Social Security, which is already going broke. Social Security is unique because it is paid for through a dedicated tax on workers who will receive future benefits. The money paid today funds benefits

for existing retirees, and ensures future benefits. Because you pay now, a future retiree will pay your benefits. That is why, until last year, this revenue stream was considered sacrosanct by both political parties.

Raw facts demonstrate that Social Security is on an unsustainable path. Today's medical breakthroughs were simply not envisioned when the system was created in 1935. For example, in 1950, the average American lived for 68 years and 16 workers supported one retiree. Today, the average life expectancy is 78 and three workers support one retiree. Three and a half million people received Social Security in 1950; 55 million receive it today. Every day since January 1, 2011, over 10,000 baby-boomers turned 65. This trend will continue every day for the next 19 years. Do these numbers sound sustainable to anyone?

I recently asked a group of McLean High School students and a group of young James Madison University alumni whether they believed that they would receive Social Security benefits when they retire. Not one hand was raised. Not a single one.

The Social Security Actuary has said that by 2037 the trust fund will be unable to pay full benefits. When this time is reached, everyone will receive an across the board cut of 22 percent, regardless of how much money they paid into the system.

Let me repeat. Under our current path, within 15 years all Social Security benefits will be cut by 22 percent.

Granting another tax holiday is unwise. It puts the existing benefits of those 55 million Americans who currently receive Social Security at risk to continue a failed "stimulus" policy.

Last December, when unemployment stood at 9.4 percent, the president touted the "holiday" as a one-year measure that would help cure our economic ills and would spur economic growth.

Yet here we are again. After spending most of the year above 9 percent, unemployment has dropped to 8.6 percent. But that belies the primary driver of this change: 315,000 Americans simply stopped looking for work. Nobody can say with a straight face that the payroll tax "holiday" has had a meaningful impact on the unemployment rate, nor would it if extended for another year.

Does it make sense that everyone, regardless of income, will get money from this "stimulus?" Does anyone think that Warren Buffet changed his buying habits as a result of this temporary suspension? Or General Electric's CEO, Jeffery Immelt, who is also head of President Obama's Council on Jobs and Competitiveness?

I opposed the legislation creating the Social Security tax "holiday" last year for similar reasons. I just cannot support an extension that further compromises the stability of the Social Security Trust Fund.

Real structural reforms are needed to stabilize Social Security. Past experience shows that Congress will spend the next 10 years figuring out how to spend the money designated as offsets for today's bill on other projects. It won't be used to pay for the bill. Knowing this, I cannot in good faith support a measure to raid the trust fund without comprehensive reform to the system.

The expiring payroll tax "holiday" is costing Americans \$112 billion. To pay for it, we are borrowing money from nations such as China, which is spying on us, where human rights are an afterthought, and Catholic bishops, Protestant ministers and Tibetan monks are jailed for practicing their faith, and oil-exporting countries such as Saudi Arabia, which funded the radical madrasahs on the Afghan-Pakistan border resulting in the rise of the Taliban and al Qaeda.

Our national debt is over \$15 trillion. It is projected to reach \$17 trillion next year and \$21 trillion in 2021. We have annual deficits of approximately \$1 trillion. We have unfunded obligations and liabilities of \$62 trillion.

We all know what needs to be done and that is why I have supported every serious effort to resolve this crisis, including the Bowles-Simpson recommendations, the Ryan Budget, the "Gang of Six," the "Cut, Cap and Balance" plan and the Budget Control Act.

I also was among the bipartisan group of 103 members of Congress who urged the supercommittee to "go big" and identify \$4 trillion in savings. I voted for the Balanced Budget Amendment to the Constitution, which would have established critical institutional reforms to ensure that the Federal Government lives within its means. In addition, since 2006, I have introduced my own bipartisan legislation, the SAFE Commission, multiple times.

While none of these solutions were perfect, they all took the necessary steps to rebuild and protect our economy. In order to solve this problem, everything must be on the table for consideration—all entitlement spending, all domestic discretionary spending, including defense spending, and tax reform, particularly changes to make the tax code more simple and fair and to end the practice of tax earmarks that cost hundreds of billions of dollars.

Because the extension of the payroll tax "holiday" is not part of a comprehensive tax and entitlement reform package, it ignores the bigger picture: everything must be on the table to enact sweeping reforms to right our fiscal ship of state.

Does anyone really think that this will only be a one-year extension? I suspect that at this time next year Congress will once again be considering another costly extension. And what will happen the year after that?

If past precedent holds, the 10-year price tag of this "holiday" will come to about \$1.2 trillion. The supercommittee was unable to agree to any deficit reduction plan, let alone their \$1.2 trillion goal. The consequences of this failure will be severe.

Air Force Chief of Staff General Norton Schwartz said that the coming across-the-board cuts to our defense capabilities, as a result of the supercommittee's failure, are akin to having major surgery performed by a plumber. The Commonwealth of Virginia will feel particular pain from these defense cuts. Bloomberg Government reported that Virginia is the number one recipient of defense spending.

How will the Congress pay for this extended tax cut and still make the needed cuts to our deficit and debt?

I feel as if Washington exists in a parallel universe. After months of passionately debating the importance of reducing the debt, the

president and Congress are now using all the “easy” and “quick” offsets to extend a one-year temporary tax break that’s barely, if at all, improved the economic indicators.

Senator TOM COBURN recently said that “the question the American people ought to ask is where is the backbone in Washington to actually pay for these extensions in the year the money’s spent.” I think it’s clear that the backbone doesn’t exist.

Leadership starts at the top, and the president has repeatedly failed to address our Nation’s deficit. Earlier this month, the president drew a line in the sand and said Congress shouldn’t go home until the payroll holiday is extended.

He has not drawn that line for the doc fix, which is necessary to ensure that doctors will accept Medicare patients.

He has not done that for unemployment benefits.

He has done the opposite on the Keystone XL pipeline, postponing the decision for yet another year, until after the next election.

Above all, he has not drawn a line in the sand for a comprehensive deficit reduction plan. In fact, he has spent most of the year running from serious deficit reduction efforts, including the one proposed by his own fiscal commission. He has not proposed significant changes to entitlement programs or embraced comprehensive tax reform.

We need look no further than the riots in Europe to see the destructive impact that results from the crushing reality of a government unable to deliver promised entitlements to its citizens. There have been riots in Belgium, Spain, France, Ireland, England, Italy, Latvia, and Greece. And yet we are considering a proposal that moves us closer to Europe’s instability.

Instead of using these bipartisan offsets to pay down our deficit, we’re increasing spending and using these offsets to maintain our unacceptable levels of debt. The American people should be deeply troubled that Congress and the president cannot find any bipartisan agreement to save our country, but they can still come together to increase spending and shortchange Social Security. There is something fundamentally wrong with this picture.

Compounding my belief that the tax “holiday” will not be fully paid for, I do not agree with some of the offset measures that have been included, absent comprehensive reform.

Some would have the one-year tax “holiday” financed through a long-term, structural attack on federal employees. Federal employees work side-by-side on the front lines with our military personnel fighting the Global War on Terror in locations such as Iraq and Afghanistan. They put their lives at risk daily to defend our national interests.

The first American killed in Afghanistan, Mike Spann, was a CIA agent and a constituent from my congressional district. CIA, FBI, DEA agents, and State Department employees are serving side-by-side with our military in the fight against the Taliban. Border Patrol and Immigration and Customs Enforcement agents are working to stop the flow of illegal immigrants and drugs across our borders.

The medical researchers at NIH working to develop cures for cancer, diabetes, Alz-

heimer’s and autism are all dedicated federal employees. Dr. Francis Collins, the physician who mapped the human genome and serves as director of the National Institutes of Health, is a federal employee.

The National Weather Service meteorologist, who tracks hurricanes, and the FDA inspector working to stop a salmonella outbreak, are federal employees. The ATF agents who were in Blacksburg immediately following last week’s shooting are federal employees. These are but a few examples of the vital jobs performed by federal employees.

We can’t balance the budget through discretionary cuts alone. We have to address the spiraling costs of entitlements, because, to paraphrase the infamous bank robber Willie Sutton, that’s where the money is. If you care about cancer research, if you care about national defense, if you care about road improvements or if you care about the poor, you should care about entitlement reform. We must reform these programs to preserve them for future generations. Otherwise, they will be made unrecognizable through forced, significant cuts or eliminated altogether.

Last December, the leaders of the president’s bipartisan fiscal commission, Erskine Bowles and former Senator Alan Simpson, wrote to the president and leaders of Congress, “Our growing national debt poses a dire threat to this nation’s future. Ever since the economic downturn, Americans have had to make tough choices about how to make ends meet. Now it’s time for leaders in Washington to do the same.”

Mr. Speaker, I cannot support this measure and will vote “no” as I did last December. Let’s put these offsets towards real deficit reduction and move forward with serious efforts to deal with our unsustainable spending.

Ms. FUDGE. Mr. Speaker, I rise today to strongly oppose this rule and the underlying bill. H.R. 3630 allows States to fund reemployment programs with money that would otherwise be in the pockets of the unemployed.

My amendment mandates transparency and accountability. It requires States to make public the amount of money taken from the checks of unemployed Americans.

This is not the time to divert funds away from those most in need in order to fund reemployment programs. Let me be clear, it’s not that I am against reemployment programs.

But those who are unemployed need every dollar. And at a time when our economy is starting to recover, we need the unemployed to remain consumers. Every dollar of unemployment payments generates up to one dollar and ninety cents in economic growth.

I mentioned Karen from Cleveland on the House floor last week. Karen was laid off in March. Her unemployment check is allowing her to pay her mortgage and buy prescriptions she needs to maintain her health. She has completely used up her savings.

If Karen’s check were to decrease, or disappear, the consequences would be devastating.

Karen, like millions of Americans, depends on unemployment insurance to stay in their homes, and buy needed medicine. It will create an endless cycle of medical bills and homeless shelters.

For all the unemployed mothers who provide for their children. For unemployed seniors

who are not quite old enough for Social Security.

For all the unemployed Americans, whose funds are low and debts are high, trying to keep their lives together as they navigate the most difficult time period since the Great Depression.

Let’s cut the partisan posturing and extend unemployment insurance without unnecessary riders.

Mr. MCKINLEY. Mr. Speaker, I voted to protect the Social Security Trust Fund by opposing H.R. 3630 and would like to take this opportunity to discuss my decision. This bill was a patchwork of many policies that were thrown together at the last hour and created a flawed piece of legislation that I could not support.

Primarily, the corner stone of this legislation—the extension of the payroll tax reduction—did not create jobs for the last year it has been in effect. Over the past five months, I have been vocal in my opposition to the President’s unproductive plan. Since, I do support a long-term “doc fix” to ensure that doctors continue to accept Medicare patients, I do not support the \$17 billion cut from hospital payments, including those that are essential to help hospitals care for low-income Medicare patients. I do support the Keystone XL pipeline and efforts to reform unemployment insurance; however, these were not the central issues of the legislation we considered yesterday.

Over the last several days, I have conducted numerous town hall-like meetings to discuss this legislation with constituents. As a result of these conversations with everyday West Virginians, it was apparent to me that breaking from both President Obama and even my own party on this bill was the right thing to do.

Washington just doesn’t get it. This tax cut has been in effect for the last year and it clearly did not improve the economy. And at what cost? For the second year in a row, this bill would take another \$180 billion from Social Security with a promise to be paid back over the years, all to give the average West Virginia worker an extra \$30 in his or her paycheck every two weeks. That’s not a jobs plan—it’s a re-election plan. We have seen these same unsuccessful economic plans for the past three years, and for those three years they have failed miserably. Does it make sense to continue to make choices that we know from experience do not work?

I will concede that after spending most of this past year above 9 percent, unemployment has dropped to 8.6 percent. But the primary driver of this change is simply that 315,000 Americans simply stopped looking for work. Also, at this time of year, the retail industry increases their staff by almost 50 percent; those people will be back on unemployment benefits in February. Nobody can say that the payroll tax “holiday” has had a meaningful impact on the unemployment rate thus far, nor will it likely prove beneficial if extended for another year.

We’ve all been told that Social Security’s finances are in trouble, yet President Obama’s plan makes the situation worse. We cannot continue to send mixed messages to senior citizens and current workers. They need to be able to trust that Social Security will be there

for them. If we do not stop extending this payroll tax cut, then Social Security will cease to be a guarantee and instead become another typical government program reliant entirely on politicians' whims.

That's not fair for our seniors or current workers who are currently paying into Social Security. So the question becomes, if not now, when we will stop raiding Social Security?

H.R. 3630 is just another temporary tax reduction that only produces more uncertainty for employers and fails to protect our seniors. Real structural reforms are needed to stabilize Social Security. Past experience shows that Congress will spend the next 10 years figuring out how to spend the money designated as offsets for today's bill on other projects. It won't be used to pay for the bill; I could not in good faith support a measure that will raid the trust fund without comprehensive reform to the system.

As Andrew Biggs, a resident scholar at the American Enterprise Institute, said, "People don't generally respond well to temporary tax cuts so it's unlikely you're going to see a strong economic response." House Budget Committee Chairman PAUL RYAN has likened the payroll tax cut to "sugar-high economics." And Chris Edwards, a tax scholar at the Cato Institute, said that the president's plan "is based on faulty Keynesian theories and misplaced confidence in the government's ability to micromanage short-run growth." Perpetuating the president's failed economic policies, especially if we have to rob Social Security to do it, has to stop.

Additionally, the reductions in federal reimbursements to hospitals that are contained in this legislation are not acceptable. Hospitals in northern West Virginia are already being paid at some of the lowest Medicare rates in the country; we should not be making it even harder for the hospitals to provide quality healthcare to our seniors.

Again, since this bill was loaded up at the last minute with several items which I have already strongly supported throughout this Congress—including jumpstarting the Keystone Pipeline, relaxing EPA regulations on boilers, extending and reforming unemployment benefits and other government programs, and preventing a scheduled 27% cut to doctors' Medicare reimbursement rates—it is simply unacceptable to continue the president's misguided economic theories at seniors' expense.

This bill has a long way to go despite the short timeframe in which Congress is operating, and if significant changes are made, it may be worth another look. But I came to Washington to get something done, create jobs, and restore common sense to the process. Unfortunately this particular bill fails that test.

Mr. GENE GREEN of Texas. Mr. Speaker, during this Season of Giving, when our nation should be reflecting on the need of friends and neighbors who are out of work and struggling to provide for their loved ones, this chamber will vote today to cut unemployment benefits for one million of our fellow Americans.

The House Majority's bill, H.R. 3630, would eliminate several tiers of benefits, created under the Emergency Unemployment Compensation program, which has provided up to 99 weeks of support for those who lost their jobs through no fault of their own.

If this legislation becomes law, the maximum potential unemployment benefit will fall to 59 weeks.

This legislation would also allow states, many of which are struggling to balance their budgets, to reduce the average weekly amount available to beneficiaries.

I am strongly opposed to any reduction in emergency unemployment insurance.

This Congress cannot and must not adjourn for the holidays and go home to tell our unemployed neighbors that the richest country on earth cannot find a place in their heart to help them in their time of need.

Mr. Speaker, unfortunately I am not able to support H.R. 3630 even though I am a strong supporter of moving the Keystone XL Project along and would support the language included in this bill if considered separately.

The Keystone XL project makes both energy and economic sense for our country, and I hope that the Administration could find a way to allow for construction to commence in some of the states while simultaneously revisiting the route in Nebraska.

I urge my colleagues to stand in support of the millions of our fellow Americans struggling to find work and to oppose this legislation.

Mr. KINGSTON. Mr. Speaker, I rise today in support of the language included in this bill that would remove current barriers for states to strengthen the unemployment program through optional drug testing. The purpose of the unemployment insurance program is to be a safety net, a bridge to reemployment. However, when beneficiaries choose to abuse illegal drugs they are no longer at their competitive best within the jobs market.

That is why I have proposed legislation, H.R. 3601 the "Ensuring Quality in the Unemployment Insurance Program (EQUIP) Act," that would require screenings for applicants of unemployment insurance. Applicants would be screened using a non-invasive questionnaire that has a 94 percent accuracy rate. If identified as likely to use drugs, an applicant for unemployment would be required to pass a drug test as a condition of benefits. This non-invasive practice has been upheld by state courts in New Jersey, Texas and Indiana. A federal court in West Virginia upheld that state's practice of screening applicants for Social Security Disability Insurance.

The screening would not increase federal spending. The estimated cost is \$12 per person. This would be more than offset by reducing the \$7.5 billion budget for the controversial Independent Payment Advisory Board (IPAB) and Consumers Operated and Oriented Plan (CO-OPs), which was established to ration health care expenditures.

At one of the several listening sessions I had with business owners earlier this year, I had an employer tell me of an overwhelming response for job openings. There was just one problem: half the people who applied could not even pass a drug test. Another told me about an employee they had to temporarily lay off when times were tight. A month later when he contacted his former employee to offer him a new position, he declined because unemployment was paying the bills. With our budget woes of more than \$15 trillion in debt, how can we justify using unemployment insurance to pay someone not to work when they have

voluntarily taken themselves out of the hiring pool? That is what we are doing when someone on unemployment is using drugs.

Under the current system, workers can earn up to 26 weeks through employer contribution but are eligible for 99 weeks of benefits under current law. Your tax dollars make up the difference. Maximizing efficiency and effectiveness of programs like unemployment insurance has to be our society's goal.

Drug screening beneficiaries incentivizes individuals to not abuse drugs, which would otherwise render them unfit to be employed. Some have said this proposal asks too much of those who have lost their jobs, but asking someone who is unemployed to do his or her part by staying eligible to work is common sense, not draconian.

I look forward to working with the Committee on this proposal and a hearing in the spring.

Ms. RICHARDSON. Mr. Speaker, I rise today in strong opposition to H.R. 3630, the GOP Tax Extenders Package. This bill does nothing to create jobs, support the middle class or stimulate our economy. Instead, the Republicans have decided to play politics at the expense of ninety-nine percent of American families.

As we wrap up this year's legislative business, individuals receiving unemployment insurance benefits, physicians anxiously awaiting certainty that they will be adequately reimbursed for treatment they deliver to Medicare patients and millions of middle class families facing a tax increase are depending on us to put politics aside and act responsibly. Unfortunately, the GOP Tax Extenders Package is mere political theater that takes an irresponsible approach to solving these issues.

Mr. Speaker, President Obama called on Congress to extend the payroll tax deduction in order to save working Americans an average of \$1,500 over the next year. If Congress does not act by the end of the year, American families making an average of \$50,000 per year will see their taxes raised \$1,000. At a time when the average American is struggling to make ends meet, it is essential that we extend the payroll tax cut to ensure that middle class American families can spend the money they've earned. Lowering the rate Americans contribute to Social Security out of their paychecks will help stimulate consumer spending, create jobs and revive our economy.

While the Republican bill we are considering today extends the current payroll tax cut by two percent and addresses the SGR "doc fix" for two years, there are a number of ideological poison pills attached to this bill that simply make this measure unacceptable. First, the bill cuts Medicare provider rates by over \$21 billion and significantly increases the number of Medicare beneficiaries required to pay higher premiums for services they need.

Second, the bill would cut over \$21 billion from Affordable Care Act programs, which will increase the ranks of the uninsured by 170,000 Americans. Although we are making progress in ensuring that more Americans have access to quality and affordable health insurance plans, the Republicans are recklessly attempting to roll back provisions of the Affordable Care Act that have proven successful at increasing access to healthcare. The

Prevention and Public Health Trust Fund, an essential piece of the Affordable Care Act tasked with promoting healthy lifestyles and prevention treatment to keep Americans healthy, would suffer a deleterious \$8 billion cut.

Further, this bill would roll back the amount of time benefits are provided to recipients of emergency unemployment compensation. The current program allows beneficiaries to receive unemployment compensation for up to 99 weeks; however, the Republican Tax Extenders Package would lower that amount of time to 59 weeks. As we are all aware, the current job market is extraordinarily bleak. With the unemployment level in my district hovering around twenty percent, shortening the length of time benefits are provided would have a devastating impact on those who rely on unemployment compensation as their main source of income.

Mr. Speaker, cutting back emergency unemployment compensation from 99 to 59 weeks hurts the most vulnerable members of our society. That is why I submitted an amendment to this legislation that would extend current unemployment benefits for 2012, if the implementation of subtitle B of title II is found to have a disproportionately adverse effect on workers aged 55 and older by the Secretary of Labor. Had my amendment been made in order and adopted, it would have provided much needed relief to job-seeking seniors in this tough economic environment.

Time is running out. Republican brinksmanship on must-pass legislation continues to damage job creation and create uncertainty for businesses and the markets. In their Pledge to America, House Republicans promised to focus on jobs and keep extraneous and controversial provisions out of must-pass legislation. This bill is yet another example of their broken promises to the American people.

For all these reasons I cannot support H.R. 3630, and I urge my colleagues to join me in voting against this bill.

Mrs. MALONEY. Mr. Speaker, the House Republican Majority has done nothing to create jobs during the first session of the 112th Congress and now they're adding further injustice by hurting the millions of Americans who have lost their jobs through no fault of their own. The Republican unemployment insurance proposal would cut in half the total number of weeks of benefits provided, harm those States with the highest rates of prolonged unemployment, and allow unemployment funds to be used for other purposes.

If Congress does not act on an extension of unemployment benefits, more than one million Americans could lose their unemployment benefits next year. This is compounded by the Economic Policy Institute's findings that the drop in consumer demand resulting from expired unemployment benefits would cost the U.S. economy more than half a million jobs. This is unacceptable. According to the Congressional Budget Office providing federal unemployment benefits is one of the most effective ways to help boost the economy—in fact, for every dollar of benefits, nearly \$2 in economic growth goes into the surrounding community. We should be working to support American families instead of causing more damage.

This bill should be about extending tax incentives and not pushing through the Majority's anti-environment agenda. This legislation includes a provision that bypasses the Keystone XL pipeline environmental review process by requiring the President to make a decision whether to approve the project within 60 days, even though a final route has not yet been proposed. It is responsible and critical that the Administration complete a proper assessment of the health risks and potential toxic contamination to the surrounding communities posed by the pipeline. Any effort to rush this process and compel a decision before a thorough review should not stand.

The Majority also is attempting to block air quality standards that have been thoroughly reviewed. The EPA is more than a decade late on issuing emissions standards requiring incinerators and boilers to reduce toxic air pollutants. While this would impact less than 1 percent of all boilers in the U.S., the Republican Majority is again attempting to nullify and delay the discharge limits. The pollutants from these emissions are linked to asthma, cancer, and heart disease, with the EPA estimating that the pollution reductions required by the rules would prevent up to 8,100 premature deaths, 52,000 asthma attacks, and 5,100 heart attacks each year and yield \$12 to \$30 in health benefits for every dollar spent to meet the standards. Such controversial provisions as the pipeline and the emissions standards have no place in tax legislation.

The issue of spectrum allocation should not be pushed through at the end of this session. While H.R. 3630 grants the Federal Communications Commission the authority to conduct incentive auctions, it does not ensure proper oversight of the process. This is especially concerning as it relates to the public safety network. In the immediate aftermath of September 11th the importance of a strong and consistent public safety network was clear—first responders and emergency workers must be able to communicate in emergency and disaster situations. There is an insufficient amount of funds to research, build, and develop the public safety communications network as well as no requirement that the network providing for effective governance and national operability.

Finally, while I wholeheartedly believe that we must fix the Medicare Sustainable Growth Rate Physician payment formula (or "doc fix"), we cannot do it on the backs of the hospitals. This bill would cut Medicare hospital outpatient reimbursement rates to equalize them with rates for services provided in physician offices. The proposal is misguided because it ignores the significant differences in cost structures between hospitals and physician offices, including the added costs hospitals incur for caring for the uninsured. All of these cuts are on top of \$155 billion in hospitals cuts from the Affordable Care Act (ACA) and more than \$40 billion in cuts just created by sequestration. Hospitals simply cannot sustain these cuts and patient care will suffer if they are forced to do so.

Ms. MCCOLLUM. Mr. Speaker, I rise today in opposition to the so-called Middle Class Tax Relief and Job Creation Act (H.R. 3630). The title of this bill is misleading at best. H.R. 3630 does not create jobs or relieve the struggles of

the middle class. Instead, it drastically reduces federal benefits for the unemployed and slashes health care funding by over \$17 billion. Moreover, it contains highly partisan and controversial policy riders that would have no chance of becoming law if considered under regular order.

Let me be clear. Congress must extend the payroll tax cut and offset the extension responsibly. Federal unemployment benefits, in their current form, must be extended before the end of the year. We must prevent a 27.4 percent cut to Medicare physician payments that jeopardize seniors' access to necessary health services. Action is urgently needed to address these issues. However, the House Republican proposal before us today unjustly places the burden of paying for these fixes on those in our society who can least afford it: the unemployed, low-income families, and seniors.

In this bill, House Republicans cut the weeks of unemployment insurance by more than half: from 99 to 59 weeks. Over 43,000 out-of-work Minnesotans will lose unemployment insurance as a result of this change. This is economically counter-productive and morally wrong. This provision will do real harm to Minnesota families and undermine our fragile economic recovery. The result of this cut would be more foreclosures, more repossessions, more homelessness and more anguish for struggling mothers, fathers and children.

Remarkably, my Republican colleagues are heaping insult on this injury by inserting a provision to allow drug testing of applicants for unemployment insurance. Notably, this provision does not apply to the millions of Americans who receive federal funding through other programs and tax benefits. With this ridiculous provision, Republicans are telling millions of unemployed Americans they are untrustworthy and irresponsible. Republicans are choosing to waste taxpayer funds on a big-government drug testing program instead of providing much-needed support to families struggling with unemployment. I could not disagree more with the shameful priorities expressed through the inclusion of this provision.

H.R. 3630 also cuts more than \$17 billion in federal funding from hospitals and health providers. This cut will reduce reimbursements for outpatient services, cut payments for unpaid health care debts, shrink the prevention and public health fund, and impose an increase in Medicare Part B premiums for certain beneficiaries. These cuts threaten to restrict access of low-income Minnesotans and seniors to needed health care services.

The House Republican majority had other options for offsetting the costs of H.R. 3630. Among those options was a small and temporary increase on the amount of taxes paid by those Americans least affected by the Great Recession. House Democrats will attempt to improve H.R. 3630 today during floor debate by replacing cuts to health care and unemployment insurance with a 3.6 percent surcharge on incomes over \$1 million a year. At a time when income inequality in America is at an all-time high, this is a necessary step to restore economic fairness and opportunity. I will support this motion when it comes to a vote this afternoon.

This Democratic motion is also important because it includes language requiring Members of Congress to publicly disclose their personal trading activity in the stock market. Increasing transparency to prevent Members of Congress from inappropriately profiting from insider knowledge is a common-sense reform that should be immediately enacted. If these improvements to H. R. 3630 are not included, I urge my colleagues to join me in opposing the legislation.

This bill is likely to be a missed opportunity for true compromise. It does important things, such as extending the payroll tax cut for 160 million Americans and preventing a 27.4 percent cut to Minnesota physician reimbursements with a two-year fix. In addition, it extends the physician work geographic adjustment, which ensures Minnesota providers are not additionally penalized by the Medicare payment system. Yet, the decision to pay for these measures with cuts to seniors, low-income families and unemployed Americans was entirely avoidable and thus, completely unacceptable.

The SPEAKER pro tempore. All time for debate on the bill has expired.

Pursuant to House Resolution 491, the previous question is ordered on the bill, as amended.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

#### MOTION TO RECOMMIT

Mr. VAN HOLLEN. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. VAN HOLLEN. Yes, I am.

Mr. CAMP. Mr. Speaker, I reserve a point of order.

The SPEAKER pro tempore. A point of order is reserved.

The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Van Hollen moves to recommit the bill, H.R. 3630, to the Committee on Ways and Means, with instructions to report the same back to the House forthwith, with the following amendment:

Add at the end of the bill the following:

#### TITLE VII—ADDITIONAL PROVISIONS

##### SEC. 701. EXTENSION AND EXPANSION OF PAYROLL TAX CUT FOR MIDDLE CLASS FAMILIES.

(a) EXTENSION.—For provision extending the payroll tax cut for middle class families, see section 2001.

(b) INCREASED RELIEF.—

(1) IN GENERAL.—Subsection (a) of section 601 of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (26 U.S.C. 1401 note) is amended—

(A) by inserting “(9.3 percent for calendar year 2012)” after “10.40 percent” in paragraph (1), and

(B) in paragraph (2)—

(i) by striking “(including)” and inserting “(3.1 percent in the case of calendar year 2012), including” after “4.2 percent”, and

(ii) by striking “(Code)” and inserting “(Code)”.

(2) COORDINATION WITH INDIVIDUAL DEDUCTION FOR EMPLOYMENT TAXES.—Subparagraph

(A) of section 601(b)(2) of such Act is amended by inserting “(66.67 percent for taxable years which begin in 2012)” after “59.6 percent”.

(c) TECHNICAL AMENDMENTS.—Paragraph (2) of section 601(b) of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (26 U.S.C. 1401 note) is amended—

(1) by inserting “of such Code” after “164(f)”,

(2) by inserting “of such Code” after “1401(a)” in subparagraph (A), and

(3) by inserting “of such Code” after “1401(b)” in subparagraph (B).

##### SEC. 702. EXTENDING THE ALLOWANCE FOR BONUS DEPRECIATION FOR CERTAIN BUSINESS ASSETS.

For provision extending the allowance for bonus depreciation for certain business assets, see section 1201.

##### SEC. 703. PREVENTING A REDUCTION IN PAYMENTS TO DOCTORS.

For provision preventing a reduction in payments to doctors, see section 2201.

##### SEC. 704. ENSURING THAT MILLIONAIRES PAY THEIR FAIR SHARE.

(a) IN GENERAL.—Subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new part:

#### “PART VIII—SURTAX ON MILLIONAIRES

“Sec. 59B. Surtax on millionaires.

##### “SEC. 59B. SURTAX ON MILLIONAIRES.

“(a) GENERAL RULE.—In the case of a taxpayer other than a corporation for any taxable year beginning after 2011 and before 2021, there is hereby imposed (in addition to any other tax imposed by this subtitle) a tax equal to 3.6 percent of so much of the modified adjusted gross income of the taxpayer for such taxable year as exceeds the threshold amount.

“(b) THRESHOLD AMOUNT.—For purposes of this section—

“(1) IN GENERAL.—The threshold amount is \$1,000,000.

“(2) INFLATION ADJUSTMENT.—

“(A) IN GENERAL.—In the case of any taxable year beginning after 2012, the \$1,000,000 amount under paragraph (1) shall be increased by an amount equal to—

“(i) such dollar amount, multiplied by

“(ii) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined by substituting ‘calendar year 2011’ for ‘calendar year 1992’ in subparagraph (B) thereof.

“(B) ROUNDING.—If any amount as adjusted under paragraph (1) is not a multiple of \$10,000, such amount shall be rounded to the next highest multiple of \$10,000.

“(3) MARRIED FILING SEPARATELY.—In the case of a married individual filing separately for any taxable year, the threshold amount shall be one-half of the amount otherwise in effect under this subsection for the taxable year.

“(c) MODIFIED ADJUSTED GROSS INCOME.—For purposes of this section, the term ‘modified adjusted gross income’ means adjusted gross income reduced by any deduction (not taken into account in determining adjusted gross income) allowed for investment interest (as defined in section 163(d)). In the case of an estate or trust, adjusted gross income shall be determined as provided in section 67(e).

“(d) SPECIAL RULES.—

“(1) NONRESIDENT ALIEN.—In the case of a nonresident alien individual, only amounts taken into account in connection with the

tax imposed under section 871(b) shall be taken into account under this section.

“(2) CITIZENS AND RESIDENTS LIVING ABROAD.—The dollar amount in effect under subsection (b) shall be decreased by the excess of—

“(A) the amounts excluded from the taxpayer’s gross income under section 911, over

“(B) the amounts of any deductions or exclusions disallowed under section 911(d)(6) with respect to the amounts described in subparagraph (A).

“(3) CHARITABLE TRUSTS.—Subsection (a) shall not apply to a trust all the unexpired interests in which are devoted to one or more of the purposes described in section 170(c)(2)(B).

“(4) NOT TREATED AS TAX IMPOSED BY THIS CHAPTER FOR CERTAIN PURPOSES.—The tax imposed under this section shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.”.

(b) CLERICAL AMENDMENT.—The table of parts for subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new item:

“PART VIII. SURTAX ON MILLIONAIRES.”.

(c) SECTION 15 NOT TO APPLY.—The amendment made by subsection (a) shall not be treated as a change in a rate of tax for purposes of section 15 of the Internal Revenue Code of 1986.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2011.

##### SEC. 705. PREVENTING INSIDER TRADING BY MEMBERS OF CONGRESS.

(a) NONPUBLIC INFORMATION RELATING TO CONGRESS AND OTHER FEDERAL EMPLOYEES.—

(1) COMMODITIES TRANSACTIONS.—Section 4c of the Commodity Exchange Act (7 U.S.C. 6c) is amended by adding at the end the following:

“(h) NONPUBLIC INFORMATION RELATING TO CONGRESS.—Not later than 270 days after the date of enactment of this subsection, the Commission shall by rule prohibit any person from buying or selling any commodity for future delivery or swap while such person is in possession of material nonpublic information, as defined by the Commission, relating to any pending or prospective legislative action relating to such commodity if—

“(1) such information was obtained by reason of such person being a Member or employee of Congress; or

“(2) such information was obtained from a Member or employee of Congress, and such person knows that the information was so obtained.

“(i) NONPUBLIC INFORMATION RELATING TO OTHER FEDERAL EMPLOYEES.—

“(1) RULEMAKING.—Not later than 270 days after the date of enactment of this subsection, the Commission shall by rule prohibit any person from buying or selling any commodity for future delivery or swap while such person is in possession of material nonpublic information derived from Federal employment and relating to such commodity if—

“(A) such information was obtained by reason of such person being an employee of an agency, as such term is defined in section 551(1) of title 5, United States Code; or

“(B) such information was obtained from such an employee, and such person knows that the information was so obtained.

“(2) MATERIAL NONPUBLIC INFORMATION.—For purposes of this subsection, the term ‘material nonpublic information’ means any information that an employee of an agency

(as such term is defined in section 551(1) of title 5, United States Code) gains by reason of Federal employment and that such employee knows or should know has not been made available to the general public, including information that—

“(A) is routinely exempt from disclosure under section 552 of title 5, United States Code, or otherwise protected from disclosure by statute, Executive order, or regulation;

“(B) is designated as confidential by an agency; or

“(C) has not actually been disseminated to the general public and is not authorized to be made available to the public on request.”.

(2) SECURITIES TRANSACTIONS.—Section 10 of the Securities Exchange Act of 1934 is amended by adding at the end the following:

“(d) NONPUBLIC INFORMATION RELATING TO CONGRESS.—Not later than 270 days after the date of enactment of this subsection, the Commission shall by rule prohibit any person from buying or selling the securities or security-based swaps of any issuer while such person is in possession of material nonpublic information, as defined by the Commission, relating to any pending or prospective legislative action relating to such issuer if—

“(1) such information was obtained by reason of such person being a Member or employee of Congress; or

“(2) such information was obtained from a Member or employee of Congress, and such person knows that the information was so obtained.

“(e) NONPUBLIC INFORMATION RELATING TO OTHER FEDERAL EMPLOYEES.—

“(1) RULEMAKING.—Not later than 270 days after the date of enactment of this subsection, the Commission shall by rule prohibit any person from buying or selling the securities or security-based swaps of any issuer while such person is in possession of material nonpublic information derived from Federal employment and relating to such issuer if—

“(A) such information was obtained by reason of such person being an employee of an agency, as such term is defined in section 551(1) of title 5, United States Code; or

“(B) such information was obtained from such an employee, and such person knows that the information was so obtained.

“(2) MATERIAL NONPUBLIC INFORMATION.—For purposes of this subsection, the term ‘material nonpublic information’ means any information that an employee of an agency (as such term is defined in section 551(1) of title 5, United States Code) gains by reason of Federal employment and that such employee knows or should know has not been made available to the general public, including information that—

“(A) is routinely exempt from disclosure under section 552 of title 5, United States Code, or otherwise protected from disclosure by statute, Executive order, or regulation;

“(B) is designated as confidential by an agency; or

“(C) has not actually been disseminated to the general public and is not authorized to be made available to the public on request.”.

(b) COMMITTEE HEARINGS ON IMPLEMENTATION.—

(1) IN GENERAL.—The Committee on Agriculture of the House of Representatives shall hold a hearing on the implementation by the Commodity Futures Trading Commission of subsections (h) and (i) of section 4c of the Commodity Exchange Act (as added by subsection (a)(2) of this section), and the Committee on Financial Services of the House of Representatives shall hold a hearing on the

implementation by the Securities Exchange Commission of subsections (d) and (e) of section 10 of the Securities Exchange Act of 1934 (as added by subsection (a)(1) of this section).

(2) EXERCISE OF RULEMAKING AUTHORITY.—Paragraph (1) is enacted—

(A) as an exercise of the rulemaking power of the House of Representatives and, as such, shall be considered as part of the rules of the House, and such rules shall supersede any other rule of the House only to the extent that rule is inconsistent therewith; and

(B) with full recognition of the constitutional right of the House to change such rules (so far as relating to the procedure in the House) at any time, in the same manner, and to the same extent as in the case of any other rule of the House.

(c) TIMELY REPORTING OF FINANCIAL TRANSACTIONS.—

(1) REPORTING REQUIREMENT.—Section 103 of the Ethics in Government Act of 1978 is amended by adding at the end the following subsection:

“(1) Within 90 days after the purchase, sale, or exchange of any stocks, bonds, commodities futures, or other forms of securities that are otherwise required to be reported under this Act and the transaction of which involves at least \$1000 by any Member of Congress or officer or employee of the legislative branch required to so file, that Member, officer, or employee shall file a report of that transaction with the Clerk of the House of Representatives in the case of a Representative in Congress, a Delegate to Congress, or the Resident Commissioner from Puerto Rico, or with the Secretary of the Senate in the case of a Senator.”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to transactions occurring on or after the date that is 90 days after the date of the enactment of this Act.

(d) DISCLOSURE OF POLITICAL INTELLIGENCE ACTIVITIES UNDER LOBBYING DISCLOSURE ACT.—

(1) DEFINITIONS.—Section 3 of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1602) is amended—

(A) in paragraph (2)—

(i) by inserting after “lobbying activities” each place that term appears the following: “or political intelligence activities”; and

(ii) by inserting after “lobbyists” the following: “or political intelligence consultants”; and

(B) by adding at the end the following new paragraphs:

“(17) POLITICAL INTELLIGENCE ACTIVITIES.—The term ‘political intelligence activities’ means political intelligence contacts and efforts in support of such contacts, including preparation and planning activities, research, and other background work that is intended, at the time it is performed, for use in contacts, and coordination with such contacts and efforts of others.

“(18) POLITICAL INTELLIGENCE CONTACT.—

“(A) DEFINITION.—The term ‘political intelligence contact’ means any oral or written communication (including an electronic communication) to or from a covered executive branch official or a covered legislative branch official, the information derived from which is intended for use in analyzing securities or commodities markets, or in informing investment decisions, and which is made on behalf of a client with regard to—

“(i) the formulation, modification, or adoption of Federal legislation (including legislative proposals);

“(ii) the formulation, modification, or adoption of a Federal rule, regulation, Exec-

utive order, or any other program, policy, or position of the United States Government; or

“(iii) the administration or execution of a Federal program or policy (including the negotiation, award, or administration of a Federal contract, grant, loan, permit, or license).

“(B) EXCEPTION.—The term ‘political intelligence contact’ does not include a communication that is made by or to a representative of the media if the purpose of the communication is gathering and disseminating news and information to the public.

“(19) POLITICAL INTELLIGENCE FIRM.—The term ‘political intelligence firm’ means a person or entity that has 1 or more employees who are political intelligence consultants to a client other than that person or entity.

“(20) POLITICAL INTELLIGENCE CONSULTANT.—The term ‘political intelligence consultant’ means any individual who is employed or retained by a client for financial or other compensation for services that include one or more political intelligence contacts.”.

(2) REGISTRATION REQUIREMENT.—Section 4 of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1603) is amended—

(A) in subsection (a)—

(i) in paragraph (1)—

(I) by inserting after “whichever is earlier,” the following: “or a political intelligence consultant first makes a political intelligence contact,”; and

(II) by inserting after “such lobbyist” each place that term appears the following: “or consultant”;

(ii) in paragraph (2), by inserting after “lobbyists” each place that term appears the following: “or political intelligence consultants”; and

(iii) in paragraph (3)(A)—

(I) by inserting after “lobbying activities” each place that term appears the following: “and political intelligence activities”; and

(II) in clause (i), by inserting after “lobbying firm” the following: “or political intelligence firm”;

(B) in subsection (b)—

(i) in paragraph (3), by inserting after “lobbying activities” each place that term appears the following: “or political intelligence activities”;

(ii) in paragraph (4)—

(I) in the matter preceding subparagraph (A), by inserting after “lobbying activities” the following: “or political intelligence activities”; and

(II) in subparagraph (C), by inserting after “lobbying activity” the following: “or political intelligence activity”;

(iii) in paragraph (5), by inserting after “lobbying activities” each place that term appears the following: “or political intelligence activities”;

(iv) in paragraph (6), by inserting after “lobbyist” each place that term appears the following: “or political intelligence consultant”; and

(v) in the matter following paragraph (6), by inserting “or political intelligence activities” after “such lobbying activities”;

(C) in subsection (c)—

(i) in paragraph (1), by inserting after “lobbying contacts” the following: “or political intelligence contacts”; and

(ii) in paragraph (2)—

(I) by inserting after “lobbying contact” the following: “or political intelligence contact”; and

(II) by inserting after “lobbying contacts” the following: “and political intelligence contacts”; and

(D) in subsection (d), by inserting after “lobbying activities” each place that term

appears the following: "or political intelligence activities".

(3) **REPORTS BY REGISTERED POLITICAL INTELLIGENCE CONSULTANTS.**—Section 5 of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1604) is amended—

(A) in subsection (a), by inserting after "lobbying activities" the following: "and political intelligence activities";

(B) in subsection (b)—

(i) in paragraph (2)—

(I) in the matter preceding subparagraph (A), by inserting after "lobbying activities" the following: "or political intelligence activities";

(II) in subparagraph (A)—

(aa) by inserting after "lobbyist" the following: "or political intelligence consultant"; and

(bb) by inserting after "lobbying activities" the following: "or political intelligence activities";

(III) in subparagraph (B), by inserting after "lobbyists" the following: "and political intelligence consultants"; and

(IV) in subparagraph (C), by inserting after "lobbyists" the following: "or political intelligence consultants";

(ii) in paragraph (3)—

(I) by inserting after "lobbying firm" the following: "or political intelligence firm"; and

(II) by inserting after "lobbying activities" each place that term appears the following: "or political intelligence activities"; and

(iii) in paragraph (4), by inserting after "lobbying activities" each place that term appears the following: "or political intelligence activities"; and

(C) in subsection (d)(1), in the matter preceding subparagraph (A), by inserting "or a political intelligence consultant" after "a lobbyist".

(4) **DISCLOSURE AND ENFORCEMENT.**—Section 6(a) of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1605) is amended—

(A) in paragraph (3)(A), by inserting after "lobbying firms" the following: "or political intelligence consultants, political intelligence firms,";

(B) in paragraph (7), by striking "or lobbying firm" and inserting "lobbying firm, political intelligence consultant, or political intelligence firm"; and

(C) in paragraph (8), by striking "or lobbying firm" and inserting "lobbying firm, political intelligence consultant, or political intelligence firm".

(5) **RULES OF CONSTRUCTION.**—Section 8(b) of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1607(b)) is amended by striking "or lobbying contacts" and inserting "lobbying contacts, political intelligence activities, or political intelligence contacts".

(6) **IDENTIFICATION OF CLIENTS AND COVERED OFFICIALS.**—Section 14 of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1609) is amended—

(A) in subsection (a)—

(i) in the heading, by inserting "OR POLITICAL INTELLIGENCE" after "LOBBYING";

(ii) by inserting "or political intelligence contact" after "lobbying contact" each place that term appears; and

(iii) in paragraph (2), by inserting "or political intelligence activity, as the case may be" after "lobbying activity";

(B) in subsection (b)—

(i) in the heading, by inserting "OR POLITICAL INTELLIGENCE" after "LOBBYING";

(ii) by inserting "or political intelligence contact" after "lobbying contact" each place that term appears; and

(iii) in paragraph (2), by inserting "or political intelligence activity, as the case may be" after "lobbying activity"; and

(C) in subsection (c), by inserting "or political intelligence contact" after "lobbying contact".

(7) **ANNUAL AUDITS AND REPORTS BY COMPTROLLER GENERAL.**—Section 26 of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1614) is amended—

(A) in subsection (a)—

(i) by inserting "political intelligence firms, political intelligence consultants," after "lobbying firms"; and

(ii) by striking "lobbying registrations" and inserting "registrations";

(B) in subsection (b)(1)(A), by inserting "political intelligence firms, political intelligence consultants," after "lobbying firms"; and

(C) in subsection (c), by inserting "or political intelligence consultant" after "a lobbyist".

(e) **EFFECTIVE DATE.**—Subject to subsection (c)(2), this section and the amendments made by this section shall take effect at the end of the 90-day period beginning on the date of the enactment of this Act.

#### **SEC. 706. FREEZE ON MEMBER COLA AND PENSION REFORM.**

For provision freezing Member COLA and effecting pension reform, see section 5421(b)(1) and part 1 of subtitle E of title V, respectively.

Mr. VAN HOLLEN (during the reading). Mr. Speaker, I ask unanimous consent to suspend the reading of the bill.

Mr. CAMP. I object.

The SPEAKER pro tempore. Objection is heard.

The Clerk will continue to read.

The Clerk continued to read.

Mr. CAMP (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading.

The SPEAKER pro tempore. Is there objection?

Without objection, the remainder of the motion is considered read.

There was no objection.

The SPEAKER pro tempore. The gentleman from Michigan continues to reserve a point of order.

The gentleman from Maryland is recognized for 5 minutes on his motion.

Mr. VAN HOLLEN. Thank you very much, Mr. Speaker.

It was just a few weeks ago that our Republican colleagues in the House and the Senate said they didn't want to do any payroll tax cut for working Americans. They were opposed to any payroll tax cut for the 160 million working Americans, and at the same time they were arguing vigorously in support of protecting tax breaks for the very wealthy in this country. They had been very clear: They don't want to ask the very wealthiest to simply go back to paying the same tax rates that they were paying during the Clinton administration—a time when the economy was booming and 20 million jobs were created. They don't want to do that, but they were prepared to increase the payroll tax on 160 million working Americans. Well, they realized that that didn't sound so good to the American people, and so we are here today.

□ 1810

And what the Republican proposal does is two things: It inserts into their bill poison pills which the President has said he will not sign, and they know he said that.

What will the result be? It will be the same result that our Republican colleagues wanted 2 weeks ago, which is no payroll tax cut for 160 million Americans.

But what they could not bring themselves to do, Mr. Speaker, was pay for that payroll tax cut for 160 million by asking very wealthy people, millionaires and billionaires, to share a little bit more in the responsibility for reducing our deficit. They didn't want to do that, and so their bill cuts other people.

For example, their bill would cut the pension of the folks who helped track down Osama Bin Laden. Thank you very much for helping us track down Osama Bin Laden. We're going to cut your pension. We're going to cut your pension and that of other hardworking men and women who protect this country every day in that way.

Who else are we going to ask to pay for it? Well, let's ask seniors who earn \$80,000 or so. Let's increase their premiums. We don't want to ask folks over \$1 million to pay a little bit more, share a little bit more responsibility. Let's ask seniors at \$80,000 a year.

And you know what? Let's change the current unemployment compensation law from what it would be if we extended current law. Let's change it in a way where folks who are out of work, through no fault of their own, they're looking every day for a job, let's give them less than what they would get if we extended the current unemployment compensation.

So those are all the gymnastics that bring us here today, simply because the majority doesn't want to ask the folks at the very top to pay a little more. What our motion to recommit does is say, we need to have shared responsibility in this country. Let's work together to bring down the deficit.

We all know from independent economists that increasing the payroll tax cut will raise another 300,000 jobs; so, in fact, our motion to recommit increases that. And it also does other things to hold Members of this body accountable.

So the choice is simple. Do we want to ask folks at the very top to help reduce our deficit and provide that payroll tax cut, and do we want to hold this body accountable?

On that issue, I defer to the gentleman from New York, the ranking member of the Rules Committee.

Ms. SLAUGHTER. Mr. Speaker, I am going to make an offer that no one can refuse or no one should refuse.

I'm pleased that the STOCK Act is something we can finally vote on today in this Congress. The STOCK Act has

bipartisan support from 231 Members of Congress, a majority of the House, ranging from freshman Members to senior Members from both sides of the aisle.

The bill has been around since 2006, and we do not need to study it another day. A critical part of the bill is the registration of the political intelligence industry. The burgeoning K Street industry gathers information from Members and staff in order to enrich their Wall Street clients, and it has been completely unregulated.

We will finally regulate, through the STOCK Act, this lucrative industry, and ensure that Members of Congress and their staffs come to Washington to serve their constituents and not fatten their own bank accounts. There are 535 of us privileged enough to serve in this Congress, and we must hold ourselves accountable to the highest standards.

The American people have shown an incredible interest in the STOCK Act. If you fail to vote for this motion today, you're going to tell them that you're not interested in their concerns. None of us on either side of the aisle want to do that.

So I urge my colleagues to vote in favor of today's motion to recommit to pass this bill that has been around for years and needs passing very badly, and to hold ourselves accountable to the American people and to the letter of the law.

The SPEAKER pro tempore. The time of the gentleman from Maryland has expired.

Mr. CAMP. Mr. Speaker, I withdraw my reservation and seek time in opposition to the motion to recommit.

The SPEAKER pro tempore. The reservation is withdrawn.

The gentleman from Michigan is recognized for 5 minutes.

Mr. CAMP. Mr. Speaker, this motion to recommit is a further illustration of the glaring differences in priorities between Republicans and Democrats. Republicans have brought a plan to the floor today that is about protecting taxpayers and creating American jobs. And instead of joining us in that important task, my Democratic friends are offering yet another politically motivated motion.

In fact, one senior Democratic aide recently said to the press, and I quote, "MTRs are all political." You can read it right here.

My colleagues and the American people should not be fooled. They should not be distracted by these political games.

Make no mistake. Our bill extends the payroll tax cut for every employee in this country. And if my friends on the other side of the aisle choose to vote against it, they are supporting a tax increase on every American who collects a paycheck.

This motion contains a massive 10-year tax increase. It increases taxes on

employers, on small businesses, on investors, the very people we need paying more paychecks, not more taxes. In fact, this exact provision has been defeated multiple times in the U.S. Senate by Republicans and Democrats alike in a bipartisan effort.

Our bill is about strengthening our economy, getting Americans back to work through commonsense reforms to the unemployment insurance program. It will ensure American seniors and the disabled are protected by preventing massive cuts to doctors working in the Medicare program. And it will be paid for with fiscally responsible reforms, not job-killing tax hikes.

I urge my colleagues, vote against this motion to recommit and vote for the underlying bill.

I yield back the balance of my time. The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

#### RECORDED VOTE

Mr. VAN HOLLEN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes on passage, if ordered, and the motion to suspend the rules on H.R. 2767, if ordered.

The vote was taken by electronic device, and there were—ayes 183, noes 244, not voting 6, as follows:

[Roll No. 922]

#### NOT VOTING—6

Filner  
Giffords

Gutierrez  
Paul

#### □ 1841

Messrs. FLAKE, PALAZZO, and MURPHY of Pennsylvania changed their vote from “aye” to “no.”

Messrs. HINCHEY, ALTMIRE, Ms. SPEIER, and Mr. CLEAVER changed their vote from “no” to “aye.”

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

Stated against:

Mr. FILNER. Mr. Speaker, on rollcall 922, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “aye.”

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

#### RECORDED VOTE

Mr. LEVIN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 234, noes 193, not voting 6, as follows:

[Roll No. 923]

#### □ 1851

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mr. FILNER. Mr. Speaker, on rollcall 923, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “no.”

#### WILLIAM T. TRANT POST OFFICE BUILDING

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill (H.R. 2767) to designate the facility of the United States Postal Service located at 8 West Silver Street in Westfield, Massachusetts, as the “William T. Trant Post Office Building”.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. ISSA) that the House suspend the rules and pass the bill.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

#### RECORDED VOTE

Mr. PAULSEN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 420, noes 0, not voting 13, as follows:

[Roll No. 924]

□ 1859

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. FILNER. Mr. Speaker, on rollcall 924, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "yes."

# REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 1540, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2012

Mr. BISHOP of Utah, from the Committee on Rules, submitted a privileged report (Rept. No. 112-330) on the resolution (H. Res. 493) providing for consideration of the conference report to accompany the bill (H.R. 1540) to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; and providing for proceedings during the period from December 16, 2011 through January 16, 2012, which was referred to the House Calendar and ordered to be printed.

## REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 3521

Mr. HONDA. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H.R. 3521.

The SPEAKER pro tempore (Mr. BROOKS). Is there objection to the request of the gentleman from California?

There was no objection.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

## FALLEN HEROES OF 9/11 ACT

Mr. FITZPATRICK. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3421) to award Congressional Gold Medals in honor of the men and women who perished as a result of the terrorist attacks on the United States on September 11, 2001.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3421

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Fallen Heroes of 9/11 Act".

### SEC. 2. CONGRESSIONAL FINDINGS.

Congress finds that—

(1) the tragic deaths at the World Trade Center, at the Pentagon, and in rural Pennsylvania on September 11, 2001, have forever changed our Nation;

(2) the officers, emergency workers, and other employees of State and local government agencies, including the Port Authority of New York and New Jersey, and of the United States government and others, who responded to the attacks on the World Trade Center in New York City and perished as a result of the tragic events of September 11, 2001 (including those who are missing and presumed dead), took heroic and noble action on that day;

(3) the officers, emergency rescue workers, and employees of local and United States government agencies, who responded to the attack on the Pentagon in Washington, DC, took heroic and noble action to evacuate the premises and prevent further casualties of Pentagon employees;

(4) the passengers and crew of United Airlines Flight 93, recognizing the imminent danger that the aircraft that they were aboard posed to large numbers of innocent men, women and children, American institutions, and the symbols of American democracy, took heroic and noble action to ensure that the aircraft could not be used as a weapon; and

(5) given the unprecedented nature of the attacks against the United States of America and the need to properly demonstrate the

support of the country for those who lost their lives to terrorism, it is fitting that their sacrifice be recognized with the award of an appropriate medal.

### SEC. 3. CONGRESSIONAL GOLD MEDAL.

#### (a) AWARD.—

(1) AUTHORIZED.—The Speaker of the House of Representatives and the President pro tempore of the Senate shall make appropriate arrangements for the award, on behalf of Congress, of 3 gold medals of appropriate design in honor of the men and women who perished as a result of the terrorist attacks on the United States on September 11, 2001.

(2) DISPLAY.—Following the award of the gold medals referred to in paragraph (1), one gold medal shall be given to each of—

(A) the Flight 93 National Memorial in Pennsylvania,

(B) the National September 11 Memorial and Museum in New York, and

(C) the Pentagon Memorial at the Pentagon, with the understanding that each medal is to be put on permanent, appropriate display.

(3) DESIGN AND STRIKING.—For the purposes of the awards referred to in paragraph (1), the Secretary of the Treasury shall strike 3 designs of the gold medals with suitable emblems, devices, and inscriptions, to be determined by the Secretary.

(b) DUPLICATE MEDALS.—Under such regulations as the Secretary may prescribe, the Secretary may strike and sell duplicates in bronze of the gold medals struck under this Act, at a price sufficient to cover the costs of the medals, including labor, materials, dyes, use of machinery, and overhead expenses.

(c) NATIONAL MEDALS.—Medals struck pursuant to this Act are national medals for purposes of chapter 51 of title 31, United States Code.

(d) PROCEEDS OF SALE.—Amounts received from the sale of duplicate bronze medals under subsection (b) shall be deposited in the United States Mint Public Enterprise Fund.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. FITZPATRICK) and the gentleman from New York (Mr. MEEKS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania.

#### GENERAL LEAVE

Mr. FITZPATRICK. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to add extraneous material on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. FITZPATRICK. Mr. Speaker, I would like to submit an exchange of letters with the Ways and Means Committee regarding this bill.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON WAYS AND MEANS,  
LONGWORTH HOUSE OFFICE BUILDING,

Washington, DC, December 13, 2011.

Hon. SPENCER BACHUS,  
Chairman, Committee on Financial Services,  
Rayburn House Office Building, Wash-  
ington, DC.

DEAR CHAIRMAN BACHUS: I am writing concerning H.R. 3421, the "Fallen Heroes of 9/11 Act," which is scheduled for Floor action today.

As you know, the Committee on Ways and Means maintains jurisdiction over matters that concern raising revenue. H.R. 3421 contains a provision that provides for the sale of duplicate medals, and thus falls within the jurisdiction of the Committee on Ways and Means.

However, as part of our ongoing understanding regarding commemorative coin and medal bills and in order to expedite this bill for floor consideration, the Committee will forgo action. This is being done with the understanding that it does not in any way prejudice the Committee with respect to the appointment of conferees or its jurisdictional prerogatives on this or similar legislation in the future.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 3421, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during Floor consideration.

Sincerely,

DAVE CAMP,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FINANCIAL SERVICES,  
Washington, DC, December 13, 2011.

Hon. DAVE CAMP,  
Chairman, Committee on Ways and Means,  
Longworth House Office Building, Wash-  
ington, DC.

DEAR CHAIRMAN CAMP: I am writing in response to your letter regarding H.R. 3421, the Fallen Heroes of 9/11 Act, which is scheduled under for Floor consideration under suspension of the rules on Tuesday, December 13, 2011.

I wish to confirm our mutual understanding on this bill. As you know, section 3 of the bill relates to the proceeds of the sale of the medals. I acknowledge your committee's jurisdictional interest in such proceeds as revenue matters and appreciate your willingness to forego action by the Committee on Ways and Means on H.R. 3421 in order to allow the bill to come to the Floor expeditiously. Also, I agree that your decision to forego further action on this bill will not prejudice the Committee on Ways and Means with respect to its jurisdictional prerogatives on this or similar legislation. Therefore, I would support your request for conferees on those provisions within your jurisdiction should this bill be the subject of a House-Senate conference.

I will include this exchange of letters in the Congressional Record when this bill is considered by the House. Thank you again for your assistance and if you should need anything further, please do not hesitate to contact Natalie McGarry of my staff at 202-225-7502.

Sincerely,

SPENCER BACHUS,  
Chairman.

I yield 3 minutes to the author and sponsor of this bill, the gentleman from Pennsylvania (Mr. SHUSTER).

Mr. SHUSTER. I thank the gentleman for yielding.

I rise today in support of the Fallen Heroes of 9/11 Act, which I introduced earlier this year in honor of the 10th anniversary of September 11. I represent Shanksville, Pennsylvania, the area where Flight 93 went down, and, more importantly, where the first counterattack of the war on terror occurred.

It has been an honor for me to work closely with the Families of Flight 93 over the years on key initiatives, including funding the Flight 93 National Memorial and awarding the 9/11 heroes a Congressional Gold Medal. The Fallen Heroes of 9/11 Act would award one collective Congressional Gold Medal to honor the heroes that perished on 9/11, to be displayed at each memorial site—the Flight 93 National Memorial in Pennsylvania, the National September 11 Memorial and Museum in New York, and the Pentagon Memorial. The tragic deaths at the World Trade Center, at the Pentagon, and in rural Pennsylvania on September 11, 2001, have forever changed our Nation.

The officers, emergency workers, and other employees of State and local government agencies, including the Port Authority of New York and New Jersey, and of the United States Government and others, who responded to the attacks on the World Trade Center in New York City and perished as a result of the tragic events of September 11, 2001, took heroic and noble action on that day.

The officers, emergency rescue workers and employees of local and United States Government agencies who responded to the attack on the Pentagon and Washington took heroic and noble action to evacuate the premises and prevent further casualties of the Pentagon employees.

And the passengers and crew of United Airlines Flight 93, recognizing the imminent danger that the aircraft that they had boarded posed to large numbers of innocent men, women, and children, American institutions, and the symbols of American democracy, took heroic and noble action to ensure that that aircraft could not be used as a weapon.

Given the unprecedented nature of the attacks against the United States of America and the need to properly demonstrate the support of the country for those who lost their lives to terrorism, it is fitting that their sacrifice be recognized with the award of an appropriate medal.

Awarding this medal would give Congress and the American people an opportunity to further pay tribute and honor the heroic men and women that lost their lives that day. There would be no better gift this holiday season to those who lost loved ones than passing this bill and officially recognizing those that lost their lives that fateful day.

Mr. Speaker, I urge all my colleagues to support this bill, the Fallen Heroes of 9/11 Act, and I want to thank the over 350 Members I believe it was that signed on to this bill to make it possible that we're here today, going to pass this and hopefully send it to the President.

Mr. MEEKS. Mr. Speaker, I yield myself such time as I may consume.

This year represents the 10th year since our country was attacked by terrorists and it forever changed our Nation. The events that took place on September 11, 2001, will be forever embedded into every American soul. I, being a New Yorker, on that day can recall with vivid memory that I was in the city because it was an Election Day in New York, a beautiful day in New York, and being pulled to the television by some individuals that our Nation was under attack. I could then look out from the venue where I was and literally see the two towers. Then getting on the phone to talk to individuals, many and some of whom were racing to the scene of the tragedy—not racing from it. Our first responders were racing to it because they wanted to help their fellow human beings. These were heroes, indeed, and we use the word “heroes” sometimes as a manner of course. But if you want to talk about a heroic act, when and in the time of crisis, individuals willing to put their own lives on the line to help a fellow human being, I tell you, the first responders, the officers, the emergency workers and others indeed are truly American heroes.

When you think about what took place, what must have taken place on that fateful day, for the passengers and the crew of the United Airlines Flight 93, think about what they must have gone through knowing that there had been planes already attacking our Nation, but yet they made a decision to sacrifice their lives and to make sure that the plane would go down so that no one, no other lives would be destroyed. That is the true meaning of a hero.

Think about the government employees, both local and the United States Government, who responded to the attack on the Pentagon in Washington, D.C., who took courageous steps to protect fellow Americans. They were heroes. And that is why on this 10th anniversary, H.R. 3421, where we would have three coins to commemorate those heroes, those sheroes of the day that the United States of America was attacked by terrorists, is a way that we can come together and say we shall never forget, and we shall honor those individuals who left their families because of a vicious act but also in attempting to save many other American lives.

And so, Mr. Speaker, I say that I thank all of the 328 cosponsors who united together to say to those heroes, we shall never forget you, we shall never stop thanking you, we will always, always hold your name up high, and these coins are the commemoratives of those acts so that children yet unborn will know of your heroic acts, and they shall never ever perish from the minds of an American citizen, whether they are here today or whether they will be born tomorrow.

I reserve the balance of my time.

Mr. FITZPATRICK. Mr. Speaker, I yield myself such time as I may consume.

I rise today also in support of H.R. 3421, the Fallen Heroes of 9/11 Act, introduced November 14 by the gentleman from Pennsylvania (Mr. SHUSTER). Remarkably in the short 4 weeks since its introduction, it has obtained almost 330 cosponsors from this House of Representatives.

□ 1910

The bill before us recognizes the heroism of the men and women who died on September 11, 2001, that day just over a decade ago that changed this country and in fact changed this world and changed it forever. At three sites—seemingly unconnected on that clear, bright morning—thousands of brave men and women died in the most agonizing way and before our eyes. Each of them was a hero, and this bill awards a Congressional Gold Medal in their memory.

There will be three designs, one for each of the attack sites in New York City, at the Pentagon, and in the Commonwealth of Pennsylvania. And the medals struck for those sites will be displayed at the museums there that preserve the memories of that frightful day.

After the award of the medals, bronze copies of the medals will be available for purchase at a nominal price. Each design, which should be reviewed by the Citizens Coinage Advisory Committee and the Commission on Fine Arts, is to capture the horror of that day and the majesty of those heroic deaths.

This medal will be the second and final Congressional Gold Medal to be approved during this session of the 112th Congress.

Mr. Speaker, I urge immediate passage of this bill, and I reserve the balance of my time.

Mr. MEEKS. I yield 1 minute to the gentlelady from the great State of New York, (CAROLYN MALONEY).

Mrs. MALONEY. Mr. Speaker, I rise in strong support of H.R. 3421, the Fallen Heroes of 9/11 Act.

After 9/11, I have never seen this body so united and determined; and this same determination and united spirit is behind the bill that we are passing today, with well over 300 cosponsors.

This year marked the 10th anniversary of that tragic day where we had innocent Americans murdered on our soil, invaded; the first act of terrorism that we are confronting and combating today in this Congress.

The bill will symbolize in the gold coin the 9/11 site in New York, the site at the Pentagon, the heroic flight over Pennsylvania, and will have the gold coin put on display in the museums in these three locations.

On 9/11, we lost thousands and thousands of Americans, innocent Ameri-

cans, who did what we did today, went up and went to work and were murdered because they were Americans. It was outrageous. We will never forget. This is another way that we can memorialize the heroic actions, the heroes and heroines that worked hard to try to protect them, and really recognize how outrageous it was that an American citizen was murdered just for being an American.

Since 9/11, thousands and thousands more have lost their health. And I thank this body for acting in the last Congress to provide health care and compensation and monitoring for those who risked their lives to save the lives of others.

No other act has changed this country as much as 9/11. We totally reorganized our priorities, created a Homeland Security Department, totally reorganized our intelligence gathering, and implemented 43 of the 53 recommendations of the 9/11 Commission. It was this Congress at its best.

The 9/11 Commission report, which was a bipartisan product, came forward with concrete recommendations. Their report sold more copies than “Harry Potter.” It was an important report, and this Congress took that report and enacted those recommendations into law. With that same bipartisan spirit, we should be attacking the economic challenges that we confront today.

I compliment my colleagues on both sides of the aisle for sponsoring and working on this legislation. It will mean a great deal to the men and women that I have the honor of representing to have a bronze coin that they can purchase to remember, to have their input into the artistic framing of the message for these three tragedies in our country. It is thoughtful, it is purposeful, and it is historic. I thank my colleagues.

Mr. FITZPATRICK. I reserve the balance of my time and inform the gentleman from New York that I am prepared to close.

Mr. MEEKS. Mr. Speaker, I yield myself the balance of my time.

Being a New Yorker, I still, to this day, as I walk the streets of downtown Manhattan, cannot believe that the Twin Towers are not there. I taught my daughters how to navigate the streets of New York looking up at those towers as some look up to see the North Star. I will never really, in my heart, conceive of the towers not being there, even as we build this great memorial.

But when I think about the families, how they must feel—if I just utilized them as a tool for my daughters and they’re gone—but when you think about the families whose loved ones are gone, we have to do everything in our power so they know that we will always be thinking of the ones that are not able to have dinner with them this evening.

These coins—when tourists come to visit the various sites or when individuals want to purchase them for the commemorative event so they can always remember these heroes—are a symbol of the United States House of Representatives and Congress that in these kinds of times we do come together and we will work together in a bipartisan manner to salute Americans and others, because some lost their lives who were not American citizens, that we shall never forget. And we thank them for their courage, we thank them for their heroism, and we thank the families for the sacrifices that they have made as a result of not having those loved ones.

Let me also thank my colleagues and Mr. SHUSTER for introducing this bill and working collectively together in a spirit of being Americans. I thank my colleagues on the other side of the aisle.

Mr. Speaker, I yield back the balance of my time.

Mr. FITZPATRICK. Mr. Speaker, I represent Bucks County, Pennsylvania, which is the home of a 9/11 memorial for Pennsylvanians, for Americans, for all those killed on September 11, 2001. It is also the home of Ellen Saracini, widow of Captain Victor Saracini, who was the pilot of United Flight 175, which was crashed into the south tower at approximately 9:03 that morning.

He went to work, along with 2,973 other men and women lost on September 11, never imagining that they would not be returning home. For Ellen Saracini and for the other 17 families from Bucks County who lost a loved family member on that day, I want to thank my friend and colleague from Pennsylvania (Mr. SHUSTER) for offering this bill. I was proud to help him introduce it, and I humbly ask my colleagues to support it.

Mr. Speaker, I yield back the balance of my time.

Mr. VAN HOLLEN. Mr. Speaker, I rise in support of H.R. 3421, a bill to award Congressional Gold Medals to the heroes of 9/11.

During the attacks on the United States on September 11th, 2,996 Americans lost their lives at the World Trade Center, the Pentagon and in a field in rural Pennsylvania. Many more might have perished had hundreds of law enforcement officers, emergency workers and State and local government employees, not sprung into action to help evacuate the World Trade Center and the Pentagon and, in the case of the passengers and crew of United Airlines Flight 93, averted greater disaster by sacrificing themselves.

The three gold medals this legislation awards, will be permanently displayed at the Flight 93 National Memorial in Pennsylvania, the National September 11 Memorial in New York and the Memorial at the Pentagon as a constant and visible reminder of the exceptional acts of heroism exercised on that tragic day.

As a cosponsor of H.R. 3421, I encourage my colleagues to join me in support of the

many heroic men and women who put themselves in harm's way on September 11th, 2001 with this Congressional Gold Medal.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. FITZPATRICK) that the House suspend the rules and pass the bill, H.R. 3421.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. MEEKS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

□ 1920

#### UNITED STATES MARSHALS SERVICE 225TH ANNIVERSARY COMMEMORATIVE COIN ACT

Mr. JONES. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 886) to require the Secretary of the Treasury to mint coins in commemoration of the 225th anniversary of the establishment of the Nation's first Federal law enforcement agency, the United States Marshals Service, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 886

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "United States Marshals Service 225th Anniversary Commemorative Coin Act".

#### SEC. 2. FINDINGS.

The Congress hereby finds as follows:

(1) The United States Marshals, the first Federal law enforcement officers in America, were established under section 27 of the Act of Congress entitled "Chapter XX.—An Act to Establish the Judicial Courts of the United States" and enacted on September 24, 1789 (commonly referred to as the "Judiciary Act of September 24, 1789"), during the 1st Session of the 1st Congress, and signed into law by the 1st President of the United States, George Washington.

(2) George Washington had carefully considered the appointments to the Judicial Branch long before the enactment of the Judiciary Act of September 24, 1789, and nominated the first 11 United States Marshals on September 24, and the remaining two Marshals on September 25, 1789. The Senate confirmed all 13 on September 26, 1789, 2 days after the Judiciary Act was signed into law.

(3) In 1969, by order of the Department of Justice, the United States Marshals Service was created, and achieved Bureau status in 1974. The United States Marshals Service has had major significance in the history of the United States, and has directly contributed to the safety and preservation of this Nation, by serving as an instrument of civil authority used by all 3 branches of the United States Government.

(4) One of the original 13 United States Marshals, Robert Forsyth of Georgia, a 40-year-old veteran of the Revolutionary War, was the first civilian official of the United States Government, and the first of many United States Marshals and deputies, to be killed in the line of duty when he was shot on January 11, 1794, while trying to serve civil process.

(5) The United States Marshals Service Commemorative Coin will be the first commemorative coin to honor the United States Marshals Service.

(6) The United States should pay tribute to the Nation's oldest Federal law enforcement agency, the United States Marshals Service, by minting and issuing commemorative coins, as provided in this Act.

(7) A commemorative coin will bring national and international attention to the lasting legacy of this Nation's oldest Federal law enforcement agency.

(8) The proceeds from a surcharge on the sale of such commemorative coins will assist the financing of national museums and charitable organizations.

#### SEC. 3. COIN SPECIFICATIONS.

(a) DENOMINATIONS.—In commemoration of the 225th anniversary of the establishment of the United States Marshals Service, the Secretary of the Treasury (hereafter in this Act referred to as the "Secretary") shall mint and issue the following coins:

(1) \$5 GOLD COINS.—Not more than 100,000 \$5 gold coins, which shall—

(A) weigh 8.359 grams;

(B) have a diameter of 0.850 inches; and

(C) contain 90 percent gold and 10 percent alloy.

(2) \$1 SILVER COINS.—Not more than 500,000 \$1 coins, which shall—

(A) weigh 26.73 grams;

(B) have a diameter of 1.500 inches; and

(C) contain 90 percent silver and 10 percent alloy.

(3) HALF DOLLAR CLAD COINS.—Not more than 750,000 half dollar coins, which shall—

(A) weigh 11.34 grams;

(B) have a diameter of 1.205 inches; and

(C) be minted to the specifications for half dollar coins contained in section 5112(b) of title 31 United States Code.

(b) LEGAL TENDER.—The coins minted under this Act shall be legal tender, as provided in section 5103 of title 31, United States Code.

(c) NUMISMATIC ITEMS.—For purposes of section 5134 of title 31, United States Code, all coins minted under this Act shall be considered to be numismatic items.

#### SEC. 4. DESIGN OF COINS.

(a) DESIGN REQUIREMENTS.—

(1) IN GENERAL.—The design of the coins minted under this Act shall be emblematic of the 225 years of exemplary and unparalleled achievements of the United States Marshals Service.

(2) DESIGNATION AND INSCRIPTIONS.—On each coin minted under this Act there shall be—

(A) a designation of the value of the coin;

(B) an inscription of—

(i) the mint date "2015"; and

(ii) the years 1789 and 2014; and

(C) inscriptions of the words "Liberty", "In God We Trust", "United States of America", and "E Pluribus Unum", and such other inscriptions as the Secretary may determine to be appropriate for the designs of the coins.

(3) COIN IMAGES.—

(A) \$5 GOLD COINS.—

(i) OVERSE.—The obverse of the \$5 coins issued under this Act shall bear an image of

the United States Marshals Service Star (also known as "America's Star").

(ii) **REVERSE.**—The reverse of the \$5 coins issued under this Act shall bear a design emblematic of the sacrifice and service of the men and women of the United States Marshals Service who lost their lives in the line of duty and include the Marshals Service motto "Justice, Integrity, Service."

(B) **\$1 SILVER COINS.**—

(i) **OBVERSE.**—The obverse of the \$1 coins issued under this Act shall bear an image of the United States Marshals Service Star (also known as "America's Star").

(ii) **REVERSE.**—The reverse of the \$1 silver coins issued under this Act shall bear an image emblematic of the United States Marshals legendary status in America's cultural landscape. The image should depict Marshals as the lawmen of our frontiers, including their geographic, political, or cultural history, and shall include the Marshals Service motto "Justice, Integrity, Service."

(C) **HALF DOLLAR CLAD COINS.**—

(i) **OBVERSE.**—The obverse of the half dollar clad coins issued under this Act shall bear an image emblematic of the United States Marshals Service and its history.

(ii) **REVERSE.**—The reverse of the half dollar clad coins issued under this Act shall bear an image consistent with the role that the United States Marshals played in a changing nation, as they were involved in some of the most pivotal social issues in American history. The image should show the ties that the Marshals have to the United States Constitution, with themes including—

(I) the Whiskey Rebellion and the rule of law;

(II) slavery and the legacy of inequality; and

(III) the struggle between labor and capital.

(4) **REALISTIC AND HISTORICALLY ACCURATE DEPICTIONS.**—The images for the designs of coins issued under this Act shall be selected on the basis of the realism and historical accuracy of the images and on the extent to which the images are reminiscent of the dramatic and beautiful artwork on coins of the so-called "Golden Age of Coinage" in the United States, at the beginning of the 20th Century, with the participation of such noted sculptors and medallist artists as James Earle Fraser, Augustus Saint-Gaudens, Victor David Brenner, Adolph A. Weinman, Charles E. Barber, and George T. Morgan.

(b) **SELECTION.**—The design for the coins minted under this Act shall be—

(1) selected by the Secretary, after consultation with the Director of the United States Marshals Service and the Commission of Fine Arts; and

(2) reviewed by the Citizens Coin Advisory Committee.

#### SEC. 5. ISSUANCE OF COINS.

(a) **QUALITY OF COINS.**—Coins minted under this Act shall be issued in proof quality and uncirculated quality.

(b) **MINT FACILITY.**—Only 1 facility of the United States Mint may be used to strike any particular combination of denomination and quality of the coins minted under this Act.

(c) **COMMENCEMENT OF ISSUANCE.**—The Secretary may issue coins, to the public, minted under this Act beginning on or after January 1, 2015, except for a limited number to be issued prior to such date to the Director of the United States Marshals Service and employees of the Service for display and presentation during the 225th Anniversary celebration.

(d) **TERMINATION OF MINTING AUTHORITY.**—No coins may be minted under this Act after December 31, 2015.

#### SEC. 6. SALE OF COINS.

(a) **SALE PRICE.**—The coins issued under this Act shall be sold by the Secretary at a price equal to the sum of—

(1) the face value of the coins;

(2) the surcharge provided in section 7(a) with respect to such coins; and

(3) the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, overhead expenses, marketing, and shipping).

(b) **PREPAID ORDERS.**—

(1) **IN GENERAL.**—The Secretary shall accept prepaid orders for the coins minted under this Act before the issuance of such coins.

(2) **DISCOUNT.**—Sale prices with respect to prepaid orders under paragraph (1) shall be at a reasonable discount.

#### SEC. 7. SURCHARGES.

(a) **IN GENERAL.**—All sales of coins minted under this Act shall include a surcharge as follows:

(1) A surcharge of \$35 per coin for the \$5 gold coin.

(2) A surcharge of \$10 per coin for the \$1 silver coin.

(3) A surcharge of \$3 per coin for the half dollar coin.

(b) **DISTRIBUTION.**—Subject to section 5134(f) of title 31, United States Code, the Secretary shall promptly distribute all surcharges received from the sale of coins issued under this Act as follows:

(1) The first \$5,000,000 available for distribution under this section, to the U.S. Marshals Museum, Inc., also known as the United States Marshals Museum, for the preservation, maintenance, and display of artifacts and documents.

(2) Of amounts available for distribution after the payment under paragraph (1)—

(A) One third shall be distributed to the National Center for Missing & Exploited Children, to be used for finding missing children and combating child sexual exploitation.

(B) One third shall be distributed to the Federal Law Enforcement Officers Association Foundation, to be used—

(i) to provide financial assistance for—

(I) surviving family members of Federal law enforcement members killed in the line of duty;

(II) Federal law enforcement members who have become disabled; and

(III) Federal law enforcement employees and their families in select instances, such as severe trauma or financial loss, where no other source of assistance is available;

(ii) to provide scholarships to students pursuing a career in the law enforcement field; and

(iii) to provide selective grants to charitable organizations.

(C) One third shall be distributed to the National Law Enforcement Officers Memorial Fund, to support the construction of the National Law Enforcement Museum and the preservation and display of its artifacts.

(c) **AUDITS.**—All organizations, associations, and funds shall be subject to the audit requirements of section 5134(f)(2) of title 31, United States Code, with regard to the amounts received under subsection (b).

(d) **LIMITATION.**—Notwithstanding subsection (a), no surcharge may be included with respect to this issuance under this Act of any coin during a calendar year if, as of the time of such issuance, the issuance of such coin would result in the number of com-

memorative coin programs issued during such year to exceed the annual 2 commemorative coin program issuance limitation under section 5112(m)(1) of title 31, United States Code (as in effect on the date of the enactment of this Act). The Secretary of the Treasury may issue guidance to carry out this subsection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from North Carolina (Mr. JONES) and the gentleman from New York (Mr. MEEKS) each will control 20 minutes.

The Chair recognizes the gentleman from North Carolina.

#### GENERAL LEAVE

Mr. JONES. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and to add extraneous material on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Mr. JONES. Mr. Speaker, I would like to submit an exchange of letters with the Ways and Means Committee regarding this bill.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON WAYS AND MEANS,  
Washington, DC, December 13, 2011.

Hon. SPENCER BACHUS,  
Chairman, Committee on Financial Services,  
Washington, DC.

DEAR CHAIRMAN BACHUS, I am writing concerning H.R. 886, the "United States Marshals Service 225th Commemorative Coin Act," which is scheduled for Floor action today.

As you know, the Committee on Ways and Means maintains jurisdiction over matters that concern raising revenue. H.R. 886 contains a provision that establishes a surcharge for the sale of commemorative coins that are minted under the bill, and this falls within the jurisdiction of the Committee on Ways and Means.

However, as part of our ongoing understanding regarding commemorative coin bills and in order to expedite this bill for Floor consideration, the Committee will forgo action. This is being done with the understanding that it does not in any way prejudice the Committee with respect to the appointment of conferees or its jurisdictional prerogatives on this or similar legislation in the future.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 886, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during Floor consideration.

Sincerely,

DAVE CAMP,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FINANCIAL SERVICES,  
Washington, DC, December 13, 2011.

Hon. DAVE CAMP,  
Chairman, Committee on Ways and Means,  
House of Representatives, Washington, DC.

DEAR CHAIRMAN CAMP: I am writing in response to your letter regarding H.R. 886, the United States Marshals Service 225th Anniversary Commemorative Coin Act, which is scheduled under for Floor consideration under suspension of the rules on Tuesday, December 13, 2011.

I wish to confirm our mutual understanding on this bill. As you know, section 7 of the bill establishes a surcharge for the sale of commemorative coins that are minted under the bill. I acknowledge your committee's jurisdictional interest in such surcharges as revenue matters and appreciate your willingness to forego action by the Committee on Ways and Means on H.R. 886 in order to allow the bill to come to the Floor expeditiously. Also, I agree that your decision to forego further action on this bill will not prejudice the Committee on Ways and Means with respect to its jurisdictional prerogatives on this or similar legislation. Therefore, I would support your request for conferees on those provisions within your jurisdiction should this bill be the subject of a House-Senate conference.

I will include this exchange of letters in the Congressional Record when this bill is considered by the House. Thank you again for your assistance and if you should need anything further, please do not hesitate to contact Natalie McGarry of my staff at 202-225-7502.

Sincerely,

SPENCER BACHUS,  
*Chairman.*

I yield such time as he may consume to the gentleman from Arkansas (Mr. WOMACK), the sponsor of the bill.

Mr. WOMACK. I thank the gentleman for yielding.

Mr. Speaker, in 2005 16 cities competed for the right to become the home of the U.S. Marshals Museum. The city in my district, Fort Smith, was one of the two finalists and was ultimately chosen for many reasons, one of which was its strong historical connection to the U.S. Marshals Service.

Fort Smith was, for many years, the seat of justice, not only for the western district of Arkansas but Indian territory as well. More marshals and deputies have been killed in the line of duty out of the western district of Arkansas than any other district in the country. Most were killed riding out under famed Judge Isaac C. Parker, immortalized by the novel, "True Grit," and the movies by the same name.

A few months ago, Mr. Speaker, I introduced legislation to mint a coin to commemorate the 225th anniversary of the U.S. Marshals Service. Today I'm pleased to be standing here with the opportunity to urge my fellow Members, many of whom are cosponsors of this bill, to join me in honoring a truly deserving institution.

The proceeds from the sale of these coins will assist in the preservation and maintenance of artifacts and documents which will be displayed in the U.S. Marshals Museum. Additional proceeds will go to the Federal Law Enforcement Officers Association, the National Law Enforcement Museum, and the National Center for Missing and Exploited Children.

The museum, which will overlook the beautiful Arkansas River, will consist of 20,000 square feet of exhibit space to highlight pivotal moments in the history of the U.S. Marshals Service, such as the "Going Snake Massacre" of

April 15, 1872, which left one deputy and seven posse men dead in the bloodiest day in Marshals history. This event will be the central exhibit of this museum.

A Hall of Honor for fallen marshals will also be part of the more than \$50 million facility, paying tribute to those killed in the line of duty, from Robert Forsythe in 1794 to Deputy Marshals Derek Hotsinpiller and John Perry in 2011.

In addition to serving as a symbol and constant reminder of the character and tradition of one of America's greatest institutions, this commemorative coin will allow the U.S. Marshals Museum to honor past marshals like Bass Reeves, who, in 1875, was commissioned as one of the first African American deputy marshals west of the Mississippi River. Reeves was a skilled gunslinger, who, on one occasion, brought in 19 horse thieves to the Federal jail in Fort Smith, all by himself.

But as the Nation's oldest law enforcement agency, Bass Reeves is only one of many characters etched into the storied history of the U.S. Marshals Service, including the famous Three Guardsmen of the Oklahoma Territory, Wild Bill Hickok, the Earp brothers, Virgil, Morgan, and, briefly, Wyatt, along with Doc Holliday during the shootout at the OK Corral.

Today that same grit and courage defines the Marshals Service.

U.S. marshals were in Oxford, Mississippi, to protect James Meredith when he became the first African American to attend the University of Mississippi. U.S. marshals were in the State of Washington when convicted Soviet spy Christopher Boyce was captured when he escaped from prison. And U.S. marshals were in Oklahoma and New York to administer justice following the terrorist attacks that took the lives of innocent Americans.

Since 1789 the U.S. Marshals Service has served this country with dedication and distinction, upholding its creed of justice, integrity, and service. And today, U.S. marshals continue to play an integral role in the security of our country. They assist when tragedy strikes. They ensure the safety and well-being of Federal officials, and they track down and apprehend some of the most dangerous fugitives, murderers, sex offenders, and gang members, with little regard for their own safety.

Mr. Speaker, the U.S. Marshals Service has meant so much to so many. Over the course of history, more than 250 marshals have given that ultimate sacrifice. They have selflessly given their own lives to protect our way of life. This coin will serve as a token of our appreciation and a symbol of their sacrifice.

Mr. Speaker, there are a lot of people to thank, including the 300-plus cosponsors of this legislation who, with

their cosponsorship, made considering of this bill possible.

I want to thank Chairman BACHUS for his support in moving this bill forward through committee.

I want to thank my friend MIKE ROSS of the Fourth District of Arkansas for his personal involvement in seeking cosponsors for this legislation and his unfailing support for the construction of this museum.

I want to thank the gentleman from Arizona, ED PASTOR. ED took this legislation to the Hispanic Caucus and got widespread support there.

Thanks also to the late Ray Baker, the mayor of Fort Smith, who was in the early beginnings of the development of this museum project, and current mayor, Sandy Sanders.

I want to thank the CEO of the Marshals Museum Organization, Jim Dunn and Jim Johnson, and very soon they will be conducting nationwide campaigns to see that the funding is possible to construct this museum.

Mr. Speaker, I'm proud to have sponsored this legislation.

I also want to thank my friend, JOHN BOOZMAN, my predecessor who began this process in a previous Congress and I know will work very hard in the Senate to champion this legislation through the other body.

I'm proud to have been the sponsor, but more than anything, I'm proud of what the U.S. Marshals Service means to our country. And I am anxiously looking forward to the construction of this museum so that we can showcase the museum, the institution of the Marshals Service, and the great city of Fort Smith and the Third District of Arkansas to all who will come and see.

Mr. MEEKS. Mr. Speaker, I yield myself such time as I may consume.

I am proud to support H.R. 886, the United States Marshals Service 225th Anniversary Commemorative Coin Act.

This bill honors our Nation's oldest Federal law enforcement agency and requires the Secretary of the Treasury to mint three different coins to celebrate the Marshals' 225th anniversary.

The first President of the United States of America, George Washington, had the privilege of nominating the first 13 marshals, who were then confirmed by the Senate. Since those days of the early Republic, the Marshals have continued their brave service to the Nation. Among the duties the Marshals have undertaken include combating counterfeiting from 1789 to 1865, when the Secret Service was established; conducting the national census, from 1790 to 1879; and confiscating property used by the Confederacy during the Civil War.

Today, there is a U.S. marshal in each of the 94 Federal districts, protecting the legal system. As a former prosecutor, I can attest to the importance that marshals play in our judiciary system. U.S. marshals, among

their other duties, protect the Federal judiciary, allowing our country to maintain a system of fairness and integrity. They also protect witnesses and jurors, enabling citizens to engage in a high duty of serving their communities.

The U.S. marshals have so many great accomplishments. But one that's of special consideration for me, as a young child, one of the greatest accomplishments that I can recall is doing their service during the civil rights era, when the rule of law was under threat in the South. When riots broke out over the enrollment of James Meredith, a young African American student at Ole Miss, it was the U.S. marshals Service that protected him with a 24-hour detail for an entire year.

□ 1930

One cannot underestimate the role they played in helping desegregate the South and promoting our great Nation to the point where we are today to where even in fact the 44th President of the United States of America is an African American.

So I am pleased to pay tribute to the Marshals Service by supporting this act, and I urge my colleagues to do the same.

I reserve the balance of my time.

Mr. JONES. I have no further speakers; so I reserve the balance of my time.

Mr. MEEKS. Mr. Speaker, I yield such time as he may consume to the gentleman from Arkansas (Mr. ROSS).

Mr. ROSS of Arkansas. Mr. Speaker, I rise today in support of H.R. 886, the United States Marshals Service 225th Anniversary Commemorative Coin Act. I'm proud to be an original cosponsor of this bill and to work very closely with my colleague from Arkansas, Mr. WOMACK, to issue a commemorative coin honoring the 225th anniversary of the United States Marshals Service in helping to raise money for the U.S. Marshals museum in Fort Smith, Arkansas. The very first Congress with its very first bill created the U.S. Marshals Service when President George Washington signed the Judiciary Act of 1789. This was the same bill that created the entire Federal judicial system, and today the U.S. Marshals Service remains the Nation's oldest Federal law enforcement agency.

My home State of Arkansas has a proud chapter in the history of the U.S. Marshals Service. As a young State, Arkansas sat on the western edge of a growing Nation in the late 1800s, and it would be the U.S. marshals and their deputies based out of Fort Smith, Arkansas, that had jurisdiction over 74,000 square miles, an area where countless numbers of dangerous criminals fled into Indian territory to escape prosecution.

Home to Judge Parker's courthouse, Fort Smith became the center of law

and order in the Western United States throughout much of the late 19th century.

Charles Portis' 1968 novel "True Grit" first introduced Fort Smith, Arkansas, to many Americans and its role in the history of the U.S. Marshals Service. An Arkansan born and raised in El Dorado, Arkansas, in my congressional district, Charles Portis later saw his novel turned into the 1969 movie starring Arkansas native and recording artist, singer Glen Campbell, and John Wayne as U.S. Marshal Rooster Cogburn; and more recently, the 2010 remake of the movie featuring Jeff Bridges in the same role.

The importance of Fort Smith, Arkansas, to the U.S. Marshals Service is in part why the city will also be home to the U.S. Marshals museum, to be funded partly by sales from the U.S. Marshals Service 225th Anniversary Commemorative Coin. When finished, the U.S. Marshals museum will be a world class national museum with over 20,000 square feet helping to share the history and legacy of the U.S. Marshals Service.

Most importantly, it will serve as a memorial for all of those within the U.S. Marshals Service who gave their lives in service to our country.

Today more than 4,000 U.S. marshals, deputy marshals, and criminal investigators make up the modern U.S. Marshals Service, carrying out many of the duties first assigned to them more than two centuries ago.

Our U.S. marshals and deputy marshals protect the Federal judicial system, apprehend Federal fugitives, seize property, house and transport Federal prisoners, and operate the witness security program. They continue to risk their lives to preserve and protect law and order, the very basic tenet of our American democracy and, yes, our way of life.

Mr. Speaker, this bill, which will not add a single dime to the deficit, will allow our Nation to recognize, honor, and thank the sacrifices that so many U.S. marshals and deputy marshals have made to this country over the past 225 years. It will also generate revenue from the U.S. Marshals Service 225th anniversary Commemorative Coin sales to help build a museum in their honor in Fort Smith, Arkansas, so that this generation and the generations that follow will know the truly American story of the U.S. Marshals Service.

So, Mr. Speaker, I'm proud to join my colleague from Arkansas (Mr. WOMACK) in offering up a bipartisan bill, and I'm asking you to join me in voting for H.R. 886, the United States Marshals Service 225th Anniversary Commemorative Coin Act. Again I'd like to thank the gentleman from Arkansas, Mr. WOMACK, for his steadfast leadership and hard work to see this day become a reality.

Mr. MEEKS. Mr. Speaker, as we close, it is important for us to remember the history of our great country. And by celebrating the 225th anniversary of the United States Marshals Service, that's exactly what we're doing. By creating this museum for the preservation and the maintenance and the display of artifacts and documents—and it is important—the money, the first \$5 million in surcharge proceeds, will do just that.

But the money that's additionally raised will be utilized for great purposes. The National Center for Missing and Exploited Children will be beneficiaries, and the Federal Law Enforcement Officers Association Foundation will be beneficiaries, and the National Law Enforcement Officers Memorial Fund will be beneficiaries. And they would have to raise matching funds for a coin that is sold. These coins are for sale.

So we will be able to commemorate the United States Marshals and the service that they have rendered to this country, and in addition thereto be able to support three much-needed organizations for individuals who really need the support of those three organizations.

So I ask all of my colleagues to join us on H.R. 886, the United States Marshals Service 225th Anniversary Commemorative Coin Act, and vote "aye."

I yield back the balance of my time.

Mr. JONES. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina (Mr. JONES) that the House suspend the rules and pass the bill, H.R. 886, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. MEEKS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

□ 1940

#### DRUG TRAFFICKING SAFE HARBOR ELIMINATION ACT OF 2011

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 313) to amend the Controlled Substances Act to clarify that persons who enter into a conspiracy within the United States to possess or traffic illegal controlled substances outside the United States, or engage in conduct within the United States to aid or abet drug trafficking outside the United States, may be criminally prosecuted in the United States, and for other purposes, as amended.

The Clerk read the title of the bill.  
The text of the bill is as follows:

H.R. 313

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

*This Act may be cited as the “Drug Trafficking Safe Harbor Elimination Act of 2011”.*

**SEC. 2. AMENDMENTS TO THE CONTROLLED SUBSTANCES ACT TO CLARIFY CONSPIRACIES CONDUCTED WITHIN THE UNITED STATES MAY BE CRIMINALLY PROSECUTED IN THE UNITED STATES.**

*Section 406 of the Controlled Substances Act (21 U.S.C. 846) is amended by—*

*(1) inserting “(a)” before “Any”; and*

*(2) inserting at the end the following:*

*“(b) Whoever, within the United States, conspires with one or more persons, or aids or abets one or more persons, regardless of where such other persons are located, to engage in conduct at any place outside the United States that would constitute a violation of this title, other than a violation of section 404(a), if committed within the United States, shall be subject to the same penalties that would apply to such conduct if it were to occur within the United States.”.*

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

**GENERAL LEAVE**

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 313, as amended, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

H.R. 313, the Drug Trafficking Safe Harbor Elimination Act of 2011, introduced by the gentleman from California (Mr. SCHIFF) and me, closes a loophole in Federal law.

Drug traffickers are currently exempt from prosecution in the United States when they conspire to traffic drugs outside of the United States. This bill clarifies Congress' intent that the drug trafficking conspiracy statute should be given extraterritorial application. A Federal criminal case demonstrates how the loophole is being exploited.

In 1998 two individuals conspired with members of a large Colombian drug trafficking organization and a Saudi Arabian prince. The goal of the conspiracy was to traffic 2,000 kilograms of cocaine, worth over \$100 million, from South America to Europe. Several meetings among the co-conspirators occurred in Miami, Florida, and elsewhere around the world.

Specifically while in Miami, they planned in detail to purchase the cocaine in Colombia and ship it to Europe for distribution.

The prince used his royal jet under the cover of diplomatic immunity to transport the cocaine from Venezuela to Paris, France. Although part of the cocaine was seized by law enforcement authorities in France and Spain, about 1,000 kilograms of cocaine were distributed and sold in the Netherlands, Italy, and elsewhere in Europe.

In 2005 two of the conspirators were convicted of drug trafficking and conspiracy in the Federal district court in Florida, and each was sentenced to over 20 years in prison. However, in 2007 the U.S. Court of Appeals for the Eleventh Circuit vacated their convictions. The court reasoned that there is no violation of Federal law when, absent congressional intent, the object of the conspiracy is to possess and distribute controlled substances outside of the United States. This is true even though meetings and negotiations to further the crime occurred on U.S. soil.

Crime is usually a territorial issue, specific to the place where the crime occurs. However, drug trafficking is inherently global in nature now more than ever. In fact, two other provisions of the Controlled Substances Act are already explicitly extraterritorial as they relate to narcoterrorism, terrorism financed through drug trafficking and the foreign manufacture of drugs for importation into the United States. The primary anti-money laundering statute used in drug trafficking cases is also extraterritorial.

Three years ago, Congress enacted the Federal Maritime Drug Law Enforcement Act in response to the increase in use of vessels to traffic drugs around the world. Congress gave this law express extraterritorial effect.

Congress stated “that trafficking in controlled substances aboard vessels is a serious international problem and is universally condemned. Moreover, such trafficking presents a specific threat to the security and societal well-being of the United States.”

The United States is a signatory to two major international drug-control treaties. Of the 194 countries in the world today, 184 are parties to the 1961 Convention on Narcotic Drugs, which acts as the foundation for most of the world's drug trafficking laws. Drug trafficking is a global problem, universally condemned by law-abiding nations.

Some argue that a person should not be subject to the new conspiracy offense created by this bill unless his conduct is expressly illegal in every country where the drug trafficking occurs. Such a requirement is rarely, if ever, imposed on extraterritorial statutes.

In fact, my colleagues on the other side of the aisle are proponents of a

number of extraterritorial laws that contain no requirement that the conduct be illegal in the country where it occurs. Such crimes include genocide, the recruitment or use of child soldiers, or the use of semi-submersible submarines.

These laws are significantly broader than the bill before us today because they do not require any illegal conduct to occur inside the United States. H.R. 313, however, does require that the conspiracy to traffic drugs take place here in the U.S. This legislation is narrowly tailored to reach drug trafficking conspiracies that occur on U.S. soil, but which promote the global distribution of drugs. To require the government to prove that the crime violated foreign law would also render this law essentially ineffective.

Drugs are not simply manufactured in one country and sold in another. Drug shipments make several stops along the way to their final destinations. For instance, cocaine is manufactured and processed in Colombia. It will likely be shipped by ground to Venezuela. It may then be put in a shipping container, transit several Caribbean islands, and then be sent to Africa or Europe. It could be off-loaded in Spain, divided up into smaller, but substantial, shipments and wind up in a dozen European countries. The proceeds from this multi-million-dollar shipment will make their way through the banking systems of a dozen other countries before being delivered to Colombia.

The government should not be required to prove that each of these acts violated each country's laws to prove that the traffickers plotted their conspiracies inside the U.S.

This bill, as amended in the Judiciary Committee with unanimous bipartisan support, excludes conspiracies to possess drugs. This legislation aims to eliminate the safe harbor for drug traffickers and distributors whose primary motive is financial gain. If we do not pass this bill, we continue to invite drug traffickers to plan their schemes within our borders.

The United States should not provide a safe haven for the world's drug traffickers to plot their international drug trafficking operations. This common-sense bill prevents drug traffickers from benefiting from their legal exemption from prosecution, and it tells drug traffickers not to plot their illegal activities in the U.S. If they do, they will be brought to justice.

I do want to thank Mr. SCHIFF again for sponsoring this legislation with me, and I urge my colleagues to support this bill.

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES, COM-  
MITTEE ON ENERGY AND COM-  
MERCE,

*Washington, DC, October 26, 2011.*

Hon. LAMAR SMITH,  
*Chairman, Committee on the Judiciary, Wash-  
ington, DC.*

DEAR CHAIRMAN SMITH: I am writing concerning H.R. 313, the "Drug Trafficking Safe Harbor Elimination Act of 2011," which was ordered to be reported out of your Committee on October 6, 2011. I wanted to notify you that the Committee on Energy and Commerce will forgo action on H.R. 313 so that it may proceed expeditiously to the House floor for consideration.

This is being done with the understanding that the Committee on Energy and Commerce is not waiving any of its jurisdiction, and the Committee will not in any way be prejudiced with respect to the appointment of conferees or its jurisdictional prerogatives on this or similar legislation.

I would appreciate your response to this letter, confirming this understanding, and ask that a copy of our exchange of letters on this matter be included in the Congressional Record during consideration of H.R. 313 on the House floor.

Sincerely,

FRED UPTON,  
*Chairman.*

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES, COM-  
MITTEE ON THE JUDICIARY,

*Washington, DC, October 26, 2011.*

Hon. FRED UPTON,  
*Chairman, House Committee on Energy and  
Commerce, Washington, DC.*

DEAR CHAIRMAN UPTON: Thank you for your letter regarding H.R. 313, the "Drug Trafficking Safe Harbor Elimination Act of 2011," which was reported favorably by the Committee on the Judiciary on October 6, 2011. This bill was also referred to the Committee on Energy and Commerce.

I am most appreciative of your decision to discharge the Committee on Energy and Commerce from consideration of H.R. 313 so that it may move expeditiously to the House floor. I agree that while you are waiving formal consideration of the bill, the Committee on Energy and Commerce is in no way waiving its jurisdiction over the subject matter contained in the bill. In addition, if a conference is necessary on this bill, I will support any request to have the Committee on Energy and Commerce represented.

Finally, I would be pleased to include our exchange of letters in the Congressional Record during floor consideration of this bill.

Sincerely,

LAMAR SMITH,  
*Chairman.*

I reserve the balance of my time.

Mr. SCOTT of Virginia. Mr. Speaker, I yield myself such time as I may consume.

I rise in opposition to H.R. 313, a bill that does not make us any safer. In our zealotness to make drug laws as tough as possible, we are now considering an expansion of Federal criminal law to conspiracies to engage in drug activity that occur completely out of the United States.

The reason this bill has been introduced, as the gentleman from Texas has pointed out, is at least partly due

to the Eleventh Circuit Court of Appeals decision in 2007 in the Lopez-Vanegas case. The court overturned the conviction of two people who formed an agreement in the United States to transport cocaine from Venezuela to France. The court ruled that current law only applies to conspiracies to distribute drugs in which some of the activity occurs in the United States. Under this bill, some of the conspiracies could be prosecuted even if the drug activity that is the subject of the conspiracy is not illegal where the transaction is going to take place.

For example, the use and the production and the distribution of marijuana for medicinal purposes are all legal in a number of countries, including Canada. Canadians and other citizens involved in legal medical marijuana programs in their countries could face Federal prosecution if they visit the United States and engage in agreements here in the United States or advance or finance their businesses in Canada. They could be discussing legal transactions in Canada, but the activity is illegal in the United States.

So the agreement in the United States under this bill would constitute an illegal conspiracy, and it would be subject to all of the criminal penalties for drug transactions. In fact, someone would be better off just going to Canada and engaging in the legal drug activity rather than simply making arrangements for the activity by discussing it in the United States.

□ 1950

Unfortunately, the committee failed to adopt an amendment to exclude discussions of activity that may be illegal in the United States but would be legal everywhere that the transaction is to take place.

Now, if one believes that we do have an interest in covering some of these conspiracies under United States law, we should at least confine the law to cover large-scale trafficking. Unfortunately, the committee failed to adopt an amendment to do that, so even small transactions get caught up by this bill, transactions that are legal where they are occurring. And when they get caught up in discussing transactions that are legal where they take place, they're subject to draconian mandatory minimum sentences.

I would note that it is an unfortunate fact that, under our criminal law, we rely too much on mandatory minimums. This bill would subject even more people to them.

Mandatory minimum sentences have been extensively studied, and the conclusions on all of those studies show that the mandatory minimums are unjust; they cause prison overcrowding and are a waste of taxpayers' money. The Federal prison population is currently over 210,000 inmates, nearly a fivefold increase in just a few decades;

and that explosion in population is due, to a large extent, to mandatory minimums.

Mandatory minimums do not account for the individual circumstances of the crime or the defendant. The judicial counsel has warned us that, if a mandatory minimum sentence is appropriate, it can be imposed without a mandatory minimum. But with the mandatory minimum, if it violates common sense, it has to be imposed anyway.

In the past few years, numerous high-profile conservative leaders have expressed opposition to mandatory minimum sentencing laws. Some of those conservative expressions came from the Americans for Tax Reform president, Grover Norquist; the American Civil Rights Institute president, Ward Connerly; National Rifle Association president, David Keene; and Justice Fellowship president, Pat Nolan, all of whom have called mandatory sentences into question.

This bill is seemingly an effort to leave no stone unturned in prohibiting any drug transaction from occurring anywhere, even if it doesn't impact the United States. There may be some parts of the bill that are worthwhile. It covers, of course, multimillion-dollar international drug conspiracies, but it also covers small transactions. And to the extent that people will be subject to long mandatory minimums for doing something that is legal, for talking about something that is legal where it is to take place, this bill makes no sense and should be defeated.

I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, we are prepared to close; so I will reserve the balance of my time.

Mr. SCOTT of Virginia. I yield such time as he may consume to the gentleman from California (Mr. SCHIFF).

Mr. SCHIFF. Mr. Speaker, I thank the gentleman from Virginia for yielding. I am pleased to join with my friend, the distinguished chairman of the Judiciary Committee, in supporting this bipartisan bill. Chairman SMITH has been a leader on this issue, and we worked together on it in a prior Congress.

This bill targets a narrow loophole in the Controlled Substances Act which has been exploited by drug traffickers, and the case that particularly brings home this problem is the case that the chairman mentioned.

In 1998 two individuals conspired with Colombian drug cartels to traffic 2,000 kilos of cocaine from South America to Europe. They met in Miami to work out the details of this \$100 million transaction. In 2005, following an extensive Federal investigation, they were convicted of drug trafficking and conspiracy and were sentenced to around 24 years in prison, each.

However, in 2007 the 11th Circuit Court of Appeals overturned these convictions. The court found that the way

Congress had worded the conspiracy portion of the Controlled Substances Act meant that the conspiracy had to involve trafficking drugs to or from the United States, a condition that was not satisfied in that case. The result of the court's finding is that, in the United States, a drug trafficker can plan and coordinate the shipment of millions of dollars of drugs between our friends and allies yet be beyond the reach of our Nation's laws.

Mr. Speaker, I think this is clearly wrong and not the intent of Congress in passing the Controlled Substances Act. H.R. 313 would close that loophole. In doing so, it doesn't break new ground. Many criminal laws currently on our books have extra territorial reach, including some portions of the Controlled Substances Act itself.

Drug trafficking, by its very nature, is a global problem, and the laws and treaties that fight it must take that into consideration. When we look at the damage the drug cartels have inflicted in countries like Colombia and Mexico, not to mention the devastation their trade causes in the United States, the case for this bill becomes quite clear.

The bill is narrowly crafted to apply only to those who conspire to traffic or distribute narcotics. And with the adoption of the manager's amendment in the Judiciary Committee, it was narrowed further to address concerns that conspiracy charges could apply to only those who sought to possess narcotics overseas. The bill will not open anyone to prosecution for simply discussing the possession of narcotics overseas. It deals only with commerce, not simply speech—the trafficking and distribution of drugs.

Once again, I want to thank Chairman SMITH for his leadership on this important bill, and I urge that we pass the measure.

Mr. SCOTT of Virginia. Mr. Speaker, I yield such time as he may consume to the gentleman from Tennessee (Mr. COHEN).

Mr. COHEN. I want to thank the gentleman from Virginia (Mr. SCOTT) for the time. I also want to thank the gentleman from Texas, the chairman of the Judiciary Committee, for the way he runs his committee. He is an outstanding chairman and a gentleman.

And I appreciate the fact that in this bill, on which the gentleman from Virginia has given much of the argument that I, otherwise, would have made about its failings, that Mr. SMITH did accept an amendment to take the possession charges out of it. So possession of drugs is not in it, and that was an improvement.

But, nevertheless, one of the amendments that we did discuss in committee that still bothers me is that the activities could have been entirely legal in the country where they took place. Amsterdam or Holland—Holland

is the country which I was thinking of—the Netherlands. And we discussed it in committee. Mr. SCOTT mentioned medical marijuana being legal in Canada as well as in Israel. But a lot of drugs are legal and transactions in Holland. And if two Americans talked on the phone about going to Holland and buying some marijuana and maybe trading it with somebody else in Holland where it would be legal, it would be a violation of the law in the United States based on this particular statute. And that's what's called an overly broad law, when it captures conduct that it really isn't intended to do.

I don't think—and I hope that the people who voted for this didn't intend for it to criminalize speech when the actions in the country where the act took place were legal. I hope they wouldn't have been thinking that. And on the Judiciary Committee, in particular, we should be very, very circumscribed in what we pass because we're taking people's liberty from them. And "liberty" is one of the words inscribed up here, I think, in front of the panel. It is one of the things America holds so dear.

This Thursday, we are going to be celebrating the 220th passage of the Bill of Rights. And the Bill of Rights gives people the freedom of speech and quite a few freedoms from government oppression and government activities.

To suggest that this is a loophole, I think, is a mistake. I think it was not intended by this Congress to criminalize behavior, particularly behavior that was legal in the country where it took place.

In the situation that the gentleman from Texas describes, where some people got together in Miami to discuss drugs from Colombia that were flown from Venezuela to France and purchased in the Netherlands, Italy, and elsewhere, I don't think that they were in Miami because they thought that was a loophole. I think they were in Miami because they liked Miami. And why wouldn't you? Miami is a great place. They weren't there because it was a loophole. They just happened to be there. And I don't think anybody foresaw that as being illegal conduct. They could have discussed that in Paris or in Caracas or anywhere else. They didn't facilitate the crime, per se. What they did was illegal in all those different countries, and they could have been prosecuted there.

I would submit to you, also, that this Nation and this world almost came to its knees because of derivatives and financial instruments created here in the United States, created here—not just talked about on Wall Street. But it had a global effect because those derivatives affected banks in Europe and all around the world. And as we almost came to our knees because of the criminal activities of people making lots of money with greed, Gekko greed,

other people around the world suffered as well economically. But we're not rushing here to criminalize talks between people in Washington and Wall Street and people in Paris about derivatives, about subprime loans, about ways to make money at the expense of poor people and possibly bring the world to its knees economically; that, we're not discussing. But we are discussing the possibility of putting people in jail for going to Amsterdam and talking about buying some marijuana. Something smells foul, and that's why I oppose the bill.

□ 2000

Mr. SCOTT of Virginia. Mr. Speaker, I yield myself such time as I may consume.

Just finally, we can cover the international drug conspiracies with a reasonably drawn bill. Unfortunately, this bill not only covers the international drug conspiracies, but also, as the gentleman from Tennessee has pointed out, those who are ensnared by doing things that are legal where they occur, but if you agree to do it in the United States, it is all of a sudden a drug conspiracy that'll subject you to all kinds of mandatory minimums.

I would hope that we would defeat this bill, start from scratch and draw a bill that covers what ought to be covered and leaves out what ought not be covered. Agreeing to go to Canada or go to Amsterdam to do something which is legal ought not be a criminal conspiracy in the United States.

With that, Mr. Speaker, I hope we will defeat the bill, and I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, let me try again to address some of the concerns of two of my colleagues on the Judiciary Committee. I want to re-emphasize that extraterritorial laws do not require that the conduct be illegal in foreign countries.

Congress has enacted numerous laws with extraterritorial effect. Our decision to do so rarely, if ever, hinges on whether the conduct is also criminalized in the foreign country.

Once again, terrorism, drug-related money laundering, genocide, child soldiers—these are all extraterritorial offenses that do not require that the conduct also be against the law in a foreign country.

Moreover, most extraterritorial statutes don't even require that the criminal engage in any illegal conduct inside the United States either. If they engage in terrorism or money laundering or genocide in a foreign country and simply come into the U.S., they can be prosecuted.

The issue of conduct being criminal in a foreign country is not addressed in extraterritorial laws but in extradition treaties.

Also, extradition treaties do not require that conduct be illegal in foreign

countries. Before the U.S. can extradite anyone for violation of U.S. law, it must first establish “dual criminality” as required by most extradition treaties.

Dual criminality is the principle that a crime in one country has to be a crime in a country extraditing you.

If a drug trafficker engages in a conspiracy here in the U.S., but is later apprehended in a foreign country, the government will have to establish that dual criminality to extradite him back to the U.S.

The extradition laws and treaties among the countries of the world properly provide for this. This principle is rightly excluded from this legislation because it already exists in Federal law.

Finally, Mr. Speaker, I want to also emphasize that the Obama administration clearly supports this legislation. The Department of Justice supported similar legislation in the last Congress, and the Department of Justice stands by its position, as expressed in the 2010 views letters, and supports this legislation tonight.

I urge my colleagues to support this very strong bipartisan piece of legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 313, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## IRAN THREAT REDUCTION ACT OF 2011

Ms. ROS-LEHTINEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1905) to strengthen Iran sanctions laws for the purpose of compelling Iran to abandon its pursuit of nuclear weapons and other threatening activities, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1905

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Iran Threat Reduction Act of 2011”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Findings.
- Sec. 3. Statement of policy.

### TITLE I—IRAN ENERGY SANCTIONS

- Sec. 101. Findings.
- Sec. 102. Sense of Congress.
- Sec. 103. Declaration of policy.
- Sec. 104. Multilateral regime.

- Sec. 105. Imposition of sanctions.
- Sec. 106. Description of sanctions.
- Sec. 107. Advisory opinions.
- Sec. 108. Termination of sanctions.
- Sec. 109. Duration of sanctions.
- Sec. 110. Reports required.
- Sec. 111. Determinations not reviewable.
- Sec. 112. Definitions.
- Sec. 113. Effective date.
- Sec. 114. Repeal.

### TITLE II—IRAN FREEDOM SUPPORT

- Sec. 201. Codification of sanctions.
- Sec. 202. Liability of parent companies for violations of sanctions by foreign subsidiaries.
- Sec. 203. Declaration of Congress regarding United States policy toward Iran.
- Sec. 204. Assistance to support democracy in Iran.
- Sec. 205. Imposition of sanctions on certain persons who are responsible for or complicit in human rights abuses committed against citizens of Iran or their family members after the June 12, 2009, elections in Iran.
- Sec. 206. Clarification of sensitive technologies for purposes of procurement ban.
- Sec. 207. Comprehensive strategy to promote internet freedom and access to information in Iran.

### TITLE III—IRAN REGIME AND IRAN’S ISLAMIC REVOLUTIONARY GUARD CORPS ACCOUNTABILITY

- Sec. 301. Iran’s Islamic Revolutionary Guard Corps.
- Sec. 302. Additional export sanctions against Iran.
- Sec. 303. Sanctions against affiliates of Iran’s Islamic Revolutionary Guard Corps.
- Sec. 304. Measures against foreign persons or entities supporting Iran’s Islamic Revolutionary Guard Corps.
- Sec. 305. Special measures against foreign countries supporting Iran’s Islamic Revolutionary Guard Corps.
- Sec. 306. Authority of State and local governments to restrict contracts or licenses for certain sanctionable persons.
- Sec. 307. Iranian activities in Iraq and Afghanistan.
- Sec. 308. United States policy toward Iran.
- Sec. 309. Definitions.
- Sec. 310. Rule of construction.

### TITLE IV—IRAN FINANCIAL SANCTIONS; DIVESTMENT FROM CERTAIN COMPANIES THAT INVEST IN IRAN; AND PREVENTION OF DIVERSION OF CERTAIN GOODS, SERVICES, AND TECHNOLOGIES TO IRAN

- Sec. 401. Iran financial sanctions.
- Sec. 402. Divestment from certain companies that invest in Iran.
- Sec. 403. Prevention of diversion of certain goods, services, and technologies to Iran.

### TITLE V—SECURITIES AND EXCHANGE COMMISSION

- Sec. 501. Disclosures to the Securities and Exchange Commission relating to sanctionable activities.

### TITLE VI—GENERAL PROVISIONS

- Sec. 601. Denial of visas for certain persons of the Government of Iran.
- Sec. 602. Inadmissibility of certain aliens who engage in certain activities with respect to Iran.

- Sec. 603. Amendments to civil and criminal penalties provisions under the International Emergency Economic Powers Act.

- Sec. 604. Exclusion of certain activities.

- Sec. 605. Regulatory authority.

- Sec. 606. Sunset.

### SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Successive administrations have clearly identified the unacceptability of the Iranian regime’s pursuit of nuclear weapons capabilities and the danger that pursuit presents to the United States, to our friends and allies, and to global security.

(2) In May 1995, President Clinton stated that “The specter of an Iran armed with weapons of mass destruction and the missiles to deliver them haunts not only Israel but the entire Middle East and ultimately all the rest of us as well. The United States and, I believe, all the Western nations have an overriding interest in containing the threat posed by Iran.”

(3) In the 2006 State of the Union Address, President Bush stated that “The Iranian government is defying the world with its nuclear ambitions, and the nations of the world must not permit the Iranian regime to gain nuclear weapons. America will continue to rally the world to confront these threats.”

(4) In February 2009, President Obama committed the Administration to “developing a strategy to use all elements of American power to prevent Iran from developing a nuclear weapon”.

(5) Iran is a major threat to United States national security interests, not only exemplified by Tehran’s nuclear program but also by its material assistance to armed groups in Iraq and Afghanistan, to the Palestinian group Hamas, to Lebanese Hezbollah, the Government of Syria, and to other extremists that seek to undermine regional stability. These capabilities provide the regime with potential asymmetric delivery vehicles and mechanisms for nuclear or other unconventional weapons.

(6) Iran’s growing inventory of ballistic missile and other destabilizing types of conventional weapons provides the regime the capabilities to enhance its power projection throughout the region and undermine the national security interests of the United States and its friends and allies.

(7) Were Iran to achieve a nuclear weapons capability, it would, inter alia—

(A) likely lead to the proliferation of such weapons throughout the region, where several states have already indicated interest in nuclear programs, and would dramatically undercut 60 years of United States efforts to stop the spread of nuclear weapons;

(B) greatly increase the threat of nuclear terrorism;

(C) significantly expand Iran’s already-growing influence in the region;

(D) insulate the regime from international pressure, giving it wider scope further to oppress its citizens and pursue aggression regionally and globally;

(E) embolden all Iranian-supported terrorist groups, including Hamas and Hezbollah; and

(F) directly threaten several United States friends and allies, especially Israel, whose very right to exist has been denied successively by every leader of the Islamic Republic of Iran and which Iranian President Ahmadinejad says should be “wiped off the map”.

(8) Successive Congresses have clearly recognized the threat that the Iranian regime and its policies present to the United States,

to our friends and allies, and to global security, and responded with successive bipartisan legislative initiatives.

(9) The extent of the Iranian threat is greater today than when the Iran and Libya Sanctions Act of 1996 was signed into law, now known as the Iran Sanctions Act of 1996. That landmark legislation imposed sanctions on foreign companies investing in Iran's energy infrastructure in an effort to undermine the strategic threat from Iran, by cutting off investment in its petroleum sector and thereby denying the regime its economic lifeline and its ability to pursue a nuclear program.

(10) Laws such as the Iran and Libya Sanctions Act of 1996, which was retitled the Iran Sanctions Act of 1996, paved the way for the enactment of similar laws, such as the Iran, North Korea and Syria Nonproliferation Act, the Iran-Iraq Arms Non-Proliferation Act of 1992, the Iran Freedom Support Act, and the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010.

(11) United States sanctions on Iran have hindered Iran's ability to attract capital, material, and technical support for its petroleum sector, creating financial difficulties for the regime.

(12) In the Joint Explanatory Statement of the Committee of Conference to the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 50 U.S.C. 1701 note) issued on June 23, 2010, the Members of the Committee of Conference noted that "Although [the Iran Sanctions Act] was enacted more than a decade ago, no Administration has sanctioned a foreign entity for investing \$20 million or more in Iran's energy sector, despite a number of such investments. Indeed, on only one occasion, in 1998, did the Administration make a determination regarding a sanctions-triggering investment, but the Administration waived sanctions against the offending persons. Conferees believe that the lack of enforcement of relevant enacted sanctions may have served to encourage rather than deter Iran's efforts to pursue nuclear weapons."

(13) The Joint Explanatory Statement also noted that "The effectiveness of this Act will depend on its forceful implementation. The Conferees urge the President to vigorously impose the sanctions provided for in this Act."

(14) The Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 mandates among other provisions that the President initiate investigations of potentially sanctionable activity under the Iran Sanctions Act of 1996. Although more than 16 months have passed since enactment of this legislation, Congress has not received notice of the imposition of sanctions on any entities that do significant business in the United States, despite multiple reports of potentially sanctionable activity by such entities. Although, in accordance with the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010, some potentially sanctionable entities have been persuaded to wind down and end their involvement in Iran, others have not.

(15) It is unlikely that Iran can be compelled to abandon its pursuit of nuclear weapons unless sanctions are fully and effectively implemented.

### SEC. 3. STATEMENT OF POLICY.

It shall be the policy of the United States to—

(1) prevent Iran from—

(A) acquiring or developing nuclear weapons and associated delivery capabilities;

(B) developing its unconventional weapons and ballistic missile capabilities; and

(C) continuing its support for foreign terrorist organizations and other activities aimed at undermining and destabilizing its neighbors and other nations; and

(2) fully implement all multilateral and bilateral sanctions against Iran in order to deprive the Government of Iran of necessary resources and to compel the Government of Iran to—

(A) abandon and verifiably dismantle its nuclear capabilities;

(B) abandon and verifiably dismantle its ballistic missile and unconventional weapons programs; and

(C) cease all support for foreign terrorist organizations and other activities aimed at undermining and destabilizing its neighbors and other nations.

## TITLE I—IRAN ENERGY SANCTIONS

### SEC. 101. FINDINGS.

Congress makes the following findings:

(1) The efforts of the Government of Iran to achieve nuclear weapons capability and to acquire other unconventional weapons and the means to deliver them, both through ballistic missile and asymmetric means, and its support for foreign terrorist organizations and other extremists endanger the national security and foreign policy interests of the United States and those countries with which the United States shares common strategic and foreign policy objectives.

(2) The objectives of preventing the proliferation of nuclear and other unconventional weapons and countering the activities of foreign terrorist organizations and other extremists through existing multilateral and bilateral initiatives require further efforts to deny Iran the financial means to sustain its nuclear, chemical, biological, and missile weapons programs and its active support for terrorism.

(3) The Government of Iran uses its diplomatic facilities and quasi-governmental institutions outside of Iran to support foreign terrorist organizations and other extremists, and assist its unconventional weapons and missile programs, including its nuclear program.

### SEC. 102. SENSE OF CONGRESS.

It is the sense of Congress that the goal of compelling Iran to abandon its pursuit of nuclear weapons and other threatening activities can be achieved most effectively through full implementation of all sanctions enacted into law, including those sanctions set out in this title.

### SEC. 103. DECLARATION OF POLICY.

Congress declares that it is the policy of the United States to deny Iran the ability to support acts of foreign terrorist organizations and extremists and develop unconventional weapons and ballistic missiles. A critical means of achieving that goal is sanctions that limit Iran's ability to develop its energy resources, including its ability to explore for, extract, refine, and transport by pipeline its hydrocarbon resources, in order to limit the funds Iran has available for pursuing its objectionable activities.

### SEC. 104. MULTILATERAL REGIME.

(a) MULTILATERAL NEGOTIATIONS.—In order to further the objectives of section 103 of this Act, Congress urges the President immediately to initiate diplomatic efforts, both in appropriate international fora such as the United Nations, and bilaterally with allies of the United States, to expand the multilateral sanctions regime regarding Iran, including—

(1) qualitatively expanding the United Nations Security Council sanctions regime against Iran;

(2) qualitatively expanding the range of sanctions by the European Union, South Korea, Japan, Australia, and other key United States allies;

(3) further efforts to limit Iran's development of petroleum resources and import of refined petroleum; and

(4) initiatives aimed at increasing non-Iranian crude oil product output for current purchasers of Iranian petroleum and petroleum byproducts.

(b) REPORTS TO CONGRESS.—Not later than 180 days after the date of the enactment of this Act, and annually thereafter, the President shall submit to the appropriate congressional committees a report on the extent to which diplomatic efforts described in subsection (a) have been successful. Each report shall include—

(1) the countries that have agreed to undertake measures to further the objectives of section 103 of this Act with respect to Iran, and a description of those measures; and

(2) the countries that have not agreed to measures described in paragraph (1), and, with respect to those countries, other measures the President recommends that the United States take to further the objectives of section 103 of this Act with respect to Iran.

(c) INTERIM REPORT ON MULTILATERAL SANCTIONS; MONITORING.—Not later than 90 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a report on—

(1) the countries that have established legislative or administrative standards providing for the imposition of trade sanctions on persons or their affiliates that conduct business or have investments in Iran;

(2) the extent and duration of each instance of the application of such sanctions; and

(3) the disposition of any decision with respect to such sanctions by the World Trade Organization or its predecessor organization.

### (d) INVESTIGATIONS.—

(1) IN GENERAL.—The President shall initiate an investigation into the possible imposition of sanctions under section 105 of this Act against a person upon receipt by the United States of credible information indicating that such person is engaged in an activity described in such section.

(2) DETERMINATION AND NOTIFICATION.—Not later than 180 days after the date on which an investigation is initiated under paragraph (1), the President shall (unless paragraph (6) applies) determine, pursuant to section 105 of this Act, if a person has engaged in an activity described in such section and shall notify the appropriate congressional committees of the basis for any such determination.

### (3) BRIEFING.—

(A) IN GENERAL.—Not later than 30 days after the date of the enactment of this Act, and at the end of every 3-month period thereafter, the President, acting through the Secretary of State, shall brief the appropriate congressional committees regarding investigations initiated under this subsection.

(B) FORM.—The briefings required under subparagraph (A) shall be provided in unclassified form, but may be provided in classified form.

### (4) SUBMISSION OF INFORMATION.—

(A) IN GENERAL.—The Secretary of State shall, in accordance with section 15(b) of the State Department Basic Authorities Act of

1956 (22 U.S.C. 2680(b)), provide to the appropriate congressional committees all requested information relating to investigations or reviews initiated under this title, including the number, scope, and dates of such investigations or reviews.

(B) FORM.—The information required under subparagraph (A) shall be provided in unclassified form, but may contain a classified annex.

(5) TERMINATION.—Subject to paragraph (6), the President may, on a case-by-case basis, terminate an investigation of a person initiated under this subsection.

(6) SPECIAL RULE.—

(A) IN GENERAL.—The President need not initiate an investigation, and may terminate an investigation, on a case-by-case basis under this subsection if the President certifies in writing to the appropriate congressional committees 15 days prior to the determination that—

(i) the person whose activity was the basis for the investigation is no longer engaging in the activity or is divesting all holdings and terminating the activity within one year from the date of the certification; and

(ii) the President has received reliable assurances that the person will not knowingly engage in an activity described in section 105(a) of this Act in the future.

(B) APPLICATION OF SANCTIONS.—The President shall apply the sanctions described in section 106(a) of this Act in accordance with section 105(a) of this Act to a person described in subparagraph (A) if—

(i) the person fails to verifiably divest all holdings and terminate the activity described in subparagraph (A) of this paragraph within one year from the date of certification of the President under subparagraph (A); or

(ii) the person has been previously designated pursuant to section 4(e)(3) of the Iran Sanctions Act of 1996, as in effect on the day before the date of the enactment of this Act, and fails to verifiably divest all holdings and terminate the activity described in subparagraph (A) within 180 days from the date of enactment of this Act.

(C) REPORT.—Not later than 90 days after the date of enactment of this Act, the President shall transmit to the appropriate congressional committees a report on the actions taken by persons previously designated pursuant to section 4(e)(3) of the Iran Sanctions Act of 1996, as in effect on the day before the date of the enactment of this Act, to verifiably divest all holdings and terminate the activity described in subparagraph (A).

#### SEC. 105. IMPOSITION OF SANCTIONS.

(a) SANCTIONS WITH RESPECT TO THE DEVELOPMENT OF PETROLEUM RESOURCES OF IRAN, PRODUCTION OF REFINED PETROLEUM PRODUCTS IN IRAN, AND EXPORTATION OF REFINED PETROLEUM PRODUCTS TO IRAN.—

(1) DEVELOPMENT OF PETROLEUM RESOURCES OF IRAN.—

(A) IN GENERAL.—Except as provided in subsection (f), the President shall impose a majority of the sanctions described in section 106(a) of this Act with respect to a person if the President determines that the person knowingly, on or after the date of the enactment of this Act—

(i) makes an investment described in subparagraph (B) of \$20,000,000 or more; or

(ii) makes a combination of investments described in subparagraph (B) in a 12-month period if each such investment is of at least \$5,000,000 and such investments equal or exceed \$20,000,000 in the aggregate.

(B) INVESTMENT DESCRIBED.—An investment described in this subparagraph is an in-

vestment that directly and significantly contributes to the enhancement of Iran's ability to develop petroleum resources.

(2) PRODUCTION OF REFINED PETROLEUM PRODUCTS.—

(A) IN GENERAL.—Except as provided in subsection (f), the President shall impose a majority of the sanctions described in section 106(a) of this Act with respect to a person if the President determines that the person knowingly, on or after the date of the enactment of this Act, sells, leases, or provides to Iran goods, services, technology, information, or support described in subparagraph (B)—

(i) any of which has a fair market value of \$1,000,000 or more; or

(ii) that, during a 12-month period, have an aggregate fair market value of \$5,000,000 or more.

(B) GOODS, SERVICES, TECHNOLOGY, INFORMATION, OR SUPPORT DESCRIBED.—Goods, services, technology, information, or support described in this subparagraph are goods, services, technology, information, or support that could directly and significantly facilitate the maintenance or expansion of Iran's domestic production of refined petroleum products, including any direct and significant assistance with respect to the construction, modernization, or repair of petroleum refineries or associated infrastructure, including construction of port facilities, railways, and roads, the primary use of which is to support the delivery of refined petroleum products.

(3) EXPORTATION OF REFINED PETROLEUM PRODUCTS TO IRAN.—

(A) IN GENERAL.—Except as provided in subsection (f), the President shall impose a majority of the sanctions described in section 106(a) of this Act with respect to a person if the President determines that the person knowingly, on or after the date of the enactment of this Act—

(i) sells or provides to Iran refined petroleum products—

(I) that have a fair market value of \$1,000,000 or more; or

(II) that, during a 12-month period, have an aggregate fair market value of \$5,000,000 or more; or

(ii) sells, leases, or provides to Iran goods, services, technology, information, or support described in subparagraph (B)—

(I) any of which has a fair market value of \$1,000,000 or more; or

(II) that, during a 12-month period, have an aggregate fair market value of \$5,000,000 or more.

(B) GOODS, SERVICES, TECHNOLOGY, INFORMATION, OR SUPPORT DESCRIBED.—Goods, services, technology, information, or support described in this subparagraph are goods, services, technology, information, or support that could directly and significantly contribute to the enhancement of Iran's ability to import refined petroleum products, including—

(i) except as provided in subparagraph (C), underwriting or entering into a contract to provide insurance or reinsurance for the sale, lease, or provision of such goods, services, service contracts, technology, information, or support;

(ii) financing or brokering such sale, lease, or provision;

(iii) bartering or contracting by which the parties exchange goods for goods, including the insurance or reinsurance of such exchanges;

(iv) purchasing, subscribing to, or facilitating the issuance of sovereign debt of the Government of Iran, including governmental bonds; or

(v) providing ships or shipping services to deliver refined petroleum products to Iran.

(C) EXCEPTION FOR UNDERWRITERS AND INSURANCE PROVIDERS EXERCISING DUE DILIGENCE.—The President may not impose sanctions under this paragraph with respect to a person that provides underwriting services or insurance or reinsurance if the President determines that the person has exercised due diligence in establishing and enforcing official policies, procedures, and controls to ensure that the person does not underwrite or enter into a contract to provide insurance or reinsurance for the sale, lease, or provision of goods, services, technology, information, or support described in subparagraph (B).

(4) PURCHASE, SUBSCRIPTION TO, OR FACILITATION OF THE ISSUANCE OF IRANIAN SOVEREIGN DEBT.—Except as provided in subsection (f), the President shall impose a majority of the sanctions described in section 106(a) of this Act with respect to a person if the President determines that the person knowingly, on or after the date of the enactment of this Act, purchases, subscribes to, or facilitates the issuance of—

(A) sovereign debt of the Government of Iran, including governmental bonds; or

(B) debt of any entity owned or controlled by the Government of Iran, including bonds.

(b) MANDATORY SANCTIONS WITH RESPECT TO DEVELOPMENT OF WEAPONS OF MASS DESTRUCTION OR OTHER MILITARY CAPABILITIES.—

(1) IN GENERAL.—The President shall impose a majority of the sanctions described in section 106(a) of this Act if the President determines that a person, on or after the date of the enactment of this Act, has knowingly exported, transferred, permitted, hosted, or otherwise facilitated transshipment that may have enabled a person to export, transfer, or transship to Iran or otherwise provided to Iran any goods, services, technology, or other items that would contribute materially to the ability of Iran to—

(A) acquire or develop chemical, biological, or nuclear weapons or related technologies; or

(B) acquire or develop destabilizing numbers and types of advanced conventional weapons.

(2) ADDITIONAL MANDATORY SANCTIONS RELATING TO TRANSFER OF NUCLEAR TECHNOLOGY.—

(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), in any case in which a person is subject to sanctions under paragraph (1) because of an activity described in that paragraph that relates to the acquisition or development of nuclear weapons or related technology or of missiles or advanced conventional weapons that are designed or modified to deliver a nuclear weapon, no license may be issued for the export, and no approval may be given for the transfer or retransfer to the country the government of which has primary jurisdiction over the person, of any nuclear material, facilities, components, or other goods, services, or technology that are or would be subject to an agreement for cooperation between the United States and that government.

(B) EXCEPTION.—The sanctions described in subparagraph (A) shall not apply with respect to a country the government of which has primary jurisdiction over a person that engages in an activity described in that subparagraph if the President determines and notifies the appropriate congressional committees that the government of the country—

(i) does not know or have reason to know about the activity; or

(ii) has taken, or is taking, all reasonable steps necessary to prevent a recurrence of the activity and to penalize the person for the activity.

(C) **INDIVIDUAL APPROVAL.**—Notwithstanding subparagraph (A), the President may, on a case-by-case basis, approve the issuance of a license for the export, or approve the transfer or retransfer, of any nuclear material, facilities, components, or other goods, services, or technology that are or would be subject to an agreement for cooperation, to a person in a country to which subparagraph (A) applies (other than a person that is subject to the sanctions under paragraph (1)) if the President—

(i) determines that such approval is vital to the national security interests of the United States; and

(ii) not later than 15 days before issuing such license or approving such transfer or retransfer, submits to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate the justification for approving such license, transfer, or retransfer.

(D) **CONSTRUCTION.**—The restrictions in subparagraph (A) shall apply in addition to all other applicable procedures, requirements, and restrictions contained in the Atomic Energy Act of 1954 and other related laws.

(E) **DEFINITION.**—In this paragraph, the term “agreement for cooperation” has the meaning given that term in section 11 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2014(b)).

(F) **APPLICABILITY.**—The sanctions described in subparagraph (A) shall apply only in a case in which a person is subject to sanctions under paragraph (1) because of an activity described in such paragraph in which such person engages on or after the date of the enactment of this Act.

(C) **PERSONS AGAINST WHICH THE SANCTIONS ARE TO BE IMPOSED.**—The sanctions described in subsections (a) and (b)(1) shall be imposed on—

(1) any person the President determines has carried out the activities described in subsection (a) or (b), respectively; and

(2) any person that—

(A) is a successor entity to the person referred to in paragraph (1);

(B) owns or controls the person referred to in paragraph (1), if the person that owns or controls the person referred to in paragraph (1) had actual knowledge or should have known that the person referred to in paragraph (1) engaged in the activities referred to in that paragraph; or

(C) is owned or controlled by, or under common ownership or control with, the person referred to in paragraph (1), if the person owned or controlled by, or under common ownership or control with (as the case may be), the person referred to in paragraph (1) knowingly engaged in the activities referred to in that paragraph.

For purposes of this title, any person or entity described in this subsection shall be referred to as a “sanctioned person”.

(d) **PUBLICATION IN FEDERAL REGISTER.**—The President shall cause to be published in the Federal Register a current list of persons and entities on whom sanctions have been imposed under this title. The removal of persons or entities from, and the addition of persons and entities to, the list, shall also be so published.

(e) **PUBLICATION OF PROJECTS.**—The President shall cause to be published in the Federal Register a list of all significant projects that have been publicly tendered in the oil and gas sector in Iran.

(f) **EXCEPTIONS.**—The President shall not be required to apply or maintain the sanctions under subsection (a) or (b)—

(1) in the case of procurement of defense articles or defense services—

(A) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy requirements essential to the national security of the United States;

(B) if the President determines in writing that the person to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

(C) if the President determines in writing that such articles or services are essential to the national security under defense cooperation agreements;

(2) in the case of procurement, to eligible products, as defined in section 308(4) of the Trade Agreements Act of 1979 (19 U.S.C. 2518(4)), of any foreign country or instrumentality designated under section 301(b) of that Act (19 U.S.C. 2511(b));

(3) to products, technology, or services provided under contracts entered into before the date on which the President publishes in the Federal Register the name of the person on whom the sanctions are to be imposed;

(4) to—

(A) spare parts which are essential to United States products or production;

(B) component parts, but not finished products, essential to United States products or production; or

(C) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

(5) to information and technology essential to United States products or production; or

(6) to medicines, medical supplies, or other humanitarian items.

#### SEC. 106. DESCRIPTION OF SANCTIONS.

(a) **IN GENERAL.**—The sanctions to be imposed on a sanctioned person under section 105 of this Act are as follows:

(1) **EXPORT-IMPORT BANK ASSISTANCE FOR EXPORTS TO SANCTIONED PERSONS.**—The President may direct the Export-Import Bank of the United States to not give approval for the issuance of any guarantee, insurance, extension of credit, or participation in the extension of credit in connection with the export of any goods or services to any sanctioned person.

(2) **EXPORT SANCTION.**—The President may order the United States Government not to issue any specific license and not to grant any other specific permission or authority to export any goods or technology to a sanctioned person under—

(A) the Export Administration Act of 1979 (as continued in effect pursuant to the International Emergency Economic Powers Act);

(B) the Arms Export Control Act;

(C) the Atomic Energy Act of 1954; or

(D) any other law that requires the prior review and approval of the United States Government as a condition for the export or reexport of goods or services.

(3) **LOANS FROM UNITED STATES FINANCIAL INSTITUTIONS.**—The United States Government may prohibit any United States financial institution from making loans or providing credits to any sanctioned person totaling more than \$10,000,000 in any 12-month period unless such person is engaged in activities to relieve human suffering and the loans or credits are provided for such activities.

(4) **PROHIBITIONS ON FINANCIAL INSTITUTIONS.**—The following prohibitions may be imposed against a sanctioned person that is a financial institution:

(A) **PROHIBITION ON DESIGNATION AS PRIMARY DEALER.**—Neither the Board of Governors of the Federal Reserve System nor the Federal Reserve Bank of New York may designate, or permit the continuation of any prior designation of, such financial institution as a primary dealer in United States Government debt instruments.

(B) **PROHIBITION ON SERVICE AS A REPOSITORY OF GOVERNMENT FUNDS.**—Such financial institution may not serve as agent of the United States Government or serve as repository for United States Government funds.

The imposition of either sanction under subparagraph (A) or (B) shall be treated as one sanction for purposes of section 105 of this Act, and the imposition of both such sanctions shall be treated as 2 sanctions for purposes of section 105 of this Act.

(5) **PROCUREMENT SANCTION.**—The United States Government may not procure, or enter into any contract for the procurement of, any goods or services from a sanctioned person.

(6) **FOREIGN EXCHANGE.**—The President may prohibit any transactions in foreign exchange that are subject to the jurisdiction of the United States and in which the sanctioned person has any interest.

(7) **BANKING TRANSACTIONS.**—The President may prohibit any transfers of credit or payments between financial institutions or by, through, or to any financial institution, to the extent that such transfers or payments are subject to the jurisdiction of the United States and involve any interest of the sanctioned person.

(8) **PROPERTY TRANSACTIONS.**—The President may prohibit any person from—

(A) acquiring, holding, withholding, using, transferring, withdrawing, transporting, or exporting any property that is subject to the jurisdiction of the United States and with respect to which a sanctioned person has any interest;

(B) dealing in or exercising any right, power, or privilege with respect to such property; or

(C) conducting any transaction involving such property.

(9) **GROUND FOR EXCLUSION.**—The Secretary of State may deny a visa to, and the Secretary of Homeland Security may deny admission into the United States to, any alien whom the Secretary of State determines is an alien who, on or after the date of the enactment of this Act, is a—

(A) corporate officer, principal, or shareholder with a controlling interest of a person against whom sanctions have been imposed under subsection (a) or (b);

(B) corporate officer, principal, or shareholder with a controlling interest of a successor entity to or a parent or subsidiary of such a sanctioned person;

(C) corporate officer, principal, or shareholder with a controlling interest of an affiliate of such a sanctioned person, if such affiliate engaged in a sanctionable activity described in subsection (a) or (b) and if such affiliate is controlled in fact by such sanctioned person; or

(D) spouse, minor child, or agent of a person inadmissible under subparagraph (A), (B), or (C).

(10) **SANCTIONS ON PRINCIPAL EXECUTIVE OFFICERS.**—The President may impose on the principal executive officer or officers of any sanctioned person, or on persons performing

similar functions and with similar authorities as such officer or officers, any of the sanctions under this subsection. The President shall include on the list published under section 105(d) of this Act the name of any person against whom sanctions are imposed under this paragraph.

(11) **ADDITIONAL SANCTIONS.**—The President may impose additional sanctions, as appropriate, in accordance with the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.).

(b) **ADDITIONAL MEASURE RELATING TO GOVERNMENT CONTRACTS.**—

(1) **MODIFICATION OF FEDERAL ACQUISITION REGULATION.**—The Federal Acquisition Regulation issued pursuant to section 1303 of title 41, United States Code, shall require a certification from each person that is a prospective contractor that such person and any person owned or controlled by the person does not engage in any activity for which sanctions may be imposed under section 105 or section 304 of this Act.

(2) **REMEDIES.**—

(A) **IN GENERAL.**—If the head of an executive agency determines that a person has submitted a false certification under paragraph (1) after the date on which the Federal Acquisition Regulation is revised to implement the requirements of this subsection, the head of that executive agency shall terminate a contract with such person or debar or suspend such person from eligibility for Federal contracts for a period of not less than 2 years. Any such debarment or suspension shall be subject to the procedures that apply to debarment and suspension under the Federal Acquisition Regulation under subpart 9.4 of part 9 of title 48, Code of Federal Regulations.

(B) **INCLUSION ON LIST OF PARTIES EXCLUDED FROM FEDERAL PROCUREMENT AND NON-PROCUREMENT PROGRAMS.**—The Administrator of General Services shall include on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs maintained by the Administrator under part 9 of the Federal Acquisition Regulation issued pursuant to section 1303 of title 41, United States Code, each person that is debarred, suspended, or proposed for debarment or suspension by the head of an executive agency on the basis of a determination of a false certification under subparagraph (A).

(3) **CLARIFICATION REGARDING CERTAIN PRODUCTS.**—The remedies specified in paragraph (2) shall not apply with respect to the procurement of eligible products, as defined in section 308(4) of the Trade Agreements Act of 1974 (19 U.S.C. 2518(4)), of any foreign country or instrumentality designated under section 301(b) of such Act (19 U.S.C. 2511(b)).

(4) **RULE OF CONSTRUCTION.**—This subsection shall not be construed to limit the use of other remedies available to the head of an executive agency or any other official of the Federal Government on the basis of a determination of a false certification under paragraph (1).

(5) **WAIVER.**—The President may, on a case-by-case basis, waive the requirement that a person make a certification under paragraph (1) if the President determines and certifies in writing to the appropriate congressional committees that failure to exercise such waiver authority would pose an unusual and extraordinary threat to the vital national security interests of the United States.

(6) **EXECUTIVE AGENCY DEFINED.**—In this subsection, the term “executive agency” has the meaning given such term in section 133 of title 41, United States Code.

(7) **APPLICABILITY.**—The revisions to the Federal Acquisition Regulation required under paragraph (1) shall apply with respect to contracts for which solicitations are issued on or after the date that is 90 days after the date of the enactment of this Act.

#### **SEC. 107. ADVISORY OPINIONS.**

The Secretary of State may, upon the request of any person, issue an advisory opinion to such person as to whether a proposed activity by such person would subject such person to sanctions under this title. Any person who relies in good faith on such an advisory opinion which states that such proposed activity would not subject such person to such sanctions, and any such person who thereafter engages in such activity, shall not be made subject to such sanctions on account of such activity.

#### **SEC. 108. TERMINATION OF SANCTIONS.**

(a) **CERTIFICATION.**—The requirement under section 105 of this Act to impose sanctions shall no longer have force or effect with respect to Iran if the President determines and certifies to the appropriate congressional committees that Iran—

(1) has ceased and verifiably dismantled its efforts to design, develop, manufacture, or acquire—

(A) a nuclear explosive device or related materials and technology;

(B) chemical and biological weapons; and

(C) ballistic missiles and ballistic missile launch technology;

(2) no longer provides support for acts of international terrorism; and

(3) poses no threat to the national security, interests, or allies of the United States.

(b) **NOTIFICATION.**—The President shall notify the appropriate congressional committees not later than 15 days before making the certification described in subsection (a).

#### **SEC. 109. DURATION OF SANCTIONS.**

(a) **DELAY OF SANCTIONS.**—

(1) **CONSULTATIONS.**—If the President makes a determination described in section 105 of this Act with respect to a foreign person, Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over such foreign person with respect to the imposition of sanctions under such section.

(2) **ACTIONS BY GOVERNMENT OF JURISDICTION.**—In order to pursue consultations under paragraph (1) with the government concerned, the President may delay for up to 90 days the imposition of sanctions under section 105 of this Act. Following such consultations, the President shall immediately impose on the foreign person referred to in paragraph (1) such sanctions unless the President determines and certifies to Congress that the government has taken specific and effective actions, including, as appropriate, the imposition of appropriate penalties to terminate the involvement of the foreign person in the activities that resulted in the determination by the President under section 105 of this Act concerning such foreign person and the foreign person is no longer engaged in such activities.

(b) **DURATION OF SANCTIONS.**—A sanction imposed under section 105 of this Act shall remain in effect—

(1) for a period of not less than 2 years beginning on the date on which such sanction is imposed; or

(2) until such time as the President determines and certifies to Congress that the person whose activities were the basis for imposing such sanction is no longer engaging in such activities and that the President has received reliable assurances that such person will not knowingly engage in such activities

in the future, except that such sanction shall remain in effect for a period of at least one year.

(c) **WAIVER.**—

(1) **AUTHORIZATION.**—

(A) **IN GENERAL.**—The President may waive the requirements in section 105(a) or 105(b)(2) of this Act to impose a sanction or sanctions, and may waive, on a case-by-case basis, the continued imposition of a sanction or sanctions under subsection (b) of this section, if the President determines and so reports to the appropriate congressional committees 15 days prior to the exercise of waiver authority that failure to exercise such waiver authority would pose an unusual and extraordinary threat to the vital national security interests of the United States.

(B) **CONTENTS OF REPORT.**—Any report under subparagraph (A) shall provide a specific and detailed rationale for a determination made pursuant to such paragraph, including—

(i) a description of the conduct that resulted in the determination under section 105(a) or section 105(b)(2) of this Act, as the case may be;

(ii) in the case of a foreign person, an explanation of the efforts to secure the cooperation of the government with primary jurisdiction over such person to terminate or, as appropriate, penalize the activities that resulted in the determination under section 105(a) or 105(b)(2) of this Act, as the case may be;

(iii) an estimate of the significance of the conduct of the person concerned in contributing to the ability of Iran to develop petroleum resources, produce refined petroleum products, or import refined petroleum products; and

(iv) a statement as to the response of the United States in the event that the person concerned engages in other activities that would be subject to a sanction or sanctions under section 105(a) or 105(b)(2) of this Act, as the case may be.

(2) **WAIVER WITH RESPECT TO PERSONS IN COUNTRIES THAT COOPERATE IN MULTILATERAL EFFORTS WITH RESPECT TO IRAN.**—

(A) **IN GENERAL.**—The President may, on a case-by-case basis, waive for a period of not more than 12 months the application of section 105(a) of this Act with respect to a person if the President, at least 30 days before the waiver is to take effect—

(i) certifies to the appropriate congressional committees that—

(I) the government with primary jurisdiction over the person is closely cooperating with the United States in multilateral efforts to prevent Iran from—

(aa) acquiring or developing chemical, biological, or nuclear weapons or related technologies; or

(bb) acquiring or developing destabilizing numbers and types of advanced conventional weapons; and

(II) such a waiver is vital to the national security interests of the United States; and

(ii) submits to the appropriate congressional committees a report identifying—

(I) the person with respect to which the President waives the application of sanctions; and

(II) the actions taken by the government described in clause (i)(I) to cooperate in multilateral efforts described in that clause.

(B) **SUBSEQUENT RENEWAL OF WAIVER.**—At the conclusion of the period of a waiver under subparagraph (A), the President may renew the waiver—

(i) if the President determines, in accordance with subparagraph (A), that the waiver is appropriate; and

(ii) for subsequent periods of not more than 12 months each.

(3) PUBLICATION IN THE FEDERAL REGISTER.—Not later than 15 days after any waiver authority is exercised pursuant to paragraph (1) or (2) of this subsection, the name of the person or entity with respect to which sanctions are being waived shall be published in the Federal Register.

#### SEC. 110. REPORTS REQUIRED.

(a) REPORT ON CERTAIN INTERNATIONAL INITIATIVES.—Not later than 180 days after the date of the enactment of this Act and every 180 days thereafter, the President shall transmit to the appropriate congressional committees a report describing—

(1) the efforts of the President to mount a multilateral campaign to persuade all countries to pressure Iran to cease its nuclear, chemical, biological, and missile weapons programs and its support of acts of international terrorism;

(2) the efforts of the President to persuade other governments to ask Iran to reduce in the countries of such governments the presence of Iranian diplomats and representatives of other government and military or quasi-governmental institutions of Iran, and to withdraw any such diplomats or representatives who participated in the takeover of the United States Embassy in Tehran, Iran, on November 4, 1979, or the subsequent holding of United States hostages for 444 days;

(3) the extent to which the International Atomic Energy Agency has established regular inspections of all nuclear facilities in Iran, including those facilities presently under construction; and

(4) Iran's use of Iranian diplomats and representatives of other government and military or quasi-governmental institutions of Iran to promote acts of international terrorism or to develop or sustain Iran's nuclear, chemical, biological, or missile weapons programs.

(b) REPORT ON EFFECTIVENESS OF ACTIONS UNDER THIS ACT.—Not later than 180 days after the date of the enactment of this Act and annually thereafter, the President shall transmit to Congress a report that describes—

(1) the extent to which actions relating to trade taken pursuant to this title have—

(A) been effective in achieving the policy objective described in section 103 of this Act and any other foreign policy or national security objectives of the United States with respect to Iran; and

(B) affected humanitarian interests in Iran, the country in which a sanctioned person is located, or in other countries; and

(2) the impact of actions relating to trade taken pursuant to this title on other national security, economic, and foreign policy interests of the United States, including relations with countries friendly to the United States, and on the United States economy. The President may include in such reports the President's recommendation on whether or not this Act should be terminated or modified.

(c) OTHER REPORTS.—The President shall ensure the continued transmittal to Congress of reports describing—

(1) the nuclear and other military capabilities of Iran, as required under section 601(a) of the Nuclear Non-Proliferation Act of 1978 and section 1607 of the National Defense Authorization Act for Fiscal Year 1993; and

(2) the support provided by Iran for acts of international terrorism, as part of the Department of State's annual reports on international terrorism.

(d) REPORTS ON GLOBAL TRADE RELATING TO IRAN.—Not later than 180 days after the date of the enactment of the this Act and annually thereafter, the President shall transmit to the appropriate congressional committees a report, with respect to the most recent 12-month period for which data are available, on the dollar value amount of trade, including in the energy sector, between Iran and each country maintaining membership in the Group of 20 Finance Ministers and Central Bank Governors.

#### SEC. 111. DETERMINATIONS NOT REVIEWABLE.

A determination to impose sanctions under this title shall not be reviewable in any court.

#### SEC. 112. DEFINITIONS.

In this title:

(1) ACT OF INTERNATIONAL TERRORISM.—The term “act of international terrorism” has the meaning given such term in section 2331 of title 18, United States Code.

(2) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Ways and Means, the Committee on Banking and Financial Services, the Committee on Financial Services, and the Committee on Foreign Affairs of the House of Representatives; and

(B) the Committee on Finance, the Committee on Banking, Housing, and Urban Affairs, and the Committee on Foreign Relations of the Senate.

(3) COMPONENT PART.—The term “component part” has the meaning given such term in section 11A(e)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2410a(e)(1)).

(4) CREDIBLE INFORMATION.—The term “credible information” means, with respect to a person, such person's public announcement of an investment described in section 105 of this Act, Iranian governmental announcements of such an investment, reports to stockholders, annual reports, industry reports, Government Accountability Office products, State and local government reports, and trade publications.

(5) DEVELOP AND DEVELOPMENT.—The terms “develop” and “development” mean the exploration for, or the extraction, refining, or transportation by pipeline of, petroleum resources.

(6) FINANCIAL INSTITUTION.—The term “financial institution” includes—

(A) a depository institution (as defined in section 3(c)(1) of the Federal Deposit Insurance Act), including a branch or agency of a foreign bank (as defined in section 1(b)(7) of the International Banking Act of 1978);

(B) a credit union;

(C) a securities firm, including a broker or dealer;

(D) an insurance company, including an agency or underwriter; and

(E) any other company that provides financial services including joint ventures with Iranian entities both inside and outside of Iran and partnerships or investments with Iranian government-controlled entities or affiliated entities.

(7) FINISHED PRODUCT.—The term “finished product” has the meaning given such term in section 11A(e)(2) of the Export Administration Act of 1979 (50 U.S.C. App. 2410a(e)(2)).

(8) FOREIGN PERSON.—The term “foreign person” means—

(A) an individual who is not a United States person or an alien lawfully admitted for permanent residence into the United States; or

(B) a corporation, partnership, joint venture, cooperative venture, or other non-

governmental entity which is not a United States person.

(9) FOREIGN TERRORIST ORGANIZATION.—The term “foreign terrorist organization” means an organization designated by the Secretary of State as a foreign terrorist organization in accordance with section 219(a) of the Immigration and Nationality Act (8 U.S.C. 1189(a)).

(10) GOODS AND TECHNOLOGY.—The terms “goods” and “technology” have the meanings given such terms in section 16 of the Export Administration Act of 1979 (50 U.S.C. App. 2415).

(11) INVESTMENT.—The term “investment” means any of the following activities if any of such activities is undertaken pursuant to an agreement, or pursuant to the exercise of rights under such an agreement, that is entered into with the Government of Iran or a nongovernmental entity in Iran, on or after the date of the enactment of this Act:

(A) The entry into a contract that includes responsibility for the development of petroleum resources located in Iran, or the entry into a contract providing for the general supervision and guarantee of another person's performance of such a contract.

(B) The purchase of a share of ownership, including an equity interest, in the development described in subparagraph (A).

(C) The entry into a contract providing for the participation in royalties, earnings, or profits in the development described in subparagraph (A), without regard to the form of such participation.

(D) The provision of goods, services, or technology related to petroleum resources.

(12) IRAN.—The term “Iran” includes any agency or instrumentality of Iran.

(13) IRANIAN DIPLOMATS AND REPRESENTATIVES OF OTHER GOVERNMENT AND MILITARY OR QUASI-GOVERNMENTAL INSTITUTIONS OF IRAN.—The term “Iranian diplomats and representatives of other government and military or quasi-governmental institutions of Iran” includes employees, representatives, or affiliates of Iran's—

(A) Foreign Ministry;

(B) Ministry of Intelligence and Security;

(C) Revolutionary Guard Corps and affiliated entities;

(D) Crusade for Reconstruction;

(E) Qods (Jerusalem) Forces;

(F) Interior Ministry;

(G) Foundation for the Oppressed and Disabled;

(H) Prophet's Foundation;

(I) June 5th Foundation;

(J) Martyr's Foundation;

(K) Islamic Propagation Organization; and

(L) Ministry of Islamic Guidance.

(14) KNOWINGLY.—The term “knowingly”, with respect to conduct, a circumstance, or a result means that a person has actual knowledge, or should have known, of the conduct, the circumstance, or the result of such conduct, circumstance, or result.

(15) NUCLEAR EXPLOSIVE DEVICE.—The term “nuclear explosive device” means any device, whether assembled or disassembled, that is designed to produce an instantaneous release of an amount of nuclear energy from special nuclear material (as defined in section 11(aa) of the Atomic Energy Act of 1954 (42 U.S.C. 2014(aa))) that is greater than the amount of energy that would be released from the detonation of one pound of trinitrotoluene (TNT).

(16) PERSON.—

(A) IN GENERAL.—The term “person” means—

(i) a natural person;

(ii) a corporation, business association, partnership, society, trust, financial institution, insurer, underwriter, guarantor, or any other business organization, any other non-governmental entity, organization, or group, and any governmental entity operating as a business enterprise; and

(iii) any successor to any entity described in clause (ii).

(B) **EXCLUSION.**—The term “person” does not include a government or governmental entity that is not operating as a business enterprise.

(17) **PETROLEUM RESOURCES.**—The term “petroleum resources” includes petroleum and natural gas resources, refined petroleum products, oil or liquefied natural gas, oil or liquefied natural gas tankers, and products used to construct or maintain pipelines used to transport oil or liquefied natural gas.

(18) **REFINED PETROLEUM PRODUCTS.**—The term “refined petroleum products” means diesel, gasoline, jet fuel (including naphtha-type and kerosene-type jet fuel), and aviation gasoline.

(19) **UNITED STATES OR STATE.**—The terms “United States” and “State” mean the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the United States Virgin Islands, and any other territory or possession of the United States.

(20) **UNITED STATES PERSON.**—The term “United States person” means—

(A) a natural person who is a citizen of the United States or who owes permanent allegiance to the United States; and

(B) a corporation or other legal entity that is organized under the laws of the United States or any State if a natural person described in subparagraph (A) owns more than 50 percent of the outstanding capital stock or other beneficial interest in such corporation or legal entity.

#### **SEC. 113. EFFECTIVE DATE.**

This title shall take effect on the date of the enactment of this Act and shall apply with respect to an investment or activity described in subsection (a) or (b) of section 105 of this Act that is commenced on or after such date of enactment.

#### **SEC. 114. REPEAL.**

(a) **IN GENERAL.**—The Iran Sanctions Act of 1996 (50 U.S.C. 1701 note) is repealed.

(b) **CONFORMING AMENDMENTS.**—The Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8501 et seq.) is amended—

(1) in section 103(b)(3)(E), by striking “section 14 of the Iran Sanctions Act of 1996 (Public Law 104-172; 50 U.S.C. 1701 note)” and inserting “section 112 of the Iran Threat Reduction Act of 2011”; and

(2) in section 111(a)(1), by striking “section 5 of the Iran Sanctions Act of 1996, as amended by section 102 of this Act” and inserting “section 105 of the Iran Threat Reduction Act of 2011”; and

(3) in section 112(3), by striking “Iran Sanctions Act of 1996, as amended by section 102 of this Act,” and inserting “Iran Threat Reduction Act of 2011”; and

(4) in section 201(2), by striking “section 14 of the Iran Sanctions Act of 1996 (Public Law 104-172; 50 U.S.C. 1701 note)” and inserting “section 112 of the Iran Threat Reduction Act of 2011”.

(c) **REFERENCES.**—Any reference in a law, regulation, document, or other record of the United States to the Iran Sanctions Act of 1996 shall be deemed to be a reference to this title.

(d) **FEDERAL ACQUISITION REGULATION.**—Notwithstanding the repeal made by sub-

section (a), the modification to the Federal Acquisition Regulation made pursuant to section 6(b)(1) of the Iran Sanctions Act of 1996 shall continue in effect until the modification to such Regulation that is made pursuant to section 106(b)(1) of this Act takes effect.

### **TITLE II—IRAN FREEDOM SUPPORT SEC. 201. CODIFICATION OF SANCTIONS.**

United States sanctions with respect to Iran imposed pursuant to—

(1) sections 1 and 3 of Executive Order 12957,

(2) sections 1(e), 1(g), and 3 of Executive Order 12959,

(3) sections 2, 3, and 5 of Executive Order 13059,

(4) sections 1, 5, 6, 7, and 8 of Executive Order 13553, or

(5) sections 1, 2, and 5 of Executive Order 13574,

as in effect on September 1, 2011, shall remain in effect until the President certifies to the appropriate congressional committees, at least 90 days before the removal of such sanctions, that the Government of Iran has verifiably dismantled its nuclear weapons program, its biological and chemical weapons programs, its ballistic missile development programs, and ceased its support for international terrorism.

### **SEC. 202. LIABILITY OF PARENT COMPANIES FOR VIOLATIONS OF SANCTIONS BY FOREIGN SUBSIDIARIES.**

(a) **DEFINITIONS.**—In this section:

(1) **ENTITY.**—The term “entity” means a partnership, association, trust, joint venture, corporation, or other organization.

(2) **OWN OR CONTROL.**—The term “own or control” means, with respect to an entity—

(A) to hold more than 50 percent of the equity interest by vote or value in the entity;

(B) to hold a majority of seats on the board of directors of the entity; or

(C) to otherwise control the actions, policies, or personnel decisions of the entity.

(3) **SUBSIDIARY.**—The term “subsidiary” means an entity that is owned or controlled by a United States person.

(4) **UNITED STATES PERSON.**—The term “United States person” means—

(A) a natural person who is a citizen, resident, or national of the United States; and

(B) an entity that is organized under the laws of the United States, any State or territory thereof, or the District of Columbia, if natural persons described in subparagraph (A) own or control the entity.

(b) **IN GENERAL.**—A United States person shall be subject to a penalty for a violation of the provisions of Executive Order 12959 (50 U.S.C. 1701 note) or Executive Order 13059 (50 U.S.C. 1701 note), or any other prohibition on transactions with respect to Iran imposed under the authority of the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.), if the President determines that a subsidiary of the United States person that is established or maintained outside the United States engages in an act that, if committed in the United States or by a United States person, would violate such provisions.

(c) **EFFECTIVE DATE.**—

(1) **IN GENERAL.**—Subsection (b) shall take effect on the date of the enactment of this Act and apply with respect to acts described in subsection (b)(2) that are—

(A) commenced on or after the date of the enactment of this Act; or

(B) except as provided in paragraph (2), commenced before such date of enactment, if such acts continue on or after such date of enactment.

(2) **EXCEPTION.**—Subsection (b) shall not apply with respect to an act described in

paragraph (1)(B) by a subsidiary owned or controlled by a United States person if the United States person divests or terminates its business with the subsidiary not later than 90 days after the date of the enactment of this Act.

### **SEC. 203. DECLARATION OF CONGRESS REGARDING UNITED STATES POLICY TOWARD IRAN.**

It shall be the policy of the United States to support those individuals in Iran seeking a free, democratic government that respects the rule of law and protects the rights of all citizens.

### **SEC. 204. ASSISTANCE TO SUPPORT DEMOCRACY IN IRAN.**

(a) **ASSISTANCE AUTHORIZED.**—The President is authorized to provide financial and political assistance (including the award of grants) to foreign and domestic individuals, organizations, and entities that support democracy and the promotion of democracy in Iran. Such assistance may include the award of grants to eligible independent prodemocracy broadcasting organizations and new media that broadcast into Iran.

(b) **ELIGIBILITY FOR ASSISTANCE.**—Financial and political assistance authorized under this section shall be provided only to an individual, organization, or entity that—

(1) officially opposes the use of violence and terrorism and has not been designated as a foreign terrorist organization under section 219(a) of the Immigration and Nationality Act (8 U.S.C. 1189(a)) at any time during the preceding 4 years;

(2) advocates the adherence by Iran to non-proliferation regimes for nuclear, chemical, and biological weapons and materiel;

(3) is dedicated to democratic values and supports the adoption of a democratic form of Government in Iran;

(4) is dedicated to respect for human rights, including the fundamental equality of women;

(5) works to establish equality of opportunity for all people; and

(6) supports freedom of the press, freedom of speech, freedom of association, and freedom of religion.

(c) **FUNDING.**—Financial and political assistance authorized under this section may only be provided using funds available to the Middle East Partnership Initiative (MEPI), the Broader Middle East and North Africa Initiative, the Human Rights and Democracy Fund, and the Near East Regional Democracy Fund.

(d) **NOTIFICATION.**—Not later than 15 days before each obligation of assistance under this section, and in accordance with the procedures under section 634A of the Foreign Assistance Act of 1961 (22 U.S.C. 2394-1), the President shall notify the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate of such obligation of assistance. Such notification shall include, as practicable, a description of the types of programs supported by such assistance and an identification of the recipients of such assistance.

(e) **SENSE OF CONGRESS REGARDING DIPLOMATIC ASSISTANCE.**—It is the sense of Congress that—

(1) contacts should be expanded with opposition groups in Iran that meet the criteria for eligibility for assistance under subsection (b);

(2) support for those individuals seeking democracy in Iran should be expressed by United States representatives and officials in all appropriate international fora; and

(3) officials and representatives of the United States should—

(A) strongly and unequivocally support indigenous efforts in Iran calling for free, transparent, and democratic elections; and

(B) draw international attention to violations by the Government of Iran of human rights, freedom of religion, freedom of assembly, and freedom of the press.

**SEC. 205. IMPOSITION OF SANCTIONS ON CERTAIN PERSONS WHO ARE RESPONSIBLE FOR OR COMPLICIT IN HUMAN RIGHTS ABUSES COMMITTED AGAINST CITIZENS OF IRAN OR THEIR FAMILY MEMBERS AFTER THE JUNE 12, 2009, ELECTIONS IN IRAN.**

(a) LIST OF PERSONS WHO ARE RESPONSIBLE FOR OR COMPLICIT IN CERTAIN HUMAN RIGHTS ABUSES; SANCTIONS ON SUCH PERSONS.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the President shall transmit to the appropriate congressional committees a list of all persons who are senior officials of the Government of Iran, including the Supreme Leader, the President, Members of the Cabinet, Members of the Assembly of Experts, Members of the Ministry of Intelligence Services, or any Member of the Iranian Revolutionary Guard Corps with the rank of brigadier general and above, including members of paramilitary organizations such as Ansar-e-Hezbollah and Basij-e Mostaz'afin.

(2) CERTIFICATION.—The President shall impose on the persons specified in the list under paragraph (1) the sanctions described in subsection (b). The President shall exempt any such person from such imposition if the President determines and certifies to the appropriate congressional committees that such person, based on credible evidence, is not responsible for or complicit in, or responsible for ordering, controlling, or otherwise directing, the commission of serious human rights abuses against citizens of Iran or their family members on or after June 12, 2009, regardless of whether such abuses occurred in Iran.

(3) UPDATES OF LIST.—The President shall transmit to the appropriate congressional committees an updated list under paragraph (1)—

(A) not later than every 60 days beginning after the date of the initial transmittal under such paragraph; and

(B) as new information becomes available.

(4) FORM OF REPORT; PUBLIC AVAILABILITY.—

(A) FORM.—The list required under paragraph (1) shall be submitted in unclassified form but may contain a classified annex.

(B) PUBLIC AVAILABILITY.—The unclassified portion of the list required under paragraph (1) shall be made available to the public and posted on the Web sites of the Department of the Treasury and the Department of State.

(5) CONSIDERATION OF DATA FROM OTHER COUNTRIES AND NONGOVERNMENTAL ORGANIZATIONS.—In preparing the list required under paragraph (1), the President shall consider credible data already obtained by other countries and nongovernmental organizations, including organizations in Iran, that monitor the human rights abuses of the Government of Iran.

(b) SANCTIONS DESCRIBED.—The sanctions described in this subsection are ineligibility for a visa to enter the United States and sanctions described in section 106 of this Act, subject to such regulations as the President may prescribe, including regulatory exceptions to permit the United States to comply with the Agreement between the United Nations and the United States of America regarding the Headquarters of the United Na-

tions, signed June 26, 1947, and entered into force November 21, 1947, and other applicable international obligations.

(c) TERMINATION OF SANCTIONS.—The provisions of this section shall terminate on the date on which the President determines and certifies to the appropriate congressional committees that the Government of Iran—

(1) has unconditionally released all political prisoners, including the citizens of Iran detained in the aftermath of the June 12, 2009, presidential election in Iran;

(2) has ceased its practices of violence, unlawful detention, torture, and abuse of citizens of Iran while engaging in peaceful political activity;

(3) has conducted a transparent investigation into the killings, arrests, and abuse of peaceful political activists that occurred in the aftermath of the June 12, 2009, presidential election in Iran and prosecuted the individuals responsible for such killings, arrests, and abuse; and

(4) has—

(A) established an independent judiciary; and

(B) is respecting the human rights and basic freedoms recognized in the Universal Declaration of Human Rights.

**SEC. 206. CLARIFICATION OF SENSITIVE TECHNOLOGIES FOR PURPOSES OF PROCUREMENT BAN.**

The Secretary of State shall—

(1) not later than 90 days after the date of the enactment of this Act, issue guidelines to further describe the goods, services, and technologies that will be considered “sensitive technologies” for purposes of section 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (22 U.S.C. 8515), and publish those guidelines in the Federal Register;

(2) determine the types of goods, services, and technologies that enable any indigenous capabilities that Iran has to disrupt and monitor information and communications in that country, and consider adding descriptions of those items to the guidelines; and

(3) periodically review, but in no case less than once each year, the guidelines and, if necessary, amend the guidelines on the basis of technological developments and new information regarding transfers of goods, services, and technologies to Iran and the development of Iran's indigenous capabilities to disrupt and monitor information and communications in Iran.

**SEC. 207. COMPREHENSIVE STRATEGY TO PROMOTE INTERNET FREEDOM AND ACCESS TO INFORMATION IN IRAN.**

(a) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act and annually thereafter, the Secretary of State shall submit to the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate a comprehensive strategy to—

(1) help the people of Iran produce, access, and share information freely and safely via the Internet, including in Farsi and regional languages;

(2) support the development of counter-censorship technologies that enable the citizens of Iran to undertake Internet activities without interference from the Government of Iran;

(3) increase the capabilities and availability of secure mobile communications among human rights and democracy activists in Iran;

(4) provide resources for digital safety training for media, unions, and academic and civil society organizations in Iran;

(5) increase the amount of accurate Internet content in local languages in Iran;

(6) increase emergency resources for the most vulnerable human rights advocates seeking to organize, share information, and support human rights in Iran;

(7) expand surrogate radio, television, live stream, and social network communications inside Iran, including by assisting United States telecommunications and software companies to comply with the United States export licensing process for such purposes;

(8) expand activities to safely assist and train human rights, civil society, and union activists in Iran to operate effectively and securely;

(9) defeat all attempts by the Government of Iran to jam or otherwise deny international satellite broadcasting signals, including by identifying foreign providers of jamming technology;

(10) expand worldwide United States embassy and consulate programming for and outreach to Iranian dissident communities;

(11) expand access to proxy servers for democracy activists in Iran; and

(12) discourage telecommunication and software companies from facilitating Internet censorship by the Government of Iran.

(b) ELIGIBILITY FOR ASSISTANCE.—Assistance authorized under the comprehensive strategy required under subsection (a) shall be provided only to an individual, organization, or entity that meets the eligibility criteria in section 204(b) of this Act for financial and political assistance authorized under section 204(a) of this Act.

(c) FORM.—The comprehensive strategy required under subsection (a) shall be submitted in unclassified form and may include a classified annex.

**TITLE III—IRAN REGIME AND IRAN'S ISLAMIC REVOLUTIONARY GUARD CORPS ACCOUNTABILITY**

**SEC. 301. IRAN'S ISLAMIC REVOLUTIONARY GUARD CORPS.**

(a) TRANSACTIONS WITH IRAN'S ISLAMIC REVOLUTIONARY GUARD CORPS.—No United States person shall knowingly conduct any commercial transaction or financial transaction with, or make any investment in—

(1) any person or entity owned or controlled by Iran's Islamic Revolutionary Guard Corps;

(2) any instrumentality, subsidiary, affiliate, or agent of Iran's Islamic Revolutionary Guard Corps; or

(3) any project, activity, or business owned or controlled by Iran's Islamic Revolutionary Guard Corps.

(b) TRANSACTIONS WITH CERTAIN FOREIGN PERSONS.—No United States person shall knowingly conduct any commercial transaction or financial transaction with, or make any investment in, any foreign person or foreign entity that conducts any transaction with or makes any investment with Iran's Islamic Revolutionary Guard Corps, which, if conducted or made by a United States person, would constitute a violation of subsection (a).

(c) PENALTIES.—Any United States person who violates subsection (a) or (b) shall be subject to 1 or more of the criminal penalties under the authority of section 206(c) of the International Emergency Economic Powers Act (50 U.S.C. 1705).

(d) WAIVER.—

(1) IN GENERAL.—The President is authorized to waive the restrictions in subsection (a) or (b) on a case-by-case basis if the President determines and notifies the appropriate congressional committees that failure to exercise such waiver authority would pose an

unusual and extraordinary threat to the national security interests of the United States.

(2) **PUBLICATION IN THE FEDERAL REGISTER.**—Not later than 15 days after any waiver authority is exercised pursuant to paragraph (1) of this subsection, the name of the person with respect to which sanctions are being waived shall be published in the Federal Register.

(e) **AMENDMENTS TO CODE OF FEDERAL REGULATIONS.**—Not later than 30 days after the date of the enactment of this Act, the President shall amend part 544 of title 31, Code of Federal Regulations (“Weapons of Mass Destruction Proliferators Sanctions Regulations”), to incorporate the provisions of this section.

(f) **DEFINITIONS.**—In this section, the terms “foreign person”, “knowingly”, and “United States person” have the meanings given such terms in section 112 of this Act.

#### **SEC. 302. ADDITIONAL EXPORT SANCTIONS AGAINST IRAN.**

(a) **IN GENERAL.**—Notwithstanding section 103(b)(2)(B)(iv) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8512(b)(2)(B)(iv)) or section 1606 of the Iran-Iraq Arms Non-Proliferation Act of 1992 (Public Law 102-484; 50 U.S.C. 1701 note) or any other provision of law, effective on the date of the enactment of this Act—

(1) licenses to export or reexport goods, services, or technology for the repair or maintenance of aircraft of United States origin to Iran may not be issued, and any such license issued before such date of enactment is no longer valid; and

(2) goods, services, or technology described in paragraph (1) may not be exported or reexported to Iran.

(b) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to repeal or otherwise supersede the requirements of section 740.15(d)(4) of title 15, Code of Federal Regulations (relating to reexports of vessels subject to the Export Administration Regulations).

#### **SEC. 303. SANCTIONS AGAINST AFFILIATES OF IRAN'S ISLAMIC REVOLUTIONARY GUARD CORPS.**

(a) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, and as appropriate thereafter, the President shall identify in, and, in the case of a foreign person or foreign entity not already so designated, shall designate for inclusion in the Annex to Executive Order 13382 (70 Fed. Reg. 38567; relating to blocking property of weapons of mass destruction proliferators and their supporters) and shall apply all applicable sanctions of the United States pursuant to Executive Order 13382 to each foreign person or foreign entity for which there is a reasonable basis for determining that the person or entity is as an agent, alias, front, instrumentality, official, or affiliate of Iran's Islamic Revolutionary Guard Corps or is an individual serving as a representative of Iran's Islamic Revolutionary Guard Corps.

(b) **PRIORITY FOR INVESTIGATION.**—In carrying out this section, the President shall give priority to investigating foreign persons and foreign entities identified under section 560.304 of title 31, Code of Federal Regulations (relating to the definition of the Government of Iran) and foreign persons and foreign entities for which there is a reasonable basis to suspect that the person or entity has conducted or attempted to conduct one or more sensitive transactions or activities described in subsection (c).

(c) **SENSITIVE TRANSACTION OR ACTIVITY.**—A sensitive transaction or activity referred to in subsection (b) is—

(1) a transaction to facilitate the manufacture, import, export, or transfer of items needed for the development of nuclear, chemical, biological, or advanced conventional weapons, including ballistic missiles;

(2) an attempt to interfere in the internal affairs of Iraq or Afghanistan, or equip or train, or encourage violence by, individuals or groups opposed to the governments of those countries;

(3) a transaction relating to the manufacture, procurement, or sale of goods, services, and technology relating to Iran's energy sector, including the development of the energy resources of Iran, export of petroleum products, and import of refined petroleum and refining capacity available to Iran;

(4) a transaction relating to the procurement of sensitive technologies (as defined in section 106(c) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8515(c)); or

(5) a financial transaction or series of transactions valued at more than \$1,000,000 in the aggregate in any 12-month period involving a non-Iranian financial institution.

(d) **INADMISSIBILITY TO UNITED STATES.**—The Secretary of State shall deny a visa to, and the Secretary of Homeland Security shall deny admission into the United States to, any alien who, on or after the date of the enactment of this Act, is a foreign person designated for inclusion in the Annex to Executive Order 13382 pursuant to subsection (a).

(e) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to remove any sanction of the United States in force against Iran's Islamic Revolutionary Guard Corps as of the date of the enactment of this Act by reason of the fact that Iran's Islamic Revolutionary Guard Corps is an entity of the Government of Iran.

#### **SEC. 304. MEASURES AGAINST FOREIGN PERSONS OR ENTITIES SUPPORTING IRAN'S ISLAMIC REVOLUTIONARY GUARD CORPS.**

(a) **IDENTIFICATION AND NOTIFICATION.**—The President shall notify the appropriate congressional committees in any case in which the President determines that there is credible information indicating that a foreign person or foreign entity, on or after the date of the enactment of this Act, knowingly—

(1) provides material support to Iran's Islamic Revolutionary Guard Corps or any foreign person or foreign entity that is identified pursuant to section 303(a) of this Act as an agent, alias, front, instrumentality, official, or affiliate of Iran's Islamic Revolutionary Guard Corps or an individual serving as a representative of Iran's Islamic Revolutionary Guard Corps; or

(2) conducts any commercial transaction or financial transaction with Iran's Islamic Revolutionary Guard Corps or any such person or entity.

(b) **WAIVER.**—

(1) **IN GENERAL.**—Notwithstanding any other provision of this title and subject to paragraph (2), the President is not required to make any identification or designation of or determination with respect to a foreign person or foreign entity for purposes of this title if doing so would cause damage to the national security of the United States through the divulgence of sources and methods of intelligence or other critical classified information.

(2) **NOTICE TO CONGRESS.**—The President shall notify Congress of any exercise of the authority of paragraph (1) and shall include in the notification an identification of the foreign person or foreign entity, including a description of the activity or transaction

that would have caused the identification, designation, or determination for purposes of this title.

(c) **SANCTIONS.**—

(1) **IN GENERAL.**—The President shall apply to each foreign person or foreign entity identified in a notice under subsection (a) for a period determined by the President a majority of the sanctions described in section 106(a) of this Act.

(2) **TERMINATION.**—The President may terminate the sanctions applied to a foreign person or foreign entity pursuant to paragraph (1) if the President determines that the person or entity no longer engages in the activity or activities for which the sanctions were imposed and has provided assurances to the United States Government that it will not engage in the activity or activities in the future.

(d) **IEEPA SANCTIONS.**—The President may exercise the authorities provided under subparagraphs (A) and (C) of section 203(a)(1) of the International Emergency Economic Powers Act (50 U.S.C. 1702(a)(1)) to impose additional sanctions on each foreign person or foreign entity identified pursuant to subsection (a), for such time as the President may determine, without regard to section 202 of that Act.

(e) **WAIVER.**—The President may waive the application of any measure described in subsection (c) with respect to a foreign person or foreign entity if the President—

(1)(A) determines that the person or entity has ceased the activity that resulted in the notification under subsection (a) with respect to the person or entity (as the case may be) and has taken measures to prevent its recurrence; or

(B) determines and so reports to the appropriate congressional committees 15 days prior to the exercise of waiver authority that failure to exercise such waiver authority would pose an unusual and extraordinary threat to the vital national security interests of the United States; and

(2) submits to the appropriate congressional committees a report that contains the reasons for the determination.

(f) **FOREIGN PERSON DEFINED.**—In this section, the term “foreign person” has the meaning given the term in section 112 of this Act.

#### **SEC. 305. SPECIAL MEASURES AGAINST FOREIGN COUNTRIES SUPPORTING IRAN'S ISLAMIC REVOLUTIONARY GUARD CORPS.**

(a) **SANCTIONS.**—With respect to any foreign entity identified pursuant to section 304(a) of this Act that is an agency of the government of a foreign country, the President shall, in addition to applying to the entity the sanctions described in section 304(c) of this Act, apply to the agency of the government of the foreign country the following measures:

(1) No assistance shall be provided to the agency of the government of the foreign country under the Foreign Assistance Act of 1961, or any successor Act, or the Arms Export Control Act, or any successor Act, other than assistance that is intended to benefit the people of the foreign country directly and that is not provided through governmental agencies or entities of the foreign country.

(2) The United States shall oppose any loan or financial or technical assistance to the agency of the government of the foreign country by international financial institutions in accordance with section 701 of the International Financial Institutions Act (22 U.S.C. 262d).

(3) The United States shall deny to the agency of the government of the foreign

country any credit or financial assistance by any department, agency, or instrumentality of the United States Government.

(4) The United States Government shall not approve the sale to the agency of the government of the foreign country any defense articles or defense services or issue any license for the export of items on the United States Munitions List.

(5) No exports to the agency of the government of the foreign country shall be permitted of any goods or technologies controlled for national security reasons under the Export Administration Regulations.

(6) At the earliest practicable date, the Secretary of State shall terminate, in a manner consistent with international law, the authority of any air carrier that is controlled in fact by the agency of the government of the foreign country to engage in air transportation (as defined in section 40102(5) of title 49, United States Code).

(7) Additional restrictions may be imposed in accordance with the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.).

(b) **TERMINATION.**—The President may terminate the sanctions applied to an entity or government of a foreign country pursuant to subsection (a) if the President determines that the entity or government, as the case may be, no longer engages in the activity or activities for which the sanctions were imposed and has provided assurances to the United States Government that it will not engage in the activity or activities in the future.

(c) **WAIVER.**—The President may waive the application of any measure described in subsection (a) with respect to an entity or government of a foreign country if the President—

(1)(A) determines that the entity or government, as the case may be, has ceased the activity that resulted in the notification under section 304(a) of this Act with respect to the entity or government and has taken measures to prevent its recurrence; or

(B) determines and so reports to the appropriate congressional committees 15 days prior to the exercise of waiver authority that failure to exercise such waiver authority would pose an unusual and extraordinary threat to the vital national security interests of the United States; and

(2) submits to the appropriate congressional committees a report that contains the reasons for the determination.

**SEC. 306. AUTHORITY OF STATE AND LOCAL GOVERNMENTS TO RESTRICT CONTRACTS OR LICENSES FOR CERTAIN SANCTIONABLE PERSONS.**

Notwithstanding any other provision of law, a State or local government may adopt and enforce measures to prohibit the State or local government, as the case may be, from entering into or renewing any contract with, or granting to or renewing any license for persons that conduct business operations in Iran described in section 309 of this Act.

**SEC. 307. IRANIAN ACTIVITIES IN IRAQ AND AFGHANISTAN.**

(a) **FREEZING OF ASSETS.**—In accordance with subsection (b), all property and interests in property of the foreign persons described in Executive Orders 13382 and 13224, or their affiliates, that are in the United States, that on or after the date of the enactment of this Act come within the United States, or that on or after the date of the enactment of this Act come within the possession or control of United States persons, are blocked and may not be transferred, paid, exported, withdrawn, or otherwise dealt in

with respect to any such person determined by the Secretary of State, in consultation with the Secretary of the Treasury and the Secretary of Defense to—

(1) have committed, or to pose a significant risk of committing, an act or acts of violence that have the purpose or effect of threatening United States efforts to promote security and stability in Iraq and Afghanistan;

(2) have knowingly and materially assisted, sponsored, or provided financial, material, logistical, or technical support for, or goods or services in support of, such an act or acts of violence or any person or entity whose property and interests in property are blocked pursuant to this subsection; or

(3) be owned or controlled by, or to have acted or purported to act for or on behalf of any person whose property and interests in property are blocked pursuant to this subsection.

(b) **DESCRIPTION OF PROHIBITIONS.**—The prohibitions described in subsection (a) include—

(1) the making of any contribution or provision of funds, goods, or services by, to, or for the benefit of any person whose property and interests in property are blocked; and

(2) the receipt of any contribution or provision of funds, goods, or services from any such person.

(c) **FINDINGS.**—Congress finds that—

(1) an increase in both the quantity and quality of Iranian arms shipments and technological expertise to the Iraqi insurgents, the Taliban, other terrorist organizations and criminal elements has the potential to significantly change the battlefield in both Iraq and Afghanistan, and lead to a large increase in United States, International Security Assistance Force, Coalition and Iraqi and Afghan casualties; and

(2) an increase in Iranian activity and influence in Iraq threatens the safety and welfare of the residents of Camp Ashraf.

(d) **STATEMENT OF POLICY.**—It shall be the policy of the United States to urge the Government of Iraq to—

(1) uphold its commitments to the United States to ensure the continued well-being of those individuals living in Camp Ashraf;

(2) prevent the involuntary return of such individuals to Iran in accordance with the United States Embassy Statement on Transfer of Security Responsibility for Camp Ashraf of December 28, 2008; and

(3) not close Camp Ashraf until the United Nations High Commission for Refugees can complete its process, recognize as political refugees the residents of Camp Ashraf who do not wish to go back to Iran, and resettle them in third countries.

(e) **DEFINITIONS.**—In this section, the terms “foreign person” and “United States person” have the meanings given such terms in section 112 of this Act.

**SEC. 308. UNITED STATES POLICY TOWARD IRAN.**

(a) **NATIONAL STRATEGY REQUIRED.**—The President shall develop a strategy, to be known as the “National Strategy to Counter Iran”, that provides strategic guidance for activities that support the objective of addressing, countering, and containing the threats posed by Iran.

(b) **ANNUAL REPORT.**—

(1) **IN GENERAL.**—Not later than January 30 of each year, the President shall transmit to the appropriate congressional committees a report on the current and future strategy of the United States toward Iran, and the implementation of the National Strategy to Counter Iran required under subsection (a).

(2) **FORM.**—If the President considers it appropriate, the report required under this sub-

section, or appropriate parts thereof, may be transmitted in classified form.

(c) **MATTERS TO BE INCLUDED.**—The report required under subsection (b) shall include a description of the security posture and objectives of Iran, including at least the following:

(1) A description and assessment of Iranian grand strategy and security strategy, including—

(A) the goals of Iran’s grand strategy and security strategy, and strategic objectives; and

(B) Iranian strategy to achieve such objectives in the Middle East, Europe, Africa, Western Hemisphere, and Asia.

(2) An assessment of the capabilities of Iran’s conventional forces and Iran’s unconventional forces, including—

(A) the size and capabilities of Iran’s conventional forces and Iran’s unconventional forces;

(B) an analysis of the formal and informal national command authority for Iran’s conventional forces and Iran’s unconventional forces;

(C) the size and capability of Iranian foreign and domestic intelligence and special operations units, including the Iranian Revolutionary Guard Corps-Quds Force;

(D) a description and analysis of Iranian military doctrine;

(E) the types and amount of support, including funding, lethal and nonlethal supplies, and training, provided to groups designated by the United States as foreign terrorist organizations and regional militant groups; and

(F) an estimate of the levels of funding and funding and procurement sources by Iran to develop and support Iran’s conventional forces and Iran’s unconventional forces.

(3) An assessment of Iranian strategy and capabilities related to nuclear, unconventional, and missile forces development, including—

(A) a summary and analysis of nuclear weapons capabilities;

(B) an estimate of the amount and sources of funding expended by, and an analysis of procurement networks utilized by, Iran to develop its nuclear weapons capabilities;

(C) a summary of the capabilities of Iran’s unconventional weapons and Iran’s ballistic missile forces and Iran’s cruise missile forces, including developments in the preceding year, the size of Iran’s ballistic missile forces and Iran’s cruise missile forces, and the locations of missile launch sites;

(D) a detailed analysis of the effectiveness of Iran’s unconventional weapons and Iran’s ballistic missile forces and Iran’s cruise missile forces; and

(E) an estimate of the amount and sources of funding expended by, and an analysis of procurement networks utilized by, Iran on programs to develop a capability to develop unconventional weapons and Iran’s ballistic missile forces and Iran’s cruise missile forces.

(4) The Government of Iran’s economic strategy, including—

(A) sources of funding for the activities of the Government of Iran described in this section;

(B) the role of the Government of Iran in the formal and informal sector of the domestic Iranian economy;

(C) evasive and other efforts by the Government of Iran to circumvent international and bilateral sanctions regimes;

(D) the effect of bilateral and multilateral sanctions on the ability of Iran to implement its grand strategy and security strategy described in paragraph (1); and

(E) Iran's strategy and efforts to leverage economic and political influence, cooperation, and activities in the Middle East Europe, Africa, Western Hemisphere, and Asia.

(5) Key vulnerabilities identified in paragraph (1), and an implementation plan for the National Strategy to Counter Iran required under subsection (a).

(6) The United States strategy to—

(A) address and counter the capabilities of Iran's conventional forces and Iran's unconventional forces;

(B) disrupt and deny Iranian efforts to develop or augment capabilities related to nuclear, unconventional, and missile forces development;

(C) address the Government of Iran's economic strategy to enable the objectives described in this subsection; and

(D) exploit key vulnerabilities identified in this subsection.

(7) An implementation plan for United States strategy described in under paragraph (6).

(d) CLASSIFIED ANNEX.—The reports required under subsection (b) shall be in unclassified form to the greatest extent possible, and may include a classified annex where necessary.

(e) APPROPRIATE CONGRESSIONAL COMMITTEES.—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Affairs, the Committee on Armed Services, the Committee on Appropriations, the Committee on Ways and Means, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on Armed Services, the Committee on Appropriations, the Committee on Finance, and the Permanent Select Committee on Intelligence of the Senate.

#### SEC. 309. DEFINITIONS.

Except as otherwise provided, in this title:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs, the Committee on Appropriations, the Committee on Ways and Means, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(B) the Committee on Foreign Relations, the Committee on Appropriations, the Committee on Finance, and the Permanent Select Committee on Intelligence of the Senate.

(2) IRAN'S BALLISTIC MISSILE FORCES.—The term “Iran's ballistic missile forces” includes ballistic missiles, goods, and associated equipment and those elements of the Government of Iran that employ such ballistic missiles, goods, and associated equipment.

(3) IRAN'S BALLISTIC MISSILE AND UNCONVENTIONAL WEAPONS.—The term “Iran's ballistic missile and unconventional weapons” means Iran's ballistic missile forces and chemical, biological, and radiological weapons programs.

(4) IRAN'S CRUISE MISSILE FORCES.—The term “Iran's cruise missile forces” includes cruise missile forces, goods, and associated equipment and those elements of the Government of Iran that employ such cruise missiles capable of flights less than 500 kilometers, goods, and associated equipment.

(5) IRAN'S CONVENTIONAL FORCES.—The term “Iran's conventional forces”—

(A) means military forces of Iran designed to conduct operations on sea, air, or land, other than Iran's unconventional forces and Iran's ballistic missile forces and Iran's cruise missile forces; and

(B) includes Iran's Army, Air Force, Navy, domestic law enforcement, and elements of the Iran's Islamic Revolutionary Guard Corps, other than Iran's Islamic Revolutionary Guard Corps-Quds Force.

(6) IRAN'S UNCONVENTIONAL FORCES.—The term “Iran's unconventional forces”—

(A) means forces of Iran that carry out missions typically associated with special operations forces; and

(B) includes—

(i) the Iran's Islamic Revolutionary Guard Corps-Quds Force;

(ii) paramilitary organizations;

(iii) formal and informal intelligence agencies and entities; and

(iv) any organization that—

(I) has been designated as a foreign terrorist organization under section 219(a) of the Immigration and Nationality Act (8 U.S.C. 1189(a));

(II) receives assistance from Iran; and

(III) is assessed—

(aa) as being willing in some or all cases of carrying out attacks on behalf of Iran; or

(bb) as likely to carry out attacks in response to an attack by another country on Iran or its interests.

(7) AFFILIATE.—The term “affiliate” means any individual or entity that controls, is controlled by, or is under common control with, the company, including without limitation direct and indirect subsidiaries of the company.

(8) BUSINESS OPERATIONS.—The term “business operations” means—

(A) carrying out any of the activities described in section 105(a) and (b) of this Act that are sanctionable under such section;

(B) providing sensitive technology (as defined in section 106(c) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8515(c))) to the Government of Iran; and

(C) carrying out any of the activities described in section 304(a) of this Act.

(9) COMPANY.—The term “company” means—

(A) a sole proprietorship, organization, association, corporation, partnership, limited liability company, venture, or other entity, its subsidiary or affiliate; and

(B) includes a company owned or controlled by the government of a foreign country, that is established or organized under the laws of, or has its principal place of business in, such foreign country and includes United States subsidiaries of the same.

(10) ENTITY.—The term “entity” means a sole proprietorship, a partnership, limited liability corporation, association, trust, joint venture, corporation, or other organization.

(11) EXECUTIVE AGENCY.—The term “executive agency” has the meaning given the term in section 133 of title 41, United States Code.

(12) GOVERNMENT OF IRAN.—The term “Government of Iran” includes the Government of Iran, any political subdivision, agency, or instrumentality thereof, and any person owned or controlled by, or acting for or on behalf of, the Government of Iran.

(13) PETROLEUM RESOURCES.—The term “petroleum resources” has the meaning given the term in section 112 of this Act.

(14) SENSITIVE TECHNOLOGY.—The term “sensitive technology” has the meaning given the term in section 106(c) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8515(c)).

#### SEC. 310. RULE OF CONSTRUCTION.

Nothing in this title shall be construed to limit the authority of the President to oth-

erwise designate foreign persons or foreign entities for inclusion in the Annex to Executive Order 13382 (70 Fed. Reg. 38567; relating to blocking property of weapons of mass destruction proliferators and their supporters).

#### TITLE IV—IRAN FINANCIAL SANCTIONS; DIVESTMENT FROM CERTAIN COMPANIES THAT INVEST IN IRAN; AND PREVENTION OF DIVERSION OF CERTAIN GOODS, SERVICES, AND TECHNOLOGIES TO IRAN

##### SEC. 401. IRAN FINANCIAL SANCTIONS.

(a) FINANCIAL INSTITUTION CERTIFICATION.—Section 104(e) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8513(e)) is amended by adding at the end the following new paragraph:

“(3) CERTIFICATION.—Not later than 90 days after the date of the enactment of this paragraph, the Secretary of the Treasury shall prescribe regulations to require any person wholly owned or controlled by a domestic financial institution to provide positive certification to the Secretary if such person is engaged in corresponding relations or business activity with a foreign person or financial institution that facilitates transactions from persons and domestic financial institutions described in subsection (d).”

(b) CENTRAL BANK OF IRAN.—Section 104(c) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (22 U.S.C. 8513(a)) is amended by adding at the end the following:

“(4) CENTRAL BANK OF IRAN.—

“(A) DETERMINATION.—Not later than 30 days after the date of the enactment of this paragraph, the President shall determine whether the Central Bank of Iran has—

“(i) provided financial services in support of, or otherwise facilitated, the ability of Iran to—

“(I) acquire or develop chemical, biological or nuclear weapons, or related technologies;

“(II) construct, equip, operate, or maintain nuclear enrichment facilities; or

“(III) acquire or develop ballistic missiles, cruise missiles, or destabilizing types and amounts of conventional weapons; or

“(ii) facilitated a transaction or provided financial services for—

“(I) Iran's Islamic Revolutionary Guard Corps; or

“(II) a financial institution whose property or interests in property are subject to sanctions imposed pursuant to the International Emergency Economic Powers Act—

“(aa) in connection with Iran's proliferation of weapons of mass destruction or delivery systems for weapons of mass destruction; or

“(bb) Iran's support for acts of international terrorism.

“(B) SUBMISSION TO CONGRESS.—The President shall submit the determination made under subparagraph (A) in writing to the Congress, together with the reasons therefor.

“(C) IMPOSITION OF SANCTIONS.—

“(i) IN GENERAL.—If the President determines under subparagraph (A) that the Central Bank of Iran has engaged in any of the activities described in that paragraph, the President shall apply to the Central Bank of Iran sanctions pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.), including blocking of property and restrictions or prohibitions on financial transactions and the exportation of property.

“(ii) EFFECTIVE PERIOD OF DESIGNATION.—The President shall maintain the sanctions imposed under clause (i) until such time as the President determines and certifies in writing to the Congress that the Central

Bank of Iran is no longer engaged in any of the activities described in subparagraph (A)."

(c) CONTINUATION IN EFFECT.—Sections 104, 106, 107, 108, 109, 110, 111, and 115 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 shall remain in effect until the President makes the certification described in section 606(a) of this Act.

**SEC. 402. DIVESTMENT FROM CERTAIN COMPANIES THAT INVEST IN IRAN.**

Title II of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 shall remain in effect until the President makes the certification described in section 606(a) of this Act.

**SEC. 403. PREVENTION OF DIVERSION OF CERTAIN GOODS, SERVICES, AND TECHNOLOGIES TO IRAN.**

Title III of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 shall remain in effect until the President makes the certification described in section 606(a) of this Act.

**TITLE V—SECURITIES AND EXCHANGE COMMISSION**

**SEC. 501. DISCLOSURES TO THE SECURITIES AND EXCHANGE COMMISSION RELATING TO SANCTIONABLE ACTIVITIES.**

(a) IN GENERAL.—Section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m) is amended by adding at the end the following new subsection:

"(r) DISCLOSURE OF CERTAIN ACTIVITIES RELATING TO IRAN, TERRORISM, AND THE PROLIFERATION OF WEAPONS OF MASS DESTRUCTION.—

"(1) IN GENERAL.—The Commission shall, by rule, require any issuer described in paragraph (2) to disclose on a quarterly basis a detailed description of each activity described in paragraph (2) engaged in by the issuer or its affiliates during the period covered by the report, including—

"(A) the nature and extent of the activity;

"(B) the revenues, if any, attributable to the activity; and

"(C) whether the issuer or the affiliate of the issuer (as the case may be) intends to continue the activity.

"(2) ISSUER DESCRIBED.—An issuer is described in this paragraph if the issuer is required to file reports with the Commission under subsection (a) and the issuer or any of its affiliates has, during the period covered by the report—

"(A) engaged in an activity described in section 105 of the Iran Threat Reduction Act of 2011 for which sanctions may be imposed;

"(B) knowingly engaged in an activity described in subsection (c)(2) of section 104 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Public Law 111-195; 22 U.S.C. 8513) or knowingly violated regulations prescribed under subsection (d)(1) or (e)(1) of such section 104; or

"(C) knowingly conducted any transaction or dealing with—

"(i) any person the property and interests in property of which are blocked pursuant to Executive Order 13224 (66 Fed. Reg. 49079; relating to blocking property and prohibiting transacting with persons who commit, threaten to commit, or support terrorism);

"(ii) any person the property and interests in property of which are blocked pursuant to Executive Order 13382 (70 Fed. Reg. 38567; relating to blocking of property of weapons of mass destruction proliferators and their supporters); or

"(iii) any person on the list contained in Appendix A to part 560 of title 31, Code of Federal Regulations (commonly known as the 'Iranian Transactions Regulations')."

"(3) SUNSET.—The provisions of this subsection and the rules issued by the Commission under paragraph (1) shall terminate on the date that is 30 days after the date on which the President makes the certification described in section 401(a) of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (22 U.S.C. 8551(a)).

"(4) INVESTIGATION OF DISCLOSURES.—When an issuer reports, pursuant to this subsection, that it or any of its affiliates has engaged in any activity described in paragraph (2), the President shall—

"(A) initiate an investigation into the possible imposition of sanctions under the Iran Threat Reduction Act of 2011, section 104 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (22 U.S.C. 8513), the Executive Orders or regulations specified in paragraph (2)(C), or any other provision of law; and

"(B) not later than 180 days after initiating such an investigation, make a determination with respect to whether sanctions should be imposed with respect to the issuer or the affiliate of the issuer (as the case may be)."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect with respect to reports required to be filed with the Securities and Exchange Commission after the date that is 90 days after the date of the enactment of this Act.

**TITLE VI—GENERAL PROVISIONS**

**SEC. 601. DENIAL OF VISAS FOR CERTAIN PERSONS OF THE GOVERNMENT OF IRAN.**

(a) IN GENERAL.—Except as necessary to meet United States obligations under the Agreement between the United Nations and the United States of America regarding the Headquarters of the United Nations, signed June 26, 1947, and entered into force November 21, 1947, and other applicable international treaty obligations, the Secretary of State shall deny a visa to, and the Secretary of Homeland Security shall deny admission into the United States to, a person of the Government of Iran pursuant to section 6(j)(1)(A) of the Export Administration Act of 1979 (as in effect pursuant to the International Emergency Economic Powers Act; 50 U.S.C. 1701 et seq.), section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)), and section 620A of the Foreign Assistance Act of 1961 (22 U.S.C. 2371), including a person who is a senior official of the Government of Iran who is specified in the list under section 205(a)(1), if the Secretary determines that such person—

(1) is an agent, instrumentality, or official of, is affiliated with, or is serving as a representative of the Government of Iran; and

(2) presents a threat to the United States or is affiliated with terrorist organizations.

(b) RESTRICTION ON MOVEMENT.—The Secretary of State shall restrict in Washington, D.C., and at the United Nations in New York City, the travel to only within a 25-mile radius of Washington, D.C., or the United Nations headquarters building, respectively, of any person identified in subsection (a).

(c) RESTRICTION ON CONTACT.—No person employed with the United States Government may contact in an official or unofficial capacity any person that—

(1) is an agent, instrumentality, or official of, is affiliated with, or is serving as a representative of the Government of Iran; and

(2) presents a threat to the United States or is affiliated with terrorist organizations.

(d) WAIVER.—The President may waive the requirements of subsection (c) if the President determines and so reports to the appropriate congressional committees 15 days

prior to the exercise of waiver authority that failure to exercise such waiver authority would pose an unusual and extraordinary threat to the vital national security interests of the United States.

**SEC. 602. INADMISSIBILITY OF CERTAIN ALIENS WHO ENGAGE IN CERTAIN ACTIVITIES WITH RESPECT TO IRAN.**

(a) IN GENERAL.—Section 212(a)(3) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)) is amended by adding at the end the following:

"(H) INDIVIDUALS WHO ENGAGE IN CERTAIN ACTIVITIES WITH RESPECT TO IRAN.—

"(i) IN GENERAL.—Subject to clause (iii), any alien described in clause (ii) is inadmissible.

"(ii) ALIENS DESCRIBED.—An alien described in this clause is an alien who the Secretary of State determines—

"(I) engages in—

"(aa) an activity for which sanctions may be imposed pursuant to section 105(a) of the Iran Threat Reduction Act of 2011;

"(bb) an activity—

"(AA) relating to the proliferation by Iran of weapons of mass destruction or the means of delivery of such weapons; and

"(BB) for which sanctions may be imposed pursuant to Executive Order 13382 (70 Fed. Reg. 38567) (or any successor thereto);

"(cc) an activity—

"(AA) relating to support for international terrorism by the Government of Iran; and

"(BB) for which sanctions may be imposed pursuant to Executive Order 13224 (66 Fed. Reg. 49079) (or any successor thereto); or

"(dd) any other activity with respect to Iran for which sanctions may be imposed pursuant to any other provision of law;

"(II) is the chief executive officer, president, or other individual in charge of overall management of, a member of the board of directors of, or a shareholder with a controlling interest in, an entity that engages in an activity described in subclause (I); or

"(III) is a spouse or minor child of—

"(aa) an alien who engages in an activity described in subclause (I); or

"(bb) the chief executive officer, president, or other individual in charge of overall management of, a member of the board of directors of, or a shareholder with a controlling interest in, an entity that engages in an activity described in subclause (I).

"(iii) NOTICE; WAIVER WITH RESPECT TO CERTAIN ENTITIES.—

"(I) NOTICE.—The Secretary of State may notify an alien the Secretary determines may be inadmissible under this subparagraph—

"(aa) that the alien may be inadmissible; and

"(bb) of the reason for the inadmissibility of the alien.

"(II) WAIVER.—The President may waive the application of this subparagraph and admit an alien to the United States if—

"(aa) the alien is described in subclause (II) or (III)(bb) of clause (ii);

"(bb) the entity that engaged in the activity that would otherwise result in the inadmissibility of the alien under this subparagraph is no longer engaging the activity or has taken significant steps toward stopping the activity; and

"(cc) the President has received reliable assurances that the entity will not knowingly engage in an activity described in clause (ii)(I) again."

(b) REGULATIONS.—Section 428 of the Homeland Security Act of 2002 (6 U.S.C. 236) is amended by adding at the end the following:

“(j) REGULATIONS WITH RESPECT TO INADMISSIBILITY OF ALIENS WHO ENGAGE IN CERTAIN TRANSACTIONS WITH IRAN.—Not later than 180 days after the date of the enactment of this subsection, the Secretary shall issue regulations and guidelines for interpreting and enforcing the prohibition under subparagraph (H) of section 212(a)(3) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)) on the admissibility of aliens who engage in certain sanctionable activities with respect to Iran.”.

**SEC. 603. AMENDMENTS TO CIVIL AND CRIMINAL PENALTIES PROVISIONS UNDER THE INTERNATIONAL EMERGENCY ECONOMIC POWERS ACT.**

(a) IN GENERAL.—Section 206 of the International Emergency Economic Powers Act (50 U.S.C. 1705) is amended—

(1) in subsection (a), by striking “attempt to violate, conspire to violate” and inserting “attempt or conspire to violate”;

(2) in subsection (b), by striking “not to exceed” and all that follows and inserting “that is not less than twice the value of the transaction that is the basis of the violation.”; and

(3) in subsection (c) to read as follows:

“(c) CRIMINAL PENALTIES.—A person who willfully commits, attempts or conspires to commit, or aids or abets in the commission of, an unlawful act described in subsection (a) shall be fined not less than \$1,000,000, imprisoned for not more than 20 years, or both. A person other than a natural person shall be fined in an amount not less than the greater of half of the value of the transaction that is the basis of the violation or \$1,000,000.”.

(b) EFFECTIVE DATE.—The amendments made by this section take effect on the date of the enactment of this Act and apply with respect to any violation of section 206(a) of the International Emergency Economic Powers Act (50 U.S.C. 1705(a)) that occurs on or after such date of enactment.

**SEC. 604. EXCLUSION OF CERTAIN ACTIVITIES.**

Nothing in this Act or any amendment made by this Act shall apply to—

(1) activities subject to the reporting requirements of title V of the National Security Act of 1947; or

(2) involving a natural gas development and pipeline project initiated prior to the date of enactment of this Act—

(A) to bring gas from Azerbaijan to Europe and Turkey;

(B) in furtherance of a production sharing agreement or license awarded by a sovereign government, other than the Iranian government, before the date of enactment of this Act; and

(C) for the purpose of providing energy security and independence from Russia and other governments engaged in activities subject to sanctions under this Act.

**SEC. 605. REGULATORY AUTHORITY.**

(a) IN GENERAL.—The President shall, not later than 90 days after the date of the enactment of this Act, promulgate regulations as necessary for the implementation of this Act and the amendments made by this Act.

(b) CONSULTATION WITH CONGRESS.—Not less than 10 days prior to the promulgation of regulations under subsection (a), the President shall notify the appropriate congressional committees of the proposed regulations and the provisions of this Act and the amendments made by this Act that the regulations are implementing.

**SEC. 606. SUNSET.**

(a) SUNSET.—The provisions of this Act and the amendments made by this Act shall terminate, and shall cease to be effective, on the date that is 30 days after the date on

which the President certifies to Congress that Iran—

(1) has ceased and verifiably dismantled its efforts to design, develop, manufacture, or acquire—

(A) a nuclear explosive device or related materials and technology;

(B) chemical and biological weapons; and

(C) ballistic missiles and ballistic missile launch technology;

(2) no longer provides support for acts of international terrorism; and

(3) poses no threat to United States national security, interests, or allies.

(b) NOTIFICATION.—The President shall notify the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate not later than 15 days before making a certification described in subsection (a).

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Florida (Ms. ROS-LEHTINEN) and the gentleman from California (Mr. BERMAN) each will control 20 minutes.

Mr. KUCINICH. Mr. Speaker, I rise to claim time in opposition.

The SPEAKER pro tempore. Does the gentleman from California oppose the motion?

Mr. BERMAN. I do not oppose the motion.

The SPEAKER pro tempore. On that basis, the gentleman from Ohio will control 20 minutes in opposition.

The Chair recognizes the gentlewoman from Florida.

Ms. ROS-LEHTINEN. Mr. Speaker, I ask unanimous consent that the gentleman from California (Mr. BERMAN) be allowed to control half of the time in the affirmative.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

GENERAL LEAVE

Ms. ROS-LEHTINEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of the Iran Threat Reduction Act, which I introduced together with the distinguished ranking member of our committee, the gentleman from California (Mr. BERMAN). I would also like to thank the gentleman from California (Mr. SHERMAN), the ranking member of the Subcommittee on Terrorism, Nonproliferation and Trade, for his key contributions on this bill.

As is well known and articulated in the Declaration of National Emergency continued by successive U.S. Presidents, the Iranian regime poses an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States.

The revelation in October of Iran's plot to assassinate the Saudi ambassador to the United States on our soil and in the process murder and maim countless Americans is a stark reminder of the regime's desire of a world without America. The exemplary work of U.S. officials foiled their plot, but the regime's threat remains. We would be naive to think that they will not try again.

Meanwhile, Tehran continues to call for the destruction of our ally, Israel, while denying the Holocaust and making every effort to isolate the Jewish state. Ahmadinejad is more than willing to put Iran's money where his mouth is, providing weapons, money, and support for several terrorist groups, including Hezbollah and Hamas, which are waging war against Israel and our allies in the Middle East.

And last month, the International Atomic Energy Agency released a report providing extensive evidence that Tehran has been working on nuclear weapons for years, despite repeated calls for the regime to abandon these efforts. Their hostility is evident, and their intentions are crystal clear. We clearly understand the urgency of the Iranian threat.

Many of our closest allies understand this sense of urgency—from the Israelis to the British and the Canadians. We tried the olive branch of engagement, negotiation, and diplomacy. And what did we get, Mr. Speaker? Diatribes against the United States and our allies and a plot to shed blood on our soil.

The resolution passed by the IAEA Board of Governors in November does not even begin to cover the ground that we need. The resolution had no deadline for compliance by the regime and no consequence, just rhetoric. We need overwhelming, crippling sanctions against Iranian officials and their nuclear program; and we need those sanctions to be fully implemented with serious penalties for their violation.

□ 2010

We must undermine the foundations of the Iranian regime in order to compel it to abandon its deadly path. The Iran Threat Reduction Act closes loopholes in existing sanctions against Iran's energy and financial sectors, sanctions senior Iranian regime officials and expands sanctions against those who help rogue regimes expand their dangerous weapons programs.

I hope that our Members join us in stopping this dangerous regime in its tracks.

Mr. Speaker, I would like to place in the RECORD my correspondence with the chairmen of other committees of referral on this bill.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON THE JUDICIARY,  
Washington, DC, November 4, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairman, House Committee on Foreign Affairs,  
Rayburn House Office Building, Wash-  
ington, DC.

DEAR CHAIRMAN ROS-LEHTINEN: I am writing concerning H.R. 1905, the "Iran Threat Reduction Act of 2011," which the Committee on Foreign Affairs reported favorably. As a result of your having consulted with us on provisions in H.R. 1905 that fall within the Rule X jurisdiction of the Committee on the Judiciary, we are able to agree to discharging our Committee from further consideration of this bill in order that it may proceed expeditiously to the House floor for consideration.

The Judiciary Committee takes this action with our mutual understanding that by foregoing consideration of H.R. 1905 at this time, we do not waive any jurisdiction over subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as the bill or similar legislation moves forward so that we may address any remaining issues in our jurisdiction. Our Committee also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and requests your support for any such request.

I would appreciate your response to this letter confirming this understanding with respect to H.R. 1905, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during floor consideration.

Sincerely,

LAMAR SMITH,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, November 4, 2011.

Hon. LAMAR SMITH,  
Chairman, House Committee on the Judiciary  
Rayburn House Office Building, Wash-  
ington, DC.

DEAR CHAIRMAN SMITH: Thank you for your letter concerning H.R. 1905, the Iran Threat Reduction Act of 2011, and for your agreement to discharge the Committee on the Judiciary from further consideration of this bill so that it may proceed expeditiously to the House floor.

I am writing to confirm our mutual understanding that, by foregoing consideration of H.R. 1905 at this time, you are not waiving any jurisdiction over the subject matter in that bill or similar legislation. I look forward to continuing to consult with your Committee as such legislation moves ahead, and would be glad to support a request by your Committee for conferees to a House-Senate conference on this, or any similar, legislation.

I will seek to place a copy of our exchange of letters on this matter into the Congressional Record during floor consideration of H.R. 1905.

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, November 16, 2011.

Hon. DARRELL E. ISSA,  
Chairman, Committee on Oversight and Govern-  
ment Reform, Rayburn House Office Build-  
ing, Washington, DC.

DEAR CHAIRMAN ISSA: Thank you for your cooperation with the Foreign Affairs Com-

mittee regarding H.R. 1905, the Iran Threat Reduction Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and the Oversight and Government Reform Committee regarding the final text of those sections of H.R. 1905 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Oversight and Government Reform Committee is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill. Additionally, I will support your request for an appropriate appointment of outside conferees from your Committee in the event of a House-Senate conference on this or similar legislation should such a conference be convened.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

HOUSE OF REPRESENTATIVES, COM-  
MITTEE ON OVERSIGHT AND GOV-  
ERNMENT REFORM,  
Washington, DC, November 18, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairwoman, Committee on Foreign Affairs,  
Rayburn House Office Building, Wash-  
ington, DC.

DEAR MADAM CHAIRWOMAN: Thank you for your letter concerning H.R. 1905, the Iran Threat Reduction Act of 2011. I concur in your judgment that provisions of the bill are within the jurisdiction of the Oversight and Government Reform Committee.

I am willing to waive this committee's right to consider the bill. In so doing, I do not waive its jurisdiction over the subject matter of the bill. I appreciate your commitment to insert this exchange of letters into the committee report and the Congressional Record, and your support for outside conferees from the Committee should a conference be convened.

Sincerely,

DARRELL ISSA,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, November 21, 2011.

Hon. SPENCER BACHUS,  
Chairman, Committee on Financial Services,  
Rayburn House Office Building, Wash-  
ington, DC.

DEAR CHAIRMAN BACHUS: Thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 1905, the Iran Threat Reduction Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and the Financial Services Committee regarding the final text of those sections of H.R. 1905 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Financial Services Committee is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill. Additionally, I will support your request for an appropriate appointment of outside conferees from your Committee in the event of a House-Senate conference on this or similar legislation should such a conference be convened.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FINANCIAL SERVICES,  
Washington, DC, November 23, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairman, Committee on Foreign Affairs, U.S.  
House of Representatives, Rayburn House  
Office Building, Washington, DC.

DEAR CHAIRMAN ROS-LEHTINEN: I am writing concerning H.R. 1905, the Iran Threat Reduction Act of 2011. Based on the agreement made by the staff of our two committees regarding H.R. 1905 and in the interest of permitting your Committee to proceed expeditiously with the bill, I am willing to forego at this time the consideration of provisions in this bill that fall under the jurisdiction of the Committee on Financial Services under Rule X of the Rules of the House of Representatives.

The Committee on Financial Services takes this action with our mutual understanding that by foregoing consideration of H.R. 1905 at this time, we do not waive any jurisdiction over the subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as the bill or similar legislation moves forward. Our Committee reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and requests your support for any such requests.

Further, I ask that a copy of our exchange of letters on this matter be included in the Congressional Record during floor consideration of this bill. I look forward to working with you as this important measure moves through the legislative process.

Sincerely,

SPENCER BACHUS,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON WAYS AND MEANS,  
Washington, DC, December 5, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairman, Committee on Foreign Affairs, Ray-  
burn House Office Building, Washington,  
DC.

DEAR CHAIRMAN ROS-LEHTINEN: I am writing regarding H.R. 1905, the "Iran Threat Reduction Act of 2011," which was favorably reported out of your Committee on November 2, 2011. I commend you on your efforts to make sure that the United States is better able to address the critical threats that Iran poses.

There have been productive conversations between the staffs of our Committees, during which we have proposed changes to provisions within the jurisdiction of the Committee on Ways and Means in the bill to clarify the intent and scope of the bill with respect to compliance with U.S. international trade obligations, thereby reducing our exposure to trade sanctions and retaliation against our exporters. I believe that compliance with our trade obligations makes for a more credible U.S. response to Iran's behavior and helps us develop a stronger multilateral response to Iran. Accordingly, I appreciate your commitment to address the concerns raised by the Committee on Ways and Means in sections 106, 205, 304, 305, 309 and 401 in H.R. 1905.

Assuming these issues are resolved satisfactorily, in order to expedite floor consideration of the bill, the Committee on Ways and

Means will forgo action on H.R. 1905. Further, the Committee will not oppose the bill's consideration on the suspension calendar, based on our understanding that you will work with the Committee as the legislative process moves forward in the House of Representatives and in the Senate, to ensure that the Committee's concerns continue to be addressed. This is also being done with the understanding that it does not in any way prejudice the Committee with respect to the appointment of conferees or its jurisdictional prerogatives on this or similar legislation.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 1905, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during Floor consideration.

Sincerely,

DAVE CAMP,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, December 5, 2011.

Hon. DAVE CAMP,  
Chairman, Committee on Ways and Means,  
Longworth HOB, Washington, DC.

DEAR CHAIRMAN CAMP: Thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 1905, the Iran Threat Reduction Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and the Committee on Ways and Means regarding the final text of those sections of H.R. 1905 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Committee on Ways and Means is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill. Additionally, I will support your request for an appropriate appointment of outside conferees from your Committee in the event of a House-Senate conference on this or similar legislation should such a conference be convened.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

With that, Mr. Speaker, I reserve the balance of my time.

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio.

Mr. KUCINICH. I would like to place in the RECORD an article from the Christian Science Monitor entitled, "Used-car salesman as Iran proxy? Why assassination plot doesn't add up for experts," and also from Mother Jones, "Four Things You Need to Know About the Iran Bomb Plot."

[From The Christian Science Monitor—  
CSMonitor.com, Oct. 12, 2011]

USED-CAR SALESMAN AS IRAN PROXY? WHY  
ASSASSINATION PLOT DOESN'T ADD UP FOR  
EXPERTS

(By Scott Peterson)

The U.S. has blamed the specialist Qods Force in an Iran assassination plot. But those who track the group say the plot doesn't reflect the careful planning, efficiency, and strategy the Qods Force is known for.

How careful is Iran's Qods Force when it comes to covert operations abroad?

This wing of the Revolutionary Guard was accused by U.S. military commanders in Iraq in 2007 and 2008 of jeopardizing the efforts of more than 150,000 American troops on the ground, of backing militias of all stripes, and of exercising strong influence on Baghdad's rulers.

Yet how many Iranian Qods Force operatives did that take? One U.S. diplomat posted to Baghdad at the time had the consensus answer: There were just eight Qods Force men in all of Iraq.

#### IN PICTURES: IRAN'S MILITARY MIGHT

Indeed, the Qods Force has a reputation for careful, methodical work—as well as effective use of local proxies, and ultimately their pragmatic deployment by Tehran as covert tools to expand Iran's influence across a region in flux. That explains why Iran experts are raising questions about fresh U.S. charges of an Iran-backed bomb plot, this time to kill the Saudi ambassador to Washington and blow up the Saudi and Israeli embassies.

A criminal complaint filed by U.S. prosecutors on Tuesday charge Mansour Arbabsiar—a naturalized U.S. citizen with an Iranian passport from Corpus Christi, Texas—and Gholam Shakuri, "an Iran-based member of Iran's Qods Force," with plotting to kill the Saudi diplomat on U.S. soil in an operation "directed by factions of the Iranian government."

#### DETAILS OF ALLEGED PLOT

Those who know Iran well are skeptical, but do not rule out any possibility. Mr. Arbabsiar may have arranged for \$100,000 to be transferred from Iran as a downpayment of \$1.5 million for the hit, as U.S. charges indicate.

Arbabsiar may also have boasted to one alleged accomplice in the plot—an associate of Mexico's Zeta drug cartel, who also happened to be an informant of the U.S. Drug Enforcement Administration—that his cousin was a "big general" in the Iranian military.

While also describing a series of potential attacks to the associate, he may even have stated—apparently in secretly taped conversations—that mass American casualties as a result were not a problem: "They want that guy [the ambassador] done [killed], if the hundred go with him f\* k 'em," reads the legal complaint.

#### WHY THE PLOT DOESN'T ADD UP

But Iran specialists who have followed the Islamic Republic for years say that many details in the alleged plot just don't add up.

"It's a very strange case, it doesn't really fit Iran's mode of operation," says Alireza Nader, an Iran analyst at the Rand Corp. in Arlington, Va., and coauthor of studies about the Revolutionary Guard.

"When you look at Iranian use of terrorism, it has some very specific objectives, whether it's countering the United States in Iraq or Afghanistan, or retaliating against perceived Israeli actions," says Mr. Nader.

"This [plot] doesn't seem to serve Iran's interests in any conceivable way," says Nader. "Assassinating the Saudi ambassador would increase international pressure against Iran, could be considered an act of war . . . by Saudi Arabia, it could really destabilize the government in Iran; and this is a political system that is interested in its own survival."

#### NO APPARENT COST-BENEFIT ANALYSIS

Iran has been trying to evade sanctions, strengthen relations with non-Western part-

ners, while continuing with its nuclear program, notes Nader.

He says it is "difficult" to believe that either Qassim Soleimani—the canny commander of the Qods Force—or Iran's deliberative supreme religious leader, Ayatollah Seyyed Ali Khamenei, would order such an attack that "would put all of Iran's objectives and strategies at risk."

That view has been echoed by many Iran watchers, who are raising doubts about the assassination plot allegations.

"This plot, if true, departs from all known Iranian policies and procedures," writes Gary Sick, an Iran expert at Columbia University and principal White House aide during the 1979 Iranian revolution and hostage crisis.

While Iran may have many reasons to be angry at the U.S. and Saudi Arabia, Mr. Sick notes in a posting on the Gulf2000/Columbia experts list that he moderates, "it is difficult to believe that they would rely on a non-Islamic criminal gang to carry out this most sensitive of all possible missions."

Relying on "at least one amateur and a Mexican criminal drug gang that is known to be riddled with both Mexican and U.S. intelligence agents" appears to be sloppy, adds Sick. "Whatever else may be Iran's failings, they are not noted for utter disregard of the most basic intelligence tradecraft."

The odd set of details means that the usual cost-benefit calculation that experts often attribute to Tehran's decisionmaking does not apply here, says Muhammad Sahimi, in an analysis for the Tehran Bureau website.

At a time when pressure is building on Iran over "gross human rights violations," sanctions are showing signs of working, Iran is "deeply worried about the fate of its strategic partner in Syria . . . tensions with Turkey are increasing . . . and a fierce power struggle is under way within Iran," says Mr. Sahimi, "it is essentially impossible to believe that the IRI [Islamic Republic of Iran] would act in such a way as to open a major new front against itself."

#### PREVIOUS ASSASSINATIONS ONLY TARGETED IRANIANS

Sahimi also notes that, even at the height of the regime's assassinations of opponents in the past, it did not target non-Iranians.

"It is keenly aware that it is under the American microscope," says Sahimi, making even less likely Iran embarking "on such a useless assassination involving a low-level, non-player individual."

Such reservations are not the same ones given by Iranian officials when they dismiss the charges of a murder plot. But analysts suggest more information will need to be revealed before judgment can be made.

"Iran does have a history of terrorism, but they also like to go through proxies—and true and tested proxies, not necessarily just anybody," says Nader of Rand, citing Hezbollah in Lebanon, for example, or Iraqi Shiite insurgents trained in Iranian camps.

The man arrested by U.S. law enforcement at JFK airport on Sept. 29 does not seem to fit that mold.

#### NOT YOUR AVERAGE PROXY

Arbabsiar, a former used car salesman, would appear to have been a surprise choice of the Qods Force. Yet he apparently traveled several times to Mexico to recruit drug-cartel hit men, had \$100,000 from Iran paid into a U.S. account and promised much more, and discussed the plot on a normal telephone.

"The Iranian modus operandi is only to trust sensitive plots to their own employees,

or to trusted proxies such as Hezbollah, Saudi Hezbollah, Hamas, the Sadr faction in Iraq, Iran-friendly extremist Muslims in Afghanistan and other pro-Iranian Muslim groups," wrote Kenneth Katzman of the Congressional Research Service on Gulf2000 on Wednesday.

"Are we to believe that this Texas car seller was a Qods sleeper agent for many years resident in the U.S.? Ridiculous," said Mr. Katzman, who authored a study of the Revolutionary Guard in the 1990s. "They (the Iranian command system) never ever use such has-beens or loosely connected people for sensitive plots such as this."

And what kind of man is he? The Associated Press spoke to Arbabsiar's friend and former Texas business partner David Tomscha, who said he was "sort of a hustler." The Iranian-American, the AP reported, "was likable, albeit a bit lazy."

"He's no mastermind," Mr. Tomscha told the AP. "I can't imagine him thinking up a plan like that. I mean, he didn't seem all that political. He was more of a businessman."

[From Mother Jones, Oct. 12, 2011]

#### 4 THINGS YOU NEED TO KNOW ABOUT THE IRAN BOMB PLOT

(By Adam Serwer)

The assassination was never going to take place. On Tuesday, FBI Director Robert Mueller described Iranian American Mansour Arbabsiar's alleged plot to assassinate the Saudi Ambassador to the United States as straight out of a "Hollywood script." In a sense he was right—because the plot was controlled from the beginning by the FBI. According to the criminal complaint, when Arbabsiar traveled to Mexico in May 2011, to allegedly find an assassin from the ranks of Mexican drug cartels, he ended up talking to a paid DEA informant who dodged drug charges in exchange for cooperating with authorities. In keeping with previous sting cases, the FBI was careful to record statements from Arbabsiar dismissing the possibility of numerous civilian casualties, something that makes an entrapment defense all but impossible to mount.

The US thinks Iran is responsible. The criminal complaint states that Arbabsiar believed his cousin, Ali Gholam Shakuri, was a member of the al-Quds Force, an elite faction of Iran's Revolutionary Guards. Under interrogation, Arbabsiar allegedly identified two men who were "known to the United States to be senior members of the Quds Force," one of whom allegedly met with Arbabsiar and Shakuri in Iran to discuss the operation. Despite the al-Quds Force's reputation for lethal effectiveness however, Arbabsiar and his cousin don't come off as any more competent than the average target of an FBI sting. They discuss the plot in ham-handed "code" in telephone conversations, and Shakuri allegedly wires \$100,000 to an American bank controlled by the FBI. That's not exactly the kind of subtlety you expect from an "elite unit" made up of Iranian Revolutionary Guard's "most skilled warriors," a group so effective that attacks in Iraq were attributed to them on the basis of their lethality and sophistication. (Iran's government has denied involvement.)

So much for Miranda rights halting interrogation. Arbabsiar was arrested in late September, but he wasn't brought before a judge until Tuesday. That's because when he was arrested at the airport upon returning from another trip to Mexico, he "knowingly and voluntarily waived his Miranda rights and his right to speedy presentment." Not only

did he cooperate with interrogators, he flipped and implicated his cousin Shakuri by calling him and discussing the plot while the FBI was listening in. And all without waterboarding.

So, about targeted killing . . . The New York Times' Charlie Savage recently reported on the contents of the legal memo authorizing the targeting of recently killed radical cleric Anwar al-Awlaki, which concluded that "Mr. Awlaki could be legally killed, if it was not feasible to capture him, because intelligence agencies said he was taking part in the war between the United States and Al Qaeda and posed a significant threat to Americans, as well as because Yemeni authorities were unable or unwilling to stop him." Iran could make similar arguments about the Saudi ambassador if they felt so inclined, if they wanted to justify the plot, true or otherwise. All of which is to say that those rules may not be enough of a framework to prevent a future in which other countries that acquire drone technology decide to use them to eliminate their stated enemies as frequently as the U.S. does.

I would also like to place in the RECORD a quote from Mr. Greg Thielmann, the former State Department and Senate Intelligence Committee analyst who says that "studies are still going on, but there's nothing that indicates Iran is really building a bomb."

Mr. Speaker, U.S. policy towards Iran for the last three decades has primarily taken the form of economic sanctions, threats, and isolationism. While U.S. sanctions have been effective at hurting Iran's economy and ordinary Iranian people, it can be argued that U.S. policy over the last 30 years has not been effective at creating any meaningful change in the conduct of the Iranian Government.

I would like to place in the RECORD a reprint from Foreign Affairs magazine, November 2011, which cites the ineffectiveness of the United States sanctions policy.

[From Brookings, Dec. 13, 2011, Reprinted by permission of Foreign Affairs, November 2011, Vol 87, No 6. Copyright 2011 by the Council on Foreign Relations, Inc.]

#### THE SELF-LIMITING SUCCESS OF IRAN SANCTIONS

(By Suzanne Maloney, Senior Fellow, Foreign Policy, Saban Center for Middle East Policy; Ray Takeyh, Senior Fellow for Middle Eastern Studies, Council on Foreign Relations)

Since the 1979 revolution that ousted Iran's pro-American monarchy and replaced it with a theocratic regime hostile to the West, the United States has sought to temper Iran's geopolitical ambitions through a combination of tough rhetoric and economic sanctions. After more than 30 years, the cycle is as unsurprising as it is ineffective; the United States and its allies orchestrate stringent economic measures through the United Nations, and then await concessions that somehow never materialize. Indeed, as UN prescriptions have amassed and Iran's trade with its traditional partners withers, there is no indication that the theocratic state is prepared to adjust its aspirations with respect to either its nuclear programme or its claims to regional power.

A closer look reveals that the international community missed a critical turning point in Iran's international orientation, and squandered the single obvious opportunity to shift Iranian policies towards a more constructive direction. In the 1990s, Iran appeared to be on the verge of discarding its radical patrimony, at least with respect to its foreign policy, much as other revolutionary states such as China and Vietnam have done. The end of the long war with Iraq and the death of the Islamic Republic's charismatic founder facilitated a period of reconstruction, a respite from the state's existential insecurities, and a predictable reconsideration of the regime's ideological verities. By the end of the decade, a reformist cadre led by President Muhammad Khatami sought to rejoin the international community by conceding to its mandates and adhering to its conventions. At the dawn of the twenty-first century, Iran finally appeared ready to usher in its own Thermidorian Reaction.

Yet this prospect appeared to fade after the election of hardliner Mahmoud Ahmadinejad to succeed Khatami in 2005. In the succeeding years, the Islamic Republic has regressed towards policies that resemble the worst excesses of its zealous early years: at home, unambiguous repression of any dissent and an insistence on absolute fealty to an aging clerical tyrant; abroad, provocative policies towards its neighbours and belligerence towards Washington. Unexpectedly, it has been a younger generation of Iranian politicians—Ahmadinejad and his cohort—who have rejected the nascent pragmatism of their elders; these children of the revolution are seeking to revive its mandates rather than to restrain them.

At the same moment as Iran's formidable new right wing came to the fore, the region began an even more dramatic set of political transformations, first with the US interventions to Iran's east and west that removed the theocracy's most menacing adversaries, and later with the advent of a powerful, far-reaching movement for democratic accountability across the Arab world. As a result of these intersecting trends, Iran's paranoid, combative leadership has been emboldened to take advantage of the opportunities to be found in an uncertain regional environment with a shifting balance of power. For this reason, the threats posed by Iran's domestic and regional policies loom ever larger for Washington and the broader international community.

To date, however, the Obama administration has stuck to the essential framework of the carrot-and-stick diplomacy it adopted upon taking office in 2009—an approach that differs merely in style from that of the Bush administration during its second term. This self-described 'dual-track' strategy relies on economic pressure to persuade Tehran to enter negotiations and moderate its policies, consistent with the basic American formula for dealing with Iran since 1979. The achievements of such an approach have always been open to question.

Even as the Obama administration has imposed the broadest and most robust multilateral restrictions on Iran in history, all of Tehran's most disturbing policies, including its aggressive nuclear programme, proceed apace. Sanctions have imposed heavy financial and political costs on the Islamic Republic, but they have not convinced Iranian leaders that their interests would be better served by relinquishing their nuclear ambitions, abandoning their other reckless policies, or even opening a serious dialogue with

Washington. This obduracy is a function of the complex political transformation within Iran over the course of the past decade, the regime's well-honed capabilities for evading and insulating itself against sanctions, and of course the momentous changes that have swept the broader region. As a result, in dealing with the Islamic Republic of 2011 economic sanctions can have little expectation of achieving meaningful changes in Tehran's policies. This article examines the history of sanctioning the Islamic Republic, and argues that despite their increasing severity, sanctions have failed to achieve their intended policy results thanks to the regime's capacity for resisting international pressure. Moreover, the rise of a new generation of hard-liners and the uncertain aftermath of the Arab Spring has exacerbated the regime's aversion to compromise.

U.S. policy towards Iran has failed to ensure a peaceful Iran that aids regional security. Yet today we are considering legislation that significantly restricts any efforts by the U.S. Government, including Members of Congress, to engage Iran diplomatically, and it further hurts ordinary Iranian people by imposing indiscriminate sanctions. Proponents of the Iran Threat Reduction Act claim that it's a last ditch effort to prevent military confrontation with Iran. Yet, this bill takes away the most effective tool to prevent war—diplomacy. As the United States only now begins to extricate itself from the highly questionable military campaigns in Iraq and Afghanistan, we cannot allow the United States to be plunged into yet another disastrous war.

I oppose nuclear proliferation for military purposes for all countries and believe that sanctions have proven to be a failed policy. We must rely on diplomacy, not outlaw it, and avoid taking steps which push us closer to military confrontation.

I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I yield myself 2 minutes.

This bill may represent our last chance to find a peaceful means to pressure the Iranian regime into stopping its nuclear weapons program. Within the next year, possibly in the next 6 months, this program may become irreversible unless we act now.

We know that sanctions are having an impact in Iran. President Ahmadinejad recently said that Iranian banks "cannot make international transactions anymore." Just this weekend, Iran's Central Bank governor said "the situation of sanctions is harder than a physical fight." With this bill before us today, we intend to make his fight much harder.

No sanctions can be deemed truly effective until Iran ends its nuclear weapons program. We know that Iran is steadily increasing its stockpile of low-enriched uranium, moving its centrifuges to a hardened underground facility and making progress in other ways towards a nuclear-weapons capability. We need to do more and faster.

H.R. 1905 builds on past efforts by imposing sanctions on foreign commercial enterprises that do business with Iran's Islamic Revolutionary Guards Corps, by widening the scope of sanctions on human-rights abusers, and by other means. But one of the most important elements of this bill is my measure to impose sanctions on Iran's Central Bank, which provides key financial support for Iran's nuclear-weapons and terrorism activities. This measure would cut Iran entirely off from the world's banking system, dealing an unprecedented blow to Iran's economy.

This may cause short-term difficulties for the world's oil market. And it may rattle some of our allies. But it is necessary because stopping Iran's nuclear program is of paramount strategic importance—and we are running out of time.

Mr. Speaker, our absolute goal must be to stop Iran's nuclear weapons program. That's the goal of this bill. We may have only a few more months to deal peacefully with this crisis. There is no time to lose.

I urge my colleagues to support this bill.

I reserve the balance of my time.

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio.

Mr. KUCINICH. Mr. Speaker, I would like to place in the RECORD an article from the Washington Post ombudsman entitled, "Getting ahead of the facts on Iran," which states that the IAEA report does not say Iran has a bomb nor does it say it is building one.

[From The Washington Post, December 9, 2011]

#### GETTING AHEAD OF THE FACTS ON IRAN

(By Patrick B. Pexton)

Headlines are tricky and difficult. They're written quickly, with print and Web publishing deadlines always looming, and with space limitations, yet headline writers try to be creative, informative, and occasionally, humorous.

Few readers remember the hundreds of well-crafted headlines that entice yet describe a story accurately. But when a headline is bad, it sticks with you, like a burr you can't get out of your sock.

So it was with recent headlines that appeared on one of The Post's online photo galleries.

I was bombarded—about 1,500 e-mails—with complaints about this headline (it was an organized campaign, but more about that in a minute).

The photo slideshow depicted Iran's nuclear research facilities and originally had a headline and subhead that readers felt were misleading: "Iran's quest to possess nuclear weapons, the main headline said, followed by this subhead: "Intelligence shows that Iran received foreign assistance to overcome key hurdles in acquiring a nuclear weapon, according to the International Atomic Energy Agency."

The gallery was linked to two stories by The Post's national intelligence reporter, Joby Warrick, one on Nov. 6 and one on Nov. 8 describing the latest IAEA report, in which

the U.N. agency said that Iran's drive for nuclear technology has military aspects that could bring it to the threshold of a nuclear bomb.

"But the IAEA report does not say Iran has a bomb, nor does it say it is building one, only that its multiyear effort pursuing nuclear technology is sophisticated and broad enough that it could be consistent with building a bomb.

Iran steadfastly denies it is aiming for a nuclear bomb and says its program is aimed at civilian nuclear energy and research. Of course, Tehran could be lying. But no one knows for sure.

This is what the U.S. director of national intelligence, James R. Clapper, told the Senate Armed Services Committee in March: "We continue to assess [that] Iran is keeping open the option to develop nuclear weapons in part by developing various nuclear capabilities that better position it to produce such weapons, should it choose to do so. We do not know, however, if Iran will eventually decide to build nuclear weapons."

So are there 1,500 Post readers so attuned to headlines that they wrote me spontaneously to object? Well, no.

This was an effort organized by a left-leaning nonprofit group called Just Foreign Policy. On the group's board, among others, are Julian Bond, longtime NAACP chairman, and Tom Hayden, former California legislator and 1960s activist. Founded in 2006, Just Foreign Policy is a shoestring operation, and it has no staff in Washington.

Robert Naiman, a recent master's degree graduate from the University of Illinois, runs the group's online campaigns from his home in Urbana.

"We're not a super-sophisticated operation," Naiman acknowledged with a chuckle. But it is savvy enough to use the Web effectively. "We try to inform and agitate," he added. The group works mainly to end the wars in Iraq and Afghanistan and to prevent new ones, such as with Iran.

"Most of what I do is read the newspaper and try to tell people about what I read," Naiman said. "I stumbled on the headline, and was astonished, even knowing The Post's editorial line on Iran. I'm old-fashioned. The editorial page is one thing and the news is the other. The gallery headlines belonged more in the former and not the latter."

So he spotlighted the headline on the top of Just Foreign Policy's home page, with this message: "U.S. media helped railroad the nation into war with Iraq by treating unproven claims about Iraq's alleged [weapons of mass destruction] program as facts. Now we're seeing the same behavior concerning Iran."

Visitors to Naiman's site could click on a link that sent a pre-written e-mail urging yours truly to fact-check the headline. Daily Kos and other left-leaning Web sites picked it up, adding fuel to the fire. Pretty soon, the ombudsman's inbox was crammed.

I think Naiman and his Web army were right. The headline and subhead were misleading.

Photo galleries generally are built by photo editors and then passed to copy editors for captions and headlines. I couldn't identify exactly where in the process these headlines went wrong, but when I raised the issue it was quickly fixed.

In a Web-driven world, one bad headline can check the globe in minutes and undermine The Post's credibility. It can also play into the hands of those who are seeking further confrontation with Iran.

I would like to place in the RECORD an article, "Experts Cast Doubt on Iran

Sanction Strategy” which raises questions about the Iranian stockpile and how much enriched uranium they actually have.

EXPERTS CAST DOUBT ON IRAN SANCTIONS  
STRATEGY

Monday, November 28, 2011  
(By Ardavon Naimi)

WASHINGTON, DC.—“We have succeeded in imposing the strongest sanctions to date on the Iranian regime,” said Tom Donilon, National Security Advisor, last week at the Brookings Institution. Donilon, addressing the administration’s concerns regarding Iran’s nuclear program in light of the latest IAEA report, stated that sanctions have isolated Iran internationally, helped delay Iran’s nuclear program, and facilitated divisions inside Iran’s political establishment.

But according to some of the experts participating in a panel discussion preceding Donilon’s keynote address, the sanctions have largely punished ordinary Iranians and have united, not divided, political factions in Iran.

According to Kevan Harris, U.S. Institute of Peace Jennings Randolph peace scholar and Ph.D. candidate at the Johns Hopkins University, the sanctions are “not as smart as we think.”

Harris described the effects of sanctions inside of Iran. “Sanctions are having an impact . . . in what I like to call ‘trickle down’ sanctions.” Sanctions affect the ability of certain banks and large enterprises to obtain foreign exchange and goods, consequently affecting small and medium sized enterprises inside Iran—such as the construction and automobile industry. This process has resulted in the rising cost of business. This trickling down helps to rise “unemployed to a certain extent, and also decreases wages,” affecting everyday Iranians.

Harris challenged the assumption that sanctions facilitate divisions inside Iran’s political elite. “If you threaten countries . . . all of a sudden they have a real big incentive to start working together,” said Harris. “At high peaks of perceived external threat, the discourse of unity raises and the discourse of factionalism dies down.”

We spend a lot of resources on sanctions . . . political and economic . . . we need to ask ourselves, what’s the cost benefit of that versus spending resources on diplomatic options.”

Ray Takeyh, Senior Fellow for Middle Eastern studies at the Council on Foreign Relations believes that “Iran’s nuclear program is driven by domestic political factors.” Yet, Takeyh takes the argument against sanctions a step further. He believes that Iran’s nuclear program is actually the Islamic Republic’s only perceived path to “international legitimacy.” By withstanding sanctions and obtaining a nuclear weapon, Iran would “extract tributes from international concession.” “This program . . . may be beyond diplomatic mediation . . . underpinned by economic coercion,” said Takeyh.

Harris challenged Takeyh’s assertion, stating “if the goal of the program is their perceived only path to international legitimacy, then it seems like an alternative policy would be to provide a different path to international legitimacy for Iran that they don’t perceive as open.”

Charles Ferguson, President of the Federation of American Scientists, discussed the latest IAEA report on Iran’s nuclear program. “Is there anything really new in the annex of the IAEA report?” asked Ferguson,

“you have to say, not really. There’s not a whole lot of new stuff in there.” Although there are reasons for concern regarding Iran’s ongoing efforts, Ferguson says that “most of the things that are documented, that we know well, happened prior to 2004.”

Iran continues to build up its stockpile of 19.75 percent enriched uranium, yet Ferguson acknowledges that “even at 20 percent enrichment, it’s still going to take a few hundred kilos of that amount of material to have enough for one bomb . . . and Iran so far according to the IAEA, has something like 80 kilograms enriched to that level.” Even when factoring in Iran’s 4900 kilograms of 3.5 percent low enriched uranium, Ferguson concludes that it is “still not enough material to provide Iran with a true break-out capability.” Ferguson suggested that the best response to Iran’s defiance is not further isolation, but creating openings for dialogue to facilitate increased safeguards and limits on Iran’s nuclear program.

Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. I appreciate the gentleman’s courtesy in permitting me to speak on the bill. We will postulate that Iran has been a terrible actor and that having nuclear weapons is a threat to international stability and something that we should resist.

I am concerned about the legislation that is before us being potentially counterproductive in two areas. It’s not something that we ought to be coming forward with here at 8:15 at night on the unanimous consent calendar. There are legitimate issues here, and there is controversy. My friend from California said, well, there may be disruptions in the oil markets. Well, I think of what has motivated people in terms of their concern about what has happened; according to an article in the Wall Street Journal, new sanctions could raise the price of gas in the United States by a dollar a gallon. An article in The New York Times estimated it could cost Americans \$100 billion a year. This is not inconsequential. At a time when our economy is in tough shape, when we are concerned about being able to move forward, we ought to think carefully about doing something.

Now, if it would stop nuclear weapons for Iran, it might be worth it. There’s no evidence that that is the case. We look only at the failed policy with Cuba where we have had massive efforts at sanctioning Cuba, a little, tiny island off the American coast, and what we have done, most independent experts agree, is that we have propped up Castro. We have given him a reason. If we had been freely trading and interacting with the Cuban people, I think Castro would have been a thing of the past.

Being careful about what we do with Iran matters. But I’m deeply concerned about language here that would prohibit any official or unofficial capacity—having no person employed by the United States contacting in an official or unofficial capacity.

My reading of this is that it is inappropriate to tie the hands of the administration to require 15 days’ notice to exercise a waiver authority. Where we have been successful in the past, for example, in defusing a real nuclear problem with Cuba, there was actual engagement with the administration. President Kennedy and others were able to work dealing with the real problem, dealing with the Soviet Union, our adversaries, people who could actually destroy us.

I am deeply concerned that we not forestall opportunities to engage in diplomacy, which needs to be a part of any reasonable sanction policy going forward trying to deal with Iran.

□ 2020

From my vantage point, I think we need to be careful about how we move forward dealing with sanctions policies: sanctions first, ask questions later. My hope is that we’ll have an opportunity to deal with this issue with the gravity that it requires, have interaction on the floor, be careful about what we’re doing going forward with the economic impacts and the fact that it may very well likely further embolden this administration, the administration of Iran. I don’t think that’s something that is appropriate to us.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

A nuclear Iran is unacceptable. Our fundamental strategic objective must be to stop Iran before it obtains nuclear weapons capabilities and to compel it to permanently dismantle its pursuit of such weapons. That is the test we face. And if we fail, it will come as no consolation to the families of the victims of past and future Iranian attacks or to our allies.

We don’t know how much time we have left. In its report on Iran’s nuclear program last November, the International Atomic Energy Agency stated that not only has Iran continued to make significant progress regarding its nuclear program, but the IAEA said that it had uncovered solid evidence that Iran has been working on a nuclear explosive device as well.

Given the Iranian regime’s history of concealing its clandestine nuclear activities, Tehran may very well be closer to a nuclear weapons capability than we even assume. Some estimates now place them a mere 6 months to a year away from having all the ingredients in place to build a nuclear weapon. Every day they move closer and closer to realizing their nuclear ambitions, and our nightmare scenario moves closer and closer to becoming a reality.

The Iranian regime is not interested in any outcome other than a nuclear Iran, though they are happy to use negotiations to buy time to make progress in their nuclear program. Yet we know that when sanctions have

been applied, even limited sanctions, they have had an impact on the Iranian regime.

It is time to build on this lesson and apply crippling sanctions against the regime and its enablers. That is the purpose of the bill before us, the Iran Threat Reduction Act, which our Foreign Affairs Committee adopted unanimously last month. This legislation updates and strengthens previous Iran sanctions laws so that the United States can take effective action to address the multiple threats posed by the regime in Tehran.

The bill closes loopholes in the energy and financial sanctions that are in place now and counters the regime's efforts to evade them, including by targeting the Central Bank of Iran. The bill also focuses on the Iranian Revolutionary Guard Corps and the senior Iranian regime officials.

Over 350 Members of Congress have cosponsored this strongly bipartisan legislation. Let us meet our responsibilities to the American people and protect the security of our Nation from this growing threat.

With that, I reserve the balance of my time.

Mr. KUCINICH. I realize, Mr. Speaker, that there are a number of people who want to speak on this who are in favor of this resolution. In order to make sure that everyone is provided a chance, although I may disagree with what Mr. SHERMAN is about to say, I'll defend his right to speak, and so I yield 4 minutes to the gentleman from California (Mr. SHERMAN).

Mr. SHERMAN. I thank the gentleman for his generous grant of time, especially because he will probably disagree with almost everything I have to say.

I'd like to thank Chairman ILEANA ROS-LEHTINEN for bringing together the best ideas of so many Members—and, of course, of her own—to move toward another important step toward dissuading Iran from developing nuclear weapons and for her ability to build a coalition that has over 300 Members cosponsoring this bill.

We have to create circumstances where the regime in Tehran has to choose between its nuclear weapons program and regime survival. We owe a special debt of gratitude to the mullahs who are running Iran, because it is their incompetence and their corruption that creates a risk to regime survival even at a time of very high oil prices. And we owe a debt of gratitude to the Iranian people, who rose upon against this regime in the summer of 2009 and whose desire for freedom poses a real threat to regime survival.

Looking at the particulars of this bill, I want to thank the chairwoman for including in this bill, in title III, provisions dealing with the Iran Revolutionary Guard Corps. These are based on the Revolutionary Guard Corps Des-

ignation Implementation Act, which I introduced in 2009 along with the chairwoman, ED ROYCE, and DAN BURTON. This title III makes it clear to foreign companies that, if they do business with the Iran Revolutionary Guard Corps, they cannot do business in the United States.

I also want to thank the chairwoman for cosponsoring, both last year and this year, my bill, the Stop Iran's Nuclear Program Act, and for including many of those provisions in this legislation that's before us today, in particular, including a provision that would sanction those companies that loan money to Iran, whether in dollars or in euros or in any other currency, that tell the foreign incorporated subsidiaries of U.S. multinational corporations that they, too, cannot do business with Iran.

To build upon the provision that CHUCK SCHUMER and I were able to write and was included in CISADA, which was adopted last year, to indicate that those who give Iran the technologies to suppress the Internet and to apprehend dissidents through the Internet will be sanctioned. Companies should not be providing that kind of technology to Iran. Now, this bill would require the State Department to actually implement those provisions by designating the technologies that cannot be sold to Iran.

This bill also includes the provision of the Stop Iran's Nuclear Weapons Program Act that allows States to do even more to help this Federal policy, by providing that those insurance companies that are helping Iran may not be able to do business in their particular State.

Finally, I want to point out that this bill includes provisions aimed at the Central Bank of Iran, but that is not a reason for us not to also pass the Menendez-Kirk language that's in the Defense authorization bill.

The Menendez-Kirk language would, like this bill, sanction those U.S. banks that violate our law by doing business with Iran and would freeze those assets that the Central Bank of Iran has foolishly left in the United States or may have done so. But the key thing about the Kirk-Menendez language is that it tells European and Asian and other non-U.S. banks that they must stop their business with the Central Bank of Iran and virtually all the major banks of Iran as well. It imposes secondary sanctions. And I believe the Kirk-Menendez language will make it difficult for Iran to sell oil or to buy anything with its oil revenue.

I urge the passage of this bill, the Kirk-Menendez language, and other sanctions against Iran.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to the Democratic whip for the House, the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. I thank the gentleman from California (Mr. BERMAN) for yield-

ing. I also want to thank him and my dear friend ILEANA ROS-LEHTINEN for their leadership on this bill. I know that Mr. BERMAN, in particular, is very focused on the central bank and sanctioning of them, and so I thank him for his leadership.

Mr. Speaker, last month the IAEA released a report on Iran's covert nuclear program that was troubling, to say the least. Not only is Iran continuing to enrich uranium, but they're also believed to be pursuing the development of delivery technologies to create a warhead that could threaten Israel and our allies in Europe and the Persian Gulf, not to mention the over 200,000 Americans that are in the region.

□ 2030

On top of these dangerous risks, Iran's continued nuclear development runs the risk, of course, of launching a nuclear arms race in the Middle East. Indeed, just last week, a former Saudi Arabian Ambassador to the United States, Prince Turki Al-Faisal, confirmed our worst fears, suggesting that his country might begin to pursue a nuclear capability in response to Iranian nuclear development.

Iran has continued its sponsorship of terrorism against our ally, Israel, and carries out gross human rights abuses against its own people. Sanctions against Iran's energy, transportation, and financial sectors are intended to, and I believe, will make clear to Iran the steep costs of its choices. That is why I am in strong support of this resolution, the Iran Threat Reduction Act and the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act, and I urge my colleagues to vote "yes" on both.

We know from history that ignoring the threats of leaders, ignoring their building up of capabilities to threaten the rest of the world, is done so at great peril and at great cost.

I urge my colleagues to support this very important piece of legislation. I thank Mr. BERMAN and Ms. ILEANA ROS-LEHTINEN.

Mr. KUCINICH. Could I ask, Mr. Speaker, how much time all parties have remaining?

The SPEAKER pro tempore. The gentleman from Ohio has 9¾ minutes, the gentleman from California has 6 minutes, and the gentleman from Florida has 3½ minutes.

Mr. KUCINICH. Mr. Speaker, I yield myself such time as I may consume.

I would like to place in the RECORD an article from the Arms Control Association which states that the IAEA board resolution avoided direct censure of Iran, and did not declare Iran to be in noncompliance with its nonproliferation activities.

[From armscontrol.org, Nov. 8, 2011]

THE IAEA'S IRAN REPORT: ASSESSMENT AND IMPLICATIONS

The IAEA report and annex released today provides disturbing and "credible" additional details regarding Iranian nuclear warhead development efforts that have allowed Tehran to acquire some of the expertise needed to build nuclear weapons, should it decide to do so.

The broad outline in the IAEA's latest report on the military dimensions of Iran's program is not new, but rather, provides greater detail regarding weapons-related activities outlined in previous public reports.

The IAEA report and annex reinforce what the nonproliferation community has recognized for some time: that Iran engaged in various nuclear weapons development activities until 2003, then stopped many of them, but continued other.

The activities documented in the IAEA report, including research related to nuclear warheads, underscore that Tehran's claims that it is only seeking the peaceful use of nuclear energy are false.

Iran's warhead work also contradicts its obligation not to pursue nuclear weapons under the nuclear Nonproliferation Treaty (NPT), under which states parties commit "not to seek or receive any assistance in the manufacture of nuclear weapons or other nuclear explosive devices."

The report suggests that Iran is working to shorten the timeframe to building the bomb once and if it makes that decision. But it remains apparent that a nuclear-armed Iran is still not imminent nor is it inevitable.

The report should prompt greater international pressure on Tehran to respond more fully to the IAEA's questions, allow for more extensive inspections of its nuclear facilities, engage more seriously in talks on its nuclear program, and to agree to confidence building steps to help resolve the crisis.

COMPARISON OF THE IAEA'S FINDINGS WITH PUBLIC U.S. INTELLIGENCE ASSESSMENTS

Because the IAEA report is based largely on intelligence the United States and other IAEA member states have been sharing with the agency for some time, in addition to the agency's own investigations, the information in the report likely provides greater insight into current U.S. assessments about Iran's nuclear program.

The U.S. intelligence community appears to stand by the judgment made in the 2007 NIE that Iran had a nuclear weapons program that was halted in the fall of 2003. Moreover, in his testimony before a Senate committee in March 2011, U.S. Director of National Intelligence James Clapper confirmed that the intelligence community still had a high level of confidence that Iran has not yet made a decision to restart its nuclear weapons program.

Because the weapons program is believed to refer to the series of projects the IAEA report details, Clapper's statement is not inconsistent with the notion that some weapons-related R&D has resumed which is not part of a determined, integrated weapons-development program of the type that Iran maintained prior to 2003.

Consistent with the finding of the 2007 U.S. National Intelligence Estimate, the IAEA report says that a comprehensive weapons program (known as the AMAD Plan) "was stopped rather abruptly pursuant to a 'halt order,'" in late 2003, but that some of the program's activities were resumed later. Key personnel are still involved in those renewed activities apparently tying up loose ends re-

garding their prior research and development work.

SUMMARY OF KEY IAEA FINDINGS ON WEAPONS-RELATED ACTIVITIES

The IAEA deserves credit for continuing to press the issue and to present this important information to the IAEA Board of Governors in spite of Tehran's unwillingness to cooperate with the investigation. This resolve helps to bolster the integrity of the agency and show that countries cannot simply get away with nonproliferation violations by denial and obfuscation.

According to the report, Iran was engaged in an effort prior to the end of 2003 which ran the full range of nuclear weapons development, from acquiring the raw nuclear material to working on a weapon they could eventually deliver via a missile. Just as important as the type of work being carried out is how that work was organized. The series of projects that made up Iran's nuclear program appears to have been overseen by "senior Iranian figures" and engaged in "working level correspondence" consistent with a coordinated program.

Key components of this program include:

**Fissile Material Production:** As documented in previous reports, Iran ran an undeclared effort to produce uraniumtetrafluoride (also known as Green Salt), a precursor for the uranium used in the enrichment process. The affiliation between this project and other projects directly related to warhead development suggests that Iran's nuclear weapons program included both fissile material production and warhead development. Although the report does not detail a uranium enrichment effort as part of the AMAD Plan, the secret nature of the Natanz enrichment plant prior to 2002 suggests that it was originally intended to produce the highly enriched uranium (HEU) for weapons.

**High Explosives Testing:** Iran's experiments involving exploding bridgewire (EBW) detonators and the simultaneous firing of explosives around a hemispherical shape points to work on nuclear warhead design. The agency says that the type of high explosives testing matches an existing nuclear weapon design. Iran admits to carrying out such work, but claims it is for conventional military purposes and disputes some of the technical details.

**Warhead Design Verification:** Iran carried out experiments using high explosives to test the validity of its warhead design and engaged in preparatory work to carry out a full-scale underground nuclear test explosion.

**Shahab-3 Re-entry Vehicle:** Documentation reviewed by the IAEA has suggested that, as late as 2003, Iran sought to develop a nuclear warhead small enough to fit on the Shahab-3 missile. Confronted with some of the studies, Iran admitted to the IAEA that such work would constitute nuclear weapons development, but Tehran denies carrying out the research.

The IAEA admits that it has less information regarding warhead-related work Iran has continued to pursue since 2003, but the report has provided some insight into the type of activities that Iran subsequently resumed, which seems to be focused on warhead design verification. The act that the agency was able to detail some of the organizational changes that have taken place since 2003, including the current position of the person who formerly oversaw the AMAD Plan, suggests that intelligence agencies still have considerable insight into Iran's nuclear program. Tehran will likely be con-

cerned about its inability to hide such important information and will likely engage in further restructuring following this report, which may delay its efforts once again.

Considering the IAEA's reliance on intelligence information from states, it went through considerable length to demonstrate why it thought this information was credible. It was not just a matter of acquiring consistent information from over 10 countries, but it seems some of the most incriminating evidence comes from the AQ Khan network, which Iran admits it relied upon. The information from the Khan network includes details about nuclear warhead designs the network gave Iran that match up to the research and experiments detailed in the intelligence information.

THE IAEA BOARD OF GOVERNORS NEEDS TO RESPOND

The report will be considered by the IAEA Board of Governors at its next meeting Nov. 17-18, along with a draft resolution censuring Iran for violating its nonproliferation commitments. The Board's 35 members cannot ignore Iran's warhead development activities or Tehran's refusal to cooperate with the IAEA's investigation into that work. It must also insist that Iran improve its cooperation with the agency prior to the next board meeting.

A consensus response is unlikely given existing divisions among the 35 countries, and in particular, Cuba's current membership on the board. Beijing and Moscow have also unfortunately played an unhelpful role prior to the release of the report by calling on Director-General Yukiya Amano to limit the information detailed it contains.

However, it is important that the board's response receives support from as many countries as possible to demonstrate to Tehran that it cannot engage in work directly related to nuclear weapons with impunity.

In particular, developing countries on the IAEA Board of Governors should no longer treat the Iran nuclear issue as a test case for preserving the right to the peaceful uses of nuclear energy. Rather, it is time that all states insist that Iran stop abusing that right for the development of a nuclear weapons capability and take meaningful steps to cooperate with the IAEA and suspend enrichment work, particularly enrichment of uranium at the 20% level.

RIGHTS AND RESPONSIBILITIES

Iran cannot complain that Western states are trying to deny the Islamic Republic its nuclear "rights." The U.S. position, consistent with the 2006 offer by the P5+1, has been that Iran could resume enrichment some time in the future after it reestablishes confidence with the international community that it is not pursuing nuclear weapons.

As Secretary of State Hillary Rodham Clinton explained it to the House Committee on Foreign Affairs on March 1, 2011, it is the U.S. Government's position is that "under very strict conditions" and "having responded to the international community's concerns," Iran would have a "right" to enrich uranium under IAEA inspections.

In response to the IAEA's report, the international community should redouble efforts to implement existing U.N. Security Council-mandated sanctions on Iran's nuclear and missile sectors and, if Iran remains unwilling to cooperate with the IAEA and ignore the Security Council, further isolate Iran diplomatically and economically.

MAINTAIN PRESSURE AND ENGAGE

In response to the report, the White House has appropriately underscored that the

United States continues to focus on using diplomatic channels to pressure Iran to abandon its sensitive nuclear activities.

To keep open the option for an effective negotiated resolution to the crisis, President Barack Obama should also reiterate the willingness of the United States and its P5+1 partners to follow-through on the recent letter from the EU's Catherine Ashton to Iran's leaders offering to engage them in further talks to address the nuclear program.

Continuing pressure through targeted sanctions against Iran's nuclear and missile sectors, coupled with the pursuit of a negotiated agreement to resolve serious concerns over Iran's sensitive nuclear activities and to limit its uranium enrichment capacity provides the best chance of preventing a nuclear-armed Iran.

Talk of military strikes against Iranian nuclear and military targets is unhelpful and counterproductive. Military strikes by the United States and/or Israel would only achieve a temporary delay in Iran's nuclear activities, convince Iran's leadership to openly pursue nuclear weapons, rally domestic support behind a corrupt regime, and would result in costly long-term consequences for U.S. and regional security and the U.S. and global economy.

Ultimately, resolving the nuclear issue will require sufficient pressure and inducement to convince Iran that it stands more to gain from forgoing a nuclear-weapons option and much to lose from any decision to build them.

My friend from Oregon earlier mentioned the question of oil prices, and it's something that we ought to be concerned about.

I would like to place in the RECORD an article from Slate that says that this sanction could lead to an increase in the price of gasoline that could be as much as \$1.25 a gallon.

[From Slate, Dec. 2, 2011]

WILL SANCTIONS AGAINST IRAN RAISE GAS PRICES?

(By Brian Palmer)

The Senate unanimously passed a bill Thursday that would impose economic sanctions on Iran, over the objection of the White House. One of the administration's complaints was that the move could increase oil prices. How much could sanctioning Iran cost us at the pump?

The nightmare scenario would be an additional \$1.25 per gallon. Iran produces just over 5 percent of the world's crude, which doesn't seem like a lot. But oil demand is price-insensitive—people and businesses refuse to change their fuel-buying habits until the costs go way up. That means a reduction in supply will have a disproportionate effect on prices. In the past, price increases have been about 10 times greater than their precipitating drops in production. Based on the same historical data, and given that oil is currently hovering at around \$100 per barrel, a complete shutdown of Iranian exports could force prices as high as \$150. (That's 5 percent, times the tenfold multiplier, times the current price of \$100.) Since a one-dollar change in the cost of a barrel of oil usually translates to a two-and-a-half-cent surge in retail gas prices, cutting Iran off from world oil markets could increase the price of gasoline by a dollar and a quarter.

This theoretical scenario is extremely unlikely, however. The Senate bill permits the president to delay the sanctions if there isn't adequate supply on the market. In addition,

the bill would make it harder for foreign banks to deal with the Iranian central bank, which acts as a middle man in oil transactions. But it wouldn't make buying Iranian crude impossible, and sanctioned countries have historically found ways to sell their oil. (Consider, for example, the oil for food program that undermined sanctions against Iraq. The Senate sanctions against Iran also have a humanitarian exemption.) There hasn't been a truly effective, worldwide boycott of a country's oil exports since 1951-53, when Iran nationalized its oil industry. As long as Iranian oil continues to flow to Asia and parts of Europe, the sanctions would have a relatively small impact on prices.

There's also the possibility that Saudi Arabia could make up for some of the banned Iranian oil, as it did during the first and second Persian Gulf wars. The Saudis wouldn't be able to plug the gap entirely, because they don't have as much excess capacity as they used to. They could soften the blow, though.

There is one long-shot scenario that should be mentioned, in which oil prices go even higher than \$150 per barrel. When pressured in the past, Iran has threatened to block oil deliveries through the Strait of Hormuz. Around 17 percent of oil traded globally passes through that waterway.

While such an occurrence could theoretically lead to \$8-per-gallon gasoline, based on the historic relationship between supply and price, it's a practical impossibility. Demand would drop significantly at those dizzying prices, causing the cost of a barrel of oil to increase more in proportion with changes to supply. More importantly, the economic shock of such a scenario would likely trigger a naval response from the U.S. and its allies.

Mr. Speaker, an article in the Wall Street Journal raises this question as well. It says that crude flirts with \$100 a barrel on geopolitical unrest. And it also quotes a commodity strategist at the Standard Bank in London as saying the timing of an Iranian embargo could hardly be worse. Relatively small disruptions could cause spikes in oil prices.

A director of the Treasury Department's Office of Foreign Assets Control, Mr. Adam Szubin, stated that there are real scenarios in which an oil spike might hit. This is from an article: U.S. officials warn that new sanctions could be a boon to Iran. There's another article that cites that, and an article from The New York Times which states that U.S. officials have declared they'd hold Iran accountable for a purported plot, but they've now decided that a proposed move against Iran's central bank would disrupt international oil markets and further damage the reeling American and world economies. I think that's something that we ought to be concerned about; that if, in fact, we are moving forward with sanctions, sanctions which will have an effect on the price of oil, is this the timing to do that kind of thing, and are we prepared in this Congress to accept the responsibility for a sharp increase in the price of oil?

Here's a quote from a blog called San Francisco Gate quoting the Undersec-

retary of State, Wendy Sherman, telling the Senate Foreign Relations Committee, "There's absolutely a risk the price of oil would go up, which would mean that Iran, would, in fact, have more money to fuel its nuclear ambitions, not less."

Mr. Speaker, I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 1 minute to the gentleman from New York (Mr. ENGEL), a senior member of the committee, a leader in these efforts for many years, the ranking member of the Western Hemisphere Subcommittee.

Mr. ENGEL. I rise in strong support of this legislation.

Under no circumstances should Iran be allowed to develop a nuclear weapon. This is a dangerous regime which supports terrorism and calls for the destruction of Israel. And every day they're getting closer to weaponizing a stockpile of enriched uranium.

No amount of naivete or wishful thinking will get the Iranian regime to back down. They are liars, and diplomacy hasn't worked and won't work. They'll only play for time.

We heard the same arguments about not putting the sanctions on the apartheid regime in South Africa. Now we hear that oil is going to go sky high.

Well, you know what? I think morality is more important than the price of oil. I think morality says that this terrible regime should not be allowed to have nuclear weapons, should not be allowed to wipe Israel off the face of the Earth, should not be allowed to do the horrible things that it does.

This important bill imposes tough sanctions on Iran's Islamic Revolutionary Guard Corps and against the Central Bank of Iran, and the Iranians have to know our sanctions will only be increased if they don't back off soon.

We have bipartisan support here. People say Congress doesn't work together. We worked together on this. This is important. We need to pass this bill.

Mr. KUCINICH. Mr. Speaker, I yield myself 1 minute.

I would respectfully respond to my friend from New York that the price of oil is, in fact, a moral question.

I want to raise the question of the constitutionality of this particular proposal. I believe that it's unconstitutional because it is an unconstitutional abridgement of freedom of speech and freedom of association. It is an unconstitutional abridgement of the right of free expression by Federal employees. It is a violation of whistleblower protections which have been granted a constitutional basis; that, in fact, it violates our own speech and debate clause of the Constitution of the United States because we have an obligation to inquire and to ask questions; that it violates the Constitution's separation of powers and challenges the

President's power to engage in foreign diplomacy; that it is operationally impossible; that you can have even Admiral Mullen, former Chair of the Joint Chiefs, point out that with the miscommunications that can occur from a lack of diplomacy, we could be putting our own people at risk.

In fact, there was an article that was published that deals with a scenario that would happen in the Gulf where there are run-ins between American and Iranian vessels. The no contact provision, if enacted, could outlaw the U.S. Navy's bridge-to-bridge communications with Iranian vessels.

I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to the gentleman from Florida (Mr. DEUTCH), someone who has provided a major contribution to this legislation that's now before the House.

Mr. DEUTCH. I thank the ranking member, my friend, Mr. BERMAN.

The legislation before us today will give the United States the tools to impose the most stringent, the most crippling sanctions aimed at cracking down on what is the greatest threat to international security, a nuclear armed Iran.

The Iran Threat Reduction Act builds on the already significant steps this Congress took, along with our partners in the EU and at the United Nations last year, to dramatically ratchet up pressure on the Iranian regime in order to thwart its illicit quest for nuclear weapons. The bill comes on the heels of the IAEA report that confirmed what we already knew—the Iranian regime is pursuing nuclear weapons. It comes on the heels of the foiled Iranian assassination plot and the dangerous attack coordinated by the regime on the British Embassy. And it comes even as the Iranian regime contributes to the brutal crackdown on the Syrian people that has left over 5,000 dead, so that the regime can continue to use Syria as a conduit for routing weapons to Hezbollah and Hamas to be used against Israel.

Mr. Speaker, I am proud to have authored two provisions contained in this bill. And I would like to thank the bill's sponsors, Chairman ROS-LEHTINEN and Ranking Member BERMAN, for working with me to include the Iran Transparency and Accountability Act and the Iran Human Rights Democracy Promotion Act.

□ 2040

The requirements of these provisions put the onus of determining the extent and nature of a company's involvement in Iran on that company by requiring the disclosure of all material business with Iran on its SEC filings. This forced disclosure will accelerate the imposition of sanctions.

Mr. Speaker, this legislation also includes mandatory sanctions on those

who perpetrate the most egregious human rights abuses. This regime's use of intimidation and brutality to suppress its opposition must be stopped, and the United States must stand with the people of Iran in their quest for democracy and freedom. Mr. Speaker, a nuclear armed Iran is unacceptable, and we cannot permit it to happen. We must make it clear that we are serious, determined, and aggressive in our approach to halt Iran's illegal, destabilizing, and dangerous pursuit of weapons of mass destruction.

Mr. KUCINICH. Mr. Speaker, I yield myself such time as I may consume.

I would like to place in the RECORD an article by Seymour Hersh which cites the IAE's report suggesting, according to the Arms Control Association, that Iran is working to shorten a time frame to build a bomb once and if it makes the decision. But it remains apparent that a nuclear-armed Iran is still not imminent, nor is it inevitable.

[The New Yorker Online Only Daily Comment, November 18, 2011]

IRAN AND THE I.A.E.A.

(Posted by Seymour M. Hersh)

The first question in last Saturday night's Republican debate on foreign policy dealt with Iran, and a newly published report by the International Atomic Energy Agency. The report, which raised renewed concern about the "possible existence of undeclared nuclear facilities and material in Iran," struck a darker tone than previous assessments. But it was carefully hedged. On the debate platform, however, any ambiguity was lost. One of the moderators said that the I.A.E.A. report had provided "additional credible evidence that Iran is pursuing a nuclear weapon" and asked what various candidates, upon winning the Presidency, would do to stop Iran. Herman Cain said he would assist those who are trying to overthrow the government. Newt Gingrich said he would coordinate with the Israeli government and maximize covert operations to block the Iranian weapons program. Mitt Romney called the state of Iran's nuclear program Obama's "greatest failing, from a foreign-policy standpoint" and added, "Look, one thing you can know . . . and that is if we reelect Barack Obama Iran will have a nuclear weapon." The Iranian bomb was a sure thing Saturday night.

I've been reporting on Iran and the bomb for The New Yorker for the past decade, with a focus on the repeatedly inability of the best and the brightest of the Joint Special Operations Command to find definitive evidence of a nuclear-weapons production program in Iran. The goal of the high-risk American covert operations was to find something physical—a "smoking calutron," as a knowledgeable official once told me—to show the world that Iran was working on warheads at an undisclosed site, to make the evidence public, and then to attack and destroy the site.

The Times reported, in its lead story the day after the report came out, that I.A.E.A. investigators "have amassed a trove of new evidence that, they say, makes a 'credible' case" that Iran may be carrying out nuclear-weapons activities. The newspaper quoted a Western diplomat as declaring that "the level of detail is unbelievable. . . . The report describes virtually all the steps to make

a nuclear warhead and the progress Iran has achieved in each of those steps. It reads like a menu." The Times set the tone for much of the coverage. (A second Times story that day on the I.A.E.A. report noted, more cautiously, that "it is true that the basic allegations in the report are not substantially new, and have been discussed by experts for years.")

But how definitive, or transformative, were the findings? The I.A.E.A. said it had continued in recent years "to receive, collect and evaluate information relevant to possible military dimensions of Iran's nuclear program" and, as a result, it has been able "to refine its analysis." The net effect has been to create "more concern." But Robert Kelley, a retired I.A.E.A. director and nuclear engineer who previously spent more than thirty years with the Department of Energy's nuclear-weapons program, told me that he could find very little new information in the I.A.E.A. report. He noted that hundreds of pages of material appears to come from a single source: a laptop computer, allegedly supplied to the I.A.E.A. by a Western intelligence agency, whose provenance could not be established. Those materials, and others, "were old news," Kelley said, and known to many journalists. "I wonder why this same stuff is now considered 'new information' by the same reporters."

A nuanced assessment of the I.A.E.A. report was published by the Arms Control Association (A.C.A.), a nonprofit whose mission is to encourage public support for effective arms control. The A.C.A. noted that the I.A.E.A. did "reinforce what the non-proliferation community has recognized for some times: that Iran engaged in various nuclear weapons development activities until 2003, then stopped many of them, but continued others." (The American intelligence community reached the same conclusion in a still classified 2007 estimate.) The I.A.E.A.'s report "suggests," the A.C.A. paper said, that Iran "is working to shorten the time-frame to build the bomb once and if it makes that decision. But it remains apparent that a nuclear-armed Iran is still not imminent nor is it inevitable." Greg Thielmann, a former State Department and Senate Intelligence Committee analyst who was one of the authors of the A.C.A. assessment, told me, "There is troubling evidence suggesting that studies are still going on, but there is nothing that indicates that Iran is really building a bomb." He added, "Those who want to drum up support for a bombing attack on Iran sort of aggressively misrepresented the report."

Joseph Cirincione, the president of the Ploughshare Fund, a disarmament group, who serves on Hillary Clinton's International Security Advisory Board, said, "I was briefed on most of this stuff several years ago at the I.A.E.A. headquarters in Vienna. There's little new in the report. Most of this information is well known to experts who follow the issue." Cirincione noted that "post-2003, the report only cites computer modelling and a few other experiments." (A senior I.A.E.A. official similarly told me, "I was underwhelmed by the information.")

The report did note that its on-site camera inspection process of Iran's civilian nuclear enrichment facilities—mandated under the Nuclear Non-Proliferation Treaty, to which Iran is a signatory—"continues to verify the non-diversion of declared nuclear material." In other words, all of the low enriched uranium now known to be produced inside Iran is accounted for; if highly enriched uranium is being used for the manufacture of a bomb,

it would have to have another, unknown source.

The shift in tone at the I.A.E.A. seems linked to a change at the top. The I.A.E.A.'s report had extra weight because the Agency has had a reputation for years as a reliable arbiter on Iran. Mohammed ElBaradei, who retired as the I.A.E.A.'s Director General two years ago, was viewed internationally, although not always in Washington, as an honest broker—a view that lead to the awarding of a Nobel Peace Prize in 2005. ElBaradei's replacement is Yukiya Amano of Japan. Late last year, a classified U.S. Embassy cable from Vienna, the site of the I.A.E.A. headquarters, described Amano as being "ready for prime time." According to the cable, which was obtained by WikiLeaks, in a meeting in September, 2009, with Glyn Davies, the American permanent representative to the I.A.E.A., said, "Amano reminded Ambassador on several occasions that he would need to make concessions to the G-77 [the group of developing countries], which correctly required him to be fair-minded and independent, but that he was solidly in the U.S. court on every strategic decision, from high-level personnel appointments to the handling of Iran's alleged nuclear weapons program." The cable added that Amano's "willingness to speak candidly with U.S. interlocutors on his strategy . . . bodes well for our future relationship."

It is possible, of course, that Iran has simply circumvented the reconnaissance efforts of America and the I.A.E.A., perhaps even building Dick Cheney's nightmare: a hidden underground nuclear-weapons fabrication facility. Iran's track record with the I.A.E.A. has been far from good: its leadership began construction of its initial uranium facilities in the nineteen-eighties without informing the Agency, in violation of the nonproliferation treaty. Over the next decade and a half, under prodding from ElBaradei and the West, the Iranians began acknowledging their deceit and opened their enrichment facilities, and their records, to I.A.E.A. inspectors.

The new report, therefore, leaves us where we've been since 2002, when George Bush declared Iran to be a member of the Axis of Evil—with lots of belligerent talk but no definitive evidence of a nuclear-weapons program.

I would ask how much time is left on all sides.

The SPEAKER pro tempore (Mr. SCHWEIKERT). The gentleman from Ohio has 6 minutes. The gentlewoman from Florida has 3½ minutes. The gentleman from California has 3 minutes.

Mr. KUCINICH. I reserve the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. OLSON), an esteemed member of the Committee on Energy and Commerce.

Mr. OLSON. I thank the chair of the Committee on Foreign Affairs and the ranking member for the opportunity to speak here tonight on H.R. 1905.

Mr. Speaker, I rise tonight in strong support of H.R. 1905, the Iran Threat Reduction Act. While Iranian leadership continues to give public assurances that their nuclear program is for peaceful purposes, their words don't match their actions.

A recent International Atomic Energy Agency report makes it clear that

Iran is developing advanced delivery systems for nuclear weapons. Mr. Speaker, the only reason why Iran would develop advanced delivery systems is to have the means to deliver a nuclear bomb on peaceful neighbors like Israel. This outcome is unacceptable, and the United States must continue to enact tougher sanctions to ensure that this never happens.

H.R. 1905 will add new sanctions targeting the Central Bank of Iran, making it difficult for foreign companies to do business with Iran. H.R. 1905 will also increase sanctions on members of the Iranian Revolutionary Guard Corps.

Mr. Speaker, the biggest threat to world peace is the religious fanatics in Iran having a nuclear bomb. Iran's acquisition of nuclear weapons simply cannot happen. Not on our watch. I implore my colleagues to support this bipartisan legislation which will force Iran to abandon its quest for nuclear weapons.

Mr. KUCINICH. Mr. Speaker, I yield myself such time as I may consume.

I would like to place in the RECORD a letter from 26 organizations that urge Congress to oppose the provision restricting contact with Iranian officials.

DECEMBER 8, 2011.

DEAR REPRESENTATIVE: We urge you to oppose the provision restricting contact with Iranian officials in the Iran sanctions bill H.R. 1905 and to work with your colleagues to remove it from the bill when it comes to the House floor. We are concerned that Section 601c of this legislation would undermine prospects for a diplomatic resolution of Iran's disputed nuclear program, increasing the threat of war.

This provision was inserted into the bill during committee markup, after most of the cosponsors had already signed onto H.R. 1905. Section 601c of H.R. 1905 would expressly prohibit contact between U.S. government officials and certain Iranian officials, as noted below:

(c) Restriction on contact.—No person employed with the United States Government may contact in an official or unofficial capacity any person that—(1) is an agent, instrumentality, or official of, is affiliated with, or is serving as a representative of the Government of Iran; and (2) presents a threat to the United States or is affiliated with terrorist organizations. (d) Waiver.—The President may waive the requirements of subsection (c) if the President determines and so reports to the appropriate congressional committees 15 days prior to the exercise of waiver authority that failure to exercise such waiver authority would pose an unusual and extraordinary threat to the vital national security interests of the United States.

If this provision were to be enacted into law, it could have a chilling effect on any diplomatic engagement that this or any future administration might wish to pursue to address Iran's nuclear program, its role in exacerbating or de-escalating regional conflicts, and its failure to respect the human rights of its citizens. It would also place restrictions on members of Congress, likely precluding the potential for inter-parliamentary dialogue with Iranian parliamentarians.

As Ambassadors Thomas Pickering and William Luers have pointed out, this provi-

sion also raises "serious constitutional issues over the separation of powers". For the administration to exercise its waiver authority, the President would have to certify 15 days in advance that the failure to do so would "pose an unusual and extraordinary threat to the vital national security interests of the United States".

At a time of heightened tensions between the U.S. and Iran, sustained and flexible diplomacy is an essential tool to prevent war. Just before he retired from the position of Chairman of the Joint Chiefs of Staff, Admiral Mullen called for an established channel of communications with Iran, noting that: "We haven't had a connection with Iran since 1979. Even in the darkest days of the Cold War we had links of the Soviet Union . . . If something happens it's virtually assured that we won't get it right, that there will be miscalculations which would be extremely dangerous in that part of world . . . I think any channel would be terrific."

We urge every member of Congress to oppose Section 601c of H.R. 1905 speak out on the House floor against efforts designed to constrain diplomatic engagement with Iran.

Sincerely,

Friends Committee on National Legislation; Americans for Peace Now; Arms Control Association; Center for Interfaith Engagement, Eastern Mennonite University; Church of the Brethren; Council for a Livable World; Fellowship of Reconciliation; Just Foreign Policy; Lancaster Interchurch Peace Witness; Mainstream Media Project; Maryknoll Office for Global Concerns; Mennonite Central Committee; Minnesota Peace Project.

Middle East Peace Now; National Iranian American Council; New Internationalism Project, Institute for Policy Studies; Peace Action; Peace Action West; Peace Catalyst International; Progressive Democrats for America; Project on Middle East Democracy; Student Peace Alliance; United Church of Christ, Justice and Witness Ministries; United Methodist Church, General Board of Church and Society; Women's Action for New Directions; 3P Human Security; Partners for Peacebuilding Policy.

It's interesting that what we're actually suggesting here is taking diplomacy off the table. I was here for the debate in Iraq. I led the effort in this Congress in challenging the then-Bush administration's assertions that Iraq had weapons of mass destruction which they intended to use against the United States. I was here. I don't know how many of you were here. But I saw a case being made for war, and that case was based on exaggerations and unfortunately in some cases distortions and lies.

We have to be very careful that we're not setting the stage for still another war. We must be very careful that when we assert a certain level of preparedness on the part of Iran with respect to their nuclear capability that we aren't actually shutting the door that needs to be open in order to try to resolve any difficulty between our nations. We can say, well, we want to get them back to the table, but then don't talk to them.

I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 1 minute to one of the cofounders of the Iran Working Group, someone who has brought the issue of Iran, its policies, and particularly its nuclear weapons program, to the attention of this body and the public, the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. I'd like to thank the chairlady from Florida and the ranking member, Mr. BERMAN from California, for their very forceful and effective advocacy.

Iran made a choice to ignore international standards and comity and secretly develop a nuclear weapon. Iran made a choice to eschew sincere diplomatic efforts to come up with a deal, an agreement where they could have their civilian nuclear energy program but have the fuel manufactured outside of Iran. Now, Iran must, in my view, be confronted with a choice as to whether it will enjoy economic stability or give up its nuclear weapons ambitions.

I think the time is here to force that choice upon the Iranians. I think it's unfortunate it has to be done, but it has to be done. We cannot let the world's most horrific weapon fall into the hands of one of the world's most horrendous regimes. For that reason, I strongly support the legislation by Ms. ROS-LEHTINEN and Mr. BERMAN and urge a "yes" vote.

Mr. KUCINICH. Mr. Speaker, I yield myself such time as I may consume.

I want to say I have respect for all of my colleagues who are concerned about nuclear proliferation. We all ought to be concerned about nuclear proliferation. We can start with our own country. Right now we've set the stage for continuing to develop nuclear weapons. It's very difficult to be able to have a strong position of standing on this issue if we have one set of rules for ourselves and another set of rules for the rest of the world.

I don't want to see a nuclear proliferation in Iran, but I think that if we want to have a standing where people want to take what we say, we have to be consistent. We have to make sure that what we do is consistent with what we say.

I reserve the balance of my time.

Ms. ROS-LEHTINEN. I have no further requests for time, and I reserve the balance of my time to close.

Mr. BERMAN. Mr. Speaker, I am pleased to yield 1 minute to my distinguished colleague and good friend who's been very active on these issues, the gentleman from New Jersey (Mr. PALLONE).

Mr. PALLONE. Thank you, Mr. BERMAN.

I want to take issue with my colleague from Ohio. I don't think there is a comparison between the situation in Iraq and Iran because it has become abundantly clear that Iran is pursuing nuclear weapons; and a nuclear Iran

would not only threaten the United States but democratic nations all across the globe.

The legislation before us builds on the comprehensive Iran Sanctions Act passed last Congress and imposes new and stronger sanctions, and this bill is the next logical step in U.S. policy to prevent Iran from acquiring nuclear weapons.

The Iranian President, a Holocaust denier, has stated that a nuclear Iran would use the weapons at its disposal and has even called for the destruction of the State of Israel. And I don't think we can let a nuclear Iran become a reality.

I would urge my colleagues to vote "yes" on H.R. 1905.

□ 2050

Mr. KUCINICH. I would ask how much time is remaining.

The SPEAKER pro tempore. The gentleman from Ohio has 6 minutes remaining.

Mr. KUCINICH. I would respectfully suggest to my friend from New Jersey that the certainty that Congress had in the debate in October of 2002 with respect to Iraq is very much paralleled with the certainty that some of my friends here have about not only Iran's intention to have a bomb but an intention to use it. That's why we need diplomacy. That's why the provisions of this bill in section 603(c), which say U.S. Government employees can't have any contact with Iranians, is really upside down.

Mr. BERMAN. Will the gentleman yield?

Mr. KUCINICH. I yield to the gentleman from California.

Mr. BERMAN. I appreciate that very much.

Just on this one issue, there is nothing in this bill that prohibits Americans from having contact with Iranians. There is nothing in this bill that prohibits the President of the United States or his Secretary of State or such other emissaries or agencies he chooses from engaging diplomatically on the issue of ending Iran's nuclear weapons program. I would not support a bill that prohibited that.

Mr. KUCINICH. In reclaiming my time, section 603(c) was added in committee. Was it stripped from the bill?

Mr. BERMAN. I appreciate the gentleman for yielding.

Section 603 was not stripped from the bill, and section 603 does not prohibit the administration from engaging diplomatically on this issue.

Mr. KUCINICH. I reclaim my time.

Perhaps the President is not restricted, which is good for the gentleman to say; but the very clear and plain reading of that is that it says no U.S. Government employee.

I reserve the balance of my time.

The SPEAKER pro tempore. At this time, the Chair needs to make a time correction.

The remaining time for the gentleman from Ohio is 2 minutes.

Mr. BERMAN. Mr. Speaker, I think I am the last speaker on my side of our side who intends to speak on this issue. How much time remains?

The SPEAKER pro tempore. The gentleman from California has 1 minute remaining, and the gentleman from Ohio has 2 minutes remaining.

Mr. BERMAN. The chairman of the committee, the gentlelady from Florida, has the right to close. Am I correct in that assumption?

The SPEAKER pro tempore. Yes.

Mr. BERMAN. Is the gentleman from Ohio, if I may ask through the Chair, the last speaker on his side?

Mr. KUCINICH. Correct.

Mr. BERMAN. Mr. Speaker, in that case I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from California is recognized for 1 minute.

Mr. BERMAN. Again, I would like to repeat that this crisis only ends one of three ways.

Iran gets a nuclear weapons capability, and don't listen to straw man arguments. No one is saying Iran today has a nuclear bomb, but the IAEA has made it perfectly clear they are pursuing a nuclear weapons capability. Once they have that capability, they throw out the inspectors; they shut off the cameras; and they get the bomb.

Either we stop them from getting the bomb; we have a military confrontation; or we have a diplomatic resolution where they end their nuclear weapons program through diplomacy.

The provision the gentleman cited does not prohibit diplomacy by the President or his emissaries. Time will not permit me to read the statute, itself, right now, but I would be happy to show any of my members why diplomacy is still allowed.

This is not a unilateral effort. This administration and this Congress, in working with them, have pursued a multilateral effort with the international community to stop Iran from getting a nuclear weapon, and we will continue to do that.

I yield back the balance of my time.

Mr. KUCINICH. I yield myself 1 minute.

I am quoting from an article in The Hill, which I cited earlier:

Section 601 would prohibit U.S. Government employees in any official or unofficial capacity from contacting anyone who is affiliated with the Iranian Government who presents a threat to the United States or is affiliated with a terrorist organization.

Look, if you want to stop war, you have to have communication with people. I mean, if you look back to the Cuban Missile Crisis, which is one of the gravest crises of the 20th century, it was the fact that the United States and Russia were able to engage in a communication.

So we have to be very careful that we don't pass any kind of a law that would restrict, not just First Amendment rights and not just freedom of association, but would restrict the basic kind of diplomacy that's used, because everyone here knows that diplomacy is not just leaders talking to leaders. All kinds of backdoor diplomacy goes on, and I think that that needs to be taken into consideration.

I reserve the balance of my time.

Ms. ROS-LEHTINEN. As I said, Mr. Speaker, I am going to close; so the gentleman from Ohio must use his time.

I reserve the balance of my time.

The SPEAKER pro tempore. The gentleman from Ohio has 1 minute remaining.

Mr. KUCINICH. I thank my colleagues very much, for whom I have the greatest respect, for the opportunity to discuss this; although I painfully must disagree with you here.

Broad sanctions against Iran can only further isolate Iran from the international community and cause the regime to be increasingly secretive. The sanctions actually play directly into the hands of the Iranian Government. They directly undermine the efforts of the Iranian people, who have courageously challenged their government often at the cost of their lives. The sanctions could be seen as a gift to the regime, not just a political gift for polarization within their country to cross opposition, but also an economic gift because the price of oil will go up, and Iran will cash in on that.

Section 302 of this bill revokes the President's authority to license the export of civilian aircraft parts and repairs for Iranian civil aircraft, authority which would ensure the safety of flight for humanitarian purposes. This provision recklessly places the lives of Iranian Americans in danger. We ought to defeat this bill and stand for diplomacy.

I yield back the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

Iran remains the world's leading state sponsor of terrorism. According to our Treasury Department, Iran is a critical transit point for funding to support al Qaeda in Afghanistan and Pakistan. This network serves as the core pipeline through which al Qaeda moves money, facilitators, and operatives from across the Middle East to South Asia, including al Qaeda's operational commander. Also, Tehran is providing key support to the regime in Damascus, another state sponsor of terrorism that is of proliferation concern and which is currently engaged in the violent repression of the people of Syria.

Iran is also directly responsible for the deaths of many Americans. It continues to sponsor violent extremist

groups in Iraq and Afghanistan that have killed our men and women in uniform. Just last week, a Federal judge found that the Iranian regime provided material aid and support for al Qaeda's 1998 attacks on the U.S. Embassies in Kenya and Tanzania.

Just imagine what an emboldened Iran would do if allowed to obtain nuclear weapons and the means by which to deliver them. Remember what the regime has already said that it wants to do. Ahmadinejad has openly proclaimed that Iran seeks a world without America and Zionism; and Iran's so-called supreme leader has stated that Iran is prepared to transfer the experience, knowledge, and technology of its scientists.

We should take them at their word and impose crippling sanctions on this regime, and it starts tonight, Mr. Speaker, with this bill, H.R. 1905, the Iran Threat Reduction Act. Let's pass it tonight.

I yield back the balance of my time.

Mr. GARRETT. Mr. Speaker, last year, when we passed the Comprehensive Iran Sanctions and Divestment Act, I came to the floor stating that we must go further. Our stated goal then, as it is now, was to protect Americans, our allies, and the Iranians who suffer under a tyrannical regime. We have made it clear that it is unacceptable for Iran to develop nuclear weapons.

While a step in the right direction, last year's version of Iran Sanctions gave too much flexibility to the administration and included vast loopholes that weakened the law's effectiveness. As I speak now, the Obama administration has only applied sanctions to ten foreign companies and has given leeway to companies operating in Iran. Iran has continued development of nuclear weapons and poses an even greater threat to America and her allies.

Today's bill, H.R. 1905, the Iran Threat Reduction Act, takes the threat of Iran's nuclear program seriously. This legislation would mandate sanctions against the Central Bank of Iran. It would also impose sanctions on foreign banks that continue to do business with the Iranian Central Bank. Just last week the Senate unanimously supported sanctioning the Iranian Central Bank. As the House and Senate are deeply divided on other major issues, we all believe that Iran is a threat that must be dealt with swiftly and that the Central Bank must be sanctioned. H.R. 1905 also would reassert that it is U.S. policy to ensure Iran does not obtain the ability to produce nuclear weapons. Finally, the bill would close the loophole in current U.S. law that allows foreign subsidiaries of U.S. corporations to bypass U.S. sanctions.

Will this legislation single-handedly prevent a nuclear Iran from emerging? Likely it will not. We may have waited too long for our actions today to single-handedly dismantle Iran's nuclear ambitions. However, with this legislation, allies are already indicating they will follow our lead and potentially sanction the Iranian Central Bank as well. As we show the rest of the world we take this threat seriously, they will too. I urge my colleagues to support this measure.

Mr. GEORGE MILLER of California. Mr. Speaker, I rise in support of the Iran Threat Reduction Act, though I do have concerns about new language added to the bill in the Committee on Foreign Affairs. It is my hope that this language will be corrected before this bill advances.

The passage last year of the Comprehensive Iran Sanctions, Accountability, and Divestment Act (CISADA) was a key step in the effort to prevent Iran from gaining the ability to develop a nuclear weapon and it is important that we continue to apply pressure to the Iranian regime.

It is clear that if President Ahmadinejad and his regime were allowed to access a nuclear weapon, Iran would pose a significant threat to global stability and security and a threat to the security of the State of Israel.

This bill is an appropriate next step as we work to increase pressure on Iran to end its nuclear program and end its open hostility toward Israel and the United States. By authorizing new sanctions against Iran and by imposing sanctions against additional activities, this bill successfully expands on the precedent set by CISADA and sends the right message to Iran and to the international community.

However, as I said, changes were made to this bill during the committee process that raise questions about whether or not the bill inappropriately limits the ability of any American President and his or her entire Administration to conduct diplomacy with Iran. This new language could end up jeopardizing American security by preventing our diplomats from resolving minor issues before they become more serious disputes.

The Obama Administration, for example, has done an excellent job to this point in addressing the threat of a nuclear Iran. Just last month, the Administration imposed additional sanctions on Iran, including labeling Iran as a "primary money-laundering concern." The Administration should also be commended for ensuring the success of sanctions by securing the cooperation of the international community in imposing serious sanctions that had not even been considered by many of our allies until President Obama's pressure led them to toughen their stance against Iran. It makes no sense to tie the Administration's hands now, particularly given the successful efforts by President Obama to toughen the international community's stand against Iran.

The lead Democratic sponsor of this bill and the senior Democrat on the Foreign Affairs Committee, my good friend Mr. BERMAN, has made clear that he does not believe that this bill should limit the President's ability to conduct diplomacy as he sees fit, and I agree with that assessment. Like Mr. BERMAN, I believe that this issue must be clarified in conference to ensure that this bill does not inadvertently exacerbate problems that it is intended to fix.

I believe that it is imperative that we continue working constructively with our allies to strengthen sanctions against Iran and so I urge my colleagues to support this bill and to ensure going forward that it is implemented in a productive way.

Mr. WAXMAN. Mr. Speaker, I strongly support this legislation whose purpose is to deny Iran both the ability to support terrorist organizations and to develop nuclear weapons and ballistic missiles.

I want to express my strong admiration and support for Representative HOWARD BERMAN, the ranking member of the House Foreign Affairs Committee. Without Representative BERMAN's forceful and steadfast leadership, this legislation to impose the most stringent sanctions yet on Iran would not have come before us. We are standing firm against Iran because of Representative BERMAN's ceaseless efforts to forge a bipartisan consensus to act against the grave threat to Israel and other allies that is posed by Iran and its leadership.

Iran is a growing danger to peace and stability in the Middle East and beyond. Its nuclear program in and of itself is the most dangerous threat to peace in the world today. Together with its support for Hamas in Gaza, Hezbollah in Lebanon and the Syrian regime, Iran is an ongoing and growing danger to the region and the world.

Iran's unremitting hostility to the United States, to Israel and others requires the most forceful response.

It is clear that Iran's leaders are determined to acquire a nuclear weapon. All of the independent international assessments, including from the International Atomic Energy Agency, attest to a steady progression to weaponize its uranium assets. At the same time, Iran is perfecting its medium and long-range missile capabilities.

Together, these initiatives can only have one purpose: at the least, to enable Iran to exercise nuclear blackmail in pursuit of its extreme agenda. But this also means that Iran will have the Iranian people's capability to actually use a nuclear weapon, and bring a catastrophe upon us all—and upon the Iranian people.

This is unacceptable. Iran's nuclear program must be stopped. Iran simply must not be permitted to acquire a nuclear weapon.

President Obama has been exceptionally clear on Iran. Just last week, on December 8, President Obama again was emphatic in stating U.S. policy:

“... What I can say with respect to Iran, I think it's very important to remember, particularly given some of the political noise out there, that this administration has systematically imposed the toughest sanctions on Iraq—on Iran ever.

“When we came into office, the world was divided, Iran was unified and moving aggressively on its own agenda. Today, Iran is isolated, and the world is unified in applying the toughest sanctions that Iran has ever experienced. And it's having an impact inside of Iran. And that's as a consequence of the extraordinary work that's been done by our national security team.

“Now, Iran understands that they have a choice: They can break that isolation by acting responsibly and foreswearing the development of nuclear weapons, which would still allow them to pursue peaceful nuclear power, like every other country that's a member of the Non-Proliferation Treaty, or they can continue to operate in a fashion that isolates them from the entire world. And if they are pursuing nuclear weapons, then I have said very clearly, that is contrary to the national security interests of the United States; it's contrary to the national security interests of our allies, including Israel; and we are going to work with the world community to prevent that.”

With respect to what the United States is willing to do to prevent Iran from acquiring nuclear weapons, President Obama said, “No options off the table means I'm considering all options.”

The best way to avoid getting to that point is to do everything we can to impose the harshest pressure on Iran in order to make its present nuclear course unsustainable to the regime.

The Iran Threat Reduction Act will put into force the strongest sanctions yet against Iran. It imposes sanctions on Iran's oil industry, including sanctions on the importation of gasoline, which Iran desperately needs. There are increased sanctions on defense products and technology.

Sanctions are also imposed on the Central Bank of Iran and across the financial and banking sectors. Because Iran is pursuing a nuclear weapon, it will become exceedingly impossible for Iran to engage in international commerce.

The best alternative to the present regime is to encourage Iranians opposed to its brutal repression to continue to work for democracy and freedom. To this end, this bill provides financial and political assistance to individuals and organizations that support democracy in Iran.

In addition, the legislation specifically targets for sanctions those who are part of, or associated with, the Islamic Revolutionary Guard Corps—the Iranian regime's arm of repression who wantonly violate the human rights of the Iranian people.

Taken together, these measures constitute the imposition of crippling sanctions against the Iranian government and those who do business with it.

This bill delivers one message to the Iran's leaders: stop now.

We cannot tolerate an Iran armed with nuclear weapons, and the means to deliver them against Israel and other countries, such as Saudi Arabia, in the Middle East.

The very best strategy to stop Iran's nuclear program is to make business and commerce in Iran untenable for as long as Iran is pursuing a nuclear capability, and to target the regime's repressive elements—the Revolutionary Guard—with massive penalties.

By every indication, time—and patience—with Iran is growing shorter. This legislation is the least we can do to bring relentless pressure on Iran to change course.

I support this bill and once again thank Representative HOWARD BERMAN for his courageous leadership in helping us face the most dangerous foreign policy crisis in the world today.

Mr. HOLT. Mr. Speaker, the recent IAEA report on Iran's nuclear program indicates that Iran continues to pursue a clandestine nuclear weapons program. Specifically, the IAEA's November 2011 report noted that Iran has carried out a number of activities that are relevant to the development of a nuclear explosive device. These include efforts, some successful, to procure nuclear related and dual-use equipment and materials by military related individuals; efforts to develop undeclared pathways for the production of nuclear material; the acquisition of nuclear weapons development information and documentation from a clandestine

nuclear supply network; and work on the development of an indigenous design of a nuclear weapon including the testing of components.

These are ominous developments that the House simply cannot ignore.

I am glad that the House is considering this legislation. I recognize that sanctions like this are crude instruments, but the threatening actions of the government of Iran must be countered. This bill will help increase diplomatic pressure on Iran by further tightening sanctions, particularly on entities associated with Iran's Revolutionary Guard Corps (IRGC), which is a key player in Iran's nuclear weapons acquisition effort. The IRGC's activities are a key reason why this legislation is necessary.

I recognize that this legislation is not perfect. I am particularly troubled by a provision that was added during the committee markup that would make it extremely difficult for American officials to meet directly or indirectly with some Iranian officials. I vote for this with the expectation that this particular provision will be modified before it goes to the President for his signature.

Today we are also considering H.R. 2105, which would strengthen our nonproliferation regime against Iran, North Korea, and Syria. It's worth remembering that Syria had an undeclared nuclear facility under construction at the time it was bombed a few years ago. This bill would impose a series of new constraints on countries that may be thinking about, or are known or suspected to be, supplying proliferation-related technology to any of these three states. One provision would prohibit U.S. nuclear cooperation with a country that is assisting the nuclear program of Iran, North Korea, or Syria, or is transferring advanced conventional weapons to such countries.

I regret that these bills are necessary. I wish that our past peaceful, diplomatic efforts had produced changes in their proliferation-related behavior. Unfortunately, they have not. These rogue regimes are willing to tolerate considerable international isolation as they continue to pursue prohibited weapons programs. But I believe there is a point at which the diplomatic and economic isolation will begin to threaten their hold on power, and it is when that point is reached that we will likely have our best chance of peacefully disarming these rogue states. That is why I still believe that diplomacy, backed by enforceable sanctions, can ultimately achieve the goal we all share, and why I will support these bills.

Mr. VAN HOLLEN. Mr. Speaker, I rise in support of H.R. 1905, the Iran Threat Reduction Act.

I thank Chairwoman ROS-LEHTINEN and Ranking Member BERMAN for crafting this important, bipartisan bill. H.R. 1905 was reported out of the Foreign Affairs Committee by voice vote and comes to the floor with over 350 cosponsors—of which I am one.

We must make it clear to Iran that any pursuit of a nuclear weapons program is unacceptable. This bill is designed to significantly strengthen the hand of the Obama Administration in applying economic pressure on the Iranian regime.

Specifically, the bill targets Iran's petroleum sector by expanding the activities that could

trigger sanctions to include making certain petroleum resource agreements with Iran. It also requires the President, subject to a national security waiver, to impose sanctions on entities doing business with the Central Bank of Iran if he determines the Central Bank is linked to the Iranian nuclear program. The measure also requires penalties filing with the Securities and Exchange Commission to disclose business ties with Iran.

By most accounts, the sanctions passed by Congress last year have ratcheted up pressure on the Iranian government. But Iran continues to increase its stockpile of enriched uranium. This measure is necessary to give the President the tools to penalize the Iranian regime for its continual refusal to heed the objections of the international community.

I encourage my colleagues who have not already expressed support for H.R. 1905 to join me in support of the bill.

Mr. MORAN. Mr. Speaker, in June 2010 President Obama signed into law the most far-reaching and carefully targeted sanctions ever imposed on Iran. Later that same month, the Administration also succeeded in bringing the United Nations Security Council to issue further, multilateral sanctions. In May, the United Nations issued a report demonstrating that these multilateral sanctions were having a serious, deleterious impact on Iran's ability to pursue nuclear weapons.

The reason these sanctions are having such an impact is that they have garnered the cooperation of allies around the world, who saw that this Administration was willing to engage Iran. If those allies now deem that we are turning back from that posture of engagement, and returning to the unilateralism of the Bush Administration, I am concerned that our effort to isolate the Iranian regime will collapse. It is the comprehensive diplomacy of the Obama Administration that has unified our European allies and brought them on board. That could end.

And in addition, the sanctions called for by H.R. 1905, are less targeted and more indiscriminate. They will have an impact, but that impact will not be directly related to our justified concern over human rights or Iran's nuclear military goals. Rather, they would hurt Iranians of all walks of life, including those we hope will become an effective opposition to the current leadership. The recent IAEA report shows that Iran is not complying with its obligations under the treaty. We urgently need to keep a united front on the goal of preventing Iran from advancing its nuclear military capability. These sanctions could undermine that effort.

This bill is the wrong move for the global economy as well. In the middle of a very fragile economic recovery, these new sanctions could wreak havoc in the world oil market, right in the middle of winter, a time of our highest consumption. Already, we see oil prices rising. According to the Wall Street Journal, new sanctions could increase the price of oil by up to \$1 per gallon. That would be terrible for U.S. consumers, businesses and the economy. But it would be very good for Iran's leaders.

In fact, the sanctions would do more to help Iran's Supreme Leader and President than hurt them. Last week, the fierce competition

between President Ahmadinejad and Ayatollah Khamenei was threatening to boil over when an embezzlement scandal roiled the Iranian leadership. The Washington Post reported this week that President Ahmadinejad admitted that the country is having a hard time with sanctions, and that now is not the time to shake things up in the government. In other words, external pressure unified rival factions, and helped the repressive regime to achieve a united front.

These sanctions could also hurt Iranian Americans. Sanctions on Iran's Central Bank will make it hard for Iranian Americans to send money to relatives in Iran. That could mean that an Iranian living in the United States has no legal way of helping his parents or grandparents. It could force them to pursue unsafe and illegal channels to send legal remittances to family members. That would be a terrible injustice, and it would be bad for U.S. interests. The Iranian American community is our best way to reach out to people in Iran, and we should not be making it harder for them to do so.

The sanctions could also hurt innocent Iranians in other ways. Aside from making it harder to import food and medicine, this bill bans the licensing of sales of spare parts for civilian airliners. Iran's airlines are already among the most dangerous in the world because of the difficulty in maintaining them under sanctions. Over 1,000 people have died in air crashes in the last ten years.

Lastly, this bill is wrong because it would be an expression to the world that the United States is not interested in having a relationship with the people of Iran. As it stands now, we have very little understanding of what is really happening inside Iran. The Obama Administration has strengthened our capacity to know what is happening inside the country by adding to a network of diplomats in missions around the world focusing on developments in Iran.

But we have a long way to go. Recently Admiral Mike Mullen said that this absence of contact is hurting us. At a Carnegie Endowment for International Peace event shortly before he retired, the Chairman of the Joint Chiefs of Staff said: "Even in the darkest days of the Cold War, we had links to the Soviet Union. We are not talking to Iran, so we don't understand each other."

I agree with Admiral Mullen: we need more contact with Iran—about Afghanistan, the drug trade, and human rights—not less. Ambassador Tom Pickering, in a recent Newsweek essay, also criticized this bill because of the constitutional questions it raises about the separation of powers.

CISADA sanctions and U.N. measures are having a serious effect, and intensifying rifts in Iran's leadership. This bill would close those rifts as Iran's leaders circle their wagons, and would give them an excuse as to why things are bad on the economic front. I can't support it as it is written.

Mr. YOUNG of Indiana. Mr. Speaker, I rise today in support of H.R. 1905, the Iran Threat Reduction Act of 2011. This bill promises to meet the threat the Islamic Republic of Iran poses and takes significant, tangible steps in limiting Iran's uranium enrichment and targeting Iran's nefarious activities.

The latest United Nations weapons inspectors' disclosure and International Atomic Energy Agency report on the Islamic Republic of Iran are substantial. The Iranian nuclear weapons program is in direct contravention to Iran's ratification of the Non-Proliferation Treaty, endangers regional stability, and poses an unfathomable threat to international security. The Iranian Regime has defied international order and expectations in its undeniable pursuit of nuclear weapons and its close relationship with foreign terrorist organizations.

That is why the Iran Threat Reduction Act of 2011 is so important. These sanctions are right and just based on irrefutable evidence of malice on the international stage. We must declare that it is United States policy to deny, at every juncture, the ability for Iran to fund and pursue its nuclear program and its policy of inciting violence abroad. The Iranian regime's continuous circumvention of past sanctions and continued noncompliance require more aggressive actions.

The only way to ensure the Iranian regime cannot circumvent international will is to take definitive actions. The sanctions in the Iran Threat Reduction Act in conjunction with the language in the National Defense Authorization Act for 2012 to formally sanction the Central Bank of Iran, CBI, are the steps required at this moment to impede the progress of Iran's ambitions. By sanctioning the CBI and creating accountability to those that deal with Iran, we limit the Iranian leadership's ability to function and directly curtail the infrastructures that sustain Iran's illicit nuclear ambitions and its state sponsorship of terrorist organizations.

I urge my colleagues to support the Iran Threat Reduction Act of 2011 and stand with me against the threat posed by the Iranian nuclear program and Iran's known links to various terrorist organizations.

Mr. MARKEY. Mr. Speaker, let's start with what we know:

First, Iran is actively seeking nuclear weapons, and the international community has ratcheted up sanctions to prevent Tehran from getting the bomb.

Second, Iran is attempting to circumvent these sanctions, with Iranian nationals establishing front companies in other countries to get around U.N. restrictions.

Just this year, a grand jury indicted a firm established by Iranians but operating in Istanbul for allegedly procuring materials for Iran's ballistic missile program.

Third, we must be vigilant about companies that deliberately hide their ties to Iran.

But what about companies that don't even try to conceal their Iranian connections?

In October, this Congress passed H.R. 1904, the Southeast Arizona Land Exchange and Conservation Act. This bill will allow Rio Tinto, a foreign company that does business with Iran, to obtain public land in Arizona so that it can mine for copper here in the United States.

But when Republicans in this chamber had a chance to join Democrats to ensure these business ties between Rio Tinto and Iran were severed as a condition of doing business on our land, every single member of the Republican majority voted no.

With the threat of nuclear weapons landing in the hands of Ahmadinejad, the stakes are

simply too high to change the rules when the majority sees fit.

Vote yes on H.R. 1905 today, and we must insist on strong nuclear nonproliferation conditions in H.R. 1904.

Mr. BLUMENAUER. Mr. Speaker, this statement is submitted as an extension of my remarks on the House floor, December 13, 2011, discussing H.R. 1905, the Iran Threat Reduction Act of 2011:

I thank my friend from California, the Ranking Member of the House Foreign Affairs Committee, for discussing Section 601(c) of the Iran Threat Reduction Act of 2011 with me.

Despite his helpful words, I still have strong reservations about language used in this legislation.

Specifically with the language in Section 601(c) of this bill, which states that:

“No person employed with the United States Government may contact in an official or unofficial capacity any person that is an agent, instrumentality, or official of, is affiliated with, or is serving as a representative of the Government of Iran; and presents a threat to the United States or is affiliated with terrorist organizations.”

As most of my colleagues would agree, the whole of the Iranian government is itself a “threat” to the United States. Further, Iran actively supports terrorist organizations such as Hamas and Hezbollah, both listed as Foreign Terrorist Organizations by the State Department. It would be strange logic indeed to disassociate any of the officials who work for Iran from a “threat” to the U.S. It would appear impossible to comply with this language.

Given the inability to comply with this language, this leaves the waiver provision by the President as the only means to initiating contact with Iran. Diplomacy tied to a 15-day countdown is ineffective at best and extremely dangerous at worst. Luckily, this restriction on the Executive Power to conduct the country's foreign policy is likely unconstitutional. This waiver is, on its face, questionable, unnecessarily ties the hands of our President, and is poor policy.

Congress would be better served in these challenging times to do its own job, rather than making it harder for the President to do his.

Mr. CROWLEY. Mr. Speaker, I rise today in support of the Iran Threat Reduction Act of 2011.

I want to thank both the Chairman and the Ranking Member of the Committee on Foreign Affairs for their efforts on passing this important legislation.

I am a proud co-sponsor of this bill.

Iran's efforts to obtain nuclear capabilities and its support for terrorism form one of our most serious foreign policy challenges.

And, the Iranian regime's treatment of its own people horrifies the world.

This legislation sends a strong message to the Iranian government—there is a price to pay for ignoring the will of the international community.

It is no secret that Iran has been a destabilizing and dangerous force in the Middle East.

From repeatedly threatening our ally Israel to providing support for attacks on U.S. troops in the region, Iran has sought at every turn to thwart U.S. and international efforts.

Let's be clear though—while the Iranian government conceives of these actions, it is the cruel and twisted core of the Iranian regime—the Iran Revolutionary Guard Corps—that executes its daily threats and brutalities. That's why it is so important that this measure targets the IRGC.

This legislation isn't all that we must do. It is also time for tough and lasting pressure on those who do business with the Central Bank of Iran.

The world must not allow Iran to obtain nuclear capabilities, for the sake of the region and the world.

Mrs. MALONEY. Mr. Speaker, Iran's quest for nuclear weapons puts the entire globe at risk.

Iran has proven itself to be less than truthful in its discussions about its nuclear weapons program. It hid its nuclear enrichment facility in Qom from the International Atomic Energy Agency (IAEA). It told the world it was enriching uranium for non-military purposes, but the enrichment site at Qom and elsewhere appear to have no civilian application.

And while sanctions have had some impact, Iran has persisted in its efforts to obtain nuclear weapons. Iran has also succeeded in evading the impact of existing sanctions by creating one front company after another to shield its activities.

What's particularly troubling, is that at the same time as it is building its nuclear program, Iran has continued to threaten its neighbors. It has armed and funded Hezbollah and Hamas, which are dedicated to eradicating the state of Israel. In 2005, Iran's President Mahmoud Ahmadinejad said that Israel should be wiped off the face of the map. In 2008, he said: “The people of the region would not miss the narrowest opportunity to annihilate this false regime.”

But Israel is not Iran's only target. In November a senior commander of Iran's Revolutionary Guard threatened to bomb NATO bases in Turkey. Iran is currently threatening to close the straits of Hormuz, which will affect shipping, with particular impact on the crude oil exported from Saudi Arabia, Iran, the United Arab Emirates, Kuwait and Iraq and liquid natural gas from Qatar.

Given Iran's success in developing a nuclear program, a number of its neighbors have suggested that they may follow suit, creating further instability in the region. Earlier this month, Turki al-Faisal, who has served as the Saudi intelligence chief and as ambassador to the United States, suggested that Saudi Arabia may seek nuclear weapons. Wikileaks revealed that Egypt's leaders told U.S. officials that Egypt would acquire nuclear weapons if Iran did. This lends greater urgency to the need to persuade Iran to end its nuclear ambitions.

Nuclear weapons are particularly threatening when held by a nation whose leaders have no apparent respect for human life. Iran has an unrivaled record of human rights abuses, from the imprisonment of people of the Ba'hai faith, to the use of the death penalty against minors, to the use of torture and amputation against prisoners, to discrimination against women, to the suppression and murder of members of the democracy movement. With thousands of its citizens murdered, tor-

tured or imprisoned, Iran's record of human rights abuses is among the worst in the world.

History shows that when dictators threaten their neighbors, there's good reason to fear. And given Iran's history of threats, its dedicated progress in enriching uranium, its evident determination to hide its nuclear program from the world and its abysmal human rights record, the world should do everything possible to hinder it from obtaining nuclear weapons.

That's why I strongly support H.R. 1905, the Iran Threat Reduction Act, which would implement a commonsense enhancement of existing sanctions—by providing greater options to sanction entities doing business with the Central Bank of Iran; by expanding the types petroleum-related activities that could trigger sanctions to include certain petroleum resource agreements with Iran, purchasing Iranian debt and supporting port facility construction and management; by imposing sanctions on individuals involved in human rights abuses or terrorism; by imposing sanctions on those who do business with Iran's Revolutionary Guard; by allowing states or other organizations to divest from Iran; by identifying those entities that are helping Iran evade sanctions, among other things.

I urge my colleagues to join me in voting in support of H.R. 1905.

Ms. MOORE. Mr. Speaker, let's be clear. Iran activities are troubling and our Nation must continue to work to build an international coalition to pressure and isolate Iran until it verifiably ends such activities. The policies we use to effect our goals are as important as the rhetoric about being tough on Iran.

I vote for this legislation while noting it has flaws that must be addressed in the other body, in cooperation with the Administration. I will speak to some of those needed changes in a minute. However, I think other provisions such as language targeting government officials who commit human rights abuses and the provisions aimed at stopping Iran's Revolutionary Guard from trying to evade current U.S. and multilateral sanctions make sense. When the U.S. and our international allies work together, our efforts on Iran, including sanctions and diplomacy, are more effective and stronger. The same can be said when the Congress and the Administration are working together.

We should not confuse support for this bill with the fact that there exists a vast divergence of views in this Congress on the best policy to deal with the threat posed by Iran. However, the Republican majority determines the schedule and has made a choice to bring this bill up under a procedure that prevents any Member with other ideas (either to make the bill stronger or weaker depending on your view) from making further changes to it.

Even with my yes vote, I believe this legislation is in need of improvement. Sending a strong message is one thing but enacting an effective policy that supports that message is another. And this bill must be improved so our policy can match the strong message.

Where can this bill be improved? I have long been concerned and I have expressed those concerns on this floor before about unilateral sanctions. Treasury Secretary Geithner said last year, “to be truly effective in ending

Iran's proliferation activities and Iran's support for terrorism, we need to have in place a concerted, international approach. This is not something the United States can do alone. We need other countries to move with us." I concur wholeheartedly.

Yet, I know that the Administration has warned some provisions, like mandatory Iranian Central Bank Sanctions, may end up splintering the international coalition that it worked relentlessly to build as exemplified by passage of last year's UN Security Council Sanction Resolution. In a recent letter, Secretary Geithner made clear his concerns that sanctioning the Central Bank of Iran could negatively affect "many of our closest allies and largest trading partners." Again, the most likely to be adversely affected by this bill are our closest allies, the ones we depend on to pressure Iran.

Why would this be so? According to Secretary Geithner, "rather than motivating these countries to join us in increasing pressure on Iran, they are more likely to resent our actions and resist following our lead—a consequence that would serve the Iranians more than it harms them." The Administration has suggested ways to achieve the goals of this bill while ensuring we don't cripple the international coalition and consensus that it has worked so hard to build against Iran. Congress should listen. A piece of legislation that results in fewer countries working with us to isolate Iran and bring a verifiable end to its troubling nuclear activities is not a victory in my book.

Another provision in the bill—added in Committee—would prohibit U.S. diplomatic or other contact, whether intentionally or incidentally, with certain Iranian government officials. Whether intended by its authors or not, concerns have been raised about negative impact on our diplomatic efforts. I urge the Senate to remove this provision. It adds nothing to the bill's effectiveness but brings unnecessary confusion and controversy.

H.R. 1905 would also require the President to report, after its enactment, on negative impacts the bill would cause on our relations with friendly nations and on the U.S. economy. I think this gets it backwards. We need to get a better bill that addresses those concerns up front, rather than wait until after we have shattered the international coalition.

Again, I support a strong and unified international effort against Iran with U.S. leadership but my continued support for this legislation requires those in Senate (who will have the opportunity to amend it unlike the House did) to work with the Administration to address possible negative impacts on our diplomatic efforts, economy, and the Iranian people. This occurred last year to get CISADA passed and I hope we repeat it again this time.

Lastly, no one should take passage of this legislation as a sign that diplomacy is off the table and that the only option going forward is a military strike. We need to invest in diplomacy—maybe now more than ever—and to continue to work with our international allies and others interested in peace and stability in the region.

Ms. LEE of California. Mr. Speaker, while I am deeply concerned about Iran's capacity to develop nuclear weapons and I support tar-

geted sanctions against Iran, I voted no on H.R. 1905, the Iran Threat Reduction Act of 2011 because I do not believe it would accomplish its stated goal of reducing the threat from Iran.

I am concerned that at a time when more nuanced diplomatic tools are needed to successfully address this important and multifaceted effort to prevent Iran from developing nuclear weapons, this legislation would dangerously limit the flexibility of the U.S. Government to engage directly with Iran to turn back these efforts. The Administration has made it clear that the Comprehensive Iran Sanctions Accountability and Divestment Act (CISADA), enacted just last year after careful deliberation by both the House and Senate, is an adequate and effective tool for addressing the threat potentially posed through multilateral negotiations with Iran. I have spoken directly with officials at the State Department and they tell me they are very concerned that piling on additional sanctions could have the counterproductive result of sending the already destabilized economies of our European allies into a tailspin and threaten the stability of the global economic recovery.

I am also troubled by the 601(c) provision inserted during mark-up of the bill, which takes the unprecedented step of restricting dialogue between U.S. and Iranian officials. The controversial provision would prohibit contact between U.S. diplomats and any Iranian official who "would pose an unusual and extraordinary threat to the vital national security interests of the United States." This is dangerous and would have prohibited the efforts that secured the release of two of my constituents, Sarah Shourd and Shane Bauer, along with their friend and fellow U.C. Berkeley alumnus Josh Fattal, who were detained for years in Iran after being arrested while hiking near Iran's border with Northern Iraq. Furthermore, not only is it unclear how restricting negotiations with Iran on its nuclear program would advance our security interests, it should be clear that taking this option off the table is counterproductive in addressing the very real threats that Iran presents.

It is my hope that my colleagues will address these issues in conference and return a bill for final passage that considers what it takes to effectively undertake national security strategy execution. It is time for us to stop posturing and to understand that far from a reward to withhold, diplomacy is a critical tool for protecting United States national security interests.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and pass the bill, H.R. 1905, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. ROS-LEHTINEN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

□ 2100

# IRAN, NORTH KOREA, AND SYRIA NONPROLIFERATION REFORM AND MODERNIZATION ACT OF 2011

Ms. ROS-LEHTINEN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2105) to provide for the application of measures to foreign persons who transfer to Iran, North Korea, and Syria certain goods, services, or technology, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2105

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

## SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

- Sec. 1. Short title and table of contents.
- Sec. 2. Statement of policy.
- Sec. 3. Reports on proliferation relating to Iran, North Korea, and Syria.
- Sec. 4. Application of measures to certain foreign persons.
- Sec. 5. Determination exempting a foreign person from the application of certain measures.
- Sec. 6. Restrictions on nuclear cooperation with countries aiding proliferation by Iran, North Korea, or Syria.
- Sec. 7. Identification of countries that enable proliferation to or from Iran, North Korea, or Syria.
- Sec. 8. Prohibition on United States assistance to countries assisting proliferation activities by Iran, North Korea, or Syria.
- Sec. 9. Restriction on extraordinary payments in connection with the International Space Station.
- Sec. 10. Exclusion from the United States of senior officials of foreign persons who have aided proliferation relating to Iran.
- Sec. 11. Prohibition on certain vessels landing in the United States; enhanced inspections.
- Sec. 12. Sanctions with respect to critical defense resources provided to or acquired from Iran, North Korea, or Syria.
- Sec. 13. Definitions.
- Sec. 14. Repeal of Iran, North Korea, and Syria Nonproliferation Act.

## SEC. 2. STATEMENT OF POLICY.

It shall be the policy of the United States to fully implement and enforce sanctions against Iran, North Korea, and Syria for their proliferation activities and policies.

## SEC. 3. REPORTS ON PROLIFERATION RELATING TO IRAN, NORTH KOREA, AND SYRIA.

(a) REPORTS.—Not later than 90 days after the date of the enactment of this Act and every 120 days thereafter, the President shall transmit to the appropriate congressional committees a report identifying every foreign person with respect to whom there is credible information indicating that such person—

(1) on or after January 1, 1999, transferred to or acquired from Iran, on or after January

1, 2005, transferred to or acquired from Syria, or on or after January 1, 2006, transferred to or acquired from North Korea—

(A) goods, services, or technology listed on—

(i) the Nuclear Suppliers Group Guidelines for the Export of Nuclear Material, Equipment and Technology (published by the International Atomic Energy Agency as Information Circular INFCIRC/254/Rev. 3/Part 1, and subsequent revisions) and Guidelines for Transfers of Nuclear-Related Dual-Use Equipment, Material, and Related Technology (published by the International Atomic Energy Agency as Information Circular INFCIRC/254/Rev. 3/Part 2, and subsequent revisions);

(ii) the Missile Technology Control Regime Equipment and Technology Annex of June 11, 1996, and subsequent revisions;

(iii) the lists of items and substances relating to biological and chemical weapons the export of which is controlled by the Australia Group;

(iv) the Schedule One or Schedule Two list of toxic chemicals and precursors the export of which is controlled pursuant to the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction; or

(v) the Wassenaar Arrangement list of Dual Use Goods and Technologies and Munitions list of July 12, 1996, and subsequent revisions; or

(B) goods, services, or technology not listed on any list specified in subparagraph (A) but which nevertheless would be, if such goods, services, or technology were United States goods, services, or technology, prohibited for export to Iran, North Korea, or Syria, as the case may be, because of the potential of such goods, services or technology to make a material contribution to the development of nuclear, biological, or chemical weapons, or of ballistic or cruise missile systems or destabilizing types and amounts of conventional weapons;

(2) except as provided in subsection (b), on or after the date of the enactment of this Act, acquired materials mined or otherwise extracted within the territory or control of Iran, North Korea, or Syria, as the case may be, for purposes relating to the nuclear, biological, or chemical weapons, or ballistic or cruise missile development programs of Iran, North Korea, or Syria, as the case may be;

(3) on or after the date of the enactment of this Act, transferred to Iran, Syria, or North Korea goods, services, or technology that could assist efforts to extract or mill uranium ore within the territory or control of Iran, North Korea, or Syria, as the case may be;

(4) on or after the date of the enactment of this Act, provided to Iran, Syria, or North Korea destabilizing types and amounts of conventional weapons and technical assistance; or

(5) on or after the date of the enactment of this Act, provided a vessel, insurance or reinsurance, or any other shipping service for the transportation of goods to or from Iran, North Korea, or Syria for purposes relating to the nuclear, biological, or chemical weapons, or ballistic or cruise missile development programs of Iran, North Korea, or Syria, as the case may be.

(b) EXCEPTIONS.—Any foreign person who—

(1) was identified in a report transmitted in accordance with subsection (a) on account of a particular transfer, or

(2) has engaged in a transfer on behalf of, or in concert with, the Government of the United States,

shall not be identified on account of that same transfer in any report submitted thereafter under this section, except to the degree that new information has emerged indicating that the particular transfer at issue may have continued, or been larger, more significant, or different in nature than previously reported under this section.

(c) TRANSMISSION IN CLASSIFIED FORM.—If the President considers it appropriate, reports transmitted in accordance with subsection (a), or appropriate parts thereof, may be transmitted in classified form.

(d) CONTENT OF REPORTS.—Each report required under subsection (a) shall contain, with respect to each foreign person identified in each such report, a brief description of the type and quantity of the goods, services, or technology transferred by such person to Iran, North Korea, or Syria, the circumstances surrounding such transfer, the usefulness to the nuclear, biological, or chemical weapons, or ballistic or cruise missile development programs of Iran, North Korea, or Syria of such transfer, and the probable awareness or lack thereof of the transfer on the part of the government with primary jurisdiction over such person.

(e) ADDITIONAL CONTENTS OF REPORTS.—Each report under subsection (a) shall contain a description, with respect the transfer or acquisition of the goods, services, or technology described in such subsection, of the actions taken by foreign governments to assist in interdicting such transfer or acquisition.

(f) EXPEDITING SANCTIONS FOR NUCLEAR, CHEMICAL, BIOLOGICAL AND MISSILE PROLIFERATION TRANSFERS TO IRAN.—

(1) IN GENERAL.—Notwithstanding the requirement to submit the report under subsection (a), the President shall establish a process to assess information in the possession of the President on an ongoing basis regarding possible transfers to Iran of goods, services, or technology relating to nuclear, chemical, or biological weapons or ballistic missiles in accordance with the requirements of subsection (a).

(2) APPLICATION OF SANCTIONS.—Upon a determination of the President that credible information exists that a transfer described in paragraph (1) has occurred, the President shall apply the sanctions to the foreign person that made the transfer in accordance with the requirements of section 4 of this Act.

(g) REQUIREMENT FOR PLAN TO EXPEDITE IMPLEMENTATION OF REPORTING AND SANCTIONS.—Not later than 180 days after the date of the enactment of this Act, the President shall transmit to the appropriate congressional committees a plan, to include any necessary legislation, to expedite the implementation of this Act with regard to the reports required under subsection (a) and the sanctions under section 4 of this Act.

#### SEC. 4. APPLICATION OF MEASURES TO CERTAIN FOREIGN PERSONS.

(a) APPLICATION OF MEASURES.—

(1) IN GENERAL.—Subject to section 5, the President shall apply, for a period of not less than two years, the measures specified in subsection (b) with respect to each foreign person identified in a report transmitted under section 3(a).

(2) RELATED PERSONS.—Subject to section 5, the President may apply, for a period of not less than two years, the measures specified in subsection (b) with respect to one or more of the following:

(A) Each person that is a successor, subunit, or subsidiary of a foreign person referred to in paragraph (1).

(B) Each person that owns more than 50 percent of, or controls in fact—

(i) a foreign person referred to in paragraph (1); or

(ii) a person described in subparagraph (A).

(b) DESCRIPTION OF MEASURES.—The measures referred to in subsection (a) are the following:

(1) EXECUTIVE ORDER 12938 PROHIBITIONS.—The measures specified in the first sentence of subsection (b) and subsections (c) and (d) of section 4 of Executive Order 12938 (50 U.S.C. 1701 note; relating to proliferation of weapons of mass destruction) prohibiting any department or agency of the United States Government from procuring, or entering into any contract for the procurement of, any goods or services from any foreign person described in subsection (a) of section 4 of Executive Order 12938.

(2) ARMS EXPORT PROHIBITION.—Prohibition on United States Government sales to a person described in subsection (a) of any item on the United States Munitions List and termination of sales to such person of any defense articles, defense services, or design and construction services under the Arms Export Control Act (22 U.S.C. 2751 et seq.).

(3) DUAL USE EXPORT PROHIBITION.—Denial of licenses and suspension of existing licenses for the transfer to a person described in subsection (a) of items the export of which is controlled under the Export Administration Act of 1979 (50 U.S.C. App. 2401 et seq.), as in effect pursuant to the International Emergency Economic Powers Act, or the Export Administration Regulations.

(4) INVESTMENT PROHIBITION.—Prohibition on any investment by a United States person in property, including entities, owned or controlled by a person described in subsection (a).

(5) FINANCING PROHIBITION.—Prohibition on any approval, financing, or guarantee by a United States person, wherever located, of a transaction by a person described in subsection (a).

(6) FINANCIAL ASSISTANCE PROHIBITION.—Denial by the United States Government of any credit, credit guarantees, grants, or other financial assistance by any agency of the United States Government to a person described in subsection (a).

(c) EFFECTIVE DATE.—Measures applied pursuant to subsection (a) shall be effective with respect to a foreign person no later than—

(1) 90 days after the report identifying the foreign person is submitted, if the report is submitted on or before the date required by section 3(a);

(2) 90 days after the date required by section 3(a) for submitting the report, if the report identifying the foreign person is submitted within 60 days after that date; or

(3) on the date that the report identifying the foreign person is submitted, if that report is submitted more than 60 days after the date required by section 3(a).

(d) PUBLICATION IN FEDERAL REGISTER.—

(1) IN GENERAL.—The Secretary of the Treasury shall publish in the Federal Register notice of the application against a person of measures pursuant to subsection (a).

(2) CONTENT.—Each notice published in accordance with paragraph (1) shall include the name and address (where known) of each person to which measures have been applied pursuant to subsection (a).

#### SEC. 5. DETERMINATION EXEMPTING A FOREIGN PERSON FROM THE APPLICATION OF CERTAIN MEASURES.

(a) IN GENERAL.—The application of any measure described in section 4(b) to a person

described in section 4(a) shall cease to be effective beginning 15 days after the date on which the President determines and certifies to the appropriate congressional committees, on the basis of information provided by such person or otherwise obtained by the President, that—

(1) in the case of a transfer or acquisition of goods, services, or technology described in section 3(a)(1)—

(A) such person did not, on or after January 1, 1999, knowingly transfer to or acquire from Iran, North Korea, or Syria, as the case may be, such goods, services, or technology the apparent transfer of which caused such person to be identified in a report submitted pursuant to section 3(a);

(B) the goods, services, or technology the transfer of which caused such person to be identified in a report submitted pursuant to section 3(a) did not contribute to the efforts of Iran, North Korea, or Syria, as the case may be, to develop—

(i) nuclear, biological, or chemical weapons, or ballistic or cruise missile systems, or weapons listed on the Wassenaar Arrangement Munitions List of July 12, 1996, or any subsequent revision of such List; or

(ii) destabilizing types or amounts of conventional weapons or acquire technical assistance;

(C) such person is subject to the primary jurisdiction of a government that is an adherent to one or more relevant nonproliferation regimes, such person was identified in a report submitted pursuant to section 3(a) with respect to a transfer of goods, services, or technology described in section 3(a)(1)(A), and such transfer was made in accordance with the guidelines and parameters of all such relevant regimes of which such government is an adherent; or

(D) the government with primary jurisdiction over such person has imposed meaningful penalties on such person on account of the transfer of such goods, services, or technology that caused such person to be identified in a report submitted pursuant to section 3(a);

(2) in the case of an acquisition of materials mined or otherwise extracted within the territory of Iran, North Korea, or Syria, as the case may be, described in section 3(a)(2) for purposes relating to the nuclear, biological, or chemical weapons, or ballistic or cruise missile development programs of Iran, North Korea, or Syria, as the case may be, such person did not acquire such materials; or

(3) in the case of the provision of a vessel, insurance or reinsurance, or another shipping service for the transportation of goods to or from Iran, North Korea, or Syria, as the case may be, described in section 3(a)(3) for purposes relating to the nuclear, biological, or chemical weapons, or ballistic or cruise missile development programs of Iran, North Korea, or Syria, as the case may be, such person did not provide such a vessel or service.

(b) OPPORTUNITY TO PROVIDE INFORMATION.—Congress urges the President—

(1) in every appropriate case, to contact in a timely fashion each person described in section 3(a), or the government with primary jurisdiction over such person, in order to afford such person, or such government, the opportunity to provide explanatory, exculpatory, or other additional information with respect to the transfer that caused such person to be identified in a report submitted pursuant to section 3(a); and

(2) to exercise the authority described in subsection (a) in all cases in which informa-

tion obtained from each person described in section 3(a), or from the government with primary jurisdiction over such person, establishes that the exercise of such authority is warranted.

(c) FORM OF TRANSMISSION.—

(1) IN GENERAL.—Except as provided in paragraph (2), the determination and report of the President under subsection (a) shall be transmitted in unclassified form.

(2) EXCEPTION.—The determination and report of the President under subsection (a) may be transmitted in classified form if the President certifies to the appropriate congressional committees that it is vital to the national security interests of the United States to do so.

#### **SEC. 6. RESTRICTIONS ON NUCLEAR COOPERATION WITH COUNTRIES AIDING PROLIFERATION BY IRAN, NORTH KOREA, OR SYRIA.**

(a) IN GENERAL.—

(1) RESTRICTIONS.—Notwithstanding any other provision of law, on or after the date of the enactment of this Act—

(A) no agreement for cooperation between the United States and the government of any country that is assisting the nuclear program of Iran, North Korea, or Syria, or transferring advanced conventional weapons or missiles to Iran, North Korea, or Syria may be submitted to the President or to Congress pursuant to section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153),

(B) no such agreement may enter into force with respect to such country,

(C) no license may be issued for export directly or indirectly to such country of any nuclear material, facilities, components, or other goods, services, or technology that would be subject to such agreement, and

(D) no approval may be given for the transfer or retransfer directly or indirectly to such country of any nuclear material, facilities, components, or other goods, services, or technology that would be subject to such agreement,

until the President makes the determination and report under paragraph (2).

(2) DETERMINATION AND REPORT.—The determination and report referred to in paragraph (1) are a determination and report by the President, submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, that—

(A) Iran, North Korea, or Syria, as the case may be, has ceased its efforts to design, develop, or acquire a nuclear explosive device or related materials or technology; or

(B) the government of the country that is assisting the nuclear programs of Iran, North Korea, or Syria, as the case may be, or transferring advanced conventional weapons or missiles to Iran, North Korea, or Syria, as the case may be—

(i) has suspended all nuclear assistance to Iran, North Korea, or Syria, as the case may be, and all transfers of advanced conventional weapons and missiles to Iran, North Korea, or Syria, as the case may be; and

(ii) is committed to maintaining that suspension until Iran, North Korea, or Syria, as the case may be, has implemented measures that would permit the President to make the determination described in subparagraph (A).

(b) RULES OF CONSTRUCTION.—The restrictions described in subsection (a)(1)—

(1) shall apply in addition to all other applicable procedures, requirements, and restrictions described in the Atomic Energy Act of 1954 and other applicable Acts;

(2) shall not be construed as affecting the validity of an agreement for cooperation be-

tween the United States and the government of a country that is in effect on the date of the enactment of this Act; and

(3) shall not be construed as applying to assistance for the Bushehr nuclear reactor, unless such assistance is determined by the President to be contributing to the efforts of Iran to develop nuclear weapons.

(c) DEFINITIONS.—In this section:

(1) AGREEMENT FOR COOPERATION.—The term “agreement for cooperation” has the meaning given that term in section 11 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2014 b.).

(2) ASSISTING THE NUCLEAR PROGRAM OF IRAN, NORTH KOREA, OR SYRIA.—The term “assisting the nuclear program of Iran, North Korea, or Syria” means the intentional transfer to Iran, North Korea, or Syria by a government, or by a person subject to the jurisdiction of a government with the knowledge and acquiescence of that government, of goods, services, or technology listed on the Nuclear Suppliers Group Guidelines for the Export of Nuclear Material, Equipment and Technology (published by the International Atomic Energy Agency as Information Circular INFCIRC/254/Rev. 3/Part 1, and subsequent revisions), or the Nuclear Suppliers Group Guidelines for Transfers of Nuclear-Related Dual-Use Equipment, Material, and Related Technology (published by the International Atomic Energy Agency as Information Circular INFCIRC/254/Rev. 3/Part 2, and subsequent revisions).

(3) COUNTRY THAT IS ASSISTING THE NUCLEAR PROGRAMS OF IRAN, NORTH KOREA, OR SYRIA OR TRANSFERRING ADVANCED CONVENTIONAL WEAPONS OR MISSILES TO IRAN, NORTH KOREA, OR SYRIA.—The term “country that is assisting the nuclear program of Iran, North Korea, or Syria or transferring advanced conventional weapons or missiles to Iran, North Korea, or Syria” means any country determined by the President to be assisting the nuclear program of Iran, North Korea, or Syria or transferring advanced conventional weapons or missiles to Iran, North Korea, or Syria.

(4) TRANSFER.—The term “transfer” means the conveyance of technological or intellectual property, or the conversion of intellectual or technological advances into marketable goods, services, or articles of value, developed and generated in one place, to another through illegal or illicit means to a country, the government of which the Secretary of State has determined, for purposes of section 6(j)(1)(A) of the Export Administration Act of 1979 (as in effect pursuant to the International Emergency Economic Powers Act; 50 U.S.C. 1701 et seq.), section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)), and section 620A of the Foreign Assistance Act of 1961 (22 U.S.C. 2371), is a government that has repeatedly provided support for acts of international terrorism.

(5) TRANSFERRING ADVANCED CONVENTIONAL WEAPONS OR MISSILES TO IRAN, NORTH KOREA, OR SYRIA.—The term “transferring advanced conventional weapons or missiles to Iran, North Korea, or Syria” means the intentional transfer to Iran, North Korea, or Syria by a government, or by a person subject to the jurisdiction of a government with the knowledge and acquiescence of that government, of goods, services, or technology listed on—

(A) the Wassenaar Arrangement list of Dual Use Goods and Technologies and Munitions list of July 12, 1996, and subsequent revisions; or

(B) the Missile Technology Control Regime Equipment and Technology Annex of June 11, 1996, and subsequent revisions.

**SEC. 7. IDENTIFICATION OF COUNTRIES THAT ENABLE PROLIFERATION TO OR FROM IRAN, NORTH KOREA, OR SYRIA.**

(a) **ANNUAL REPORT.**—The President shall transmit to the appropriate congressional committees and make available to the public on an annual basis a report that identifies each foreign country that allows one or more foreign persons under the jurisdiction of such country to engage in activities described in section 3 that are sanctionable under section 4 despite requests by the United States Government to the government of such country to prevent such activities.

(b) **FORM.**—The report required under subsection (a) shall be submitted in unclassified form, but may contain a classified annex if necessary.

**SEC. 8. PROHIBITION ON UNITED STATES ASSISTANCE TO COUNTRIES ASSISTING PROLIFERATION ACTIVITIES BY IRAN, NORTH KOREA, OR SYRIA.**

(a) **IN GENERAL.**—The President shall prohibit assistance (other than humanitarian assistance) under the Foreign Assistance Act of 1961 and shall not issue export licenses for defense articles or defense services under the Arms Export Control Act to a foreign country the government of which the President has received credible information is assisting Iran, North Korea, or Syria in the acquisition, development, or proliferation of weapons of mass destruction or ballistic missiles.

(b) **RESUMPTION OF ASSISTANCE.**—The President is authorized to provide assistance described in subsection (a) to a foreign country subject to the prohibition in subsection (a) if the President determines and notifies the appropriate congressional committees that there is credible information that the government of the country is no longer assisting Iran, North Korea, or Syria in the acquisition, development, or proliferation of weapons of mass destruction or ballistic missiles.

(c) **DEFINITION.**—In this section, the term “assisting” means providing material or financial support of any kind, including purchasing of material, technology or equipment from Iran, North Korea, or Syria.

**SEC. 9. RESTRICTION ON EXTRAORDINARY PAYMENTS IN CONNECTION WITH THE INTERNATIONAL SPACE STATION.**

(a) **RESTRICTION.**—

(1) **IN GENERAL.**—Notwithstanding any other provision of law, no agency of the United States Government may make extraordinary payments in connection with the International Space Station to the Russian Aviation and Space Agency, any organization or entity under the jurisdiction or control of the Russian Aviation and Space Agency, or any other organization, entity, or element of the Government of the Russian Federation, unless, during the fiscal year in which such extraordinary payments are to be made, the President has made the determination described in subsection (b), and reported such determination to the Committee on Foreign Affairs and the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Foreign Relations and the Committee on Commerce, Science, and Transportation of the Senate.

(2) **WAIVER.**—If the President is unable to make the determination described in subsection (b) with respect to a fiscal year in which extraordinary payments in connection with the International Space Station are to be made, the President is authorized to waive the application of paragraph (1) on a case-by-case basis with respect to the fiscal year if not less than 15 days prior to the date

on which the waiver is to take effect the President submits to the appropriate congressional committees a report that contains—

(A) the reasons why the determination described in subsection (b) cannot be made;

(B) the amount of the extraordinary payment to be made under the waiver;

(C) the steps being undertaken by the United States to ensure compliance by the Russian Federation with the conditions described in subsection (b); and

(D) a determination of the President that the waiver is vital to the national interests of the United States.

(b) **DETERMINATION REGARDING RUSSIAN COOPERATION IN PREVENTING PROLIFERATION RELATING TO IRAN, NORTH KOREA, AND SYRIA.**—The determination referred to in subsection (a) is a determination by the President that—

(1) it is the policy of the Government of the Russian Federation (including the law enforcement, export promotion, export control, and intelligence agencies of such Government) to oppose the proliferation to or from Iran, North Korea, and Syria of weapons of mass destruction and missile systems capable of delivering such weapons;

(2) the Government of the Russian Federation (including the law enforcement, export promotion, export control, and intelligence agencies of such Government) has demonstrated and continues to demonstrate a sustained commitment to seek out and prevent the transfer to or from Iran, North Korea, and Syria of goods, services, and technology that could make a material contribution to the nuclear, biological, or chemical weapons, or of ballistic or cruise missile systems development programs of Iran; and

(3) neither the Russian Aviation and Space Agency, nor any organization or entity under the jurisdiction or control of the Russian Aviation and Space Agency, has, during the one-year period ending on the date of the determination under this subsection made transfers to or from Iran, North Korea, or Syria reportable under section 3(a) (other than transfers with respect to which a determination pursuant to section 5 has been or will be made).

(c) **PRIOR NOTIFICATION.**—Not less than five days before making a determination under this section, the President shall notify the Committee on Foreign Affairs and the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Foreign Relations and the Committee on Commerce, Science, and Transportation of the Senate of the President's intention to make such a determination.

(d) **WRITTEN JUSTIFICATION.**—A determination of the President under this section shall include a written justification describing in detail the facts and circumstances supporting the President's conclusion.

(e) **TRANSMISSION IN CLASSIFIED FORM.**—If the President considers it appropriate, a determination of the President under this section, a prior notification under subsection (c), and a written justification under subsection (d), or appropriate parts thereof, may be transmitted in classified form.

(f) **EXCEPTION FOR CREW SAFETY.**—

(1) **EXCEPTION.**—The National Aeronautics and Space Administration may make extraordinary payments in connection with the International Space Station to the Russian Aviation and Space Agency or any organization or entity under the jurisdiction or control of the Russian Aviation and Space Agency, or any subcontractor thereof, that would otherwise be prohibited under this section if

the President notifies Congress in writing that such payments are necessary to prevent the imminent loss of life of or grievous injury to individuals aboard the International Space Station.

(2) **REPORT.**—Not later than 30 days after notifying Congress that the National Aeronautics and Space Administration will make extraordinary payments under paragraph (1), the President shall transmit to Congress a report describing—

(A) the extent to which the provisions of subsection (b) had been met as of the date of notification; and

(B) the measures that the National Aeronautics and Space Administration is taking to ensure that—

(i) the conditions posing a threat of imminent loss of life of or grievous injury to individuals aboard the International Space Station necessitating the extraordinary payments are not repeated; and

(ii) it is no longer necessary to make extraordinary payments in order to prevent imminent loss of life of or grievous injury to individuals aboard the International Space Station.

(g) **SERVICE MODULE EXCEPTION.**—

(1) **IN GENERAL.**—The National Aeronautics and Space Administration may make extraordinary payments in connection with the International Space Station to the Russian Aviation and Space Agency, any organization or entity under the jurisdiction or control of the Russian Aviation and Space Agency, or any subcontractor thereof, that would otherwise be prohibited under this section for the construction, testing, preparation, delivery, launch, or maintenance of the Service Module, and for the purchase (at a total cost not to exceed \$14,000,000) of the pressure dome for the Interim Control Module and the Androgynous Peripheral Docking Adapter and related hardware for the United States propulsion module, if—

(A) the President has notified Congress at least five days before making such payments;

(B) no report has been made under section 3(a) with respect to an activity of the entity to receive such payment, and the President has no credible information of any activity that would require such a report; and

(C) the United States will receive goods or services of value to the United States commensurate with the value of the extraordinary payments made.

(2) **DEFINITION.**—For purposes of this subsection, the term “maintenance” means activities that cannot be performed by the National Aeronautics and Space Administration and which must be performed in order for the Service Module to provide environmental control, life support, and orbital maintenance functions which cannot be performed by an alternative means at the time of payment.

(3) **TERMINATION.**—This subsection shall cease to be effective on the date that is 60 days after the date on which a United States propulsion module is in place at the International Space Station.

(h) **EXCEPTION.**—No agency of the United States Government may make extraordinary payments in connection with the International Space Station, or any other payments in connection with the International Space Station, to any foreign person subject to measures applied pursuant to section 4 of Executive Order 12938 (November 14, 1994), as amended by Executive Order 13094 (July 28, 1998).

(i) **REPORT ON CERTAIN PAYMENTS RELATED TO INTERNATIONAL SPACE STATION.**—

(1) IN GENERAL.—The President shall, together with each report submitted under section 3(a), transmit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report that identifies each Russian entity or person to whom the United States Government has, since November 22, 2005, made a payment in cash or in kind for work to be performed or services to be rendered under the Agreement Concerning Cooperation on the Civil International Space Station, with annex, signed at Washington January 29, 1998, and entered into force March 27, 2001, or any protocol, agreement, memorandum of understanding, or contract related thereto.

(2) CONTENT.—Each report transmitted under paragraph (1) shall include—

(A) the specific purpose of each payment made to each entity or person identified in such report; and

(B) with respect to each such payment, the assessment of the President that the payment was not prejudicial to the achievement of the objectives of the United States Government to prevent the proliferation of ballistic or cruise missile systems in Iran and other countries that have repeatedly provided support for acts of international terrorism, as determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)).

**SEC. 10. EXCLUSION FROM THE UNITED STATES OF SENIOR OFFICIALS OF FOREIGN PERSONS WHO HAVE AIDED PROLIFERATION RELATING TO IRAN.**

Except as provided in subsection (b), the Secretary of State shall deny a visa to, and the Secretary of Homeland Security shall exclude from the United States, any alien whom the Secretary of State determines is an alien who, on or after the date of the enactment of this Act, is a—

(1) corporate officer, principal, or shareholder with a controlling interest of a foreign person identified in a report submitted pursuant to section 3(a);

(2) corporate officer, principal, or shareholder with a controlling interest of a successor entity to, or a parent or subsidiary of, a foreign person identified in such a report;

(3) corporate officer, principal, or shareholder with a controlling interest of an affiliate of a foreign person identified in such a report, if such affiliate engaged in the activities referred to in such report, and if such affiliate is controlled in fact by the foreign person identified in such report; or

(4) spouse, minor child, or agent of a person excludable under paragraph (1), (2), or (3).

**SEC. 11. PROHIBITION ON CERTAIN VESSELS LANDING IN THE UNITED STATES; ENHANCED INSPECTIONS.**

The Ports and Waterways Safety Act (33 U.S.C. 1221 et seq.) is amended by adding at the end the following:

**“SEC. 16. PROHIBITION ON CERTAIN VESSELS LANDING IN THE UNITED STATES; ENHANCED INSPECTIONS.**

“(a) CERTIFICATION REQUIREMENT.—

“(1) IN GENERAL.—Beginning on the date of enactment of the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011, before a vessel arrives at a port in the United States, the owner, charterer, operator, or master of the vessel shall certify that the vessel did not enter a port in Iran, North Korea, or Syria during the 180-day period ending on the date of ar-

rival of the vessel at the port in the United States.

“(2) FALSE CERTIFICATIONS.—The Secretary shall prohibit from landing at a port in the United States for a period of at least 2 years—

“(A) any vessel for which a false certification was made under section (a); and

“(B) any other vessel owned or operated by a parent corporation, partnership, association, or individual proprietorship of the vessel for which the false certification was made.

“(b) ENHANCED INSPECTIONS.—The Secretary shall—

“(1) identify foreign ports at which vessels have landed during the preceding 12-month period that have also landed at ports in Iran, North Korea, or Syria during that period; and

“(2) inspect vessels arriving in the United States from foreign ports identified under paragraph (1) to establish whether the vessel was involved, during the 12-month period ending on the date of arrival of the vessel at the port in the United States, in any activity that would be subject to sanctions under the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011.”.

**SEC. 12. SANCTIONS WITH RESPECT TO CRITICAL DEFENSE RESOURCES PROVIDED TO OR ACQUIRED FROM IRAN, NORTH KOREA, OR SYRIA.**

(a) IN GENERAL.—The President shall apply the sanctions described in subsection (b) to any person the President determines is, on or after the date of the enactment of this Act, providing to, or acquiring from, Iran, North Korea, or Syria any good or technology that the President determines is used, or is likely to be used, for military applications.

(b) SANCTIONS DESCRIBED.—The sanctions described in this subsection are, with respect to a person described in subsection (a), the following:

(1) FOREIGN EXCHANGE.—Prohibiting any transactions in foreign exchange that are subject to the jurisdiction of the United States and in which that person has any interest.

(2) BANKING TRANSACTIONS.—Prohibiting any transfers of credit or payments between financial institutions or by, through, or to any financial institution, to the extent that such transfers or payments are subject to the jurisdiction of the United States and involve any interest of that person.

(3) PROPERTY TRANSACTIONS.—Prohibiting any person from—

(A) acquiring, holding, withholding, using, transferring, withdrawing, transporting, or exporting any property that is subject to the jurisdiction of the United States and with respect to which the person described in subsection (a) has any interest;

(B) dealing in or exercising any right, power, or privilege with respect to such property; or

(C) conducting any transaction involving such property.

(4) LOAN GUARANTEES.—Prohibiting the head of any Federal agency from providing a loan guarantee to that person.

(5) ADDITIONAL SANCTIONS.—Additional sanctions, as appropriate, in accordance with the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.).

(c) RESTRICTIONS ON EXPORT LICENSES FOR NUCLEAR COOPERATION AND CERTAIN LOAN GUARANTEES.—Before issuing a license for the exportation of any article pursuant to an agreement for cooperation under section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153) or approving a loan guarantee or any

other assistance provided by the United States Government with respect to a nuclear energy project, the Secretary of Energy, the Secretary of Commerce, and the Nuclear Regulatory Commission shall certify to Congress that issuing the license or approving the loan guarantee or other assistance (as the case may be) will not permit the transfer of any good or technology described in subsection (a) to Iran, North Korea, or Syria.

(d) EXCEPTION.—The sanctions described in subsection (b) shall not apply to the repayment or other satisfaction of a loan or other obligation incurred under a program of the Export-Import Bank of the United States, as in effect as of the date of the enactment of this Act.

**SEC. 13. DEFINITIONS.**

In this Act:

(1) ADHERENT TO RELEVANT NONPROLIFERATION REGIME.—A government is an “adherent” to a “relevant nonproliferation regime” if such government—

(A) is a member of the Nuclear Suppliers Group with respect to a transfer of goods, services, or technology described in section 3(a)(1)(A)(i);

(B) is a member of the Missile Technology Control Regime with respect to a transfer of goods, services, or technology described in section 3(a)(1)(A)(ii), or is a party to a binding international agreement with the United States that was in effect on January 1, 1999, to control the transfer of such goods, services, or technology in accordance with the criteria and standards set forth in the Missile Technology Control Regime;

(C) is a member of the Australia Group with respect to a transfer of goods, services, or technology described in section 3(a)(1)(A)(iii);

(D) is a party to the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction with respect to a transfer of goods, services, or technology described in section 3(a)(1)(A)(iv); or

(E) is a member of the Wassenaar Arrangement with respect to a transfer of goods, services, or technology described in section 3(a)(1)(A)(v).

(2) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations and the Committee on Banking, Housing, and Urban Affairs of the Senate.

(3) EXTRAORDINARY PAYMENTS IN CONNECTION WITH THE INTERNATIONAL SPACE STATION.—The term “extraordinary payments in connection with the International Space Station” means payments in cash or in kind made or to be made by the United States Government—

(A) for work on the International Space Station which the Government of the Russian Federation pledged at any time to provide at its expense, or

(B) for work on the International Space Station, or for the purchase of goods or services relating to human space flight, that are not required to be made under the terms of a contract or other agreement that was in effect on January 1, 1999, as such terms were in effect on such date, except that such term does not mean payments in cash or in kind made or to be made by the United States Government before December 31, 2020, for work to be performed or services to be rendered before such date necessary to meet United States obligations

under the Agreement Concerning Cooperation on the Civil International Space Station, with annex, signed at Washington January 29, 1998, and entered into force March 27, 2001, or any protocol, agreement, memorandum of understanding, or contract related thereto.

(4) **FOREIGN PERSON.**—The term “foreign person” means—

(A) a natural person who is an alien;

(B) a corporation, business association, partnership, society, trust, or any other non-governmental entity, organization, or group, successor, subunit, or subsidiary organized under the laws of a foreign country or that has its principal place of business in a foreign country; and

(C)(i) any foreign government; or

(ii) any foreign government agency or entity.

(5) **KNOWINGLY.**—The term “knowingly”, with respect to conduct, a circumstance, or a result, means that a person has actual knowledge, or should have known, of the conduct, the circumstance, or the result of such conduct, circumstance, or result.

(6) **ORGANIZATION OR ENTITY UNDER THE JURISDICTION OR CONTROL OF THE RUSSIAN AVIATION AND SPACE AGENCY.**—

(A) **DEFINITION.**—The term “organization or entity under the jurisdiction or control of the Russian Aviation and Space Agency” means an organization or entity that—

(i) was made part of the Russian Space Agency upon its establishment on February 25, 1992;

(ii) was transferred to the Russian Space Agency by decree of the Government of the Russian Federation on July 25, 1994, or May 12, 1998;

(iii) was or is transferred to the Russian Aviation and Space Agency or Russian Space Agency by decree of the Government of the Russian Federation at any other time before, on, or after March 14, 2000; or

(iv) is a joint stock company in which the Russian Aviation and Space Agency or Russian Space Agency has at any time held controlling interest.

(B) **EXTENSION.**—Any organization or entity described in subparagraph (A) shall be deemed to be under the jurisdiction or control of the Russian Aviation and Space Agency regardless of whether—

(i) such organization or entity, after being part of or transferred to the Russian Aviation and Space Agency or Russian Space Agency, is removed from or transferred out of the Russian Aviation and Space Agency or Russian Space Agency; or

(ii) the Russian Aviation and Space Agency or Russian Space Agency, after holding a controlling interest in such organization or entity, divests its controlling interest.

(7) **SUBSIDIARY.**—The term “subsidiary” means an entity (including a partnership, association, trust, joint venture, corporation, or other organization) of a parent company that controls, directly or indirectly, the other entity.

(8) **TRANSFER OR TRANSFERRED.**—The term “transfer” or “transferred”, with respect to a good, service, or technology, includes—

(A) the conveyance of technological or intellectual property; and

(B) the conversion of technological or intellectual advances into marketable goods, services, or technology of value that is developed and generated in one location and transferred to another location through illegal or illicit means.

(9) **UNITED STATES PERSON.**—The term “United States person” means—

(A) a natural person who is a citizen or resident of the United States; or

(B) an entity that is organized under the laws of the United States or any State or territory thereof.

(10) **VESSEL.**—The term “vessel” has the meaning given such term in section 1081 of title 18, United States Code. Such term also includes aircraft, regardless of whether or not the type of aircraft at issue is described in such section.

(11) **TECHNICAL ASSISTANCE.**—The term “technical assistance” means providing of advice, assistance, and training pertaining to the installation, operation, and maintenance of equipment for destabilizing types and forms of conventional weapons.

#### **SEC. 14. REPEAL OF IRAN, NORTH KOREA, AND SYRIA NONPROLIFERATION ACT.**

(a) **REPEAL.**—The Iran, North Korea, and Syria Nonproliferation Act (50 U.S.C. 1701 note) is repealed.

(b) **REFERENCES.**—Any reference in a law, regulation, document, or other record of the United States to the Iran, North Korea, and Syria Nonproliferation Act shall be deemed to be a reference to this Act.

The **SPEAKER** pro tempore. Pursuant to the rule, the gentlewoman from Florida (Ms. **ROS-LEHTINEN**) and the gentleman from California (Mr. **BERMAN**) each will control 20 minutes.

Mr. **KUCINICH**. Mr. Speaker, I rise to claim time in opposition.

The **SPEAKER** pro tempore. Does the gentleman from California favor the motion?

Mr. **BERMAN**. I do support the motion, Mr. Speaker.

The **SPEAKER** pro tempore. On that basis the gentleman from Ohio will control the 20 minutes in opposition.

Ms. **ROS-LEHTINEN**. Mr. Speaker, I ask unanimous consent that the gentleman from California (Mr. **BERMAN**) be allowed to control one-half of the time in the affirmative.

The **SPEAKER** pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The **SPEAKER** pro tempore. The gentlewoman from Florida will control 10 minutes; the gentleman from California will control 10 minutes; and the gentleman from Ohio will control 20 minutes.

The Chair recognizes the gentleman from Florida.

#### **GENERAL LEAVE**

Ms. **ROS-LEHTINEN**. I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on this bill.

The **SPEAKER** pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Ms. **ROS-LEHTINEN**. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act which I introduced, together with the ranking member of the Foreign Affairs Committee's Subcommittee on Terrorism, Nonproliferation, and Trade,

my good friend from California (Mr. **SHERMAN**). I would also like to thank the ranking member of the full committee, the gentleman from California, for his significant contributions to this legislation.

Mr. Speaker, Iran, North Korea, and Syria are key elements in an expanding global proliferation network. North Korea has long been a willing merchant of death for anyone with cash and has played a crucial role in the development of Iran's nuclear and ballistic missile program. But Iran is only one of many customers. In 2010, the U.N. Security Council released a report saying that North Korea continues to market and export its nuclear and ballistic technology. The most prominent example of North Korea's proliferation activities is its construction of the clandestine Syrian nuclear reactor that, thankfully, was destroyed by an Israeli air strike in the year 2007. Reports indicate that the reactor was based on a North Korean model capable of producing plutonium for nuclear weapons and that the project was financed by Iran.

But Syria's nuclear ambitions are apparently even greater than suspected. Just last month, the International Atomic Energy Agency reportedly identified a previously unknown nuclear facility in northeastern Syria, indicating that the regime in Damascus may have been pursuing two separate paths to a nuclear weapon, one based on uranium enrichment and the other on reprocessing plutonium. One thing is clear, as with the first nuclear facility, this second one could only have been built with outside help. So it is obvious that once one of these regimes gets its hands on weapons of mass destruction, they will all have access; and then this deadly capacity is certain to spread even further.

But the proliferation efforts of North Korea, Iran, and Syria are by no means limited to nuclear weapons. There is an active trade between these countries and advanced conventional weapons as well, including ballistic missiles. In the year 2010, an aircraft loaded with North Korean conventional weapons was intercepted in Thailand, reportedly on its way to Iran in violation of multiple Security Council resolutions of the U.N. And there have been several interdictions of Iranian weapons reportedly destined for Syria. Clearly these represent just the tip of the iceberg.

These weapons are not intended to be placed in storage. They will be used against us and against our allies. North Korea has continued to violently assault our ally South Korea, repeatedly attacking its military forces out of the blue and murdering civilians almost at will. And it is throwing vast resources into developing weapons capable of striking U.S. targets, the latest being a

mobile intercontinental ballistic missile which could eventually be added to its list of items for sale.

We are witnessing the Syrian regime shooting down its own people in the streets. Allowing President Assad and his thugs access to nuclear technology could exponentially multiply his regime's ability to spread destruction far beyond its borders.

We know that Iran has no problem striking down innocent people in that country who dare to stand up to the regime. And Tehran continues to be a leading state sponsor of terrorism, providing weapons, money, and support to terrorist groups like Hamas, Hezbollah, and even al Qaeda. This means that preventing any and every part of this proliferation network from gaining access to the weapons they need to threaten anyone is of utmost importance.

Iran, North Korea, and Syria are not just helping each other. Much of the progress they have achieved on the array of weapons programs is thanks to the assistance from other foreign sources. The most recent report of the IAEA on Iran revealed that Iran has been engaged in extensive efforts to develop nuclear weapons and that these efforts include acquiring equipment, materials, and information related to nuclear weapons development. It has stated that Iran has also actively been working on a design for a nuclear weapon, including testing components.

Finally, the IAEA report revealed that Iran has received crucial help on its nuclear weapons design from foreign experts. Just 2 weeks ago, on December 2, Russian officials were quoted in news reports admitting that Russia had supplied Syria's Assad with cruise missiles. According to the news reports: "Israel fears the cruise missiles could fall into the hands of Hezbollah militants in neighboring Lebanon." Just think of all of the countries that have been named in these short remarks.

China is not far behind, as a recent report of the U.S.-China Economic and Security Review Commission indicates. The China Commission report emphasizes the enormous damage to U.S. interests being done by China's massive sale of weapons to Iran, including short-range cruise missiles.

H.R. 2105 seeks to cut off the supply networks to Iran, to Syria, and to North Korea. It updates and strengthens measures to prevent the proliferation of goods, services, or technology relating to nuclear, biological, chemical, and other advanced weapons, such as ballistic missiles. It expands sanctions on individuals, on businesses, on countries engaged in assisting proliferation, embracing financial transactions, properties, and visas, among many other penalties.

It also imposes restrictions on nuclear cooperation with countries that

are assisting the nuclear programs of Iran, North Korea, or Syria because no country that is helping an enemy of the United States should receive any help from us.

But it is not enough to put these laws on the books. They must be fully implemented and consistently enforced if they are to have the intended effect. I call upon the President to use the tools that Congress is giving to him to stop these countries from spreading their instruments of destruction even further. North Korea has already detonated two nuclear devices. Iran is getting closer to a nuclear weapon every day. Syria is following in its footsteps. Their stockpiles of weapons of mass destruction are growing, as their ballistic missile capabilities are growing. And their arsenals of other advanced weapons are being made available to enemies of the U.S. and its allies. We must act decisively to end this threat before it spreads even further.

Mr. Speaker, I would like to place in the RECORD my correspondence and joint statements with the chairmen of other committees of referral on this bill.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON THE JUDICIARY,  
Washington, DC, November 4, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairman, House Committee on Foreign Affairs,  
Washington, DC.

DEAR CHAIRMAN ROS-LEHTINEN: I am writing concerning H.R. 2105, the "Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011," which the Committee on Foreign Affairs reported favorably. As a result of your having consulted with us on provisions in H.R. 2105 that fall within the Rule X jurisdiction of the Committee on the Judiciary, we are able to agree to discharging our Committee from further consideration of this bill in order that it may proceed expeditiously to the House floor for consideration.

The Judiciary Committee takes this action with our mutual understanding that by foregoing consideration of H.R. 2105 at this time, we do not waive any jurisdiction over subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as the bill or similar legislation moves forward so that we may address any remaining issues in our jurisdiction. Our Committee also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and requests your support for any such request.

I would appreciate your response to this letter confirming this understanding with respect to H.R. 2105, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during floor consideration.

Sincerely,

LAMAR SMITH,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, November 4, 2011.

Hon. LAMAR SMITH,  
Chairman, House Committee on the Judiciary,  
Washington, DC.

DEAR CHAIRMAN SMITH: Thank you for your letter concerning H.R. 2105, the Iran, North

Korea, and Syria Nonproliferation Reform and Modernization Act of 2011, and for your agreement to discharge the Committee on the Judiciary from further consideration of this bill so that it may proceed expeditiously to the House floor.

I am writing to confirm our mutual understanding that, by forgoing consideration of H.R. 2105 at this time, you are not waiving any jurisdiction over the subject matter in that bill or similar legislation. I look forward to continuing to consult with your Committee as such legislation moves ahead, and would be glad to support a request by your Committee for conferees to a House-Senate conference on this, or any similar, legislation.

I will seek to place a copy of our exchange of letters on this matter into the Congressional Record during floor consideration of H.R. 2105

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

HOUSE OF REPRESENTATIVES, COM-  
MITTEE ON TRANSPORTATION AND  
INFRASTRUCTURE,

Washington, DC, November 9, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairman, Committee on Foreign Affairs, Wash-  
ington, DC.

DEAR CHAIRMAN ROS-LEHTINEN: I write concerning H.R. 2105, the "Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011." As you know, the Committee on Transportation and Infrastructure also received a referral on H.R. 2105 when the bill was introduced on June 3, 2011. As a result of your consultation with me on provisions in H.R. 2105 that fall within the Rule X jurisdiction of the Committee on Transportation and Infrastructure, we will forgo Committee action on the bill.

The Committee on Transportation and Infrastructure takes this action with our mutual understanding that by forgoing consideration of H.R. 2105 at this time, we do not waive any jurisdiction over subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as the bill or similar legislation moves forward so that we may address any remaining issues in our jurisdiction. The Committee on Transportation and Infrastructure also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and requests your support for any such request.

I would appreciate your response to this letter confirming this understanding with respect to H.R. 2105, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during floor consideration.

Sincerely,

JOHN L. MICA,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, November 9, 2011.

Hon. JOHN L. MICA,  
Chairman, Committee on Transportation and  
Infrastructure, Washington, DC.

DEAR MR. CHAIRMAN: thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and the Transportation and Infrastructure Committee regarding the final text of those sections of H.R. 2105 which the Parliamentary

has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Transportation and Infrastructure Committee is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
*Chairman.*

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON SCIENCE, SPACE, AND  
TECHNOLOGY,

*Washington, DC, November 10, 2011.*

Hon. ILEANA ROS-LEHTINEN,  
*Chairman, Committee on Foreign Affairs, Wash-  
ington, DC.*

DEAR CHAIRMAN ROS-LEHTINEN: I am writing to you regarding H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011. This legislation was initially referred to the Committee on Foreign Affairs, and in addition to the Committee on Science, Space, and Technology (among others). The bill contains provisions that fall within the jurisdiction of the Committee on Science, Space, and Technology.

H.R. 2105 has been marked up by the Committee on Foreign Affairs. Based on discussions that the staff of our two committees have had regarding this legislation and in the interest of permitting your Committee to proceed expeditiously to floor consideration of this important legislation, I am willing to waive further consideration of this bill. I do so with the understanding that by waiving consideration of the bill, the Committee on Science, Space, and Technology does not waive any future jurisdictional claim of the subject matters contained in the bill which fall within its Rule X jurisdiction.

Additionally, the Committee on Science, Space, and Technology expressly reserves its authority to seek conferees on any provision within its jurisdiction during any House-Senate conference that may be convened on this, or any similar legislation. I ask for your commitment to support any request by the Committee for conferees on H.R. 2105, as well as any similar or related legislation.

Further, I ask that a copy of this letter and your response be included in the report on H.R. 2105 and in the Congressional Record during consideration of this bill.

I would also like to take this opportunity to thank you for the positive negotiations between our Committees, the result is an improved bill. I look forward to working with you as this important measure moves through the legislative process.

Sincerely,

RALPH M. HALL,  
*Chairman.*

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
*Washington, DC, November 9, 2011.*

Hon. RALPH M. HALL,  
*Chairman, Committee on Science, Space, and  
Technology, Washington, DC.*

DEAR CHAIRMAN HALL: Thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and

the Science, Space, and Technology Committee regarding the final text of those sections of H.R. 2105 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Science, Space, and Technology Committee is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
*Chairman.*

JOINT STATEMENT OF CHAIRMAN ROS-LEHTINEN OF THE COMMITTEE ON FOREIGN AFFAIRS AND CHAIRMAN HALL OF THE COMMITTEE ON SCIENCE, SPACE, AND TECHNOLOGY ON H.R. 2105, THE "IRAN, NORTH KOREA, AND SYRIA NONPROLIFERATION REFORM AND MODERNIZATION ACT OF 2011"

The Committee on Foreign Affairs and the Committee on Science, Space, and Technology affirm the national policy of fully utilizing the International Space Station and recognize the role of international partners in sustaining that enterprise. Consistent with Public Law 111-267, the "National Aeronautics and Space Administration Authorization Act of 2010", the Committees support the national policy of relying on, and fostering development of, United States' owned and operated cargo and crew services to the International Space Station, including those provided by commercial carriers, where such services exist and are certified for flight by the appropriate agencies.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
*Washington, DC, November 16, 2011.*

Hon. DARRELL E. ISSA,  
*Chairman, Committee on Oversight and Govern-  
ment Reform, Washington, DC.*

DEAR CHAIRMAN ISSA: Thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and the Oversight and Government Reform Committee regarding the final text of those sections of H.R. 2105 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Oversight and Government Reform Committee is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill. Additionally, I will support your request for an appropriate appointment of outside conferees from your Committee in the event of a House-Senate conference on this or similar legislation should such a conference be convened.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
*Chairman.*

HOUSE OF REPRESENTATIVES, COM-  
MITTEE ON OVERSIGHT AND GOV-  
ERNMENT REFORM,

*Washington, DC, November 18, 2011.*

Hon. ILEANA ROS-LEHTINEN,  
*Chairwoman, Committee on Foreign Affairs,  
Washington, DC.*

DEAR MADAM CHAIRWOMAN: Thank you for your letter concerning H.R. 2105, the Iran, North Korea and Syria Non-proliferation Reform and Modernization Act of 2011. I concur in your judgment that provisions of the bill are within the jurisdiction of the Oversight and Government Reform Committee.

I am willing to waive this committee's right to consider the bill. In so doing, I do not waive its jurisdiction over the subject matter of the bill. I appreciate your commitment to insert this exchange of letters into the committee report and the Congressional Record, and your support for outside conferees from the Committee should a conference be convened.

Sincerely,

DARRELL ISSA,  
*Chairman.*

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FINANCIAL SERVICES,  
*Washington, DC, November 23, 2011.*

Hon. ILEANA ROS-LEHTINEN,  
*Chairman, Committee on Foreign Affairs, Wash-  
ington, DC.*

DEAR CHAIRMAN ROS-LEHTINEN: I am writing concerning H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011. Based on the agreement made by the staff of our two committees regarding H.R. 2105 and in the interest of permitting your Committee to proceed expeditiously with the bill, I am willing to forego at this time the consideration of provisions in this bill that fall under the jurisdiction of the Committee on Financial Services under Rule X of the Rules of the House of Representatives.

The Committee on Financial Services takes this action with our mutual understanding that by foregoing consideration of H.R. 2105 at this time, we do not waive any jurisdiction over the subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as the bill or similar legislation moves forward. Our Committee reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and requests your support for any such requests.

Further, I ask that a copy of our exchange of letters on this matter be included in the Congressional Record during floor consideration of this bill. I look forward to working with you as this important measure moves through the legislative process.

Sincerely,

SPENCER BACHUS,  
*Chairman.*

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
*Washington, DC, November 23, 2011.*

Hon. SPENCER BACHUS,  
*Chairman, Committee on Financial Services,  
Washington, DC.*

DEAR CHAIRMAN BACHUS: Thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and your Committee regarding the final text of

those sections of H.R. 2105 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that your Committee is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill. Additionally, I will support your request for an appropriate appointment of outside conferees from your Committee in the event of a House-Senate conference on this or similar legislation should such a conference be convened.

Thank you again for your consideration and assistance on this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON WAYS AND MEANS,  
Washington, DC, December 5, 2011.

Hon. ILEANA ROS-LEHTINEN,  
Chairman, Committee on Foreign Affairs, Washington, DC.

DEAR CHAIRMAN ROS-LEHTINEN: I am writing regarding H.R. 2105, the "Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011," which was favorably reported out of your Committee on November 2, 2011. I commend you on your efforts to make sure that the United States is better able to address the critical threats that Iran, North Korea, and Syria pose.

There have been productive conversations between the staffs of our Committees, during which we have proposed changes to provisions within the jurisdiction of the Committee on Ways and Means in the bill to clarify the intent and scope of the bill with respect to compliance with U.S. international trade obligations, thereby reducing our exposure to trade sanctions and retaliation against our exporters. I believe that compliance with our trade obligations makes for a more credible U.S. response to Iran's behavior and helps us develop a stronger multilateral response to Iran. Accordingly, I appreciate your commitment to address the concerns raised by the Committee on Ways and Means in sections 4 and 10 in H.R. 2105.

Assuming these issues are resolved satisfactorily, in order to expedite floor consideration of the bill, the Committee on Ways and Means will forgo action on H.R. 2105. Further, the Committee will not oppose the bill's consideration on the suspension calendar, based on our understanding that you will work with the Committee as the legislative process moves forward in the House of Representatives and in the Senate, to ensure that the Committee's concerns continue to be addressed. This is also being done with the understanding that it does not in any way prejudice the Committee with respect to the appointment of conferees or its jurisdictional prerogatives on this or similar legislation.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 2105, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during Floor consideration.

Sincerely,

DAVE CAMP,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FOREIGN AFFAIRS,  
Washington, DC, December 5, 2011.

Hon. DAVE CAMP,  
Chairman, Committee on Ways and Means,  
Washington, DC.

DEAR CHAIRMAN CAMP: Thank you for your cooperation with the Foreign Affairs Committee regarding H.R. 2105, the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011.

I am writing to confirm the agreement between the Foreign Affairs Committee and the Committee on Ways and Means regarding the final text of those sections of 2105 which the Parliamentarian has indicated involve the jurisdiction of your Committee. In agreeing to waive consideration of that bill, this Committee understands that the Committee on Ways and Means is not waiving jurisdiction over the relevant provisions in that bill or any other related matter. I will seek to place a copy of this letter and your response in the Congressional Record during floor consideration of the bill. Additionally, I will support your request for an appropriate appointment of outside conferees from your Committee in the event of a House-Senate conference on this or similar legislation should such a conference be convened.

Thank you again for your consideration and assistance in this matter.

Sincerely,

ILEANA ROS-LEHTINEN,  
Chairman.

I strongly urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. KUCINICH. Mr. Speaker, I yield myself such time as I may consume.

We're rapidly moving from Iran sanctions to sanctioning the world here.

I stand in support of nonproliferation. I think that this country should be leading the world towards nuclear abolition. Let us not forget that when the Soviet Union fell, there was one country that got rid of its nuclear weapons, Ukraine.

□ 2110

And Ukraine today, while there are political problems there, they still stand strong as a nation among nations for having taken that direction.

We need to be encouraging all of the nations of the world to get rid of their nuclear weapons. But if we don't do that and we instead say: We will keep our nuclear weapons, and half a dozen other nations and more can keep their nuclear weapons, but you, you, you and you, you cannot have nuclear weapons, actually what we're doing is we're setting the stage for more proliferation. It is the inconsistent U.S. policy on nuclear proliferation that has actually brought us to this moment.

So I have a great deal of sympathy for my colleagues who don't want to see more nuclear proliferation among certain nations, but I would ask them to join me in taking a stand for nuclear abolition among all nations.

I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I yield myself 2 minutes.

INKSNA, enacted in the year 2000, has forced the United States Govern-

ment to review all intelligence for credible evidence regarding sensitive transfers of goods and services related to WMD, missiles, or conventional weapons, and made such transfers sanctionable acts.

While the reports required by INKSNA are 2 years behind schedule—an ongoing problem that has plagued successive administrations—we have frequently seen new rounds of sanctions against companies and individuals who are more interested in making a buck than in protecting global security interests.

The specific details of sanctioned transfers are classified. Press reports, however, indicate that INKSNA sanctions have been imposed, for example, on Chinese entities for selling carbon fiber and pressure transducers which could assist Iran in building more advanced gas centrifuges. Multiple Russian, Chinese, and even European weapons exporters have been sanctioned, presumably for the transfer of arms to Iran and Syria, and Chinese chemical supply companies have been repeatedly sanctioned.

I'd like to thank the chairman for agreeing to include my amendment to further strengthen INKSNA. This amendment requires the administration to develop a special mechanism to speed up the process of imposing sanctions regarding transfers of sensitive technology related to weapons of mass destruction or ballistic missiles to Iran.

In addition, the amendment requires the President to publicly identify those countries that are allowing such transfers of sensitive technology to occur, despite repeated requests by the U.S. Government to prevent such activities. I would expect China would be listed on the first report as a government that directly, indirectly, or through inaction, enables its firms to engage in sensitive transfers to Iran, Syria, or North Korea.

Mr. Speaker, I support this bill and urge my colleagues to do the same, and I reserve the balance of my time.

Mr. KUCINICH. Mr. Speaker, I will once again yield time to a colleague who I may disagree with, but he is entitled to 3 minutes, and I will yield 3 minutes to the gentleman from California (Mr. SHERMAN).

Mr. SHERMAN. I thank the gentleman from Ohio for his generosity, especially because he will probably disagree with most of what I have to say.

As to the consistency of America's nonproliferation policy, I believe we are consistent. We are consistent with the nonproliferation treaty, which I believe is the most important peace treaty of our lifetime. It identifies five states as nuclear states. Three major nations in this world did not sign and do not benefit from the treaty. But Iran, North Korea, and Syria all agreed, as non-nuclear states, agreed

not to develop nuclear weapons, and all of them have violated that agreement.

I want to commend Chairman ROS-LEHTINEN for putting forward this outstanding bill, one of the toughest non-proliferation bills ever to come before Congress. I am the lead Democratic cosponsor of this bill, and I want to thank her for the opportunity to work with her on this important legislation.

Iran, Syria, and North Korea are proliferators of nuclear weapons technology, and work together to threaten U.S. interests and allies around the globe.

This bill includes an important provision that I put forward in a bill that I introduced in May of 2009. That is, it poses sanctions against those firms that provide North Korea, Iran, or Syria with equipment or technology relevant to mining or milling uranium. Iran in particular is facing a uranium shortage, and has been searching for foreign sources of uranium as well as trying to improve its own domestic capacity to mine uranium. Under this bill, anyone who assists that effort would be subject to penalties.

This bill includes other very important provisions. The U.S.-China Economic Security Review Commission identified a loophole in current law that arguably exempts from sanctions Chinese companies that are providing short-range, anti-naval cruise missiles to Iran. I think it is critically important that we protect our naval crews, especially when Iran has recently conducted exercises to game the possibility of shutting the Strait of Hormuz, which is so critical to world oil supplies. We need to do everything we can in this Congress to protect our naval crews from Iranian weapons acquired from China.

Also, following on the shipping sanctions that have been put into place against Iranian shipping firms, this bill would go further. It effectively bars from any U.S. port any ship that has visited North Korea, Iran, or Syria in the last 2 years.

The bill would also close a loophole in existing sanctions. It would require that sanctions be imposed on the parent entity when one of its subsidiaries engages in sanctionable activity.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. KUCINICH. I yield the gentleman an additional minute.

Mr. SHERMAN. I thank the gentleman.

Again, this is one of the strongest, perhaps the strongest nonproliferation bill to come before Congress, and I urge its adoption.

Ms. ROS-LEHTINEN. Mr. Speaker, I have no further requests for time, and I reserve the balance of my time to close.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to my friend from New York, the ranking

member of the Western Hemisphere Subcommittee of the Foreign Affairs Committee, Mr. ENGEL.

Mr. ENGEL. I thank my friend for yielding time to me.

I rise in strong support of H.R. 2105, the Iran, North Korea, and Syria Non-proliferation Reform and Modernization Act of 2011.

Madam Chair, many years ago we sponsored legislation to slap sanctions on Syria. I'm sorry to say we were clairvoyant, but here it is nearly 10 years later, and some things never change. So here we are back again when Syria is murdering its own people, saying that we were right back in 2003 and 2004, and sanctions are what is necessary in order to prevent this regime from murdering its own people and threatening others with destruction. And so I'm happy to join with you and Mr. BERMAN in doing this.

When nuclear, chemical, or biological weapons get in the hand of regimes which lead these rogue states, it's not only a danger to the U.S., it is a danger to all our allies in the Middle East, Asia, and around the world.

What this important bill does is it strengthens existing U.S. sanctions against foreign entities that provide nuclear, chemical, or biological weapons components to Iran, North Korea, and Syria. When Israel destroyed a Syrian facility, we found that that facility was planned and arranged and done by North Korea. So there is this collusion of these rogue regimes all throughout the world.

Importantly, for the first time, this bill imposes sanctions on foreign entities that provide to or acquire from these countries any goods or technology that could be used for military applications. So I, therefore, strongly support this bill in the hope that we can prevent Iran, Syria, and North Korea from getting their hands on more unconventional weapons.

And I say again, people say Republicans and Democrats can't agree on anything. This is something that we agree on because we understand that it is not only a threat to the United States, but it's a threat to the entire world when these rogue regimes have these kinds of weapons of mass destruction.

□ 2120

Mr. KUCINICH. Mr. Speaker, I yield myself such time as I may consume.

The Congressional Quarterly House Action Report on this legislation states the following: that the measure, however, exempts such restrictions for assistance for the Bushehr nuclear reactor in Iran which is being developed with the aid of Russian entities unless the President determines such assistance is contributing to Iran's development of nuclear weapons.

Now, that is very interesting because what that means is that it is not axio-

matic that the mere presence of nuclear power capability necessarily means that Iran is developing nuclear weapons. As a matter of fact, you wouldn't have that provision unless the President had the authority to be able to make a finding with respect to the development of nuclear weapons by Iran.

I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I am very pleased to yield 2 minutes to a former member of the House Foreign Affairs Committee and member of the Appropriations Committee, the gentleman from California (Mr. SCHIFF).

Mr. SCHIFF. I thank the gentleman for yielding, and I want to thank the chair and ranking member for all the leadership on this issue.

I rise in support of both the Iran Threat Reduction Act as well as the Iran, North Korea, and Syria Non-proliferation Reform and Modernization Act. Both of these bills have at their heart and core the same purpose, and that is to prevent some of the most dangerous, terrorism-sponsoring and proliferating nations—nations like Iran, North Korea, and Syria—from obtaining a nuclear weapons capability or proliferating that capability.

Now, why is that so important? Well, in the case of Iran, Iran's acquisition of the bomb would empower that dictatorial regime to carry out what it has threatened to do, that is, to potentially wipe Israel off the face of the map. It would also, I think, very likely result in a nuclear arms race in the Middle East.

And I believe that we will be judged as a country and as a Congress on whether we take every possible step, every diplomatic step, every step through sanctions to prevent Iran from acquiring the bomb and all the potentially disastrous consequences that could have. And this legislation, by particularly going after Iran's Central Bank, will be the most devastating of all economic sanctions on Iran.

We saw the concern manifest in Iran when Britain passed similar sanctions. Plainly, they are terrified of the impact this would have. This is the strongest leverage we could bring against Iran's nuclear program, and I strongly urge its passage.

We also have a deep national security interest in going after any potential proliferation of nuclear materials and technology. We have already seen in Syria a dictator's willingness to murder thousands of his own people. We have also seen a regime in Damascus willing to engage in a surreptitious nuclear program in violation of international law and agreement.

I urge passage of both bills.

Mr. KUCINICH. Could I ask how much time remains?

The SPEAKER pro tempore. The gentleman from Ohio has 14¼ minutes; the gentleman from California has 4 minutes remaining; and the gentlewoman

from Florida has 2½ minutes remaining.

Mr. KUCINICH. I yield myself such time as I may consume.

Dr. Robert Pape from Harvard's Journal of International Security has been quoted as saying the following: Sanctions have failed to achieve their objectives in 95.7 percent of cases since World War I, and sanctions are more than three times more likely to end in military conflict than success.

So what we have here is that sanctions inevitably equal a failure of diplomacy, and war becomes a failure of sanctions. So we must ask ourselves, while we stand here for nonproliferation, something that I agree with, how do we stop the nonproliferation of war? Particularly, how do we forestall any possibility of a nuclear war?

Now, Lawrence Korb was the Assistant Secretary of Defense in the Reagan administration, and he serves now as a senior fellow at the Center for American Progress. Last month, he submitted an article to the Plain Dealer in Cleveland, and I want to quote from it because it's relevant not only to this debate, but it is relevant to the economic stress this country is feeling right now.

He says that since the second term of the Reagan administration, nuclear weapons have been of declining strategic relevance, but our budget barely reflects that. Our country is slated to spend \$700 billion over the next 10 years on nuclear weapons programs. This is unsustainable, a directionless budget driven in large part by inertia and the pressure from Members of Congress to preserve programs in their own States at the expense of the country as a whole. Military leaders agree that spending on these programs is disconnected from a strategic vision and that we are at risk of wasting a vast amount of money.

General James Cartwright, former Vice Chairman of the Joint Chiefs of Staff, has argued we haven't really exercised the mental gymnastics, the intellectual capital on what is required for nuclear deterrence yet. I'm pleased that it's starting.

Other leaders from the Pentagon have also identified nuclear weapons programs as an area to make cuts. The commander of the U.S. Strategic Command, General Robert Kehler, has pointed to the unsustainability of this spending. We're not going to be able to go forward, he said, with weapons systems that cost what weapons systems cost today. A case in point is a long-range strike bomber; a case in point is the Trident submarine replacement. The list goes on.

The savings to the American taxpayer could be considerable. The long-range penetrating bomber will cost \$50 billion over the next 10 years and fills no need that isn't already filled by our existing fleet of B-52 and B-2 bombers.

Rightsizing our fleet of nuclear-armed Trident subs to eight or fewer from 12 and building no more than eight new nuclear-armed subs would save approximately \$26 billion over the next decade and help close the budget deficit and reduce Russia's incentive to maintain a large nuclear arsenal in the bargain, and we will still have a nuclear arsenal vastly superior to any other and remain a deterrent capacity second to none. Fiscal conservatives have also targeted the nuclear weapons budget as a clear area for cuts.

Senator TOM COBURN voted against the new START arms control treaty last December but now advocates spending cuts that would lower the number of nuclear weapons below new START numbers.

The point is that, far from saying we shouldn't have other nations proliferating, we should start with ourselves here. Let's start cutting back these nuclear programs. Let's take a stand that all nations should get rid of their nuclear weapons. Let's move forward to see what a world would like look like without nuclear weapons instead of just saying, well, there are some nations that shouldn't have nuclear weapons.

Mr. Speaker, how much time do I have remaining?

The SPEAKER pro tempore. The gentleman from Ohio has 9¾ minutes.

Mr. KUCINICH. I yield myself an additional 5 minutes.

One of the most troubling aspects of this legislation is, and it may be the area of the legislation that has not received much attention but it needs to have attention right now, and that is that this legislation puts this country at odds with Russia in a way that I think is actually against the interests of world peace. It goes on to call out the Russian Federation specifically with respect to saying that they're assisting these nuclear programs. This really, in a sense, is a confession of how far away we've gone from the mark of START I and START II, about how far we've gone away from that time when President Reagan met with Premier Gorbachev to talk about what we can do to start to build down these nuclear weapons.

I remember when Vladimir Putin, who is now being reviled, when Vladimir Putin made the offer to President George W. Bush to start to get rid of nuclear weapons, and, unfortunately, his efforts were rebuffed.

□ 2130

We should be engaging Russia directly on getting rid of nuclear weapons. Instead, what we have here is a restriction on payments in connection with the International Space Station. That's in here. You know, remember, the International Space Station was the centerpiece of U.S.-Russia cooperation. We held that out as proving that

we could work together on Earth as it is in heaven. We showed that that space station was a platform for cooperation and peace between Russia and the United States.

What we're doing here is we're saying in effect that all extraordinary payments in connection with the International Space Station to Russian Aviation and Space Agency, any organization or entity under the jurisdiction or control of Russian Aviation and Space Agency, would basically be restricted.

Mr. BERMAN. Will the gentleman yield just on this question?

Mr. KUCINICH. I yield to the gentleman from California.

Mr. BERMAN. I appreciate that.

Two points just on this issue: one is the language the gentleman originally read with respect to Russia was amended out of the bill in committee.

Mr. KUCINICH. Well, I thank the gentleman for pointing that out.

Mr. BERMAN. Secondly, this language with respect to funding on the Russian flights to the space station is an extension of the authority, not an elimination of the authority, to engage and provide funding for that purpose. So I understand why the gentleman said what he did, but in reality—

Mr. KUCINICH. I'm asking you, when you say this was amended out, it was amended out with respect to the citation of the Russian Federation—

Mr. BERMAN. Yes.

Mr. KUCINICH. As well as the section which spoke directly to the restrictions on the payments.

Mr. BERMAN. The restrictions on payments is an extension of time, and it also has a waiver. The first reference to Russia was eliminated from the bill.

Mr. KUCINICH. Okay. Well, I appreciate your pointing that out. But I would yield to my friend for a question.

Does this legislation, or does it not, have a reference to the International Space Station and Russia? Is there a reference to it?

Mr. BERMAN. Yes.

Mr. KUCINICH. And is there any kind of restriction being placed on Russia with respect to payments in connection with the International Space Station?

I yield to the gentleman from California.

Mr. BERMAN. There is language in the bill with respect to restrictions. There is a waiver in the bill for those restrictions, and there is an extension of non-applicability of those provisions until 2020.

Mr. KUCINICH. I would reclaim my time and respectfully suggest to my friend from California that even if you're extending the non-applicability, our friends in Russia will read this as being an attempt to try to put Russia in a position where we are forcing them to put at risk the International Space Station if in fact they wish to have a different kind of diplomacy than we have.

I reserve the balance of my time.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BERMAN. May I inquire of the Chair how much time I have.

The SPEAKER pro tempore. The gentleman from California has 4 minutes.

Mr. BERMAN. I am only going to use a moment of the time simply to address the issue that my friend from Ohio talked about with respect to sanctions.

The focus on unilateral sanctions without international support versus effective multilateral sanctions, that distinction was not made by my friend from Ohio. The fact is that this administration and this Congress, through legislation, working in coordination with the members of the Security Council, our friends in the European Union, our allies in Asia, have put together a multilateral level of sanctions that has never been seen before.

And old studies regarding the effectiveness of unilateral sanctions in terms of altering a country's behavior are not applicable in this situation because we are deeply committed to the understanding that we will estop this kind of proliferation in which we have the support of all of the countries of the world who are committed to and adhere to the nonproliferation treaty.

And I suggest with that that I should yield back the balance of my time.

Mr. KUCINICH. May I ask how much time I have left.

The SPEAKER pro tempore. The gentleman from Ohio has 4¾ minutes, and the gentlewoman from Florida has 2½ minutes.

Mr. KUCINICH. Does the gentlelady wish to close?

Ms. ROS-LEHTINEN. Yes. As I have stated before and will continue to state, I will reserve my time to close.

Mr. KUCINICH. It's time for the United States as a Nation to change its direction, to begin to see ourselves as a Nation among nations, not a Nation above nations, to begin to set aside war as an instrument of policy, to be sensitive to the power that we have so that we're not attempting to use our force in a way that would punish someone militarily who doesn't agree with us.

The underlying premise that my friends here have of nonproliferation is something I agree with, but where we depart from agreement is where we're focusing on nonproliferation among only a few countries.

I will say it again: we need a new direction in America. It's a direction where we stand for peace, not the kind of peace which is some airy-fairy notion, and not just looking at peace as the absence of war, but peace as an active presence and the capacity we have to pursue the science of human relations, and to be able to use diplomacy to get to a place where we all feel secure.

But we don't have that today. So what we do is we try to find our security through straitjacketing other nations with sanctions that inevitably are bound to fail and which inevitably turn the people of the countries who we're sanctioning against us and help to strengthen the hands of the regime that's being sanctioned.

We need to, as a Nation, take a stand for nuclear abolition once and for all. We need to, as a Nation, get rid of this idea that war is acceptable. We need to determine that we can get strength and be a strong Nation through peace. Strength through peace is the approach that we ought to be taking, have a national security strategy that involves strength through peace and let our diplomacy, let our pursuit of diplomacy guide us in taking our relations with other nations to a new level.

This isn't naive. I stood here challenging the war in Iraq, and I was right about that. And I can tell you that this Congress took a direction that wasted \$5 trillion, the lives of almost 5,000 of our troops, tens of thousands of troops injured, millions of Iraqis dead. Why don't we try diplomacy rather than sanctions? It's something that we really haven't tried, and it's time that we did.

Mr. Speaker, I yield back the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, to close on this bill, I am pleased to give our remaining time to the gentleman from California (Mr. ROYCE), who is the chairman of our Subcommittee on Foreign Affairs on Terrorism, Nonproliferation and Trade and has been a leader in this sanctions legislation for a mighty long time.

Mr. ROYCE. Mr. Speaker, last week we had a headline in the newspaper that I think underscores the importance of this legislation, and what that headline said was that North Korea is making a missile able to hit the United States.

□ 2140

Now, the reason we're concerned about Iran's activities here in proliferation is because Iran announces they want to kill us. That tends to get our attention. And as a consequence, we begin to think, what could we do to sanction their central bank in order to make it very, very difficult for them to proceed down this road?

Well, let's go back for a minute to this North Korea story, remembering already that we've seen North Korea, proliferate and attempt to give nuclear capability to Syria. We've seen North Korea proliferate to Iran and Pakistan with their missile capabilities. And the story reported that North Korea is moving ahead to build its first road mobile intercontinental ballistic missile. And of course, mobile missiles are very difficult to find. You can't locate them. They're made to be hidden.

And with these developments, the Secretary of Defense said North Korea is in the process of becoming a direct threat to the United States. That's former Secretary of Defense Gates.

No one who has closely watched North Korea is surprised by these developments. And because we haven't seriously sanctioned North Korea in the way of—I mean, we tried sanctioning the Bank of Delta Asia for a short period of time and, frankly, it worked, and then we lifted those sanctions.

I want you to think about this. Pyongyang builds a nuclear reactor in Syria, no real consequences. North Korea unveils an advanced uranium enrichment plant, no real consequences. Kim Jong-Il torpedoes a South Korean ship, no real consequences.

Fully implementing this legislation could impose costs on North Korea or on Iran. But just as with the previous legislation, the administration isn't aggressively confronting this North Korean threat.

Now, I'm going to share with you my concern over all of this. If history is a guide, we'll pass these bills, we'll take them up tomorrow. They'll pass out of the House by tremendous margins. Then we'll wait. We'll wait for the other body to act. Then the Obama administration will press for these sanctions to be scaled back, as it continues to do. And this is what happened last Congress, and my concern is that that is what happens here now. We've got to push this now.

Mr. MARKEY. Mr. Speaker, North Korea has nuclear weapons. Iran is developing nuclear weapons. Al-Qaeda wants to acquire nuclear weapons. The threat we face is very, very real.

Sanctions are important to help prevent the spread of nuclear weapons, but they are not enough. America must lead by example.

The U.S. recently signed the New START treaty, requiring reductions to our nuclear arsenal. Yet, we still plan to spend hundreds of billions of dollars on new nuclear weapons and related programs over the next decade.

Why do we allow this wasteful spending to continue? Because some Republicans in this Chamber treat the nuclear weapons budget as a sacred cow, never to be questioned or scrutinized. This is ridiculous.

Wasteful nuclear weapons spending actually harms national security. It sends the message to Iran, North Korea, and Syria that while we don't want you to have these weapons, we are not willing to make cuts ourselves. This is the wrong message to send.

You cannot argue temperance from a barstool.

The central deal in the Nuclear Nonproliferation Treaty was that the non-weapons states agreed to forgo the right to get the bomb. The weapons states in return, agreed to negotiate measures leading to disarmament.

That should be our goal, and we can take an important step in this direction by reducing unnecessary nuclear weapons spending.

The SPEAKER pro tempore. The question is on the motion offered by

the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and pass the bill, H.R. 2105, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. ROS-LEHTINEN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

#### CALLING FOR REPATRIATION OF POW/MIAS AND ABDUCTEES FROM KOREAN WAR

Ms. ROS-LEHTINEN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 376) calling for the repatriation of POW/MIAs and abductees from the Korean War, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

##### H. RES. 376

Whereas 61 years have passed since communist North Korea invaded the Republic of Korea, thereby initiating the Korean War on June 25, 1950;

Whereas during the Korean War, nearly 1.8 million members of the United States Armed Forces served in theater along with the forces of the Republic of Korea and 20 other Allied nations under the United Nations Command to defend freedom and democracy in the Korean Peninsula;

Whereas 58 years have passed after the signing of the ceasefire agreement at Panmunjom on July 27, 1953, and the peninsula still technically remains in a state of war;

Whereas talks for a peace treaty began on July 10, 1951, but were prolonged for two years due to disagreement between the United Nations and North Korea regarding the repatriation of prisoners of war (POWs);

Whereas the repatriation of Korean War POWs did not begin until September 4, 1953, at Freedom Village, Panmunjom;

Whereas the majority of surviving United Nations POWs were repatriated or turned over to the Neutral Nations Repatriation Commission in accordance with Section 3 of the Armistice Agreement, but the United Nations Command noted a significant discrepancy between the Command's estimate of POWs and the number given by North Korea;

Whereas the Defense Prisoner of War/Missing Personnel Office of the Department of Defense (DPMO) lists more than 8,000 members of the United States Armed Forces as POWs or missing in action who are unaccounted for from the Korean War, including an estimated 5,500 in North Korea;

Whereas many South Korean POWs were never reported as POWs during the negotiations, and it is estimated as many as 73,000 South Korean POWs were not repatriated;

Whereas the Joint Field Activities conducted by the United States between 1996 and 2005 yielded over 220 sets of remains that are still being processed for identification at Joint Prisoners of War, Missing in Action Accounting Command in Hawaii;

Whereas the United States recovery operations in North Korea were suspended on May 25, 2005, because of disagreements over communications facilities;

Whereas North Korea has consistently refused to discuss the POW issue, and the exact number of South Korean POWs who were detained in North Korea after the war is unknown, as is the number of those still alive in North Korea;

Whereas approximately 100,000 South Korean civilians (political leaders, public employees, lawyers, journalists, scholars, farmers, etc.) were forcibly abducted by the North Korean Army during the Korean War, but North Korea has neither admitted the abductions occurred nor accounted for or repatriated the civilians;

Whereas many young South Korean men were forcibly conscripted into the North Korean Army during the Korean War;

Whereas North Korea's abduction of South Korean civilians was carried out under a well-planned scheme to make up the shortage of North Korea's own needed manpower, and to communize South Korea;

Whereas during the Korean War Armistice Commission Conference, the United Nations Command, led by the United States, negotiated strongly to seek that South Korean civilians abducted by North Korea be exchanged for Communist POWs held by the United Nations;

Whereas North Korea persistently delayed in POW/civilian internee negotiations, refusing to acknowledge that they had committed a war crime of civilian abduction, with a result that in the armistice talks Korean War abductees were re-classified "displaced persons" and, consequently, not a single person among them has been able to return home;

Whereas the South Korean families of the civilians abducted by North Korea six decades ago have endured extreme pain and suffering due to the prolonged separation and due to the knowledge that North Korea has neither admitted that the abductions occurred nor accounted for or repatriated these civilians;

Whereas former South Korean POWs and abductees who escaped from North Korea have provided valuable and credible information on sightings of American and South Korean POWs in concentration camps;

Whereas tens of thousands of friends and families of the POW/MIAs and abductees from the Korean War, including the National Alliance of POW/MIA Families, POW/MIA Freedom Fighters, the Coalition of Families of Korean & Cold War POW/MIAs, the International Korean War Memorial Foundation POW Affairs Committee, Rolling Thunder, Inc., the Korean War Abductees Family Union, the Korea National Red Cross, World Veterans Federation, and the National Assembly of Republic of Korea, have called for full accounting of the POW/MIAs and abductees by North Korea; and

Whereas July 27, 2011, is the National Korean War Veterans Armistice Day, which is a day of remembrance and recognition of Korean War veterans and those persons who never returned home from the Korean War: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) recognizes that there are South Korean prisoners of war (POWs) and civilian abductees from the Korean War who are still alive in North Korea and want to be repatriated;

(2) takes note of the U.S.-North Korean agreement of October 20, 2011, on resuming operations to search for and recover remains

of American POW/MIAs and calls upon the United States Government to continue to explore the possibility that there could be American POW/MIAs still alive inside North Korea;

(3) recommends that the United States and South Korean Governments jointly investigate reports of sightings of American POW/MIAs;

(4) encourages North Korea to repatriate any American and South Korean POWs to their home countries to reunite with their families under the International Humanitarian Law set forth in the Geneva Convention relative to the treatment of Prisoners of War;

(5) calls upon North Korea to admit to the abduction of more than 100,000 South Korean civilians and reveal the status of the abductees; and

(6) calls upon North Korea to agree to the family reunions and immediate repatriation of the abductees under the International Humanitarian Law set forth in the Geneva Convention relative to the Protection of Civilian Persons in Time of War.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Florida (Ms. ROS-LEHTINEN) and the gentleman from California (Mr. BERMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from Florida.

##### GENERAL LEAVE

Ms. ROS-LEHTINEN. I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on this resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Florida?

There was no objection.

Ms. ROS-LEHTINEN. Mr. Speaker, I yield myself such time as I may consume.

I am so pleased to rise in strong support of House Resolution 376, calling for the repatriation of POWs, MIAs, and abductees from the Korean War. It is fitting that this resolution was introduced by one of the House's own Korean war vets, Congressman CHARLIE RANGEL. He hasn't had a bad day since.

Mr. RANGEL received a Purple Heart for the wounds he received in fighting his way out of an ambush by Chinese forces in subzero temperatures in the early months of the Korean War. Mr. RANGEL also received a Bronze Star for his valor.

Mr. RANGEL shares this with Members SAM JOHNSON, HOWARD COBLE, and JOHN CONYERS, Korean veterans all, a personal knowledge of how crucial this resolution is in addressing unresolved issues from that long ago conflict.

Another person who understands the critical importance of this resolution is the President of the Korean War Abductees Families Union, who flew almost halfway across the globe from Seoul, Korea to be here and witness the consideration of this resolution on the House floor. Ms. Lee was a mere 18-month-old baby when her father was taken away by the North Koreans, not to be seen again for the past 6 decades.

Mr. Speaker, General MacArthur, returning from the Korean front in 1951, famously told the U.S. Congress and the American people that "old soldiers never die, they just fade away." How sadly ironic that some of the old soldiers of the Korean conflict in which General MacArthur served have indeed faded away into a North Korean gulag.

But through this resolution, we clearly demonstrate that these old soldiers will not be allowed to just fade away into the fog of war. This resolution reminds us that 8,000 Americans missing in action in Korea remain unaccounted for, and that an estimated 73,000 South Korean POWs were not repatriated and were held in North Korea against their will.

In addition, approximately 100,000 South Korean citizens were forcibly abducted by North Korea during the Korean conflict.

The recent U.S.-North Korea agreement to resume the search for the remains of an estimated 5,500 U.S. soldiers lost inside North Korea is welcomed by American families, those who have endured 60 years of unresolved grief over the loss of their loved ones.

It is our hope that the procedures for payment of the cost of the MIA recovery by our Department of Defense are more transparent than the delivery of suitcases full of dollars to North Korean generals, as was done in the past.

We have also the highest respect for the Joint Prisoners of War, Missing in Action Accounting Command in Hawaii, which processes our soldiers' remains once they make that final journey home from Korea. I am certain that those who seek to identify remains are aware of Ronald Reagan's famous adage, "trust, but verify."

And this applies doubly to North Korea. Let us not forget that only a few years ago, Pyongyang provided our Japanese allies with the purported remains of a 13-year old schoolgirl abducted to North Korea many years before, which turned out to be bogus.

We do not want to see any of our POW/MIA families so cruelly tricked by North Korea. Pyongyang must come clean on its past armistice violations and war crimes by returning any remaining POW and MIA remains and abductees to their waiting loved ones.

By adopting this important resolution, the House will not only recognize the valor of those who served during the Korean War, like Mr. RANGEL before us, but will honor those who serve today on the Cold War's last frontier along the DMZ.

I strongly urge all of my colleagues to support this important resolution, and I reserve the balance of my time, Mr. Speaker.

I am pleased to rise in strong support of House Resolution 376, "Calling for the repatriation of POW/MIAs and abductees from the Korean War."

It is fitting that this resolution was introduced by one of the House's own Korean War veterans, Congressman CHARLES RANGEL.

Mr. RANGEL received a purple heart for the wounds he received in fighting his way out of a ambush by Chinese forces in subzero temperatures in the early months of the Korean War.

Mr. RANGEL also received a bronze star for his valor.

Mr. RANGEL shares with Members SAM JOHNSON, HOWARD COBLE, and JOHN CONYERS, Korean War veterans all, a personal knowledge of how crucial this resolution is in addressing unresolved issues from that long-ago conflict. Another person who understands the critical importance of this resolution is Miss Lee Mi-il, President of the Korean War Abductee Families Union, who flew almost halfway across the globe from Seoul, Korea to be here and witness the consideration of this resolution on the House Floor.

Miss Lee has spent the last decade working on the abduction issue as chronicled in a recent New York Times article.

She was a mere eighteen month-old baby when her father was taken away by the North Koreans, not to be seen again for the past six decades.

Miss Lee's 89 year-old mother is still waiting at the family home for the return of her long-missing husband.

As the North Korean famine in the mid-nineties led to a breakdown of control both inside North Korea and along the Chinese border, the world was shocked by the sudden emergence of a number of old men who wandered into China.

These were old South Korean soldiers, allies of the United States, held secretly and against their wills for decades, in violation of the Armistice, as virtual slaves in North Korean coal mines.

General MacArthur, returning from the Korean front in 1951 famously told the U.S. Congress and the American people that "old soldiers never die, they just fade away."

How sadly ironic that some of the old soldiers of that Korean conflict in which General MacArthur served have indeed faded away—into a North Korean gulag.

And so they became the forgotten old soldiers of that conflict long labeled "the forgotten war."

We must be completely assured by the continued efforts of our government and our allies that there is not one old American soldier among these South Korean POWs still captive bound in the North Korean gulag!

By this resolution we clearly demonstrate that these old soldiers will not be allowed to just fade away into the fog of war.

This resolution reminds us that 8,000 American MIAs from Korea remain unaccounted for and that an estimated 73,000 South Korean POWs were not repatriated and were held in North Korea against their wills.

In addition, approximately one hundred thousand South Korean citizens were forcibly abducted by North Korea during the Korean conflict.

This forced wartime abduction of civilians by North Korea represents a crime for which Pyongyang must both accept responsibility and make restitution, including providing for

the safe return of all surviving victims to their homes.

The recent U.S.-North Korea agreement to resume the search for the remains of an estimated 5,500 U.S. soldiers lost inside North Korea is welcomed by the American families who have endured sixty years of unresolved grief over the loss of their loved ones.

It is our hope that the procedures for payment of the costs of MIA recovery by our Department of Defense are more transparent than the delivery of suitcases full of dollars to North Korean generals as was done in the past.

We also have the highest respect for the Joint Prisoners of War, Missing in Action Accounting Command in Hawaii which processes our soldiers' remains once they make the final journey home from Korea.

I am certain that those who seek to identify remains are aware of Ronald Reagan's famous adage "trust but verify."

This applies doubly to North Korea.

Let us not forget that only a few years ago Pyongyang provided our Japanese allies with the purported remains of a thirteen year-old school girl abducted to North Korea many years before.

This girl's family faced the additional pain of being victimized by North Korea a second time when Japanese forensic experts concluded that those remains were bogus.

We do not want to see any of our POW/MIA families so cruelly tricked by North Korea!

Pyongyang must come clean on its past Armistice violations and war crimes by returning any remaining POWs, MIA remains and abductees to their waiting loved ones!

By adopting this resolution, the House will not only recognize the valor of those who served during the Korean War but will honor those who serve today on the Cold War's last frontier along the DMZ.

I strongly urge all my colleagues to support this resolution.

Mr. BERMAN. Mr. Speaker, I rise in strong support of House Resolution 376, calling for the repatriation of POWs, MIAs, and abductees from the Korean War.

I am going to yield 5 minutes to the sponsor of this legislation, the gentleman from New York (Mr. RANGEL), himself a Korean War veteran, as our chairman has mentioned, to open the debate on this issue.

□ 2150

Mr. RANGEL. Let me thank so much for the sensitivity and support that the gentlelady from Florida and chairman of this committee, for the strong support and the friendship that you've extended not only to me but to the people that you have felt their pain even though the hostilities are over, and the courtesy that Ranking Member BERMAN has given in allowing me to open the discussion on this important debate.

As most of you know, in 1950 the Communist North Koreans invaded South Korea, crossing a line that Russia and the United States had settled in what they called the 38th Parallel.

Well, you can separate a geographic area, but you cannot separate a people that have the same background, the same language, and the same culture.

Nor can you engage in a war and insist that you are not going to abide by the international obligations that even in those types of hostilities most nations abide by. We have had close to 2 million American soldiers, men and women, in Korea with allies and friends in the United Nations to stop this hostile communist unwarranted takeover of South Korea. In that war over 50,000 Americans were killed; double that number were wounded; and we had thousands of people that were just taken as prisoners of war, or they were missing in action.

There was a time that the regime in North Korea was helping the State Department and the United States in finding where these bodies are located and with some success. When you lose a loved one, at some point in time it has to come to closure, and when you know that the people could have these bodies and for evil intent not respond to the basic human needs of those who suffered so much, it seems to me that this Congress and the executive branch should insist that a part of our priorities in dealing with North Korea is that they allow and cooperate with us in finding the remains of those people who fought for this great country and because their families and their friends have suffered so much pain.

As it relates to the South Koreans, they even sacrificed more lives. They were not hostile. They were not bothering anybody when this hostility came to such an extent that the whole world, almost, condemned it. And of course the Second Infantry Division that I served in in 1950 was the first to lead the United States and face the enemy and joining with our allies we were able to drive them to the North Korean border with China.

As most of you know, the Chinese entered with hundreds of thousands of people, tens of thousands of volunteers, and we found that many lives were lost.

In the course of this, South Koreans that were not in North Korea, they were in the northern part of their country. South Koreans that were captured, South Koreans that fought, South Koreans that were professors, workmen and what-not, were captured, held hostage and the worst of all, separated from their families and friends.

As I said, you can politically separate a country. You can draw an imaginary line on the map, but the truth of the matter is that the South Koreans have suffered long enough. They have really become our friends. They have become the sentinel of democracy in this part of the world. They have become one of our strongest trading partners, and we never have to ask them for help. They're always there.

When Korea is in trouble, we will be there for them; when America is in trouble, we don't have to call on South Korea.

So I want to thank the committee members and this Congress and this Nation not to forget our friends, and especially not to forget those who still mourn those who gave up their lives for their great countries, both for South Korea and for the United States of America. And we hope that through this effort, the State Department will resume looking for the Americans who put themselves in harm's way and their families have no knowledge where they are.

We would like to thank Ms. LEE and all of the people who have come here to convince us that these families have to be reunited, and America will see that it is done. I thank you for the courtesy.

Mr. BERMAN. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of House Resolution 376, calling for the repatriation of POWs, MIAs, and abductees from the Korean War, and I yield myself as much time as I may consume.

I'd like to thank the sponsor of this legislation, the gentleman from New York, Mr. RANGEL—himself a Korean War veteran—and the Chairman of the Foreign Affairs Committee, Ms. ROS-LEHTINEN, for their leadership on this issue.

This resolution calls attention to one of the most tragic issues still lingering from the Korean War: the fate of soldiers taken prisoner during the war and missing in action, and civilian South Korean citizens abducted by North Korea.

The Defense Department lists almost 8,000 American service members from the Korean War who remain unaccounted for to this day. In my home state of California, there are 614 individuals whose final status is unknown.

For the families of those American POWs or MIAs, they must carry on their lives without the benefit of having final closure or peace.

Between 1996 and 2005, the Defense Department conducted joint field activities in both South and North Korea that resulted in the recovery of over 220 sets of remains. Recovery operations in North Korea were suspended in 2005, but recently this past October, the United States and North Korea agreed to resume operations next year to search for and recover the remains of American POWs and MIAs.

This resolution shows our solidarity with our troops who were captured or went missing during the Korean War, and affirms that we will never forget our duty to bring them home.

A second element of this resolution takes note of South Korean POWs and civilian abductees from the Korean War.

The exact number of South Korean POWs held in North Korea after the war is unknown, but it is estimated that as many as 73,000 South Korean prisoners were not repatriated to the South following the war. Some of them may still be alive in North Korea.

North Korea also abducted tens of thousands of South Korean civilians, mainly civil servants, teachers, writers, judges, and busi-

ness people during the war. North Korea has continued to deny that it abducted these civilians and that any of them may still exist, despite testimony proving otherwise.

With this resolution, the House of Representatives formally recognizes the existence of South Korean POWs and civilian abductees from the Korean War who may still be alive in North Korea and want to return to their families in the South.

We call on North Korea to admit to abducting the thousands of South Korean civilians and reveal their status. The North also should allow family reunions and immediate repatriation of the abductees under the Geneva Convention.

The United States stands with the people of South Korea in remembering these abductees from the Korean War. We must not forget their plight, and we will continue working for their reunification with their families, still scarred by the lingering pain and tragedy of war.

I urge my colleagues to support this resolution.

I yield back the balance of my time.

Ms. ROS-LEHTINEN. Mr. Speaker, for our closing speaker, I am pleased to recognize for such time as he may consume my good friend from California (Mr. ROYCE), the chairman of the Foreign Affairs Subcommittee on Terrorism, Nonproliferation, and Trade and a cosponsor of this important resolution.

Mr. ROYCE. I rise in support of this resolution.

Several of our colleagues—SAM JOHNSON, HOWARD COBLE, JOHN CONYERS, and its author CHARLIE RANGEL—bravely fought in this war and deserve our recognition tonight. Even if he hasn't had a bad day since, they deserve our recognition.

Mr. Speaker, the Korean War as we often know is called the Forgotten War, but those who fought it and our South Korean allies haven't forgotten this war. And by moving this legislation forward tonight, we're signaling that the House has not forgotten this war. And as much as anything, I believe this resolution demonstrates the shared commitment, the shared sacrifice that serves as the foundation of that U.S.-South Korea alliance.

We've all seen lots change in those six decades since our colleagues fought in that war; but with U.S. support, South Korea has transformed into a modern leading economy in the world today, but you still go north of that 38th Parallel—I've been north of that 38th Parallel—and they still live literally in darkness.

It's been more than 60 years since the start of the Korean war; and after all of that time, our Department of Defense lists more than 8,000 American servicemen as POWs who are missing in action. The number of South Koreans is estimated to be many times that because as many as 100,000 South Koreans were forcibly conscripted into the North Korean Army.

For our veterans and for their families, it is well past time for a full accounting which is what this resolution calls for.

Indeed, as this resolution states, there are still South Korean prisoners of war and civilian abductees from the Korean war who are still alive in North Korea and want to be repatriated back to the South.

For the sake of those impacted, I urge passage of this resolution.

Mr. FALEOMAVAEGA. Mr. Speaker, I rise today in support of H. Res. 376. H. Res. 376 was authored, introduced and sponsored by a true American hero—my good friend, the Honorable CHARLES RANGEL—and I am proud to be an original cosponsor.

H. Res. 376 calls for the repatriation of POW/MIAs and abductees from the Korean War, and I know this legislation is near and dear to Congressman RANGEL's heart, as was the Resolution he introduced last year to recognize the 60th anniversary of the Korean War. Last year's Resolution, which was passed by Congress and signed by the President, should have borne CHARLIE RANGEL's name, but due to back and forth between the House and Senate he did not receive the credit he deserved. I stand to credit him now.

In a black unit led mostly by white officers, acting Sergeant CHARLES RANGEL was awarded a Purple Heart and a Bronze Star for his heroic service in the Korean War, having led his comrades from behind enemy lines in circumstances few of us have ever known. I commend the Honorable CHARLES RANGEL for his valor, sacrifice and courage.

I also thank the Korean American community in Los Angeles and New York, and especially Mr. Dongsuk Kim, founder and former President of the Korean American Voters' Council; Mr. Mi-il Lee, President of the Korean War Abductees' Family Union (KWAFU); and Dr. Hong-Sik Shin for their tireless efforts in support of this Resolution. Their leadership in pushing this forward is the reason why I believe this historic Resolution will pass the House today.

On behalf of all those who served and sacrificed, I urge my colleagues to vote in favor of H. Res. 376.

Mr. HOLT. Mr. Speaker, I rise in support of this bill, and I thank the gentleman from New York, Representative RANGEL, for offering it.

Every year for decades, the Congress has appropriated millions of dollars for the Pentagon to go around the world and recover the remains of our fallen. Those involved in the effort know that theirs is a solemn and vital mission, one that everyone who serves in this House strongly supports. It makes one proud to be an American knowing that we will go to great lengths to leave no soldier behind.

Unfortunately, this laudable effort to recover the remains of those long deceased has not been matched by the same level of care and concern at the Dover Port Mortuary in recent years. I know the truth of this through a courageous constituent of mine, Lynn Smith of Frenchtown, New Jersey. Lynn's late husband, Sergeant First Class Scott Smith, was killed by an improvised explosive device in Iraq in 2006.

More than a year after Scott's body was returned home to her and his parents, Lynn dis-

covered that additional remains were subsequently recovered—then incinerated, mixed with medical waste, and dumped in a landfill in King George County, Virginia. As Lynn suspected, and as we now know, that practice was performed on the unclaimed additional remains of at least 273 other servicemembers. There were a number of other incidents of desecration or mishandling of remains that took place at Dover that were subsequently exposed by three Dover employees, who took the dangerous step of becoming whistleblowers and reporting their allegations to the Office of Special Counsel. Make no mistake—those whistleblowers are true public servants, and I thank them.

I have made it clear to Air Force officials that they must never allow this kind of outrage to happen again, and that those who retaliated against the whistleblowers should be dismissed from government service. If we can get our MIA recovery and identification process right, the same high standards must apply at Dover.

Mr. Speaker, I thank the gentleman from New York for offering this bill and I urge its swift passage.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and agree to the resolution, H. Res. 376, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

□ 2200

#### URGING TURKEY TO SAFEGUARD ITS CHRISTIAN HERITAGE

Mr. ROYCE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 306) urging the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

##### H. RES. 306

*Resolved*, That it is the sense of the House of Representatives that the Secretary of State, in all official contacts with Turkish leaders and other Turkish officials, should emphasize that Turkey should—

(1) end all forms of religious discrimination;

(2) allow the rightful church and lay owners of Christian church properties, without hindrance or restriction, to organize and administer prayer services, religious education, clerical training, appointments, and succession, religious community gatherings, social services, including ministry to the needs of the poor and infirm, and other religious activities;

(3) return to their rightful owners all Christian churches and other places of worship, monasteries, schools, hospitals, monuments, relics, holy sites, and other religious properties, including movable properties,

such as artwork, manuscripts, vestments, vessels, and other artifacts; and

(4) allow the rightful Christian church and lay owners of Christian church properties, without hindrance or restriction, to preserve, reconstruct, and repair, as they see fit, all Christian churches and other places of worship, monasteries, schools, hospitals, monuments, relics, holy sites, and other religious properties within Turkey.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. ROYCE) and the gentleman from California (Mr. BERMAN) each will control 20 minutes.

Mr. WHITFIELD. Mr. Speaker, I rise to oppose the resolution and to claim time in opposition to the resolution.

The SPEAKER pro tempore. Does the gentleman from California (Mr. BERMAN) favor the motion?

Mr. BERMAN. I do.

The SPEAKER pro tempore. On that basis the gentleman from Kentucky will control 20 minutes in opposition.

The Chair recognizes the gentleman from California (Mr. ROYCE).

Mr. ROYCE. Mr. Speaker, I yield half of my time to the gentleman from California (Mr. BERMAN) and ask unanimous consent that he may be able to control that time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

##### GENERAL LEAVE

Mr. ROYCE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on this resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. ROYCE. I yield myself such time as I may consume.

Let me begin by quoting Thomas Jefferson. He said, "In our early struggles for liberty, religious freedom could not fail to become a primary object."

Jefferson was a very smart man, and he understood that the core foundation of democracy relied on individual differences and opinions without fear of intimidation. This concept is one that we, as Americans, have benefited from since our founding. Religious freedom has played an integral part of our continued success as a country. Very sadly, this is a freedom that so many countries like Turkey still struggle to realize.

Today we are considering House Resolution 306, which I authored with Ranking Member HOWARD BERMAN, urging the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties to their rightful owners.

Unfortunately, the U.S. Commission on International Religious Freedom has had to put Turkey on its watch list for 3 straight years now. The commission reports that the Turkish Government's formal, longstanding efforts to

control religion by imposing suffocating regulations and by denying full legal status to religious institutions results in serious religious freedom violations. The government has failed to take decisive action to correct the climate of impunity against religious minorities and to make the necessary institutional reforms to reverse these conditions. Now, those are the words of the commission, itself, on this subject.

Religious tolerance has long been a problem for Turkey. Turkey has yet to remedy the desecration of the religious properties of over 2 million Armenians and Greeks and Assyrians and Syrians over the last 100 years. Until these obligations are fulfilled, religious freedom will remain illusive and, frankly, relations with the United States will suffer. Prime Minister Erdogan recently issued a decree to return confiscated church properties that were taken after 1936, but the majority of confiscated religious properties, of course, were taken prior to 1936.

We are sending a signal today that Turkey should reassess the cutoff date, and I would suggest that outside pressure and actions like we are taking here today and reports like that of the religious commission have helped with what progress we have seen to date.

The United States has a vested interest to advance religious freedom. Turkey's claims of being a secular country are not enough in dealing with the day-to-day discriminatory harassment that religious minorities face there, for actions speak louder than words. There are very few religious minorities in Turkey. These are men and women struggling to practice their faiths, and they need added protection.

So this resolution urges Turkey to end all forms of religious discrimination, to allow rightful churches to organize and train and teach and practice religious activities without hindrance or restriction, and to return church properties and relics to their rightful owners—whether they be places of worship or monasteries or schools or hospitals or holy sites or other artifacts. Lastly, this resolution allows religious minority groups to own religious properties so that they can preserve and reconstruct and repair religious properties as they see fit.

Religious freedom is a fundamental human right, so I urge the passage of House Resolution 306, which urges the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties.

I reserve the balance of my time.

Mr. WHITFIELD. Mr. Speaker, I yield myself such time as I may consume.

I have read H. Res. 306. Certainly, there is nothing in the language of this resolution that very many people would oppose. It basically says that it is the sense of the House of Representatives that the Secretary of State, in all

official contacts with Turkish leaders and other Turkish officials, should emphasize that Turkey should end all forms of religious discrimination. It then goes on from there.

Now, this resolution, in a way, reminds me of asking one, Do you still beat your children? Because whatever one answers, one is going to be condemned. So the mere fact that the resolution is being introduced would leave an objective observer with the opinion that religious freedom is being systematically denied in Turkey.

Let's just look at a few of the facts. On September 13, 2011, during a briefing on the release of the U.S. Department of State's International Religious Freedom report, Secretary Clinton praised Turkey's recent steps in enhancing religious freedom. We've also seen Turkey take serious steps in improving the climate for religious tolerance. The Turkish Government issued a decree in August that invited non-Muslims to reclaim churches and synagogues that were confiscated 75 years ago.

This was the language of Secretary Clinton: I applaud Prime Minister Erdogan's very important commitment to doing so.

In its 13th annual Report on International Religious Freedom, the U.S. Department of State also underscored Turkey's recent efforts. During the reporting period, the government took steps to improve religious freedom. Notably, the government permitted religious services to be held annually at historic Christian sites that had been turned into State museums after decades of disuse.

These positive statements have shown that Turkey has good intentions in pursuing religious freedom; and I might say that, last year, the Turkish Prime Minister issued a circular that emphasized the rights of all Turkish people, Muslim and non-Muslim, to enjoy their religious cultures and identities. Prime Minister Erdogan has urged all government institutions to act in accordance with this message.

So I think it's quite clear that, while this resolution has no binding legal effect and while it has no authority over Turkey whatsoever, we can see that Turkey is taking specific steps to ensure religious freedom in its country and that it's doing so without any prodding from the U.S.

With that, I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I rise in strong support of H. Res. 306, and I yield 3 minutes to one who has been a leader in this effort for a very long time, my colleague and neighbor from California (Mr. SCHIFF).

Mr. SCHIFF. I thank the gentleman from California for yielding and for his leadership on this important issue.

From the spring of 1915 and continuing for the next 8 years, the forces of the Ottoman Empire—police and

military—engaged in a genocide of the Armenian people living within the borders of their dying empire.

When it was over, more than 1.5 million men, women, and children had been killed in the first genocide of the 20th century. They were beaten, shot, marched to their deaths through scorching deserts or across frigid mountains and were left where they fell. Families and entire communities were destroyed as the Ottomans did everything in their power to make a people disappear.

□ 2210

But the physical near-annihilation of the Armenian people was not enough to satisfy the Turks' desire to wreak vengeance on Armenia, which was the first nation in the world to adopt Christianity as its official religion in AD 301. Their campaign against the Armenians was broader and was aimed at destroying not only the Armenian people but also their history, their culture, and their faith.

When Ottoman forces began to massacre their Armenian neighbors 95 years ago, there were nearly 2,000 Armenian churches in what is now Turkey. Fewer than 100 remain standing and fully functioning today. One of the world's oldest Christian communities has, in significant part, disappeared from its ancestral homeland.

While the Armenian genocide stands as a singular event, the persecution of the Armenians has continued and much of it centers on the Armenians' status as a Christian minority in an overwhelmingly Muslim country, where discriminatory laws are used to confiscate church property and prevent free worship. And other Christian communities, especially the Greek Orthodox, have also been the victims of Turkish intolerance.

In northern Cyprus, which was invaded by the Turkish army in 1974, churches have been left to rot, cemeteries have been desecrated or fallen into disrepair, and priests are forbidden from accessing the churches they prayed in as children.

Earlier this year, the U.S. Commission on International Religious Freedom noted in its 2011 report, "The Turkish Government continues to impose serious limitations on freedom of religion or belief, thereby threatening the continued vitality and survival of minority religious communities in Turkey."

Ours is a Nation that has prized freedom of religion. For more than two centuries, we have stood for tolerance of other faiths. And American diplomats, Members of Congress, and Presidents have consistently pressed other governments to respect and protect their minorities. This resolution is in the finest tradition of advocacy for those whose voices have been silenced. And I am proud to be an original cosponsor and to join my colleagues, especially the gentlemen from California,

Mr. ROYCE and Mr. BERMAN, the ranking member of the Foreign Affairs Committee, a friend who has been a leader on these issues throughout his years of service in the House. I urge a "yes" vote.

Mr. WHITFIELD. I reserve the balance of my time.

Mr. BERMAN. Mr. Speaker, I yield myself 2½ minutes.

The Christian communities of Turkey, once populous and prosperous, have now for many decades been victims of discrimination. The result has been a drastic decline in the Christian population. Whereas well over 2 million Christians lived in Anatolia a century ago, today there are only a few thousand, less than 1 percent of Turkey's population.

Although Christians clearly constitute no threat to the majority, the various Christian communities remain the victims of unceasing discrimination. Their churches have been desecrated, their properties confiscated, and they are denied the right to practice their religion as they see fit or to train their clergy. Through this resolution, we are asking that Turkey rectify this terrible situation.

Much of the worst damage to—and confiscation of—Christian properties was done in the earlier decades of the Turkish Republic, but it continues to some extent today. Some 3 months after the introduction of this resolution in June, Turkish Prime Minister Erdogan responded with a decree that would return a small percentage of the property confiscated from religious minorities as well as provide compensation for property that was seized and later sold. This is too little and too late. It doesn't even begin to make up for the years of loss and the damaging impact on the minority communities, but it does appear to be a step in the right direction. We will watch its implementation closely.

Meanwhile, the Turkish Government must also address the many other forms of discrimination that Christians in Turkey endure. Every church in Turkey suffers petty harassment, at a minimum, and is forced to apply to central authorities for authorization to do any type of repairs or construction, requests that often linger for months and years without government action. Moreover, Turkey recognizes certain Christian groups as legitimate but not others. If you belong to one of the unauthorized groups, such as Evangelicals, you can't even build a church.

This resolution calls on Turkey to make good on all past transgressions and allow true freedom of religion—to achieve the standards of democratic behavior to which it says, and to which I believe, it aspires. We want Turkey to allow its Christian citizens to worship exactly as they want and to allow them to train their clergy exactly as they want.

I reserve the balance of my time.

Mr. WHITFIELD. Mr. Speaker, I yield myself 4 minutes.

I might say that Turkey certainly has been a valuable ally of the United States for many years. As we all know, it is the only Muslim nation in NATO. It has been a vital partner to the United States in the war on terror in both Iraq and in Afghanistan. And just recently, Turkey agreed to host a NATO radar defense system directed toward Iran. Turkey also is becoming an increasingly important commercial partner.

But I wanted to also point out, about 3 years ago, without any input from the U.S. Congress, the Secretary of State, or anyone else in the Federal Government, the director of religious affairs in Turkey on his own initiation had one of his religious scholars of the Muslim faith spend a semester at Wesley Theological Seminary here in Washington, D.C. During that semester, there was a dialogue between members of the Christian faith and members of the Muslim faith. And during that time, there was not any finger-pointing. There was no accusing the other side of being mean-spirited or anything else, but it was simply an exchange of ideas. That was at the initiative of the directorate of religious affairs in Turkey.

I might also point out that in October, the archbishop of the Armenian Orthodox Church re-consecrated St. Giragos, an Armenian church near Lake Van in Turkey. That church has recently been renovated.

I would also say that on November 11, 2010, Turkish authorities returned a former orphanage on Princess Island to the Greek Orthodox Patriarchate following a decision by the European Court on Human Rights. On this occasion, the attorney representing the Patriarchate declared, "This marks a first in Europe. Turkey became the first country to implement a decision of the ECHR by returning the property. This should be an example for other countries."

So I think it's very clear that Turkey is moving in the right direction. They do not need to be condemned, in my view. They are a vital ally of the U.S. With that, I reserve the balance of my time.

Mr. ROYCE. I yield 2 minutes to the gentleman from California (Mr. SHERMAN).

Mr. BERMAN. Mr. Speaker, I would like to add an additional 30 seconds to the gentleman from California from my allotted time.

The SPEAKER pro tempore. The gentleman from California is recognized for 2½ minutes.

Mr. SHERMAN. Thank you.

The adoption of H. Res. 306 would add the powerful voice of the United States Congress to the defense of religious freedom for Christians in present-day

Turkey and reinforce the traditional leadership of Congress in defending freedom of faith around the world.

I want to identify myself with the comments of the gentleman from California (Mr. SCHIFF) on putting this resolution in context by noting the Armenian genocide and how that sets the stage for everything we're talking about here.

□ 2220

H. Res. 306 is urgently needed to address the destruction of Christian religious heritage as a result of the Turkish Government's theft, desecration and disregard of ancient Christian sites and churches, many of them holding great significance to Christian heritage.

The United States Commission on International Religious Freedom raises the following alarm in its 2001 report: "The Turkish Government continues to impose serious limitations on freedom of religion or belief, thereby threatening the continued vitality and survival of minority religious communities in Turkey."

Churches in Turkey have been desecrated. The adoption of H. Res. 306 would support the Christian communities within Turkey that remain vulnerable and are forced to endure restrictions on their right to practice their faith in freedom. For example, and this is just one example, of the over 2,000 Armenian churches that existed in the early 1900s, less than 100 remain standing and fully functioning today.

This resolution is supported by the co-chairs of the Armenian, Hellenic, and Human Rights Caucuses. The U.S. Commission on International Religious Freedom has for 3 years straight placed Turkey on its watch list.

In 2009, Bartholomew I, the Ecumenical Christian Orthodox Patriarch of Constantinople, appeared on CBS's "60 Minutes" and reported that Turkey's Christians were second-class citizens and that he personally felt "crucified" by a state that wanted his church to die out.

Church property is routinely confiscated through discriminatory laws. The United States Commission on Religious Freedom reported that over the previous 5 decades, the Turkish state has, using convoluted regulations and undemocratic laws, confiscated hundreds of religious minority properties, primarily those belonging to the Greek Orthodox community, as well as the Armenian Orthodox, Catholics, and Jews.

It is time to add the voice of the American Congress in an effort to make sure that Turkey meets its international responsibilities.

Mr. ROYCE. Mr. Speaker, I reserve the balance of my time to close.

Mr. WHITFIELD. Mr. Speaker, I yield myself such time as I may consume.

I may make one other comment about Turkey. We all know that with the Arab Spring and the movement toward more free governments in the Middle East, that Prime Minister Erdogan has been one of the real leaders. He has spoken up against Syria. He has spoken up against Egypt. He has spoken against Tunisia and other countries and has been a real leader in trying to bring about a measure of freedom in that area.

I might also say that the time period that has been discussed earlier, about the early 1900s, of course during World War I when a lot of these things took place, the Ottoman Empire was fighting for its existence at that time. There were a lot of atrocities that took place on both sides.

But as I said, this resolution, there is certainly not anything in this resolution for anyone to oppose; but I think we should recognize that Turkey is making great strides, that they are returning properties, that they are taking a step, as has been pointed out by Secretary of State Clinton and by the religious watch organizations and others.

Mr. BERMAN had requested that I yield some time, and I would be happy to yield time.

Mr. BERMAN. I would be very grateful if the gentleman would yield 2 minutes to my friend from New York, a distinguished member of the Foreign Affairs Committee, Mr. ENGEL.

Mr. WHITFIELD. I would be happy to yield.

The SPEAKER pro tempore. The gentleman from New York is recognized for 2 minutes.

Mr. ENGEL. I thank the gentleman from California and also the gentleman from Kentucky for yielding to me.

I rise in support of the resolution.

Mr. Speaker, I have become increasingly concerned with the direction of Turkey in the past few years. It has elected an Islamist government which has pushed the country toward Iran and into conflict with Israel. While I am relieved that Ankara is now taking a strong stand against the repression in Syria, finally, much needs to change in Turkey. In particular, Turkey, which has such a profound connection with the birth and growth of Christianity, has today expropriated church properties, harassed worshipers, and refused to grant full legal status to some Christian groups.

In fact, the U.S. Commission on International Religious Freedom placed Turkey on its watch list for the third straight year, and concluded that "the Turkish Government continues to impose serious limitations on freedom of religion or belief, thereby threatening the continued vitality and survival of religious communities in Turkey."

I, therefore, rise in strong support of H. Res. 306, which urges Turkey to re-

turn stolen Christian churches to the Armenian, Greek, Assyrian and Syriac communities and to end discrimination against surviving Christians.

Mr. WHITFIELD. Mr. Speaker, I reserve the balance of my time.

Mr. BERMAN. I am pleased to yield 2½ minutes to the gentleman from New Jersey (Mr. PALLONE), the cochair of the Armenian Caucus.

Mr. PALLONE. Thank you, Mr. BERMAN.

Mr. Speaker, I am proud to rise in support of H. Res. 306, urging the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties. As an original cosponsor of this resolution, I believe that its adoption is critically important to showing that the U.S. Congress will not remain silent while countries such as Turkey violate basic religious freedoms.

This resolution is needed because the sad reality is that minority religious communities in Turkey daily face oppressive policies propagated by the Turkish Government. The U.S. Commission on International Religious Freedom has found that the "Turkish Government's formal, long-standing efforts to control religion by imposing suffocating regulations and by denying full legal status to religious institutions results in serious religious freedom violations." The commission has recommended that the U.S. urge Turkey to comply with its international commitments regarding freedom of religion or belief, and that is exactly what this resolution does.

Now, many within Turkey today and many more have fled religious persecution over the past century, knowing the frightening consequences that religious persecution has had on Christians and their churches. Each year the Armenian Issues Caucus, which I co-chair, gathers to commemorate the Armenian genocide. Over a million Armenians were killed in the genocide over 90 years ago, but Armenians in Turkey and their churches and landmarks and cemeteries continue to be targets for Turkish persecution.

I wanted to mention to my colleague, and I respect my colleague from Kentucky a great deal, but the fact of the matter is that Turkey has never admitted that the genocide has occurred. You mentioned that during World War I there were problems on both sides. But the fact of the matter is that over 1 million Armenians were massacred and their churches and everything continue to be targets today.

The resolution further calls on Turkey to stop its oppressive policies towards the education of Greek priests and its overt attempts to pressure the Ecumenical Patriarchate to leave his home country. Can you imagine, they're asking the Patriarch of the Greek Orthodox Church to leave Turkey where he and the Patriarchate have been for, I don't know, 2,000 years.

So I really believe if you believe we should have freedom to practice your religion without interference of oppressive governments, then you should vote "yes" on this resolution. The fact of the matter is that Turkey continues to do all of these things. The suggestion I know my colleague from Kentucky has made that somehow they're doing a better job, I mean, it is just very token and there are just as many instances where they continue the oppression compared to those few where maybe they've tried.

Mr. BERMAN. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman is recognized for 1½ minutes.

Mr. BERMAN. We want Turkey to follow through on its commitment to return confiscated property of Christian communities and to provide compensation for properties that can't be recovered. We want Christian communities in Turkey to enjoy the same rights and privileges that religious minorities enjoy in this country.

□ 2230

We want Turkey to acknowledge the Armenian genocide. This is not too much to ask. In fact, that is the minimum we must ask if Turkey is ever to join the ranks of the world's fully free nations.

I commend my good friend and colleague, Mr. ROYCE, for introducing this resolution and working with me closely on this critical issue, and I urge all my colleagues to join me in supporting this resolution.

Mr. WHITFIELD. Mr. Speaker, I yield myself such time as I may consume.

I might also say that in order to ensure the future viability of the Orthodox Church, the appointment of non-Turkish citizen metropolitans to the Patriarchate's Holy Synod have been explicitly permitted in Turkey since 2004. Furthermore, in 2010, Turkey offered citizenship to metropolitans of foreign nationality who chose to apply. Additionally, issues regarding the residence permits of foreign clergy have been resolved.

I might also point out that I had mentioned earlier that the directorate of religious affairs in Turkey had made available one of the religious scholars in Turkey to conduct a seminar at Wesley Theological Seminary. I would also mention to the body that the South Korean Methodist Church has been evangelizing in parts of Turkey, and they have a church in Antakya, which is one of the early Christian church sites that is located in Turkey, one of many, and they have been practicing their religion in Antakya.

And so I would say that I don't want people to leave here with the impression that Turkey is deliberately out there trying to deny religious freedom, because that simply is not the case.

Now, maybe they have a way to go; but as I've said, there is certainly nothing in this resolution that refers to anything about a genocide. This is simply talking about religious freedom. And I wanted to simply point out the steps that Turkey has been taking and continues to take.

With that, I reserve the balance of my time.

Mr. ROYCE. In closing, Mr. Speaker, religious freedom is a foundation necessary, I believe, for any democracy. It's a freedom we here in America can enjoy, and, frankly, it is embedded so deeply in our culture that many of us tend to take these freedoms for granted. But, unfortunately, this same scenario does not exist around this globe, and I just have to tell you, Turkey has been identified on the religious freedom watch list for 3 straight years. I wish that weren't the case, but it is.

Frankly, I believe that what progress has come comes at least in part—in part—due to this type of pressure from religious freedom reports or from resolutions. The U.S. Commission on International Religious Freedom allows us to gather nonpartisan information on countries that violate these fundamental human rights. And it's my understanding that in 2008 the Government of Turkey claimed they would return confiscated properties, but out of 1,400 claims, less than 100 were approved.

Now, we have close relations with Turkey. We have common interests. And this is a friendly urging that it do more on this important issue and, frankly, one that Turkey itself has committed to improving on. But, that said, with some of the statements made here today, I have to comment on an issue of which I have some personal knowledge, or memory.

When I was a young boy, I remember very well an Armenian in our community, a very elderly Armenian, who was the sole Armenian in his village to survive the Armenian genocide. And the reason he survived was because one of his neighbors hid him. And he told me the story of the atrocities that occurred there.

Now, for our Ambassador, Henry Morgenthau, who detailed what was going on while he was Ambassador to the Ottoman Empire, this was not something that happened in theory. It was a genocide that cost a million and a half human lives. And the fact that even today Turkey does not acknowledge the existence of that Armenian genocide in the Ottoman Empire, I think, should still give us pause. When we're dealing with the remnants of the population of what was once a sizeable percentage of the population of that area, when we're dealing with a question of what remains, 1 percent Greek and Armenian heritage and ethnicity that remains in Turkey today, I think it is only proper that when we have

this kind of report that comes back to us from the U.S. Commission on International Religious Freedom, and it details the fact that for 3 years running, rather than make progress, we have seen backsliding, I think it is time for this body to take the position and send the message: Return that confiscated property to its rightful owners; allow that small minority that remains, that wants to practice their faith, allow them to practice their faith and allow them to continue in their schools so that the next generation that wishes to follow in that tradition can do so. That's the request here.

Mr. Speaker, I yield back the balance of my time.

Mr. WHITFIELD. In conclusion, I would just say and reiterate once again that, in the 13th Annual Report on International Religious Freedom, the U.S. Department of State also underscored Turkey's recent efforts during the reporting period, the government took steps, important steps, to improve religious freedom. These positive statements have replaced the status of no change in the situation regarding the religious freedom in Turkey.

With that, I yield back the balance of my time.

Mr. COHEN. Mr. Speaker, as a co-chair of the Congressional Caucus on Turkey and Turkish Americans, I rise to question the necessity for consideration of H. Res. 306, urging the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties, especially in light of recent developments undertaken by the Turkish government. The current government of Turkey has taken steps to deal with the issue of religious properties.

By amending its Law on Foundations in August 2011, Turkey's statute has been improved and expanded, providing that the "immovable properties, cemeteries and fountains" of non-Muslim religious entities—referred to as community foundations in Turkey—recorded in Turkey's 1936 Declaration, and "registered in the name of Turkish public institutions," will be returned to the entities upon request. Additionally, provisions are made for the Turkish Treasury or the Directorate General of Foundations to compensate non-Muslim entities for properties that are currently registered in the name of third parties. Accordingly, those communities for whom the law is applicable will be able to have their properties registered in their own names, or be compensated.

In addition to this great step forward, Turkey has eased its citizenship requirements for Orthodox senior clergy, and in compliance with the judgment of the European Court of Human Rights, returned to the Ecumenical Patriarchate its orphanage on the Princes' Islands.

Praising the Turkish government on September 13, 2011, Secretary of State Hillary Rodham Clinton said, "We have also seen Turkey take serious steps to improve the climate for religious tolerance. The Turkish government issued a decree in August that invited non-Muslims to reclaim churches and synagogues that were confiscated 75 years ago. I applaud Prime Minister Erdogan's very important commitment in doing so."

H. Res 306 was first introduced on June 15, 2011, and does not recognize the developments on the ground since that time, nor does it take a regional approach to these questions. If Turkey is singled out, it should be for praise regarding progress that has been made.

Mr. GRIMM. Mr. Speaker, I applaud Congressman ROYCE for introducing H. Res. 306, Urging the Republic of Turkey to Safeguard its Christian Heritage and to Return Confiscated Church Properties, and thank him for his leadership in ensuring this important legislation is considered by the full House of Representatives. As a cosponsor of this resolution I strongly support its passage and encourage my fellow members to join me in voting in favor of this bill.

While Turkey considers itself a secular democracy, in reality this is simply not the case. The United States Commission on International Religious Freedom has classified Turkey one of the world's top violators of religious freedom. Out of a population of roughly 76.8 million people, the country's religious make-up is 99 percent Muslim (mainly Sunni) and 1 percent Christian, Bahai, and Jewish.

Regulations imposed upon minority religious groups, specifically Christians who make up less than 1 percent of the nation's population, serve to deny religious equality within Turkey. For example, national identification cards have a line item that displays one's religion, and while people are allowed to omit their religion on their I.D. card, it clearly marks individuals as non-Muslim.

Despite Turkey's obligations under the Universal Declaration of Human Rights and the 1923 Treaty of Lausanne, the government has not recognized minority religious communities, such as the Ecumenical Patriarchate of the Greek Orthodox Church, as independent entities with full legal status. The Turkish government's policies go so far as to deny non-Muslim communities the rights to train religious clergy, offer religious education, and own and maintain places of worship, leading to the decline, and in some cases the virtual disappearance, of these important religious and historical communities.

Through its expropriation of church properties, continued harassment of worshippers, and refusal to grant full legal status under Turkish law to some Christian groups, the Republic of Turkey has failed to fulfill its obligation as a signatory to the Universal Declaration of Human Rights, which requires "freedom of thought, conscience, and religion."

This resolution "Urging the Republic of Turkey to Safeguard its Christian Heritage and to Return Confiscated Church Properties" calls upon the government of Turkey to end religious discrimination, cease all restrictions on gatherings for religious prayer and education, and return stolen church property. On behalf of my Greek, Cypriot and Armenian American constituents in New York's 13th Congressional district, I strongly support the passage of this important resolution and encourage my colleagues to stand against religious persecution throughout the world.

Ms. BERKLEY. Mr. Speaker, I rise today in support of H. Res. 306, urging the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties.

Sadly, this resolution is necessary in order to address the tragic destruction of Christian

religious heritage in Turkey. The U.S. Commission on International Religious Freedom (USCIRF), which has put Turkey on its "watch list" for three straight years, said earlier this year that "the Turkish government continues to impose serious limitations on freedom of religion or belief, thereby threatening the continued vitality and survival of minority religious communities in Turkey."

Churches in Turkey have been desecrated and destroyed. Just a century ago, there were over 2,000 Armenian churches in Turkey, but less than 100 remain standing and fully functioning today.

Discriminatory laws in Turkey have led to confiscation of church property. The USCIRF has reported, "Over the previous five decades, the [Turkish] state has, using convoluted regulations and undemocratic laws to confiscate hundreds of religious minority properties, primarily those belonging to the Greek Orthodox community, as well as Armenian Orthodox, Catholics, and Jews. . . . The state also has closed seminaries, denying these communities the right to train clergy."

In particular, the Turkish government has closed the Halki Theological School for over three decades, despite repeated protests from the United States and Christians from around the world. The school had been a primary training center for educating future Greek priests and Church leaders, and, as a result, its closure is having terrible effects on those of the Greek Orthodox faith.

As a Nation founded on the principles of religious liberty, we must stand up against desecration of churches in Turkey, the closing of seminaries, the intimidation of religious minorities and the confiscation of the Ecumenical Patriarch's property. I urge support for this resolution.

Ms. FOXX. Mr. Speaker, I'm thinking about why Congress is raising the issue of Christian properties in Turkey at a time when that country has already addressed these concerns. It is very unfortunate that at a time when our country is facing so many challenges, that we are focusing on an issue that should be settled internally by a foreign country. I strongly support religious freedom but this is not an appropriate issue for the United States Congress to be involved in.

Last August, while Congress was in recess, the Turkish Government took the decision to return to non-Muslim community foundations the immovable properties registered in the name of Turkish public institutions, or compensate (at market rates) those foundations if such properties are held by third parties.

Secretary Clinton publicly praised and "applauded" Turkey and Prime Minister Erdogan for this "serious step to improve the climate for religious tolerance" during a briefing on the release of State Department International Religious Freedom Report. The Report itself emphasizes Turkey's "steps to improve religious freedom." Furthermore, during the American Turkish Council 2011 Annual Conference, Secretary Clinton said: "I was particularly impressed by Prime Minister Erdogan's statement during Ramadan that property would be returned to religious minority groups, and we also hope to see other positive steps, such as reopening of the Halki Seminary."

The simple truth is that we shouldn't single out one country when we know there are simi-

lar issues throughout the world. If we're going to be involved with calling attention to the faults of one country, we are setting a dangerous precedent where the House of Representatives can be distracted by focusing on the problems existing anywhere else in the world. We need to be promoting religious freedom and tolerance all over the world and this resolution does not accomplish that goal. A better use of our time and energy would be for all of us to foster stronger bilateral relations with all of our allies.

Mr. MORAN. Mr. Speaker, as a strong supporter of religious freedom, I share the desire of many of my colleagues that our international relationships and foreign policy should reflect our values. A legacy of intolerance and violent conflict is still palpable in Turkey, decades after the upheavals and population transfers that took place as the Ottoman Empire collapsed. Greeks, Armenians, Assyrians, and others still live with this legacy, and for many decades Turkey's government failed to account for it or to take any steps to recognize it.

Yet, Turkey is undergoing profound and very hopeful changes today. The current Turkish leadership demonstrates an understanding of these changes. They are challenging entrenched, conservative orthodoxies and facing the past in ways that I believe we should encourage. That is why I cannot support the resolution before us today. It is out of step with the reality of today's Turkey, the U.S.-Turkish alliance, and the political realities in the Eastern Mediterranean.

I am concerned that H. Res. 306 would not only send the wrong signal, it would cause the deterioration of a relationship with an important ally without advancing the laudable goal of religious freedom.

The fact is, the Turkish government is moving in the right direction on this issue, and of their own accord. Prime Minister Erdogan of Turkey announced last August that his government would return hundreds of properties that were confiscated from religious minorities by the state or other parties since 1936, and would pay compensation for properties that were seized and later sold.

I don't think such a gesture should be repaid by a sense of Congress that claims that "the Republic of Turkey has been responsible for the destruction and theft of much of the Christian heritage within its borders" and which accuses our strongest Muslim ally of "official and unofficial acts of discrimination, intolerance, and intimidation." This is a government that has fought beside our soldiers in Afghanistan, and has provided training, overflight and logistical support that have been critical to the United States in Iraq.

While we debate this resolution, we can't ignore the fact that Turkey has taken important steps forward regarding civil and political rights, and is even now developing a new constitution to reflect Turkey's diverse society and its aspirations to become a more active member of the global community. This orientation should be encouraged. The resolution before us, in my view, does nothing to encourage Turkey on that path, regardless of what its backers are claiming.

Only in the last few months, Turkey has taken some very difficult and controversial

steps that support the foreign policy of the United States. Perhaps the best example, and least well-known, is in Libya. While U.S. and N.A.T.O. forces were protecting Libyan civilians from a depraved dictator, the Republic of Turkey agreed to serve as a "protecting power" on behalf of the United States. In that capacity they represented the United States in Libya, including acting as consular officers on behalf of U.S. citizens in Libya and looking after American diplomatic facilities in the country. They also fully supported our goal of protecting the Libyan opposition, and pledged financial and material support to NATO to bring about a free, democratic, secure, stable, and united Libya. Is this how we repay them?

Another example of Turkey's positive role in the Mediterranean region is their government's decision to host a U.S. radar warning system in the southeastern region of the country. This is a landmark agreement for the alliance. NATO Secretary General Anders Fogh Rasmussen called the installation a "critical contribution" to the Alliance's efforts to address the growing threat of proliferation. This effort is not inconsistent with Turkey's leadership on issues of international security—only last month Turkey hosted an important international security conference on Afghanistan, and Turkey continues to participate in military and civilian efforts in Iraq and Afghanistan.

And Turkey has also demonstrated a willingness to challenge undemocratic and despotic neighbors, despite the risk to its own economic interests. The Turkish government has imposed sanctions on the Assad regime in Syria, and erected trade barriers that will make it harder for the dictatorship to remain in place. And the Erdogan government has also distanced itself from Iran by pushing for secular, democratic governments in Egypt, Tunisia and Syria. These are not easy steps for the Turkish government to take—Iran and Syria account for much of Turkey's eastern border and a large part of its trade. But they are pushing ahead, because they share our concern for democratic values. Turkey's government is showing that there can be no real peace without moral principles.

The resolution before us seems utterly ignorant of these critical developments. I cannot support it, despite my profound wish that Turkey fully embrace the full diversity represented within its borders. Further, I would like to see the current government of Turkey—as well as the governments of Greece and Armenia—fully and fairly recognize the enduring pain that conflict and hatred have wrought in its territory. I feel that under Prime Minister Erdogan, that process of acceptance and accountability has begun. We in the United States Congress can support a process of authentic reconciliation, and we should.

Turkey is our strong ally and friend. By shoring up our friendship, we can have discussions about the shortcomings we see in our ally. But this resolution fails to meet the basic standard of an enduring alliance, and therefore must oppose it.

Mr. MEEKS. Mr. Speaker, I rise today to speak on H. Res. 306, urging the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties.

I believe that it is important for Secretary Clinton to discuss issues of religious freedom

and equality with her Turkish counterparts, but I regret that Congress often fails to acknowledge the rapidly developing situation in Turkey, where the relationship between religion and state is evolving in positive and dynamic ways.

As a devout Christian and American, I believe that all religions should be treated equally, with dignity and respect, both here in the United States and abroad, and as such, I wish the resolution before us today would have offered a more balanced perspective, acknowledging the positive steps taken by the Turkish government.

Turkey is home to many faiths, and I believe that Turks take questions and concerns about religious freedom and equality very seriously. Turks are no strangers to religious restrictions, discrimination and prejudice, which confront many of their communities abroad.

I would like to commend the government of Turkey for its recent reform of The Law on Foundations, which enables the return of or compensation for immovable properties significant to religious minority communities. Congress should also acknowledge that Turkey has preserved or restored many sites of importance to religious minorities in recent years, and we should encourage the continuation of this important work.

I applaud the Turkish government for easing restrictions on the Greek Orthodox community and the Ecumenical Patriarch, initiatives that have been welcomed by the Hellenic communities in Turkey and the United States and improved relations between Turkey and Greece.

In another example of forward movement that Congress has yet to recognize, the Armenian Orthodox Patriarch led worship services in the historic Armenian church on Akhtamar Island near Van for the first time since World War I, attended by thousands of pilgrims from Turkey and abroad.

Congress should welcome Prime Minister Erdogan's commitment to return property to religious minority communities and recognize Turkey's status as a majority Muslim, democratic, secular state where all religions are equal.

The latest International Religious Freedom Report published by the State Department lists areas where the Turkish government has made significant advances, while calling for improvements in areas such as the reopening of the Halki Seminary on the island of Heybeli.

Further improvement is always possible, and as Turkey moves forward with constitutional reform efforts, I am confident that this process will recognize religious freedom, equality and plurality as universal values that should be upheld in every corner of the world.

Mr. CONNOLLY of Virginia. Mr. Speaker, the text of House Resolution 306 could lead to false conclusions about Turkey. Make no mistake: Turkey has taken concrete steps to improve religious freedom through a series of meaningful initiatives. Moreover, Turkey is a secular, modernized NATO ally that provides indispensable military and diplomatic support to the United States and our allies. Its efforts with respect to religious inclusion are welcome and worthy of recognition.

In September, for example, Secretary Clinton praised Turkey's continued progress in enhancing religious freedom, stating:

We have also seen Turkey take serious steps to improve the climate for religious tolerance. The Turkish government issued a decree in August that invited non-Muslims to reclaim churches and synagogues that were confiscated 75 years ago. I applaud Prime Minister Erdogan's very important commitment to doing so.

Long before H. Res. 306 was introduced, the Turkish Government was enhancing religious freedom. For example:

In May 2010, the Prime Ministry issued a circular underlining that Turkey's non-Muslim citizens share with all other Turkish citizens the right to enjoy and maintain their own identities and cultures in parallel with the national identity and culture of Turkey.

The Greek Orthodox Patriarchate in Istanbul recently has been permitted to conduct masses at religiously significant venues that had been rendered museums due to disuse.

In November 2010, Turkish authorities returned a former orphanage to the Greek Orthodox Patriarchate following a decision by the European Court of Human Rights (ECHR). The attorney representing the Patriarchate declared, "This marks a first in Europe. Turkey became the first country to implement a decision of the ECHR by returning the property. This should be an example for other countries."

Since the original text of H. Res. 306 was introduced, Turkey amended its Law on Foundations to state that immovable properties, cemeteries, and fountains (of the non-Muslim community foundations registered in the name of Turkish public institutions) will be returned to the relevant non-Muslim community foundations, upon those non-Muslim foundations' request.

On a larger scale, Turkey has been an indispensable ally and friend of the United States since it joined NATO almost 60 years ago (in 1952). Given Turkey's strategic location and maintenance of the second largest military in NATO, this should come as no surprise. Currently, NATO is installing radar systems in Turkey and Romania as part of the regional anti-ballistic missile defense system. Moreover, when NATO passed Resolution 1973, which enforced a no-fly zone in Libya, Turkey helped lead a NATO-led coalition, after playing a major role in deliberations with the United States and other key allies. Turkey also had a key role in negotiating the release of four New York Times reporters who were captured during fighting in Libya.

With regard to U.S. operations in Afghanistan, Turkey:

Has made available its Konya Air Base and other airports for the deployment of aircraft and allies' cargo aircraft in support of ISAF operations.

Has deployed five Operational Mentoring and Liaison Teams (OMLT) and has also conducted in-place training of 8,000 Afghan National Army (ANA) members and training in Turkey for an additional 1,000 Afghan troops.

Turkey established two civilian-led Provincial Reconstruction Teams (PRTs) in Wardak and Jawzjan, and opened a branch of the Turkish International Cooperation Agency in Kabul, from which it runs a number of humanitarian assistance and economic development projects.

Turkey stations over 1,700 U.S. military personnel under the U.S.-Turkey Defense and

Economic Cooperation Agreement. Incirlik Air Base, which houses about 1,500 U.S. military personnel, is a transit point for 68% of air logistical support for Iraq and Afghanistan. Each year, an average of 2,000 American C-17 aircraft and an average of 1,460 KC-135 refueling tankers fly through the Turkish air base. Turkey's support is not limited to access of its air bases; its Mersin port on the Mediterranean is part of the U.S.'s supply network to Afghanistan.

In a time when several Muslim majority countries are undergoing upheaval, Turkey provides an ideal model to its neighbors. It is a secular, modern, Muslim majority state that is a significant NATO ally. In its domestic affairs, Turkey is again a model for its neighbors. According to the State Department's 13th Annual Report on Religious Freedom,

During the reporting period, the [Turkish] government took steps to improve religious freedom. Notably the government permitted religious services to be held annually in historic Christian sites that had been turned into state museums after decades of disuse.

As a friend of Turkey, the United States ought to continue to recognize Turkey's initiatives on religious freedom and encourage Turkey to continue its progress. This is what allies do.

Mr. CARNAHAN. Mr. Speaker, I rise to speak on H. Res. 306, regarding religious freedom in Turkey, a longtime friend and ally of the United States.

The value we in America place on freedom of religion goes to the very heart of American democracy, and we have a strong interest in promoting religious freedom globally. As with other indicators of democracy and human rights, nations that respect religious tolerance generally enjoy greater economic prosperity and social stability. While I support this resolution and encourage further progress on religious freedom in Turkey, I also believe we must seek to support these standards in an even-handed manner.

I would like to emphasize the importance of U.S.-Turkish relations. From Turkey's critical support in Afghanistan and elsewhere, as a uniquely positioned NATO ally and their substantial humanitarian contributions in response to famine in the Horn of Africa to Turkey's efforts in support of the Syrian people as the Assad regime's brutality intensifies, Turkey continues to be a strong partner in addressing some of the world's most vexing problems. As revolutionary calls for democratic governance sound throughout the Middle East and North Africa, we must continue to work closely with Turkey, whose position as a democratic, majority Muslim country can play a positive role in transitions in the region.

Moreover, I would like to acknowledge the positive steps that the Turkish government has taken to address issues of religious freedom and tolerance. This August, the Turkish government issued a decree inviting non-Muslims to reclaim churches and synagogues that were confiscated 75 years ago and has eased some citizenship requirements on Orthodox clergy. Unfortunately, H. Res. 306 omits recognition of these important commitments. While issues remain, particularly with regard to the Ecumenical Patriarch, I am encouraged by the efforts that have been made and hope for further progress.

As a member of the Congressional Caucus on Turkey and Turkish Americans, I look forward to the ongoing alliance between our countries.

Ms. HAHN. Mr. Speaker, I rise today in support of House Resolution 306 that the House passed earlier this week.

Wherever we see repression, wherever we see atrocities being swept under the rug, we have a moral duty to speak out. Members of NATO are no exception.

Today in Turkey, beautiful and historic Armenian churches, monuments and monasteries lie in ruins—broken not by the sands of time, but by desecration, theft and dynamite.

For too long, the U.S. has allowed Turkey to elude responsibility for the destruction of Armenian churches. With this resolution, Congress sends a stern message to Turkey's Prime Minister, Recep Erdogan—the United States will not tolerate Turkish assaults on Armenian heritage and religious freedom.

The passage of House Resolution 306 earlier this week was an important step towards justice for the Armenian people, but our work is unfinished. Until the U.S. and Turkey officially recognize the Armenian Genocide for what it was, I will continue to fight to correct the staggering injustice of soft-peddling the murder of 1.5 million men, women and children.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. ROYCE) that the House suspend the rules and agree to the resolution, H. Res. 306, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

#### MERRY CHRISTMAS FROM WELLS FARGO

(Ms. ZOE LOFGREN of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks and include extraneous material.)

Ms. ZOE LOFGREN of California. Mr. Speaker, the extraneous material is a letter I'm sending to Wells Fargo Bank about Mrs. Darlene Bowland, a 68-year-old mother fighting cancer and Wells Fargo Bank.

Darlene lived in a modest home in San Jose for 41 years until she was evicted a week before Thanksgiving. At the time, Darlene was too weak from chemotherapy to pack up her own boxes. We appealed to the bank. They knew about her cancer and her chemotherapy, but they didn't care. She owned her home free and clear at one time but was a victim of a pay loan, a way to confuse her and basically steal her home.

Mr. Speaker, Wells Fargo earned record profits last quarter, and in 2010 the CEO, John Stumpf, earned more than \$17 million in compensation. This

Christmas, Mrs. Bowland will be couch surfing with chemotherapy, while Mr. Stumpf will be enjoying his \$17 million salary and her home in San Jose stays vacant.

Merry Christmas from Wells Fargo.

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 13, 2011.

Re Ms. Darlene Bowland

Mr. JOHN G. STUMPF,

Chief Executive Officer, Wells Fargo, Montgomery St., San Francisco, CA.

DEAR MR. STUMPF: Darlene Bowland is a 68-year-old woman fighting cancer and Wells Fargo Bank. She lived alone in a modest home in San Jose, California until she was evicted by Wells Fargo Bank a week before Thanksgiving, even though she had no place else to go. Wells Fargo Bank knew all about Darlene's tragic circumstances, but apparently did not care.

Darlene lived in her home for 41 years and at one time owned it free and clear. She and her former husband raised their children there. Although Darlene lost her small cleaning business to the recession a few years ago and now struggles to make ends meet, she was proud of her house. She spent what little energy she had after her cancer treatments tending to her garden. That's where she found some measure of peace.

Not anymore.

Darlene is just one of many victims of a World Savings loan product called a "pick-a-pay" that she was tricked into and could not afford. Make no mistake. Darlene is a victim. Pick-a-pay loans were designed to trap unwary homeowners into owing more than they borrowed, assuring the banks that sold them a captive audience that would need to continually refinance or face foreclosure. These unscrupulous banks and loan brokers used the voluminous, complex and impossible to understand loan documents that make up a pick-a-pay loan to steal Darlene's house in broad daylight.

Wells Fargo was able to file an unlawful detainer and get a summary judgment that allowed them to evict Darlene, even though Darlene had sued Wells Fargo claiming she was defrauded. She was too weak from chemotherapy to pack up her own boxes.

Wells Fargo earned record profits last quarter. Your 2010 compensation was more than \$17 million. Do you know this woman with cancer is now couch-surfing because you've evicted her through foreclosure on her home just before the holidays? Instead of waking up in her house Christmas morning, Darlene's house will instead sit vacant.

Sincerely,

ZOE LOFGREN,  
Member of Congress.

#### ADJOURNMENT

Mr. ROYCE. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 o'clock and 37 minutes p.m.), under its previous order, the House adjourned until tomorrow, Wednesday, December 14, 2011, at 10 a.m. for morning-hour debate.

#### BUDGETARY EFFECTS OF PAYGO LEGISLATION

Pursuant to section 6004 of H.R. 3630 (112th Congress), Mr. RYAN (WI) is re-

quired to submit a statement in the record, prior to the vote on passage, on the budgetary and deficit effects of H.R. 3630, the Middle Class Tax Relief and Job Creation Act of 2011, for printing in the CONGRESSIONAL RECORD.

Section 6004 of H.R. 3630 provides that the Office of Management and Budget should not take into account the budgetary effects for the purposes of the Statutory Pay-As-You-Go Act (PL 111-139) if the bill would not increase the deficit for the period of fiscal years 2012 through 2021.

Section 6005 of H.R. 3630 provides that the decrease in the deficit is determined on the basis of the change in total outlays and total revenue of the Federal government, including the estimated off-budget effects, the estimated effects of the changes to the discretionary spending limits set forth in section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985, and the estimate of the change in net income to the National Flood Insurance Program, resulting from the enactment of H.R. 3630. Based on the estimates provided by the Congressional Budget Office on H.R. 3630, taking those effects into account, the legislation would reduce the deficit by \$5.833 billion for the period of fiscal years 2012 through 2021. As a result, the effects of this legislation should not be taken into account for the purposes of statutory pay-as-you-go.

#### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

4276. A letter from the Secretary of the Commission, Commodity Futures Trading Commission, transmitting the Commission's "Major" final rule — Derivatives Clearing Organization General Provisions and Core Principles (RIN: 3038-AC98) received November 29, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

4277. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Saflufenacil; Pesticide Tolerances [EPA-HQ-OPP-2010-1026; FRL-9325-2] received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

4278. A letter from the Chief Counsel, Department of Homeland Security, transmitting the Department's final rule — Final Flood Elevation Determinations [Docket ID: FEMA-2011-0002] received November 21, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

4279. A letter from the Assistant General Counsel for Regulatory Affairs, Consumer Product Safety Commission, transmitting the Commission's "Major" final rule — Testing and Labeling Pertaining to Product Certification [CPSC Docket No.: CPSC-2010-0038] received November 30, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4280. A letter from the Assistant General Counsel for Legislation, Regulations and Energy Efficiency, Department of Energy,

transmitting the Department's "Major" final rule — Energy Conservation Program: Energy Conservation Standards for Fluorescent Lamp Ballasts [Docket Number: EE-2007-BT-STD-0016] (RIN: 1904-AB50) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4281. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; Indiana; Redesignation of Lake and Porter Counties to Attainment of the Fine Particulate Matter Standard [EPA-R05-OAR-2008-0395; FRL-9499-6] received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4282. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; Ohio and Indiana; Redesignation of the Ohio and Indiana Portions Cincinnati-Hamilton Area to Attainment of the 1997 Annual Standard for Fine Particulate Matter [EPA-R05-OAR-2011-0017; EPA-R05-OAR-2011-0106; FRL-9499-7] received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4283. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Interim Final Determination To Defer Sanctions, San Joaquin Valley Unified Air Pollution Control District [EPA-R09-OAR-2011-0881; FRL-9499-4] received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4284. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Revocation of the Significant New Use Rule on a Certain Chemical Substance [EPA-HQ-OPPT-2011-0109; FRL-8892-2] (RIN: 2070-AB27) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4285. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Significant New Use Rules on Certain Chemical Substances; Withdrawal of Two Chemical Substances [EPA-HQ-OPPT-2010-1075; FRL-9329-5] (RIN: 2070-AB27) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4286. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Transportation Conformity Rule: MOVES Regional Grace Period Extension [EPA-HQ-OAR-2011-0393; FRL-9499-1] (RIN: 2060-AR03) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4287. A letter from the Director, Office of Congressional Affairs, Nuclear Regulatory Commission, transmitting the Commission's final rule — Enhancements to Emergency Preparedness Regulations [NRC-2008-0122] (RIN: 3150-AI10) received November 17, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4288. A letter from the Program Manager, Department of Health and Human Services, transmitting the Department's final rule — Privacy Act; Exempt Record System (RIN: 0906-AA91) received November 23, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

4289. A letter from the Federal Register Liaison Officer, Department of Commerce, transmitting the Department's final rule — Revision of Patent Term Adjustment Provisions Relating to Information Disclosure Statements [Docket No.: PTO-P-2011-0014] (RIN: 0651-AC56) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

4290. A letter from the Senior Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Valley City, ND [Docket No.: FAA-2011-0605; Airspace Docket No.: 11-AGL-13] received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4291. A letter from the Senior Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Nuiqsut, AK [Docket No.: FAA-2011-0759; Airspace Docket No.: 11-AAL-12] received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4292. A letter from the Federal Register Liaison Officer, Department of the Treasury, transmitting the Department's final rule — Approval of Grape Variety Names for American Wines [Docket No.: TTB-2011-0002; T.D. TTB-95; Re: Notice No. 116] (RIN: 1513-AA42) received December 5, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4293. A letter from the Federal Register Liaison Officer, Department of the Treasury, transmitting the Department's final rule — Expansions of the Russian River Valley and Northern Sonoma Viticultural Areas [Docket No.: TTB-2008-0009; T.D. TTB-97; Re: Notice Nos. 90 and 91] (RIN: 1513-AB57) received December 5, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4294. A letter from the Federal Register Liaison Officer, Department of the Treasury, transmitting the Department's final rule — Establishment of the Pine Mountain-Cloverdale Peak Viticultural Area [Docket No.: TTB-2010-0003; T.D. TTB-96; Notice Nos. 105, 107, and 112] (RIN: 1513-AB41) received December 5, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4295. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — Treasury Inflation-Protected Securities Issued at a Premium [TD 9561] (RIN: 1545-BK46) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4296. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — 2011 Base Period T-Bill Rate (Rev. Rul. 2011-30) received December 2, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

## REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BISHOP of Utah: Committee on Rules. House Resolution 493. Resolution providing for consideration of the conference report to accompany the bill (H.R. 1540) to authorize

appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; and providing for proceedings during the period from December 16, 2011, through January 16, 2012 (Rept. 112-330). Referred to the House Calendar.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. GRIJALVA (for himself and Mr. ELLISON):

H.R. 3638. A bill to create American jobs and reduce the deficit, and for other purposes; to the Committee on Ways and Means, and in addition to the Committees on Education and the Workforce, Natural Resources, Agriculture, the Judiciary, Science, Space, and Technology, Energy and Commerce, Oversight and Government Reform, Small Business, Transportation and Infrastructure, Financial Services, Veterans' Affairs, the Budget, Armed Services, and Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. NUGENT:

H.R. 3639. A bill to amend the Ethics in Government Act of 1978 to require federally elected officials to place their stocks, bonds, commodities futures, and other forms of securities in a blind trust; to the Committee on Oversight and Government Reform, and in addition to the Committee on House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. DENHAM (for himself and Mr. FARR):

H.R. 3640. A bill to authorize the Secretary of the Interior to acquire not more than 18 acres of land and interests in land in Mariposa, California, and for other purposes; to the Committee on Natural Resources.

By Mr. FARR (for himself and Mr. DENHAM):

H.R. 3641. A bill to establish Pinnacles National Park in the State of California as a unit of the National Park System, and for other purposes; to the Committee on Natural Resources.

By Ms. EDDIE BERNICE JOHNSON of Texas (for herself and Ms. EDWARDS):

H.R. 3642. A bill to amend the National Institute of Standards and Technology Act to require the Director of the National Institute of Standards and Technology to document operational requirements, assist with national voluntary consensus standards, and conduct technology research to advance a nationwide interoperable public safety broadband network, and for other purposes; to the Committee on Science, Space, and Technology, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. COOPER:

H.R. 3643. A bill to provide that Members of Congress may not receive pay after October

1 of any fiscal year in which Congress has not approved a concurrent resolution on the budget and passed the regular appropriations bills; to the Committee on House Administration.

By Mr. GARRETT (for himself, Mr. BACHUS, Mr. HENSARLING, Mr. SCHWEIKERT, Mr. NEUGEBAUER, Mrs. BIGGERT, and Mrs. CAPITO):

H.R. 3644. A bill to increase standardization, transparency, and to ensure the rule of law in the mortgage-backed security system, and for other purposes; to the Committee on Financial Services.

By Ms. SUTTON (for herself, Mr. LIPINSKI, Mr. JONES, Mr. HASTINGS of Florida, Mr. ANDREWS, Ms. KAPTUR, Mr. RYAN of Ohio, Mr. COURTNEY, Mr. YARMUTH, Mr. MURPHY of Connecticut, Mr. HOLDEN, Mr. CRITZ, and Mr. GENE GREEN of Texas):

H.R. 3645. A bill to require consideration of the impacts of a public interest waiver from the Buy America requirement on domestic manufacturing employment for certain transportation provisions; to the Committee on Transportation and Infrastructure.

By Ms. SUTTON (for herself, Mr. TURNER of Ohio, Mr. CONYERS, Ms. LINDA T. SANCHEZ of California, Ms. ZOE LOFGREN of California, Mr. RYAN of Ohio, Mr. LIPINSKI, Mr. STARK, Mr. JONES, Mr. MICHAUD, Mr. ISRAEL, Mr. PETERS, Mr. HASTINGS of Florida, Mr. COURTNEY, Mr. ANDREWS, Ms. KAPTUR, Mr. JOHNSON of Georgia, Mr. HOLDEN, Mr. YARMUTH, Mr. MURPHY of Connecticut, Mr. CRITZ, Ms. SCHAKOWSKY, Mr. GENE GREEN of Texas, and Mr. SARBANES):

H.R. 3646. A bill to require foreign manufacturers of products imported into the United States to establish registered agents in the United States who are authorized to accept service of process against such manufacturers, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committees on Ways and Means, and Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. SUTTON (for herself, Mr. LIPINSKI, Mr. HASTINGS of Florida, Ms. KAPTUR, Mr. RYAN of Ohio, Mr. HOLDEN, Mr. MURPHY of Connecticut, Mr. YARMUTH, Mr. ANDREWS, Mr. CRITZ, and Mr. GENE GREEN of Texas):

H.R. 3647. A bill to improve transparency and accountability in the waiver process of the Buy America requirement for certain transportation provisions; to the Committee on Transportation and Infrastructure.

By Mr. BISHOP of New York (for himself and Mr. LANDRY):

H.R. 3648. A bill to amend the Water Resources Development Act of 1986 to ensure that annual expenditures from the Harbor Maintenance Trust Fund to pay for operation and maintenance costs are allocated equitably among eligible harbor projects, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. BACA:

H.R. 3649. A bill to expand the Officer Next Door and Teacher Next Door initiatives of the Department of Housing and Urban Development to include fire fighters and rescue personnel, and for other purposes; to the Committee on Financial Services.

By Ms. JACKSON LEE of Texas:

H.R. 3650. A bill to prohibit institutions of higher education and nonprofit organizations

that fail to report incidents of sexual abuse of a minor from receiving Federal funds, and for other purposes; to the Committee on Education and the Workforce.

By Mr. BARROW:

H.R. 3651. A bill to amend the Truth in Lending Act to exempt certain creditors from the escrow account requirement for higher-priced mortgage loans, and for other purposes; to the Committee on Financial Services.

By Mr. DESJARLAIS:

H.R. 3652. A bill to amend the Food and Nutrition Act of 2008 to repeal the authority to make performance-based bonus payments to States; to the Committee on Agriculture.

By Mr. DOGGETT (for himself, Mr. CROWLEY, Mr. LEWIS of Georgia, Mr. STARK, Mr. MCDERMOTT, Mr. BLUMENAUER, Mr. PASCRELL, Mr. NEAL, Mr. RANGEL, and Mr. BECERRA):

H.R. 3653. A bill to establish a commission to develop a national strategy and recommendations for reducing fatalities resulting from child abuse and neglect; to the Committee on Education and the Workforce.

By Ms. HOCHUL:

H.R. 3654. A bill to adopt technology allowing 9-1-1 call centers to receive and respond to emergency text messages, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ROYCE (for himself, Mr. CANSECO, Mr. JONES, Mr. PAUL, Mr. HENSARLING, and Mrs. BACHMANN):

H.R. 3655. A bill to amend the Sarbanes-Oxley Act of 2002 to provide additional exemptions from the internal control auditing requirements for smaller and newer public companies; to the Committee on Financial Services.

By Mr. SESSIONS:

H.R. 3656. A bill to amend the Internal Revenue Code of 1986 to provide for death and disability protection for loans from qualified employer plans; to the Committee on Ways and Means, and in addition to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. TERRY (for himself, Mr. BARTON of Texas, and Mr. BURGESS):

H.R. 3657. A bill to clarify the authority of the Chairman of the Nuclear Regulatory Commission to act on behalf of the Commission during emergencies, and for other purposes; to the Committee on Energy and Commerce.

By Mr. DOLD (for himself, Mr. FRANK of Massachusetts, Mr. GARDNER, and Mr. HUIZENGA of Michigan):

H. Res. 494. A resolution expressing support for designation of the first Tuesday in June as National Cancer Survivor Beauty and Support Day; to the Committee on Oversight and Government Reform.

#### CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. GRIJALVA:

H.R. 3638.

Congress has the power to enact this legislation pursuant to the following:  
U.S. Const. art. I, §§1 and 8.

By Mr. NUGENT:

H.R. 3639.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 5 of the United States Constitution, which sets the rules for how Congress operates.

By Mr. DENHAM:

H.R. 3640.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, Clause 1

The Court invoked "the great power of taxation to be exercised for the common defence and general welfare" to sustain the right of the Federal Government to acquire land within a state for use as a national park. [160 U.S. at 681]

By Mr. FARR:

H.R. 3641.

Congress has the power to enact this legislation pursuant to the following:

Art. I, Sec. 8 U.S. Constitution

By Ms. EDDIE BERNICE JOHNSON of Texas:

H.R. 3642.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the Constitution of the United States.

By Mr. COOPER:

H.R. 3643.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 6 of the Constitution of the United States.

By Mr. GARRETT:

H.R. 3644.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3 grants Congress the power "To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes." Additionally, Article I, Section 8, Clause 18 grants Congress the authority "To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof"

By Ms. SUTTON:

H.R. 3645.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Ms. SUTTON:

H.R. 3646.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Ms. SUTTON:

H.R. 3647.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution.

By Mr. BISHOP of New York:

H.R. 3648.

Congress has the power to enact this legislation pursuant to the following:

Article I, Sec. 8, Clause 3

By Mr. BACA:

H.R. 3649.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3.

By Ms. JACKSON LEE of Texas:

H.R. 3650.

Congress has the power to enact this legislation pursuant to the following:

Commerce Clause of the Constitution Article I Sec. 8.

By Mr. BARROW:

H.R. 3651.

Congress has the power to enact this legislation pursuant to the following:

Article I Section 8 Clause 3, the Commerce Clause.

By Mr. DESJARLAIS:

H.R. 3652.

Congress has the power to enact this legislation pursuant to the following:

The constitutional authority on which this bill rests is the power of Congress to make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, as enumerated in Article I, Section 8, Clause 18 of the United States Constitution.

By Mr. DOGGETT:

H.R. 3653.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the Constitution that grants Congress the authority, "To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof."

By Ms. HOCHUL:

H.R. 3654.

Congress has the power to enact this legislation pursuant to the following:

The power of the Congress to provide for the general welfare, to regulate commerce, and to make all laws which shall be necessary and proper for carrying into execution Federal powers, as enumerated in section 8 of article I of the Constitution of the United States.

By Mr. ROYCE:

H.R. 3655.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, clause 3

By Mr. SESSIONS:

H.R. 3656.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, clause 3

By Mr. TERRY:

H.R. 3657.

Congress has the power to enact this legislation pursuant to the following:

Commerce Clause: Article 1, Section 8, Clause 3

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 85: Ms. LEE of California.

H.R. 104: Mr. GOHMERT.

H.R. 181: Ms. CHU.

H.R. 191: Mr. LANGEVIN.

H.R. 210: Mr. CLARKE of Michigan.

H.R. 365: Mr. BERMAN.

H.R. 396: Mr. BILIRAKIS.

H.R. 469: Ms. MATSUI and Mr. GONZALEZ.

H.R. 502: Ms. HIRONO.

H.R. 616: Mr. POLIS.

H.R. 724: Ms. CHU.

H.R. 733: Mr. SERRANO.

H.R. 780: Ms. BALDWIN.

H.R. 835: Mr. WELCH, Mr. ROE of Tennessee, Mr. MICHAUD, Mr. PAULSEN, Mr. HOLDEN, and Mr. CLEAVER.

H.R. 883: Mr. GONZALEZ.

H.R. 920: Mr. GRAVES of Georgia.

H.R. 942: Mr. POSEY.

H.R. 1148: Mr. CARNAHAN, Mr. LATHAM, Mr. BERMAN, Ms. BORDALLO, Mr. UPTON, Mr. WILSON of South Carolina, Mr. RUNYAN, Ms. DEGETTE, Mr. GARDNER, and Ms. BUERKLE.

H.R. 1171: Mr. FALCOMA and Mr. KUCINICH.

H.R. 1193: Mr. BILIRAKIS.

H.R. 1206: Mr. WEST.

H.R. 1219: Mr. GONZALEZ and Mr. RUNYAN.

H.R. 1221: Mr. DEFAZIO.

H.R. 1234: Ms. TSONGAS.

H.R. 1259: Mr. YOUNG of Alaska.

H.R. 1288: Mr. LIPINSKI and Ms. BASS of California.

H.R. 1364: Mr. JOHNSON of Illinois.

H.R. 1370: Mr. BILBRAY, Mr. GRIMM, Mr. GERLACH, Mr. SCALISE, and Mrs. MILLER of Michigan.

H.R. 1385: Mr. LIPINSKI.

H.R. 1386: Ms. SPEIER.

H.R. 1418: Ms. BROWN of Florida and Mr. PASCRELL.

H.R. 1426: Mr. KEATING, Mr. OWENS, and Ms. HAYWORTH.

H.R. 1440: Mr. POLIS.

H.R. 1463: Mr. ENGEL.

H.R. 1498: Mr. THOMPSON of California.

H.R. 1499: Mrs. HARTZLER and Mr. RUPERSBERGER.

H.R. 1513: Mr. YARMUTH, Mr. CLEAVER, Mr. MICHAUD, Mr. BUCHANAN, Ms. LORETTA SANCHEZ of California, Mr. MARKEY, Mr. SCOTT of Virginia, and Mr. BECERRA.

H.R. 1546: Mr. THORNBERRY.

H.R. 1558: Mr. BOUSTANY and Mr. SMITH of Texas.

H.R. 1639: Mr. FLEISCHMANN and Mr. GARDNER.

H.R. 1654: Mr. RIBBLE.

H.R. 1681: Mr. BACA.

H.R. 1687: Mr. TURNER of New York and Ms. ROS-LEHTINEN.

H.R. 1697: Ms. BROWN of Florida and Mr. LANDRY.

H.R. 1704: Mr. SHERMAN and Mrs. LOWEY.

H.R. 1834: Mrs. ROBY.

H.R. 1848: Mr. POMPEO.

H.R. 1865: Mr. BOUSTANY.

H.R. 1878: Mr. CLEAVER.

H.R. 1897: Mr. HASTINGS of Florida, Mr. COOPER, and Mr. RUPERSBERGER.

H.R. 1903: Mr. SCOTT of Virginia.

H.R. 1905: Mr. BOUSTANY, Mr. SHIMKUS, Mr. HINOJOSA, Mr. BACHUS, Mr. TURNER of Ohio, and Mr. YOUNG of Indiana.

H.R. 1936: Ms. JENKINS and Mr. TOWNS.

H.R. 1964: Mr. DOLD.

H.R. 2001: Mr. STIVERS and Mr. AMODEI.

H.R. 2041: Mr. POMPEO.

H.R. 2069: Mr. OWENS and Mr. ROONEY.

H.R. 2071: Mr. BERG and Mr. PAULSEN.

H.R. 2105: Mr. POMPEO, Mr. GRIFFIN of Arkansas, Mr. LAMBORN, Mr. DUNCAN of South Carolina, Mr. ROGERS of Michigan, Mr. YOUNG of Indiana, Mr. ADERHOLT, Mrs. McMORRIS RODGERS, Mrs. SCHMIDT, Mr. PENCE, Mr. DOLD, Mr. COFFMAN of Colorado, Mr. MURPHY of Pennsylvania, Mr. MARCHANT, and Mr. TURNER of Ohio.

H.R. 2106: Mr. MCCOTTER.

H.R. 2182: Mrs. McMORRIS RODGERS.

H.R. 2288: Mr. LANGEVIN.

H.R. 2310: Mr. BACA.

H.R. 2335: Mr. SULLIVAN.

H.R. 2376: Ms. WOOLSEY.

H.R. 2412: Mrs. MCCARTHY of New York.

H.R. 2414: Mr. SULLIVAN.

H.R. 2453: Mr. CALVERT, Mr. CARTER, Ms. GRANGER, Mr. CANSECO, Mr. LUCAS, Mr. FINCHER, Mr. CRAWFORD, Mr. PRICE of Georgia, Mr. SENSENBRENNER, Mr. RYAN of Wisconsin, Mrs. McMORRIS RODGERS, Mr. DIAZ-BALART, Mr. MICA, Mr. SCOTT of South Carolina, Mr. POMPEO, Mr. HALL, Mr. KUCINICH, Mr. DANIEL E. LUNGREN of California, Mrs. SCHMIDT, Mr. WALBERG, Mr. HULTGREN, Mr. JOHNSON of Illinois, Mr. WILSON of South Carolina, Mr. REICHERT, Mr. FORBES, Mr. TURNER of Ohio, Mr. TIBERI, Mr. BERG, Mr. SULLIVAN, Mr. SAM JOHNSON of Texas, Mr. SCALISE, Mr. ROKITA, Mr. KELLY, Mr. BARLETTA, Mr. MARINO, Mr. SOUTHERLAND, Mr. MARCHANT, Mr. ROONEY, Mr. WEST, Mr. BONNER, Mr. HUNTER, Mr. SCHILLING, Mr. BILIRAKIS, Mr. POSEY, Mr. ROSS of Florida, Mr. BUCHANAN, Mr. GOHMERT, Mr. WITTMAN, Mr. SMITH of Nebraska, Mr. LATHAM, Mr. HARPER, Mr. BROOKS, Mr. DOLD, Mr. BARTLETT, Mr. DUNCAN of Tennessee, Ms. ROS-LEHTINEN, Mrs. ELLMERS, Mr. GERLACH, Mr. PLATTS, Mr. GOSAR, Mr. BURTON of Indiana, Mr. UPTON, Mr. BISHOP of Utah, Mr. BILBRAY, Mr. LATTA, Mr. TIPTON, Mr. SESSIONS, Mrs. LUMMIS, Mr. AUSTRIA, Mr. SHULER, Mr. WOODALL, Mr. DUNCAN of South Carolina, Mr. SHIMKUS, Mr. WEBSTER, Mr. PEARCE, Mr. HECK, Mr. LEWIS of California, and Mr. GALLEGLY.

#### DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H.R. 3521: Mr. HONDA.

#### AMENDMENTS

Under clause 8 of rule XVIII, proposed amendments were submitted as follows:

H.R. 3630

OFFERED BY: MR. LEVIN

AMENDMENT NO. 1: Strike all after the enacting clause and insert the following:

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Middle Class Fairness and Putting America Back To Work Act of 2011.”

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

Sec. 2. Paygo scorecard estimates.

#### DIVISION A—TAX, HEALTH, TANF, UI, AND OCO PROVISIONS

##### TITLE I—TAX PROVISIONS

Sec. 101. Temporary extension and expansion of employee payroll tax relief.

Sec. 102. Extension of allowance for bonus depreciation for certain business assets.

Sec. 103. Surtax on millionaires.

##### TITLE II—HEALTH AND TANF PROVISIONS

###### Subtitle A—Health

Sec. 201. Repeal of SGR; 10-year freeze in physician payment rates.

Sec. 202. Extension of MMA section 508 reclassifications.

Sec. 203. Extension of Medicare work geographic adjustment floor.

Sec. 204. Extension of exceptions process for Medicare therapy caps.

Sec. 205. Extension of payment for technical component of certain physician pathology services.

Sec. 206. Extension of ambulance add-ons.

Sec. 207. Extension of physician fee schedule mental health add-on payment.

Sec. 208. Extension of outpatient hold harmless provision.

Sec. 209. Extending minimum payment for bone mass measurement.

Sec. 210. Extension of the qualifying individual (QI) program.

Sec. 211. Extension of Transitional Medical Assistance (TMA).

###### Subtitle B—Extension of TANF Program Through Fiscal Year 2012

Sec. 221. Short title.

Sec. 222. Extension of program.

##### TITLE III—EXTENSION OF UNEMPLOYMENT PROGRAMS

Sec. 301. Short title.

Sec. 302. Temporary extension of unemployment insurance provisions.

Sec. 303. Modification of indicators under the extended benefit program.

Sec. 304. Additional extended unemployment benefits under the Railroad Unemployment Insurance Act.

Sec. 305. Emergency designations.

##### TITLE IV—SAVINGS FROM OVERSEAS CONTINGENCY OPERATIONS

Sec. 401. Overseas contingency and related activities.

##### DIVISION B—WIRELESS INNOVATION AND PUBLIC SAFETY ACT OF 2011

Sec. 1001. Short title.

Sec. 1002. Definitions.

Sec. 1003. Rule of construction.

Sec. 1004. Enforcement.

##### TITLE I—ALLOCATION AND ASSIGNMENT OF PUBLIC SAFETY BROADBAND SPECTRUM

Sec. 1101. Reallocation of 700 MHz D block spectrum for public safety use.

Sec. 1102. Assignment of license to Corporation.

Sec. 1103. Ensuring efficient and flexible use of 700 MHz public safety narrowband spectrum.

Sec. 1104. Sharing of public safety broadband spectrum and network.

Sec. 1105. Commission rules.

Sec. 1106. FCC report on efficient use of public safety spectrum.

##### TITLE II—ADVANCED PUBLIC SAFETY COMMUNICATIONS

###### Subtitle A—Public Safety Broadband Network

Sec. 1201. Establishment and operation of Public Safety Broadband Corporation.

Sec. 1202. Public safety broadband network.

Sec. 1203. Program Management Office.

Sec. 1204. Representation before standards setting entities.

Sec. 1205. GAO report on satellite broadband.

Sec. 1206. Access to Federal supply schedules.

Sec. 1207. Federal infrastructure sharing.

Sec. 1208. Initial funding for Corporation.

Sec. 1209. Permanent self-funding of Corporation and duty to collect certain fees.

###### Subtitle B—State, Local, and Tribal Planning and Implementation

Sec. 1211. State, Local, and Tribal Planning and Implementation Fund.

Sec. 1212. State, local, and tribal planning and implementation grant program.

Sec. 1213. Public safety wireless facilities deployment.

###### Subtitle C—Public Safety Communications Research and Development

Sec. 1221. NIST-directed public safety wireless communications research and development.

###### Subtitle D—Next Generation 9-1-1 Services

Sec. 1231. Definitions.

Sec. 1232. Coordination of 9-1-1 implementation.

Sec. 1233. Requirements for multi-line telephone systems.

Sec. 1234. GAO study of State and local use of 9-1-1 service charges.

Sec. 1235. Parity of protection for provision or use of next generation 9-1-1 service.

Sec. 1236. Commission proceeding on autodialing.

Sec. 1237. NHTSA report on costs for requirements and specifications of Next Generation 9-1-1 services.

Sec. 1238. FCC recommendations for legal and statutory framework for Next Generation 9-1-1 services.

##### TITLE III—SPECTRUM AUCTION AUTHORITY

Sec. 1301. Deadlines for auction of certain spectrum.

Sec. 1302. Incentive auction authority.

##### TITLE IV—PUBLIC SAFETY TRUST FUND

Sec. 1401. Public Safety Trust Fund.

##### TITLE V—SPECTRUM POLICY

Sec. 1501. Spectrum inventory.

Sec. 1502. Federal spectrum planning.

Sec. 1503. Reallocating Federal spectrum for commercial purposes and Federal spectrum sharing.

Sec. 1504. Study on spectrum efficiency through receiver standards.

Sec. 1505. Study on unlicensed use in the 5 GHz band.

Sec. 1506. Report on availability of wireless equipment for the 700 MHz band.

##### SEC. 2. PAYGO SCORECARD ESTIMATES.

(a) BUDGETARY EFFECTS.—Neither scorecard maintained by the Office of Management and Budget pursuant to section 4(d) of

the Statutory Pay-As-You-Go Act of 2010 (2 U.S.C. 933) shall include the budgetary effects of this Act if such budgetary effects do not increase the deficit for any applicable period as determined by the estimate submitted for printing in the Congressional Record pursuant to section 4(d) of such Act.

(b) DEFICIT.—The increase or decrease in the deficit in the estimate submitted for printing referred to in subsection (a) shall be determined on the basis of—

(1) the change in total outlays and total revenue of the Federal Government, including off-budget effects, that would result from this Act; and

(2) the estimate of the effects of the changes to the discretionary spending limits set forth in section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985 in this Act.

## **DIVISION A—TAX, HEALTH, TANF, UI, AND OCO PROVISIONS**

### **TITLE I—TAX PROVISIONS**

#### **SEC. 101. TEMPORARY EXTENSION AND EXPANSION OF EMPLOYEE PAYROLL TAX RELIEF.**

(a) EXTENSION.—Section 601(c) of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (26 U.S.C. 1401 note) is amended by striking “year 2011” and inserting “years 2011 and 2012”.

(b) INCREASED RELIEF.—

(1) IN GENERAL.—Subsection (a) of section 601 of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (26 U.S.C. 1401 note) is amended—

(A) by inserting “(9.3 percent for calendar year 2012)” after “10.40 percent” in paragraph (1), and

(B) in paragraph (2)—

(i) by striking “(including)” and inserting “(3.1 percent in the case of calendar year 2012), including” after “4.2 percent”, and

(ii) by striking “Code)” and inserting “Code”.

(2) COORDINATION WITH INDIVIDUAL DEDUCTION FOR EMPLOYMENT TAXES.—Subparagraph (A) of section 601(b)(2) of such Act is amended by inserting “(66.67 percent for taxable years which begin in 2012)” after “59.6 percent”.

(c) TECHNICAL AMENDMENTS.—Paragraph (2) of section 601(b) of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (26 U.S.C. 1401 note) is amended—

(1) by inserting “of such Code” after “164(f)”,

(2) by inserting “of such Code” after “1401(a)” in subparagraph (A), and

(3) by inserting “of such Code” after “1401(b)” in subparagraph (B).

#### **SEC. 102. EXTENSION OF ALLOWANCE FOR BONUS DEPRECIATION FOR CERTAIN BUSINESS ASSETS.**

(a) EXTENSION OF 100 PERCENT BONUS DEPRECIATION.—

(1) IN GENERAL.—Paragraph (5) of section 168(k) of the Internal Revenue Code of 1986 is amended—

(A) by striking “January 1, 2012” each place it appears and inserting “January 1, 2013”, and

(B) by striking “January 1, 2013” and inserting “January 1, 2014”.

(2) CONFORMING AMENDMENTS.—

(A) The heading for paragraph (5) of section 168(k) of such Code is amended by striking “PRE-2012 PERIODS” and inserting “PRE-2013 PERIODS”.

(B) Clause (ii) of section 460(c)(6)(B) of such Code is amended to read as follows:

“(ii) is placed in service—

“(I) after December 31, 2009, and before January 1, 2011 (January 1, 2012, in the case of property described in section 168(k)(2)(B)), or

“(II) after December 31, 2011, and before January 1, 2013 (January 1, 2014, in the case of property described in section 168(k)(2)(B)).”.

(3) EFFECTIVE DATE.—The amendments made by this subsection shall apply to property placed in service after December 31, 2011.

(b) EXPANSION OF ELECTION TO ACCELERATE AMT CREDITS IN LIEU OF BONUS DEPRECIATION.—

(1) IN GENERAL.—Paragraph (4) of section 168(k) of such Code is amended to read as follows:

“(4) ELECTION TO ACCELERATE AMT CREDITS IN LIEU OF BONUS DEPRECIATION.—

“(A) IN GENERAL.—If a corporation elects to have this paragraph apply for any taxable year—

“(i) paragraph (1) shall not apply to any eligible qualified property placed in service by the taxpayer in such taxable year,

“(ii) the applicable depreciation method used under this section with respect to such property shall be the straight line method, and

“(iii) the limitation imposed by section 53(c) for such taxable year shall be increased by the bonus depreciation amount which is determined for such taxable year under subparagraph (B).

“(B) BONUS DEPRECIATION AMOUNT.—For purposes of this paragraph—

“(i) IN GENERAL.—The bonus depreciation amount for any taxable year is an amount equal to 20 percent of the excess (if any) of—

“(I) the aggregate amount of depreciation which would be allowed under this section for eligible qualified property placed in service by the taxpayer during such taxable year if paragraph (1) applied to all such property, over

“(II) the aggregate amount of depreciation which would be allowed under this section for eligible qualified property placed in service by the taxpayer during such taxable year if paragraph (1) did not apply to any such property.

The aggregate amounts determined under subclauses (I) and (II) shall be determined without regard to any election made under subsection (b)(2)(D), (b)(3)(D), or (g)(7) and without regard to subparagraph (A)(ii).

“(ii) LIMITATION.—The bonus depreciation amount for any taxable year shall not exceed the lesser of—

“(I) the minimum tax credit under section 53(b) for such taxable year determined by taking into account only the adjusted minimum tax for taxable years ending before January 1, 2012 (determined by treating credits as allowed on a first-in, first-out basis), or

“(II) 50 percent of the minimum tax credit under section 53(b) for the first taxable year ending after December 31, 2011.

“(iii) AGGREGATION RULE.—All corporations which are treated as a single employer under section 52(a) shall be treated—

“(I) as 1 taxpayer for purposes of this paragraph, and

“(II) as having elected the application of this paragraph if any such corporation so elects.

“(C) ELIGIBLE QUALIFIED PROPERTY.—For purposes of this paragraph, the term ‘eligible qualified property’ means qualified property under paragraph (2), except that in applying paragraph (2) for purposes of this paragraph—

“(i) ‘March 31, 2008’ shall be substituted for ‘December 31, 2007’ each place it appears in subparagraph (A) and clauses (i) and (ii) of subparagraph (E) thereof,

“(ii) ‘April 1, 2008’ shall be substituted for ‘January 1, 2008’ in subparagraph (A)(iii)(I) thereof, and

“(iii) only adjusted basis attributable to manufacture, construction, or production—

“(I) after March 31, 2008, and before January 1, 2010, and

“(II) after December 31, 2010, and before January 1, 2013, shall be taken into account under subparagraph (B)(ii) thereof.

“(D) CREDIT REFUNDABLE.—For purposes of section 6401(b), the aggregate increase in the credits allowable under part IV of subchapter A for any taxable year resulting from the application of this paragraph shall be treated as allowed under subpart C of such part (and not any other subpart).

“(E) OTHER RULES.—

“(i) ELECTION.—Any election under this paragraph may be revoked only with the consent of the Secretary.

“(ii) PARTNERSHIPS WITH ELECTING PARTNERS.—In the case of a corporation making an election under subparagraph (A) and which is a partner in a partnership, for purposes of determining such corporation’s distributive share of partnership items under section 702—

“(I) paragraph (1) shall not apply to any eligible qualified property, and

“(II) the applicable depreciation method used under this section with respect to such property shall be the straight line method.

“(iii) CERTAIN PARTNERSHIPS.—In the case of a partnership in which more than 50 percent of the capital and profits interests are owned (directly or indirectly) at all times during the taxable year by one corporation (or by corporations treated as 1 taxpayer under subparagraph (B)(iii)), each partner shall be treated as having an amount equal to such partner’s allocable share of the eligible property for such taxable year (as determined under regulations prescribed by the Secretary).

“(iv) SPECIAL RULE FOR PASSENGER AIRCRAFT.—In the case of any passenger aircraft, the written binding contract limitation under paragraph (2)(A)(iii)(I) shall not apply for purposes of subparagraphs (B)(i)(I) and (C).”.

(2) EFFECTIVE DATE.—The amendment made by this subsection shall apply to taxable years ending after December 31, 2011.

(3) TRANSITIONAL RULE.—In the case of a taxable year beginning before January 1, 2012, and ending after December 31, 2011, the bonus depreciation amount determined under paragraph (4) of section 168(k) of Internal Revenue Code of 1986 for such year shall be the sum of—

(A) such amount determined under such paragraph as in effect on the date before the date of enactment of this Act taking into account only property placed in service before January 1, 2012, and

(B) such amount determined under such paragraph as amended by this Act taking into account only property placed in service after December 31, 2011.

#### **SEC. 103. SURTAX ON MILLIONAIRES.**

(a) IN GENERAL.—Subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new part:

### **“PART VIII—SURTAX ON MILLIONAIRES**

“Sec. 59B. Surtax on millionaires.

**“SEC. 59B. SURTAX ON MILLIONAIRES.**

“(a) GENERAL RULE.—In the case of a taxpayer other than a corporation for any taxable year beginning after 2012 and before 2022, there is hereby imposed (in addition to any other tax imposed by this subtitle) a tax equal to 2.4 percent of so much of the modified adjusted gross income of the taxpayer for such taxable year as exceeds the threshold amount.

“(b) THRESHOLD AMOUNT.—For purposes of this section—

“(1) IN GENERAL.—The threshold amount is \$1,000,000.

“(2) INFLATION ADJUSTMENT.—

“(A) IN GENERAL.—In the case of any taxable year beginning after 2013, the \$1,000,000 amount under paragraph (1) shall be increased by an amount equal to—

“(i) such dollar amount, multiplied by

“(ii) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined by substituting ‘calendar year 2011’ for ‘calendar year 1992’ in subparagraph (B) thereof.

“(B) ROUNDING.—If any amount as adjusted under paragraph (1) is not a multiple of \$10,000, such amount shall be rounded to the next highest multiple of \$10,000.

“(3) MARRIED FILING SEPARATELY.—In the case of a married individual filing separately for any taxable year, the threshold amount shall be one-half of the amount otherwise in effect under this subsection for the taxable year.

“(c) MODIFIED ADJUSTED GROSS INCOME.—For purposes of this section, the term ‘modified adjusted gross income’ means adjusted gross income reduced by any deduction (not taken into account in determining adjusted gross income) allowed for investment interest (as defined in section 163(d)). In the case of an estate or trust, adjusted gross income shall be determined as provided in section 67(e).

“(d) SPECIAL RULES.—

“(1) NONRESIDENT ALIEN.—In the case of a nonresident alien individual, only amounts taken into account in connection with the tax imposed under section 871(b) shall be taken into account under this section.

“(2) CITIZENS AND RESIDENTS LIVING ABROAD.—The dollar amount in effect under subsection (a) shall be decreased by the excess of—

“(A) the amounts excluded from the taxpayer’s gross income under section 911, over

“(B) the amounts of any deductions or exclusions disallowed under section 911(d)(6) with respect to the amounts described in subparagraph (A).

“(3) CHARITABLE TRUSTS.—Subsection (a) shall not apply to a trust all the unexpired interests in which are devoted to one or more of the purposes described in section 170(c)(2)(B).

“(4) NOT TREATED AS TAX IMPOSED BY THIS CHAPTER FOR CERTAIN PURPOSES.—The tax imposed under this section shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.”

(b) CLERICAL AMENDMENT.—The table of parts for subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new item:

“PART VIII. SURTAX ON MILLIONAIRES.”.

(c) SECTION 15 NOT TO APPLY.—The amendment made by subsection (a) shall not be treated as a change in a rate of tax for purposes of section 15 of the Internal Revenue Code of 1986.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2012.

## **TITLE II—HEALTH AND TANF PROVISIONS**

### **Subtitle A—Health**

#### **SEC. 201. REPEAL OF SGR; 10-YEAR FREEZE IN PHYSICIAN PAYMENT RATES.**

(a) SUNSET OF THE MEDICARE SUSTAINABLE GROWTH RATE (SGR) FORMULA.—Section 1848(f) of the Social Security Act (42 U.S.C. 1395w-4(f)) is amended—

(1) in paragraph (1)(B), by inserting “(ending with 2011)” after “each succeeding year”; and

(2) in paragraph (2), by inserting “and ending with 2011” after “beginning with 2000” in the matter preceding subparagraph (A).

(b) 10-YEAR FREEZE IN RATES.—Section 1848(d) of the Social Security Act (42 U.S.C. 1395w-4(d)) is amended by adding at the end the following new paragraph:

“(13) UPDATES FOR 2012 THROUGH 2021.—In lieu of the update to the single conversion factor established in paragraph (1)(C) that would otherwise apply for a year beginning with 2012 and ending with 2021, the update to the single conversion factor shall be zero percent.”

(c) TREATMENT IN OUT-YEARS.—Section 1848(d) of such Act is further amended by adding at the end the following new paragraph:

“(14) UPDATES FOR YEARS BEGINNING WITH 2022.—In lieu of the update to the single conversion factor established in paragraph (1)(C) that would otherwise apply for a year beginning with 2022, the update to the single conversion factor shall be 1 plus the Secretary’s estimate of the percentage increase in the MEI (as defined in section 1842(i)(3)) for the year (divided by 100).”

#### **SEC. 202. EXTENSION OF MMA SECTION 508 RECLASSIFICATIONS.**

(a) IN GENERAL.—Section 106(a) of division B of the Tax Relief and Health Care Act of 2006 (42 U.S.C. 1395 note), as amended by section 117 of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (Public Law 110-173), section 124 of the Medicare Improvements for Patients and Providers Act of 2008 (Public Law 110-275), sections 3137(a) and 10317 of the Patient Protection and Affordable Care Act (Public Law 111-148), and section 102(a) of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended by striking “September 30, 2011” and inserting “September 30, 2013”.

(b) SPECIAL RULE FOR FISCAL YEAR 2012.—

(1) IN GENERAL.—Subject to paragraph (2), for purposes of implementation of the amendment made by subsection (a), including for purposes of the implementation of paragraph (2) of section 117(a) of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (Public Law 110-173), during fiscal year 2012, the Secretary of Health and Human Services shall use the hospital wage index that was promulgated by the Secretary of Health and Human Services in the Federal Register on August 18, 2011 (76 Fed. Reg. 51476), and any subsequent corrections.

(2) EXCEPTION.—Beginning on April 1, 2012, in determining the wage index applicable to hospitals that qualify for wage index reclassification, the Secretary shall include the average hourly wage data of hospitals whose reclassification was extended pursuant to the amendment made by subsection (a) only if including such data results in a higher applicable reclassified wage index. Any revision to hospital wage indexes made as a result of this paragraph shall not be effected in a budget neutral manner.

(c) ADJUSTMENT FOR CERTAIN HOSPITALS IN FISCAL YEAR 2012.—

(1) IN GENERAL.—In the case of a subsection (d) hospital (as defined in subsection (d)(1)(B) of section 1886 of the Social Security Act (42 U.S.C. 1395ww)) with respect to which—

(A) a reclassification of its wage index for purposes of such section was extended pursuant to the amendment made by subsection (a); and

(B) the wage index applicable for such hospital for the period beginning on October 1, 2011, and ending on March 31, 2012, was lower than for the period beginning on April 1, 2012, and ending on September 30, 2012, by reason of the application of subsection (b)(2); the Secretary shall pay such hospital an additional payment that reflects the difference between the wage index for such periods.

(2) TIMEFRAME FOR PAYMENTS.—The Secretary shall make payments required under paragraph (1) by not later than December 31, 2012.

#### **SEC. 203. EXTENSION OF MEDICARE WORK GEOGRAPHIC ADJUSTMENT FLOOR.**

Section 1848(e)(1)(E) of the Social Security Act (42 U.S.C. 1395w-4(e)(1)(E)) is amended by striking “before January 1, 2012” and inserting “before January 1, 2014”.

#### **SEC. 204. EXTENSION OF EXCEPTIONS PROCESS FOR MEDICARE THERAPY CAPS.**

(a) APPLICATION OF ADDITIONAL REQUIREMENTS.—Section 1833(g)(5) of the Social Security Act (42 U.S.C. 1395l(g)(5)) is amended—

(1) by inserting “(A)” after “(5)”; and

(2) by striking “December 31, 2011” and inserting “December 31, 2013”;

(3) in the first sentence, by inserting “and if the requirement of subparagraph (B) is met” after “medically necessary”;

(4) in the second sentence, by inserting “made in accordance with such requirement” after “receipt of the request”; and

(5) by adding at the end the following new subparagraphs:

“(B) In the case of outpatient therapy services for which an exception is requested under the first sentence of subparagraph (A), the claim for such services contains an appropriate modifier (such as the KX modifier used as of the date of the enactment of this subparagraph) indicating that such services are medically necessary as justified by appropriate documentation in the medical record involved.

“(C)(i) In applying this paragraph with respect to a request for an exception with respect to expenses that would be incurred for outpatient therapy services that would exceed the threshold described in clause (ii) for a year, the request for such an exception, for services furnished on or after July 1, 2012, shall be subject to a manual medical review process that is similar to the manual medical review process used for certain exceptions under this paragraph in 2006.

“(ii) The threshold under this clause for a year is \$3,700. Such threshold shall be applied separately—

“(I) for physical therapy services and speech-language pathology services; and

“(II) for occupational therapy services.”.

(b) REQUIREMENT FOR INCLUSION ON CLAIMS OF NPI OF PHYSICIAN WHO REVIEWS THERAPY PLAN.—Section 1842(t) of such Act (42 U.S.C. 1395u(t)) is amended—

(1) by inserting “(1)” after “(t)”; and

(2) by adding at the end the following new paragraph:

“(2) Each request for payment, or bill submitted, for therapy services described in paragraph (1) or (3) of section 1833(g) furnished on or after July 1, 2012, for which payment may be made under this part shall include the national provider identifier of the physician who periodically reviews the plan for such services under section 1861(p)(2).”.

(c) **IMPLEMENTATION.**—The Secretary of Health and Human Services shall implement such claims processing edits and issue such guidance as may be necessary to implement the amendments made by this section in a timely manner. Notwithstanding any other provision of law, the Secretary may implement the amendments made by this section by program instruction.

(d) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall apply to services furnished on or after January 1, 2012.

(e) **COLLECTION OF ADDITIONAL DATA.**—

(1) **STRATEGY.**—The Secretary of Health and Human Services shall implement, beginning on January 1, 2013, a claims-based data collection strategy that is designed to assist in reforming the Medicare payment system for outpatient therapy services subject to the limitations of section 1833(g) of the Social Security Act. Such strategy shall be designed to provide for the collection of data on patient function during the course of therapy services in order to better understand patient condition and outcomes.

(2) **CONSULTATION.**—In proposing and implementing such strategy, the Secretary shall consult with relevant stakeholders.

**SEC. 205. EXTENSION OF PAYMENT FOR TECHNICAL COMPONENT OF CERTAIN PHYSICIAN PATHOLOGY SERVICES.**

Section 542(c) of the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (as enacted into law by section 1(a)(6) of Public Law 106-554), as amended by section 732 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (42 U.S.C. 1395w-4 note), section 104 of division B of the Tax Relief and Health Care Act of 2006 (42 U.S.C. 1395w-4 note), section 104 of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (Public Law 110-173), section 136 of the Medicare Improvements for Patients and Providers Act of 2008 (Public Law 110-275), section 3104 of the Patient Protection and Affordable Care Act (Public Law 111-148), and section 105 of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended by striking “and 2011” and inserting “2011, 2012, and 2013”.

**SEC. 206. EXTENSION OF AMBULANCE ADD-ONS.**

(a) **GROUND AMBULANCE.**—Section 1834(l)(13)(A) of the Social Security Act (42 U.S.C. 1395m(l)(13)(A)) is amended—

(1) in the matter preceding clause (i), by striking “2012” and inserting “2014”; and

(2) in each of clauses (i) and (ii), by striking “January 1, 2012” and inserting “January 1, 2014” each place it appears.

(b) **AIR AMBULANCE.**—Section 146(b)(1) of the Medicare Improvements for Patients and Providers Act of 2008 (Public Law 110-275), as amended by sections 3105(b) and 10311(b) of Public Law 111-148 and section 106(b) of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended by striking “December 31, 2011” and inserting “December 31, 2013”.

(c) **SUPER RURAL AMBULANCE.**—Section 1834(l)(12)(A) of the Social Security Act (42 U.S.C. 1395m(l)(12)(A)) is amended by striking “2012” and inserting “2014”.

**SEC. 207. EXTENSION OF PHYSICIAN FEE SCHEDULE MENTAL HEALTH ADD-ON PAYMENT.**

Section 138(a)(1) of the Medicare Improvements for Patients and Providers Act of 2008 (Public Law 110-275), as amended by section 3107 of the Patient Protection and Affordable Care Act (Public Law 111-148) and section 107 of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended by striking “December 31, 2011” and inserting “December 31, 2013”.

**SEC. 208. EXTENSION OF OUTPATIENT HOLD HARMLESS PROVISION.**

Section 1833(t)(7)(D)(i) of the Social Security Act (42 U.S.C. 1395l(t)(7)(D)(i)), as amended by section 3121(a) of the Patient Protection and Affordable Care Act (Public Law 111-148) and section 108 of the Medicare and Medicaid Extenders Act of 2010 (Public Law 111-309), is amended—

(1) in subclause (II)—

(A) in the first sentence, by striking “2012” and inserting “2014”; and

(B) in the second sentence, by striking “or 2011” and inserting “2011, 2012, or 2013”; and

(2) in subclause (III)—

(A) in the first sentence, by striking “2009, and” and all that follows through “for which” and inserting “2009, and before January 1, 2014, for which”; and

(B) in the second sentence, by striking “2010, and” and all that follows through “the preceding” and inserting “2010, and before January 1, 2014, the preceding”.

**SEC. 209. EXTENDING MINIMUM PAYMENT FOR BONE MASS MEASUREMENT.**

(a) **IN GENERAL.**—Section 1848 of the Social Security Act (42 U.S.C. 1395w-4) is amended—

(1) in subsection (b)—

(A) in paragraph (4)(B), by striking “for 2010 and 2011” and inserting “for each of 2010 through 2013”; and

(B) in paragraph (6)—

(i) in the matter preceding subparagraph (A), by striking “and 2011” and inserting “, 2011, 2012, and 2013”; and

(ii) in subparagraph (C), by striking “and 2011” and inserting “, 2011, 2012, and 2013”; and

(2) in subsection (c)(2)(B)(iv)(IV), by striking “or 2011” and inserting “, 2011, 2012, or 2013”.

(b) **IMPLEMENTATION.**—Notwithstanding any other provision of law, the Secretary may implement the amendments made by subsection (a) by program instruction or otherwise.

**SEC. 210. EXTENSION OF THE QUALIFYING INDIVIDUAL (QI) PROGRAM.**

(a) **EXTENSION.**—Section 1902(a)(10)(E)(iv) of the Social Security Act (42 U.S.C. 1396a(a)(10)(E)(iv)) is amended by striking “December 2011” and inserting “December 2013”.

(b) **EXTENDING TOTAL AMOUNT AVAILABLE FOR ALLOCATION.**—Section 1933(g) of such Act (42 U.S.C. 1396u-3(g)) is amended—

(1) in paragraph (2)—

(A) by striking “and” at the end of subparagraph (O);

(B) in subparagraph (P), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following new subparagraphs:

“(Q) for the period that begins on January 1, 2012, and ends on September 30, 2012, the total allocation amount is \$450,000,000;

“(R) for the period that begins on October 1, 2012, and ends on December 31, 2012, the total allocation amount is \$280,000,000;

“(S) for the period that begins on January 1, 2013, and ends on September 30, 2013, the total allocation amount is \$550,000,000; and

“(T) for the period that begins on October 1, 2013, and ends on December 31, 2013, the total allocation amount is \$300,000,000.”; and

(2) in paragraph (3), in the matter preceding subparagraph (A), by striking “or (P)” and inserting “(P), (R), or (T)”.

**SEC. 211. EXTENSION OF TRANSITIONAL MEDICAL ASSISTANCE (TMA).**

Sections 1902(e)(1)(B) and 1925(f) of the Social Security Act (42 U.S.C. 1396a(e)(1)(B), 1396r-6(f)) are each amended by striking “De-

cember 31, 2011” and inserting “December 31, 2013”.

**Subtitle B—Extension of TANF Program Through Fiscal Year 2012**

**SEC. 221. SHORT TITLE.**

This subtitle may be cited as the “TANF Continuation Act of 2011”.

**SEC. 222. EXTENSION OF PROGRAM.**

(a) **FAMILY ASSISTANCE GRANTS.**—Section 403(a)(1) of the Social Security Act (42 U.S.C. 603(a)(1)) is amended—

(1) in subparagraph (A), by striking “each of fiscal years 1996” and all that follows through “2003” and inserting “fiscal year 2012”; and

(2) in subparagraph (B)—

(A) by inserting “(as in effect just before the enactment of the TANF Continuation Act of 2011)” after “this paragraph” the 1st place it appears; and

(B) by inserting “(as so in effect)” after “this paragraph” the 2nd place it appears; and

(3) in subparagraph (C), by striking “2003” and inserting “2012”.

(b) **HEALTHY MARRIAGE PROMOTION AND RESPONSIBLE FATHERHOOD GRANTS.**—Section 403(a)(2)(D) of such Act (42 U.S.C. 603(a)(2)(D)) is amended by striking “2011” and inserting “2012”.

(c) **SUPPLEMENTAL GRANTS FOR POPULATION INCREASES IN CERTAIN STATES.**—Section 403(a)(3)(H) of such Act (42 U.S.C. 603(a)(3)(H)) is amended—

(1) in clause (i), by striking “each of fiscal years 2002 and 2003” and inserting “fiscal year 2012”; and

(2) by striking clause (ii) and inserting the following:

“(ii) subparagraph (G) shall be applied as if ‘fiscal year 2012’ were substituted for ‘fiscal year 2001’; and”;

(3) in clause (iii), by striking “each of” and all that follows and inserting “fiscal year 2012 such sums as are necessary for grants under this subparagraph in a total amount not to exceed \$319,000,000.”.

(d) **MAINTENANCE OF EFFORT REQUIREMENT.**—Section 409(a)(7) of such Act (42 U.S.C. 609(a)(7)) is amended—

(1) in subparagraph (A), by striking “fiscal year” and all that follows through “2013” and inserting “a fiscal year”; and

(2) in subparagraph (B)(ii)—

(A) by striking “for fiscal years 1997 through 2012.”; and

(B) by striking “407(a) for the fiscal year,” and inserting “407(a).”.

(e) **TRIBAL GRANTS.**—Section 412(a) of such Act (42 U.S.C. 612(a)) is amended in each of paragraphs (1)(A) and (2)(A) by striking “each of fiscal years 1997” and all that follows through “2003” and inserting “fiscal year 2012”.

(f) **STUDIES AND DEMONSTRATIONS.**—Section 413(h)(1) of such Act (42 U.S.C. 613(h)(1)) is amended by striking “each of fiscal years 1997 through 2002” and inserting “fiscal year 2012”.

(g) **CENSUS BUREAU STUDY.**—Section 414(b) of such Act (42 U.S.C. 614(b)) is amended by striking “each of fiscal years 1996” and all that follows through “2003” and inserting “fiscal year 2012”.

(h) **CHILD CARE ENTITLEMENT.**—Section 418(a)(3) of such Act (42 U.S.C. 618(a)(3)) is amended by striking “appropriated” and all that follows and inserting “appropriated \$2,917,000,000 for fiscal year 2012.”.

(i) **GRANTS TO TERRITORIES.**—Section 1108(b)(2) of such Act (42 U.S.C. 1308(b)(2)) is amended by striking “for fiscal years 1997 through 2003” and inserting “fiscal year 2012”.

(j) PREVENTION OF DUPLICATE APPROPRIATIONS FOR FISCAL YEAR 2012.—Expenditures made pursuant to the Short-Term TANF Extension Act (Public Law 112-35) or section 403(b) of the Social Security Act for fiscal year 2012 shall be charged to the applicable appropriation or authorization provided by the amendments made by this section for such fiscal year.

(k) EFFECTIVE DATE.—This section and the amendments made by this section shall take effect on the date of the enactment of this Act.

### TITLE III—EXTENSION OF UNEMPLOYMENT PROGRAMS

#### SEC. 301. SHORT TITLE.

This title may be cited as the “Emergency Unemployment Compensation Extension Act of 2011”.

#### SEC. 302. TEMPORARY EXTENSION OF UNEMPLOYMENT INSURANCE PROVISIONS.

(a) IN GENERAL.—(1) Section 4007 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended—

(A) by striking “January 3, 2012” each place it appears and inserting “January 3, 2013”;

(B) in the heading for subsection (b)(2), by striking “JANUARY 3, 2012” and inserting “JANUARY 3, 2013”; and

(C) in subsection (b)(3), by striking “June 9, 2012” and inserting “June 8, 2013”.

(2) Section 2005 of the Assistance for Unemployed Workers and Struggling Families Act, as contained in Public Law 111-5 (26 U.S.C. 3304 note; 123 Stat. 444), is amended—

(A) by striking “January 4, 2012” each place it appears and inserting “January 4, 2013”; and

(B) in subsection (c), by striking “June 11, 2012” and inserting “June 11, 2013”.

(3) Section 5 of the Unemployment Compensation Extension Act of 2008 (Public Law 110-449; 26 U.S.C. 3304 note) is amended by striking “June 10, 2012” and inserting “June 10, 2013”.

(b) FUNDING.—Section 4004(e)(1) of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended—

(1) in subparagraph (F), by striking “and” at the end; and

(2) by inserting after subparagraph (G) the following:

“(H) the amendments made by section 302(a)(1) of the Emergency Unemployment Compensation Extension Act of 2011; and”.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the enactment of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (Public Law 111-312).

#### SEC. 303. MODIFICATION OF INDICATORS UNDER THE EXTENDED BENEFIT PROGRAM.

(a) EXTENSION.—Section 203 of the Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) is amended—

(1) in subsection (d), by striking “December 31, 2011” and inserting “December 31, 2012”; and

(2) in subsection (f)(2), by striking “December 31, 2011” and inserting “December 31, 2012”.

(b) INDICATOR.—Section 203(d) of the Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) is amended by adding at the end the following: “Effective with respect to compensation for weeks of unemployment beginning on or after January 1, 2012 (or, if later, the date established pursuant to State law) and ending

on or before December 31, 2012, the State may by statute, regulation, or other issuance having the force and effect of law provide that the determination of whether there has been a State ‘on’ or ‘off’ indicator beginning or ending any extended benefit period shall be made under this subsection, disregarding subparagraph (A) of paragraph (1) and as if paragraph (2) had been amended by striking ‘either subparagraph (A) or’.”.

(c) ALTERNATIVE TRIGGER.—Section 203(f) of the Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) is amended—

(1) by redesignating paragraph (3) as paragraph (4); and

(2) by inserting after paragraph (2) the following:

“(3) Effective with respect to compensation for weeks of unemployment beginning on or after January 1, 2012 (or, if later, the date established pursuant to State law) and ending on or before December 31, 2012, the State may by statute, regulation, or other issuance with the force and effect of law provide that the determination of whether there has been a State ‘on’ or ‘off’ indicator beginning or ending any extended benefit period shall be made under this subsection, disregarding clause (ii) of paragraph (1)(A) and as if paragraph (1)(B) had been amended by striking ‘either the requirements of clause (i) or (ii)’ and inserting ‘the requirements of clause (i)’.”.

#### SEC. 304. ADDITIONAL EXTENDED UNEMPLOYMENT BENEFITS UNDER THE RAILROAD UNEMPLOYMENT INSURANCE ACT.

(a) EXTENSION.—Section 2(c)(2)(D)(iii) of the Railroad Unemployment Insurance Act, as added by section 2006 of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) and as amended by section 9 of the Worker, Homeownership, and Business Assistance Act of 2009 (Public Law 111-92) and section 505 of the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (Public Law 111-312), is amended—

(1) by striking “June 30, 2011” and inserting “June 30, 2012”; and

(2) by striking “December 31, 2011” and inserting “December 31, 2012”.

(b) CLARIFICATION ON AUTHORITY TO USE FUNDS.—Funds appropriated under either the first or second sentence of clause (iv) of section 2(c)(2)(D) of the Railroad Unemployment Insurance Act shall be available to cover the cost of additional extended unemployment benefits provided under such section 2(c)(2)(D) by reason of the amendments made by subsection (a) as well as to cover the cost of such benefits provided under such section 2(c)(2)(D), as in effect on the day before the date of the enactment of this Act.

#### SEC. 305. EMERGENCY DESIGNATIONS.

(a) STATUTORY PAYGO.—This title is designated as an emergency requirement pursuant to section 4(g) of the Statutory Pay-As-You-Go Act of 2010 (Public Law 111-139; 2 U.S.C. 933(g)).

(b) SENATE.—In the Senate, this title is designated as an emergency requirement pursuant to section 403(a) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

(c) HOUSE OF REPRESENTATIVES.—In the House of Representatives, every provision of this title is expressly designated as an emergency for purposes of cut-go principles.

### TITLE IV—SAVINGS FROM OVERSEAS CONTINGENCY OPERATIONS

#### SEC. 401. OVERSEAS CONTINGENCY AND RELATED ACTIVITIES.

(a) IN GENERAL.—Section 251(b)(2) of the Balanced Budget and Emergency Deficit

Control Act of 1985 (2 U.S.C. 901(b)(2)) is amended by adding at the end the following new subparagraph:

“(E) OVERSEAS CONTINGENCY AND RELATED ACTIVITIES.—

“(i) CAP ADJUSTMENT.—If a bill or joint resolution making appropriations for a fiscal year is enacted that specifies an amount for overseas contingency and related activities for that fiscal year after taking into account any other bills or joint resolutions enacted for that fiscal year that specify an amount for overseas contingency and related activities, but do not exceed in the aggregate the amounts specified in clause (ii), then the adjustments for that fiscal year shall be the additional new budget authority provided in that Act for such activities for that fiscal year.

“(ii) LEVELS.—The levels for overseas contingency and related activities specified in this subparagraph are as follows:

“(I) For fiscal year 2013, \$83,000,000,000 in budget authority.

“(II) For fiscal year 2014, \$50,000,000,000 in budget authority.

“(III) For fiscal year 2015, \$50,000,000,000 in budget authority.

“(IV) For fiscal year 2016, \$50,000,000,000 in budget authority.

“(V) For fiscal year 2017, \$50,000,000,000 in budget authority.

“(VI) For fiscal year 2018, \$50,000,000,000 in budget authority.

“(VII) For fiscal year 2019, \$50,000,000,000 in budget authority.

“(VIII) For fiscal year 2020, \$50,000,000,000 in budget authority.

“(IX) For fiscal year 2021, \$50,000,000,000 in budget authority.”.

(b) BREACH.—Section 251(a)(2) of such Act (2 U.S.C. 901(a)(2)) is amended to read as follows:

“(2) ELIMINATING A BREACH.—

“(A) IN GENERAL.—Each non-exempt account within a category shall be reduced by a dollar amount calculated by multiplying the enacted level of sequesterable budgetary resources in that account by the uniform percentage necessary to eliminate a breach within that category.

“(B) OVERSEAS CONTINGENCIES.—Any amount of budget authority for overseas contingency operations and related activities for fiscal years 2013 through 2021 in excess of the levels set in subsection 251(b)(2)(E) shall be counted in determining whether a breach has occurred in the security category and the nonsecurity category on a proportional basis to the total spending for overseas contingency operations in the security category and the nonsecurity category.”.

(c) CONFORMING AMENDMENT.—Section 251(b)(2)(A) of such Act (2 U.S.C. 901(b)(2)(A)) is amended to read as follows:

“(A) EMERGENCY APPROPRIATIONS.—If, for any fiscal year, appropriations for discretionary accounts are enacted that the Congress designates as emergency requirements in statute on an account by account basis and the President subsequently so designates, the adjustment shall be the total of such appropriations in discretionary accounts designated as emergency requirements.”.

### DIVISION B—WIRELESS INNOVATION AND PUBLIC SAFETY ACT OF 2011

#### SEC. 1001. SHORT TITLE.

This division may be cited as the “Wireless Innovation and Public Safety Act of 2011”.

#### SEC. 1002. DEFINITIONS.

In this division:

(1) **700 MHZ D BLOCK SPECTRUM.**—The term “700 MHz D block spectrum” means the portion of the electromagnetic spectrum between the frequencies from 758 megahertz to 763 megahertz and between the frequencies from 788 megahertz to 793 megahertz.

(2) **APPROPRIATE COMMITTEES OF CONGRESS.**—Except as otherwise specifically provided, the term “appropriate committees of Congress” means—

(A) the Committee on Commerce, Science, and Transportation of the Senate; and

(B) the Committee on Energy and Commerce of the House of Representatives.

(3) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Commerce for Communications and Information.

(4) **COMMERCIAL MOBILE DATA SERVICE.**—The term “commercial mobile data service” means any mobile service (as defined in section 3 of the Communications Act of 1934 (47 U.S.C. 153)) that is—

(A) a data service, which may include mobile broadband Internet access service and Internet Protocol-based applications;

(B) provided for profit; and

(C) available to the public or to such classes of eligible users as to be effectively available to the public.

(5) **COMMERCIAL MOBILE SERVICE.**—The term “commercial mobile service” has the meaning given such term in section 332(d)(1) of the Communications Act of 1934 (47 U.S.C. 332(d)(1)).

(6) **COMMERCIAL STANDARDS.**—The term “commercial standards” means the technical standards followed by the commercial mobile service and commercial mobile data service industries for network, device, and Internet Protocol connectivity. Such term includes standards developed by the Third Generation Partnership Project (3GPP), the Institute of Electrical and Electronics Engineers (IEEE), the Alliance for Telecommunications Industry Solutions (ATIS), and the Internet Engineering Task Force (IETF).

(7) **COMMISSION.**—The term “Commission” means the Federal Communications Commission.

(8) **CORE NETWORK.**—The term “core network” means the core network described in section 1202(b)(1).

(9) **FEDERAL ENTITY.**—The term “Federal entity” has the meaning given such term in section 113(i) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(i)).

(10) **GOVERNOR.**—The term “Governor” means the Governor or other chief executive officer of a State.

(11) **GUARD BAND SPECTRUM.**—The term “guard band spectrum” means the portion of the electromagnetic spectrum between the frequencies from 768 megahertz to 769 megahertz and between the frequencies from 798 megahertz to 799 megahertz.

(12) **INDIAN TRIBE.**—The term “Indian tribe” has the meaning given such term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

(13) **NARROWBAND SPECTRUM.**—The term “narrowband spectrum” means the portion of the electromagnetic spectrum between the frequencies from 769 megahertz to 775 megahertz and between the frequencies from 799 megahertz to 805 megahertz.

(14) **NIST.**—The term “NIST” means the National Institute of Standards and Technology.

(15) **NTIA.**—The term “NTIA” means the National Telecommunications and Information Administration.

(16) **PROGRAM MANAGEMENT OFFICE.**—The term “Program Management Office” means the office established under section 1203(a).

(17) **PUBLIC SAFETY ANSWERING POINT.**—The term “public safety answering point” has the meaning given such term in section 222 of the Communications Act of 1934 (47 U.S.C. 222).

(18) **PUBLIC SAFETY BROADBAND NETWORK.**—The term “public safety broadband network” means the network described in section 1202.

(19) **PUBLIC SAFETY BROADBAND CORPORATION.**—The term “Public Safety Broadband Corporation” or “Corporation” means the corporation established under section 1201(a)(1).

(20) **PUBLIC SAFETY BROADBAND SPECTRUM.**—The term “public safety broadband spectrum” means—

(A) the portion of the electromagnetic spectrum between the frequencies from 763 megahertz to 768 megahertz and between the frequencies from 793 megahertz to 798 megahertz; and

(B) the 700 MHz D block spectrum.

(21) **PUBLIC SAFETY COMMUNICATIONS RESEARCH PROGRAM.**—The term “Public Safety Communications Research Program” means the program that is housed within the Department of Commerce Labs in Boulder, Colorado, and that is a joint effort between the Office of Law Enforcement Standards of NIST and the Institute for Telecommunication Sciences of the NTIA.

(22) **PUBLIC SAFETY ENTITY.**—The term “public safety entity” means an entity that provides public safety services.

(23) **PUBLIC SAFETY SERVICES.**—The term “public safety services” has the meaning given such term in section 337(f)(1) of the Communications Act of 1934 (47 U.S.C. 337(f)(1)).

(24) **RADIO ACCESS NETWORK.**—The term “radio access network” means the radio access network described in section 1202(b)(2).

(25) **STATE.**—The term “State” means any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(26) **STATE PUBLIC SAFETY BROADBAND OFFICE.**—The term “State Public Safety Broadband Office” means an office established under section 1212(d).

(27) **TRIBAL.**—The term “tribal” means, when used with respect to any entity, that such entity is a tribal organization (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b)).

#### SEC. 1003. RULE OF CONSTRUCTION.

Each range of frequencies described in this division shall be construed to be inclusive of the upper and lower frequencies in the range.

#### SEC. 1004. ENFORCEMENT.

(a) **IN GENERAL.**—The Commission shall implement and enforce this division as if this division is a part of the Communications Act of 1934 (47 U.S.C. 151 et seq.). A violation of this division, or a regulation promulgated under this division, shall be considered to be a violation of the Communications Act of 1934, or a regulation promulgated under such Act, respectively.

(b) **EXCEPTION.**—Subsection (a) does not apply in the case of a provision of this division that is expressly required to be carried out by an agency (as defined in section 551 of title 5, United States Code) other than the Commission.

### TITLE I—ALLOCATION AND ASSIGNMENT OF PUBLIC SAFETY BROADBAND SPECTRUM

#### SEC. 1101. REALLOCATION OF 700 MHZ D BLOCK SPECTRUM FOR PUBLIC SAFETY USE.

(a) **IN GENERAL.**—The Commission shall reallocate the 700 MHz D block spectrum for use by public safety entities in accordance with the provisions of this division.

(b) **QUANTITY OF SPECTRUM ALLOCATED FOR PUBLIC SAFETY USE.**—Section 337(a) of the Communications Act of 1934 (47 U.S.C. 337(a)) is amended—

(1) by striking “Not later than January 1, 1998, the” and inserting “The”;

(2) in paragraph (1), by striking “24” and inserting “34”; and

(3) in paragraph (2), by striking “36” and inserting “26”.

#### SEC. 1102. ASSIGNMENT OF LICENSE TO CORPORATION.

(a) **IN GENERAL.**—Not later than the date that is 30 days after the date of the incorporation of the Public Safety Broadband Corporation under section 1201(a), the Commission shall revoke the license for the public safety broadband spectrum and the guard band spectrum and assign a new, single license for the public safety broadband spectrum and the guard band spectrum to the Corporation for the purpose of ensuring the construction, management, maintenance, and operation of the public safety broadband network.

(b) **TERM.**—

(1) **INITIAL LICENSE.**—The initial license assigned under subsection (a) shall be for a term of 10 years.

(2) **RENEWAL OF LICENSE.**—Prior to the expiration of the term of the initial license assigned under subsection (a) or the expiration of any renewal of such license, the Corporation shall submit to the Commission an application for the renewal of such license in accordance with the Communications Act of 1934 (47 U.S.C. 151 et seq.) and any applicable Commission regulations. Such renewal application shall demonstrate that, during the term of the license that the Corporation is seeking to renew, the Corporation has fulfilled its duties and obligations under this division and the Communications Act of 1934 and has complied with all applicable Commission regulations. A renewal of the initial license granted under subsection (a) or any renewal of such license shall be for a term not to exceed 10 years.

(c) **DEFINITION OF PUBLIC SAFETY SERVICES.**—Section 337(f)(1) of the Communications Act of 1934 (47 U.S.C. 337(f)(1)) is amended—

(1) in subparagraph (A), by striking “to protect the safety of life, health, or property” and inserting “to provide law enforcement, fire and rescue response, or emergency medical assistance (including such assistance provided by ambulance services, hospitals, and urgent care facilities)”;

(2) in subparagraph (B)—

(A) in clause (i), by inserting “or tribal organizations (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b))” before the semicolon; and

(B) in clause (ii), by inserting “or a tribal organization” after “a governmental entity”.

#### SEC. 1103. ENSURING EFFICIENT AND FLEXIBLE USE OF 700 MHZ PUBLIC SAFETY NARROWBAND SPECTRUM.

(a) **LICENSE REQUIREMENTS.**—The Commission may not renew a license to use the narrowband spectrum after the date of the

enactment of this Act, or grant an application for an initial license to use such spectrum after the date that is 3 years after such date of enactment, unless the licensee or applicant demonstrates that failure of the Commission to renew such license or grant such application will—

(1) cause considerable economic hardship; or

(2) adversely impact the ability of the licensee or applicant to provide public safety services.

(b) **INVENTORY.**—Not later than 6 months after the date of the enactment of this Act, the Commission shall complete and submit to the appropriate committees of Congress a State-by-State inventory of the use of the narrowband spectrum, current as of such date of enactment, including the numbers of base stations that are deployed and in day-to-day operation, the approximate number of users, the extent of interoperability among the deployed stations, and the approximate per-unit costs of mobile equipment.

(c) **FLEXIBLE USE.**—In order to promote efficient spectrum use, the Commission may allow the narrowband spectrum and the guard band spectrum to be used in a flexible manner, including for public safety broadband communications, subject to such technical and interference protection measures as the Commission may require.

#### **SEC. 1104. SHARING OF PUBLIC SAFETY BROADBAND SPECTRUM AND NETWORK.**

(a) **EMERGENCY ACCESS BY NON-PUBLIC SAFETY ENTITIES.**—

(1) **IN GENERAL.**—Notwithstanding any limitation in section 337 of the Communications Act of 1934 (47 U.S.C. 337), upon the request of a State Public Safety Broadband Office, the Corporation may enter into agreements with entities in such State that are not public safety entities to permit such entities to obtain access on a secondary, preemptible basis to the public safety broadband spectrum in order to facilitate interoperability between such entities and public safety entities in protecting the safety of life, health, and property during emergencies and during preparation for and recovery from emergencies, including during emergency drills, exercises, and tests.

(2) **PREEMPTION.**—The Corporation shall ensure that, under any agreements entered into under paragraph (1), public safety entities may preempt use of the public safety broadband spectrum by the entities with which the Corporation has entered into such agreements.

(b) **PUBLIC-PRIVATE PARTNERSHIPS.**—Notwithstanding any limitation in section 337 of the Communications Act of 1934 (47 U.S.C. 337), the Corporation may permit a private entity with which the Corporation contracts on behalf of public safety entities to construct, manage, maintain, or operate the core network or the radio access network, upon the request of such private entity, to—

(1) obtain access to the public safety broadband spectrum for services that are not public safety services; or

(2) share equipment or infrastructure of the public safety broadband network, including antennas and towers.

(c) **APPROVAL BY COMMISSION.**—The Corporation may not enter into an agreement under subsection (a) or (b)(1) without the approval of the Commission.

(d) **REINVESTMENT.**—The Corporation shall use any funds the Corporation receives under the agreements entered into under subsections (a) and (b) to cover the administrative expenses of the Corporation for the fis-

cal year in which such funds are received and shall use any excess for the construction, management, maintenance, and operation of the public safety broadband network.

(e) **ACCESS BY FEDERAL DEPARTMENTS AND AGENCIES.**—Notwithstanding any limitation in section 337 of the Communications Act of 1934 (47 U.S.C. 337), the Corporation shall enter into such written agreements as are necessary to permit Federal departments and agencies to have shared access to the public safety broadband spectrum on an equivalent basis in order to protect the safety of life, health, and property.

(f) **PROHIBITION ON OFFERING COMMERCIAL SERVICES.**—The Corporation may not offer, provide, or market commercial telecommunications services or information services directly to the public.

#### **SEC. 1105. COMMISSION RULES.**

(a) **IN GENERAL.**—In order to carry out the provisions of this division, the Commission shall—

(1) adopt technical rules necessary to sufficiently manage spectrum use in bands adjacent to the public safety broadband spectrum;

(2) adopt rules requiring commercial mobile service providers and commercial mobile data service providers to offer roaming and priority access services to public safety entities at commercially reasonable terms and conditions if—

(A) the equipment of the public safety entity is technically compatible with the network of the commercial provider;

(B) the commercial provider is reasonably compensated; and

(C) such access does not unreasonably preempt or otherwise terminate or degrade existing voice conversations or data sessions;

(3) adopt technical rules governing the operation of the public safety broadband network in areas near the international borders of the United States;

(4) adopt rules ensuring the commercial availability of devices capable of operating in the public safety broadband spectrum, known as Band Class 14, at costs comparable to those of similar devices that are designed to operate in spectrum allocated for commercial use; and

(5) consider the adoption of such other rules as the Commission determines are necessary.

(b) **DEADLINE.**—The Commission shall adopt the rules required by paragraphs (1) through (4) of subsection (a) not later than 180 days after the date of the enactment of this Act.

(c) **CONSULTATION.**—In adopting rules under subsection (a) (or considering the adoption of rules under paragraph (5) of such subsection), the Commission shall consult with the Director of the Office of Emergency Communications in the Department of Homeland Security, the Assistant Secretary, the Director of NIST, and the Public Safety Communications Research Program.

#### **SEC. 1106. FCC REPORT ON EFFICIENT USE OF PUBLIC SAFETY SPECTRUM.**

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act and every 2 years thereafter, the Commission shall, in consultation with the Assistant Secretary and the Director of NIST, conduct a study and submit to the appropriate committees of Congress a report on the spectrum allocated for public safety use.

(b) **CONTENTS.**—The report required by subsection (a) shall include—

(1) an examination of how such spectrum is being used;

(2) recommendations on how such spectrum may be used more efficiently;

(3) an assessment of the feasibility of public safety entities relocating from other bands to the public safety broadband spectrum; and

(4) an assessment of whether any spectrum made available by the relocation described in paragraph (3) could be returned to the Commission for reassignment through auction, including through use of incentive auction authority under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by section 1302(a).

## **TITLE II—ADVANCED PUBLIC SAFETY COMMUNICATIONS**

### **Subtitle A—Public Safety Broadband Network**

#### **SEC. 1201. ESTABLISHMENT AND OPERATION OF PUBLIC SAFETY BROADBAND CORPORATION.**

(a) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—There is authorized to be established a private, nonprofit corporation to be known as the Public Safety Broadband Corporation, which will not be an agency or establishment of the United States Government or the District of Columbia government.

(2) **GOVERNING LAW.**—The Corporation shall be subject to the provisions of this division and, to the extent consistent with this division, the District of Columbia Nonprofit Corporation Act (sec. 29–301.01 et seq., D.C. Official Code). The Corporation shall have the usual powers conferred upon a nonprofit corporation by the District of Columbia Nonprofit Corporation Act.

(3) **INCORPORATION.**—The members of the initial Board of Directors of the Corporation shall serve as the incorporators of the Corporation and shall take the necessary steps to establish the Corporation under the District of Columbia Nonprofit Corporation Act. The Corporation shall notify the Commission of the date of its incorporation as soon as possible after such incorporation.

(4) **INITIAL BYLAWS.**—The members of the initial Board of Directors of the Corporation shall establish the initial bylaws of the Corporation.

(5) **RESIDENCE.**—The Corporation shall have its place of business in the District of Columbia and shall be considered, for purposes of venue in civil actions, to be a resident of the District of Columbia.

(b) **BOARD OF DIRECTORS.**—

(1) **MEMBERSHIP AND APPOINTMENT.**—The management of the Corporation shall be vested in a Board of Directors, which shall consist of 15 members, as follows:

(A) **FEDERAL MEMBERS.**—Four Federal members, or their designees, as follows:

(i) The Secretary of Commerce.

(ii) The Secretary of Homeland Security.

(iii) The Director of the Office of Management and Budget.

(iv) The Attorney General of the United States.

(B) **NON-FEDERAL PUBLIC-SECTOR MEMBERS.**—Seven non-Federal public-sector members, representing both urban and rural interests, appointed by the Secretary of Commerce, as follows:

(i) **STATE GOVERNORS.**—Two members, each of whom is the Governor of a State, or their designees.

(ii) **LOCAL AND TRIBAL GOVERNMENT MEMBERS.**—Two members, each of whom is the chief executive officer of a political subdivision of a State or an Indian tribe, or their designees.

(iii) **PUBLIC SAFETY ENTITY EMPLOYEES.**—Three members, each of whom is employed by a public safety entity and possesses one or more of the following qualifications:

(I) Experience with emergency preparedness and response.

(II) Technical expertise with public safety radio communications.

(III) Operational experience with 9-1-1 emergency services.

(IV) Training in hospital or urgent medical care.

(C) PRIVATE-SECTOR MEMBERS.—Four private-sector members, appointed by the Secretary of Commerce, each of whom has extensive experience implementing commercial standards in the design, development, and operation of commercial mobile data service networks.

(2) INDEPENDENCE OF NON-FEDERAL PUBLIC-SECTOR AND PRIVATE-SECTOR MEMBERS.—

(A) IN GENERAL.—Each non-Federal public-sector member and each private-sector member of the Board of Directors appointed under paragraph (1) shall be independent and neutral.

(B) INDEPENDENCE DETERMINATION.—In order to be considered independent for purposes of this paragraph, a member of the Board—

(i) may not, other than in the capacity of such member as a member of the Board or a committee thereof, accept any consulting, advisory, or other compensatory fee from the Corporation; and

(ii) shall be disqualified from any deliberation involving any transaction of the Corporation in which such member has a financial interest in the outcome.

(3) FEDERAL EMPLOYMENT STATUS.—The non-Federal public-sector members and the private-sector members of the Board of Directors shall not, by reason of membership on the Board, be considered to be officers or employees of the United States Government or the District of Columbia government.

(4) CITIZENSHIP.—Each non-Federal public-sector member and each private-sector member of the Board of Directors shall be a citizen of the United States.

(5) TERMS OF APPOINTMENT.—

(A) INITIAL APPOINTMENT DEADLINE.—The initial non-Federal public-sector members and the initial private-sector members of the Board of Directors shall be appointed not later than 180 days after the date of the enactment of this Act.

(B) TERMS.—

(i) LENGTH.—

(I) FEDERAL MEMBERS.—Each Federal member of the Board of Directors shall serve as a member of the Board for the life of the Corporation.

(II) NON-FEDERAL PUBLIC-SECTOR AND PRIVATE-SECTOR MEMBERS.—The term of office of each non-Federal public-sector member and each private-sector member of the Board of Directors shall be 3 years. Such a member may not serve more than 2 full terms consecutively.

(i) EXPIRATION OF TERM.—Any non-Federal public-sector member or private-sector member of the Board of Directors whose term has expired may serve until such member's successor has taken office, or until the end of the calendar year in which such member's term has expired, whichever is earlier.

(iii) APPOINTMENT TO FILL VACANCY.—A non-Federal public-sector member or private-sector member of the Board of Directors appointed to fill a vacancy occurring prior to the expiration of the term for which that member's predecessor was appointed shall be appointed for the remainder of the predecessor's term.

(iv) STAGGERED TERMS.—With respect to the initial non-Federal public-sector members and the initial private-sector members of the Board of Directors—

(I) four members shall serve for a term of 3 years;

(II) four members shall serve for a term of 2 years; and

(III) three members shall serve for a term of 1 year.

(C) EFFECT OF VACANCIES.—A vacancy in the membership of the Board of Directors shall not affect the Board's powers and shall be filled in the same manner as the original member was appointed.

(6) CHAIR.—

(A) SELECTION.—The Chair of the Board of Directors shall be selected by the Secretary of Commerce from among the non-Federal public-sector members and the private-sector members of the Board.

(B) TERM.—The term of office of the Chair of the Board of Directors shall be 2 years, and an individual may not serve more than 2 consecutive terms.

(7) REMOVAL.—

(A) BY SECRETARY OF COMMERCE.—The Secretary of Commerce may remove, for good cause—

(i) the Chair of the Board of Directors; or  
(ii) any non-Federal public-sector member or private-sector member of the Board of Directors.

(B) BY BOARD.—The members of the Board of Directors may, by majority vote—

(i) remove any non-Federal public-sector member or private-sector member of the Board for conduct determined by the Board to be detrimental to the Board or to the Corporation; or

(ii) request that the Secretary of Commerce exercise his or her authority to remove the Chair of the Board for conduct determined to be detrimental to the Board or to the Corporation.

(8) MEETINGS.—

(A) FREQUENCY.—The Board of Directors shall meet in accordance with the bylaws of the Corporation—

(i) at the call of the Chair of the Board; and  
(ii) not less frequently than once each quarter.

(B) TRANSPARENCY.—Meetings of the Board of Directors, and meetings of any committees of the Board, shall be open to the public. The Board may, by majority vote, close any such meeting only for the time necessary to preserve the confidentiality of commercial or financial information that is privileged or confidential, to discuss personnel matters, or to discuss legal matters affecting the Corporation, including pending or potential litigation.

(9) QUORUM.—Eight members of the Board of Directors, including not fewer than 6 non-Federal public-sector members or private-sector members, shall constitute a quorum.

(10) ATTENDANCE.—Members of the Board of Directors may attend meetings of the Corporation and vote in person, via telephone conference, or via video conference.

(11) BYLAWS.—A majority of the members of the Board of Directors may amend the bylaws of the Corporation.

(12) PROHIBITION AGAINST COMPENSATION.—A member of the Board of Directors shall serve without pay, and shall not otherwise benefit, directly or indirectly, as a result of the member's service to the Corporation, but shall be allowed a per diem allowance for travel expenses, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Corporation.

(c) CHIEF EXECUTIVE OFFICER AND EMPLOYEES.—

(1) IN GENERAL.—The Corporation shall have 1 officer, a Chief Executive Officer, and such employees as may be necessary to carry out the duties and responsibilities of the Corporation under this title and title I, for such terms, and at such rates of compensation in accordance with paragraph (5), as the Board of Directors of the Corporation considers appropriate. The Chief Executive Officer and the employees shall serve at the pleasure of the Board of Directors.

(2) QUALIFICATIONS OF CEO.—The Chief Executive Officer shall have extensive experience in the deployment, management, or design of commercial mobile data service networks.

(3) CITIZENSHIP.—The Chief Executive Officer and the employees of the Corporation shall be citizens of the United States.

(4) NONPOLITICAL NATURE OF APPOINTMENT.—No political test or qualification may be used in selecting, appointing, promoting, or taking other personnel actions with respect to the Chief Executive Officer or the agents or employees of the Corporation.

(5) COMPENSATION.—

(A) IN GENERAL.—The Board of Directors may fix the compensation of the Chief Executive Officer and the employees hired under this subsection, as necessary to carry out the duties and responsibilities of the Corporation under this title and title I, except that—

(i) the rate of compensation for the Chief Executive Officer or any employee may not exceed the maximum rate of basic pay established under section 5382 of title 5, United States Code, for a member of the Senior Executive Service; and

(ii) notwithstanding any other provision of law except clause (i), or any bylaw of the Corporation, all rates of compensation, including benefit plans and salary ranges, for the Chief Executive Officer and the employees shall be jointly approved by a majority of the Federal members of the Board.

(B) LIMITATION ON OTHER COMPENSATION.—Neither the Chief Executive Officer nor any employee of the Corporation may receive any salary or other compensation (except for compensation for service on boards of directors of other organizations that do not receive funds from the Corporation, on committees of such boards, and in similar activities for such organizations) from any sources other than the Corporation for services rendered during the period of the employment of the Chief Executive Officer or employee, respectively, by the Corporation.

(C) SERVICE ON OTHER BOARDS.—Service by the Chief Executive Officer or any employee of the Corporation on a board of directors of another organization, on a committee of such a board, or in a similar activity for such an organization shall be subject to annual advance approval by the Board of Directors.

(D) FEDERAL EMPLOYMENT STATUS.—Neither the Chief Executive Officer nor any employee of the Corporation shall be considered to be an officer or employee of the United States Government or the District of Columbia government.

(d) SELECTION OF AGENTS, CONSULTANTS, AND EXPERTS.—

(1) IN GENERAL.—The Board shall select parties to serve as its agents, consultants, and experts in a fair, transparent, and objective manner.

(2) FINAL AND BINDING.—If the selection of an agent, consultant, or expert satisfies the requirements of paragraph (1), the selection of such agent, consultant, or expert shall be final and binding.

(e) NONPROFIT AND NONPOLITICAL NATURE OF CORPORATION.—

(1) **STOCK.**—The Corporation shall have no power to issue any shares of stock, or to declare or pay any dividends.

(2) **PROFIT.**—No part of the income or assets of the Corporation shall inure to the benefit of any director, officer, employee, or any other individual associated with the Corporation, except as salary or reasonable compensation for services.

(3) **POLITICS.**—The Corporation may not contribute to or otherwise support any political party or candidate for elective public office.

(4) **PROHIBITION ON LOBBYING ACTIVITIES.**—The Corporation may not engage in lobbying activities (as defined in section 3(7) of the Lobbying Disclosure Act of 1995 (2 U.S.C. 1602(7))).

(f) **GENERAL POWERS.**—In addition to the powers granted to the Corporation by any other provision of law, the Corporation shall have the authority to do the following:

(1) To adopt and use a corporate seal.

(2) To have succession until dissolved by an Act of Congress.

(3) To prescribe, through the actions of the Board of Directors, bylaws not inconsistent with Federal law and the laws of the District of Columbia, regulating the manner in which the Corporation's general business may be conducted and the manner in which the privileges granted to the Corporation by law may be exercised.

(4) To exercise, through the actions of the Board of Directors, all powers specifically granted to the Corporation by the provisions of this title and title I, and such incidental powers as shall be necessary.

(5) To hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the Corporation considers necessary to carry out its responsibilities and duties.

(6) To obtain grants and funds from and make contracts with individuals, private companies, organizations, institutions, and Federal, State, regional, and local agencies.

(7) To accept, hold, administer, and utilize gifts, donations, and bequests of property, both real and personal, for the purposes of aiding or facilitating the work of the Corporation.

(8) To spend amounts obtained under paragraph (6) in a manner authorized by the Board, but only for purposes that will advance or enhance public safety communications consistent with this division.

(9) To establish reserve accounts with funds that the Corporation may receive from time to time that exceed the amounts required by the Corporation to timely pay its debt service and other obligations.

(10) To expend the funds placed in any reserve accounts established under paragraph (9) (including interest earned on any such amounts) in a manner authorized by the Board, but only for purposes that—

(A) will advance or enhance public safety communications consistent with this division; or

(B) are otherwise approved by an Act of Congress.

(11) To take such other actions as the Corporation, through the Board of Directors, may from time to time determine necessary, appropriate, or advisable to accomplish the purposes of this title and title I.

(g) **PRINCIPAL POWERS.**—In addition to the powers granted to the Corporation by any other provision of law, the Corporation shall have the power—

(1) to hold the single license for the public safety broadband spectrum and the guard band spectrum assigned by the Commission under section 1102(a);

(2) to take all actions necessary to ensure the construction, management, maintenance, and operation of the public safety broadband network, in consultation with Federal users of the network, public safety entities, the Commission, and the Technical and Operations Advisory Body established under subsection (h), including by—

(A) ensuring the use of commercial standards;

(B) issuing open, transparent, and competitive requests for proposals to private-sector entities for the purpose of constructing, managing, maintaining, and operating the public safety broadband network;

(C) entering into and overseeing the performance of contracts or agreements with private-sector entities to construct, manage, maintain, and operate the public safety broadband network;

(D) leveraging, to the maximum extent possible, existing commercial, private, and public infrastructure to reduce costs, supplement network capacity, and speed deployment of the network;

(E) entering into roaming and priority access agreements with providers of commercial mobile service and commercial mobile data service to allow users of the public safety broadband network to obtain such services across the networks of such providers;

(F) entering into sharing agreements under section 1104; and

(G) exercising discretion in using and disbursing the funds received under section 1401(b)(4); and

(3) to establish the Program Management Office and delegate functions to such Office, in accordance with section 1203.

(h) **TECHNICAL AND OPERATIONS ADVISORY BODY.**—

(1) **ESTABLISHMENT.**—In addition to such other standing or ad hoc committees, panels, or councils as the Board of Directors considers necessary, the Corporation shall establish a Technical and Operations Advisory Body, which shall provide advice to the Corporation with respect to operational and technical matters related to public safety communications and commercial mobile data service.

(2) **MEMBERSHIP.**—The Technical and Operations Advisory Body shall be composed of such representatives as the Board of Directors considers appropriate, including representatives of the following:

(A) Public safety entities.

(B) State, local, and tribal entities that use the public safety broadband network.

(C) Public safety answering points.

(D) One or more of the 10 regional organizational units of the Federal Emergency Management Agency.

(E) The Bureau of Indian Affairs.

(F) The Office of Science and Technology Policy.

(G) The Public Safety Communications Research Program.

(H) Providers of commercial mobile data service and vendors of equipment, devices, and software used to provide and access such service.

(i) **AUDITS AND REPORTS BY GAO.**—

(1) **AUDITS.**—

(A) **IN GENERAL.**—The financial transactions of the Corporation for any fiscal year during which Federal funds are available to finance any portion of its operations shall be audited annually by the Comptroller General of the United States in accordance with the principles and procedures applicable to commercial corporate transactions and under such rules and regulations as may be prescribed by the Comptroller General.

(B) **LOCATION.**—Any audit conducted under subparagraph (A) shall be conducted at the place or places where accounts of the Corporation are normally kept.

(C) **ACCESS TO CORPORATION BOOKS AND DOCUMENTS.**—

(i) **IN GENERAL.**—For purposes of an audit conducted under subparagraph (A), the representatives of the Comptroller General shall—

(I) have access to all books, accounts, records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation that pertain to the financial transactions of the Corporation and are necessary to facilitate the audit; and

(II) be afforded full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians.

(ii) **REQUIREMENT.**—All books, accounts, records, reports, files, papers, and property of the Corporation shall remain in the possession and custody of the Corporation.

(2) **REPORTS.**—

(A) **IN GENERAL.**—The Comptroller General of the United States shall submit a report of each audit conducted under paragraph (1)(A) to—

(i) the appropriate committees of Congress;

(ii) the President; and

(iii) the Corporation.

(B) **CONTENTS.**—Each report submitted under subparagraph (A) shall contain—

(i) such comments and information as the Comptroller General determines necessary to inform Congress of the financial operations and condition of the Corporation;

(ii) any recommendations of the Comptroller General relating to the financial operations and condition of the Corporation; and

(iii) a description of any program, expenditure, or other financial transaction or undertaking of the Corporation that was observed during the course of the audit, which, in the opinion of the Comptroller General, has been carried on or made without the authority of law.

(j) **ANNUAL REPORT TO CONGRESS.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, and each year thereafter, the Corporation shall submit an annual report covering the preceding fiscal year to the appropriate committees of Congress.

(2) **REQUIRED CONTENT.**—The report required under paragraph (1) shall include—

(A) a comprehensive and detailed report of the operations, activities, financial condition, and accomplishments of the Corporation under this section;

(B) an analysis of the continued need for the Program Management Office and opportunities for reductions in staffing levels or scope of work in light of progress made in network deployment, including the requests for proposals process; and

(C) such recommendations or proposals for legislative or administrative action as the Corporation considers appropriate.

(3) **AVAILABILITY TO TESTIFY.**—The directors, employees, and agents and the Chief Executive Officer of the Corporation shall be available to testify before the appropriate committees of the Congress with respect to—

(A) the report required under paragraph (1);

(B) the report of any audit made by the Comptroller General under subsection (i); or

(C) any other matter which such committees may consider appropriate.

(k) **PROHIBITION AGAINST NEGOTIATION WITH FOREIGN GOVERNMENTS.**—The Corporation

may not negotiate or enter into any agreements with a foreign government on behalf of the United States.

(1) **USE OF MAILS.**—The Corporation may use the United States mails in the same manner and under the same conditions as the departments and agencies of the United States.

#### **SEC. 1202. PUBLIC SAFETY BROADBAND NETWORK.**

(a) **ESTABLISHMENT.**—The Corporation shall ensure the establishment of a nationwide, interoperable public safety broadband network.

(b) **NETWORK COMPONENTS.**—The public safety broadband network shall be based on a single, national network architecture that evolves with technological advancements and initially consists of the following:

(1) A core network that—  
(A) consists of national and regional data centers, and other elements and functions that may be distributed geographically, all of which shall be based on commercial standards; and

(B) provides the connectivity between—  
(i) the radio access network; and  
(ii) the public Internet or the public switched network, or both.

(2) A radio access network that—  
(A) is deployed on a State-by-State or multi-State basis;

(B) consists of all cell site equipment, antennas, and backhaul equipment, based on commercial standards, that are required to enable wireless communications with devices using the public safety broadband spectrum; and

(C) shall be developed, constructed, managed, maintained, and operated taking into account the plans developed in the State, local, and tribal planning and implementation grant program under section 1212.

(c) **DEPLOYMENT STANDARDS.**—The Corporation shall, through the administration of the requests-for-proposals process and oversight of contracts delegated to the Program Management Office—

(1) ensure that the core network and the radio access network are deployed as networks are typically deployed by commercial mobile data service providers;

(2) promote competition in the public safety equipment market by requiring that equipment for use on the public safety broadband network be—

(A) built to open, nonproprietary, commercial standards;

(B) capable of being used by any public safety entity and accessed by devices manufactured by multiple vendors; and

(C) backward-compatible with prior generations of commercial mobile service and commercial mobile data service networks to the extent typically deployed by providers of commercial mobile service and commercial mobile data service; and

(3) ensure that the public safety broadband network is integrated with public safety answering points, or the equivalent of public safety answering points, and with networks for the provision of Next Generation 9-1-1 services (as defined in section 1231).

(d) **PROCUREMENT.**—In all procurement related to the core network and the radio access network, the Corporation shall use an open, competitive bidding process that—

(1) details the required framework and architecture of such networks, the general specifications of the work requested, and the service-delivery responsibilities of successful bidders;

(2) provides for the award of subcontracts; and

(3) prohibits, except in the case of minor upgrades—

(A) sole-source contracts; and

(B) requirements for design proprietary to any individual vendor.

(e) **NETWORK INFRASTRUCTURE AND DEVICE CRITERIA.**—The Director of NIST, in consultation with the Corporation and the Commission, shall develop and periodically update a list of approved devices and components meeting appropriate protocols and standards. A device or component may not be used on the public safety broadband network unless it appears on such list.

#### **SEC. 1203. PROGRAM MANAGEMENT OFFICE.**

(a) **ESTABLISHMENT.**—The Corporation shall establish and staff a Program Management Office within the Corporation, or award a network management services contract to a private entity to establish and staff such an office. Any such contract shall be awarded through an open, competitive bidding process and shall be subject to approval by the Secretary of Commerce.

(b) **ACCOUNTABILITY.**—The actions of the Program Management Office shall be subject to review by the Corporation.

(c) **INDEPENDENCE.**—For the duration of any contract between the Program Management Office and the Corporation, the Program Management Office may not have a material financial interest in the outcome of any request for proposals of the Corporation or a material financial interest in any contract or agreement entered into by the Corporation.

(d) **DUTIES.**—Subject to the determination of the Corporation of the continuing need and appropriate scale of the Program Management Office, the Program Management Office shall—

(1) be responsible for carrying out the day-to-day activities of the Corporation, including ensuring uniformity of deployments of and upgrades to the public safety broadband network to preserve nationwide interoperability and economies of scale in network equipment and device costs;

(2) develop and recommend for adoption by the Corporation a nationwide plan for the deployment of the public safety broadband network;

(3) create a template for use by a State Public Safety Broadband Office receiving a grant under section 1212(a) in transmitting the plans developed under such section to the Program Management Office;

(4) create, for approval by the Corporation—

(A) baseline criteria for a request for proposals for the construction, management, maintenance, and operation of the core network; and

(B) baseline criteria for requests for proposals for the construction, management, maintenance, and operation of the radio access network;

(5) in consultation with State Public Safety Broadband Offices, evaluate responses to the requests for proposals described in paragraph (4);

(6) administer and oversee, and verify and validate the performance of, contracts entered into by the Corporation with entities the proposals of which the Corporation accepts;

(7) in consultation with State Public Safety Broadband Offices, the Office of Emergency Communications in the Department of Homeland Security, and the Commission, implement an awareness campaign in order to stimulate nationwide adoption of the public safety broadband network by public safety entities;

(8) in consultation with State Public Safety Broadband Offices, assess the progress of the construction and adoption of the public safety broadband network and report to the Corporation regarding such progress at such intervals as the Corporation requests, but no less frequently than biannually; and

(9) in consultation with State Public Safety Broadband Offices, develop a strategy for the Corporation on the distribution of public funding provided under section 1401(b)(4) for the construction, management, maintenance, and operation of the public safety broadband network.

(e) **DEVELOPMENT AND EVALUATION OF REQUESTS FOR PROPOSALS.**—In developing requests for proposals with respect to the core network and the radio access network, the Program Management Office shall, on a State-by-State or multi-State basis, seek proposals and recommend for acceptance by the Corporation proposals that—

(1) are based on commercial standards and are backward-compatible with existing commercial mobile service and commercial mobile data service networks;

(2) maximize use of existing infrastructure of commercial entities and of Federal, State, and tribal entities, including existing public safety infrastructure;

(3) provide for the selection on a localized basis of network options that remain consistent with the national network architecture;

(4) incorporate deployable network assets, vehicular repeaters, and other equipment as a means to provide additional coverage and capacity as may be required;

(5) ensure a nationwide level of interoperability;

(6) provide economies of scale in equipment and device costs comparable to those in the commercial marketplace, including the costs of devices capable of operating in Band Class 14;

(7) promote competition in the network equipment and device markets;

(8) ensure coverage of rural and underserved areas;

(9) take into account the need for the relocation of any incumbent public safety narrowband operations from the public safety broadband spectrum;

(10) enable technology upgrades at a pace comparable to that occurring in the commercial mobile service and commercial mobile data service marketplaces;

(11) ensure the reliability, security, and resiliency of the network, including through measures for—

(A) protecting and monitoring the cybersecurity of the network; and

(B) managing supply chain risks to the network; and

(12) incorporate results from the 700 MHz demonstration network managed by the Public Safety Communications Research Program.

(f) **CONSULTATION WITH TECHNICAL AND OPERATIONS ADVISORY BODY.**—In carrying out its responsibilities, the Program Management Office shall regularly meet and consult with the Technical and Operations Advisory Body established under section 1201(h).

#### **SEC. 1204. REPRESENTATION BEFORE STANDARDS SETTING ENTITIES.**

The Corporation, in consultation with the Director of NIST, the Commission, and the Technical and Operations Advisory Body established under section 1201(h), shall represent the interests of Federal departments and agencies and public safety entities using the public safety broadband network before any appropriate standards development organizations that address issues that in the

judgment of the Corporation are relevant and important to the public safety broadband network.

#### SEC. 1205. GAO REPORT ON SATELLITE BROADBAND.

Not later than 2 years after the date of the enactment of this Act, the Comptroller General of the United States shall conduct a study and submit to the appropriate committees of Congress a report on the current and future capabilities of fixed and mobile satellite broadband for use by public safety entities.

#### SEC. 1206. ACCESS TO FEDERAL SUPPLY SCHEDULES.

Section 502 of title 40, United States Code, is amended—

(1) by redesignating subsection (f) as subsection (g); and

(2) by inserting after subsection (e) the following new subsection:

“(f) USE OF SUPPLY SCHEDULES BY PUBLIC SAFETY BROADBAND CORPORATION FOR CERTAIN GOODS AND SERVICES.—

“(1) IN GENERAL.—The Administrator may provide, to the extent practicable, for the use by the Public Safety Broadband Corporation of Federal supply schedules for the following:

“(A) Roaming and priority access services offered by providers of commercial mobile service and commercial mobile data service.

“(B) Broadband network equipment, devices, and applications that are suitable for use on the public safety broadband network.

“(2) DEFINITIONS.—In this subsection—

“(A) the terms ‘commercial mobile data service’ and ‘public safety broadband network’ have the meanings given such terms in section 1002 of the Wireless Innovation and Public Safety Act of 2011;

“(B) the term ‘commercial mobile service’ has the meaning given such term in section 332(d)(1) of the Communications Act of 1934 (47 U.S.C. 332(d)(1)); and

“(C) the term ‘Public Safety Broadband Corporation’ means the corporation established under section 1201(a)(1) of the Wireless Innovation and Public Safety Act of 2011.”.

#### SEC. 1207. FEDERAL INFRASTRUCTURE SHARING.

The Administrator of General Services shall establish rules to allow the Corporation, on behalf of public safety entities, to have access to such components of Federal infrastructure as are appropriate for the construction and maintenance of the public safety broadband network.

#### SEC. 1208. INITIAL FUNDING FOR CORPORATION.

(a) IN GENERAL.—There is appropriated to the Assistant Secretary \$50,000,000 for use in accordance with subsection (b), to remain available until the commencement of incentive auctions to be carried out under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by section 1302(a), or the auction of spectrum pursuant to subsection (a)(1) or (b)(1) of section 1301.

(b) USE OF FUNDS.—The Assistant Secretary shall use the funds appropriated under subsection (a)—

(1) for reasonable administrative expenses and other costs associated with the establishment of the Corporation; and

(2) subject to subsection (c), for transfer to the Corporation of an amount the Assistant Secretary considers necessary for the Corporation to carry out its duties and responsibilities under this title and title I prior to the 1st fiscal year for which the Corporation projects that the fees collected under section 1209 will be sufficient to cover the total expenses of the Corporation for such fiscal year.

(c) CONDITIONS.—The Assistant Secretary may not transfer any funds under subsection

(b)(2) unless the Corporation files with the Assistant Secretary—

(1) an estimated budget for the period between the filing and the beginning of the 1st fiscal year for which the Corporation projects that the fees collected under section 1209 will be sufficient to cover the total expenses of the Corporation for such fiscal year; and

(2) a statement of the anticipated use of the funds transferred.

(d) REINVESTMENT OF EXCESS FUNDS.—Beginning with the 1st fiscal year in which the Corporation collects fees under section 1209 in excess of the total expenses of the Corporation in carrying out its duties and responsibilities under this title and title I for such fiscal year, the Corporation shall use any remaining amount of the funds transferred under subsection (b)(2) only to ensure the construction, management, maintenance, and operation of the public safety broadband network.

#### SEC. 1209. PERMANENT SELF-FUNDING OF CORPORATION AND DUTY TO COLLECT CERTAIN FEES.

(a) IN GENERAL.—The Corporation is authorized to assess and collect the following fees:

(1) NETWORK USER FEES.—A user or subscription fee from each public safety entity and Federal department or agency that seeks access to or use of the public safety broadband network.

(2) SHARING ARRANGEMENT FEES.—A fee from each entity with which the Corporation enters into a sharing arrangement under section 1104.

(b) ESTABLISHMENT OF FEE AMOUNTS.—The total amount of the fees assessed for each fiscal year under this section shall be sufficient, and to the extent practicable shall not exceed the amount necessary, to cover the total expenses of the Corporation in carrying out its duties and responsibilities under this title and title I for such fiscal year.

(c) REQUIRED REINVESTMENT OF EXCESS FUNDS.—If, in a fiscal year, the Corporation collects fees under this section in excess of the total expenses of the Corporation in carrying out its duties and responsibilities under this title and title I for such fiscal year, the Corporation shall use the excess only to ensure the construction, management, maintenance, and operation of the public safety broadband network.

#### Subtitle B—State, Local, and Tribal Planning and Implementation

#### SEC. 1211. STATE, LOCAL, AND TRIBAL PLANNING AND IMPLEMENTATION FUND.

(a) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be known as the State, Local, and Tribal Planning and Implementation Fund.

(b) PURPOSE.—The Assistant Secretary shall establish and administer the grant program under section 1212 using the funds deposited in the State, Local, and Tribal Planning and Implementation Fund.

(c) CREDITING OF RECEIPTS.—There shall be deposited into or credited to the State, Local, and Tribal Planning and Implementation Fund—

(1) any amounts specified in section 1401; and

(2) any amounts borrowed by the Assistant Secretary under subsection (d).

(d) BORROWING AUTHORITY.—

(1) IN GENERAL.—The Assistant Secretary may borrow from the general fund of the Treasury beginning on October 1, 2011, such sums as may be necessary, but not to exceed \$250,000,000, to implement section 1212.

(2) REIMBURSEMENT.—The Assistant Secretary shall reimburse the general fund of

the Treasury, without interest, for any amounts borrowed under paragraph (1) as funds are deposited into the State, Local, and Tribal Planning and Implementation Fund.

#### SEC. 1212. STATE, LOCAL, AND TRIBAL PLANNING AND IMPLEMENTATION GRANT PROGRAM.

(a) ESTABLISHMENT OF GRANT PROGRAM.—The Assistant Secretary, in consultation with the Corporation, shall take such action as is necessary to establish a grant program to make grants to each State Public Safety Broadband Office established under subsection (d) to assist State, local, and tribal public safety entities within such State in carrying out the following activities:

(1) Identifying and planning the most efficient and effective use and integration by such entities of the spectrum and the infrastructure, equipment, and other architecture associated with the public safety broadband network to satisfy the wireless communications and data services needs of such entities.

(2) Identifying opportunities for creating a consortium with one or more other States to assist the Program Management Office in developing a single request for proposals to serve the common network requirements of the States in the consortium.

(3) Identifying the particular assets and specialized needs of the public safety entities located within such State for inclusion in requests for proposals with respect to the radio access network. Such assets may include available towers and infrastructure. Such needs may include the projected number of users, preferred buildout timeframes, special coverage needs, special hardening, reliability, security, and resiliency needs, local user priority assignments, and integration needs of public safety answering points and emergency operations centers.

(4) Transmitting the plans developed under this subsection to the Program Management Office using the template developed under section 1203(d)(3).

(b) MATCHING REQUIREMENTS; FEDERAL SHARE.—

(1) IN GENERAL.—The Federal share of the cost of any activity carried out using a grant under this section may not exceed 80 percent of the eligible costs of carrying out that activity, as determined by the Assistant Secretary, in consultation with the Corporation.

(2) WAIVER.—The Assistant Secretary may waive, in whole or in part, the requirements of paragraph (1) for good cause shown if the Assistant Secretary determines that such a waiver is in the public interest.

(c) PROGRAMMATIC REQUIREMENTS.—Not later than 6 months after the date of the incorporation of the Corporation under section 1201(a), the Assistant Secretary, in consultation with the Corporation, shall establish requirements relating to the grant program to be carried out under this section, including the following:

(1) Defining eligible costs for purposes of subsection (b)(1).

(2) Determining the scope of eligible activities for grant funding under this section.

(3) Prioritizing grants for activities that ensure coverage in rural as well as urban areas.

(d) STATE PUBLIC SAFETY BROADBAND OFFICES.—A State wishing to receive a grant under this section shall establish a State Public Safety Broadband Office to carry out the activities described in subsection (a). The Assistant Secretary may not accept a grant application unless such application certifies that the State has established such an office.

**SEC. 1213. PUBLIC SAFETY WIRELESS FACILITIES DEPLOYMENT.**

(a) IN GENERAL.—Notwithstanding section 704 of the Telecommunications Act of 1996 (Public Law 104-104) or any other provision of law, a State or local government may not deny, and shall approve, any eligible facilities request for a modification of an existing wireless tower that does not substantially change the physical dimensions of such tower.

(b) ELIGIBLE FACILITIES REQUEST.—In this section, the term “eligible facilities request” means a request that—

(1) is for a modification of an existing wireless tower that involves—

(A) collocation of new transmission equipment;

(B) removal of transmission equipment; or

(C) replacement of transmission equipment; and

(2) is made by an entity that enters into a contract with the Corporation to construct, manage, maintain, or operate the public safety broadband network for purposes of performing work under such contract.

**Subtitle C—Public Safety Communications Research and Development**

**SEC. 1221. NIST-DIRECTED PUBLIC SAFETY WIRELESS COMMUNICATIONS RESEARCH AND DEVELOPMENT.**

(a) IN GENERAL.—From amounts made available from the Public Safety Trust Fund established under section 1401, the Director of NIST, in consultation with the Commission, the Secretary of Homeland Security, and the National Institute of Justice of the Department of Justice, as appropriate, shall conduct research and assist with the development of standards, technologies, and applications to advance wireless public safety communications.

(b) REQUIRED ACTIVITIES.—In carrying out subsection (a), the Director of NIST, in consultation with the Corporation and the Technical and Operations Advisory Body established under section 1201(h), shall—

(1) document public safety wireless communications requirements;

(2) accelerate the development of the capability for communications between currently deployed public safety narrowband systems and the public safety broadband network;

(3) establish a research plan, and direct research, that addresses the wireless communications needs of public safety entities beyond what can be provided by the current generation of broadband technology;

(4) accelerate the development of mission critical voice communications, including device-to-device talkaround capability over broadband networks, public safety prioritization, authentication capabilities, and standard application programming interfaces, if necessary and practical;

(5) accelerate the development of communications technology and equipment that can facilitate the eventual migration of public safety narrowband communications to the public safety broadband network;

(6) ensure the development and testing of new, interoperable, nonproprietary broadband technologies (including applications, devices, and device components) that are designed to open standards to meet the needs of public safety entities;

(7) seek to develop technologies, standards, processes, and architectures that provide a significant improvement in network security, resiliency, and trustworthiness; and

(8) convene working groups of relevant government and commercial parties in carrying out paragraphs (1) through (7).

**Subtitle D—Next Generation 9-1-1 Services****SEC. 1231. DEFINITIONS.**

In this subtitle:

(1) 9-1-1 SERVICES, E9-1-1 SERVICES, NEXT GENERATION 9-1-1 SERVICES.—The terms “9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services” shall have the meaning given those terms in section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942), as amended by this division.

(2) EMERGENCY CALL.—The term “emergency call” has the meaning given such term in section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942), as amended by this division.

(3) MULTI-LINE TELEPHONE SYSTEM.—The term “multi-line telephone system” or “MLTS” means a system comprised of common control units, telephone sets, control hardware and software and adjunct systems, including network and premises based systems, such as Centrex and VoIP, as well as PBX, Hybrid, and Key Telephone Systems (as classified by the Commission under part 68 of title 47, Code of Federal Regulations) and includes systems owned or leased by governmental agencies and non-profit entities, as well as for profit businesses.

(4) OFFICE.—The term “Office” means the 9-1-1 Implementation Coordination Office established under section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942), as amended by this division.

(5) PUBLIC SAFETY ANSWERING POINT.—The term “public safety answering point” has the meaning given the term in section 222 of the Communications Act of 1934 (47 U.S.C. 222).

**SEC. 1232. COORDINATION OF 9-1-1 IMPLEMENTATION.**

Section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942) is amended to read as follows:

**“SEC. 158. COORDINATION OF 9-1-1, E9-1-1 AND NEXT GENERATION 9-1-1 IMPLEMENTATION.**

“(a) 9-1-1 IMPLEMENTATION COORDINATION OFFICE.—

“(1) ESTABLISHMENT AND CONTINUATION.—The Assistant Secretary and the Administrator of the National Highway Traffic Safety Administration shall—

“(A) establish and further a program to facilitate coordination and communication between Federal, State, and local emergency communications systems, emergency personnel, public safety organizations, telecommunications carriers, and telecommunications equipment manufacturers and vendors involved in the implementation of 9-1-1 services; and

“(B) establish a 9-1-1 Implementation Coordination Office to implement the provisions of this section.

“(2) MANAGEMENT PLAN.—

“(A) DEVELOPMENT.—The Assistant Secretary and the Administrator shall develop a management plan for the grant program established under this section, including by developing—

“(i) plans related to the organizational structure of such program; and

“(ii) funding profiles for each fiscal year of the 5-year duration of such program.

“(B) SUBMISSION TO CONGRESS.—Not later than 90 days after the date of enactment of the Wireless Innovation and Public Safety Act of 2011, the Assistant Secretary and the Administrator shall submit the management plan developed under subparagraph (A) to—

“(i) the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and

“(ii) the Committees on Energy and Commerce and Appropriations of the House of Representatives.

“(3) PURPOSE OF OFFICE.—The Office shall—

“(A) take actions, in concert with coordinators designated in accordance with subsection (b)(3)(A)(ii), to improve coordination and communication with respect to the implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services;

“(B) develop, collect, and disseminate information concerning practices, procedures, and technology used in the implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services;

“(C) advise and assist eligible entities in the preparation of implementation plans required under subsection (b)(3)(A)(iii);

“(D) receive, review, and recommend the approval or disapproval of applications for grants under subsection (b); and

“(E) oversee the use of funds provided by such grants in fulfilling such implementation plans.

“(4) REPORTS.—The Assistant Secretary and the Administrator shall provide an annual report to Congress by the first day of October of each year on the activities of the Office to improve coordination and communication with respect to the implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services.

“(b) 9-1-1, E9-1-1 AND NEXT GENERATION 9-1-1 IMPLEMENTATION GRANTS.—

“(1) MATCHING GRANTS.—The Assistant Secretary and the Administrator, acting through the Office, shall provide grants to eligible entities for—

“(A) the implementation and operation of 9-1-1 services, E9-1-1 services, migration to an IP-enabled emergency network, and adoption and operation of Next Generation 9-1-1 services and applications;

“(B) the implementation of IP-enabled emergency services and applications enabled by Next Generation 9-1-1 services, including the establishment of IP backbone networks and the application layer software infrastructure needed to interconnect the multitude of emergency response organizations; and

“(C) training public safety personnel, including call-takers, first responders, and other individuals and organizations who are part of the emergency response chain in 9-1-1 services.

“(2) MATCHING REQUIREMENT.—The Federal share of the cost of a project eligible for a grant under this section shall not exceed 80 percent. The non-Federal share of the cost shall be provided from non-Federal sources unless waived by the Assistant Secretary and the Administrator.

“(3) COORDINATION REQUIRED.—In providing grants under paragraph (1), the Assistant Secretary and the Administrator shall require an eligible entity to certify in its application that—

“(A) in the case of an eligible entity that is a State government, the entity—

“(i) has coordinated its application with the public safety answering points located within the jurisdiction of such entity;

“(ii) has designated a single officer or governmental body of the entity to serve as the coordinator of implementation of 9-1-1 services, except that such designation need not vest such coordinator with direct legal authority to implement 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services or to manage emergency communications operations;

“(iii) has established a plan for the coordination and implementation of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services; and

“(iv) has integrated telecommunications services involved in the implementation and delivery of 9-1-1 services, E9-1-1 services, and Next Generation 9-1-1 services; or

“(B) in the case of an eligible entity that is not a State, the entity has complied with clauses (i), (iii), and (iv) of subparagraph (A), and the State in which it is located has complied with clause (ii) of such subparagraph.

“(4) CRITERIA.—Not later than 120 days after the submission of the report required under section 1237 of the Wireless Innovation and Public Safety Act of 2011, the Assistant Secretary and the Administrator shall issue regulations, after providing the public with notice and an opportunity to comment, prescribing the criteria for selection for grants under this section. The criteria shall include performance requirements and a timeline for completion of any project to be financed by a grant under this section. The Assistant Secretary and the Administrator shall update such regulations as necessary.

“(c) DIVERSION OF 9-1-1 CHARGES.—

“(1) DESIGNATED 9-1-1 CHARGES.—For the purposes of this subsection, the term ‘designated 9-1-1 charges’ means any taxes, fees, or other charges imposed by a State or other taxing jurisdiction that are designated or presented as dedicated to deliver or improve 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services.

“(2) CERTIFICATION.—Each applicant for a matching grant under this section shall certify to the Assistant Secretary and the Administrator at the time of application, and each applicant that receives such a grant shall certify to the Assistant Secretary and the Administrator annually thereafter during any period of time during which the funds from the grant are available to the applicant, that no portion of any designated 9-1-1 charges imposed by a State or other taxing jurisdiction within which the applicant is located are being obligated or expended for any purpose other than the purposes for which such charges are designated or presented during the period beginning 180 days immediately preceding the date of the application and continuing through the period of time during which the funds from the grant are available to the applicant.

“(3) CONDITION OF GRANT.—Each applicant for a grant under this section shall agree, as a condition of receipt of the grant, that if the State or other taxing jurisdiction within which the applicant is located, during any period of time during which the funds from the grant are available to the applicant, obligates or expends designated 9-1-1 charges for any purpose other than the purposes for which such charges are designated or presented, eliminates such charges, or re-designates such charges for purposes other than the implementation or operation of 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services, all of the funds from such grant shall be returned to the Office.

“(4) PENALTY FOR PROVIDING FALSE INFORMATION.—Any applicant that provides a certification under paragraph (1) knowing that the information provided in the certification was false shall—

“(A) not be eligible to receive the grant under subsection (b);

“(B) return any grant awarded under subsection (b) during the time that the certification was not valid; and

“(C) not be eligible to receive any subsequent grants under subsection (b).

“(d) AUTHORIZATION AND TERMINATION.—

“(1) AUTHORIZATION.—

“(A) IN GENERAL.—There are authorized to be appropriated to the Secretary of Commerce, for the purposes of carrying out grants under this section, \$250,000,000 total for the 5-year period described in subparagraph (C).

“(B) LIMITATION.—Of the amounts made available to the Secretary of Commerce under this paragraph in a fiscal year, not more than 5 percent of such amounts may be obligated or expended to cover the administrative costs of carrying out this section.

“(C) PERIOD.—The 5-year period under subparagraph (A) begins on the first day of the fiscal year that begins following the date of the submission of the report required under section 1237 of the Wireless Innovation and Public Safety Act of 2011.

“(2) TERMINATION.—Effective on the day after the end of the 5-year period described in paragraph (1)(C), the authority provided by this section terminates and this section shall have no effect.

“(e) DEFINITIONS.—In this section:

“(1) 9-1-1 SERVICES.—The term ‘9-1-1 services’ includes both E9-1-1 services and Next Generation 9-1-1 services.

“(2) E9-1-1 SERVICES.—The term ‘E9-1-1 services’ means both phase I and phase II enhanced 9-1-1 services, as described in section 20.18 of the Commission’s regulations (47 C.F.R. 20.18), as in effect on the date of enactment of the Wireless Innovation and Public Safety Act of 2011, or as subsequently revised by the Commission.

“(3) ELIGIBLE ENTITY.—

“(A) IN GENERAL.—The term ‘eligible entity’ means a State or local government or a tribal organization (as defined in section 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(1))).

“(B) INSTRUMENTALITIES.—The term ‘eligible entity’ includes public authorities, boards, commissions, and similar bodies created by 1 or more eligible entities described in subparagraph (A) to provide 9-1-1 service, E9-1-1 services, or Next Generation 9-1-1 services.

“(C) EXCEPTION.—The term ‘eligible entity’ does not include any entity that has failed to submit the most recently required certification under subsection (c) within 30 days after the date on which such certification is due.

“(4) EMERGENCY CALL.—The term ‘emergency call’ means any real-time communication with a public safety answering point or other emergency management or response agency, including—

“(A) through voice, text, or video and related data; and

“(B) nonhuman-initiated automatic event alerts, such as alarms, telematics, or sensor data, which may also include real-time voice, text, or video communications.

“(5) NEXT GENERATION 9-1-1 SERVICES.—The term ‘Next Generation 9-1-1 services’ means an IP-based system comprised of hardware, software, data, and operational policies and procedures that—

“(A) provides standardized interfaces from emergency call and message services to support emergency communications;

“(B) processes all types of emergency calls, including voice, text, data, and multimedia information;

“(C) acquires and integrates additional emergency call data useful to call routing and handling;

“(D) delivers the emergency calls, messages, and data to the appropriate public safety answering point and other appropriate emergency entities;

“(E) supports data or video communications needs for coordinated incident response and management; and

“(F) provides broadband service to public safety answering points or other first responder entities.

“(6) OFFICE.—The term ‘Office’ means the 9-1-1 Implementation Coordination Office.

“(7) PUBLIC SAFETY ANSWERING POINT.—The term ‘public safety answering point’ has the meaning given the term in section 222 of the Communications Act of 1934 (47 U.S.C. 222).

“(8) STATE.—The term ‘State’ means any State of the United States, the District of Columbia, Puerto Rico, American Samoa, Guam, the United States Virgin Islands, the Northern Mariana Islands, and any other territory or possession of the United States.”

#### SEC. 1233. REQUIREMENTS FOR MULTI-LINE TELEPHONE SYSTEMS.

(a) IN GENERAL.—Not later than 270 days after the date of the enactment of this Act, the Administrator of General Services, in conjunction with the Office, shall issue a report to Congress identifying the 9-1-1 capabilities of the multi-line telephone system in use by all Federal agencies in all Federal buildings and properties.

(b) COMMISSION ACTION.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Commission shall issue a public notice seeking comment on the feasibility of requiring MLTS manufacturers to include within all such systems manufactured or sold after a date certain, to be determined by the Commission, one or more mechanisms to provide a sufficiently precise indication of a 9-1-1 caller’s location, while avoiding the imposition of undue burdens on MLTS manufacturers, providers, and operators.

(2) SPECIFIC REQUIREMENT.—The public notice under paragraph (1) shall seek comment on the National Emergency Number Association’s “Technical Requirements Document On Model Legislation E9-1-1 for Multi-Line Telephone Systems” (NENA 06-750, Version 2).

#### SEC. 1234. GAO STUDY OF STATE AND LOCAL USE OF 9-1-1 SERVICE CHARGES.

(a) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the Comptroller General of the United States shall initiate a study of—

(1) the imposition of taxes, fees, or other charges imposed by States or political subdivisions of States that are designated or presented as dedicated to improve emergency communications services, including 9-1-1 services or enhanced 9-1-1 services, or related to emergency communications services operations or improvements; and

(2) the use of revenues derived from such taxes, fees, or charges.

(b) REPORT.—Not later than 18 months after initiating the study required by subsection (a), the Comptroller General shall prepare and submit a report on the results of the study to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives setting forth the findings, conclusions, and recommendations, if any, of the study, including—

(1) the identity of each State or political subdivision that imposes such taxes, fees, or other charges; and

(2) the amount of revenues obligated or expended by that State or political subdivision for any purpose other than the purposes for which such taxes, fees, or charges were designated or presented.

**SEC. 1235. PARITY OF PROTECTION FOR PROVISION OR USE OF NEXT GENERATION 9-1-1 SERVICE.**

(a) **IMMUNITY.**—A provider or user of Next Generation 9-1-1 services, a public safety answering point, and the officers, directors, employees, vendors, agents, and authorizing government entity (if any) of such provider, user, or public safety answering point, shall have immunity and protection from liability under Federal and State law to the extent provided in subsection (b) with respect to—

(1) the release of subscriber information related to emergency calls or emergency services;

(2) the use or provision of 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services; and

(3) other matters related to 9-1-1 services, E9-1-1 services, or Next Generation 9-1-1 services.

(b) **SCOPE OF IMMUNITY AND PROTECTION FROM LIABILITY.**—The scope and extent of the immunity and protection from liability afforded under subsection (a) shall be the same as that provided under section 4 of the Wireless Communications and Public Safety Act of 1999 (47 U.S.C. 615a) to wireless carriers, public safety answering points, and users of wireless 9-1-1 service (as defined in paragraphs (4), (3), and (6), respectively, of section 6 of that Act (47 U.S.C. 615b)) with respect to such release, use, and other matters.

**SEC. 1236. COMMISSION PROCEEDING ON AUTODIALING.**

(a) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the Commission shall initiate a proceeding to create a specialized Do-Not-Call registry for public safety answering points.

(b) **FEATURES OF THE REGISTRY.**—The Commission shall issue regulations, after providing the public with notice and an opportunity to comment, that—

(1) permit verified public safety answering point administrators or managers to register the telephone numbers of all 9-1-1 trunks and other lines used for the provision of emergency services to the public or for communications between public safety agencies;

(2) provide a process for verifying, no less frequently than once every 7 years, that registered numbers should continue to appear upon the registry;

(3) provide a process for granting and tracking access to the registry by the operators of automatic dialing equipment;

(4) protect the list of registered numbers from disclosure or dissemination by parties granted access to the registry; and

(5) prohibit the use of automatic dialing or “robocall” equipment to establish contact with registered numbers.

(c) **ENFORCEMENT.**—The Commission shall—

(1) establish monetary penalties for violations of the protective regulations established pursuant to subsection (b)(4) of not less than \$100,000 per incident nor more than \$1,000,000 per incident;

(2) establish monetary penalties for violations of the prohibition on automatically dialing registered numbers established pursuant to subsection (b)(5) of not less than \$10,000 per call nor more than \$100,000 per call; and

(3) provide for the imposition of fines under paragraphs (1) or (2) that vary depending upon whether the conduct leading to the violation was negligent, grossly negligent, reckless, or willful, and depending on whether the violation was a first or subsequent offense.

**SEC. 1237. NHTSA REPORT ON COSTS FOR REQUIREMENTS AND SPECIFICATIONS OF NEXT GENERATION 9-1-1 SERVICES.**

(a) **IN GENERAL.**—Using amounts made available from the Public Safety Trust Fund under section 1401, not later than 1 year after the date of the enactment of this Act, the Administrator of the National Highway Traffic Safety Administration, in consultation with the Commission, the Secretary of Homeland Security, and the Office, shall prepare and submit to Congress a report that analyzes and determines detailed costs for specific Next Generation 9-1-1 service requirements and specifications.

(b) **CONTENTS.**—The report required under subsection (a) shall include the following:

(1) How costs would be allocated geographically or among public safety answering points, broadband service providers, and third-party providers of Next Generation 9-1-1 services.

(2) An assessment of the current state of Next Generation 9-1-1 service readiness among public safety answering points.

(3) How differences in public safety answering points' access to broadband across the United States may affect costs.

(4) A technical analysis and cost study of different delivery platforms, such as wireline, wireless, and satellite.

(5) An assessment of the architectural characteristics, feasibility, and limitations of Next Generation 9-1-1 service delivery.

(6) An analysis of the needs for Next Generation 9-1-1 service of persons with disabilities.

(7) Standards and protocols for Next Generation 9-1-1 service and for incorporating Voice over Internet Protocol and real-time text standards.

**SEC. 1238. FCC RECOMMENDATIONS FOR LEGAL AND STATUTORY FRAMEWORK FOR NEXT GENERATION 9-1-1 SERVICES.**

Not later than 1 year after the date of the enactment of this Act, the Commission, in coordination with the Secretary of Homeland Security, the Administrator of the National Highway Traffic Safety Administration, and the Office, shall prepare and submit a report to Congress that contains recommendations for the legal and statutory framework for Next Generation 9-1-1 services, consistent with recommendations in the National Broadband Plan developed by the Commission pursuant to the American Recovery and Reinvestment Act of 2009, including the following:

(1) A legal and regulatory framework for the development of Next Generation 9-1-1 services and the transition from legacy 9-1-1 to Next Generation 9-1-1 services.

(2) Legal mechanisms to ensure efficient and accurate transmission of 9-1-1 caller information to emergency management or response agencies.

(3) Recommendations for removing jurisdictional barriers and inconsistent legacy regulations, including—

(A) proposals that would require States to remove regulatory impediments to Next Generation 9-1-1 services development, while recognizing the appropriate role of the States;

(B) eliminating outdated 9-1-1 regulations at the Federal level; and

(C) preempting inconsistent State regulations.

**TITLE III—SPECTRUM AUCTION AUTHORITY****SEC. 1301. DEADLINES FOR AUCTION OF CERTAIN SPECTRUM.**

(a) **IN GENERAL.**—

(1) **AUCTION.**—The Commission shall, through competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), assign licenses for the use of the electromagnetic spectrum described in paragraph (2) in accordance with the timetable set forth in paragraph (3).

(2) **SPECTRUM DESCRIBED.**—The spectrum described in this paragraph is the following:

(A) The frequencies from 2155 megahertz to 2180 megahertz.

(B) The frequencies from 1755 megahertz to 1780 megahertz, except that if—

(i) the President determines that such frequencies cannot be reallocated for non-Federal use due to the need to protect incumbent Federal operations from interference; and

(ii) the President identifies other spectrum the reallocation for non-Federal use of which better serves the public interest, convenience, and necessity and that can reasonably be expected to produce comparable auction receipts; the spectrum described in this subparagraph shall be the spectrum identified by the President under clause (ii).

(C) The frequencies from 1695 megahertz to 1710 megahertz, except for the geographic exclusion zones (as such zones may be amended) identified in the report of the NTIA published in October 2010 and entitled “An Assessment of Near-Term Viability of Accommodating Wireless Broadband Systems in 1675–1710 MHz, 1755–1780 MHz, 3500–3650 MHz, and 4200–4220 MHz, 4380–4400 MHz Bands”.

(D) Fifteen megahertz of contiguous spectrum identified by the Commission to be paired with the spectrum described in subparagraph (C).

(E) The frequencies from 1780 megahertz to 1850 megahertz, except that if—

(i) the President determines that such frequencies cannot be reallocated for non-Federal use due to the need to protect incumbent Federal operations from interference; and

(ii) the President identifies other spectrum the reallocation for non-Federal use of which better serves the public interest, convenience, and necessity and that can reasonably be expected to produce comparable auction receipts; the spectrum described in this subparagraph shall be the spectrum identified by the President under clause (ii).

(3) **TIMETABLE.**—Notwithstanding paragraph (15)(A) of such section 309(j), the Commission shall complete all actions necessary in order to—

(A) in the case of licenses for the use of the spectrum described in subparagraphs (A) and (B) of paragraph (2)—

(i) commence the bidding process not later than January 31, 2014; and

(ii) deposit the available proceeds in accordance with paragraph (8) of such section not later than June 30, 2014;

(B) in the case of licenses for the use of the spectrum described in subparagraphs (C) and (D) of paragraph (2)—

(i) commence the bidding process not later than January 31, 2018; and

(ii) deposit the available proceeds in accordance with paragraph (8) of such section not later than June 30, 2018; and

(C) in the case of licenses for the use of the spectrum described in subparagraph (E) of paragraph (2)—

(i) commence the bidding process not later than January 31, 2020; and

(ii) deposit the available proceeds in accordance with paragraph (8) of such section not later than June 30, 2020.

(4) **NOTIFICATION TO PRESIDENT.**—Not later than 6 months before each auction of frequencies under paragraph (1) in which any frequency assigned to a Federal Government station will be auctioned, the Commission shall notify the President of the date when such auction will begin and the frequencies to be auctioned.

(5) **WITHDRAWAL FROM FEDERAL USE.**—Notwithstanding section 1062(b) of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106-65; 47 U.S.C. 921 note), upon receipt of a notification from the Commission under paragraph (4) with respect to an auction of frequencies, the President shall withdraw the assignment to a Federal Government station of any such frequency.

(6) **DELAYED OR PHASED REALLOCATION OF CERTAIN FEDERAL SPECTRUM.**—If the President determines that reallocation for non-Federal use of the spectrum described in subparagraph (E) of paragraph (2) must be delayed or conducted in phases to ensure protection from interference of or continuity of incumbent Federal operations, the President may delay the withdrawal under paragraph (5) of the assignment of such spectrum to a Federal Government station until such time as the President considers necessary to ensure such protection, but in no case later than January 31, 2020.

(b) **AUCTION OF CERTAIN OTHER SPECTRUM.**—

(1) **AUCTION.**—In accordance with the timetable set forth in paragraph (2), the Commission shall assign through competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), or reallocate for unlicensed use, the electromagnetic spectrum between the frequencies from 3550 megahertz to 3650 megahertz, except for the geographic exclusion zones (as such zones may be amended) identified in the report of the NTIA published in October 2010 and entitled “An Assessment of Near-Term Viability of Accommodating Wireless Broadband Systems in 1675–1710 MHz, 1755–1780 MHz, 3500–3650 MHz, and 4200–4220 MHz, 4380–4400 MHz Bands”.

(2) **TIMETABLE.**—Notwithstanding paragraph (15)(A) of such section, the Commission shall complete all actions necessary in order to—

(A) commence the bidding process, or commence reallocation for unlicensed use, not later than 3 years after the date of the enactment of this Act; and

(B) deposit the available proceeds in accordance with paragraph (8) of such section not later than 6 months thereafter.

(3) **NOTIFICATION TO PRESIDENT.**—Not later than 6 months before each auction of frequencies under paragraph (1), or the reallocation for unlicensed use of any frequency described in such paragraph, the Commission shall notify the President of the date when such auction will begin or such reallocation will occur and the frequencies to be auctioned or reallocated.

(4) **WITHDRAWAL FROM FEDERAL USE.**—Upon receipt of a notification from the Commission under paragraph (3) with respect to an auction or reallocation of frequencies, the President shall withdraw the assignment to a Federal Government station of any such frequency.

(c) **AUCTION PROCEEDS.**—Section 309(j)(8) of the Communications Act of 1934 (47 U.S.C. 309(j)(8)) is amended—

(1) in subparagraph (A), by striking “(B), (D), and (E),” and inserting “(B), (D), (E), (F), and (G),”;

(2) in subparagraph (C)—

(A) in clause (i), by striking “subparagraph (B)(ii)” and inserting “subparagraphs (D)(ii), (E)(ii), (F), and (G)(iv)”;

(B) in clause (iii)—

(i) by striking the period at the end and inserting a semicolon;

(ii) by striking “shall be” and inserting the following:

“(I) before the date of the enactment of the Wireless Innovation and Public Safety Act of 2011, shall be”; and

(iii) by adding at the end the following:

“(II) during the 10-year period beginning on the date of the enactment of the Wireless Innovation and Public Safety Act of 2011, shall be transferred to the Public Safety Broadband Corporation established under section 1201(a)(1) of such Act for use by the Corporation to carry out its duties and responsibilities under titles I and II of such Act; and

“(III) after such period, shall be transferred to the general fund of the Treasury for the sole purpose of deficit reduction.”;

(3) in subparagraph (D)—

(A) by striking the heading and inserting “PROCEEDS FROM REALLOCATED FEDERAL SPECTRUM”;

(B) by striking “Cash” and inserting the following:

“(i) **IN GENERAL.**—Except as provided in clause (ii), cash”; and

(C) by adding at the end the following:

“(ii) **CERTAIN OTHER PROCEEDS.**—Except as provided in subparagraph (B), in the case of proceeds (including deposits and upfront payments from successful bidders) attributable to the auction of eligible frequencies described in paragraph (2) of section 113(g) of the National Telecommunications and Information Administration Organization Act that are required to be auctioned by subsection (a)(1) or (b)(1) of section 1301 of the Wireless Innovation and Public Safety Act of 2011, such portion of such proceeds as is necessary to cover the relocation costs and sharing costs (as defined in paragraph (3) of such section 113(g)) of Federal entities relocated from or sharing such eligible frequencies shall be deposited in the Spectrum Relocation Fund. The remainder of such proceeds shall be deposited in the Public Safety Trust Fund established by section 1401(a)(1) of such Act.”; and

(4) by adding at the end the following new subparagraph:

“(F) **CERTAIN PROCEEDS DESIGNATED FOR PUBLIC SAFETY TRUST FUND.**—Except as provided in subparagraphs (B) and (D), the proceeds (including deposits and upfront payments from successful bidders) from the use of a system of competitive bidding under this subsection pursuant to subsections (a)(1) and (b)(1) of section 1301 of the Wireless Innovation and Public Safety Act of 2011 shall be deposited in the Public Safety Trust Fund established by section 1401(a)(1) of such Act.”

(d) **EXTENSION OF AUCTION AUTHORITY.**—Section 309(j)(11) of the Communications Act of 1934 (47 U.S.C. 309(j)(11)) is amended by striking “2012” and inserting “2021”.

#### **SEC. 1302. INCENTIVE AUCTION AUTHORITY.**

(a) **IN GENERAL.**—Section 309(j)(8) of the Communications Act of 1934, as amended by section 1301(c), is further amended by adding at the end the following new subparagraph:

“(G) **INCENTIVE AUCTION AUTHORITY.**—

“(i) **IN GENERAL.**—If the Commission determines that it is consistent with the public interest in utilization of the spectrum for a licensee to voluntarily relinquish some or all of its licensed rights for the use of spectrum in order to permit—

“(I) through competitive bidding under this subsection, the assignment of initial licenses subject to new service rules, on a flexible-use basis to the extent technologically feasible; or

“(II) the allocation of spectrum for unlicensed use;

the Commission may disburse to such licensee, from the proceeds from competitive bidding for any spectrum usage rights made available by reason of relinquishments under this subparagraph, an amount that the Commission considers appropriate, based on the value of the rights relinquished by such licensee.

“(ii) **FACTORS FOR CONSIDERATION.**—In considering whether to accept the voluntary relinquishment of licensed spectrum usage rights of a licensee and share proceeds with such licensee under clause (i), the Commission shall consider the following factors:

“(I) The conditions under which such licensee could maintain the license and whether such licensee is in compliance with the license terms.

“(II) The extent to which such relinquishment would serve the public interest, convenience, and necessity.

“(iii) **COVERAGE AREA REQUIREMENTS.**—In assigning licenses under this subparagraph, the Commission shall make all reasonable efforts to ensure that there is an adequate opportunity for applicants to submit bids for licenses covering both large and small geographic areas, as such areas are determined by the Commission.

“(iv) **TREATMENT OF REVENUES.**—Except as provided in subparagraph (B), all proceeds (including deposits and upfront payments from successful bidders) from the auction of spectrum usage rights made available by relinquishments under this subparagraph shall be deposited in the Public Safety Trust Fund established by section 1401(a)(1) of the Wireless Innovation and Public Safety Act of 2011.”

(b) **SPECIAL RULES FOR TELEVISION BROADCAST SPECTRUM.**—

(1) **GENERAL AUTHORITY TO REORGANIZE.**—In order to create a geographically contiguous band of spectrum across the United States, the Commission shall—

(A) create a framework to make available such portions of the television broadcast spectrum as the Commission considers appropriate; and

(B) require television broadcast station licensees and other licensees to relocate, as the Commission considers appropriate.

(2) **VOLUNTARY NATURE OF INCENTIVE AUCTIONS.**—Except as provided in paragraphs (3) and (4), reclamation or modification of spectrum usage rights of a television broadcast station licensee for the purpose of providing spectrum usage rights to carry out an incentive auction under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by subsection (a), shall be on a voluntary basis.

(3) **RECLAMATION IN EXCHANGE FOR RIGHTS TO SUBSTANTIALLY EQUIVALENT SPECTRUM.**—

(A) **IN GENERAL.**—The Commission may reclaim the spectrum usage rights of a television broadcast station licensee for the purpose of providing spectrum usage rights to carry out an incentive auction under section 309(j)(8)(G) of the Communications Act of 1934 if the Commission assigns to such licensee the rights to use an identical amount of contiguous spectrum, in the same geographic market.

(B) **SUBSTANTIAL EQUIVALENCE.**—The Commission shall ensure, to the extent technically feasible, in the public interest, and

consistent with the goals of the auction, that spectrum usage rights assigned under subparagraph (A) enable a licensee to offer service that is substantially similar in service contour, population covered, and amount of harmful interference to the service offered by such licensee on the spectrum the rights to which are reclaimed by the Commission under such subparagraph.

(C) **RELOCATION COSTS.**—The costs incurred by a licensee in relocating to an identical amount of spectrum under subparagraph (A) shall be paid from the Incentive Auction Relocation Fund established by paragraph (6).

(4) **MODIFICATION OF RIGHTS AND COMPENSATION.**—

(A) **MODIFICATION.**—If the Commission determines that it is in the public interest to modify the spectrum usage rights of a television broadcast station licensee for the purpose of providing spectrum usage rights to carry out an incentive auction under section 309(j)(8)(G) of the Communications Act of 1934, the Commission may make the modification and compensate such licensee for the reduction in spectrum usage rights from the Incentive Auction Relocation Fund established by paragraph (6).

(B) **LEAST MODIFICATION TECHNICALLY FEASIBLE.**—To the extent technically feasible and in the public interest, in making a modification of the spectrum usage rights of a television broadcast station licensee under subparagraph (A), the Commission shall make reasonable efforts to—

(i) preserve the amount of population covered by the signal of such licensee within the service area of such licensee; and

(ii) avoid any substantial increase in harmful interference to the signal of such licensee as a result of the modification.

(5) **LIMITATIONS.**—

(A) **CO-LOCATION.**—In the reorganization of the television broadcast spectrum under this subsection—

(i) the Commission may not involuntarily co-locate multiple television broadcast station licensees on the same channel; and

(ii) each television broadcast station licensee voluntarily electing to be co-located shall have the carriage rights under sections 338, 614, and 615 of the Communications Act of 1934 (47 U.S.C. 338; 534; 535) that it would have had if it had been the sole television broadcast station licensee located at the shared location on November 30, 2010.

(B) **NO INVOLUNTARY RELOCATION FROM UHF TO VHF.**—In the reorganization of the television broadcast spectrum under this subsection, the Commission may not involuntarily reassign a licensee from a television channel located between 470 megahertz and 608 megahertz to a television channel located between 54 megahertz and 216 megahertz.

(6) **ESTABLISHMENT OF INCENTIVE AUCTION RELOCATION FUND.**—

(A) **IN GENERAL.**—There is established in the Treasury of the United States a fund to be known as the Incentive Auction Relocation Fund.

(B) **DEPOSITS.**—There shall be deposited in the Incentive Auction Relocation Fund the amounts specified in section 1401(b)(2).

(C) **AVAILABILITY.**—Amounts in the Incentive Auction Relocation Fund shall be available to the Assistant Secretary for use—

(i) without fiscal year limitation;

(ii) without further appropriation;

(iii) in the case of availability for payment of the costs of a particular television broadcast station licensee described in subparagraph (D)(i)(I), for a period not to exceed 18 months following the latest of—

(I) completion of the auction under section 309(j) of the Communications Act of 1934 (47

U.S.C. 309(j)) from which such amounts were derived;

(II) the issuance by the Commission to such licensee of a construction permit to allow such licensee to change channels or geographic locations; or

(III) notification by such licensee to the Assistant Secretary that such licensee has incurred or will incur costs as a result of such a change;

(iv) in the case of availability for payment of costs of a particular multichannel video programming distributor described in subparagraph (D)(i)(II), for a period not to exceed 18 months following the later of—

(I) completion of the auction under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)) from which such amounts were derived; or

(II) notification by such multichannel video programming distributor to the Assistant Secretary that such multichannel video programming distributor has incurred or will incur such costs; and

(v) before January 1, 2018.

(D) **USE OF FUNDS.**—

(i) **IN GENERAL.**—Amounts in the Incentive Auction Relocation Fund may only be used by the Assistant Secretary, in consultation with the Commission, to cover—

(I) the costs, including the costs of new equipment, installation, and construction (including the costs of tower, antenna, transmitter, and transmission line upgrades), incurred by television broadcast station licensees as a result of—

(aa) relocation to an identical amount of contiguous spectrum under paragraph (3); or

(bb) modification of spectrum usage rights under paragraph (4);

(II) the costs of multichannel video programming distributors (as defined in section 602(13) of the Communications Act of 1934 (47 U.S.C. 522(13))) to continue complying with any carriage obligations under sections 338, 614, and 615 of such Act (47 U.S.C. 338; 534; 535), if such costs were incurred as a result of—

(aa) voluntary relinquishment by television broadcast station licensees of spectrum usage rights under section 309(j)(8)(G) of such Act;

(bb) relocation of television broadcast station licensees to an identical amount of contiguous spectrum under paragraph (3); or

(cc) modification of the spectrum usage rights of television broadcast station licensees under paragraph (4); and

(III) the expenses incurred by the Assistant Secretary in administering the Fund.

(ii) **PROHIBITION.**—Amounts in the Incentive Auction Relocation Fund may not be used to cover—

(I) lost revenues; or

(II) costs incurred by a television broadcast station licensee as a result of a voluntary relinquishment of rights.

(iii) **REASONABLENESS.**—The Assistant Secretary may only make payments under clause (i) to cover costs that were reasonably incurred, as determined by the Assistant Secretary, in consultation with the Commission.

(7) **CONFIDENTIALITY.**—The Commission shall protect the confidentiality of the identity of a television broadcast station licensee offering to relinquish spectrum usage rights under section 309(j)(8)(G) of the Communications Act of 1934 until the relinquishment becomes effective.

(8) **DEADLINES FOR REORGANIZATION OF TELEVISION BROADCAST SPECTRUM.**—

(A) **RULEMAKING.**—Not later than 18 months after the date of the enactment of

this Act, the Commission shall complete a rulemaking proceeding to establish a process for carrying out the reorganization of the television broadcast spectrum under this subsection.

(B) **AUCTIONS.**—The Commission shall take all actions necessary in order to, with respect to the portions of the television broadcast spectrum made available through the reorganization under this subsection—

(i) not later than January 31, 2016—

(I) commence the bidding process under section 309(j)(8)(G) of the Communications Act of 1934 to assign initial licenses subject to new service rules, on a flexible-use basis to the extent technologically feasible; or

(II) allocate such spectrum for unlicensed use; and

(ii) not later than June 30, 2016, deposit the available proceeds in accordance with such section.

(9) **LIMITATION.**—During the period beginning on the date of the enactment of this Act and ending on June 30, 2016, the Commission may conduct only 1 process involving reorganization of the television broadcast spectrum under this subsection.

(10) **CERTAIN PROVISIONS INAPPLICABLE.**—The following provisions of the Communications Act of 1934 shall not apply in the case of the reorganization of television broadcast spectrum under this subsection or the auction under section 309(j)(8)(G) of such Act of the spectrum made available through such reorganization: section 307(b), the 2nd and 3rd sentences and subparagraphs (A) and (F) of section 309(j)(3), subparagraphs (A), (C), and (D) of section 309(j)(4), section 309(j)(15)(A), section 316, and section 331.

(11) **DEFINITIONS.**—In this subsection:

(A) **TELEVISION BROADCAST SPECTRUM.**—The term “television broadcast spectrum” means the portions of the electromagnetic spectrum between the frequencies from 54 megahertz to 72 megahertz, from 76 megahertz to 88 megahertz, from 174 megahertz to 216 megahertz, from 470 megahertz to 608 megahertz, and from 614 megahertz to 698 megahertz.

(B) **TELEVISION BROADCAST STATION LICENSEE.**—The term “television broadcast station licensee” means the licensee of—

(i) a full-power television station; or

(ii) low-power television station that has been accorded primary status as a Class A television licensee under section 73.6001(a) of title 47, Code of Federal Regulations.

(12) **EXPIRATION.**—The preceding paragraphs of this subsection, except paragraphs (6) and (11), shall not apply after June 30, 2016.

(c) **INCENTIVE AUCTIONS TO REPURPOSE CERTAIN MOBILE SATELLITE SERVICE SPECTRUM FOR TERRESTRIAL BROADBAND USE.**—

(1) **IN GENERAL.**—To the extent that the Commission makes available, after the date of the enactment of this Act, initial spectrum licenses for the use of some or all of the spectrum described in paragraph (2) for terrestrial broadband use, such licenses shall be assigned through a system of competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), including, as appropriate, paragraph (8)(G) of such section.

(2) **SPECTRUM DESCRIBED.**—The spectrum described in this paragraph is the following:

(A) The frequencies from 1525 megahertz to 1544 megahertz, from 1545 megahertz to 1559 megahertz, from 1626.5 megahertz to 1645.5 megahertz, and from 1646.5 megahertz to 1660.5 megahertz (the L band).

(B) The frequencies from 1610 megahertz to 1626.5 megahertz and from 2483.5 megahertz to 2500 megahertz (the Big LEO band).

(C) The frequencies from 2000 megahertz to 2020 megahertz and from 2180 megahertz to 2200 megahertz (the S band).

(3) **RETENTION OF COMMISSION AUTHORITY.**—Nothing in this subsection shall modify or restrict the authority of the Commission to grant a waiver under section 316 of the Communications Act of 1934 (47 U.S.C. 316) to an existing mobile satellite service licensee to afford such licensee additional flexibility to provide terrestrial broadband services.

**TITLE IV—PUBLIC SAFETY TRUST FUND**  
**SEC. 1401. PUBLIC SAFETY TRUST FUND.**

(a) **ESTABLISHMENT OF PUBLIC SAFETY TRUST FUND.**—

(1) **IN GENERAL.**—There is established in the Treasury of the United States a trust fund to be known as the Public Safety Trust Fund.

(2) **DEPOSIT OF RECEIPTS.**—

(A) **IN GENERAL.**—There shall be deposited in the Public Safety Trust Fund the proceeds from the auction of spectrum required to be deposited in the Fund by subparagraphs (D)(ii), (F), and (G) of section 309(j)(8) of the Communications Act of 1934, as added by sections 1301(c)(3)(C), 1301(c)(4), and 1302(a), respectively.

(B) **AVAILABILITY.**—Amounts deposited in the Public Safety Trust Fund in accordance with subparagraph (A) shall remain available through fiscal year 2021. After the end of such fiscal year, such amounts shall be deposited in the general fund of the Treasury, where such amounts shall be dedicated for the sole purpose of deficit reduction.

(b) **USE OF FUND.**—Amounts deposited in the Public Safety Trust Fund shall be used in the following manner:

(1) **PAYMENT OF INCENTIVE AMOUNTS.**—

(A) **DISBURSALS.**—Amounts in the Public Safety Trust Fund shall be used to make the disbursements permitted by section 309(j)(8)(G)(i) of the Communications Act of 1934 to licensees who voluntarily relinquished licensed spectrum usage rights under such section.

(B) **NOTIFICATION TO CONGRESS.**—

(i) **IN GENERAL.**—At least 3 months before any incentive auction conducted under section 309(j)(8)(G) of the Communications Act of 1934, the Chairman of the Commission, in consultation with the Director of the Office of Management and Budget, shall notify the appropriate committees of Congress—

(I) of the methodology for calculating any disbursements described in subparagraph (A) that will be made from the proceeds of such auction; and

(II) that such methodology considers the value of the spectrum voluntarily relinquished in its current use and the timeliness with which the licensee cleared its use of such spectrum.

(ii) **DEFINITION.**—In this subparagraph, the term “appropriate committees of Congress” means—

(I) the Committee on Commerce, Science, and Transportation of the Senate;

(II) the Committee on Appropriations of the Senate;

(III) the Committee on Energy and Commerce of the House of Representatives; and

(IV) the Committee on Appropriations of the House of Representatives.

(2) **INCENTIVE AUCTION RELOCATION FUND.**—Not less than 5 percent but not more than \$1,000,000,000 of the amounts in the Public Safety Trust Fund shall be deposited in the Incentive Auction Relocation Fund established by section 1302(b)(6)(A).

(3) **STATE, LOCAL, AND TRIBAL PLANNING AND IMPLEMENTATION FUND.**—\$250,000,000 shall be deposited in the State, Local, and Tribal Planning and Implementation Fund established by section 1211(a).

(4) **PUBLIC SAFETY BROADBAND CORPORATION.**—\$11,000,000,000 shall be deposited with the Public Safety Broadband Corporation established under section 1201(a) for ensuring the construction, management, maintenance, and operation of the public safety broadband network.

(5) **PUBLIC SAFETY RESEARCH AND DEVELOPMENT.**—\$40,000,000 per year for each of the fiscal years 2012 through 2016 shall be made available for use by the Director of NIST to carry out the research program established under section 1221.

(6) **NHTSA REPORT ON NEXT GENERATION 9–1–1 SERVICES.**—\$2,000,000 shall be made available for fiscal years 2012 and 2013 for use by the Administrator of the National Highway Traffic Safety Administration to prepare the report on Next Generation 9–1–1 services required by section 1237.

(7) **DEFICIT REDUCTION.**—Any amounts remaining in the Public Safety Trust Fund after the deduction of the amounts required by paragraphs (1) through (6) shall be deposited in the general fund of the Treasury, where such amounts shall be dedicated for the sole purpose of deficit reduction.

(c) **INVESTMENT.**—Amounts in the Public Safety Trust Fund shall be invested in accordance with section 9702 of title 31, United States Code, and any interest on, and proceeds from, any such investment shall be credited to, and become a part of, the Fund.

**TITLE V—SPECTRUM POLICY**

**SEC. 1501. SPECTRUM INVENTORY.**

Part B of title I of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 921 et seq.) is amended by adding at the end the following:

**“SEC. 119. SPECTRUM INVENTORY.**

“(a) **RADIO SPECTRUM INVENTORY.**—In order to promote the efficient use of the electromagnetic spectrum, the Assistant Secretary and the Commission shall coordinate and carry out each of the following activities not later than 1 year after the date of enactment of this section:

“(1) Except as provided in subsection (e), create an inventory of each radio spectrum band of frequencies listed in the United States Table of Frequency Allocations, from 225 megahertz to, at a minimum, 3.7 gigahertz, and to 10 gigahertz unless the Assistant Secretary and the Commission determine that the burden of expanding the inventory outweighs the benefit, that includes—

“(A) the radio services authorized to operate in each band of frequencies;

“(B) the identity of each Federal or non-Federal user within each such radio service authorized to operate in each band of frequencies;

“(C) the activities, capabilities, functions, or missions (including whether such activities, capabilities, functions, or missions are space-based, air-based, or ground-based) supported by the transmitters, end-user terminals or receivers, or other radio frequency devices authorized to operate in each band of frequencies;

“(D) the total amount of spectrum, by band of frequencies, assigned or licensed to each Federal or non-Federal user (in percentage terms and in sum) and the geographic areas covered by their respective assignments or licenses; and

“(E) to the greatest extent possible—

“(i) the approximate number of transmitters, end-user terminals or receivers, or other radio frequency devices authorized to operate, as appropriate to characterize the extent of use of each radio service in each band of frequencies;

“(ii) an approximation of the extent to which each Federal or non-Federal user is using, by geography, each band of frequencies, such as the amount and percentage of time of use, number of end users, or other measures as appropriate to the particular band and radio service;

“(iii) contour maps or other information that illustrates the coverage area, receiver performance, and other parameters relevant to an assessment of the availability of spectrum in each band;

“(iv) for each band or range of frequencies, the identity of each entity offering unlicensed services and the types and approximate number of unlicensed intentional radiators verified or certified by the Commission that are authorized to operate; and

“(v) for non-Federal users, any commercial names under which facilities-based service is offered to the public using the spectrum of the non-Federal user, including the commercial names under which the spectrum is being offered through resale.

“(2) Except as provided in subsection (e), create a centralized portal or Web site to make the inventory of the bands of frequencies required under paragraph (1) available to the public.

“(b) **USE OF AGENCY RESOURCES.**—In creating the inventory described in subsection (a)(1), the Assistant Secretary and the Commission shall first use agency resources, including existing databases, field testing, and recordkeeping systems, and only request information from Federal and non-Federal users if such information cannot be obtained using such agency resources.

“(c) **REPORTS.**—

“(1) **IN GENERAL.**—Except as provided in subsection (e), not later than 2 years after the date of enactment of this section and biennially thereafter, the Assistant Secretary and the Commission shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and to the Committee on Energy and Commerce of the House of Representatives containing—

“(A) the results of the inventory created under subsection (a)(1), including any update to the information in the inventory pursuant to subsection (d);

“(B) a description of any information the Assistant Secretary or the Commission determines is necessary for such inventory but that is unavailable; and

“(C) a description of any information not provided by any Federal or non-Federal user in accordance with subsections (e)(1)(B)(ii) and (e)(2)(C)(ii).

“(2) **RELOCATION REPORT.**—

“(A) **IN GENERAL.**—Except as provided in subsection (e), the Assistant Secretary and the Commission shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives containing a recommendation of which spectrum, if any, should be reallocated or otherwise made available for shared access and an explanation of the basis for that recommendation.

“(B) **DEADLINES.**—The report required under subparagraph (A) shall be submitted not later than 2 years after the date of enactment of this section and every 2 years thereafter.

“(3) **INVENTORY REPORT.**—If the Assistant Secretary and the Commission have not conducted an inventory under subsection (a) to 10 gigahertz at least 90 days before the third report required under paragraph (1) is submitted, the Assistant Secretary and the Commission shall include an evaluation in

such report and in every report thereafter of whether the burden of expanding the inventory to 10 gigahertz outweighs the benefit until such time as the Assistant Secretary and the Commission have conducted the inventory to 10 gigahertz.

“(d) MAINTENANCE AND UPDATING OF INFORMATION.—After the creation of the inventory required by subsection (a)(1), the Assistant Secretary and the Commission shall make all reasonable efforts to maintain and update the information required under such subsection on a quarterly basis, including when there is a transfer or auction of a license or a change in a permanent assignment or license.

“(e) NATIONAL SECURITY AND PUBLIC SAFETY INFORMATION.—

“(1) NONDISCLOSURE.—

“(A) IN GENERAL.—If the head of an executive agency of the Federal Government determines that public disclosure of certain information held by that agency or a licensee of non-Federal spectrum and required by subsection (a), (c), or (d) would reveal classified national security information or other information for which there is a legal basis for nondisclosure and such public disclosure would be detrimental to national security, homeland security, or public safety, the agency head shall notify the Assistant Secretary of that determination and shall include descriptions of the activities, capabilities, functions, or missions (including whether they are space-based, air-based, or ground-based) supported by the information being withheld.

“(B) INFORMATION PROVIDED.—The agency head shall provide to the Assistant Secretary—

“(i) the publicly releasable information required by subsection (a)(1);

“(ii) to the maximum extent practicable, a summary description, suitable for public release, of the classified national security information or other information for which there is a legal basis for nondisclosure; and

“(iii) a classified annex, under appropriate cover, containing the classified national security information or other information for which there is a legal basis for nondisclosure that the agency head has determined must be withheld from public disclosure.

“(2) PUBLIC SAFETY NONDISCLOSURE.—

“(A) IN GENERAL.—If a licensee of non-Federal spectrum determines that public disclosure of certain information held by that licensee and required to be submitted by subsection (a), (c), or (d) would reveal information for which public disclosure would be detrimental to public safety, or the licensee is otherwise prohibited by law from disclosing the information, the licensee may petition the Commission for a partial or total exemption from inclusion on the centralized portal or Web site under subsection (a)(2) and in the report required by subsection (c).

“(B) BURDEN.—The licensee seeking an exemption under this paragraph bears the burden of justifying the exemption and shall provide clear and convincing evidence to support such an exemption.

“(C) INFORMATION REQUIRED.—If an exemption is granted under this paragraph, the licensee shall provide to the Commission—

“(i) the publicly releasable information required by subsection (a)(1) for the inventory;

“(ii) to the maximum extent practicable, a summary description, suitable for public release, of the information for which public disclosure would be detrimental to public safety or the licensee is otherwise prohibited by law from disclosing; and

“(iii) an annex, under appropriate cover, containing the information that the Com-

mission has determined should be withheld from public disclosure.

“(3) ADDITIONAL DISCLOSURE.—The annexes required under paragraphs (1)(B)(iii) and (2)(C)(iii) shall be provided to the congressional committees listed in subsection (c), but shall not be disclosed to the public under subsection (a) or subsection (d) or provided to any unauthorized person through any other means.

“(4) NATIONAL SECURITY COUNCIL CONSULTATION.—Prior to the release of the inventory under subsection (a), any updates to the inventory resulting from subsection (d), or the submission of a report under subsection (c)(1), the Assistant Secretary and the Commission shall consult with the National Security Council for a period not to exceed 30 days for the purposes of determining what additional information, if any, shall be withheld from the public.

“(f) PROPRIETARY INFORMATION.—In creating and maintaining the inventory, centralized portal or Web site, and reports under this section, the Assistant Secretary and the Commission shall follow their rules and practice regarding confidential and proprietary information. Nothing in this subsection shall be construed to compel the Commission to make publicly available any confidential or proprietary information.”.

#### SEC. 1502. FEDERAL SPECTRUM PLANNING.

(a) REVIEW OF EVALUATION PROCESS.—Not later than 6 months after the date of the enactment of this Act, the Comptroller General of the United States shall—

(1) conduct a review of the processes that Federal entities utilize to evaluate the spectrum needs of such entities;

(2) make recommendations on how to improve such processes; and

(3) submit to the appropriate committees of Congress a report on the review and recommendations made pursuant to paragraphs (1) and (2).

(b) REVISION OF EVALUATION PROCESS.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, each Federal entity shall update or revise the process used by such entity to evaluate the proposed spectrum needs of such entity, or establish such a process, taking into account any applicable recommendations made in the report required by subsection (a).

(2) REQUIRED INCLUSIONS.—

(A) ANALYSIS OF OPTIONS.—Each process described in paragraph (1), whether newly established, updated, or revised, shall include an analysis and assessment of—

(i) the options available to the Federal entity to obtain communications services that are the most spectrum-efficient; and

(ii) the effective alternatives available to such entity that will permit the entity to continue to satisfy the mission requirements of the entity.

(B) ANALYSIS SUBMITTED TO NTIA.—The analysis and assessment carried out under subparagraph (A) shall be submitted by the Federal entity to the Assistant Secretary at the same time that the entity seeks certification or recertification, if applicable, of spectrum support from the NTIA pursuant to the requirements of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 901 et seq.) and OMB Circular A-11.

(c) SPECTRUM PLANS OF FEDERAL ENTITIES.—

(1) IN GENERAL.—Not later than 2 years after the date of the enactment of this Act, and every 2 years thereafter, each Federal entity shall provide an entity-specific strategic spectrum plan to the Assistant Sec-

retary and the Director of the Office of Management and Budget.

(2) REQUIRED INCLUSIONS.—Each strategic spectrum plan submitted under paragraph (1) shall include—

(A) the spectrum requirements of the entity;

(B) the planned uses of new technologies or expanded services requiring spectrum over a period of time to be determined by the entity;

(C) suggested spectrum-efficient approaches to meeting the spectrum requirements identified under subparagraph (A); and

(D) progress reports on the activities of the entity to improve its spectrum management.

(d) CLASSIFIED NATIONAL SECURITY INFORMATION AND CERTAIN OTHER INFORMATION.—

(1) IN GENERAL.—The head of a Federal entity shall take the actions described in paragraph (2) if such head determines that disclosure of information required by subsection (c) would reveal—

(A) information that is classified in accordance with Executive Order 13526 (75 Fed. Reg. 707) or any successor Executive order establishing or modifying the uniform system for classifying, safeguarding, and declassifying national security information; or

(B) other information for which there is a legal basis for nondisclosure and the public disclosure of which would be detrimental to national security, homeland security, or public safety.

(2) ACTIONS DESCRIBED.—The actions described in this paragraph are the following:

(A) Notification to the Assistant Secretary of the determination under paragraph (1).

(B) Provision to the Assistant Secretary of—

(i) the publicly releasable information required by subsection (c);

(ii) to the maximum extent practicable, a summary description, suitable for public release, of the classified information or other information for which there is a legal basis for nondisclosure; and

(iii) a classified annex, under appropriate cover, containing the classified information or other information for which there is a legal basis for nondisclosure that the head of the Federal entity has determined must be withheld from public disclosure.

(3) ANNEX RESTRICTION.—The Assistant Secretary shall make an annex described in paragraph (2)(B)(iii) available to the Secretary of Commerce and the Director of the Office of Management and Budget. Neither the Assistant Secretary, the Secretary of Commerce, nor the Director of the Office of Management and Budget may make any such annex available to the public or to any unauthorized person through any other means.

(e) FEDERAL STRATEGIC SPECTRUM PLAN.—

(1) DEVELOPMENT AND SUBMISSION.—

(A) IN GENERAL.—The Secretary of Commerce shall develop a Federal Strategic Spectrum Plan, in coordination with the Assistant Secretary and the Director of the Office of Management and Budget.

(B) SUBMISSION TO CONGRESS.—Not later than 6 months after the date by which the initial entity-specific strategic spectrum plans are required to be submitted to the Assistant Secretary under subsection (c)(1), the Secretary of Commerce shall, consistent with the requirements set forth in subsection (d)(3), submit the Federal Strategic Spectrum Plan developed under subparagraph (A) to the appropriate committees of Congress.

(C) NONDISCLOSURE OF ANNEXES.—The Federal Strategic Spectrum Plan required to be submitted under subparagraph (B) shall be

submitted in unclassified form, but shall include, if appropriate, 1 or more annexes as provided for by subsection (d)(2)(B)(iii). No congressional committee may make any such annex available to the public or to any unauthorized person.

(D) CLASSIFIED ANNEXES.—If the Federal Strategic Spectrum Plan includes a classified annex as provided for by subsection (d)(2)(B)(iii), the Secretary of Commerce shall—

(i) submit the classified annex only to the appropriate committees of Congress with primary oversight jurisdiction for the user entities or licensees concerned; and

(ii) provide notice of the submission to the other appropriate committees of Congress.

(E) DEFINITION.—In this subsection, the term “appropriate committees of Congress” means the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Energy and Commerce of the House of Representatives, and any other congressional committee with primary oversight jurisdiction for the user entity or licensees concerned.

(2) INCORPORATION OF ENTITY PLANS.—The Federal Strategic Spectrum Plan developed under paragraph (1)(A) shall incorporate, consistent with the requirements of subsection (d)(3), the initial entity-specific strategic spectrum plans submitted under subsection (c)(1).

(3) REQUIRED INCLUSIONS.—The Federal Strategic Spectrum Plan developed under paragraph (1)(A) shall include—

(A) information on how spectrum assigned to and used by Federal entities is being used;

(B) opportunities to increase efficient use of infrastructure and spectrum assigned to and used by Federal entities;

(C) an assessment of the future spectrum needs of the Federal Government; and

(D) plans to incorporate such needs in the frequency assignment, equipment certification, and review processes of the Assistant Secretary.

(4) UPDATES.—The Secretary of Commerce shall revise and update the Federal Strategic Spectrum Plan developed under paragraph (1)(A) to take into account the biennial submission of the entity-specific strategic spectrum plans submitted under subsection (c)(1).

(f) NATIONAL STRATEGIC SPECTRUM PLAN.—

(1) IN GENERAL.—Not later than 4 years after the date of the enactment of this Act, and every 4 years thereafter, the Assistant Secretary and the Commission, in consultation with other Federal departments and agencies, State, local, and tribal entities, and commercial spectrum interests, shall develop a quadrennial National Strategic Spectrum Plan.

(2) REQUIRED INCLUSION.—A National Strategic Spectrum Plan developed under paragraph (1) shall include the following:

(A) The Federal Strategic Spectrum Plan developed under paragraph (1)(A) of subsection (e), as updated under paragraph (4) of such subsection.

(B) Long-range spectrum planning for both Federal and non-Federal users, including commercial users and State and local government users.

(C) An identification of new technologies or expanded services requiring spectrum.

(D) An identification and analysis of the nature and characteristics of the new radio communication systems required and the nature and characteristics of the spectrum required.

(E) An identification and analysis of efficient approaches to meeting the future spectrum requirements of all users, including—

(i) requiring certain standards-based technologies that improve spectrum efficiencies;

(ii) spectrum sharing and reuse opportunities;

(iii) possible reallocation; and

(iv) any other approaches that promote efficient use of spectrum.

(F) An evaluation of current spectrum auction processes to determine the effectiveness of such processes in—

(i) promoting competition;

(ii) improving the efficiency of spectrum use; and

(iii) maximizing the full economic value of the spectrum to consumers, industry, and taxpayers.

#### SEC. 1503. REALLOCATING FEDERAL SPECTRUM FOR COMMERCIAL PURPOSES AND FEDERAL SPECTRUM SHARING.

(a) ELIGIBLE FEDERAL ENTITIES.—Section 113(g)(1) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)(1)) is amended to read as follows:

“(1) ELIGIBLE FEDERAL ENTITIES.—Any Federal entity that operates a Federal Government station authorized to use a band of frequencies specified in paragraph (2) and that incurs relocation costs or sharing costs because of planning for a potential auction of spectrum frequencies, a planned auction of spectrum frequencies, or the reallocation of spectrum frequencies from Federal use to exclusive non-Federal use or to shared use shall receive payment for such relocation costs or sharing costs from the Spectrum Relocation Fund, in accordance with section 118. For purposes of this paragraph, Federal power agencies exempted under subsection (c)(4) that choose to relocate from the frequencies identified for reallocation pursuant to subsection (a) are eligible to receive payment under this paragraph.”.

(b) ELIGIBLE FREQUENCIES.—Section 113(g)(2)(B) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)(2)(B)) is amended to read as follows:

“(B) any other band of frequencies reallocated from Federal use to non-Federal or shared use, whether for licensed or unlicensed use, after January 1, 2003, that is assigned—

“(i) by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)); or

“(ii) as a result of an Act of Congress or any other administrative or executive direction.”.

(c) RELOCATION COSTS AND SHARING COSTS DEFINED.—Section 113(g)(3) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)(3)) is amended to read as follows:

“(3) RELOCATION COSTS AND SHARING COSTS DEFINED.—

“(A) IN GENERAL.—For purposes of this subsection, the term ‘relocation costs’ or ‘sharing costs’ means the costs incurred by a Federal entity in connection with the auction (or a potential or planned auction) of spectrum frequencies previously assigned to such entity, or the sharing of spectrum frequencies assigned to such entity (including the auction or a potential or planned auction of the rights to use spectrum frequencies on a shared basis with such entity), respectively, in order to achieve comparable capability of systems as before the relocation or the sharing arrangement. Such term includes, with respect to relocation or sharing, as the case may be—

“(i) the costs of any modification or replacement of equipment, spares, associated

ancillary equipment, software, facilities, operating manuals, training costs, or regulations that are attributable to relocation or sharing;

“(ii) the costs of all engineering, equipment, software, site acquisition, and construction, as well as any legitimate and prudent transaction expense, including term-limited Federal civil servant and contractor staff necessary to carry out the relocation or sharing activities of an eligible Federal entity, and reasonable additional costs incurred by the Federal entity that are attributable to relocation or sharing, including increased recurring costs associated with the replacement of facilities;

“(iii) the costs of research, engineering studies, economic analyses, or other expenses reasonably incurred in connection with—

“(I) calculating the estimated relocation costs or sharing costs that are provided to the Commission pursuant to paragraph (4);

“(II) determining the technical or operational feasibility of relocation to 1 or more potential relocation bands; or

“(III) planning for or managing a relocation or sharing project (including spectrum coordination with auction winners) or potential relocation or sharing project;

“(iv) the one-time costs of any modification of equipment reasonably necessary—

“(I) to accommodate commercial use of shared frequencies; or

“(II) in the case of eligible frequencies reallocated for exclusive commercial use and assigned through a competitive bidding process under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)) but with respect to which a Federal entity retains primary allocation or protected status for a period of time after the completion of the competitive bidding process, to accommodate shared Federal and non-Federal use of such frequencies for such period;

“(v) the costs associated with the accelerated replacement of systems and equipment if such acceleration is necessary to ensure the timely relocation of systems to a new frequency assignment or the timely accommodation of sharing of Federal frequencies; and

“(vi) the costs of the use of commercial systems (including systems not utilizing spectrum) to replace Federal systems discontinued or relocated pursuant to this Act, including lease (including lease of land), subscription, and equipment costs over an appropriate period, such as the anticipated life of an equivalent Federal system or other period determined by the Director of the Office of Management and Budget.

“(B) COMPARABLE CAPABILITY OF SYSTEMS.—For purposes of subparagraph (A), comparable capability of systems—

“(i) may be achieved by relocating a Federal Government station to a new frequency assignment, by relocating a Federal Government station to a different geographic location, by modifying Federal Government equipment to mitigate interference or use less spectrum, in terms of bandwidth, geography, or time, and thereby permitting spectrum sharing (including sharing among relocated Federal entities and incumbents to make spectrum available for non-Federal use) or relocation, or by utilizing an alternative technology; and

“(ii) includes the acquisition of state-of-the-art replacement systems intended to meet comparable operational scope, which may include incidental increases in functionality.”.

(d) CERTAIN PROCEDURAL REQUIREMENTS.—Section 113(g) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)) is amended—

(1) in paragraph (4)(A)—

(A) by inserting “or sharing costs” after “relocation costs”; and

(B) by inserting “or sharing” after “such relocation”;

(2) in paragraph (5)—

(A) by inserting “or sharing costs” after “relocation costs”; and

(B) by inserting “or sharing” after “for relocation”; and

(3) in paragraph (6)—

(A) in the 1st sentence, by inserting “and the timely implementation of arrangements for the sharing of such frequencies” before the period at the end;

(B) in the 2nd sentence—

(i) by striking “by relocating to a new frequency assignment or by utilizing an alternative technology”;

(ii) by inserting “or limit” after “terminate”; and

(iii) by inserting “or sharing arrangement has been implemented” before the period at the end; and

(C) in the 3rd sentence, by inserting “or sharing” after “relocation”.

(e) SPECTRUM SHARING AGREEMENTS.—Section 113(g) of the National Telecommunications and Information Administration Organization Act, as amended by subsection (d), is further amended by adding at the end the following:

“(7) SPECTRUM SHARING AGREEMENTS.—A Federal entity is permitted to allow access to its frequency assignments by a non-Federal entity upon approval of the NTIA, in consultation with the Director of the Office of Management and Budget. Such non-Federal entities shall comply with all applicable rules of the Commission and the NTIA, including any regulations promulgated pursuant to this section. Any remuneration associated with such access shall be deposited into the Spectrum Relocation Fund established under section 118. The costs incurred by a Federal entity as a result of allowing such access are sharing costs for which the entity is eligible for payment from the Fund for the purposes specified in paragraph (3). The revenue associated with such access shall be at least 110 percent of the estimated Federal costs.”.

(f) SPECTRUM RELOCATION FUND.—Section 118 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 928) is amended—

(1) in subsection (b), by inserting before the period at the end the following: “and any payments made by non-Federal entities for access to Federal spectrum pursuant to section 113(g)(7)”;

(2) by amending subsection (c) to read as follows:

“(c) USE OF FUNDS.—

“(1) FUNDS FROM AUCTIONS.—The amounts in the Fund from auctions of eligible frequencies are authorized to be used to pay relocation costs or sharing costs, as defined in section 113(g)(3), of an eligible Federal entity incurring such costs with respect to relocation from any eligible frequency or the sharing of such frequency.

“(2) FUNDS FROM PAYMENTS BY NON-FEDERAL ENTITIES.—The amounts in the Fund from payments by non-Federal entities for access to Federal spectrum pursuant to section 113(g)(7) are authorized to be used to pay the sharing costs, as defined in section 113(g)(3), of an eligible Federal entity incurring such costs with respect to such access.

“(3) TRANSFER OF FUNDS.—

“(A) IN GENERAL.—Subject to subparagraph (B), the Director of OMB may transfer at any time (including prior to any auction or contemplated auction or sharing initiative) such sums as may be available in the Fund to an eligible Federal entity to pay eligible relocation costs or sharing costs related to pre-auction estimates or research, as such costs are described in section 113(g)(3)(A)(iii).

“(B) NOTIFICATION.—No funds may be transferred pursuant to subparagraph (A) unless the notification provided under subsection (d)(2)(B) includes a certification from the Director of OMB that—

“(i) funds transferred before an auction will likely allow for timely implementation of relocation or sharing, thereby increasing net expected auction proceeds by an amount equal to or greater than the time value of the amount of funds transferred; and

“(ii) the auction is intended to occur not later than 5 years after transfer of funds.

“(C) APPLICABILITY.—

“(i) PRIOR COSTS INCURRED.—The Director of OMB may transfer up to \$10,000,000 from the Fund to eligible Federal entities for eligible relocation costs or sharing costs related to pre-auction estimates or research, as such costs are described in section 113(g)(3)(A)(iii), for costs incurred prior to the date of the enactment of the Wireless Innovation and Public Safety Act of 2011, but after June 28, 2010.

“(ii) SUPPLEMENT NOT SUPPLANT.—Any amounts transferred by the Director of OMB pursuant to clause (i) shall be in addition to any amounts that the Director of OMB may transfer for costs incurred after the date of the enactment of the Wireless Innovation and Public Safety Act of 2011.”;

(3) in subsection (d)—

(A) in paragraph (1), by inserting “and sharing costs” after “relocation costs”;

(B) in paragraph (2)—

(i) in subparagraph (A), by inserting “or sharing” before the semicolon; and

(ii) in subparagraph (B)—

(I) by inserting “or sharing costs” after “relocation costs”; and

(II) by inserting “or sharing” before the period at the end; and

(C) by amending paragraph (3) to read as follows:

“(3) REVERSION OF UNUSED FUNDS.—

“(A) IN GENERAL.—Any amounts in the Fund that are remaining after the payment of the relocation costs and sharing costs that are payable from the Fund shall revert to and be deposited in the general fund of the Treasury not later than 8 years after the date of the deposit of such proceeds to the Fund, unless within 60 days in advance of the reversion of such funds, the Director of OMB, in consultation with the NTIA, notifies the appropriate committees of Congress that such funds are needed to complete or to implement current or future relocations or sharing initiatives.

“(B) DEFINITION.—In this paragraph, the term ‘appropriate committees of Congress’ means—

“(i) the Committee on Appropriations of the Senate;

“(ii) the Committee on Commerce, Science, and Transportation of the Senate;

“(iii) the Committee on Appropriations of the House of Representatives; and

“(iv) the Committee on Energy and Commerce of the House of Representatives.”;

(4) in subsection (e)(2)—

(A) by inserting “or sharing costs” after “relocation costs”;

(B) by striking “entity’s relocation” and inserting “relocation of the entity or imple-

mentation of the sharing arrangement by the entity”;

(C) by inserting “or the implementation of such arrangement” after “such relocation”; and

(5) by adding at the end the following:

“(f) ADDITIONAL PAYMENTS FROM THE FUND.—

“(1) AMOUNTS AVAILABLE.—Notwithstanding subsections (c) through (e), after the date of the enactment of the Wireless Innovation and Public Safety Act of 2011, and following the credit of any amounts specified in subsection (b), there are hereby appropriated from the Fund and available to the Director of OMB—

“(A) up to 10 percent of the amounts deposited in the Fund from the auction of licenses for frequencies of spectrum vacated by Federal entities; and

“(B) up to 10 percent of the amounts deposited in the Fund by non-Federal entities for sharing of Federal spectrum.

“(2) USE OF AMOUNTS.—The Director of OMB, in consultation with the NTIA, may use such amounts to make payments to eligible Federal entities for the purpose of encouraging timely access to such spectrum, provided that—

“(A) any such payment by the Director of OMB is based on the market value of the spectrum, the timeliness with which the Federal entity cleared its use of such spectrum, and the need for such spectrum in order for the Federal entity to conduct its essential missions;

“(B) any such payment by the Director of OMB is used to carry out—

“(i) the purposes specified in clauses (i) through (vi) of section 113(g)(3)(A) to achieve enhanced capability for those systems affected by reallocation of Federal spectrum for commercial use, or by sharing of Federal frequencies with non-Federal entities; and

“(ii) other communications, radar, and spectrum-using investments not directly affected by such reallocation or sharing but essential for the missions of the Federal entity that is relocating its systems or sharing frequencies;

“(C) the amount remaining in the Fund after any such payment by the Director of OMB is not less than 10 percent of the winning bids in the relevant auction, or is not less than 10 percent of the payments from non-Federal entities in the relevant sharing agreement;

“(D) any such payment by the Director of OMB shall not be made until 30 days after the Director has notified the Committees on Appropriations and Commerce, Science, and Transportation of the Senate, and the Committees on Appropriations and Energy and Commerce of the House of Representatives; and

“(E) the Director of OMB shall make available from such amounts not more than \$3,000,000 per year for each of the fiscal years 2012 through 2016 for use by the Assistant Secretary in carrying out the spectrum management activities of the Assistant Secretary under title V of the Wireless Innovation and Public Safety Act of 2011.”.

(g) PUBLIC DISCLOSURE AND NONDISCLOSURE.—If the head of an executive agency of the Federal Government determines that public disclosure of any information contained in a notification or report required by section 113 or 118 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923; 928) would reveal classified national security information or other information for which there is a legal basis for nondisclosure and

such public disclosure would be detrimental to national security, homeland security, public safety, or jeopardize law enforcement investigations, the head of the executive agency shall notify the Assistant Secretary of that determination prior to release of such classified information or other information. In that event, such classified information or other information shall be included in a separate annex, as needed. These annexes shall be provided to the subcommittee of primary jurisdiction of the congressional committee of primary jurisdiction in accordance with appropriate national security stipulations but shall not be disclosed to the public or provided to any unauthorized person through any other means.

**SEC. 1504. STUDY ON SPECTRUM EFFICIENCY THROUGH RECEIVER STANDARDS.**

(a) IN GENERAL.—The Comptroller General of the United States shall conduct a study on efforts to ensure that each transmission system that employs radio spectrum is designed and operated so that reasonable use of adjacent spectrum does not excessively impair the functioning of such system.

(b) REQUIRED CONSIDERATIONS.—At a minimum, the study required by subsection (a) shall consider—

(1) the value of—

(A) improving receiver standards as it relates to increasing spectral efficiency;

(B) improving operation of services in adjacent frequencies;

(C) narrowing the guard bands between adjacent spectrum use; and

(D) improving overall receiver performance for the end user;

(2) the role of manufacturers, commercial licensees, and government users with respect to their transmission systems and use of adjacent spectrum described in subsection (a);

(3) the feasibility of industry self-compliance with respect to the design and operational requirements of transmission systems and the reasonable use of adjacent spectrum described in subsection (a); and

(4) the value of action by the Commission and the Assistant Secretary to establish, by rule, technical requirements or standards for non-Federal and Federal use, respectively, with respect to the reasonable use of adjacent spectrum described in subsection (a).

(c) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Comptroller General of the United States shall submit a report to the appropriate committees of Congress on the results of the study required by subsection (a).

(d) DEFINITION.—For purposes of this section, the term “transmission system” means any telecommunications, broadcast, satellite, commercial mobile service, or other communications system that employs radio spectrum.

**SEC. 1505. STUDY ON UNLICENSED USE IN THE 5 GHZ BAND.**

(a) IN GENERAL.—The Assistant Secretary and the Commission shall, in consultation with the Secretary of Transportation and other stakeholders, conduct a study evaluating known and proposed spectrum-sharing technologies and the risk to Federal and primary users if unlicensed U-NII devices were allowed to operate in the 5350–5470 MHz band and the 5850–5925 MHz band.

(b) SUBMISSION.—Not later than 8 months after the date of the enactment of this Act, the Assistant Secretary and the Commission, acting jointly or separately, shall report on their findings under subsection (a) to the appropriate committees of Congress.

(c) DEFINITIONS.—In this section:

(1) 5350–5470 MHZ BAND.—The term “5350–5470 MHz band” means the portion of the electromagnetic spectrum between the frequencies from 5350 megahertz to 5470 megahertz.

(2) 5850–5925 MHZ BAND.—The term “5850–5925 MHz band” means the portion of the electromagnetic spectrum between the frequencies from 5850 megahertz to 5925 megahertz.

(3) U-NII DEVICES.—The term “U-NII devices” has the meaning given such term in

section 15.403(s) of title 47, Code of Federal Regulations, except for the frequency bands specified in such section.

**SEC. 1506. REPORT ON AVAILABILITY OF WIRELESS EQUIPMENT FOR THE 700 MHZ BAND.**

(a) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, and every 6 months thereafter until January 1, 2016, the Commission shall prepare and submit to the appropriate committees of Congress a report on—

(1) the availability of wireless equipment capable of operating over all spectrum between the frequencies from 698 megahertz to 806 megahertz that is allocated by the Commission for paired commercial or public safety use; and

(2) the potential availability of wireless equipment capable of operating over spectrum made available through reorganization of the television broadcast spectrum under section 1302(b) and the auction of such spectrum under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by section 1302(a).

(b) CONTENTS.—The Commission shall seek input from the commercial mobile data service industry and include in the report required by subsection (a) an assessment of—

(1) the technical feasibility, and the potential impact on costs, size, battery consumption, and any other factor the Commission considers appropriate, of making equipment capable of operating over some or all of the spectrum described in paragraph (1) of such subsection;

(2) the timeframe for when wireless equipment capable of operating over some or all of such spectrum will be available; and

(3) the feasibility of and progress towards making available wireless equipment that is capable of operating over some or all of the spectrum described in paragraph (2) of such subsection.

## EXTENSIONS OF REMARKS

HARVEY TEYLER TRIBUTE

**HON. SCOTT R. TIPTON**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. TIPTON. Mr. Speaker, I rise today in honor of Mr. Harvey Teyler, manager of the Alamosa Mosquito Control District. Mr. Teyler has been awarded the Special District Association of Colorado's 2011 Distinguished Manager of the Year Award.

Presented in September at the SDA's annual conference, this honor recognizes managers who have demonstrated outstanding leadership, dedication and service to their district. The SDI is an association consisting of over a thousand members who promote the effective and economical operation of special districts in Colorado. These districts function as a form of local government that provides basic services and public needs.

Mr. Teyler was recognized for increasing the Alamosa Mosquito Control District's quality of service under the motto "Effective and Efficient." He is well respected for his leadership style, a commitment to thoroughly educating and training his employees, and for never asking them to do something that he has not done himself.

Mr. Teyler leads the District's efforts to protect public health through the surveillance of mosquitoes, counting and identification, various methods of extermination, and West Nile Virus testing, all while adhering to environmentally sensitive practices. After humble origins in a shed with no utilities, the District now operates out of a fully furnished 5500 square foot facility. The citizens of Alamosa, known in the past to be overrun with mosquitoes, are certainly grateful for Mr. Teyler's dedication.

Mr. Teyler is also an active member of the Alamosa community, where he has been a part of the Kiwanis Club, the Blue Peaks organization for the mentally challenged, and the Ranch Advisory Board.

Mr. Speaker, it is an honor to recognize Harvey Teyler. I rise today to thank him for his public spirit and devotion to the health of Alamosa's Citizens.

HONORING BRIAN HUDSON OF THE  
PENNSYLVANIA HOUSING FI-  
NANCE AGENCY

**HON. CHAKA FATTAH**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FATTAH. Mr. Speaker, Pennsylvanians in need of affordable housing, and those of us who advocate for quality, safe housing accessible to all, have a quiet superstar in our midst.

Since 2003, Brian A. Hudson Sr. has served as Executive Director and CEO of the Pennsylvania Housing Finance Agency, the agency that turns the portfolio of affordable housing programs into brick and mortar. His ascension to leadership is well deserved: he has worked at the agency for three decades.

Brian Hudson's work frequently brings him into Philadelphia where PHFA has accomplished near-miracles in public-private-non-profit partnerships and Brian Hudson is legendary for the art of the deal. Those deals provide affordable housing for seniors, for young families, for veterans, for low-income families, for individuals facing substance abuse and Philadelphians with disabilities.

Brian Hudson may not be well-known by the public but those who work with him and his agency hold the man in awe. Mr. Hudson's presence at a ribbon-cutting or turnkey dedication or groundbreaking is a welcome sight, and I've been pleased to share that podium with him on many occasions as an advocate in Congress for these critically needed programs. When Brian Hudson is on the scene, it means the hard work has been done, and it's been done right.

Most recently, on October 31, Mr. Hudson and I, joined by Mayor Michael Nutter and a "who's who" of business and community leaders as well as older residents who were already in residence, dedicated The Apartments at Cliveden in Philadelphia's Germantown neighborhood. The NewCourtland Network's latest development is a \$14.6 million project, launched with major help from Brian Hudson and PHFA, to provide 62 units of affordable, dignified, modern living for seniors 62 and older.

Brian Hudson's list of credits—and responsibilities—in the housing field is long and impressive. He has been a Director of the federally chartered Federal Home Loan Bank of Pittsburgh since 2007. He has served as Vice President and on the board of the National Council of State Housing Agencies. He is a member of the Consumer Advisory Council at The Federal Reserve System.

Since its founding in 1972, the Pennsylvania Housing Finance Agency has financed more than 130,000 houses and 54,000 apartment units while assisting 40,000 homeowners threatened with foreclosure.

In recent months Mr. Hudson's PHFA performed an astounding feat of public service under extreme deadline conditions. PHFA was able to administer and distribute more than \$100 million made available to Pennsylvanians under the Emergency Homeowners' Loan Program (EHLPP) by the U.S. Department of Housing and Urban Development—within less than six months.

I sponsored the EHLPP program in Congress and secured its inclusion in the Wall Street Reform Act. This emergency assistance was based on an earlier program, the Homeowners Emergency Mortgage Assistance Program

(HEMAP) that I developed as a young legislator in the Pennsylvania General Assembly in the early 1980s. That's just about the time a young housing whizkid named Brian Hudson came to work for PHFA, helping that agency turn HEMAP into the nation's premier state-based emergency mortgage assistance program.

Over a quarter century HEMAP provided more than \$433 million in emergency mortgage assistance loans. Nearly 90 percent of Pennsylvania homeowners receiving this assistance have avoided foreclosure. Those clients were Pennsylvanians who had been making their mortgage payments until, through no fault of their own, they lost a job or other income stream and tumbled toward default. Thanks to HEMAP, 17,000 Pennsylvania families were able to stay in their homes, get back on their feet, and even to repay HEMAP for that home-saving loan. In fact, over its lifetime, HEMAP actually turned a modest profit for the taxpayers!

That outstanding track record was worth duplicating, and it became the model for the EHLPP program I introduced. This federal program provided up to \$50,000, or 24 months, of continuing financial assistance, to families who were in danger of losing their homes due to lost income from involuntary unemployment, under-employment or medical expenses. Unfortunately we were able to fund EHLPP only for FY2011. Faced with the rapidly approaching Sept. 30, 2011, deadline and a complex set of regulations for homeowners in need of emergency assistance, Mr. Hudson oversaw the processing and approval of 3,056 applications in Pennsylvania, with distribution of \$108 million in emergency home-saving aid in less than six months. That's more than 10 percent of the EHLPP funds made available coast to coast.

We will be working to bring EHLPP back to life. Meanwhile, Brian Hudson and the Pennsylvania Housing Finance Agency have plenty of work to do. They've been funding a housing locator service for state residents dislocated by Hurricane Irene and Tropical Storm Lee. They are expediting affordable housing developments everywhere in the Commonwealth involving a myriad of municipal, state and federal programs.

The record builds, and tens of thousands of Pennsylvanians are already saying thank you. Through it all, the simple formula for success remains: Brian Hudson = Affordable Housing.

CELEBRATING THE WORK OF  
CAROL FIXMAN OF THE PHILA-  
DELPHIA EDUCATION FUND

**HON. CHAKA FATTAH**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FATTAH. Mr. Speaker, on December 16, advocates for educational excellence in Philadelphia will be celebrating the service of a dear friend of mine, Carol Fixman, the soon-to-retire Executive Director of the Philadelphia Education Fund. Together, Carol and I have worked to make the dreams of Philadelphia's school children a reality and to brighten the future of our city.

Under Dr. Fixman's direction, the Ed Fund has been actively engaged in issues of school reform, teacher quality, college access, and community engagement in support of public education. Prior to her appointment at the Ed Fund, Dr. Fixman was Vice President for Academic Affairs and Dean of the Faculty at Philadelphia University, where she provided leadership for more than 40 undergraduate and graduate programs in business, design, architecture, engineering, science, and health.

She has held positions directing international programs at Temple University and at the Association to Advance Collegiate Schools of Business. She has also served as Director of the Philadelphia Education Fund's College Access Program and the Philadelphia Scholars, a citywide initiative to improve access to and success in postsecondary education for Philadelphia public school students. Dr. Fixman has played a critical role in GEAR UP, the nation's premier early college awareness and readiness program and CORE Scholars, a place-based scholarship program serving students in Philadelphia—two programs that I am proud to have launched, nationally and locally.

Dr. Fixman has a distinguished academic record in addition to her achievements in the field of education. She holds a Ph.D. and M.A. in German literature from Brown University and a B.A. in Russian literature from Indiana University (Bloomington).

I want to take this opportunity to acknowledge Carol Fixman's dedication and perseverance toward improving the quality of public education in the Philadelphia region so that underserved youth are prepared for college and careers and thank her for making Philadelphia a better place.

As she retires from the Philadelphia Education Fund, she will surely be missed by all. I urge this body to recognize her contributions and continue to support her work.

CONGRATULATING DR. DAVID  
HALTIWANGER

**HON. JOHN P. SARBANES**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. SARBANES. Mr. Speaker, I rise today to honor and congratulate Dr. David Haltiwanger for his tireless efforts on behalf of the health and well-being of people living with

HIV/AIDS and the lesbian, gay, bisexual and transgender community. In his work as a clinician, administrator, teacher and advocate, Dr. Haltiwanger has demonstrated a deep well of compassion, a vision for true inclusiveness and a commitment to using his voice and organizing the voices of others to improve the lives of those in Baltimore, in Maryland, and across the United States.

Dr. Haltiwanger has been involved in the fight against AIDS from the very beginning, first as support to friends and later as a therapist, clinical supervisor and administrator overseeing a range of mental health, substance abuse, health promotion and case management services at Chase Brexton Health Services, Maryland's largest community-based provider of healthcare services to people living with HIV/AIDS. At Chase Brexton, he served as Mental Health Director and later as Director of Clinical Programs and Public Policy. Even as his other responsibilities increased, Dr. Haltiwanger continued to see patients, giving him keen insight into the challenges on the ground and enabling him to be an especially effective advocate in Annapolis and here on Capitol Hill, where he has been a valuable resource to members and staff alike.

Dr. Haltiwanger has channeled his expertise and commitment into the work of two very important national organizations. He served for six years as a member of the Board of Directors of the Communities Advocating Emergency AIDS Relief (CAEAR) Coalition, a leading national voice for the treatment and care needs of people living with HIV/AIDS, and also as a Board Member and Co-Chair of the National Coalition for LGBT Health, which is committed to improving the health and well-being of LGBT individuals through federal advocacy focused on research, policy, education, and training.

In his work as an advocate, Dr. Haltiwanger has been especially committed to educating others in his community about the importance of participating in public policy issues and mentoring them in those efforts. Throughout his career, Dr. Haltiwanger has made an enormous impact on Baltimore and has changed the lives of countless individuals and families in the State of Maryland and beyond. As he retires from Chase Brexton, I would like to thank him for his many years of service and his visionary leadership.

CELEBRATING THE WORK OF  
THOMASENNIA AMOS OF THE  
PHILADELPHIA EDUCATION  
FUND

**HON. CHAKA FATTAH**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FATTAH. Mr. Speaker, Philadelphia's educational advocacy community will be losing one of its most respected and versatile leaders with the retirement of Thomasennia Amos.

Thomasennia Amos is stepping down as the Director of the College Access Program at the Philadelphia Education Fund, where she has served the cause of public education since 1999. Ms. Amos also has directed the Student

Success Centers, a partnership between the College Access Program and the School District of Philadelphia to create a sustainable college-going culture within local neighborhood high schools. In addition, she has supervised the Scholarship Coordinator of the Ed Fund's Philadelphia Scholars.

Among her earlier assignments at the Ed Fund, it is noteworthy that she served as Director of the GEAR UP Initiative (Gaining Early Awareness and Readiness for Undergraduate Programs). GEAR UP, which I developed and guided into law in 1998, has been a national as well as local success story, impacting the educational prospects, jump-starting the higher education opportunities and improving the life chances of 12 million young people in 49 states plus U.S. territories. The GEAR UP partnership of the Ed Fund and the School District of Philadelphia has been a particularly fruitful one.

The Philadelphia Education Fund is simply the latest stop for Thomasennia Amos in her rich and varied career throughout my home town. Before joining the Ed Fund, Ms. Amos served as an instructional supervisor in the School District of Philadelphia. Throughout her career, she has worked in professional development, supporting new teachers and introducing and coaching instructional best practices to school communities. She served under several superintendents in a central office capacity.

Ms. Amos is a dedicated educator who has supported students and teachers in every region of the School District of Philadelphia. She has served as an Adjunct Faculty member at Temple University, University of Pennsylvania, Arcadia University, Drexel University, and Chestnut Hill College. She is also certified as a Principal, and has a strong personal commitment to improving education for Special Education students.

Ms. Amos holds an M.Ed. in Special Education from Arcadia University, and a B.S. in Elementary Education and K-12 Special Education from Pennsylvania State University. She has won countless honors for educational achievement and advocacy, including, in 2010, an award from the Philadelphia Alliance of Black School Administrators.

I ask my colleagues to join with me in congratulating Thomasennia Amos on a lifetime of hard work, dedication and success instilling generations of Philadelphia's young people, especially those from underserved communities with the tools, the will and the incentive to succeed. For an educator as talented as Ms. Amos, transitioning to retirement, this is the highest honor of all.

REMEMBERING MARY BOYCE

**HON. TIM RYAN**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. RYAN of Ohio. Mr. Speaker, today I rise to remember the life of Mary Boyce, who passed away on the morning of Thursday, December 1, 2011. Mary was the mother of my good friend Barry Boyce; my thoughts and prayers are with his family. She was a wonderful woman who lived life to the fullest and

always knew the importance of love and family. Therefore, on behalf of the family and friends of Mary, I would like to include her obituary, which appeared in the Public Opinion on December 2, 2011, in today's CONGRESSIONAL RECORD:

**MARY T. BOYCE OBITUARY**

Mary T. Boyce, 97, of The Village of Laurel Run, Fayetteville, died in the early morning on December 1, 2011. Mary was born in New York City, on January 15, 1914, to Cornelius (Neil) Gibbons, a New York City Police Sergeant, who was killed in the line of duty in 1924, and Mary Calhoun, both from County Donegal, Ireland. She graduated from Cathedral High School in Manhattan, 1932. She and her future husband, Donald C. Boyce, Jr., met while they were both working at the 1939 World's Fair, and they were married in New Orleans in 1941. Mary and her husband moved to Chambersburg, where he became personnel manager of T.B. Woods' Sons Company. Mary lived in Chambersburg from 1947 to 1949, and again from 1956 until 1982, shortly after Donald's death. Mary returned in 2006. In addition to raising her children, Mary worked at Sears & Roebuck and as a real estate and economic data gatherer for the Census Bureau.

During her time in Chambersburg, Mary was active in the Corpus Christi Catholic Church. She took part in the Red Stocking Revue and the garden club and was a dedicated member of the Chambersburg Country Club and played golf until age 88. She was a voracious reader and bridge player, a diligent letter writer, and an excellent cook. She kept track of the activities of her far-flung family on a daily basis until her final days. In April 2009, a video interview with Mary reflecting on her early life and memories of the Great Depression was featured on the New York Times website. The video may be viewed at the site's "The New York Times" section. Mary was predeceased by her eldest son, Donald, of New York City. She is survived by six children: Brian, of Virginia Beach; Neil, of New York City; Robert, of Fayetteville; Mary Jane, of Fairhope, Alabama; Margaret Anne, of Ashland, Oregon; and Barry, of Halifax, Nova Scotia. She is also survived by 14 grandchildren and 12 great-grandchildren.

**PERSONAL EXPLANATION**

**HON. JIM GERLACH**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. GERLACH. Mr. Speaker, unfortunately, on Monday December 12, 2011, I missed four recorded votes on the House floor. Had I been present, I would have voted "aye" on Rollcall 913, "aye" on Rollcall 914, "aye" on Rollcall 915, and "nay" on Rollcall 916.

**MONI PIZ WILSON**

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Moni Piz Wilson for her outstanding service to our community.

As owner and operator of Grandma's Frozen Egg Noodles, Moni carries the entrepreneurial spirit necessary to keep her business successful. Moni bought the business in 2001 without formal business training or experience running a company. She took her business from a small shop to one that delivers 200,000 cases of noodles each year.

Moni tackles all tasks with a get-it-done-today attitude. Her spirit for success is not constrained to her business, but extends to the Arvada community as well. Moni not only serves as Vice President of the Arvada Economic Development Association (AEDA) board of directors, but was instrumental in the Foot-hills Animal Shelter "Raising Capital" campaign to fund the construction of the new animal shelter.

Moni's success and community outreach won her the Lloyd J. King Entrepreneurial Spirit Award.

I extend my deepest congratulations to Moni Piz Wilson for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

**PERSONAL EXPLANATION**

**HON. BOB FILNER**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FILNER. Mr. Speaker, on rollcall 916, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "no."

**CHRISTINE COOK**

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Christine Cook for her outstanding service to our community.

Christine is CEO of INGATHER Research, where she has been a huge influence on the market research industry, developing the first residential home in market research called "The Reality House." Several facilities across the Nation have mirrored her model and efforts of thinking outside the box. With Christine's help, INGATHER Research received BBB's Gold Star Award for Excellence for the past 4 years and has also been chosen as a "Colorado Company to Watch" by Colorado Biz Magazine.

Christine is a leader in the community. She has served as president of Colorado Chapter of BMA (Business Marketing Association), MRA (Marketing Research Association), Colorado Chapter of AMA (American Marketing Association), and Celiac Disease Foundation. In 2010 Christine was awarded the Communicator of the Year Award from the Business Marketing Association and the Colorado Ethics in Business Award.

I extend my deepest congratulations to Christine Cook for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

**HONORING RICHARD L. COTTA**

**HON. DEVIN NUNES**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. NUNES. Mr. Speaker, I rise today to honor Richard L. Cotta, a pillar of the California dairy industry, on the occasion of his retirement.

Mr. Cotta has spent virtually his entire career in all aspects of the dairy business; from dairy farming to dairy genetics and from dairy processing to dairy politics.

Mr. Cotta is a graduate, with honors, from California State Polytechnic University, San Luis Obispo, with a degree in dairy husbandry.

From 1980 to 1984 he was the CEO of United Dairymen of California, a producer trade organization, until it merged to form Western United Dairymen.

From 1984 to 1993, Mr. Cotta served as the CEO of Western United Dairymen, the largest producer trade association in California.

Since 2007, Mr. Cotta has held the title of President and CEO of California Dairies, Inc. (CDI). His career at CDI began in 1993 when he started as General Manager at San Joaquin Valley Dairymen, a dairy processing and marketing cooperative. In 1999, San Joaquin Valley Dairymen merged with Danish Creamery and California Milk Producers to form CDI. At this time, Mr. Cotta was named Senior Vice President of Producer Affairs and Government Relations, and held this position until he was named CEO in 2007. Under his leadership, CDI profits have reached record levels. Today, CDI is California's largest dairy provider and the 2nd largest in the United States.

Previously, Mr. Cotta worked as a sire analyst for American Breeders Service, a classifier for the Holstein Association of America and a principal in Genetics, Inc. For several years he was a dairy consultant with many successful dairies on feeding, breeding and management systems.

Mr. Cotta has testified before the U.S. Congress and the California Legislature on behalf of the dairy industry. At the request of the Secretary of Agriculture, he has participated in world trade missions to open foreign markets to U.S. dairy products.

Mr. Cotta currently owns and operates Cotta Farms and is a partner in Terra Bella Farms, both almond farming operations. He sits on the following boards: U.C. Davis Deans Advisory Council; California State University Chancellors Ag Advisory Council; Sacred Heart School Foundation; and the Innovation Center for U.S. Dairy. He is also on the Globalization Operating Committee for the U.S. Dairy Export Council.

Please join me in congratulating Mr. Richard L. Cotta on his retirement from California Dairies, Inc.

DR. REBECCA WIEBE

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Dr. Rebecca Wiebe for her outstanding service to our community.

Rebecca is a skilled surgeon and businesswoman as well as a wife and passionate community member. Rebecca dreamed of a facility where cancer patients could receive all medical needs under one roof. Her vision recently became reality when the Red Rocks Cancer Center in Golden opened its doors. Rebecca had her hand in every piece of the cancer center, from raising money to purchasing real estate and even outlining logistics on how the cancer center should run. Rebecca's vision not only is a beacon of light for cancer patients in Jefferson County, but has attracted several medical practices and helped create jobs in Golden.

Rebecca maintains a successful practice as a general surgeon. She is confident, compassionate and highly skilled. Rebecca is not only a leader in Jefferson County, but her leadership extends to the surgical community in Colorado as well where she is the chair of the Surgical Service Line at the Exempla Lutheran Medical Center.

I extend my deepest congratulations to Dr. Rebecca Wiebe for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

## PERSONAL EXPLANATION

**HON. RICHARD L. HANNA**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. HANNA. Mr. Speaker, on Monday, December 12, 2011, I was unable to be present for recorded votes. Had I been present, I would have voted "yes" on rollcall 913, "yes" on rollcall 914, "no" on rollcall 915, and "no" on rollcall 916.

KATHLEEN CURTIS

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Kathleen Curtis for her outstanding service to our community.

Kathleen is a woman that never rests. After losing her mother to cancer, Kathleen provides much sweat equity in fundraising for cancer treatment organizations by running marathons. She works a very busy daily schedule, but always has time to support the causes she cares for dearly.

Kathleen is a woman that never says no to a person in need. She and her husband have owned and worked for the Village Roaster for 28 years. Kathleen donates many products and services to nonprofits for special events, especially coffee.

I extend my deepest congratulations to Kathleen Curtis for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

## HONORING THE COPPELL HIGH SCHOOL COWGIRL VOLLEYBALL TEAM

**HON. KENNY MARCHANT**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. MARCHANT. Mr. Speaker, it is with great pride that I recognize the Coppell High School Cowgirl volleyball team for winning the 2011 Texas state championship title.

The Cowgirls finished the season with a 42-8 record and the program's first ever state championship. Coppell High School competes in the University Interscholastic League Class 5A, the most competitive athletic class composed of the largest schools in Texas. The Cowgirls have appeared in the state tournament three times in their 29-year history. Their last appearance was 14 years ago.

Coppell had an exciting 2011 season, finishing second place in District 7-5A. With their second-place district standing, the Cowgirls went on to the bi-district game where they defeated Flower Mound High School with match scores of 22-25, 25-22, 25-12 and 25-19. Following the bi-district victory, the Cowgirls played Colleyville Heritage High School in the area championship. Coppell won the game with the match scores of 25-11, 25-9, 18-25 and 25-16.

In the regional tournament, the Cowgirls defeated the defending state champions, Hebron High School, in a dramatic five-game match. Coppell lost the first two matches, and in an amazing turnaround, the Cowgirls won the next three matches to advance to the regional tournament. The match scores for the Coppell-Hebron quarterfinal game were 22-25, 23-25, 28-26, 25-21 and 15-10.

In the regional semi-final game, Coppell swept Arlington High School with match scores of 25-23, 25-16 and 25-13. Prior to the Coppell-Arlington matchup, Arlington had been on a 17-match winning streak. Coppell continued their sweep by defeating Marcus High School in the regional championship in three matches. The Coppell-Marcus match scores were 22-20, 25-20 and 25-15.

The Cowgirls made it through the regional tournament to the state semi-finals, where they played San Antonio Johnson High School in a dramatic five-game match series. The Cowgirls took the win with the match scores 14-24, 25-16, 21-25, 25-20 and 15-10. In the Texas volleyball state finals, Coppell defeated McKinney Boyd High School to take the state championship title. The Coppell-McKinney Boyd match scores were 25-22, 25-19, 20-25 and 25-19.

I am extremely proud of the Coppell Cowgirl volleyball team. I would like to recognize each player on this state championship team: Megan Kennedy, Kristen Dickerson, Sarah Arnold, Erica Bohannon, Cassidy Pickrell, Kierra Hoist, Kylie Pickrell, Jordan Jones, Bear Bass, Chiaka Ogbogu, Lindsay Stivers, Mary-Kate Marshall and Kate Dicken. The team was guided by an exceptional coaching staff that included head coach Julie Green and assistant coaches Megan Geeslin, Megan Boyd and Robyn DeArmond. Lastly, the Cowgirls were taken special care of by their student trainers, Makenna Hares and Erin Gillen.

Mr. Speaker, on behalf of the 24th Congressional District of Texas, I ask all my distinguished colleagues to join me in congratulating the Coppell Cowgirl volleyball team on winning the state championship title.

VIONA MAE HADER

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Viona Mae Hader for her outstanding service to our community.

Viona is an inspirational and active member of the Golden community. She first moved to Golden in 1941 where she helped to establish and revitalize community events. In an effort to expand local trail rides, Viona helped revitalize the Buffalo Bill Days parade. She played an instrumental role in establishing the Foothills Art Center by purchasing the building and converting it into a gallery.

Viona is knowledgeable and observant. When she saw veterans receiving American flags for their service, she wondered how she could showcase these amazing soldiers' accomplishments. Soon after, she started the Flag Project at the Golden Cemetery. At the beginning, there were only eight flags, but now there are over 315 flags every Memorial Day, July 4th and Labor Day.

Viona is a pioneer. She was the first full-time employee of the Golden Chamber of Commerce and helped develop the first Golden tourist program. Among her many firsts, Viona is credited with writing the first History of Golden.

I extend my deepest congratulations to Viona Mae Hader for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

## RECOGNIZING CONTRA COSTA COLLEGE PRESIDENT MCKINLEY "MACK" WILLIAMS

**HON. GEORGE MILLER**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. GEORGE MILLER of California. Mr. Speaker, I rise to recognize Contra Costa College President McKinley "Mack" Williams and

congratulate him as he approaches his well earned retirement.

Born in San Francisco and raised in Richmond, California, McKinley attended local elementary schools and graduated from Richmond High School. He earned his Masters of Science degree in Counseling from San Francisco State University and a Masters of Arts degree in Clinical Psychology from the University of Colorado, Boulder. It was in Colorado that McKinley began his teaching career as a Professor of Ethnic Studies.

Upon his return to the Bay Area, McKinley worked as a marriage and family counselor as well as a Professor of Psychology at Merritt College. During his early career, McKinley served as a Director of Research and Planning and Dean of Instruction at Merritt College, as well as Dean of Instruction at the College of Alameda.

As a well-respected expert in his field, McKinley has presented professional papers at many conferences dealing with community colleges and conducted research on critical issues facing educators. In 1990, McKinley joined the administration of Contra Costa College as Dean of Instruction. In 2005 he was appointed Interim President until July of 2006 when he was named President of the college. The college faculty and staff as well as the students who attended Contra Costa College are justifiably proud of the development of programs under McKinley's leadership. He has assembled a staff of educators who day after day helped him deliver on the promise of a quality education for all. Dedicated to breaking barriers to education for all students, particularly African American males, McKinley Williams has made a decided difference in the lives of thousands of our Bay Area youth.

In addition to his commitment to higher education, McKinley has lent his time and talent to a wide variety of organizations in our community. He serves on the board of the Richmond Children's Foundation, on the Schools-To-Careers Advisory Board for West Contra Costa Unified School District, is a member of the Leadership Advisory Committee for El Cerrito High school and serves on the Executive Board of the National Consortium of Middle College High School. He is also one of the few honored male members of The Black Women Organized for Political Action and is a lead singer for the popular gospel group Consonance. He is active on both the Richmond and San Pablo Chambers of Commerce and an active member of the Richmond-Pinole Lions Club.

I am pleased to have this opportunity to publically recognize Costa Community College President McKinley Williams and thank him for his tireless work that has left an indelible imprint on our community. Through his leadership, he has ensured that students of all ages are well prepared for continuing education, new careers, and life. On behalf of our children, families and the communities served so well by his tenure I thank McKinley Williams, and wish him a healthy and happy retirement.

BUNNY MALM

### HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Bunny Malm for her outstanding service to our community.

Bunny has been active in the Lakewood community since it was first incorporated. Bunny served as Lakewood's first Charter Chairman of the city's Board of Adjustment. Among Bunny's many board positions in the Jefferson County community, she served two years as chairman of the Jefferson County Planning Commission. Bunny currently serves as a Board member of the Lakewood Historical Society and the West Colfax Community Association.

Bunny's get up and go attitude has led her to become a volunteer ambassador for the Lakewood-West Colfax Business Improvement District. When Bunny isn't busy working on one of her many board duties or volunteering at a local charitable group, she can be found picking up trash on West Colfax. That's who Bunny is—compassionate, outgoing and always willing to lend an extra hand.

I extend my deepest congratulations to Bunny Malm for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

### PERSONAL EXPLANATION

### HON. JIM JORDAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. JORDAN. Mr. Speaker, I was absent from the House floor on Monday, December 12. Had I been present, I would have voted "aye" on rollcalls 913, 914, and 915, and "no" on rollcall 916.

AMY SHERMAN

### HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Amy Sherman for her outstanding service to our community.

Amy Sherman is a woman of integrity, vision, and perseverance. While serving ten years as the President of the West Chamber, Amy founded and helped develop many organizations geared to help businesses flourish in Jefferson County. These organizations include the Jefferson County Business Resource Center, the Rooney Valley Association, and the Celebrate Women of Jefferson County Event. Amy also started the tourism initiative named Experience Jefferson County.

Amy sees the bigger picture and is willing to take the risks necessary for her projects to

succeed. Due to her keen eye and purposeful spirit, Amy was awarded the Colorado Chamber of Commerce Executive of the Year in 2008.

Awards and congratulations are not what drive Amy; she strives to make every person's life in the community better. Whether sitting on one of 14 boards throughout her ten years as the West Chamber President, or volunteering with the Twin Connection to mentor a meth-addicted mother of twins, or chairing events for her children's school PTA, Amy focuses on the betterment of her community for now and many years to come.

I extend my deepest congratulations to Amy Sherman for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

### PERSONAL EXPLANATION

### HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FILNER. Mr. Speaker, on rollcall 915, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "no."

JENNIFER HERRICK

### HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Jennifer Herrick for her service to the people of Colorado.

Jennifer exudes the character of a caring citizen and passionate mother. She is a consistent foster mother to troubled, at-risk teens and rescue animals. As a foster mother, Jennifer cares for her foster children long after they have left her care, no matter where the children end up. As a rescue animal enthusiast, Jennifer is especially compassionate for larger breeds including Newfoundlands and Great Danes, and is a large contributor to Rocky Mountain animal rescue organizations.

Jennifer owns a small consignment shop in Evergreen named CRAVE. She is known for being environmentally conscious and community-friendly by donating unwanted items from her store to EChO (Evergreen Christian Outreach).

She is a large supporter of small businesses, by offering area retailers and organizations frequent discounts at her store. Jennifer also sends email notices to her customers asking that they shop locally and support their community.

I extend my deepest congratulations to Jennifer Herrick for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

HONORING BAKER COLLEGE'S  
100TH YEAR OF EDUCATIONAL  
SUCCESS

**HON. DALE E. KILDEE**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. KILDEE. Mr. Speaker, I rise today to honor Baker College as it celebrates 100 years of educational success.

Baker Business University, as it was known then, was founded by Eldon E. Baker of Flint, Michigan in 1911. Mr. Baker focused on creating a school that provided higher education and training that would enable graduates to have a successful business career. Eldon Baker's vision remains a guiding light for Baker College and its students.

After years of success Baker Business University received regional accreditation from the North Central Association of Colleges and Schools, its three campuses merged to form the Baker College System. The following year Baker Junior College was authorized to grant a Bachelor of Business Administration degree and became what is known today as Baker College of Flint. Following the accreditation, Baker College of Flint made an \$11 million investment to renovate the former Mandeville School property. Today, that is the foundation for the state of the art campus that resides in Flint.

Presently, Baker College serves more than 40,000 students on 12 campuses, including Baker College Online, and in four satellite locations; grants certificates and associate, bachelor's and master's degrees in business, health sciences, education, human services, and various technical fields, as well as a doctorate of business administration. Baker College is a principal in the Greater Flint economy and tool for thousands to better themselves and their families.

Mr. Speaker, please join me in congratulating Baker College on 100 years of growth and success. I wish continued prosperity for the college, its employees, and most importantly the students.

MARIAN METSOPOULOS

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and applaud Marian Metsopoulos for her outstanding commitment to our community.

Marian is dedicated to preserving the history and heritage of Lakewood and Jefferson County. As a dedicated historian, Marian looks to the future and the generations impacted by her efforts to save the past.

Her passion extends to the arts as well, where she served as coordinator of the Foothills Arts Center for twenty four years. Marian was a pioneer in making the Foothills Arts Center a known name in the community. Her collaboration with local artists and business put the center on the map.

Marian's many accomplishments include support for heritage education, restoration projects for Lakewood's Heritage Center and the Buffalo Bill Museum and grave.

I extend my deepest congratulations to Marian Metsopoulos for her well deserved honor by the West Chamber serving Jefferson County. I have no doubt she will exhibit the same dedication and character in all her future accomplishments.

HONORING THE SOCIETY OF  
INNOVATORS CLASS OF 2011-2012

**HON. PETER J. VISCLOSKY**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. VISCLOSKY. Mr. Speaker, it is my distinct honor to commend Ivy Tech Community College Northwest and its regional partners, who recently celebrated their 7th Annual "Spirit of Innovation" Induction Ceremony, in which twenty-three individuals and sixteen teams were inducted as members of the 2011-2012 class of the Society of Innovators of Northwest Indiana. Individuals were selected from these new members and inducted as Society Fellows for their exceptional efforts in innovation. These individuals include: Mayor Jon Costas, Robert Johnson III, Julie Rizzo, Angela Hambling, and Janet Brown, Ph.D. Also honored was the Chanute Prize team recipient, IVDiagnostics at Entech, Valparaiso. For their outstanding efforts, these honorees were inducted during a prestigious event that took place in the Pavilion Ballrooms located at the Horseshoe Casino in Hammond, Indiana, on October 20, 2011.

The Society of Innovators of Northwest Indiana was created by Ivy Tech Northwest with the goal of highlighting and encouraging innovative individuals and groups within the not-for-profit, public, and private sectors, as well as building a "Culture of Innovation" in Northwest Indiana. The importance of innovation in Northwest Indiana, as well as globally, is crucial in today's ever-changing economy.

The five Fellows selected by the Society of Innovators were chosen for their remarkable diversity of innovation and the impact of their efforts throughout the community of Northwest Indiana. The 2011-2012 individuals named Society Fellows are as follows: Mayor Jon Costas, of Valparaiso, has worked hard to ensure that the City of Valparaiso is an innovative leader. Revitalizing the downtown area, creating a new urban park, improving the city's infrastructure, and launching a citywide bus service, as well as a commuter bus to Chicago, are some of the many outstanding projects completed under the direction of Mayor Costas. Robert Johnson III is the President/CEO of Cimcor, Inc., Merrillville. Robert developed cutting edge information technology security software that takes real time change detection to the next level by offering instant remediation of unauthorized changes. This security software system is used by the United States Army and the National Nuclear Security Administration, among others. Julie Rizzo is the President of US Greenworks, LLC and is also Executive Director of My Choice Recy-

cling, Saint John. Julie's network of granite recycling centers has saved an estimated five million pounds of granite and stone scraps from being dumped into landfills nationwide. Angela Hambling, Principal of Rolling Prairie Elementary School in La Porte County, created an offsite activities center that is used to improve the educational outcome of underserved minority students. Angela, along with school administrators and teachers, was able to help over 100 students this past year. As a result of this exceptional program, the school's status was raised to "exemplary." Janet Brown, Ph.D. is the Dean of the College of Nursing, Valparaiso University. Under Dr. Brown's direction, the College of Nursing's enrollment went from 25 students to 350 undergraduate students, 45 master's program students, and 28 doctoral students. Dr. Brown also initiated the overseas "cultural immersion" experiences for nursing students.

The recipient of the Chanute Prize for Team Innovation is: IVDiagnostics at Entech Innovation Center, Valparaiso. IVDiagnostics launched a new diagnostic tool to help in the fight against cancer by indentifying rare circulating tumor cells in vivo. This procedure is non-toxic and also helps to eliminate issues that arise in current methods, which calculate high false positives and negatives. Preclinical studies have been conducted at two medical centers which illustrate the effectiveness of this innovative technology.

Mr. Speaker, I ask you and my distinguished colleagues to join me in commending these outstanding innovators on being named Society Fellows and the Chanute Prize recipient. Their dedication and commitment to innovation is truly an inspiration. Their years of hard work have played a major role in shaping future development in Northwest Indiana and communities worldwide, and each recipient is worthy of the highest praise.

PERSONAL EXPLANATION

**HON. TIMOTHY V. JOHNSON**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. JOHNSON of Illinois. Mr. Speaker, on Tuesday, December 13, 2011, I was unable to attend the first vote of a Point of Order for Unfunded Mandate on H.R. 3630 raised by Representative MOORE. The Chair then called a Question of Consideration to Rule for H.R. 3630.

As you know, the House was not scheduled to be in Session this week and Monday evening I held a listening event with concerned citizens in the town of Savoy. I could not, in good conscience, cancel on a group that had been on my schedule for several months. On Tuesday, December 13, 2011, I was traveling from my district to Washington, DC, when this unanticipated Point of Order was raised.

Had I been present, my votes would have been as follows: for Question of Consideration of the Resolution, I would have voted "yea."

REMEMBERING MRS. GRACE  
TYSON

## HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. VISCLOSKY. Mr. Speaker, it is with deep sadness but with great respect that I take this time to remember one of Northwest Indiana's finest citizens, Mrs. Grace Tyson, of East Chicago, Indiana. Mrs. Tyson's many contributions to the Northwest Indiana community as a civil servant and as a leader within her church are worthy of our deepest admiration. Grace passed away at the age of 103 on Friday, November 25, 2011, but the impact and influence she has had on her community will surely live on for generations to come.

Grace Tyson was born in Unity, Illinois, to Mary and Dee McCondle. She attended elementary school in Unity, Illinois, graduated from high school in Sandusky, Illinois, and later attended college in Carbondale, Illinois. In 1940, she married Charles Tyson and they settled down in the city of East Chicago, Indiana. Grace graduated with distinction from Beauty and Cosmetology School in Gary, Indiana, in 1945. Her lifelong career as a licensed cosmetologist and beautician lasted 51 years, until her retirement in 1996. Grace joined Saint Mark African Methodist Episcopal Zion Church in the early 1940s. She became a faithful member of the church and Missionary Society, holding the offices of President and Secretary.

Throughout her life, Mrs. Tyson gave of her time to serve those in need. She was very passionate about helping others, and her life was centered around this type of work. She was one of the very first individuals to serve as a volunteer driver for Meals on Wheels, a position she held for over five years. She was a member of the Women's Improvement Club of East Chicago, for which she served as President, Secretary, and Treasurer. Grace also became the area representative and delegate for senior citizens at the Statehouse in Indianapolis. For her truly impressive determination to improve the lives of so many, she was awarded the Governor's Proclamation for her years of service. Grace was known as a quiet, effective leader who served as a positive role model for many young men and women throughout the community of Northwest Indiana.

While Grace Tyson was always active in her community and her church, she cherished her time with her family the most. She leaves to cherish her memory her nieces, Mary Perry and Martha Brownlee; nephew, Tommy (Gwendolyn) Daniel; godson, Edward Williams; and special neighbor Anna Williams; as well as many grand nieces and nephews. She will also be greatly missed by her many friends, neighbors, club members, and caretakers.

Mr. Speaker, I respectfully ask that you and my other distinguished colleagues join me in honoring Grace Tyson for her outstanding devotion to her community in Northwest Indiana. Her unselfish and lifelong dedication to those in need is worthy of the highest commendation. Grace's selflessness was an inspiration

to us all, and I am proud to have represented her in Congress.

TRIBUTE TO JAMES MARK  
McNATT

## HON. LOUIE GOHMERT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. GOHMERT. Mr. Speaker, I rise today to pay tribute to Mr. James Mark McNatt, a remarkable Texan who died on July 31, 2011. James was born in Denton, TX to James Arby and Margaret Revell McNatt and in 1966 he married the love of his life, Judy Blankenship. James and Judy went on to raise three children in Carthage, TX and James was the proud grandfather to seven grandchildren.

As a young man, James served in the U.S. Army and was stationed in Germany for two years. In 2007 he retired from East Texas Medical Center in Carthage after 25 years of service. James was a respected member of the New Life Baptist Church and The Gideons International, and was known to have the perfect scripture for any situation.

James loved his life in Carthage, where he resided for 28 years. All three of his children went to Carthage High School, where James and Judy could always be found cheering in the stands, working in the concession stand, or helping behind the scenes. James never stopped being an active community member—whether it was volunteer work or running his snowcone stand in the summer. Judy has worked for the local radio station for 20 years.

In 2002, James was diagnosed with Parkinson's disease, but he never skipped a beat. James and Judy still continued to travel to see the grandchildren's dance recitals, cheer competitions, and soccer games and visit the Longview Fire Station where his son was a firefighter. James adamantly believed a cure for Parkinson's was possible and planned for guests of his memorial to make donations to the American Parkinson's Disease Association. James also served time on the board of the local American Heart Association chapter.

His family will remember James as a man of faith and perseverance. One who made it a priority to have the whole family together, making sure the annual White Elephant Gift Exchange was on the calendar and one who loved others unconditionally.

James is survived by his wife for 45 years, Judy McNatt, daughters Jennifer Mattingly and husband Chris, Jessica Huff and husband Bill, and son (James) Michael McNatt and wife Melinda. He is also survived by his grandchildren, Molly and Riley Mattingly; Baylee, Kennedy, Cooper and Hadley Huff; and Lani McNatt. In addition, James is survived by sisters Fran Ryals, Sissy Frady Hamlin, and brothers Buster McNatt and Bill McNatt. Finally, James leaves behind a large host of family and special friends throughout Texas and beyond.

TO RECOGNIZE THE CONTRIBU-  
TIONS OF BEN ETTLEMAN

## HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to recognize Ben Ettleman, owner and Chief Executive Officer of Davis Industries and to congratulate him on the occasion of his 90th birthday.

Mr. Ettleman moved Davis Industries to the Lorton area in 1970, and, under his leadership, Davis Industries continues to be an involved and active community partner. When asked what advice he would give to a person entering business, he replied: "You must establish good relationships with your employees, your vendors, suppliers and manufacturers—but you must never forget to develop a good relationship with your community. That's vital!" Mr. Ettleman's life has been true to this philosophy; his robust support for area non-profits has been invaluable to the Lorton and greater Fairfax County communities.

Countless local and national programs and charities have benefited from Mr. Ettleman's leadership and direction. He allows his metal crushing site to be used in training the Fairfax County Fire and Rescue Department in the "Jaws of Life" program. He also helped found the "Police Unity Tour" to honor fallen officers. In response to the bombing of the federal building in Oklahoma City, Mr. Ettleman donated \$25,000 to help provide care for children who were burned as a result of the tragedy. He has provided critical leadership and financial support to local high school all-night graduation parties, renovations of public parks, food drives, holiday celebrations at local shelters, educational scholarships, little league teams, art programs, and even spay-and-neuter programs. The Lorton Community Action Center, Boys & Girls Club, Jewish National Fund, Georgetown University Parkinson's Research Center, Fairfax County Police and Fire and Rescue Departments, United Community Ministries, South County Little League, and the Lorton Arts Foundation are just a few of the many organizations that have been able to provide assistance, education, and public safety services to thousands of residents thanks to the leadership and generosity of Ben Ettleman.

Mr. Ettleman recently celebrated his 90th birthday on August 11, 2011, and in recognition of his many contributions and accomplishments, the Fairfax County Board of Supervisors has proclaimed the day as Ben Ettleman/Davis Industries Day in Fairfax County.

Mr. Speaker, I ask my colleagues to rise and join me in congratulating Mr. Ettleman on this prestigious recognition and wishing him a very happy birthday. I also want to thank him for his selfless contributions, which have benefited so many in our community. I hope that his record of leadership will serve as a model of community service to future generations.

IN SUPPORT OF THE FARM DUST  
REGULATION PREVENTION ACT  
AND THE SYNTHETIC DRUG CON-  
TROL ACT

**HON. NICK J. RAHALL II**

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. RAHALL. Mr. Speaker, had I been present last Thursday, I would have voted for the Farm Dust Regulation Prevention Act, H.R. 1633, as well as the Synthetic Drug Control Act, H.R. 1254.

H.R. 1633 would prevent the EPA from issuing any new rule over the next year to regulate coarse particulate matter, or "nuisance dust." While there is no such regulation currently pending, the concerns of my constituency with respect to the possibility that such a rule could be used to prevent coal mining or may interfere with farming or construction activities prompt my support of this bill.

H.R. 1254 would expand the list of Schedule I narcotics under the Controlled Substances Act to include cannabimimetic agents, the chemicals that are commonly known as synthetic drugs. The bill would prohibit the sale, distribution, or use of those chemicals without a permit issued by the Drug Enforcement Administration (DEA).

Synthetic drugs, sometimes known by their street names as K2, Spice, and bath salts, imitate the hallucinogenic and stimulant effects of illegal drugs. Synthetic drugs can affect the brain in a manner that is similar to Schedule I drugs and are sold to consumers as harmless alternatives to marijuana, cocaine, or methamphetamines. There are numerous instances where the use of these drugs has resulted in agitation, anxiety, seizures, tremors, hallucinations, paranoia, and death.

Drug abuse is a serious health problem in southern West Virginia, one that threatens our communities, our homes, and our children. Too often, there is a misconception that these imitation drugs are not as dangerous as the Schedule I narcotics they seek to simulate. That's a gross distortion that this legislation seeks to correct. I believe we must be unrelenting in getting these designer drugs off the streets and out of the hands of our children. Passing this legislation will help us to send a clear moral message that these synthetic drugs carry with them deadly consequences—not just for the users, but for their families and communities.

IN RECOGNITION OF GEORGE  
PAKIDIS

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to recognize George Pakidis for his years of service in the fight against drunk driving.

Each year thousands of people are injured or killed by drunk drivers. The numbers of accidents and fatalities skyrocket during holiday seasons, especially Independence Day and

New Year's Eve. To help prevent these senseless tragedies, local business leaders worked with law enforcement and government agencies to develop programs that would keep intoxicated drivers off of our roads. George Pakidis is one of the leaders in this effort.

For 14 years, George has served on the Board of Washington Regional Alcohol Program (WRAP). Founded in 1982, WRAP is an award winning public-private coalition that seeks to prevent drunk driving, drugged driving, and underage drinking in the Washington metropolitan area through innovative education programs and advocacy. As Vice President of Red Top Cab, a regional taxi service based in Northern Virginia, George recognized an opportunity to decrease the number of instances of drunk driving by spearheading a free cab ride service known as SoberRide, which functions as part of the WRAP program. In the 12 years that George has been its Chairman, SoberRide has grown to include nine participating taxi companies and has kept more than 52,000 drunk drivers off of our roads. His innovative approach to this problem has prevented countless accidents and saved thousands of lives.

George will soon be retiring from Red Top Cab as well as from his positions with WRAP and SoberRide. His leadership and foresight will be greatly missed. During his tenure the number of accidents has declined significantly, and the regional alcohol-related traffic death rate is consistently lower than the national average.

Mr. Speaker, I ask that my colleagues join me in thanking George Pakidis for his immeasurable service to our community and for his efforts to eradicate drunk driving. Let us wish George continued success in his retirement.

HONORING OFFICER DERIEK  
WAYNE CROUSE

**HON. H. MORGAN GRIFFITH**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. GRIFFITH of Virginia. Mr. Speaker, I submit these remarks in memory of Officer Deriek Wayne Crouse, a loving father and husband and dedicated law enforcement officer. Officer Crouse was killed in the line of duty on Thursday, December 8, 2011.

My deepest sympathies are with the family of Officer Crouse, the Virginia Tech Police Department, and the entire Hokie Nation. A 4-year veteran of the Virginia Tech Police Department, Officer Crouse was devoted to serving and protecting the students at Virginia Tech. This tragic event is a stark reminder of the many dangers law enforcement personnel face on a daily basis.

He joined the Virginia Tech Police Department on October 27, 2007, and served in the patrol division. Officer Crouse received his law enforcement certification on February 12, 2008, from the Cardinal Criminal Justice Academy. He was trained as a Crisis Intervention Team (CIT) officer, General Instructor, Firearms Instructor, Defensive Tactics instructor and most recently completed training for Ad-

vance Law Enforcement Rapid Response and Mechanical and Ballistic Instructor. Since February 2011, Officer Crouse was a member of the Virginia Tech Police Emergency Response Team. In 2008, he also received an award for his commitment to the department's Driving Under the Influence efforts.

Before joining the Virginia Tech Police Department, Officer Crouse worked at the New River Valley Jail and the Montgomery County Sheriffs Department. He was a proud veteran of the United States Army.

Officer Crouse, formerly of Galax, resided in Christiansburg, VA. He is survived by his wife, Tina Akers Crouse; son, Dustin Crouse; stepchildren, Logan and Hayden Schack, and Tyler and Peyton Robinette; parents, Tony Crouse and Bonita Arnold; and brothers, Darris Upchurch and Kevin Crouse.

I am honored to pay tribute to this great man. Officer Crouse will be long remembered throughout the Virginia Tech and law enforcement communities. My continued prayers are with his family as they grieve this tragic loss. Southwest Virginia has truly lost one of its finest.

CELEBRATING THE 50TH ANNIVERSARY OF KING'S PARK AND THE  
4TH ANNUAL POTLUCK DINNER

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, it is my great honor to recognize the 50th Anniversary of the Kings Park Community, and the 4th Annual Potluck Dinner. The quality of life enjoyed by the residents of Kings Park is a testament to the strong community spirit that has existed for half a century.

King's Park is a community of 1100 homes located in central Fairfax County, in the heart of the 11th Congressional District of Virginia. Although this is a very large community, it maintains the feel of a true neighborhood or small town. Within the Kings Park boundaries, there are two elementary schools, a large public park, and a community swimming pool. The residents are well served by the local civic association; King's Park Civic Association (KPCA). KPCA publishes The Gazette news letter, helps to ensure the safety of the residents through its Neighborhood Watch and Block Captain programs, and sponsors community events such as the Annual Yard Sale, 4th of July Parade and Picnic, Children's Holiday Party, Senior's Lunch, and Community Potluck Dinner. In addition, KPCA oversees several citizen committees which address residents' concerns, provide assistance, and facilitate communication with the county on local governmental issues.

Fifty years ago, in 1960, the total population of Fairfax County was 261,417; in 2010 the population had more than quadrupled to 1,081,726. Despite this phenomenal growth, King's Park has retained its unique identity thanks to the efforts of the volunteers and community activists. The success of the King's Park Civic Association can be attributable to its ability to provide tangible benefits to its

residents, and to promote a spirit of collaboration and inclusion.

Mr. Speaker, I ask my colleagues to join me in recognizing the 50th anniversary of King's Park, and the 4th Annual potluck dinner organized by the King's Park Civic Association. I also thank the residents and members of the Kings Park Civic Association for their efforts to ensure that Kings Park remains a wonderful place to call home.

#### PERSONAL EXPLANATION

#### HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FILNER. Mr. Speaker, on rollcall 914, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "yes."

#### RECOGNIZING THE 4TH ANNUAL LAFAYETTE VILLAGE ARBOR DAY CELEBRATION

#### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to celebrate Arbor Day 2011 and to recognize the Lafayette Village Community's annual neighborhood cleanup and tree planting.

Founded by J. Sterling Morton, the first Arbor Day was held in Nebraska April 10, 1872. Arbor Day has since grown to be celebrated in more than 30 countries around the world. Arbor Day recognizes and celebrates the value and beauty of trees in our communities, and it is observed by planting a new tree.

Lafayette Village is a community of 313 homes in Fairfax County, Virginia. This is its fourth annual Arbor/Earth Day ceremony, and tree planting is a longstanding tradition for Lafayette Village. In conjunction with the annual tree planting, Lafayette Village conducts a community cleanup as well. Children are encouraged to participate, which helps to instill the values of community service and teamwork.

Environmental stewardship leads to beautiful communities such as Lafayette Village. Hundreds of trees have been planted over the years as an affirmation of their commitment to this stewardship.

Mr. Speaker, I express my gratitude to the residents of Lafayette Village. Their efforts prove that beautifying a neighborhood requires only a generous amount of time and community spirit.

#### OUR UNCONSCIONABLE NATIONAL DEBT

#### HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. COFFMAN of Colorado. Mr. Speaker, on January 26, 1995, when the last attempt at

a balanced budget amendment passed the House by a bipartisan vote of 300–132, the national debt was \$4,801,405,175,294.28.

Today, it is \$15,054,018,277,569.01. We've added \$10,252,613,102,274.73 dollars to our debt in 16 years. This is \$10 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

#### RECOGNIZING THE RECIPIENTS OF THE 2011 LIFECIRCLE ALLIANCES KUDOS FOR CAREGIVERS AWARDS

#### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize the winners of the 2011 LifeCircle Alliances Kudos for Community Caregivers Awards. LifeCircle Alliances, a non-profit organization based in Fairfax County, Virginia, is a leader in promoting and enabling independent living for older and adults with developmental, intellectual, or physical disabilities, including our Wounded Warriors.

LifeCircle Alliances has created innovative public-private partnerships with its 45 members including businesses, individuals, educational facilities, philanthropic organizations and government agencies to showcase and raise money for creative and cost-effective long-term care solutions. The funds raised and the efforts of the LifeCircle partners help to create innovative long-term care initiatives, enhance existing programs, and address workforce, mobility and transportation issues. The goal of these efforts is independence for life; ensuring that our older adults and adults with disabilities are able to live independently and with dignity in their communities of choice.

The LifeCircle Alliances Kudos for Community Caregivers Award celebration recognizes the efforts of five outstanding caregivers, who provide dedicated care, day in and day out. The recipients of the 2011 Kudos Awards are:

Inas Eldarwish—For years, Inas and her husband Ayman provided care to their two disabled sons, Ahmed and Hazem. Sadly, Ahmed passed away several years ago. The grace with which Inas handled this tragic loss was remarkable. Through her mourning, she has remained a dedicated and selfless mom to Hazem supporting his interests and helping him reach his full potential.

The Belvoir Woods Healthcare Center Family Council at The Fairfax (BWHCC)—This council is comprised entirely of volunteer family caregivers of current or former BWHCC residents. Through their efforts, residents at Belvoir Woods enjoy guest speaker programs and quality of life resources such as dog therapy visits, loaner scooters, and wheelchairs. They also are able to keep in touch with out-of-area family and friends through the use of free Wi-Fi.

Linda Walthall and Family—Through considerable adversity Linda and Frank Walthall have provided exceptional care for the last 7 years to her elderly mother, who requires 24 hour supervision. It is this selfless devotion to

family that warrants her recognition as an exceptional caregiver.

Colonel Christine Ingle (Rtd)—Col. Ingle has served as a volunteer mentor and caregiver to our Wounded Warriors at Fort Belvoir. She recently has started a program for Veterans who are interested in pursuing careers in the healthcare field after their discharge from the Warrior Transition Unit.

Deborah Dodge—Despite personal obstacles, Deborah has gone above and beyond in single-handedly providing care to her adult son for the last 12 years. Deborah's son is severely ill, and requires 24/7 care. She has served on the Northern Virginia Mental Health Board, and is an exceptional caretaker and maintains her positive and cheerful attitude despite the hardships that she faces.

I congratulate today's winners and recognize each of them for their devotion and personal sacrifices. These individuals are examples of the many thousands of caregivers who put the needs of their families, friends and colleagues above their own. I also would like to applaud the efforts of LifeCircle Alliances. As a strong advocate for public-private partnerships, I commend LifeCircle Alliances for its creative approach to addressing these very important challenges within our community.

Mr. Speaker, I ask that my colleagues join me in paying tribute to today's awardees and in thanking the volunteers, staff, and partners of LifeCircle Alliance for their efforts in providing assistance to not only those in need of care, but to those who provide the care here in our community.

#### PERSONAL EXPLANATION

#### HON. RANDY HULTGREN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. HULTGREN. Mr. Speaker, on rollcall No. 904, the RECORD indicates that had I been present, I would have voted "no." This is a mistake. The RECORD should indicate that had I been present, I would have voted "aye."

#### COMMENDING ANTHONY GRIFFIN FOR RECEIVING CAREER EXCELLENCE AWARD

#### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize the many accomplishments of Anthony Griffin and commend him for receiving the International City/County Management Association's Award for Career Excellence in honor of Mark E. Keane. After a career as City Manager for Falls Church, Virginia, Tony came to Fairfax County in 1989.

In 2000 the Fairfax County Board of Supervisors, of which I was a member, appointed Tony as County Executive. As County Executive, Tony Griffin managed the day-to-day operations of a jurisdiction with more than 1 million residents and more than 11,000 employees. Tony presided over Fairfax County during

some of its more challenging times including 9/11, the 2001 anthrax attacks, the Beltway Sniper, Hurricane Isabel, the flooding of Cameron Run in 2006, the 2007 recession, Hurricane Irene, and Tropical Storm Lee. Throughout it all, he has continued to provide outstanding leadership to Fairfax. During his tenure, *Governing Magazine* named Fairfax County its Best Managed County in the Country. Fairfax has won numerous e-government awards including the Digital Counties Survey and the Best of the Web. *Time Magazine* referred to Fairfax as, "the economic success story of our time."

I was pleased to work with Tony Griffin during my 13 years on the Fairfax County Board of Supervisors and I know the value he brought. I urge my colleagues and the residents of Fairfax County, Virginia to join me in commending Anthony Griffin for receiving this Award for Career Excellence, and thank him for his years of dedication to making Fairfax a safe and vibrant community to live and work.

---

HONORING THE SHORT LIFE OF  
ANGELO ZOLTAN SCHWARTZ

---

**HON. MIKE ROGERS**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. ROGERS of Michigan. Mr. Speaker, I am honored, yet saddened today to come to the floor to honor the short life of Angelo Zoltan Schwartz. The son of Lawrence Sanson Schwartz IV and his wife Allison, Angelo suffered from a rare bone disease, Osteogenesis Imperfecta (OI). He was born on Monday, November 28, 2011 at 11:29 a.m., just one minute after his twin sister Cecilia Anne Schwartz. Angelo was 4 pounds 15 ounces and was delivered at INOVA Fairfax Hospital in Virginia.

OI, which is a condition causing extremely fragile bones, was the main cause of Angelo's shortened life. Due to this condition his rib cage was fractured in utero and he succumbed to respiratory failure on December 1, 2011 at 3:45 a.m. Over his 64 hours of life, Angelo made a huge impact on everyone who met him, including the nursing and hospital administration staff, who worked together to modify hospital policy to ensure that the Schwartz family could spend as much time together as possible.

Angelo is loved and will be missed by his entire family including his grandparents, Debrah and Barry Shulman of Fayetteville, New York; Joanne and Lawrence Schwartz III of Anaheim Hills, California; and his parents Allison and Lawrence Schwartz IV, and his sister Cecilia Anne Schwartz of Alexandria, Virginia.

TO RECOGNIZE THE 50TH ANNIVERSARY OF MANTUA ELEMENTARY SCHOOL

---

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize the 50th Anniversary of Mantua Elementary School. For half a century, Mantua Elementary has provided its students with a superior education and a solid foundation for lifelong learning and becoming productive and responsible citizens.

The school and community have a shared vision for elementary education based on Ernest Boyer's "Basic School" philosophy paired with tenets from DuFour's Professional Learning Communities. As part of the Basic School Network, Mantua focuses on proven elementary best practices; the school as a community, a curriculum with coherence, a climate for learning, and a commitment to character. Teachers and specialists at each grade level work in professional learning teams to assess their students' needs and design integrated curricula using the Basic School's eight commonalities: life cycle, use of symbols, group membership, time and space, the aesthetic, nature, producing and consuming, and living with purpose.

In addition, Mantua Elementary School offers programs in English for Speakers of Other Languages, Special Education for students who need additional assistance, Advanced Academics for exceptionally gifted and talented students, and Total Communication for students who are deaf or hearing impaired. These specialized programs when combined with the school's core educational philosophy ensure that every student is given access to a quality education. The result has been an award winning school and a vibrant, academically charged atmosphere that has enabled the children of our community to excel.

Mantua Elementary School has greatly benefitted under the leadership of its principal, Ms. Jan-Marie Fernandez, who has held this position since 2000. Ms. Fernandez is credited with applying brain-based research to instruction methods in order to improve literacy development for students with learning disabilities, and focus and attention issues. This innovative approach was one factor in Ms. Fernandez being named the 2010 Distinguished Principal by the Virginia Association of Elementary School Principals. As the parent of a child who attended Mantua Elementary School, I have personally witnessed her effectiveness as an administrator and an educator. She has led this large, very diverse school to great success and I thank her for her dedication and commitment to the students and to the community as a whole.

Mr. Speaker, I ask that my colleagues join me in recognizing Mantua Elementary School on the occasion of its 50th Anniversary and in congratulating the students, educators, administrators, and parents on working together as a team for the benefit of all.

HONORING JUDGE ELMER DAVIES, JR.

---

**HON. MARSHA BLACKBURN**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mrs. BLACKBURN. Mr. Speaker, there are citizens making up this great country who never cease to explore, to learn, to grow. Skilled in multiple crafts, these men and women add much to our communities and the quality of our lives. Mr. Speaker, I rise today to celebrate the life and legacy of one such Renaissance man, Judge Elmer Davies, Jr. Patriot, master of the law, and passionate culinary artist, Judge Davies left an indelible mark on his family and our community.

After receiving his law degree from Tulane Law School, and serving as a Reserve Colonel with the United States Marine Corps, Davies began his public service in the legal field and followed in the footsteps of his father, Judge Elmer Davies. President Roosevelt appointed Davies, Sr. to the United States District Court and he became the first Chief Judge of the Middle Tennessee District. Davies, Jr. served as District Attorney General from 1972 to 1982 and then as Circuit Court Judge from 1982 to 1989. Serving Tennesseans from Hickman, Lewis, Perry, and Williamson Counties, Davies cultivated a pristine and upstanding legal reputation.

Judge Davies certainly followed his passions; never settling to look from the outside onto a subject he loved. Wanting to learn more about the art of food, Davies went to France to study the culinary arts. Then seeking to serve folks in a very different way, Davies purchased a hotel in the South Pacific and lived his later years in service to one of his many dreams.

Mr. Speaker, I rise today in celebration of Judge Elmer Davies, Jr. and I ask my colleagues to join with me in honoring his legacy. May his life teach us all to serve with greater nobility and live out our dreams in service to others.

---

TO CONGRATULATE SANDI  
QUALLEY ON HER RETIREMENT

---

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize Ms. Sandi Qualley, Executive Director of the Hemophilia Association of the Capital Area (HACA), on the occasion of her retirement following 21 years of dedicated service to those individuals who suffer from bleeding disorders and their families.

HACA is a nonprofit organization that provides many needed services to people with bleeding disorders such as hemophilia and von Willebrand disease and their families. HACA serves more than 250 families in the Washington, D.C., metropolitan area, and it is a chapter of both Hemophilia Federation of America and the National Hemophilia Foundation, the two leading national hemophilia patient organizations. HACA's mission is to improve the quality of life for individuals suffering

from bleeding disorders and their families through education, advocacy, and member services in order to promote research and to raise the resources needed to achieve these goals.

Sandi has been instrumental in ensuring that HACA continues to deliver on its mission. It sends children with bleeding disorders to camps that are equipped to address their specific medical needs. HACA offers educational programming to members of the bleeding disorders community at all stages of life: Families with newly diagnosed infants, school-age children, adolescents, adults, and those now confronting the additional complications that advancing age can pose for an individual with a bleeding disorder. HACA also helps provide financial assistance to needy families and resources to other nonprofit organizations that work with the hemophilia community in an expanding global network.

Mr. Speaker, I ask my colleagues to join me in commending Sandi Qualley for her years of service and in congratulating her on the occasion of her retirement. Her distinguished service has greatly contributed to the advancement and improvement of care and treatment available to individuals suffering from bleed-related afflictions.

#### INTRODUCTION OF H.R. 3648, THE HARBOR FAIRNESS ACT OF 2011

**HON. TIMOTHY H. BISHOP**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. BISHOP of New York. Mr. Speaker, today, I am introducing legislation to ensure that future expenditures for the maintenance of commercial harbors are equitably distributed, so that all communities—large and small—may optimize the economic benefits of their inland and coastal ports.

Over the past few administrations, far more funds have been collected by the Harbor Maintenance Trust Fund than have been expended on an annual basis—and unfortunately, the adverse signs of underfunding are becoming apparent. Year after year of insufficient maintenance dredging resources for coastal and inland ports has resulted in reduced depths at countless port facilities, and has all but passed over the dredging needs of moderately sized or smaller ports, such as Lake Montauk, in the New York's First Congressional District.

In recent years, there has been a concerted effort in Congress to fully utilize harbor maintenance funds in the Harbor Maintenance Trust Fund for the purpose they were collected. I am a strong supporter of these efforts because I have seen, firsthand, the adverse impacts of shoaled harbors on local and regional economies. When local harbors become filled with sediment, the corresponding reduction of commercial shipping can have a significant adverse impact on the national, regional, and local economies, as well as on the jobs that are directly and indirectly related to ports and shipping.

It is essential that Congress find a way to ensure that funds collected in the Harbor

Maintenance Trust Fund be fully allocated—not only to ensure the viability of commercial shipping, but also to realize the jobs that can be created for port workers and dredgers, as well as through businesses that rely on local harbors for their livelihoods.

However, even if annual collections to the Harbor Maintenance Trust Fund were fully utilized, there is reason to believe that, under the status quo decision process for where funds are expended, the needs of many of the moderate-to-small harbors would remain unmet.

According to information from the U.S. Army Corps of Engineers (Corps), there is a significant backlog of maintenance dredging activities necessary to restore fully authorized project dimensions of existing commercial navigation projects. According to the Corps, the estimated annual maintenance cost to restore authorized projects to their full widths and depths is \$2.3 billion during the first five years. Once this backlog is addressed, the Corps estimates that annual maintenance costs (for year 6 and beyond) would average around \$1.8 billion per year.

Based on the Corps' projection on maintenance dredging needs, it appears that the annual operation and maintenance needs identified by the Corps exceed the amounts that have been collected, annually, by the Harbor Maintenance Trust Fund. This means that, even if annual collections to the Trust Fund are fully allocated, there will be an unmet annual maintenance dredging need far into the future. It is that unmet annual maintenance dredging need that makes the Harbor Fairness Act of 2011 critical to mid-size and small commercial harbors, so that these harbors are not continually left behind.

Over the past few years, I have heard numerous examples of commercial harbors that were passed over for critical maintenance dredging funds from the Corps, in essence, because insufficient funds were made available for maintenance dredging needs. However, in my view, it has been the mid-size and small commercial harbors that have been disproportionately impacted by the lack of annual maintenance dredging funds.

For example, according to the Corps, the agency is currently responsible for maintenance dredging at 1,067 harbors, nationwide. Of this number, only 59 harbors (or 5 percent) are characterized as "high-use" harbors—on those that use at least 10 million tons of commerce annually. The remaining 1,008 harbors that fall under the Corps' maintenance dredging responsibility are characterized as "moderate" or "low-use" harbors.

However, when you look at the President's budget request for the past two fiscal years, it is easy to see the disparity in funding allocations among these categories of harbors.

For example, in the fiscal year 2012 budget request, "high-use" harbors received 66 percent of available funds, while "low-use" harbors received only 6 percent of the funds. This would mean that, under the status quo process for allocating maintenance dredging funding—which has been followed by both Democratic and Republican Presidential administrations—approximately 5 percent of eligible harbors received over 66 percent of the funds made available from the Harbor Maintenance Trust Fund.

Mr. Speaker, as the Representative of a Congressional district with small commercial harbors, the status quo must change.

To my community, the benefit of small and mid-size commercial harbors to the local economy is not proportional to their size. As a witness from New York's First Congressional District, Ms. Bonnie Brady, testified before the Subcommittee on Water Resources and Environment, the small commercial fishing ports on Long Island are responsible for 99 percent of New York's landed seafood catch—worth over \$49 million dollars at the dock.

That is why I am introducing the Harbor Fairness Act of 2011. This legislation attempts to balance the operation and maintenance needs of all commercial harbors, regardless of size, and to ensure that funding is equitably distributed between high-, moderate-, and low-use facilities.

First, the Harbor Fairness Act of 2011 would require the Corps to assess, on a biennial basis, the overall dredging needs of those commercial harbors that it is responsible for, including harbors used for commercial navigation, fishing, subsistence, domestic energy production, recreation, the transport of persons, and navigation safety.

This legislation would require the Corps to report its findings on operation and maintenance needs to the authorizing Committees of the House of Representatives and the Senate, as part of the President's budget submission to Congress. This information would be critical for Congress to comprehensively understand the overall operation and maintenance needs of all commercial harbors, as well as that portion of the national dredging need that would be deferred to future years due to lack of available funding.

In addition, the Harbor Fairness Act of 2011 would require the Administration to identify future allocations of operation and maintenance funds, on a harbor-by-harbor basis. This information will allow commercial harbors to more accurately plan future operation and maintenance expenditures, both short-term and long-term, and more efficiently make critical decisions on the most efficient way to maintain safe commercial shipping at local harbors.

The central focus of the Harbor Fairness Act of 2011 is the requirement that expenditures for maintenance dredging is equitably allocated among all eligible commercial harbors. To accomplish this, the legislation requires the Secretary of the Army: (1) to utilize the information obtained from the assessment of dredging needs; (2) to consider the national and regional significance of harbor operation and maintenance; and (3) to make allocation decisions on factors beyond simply the amount of cargo tonnage transiting through a commercial harbor.

While the Corps is completing its assessment of national maintenance dredging needs, this legislation establishes a short-term, minimum allocation for maintenance dredging at midsize and small commercial harbors. The 40 percent guaranteed allocation for mid-size and small commercial harbors for fiscal years 2012 and 2013 represents only a modest increase in the allocation for these harbors over the previous two fiscal years (33.7 percent in fiscal year 2012 and 33.4 percent for fiscal year 2011), in part to address the disproportionate

backlog faced by mid-size and small commercial harbors.

In addition, this mandatory allocation of 40 percent is temporary, and will be replaced in fiscal year 2014 by an allocation based on the actual maintenance dredging needs of all harbors, as identified by the Corps.

Mr. Speaker, the Harbor Fairness Act of 2011 recognizes the fundamental importance of all commercial harbors to the national, regional, and local economies. It calls for fairness in the allocation of critical maintenance dredging funds among large-, moderate-, and small-commercial harbors. But, most of all, it recognizes the importance of the nation's ports to America and to American workers. I urge my colleagues to join me in supporting this very important legislation.

#### RECOGNIZING THE WINNERS OF THE 2011 ELLY DOYLE PARK SERVICE AWARDS

##### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to recognize the recipients of the 2011 Elly Doyle Park Service Awards. These awards, sponsored by the Fairfax County Park Authority Board in cooperation with the Fairfax County Park Foundation Board, recognize individuals and organizations for their extraordinary contributions to our environment and public park system.

Fairfax County is regarded as one of the best places in the country in which to live, work, and raise a family, and our nationally-recognized park system has played a key role in that distinction. Our community has a strong commitment to promoting and preserving our environment, including our public parks and outdoor spaces. Each year thousands of volunteers donate their talents and time to protect our natural and cultural resources and enhance public educational and recreational services.

The Elly Doyle Service Awards were established in 1988 in honor of former board member Ellamae Doyle's many years of outstanding service. In addition, recipients have also been named for the 2011 Eakin Philanthropy Award, named in honor of the Eakin family who donated the first parcels of parkland to the Park Authority over 50 years ago, and the 2011 Sally Ormsby Environmental Stewardship Award, named after the late Sally Ormsby who was a champion of environmental stewardship. I congratulate each of the 2011 recipients of these prestigious awards.

2011 Eakin Philanthropy Award Recipients: Craig and Belinda Stevens for their generous financial support of numerous Park Foundation projects; and

Cox Communications, for their ongoing funding of the Summer Entertainment Series.

2011 Sally Ormsby Environmental Stewardship Award Recipient:

Stella Koch, in recognition of the central role she has played in many environmental issues including development of policies and preservation of our natural resources.

2011 Elly Doyle Service Award Recipients: Friends of the Hidden Oaks Nature Center—For their exceptional efforts in supporting programs, activities, and facilities at the Hidden Oaks Nature Center in Annandale.

Charles and Jacque Olin—For the establishment of the Analemma Society in 1998 and their efforts in creating Observatory Park at Turner Farm.

Chris Robichaux—For creating the Mason District Dog Opportunity Group in 2000 which worked with Park Authority staff to identify suitable parkland for an off-leash dog area.

2011 Elly Doyle Special Recognition Awards Recipients: Jim Franks, Lynne Glasser, John Hopkins, James Jamison, and Judy Kirby, and student honoree, Morgan Volpe.

I also commend the 18 individuals who comprise the Class of 2011 Outstanding Volunteers.

Mr. Speaker, I ask that my colleagues join me in congratulating and thanking these honorees for their demonstrated commitment to our open spaces and public parks. Fairfax County is able to enjoy a high quality of life because of the efforts of these individuals and they are deserving of our praise and appreciation.

#### HONORING DONNA GORITY

##### HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. SHUSTER. Mr. Speaker, I rise today to honor the career and mark the retirement of Blair County Commissioner Donna GORITY. Donna is a friend and colleague whose work has left an indelible mark on her community. It has been an honor to work with her over her extensive career in the Commissioner's office to help improve the lives of our shared constituents. I join many other local elected officials, friends and neighbors in wishing her well in her retirement.

It is difficult to fit in all of the things Donna has accomplished over her 28 years in public office. First and foremost, Donna has the distinction of serving as the first female member of the Blair County Board of Commissioners. Donna has long been known for being a champion for children and health and human services issues throughout the county. Over her time in office, Donna developed a track record as a strong advocate for funding the county's Human Services Office, which provides support for homeless families and juvenile delinquency prevention.

In addition, Donna has been deeply involved in a program that is also very important to me: Operation Our Town in Altoona, Pennsylvania. Operation Our Town is a successful partnership between businesses and communities throughout Central Pennsylvania whose mission is to rid neighborhoods of drugs and drug-related violent crime. Operation Our Town completes its mission through community policing and proven treatment and prevention techniques. I am proud to have had her as an ally in applying Operation Our Town's techniques to Altoona.

Donna has been the recipient of a number of awards over her career. She was recog-

nized as part of the "Outstanding Young Women in America" in 1978, was named Boss of the Year in 1986 by the American Business Women's Association, won the President's Award by the County Commissioner's Association of Pennsylvania in 1994, received the Leadership Award from the Blair County NAACP in 2003 and the Lifetime Achievement Award this year by Blair Countians for Drug Free Communities. Again, these are but a few of her accomplishments.

Mr. Speaker, I congratulate Donna GORITY on her successful 28 years in public office and wish her well in her retirement. She will leave Blair County's government and the people it represents in better shape than when she found it. In the end, I believe that should be the goal of every public servant. Without question, Donna accomplished that goal.

#### PERSONAL EXPLANATION

##### HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. FILNER. Mr. Speaker, on rollcall 913, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "yes."

#### IN RECOGNITION OF REV. DR. KENNY SMITH AND HIS 25 YEARS OF SERVICE TO FIRST BAPTIST CHURCH OF VIENNA

##### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize the Reverend Dr. Kenny Smith and to celebrate his 25 years of service to the First Baptist Church of Vienna.

Born in Atlanta, Georgia, Pastor Smith earned his Bachelor's Degree in 1977, his Master of Divinity Degree from Howard University in 1987, and his Doctor of Ministry Degree from Virginia Union University School of Theology in 1992.

In December 1986, Pastor Smith arrived in Vienna, Virginia, with his wife, the Reverend Dr. Mary Smith, and he assumed leadership of the First Baptist Church. A relatively small church at the time, the membership of First Baptist was fewer than 200. Under his guidance and stewardship, First Baptist has witnessed significant growth and now has more than 30 active ministries, which provide spiritual guidance for its members and the entire community. I have had the pleasure of worshipping at First Baptist Church of Vienna on many occasions, and I always have been moved by Pastor Smith's words of inspiration and faith.

Like so many men of faith, Pastor Smith does not confine his dedication to within the walls of the sanctuary. He has ministered to the poor and disadvantaged in Nigeria, Ghana, Haiti, Coahoma, Maryland, South Carolina and Biloxi, Mississippi. First Baptist

Church of Vienna contributed more than \$53,000 to aid the victims of the Haitian earthquake and donated 1,000 bottles of multiple vitamins to aid the medical effort. Partnering with a sister church, Pastor Smith and the First Baptist Church family assisted with the finance of two Habitat for Humanity homes, contributing in excess of \$42,000 for each home. He has established a Federal Credit Union with assets of more than \$1 million, which provides members with safe and fair financial services.

Pastor Smith has long been recognized as a leader in faith and community service. He serves or has formerly served as president of the Baptist General Convention, president of the Fairfax County Branch of the NAACP, moderator of the NOVA Baptist Association, adjunct professor at Howard Divinity School and Wesley Theological Seminary, board member of the First Baptist Church of Vienna Federal Credit Union, board member of the Vienna Church Coalition for Housing, board member of Habitat for Humanity of Northern Virginia, and as a trustee of Virginia Union University.

His many accolades from the community include the Omega Psi Phi Fraternity (Omicron Kappa Kappa) 2006 Citizen of the year award; the James F. Jenkins Pillars of Faith Award (2005); Outstanding Service Award, Fairfax County Branch, NAACP (2004); the Dean's Pastor's Award, Howard University School of Theology (1999); the Outstanding Achievement in Religion Award, Howard University Alumni Club of Northern Virginia (1999); the Religious Affairs Award, Fairfax County Branch, NAACP (1998); the Outstanding Leadership Award, Northern Virginia Baptist Association (1998); Community Service Award, Horizon Community Outreach Group (1996); the Golden Eagle Award, Fairfax County School System (1994); the Award of Merit presented by the Old Dominion Bar Association (1994); the 1992 Human Rights Award presented by the Fairfax County Human Rights Commission (1993); the D. B. Barton Award in Pastoral Theology (1987); and the Joseph H. Jackson Award (1986) for Academic Excellence. He also was selected for Who's Who in American Colleges and Universities (1986/1987).

Pastor Smith does not only preach his faith; he lives his faith. He and his wife, Reverend Dr. Mary Smith, lead by example in their dedication to God, the community, and mankind, and I am proud to call them my friends.

Mr. Speaker, I ask that my colleagues join me in congratulating Rev. Dr. Kenny Smith on the occasion of his Silver Anniversary as Pastor of First Baptist Church of Vienna and in wishing him continued success.

#### HONORING MARY DONOVAN

#### HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Ms. WOOLSEY. Mr. Speaker, I rise today to honor Mary Donovan, a valued Marin County employee who is retiring after over 36 years of service. As the Program Manager II of the

Employment and Training Branch within the Department of Health and Human Services and the Director of the Workforce Investment Board of Marin, Ms. Donovan's skilled management and expertise has made a significant contribution to the effectiveness of this department.

In September, 1975, Ms. Donovan began her career with the County as an Eligibility Worker and earned repeated promotions over the years. Along the way, she was recognized for her calmness under pressure, delegates work well, has ability in a leadership role and her truly amazing ability to change roles, assume new tasks, learn new programs, and gain the respect of all around her. In 1994, she was named Program Manager II and continued to make full use of all these skills.

In her years of work within the County Ms. Donovan has managed many social service/public assistance programs including Aid to Families with Dependent Children, Food Stamps, MediCal, County Medical Services Programs, Job Training Partnership Act, Workforce Investment Board, and CalWORKs Welfare to Work. While serving on the newly formed Marin Child Care Commission, she provided key expertise in the navigation of the new CalWORKS program.

Originally from Pittsburg, PA, Mary Donovan was the oldest of 13 children. She is very family oriented with three children, all of whom were born in Marin. Jared, the oldest, works in Washington, DC; Logan is an actor in Southern California, and Margo works to travel. Mary, too, plans on traveling as well as enjoying a healthy lifestyle.

Mr. Speaker, please join me in thanking Mary Donovan for her years of service and wishing her well in retirement.

#### HONORING CAPTAIN ERWIN J. KORCZYNSKI

#### HON. MIKE QUIGLEY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. QUIGLEY. Mr. Speaker, on January 5th, Captain Erwin J. Korczynski passed away from prostate cancer. Today we honor Erwin as he was a great patriot and lead a selfless life.

Captain Erwin J. Korczynski was born in Chicago, Illinois on March 30, 1942. He was the product of first generation Polish American parents. His mother and father owned the Elm Hotel Restaurant in Chicago's Wicker Park Neighborhood from 1937 to 1947. His father also served as the Chief Chef on the Ann Rutledge train car operated by the Alton Railroad. Here he had the distinct honor of preparing meals for President Harry S. Truman aboard the Armed Forces Troop Trains. From 1947 to 1958 his parents became the owners of Helen's Food Shop, in the Gragin neighborhood of Chicago.

Captain Erwin J. Korczynski learned the value of public service while in Boy Scout Troop 153, eventually earning membership in Order of the Arrow by the Boy Scouting elite. He graduated from Chicago's Henry D. Lloyd Elementary School as a member of the class of 1956, and graduated from Chicago's Lane

Technical High School in the class of 1960. During his time at Lane Tech he "lettered" on six separate occasions, as well as winning many state championships during his four-year athletic endeavors.

Captain Erwin J. Korczynski marched in the Chicago Cavaliers Drum & Bugle Corps from 1956 to 1963 and served as a lifeguard at the Knollwood Country Club before Northern Illinois University. He was selected as Lifeguard of the Year for saving the life of a young swimmer. He later enrolled in the Priesthood at St. Ambrose Seminary in Davenport, Iowa, followed by his novitiate for the Christian Brothers at St. Mary's College in Winona, Minnesota.

In 1963, one year prior to graduation, he wanted to demonstrate his selfless commitment to serve our country during the Vietnam War, so he enlisted in the United States Marine Corps and was attached to Marine Attach Squadron, VMA 131. He attained the rank of Sergeant and was honorably discharged from active duty on December 1st, 1969.

Erwin then went on to receive Eastern Airlines Flight Academy training in Miami, Florida, obtaining the rank of Captain and was awarded a Type Rating in a Boeing 727 series 100-200-225. As Captain, Erwin flew for Eastern Airlines, Evergreen Airline of McMinnville, Oregon, Emirates Airlines of Dubai, UAE, Saudia Airlines of Jeddah, Saudi Arabia, Air Lanka of Colombo, Sri Lanka, USAfrica of Cape Town, South Africa, and Eva Airlines of Taipei, Taiwan.

From 1990 to 1991, Captain Erwin J. Korczynski acted as Pilot-in-Command, flying twenty-five missions during Operation Desert Shield and Desert Storm. Captain Erwin J. Korczynski must be saluted for his bravery, courage and aeronautical abilities. He volunteered to fly in the Persian Gulf, and so did with the highest level of distinction. For the second time in his life, he demonstrated his selfless commitment and patriotism to serve our country.

Mr. Speaker, Captain Erwin J. Korczynski is the shining example of the citizen-soldier. He supported our military actions while maintaining his civilian obligations and participated in the Civil Reserve Air Fleet (CRAF) Operation during Operation Desert Storm. Although an honorably discharged United States Marine, Captain Erwin J. Korczynski was not an activated reservist during this conflict and instead served as a volunteer.

His loving brother, Major Edwin J. "Ski" Korczynski, USAF/CAP, and Precinct Captain to Alderman Richard F. Mell, Chicago's 33rd Ward, summed up his identical twin brother's call to duty in a letter he sent to President Bush, stating that "from the first day of conflict, his brother cast his vote for our American traditions through his dedication and deeds, not merely a slip of paper." Through his actions, Captain Erwin J. Korczynski exemplified the ideals of the Colonial Army's soldiers who answered our fledgling Nation's call.

Captain Erwin J. Korczynski's dedication to service and patriotism kept him from retirement. Instead, equipped with his thirty-five plus years of aviation experience, he shared his knowledge and skills with young, soon-to-be airline pilots. Captain Erwin J. Korczynski sought out and obtained his certification as a

commercial airline Check Airman and Flight Instructor.

His remaining years, from age sixty thereafter, were spent as Airline Check Airman and Flight Instructor at the Gulfstream Flight Academy for Gulfstream Airlines based in Miami, Florida. Gulfstream Captain Erwin J. Korczynski trained hundreds of career starting airline pilots who admired and respected him for his zero tolerance flight and pilot standards. These new pilots coined the stories of his Marine Corps days, his Eastern Airline era, his six airline career and his world circles, as "Erwinisms"

Mr. Speaker, our nation will forever be indebted to Captain Erwin J. Korczynski's patriotism and unfailing bravery. He was a loved son, brother, soldier, and instructor who's dedication to serving our country will inspire generations to come. He is survived by his identical twin brother Edwin, wife Henrietta, daughters Elizabeth and Lieutenant/Navy JAG Kriesten, sons Ryan and Christian, granddaughter Emmalyn, daughter to Ryan and Diana, and all his friends.

A TRIBUTE TO DR. DOROTHY  
TRAVIS MOORE

**HON. GWEN MOORE**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Ms. MOORE. Mr. Speaker, I rise to honor Dr. Dorothy Travis Moore an educator, author, minister, foster parent, mother, wife and visionary. In 1996, she founded Ceria M. Travis Academy, where she is CEO and President. The institution named in honor of her mother was started utilizing her personal savings to fund her passion to serve both the community and children. The school serves approximately 900 students enrolled at three campuses. Travis Academy began by educating central city boys in grades 6 through 8 with one student and one teacher. The school incorporated a girls program 10 years ago and has now expanded to grades K4 through 12.

Dr. Travis Moore is a veteran educator with over 35 years of experience and known nationally for her work with at risk students, both as a teacher and administrator. She was formerly a National Educational Consultant with the National School Safety Center. She fostered more than 11 children and has welcomed into her home international students from England, Mexico and Africa. She is the author of six books with the most recent project entitled "From Violence to Victory—The Passion to Educate."

Dr. Dorothy Travis Moore is a licensed minister and member of New Testament Church of Milwaukee. During the past 29 years, she has served in various capacities including Youth Fellowship Director and Sunday School Teacher. Currently she serves on the Associate Minister's Team. Dr. Travis Moore loves to preach the gospel of Jesus Christ and served as Director of Christian Education for the Wisconsin Full Gospel Baptist Church Fellowship. She is an international speaker at women's conferences, workshops, seminars and churches in the United States, the Caribbean and Europe.

Dr. Travis Moore received a Bachelor of Science Degree from the University of Wisconsin—LaCrosse, earned her Master of Arts Degree from Ball State University, Muncie Indiana and received Master's and Doctorate degrees in Christian Counseling from Grace Theological Seminary.

Dr. Travis Moore's honors include: "Top Principal of Leadership," "Who's Who Among Executives and Professionals in the United States," "The University of Wisconsin Distinguished Alumni Award," the prestigious "Rubies Award" from the Women of Excellence at Greater St. Stephens Full Gospel Baptist Church in New Orleans, LA, "The Women Who Shape Our World Award in Education" and the "2007 Pamela Bates Porch Outstanding Educator Award" from Alpha Kappa Alpha Sorority, Inc.

Mr. Speaker, this is why I pay tribute to Dr. Dorothy Travis Moore, a trailblazer who celebrates 15 years as CEO/Founder of Ceria M. Travis Academy and over 35 years of educating our youth. She has stated that her greatest joy is in serving the Lord and has truly followed one of her favorite Bible verses "I can do all things through Christ who strengthens me." I am proud to call Dr. Dorothy Travis Moore a lifelong friend to me and my family and proud that she works and educates children in the 4th Congressional District.

HONORING THE ARMY NATIONAL  
GUARD

**HON. MARSHA BLACKBURN**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mrs. BLACKBURN. Mr. Speaker, they are our neighbors, cousins, sisters, and friends. They are called upon to protect America at home and her interests abroad and do so with swiftness and dedication. From humble beginnings to one of the largest military forces in the world, the National Guard is the oldest component of the Armed Forces and I rise today to celebrate their 375th birthday.

Three regiments were established on December 13, 1636 by the Massachusetts General Court in Salem. The early colonies knew the freedoms they sought must be defended. Seeing a great need for the protection of able-bodied men, but having not the money to pay mercenaries, the North, South, and East regiments were organized with the promise to keep a ready state of mind and preparation to fight when needed. Almost four centuries later, the National Guard operates still by these same watchwords: ready and prepared. From the Mexican War to the Global War on Terror, the men and women of the National Guard have answered this nation's call to service.

For 375 years, the citizen-soldiers of the Army National Guard have protected and defended this great land in times of war, times of peace, and times of calamity. We are ever-thankful for their dedication and watchful eye as they work to protect freedom and freedom's cause. I rise today to honor the National Guard and ask my colleagues to join with me in celebrating the three and a quarter centuries of swift and noble response.

IN HONOR OF FORMER GEORGIA  
STATE SENATOR ROBERT  
LOFTON BROWN

**HON. SANFORD D. BISHOP, JR.**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 13, 2011*

Mr. BISHOP of Georgia. Mr. Speaker, last week the state of Georgia lost one of its most committed community leaders, beloved public figures and dynamic elected officials with the death of former Georgia State Senator Robert Brown. Senator Brown was a close friend, confidant, and someone who I greatly admired not only for his notable legislative achievements on behalf of the people of Georgia but more importantly for his measured disposition, kind-hearted nature and uncompromising desire to help needy families and low-income communities.

On Wednesday, December 14, 2011, Senator Brown's family members, friends, colleagues, and his constituents will pay tribute to his legacy of achievement and outstanding efforts on behalf of working families during funeral services at Greater Zion Hill Baptist Church in Macon, Georgia.

Although we are all saddened by the unexpected and sudden passing of our friend and colleague, we can all take solace in remembering the positive, enduring impact that he had on our lives and the profound accomplishments that he achieved throughout his exemplary public service.

Senator Brown was born on January 30, 1950 to Joe Brown and Ruby Lofton Brown. He spent his formative years in Greenville, Georgia before moving to Macon to attend and eventually graduate from Mercer University. Following college, Senator Brown permanently settled in Macon and began to gradually establish himself as one of Middle Georgia's most respected political leaders.

While he will be remembered as a wise and thoughtful public figure, Senator Brown had to overcome many obstacles and conquer seemingly insurmountable challenges in his ascension to the status of becoming one of Georgia's most influential legislators. Despite two unsuccessful election attempts for a seat in the Georgia State House, he refused to give up and was eventually elected to the Bibb County School Board.

Following his tenure on the school board, he once again beat the odds and in 1991 won a highly competitive election for the Georgia State Senate. While in the Senate he was appointed as the Governor's Assistant Floor Leader before being elected to serve as that legislative body's Minority Leader. He served as Senate Minority Leader for six years and while in this position he effectively advanced initiatives that improved public education, consolidated overlapping government functions, and preserved historic landmarks cherished by local residents.

Senator Brown was preceded in death by his beloved parents and is survived by many cousins, close personal friends, an expansive network of professional colleagues and loyal constituents.

Mr. Speaker, it has been said that, "Service is the rent we pay for the space we occupy on

this earth.” There is no doubt that through his service, Senator Robert Lofton Brown paid his “rent” and the world is truly better because he

did.

Therefore, I ask my colleagues to join me today in paying tribute to the life of State Sen-

ator Robert Brown—an outstanding legislator, dedicated community advocate, loyal friend and faithful public servant.

## HOUSE OF REPRESENTATIVES—Wednesday, December 14, 2011

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. WEBSTER).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
December 14, 2011.

I hereby appoint the Honorable DANIEL WEBSTER to act as Speaker pro tempore on this day.

JOHN A. BOEHNER,  
*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 5, 2011, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 1 hour and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes each, but in no event shall debate continue beyond 11:50 a.m.

### AFGHANISTAN

The SPEAKER pro tempore. The Chair recognizes the gentleman from North Carolina (Mr. JONES) for 5 minutes.

Mr. JONES. Over this past weekend, a published article in a North Carolina paper was titled, "U.S. Envoy: Troops could stay in Afghanistan," subtitled, "The White House echoed that 2014 is not a deadline for total withdrawal." I would like to submit the article for the RECORD, Mr. Speaker.

I will read the last sentence of the article:

"At a conference in Bonn, Germany, last week, President Hamid Karzai and other Afghan officials called for political and military support for at least another decade."

This is coming from a man who, according to CNN, told a group of tribal elders last month, "America is powerful, has more money, but we are lions here. Lions have the habit of not liking strangers getting into their house." President Karzai continued by saying, "We want to say that Iran is our brother. During the years of jihad, Iran has been one of the best countries for hospitality for Afghans. They are our brother."

Mr. Speaker, it just amazes me that he keeps saying that he doesn't even like us, but when he needs us, then he likes us. Our young men and women in the military are over there, losing their legs, their arms—and dying. How in the world can we continue to spend \$10 billion a month when this man says that Iran is its friend—"they are our brother"?

The American people are sick and tired, quite frankly, of being in Afghanistan. Recently, when I spoke on the floor, I received a letter shortly thereafter from Jean Bonney Smith in Idaho regarding a recent floor speech that I gave. I want to quote a couple of comments. Then I would like to submit her letter for the RECORD, Mr. Speaker.

"Everything you said made perfect sense. These are things I've been thinking for 2 or 3 years, too. Karzai's most recent remarks were just the last slap in the face of the American people. How can you convince your fellow Republicans of these truths? We can't just stay on this 'War, Inc.' course, waiting for the next election. It is criminal to our troops."

There are so many people across this Nation who just wonder why we continue to support a corrupt leader in a country that will never, never change.

I hope, as we get into the new year, that those of us in both parties can find legislation, as I have worked with Representative MCGOVERN before, which we can submit in the House so that we can get this House behind getting our troops out, because, believe me, we'll be there for 5 to 10 more years. It's not fair and it's not right.

Beside me is a picture from the Greensboro News-Record. It was taken a few months ago, but this tells it all. The title reads, "Get Out," and there are soldiers taking a flag-draped transfer case off the plane.

It is time to bring our troops home from Afghanistan. It is time to fix the problems here in America, to create jobs in America. We can certainly use that \$10 billion a month that we are sending to Afghanistan and spend it right here on the American people and do what's right to get America back on its feet.

With that, Mr. Speaker, I will close as I always do:

From the bottom of my heart, God, please bless our men and women in uniform. God, please bless the families of our men and women in uniform. God, please hold in Your arms the families who have given a child, dying for freedom in Afghanistan and Iraq.

Mr. Speaker, I ask God to bless the House and Senate that we will do what's right in the eyes of God. I ask God to give strength, wisdom, and courage to President Obama.

And three times I will ask: God, please, God, please, God, please continue to bless America.

[From the News & Observer, Dec. 2011]

U.S. ENVOY: TROOPS COULD STAY IN  
AFGHANISTAN

(By Rod Nordland)

KABUL, AFGHANISTAN.—The U.S. ambassador to Afghanistan on Saturday raised the possibility that U.S. combat troops could stay in the country beyond the 2014 deadline that the White House had set for their withdrawal.

Ambassador Ryan Crocker, speaking with a small group of journalists, said that if the Afghan government wanted U.S. troops to stay longer, the withdrawal could be slowed. "They would have to ask for it," he said. "I could certainly see us saying, 'Yeah, makes sense.'"

He emphasized, however, that no such decision had been made.

White House officials said that Crocker's comments were consistent with its previously stated position.

"The president never excluded the possibility that there would be some U.S. forces here, but he stressed that security would be under Afghan lead by 2014," said Eileen O'Connor, the embassy spokeswoman.

Crocker's comments came as the administration is engaged in discussions with the Afghan government on what arrangements should be after 2014. At a conference in Bonn, Germany, last week, President Hamid Karzai and other Afghan officials called for political and military support for at least another decade.

### U.S. DEATHS

The Department of Defense recently confirmed the deaths of these American military personnel:

Sgt. 1st Class Clark A. Corley Jr., 35, of Oxnard, Calif., Spc. Ryan M. Lumley, 21, of Lakeland, Fla., and Spc. Thomas J. Mayberry, 21, of Springville, Calif., died Dec. 3, in Wardak province, Afghanistan, of wounds suffered when enemy forces attacked their unit with an improvised explosive device. They were assigned to the 2nd Battalion, 5th Infantry Regiment, 3rd Brigade Combat Team, Fort Bliss, Texas.

Sgt. Ryan D. Sharp, 28, of Idaho Falls, Idaho, died Dec. 3, at Landstuhl Regional Medical Center, Landstuhl, Germany, of wounds suffered Nov. 21 at Kandahar province, when insurgents attacked his unit with an improvised explosive device. He was assigned to the 2nd Battalion, 34th Armor Regiment, 1st Brigade Combat Team, 1st Infantry Division, Fort Riley, Kan.

JEAN BONNEY SMITH,  
1550 E. HOLLY STREET,  
Boise, ID, October 25, 2011.

To: Rep. WALTER JONES  
Re Your "General Speech" This morning

You were excellent on the House floor this morning, regarding ENDING THE WARS!

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Everything you said made perfect sense—Things I have been thinking for 2 or 3 years, too! Karzai's most recent remarks were just the last slap in our face!

How can you convince your fellow Republicans of these truths?

We can't just stay on this "War Inc.," course, *waiting for the next election*—it is criminal to our troops.

Thank you,

JEAN B. SMITH.

#### AMERICA'S UNSUSTAINABLE PATH

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. One thing that most of the Occupy Wall Street protesters and the majority of the Tea Party advocates agree upon is that the United States is not on a sustainable path.

The economy is still floundering. We are in too many cases losing the competition to other countries in things like building, maintaining our infrastructure for the future and in keeping up with the advances of education. We have the world's most expensive health care system that leaves too many people without coverage and provides the Nation overall with mediocre results.

Americans get sick more often, take longer to get well, and die sooner than most of our European competitors; and half that cost is loaded on the backs of the employers and embedded in the prices of their products.

But perhaps the most glaring example of unsustainability is not our health care system or our tax system; it is the massive defense and security spending with escalating costs, which is, sadly, not strategically oriented.

We cannot continue to spend almost as much as the rest of the world, friend and foe alike, combined. Our military was stressed, and continues to be hobbled by the reckless action in Iraq and further challenged by the war in Afghanistan. Yet we have a defense reauthorization that we will be considering on the floor today that ignores the big picture, does not lay the foundation for a dramatic scaling back of open-ended spending commitments, especially in dealing with issues like a nuclear weapons system far more expensive and out of proportion to what we will ever need or use. There are patterns of deployment that cry out for reform.

There are long overdue elements to deal with cost-effectiveness and the environmental footprint. Energy costs of \$400 a gallon for fuel to the front, billions of dollars just for air-conditioning are symbols of a system that is not sustainable. We need key improvements. Unfortunately, we're on a path of trying to do more than we can or that we should do.

The greatest threat to our future is losing control of our ability to sustain the military because we can't sustain

the economy. Unlike the past, we feel now that we don't have enough money to train and educate our next generation. It is a problem now that American infrastructure is not keeping pace with the demands of our communities, let alone the global economy.

We should reject this blueprint. We should begin the process now of right-sizing the military, of getting rid of the burdensome nuclear overreach and patterns from the past—spending on things that would help us with the Cold War or World War II, maybe even do a slightly better job on the misguided mission in Iraq—but not the most pressing challenges for American security in this century.

We have the most powerful military in the world and will, by far, even if we invest substantially less. Our problem is that the American public is being ill-served by a government that is not investing in our future and in an economy that will not be able to sustain ever-increasing military commitments, to say nothing of the demands of investing in our communities and our people, especially the young.

□ 1010

I was, from the beginning, appalled at the burden we were asking of our young men and women to bear when we put them in the reckless Iraq adventure. People who are in the front deserve our best in terms of equipment and facilities. They and their families need to be well cared for, not just in the field but when they come home. We can do this, even in difficult times, if we get our priorities right. And we can get our priorities straight and the job done with less money.

The cuts initiated by Secretary Gates and the Obama administration, plus what would be required by sequestration, would only bring our defense establishment to the level of 2007, adjusted for inflation. There is no question that over the next 10 years, we can manage that transition and that we will have to do it. What is sad is that the bill we will be considering today doesn't make the progress we need to get us there.

#### A TRIBUTE TO PHYLLIS CAUSEY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Kentucky (Mr. GUTHRIE) for 5 minutes.

Mr. GUTHRIE. Mr. Speaker, I rise today to pay tribute to a great friend and a remarkable Kentuckian, Mrs. Phyllis Causey. In January, after 39 years of honorable and selfless public service, she will retire.

Her Lewisburg High School yearbook in 1968 contained a prophecy for her, saying, "Phyllis will be in President Nixon's Cabinet in 10 years." And although President Nixon resigned while she was at basic training for the Army Reserve in '74 and she never did make

it to the White House, lucky for us, she still decided to follow her passion for politics and public service.

Phyllis graduated from Hopkinsville Community College in 1970 and received her bachelor's degree from Western Kentucky University in 1972. Upon her graduation, Phyllis worked for WKU for the following 23 years.

In 1995, she was hired as a field representative for Congressman Ron Lewis. And when I was elected to replace Congressman Lewis upon his retirement, Phyllis was kind enough to continue working for me.

While traveling as a candidate for Congress, I met so many individuals whose first question to me was, Are you going to keep Phyllis if you are elected? Their question was a testament to Phyllis' compassion, hard work, and dedication to the individuals in the counties she served. She was and still is irreplaceable.

Phyllis grew up on a farm in Logan County, where her parents taught her the value of hard work and the importance of giving and caring for others. And throughout the nearly 20 years I have known Phyllis, she has exemplified these values every day. She has been such an inspiration to me, and she has always been devoted to the causes she believes in—church, family, and friends.

Phyllis is an incredible wife, daughter, sister, and mother. I know her family—especially her husband, Larry—will be happy to have her around more often.

And although I will miss her, I know this is in no way a goodbye. I am positive she will continue to be active and touch the lives of those of us who have had the privilege of calling her a friend.

I ask my colleagues to join me in honoring Mrs. Phyllis Causey, who exemplifies what it means to be an American, a Kentuckian, a Christian, and a public servant.

#### THE PENTAGON MUST BE AUDITED

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. DEFazio) for 5 minutes.

Mr. DEFazio. Well, we've all heard of too big to fail when the Secretary of the Treasury Hank Paulson and President Bush bailed out a bunch of miscreants on Wall Street for their gambling and mistakes and putting taxpayers at risk, some principle that does not belong in the policy of this country. But now we have another one: Too big to be counted. Too big to be counted.

This year, the Pentagon will spend \$670 billion, about \$2 million a day, and it doesn't know where its money is. In fact, it often doesn't even know if it has spent money. Here are a few examples:

In March 2000, the Pentagon inspector general found that of the \$7.6 trillion—"t," trillion dollars—in accounting entries, about one-third of them—\$2.3 trillion, or \$8,000 for every man, woman, and child in America, was completely untraceable, completely untraceable. \$2.3 trillion, don't know where it went. Don't know if they bought something, if it was delivered. Who knows.

Then, in 2003, they found—and this is something I've talked about all through my years in Congress, the so-called inventory system at the Pentagon, which is absolutely absurd. The Army lost track of 56 airplanes, 32 tanks, and 36 missile command launch units. And while military leaders back in 2003 were scrambling around trying to find chemical and biological suits for our troops because of the risks in the Middle East, in Afghanistan, the Pentagon was selling suits at surplus on the Internet for 2 cents on the dollar. No suits for the troops. They're very expensive. Over here, we're selling them for 2 cents on the dollar to the general public. What is this all about?

Another year, they spent \$100 million for refundable airline tickets that they didn't use. Hey, what's \$100 million at the Pentagon? Chump change. They didn't ask for the refunds. They just stuck them in a drawer. That is \$100 million that didn't go to serve our national defense, supply our troops, or be saved and defray our deficit.

In fiscal year '10, half of the Pentagon's \$366 billion in contract awards were not competed. Half.

Now, these are pretty shocking numbers. And actually, the gentleman from New Jersey (Mr. GARRETT) and I on the floor here last spring got a little amendment in the Department of Defense bill to require that they conform to a 1994 law. In 1994, Congress said the Pentagon should be audited by 1997. Unfortunately, every year, the appropriators have said, Oh, no, no, no. That's too much to ask of the Pentagon.

Well, we got a little amendment in the bill here. We kind of snuck it by the DOD hawks over there who are protecting the incompetence over there, and they would have been audited. The Senate did the same thing. But to the rescue, the conference committee, behind closed doors. I was one of very few on the floor here who voted against closing the doors of the conference because they don't close the doors of the conference committee over there to talk about classified things that could risk our national security. They do it to cut deals like this.

So yesterday, they decided the Pentagon will not be audited. It can't be audited. In fact, the gentleman from Texas (Mr. CONAWAY), one of our colleagues, said it would be insulting to require that we audit the Pentagon in a mandatory way by 2014. I mean,

that's only 2 years from now. That's only a couple more trillion dollars from now. Boy, we wouldn't want to know where that money is going. We wouldn't want to know whether they are surplus-ing out stuff our troops need while they're paying for a contractor who didn't have to compete to buy the same stuff, and they say there is a shortage and we don't have enough. We wouldn't want to know these things. So we closed the conference and cut these stinking deals.

So here it is, once again, too big to be counted. This does not serve our men and women in uniform well. It does not serve the national defense needs of the United States of America, and it sure as heck doesn't serve the interests of the American taxpayers. The Pentagon must be audited like every other agency of Federal Government, and we should also throw in the Federal Reserve.

#### TRICIA MILLER, 2012 TEACHER OF THE YEAR

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, first today, I rise today to congratulate Tricia Miller of Centre County on receiving the 2012 Pennsylvania Teacher of the Year award. An English teacher from the Penns Valley Area School District since 1994, Tricia is the first Centre County educator to receive the award in its 54-year history. In addition to teaching English, in 2009 Trish became the Penns Valley literacy coach for grades 7 through 12, where she has introduced new instructional strategies in the classroom.

Many variables go into a great education, but it's having great teachers that matter most. Tricia Miller is the type of teacher that goes above and beyond. She is tirelessly committed to high achievement and the success of her students, which she has demonstrated year after year.

Tricia Miller is deserving of this award and recognition. We thank her for her commitment to the teaching profession and are proud that she will go to represent the State in the National Teacher of the Year competition. Congratulations, Teacher Tricia Miller.

□ 1020

#### HOUSE PASSES EXTENSION LEGISLATION

Mr. Speaker, I also would like to take time this morning to address and celebrate a piece of legislation that we passed out of the House of Representatives last evening, largely, almost solely with just Republican support, but a bill that deserved bipartisan support because it's great for the entire Nation.

This is a bill that addresses many of the extension bills that were lingering

and will soon expire at the end of the year. In particular, there are three parts I just want to touch on briefly this morning that are incredibly important for the citizens of this Nation, and I think also parts that are transformational. And it's rare that we see a transformational piece of legislation out of this body.

First of all, the tax cuts. Tax cuts for all Americans. This is a tax cut that was actually paid for, not one that added to the national debt or certainly one that threatened in any way the integrity of the Social Security fund. I am very proud to be able to support this bill and to do it in a proper way, to pay for and allow the citizens of this country to keep money in their own pockets. Certainly they are better prepared to make decisions on how money is spent.

Secondly, the changes in the extension of the unemployment compensation. We have taken steps to move unemployment towards a workforce development program as opposed to just an entitlement program. Unemployment is important and should be used to return people to work, and the provisions of the bill that were approved yesterday do just that. It allows States to do drug screening. We've put a lot of money into retraining people for jobs when they are on unemployment or through the Workforce Investment Act only to find that there is a percentage that aren't eligible to work because they can't pass a drug test. This provision gives people a reason to clean their lives up. It takes it from 99 to 59 weeks, which is an appropriate move.

One of the last provisions, which I think is maybe one of the most important: If you are an individual and need unemployment compensation, and you don't have a high school degree or a GED, it requires you to enroll in a qualified GED program. Education is the key to success in this country.

Finally, as a part of this bill that I was proud to support, it provides 2 years of preventing an over 27 percent cut to the Medicare part B Medicare reimbursement rates for both hospitals and physicians.

As a former health care provider, manager within rural hospitals, I know how devastating those cuts would be, and I was very proud that not only did we address that, we did it with more certainty than has ever been done in the past since 1997, when we did that for a 2-year period.

Mr. Speaker, I am very appreciative of my colleagues for supporting this bill and passing it out of the House. And I would ask, Mr. Speaker, that the Senate give it the same full due diligence in quickly moving it out of that side of Congress so that the American people can benefit from all of the provisions within that extension package.

# END THE WAR IN AFGHANISTAN NOW

The SPEAKER pro tempore. The Chair recognizes the gentleman from Massachusetts (Mr. MCGOVERN) for 5 minutes.

Mr. MCGOVERN. Mr. Speaker, on Saturday The New York Times reported that our Ambassador in Afghanistan, Ryan C. Crocker, told a group of journalists that U.S. troops could stay in Afghanistan long past the President's 2014 deadline if the Afghan Government asked us to stay.

The very next day, The New York Times reported Afghan President Hamid Karzai blaming foreigners, including the United States, for the corruption that is so rampant in his government. He had the audacity to say this at an event marking International Anti-Corruption Day.

Afghanistan is one of the most corrupt countries on the face of the earth. Transparency International ranks Afghanistan as the second most corrupt government, right behind Somalia and North Korea, which tied for first place.

So I ask my colleagues, why should we shed a single drop more of blood, sacrifice the lives of our service men and women, for a corrupt government that doesn't even have the decency to take responsibility for its own failures.

Enough is enough. We have spent over \$440 billion on military operations alone in Afghanistan since 9/11. In 2012 we aim to spend another \$113 billion. By this time next year, our total spending on the war in Afghanistan, just the military operations, will be around \$557 billion. That's over half a trillion dollars.

And when I say "spend," I really mean borrow, because from day one of the Afghanistan war—and the Iraq war, for that matter—we have not paid for the military operations in these wars. We have borrowed nearly every single penny of that money, put it on the national credit card, let it rack up over a quarter of our cumulative deficit, and help explode our debt year after year for a decade.

Sadly, when it comes to paying for this war, too many in Washington are silent.

Mr. Speaker, over 1,800 service men and women have died in Afghanistan, 42 of them from Massachusetts. Over 14,000 wounded. Husbands, fathers, wives, and mothers. Sons and daughters, brothers and sisters. Homes created in families and communities that can never be filled, losses that will be felt for a generation or more.

Each month the tally of dead and wounded gets higher. 2010 was the deadliest year for American troops in the history of the Afghanistan war. And 2011, a close second.

We have become numb to the numbers. We don't even hear them any more. But these losses resonate around family kitchen tables in the homes of

the deployed every day and night of the year.

We all know that the human cost of the war is found not only on the battlefields of Afghanistan. It's also found in veterans hospitals and counseling clinics around the country. We continue to struggle with soaring rates of traumatic brain injuries, post-traumatic stress and suicides among our soldiers and our veterans. So many leave the service or try and carry on military careers wounded in both body and soul.

Even if we were to leave Afghanistan tomorrow—and I'm so very glad to see that our troops are coming home from Iraq—our war debt will continue for decades. And for what? For 10 years of support for a corrupt government in Afghanistan? Ten years of sacrificing our brave uniformed men and women? Ten years of borrowing money we never had? This war is no longer about going after al Qaeda—which I voted to do. Osama bin Laden is dead. Instead, we're now bogged down in a seemingly endless occupation in support of an incompetent and corrupt Karzai government. This is not what I voted for.

So yes, I'm really worried when I pick up the newspaper and read Ambassador Crocker saying we may be in Afghanistan for years beyond 2014. The American people are way ahead of the Congress and the White House on this issue. They want this war ended now. But it seems that Washington just doesn't get it. But when all is said and done, the responsibility for continuing or ending the war is right here in this Chamber. We approved this war, we must now take the responsibility to end it.

This is why, Mr. Speaker, I will vote against the conference report on the FY 2012 National Defense Authorization bill. The defense bill includes many good and important provisions, but it does nothing, absolutely nothing to wind down the war in Afghanistan.

It's way past time to bring our troops home from Afghanistan. I can't authorize any more funding that doesn't explicitly call on the President to plan and carry out the accelerated removal of our troops.

Bring them home, Mr. President. Bring them all home now.

[From the New York Times, Dec. 10, 2011]

U.S. TROOPS COULD STAY IN AFGHANISTAN  
PAST DEADLINE, ENVOY SAYS

(By Rod Nordland)

KABUL, AFGHANISTAN—The American ambassador to Afghanistan on Saturday raised the possibility that United States combat troops could stay in the country beyond the 2014 deadline that the White House had set for their withdrawal.

The ambassador, Ryan C. Crocker, speaking at a roundtable event with a small group of journalists, said that if the Afghan government wanted American troops to stay longer, the withdrawal could be slowed. "They would have to ask for it," he said. "I could certainly see us saying, 'Yeah, makes sense.'"

He emphasized, however, that no such decision had been made.

White House officials said that Mr. Crocker's comments were consistent with its previously stated position.

"The president never excluded the possibility that there would be some U.S. forces here, but he stressed that security would be under Afghan lead by 2014," said the embassy spokeswoman, Eileen O'Connor. "The president has always spoken of a responsible winding down of the efforts here, so talk of the possibility of some troops still being here post-2014 is not a change in policy."

But Mr. Crocker's comments were an explicit acknowledgment that the post-2014 forces may include combat troops, not just the trainers and advisers who had been publicly mentioned before.

His comments came as the administration was engaged in discussions with the Afghan government on arrangements after 2014. At a conference in Bonn, Germany, last week, President Hamid Karzai and other Afghan officials called for political and military support for at least another decade.

Referring to the NATO summit meeting in Lisbon last year at which Western leaders agreed to transfer security responsibility to Afghan forces by 2014, Mr. Crocker said: "There is nothing in the Lisbon declaration on 2014 that precludes an international military presence beyond 2014. That is to be determined by the parties, who could be numerous, not just us, as we get closer to that date."

In June, President Obama announced that American troop withdrawals would begin the following month, with 10,000 of the roughly 101,000 American troops then in the country to leave by Dec. 31, and an additional 23,000 to follow by the summer of 2012. "Our troops will continue coming home at a steady pace as Afghan security forces move into the lead," he said. "Our mission will change from combat to support. By 2014, this process of transition will be complete, and the Afghan people will be responsible for their own security." Of the first 10,000, 4,000 have left, according to a senior NATO official. In most of those cases, personnel who had been scheduled to leave were not replaced, the official said.

"We are on a timeline, as you know," Mr. Crocker said. "Ten thousand out by the end of the year, that is being met." With the additional 23,000 by September 2012, he added, "that basically recovers the surge"—the reinforcements Mr. Obama ordered two years ago.

"Beyond that, there are no decisions," he said, adding, "And as far as I'm aware, there are no formal recommendations yet."

Asked if that meant that the United States would not necessarily withdraw all combat troops by 2014, Mr. Crocker said, "I don't know what we're going to be doing in 2014."

Caitlin Hayden, a spokeswoman for the National Security Council, said that "the president will make decisions on the size and shape of our presence after 2014 at the appropriate time, based on our interests and in consultation with our Afghan and NATO partners."

"We have been clear that any post-2014 presence by the U.S. would be at the invitation of the Afghan government and aimed at ensuring that we are able to target terrorists and support a sovereign Afghan government so that our enemies can't outlast us," she added. "We have also been very clear that we do not seek permanent bases in Afghanistan or a long-term military presence that would be a threat to Afghanistan's neighbors."

Military leaders have been quietly pushing to keep as many troops in the country as they can during the next two years as a safeguard while responsibility is transferred to Afghan forces.

On Wednesday, The Wall Street Journal reported that Gen. John R. Allen, the United States and NATO commander in Afghanistan, had been promoting the view that the withdrawals should stop after next year, with the remaining 68,000 soldiers to be kept in Afghanistan through 2013, before cuts resume in 2014. The article said he had not formally recommended that course of action, however.

Mr. Crocker noted that General Allen had made it clear that trainers and advisers would be likely to remain after 2014. Mr. Crocker said that in some cases "major weapons systems will not reach Afghanistan" until after 2014, so Afghans will need assistance learning how to operate and maintain them.

He said he did not expect America's diplomatic presence to be reduced along with the military pullback. The number of civilian American government employees in Afghanistan increased more than threefold from 2009 to 2011, to more than 1,130, from 320.

"The decisions get made in Washington, but it's my intention that we're going to stay pretty steady," he said. "As the military does draw down, I think our role will even increase in importance."

[From the New York Times, Dec. 11, 2011]

#### KARZAI SAYS FOREIGNERS ARE RESPONSIBLE FOR CORRUPTION

(By Alissa J. Rubin)

KABUL, AFGHANISTAN.—President Hamid Karzai of Afghanistan blamed foreigners on Sunday for the corruption of Afghan officials and demanded that the United States extradite the former chief of the Afghan Central Bank in connection with the collapse of Kabul Bank, the country's largest financial institution.

The former governor of the Central Bank, Qadir Fitrat, is living in Virginia. He fled Afghanistan, saying he feared for his life after he was involved in making public the massive fraud at Kabul Bank and removing its senior management.

Neither of the top bank officers nor any of the major shareholders, who include a brother of Mr. Karzai's and a brother of the first vice president, Marshal Fahim, have been prosecuted, although all of them are still in Afghanistan.

Referring to Mr. Fitrat, Mr. Karzai said, "The government of the United States should cooperate and hand him over to us."

"Bring Fitrat and hand him over to Afghanistan to make clear who is to blame," he said. "But our hand can't reach to America."

Mr. Karzai made the remarks at an event sponsored by the United Nations to mark International Anti-Corruption Day. Afghanistan is one of the world's most corrupt countries, tying for second worst in rankings by Transparency International, which tracks perceptions of global corruption.

Several Western diplomats and officials working with the Afghan government said they were disappointed by Mr. Karzai's speech, in which he appeared to again shift much of the blame for corruption to foreigners. While foreigners are unquestionably involved in some of the corruption, they shared responsibility with the Afghans and were only peripherally involved in the Kabul Bank debacle.

Mr. Karzai also asked that foreigners who give aid to the country tell Afghan officials

if government officials or their relatives ask for bribes. Foreign governments have helped finance anticorruption efforts, but the Afghans have often squashed high-profile corruption prosecutions of senior officials. That has been a continuing effort by NATO to comb through military contracts with Afghan businesses to detect corruption and terminate contracts in which there has been manifest abuse. That effort has gone on largely behind the scenes, so it is difficult to tell if it has had much success.

Ryan C. Crocker, the American ambassador, said he believed that corruption was now being taken more seriously, although progress was slow and none of the main people responsible for the Kabul Bank fraud had been prosecuted. The Afghan government lost more than \$850 million in the bank's collapse. While some of that money has been recovered—more than expected, according to several officials—the government will probably have to pay \$450 million to \$500 million to cover losses.

"I am told they have a series of indictments that have been kept in the pending file as they concentrate on asset recovery," Mr. Crocker told reporters on Saturday. "Look, it's hardly a perfect world. And it isn't going to be for quite some time. What I look for is a trajectory: Is the line going up or down? Very cautiously and very incrementally, I see it going up. In other words, corruption is being taken more seriously at higher levels."

"Does that mean we've turned the corner? We'll see," he added.

Mr. Karzai's focus on Mr. Fitrat and his jab at the United States are the latest in a series of similar comments he has made about the fraud at Kabul Bank. In an interview with the German magazine Der Spiegel last week, he also blamed the United States for Kabul Bank's troubles, saying, "The Americans never told us about this."

"We believed a certain embassy was trying to create financial trouble for us," he said. "We felt the whole bank scam was created by foreign hands." Mr. Karzai declined to be specific, but the American Embassy is the only one that has deeply consulted with the Afghan banking system.

#### CONGRATULATING ROBERT GRIFFIN, III

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. FLORES) for 5 minutes.

Mr. FLORES. Mr. Speaker, I rise today to congratulate a constituent of Texas District 17. His name is Robert Griffin, III, of Baylor University in Waco, Texas, and he is the recipient of the 2011 Heisman Memorial Trophy.

The son of two U.S. Army sergeants, RG3, as he is more popularly known, epitomizes what it means to be a student athlete and a role model for all Americans.

During the Baylor Bears' 2011 season, Robert threw for nearly 4,000 yards and had 45 touchdowns. His 72 percent completion rate placed him among the most accurate passers in the Nation, and he was the only player in the country who had at least 3,300 passing yards and 300 rushing yards.

□ 1030

He is one of only three players in Football Bowl Subdivision history with

10,000 career passing yards and 2,000 career rushing yards. He owns or shares 30 Baylor football records.

Among his awards and accolades in 2011 were the Chic Harley Award for the National Player of the Year, the Big 12 Player of the Year, first team All-American, the Davey O'Brien Award, and, of course, the 77th annual Heisman Memorial Trophy, awarded to the most outstanding player in college football each year. He did all of this while leading the Bears to their first nine-win regular season since 1986 and a berth in the Alamo Bowl in 2011.

What makes Robert such an excellent role model is that his success at Baylor has not only been on the field. Robert graduated from Baylor in 3 years with a 3.67 GPA and a degree in political science. He is currently in graduate school pursuing a master's in communication and plans to attend law school in the future. He is a six-time member of the Big 12 Commissioner's Honor Roll and a two-time Dean's List honoree. This year, he was named second team Academic All-American.

Robert is also very active in his community, regularly volunteering for several charities in the Waco area. Robert is also a world-class hurdler, and he hopes to qualify for the 2012 Olympic Team. I am personally proud of RG III because he is a fine Christian man and publicly professes his faith in God.

I also want to congratulate Baylor University and football coach Art Briles on a great 2011 football season. As Coach Briles says, "great things come with great effort," and the Baylor Nation should be justifiably proud of their football team and coaching staff for their great effort this year.

Before I close, I would like to wish all Americans a safe and fulfilling Christmas season and holiday season. I ask that all of us continue to pray for our country and our military men and women during these difficult times. Sic 'em, Bears.

#### THE OBLIGATION OF EVERY CITIZEN

The SPEAKER pro tempore. The Chair recognizes the gentleman from New York (Mr. RANGEL) for 5 minutes.

Mr. RANGEL. Mr. Speaker, as we move toward the close of this congressional session, I have been embarrassed at the number of people that have recognized me and ask, What's wrong with the government? What's wrong with the Congress? Why can't you people get along? And it's very difficult and embarrassing to tell them that you really need all parts of the government working together, pushing the boat forward and rowing in the same direction. And when you have somebody that's already said that their primary mission as Members of the United States Congress is to get rid of the President, how

that is interpreted legislatively is it means that the President cannot offer them anything that would look like he's accomplishing something positive because it would interfere with their primary goal, which is not economic growth, not jobs and not helping people out when they need a hand up, but it has to show that we want to get rid of Obama. And you can see that even the candidates that want to fill his job, they're not talking about what they're going to do, but the whole campaign is against the President.

Now, some people believe, as those on television, that for all practical purposes we should not expect that we'll be able to give assistance to our various communities throughout the country because the campaign has started, and so therefore no legislation is going to pass. That's just not so, and you don't have to wait until an election.

We haven't been sent down here just to please our voters for what happens in 2012. Each and every day, you have a right—and an obligation—to call the person that you have sent down here to Washington. And if you haven't, someone did. Everybody has a Member of this House and two Members in the other body. Why can't you pick up the phone to tell them that what they do in this year before the holidays and what they don't do is going to make a big difference in terms of how you vote when that opportunity comes? So you can put the pressure on.

And I might add this too. It is not just the voters that have this obligation to help those that are lesser among us, it's not those that are waiting for a little help, but the Republicans say that the only way you get the help is to cut back in health care, is to support the Keystone oil pipeline. All of these things, people don't go to sleep at night wondering about a pipeline. They want to know are they going to get any help from their government. And the issues really don't affect the very, very rich. They affect the very, very poor and those in the middle class that are being pushed into poverty where one out of five kids in the United States of America is born into poverty.

I am suggesting that this is not just a plea for economic justice or equity in how we tax people, but it is a moral issue that we should be hearing from our clergy. I'm not talking about Democrats and Republicans. I'm talking about Matthew, where Jesus said it's how you treat the lesser among us as to how you're going to be judged. And it's not just the Bible. It's not just the Old and New Testament. It's the Koran. It's the Torah. It's Muslims. It's Mormons. It's Christians and it's Jews. It's there. And it would seem to me if our clergy missed this wonderful opportunity before the Holy Spirit, not to tell us what to do but to tell us what they think is the right thing that we should be doing.

And so, as we move into the holidays, please don't think that we've got the other side convinced that they should give relief for unemployed people who paid into a system and who lost their jobs through no fault of their own. Please don't think that they want to protect Social Security and that they want to protect Medicaid and Medicare. No. That's our job to do it. But it's your job to remind us that we have this obligation to do it.

And so you're right if you stop us in the street and say that we've lost credibility—all of government, the President, the candidates for President, the Democrats and the Republicans. But what about you? Will you be able to say that you joined in this effort? Will you be able to say you made that telephone call or visited that office? I hope you do. And you can count on many of us that are waiting for that type of support. We need it.

Thank you. God bless America.

#### HOUSE HOLIDAY HUMBUGS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Maryland (Ms. EDWARDS) for 5 minutes.

Ms. EDWARDS. Mr. Speaker, as families prepare for the holidays, many will gather to watch some of our favorite holiday movies. In my family, we always enjoyed watching "How the Grinch Stole Christmas," tuning into "A Christmas Carol," and one of my favorites, "It's a Wonderful Life."

Well, Mr. Speaker, it won't be necessary to visit the local Redbox or scour the TV Guide listings or order the movies on Netflix. Americans across this country can tune in to C-SPAN and watch our own version of the Grinch and Ebenezer Scrooge and Henry Potter, our House holiday humbugs right here on the floor of the House of Representatives.

The American people can only hope, however, that they can redeem themselves, our holiday humbugs, the way these characters did. But I fear that's not possible.

Yesterday, House Republicans brought to the floor a payroll tax credit and an unemployment insurance proposal trimmed in controversial riders and deceit. The holiday humbugs, the GOP leadership, decorated the payroll tax credit and unemployment insurance bill with a controversial Keystone pipeline rider to sweeten the deal for their caucus. But that wasn't enough. The majority gilded the proposal with cuts to essential health care reform funding, a freeze in Federal employee pay for yet another year, and a cut in the length of emergency unemployment insurance and blocking the administration from moving forward on environmental protections that will help our families breathe, drink, and live more healthfully.

Now, today, we heard from the House holiday humbugs that the big problem

facing the unemployed that House Republicans tried to fix yesterday was drug testing for the unemployed.

□ 1040

Well, Mr. Speaker, the problem for the unemployed isn't drugs, it's a job. And in the absence of a job, it's an unemployment check.

So for the holidays, my Republican colleagues put on their list a proposal that would dip further into the pockets of low and middle-income families that buy health insurance in the new health exchanges. And during this holiday season, at a time in our Nation's economy when consumption has grown by only 5 percent since June 2009, our Holiday Humbug proposal by Republicans would cut holes in the pockets of millions of our Nation's consumers.

The legislation passed in the House yesterday would freeze the compensation of 2.65 million Federal employees all across this country, Federal employees who are consumers, Mr. Speaker. So while the special interests and the Wall Street fat cats and the big oil companies are enjoying their large Christmas bonuses, Federal employees who have already contributed \$60 million in forgone pay for deficit reduction will be required to give up even more.

The Republican plan hits struggling families even harder. In fact, the bill passed yesterday by our holiday humbugs eliminates 40 weeks of unemployment insurance. The funding for this program not only helps families check off items on their Christmas list—things like rent, things like childcare, and things like groceries—but the funding brings money back into the American economy. In fact, the Congressional Budget Office estimates that every dollar of benefits spent on unemployment compensation generates about \$2 of additional economic activity. That's money directly into our economy.

The Republican proposal passed in the House yesterday would eliminate over \$22 billion in economic growth and result in the loss of 140,000 jobs in 2012. That's what happened in this House yesterday. My colleague, SANDER LEVIN from Michigan, recognized that the legislative "holiday gift" that the Republicans thought they were providing the American worker this Christmas is just one big lump of coal. Their proposal would leave millions of Americans out in the cold this holiday season while imposing additional barriers to receiving assistance and diminishing the protections of unemployed workers.

Throughout the day yesterday the holiday humbugs kept trying to point to places where we could compromise. Well, the American people are asking: Why not simply compromise on a clean extension of the payroll tax credit for 160 million workers and unemployment

insurance? Why not ensure that 160 million hardworking families can benefit from the average of \$1,000 they will receive from the payroll tax credit—again, right into the economy.

Yesterday the Republican majority decided they would rather risk raising taxes and digging into the pockets of families all across this country. Well, Mr. Speaker, not even Scrooge could do what we saw on the floor yesterday. In the end, our holiday humbugs—the Grinch, Mr. Scrooge, and even Mr. Potter—learned that there is redemption. It's time for our House Republicans to do the same. I urge the majority to instead bring to the floor a sensible and thoughtful piece of legislation to extend unemployment compensation and the payroll tax credit.

#### REPUBLICAN AGENDA

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Ohio (Ms. FUDGE) for 5 minutes.

Ms. FUDGE. Mr. Speaker, after a year of attempts to eliminate Medicare and obstruct any kind of jobs bill, the Republican agenda is clear: eliminate the deficit at any cost, including at the expense of our most vulnerable, while adversely impacting our economic recovery.

More than 1.6 million American children were homeless at some point in 2010. These are children under the age of 18 living in emergency shelters or in shared housing, and many are living on the street. Now, in 2011, the number of homeless children continues to increase. There are more homeless children today than after the natural disasters of Hurricanes Katrina and Rita. The recession's economic devastation has left 1 in 45 children homeless, millions of Americans are out of work, and we have pushed unemployment rates to levels not seen in decades.

We continue to see poverty soar. In 2010, nearly one in six Americans was living in poverty. As poverty surged to its highest level since 1993, median household incomes declined, which is why it is maddening to me that we in Congress can't agree or even come to a point where we can agree to compromise on policies that will help struggling Americans.

In the 49 weeks since the Republicans took control of this House they have failed to pass a single bill to encourage job growth. They pledged to focus on economic recovery, but they have failed to deliver. I have sponsored four jobs bills in the last 6 months, but none of them has been brought up for a vote. What the majority has done is try to advance their own political agenda. Their priority is clear: eliminate the deficit at any cost on the backs of the most vulnerable.

This year, Republicans proposed a budget that would privatize Medicare and make Medicaid a block grant, sac-

rificing care for our seniors, our sick, and our poor. The Republican budget slashed more than \$6 trillion—with a “t”—over the next decade from Medicaid, SNAP, Medicare, and many other programs supporting low- and middle-income Americans. The majority suggests these drastic changes while leaving in place tax cuts for the wealthiest and \$40 billion in Big Oil tax loopholes.

The majority's budget would devastate poor communities and middle class Americans. It pushes seniors into the hands of private insurance companies and forces them to pay more out-of-pocket expenses. What we need is a bold approach, Mr. Speaker, to maintaining these programs rather than finding ways to defund or derail them.

Almost 6 million workers have been unemployed for a year or more in this country, so we know there is a strong need to extend unemployment insurance. What we've seen this week makes me skeptical. Here we are at the end of one of the most unproductive congressional sessions we've had in recent history. In this end of the year drama, Republicans play the role of the Grinch who stole Christmas.

Yesterday, the House passed a bill that slashes unemployment insurance by 40 weeks in the States that are hardest hit, including my own home State of Ohio. If signed into law, beneficiaries without a high school degree would be denied insurance unless they use the benefits we're giving them to pay for getting their GED. The bill also allows States to force recipients to take drug tests.

In 2010, unemployment benefits kept 3.2 million Americans—including nearly 1 million children—from falling into poverty. I don't even want to imagine the magnitude of the problem if we fail to extend unemployment insurance now.

During this holiday season more than ever, Americans feel there is no way out. Last week, a woman in Texas, who was originally from the State of Ohio, killed herself and shot her two children because they were denied SNAP benefits. One of those children has died. Mr. Speaker, this is desperation, homelessness at its worst.

#### THE END OF THE IRAQ WAR: WELCOMED BUT TRAGICALLY OVERDUE

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Ms. WOOLSEY) for 5 minutes.

Ms. WOOLSEY. Mr. Speaker, since the spring of 2004 I've stood here in this very spot 415 times to call for an end to foreign wars and the start of a new, smarter approach to national security. In most of those speeches my tone has been one of insistence and beseeching. Seldom have I been able to echo good news or declare a sense of accomplish-

ment, but Mr. Speaker, today is different. As the President will reaffirm in a speech at Fort Bragg today—and it moves me almost beyond words to say this—the war in Iraq is finally over.

After 105 excruciating months, after so much heartbreak and despair, after so many shameful episodes—such as the “Mission Accomplished” banner, Abu Ghraib, the outing of Valerie Plame, and so much more—our troops are finally coming home from Iraq, all of them.

Much credit goes to President Obama for making good on his promise. When he was sworn into office, there were 142,000 U.S. servicemembers deployed to Iraq; by the time the calendar turns in 2012, there will be zero; zero.

□ 1050

But this day would not have come unless some very brave people had spoken up for peace at a time when the polls and the conventional wisdom said that President Bush and his Iraq policy were unassailable.

I've been proud to work in particular with my friends, Congresswoman BARBARA LEE and Congresswoman MAXINE WATERS, in establishing the Out of Iraq Caucus. Many of our colleagues on both sides of the aisle stood shoulder to shoulder with us, including our late friend, Jack Murtha, who's opposition to the war represented a major turning point in the Iraq debate.

Of course, no one displayed more courage than the heroic men and women who served in Iraq with honor and selflessness. They present the best our Nation has to offer. I only wish that their elected leaders had served them better over the last decade.

But, Mr. Speaker, we must be careful. We must be careful about turning this into an occasion of triumph or celebration. The end of the Iraq War is welcome, but tragically, overdue. Too much has been lost in precious American blood, in badly needed public treasure, and in our moral core as a Nation. The end of this war comes too late for nearly 4,500 Americans whose parents, spouses, children, and friends will miss them desperately this holiday season and every other day of the year.

Many thousands more are home from Iraq with broken minds and bodies, with scars they will carry for the rest of their days. We must keep our promise to them to provide the benefits that they so need and deserve.

I don't know how we atone for the deaths of thousands upon thousands of innocent Iraqi civilians. Our military occupation in Iraq is over, but our bilateral engagement with Iraq most certainly will go on. There is still plenty of human need in Iraq, and we must have an obligation to help alleviate that.

It is critical that the United States be a peaceful and constructive partner with Iraq, investing in development,

providing the civilian support that will empower its people, and strengthening its democratic institutions. Now is the moment. Now, more than ever, we must move to a smarter security in Iraq.

Finally, it is critical to remember that the end of the Iraq War does not mean we are a Nation at peace. The war in Afghanistan lingers on, violently and senselessly, still undermining our national security and weakening our country. We must, Mr. Speaker, move more quickly than ever to end that conflict.

It is time to bring our troops home, all of our troops, safely home, now.

#### ADMINISTRATIVE OVER-REGULATION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. SHIMKUS) for 5 minutes.

Mr. SHIMKUS. Mr. Speaker, it's an honor to follow my friend and colleague from California who's retiring at the end of the Congress, which is another year. Even though we disagree probably too many times to count, no one questions her passion and her commitment, and her moral consciousness of doing the right thing. So give me a chance to publicly state that, and I look forward to serving with you in the final year together.

Mr. Speaker, I come to the floor to read a letter from a businessman in southwestern Illinois who is closing up the business.

But even more timely than that was a Wall Street Journal editorial today. I mean, I was bringing the letter down anyway, so then I decided, looking at the Wall Street Journal editorial. And it's titled, "Regulation For Dummies." The White House says its rulemaking isn't costly or unusual. The evidence shows otherwise.

First paragraph. "The White House is on the political offensive, and one of its chief claims is that it isn't the over-regulator of business and Republican lore. This line has been picked up by an impressionable columnist, so it's a good time to consider the evidence in some detail." So they go through the analysis.

It ends up by saying the evidence is so overwhelming that the Obama regulatory surge is one reason the current economic recovery has been so lackluster by historical standards. Rather than nurture an economy trying to rebuild confidence after the financial heart attack, the administration pushed through its now famous blitz of liberal policies on health care, financial services, energy, housing, education, and student loans, telecom, labor relations, transportation, and probably some other industries we've forgotten. Anyone who thinks this has only minimal impact on business has never been in business.

Now, the column was dated December 14. This letter was dated December 7.

"You are the finest customer that we have served or you are one of the finest professionals that have served these customers.

"After 61 years, of which 58 were wonderful years in the construction business and having been associated with the greatest of people, it's with much sadness and disappointment that we have to announce that we will be closing December 31, 2011.

"You all know that we served the private sector. We've enjoyed working with industry, aviation, and all private businesses and entrepreneurs. We always felt that you were the pulse of the whole USA. It's sad to say that, through no fault of yours, that this pulse has slowed to a level that can no longer sustain the quality of service we have always felt obligated and more desired to provide.

"Our government is wonderful in that it provides for our common defense, our highway infrastructures and a few other worthy endeavors. However, they are, in fact an expense, an expense that we should enjoy funding. Though when they lose sight of the true fact that we in the private enterprise pay the bills and do not support an environment in which we can flourish with the fruits of our hard work, the funding will soon cease to exist.

"Government cannot produce revenue or prosperity, but they, like us, could enjoy both if they look at themselves as any other hired service organization that has to be worth the money they are getting paid. That's the way all of us have to operate and what gives us pride in what we do.

"God bless you. Thank you. And we pray that we all find American leadership to restore the pulse and pressure of the great private sector and the American Entrepreneur again. You are the Heartbeat of America. Again, God bless you."

And so, these two written, one column, one letter, occurring simultaneously almost, highlighting the point that it is this regulatory regime pushed on by the executive branch that is, if not outright destroying jobs, it's making it very difficult for jobs to flourish. That's why in the bill last night we moved the Keystone XL pipeline, connected with the Boiler MACT. That's why we've done some other bills to, at least legislatively, put barriers into the excesses of the regulatory regime here from the executive branch.

Mr. Speaker, I think this was timely to come down to the floor and share this letter, and I thank you for the time.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o'clock and 58 minutes a.m.), the House stood in recess until noon.

□ 1200

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker at noon.

#### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Gracious God, we give You thanks for giving us another day.

You have blessed us with all good gifts, and with thankful hearts we express our gratitude. You have created us with opportunities to serve other people in their need, to share together in respect and affection, and to be faithful in the responsibilities we have been given.

We wish to acknowledge before You, O God, the sacrifice of so many American men and women and many allies during many years of our commitments in Iraq. We thank them, and You, for their service and ask for Your continued blessing upon them as they now live into a future more secure because of their efforts.

In this moment of prayer, please grant to the Members of this people's House the gifts of wisdom and discernment, that in their words and actions they will do justice, love with mercy, and walk humbly with You.

May all that is done this day be for Your greater honor and glory.

Amen.

#### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Georgia (Mr. GRAVES) come forward and lead the House in the Pledge of Allegiance.

Mr. GRAVES of Georgia led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment a bill of the House of the following title:

H.R. 2845. An act to amend title 49, United States Code, to provide for enhanced safety

and environmental protection in pipeline transportation, to provide for enhanced reliability in the transportation of the Nation's energy products by pipeline, and for other purposes.

The message also announced that the Senate has passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 2867. An act to reauthorize the International Religious Freedom Act of 1998, and for other purposes.

#### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side.

#### KEYSTONE WILL PRODUCE JOBS

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, yesterday the President announced he will veto the payroll tax extension bill passed by House Republicans due to the inclusion of the Keystone pipeline construction. The President campaigns for jobs, but will sadly veto a jobs bill.

This fall, I was fortunate to visit Alberta, Canada, and witnessed firsthand the environmental safeguards to develop Canadian oil sands. The construction of this environmentally advanced pipeline will create at least 120,000 new American jobs without costing taxpayers a dime and will stimulate our economy.

Walter C. Jones in The Augusta Chronicle reports that refined oil products with no pipeline will be denied to South Carolinians at a north Augusta terminal. With a record unemployment rate of over 8 percent for 34 months and over 13 million Americans looking for jobs, it is very sad the President would veto legislation creating jobs.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

#### PRESERVING UASI CAPABILITY GAINS CAUCUS

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, as a member of the Committee on Homeland Security, I rise to express my concern about the direction of the Urban Area Security Initiative program.

UASI was created to develop capabilities to prevent and to respond to attacks and catastrophes in our most vulnerable cities. The program has helped develop joint initiatives among local governments in my community of Buffalo-Niagara. We have an obligation to protect this investment and the ca-

pability gains developed across the country. Yet recent drastic cuts in the UASI funding have resulted in the elimination of 32 of the 64 urban areas from the program. That puts the preparedness and security capability gains we've achieved at risk.

In order to raise awareness of this problem, this week I formed the Preserving UASI Capability Gains Caucus with Congressman STEVE STIVERS of Columbus, Ohio. I also introduced legislation to preserve the capability gains achieved by communities like Buffalo that were dropped from the UASI program.

I urge my colleagues who represent UASI communities to join our caucus so that we can protect our capability gains and ensure our communities are properly secured.

#### THE PEOPLE WORRY ABOUT BIG GOVERNMENT

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, some Americans worry about big labor; others worry about big business. But what really scares most Americans is the massive Federal Government snooping around, meddling and controlling every aspect of people's lives.

According to a Gallup Poll released this week, the overwhelming majority, 64 percent, of those surveyed think that Big Government will be the biggest threat to the country in the future. It's worth noting that about half of those people who participated were Democrats that agreed that Big Government is the problem. No surprise. When I meet with my neighbors in southeast Texas, their message for the Federal Government is clear: back off. Stop saddling expensive, job-killing, and unnecessary regulations on businesses.

The mere phrase, I'm from the Federal Government and I'm here to help you, brings fear and trepidation into the hearts and souls of small business owners and individuals throughout the fruited plain. After all, the Constitution says we the people are to control government, not the other way around. Government should not run roughshod over our personal liberty.

And that's just the way it is.

#### MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT

(Mr. GENE GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GENE GREEN of Texas. Mr. Speaker, during this season of giving, when our Nation should be reflecting on the needs of our friends and neighbors who are out of work struggling to provide for their loved ones, this Cham-

ber yesterday voted to cut unemployment benefits for 1 million of our fellow Americans.

The House majority's bill would eliminate several tiers of benefits created under the Emergency Unemployment Compensation program, which has provided up to 99 weeks of support for those who lost their jobs through no fault of their own.

If this legislation becomes law, the maximum potential unemployment benefit will fall by 40 weeks. This legislation would also allow States, many of which are struggling to balance their budgets, to reduce the average weekly amount available to beneficiaries. With over 8 percent unemployment, I'm strongly opposed to any reduction in emergency unemployment insurance.

I am a proud supporter, though, of moving the XL pipeline project forward and supported it in separate legislation. The XL pipeline makes both energy and economic sense for our country, and I hope the administration will find a way to allow the construction to commence in some States while still revisiting the route in Nebraska.

I urge my colleagues to stand in support of the over 13 million Americans looking for work this holiday season and pass a clean extension of the unemployment insurance program.

#### KEYSTONE PIPELINE

(Mr. GRAVES of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GRAVES of Georgia. Mr. Speaker, I rise to give thanks today to my House colleagues, who yesterday, in bipartisan fashion, moved to start construction on the Keystone XL pipeline, because this is truly a shovel-ready project that will provide good jobs and secure energy for Americans.

The Keystone pipeline will create nearly 100,000 private sector jobs once completed—20,000 of those jobs generated just to construct the pipeline, with 50 companies in Georgia benefiting from this. And once it's finished, this pipeline will pump 700,000 gallons of crude oil a day from our friend and neighbor, Canada, a good, reliable, and secure supply of oil.

The environmental impact statements have been completed and the path for the pipeline has been determined. The only thing standing in the way is politics. President Obama has postponed his decision on whether the private sector can build this pipeline until after the next election. If it's good enough after the election, surely it's good enough today.

Good jobs. Secure energy. No cost to the taxpayers. It's a no-brainer.

#### MAJORITY RISKING TAX CUTS

(Mr. SIREN asked and was given permission to address the House for 1 minute.)

Mr. SIREs. Mr. Speaker, yesterday the majority unwisely gambled with the economic security of the middle class. They voted on legislation that was designed to fail, fully knowing that it will be dead on arrival in the Senate and vetoed by the President.

By tying the extension of the payroll tax to controversial and unrelated policies, the majority is playing a dangerous game that could result in tax hikes for 160 million workers. Moreover, by attaching the Medicare doc fix to the same divisive policy, they have endangered seniors' access to their doctors.

We must support a clean extension of the payroll tax holiday and the unemployment insurance that is not paid for through increased health care costs for seniors or at the expense of public health. If we fail to pass a clean extension of the payroll tax holiday or unemployment benefits, the average American family will lose a tax break worth \$1,000 and our economy will lose \$30 billion as the unemployed will lose much needed assistance.

Now is not the time to play risky games with our economy. We must pass a clean extension of the payroll tax and continue assistance for the unemployed.

□ 1210

#### SUPPORT THE KEYSTONE XL PIPELINE PROJECT

(Mr. GINGREY of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GINGREY of Georgia. Mr. Speaker, as my colleague from west Georgia, Congressman GRAVES, just said, the House took action yesterday to boost our economy and create jobs. And I stand before you now to implore Senate Democrats and President Obama, follow suit and to support the Keystone pipeline project. The pipeline, which has been delayed for more than 3 years by this administration, would be a critical step towards energy independence and job creation in the United States.

This pipeline would transport 1.4 million barrels of oil per day from Canada down to the gulf coast refineries, drastically reducing our reliance on Middle East imports and create, yes, more than 100,000 jobs nationwide. This does include Georgia, where Keystone fuel would be shipped by existing pipelines to terminals in Atlanta, Rome, Augusta, Athens, as well as to other east coast customers.

The time to act is now, Mr. Speaker. I urge my colleagues in the Senate and President Obama to allow production to begin.

#### HONORING CAPTAIN JAMES HENRY

(Mr. COURTNEY asked and was given permission to address the House for 1 minute.)

Mr. COURTNEY. Mr. Speaker, I rise today to honor an extraordinary American, fishing Captain James Henry from the town of Mystic, Connecticut. Captain Henry has just published his first book, "In a Fisherman's Language," at the age of 98.

What's even more extraordinary is that Captain Henry was illiterate until the age of 91. But after learning the inspiring story of George Dawson, the grandson of a slave who taught himself to read and write, at the age of 98, Captain Henry began his journey to literacy. A retired East Lyme English teacher and literacy volunteer from eastern Connecticut, Mark Hogan tutored Captain Henry along his journey and helped him edit his book.

"In a Fisherman's Language" artfully weaved together the life of this lobsterman, sharing his stories from his life on his grandfather's farm in Portugal, his work on the boats, a member of the Connecticut National Guard, a professional boxer, and a ship-fitter at Electric Boat shipyard.

What initially started as a small project has gained international attention. Selling the original 750 copies in just 2 weeks, he's been contacted by film producers, TV stations, and audio book companies, alike, who want to share his story with the world.

It has been quite a long journey from being unable to read and write to being a source of inspiration to young writers and a beacon of hope for those struggling with their own literacy.

I urge my colleagues to read this amazing book, and I salute Captain Henry for his amazing accomplishment.

#### REGULATIONS

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, throughout this year, House Republicans have been fighting for job creation, working to prevent the Federal Government from damaging our economy and job growth.

The present administration has tried to downplay the effect new regulations will have on companies struggling in the weak economy. Today's Wall Street Journal documents efforts of the White House Office on Information and Regulatory Affairs to muddy the waters about regulations.

The official Obama administration compilation of regulations ignores significant institutions such as the National Labor Relations Board and the Securities and Exchange Commission, yet the number of economically significant rules at all stages has risen to 149, a historic high.

Vast sections of industry are waiting to hear how the Federal Government will change the way they have to do business. How on earth can we expect them to hire new workers when they can't plan with this regulatory uncertainty?

The administration can try to manipulate the numbers, but there can be no doubt that the Federal regulatory juggernaut is holding back job growth.

#### THE PAYROLL TAX CUT

(Mr. SCHRADER asked and was given permission to address the House for 1 minute.)

Mr. SCHRADER. Well, folks, your Congress is at it again. Republicans have been talking about debt and deficit for the last year, and here we're going to add nearly \$200 billion in new spending to the deficit. Well, we're going to use a bunch of pay-fors that we're setting aside for the original deficit.

This is the most disingenuous group of folks that I've seen in a long time; and to be honest, a little bit on our side of the aisle. We've been railing about doing anything that would remotely affect Social Security, yet we're willing to pass another payroll tax cut that adds to the difficulty of funding our system.

Oh, no. We're going to issue some IOUs. I don't think there is a single American out there that believes that another IOU is a good thing for Social Security. We have got to stop borrowing against our Social Security.

Not only that, the payroll tax, you get only 60 cents back for every dollar you invest. I don't think that's a very good investment. President Bush tried that in 2008, and there was no change in consumption.

What we should be doing is focusing on unemployment, where you get \$1.60 back in economic activity for every dollar you put in, just like the President asked for. And we should have a more robust doc fix that makes sure seniors and doctors get paid what they need to keep Medicare solvent.

#### THE MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT

(Mr. DESJARLAIS asked and was given permission to address the House for 1 minute.)

Mr. DESJARLAIS. Last night the House passed jobs bill number 28 that is now awaiting action from President Obama and the Democratic-controlled Senate.

The Middle Class Tax Relief and Job Creation Act will protect American workers from higher taxes while ensuring that resources are not taken from the Social Security trust fund to pay for this relief. Most importantly, this legislation includes a measure that will support the creation of more than

100,000 new American jobs by expediting the creation of the Keystone XL energy pipeline.

This Christmas season, Congress and the President have the opportunity to give the American people the gift of jobs and tax relief that they need without spending more money that we do not have.

It is time for President Obama to live up to his own rhetoric of “we can’t wait” and put partisan politics aside and get Americans back to work.

#### THE ANCIENT CHRISTIAN HERITAGE IN TURKEY

(Mr. SARBANES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SARBANES. Mr. Speaker, I am saddened to report that the ancient Christian heritage in Turkey is being threatened with extinction.

When a government compromises the right of its citizens to peaceably assemble, the right of expression, and the right of independent thought, the people of such a country are not fully free. When a government takes the property of citizens without just compensation and due process of law, the people of that country are not free. And when a government discriminates against citizens on account of their religion and ethnic origins, again, freedom is denied.

While Turkey has taken some positive steps in recent times, freedom is not a matter of half measures. Our NATO ally must unequivocally and zealously defend the individual liberties of all its citizens.

I support passage of House Resolution 306 to urge the Republic of Turkey to safeguard its Christian heritage and to return confiscated church properties.

#### IT'S TIME TO STAND WITH THE AMERICAN WORKER

(Mr. HUIZENGA of Michigan asked and was given permission to address the House for 1 minute.)

Mr. HUIZENGA of Michigan. Mr. Speaker, I rise today to implore my colleagues in the Senate and to the President, it's time to stand with the American worker. We're talking about adding 20,000 jobs as we approved the Keystone pipeline coming from Alberta, Canada, down to the gulf shore. But Canada's already a leading source of our oil. They actually give us more oil and produce more oil than Saudi Arabia.

Michigan is actually an excellent example of what happens with that partnership. Enbridge, which is actually a competitor to TransCanada right now, is already looking at increasing its capacity and expanding its pipeline; Marathon Refineries, looking at expanding

its capacity to be able to handle these Canadian crudes.

We know that this inflow of Canadian oil is a positive thing. Zero taxpayer dollars are going to be used for this, and it will put thousands of our American workers back to work at a crucial time.

The oil will be extracted. The question is: Where is it going to go? Is it going to be shipped to the United States and create U.S. jobs, or is it going to Asia to help fund the engine to compete against us?

It's time to stand with the American worker, Mr. President.

□ 1220

#### END OF THE IRAQ WAR

(Ms. PELOSI asked and was given permission to address the House for 1 minute.)

Ms. PELOSI. Mr. Speaker, as we gather here, President Obama is at Fort Bragg honoring and thanking our men and women in uniform for their service in the war in Iraq and for the sacrifices they've been willing to make to keep us the home of the brave and the land of the free.

America's brave men and women in uniform have done everything that has been asked of them. They have performed with valor, with courage, with patriotism and a dedication to duty.

It is because of our troops and the leadership of President Obama that this month we will be able to say that the war in Iraq is over, our troops are coming home for the holidays with their families. As we thank our troops, we also thank the families of our men and women in uniform for the sacrifices they have been willing to make for our country.

President Obama promised to end the war in Iraq responsibly. Promise made, promise kept. When he took office, nearly 150,000 American troops were deployed in Iraq. This month our troop presence will wind down to just around a few thousand. In winding down the war, the President honored the wishes of the American people.

As we mark the end of the war, we honor the nearly 4,500 Americans who made the ultimate sacrifice in Iraq. Tens of thousands more have been wounded. We will never forget those who were lost in the war. We will forever be grateful to them and to their families.

I'm from Baltimore, Maryland. When my father was mayor, they built Baltimore stadium. What would they call it? The consensus name was Baltimore Memorial Stadium to honor those who made so much sacrifice for our country. General Pershing said, and that was engraved on Baltimore Memorial Stadium, “Time will not dim the glory of their deeds.” Time will not, indeed, dim the glory of those who served and sacrificed in Iraq.

I'm particularly proud to have presided over 4 years of a Congress that made more progress for our veterans and military families than has been made since the passage of the original GI Bill in 1944.

But our work is not done. On the battlefield, the military says we will leave no soldier behind. And when they come home, we promised, Democrats and Republicans working together, to leave no veteran behind.

Over a million of our men and women in uniform served in Iraq. We must honor their service with economic opportunities and the benefits they deserve. We must remember that our commitment to our veterans is not while they serve or even for life. It is a commitment forever, to them and their families.

We must build a future worthy of their sacrifice. As the war in Iraq comes to an end, we express our enormous gratitude to those who have served. Because of them, we express our great optimism for the future.

#### IRAN THREAT REDUCTION ACT

(Mr. HURT asked and was given permission to address the House for 1 minute.)

Mr. HURT. I rise today in support of the Iran Threat Reduction Act offered by Chairman ROS-LEHTINEN of the Foreign Affairs Committee, and I thank the chairman for her leadership on this issue.

Mr. Speaker, there is no doubt that Iran poses a threat to our Nation, our interests, and our allies. In the wake of the International Atomic Agency report, it is clear that the United States must take swift action to proactively enforce policies that will not only deter but completely disengage the Iranian regime from its hostile nuclear proliferation program.

This legislation will take steps to adequately address Iranian nuclear proliferation by taking aim at its primary source of funding, its energy sector, adding more rigorous financial and energy sanctions, including a provision that will allow judicial sanctions on those that conduct business in Iran's petroleum industry.

As Iranian nuclear threats continue to evolve, so should the United States' ability to address those threats. I urge my colleagues to support this important legislation.

#### EXTENDING UNEMPLOYMENT ASSISTANCE

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, millions of hardworking Americans have lost their jobs in this economic crisis through no fault of their own. But rather than standing up and helping

struggling Americans, yesterday this Chamber advanced a bill doomed to fail because of all of the unrelated and controversial riders that were attached.

According to the Rhode Island State director of labor, for every two part- or full-time positions in Rhode Island there are seven applicants. There's an urgent need for Congress to extend Federal emergency unemployment compensation in my State with a total of 58,000 unemployed Rhode Islanders.

This social safety net provides a lifeline to struggling individuals, helping them to pay their mortgage and utilities as well as put food on the table for their families. Families like Betsy Hamel's in Jamestown, Rhode Island. Betsy supports her disabled husband and her severely disabled son but doesn't know how she'll make ends meet while continuing to look for work if unemployment assistance is not extended.

It's time to stop playing partisan games and stand up for the millions of Americans like Betsy and extend unemployment benefits now.

#### HONORING BORDER PATROL AGENT BRIAN TERRY

(Mr. QUAYLE asked and was given permission to address the House for 1 minute.)

Mr. QUAYLE. Mr. Speaker, 1 year ago today, U.S. Border Patrol Agent Brian Terry lost his life doing what he had done his entire life: serving his country. A native of Detroit, Brian Terry served with distinction in the U.S. Marine Corps and then as a police officer back home in Michigan. In 2007, Agent Terry was offered a job with the United States Border Patrol—a job he'd always dreamed of.

Agent Terry lost his life during a shootout with armed thugs in Rio Rico, Arizona—just north of the Mexican border. Shortly after his death, his sister, Michelle, told the Associated Press, "His dream all his life was to be a Federal agent. It was always, 'I want to be a cop. I want to get the bad guys.' It was his life. He said it was dangerous, but he loved what he did and wanted to make a difference."

Mr. Speaker, we will never forget Agent Terry and the sacrifice he made. We will continue to keep his family in our thoughts and prayers.

#### AFFORDABLE HEALTH CARE ACT

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute.)

Mrs. DAVIS of California. Mr. Speaker, as we hear from Members of this House every day, I thought it would be refreshing to bring the people's voice directly to this floor. So I asked my constituents to send me their thoughts that I could deliver as a 1-minute speech.

The following is from Susan Sigmund of San Diego, who sent me this on the Affordable Care Act to be reviewed by the Supreme Court. She offered: "Being given the opportunity to speak before you, I wanted to make these 60 seconds witty, timely, and relevant to all. Having failed at that, I will simply discuss my main concern right now. It's the future of the health care law. The Supreme Court could strike it down next year.

"I have a preexisting health condition and will die in about 3 years unless I am able to buy a health insurance policy. I'm sure I am one of many facing this bleak possibility.

"As I understand it, if the mandate section requiring a policy goes, so goes the provision barring preexisting condition discrimination. If the time comes, please do the honorable thing and vote to allow your constituents with preexisting conditions to buy health care insurance. Lives depend on it. Thank you."

Mr. Speaker, I want to thank Mrs. Sigmund for bringing to the House her thoughts on health care.

#### REBUILD THE AMERICAN DREAM FOR THE 99% ACT

(Mr. ELLISON asked and was given permission to address the House for 1 minute.)

Mr. ELLISON. Mr. Speaker, yesterday Members of the Congressional Progressive Caucus introduced an important bill, and it's called the "Rebuild the American Dream for the 99% Act." This bill, this important "Rebuild the American Dream for the 99% Act," would create 5 million jobs, Mr. Speaker, over 2 years, and cut the deficit by \$2 trillion over 10 years.

The "Rebuild the American Dream for the 99% Act" creates direct-hire programs to put Americans back to work; provides grants for on-the-job training and employment services; invests \$50 billion for infrastructure projects; creates a national infrastructure bank; improves "buy American" provisions; ends the practice of foreign currency manipulation; protects wounded veterans from job discrimination; extends unemployment insurance, including for people at 99 weeks; and supports the TANF emergency contingency fund to help States pay for the cost of hiring unemployed workers. We can do these things. The "Rebuild the American Dream Act for the 99% Act" does it.

□ 1230

#### H.R. 3650, ZERO TOLERANCE FOR CHILD SEXUAL ABUSE

(Ms. JACKSON LEE of Texas asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE of Texas. Mr. Speaker, in the calamity of news re-

ports proliferating across America regarding the epidemic proportions of child sexual abuse, I introduce Zero Tolerance For Child Sexual Abuse, H.R. 3650. I ask my colleagues to join me for a national statement of abhorring and standing against the abuse of our children.

On a much happier topic, I thank our leader for her comments on our returning troops, and I look forward to introducing a resolution thanking and congratulating our returning troops, having one day or two days in which our Members will join me in wearing a yellow ribbon and, as well, commemorating the return of our wonderful troops and thanking their families from wherever they have come for this holiday season.

What greater gift than the men and women who have served on the front lines to honor us by their presence here in the holiday season. Our message should be "no silent State, no silent neighborhood, no silent community" in reference to honoring them as they come home.

#### OPPOSING H.R. 3630, MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT

(Ms. SCHAKOWSKY asked and was given permission to address the House for 1 minute.)

Ms. SCHAKOWSKY. Why did I vote against H.R. 3630 yesterday? I could list many reasons, but I only have 1 minute so here are three.

One, the bill extends unemployment insurance for some jobless Americans and then drastically cuts months off of benefits for others, and it makes all who are unemployed jump through demeaning hoops in order to get any benefits.

Two, in order to reluctantly give the middle class a payroll tax break, it asks seniors and people with disabilities to pay more for Medicare, but it refuses to ask millionaires and billionaires to pay one more cent.

Three, the bill threatens public health by preventing the Environmental Protection Agency from regulating dangerous mercury and other emissions, and then it goes a step further by threatening the public health by cutting the Prevention and Public Health Fund.

H.R. 3630 is a political statement, not a serious proposal. What a statement to make—more support for dirty air and water, increased health care costs for middle-income people, and less help for those struggling to find jobs.

#### NO VETERAN DIES ALONE PROGRAM

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, I rise today to pay tribute to the No Veteran Dies Alone program at the veterans hospital in Fresno, California.

During the holiday season, it is appropriate to give thanks. Members of the military follow the sacred oath of "leave no man behind." The No Veteran Dies Alone program follows the ethos that ensures all veterans know that they are not forgotten in their remaining days.

Men and women, some of whom work at the hospital, volunteer their time to care for those who have worn the uniform of the U.S. military. This innovative volunteer program helps our veteran hospice patients spend their final days in friendship and warmth.

During the holiday season, may we seek to lead lives as compassionately as the volunteers who selflessly serve our veterans in the No Veteran Dies Alone program.

#### SUPPORTING THE PRIMARY CARE WORKFORCE ACCESS IMPROVEMENT ACT

(Mrs. McMORRIS RODGERS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. McMORRIS RODGERS. I rise today to urge support for the Primary Care Workforce Access Improvement Act.

This bipartisan bill, which I've introduced with my colleague Mr. THOMPSON from California, will ensure that some of the most rural parts of our country will have greater access to doctors and that the high quality of health care that we value as Americans will continue. Right now, some areas of Washington State don't have enough doctors because there isn't enough funding for their residencies. Other areas, like Garfield County, simply have no doctors at all.

As cochair of the Congressional Rural Health Caucus, I can tell you this legislation directly helps by bringing more physicians to places like eastern Washington by providing creative avenues for funding our graduate medical education. It also helps solve the longer-term problem of too few doctors in rural areas, because studies show that, when people do their residencies in the rural areas, they're more likely to practice in the rural areas.

I urge the support of this legislation, and I thank Mr. THOMPSON for joining me in introducing it.

#### RELUCTANT OPPOSITION TO THE NATIONAL DEFENSE AUTHORIZATION ACT OF 2012

(Mr. MORAN asked and was given permission to address the House for 1 minute.)

Mr. MORAN. Mr. Speaker, I rise in reluctant opposition to the National

Defense Authorization Act of 2012, which we will be voting on today.

The bill does include provisions that are vital to our national defense, but it also includes provisions that present a false choice between our safety and our values.

Section 1021 would authorize the indefinite military detention of all terrorism suspects. Allowing the United States military to detain individuals, some of whom may be innocent, without charge or trial during this endless war on terrorism undermines our most defining principles as a Nation of individual freedom and justice for all.

Mr. Speaker, our civilian law enforcement agencies have proven themselves capable of apprehending, interrogating, and prosecuting terrorism suspects. In fact, civilian courts have overseen the successful prosecution of more than 400 terrorists—the military courts only six.

This Congress should not impose these law enforcement duties upon our troops. It is un-American and unconstitutional. We should reject the false choice between our short-term security and our long-term survival as the leader of the free world.

#### SUPPORT H.R. 1905, THE IRAN THREAT REDUCTION ACT

(Mr. WELCH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WELCH. I rise today in support of the Iran Threat Reduction Act.

Mr. Speaker, I believe in dialogue and I very much believe in diplomacy; but despite an unprecedented effort by President Obama in his speech to the Iranian people for outreach, the Iranian Government was unreciprocal in any kind of response. Instead, what we've seen is that they are pursuing the development of nuclear weapons full speed ahead. Last month, the International Atomic Energy Agency further confirmed in a report detailing efforts by the Iranian Government Iran's nuclear aspirations to acquire the skills needed to weaponize highly enriched uranium.

This is extremely dangerous. Iran has had a longstanding relationship with Hezbollah, which continues to condone violence as a political tactic; and Iran is continuing to be the major bulwark of support for the brutal crackdown by the Syrian Government on the democratic aspirations of its people.

I urge my colleagues to support the Iran Threat Reduction Act.

#### CONFERENCE REPORT ON H.R. 1540, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2012

Mr. BISHOP of Utah. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 493 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 493

*Resolved*, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 1540) to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read. The previous question shall be considered as ordered on the conference report to its adoption without intervening motion except: (1) one hour of debate; and (2) one motion to recommend if applicable.

SEC. 2. It shall be in order at any time through the remainder of the first session of the One Hundred Twelfth Congress for the Speaker to entertain motions that the House suspend the rules, as though under clause 1(c) of rule XV, if the text of the measure proposed in a motion is made available to Members, Delegates, and the Resident Commissioner (including pursuant to clause 3 of rule XXIX) on the calendar day before consideration.

SEC. 3. On any legislative day of the first session of the One Hundred Twelfth Congress after December 16, 2011—

(a) the Journal of the proceedings of the previous day shall be considered as approved;

(b) the Chair may at any time declare the House adjourned to meet at a date and time, within the limits of clause 4, section 5, article I of the Constitution, to be announced by the Chair in declaring the adjournment; and

(c) bills and resolutions introduced during the period addressed by this section shall be numbered, listed in the Congressional Record, and when printed shall bear the date of introduction, but may be referred by the Speaker at a later time.

SEC. 4. On any legislative day of the second session of the One Hundred Twelfth Congress before January 17, 2012—

(a) the Speaker may dispense with organizational and legislative business;

(b) the Journal of the proceedings of the previous day shall be considered as approved if applicable; and

(c) the Chair at any time may declare the House adjourned to meet at a date and time, within the limits of clause 4, section 5, article I of the Constitution, to be announced by the Chair in declaring the adjournment.

SEC. 5. The Speaker may appoint Members to perform the duties of the Chair for the duration of the period addressed by sections 3 and 4 as though under clause 8(a) of rule I.

□ 1240

The SPEAKER pro tempore (Mr. YODER). The gentleman from Utah is recognized for 1 hour.

Mr. BISHOP of Utah. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. HASTINGS), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. BISHOP of Utah. I ask unanimous consent that all Members may have 5 legislative days during which

they may revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

Mr. BISHOP of Utah. Mr. Speaker, this resolution provides a standard conference report rule and other end-of-the-year housekeeping provisions.

H.R. 1540, the National Defense Authorization Act for 2012, has been considered in committee. It was debated on the House floor. It included 152 amendments made in order before passing this Chamber, and that was done in May with an overwhelming and bipartisan majority. It went through the Senate. And now we bring to you today a bipartisan conference report.

I have to commend the chairman of the Armed Services Committee, the gentleman from California (Mr. McKEON), as well as the ranking member, the gentleman from Washington (Mr. SMITH), for truly continuing the tradition of bipartisanship and mutual cooperation in the Armed Services Committee and in this particular bill.

There are some times when Congress has a reputation of being somewhat contentious and partisan, sometimes deservedly so. However, I have been a member of the Armed Services Committee myself for several years, and I recognize that they clearly understand Article I of the Constitution, which requires a common defense of our country; and in that particular committee, partisanship really has been checked at the door regarding the product of the Armed Services Committee, which is this annual Defense authorization bill.

In its essence, I think the process has been good, the efforts have been good, and it has made a significant issue that we are bringing here to the floor ready to pass in its final version from the conference committee. There are significant underlying issues that I think we will talk about during the course of the discussion on the rule and perhaps on the bill as well, but those things, I think, will be handled as they appear at that particular time.

With that, Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. I thank my friend from Utah for yielding the time, and I yield myself such time as I may consume.

Mr. Speaker, it's been more than 10 years since the attacks of September 11. We have fought two wars and have engaged in military action in numerous other countries. Hundreds of thousands of people have died, and many more have been wounded. We have spent more than \$1 trillion. Osama bin Laden is dead, and the Obama administration officials have declared that al Qaeda is "operationally ineffective."

Here at home, we've reformed our national government, compromised our civil liberties, spent billions on a sur-

veillance state, and created a culture of paranoia in which, even in the last few days, a reality TV show about Muslim Americans is subjected to a campaign of hate and intolerance.

Before proceeding, let me commend the chairman and the ranking member of the relevant committee of jurisdiction that put this package together. I am fundamentally opposed to many aspects of it, but I am in tremendous agreement with their bipartisan efforts and the staffs of both of them and the other committee members for putting forth the effort to bring us to this point of discussion.

We should take this opportunity at this moment in our history to seriously and carefully deliberate our Nation's counterterrorism efforts. We ought to consider which policies are effective and which, in the end, only create more anti-American sentiment. We ought to consider which policies align with our national values and which, instead, undermine them. We ought to consider whether we should continue using the full thrust of the United States Armed Forces in country after country or whether a more nuanced approach might better serve our needs.

Unfortunately, the legislation before us does not attempt to answer these questions. Instead, it commits us to dive even further down the road of fear. It commits us to more war and more wasteful spending, and it commits us to ceding our freedoms and liberties on the mere suspicion of wrongdoing. This legislation erodes our society and our national security by militarizing our justice system and empowering the President to detain anyone in the United States, including American citizens, without charge or trial, without due process.

If this is going to continue to be the direction of our country, Mr. Speaker, we don't need a Democratic Party or a Republican Party or an Occupy Wall Street party or a Tea Party; we need a Mayflower party. If we are going to undermine the foundational principles of this great country, then we might as well sail away to someplace else.

This legislation establishes an authority for open-ended war anywhere in the world and against anyone. It commits us to seeing a "terrorist" in anyone who ever criticizes the United States in any country, including this one. The lack of definitions as to what constitutes "substantial support" and "associated forces" of al Qaeda and the Taliban mean that anyone could be accused of terrorism. Congress has not tried to curtail civil liberties like this since the McCarthy era; but here we are today, trying to return to an era of arbitrary justice, witch-hunts, and fearmongering.

While this measure includes an exemption for United States citizens, it does not protect them from indefinite detention. In one fell swoop, we have

set up a situation where American citizens could have their Fourth, Fifth, Sixth, Seventh, and Eighth Amendment rights violated on mere suspicions. And by placing suspected terrorists solely in the hands of the military, these provisions deny civilian law enforcement the ability to conduct effective counterterrorism efforts.

The fact of the matter is that our law enforcement agencies and civilian courts have proven over and over again that they are more than capable of handling counterterrorism cases. I had the distinct privilege in this country of serving as a Federal judge shepherding cases and protecting the interests of the United States and vital security interests during that period of time. And in every one of those cases—some 11 over the period of 9¼ years—all of the defendants were found guilty, and that is before 2001.

More than 400 suspected terrorists have already been tried in the Federal courts of the United States of America. We should not break something that already works. The idea that the executive branch's current powers are inadequate to fight terrorism is proven false by 10 years of successful counterterrorism efforts. The idea that the President—any President—needs a whole new expansion of his—and I hope one day soon—her powers is just wrong.

Most national security experts, Democrats and Republicans, are telling us not to adopt this language. Many officials responsible for our homeland security are telling us not to adopt this language. A lot of our military leaders are telling us not to adopt this language, Mr. Speaker. This legislation goes too far.

□ 1250

We spend billions of dollars every year on counterterrorism, but we weaken those efforts by tossing aside our own system of justice. We tell the American public that we are fighting overseas in order to protect our freedoms, but then we pass legislation that undermines those very same freedoms here in the people's House and at home.

And we tell the rest of the world to emulate our democratic traditions and our rule of law, but we disregard those values in a mad rush to find out how we can pretend to be the toughest on terrorism.

We won't defeat terrorism by using the military to lock up innocent people for the rest of their lives on the mere suspicion of wrongdoing. We will not defeat terrorism by claiming the entire world as a battlefield. And we will not defeat terrorism by replacing our rule of law with reckless, uncontrolled, and unaccountable powers.

Mr. Speaker, we need to have a more considered debate about the best way to conduct our defense and counterterrorism policies. This bill contains over \$600 billion in spending, runs to over

1,000 pages, and is coming to the floor less than 48 hours after it was filed.

While the detainee provisions in this legislation might have received the most attention in the last few days, there are plenty of other critical provisions that Members may have opinions about, and that's why on these kinds of measures we should have open rules.

I realize that I've said that Congress—and we are proving it at the end of this session—has a bad case of deadline-itis. But my friends in the Republican majority don't only have deadline-itis, they have deadline-ophila.

Yesterday we considered a poorly conceived extenders package that will harm the middle class and weaken our economy. Today we are considering controversial language in a defense bill that sets a dangerous precedent and will potentially harm the civil liberties of American citizens.

I appreciate that the Republican majority, many of whom are my friends, don't want their holiday season ruined by having to work. But that doesn't mean we have to ruin everyone else's holiday season by passing bad laws.

I reserve the balance of my time.

Mr. BISHOP of Utah. Mr. Speaker, the issues and accusations that were brought up by the gentleman from Florida will be something that we will address in the course of this debate, but I wish to do this in somewhat of a regular order. There are other issues, as he said, that are significant.

To address the first of those, I would like to yield 2 minutes to the gentleman from Arizona (Mr. QUAYLE).

Mr. QUAYLE. I thank the gentleman for yielding.

I rise in support of the rule and the conference report of the National Defense Authorization Act.

The NDAA includes a long-term reauthorization of the Small Business Innovation Research and Small Business Technology Transfer programs. I was proud to serve as a conferee for this important bill.

SBIR was originally signed into law by President Reagan and has been an effective tool supporting innovation among our small business community for nearly 30 years. Since its inception, this competitive grant program has enabled more than 100,000 research and development projects across the Nation and has helped spawn familiar companies such as Qualcomm, Sonicare, and Symantec.

Although this reauthorization of these programs isn't perfect, it improves them in a number of ways. It opens up the program for more small companies to participate. It increases the emphasis on commercialization of new technologies. Finally, it significantly strengthens the data collection and oversight requirements of the programs.

In my hometown of Phoenix, we have a thriving tech community. By passing

today's bill and providing long-term reauthorization, we will provide our small businesses the certainty they need to continue to innovate and grow and create jobs.

I would like to thank Chairman HALL and Chairman GRAVES for all of their work in ushering through this agreement.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased at this time to yield 2 minutes to my good friend, the distinguished gentlewoman from California (Ms. LEE).

Ms. LEE of California. First let me thank the gentleman from Florida for yielding. He is a former member of the Intelligence Committee, and I just have to thank him for his tremendous leadership and for his opening statement which laid out many of the concerns that many of us have about this bill.

Mr. Speaker, I rise today in strong opposition to this very controversial bill that directly attacks the bedrock values of America. I'm talking about the constitutional guarantees of due process for those charged with crimes.

Now, against the wishes of President Obama; our Defense Secretary, Mr. Panetta; the Director of National Intelligence, Mr. Clapper; and FBI director, Mr. Mueller, this bill allows the Federal Government to seize suspected terrorists, including United States citizens, and hold them in indefinite detention.

Arresting citizens and holding them without trial violates the Fifth Amendment's due process guarantees. This bill fundamentally is un-American, and it threatens all of our liberties. We cannot allow those who seek to terrorize the American people to win by trashing the very civil liberties at the heart of our national identity. Giving up American ideals will not make us safer. This legislation undermines our national security and our democracy.

Mr. Speaker, I would like to enter into the RECORD this letter from 26 retired generals and admirals concerned about how the United States treats detainees. These veteran national security experts wrote this rare public letter denouncing the detention provisions.

I will conclude with the words of those honorable retired generals and flag officers who warned that this legislation "both reduces the options available to our Commander in Chief to incapacitate terrorists and violates the rule of law, and would seriously undermine the safety of the American people."

I ask my colleagues to defend the civil freedoms which we all cherish, to support our national security, to support our democracy, and to vote "no" on this very dangerous bill and this rule.

NOVEMBER 28, 2011.

DEAR SENATOR: We are members of a non-partisan group of forty retired generals and

admirals concerned about U.S. policy regarding enemy prisoner treatment and detention.

We write to urge you to vote for Amendment 1107 to the National Defense Authorization Act which would strike all of the controversial detention provisions in sections 1031, 1032 and 1033 and, in their place, mandate a process for Congress to consider whether any detention legislation is needed.

As retired general and flag officers, we clearly do not make this request lightly. It is clear, however, that there is significant disagreement over the impact on our national security of these provisions. There should be no disagreement that legislation which both reduces the options available to our Commander-in-Chief to incapacitate terrorists and violates the rule of law would seriously undermine the safety of the American people.

We appreciate that our leaders are constantly striving to make America more secure, but in doing so, we must be careful not to overreact and overreach, resulting in policies that will do more harm than good. At the very least, the current detention provisions merit public debate and should not be agreed to behind closed doors and tacked into legislation as important as our national defense bill.

Sincerely,

General Joseph P. Hoar, USMC (Ret.); General Charles C. Krulak, USMC (Ret.); General David M. Maddox, USA (Ret.); General William G. T. Tuttle Jr., USA (Ret.); Lieutenant General Robert G. Gard Jr., USA (Ret.); Lieutenant General Charles P. Otstott, USA (Ret.); Lieutenant General Harry E. Soyster (Ret.); Major General John Baptiste, USA (Ret.); Major General Paul D. Eaton, USA (Ret.); Major General Eugene Fox, USA (Ret.); Rear Admiral Don Guter, USN (Ret.); Major General William L. Nash, USA (Ret.); Major General Thomas J. Romig, USA (Ret.); Major General Murray G. Sagsveen, USA (Ret.); Major General Walter L. Stewart, Jr., ARNG (Ret.); Major General, Antonio 'Tony' M. Taguba, USA (Ret.); Brigadier General John Adams, USA (Ret.); Brigadier General David M. Brahms, USMC (Ret.); Brigadier General James Cullen, USA (Ret.); Brigadier General Evelyn P. Foote, USA (Ret.); Brigadier General Gerald E. Galloway, USA (Ret.); Brigadier General Leif H. Hendrickson, USMC (Ret.); Brigadier General David R. Irvine, USA (Ret.); Brigadier General John H. Johns, USA (Ret.); Brigadier General Anthony Verrengia, USAF (Ret.); Brigadier General Stephen N. Xenakis, USA (Ret.).

Mr. BISHOP of Utah. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from California (Mr. MCCLINTOCK).

Mr. MCCLINTOCK. I thank the gentleman for generously yielding to me to offer a dissenting view of section 1021 of the underlying conference report.

This is the section referenced by the gentleman from Florida that specifically affirms that the President has the authority to deny due process to any American the government charges with "substantially supporting al Qaeda, the Taliban or any associated forces," whatever that means.

Would "substantial support" of an "associated force" mean linking a Web

site to a Web site that links to an al Qaeda site? We don't know. The question before us is: Do we really want to find out?

We're told not to worry, the bill explicitly states that nothing in it shall alter existing law. But wait—there is no existing law that gives the President the power to ignore the Bill of Rights and detain Americans without due process. There is only an assertion by the last two Presidents that this power is inherent in an open-ended and ill-defined war on terrorism. But it is a power not granted by any act of Congress until now.

What this bill says is, what Presidents have only asserted, Congress now affirms in statute.

We're told this merely pushes the question to the Supreme Court to decide if indefinite detention is compatible with any remaining vestige of our Bill of Rights. Well, that's a good point if the court were the sole guardian of the Constitution. But it is not. If it were, there would be no reason to require every Member of Congress to swear to preserve, protect, and defend the Constitution. We are also its guardians.

And today we, who have sworn fealty to that Constitution, sit to consider a bill that affirms a power contained in no law and that has the full potential to crack the very foundation of American liberty.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased to yield 3 minutes to my good friend, the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Mr. Speaker, over 8 years since the start of the wars in Iraq and Afghanistan, we are still not properly addressing traumatic brain injury, also known as the signature injury of both wars.

□ 1300

I want to thank Chairman McKEON, Ranking Member SMITH, all the chairmen of the subcommittees, as well as members of this committee who are moving forward on this issue. I wish we had the same compromise as we would have on other issues. I commend them for compromising. That's what our Forefathers talked about. I'm glad to see that the Defense Centers of Excellence for Psychological Health and Brain Injury will move oversight to the Army where there will be an increased efficiency and attention for our soldiers.

But there are still problems with screening and treating our troops. Recently, NPR ran an expose on how the Department of Defense has tested over 500,000 soldiers with a predeployment cognitive test, but has performed fewer than 3,000 tests postdeployment to actually compare the results and see if our troops were injured in theater.

The fiscal 2008 National Defense Authorization bill, bipartisanly sup-

ported, Public Law 110-181, required predeployment and postdeployment screenings of a soldier's cognitive ability. Current policy is clearly violating the intent of the law. We must ensure that the same tool is used for pre- and postdeployment cognitive screenings. We can't gauge the cognitive health of our troops without comparing tests. Last year, my amendment to the NDAA for fiscal year 2011 to address this passed the House, but was not in the final bill. We need to correct this in the next year's Defense authorization before any more soldiers slip through the cracks. It has consequences within service; and when they get out of service, it has bigger consequences.

The Defense Department has raised concerns with the currently administered test, but has stated that it will not be able to select an alternative until 2015. That is not acceptable. The longer we wait, the longer our troops suffering from undiagnosed TBIs go untreated.

I am concerned that we are not providing proper oversight for those soldiers who could have been injured in theater before this policy took effect in 2010. Many of these soldiers remain on active duty, and we must ensure that they are tested and treated.

I fear we are doing a disservice to them and our Armed Forces by not addressing this problem in this bill, and I ask everyone to consider this. This is a critical, critical issue given little attention except by Mr. McKEON and Mr. SMITH.

I ask that you do review that.

Mr. BISHOP of Utah. I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I am pleased to yield 2 minutes to my good friend from Ohio (Mr. KUCINICH).

Mr. KUCINICH. Mr. Speaker, this bill authorizes permanent warfare anywhere in the world. It gives the President unchecked power to pursue war. It diminishes the role of this Congress.

The Founders saw article I, section 8 of the Constitution, which places in the hands of Congress the war power as essential to a check and balance against executive abuse of power. This legislation diminishes Congress' role in that regard.

This legislation authorizes the military to indefinitely detain individuals without charge or trial, including the detention of U.S. citizens on U.S. soil.

In short, what this bill does is it takes a wrecking ball to the United States Constitution and gives enormous power to the government or the State. I want friends on both sides of the aisle to understand this. We're giving the State more power over individuals with this bill. It's the wrong direction.

Our children deserve a world without end, not a war without end. Our children deserve a world where they know

that while their government will protect them, that it's not going to rule over them by invading their very thoughts and going, as the PATRIOT Act does, into their banking records or into their educational records.

We've got to keep the government out of people's lives and stop the government from getting more into war, which gives the government more control over people. This is a time we take a stand for the Constitution and a stand for a government which is smaller when it comes to matters of war.

Mr. BISHOP of Utah. Mr. Speaker, I yield myself such time as I may consume.

In the year we have been here discussing these things, we have talked a lot about budget problems that we have in this country. It is my contention that our budget is not just that we have been spending too much, but we have been spending on too much.

One of the things, though, that we should be spending on is, of course, military issues. Article I of the Constitution clearly states the defense of this country is a core constitutional responsibility, and for that there must be government workers who are required to do this. That is what it should, indeed, be.

Unfortunately, we have a President and an administration that has decided that there should be some financial restraints in this particular area. Indeed, it means reducing spending significantly on the military, not necessarily other areas. The result of this will be, as has been shown in testimony, that we will create an Army smaller than any Army we have had since World War II, a Navy at its smallest since World War I, and an Air Force that is smaller and older than at any time in this country. And to do that, there will at least be 100,000 uniformed jobs that will be cut, destroyed, and reduced.

There are some people who think that simply cutting a few soldiers, a few airmen, and a few sailors will be an easy solution to this issue. That is naive. It will not happen. What it means, though, is that, also, programs must be cut at the same time. We have acquisition which buys new materials for our soldiers, and we have sustainment which fixes it. That means in certain situations our maintenance and sustainment side will have even greater requirements of them because of the decisions the administration has foisted and we will be making in this and the appropriations bill to come later.

For example, the United States has owned air superiority ever since the Korean war, and we take it for granted. Yet the F-16s we fly to maintain that air superiority we were flying at 150 percent of their designed capacity when I was first elected to this Congress. And yet this is an administration that, even though we have that

deficit, decided not to build any more F-22s and are delaying the F-35, which does produce, and put our air superiority in jeopardy. You have to have a plane for an Air Force, and you have to have a boat for a Navy. And they cost some kind of money.

In each case, we will have the oldest equipment. That means when men and women go into battle to defend this country, we are equipping them with the oldest products they will ever have to protect themselves, and that old stuff requires massive maintenance if you're really going to do that.

But what we are requiring to do in this particular budget, if we go along with the President's request for making bigger and bigger cuts in the defense of this country, is taking those civilian employees that make that maintenance effort, that do that sustainment, and that make that equipment last longer than they were designed to last, we are taking them out of the picture.

The end result for the massive cuts we are looking at in the military, both proposed by the Obama administration and if, in effect, they go into effect because of rescission by the failed supercommittee, will be anywhere between 100,000 and a half million civilian employees—and this vital function in this constitutional function—that will lose their jobs. And if you go to the worst case scenario, it may even be 1 million employees.

Now, I mention that specifically because we have heard often and often, where are the jobs bills. This House has passed a number of jobs bills to promote private sector growth. Yet at the same time, we now have a situation where, indeed, the right hand does not know what the left hand is doing. There are those out there who are going around saying that we have to pass—and they are pillorying this Congress for not passing much bigger and bigger spending to create more and more government jobs in areas which are questionable if we should be there in the first place. But at the same time we are being pilloried for not doing that. We are being presented by the left hand with a proposal that will actually cut existing civilian jobs in areas where we were constitutionally required to have them and to maintain them.

If we don't find that at least inconsistent—and mind-bogglingly inconsistent—it is one of our problems in not facing the reality. We are always told pass more government jobs. And at the same time, the same people who are demanding that are saying, okay, now in this area, cut more government jobs. There is no consistency with that. And the sad part is the left hand, the one that is defending this country with the needs of the military—which is our constitutional responsibility—those are the ones which are appropriate, and

those are the jobs that are needed, and those are the jobs that are not being protected in the future.

We must make some decisions in Congress on what is significantly important to us, and this is an area in which we must make those decisions in the future. We must continue to talk about jobs; but we have to realize that if you want more jobs, you can't go about cutting the jobs, and, unfortunately, this administration is trying to play both of those ends, and it is unfortunate.

I reserve the balance of my time.

□ 1310

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

After my good friend from Utah spoke, I guess I say, Wow. Last night I reminded him that military people are government workers also. And toward that end, when we talk about cuts and my friend talked about passing on spending, I'm curious. When \$1 billion walks away in Iraq and nobody knows where it went, I'd ask my friend to tell those soldiers at Fort Bragg—where President and Mrs. Obama have spoken to them today—that are returning home why they were in Iraq and what is it that we protected by spending \$1 trillion. Why is it we are sending money to corrupt governments? And somewhere along the lines I think we will come up with some answers—that we had enough money to spend, but we spent it on things that we should not have.

Mr. Speaker, I am very pleased to yield 2 minutes to my very good friend from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. Mr. Speaker, for many American families, they will only be able to celebrate this holiday if they forget about the burdens of their daily lives. Some are about to lose their jobs, others are about to close their businesses for the last time; some are worried they can't pay for their health care, others are worried that they're next in the layoff line.

This Congress has an opportunity on this day to address those problems. Yesterday the House took action on a bill that, frankly, isn't going to go anywhere to address these problems, and today is the day we ought to act on a bill that will.

On January 1, everyone who earns wages in this country is facing a tax increase if this Congress doesn't act, a \$1,000-a-year tax increase on the middle class. We should suspend that tax increase today.

Many people will lose their unemployment benefits. They will have no income, no check. And to those who say, well, they should go find a job, you should walk in the shoes of those who are in that predicament because here's what you would find: For every one job that's available in this country, there

are four people looking for it. So failing to extend unemployment benefits is craven, in my opinion.

On the 1st of January, doctors who take care of our seniors—our grandmothers, our grandfathers, our disabled citizens—will see a 23 percent cut in what Medicaid pays them if we do not act by December 31.

Now, yesterday's bill was deficient in so many ways, but here's two of the real big ones:

First of all, it attached extraneous provisions about whether to build an oil pipeline. Some people are for it, others are not. It doesn't belong in that bill; and

Second, a large way the bill was paid for was to blame the unemployed and to say we're going to pay for what's in that bill by cutting their benefits. That's wrong.

The SPEAKER. The time of the gentleman has expired.

Mr. HASTINGS of Florida. I yield the gentleman an additional 30 seconds.

Mr. ANDREWS. What we ought to be saying is we can hold down the taxes on the middle class, we can fairly extend benefits for the unemployed, we can make sure our doctors will continue to see our seniors and our disabled people if we ask the hedge fund managers and the millionaires and the billionaires of this country to pay just a little bit more.

We will give the House an opportunity this afternoon to vote on that bill. That's the bill we should be considering. If we do, we can then proceed immediately with passing this badly needed defense bill.

Mr. BISHOP of Utah. Mr. Speaker, the gentleman from New Jersey is right, yesterday the House did act in a bipartisan way. Now it's up to the Senate to act—amend, change, anything except just sitting there and not taking action.

I am pleased to yield 1 minute to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

Mr. Speaker, today I rise in support of section 1245 in the conference report to the NDAA that would require what we hope are crippling sanctions on the Central Bank of Iran. These provisions, offered as a bipartisan amendment in the other Chamber and approved by a unanimous vote, would severely limit the funding available for the Iranian regime to use in its pursuit of nuclear weapons. I have introduced similar legislation as a stand-alone bill here in Congress, and we also wrote a letter encouraging the conferees to accept this language. I am pleased that they did.

There is no silver bullet when it comes to stopping the Iranian regime from acquiring nuclear weapons, but if there is any sweet spot where we can make a difference, it is with the Central Bank of Iran. And so I am pleased

that this provision is in the bill, and I would urge adoption of that section all the way through the process. And I hope that this signals our intent certainly to ensure that Iran does not obtain nuclear weapons.

Mr. HASTINGS of Florida. Mr. Speaker, would you be so kind as to inform us as to the amount of time remaining on either side.

The SPEAKER. The gentleman from Florida has 10 minutes remaining. The gentleman from Utah has 18½ minutes remaining.

Mr. HASTINGS of Florida. Thank you very much, Mr. Speaker.

At this time, I am very pleased to yield 2 minutes to my friend, the distinguished woman from California (Mrs. DAVIS).

Mrs. DAVIS of California. Mr. Speaker, this is a positive bill for our military families, and when we move to the bill I'm going to take an opportunity to address that. But while we're on the rule, I have to express my immense disappointment that still, to this day, we, as a Congress, will not even bring to the table, we won't even look at the fact that if a military servicewoman is raped and becomes pregnant, she does not have access to an abortion procedure. Mr. Speaker, this is really an outrage.

We say that we want to help our servicewomen. We say that we are finally starting to treat them as the warriors that they are, and yet I ask you: How many women have to fight and die for our country in order to have the same rights as women sitting in Federal prison?

This is a slap in the face to all military women. They volunteer to train, they volunteer to deploy and fight for our country, and we repay them by treating them as less worthy than prisoners.

Honoring women in our military means changing this policy and treating them with respect. Haven't they earned this? It's well past time to show them that they have.

Mr. BISHOP of Utah. I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

If we defeat the previous question, I will offer an amendment to the rule to provide that immediately after the House adopts this rule it will bring up the Middle Class Fairness and Putting America Back to Work Act of 2011, which extends middle class tax relief, unemployment benefits, and the Medicare reimbursement doc fix.

I ask unanimous consent to insert the text of the amendment in the RECORD along with extraneous material immediately prior to the vote on the previous question.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. HASTINGS of Florida. Mr. Speaker, at this time I am very pleased to yield 2 minutes to the distinguished gentlelady from California (Ms. HAHN).

Ms. HAHN. I thank my colleague from Florida for giving me this time.

I want to encourage my friends and colleagues on both sides to defeat the previous question so that we can work together to pass a clean extension of unemployment benefits and the payroll tax cut.

You know, yesterday the House Chaplain began the day with a reminder that the holidays are a time of hope. And it is in that spirit of hope that Congress should embrace and put aside some of the politics that have darkened our recent discussions.

□ 1320

Last night my Republican friends passed legislation that, however well intended, has no chance of passing in the Senate. It did not receive my vote because, like many of my fellow Democrats in the House and the Senate, I don't believe that we should be debating controversial issues as part of those extensions.

If you believe that building a pipeline through the United States is a good idea, let's have that debate. If you believe that the EPA shouldn't regulate emissions from certain industries and machines, let's have that debate.

However, those issues cloud the need for extending unemployment benefits to those who can't find work. And it clouds the benefits for American families that would get an extension of the payroll tax cuts.

I want to work with my Republican friends to get this done. I know I'm new around here, but I think that means putting aside these other issues to debate them on their own merits.

Let's work together in a spirit of hope, vote against the previous question, and let's come back to the table and do what needs to be done.

Mr. HASTINGS of Florida. I would advise my friend from Utah that I am going to be the last speaker if he is ready to close.

Mr. BISHOP of Utah. I am prepared to close as well.

I continue to reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself the balance of my time.

In the mad rush to get home for Christmas, we're delivering an early gift to those who criticize our country for failing to live up to our ideals.

With this legislation, we're undermining over 200 years of constitutional protections. We're returning American society to an age when an all-powerful executive can command unaccountable power over people's lives.

To codify in law the power of the President to indefinitely detain Amer-

ican citizens without charge or trial is an egregious affront to our Nation's system of justice. Franz Kafka wrote about it years ago, and it has been known as Kafkaesque.

Ten years after the attacks of September 11—10 years of war, of runaway defense spending, of the PATRIOT Act, torture, and extraordinary rendition—and we're still responding to the terrorist threat with a knee-jerk reaction, devoid of reason and common sense.

This legislation says that our law enforcement agencies do not work; that our judiciary, our court system does not work. This legislation says that the President can, alone, decide who is guilty or innocent.

I would remind my friends that Barack Obama may not be the President all the time. But no President should have untrammelled authority to determine innocence or guilt. It puts the lie to the judicial branch of our government and to the legislative branch of our government. This legislation goes too far.

If the Republican majority was serious about having this body carefully consider our Nation's defense policies, Members would have had more than 2 days to review the more than 1,000 pages covering \$600 billion in spending.

I urge my colleagues to vote against this rule and the underlying legislation, and I yield back the balance of my time.

Mr. BISHOP of Utah. Mr. Speaker, I yield myself the balance of my time.

This bill has gone through regular order as no other bill has. It went through its committee in regular order and was passed out in an overwhelmingly bipartisan vote, 60-1. It came on the floor with 152 amendments to be considered and was passed out with an overwhelming bipartisan vote. It went to the Senate, was passed out in an overwhelming bipartisan vote, and the conference report was signed by the conferees in a clear bipartisan effort.

This is one of those good bills that does authorize our military forces through fiscal year 2012, and it is significant.

But I would like, in closing, to talk about one of the issues that I think was brought up, and brought up with some exaggeration to the content of what is there that deals specifically with military detainees. I want this very clear because both Congressman McKEON, who is the chairman of the committee, Congressman SMITH, who is the ranking member of the committee, spoke at length in Rules Committee on this specific issue. They were asked about the issue; they addressed the issue.

Let me make this very clear. Anything in this law that deals with detainees does not change in any way, shape, or form existing law. It does not deny anyone habeas corpus opportunities. That is not waived in any way, shape, or form.

Let me quote from Mr. SMITH, the ranking Democrat on the committee, when talking about different things, he simply said that there is the possibility of indefinite detention without a normal criminal charge, but even if you do that, which, once again, the President said he won't do, but even if you did that in certain isolated circumstances where it could be necessary under the law of war, even if you do that, habeas corpus still applies, which means you have to have a hearing in front of a Federal judge to make your case under the law for why you have the right to detain this person. And to do that, you have to show there is a connection to al Qaeda and the Taliban, and you have to show there is a threat that they present. So habeas corpus applies to everyone, whether they are a citizen, illegal alien, or a noncitizen. Habeas corpus still applies.

It is very clear in both sections 1021 and 1022 that protections for American citizens are clearly stated in there. In the Senate, they added, in 1021, the words:

Nothing in this section shall be construed to affect existing law or authorities relating to the detention of U.S. citizens, lawful resident aliens of the United States, or any other persons who are captured or arrested in the United States.

In 1022 it makes it very clear, before somebody can be detained, there are two standards which must be met. First of all, there has to be association with an armed force that is in coordination and acting against the interests of the United States and, not just membership, they have to have participated in the course of planning or carrying out attacks or attempted attacks against the United States or its coalition partners.

You can't just go out and pick people off the streets. There has to be a standard. And everyone still gets habeas corpus rights in all of these events.

Let me quote again from the law, from the report, the bill that we are debating and discussing and voting:

"The requirement to detain a person in military custody under this section"—this power—"does not extend to citizens of the United States," which means you can't do this kind of detainment against a citizen or a lawful alien of the United States.

Only in this section, and in both sections, do you have to meet certain very restrictive criteria which are not different than what we are currently doing, which simply means in the past history of this United States, especially in some of our war times, there have been Presidents who we jokingly say used to throw people in jail who were opposed to them.

President Obama could still do that under existing statute, but he can't do it with this language in this particular bill. There are specifics that are set forth. There are specific protections

written for American citizens, specific protections written for illegal aliens of the United States. It is only a very restricted authority and a very restricted power, and it doesn't affect habeas corpus. It doesn't change existing law.

In essence, those people who worked in the committee on this bill have done a yeoman's work in coming up with a good bill. Those people who worked in the conference did a yeoman's work in coming up with a good conference report.

This is a good rule, which is a standard conference report rule. And with the only exception that we still must be very careful that if we follow the administration's advice and cut our military spending too much, not only are we putting our military in jeopardy and our equipment in jeopardy, but we are destroying jobs, which is what we don't want to be doing in this particular time period.

I would urge everyone to vote for this rule, and I would urge everyone to vote for the underlying bill.

□ 1330

The material previously referred to by Mr. HASTINGS of Florida is as follows:

AN AMENDMENT TO H. RES. 493 OFFERED BY MR. HASTINGS OF FLORIDA

SEC. 6. Immediately upon adoption of this resolution the Speaker shall, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of a bill consisting of the text of the amendment printed in the Congressional Record dated December 13, 2011 pursuant to clause 8 of rule XVIII and numbered 1, which will bear the title "to support the middle class and create jobs, and for other purposes". The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the Majority Leader and Minority Leader or their respective designees. After general debate the bill shall be considered for amendment under the five-minute rule. Each section of the bill shall be considered as read. All points of order against provisions in the bill are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions. If the Committee of the Whole rises and reports that it has come to no resolution on the bill, then on the next legislative day the House shall, immediately after the third daily order of business under clause 1 of rule XIV, resolve into the Committee of the Whole for further consideration of the bill.

SEC. 7. Clause 1(c) of rule XIX shall not—apply to the consideration of the bill specified in section 6 of this resolution.

(The information contained herein was provided by the Republican Minority on multiple occasions throughout the 110th and 111th Congresses.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's *Precedents of the House of Representatives* (VI, 308-311), describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Republican majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative Process in the United States House of Representatives, (6th edition, page 135). Here's how the Republicans describe the previous question vote in their own manual: "Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule . . . When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment."

In Deschler's *Procedure in the U.S. House of Representatives*, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: "Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. BISHOP of Utah. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER. The question is on ordering the previous question.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. HASTINGS of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of adoption.

The vote was taken by electronic device, and there were—yeas 235, nays 173, not voting 25, as follows:

□ 1354

Mr. HEINRICH changed his vote from “yea” to “nay.”

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated against:

Mr. FILNER. Mr. Speaker, on rollcall 925, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “nay.”

The SPEAKER pro tempore (Mr. YODER). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

## RECORDED VOTE

Mr. HASTINGS of Florida. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—aye 245, noes 169, not voting 19, as follows:

## [Roll No. 926]

## AYES—245

□ 1410

Mr. LARSON of Connecticut, Mr. Speaker, on rollcall No. 926, I was unavoidably detained. Had I been present, I would have voted “no.”

Mr. FILNER. Mr. Speaker, on rollcall 926, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “no.”

Mr. McKEON. Mr. Speaker, pursuant to House Resolution 493, I call up the conference report on the bill (H.R. 1540) to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. LUCAS). Pursuant to House Resolution 493, the conference report is considered read.

(For conference report and statement, see proceedings of the House of December 12, 2011, at page 19369.)

The SPEAKER pro tempore. The gentleman from California (Mr. McKEON) and the gentleman from Washington (Mr. SMITH) each will control 30 minutes.

Mr. NADLER. Mr. Speaker, is the gentleman from Washington opposed to the conference report?

Mr. SMITH of Washington. No, I am not. I support the conference report.

Mr. NADLER. Mr. Speaker, I claim the time in opposition to the conference report.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XXII, the gentleman from California (Mr. McKEON), the gentleman from Washington (Mr. SMITH), and the gentleman from New York (Mr. NADLER) each will control 20 minutes.

The Chair recognizes the gentleman from California.

## GENERAL LEAVE

Mr. McKEON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report to accompany H.R. 1540.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. McKEON. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of the Fiscal Year 2012 National Defense Authorization Act conference report. As you know, the NDAA is the key mechanism by which the Congress fulfills its primary constitutional responsibility to provide for the common defense, and this year will mark the 50th consecutive year we've completed our work. The NDAA passed the Armed Services

Committee with a vote of 60–1. It passed the full House by a wide margin of 322–96. Likewise, the Senate adopted its version of the bill by a vote of 93–7. We negotiated every provision in the two bills and have delivered this conference report using regular order. This is a bipartisan product from start to finish, with a wide base of support.

Let me further assure Members that the bill's authorization levels have been reduced to comply with the Budget Control Act. The bill would bring the total authorized funding for the national defense to \$554 billion for the base budget and \$115.5 billion for overseas contingency operations. This represents a \$19 billion reduction from last year's authorization.

Nonetheless, what makes our bill such an important piece of legislation are the vital authorities contained therein. Our bill provides for pay and benefits for our military and their families, as well as the authorities that they need to continue prosecuting the war on terrorism.

In addition, we include landmark pieces of legislation sanctioning the Central Bank of Iran and strengthening policies and procedures used to detain, interrogate, and prosecute al Qaeda, the Taliban, and affiliated groups, and those who substantially support them. However, I must be crystal clear on this point: the provisions do not extend any new authorities to detain U.S. citizens and explicitly exempt U.S. citizens from provisions related to military custody of terrorists.

The conference report covers many more critical issues, but I will close in the interest of time. However, before I do, I would like to thank my partner, the gentleman from Washington, ADAM SMITH, the ranking member on the committee.

I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield myself 3 minutes.

I, too, want to thank the chairman, Mr. McKEON. We always say that our committee is the most bipartisan committee in Congress. We strongly believe that. Republicans and Democrats on that committee are committed to doing our job, which is to provide for the troops and make sure that our national security is protected in this country.

Mr. McKEON was an excellent partner to work with. It's a model for what happens when you sit down and try to legislate together, and something that I think could be emulated by many more committees and on many more issues.

So, thank you, BUCK. It's been great working with you on this. I think we've produced a good product.

I want to, upfront, address the issue that most people have focused on in the rule and elsewhere, and that is the issue surrounding detainee policy. I have never seen an issue that was more

distorted in terms of what people have said is in the bill versus what is actually in the bill. Number one, habeas corpus is protected, not touched in this bill. Pursuant to court rulings, anyone picked up pursuant to the authorization for the use of military force, has habeas corpus rights. That is not touched categorically.

Now I understand that a lot of people have a problem with what is current law, and current law is something we've been debating ever since 9/11. Both the Bush administration and the Obama administration have taken the position that indefinite detention is an option. In two cases before the Supreme Court, the Hamdi case most notably, a U.S. citizen was briefly subject to indefinite detention. The Fourth Circuit Court upheld that right. That is current law. And I actually share some of the concerns amongst my colleagues about that current law.

But this bill doesn't affect that. We, in fact, make it clear in our category on military detention that it is not meant to apply to U.S. citizens or lawful resident aliens. Read the bill. It is in there. Nothing in this section shall apply to U.S. citizens or lawful resident aliens.

Now if you have a problem with indefinite detention, that is a problem with current law. Defeating this bill will not change that, won't change it at all. But I'll tell you what it will do. It will undermine the ability of our troops to do their job, to do what we've asked them to do. If we defeat this bill, we defeat a pay raise for the troops, we defeat MILCON projects for the troops, and we defeat endless support programs that are absolutely vital to their doing their jobs. And I don't think I need to remind this body that 100,000 of those troops are in harm's way in Afghanistan right now facing a determined enemy in the middle of a fight. It is not the time to cut off their support over an issue that isn't going to be fixed by this bill.

And let me emphasize that just one more time. Current law as interpreted by the Bush administration, the Obama administration, and the judiciary of this country creates the problems that everybody is talking about, not this bill. We put language in on detention policy because we think it's about time the legislative branch at least said something on the subject. But we are not the ones that created that problem.

I urge support for this bill.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. SMITH of Washington. I yield myself an additional 30 seconds.

One issue I want to address is the issue of military construction projects for Guam. There is some limiting language in this bill on that issue based on the fact that the Department of Defense is rethinking their posture in Asia between Okinawa, Guam, and

other places. One thing I want to make clear is that Guam is a critically important part of our Asia presence. They have presence of our military there now. The language in the bill is not meant to cut off existing military construction projects or indeed other ones that may not be related to this. I want to make sure that that's clear.

With that, I reserve the balance of my time.

Mr. NADLER. Mr. Speaker, I yield myself 5 minutes.

It's been a decade since the attacks of September 11, 2001. We are in danger of losing our most precious heritage, not because a band of thugs threatens our freedom, but because we are at risk of forgetting who we are and what makes the United States a truly great nation.

□ 1420

In the last 10 years, we have begun to let go of our freedoms, bit by bit, with each new executive order, court decision and, yes, act of Congress. The changes in this bill to the laws of detention have major implications for our fundamental rights. We should not be considering this as a rider to the Defense authorization bill. This should have been the subject of close scrutiny by the Judiciary Committee. The complex legal and constitutional issues should have been properly analyzed and the implications for our values carefully considered.

You will hear that this bill merely recodifies existing law; but many legal scholars tell us that it goes a great deal further than what the law now allows, that it codifies claims of executive power against our liberties that the courts have never confirmed. You will hear that it really won't affect U.S. citizens, although, again, there is credible legal authority that tells us just the opposite. You will hear that it doesn't really turn the military into a domestic police force, but that clearly isn't the case.

Most of all, you will hear that we must do this to be safe, when the opposite is true. We can never be safe without our liberties, and this bill continues the decade-long campaign to destroy those liberties.

This bill goes far beyond the authorization for the use of military force. That resolution authorized "all necessary and appropriate force against those nations, organizations, or persons the President determines planned, authorized, committed, or aided the terrorist attacks that occurred on September 11, 2001, or harbored such organizations or persons."

This bill is not limited to those responsible for the September 11 attacks and those who aided or harbored them. It includes anyone who "substantially supported" al Qaeda and the Taliban or "associated forces that are engaged in hostilities against the United States or

its coalition partners." It is not clear what is meant by "substantially supported" or what it takes to be "associated" with someone who "substantially supported" them. It refers to any "belligerent act" or someone who has "directly supported such hostilities in aid of such enemy forces." It doesn't, as does our criminal law, say "material support," so we really don't know whether that support could be merely a speech, or an article, or something else.

So let's not pretend that this is just the same as the AUMF. If it were, there would be no need to pass this law; we have it already. Courts, in reading legislation, operate on the very sensible assumption that Congress doesn't write surplus language, that it must have intended to do something. Here it is pretty clear that we are expanding the reach of the AUMF beyond the 9/11 perpetrators and those who aided and harbored them. Whoever it reaches—and we don't know—but whoever it reaches, the government would have the authority to lock them up without trial until "the end of hostilities," which, given how broadly the AUMF has been used to justify actions far from Afghanistan, might mean forever.

And who will be taken out of the civilian justice system and imprisoned forever without a trial? The bill says anyone who "is determined" to be covered by the statute. It doesn't say determined by whom or what protections there are to ensure that an innocent person doesn't disappear into a military prison. That's not America.

We also need to be clear that the so-called "Feinstein amendment" does not really provide the protection its sponsor intended to provide. The Feinstein amendment says that "nothing in this section shall be construed to affect existing law or authorities relating to the detention of United States citizens, lawful resident aliens of the United States, or any other persons who are captured or arrested in the United States."

So what are "existing law and authorities"? As former FBI Director William Sessions has recently written: "The provision does not limit such detention authority to people captured on the battlefield. The reality is that current law on the scope of such executive authority is unsettled." Director Sessions goes on to point out that the two cases where the Supreme Court might have decided the question of detaining a U.S. citizen or a legal permanent resident, the U.S. claimed that the President had the authority—the administration claimed that the President had the authority to detain a suspected terrorist captured within the United States indefinitely without charge or trial.

In both these cases, Padilla and al-Mari, the government changed course

and decided to try them in civilian courts in order to avoid a Supreme Court ruling on that question, and that question remains undetermined.

So when the Feinstein amendment references “existing law,” you should not assume that means that current law clearly deprives the President of this dangerous power. I hope it does, but it is still, legally, an open question. We should ensure that our liberty is protected and not leave that question to some future court, and we should certainly not enact a law codifying—and that’s what this law does, it codifies, it puts into law terrifying claims of power made by Presidents but never approved by the courts or, until now, by the Congress. And that’s the fundamental reason we should reject this bill.

We must take great care. Our liberties are too precious to be cast aside in times of peril and fear. We have the tools to deal with those who would attack us.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. NADLER. I yield myself an additional 30 seconds.

We do not need to do this. We should not do this. And because of this momentous challenge to one of the founding principles of the United States—that no person may be deprived of his liberty without due process of law—this bill must be rejected.

I reserve the balance of my time.

Mr. MCKEON. Mr. Speaker, I yield 2 minutes to my friend and colleague, the gentleman from Texas, vice chairman of the committee, the chairman of the Subcommittee on Emerging Threats and Capabilities, and a member of the conference committee, Mr. THORNBERRY.

Mr. THORNBERRY. Mr. Speaker, I rise in support of this conference report. It is a broad-ranging conference report that affects everything from personnel policies to weapons systems to research and development across the Department of Defense and the military. And I especially commend Chairman McKEON, Ranking Member SMITH, and all the staff who have worked all year to make this possible, but have worked especially hard in the last few days to make this conference report possible before the Congress adjourns.

There are a number of good, important provisions in this bill that strengthen our country’s national security. But in light of the comments we have recently heard, Mr. Speaker, let me talk just a moment about this issue of detention.

You know, one can put into law “the sun comes up,” and if somebody comes and says, no, it doesn’t, you can present all the evidence and you can present words that have clear meaning, and if somebody just wants to say, no, it doesn’t, you at some level reach an impasse.

The two provisions related to detention in this bill, the words that have been put into the law, are very clear. One says it does not apply to U.S. citizens. It does not. Nothing here affects U.S. citizens. The other provision says that nothing in this section can be construed to affect existing law or authorities related to the detention of U.S. citizens.

Now, it seems to me there may well be people who are uncomfortable with the current law, and I understand that. And the proper thing to do is to introduce a bill and try to get that amended in some way to get it more to your liking. But to argue that this bill changes in some way the current law when the words say nothing in this section shall be construed to affect existing law or authorities is just not credible.

The provisions in this bill, Mr. Speaker, are a small step towards having this Congress back involved in making those detention decisions. I think it is the right small step, and it should be supported.

Mr. SMITH of Washington. I yield 2 minutes to the gentleman from New Jersey (Mr. ANDREWS), a very important member of the Armed Services Committee.

Mr. ANDREWS. Mr. Speaker, I rise with profound respect for our Constitution and for my colleagues and friends who care deeply about the impact of this bill on that Constitution. It is because I have considered those issues that I would respectfully disagree with some of my colleagues and argue for the propriety and constitutionality of this bill.

I would deplore the idea that an American citizen or a permanent resident alien could be rounded up and put in a prison in the United States of America. This bill does not authorize that scenario. I would deplore a circumstance where any person—even a person who is not here under some permanent legal status—could be rounded up and put in a prison and only a military prison. That is not what this bill authorizes. It leaves open the option that such a person could be detained in a regular civilian prison or in a military prison.

I would reject completely the proposition that any person could be held in any facility—military or civilian—anywhere in our country indefinitely without the right to have the charges that are levied against them heard by some neutral finder of fact. It is our interpretation that the habeas corpus provisions already extend to these individuals. That is to say that a nonresident or nonlegal person in the country who is held under such circumstances in fact has the right of habeas corpus. I think the law requires it. I think the Constitution demands it.

□ 1430

There is a legitimate difference of opinion as to whether or not that con-

clusion is correct. That is the state of present law. This bill does not amend present law in a way that I would like to see it amended by clarifying that right of habeas corpus, but it absolutely does not erode or reduce whatever protections exist under existing law.

So those who would share our view that the right of habeas must be clarified should work together to pass a statute that does just that, but we should not subvert this necessary and important bill.

I would urge a “yes” vote on the bill.

Mr. NADLER. Mr. Speaker, I yield 3 minutes to the gentleman from Michigan (Mr. CONYERS), the distinguished ranking member of the Judiciary Committee.

Mr. CONYERS. Members of the House of Representatives, this issue has never gone before the House Judiciary Committee—never.

I have a letter dated December 14 that says:

“There has been some debate over whether section 1021 of the National Defense Authorization Act merely restates existing law or would, for the first time, codify authority for the President to indefinitely detain, without charge, virtually anyone picked up in antiterrorism efforts, including United States citizens arrested on United States soil.

“Please find attached a letter from Judge William Sessions, a former Federal judge and former Director of the FBI under Presidents Reagan, Bush, and Clinton, explaining that current law on this point is unclear, and that enacting section 1021 of this act would dangerously expand the power for indefinite detention.”

I would like to place in the RECORD sundry correspondence, including the letter from Judge Sessions.

THE CONSTITUTION PROJECT,

Washington, DC, December 9, 2011.

DEAR REPRESENTATIVE MCKEON AND FELLOW CONFEREES, I am writing to you with grave concern over the National Defense Authorization Act of 2012 (NDAA). It is highly regrettable that the Senate passed the NDAA without first stripping it of dangerous provisions regarding the treatment of detainees. But it is not too late to act; as conferees, it is now your task to remove these harmful provisions before the NDAA becomes law. I strongly urge you to do so, and to preserve both our constitutional traditions and our most effective tools in the fight against terrorism.

If enacted, these detention provisions would for the first time codify authority for methods such as indefinite detention without charge and mandatory military detention, and would authorize their application—on the basis of suspicion alone—to virtually anyone picked up in antiterrorism efforts, including those arrested on U.S. soil. In effect, the U.S. military would become the judge, jury and jailer of terrorism suspects, to the exclusion of the FBI and other law enforcement agencies.

An astounding array of individuals from across the political spectrum opposes the

over-militarization of our counterterrorism efforts, and for good reason. I have attached Beyond Guantanamo: A Bipartisan Declaration, organized by The Constitution Project and Human Rights First, in which I joined with over 140 additional former government officials and practitioners from across the political spectrum in explaining that federal courts are the most effective mechanism for trying terrorism cases, and that indefinite detention without charge runs afoul of our Constitution and would harm U.S. interests globally. As a former federal judge, former U.S. Attorney, and former director of the FBI, I myself can attest to the competence of our nation's law enforcement officers and civilian federal courts, as well as the urgency to preserve these tools for use in our counterterrorism efforts.

Secretary of Defense Leon Panetta similarly opposes this transfer of responsibility to the military. Indeed, virtually the entire national security establishment—including James Clapper, the director of national intelligence; Robert Mueller III, the director of the FBI; David Petraeus, the director of the CIA; White House Advisor for Counterterrorism John Brennan; Lisa Monaco, the assistant attorney general for national security; and Jeh Johnson, general counsel for the Department of Defense—has warned that further restricting the tools at our disposal to combat terrorism is not in the best interest of our national security. I implore you to heed their warning.

With regard specifically to Section 1031 from the Senate bill, some have argued that Section simply reiterates current law, and by doing so maintains the status quo. That is not the case. This very dangerous provision would authorize the President to subject any suspected terrorist who is captured within the United States—including U.S. citizens and U.S. persons—to indefinite detention without charge. The provision does not limit such detention authority to people captured on the battlefield. Importantly, although subsection (e) of this provision states that the provision should not be “construed to affect existing law or authorities” relating to detention of “persons who are captured or arrested in the United States,” the reality is that current law on the scope of such executive authority is unsettled.

In fact, on two occasions when this issue was on track to come before the U.S. Supreme Court, the executive branch changed course so as to avoid judicial review. Specifically, in both the Padilla case in 2005–06 (involving a U.S. citizen) and the al-Marri case in 2008–09 (involving a legal permanent U.S. resident), the U.S. government claimed that the President had the authority to detain a suspected terrorist captured within the United States indefinitely without charge or trial. In both instances, however, before the Supreme Court could hear the case and evaluate this claim, the Justice Department reversed course and charged the defendant with criminal offenses to be tried in civilian court. Thus, this extreme claim of executive detention authority for people captured within the United States has never been tested, and the state of the law at present is unclear. Passage of Section 1031 would explicitly provide this authority by statute for the first time, thereby clearly, and dangerously, expanding the power for indefinite detention.

I firmly believe that the United States can best preserve its national security by maintaining the use of proven law enforcement methods and our well-tested traditional criminal justice system to combat terrorism.

By contrast, enacting the NDAA without first removing the current detainee provisions could pose a genuine threat to our national security and would represent a sweeping and unnecessary departure from our constitutional tradition.

I therefore urge you, as conferees, to strip these dangerous detainee provisions from the NDAA. Thank you for your consideration.

Sincerely,

WILLIAM S. SESSIONS.

OCTOBER 7, 2011.

Hon. HARRY REID,

*Majority Leader, U.S. Capitol, Washington, DC.*

DEAR SENATOR REID: We are members of a nonpartisan group of retired generals and admirals who believe that U.S. counterterrorism policies are strongest when they adhere to the rule of law and American values. As such, we write to applaud your leadership in ensuring that the detainee provisions (Section 1031–1033) in the Senate Armed Services Committee's reported version of the Fiscal Year 2012 National Defense Authorization Act do not move forward.

If passed, we believe these provisions would reshape our counterterrorism policies in ways that would undermine our national security and transform our armed forces into judge, jury and jailor for foreign terrorism suspects. The military's mission is to prosecute wars, not terrorists. The bill would expand the military's mission to detain and try a large category of future foreign terror suspects, which falls outside the military's core competence and erodes faith in the judicial process. It would also authorize the indefinite detention without trial of terrorism suspects, including American citizens captured on U.S. soil—a policy that is contrary to the very American values needed to win this fight.

As retired military leaders, we believe in the importance of the underlying bill to sustain the strength of our Armed Services. For that reason, we have been advocating against these provisions, and agree with your statement that our nation must maintain the capability and flexibility to effectively apply the full range of tools at our disposal to combat terrorism. This includes the use of our criminal justice system, which has accumulated an impressive record of success in bringing terrorists to justice. Limitations on that flexibility, or on the availability of critical counterterrorism tools, would significantly threaten our national security.

With your commitments this week, you took an important step to avert those threats.

Sincerely,

General Joseph P. Hoar, USMC (Ret.); General Charles C. Krulak, USMC (Ret.); General David M. Maddox, USA (Ret.); General Merrill A. McPeak, USAF (Ret.); General William G. T. Tuttle Jr., USA (Ret.); Lieutenant General Robert G. Gard Jr., USA (Ret.); Vice Admiral Lee F. Gunn, USN (Ret.); Lieutenant General Arlen D. Jameson, USAF (Ret.); Lieutenant General Charles Otstott, USA (Ret.); Lieutenant General Harry E. Soyser, USA (Ret.); Major General Eugene Fox, USA (Ret.); Rear Admiral Don Guter, USN (Ret.); Rear Admiral John D. Hutson, USN (Ret.); Major General Melvyn S. Montano, USAF (Ret.); Major General William L. Nash, USA (Ret.); Major General Thomas J. Romig, USA (Ret.); Major General Antonio “Tony” M. Taguba, USA (Ret.); Brigadier General John Adams, USA (Ret.); Brigadier

General James Cullen, USA (Ret.); Brigadier General David R. Irvine, USA (Ret.); Brigadier General John H. Johns, USA (Ret.); Brigadier General Anthony Verriglia, USAF (Ret.); Brigadier General Stephen N. Xenakis, USA (Ret.).

THE SECRETARY OF DEFENSE,  
Washington, DC, November 15, 2011.

Hon. CARL LEVIN,

*Chairman, Committee on Armed Services, U.S. Senate, Washington, DC.*

DEAR MR. CHAIRMAN: I write to express the Department of Defense's principal concerns with the latest version of detainee-related language you are considering including in the National Defense Authorization Act (NDAA) for Fiscal Year 2012. We understand the Senate Armed Services Committee is planning to consider this language later today.

We greatly appreciate your willingness to listen to the concerns expressed by our national security professionals on the version of the NDAA bill reported by the Senate Armed Services Committee in June. I am convinced we all want the same result—flexibility for our national security professionals in the field to detain, interrogate, and prosecute suspected terrorists. The Department has substantial concerns, however, about the revised text, which my staff has just received within the last few hours.

Section 1032. We recognize your efforts to address some of our objections to section 1032. However, it continues to be the case that any advantages to the Department of Defense in particular and our national security in general in section 1032 of requiring that certain individuals be held by the military are, at best, unclear. This provision restrains the Executive Branch's options to utilize, in a swift and flexible fashion, all the counterterrorism tools that are now legally available.

Moreover, the failure of the revised text to clarify that section 1032 applies to individuals captured abroad, as we have urged, may needlessly complicate efforts by frontline law enforcement professionals to collect critical intelligence concerning operations and activities within the United States.

Next, the revised language adds a new qualifier to “associated force”—“that acts in coordination with or pursuant to the direction of al-Qaeda.” In our view, this new language unnecessarily complicates our ability to interpret and implement this section.

Further, the new version of section 1032 makes it more apparent that there is an intent to extend the certification requirements of section 1033 to those covered by section 1032 that we may want to transfer to a third country. In other words, the certification requirement that currently applies only to Guantanamo detainees would permanently extend to a whole new category of future captures. This imposes a whole new restraint on the flexibility we need to continue to pursue our counterterrorism efforts.

Section 1033. We are troubled that section 1033 remains essentially unchanged from the prior draft, and that none of the Administration's concerns or suggestions for this provision have been adopted. We appreciate that revised section 1033 removes language that would have made these restrictions permanent, and instead extended them through Fiscal Year 2012 only. As a practical matter, however, limiting the duration of the restrictions to the next fiscal year only will have little impact if Congress simply continues to insert these restrictions into legislation on

an annual basis without ever revisiting the substance of the legislation. As national security officials in this Department and elsewhere have explained, transfer restrictions such as those outlined in section 1033 are largely unworkable and pose unnecessary obstacles to transfers that would advance our national security interests.

Section 1035. Finally, section 1035 shifts to the Department of Defense responsibility for what has previously been a consensus-driven interagency process that was informed by the advice and views of counterterrorism professionals from across the Government. We see no compelling reason—and certainly none has been expressed in our discussions to date—to upset a collaborative, interagency approach that has served our national security so well over the past few years.

I hope we can reach agreement on these important national security issues, and, as always, my staff is available to work with the Committee on these and other matters.

Sincerely,

LEON PANETTA.

DIRECTOR OF NATIONAL INTELLIGENCE,  
Washington, DC.

Hon. DIANNE FEINSTEIN,  
*Chairman, Select Committee on Intelligence,*  
*U.S. Senate, Washington, DC.*

DEAR MADAM CHAIRMAN: I am writing in response to your letter requesting my views on the effect that the detention provisions in the National Defense Authorization Act for Fiscal Year 2012 could have on the ability of the Intelligence Community to gather counterterrorism information. In my view, some of these provisions could limit the effectiveness of our intelligence and law enforcement professionals at a time when we need the utmost flexibility to defend the nation from terrorist threats. The Executive Branch should have maximum flexibility in these areas, consistent with our law and values, rather than face limitations on our options to acquire intelligence information. As stated in the November 17, 2011, Statement of Administration Policy for S. 1867, “[a]ny bill that challenges or constrains the President’s critical authorities to collect intelligence, incapacitate dangerous terrorists, and protect the nation would prompt the President’s senior advisers to recommend a veto.”

Our principal objective upon the capture of a potential terrorist is to obtain intelligence information and to prevent future attacks, yet the provision that mandates military custody for a certain class of terrorism suspects could restrict the ability of our nation’s intelligence professionals to acquire valuable intelligence and prevent future terrorist attacks. The best method for securing vital intelligence from suspected terrorists varies depending on the facts and circumstances of each case. In the years since September 11, 2001, the Intelligence Community has worked successfully with our military and law enforcement partners to gather vital intelligence in a wide variety of circumstances at home and abroad and I am concerned that some of these provisions will make it more difficult to continue to have these successes in the future.

Taken together, the various detention provisions, even with the proposed waivers, would introduce unnecessary rigidity at a time when our intelligence, military, and law enforcement professionals are working more closely than ever to defend our nation effectively and quickly from terrorist attacks. These limitations could deny our nation the ability to respond flexibly and ap-

propriately to unfolding events—including the capture of terrorism suspects—and restrict a process that currently encourages intelligence collection through the preservation of all lawful avenues of detention and interrogation.

Our intelligence professionals are best served when they have the greatest flexibility to collect intelligence from suspected terrorists. I am concerned that the detention provisions in the National Defense Authorization Act could reduce this flexibility.

Sincerely,

JAMES R. CLAPPER.

U.S. DEPARTMENT OF JUSTICE,  
FEDERAL BUREAU OF INVESTIGATION,  
Washington, DC, Nov. 28, 2011.

Hon. CARL LEVIN,  
*Chairman, Committee on Armed Services, U.S.*  
*Senate, Washington, DC.*

DEAR MR. CHAIRMAN: I am writing to express concerns regarding the impact of certain aspects of the current version of Section 1032 of the National Defense Authorization Act for Fiscal Year 2012. Because the proposed legislation applies to certain persons detained in the United States, the legislation may adversely impact our ability to continue ongoing international terrorism investigations before or after arrest, derive intelligence from those investigations, and may raise extraneous issues in any future prosecution of a person covered by Section 1032.

The legislation as currently proposed raises two principal concerns. First, by establishing a presumption of military detention for covered individuals within the United States, the legislation introduces a substantial element of uncertainty as to what procedures are to be followed in the course of a terrorism investigation in the United States. Even before the decision to arrest is made, the question of whether a Secretary of Defense waiver is necessary for the investigation to proceed will inject uncertainty as to the appropriate course for further investigation up to and beyond the moment when the determination is made that there is probable cause for an arrest.

Section 1032 may be read to divest the FBI and other domestic law enforcement agencies of jurisdiction to continue to investigate those persons who are known to fall within the mandatory strictures of section 1032, absent the Secretary’s waiver. The legislation may call into question the FBI’s continued use or scope of its criminal investigative or national security authorities in further investigation of the subject. The legislation may restrict the FBI from using the grand jury to gather records relating to the covered person’s communication or financial records, or to subpoena witnesses having information on the matter. Absent a statutory basis for further domestic investigation, Section 1032 may be interpreted by the courts as foreclosing the FBI from conducting any further investigation of the covered individual or his associates.

Second, the legislation as currently drafted will inhibit our ability to convince covered arrestees to cooperate immediately, and provide critical intelligence. The legislation introduces a substantial element of uncertainty as to what procedures are to be followed at perhaps the most critical time in the development of an investigation against a covered person. Over the past decade we have had numerous arrestees, several of whom would arguably have been covered by the statute, who have provided important intelligence immediately after they have been arrested, and in some instances for days and

weeks thereafter. In the context of the arrest, they have been persuaded that it was in their best interests to provide essential information while the information was current and useful to the arresting authorities.

Nonetheless, at this crucial juncture, in order for the arresting agents to proceed to obtain the desired cooperation, the statute requires that a waiver be obtained from the Secretary of Defense, in consultation with the Secretary of State and the Director of National Intelligence, with certification by the Secretary to Congress that the waiver was in the national security interests of the United States. The proposed statute acknowledges that this is a significant point in an ongoing investigation. It provides that surveillance and intelligence gathering on the arrestee’s associates should not be interrupted. Likewise, the statute provides that an ongoing interrogation session should not be interrupted.

These limited exceptions, however, fail to recognize the reality of a counterterrorism investigation. Building rapport with, and convincing a covered individual to cooperate once arrested, is a delicate and time sensitive skill that transcends any one interrogation session. It requires coordination with other aspects of the investigation. Coordination with the prosecutor’s office is also often an essential component of obtaining a defendant’s cooperation. To halt this process while the Secretary of Defense undertakes the mandated consultation, and the required certification is drafted and provided to Congress, would set back our efforts to develop intelligence from the subject.

We appreciate that Congress has sought to address our concerns in the latest version of the bill, but believe that the legislation as currently drafted remains problematic for the reasons set forth above. We respectfully ask that you take into account these concerns as Congress continues to consider Section 1032.

Sincerely,

ROBERT S. MUELLER III,  
*Director.*

I know you gentlemen have studied this in the Armed Services Committee; but I’ve got a letter from the former head of the FBI and Judge Williams Sessions, and another letter from 23 generals and admirals saying the same thing. I know you’re very learned people and very conscientious, but, please, when the heads of the FBI, Republicans, judges, all tell you that you’re doing the wrong thing, what does it take for us to vote this down; because this provision allows, for the first time, we codify a court decision that will now make it okay to lock up U.S. citizens for terrorism.

This is what it says, Mr. Chairman.

I will read it again:

“There has been some debate”—

Mr. SMITH of Washington. Will the gentleman yield for a point of clarification?

That person—

Mr. CONYERS. Will the gentleman let me recognize him on his own time? I only have 3 minutes.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. CONYERS. I would like to remind my colleagues that provisions within the conference report impact our civil liberties and

should have been referred to the Judiciary Committee for review. The conference report dangerously expands existing authorizations pertaining to individuals detained by the United States government and the military.

First, Section 1021 grants broad discretionary authority that could permit the indefinite detention of United States citizens, areas of law that should have been referred to the Judiciary Committee.

Secondly, Section 1021 is not the current law of the land and instead is new and dangerously extensive detention authority that has its origins in case law that never involved questions of whether American citizens could be indefinitely detained.

Third, Section 1022 violates due process by permitting indefinite military detention without charge or trial.

Next, the conference report ignores the concerns of members of our intelligence community, domestic law enforcement, and former generals who have opposed these provisions because they would undermine the ability of the government to interrogate and prosecute suspected terrorists.

Lastly, the conference report displaces the legal expertise necessary for trying successful terrorism cases.

First, Section 1021 grants broad discretionary authority that could permit the indefinite detention of United States citizens. The indeterminate breadth of conference report provides little or no protection against the indefinite detention of United States citizens. In addition, it threatens our constitutional protections and civil liberties.

I would like to know why an amendment to exempt American citizens from indefinite military detention failed in the Senate. If we were concerned about preserving the civil liberties and constitutional protections for American citizens, why did it fail? In addition, if existing laws prohibit this, why did we not specify this in the bill? Although supporters of this bill continue to claim that this bill would not expand detention authority inside of the U.S., that is just not the case.

There are too many questions that affect our civil liberties in the conference report that should have been referred to the Judiciary Committee for review and clarification. For example, Section 1021 is broad in its definition of "hostilities", what constitutes "directly supporting hostilities in aid of enemy forces," and does not address the question of when or how do we determine "the end of hostilities."

Former FBI Director under Reagan, Bush, and Clinton and former Judge, Williams S. Sessions, recently wrote to the conferees explaining that "This very dangerous provision would authorize the President to subject any suspected terrorist who is captured within the United States—including U.S. citizens and U.S. persons—to indefinite detention without charge. The provision does not limit such detention authority to people captured on the battlefield. Importantly, although subsection (e) of this provision states that the provision should not be 'construed to affect existing law or authorities' relating to detention of persons who are captured or arrested in the United States,' the reality is that current law on the scope of such executive authority is unsettled."

With so much ambiguity, this bill could authorize detention—into perpetuity—United States citizens who in some instances—such as making statements protected under the First Amendment—could arguably be considered subject to indefinite detention under this provision.

In addition, Section 1021 does not expressly address whether U.S. citizens or lawful resident aliens may be determined as "covered persons" subject to detention under the section. Although the conference report includes the amendment offered by Senator FEINSTEIN, the conference report leaves definitions that are very broad of who can be detained without charge or trial.

Secondly, let me remind my colleagues that Section 1021 is not the current law of the land. The definition in Section 1021 was used by the Obama Administration to continue to detain indefinitely without charge or trial detainees at Guantanamo Bay, GITMO. This definition was used in court cases dealing with GITMO detainees, NOT American citizens. Thus, the question is whether this Congress wants the same GITMO detainee standard applied to American citizens? Do you want our government treating American citizens that way?

Section 1021 states that "Nothing in the section shall be construed to affect existing law or authorities relating to the detention of United States citizens, lawful resident aliens of the United States or any other persons who are captured or arrested in the United States." This does not mean that American citizens are protected.

I am very troubled today to have learned that when an amendment came up in the Senate to address these protections for American citizens, members of the Senate stated that they would want room in the law for an American citizen to fall under this new and broad definition.

No one at GITMO is an American citizen and the only cases that deal with this type of indefinite detention without charge or trial are GITMO detainee cases. So there is no good law out there.

Thus, if existing laws do impact the civil liberties of American citizens, then we need to be changing those laws instead of codifying them.

Thirdly, the conference report violates due process and rejects our American values. The United States Constitution grants specific due process rights to citizens that guarantee they will be charged and brought to trial in the event they are apprehended by law enforcement. However, Section 1022 militarizes our justice system and could allow United States citizens to be detained by the military without charge or trial.

We take an oath every Congress to uphold the Constitution and to guard its values and protections for American citizens. Earlier this year, members of this body stood before the American people and read the Constitution. Yet I must inquire whether that was theatrics or did we intend to follow through with our obligation? The broad definitions in 1022 could include American citizens under indefinite military detention, and thus must be opposed if we are to be protectors of the Constitution.

Next, this Congress has ignored the concerns of our national intelligence community.

Changes into Section 1022 will undermine the ability of the government to interrogate and prosecute suspected terrorists.

The Secretary of Defense, Leon Panetta, Director of the FBI, Robert Mueller, Director of National Intelligence, James Clapper, CIA professionals, along with dozens of retired generals and professional interrogators have rejected this proposal because it is a militarization of our justice system and some have stated that these provisions are unwise and unworkable.

Members of the House claim that out of respect for our military we need to pass this authorization. However, passing this bill ignores their concerns and will negatively impact operations that preserve our national security. Under the provisions of the conference report, intelligence and domestic law enforcement would lose authority to take further action with terrorist suspects in U.S. custody absent a waiver from the President—which still thwarts the information gathering that is crucial at that time of arrest.

This provision in the conference report will cause controversy and chaos in handling terrorism investigations. Tying the hands of our intelligence and law enforcement professionals would also cause unnecessary delays in justice.

These provisions also harm our national security by threatening the global reputation of the United States. Under President Obama, the image of the United States has been restored as well as the rule of law. However, the conference report rejects our national values of democracy, due process, and justice by authorizing the military's role in domestic law enforcement.

Lastly, the conference report displaces the legal expertise necessary for trying successful terrorism cases. A bi-partisan alliance of our national defense and intelligence community—including retired generals—have spoken out against provisions in Section 1022 that provide for military commissions to conduct terrorism trials.

The military has not even completed 3 percent of the case load that the Justice Department has completed. Military tribunals have completed six terrorism cases, compared to the Justice Department's case load of close to 400 cases with a 90 percent conviction rate to go along with that. To date, there is no record of any federal court unable to convict a terrorist.

This is not a responsibility the military wants, therefore Congress should not insist on the use of military tribunals in order to sound tougher on terrorists. We should not treat terrorists like warriors. Federal courts and our Justice Department can deliver harsher sentences and are better equipped to handle such cases. In addition, Article III Judges and the Department of Justice are more versed in the body of law that covers such cases.

I was also disappointed that the conference report failed to adopt Senate-passed language proposed by Senators MERKLEY, PAUL, and LEE calling for expedited transition of responsibility for military and security operations in Afghanistan to the Afghan government.

Specifically, this amendment would have required the President to devise and submit to Congress a plan to expedite the drawdown of

U.S. combat troops in Afghanistan and accelerate the transfer of security authority to Afghan authorities.

The conference report amended the amendment's language to change the focus from drawing down our troop footprint to empowering and building up the Afghan security forces. While a worthy goal unto itself, this language changed the focus of the amendment and undermined the message expressed by the entire Senate through the Merkley Amendment. Including this provision would have sent an important message about our country's commitment to bringing the war in Afghanistan to a responsible end. It is unfortunate that the report does not reflect a position supported by a majority of the American people.

I also support efforts to enhance the ability of Customs & Border Protection to prevent counterfeit goods from being imported into the United States. However, Section 8 of this bill will disrupt the flow of genuine brand name products into the United States.

This is true because many of the goods which CBP inspectors view with suspicion are in fact genuine goods, lawfully moving in distribution streams parallel to the authorized distributors. These transactions are desirable because they provide U.S. consumers with price competition and wider distribution of brand name products.

However, the existence of these transactions is often under attack by trademark and copyright owners who actively seek to control resale pricing and downstream distribution of the products they have already sold into commerce. Section 8 will give anti-competitive companies a new tool by giving them confidential information about competing parallel imports at their times of arrival, while they are still detained by CBP and unavailable to the importer, and without giving the importer an opportunity to prove its goods are genuine, and without even giving notice to the importer that its information has been shared with a competitor seeking to prevent its lawful transaction.

This problem could be minimized if Section 8 is limited to goods raising national security concerns or purchases by the military. I believe that is the intent of this provision of the Department of Defense Appropriation bill.

This problem could also be minimized if this bill or CBP would adopt the safeguards which the Administration proposes be included in the Customs Reauthorization Act. This would be appropriate since Section 8 provides that it sunsets when the Customs Reauthorization is adopted. The safeguards include a requirement that the Secretary find there is a need for disclosing confidential information, and that CBP provide the importer with notice and an opportunity to respond before any confidential information is released to other private parties.

For some reason, we are adopting this provision in anticipation of a more thoughtful approach in the Customs Reauthorization Act. This is not a wise or needed course of action. CBP today can provide redacted samples to IP owners and very often that is sufficient to determine if they are genuine or counterfeit.

CBP today keeps suspicious goods out of U.S. commerce while it determines if they are genuine. The safeguards proposed by the ad-

ministration will not put suspicious goods into commerce nor delay the final determination of CBP because there is an existing 30-day requirement that is not altered by any proposed legislation.

We must not be willing to compromise our civil liberties and American values for the false sense of enhancing security. I urge members to vote no on the Conference report and do what is right for America, its people, and the rule of law.

Mr. MCKEON. Mr. Speaker, I yield 2 minutes to my friend and colleague, the gentleman from Maryland, the chairman of the Subcommittee on Tactical Air and Land Forces and a member of the conference committee, Mr. BARTLETT.

Mr. BARTLETT. I rise in support of the conference report for the National Defense Authorization Act for fiscal year 2012. This is the 50th consecutive conference report for the National Defense Authorization Act.

I have the honor of serving as the chairman of the Tactical Air and Land Forces Subcommittee of our Armed Services Committee. Under the full committee leadership of Chairman MCKEON and Ranking Member SMITH, the support of SILVESTRE REYES, our subcommittee's ranking member, and a superb staff, ours is truly a bipartisan effort.

Consideration of this conference report comes at a critical period for our Nation and our military. World events and the Nation's fiscal circumstances have challenged our government's will and capacity to constructively address the enormity of the challenges we face. We need to develop a new national military strategy that better reflects the current and projected threat and fiscal environment. This is needed to facilitate full and balanced consideration of force structure and equipment investment plans and programs.

Our first priority and immediate requirement is to fully support our personnel serving overseas in Afghanistan and the many other countries where we have asked them to serve under the daily, constant threat to their personal survival. This conference report properly reflects this immediate requirement.

The National Defense Authorization Act Conference Report authorizes an additional \$325 million for National Guard and Reserve equipment unfunded requirements; \$3 billion is provided to support urgent operational needs and to counter improvised explosive device activities; \$2.7 billion is provided to support Mine Resistant Ambush Protected Vehicle modernization and survivability enhancements; and \$2.4 billion is provided for Army and Marine Corps Tactical Wheeled Vehicles, including \$155 million for development of the Joint Light Tactical Vehicle.

To meet projected future needs, an additional \$255 million is provided to

support the Abrams Tank industrial base and National Guard tank modernization, increasing the request of 21 to 70 tank upgrades, avoiding a production break in the tank upgrade program; \$8.5 billion is provided for F-35 multiservice aircraft; \$3.2 billion is provided for 40 aircraft in two models of F-18 aircraft; \$2.4 billion is provided for V-22 Ospreys for the Marine Corps and the Air Force; and multiyear procurement is authorized for various models of Army and Navy H-60 helicopters.

I urge all of my colleagues to support this conference report.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Texas, the ranking member on the Air and Land Subcommittee, Mr. REYES.

Mr. REYES. I thank the gentleman for yielding me time.

Mr. Speaker, I rise today in support of the Fiscal Year 2012 National Defense Authorization Act. This bill represents months of hard work by Members on both sides of the aisle. And I especially wanted to thank my friend and chairman, Mr. MCKEON, and Ranking Member SMITH, as well as my chairman, ROSCOE BARTLETT, for the inclusive work that was done in this legislation.

It is important to note what this bill does not include. During conference negotiations, unnecessary provisions limiting the work of military chaplains were dropped. Now the bill will allow the repeal of Don't Ask, Don't Tell to proceed so that troops who defend our values will have protections that they have fought to defend.

Working with the White House, our committee achieved a final compromise on detainees that does not grant broad new authority for the detention of U.S. citizens and does not establish a new authority for indefinite detention of terrorists. The bill strikes a reasonable balance between protecting our Nation from terrorists like those who attacked our Nation on September the 11th and protecting our American values. It demonstrates that we do not need to sacrifice our civil liberties to be safe.

Finally, I urge Members to support this legislation because it also includes a pay raise for our troops and provides funds for the care needed to recover from the wounds of war. The bill improves access to mental health care for members of the National Guard and Reserves, and the bill also expands and improves laws dealing with sexual assault and harassment.

I ask all Members to vote for this very important piece of legislation.

Mr. NADLER. Mr. Speaker, I yield 4 minutes to the gentleman from Georgia (Mr. JOHNSON).

Mr. JOHNSON of Georgia. Mr. Speaker, I have a unique position in Congress in that I serve both on the House

Armed Services Committee and the House Judiciary Committee. The House Armed Services Committee is charged with the responsibility of protecting the security of America from external threats. The Judiciary Committee is charged with the awesome responsibility of protecting the rights of Americans to live freely and protecting that from internal threats.

□ 1440

I know that my service on the Armed Services Committee has been good, and I appreciate the bipartisanship with which our chairman and the ranking member addressed the issues for keeping America safe from external threat. I must commend you for, at very difficult times, in reaching this particular product.

However, I rise in opposition to this defense authorization bill reached in conference committee because it does disturb the rights that Americans have come to enjoy under our Constitution.

We have sworn to uphold our Constitution of the United States of America regardless of which committee you serve on. Yet we're about to give our seal of approval to a bill that gives the military the authority to hold American citizens captured abroad on suspicion of terrorism, and to hold them indefinitely without trial.

This is a codification of an unfortunate Supreme Court ruling that is wrong, and it gives that ruling statutory legitimacy.

Mr. Speaker, we must reject indefinite detention of Americans and defend the Constitution. An American arrested abroad could be subject to indefinite detention abroad, and that's wrong. No matter how you spin it, it's wrong. It's unjust, it's Orwellian, and it's not who we are.

As Americans, we don't put Americans in jail indefinitely without trial no matter how heinous the accusations against them. This is not what we are about. This is not who we are. It's against our values as Americans, and for this reason, I cannot support the bill.

The bill also makes the military, not civilian law enforcement authorities, responsible for custody and prosecution in the military courts of foreign terrorist suspects apprehended within the United States. This provision disrespects and demoralizes our law enforcement officers and prosecutors who are responsible for protecting our national security using the United States criminal justice system and process, which has been effectively used repeatedly to investigate, arrest, prosecute, and incarcerate for long stints individuals who are convicted of terrorism.

Imagine you're an FBI agent or a Federal prosecutor with a tremendous record finding, arresting, convicting, locking up terrorists. Now you're told to step aside so that the military can

do your job for you. The military is a machine of war, not a law enforcement agency.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. NADLER. I yield the gentleman an additional minute.

Mr. JOHNSON of Georgia. Thank you.

That's why the Director of National Intelligence, the Director of the FBI, the Director of the CIA, the head of the Justice Department's National Security division, and the Secretary of Defense himself oppose this provision.

More than 400 terrorists have been convicted in our civilian courts. Only a handful of cases have been brought before military tribunals, and not all of them have been successful.

If it ain't broke, ladies and gentlemen, don't fix it.

Terrorism is a crime, and our law enforcement authorities, our prosecutors, our judges are more than up to the task. This bill ties the hands of law enforcement, militarizes counterterrorism on our own soil, and makes us less safe.

Mr. Speaker, our constituents sent us here to provide for the common defense, yes, but they also sent us here to safeguard their liberty.

So I ask my colleagues to think long and hard about this vote, and I ask the staffers watching this on C-SPAN to think long and hard before making their recommendations. Reject indefinite detention, empower civilian law enforcement, and defend the Constitution.

Mr. McKEON. Mr. Speaker, I yield 2 minutes to my friend and colleague, the gentleman from Missouri, the chairman of the Subcommittee on Seapower and Protection Forces and a member of the conference committee, Mr. AKIN.

Mr. AKIN. Thank you, Mr. Chairman.

I think that perhaps before we give the report on the status of seapower, I would make the comment that if this sequestration goes through, which people are talking about, it gravely influences the ability of our country to protect itself, and it hollows out our force. As it is, if that were to go through, we would have the smallest Navy or a Navy smaller than we had in the year 1916.

However, this particular authorization bill has some good aspects. One of the things it does is support the construction of 10 new ships in the budget request. The bill also is going to require a competitive acquisition strategy for the main engine of the next-generation bomber. That's a place we've gotten in trouble before. It allows the retirement of six B-1 aircraft but still maintains the requirement for 36 aircraft for the next 2 years.

It provides the recommended force from the Air Force of the strategic airlift of 301 aircraft comprised of C-17s

and C-5s. It also requires the GAO to conduct an annual review on the new tanker program which the military has just entered into.

I would be remiss if I didn't call our attention to a historic pattern that has occurred all through America's past. That is, in times of peace, we keep cutting defense and cutting defense, and then some war comes up and we don't have what we need, and we sacrifice a lot of lives and money. We also give ourselves fewer political possibilities because we are not prepared.

We are rapidly approaching that same mistake once again in our history with the danger of the sequestration. We've already taken almost a 10 percent cut in defense, \$450 billion. As a Navy guy, what that means is 45 aircraft carriers. That's how much we've cut. We only have 11 in the Navy. You're not supposed to lose them or sink them. This would be the equivalent of cutting 45 aircraft carriers. That's before sequestration. We must be careful.

Mr. SMITH of Washington. I yield 2 minutes to the gentlelady from California, the ranking member of the Personnel Subcommittee, Mrs. DAVIS.

Mrs. DAVIS of California. Mr. Speaker, I rise today in support of the National Defense Authorization Act for Fiscal Year 2012.

As the ranking member of the Military Personnel Subcommittee, I am pleased that this bill includes a number of provisions that continues our commitment to our men and women in uniform as well as their dedicated families.

First, I want to thank my chairman, JOE WILSON, for his support and assistance. I would also like to recognize Chairman McKEON and Ranking Member SMITH for their leadership.

I urge my colleagues to vote for this conference report as it supports our military and their families who have faced the stress and the strains of a decade at war.

The conference report includes a 1.6 percent pay raise for our troops. And it will also require the Department of Defense to enhance suicide prevention programs. It allows servicemembers to designate any individual, regardless of their relationship, to direct how their remains are treated.

This bill will also allow service Secretaries to permit members to participate in an apprenticeship program that provides employment skills training. It makes significant enhancements to the sexual assault and harassment policies of the DOD, such as requiring full-time sexual assault coordinators and victim advocates, ensuring access to legal assistance, and allowing for the consideration of a permanent change of station.

And, finally, H.R. 1540 will ensure future TRICARE prime enrollment fees are tied to increases in military retired pay cost of living adjustments.

The bill before us continues to recognize the sacrifices of those who serve our Nation in uniform. I urge my colleagues to support this bill.

□ 1450

Mr. NADLER. Mr. Speaker, I yield 2 minutes to the distinguished gentlelady from Guam (Ms. BORDALLO).

Ms. BORDALLO. I wish to thank Ranking Member SMITH for his support for Guam, and I thank the gentleman from New York (Mr. NADLER) for yielding.

Mr. Speaker, I rise in strong opposition to H.R. 1540, the conference report accompanying the National Defense Authorization Act for Fiscal Year 2012. If I were able to vote on the final passage of this legislation, I would vote against this bill.

The bill completely ignores the important efforts that this administration has taken to better posture our military forces in the Pacific. Furthermore, we undercut efforts, significant efforts, by Prime Minister Noda, in Japan, in trying to achieve progress with the development of a Futenma replacement facility.

I am deeply concerned about this bill because there is constant talk in this Chamber about recognizing the importance of the Asia-Pacific region, and now we are going in the opposite direction. People discuss their concerns about the potential threats posed by both China and North Korea. Yet when this country and this administration ask the Congress to act in our best national interest to realign forces in the Pacific, we blink. We are all talk and no action on this very important issue. I understand the budget realities that we currently face; but we must make the necessary hard choices and investments now, or it will cost more money and time in the long run.

That said, it is important for our partners in Japan to continue the progress they are making to begin the construction of a replacement facility for Futenma in northern Okinawa. It is important for Prime Minister Noda to continue to show leadership and present an environmental impact statement to the Governor of Okinawa by the end of this year. In addition, we must have further progress toward the permitting of a landfill so that we can finally move forward with this realignment. Right or wrong, the patience of those in the Senate has run out, and it is important to have more action and less rhetoric in Okinawa.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. NADLER. I yield the gentlelady an additional 30 seconds.

Ms. BORDALLO. The cuts to infrastructure funding on Guam are simply punitive, and they fly in the face of the unified action by both the House and Senate appropriators. This Congress has uniformly stated that infrastruc-

ture improvements are needed on Guam to sustain any type of additional military presence. Yet once again, our rhetoric does not match our words.

I will continue to work to make sure that we get funding to address critical infrastructure needs. As such, I urge all of my colleagues to vote "no" on this legislation.

Mr. McKEON. Mr. Speaker, I yield myself 1 minute to engage in a colloquy with my friend from Louisiana (Mr. LANDRY).

Mr. LANDRY. Will the gentleman yield?

Mr. McKEON. I yield to the gentleman from Louisiana.

Mr. LANDRY. Mr. Speaker, I rise today in order to fulfill my constitutional duty of ensuring that the liberties and freedoms are protected of the men and women that this bill authorizes to fight for. The protections bestowed on U.S. citizens are the ones that I am concerned with the most.

The question now upon us is whether or not the NDAA impacts the rights of a U.S. citizen to receive due process to challenge the legality of detention by the executive before an article III court.

Mr. McKEON. This conference report does no such thing. It in no way affects the rights of U.S. citizens.

Mr. LANDRY. My concern is that when the writ is suspended, the government is entirely free of judicial oversight.

So do we agree that no section of the NDAA purports to suspend the writ of habeas corpus?

Mr. McKEON. I agree completely.

Mr. LANDRY. Do you agree that, as the Supreme Court has held, "a state of war is not a blank check for the President when it comes to the rights of our citizens"?

Mr. McKEON. I do.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. McKEON. I yield myself an additional 15 seconds.

Mr. LANDRY. Will the chairman assure me that together we will work with the committee to further clarify the language contained in this bill in order to ensure that the clear and precise language which protects the constitutional rights of American citizens is protected?

Mr. McKEON. I do, and I will be happy to work with you to that end.

Mr. LANDRY. Thank you, Mr. Chairman.

Mr. McKEON. I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield 1 minute to the gentlelady from Massachusetts (Ms. TSONGAS).

Ms. TSONGAS. Mr. Speaker, I rise in support of the National Defense Authorization Act that is before us today.

I want to thank Chairman McKEON, Ranking Member SMITH, and all the

members of the Armed Services Committee who have worked to ensure that significant protections for our servicemembers are included in this year's bill, particularly for those who are survivors of military sexual trauma.

I also want to highlight the inclusion of a long-term reauthorization of the Small Business Innovation Research program. It is the government's most effective research and development program, creating jobs and fostering innovation in Massachusetts and across the country; and it plays a critical role in the Department of Defense.

The bill before us today ensures that the SBIR program retains its proper focus on true small businesses—creating a platform for needed job growth while guaranteeing that our Armed Forces continue to have access to the best technology available.

I urge its passage.

Mr. NADLER. Mr. Speaker, I reserve the balance of my time.

Mr. McKEON. Mr. Speaker, I yield 2 minutes to my friend and colleague, the gentleman from South Carolina, the chairman of the Subcommittee on Military Personnel, Mr. WILSON.

Mr. WILSON of South Carolina. Thank you, Chairman McKEON, for your commitment to military servicemembers, family members, and veterans.

Before I begin, I want to commend Vice Chairman MAC THORNBERRY for his clarification of the detainee issue, which is that the issue does not apply to U.S. citizens. This is directed at al Qaeda—illegal enemy combatants—not at U.S. citizens.

The military personnel provisions of H.R. 1540 provide new and important authorities to support the men and women in uniform and their families. Some of the more important personnel provisions contained in the conference agreement are: a 1.6 percent increase in military basic pay; a revised policy for measuring and reporting unit operations tempo and personnel tempo, especially when we must continue our resolve for victory in the current mission requirements.

Another initiative important to my constituents is the reform of the military recruiting system to include graduates of home schooling and virtual schools. I see military service as opportunity and fulfilling, and these are extraordinary patriots who deserve the opportunity to serve.

The conference agreement would make the chief of the National Guard Bureau a member of the Joint Chiefs of Staff. Furthermore, the agreement clarifies the legal authority for the oversight of Arlington National Cemetery, a national shrine for veterans.

I believe this bill is also strong in the multiple provisions dealing with sexual assault; and it provides new authority, such as temporary early retirement, to ease the impact of future military personnel reductions.

I urge all of my colleagues to support the conference report.

Mr. SMITH of Washington. Mr. Speaker, may I inquire as to how much time each side has remaining.

The SPEAKER pro tempore. The gentleman from Washington has 10 minutes remaining. The gentleman from California has 8¼ minutes remaining. The gentleman from New York has 4 minutes remaining.

Mr. SMITH of Washington. With that, I yield 2 minutes to the gentleman from Rhode Island (Mr. LANGEVIN), ranking member on the Emerging Threats Subcommittee.

□ 1500

Mr. LANGEVIN. I thank the gentleman for yielding.

Mr. Speaker, I rise today in support of H.R. 1540, the 2012 National Defense Authorization Act.

I would like to begin by thanking Chairman McKEON, Ranking Member SMITH, and my subcommittee chairman, Mr. THORNBERRY, for their leadership and commitment to keeping our Nation safe and protecting our servicemembers. As a conferee, I was proud to join them in signing the conference report Monday night, and I am even more proud of our excellent staff that completed a full conference in a record 1 week's time.

As ranking member of the Emerging Threats Subcommittee, I am especially pleased with the inclusion of significant funding for special operations forces, the full reauthorization of the SBIR program to support our job-creating small businesses, and also the inclusion of important cyberprotections to prevent future incidents similar to WikiLeaks.

This bill will also ensure the long-term strength of programs critical to our naval dominance and strategic posture, such as the purchase of two new Virginia class submarines, fully funding the development of the Ohio replacement submarine, and continuing work on the first Zumwalt DDG-1000 destroyer.

Further, the conference committee successfully removed damaging language that would have ended efforts by DOD to procure clean alternative fuel technology in order to break our dependence on foreign oil and reduce our carbon footprint, which DOD officials have stated are both high risks to our national security.

Finally, while I'm concerned that we were unable to remove some harmful measures requiring that terrorist detainees be held in military custody, provisions included in this bill help address concerns about potential detention of U.S. citizens in military custody and the flexibility of counterterrorism efforts by the FBI.

In closing, this legislation supports the incredible sacrifices that our brave men and women in uniform make for

our country every day and provides critical resources to carry out vital national security projects.

With that, I am proud to serve on the House Armed Services Committee and to serve with Chairman McKEON and Ranking Member SMITH. I commend them for the great work they have done in producing a good bill, and I appreciate the staff for their great work as well.

Mr. NADLER. Mr. Speaker, I continue to reserve the balance of my time.

The SPEAKER pro tempore. Without objection, the gentleman from Virginia will control the time of the gentleman from California.

There was no objection.

Mr. WITTMAN. Mr. Speaker, I yield 2 minutes to my friend and colleague, the gentleman from Ohio, the chairman of the Subcommittee on Strategic Forces and member of the conference committee, Mr. TURNER.

Mr. TURNER of Ohio. Mr. Speaker, I join my colleagues in speaking in favor of passage of the conference report on the FY12 NDAA.

As chairman of the Strategic Forces Subcommittee, I would like to walk through some of the key provisions of the conference report.

This conference report imposes checks on the administration's plans for nuclear reductions by requiring assessments of those reductions from the STRATCOM commander before any nuclear weapons reductions are made. It also requires the administration to disclose its plans for future reductions and reasserts congressional oversight of the Nation's nuclear war plan.

Concerning the proposed LightSquared network, we have retained House and Senate provisions that will ensure that the FCC will not be able to give final approval to that network unless it resolves concerns about impacts to our national security. Recent press reports indicate that, per new test results, LightSquared's proposed network continues to create unacceptable interference to DOD GPS systems.

I would also like to thank Chairman HAL ROGERS and Chairman RODNEY FRELINGHUYSEN for their support of the NNSA vital nuclear weapons programs.

And I would also like to discuss an issue that is important to our men and women in uniform, impacts our Air Force's readiness, and forces servicemembers to choose between their service to their Nation and their families. This is the issue of military child custody.

A short time after becoming a member of the House Armed Services Committee, I was struck to learn that this country's judicial system was using a servicemember's deployment against them when making child custody determinations. Just to be clear, we're asking an all-volunteer force, which

consists of less than 1 percent of our population, to engage in the longest conflict in our Nation's history, endure more deployments than any other generation in our history, and do so at the peril of losing custody of their children upon return.

Recognizing this unconscionable injustice, the House Armed Services Committee has included language in the past five National Defense Authorization Acts to provide servicemembers a uniform standard of protection. This provision has also made it through the House Veterans' Affairs Committee.

Unfortunately, despite overwhelming bipartisan support in the House and the support of the Department of Defense, the Senate has once again failed our servicemembers and their families. It appears that they are operating on false information.

This provision should pass the House, and we are going to continue to stand for our servicemembers.

Mr. SMITH of Washington. Mr. Speaker, I am pleased to yield 1½ minutes to the gentlelady from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE of Texas. I thank the ranking member, and I thank the members of this committee.

This is a very tough decision. But in the midst of welcoming home many of our troops, I believe it is important to look at aspects of this legislation that have been corrected and aspects that have been enhanced.

Let me thank the members of the committee for the enhancement of the small business technology and the efforts on research and development. Let me thank them for the response on sexual assault and harassment policies that have been improved, as well as the improvement of the military pay for our military families and soldiers, and the enhanced resources that have been put in to help our soldiers return to the workplace.

But I am concerned. And as I have reviewed this, let me specifically yield to the gentleman from Washington, the ranking member, and ask a question on detention, about which I think so many are concerned.

It is my understanding, along with present law, that this has been vetted, the language of detention and the response to civilians, American civilians and legal aliens have been vetted to be in sync with the Constitution, due process, and the right to habeas corpus if individuals are detained.

Mr. SMITH of Washington. Yes. That was a huge priority for me in the conference committee. We worked hard to make sure that that happened, and we absolutely protect those rights.

Ms. JACKSON LEE of Texas. And I believe also that Congress has the privilege to be notified if someone is detained and has the ability to both intervene or interact with the executive, the President, on the particularly

unique circumstances of a U.S. citizen being detained as a person that may be involved in terrorist acts.

I thank the gentleman and would argue the point that this is a difficult call but that this bill has value because it improves the law on the question of detention and compliance with the Constitution. It also improves the lives of our soldiers and families.

I support the legislation.

Mr. WITTMAN. Mr. Speaker, I yield 1 minute to my friend and colleague, the gentleman from Illinois, a member of the conference committee, Mr. SCHILLING.

Mr. SCHILLING. I rise today in support of the NDAA conference agreement. First I want to thank Chairman McKEON and Ranking Member SMITH for shepherding this bill through the committee and through the Armed Services Committee and for really doing a great job for our brave men and women.

This marks the 50th year of the NDAA passing, and it is truly an example of bipartisan cooperation for the good of our country. I appreciate the opportunity I have had, serving on this important conference. And I believe that what we have put together is a great framework that is fiscally responsible and supportive of our troops and national security.

Included in this bill were provisions that would help support our military organic base, including arsenals like the one I represent in Rock Island. I am proud to represent this national treasure found within the Department of Defense. The Rock Island Arsenal and its 8,600 employees have worked hard for our country.

One of the provisions that was included in the NDAA allows our Army industrial facilities to enter into private-public partnerships under section 4544. This provision does away with the cap on these partnerships and ends the sunset date.

I urge strong support and passage of the bill.

□ 1510

Mr. SMITH of Washington. Mr. Speaker, I yield 3 minutes to the gentleman from Georgia (Mr. BISHOP).

Mr. BISHOP of Georgia. I thank the gentleman for yielding.

Mr. Speaker, in a few minutes I will offer a motion to recommit that would strike a misguided provision in the conference report that would exempt Tricare network providers from our labor protection laws.

Section 715 of this conference report excludes the Tricare network health care providers from being considered subcontractors for purposes of any law. Section 715 is nothing but an attempt to override pending litigation and longstanding civil rights law under Executive Order 11246 of 1965, section 503 of the Rehabilitation Act of 1973, and the

Vietnam Era Veterans Readjustment Assistance Act of 1974.

The civil rights protections contained in these laws have existed for decades, and they've served to protect millions of workers from race, sex, and other forms of illegal discrimination. Large Federal contractors are simply required to have an affirmative action plan to ensure that minority groups are not being discriminated against and that the Department of Labor reviews the records. The law currently exempts employers with fewer than 50 employees who do not meet minimum contract value requirements.

The health care industry employed approximately 16 million workers in 2009. Hospitals and similar entities employ tens of thousands of minorities, women, veterans and low-wage workers, groups that historically and currently depend on the basic assurances of fair treatment. The health care industry is the largest growing sector of employment in this country.

Veterans would be especially hard hit under this change in the law. There are close to 900,000 unemployed veterans in America right now. Despite their unique experience and leadership skills, wounded warriors and veterans often struggle to find meaningful employment in the civilian sector. That's why Congress passed laws, enforced by the Department of Labor, to protect the brave men and women who have served our country.

The Office of Federal Contract Compliance ensures that Federal contractors and subcontractors do not discriminate against our veterans, and instead take steps to recruit, to hire, to train, and to promote qualified protected veterans.

Tricare providers, the very people who provide health care to our Nation's veterans, are arguing that they should be exempt from adhering to the very regulations that were passed to protect our veterans. This action would gravely undermine our efforts to employ veterans. These large government health care contractors should not be exempted from civil rights responsibilities that apply to all other similarly situated contractors or subcontractors.

Section 715 is a brazen attempt by large health care industries to overturn pending litigation and exempt themselves from civil rights scrutiny. Congress should vote against weakening these laws, and I urge my colleagues to join with me and support my motion to recommit the conference report.

Mr. WITTMAN. Mr. Speaker, I yield 1½ minutes to my friend and colleague, the gentleman from Missouri, the chairman of the Small Business Committee and a member of the conference committee, Mr. GRAVES.

Mr. GRAVES of Missouri. Mr. Speaker, I rise in support of the conference report on H.R. 1540.

Included in this bill is a long-term reauthorization of the Small Business Innovative Research program. This program sets aside Federal research and development dollars for small businesses that have cutting-edge ideas and promising research that the government needs. The SBIR program fosters innovation while giving a boost to our Nation's best job creators.

Today, I am pleased to say that the House and Senate have come together on a compromise that will give certainty to our small businesses and make important reforms to the program. I want to thank Chairman McKEON and Ranking Member SMITH for including this bipartisan deal in the National Defense Authorization Act conference report, and I would also like to thank the ranking member of the Small Business Committee, Ms. VELÁZQUEZ, for her very important contributions to this debate, as well as the chairman and ranking member of the Science Committee, Mr. HALL and Ms. JOHNSON, who have also been partners in this effort. And, of course, all of the staff on the various committees who have worked very hard on this. They deserve a lot of credit for their hard work.

I encourage my colleagues to support the conference report and the thousands of small businesses and jobs that benefit from the SBIR program.

The SPEAKER pro tempore. The gentleman from Virginia has 3¾ minutes remaining. The gentleman from Washington has 3½ minutes remaining. The gentleman from New York has 4 minutes remaining.

Mr. NADLER. Mr. Speaker, I will reserve until it is time to close.

Mr. SMITH of Washington. I am also going to reserve until it is time to close. We are down to our last speaker.

Mr. WITTMAN. Mr. Speaker, I would tell my colleagues I am prepared to close.

Mr. NADLER. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from New York is recognized for 4 minutes.

Mr. NADLER. Mr. Speaker, we are told, and this seems to be one of the principle issues in the debate today, that this bill, with reference to the detention and security provisions, merely codifies existing law. Some of us say no, it doesn't codify existing law; it codifies claims of power by the last two administrations that have not been confirmed by the courts—by some courts, but not by the Supreme Court. Rather terrifying claims of power, claims of the right to put Americans in jail indefinitely without a trial even in the United States.

Now, I can cite specifics here. The text, for example, says very specifically that Congress affirms the authority of the President, includes the authority for the Armed Forces of the

United States to detain covered persons pending disposition under the law of war, and then expands the definition of covered persons to people not implicated or supporting or harboring people implicated in 9/11 for the first time.

And then we have a provision that says nothing in this section is intended to limit or expand the authority of the President or the scope of the authorization for use of military force.

Well, that directly contradicts what I just read, which is a very specific provision. And since the rules of statutory construction always say that the specific controls the general, this provision, frankly, insofar as it contradicts the first, is meaningless. It provides no protection whatsoever. The same is true of the Feinstein amendment, for similar reasons.

Now, we have disagreement we heard on the floor today, but that reflects the disagreement in the country at large. We have many law enforcement people, many legal scholars disagree on what this language means. The President's chief counterterrorism advisor, John Brennan, said that the bill mandates military custody for a certain class of terrorism suspects, and since it would apply to individuals inside the U.S.—which we have heard denied on the floor but the President's counterterrorism advisor thinks it does—it would be inconsistent with the fundamental principle that our military does not patrol our streets.

And we have many generals, including a former Commandant of the Marine Corps, saying that this is a terrible expansion and change of existing law.

Now the fact of whether it simply codifies existing law or further restricts our liberties in unprecedented ways is unclear. That my friends here can say it only codifies existing law, and I can say and all of these other people—experts, legal experts, military people, counterterrorism experts—can say it goes way beyond existing law, shows why it is dangerous to have this kind of provision affecting fundamental rights and civil liberties in a defense authorization bill which is admirable in many other ways.

The Armed Services Committee is not the proper place to consider questions of civil liberties and legal rights, and certainly not a conference report. All these questions should have been considered in hearings. The Judiciary Committee in both Houses, frankly, should have held hearings. We should have called in the counterterrorism experts, we should have called in the legal scholars, we should have called in the statutory scholars and asked: What does this provision mean? How should it be changed? Does this provision contradict that provision, and what does it really mean? Does it go beyond existing law, and, if so, how can we change that?

In legislation like this, there should be hearings and testimony and proper debate and consideration.

Now, we can still fix this. If we defeat this bill now, we can then take this provision out of the bill, and pass the bill without this provision in a couple of days. We are going to be here. There is no reason we shouldn't do that. And then next year—which is only a couple of weeks away—give proper consideration to these detention provisions if people feel a need to pass them. We should not do such fundamental changes on the fly in a conference report with one hour of debate, no proper committee consideration, no public hearings, and considerable disagreement among scholars and judges and counterterrorism experts and military experts as to what this language means and what it does.

The true answer is that nobody on this floor can be 100 percent certain what this does. And when you are dealing with our fundamental liberties, that should say don't pass it. So I urge my colleagues to defeat the bill. We can then take this out of the bill, take the bill up on the floor again in a couple of days, and that's the safe way to safeguard our liberties and to do what we have to do for our military security.

I yield back the balance of my time.

□ 1520

Mr. SMITH of Washington. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman is recognized for 3½ minutes.

Mr. SMITH of Washington. First of all, let me say we had hearings on this last February and March. We had language in our bill which we passed in May. This issue has been thoroughly debated. Now, I've heard a couple of times that the Judiciary Committee has not heard this issue. This has been going on for 10 years under both Democratic and Republican control. I don't know why the Judiciary Committee has not chosen to have hearings on this issue, but that's hardly our fault. We have. We've had endless discussions on this. It has, in fact, been debated.

And let me also say that I am very concerned about these very issues. On our committee, I have been one of the strongest voices of concern. I support closing Guantanamo. I know a lot of people don't. I think we should have all of the suspects here in the U.S. and that we should try them. I also strongly believe that the criminal justice system has to be part of how we combat al Qaeda. I have heard the argument. People say, this is a war, not a criminal matter. Why are we bothering with things like article III courts? I disagree with that and have spoken out publicly and strongly and in many cases even when popular support has been on the other side of issues like closing of Guantanamo.

I care deeply about this issue; and from the very start, I fought hard to protect precisely the things Mr. NADLER is referencing. I fought hard in the conference committee to make sure they were protected, and they were.

Now the argument is we don't know exactly what it means; so, therefore, we should do nothing. It is very true that law is unsettled. That, again, has nothing to do with this bill. There are court cases ongoing; there are habeas corpus cases continuously happening as a result of Guantanamo; and it's being interpreted by courts and also by the executive branch. I want to make it also clear that the judiciary and the executive branch would always rather that we do nothing. They would always rather forget that we are supposed to be a coequal branch of government, but we are.

After 10 years and after countless hearings, the legislative branch should say something about this. And what we said we said very, very carefully to simply codify what the executive branch and the judiciary have said about the AUMF and to make absolutely clear—and this language is not ambiguous—that military custody in the U.S. does not apply to U.S. citizens and does not apply to lawful resident aliens.

Again, the problems that people have—and I share some of them—are with existing law, not with this bill. Defeat this bill, and it won't change a piece of that existing law that we've heard about and that we should all be concerned about. But defeat this bill, and it will make it very difficult for our troops to get the support they need.

Now, I've been around this process long enough to know that there ain't no guarantee of fixing anything. And if we defeat this bill, our troops will be left to wonder if they're going to get that pay raise, if those military support projects are going to get built, if our troops are going to get the support they need. And I don't know the answer to that question.

So there's a ton of very, very good stuff in this bill that supports our troops, that addresses Members' concerns on issues like sexual assault within the military and a whole host of others. We need to support this bill to support our troops.

And the issues that folks are concerned about on detention, again, that is existing law. Whether this bill passes or not, those controversies will continue.

This is an excellent piece of legislation, well-crafted and worked hard by a lot of folks. It deserves an overwhelming "yes" vote.

With that, I urge passage and I yield back the balance of my time.

Mr. WITTMAN. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from Virginia is recognized for 3¾ minutes.

Mr. WITTMAN. I want to thank our conferees and the members of the Armed Services Committee once again, and I want to thank our staff directors, Bob Simmons and Paul Arcangeli.

This conference report addresses a wide array of policy issues, from cooperation with nations like Israel and Georgia, operations in Afghanistan, our new partnership with Iraq, and balancing strategic opportunities and risks with respect to China and Pakistan, to mitigating the threat from Iran and North Korea, enhancing missile defense, and maintaining this Nation's nuclear deterrent. Passage ensures our troops get a 1.6 percent pay raise and the benefits their families rely upon.

This bill also ensures that we continue to fulfill our Nation's most sacred obligations to our brave men and women serving in the greatest all-volunteer force in history. The service by our men and women in uniform is priceless, especially during the last 10 years of combat operations. Besides thanking them for their service and sacrifice to this Nation in ensuring they are afforded the best benefits and care for their service, there's little we can do to repay them for standing the watch and keeping America safe.

This bill authorizes a modest 1.6 percent pay increase, but it never can express how truly grateful we are as a Nation for the service and sacrifice of our all-volunteer force and their families.

Additionally, some very important provisions were included to ensure our industrial base maintains a constant workload and a fully employed workforce; and \$14.9 billion was authorized for U.S. Navy shipbuilding, a total of 10 ships, which include two Virginia class submarines. The bill also extends the multiyear funding authority for the second and third Ford-class aircraft carriers for 4 to 5 years of incremental funding authority.

American ingenuity, creativity, and initiative are alive and well in our shipyards that build warships for the United States Navy. Shipbuilding is supported through business and industry spanning 50 States and designed and engineered by our greatest asset—the American people. The American aircraft carrier is the pinnacle of this industrial engineering ingenuity and genius where mechanical, nuclear aerospace, and electrical engineering converge with naval architecture to form a magnificent 100,000-ton, 1,092-foot-long piece of American sovereignty that travels anywhere, anytime around the world.

Additionally, the bill reinstates the requirement for annual delivery of the Navy's 30-year shipbuilding plan solidifying the need for the Navy to communicate their plan as it relates to the strategic objectives of the United States balanced against a very challenging budget environment.

I'm pleased that this legislation came together to support our men and women in uniform. In times of austerity, they remain a priority, as do the safety and security of this Nation.

Today, I stand in support of this legislation and encourage my colleagues to support its passage; and I would like to reflect that all 26 Senate conferees signed this report, and 29 out of the 32 core House conferees signed as well. This is a solid product, thoroughly debated and deliberated considerably. I urge my colleagues to support and vote in favor of the conference report.

Mr. Speaker, with that, I yield back the balance of my time.

Mr. DINGELL. Mr. Speaker, I rise in support of the conference report for H.R. 1540, the National Defense Authorization Act. While this legislation is not without problems, it still provides the necessary resources and support to our men and women in uniform. As our nation winds down one war and continues to fight another, giving the troops the resources they need to succeed should be a top national priority. The legislation before us today accomplishes this important goal.

H.R. 1540 does the right thing and gives our service members a pay raise of 1.6 percent. It also ensures that we are taking adequate measures to protect our troops which are still in the theatre of combat by authorizing \$2.7 billion for Mine Resistant Ambush Protected (MRAP) Vehicles, which protect our troops from improvised explosive devices (IEDs). Additionally, the legislation provides \$3 billion for directly combating IEDs in Afghanistan, and increases the Abrams tank program by \$255 million. All of these important increases will have a real impact on the safety and wellbeing of our troops overseas, and it would be irresponsible to not support this legislation because of that fact.

The provisions relating to military detention for foreign al-Qaeda terrorists has generated much discussion, and rightfully so. Any effort which deals with civil liberties and constitutional rights must be taken very seriously. H.R. 1540 simply restates what has become law on this issue through court decisions and executive actions over the last 10 years. It provides for military custody for foreigners who are members of, or substantially supporting, al-Qaeda, but gives the president wide latitude to try any such suspect in civilian courts. Specifically, the president is granted the authority to issue a national security waiver to authorize a trial in civilian courts. The legislation also explicitly states that U.S. citizens are not subject to military detention, which is a vitally important safeguard. Finally, H.R. 1540 includes language to ensure that the FBI can continue with their investigations of terrorists on U.S. soil. While this language is certainly not perfect, I believe it strikes a fair compromise between national security and civil liberties as it simply restates what our policy has been over the last decade.

Decisions about war and our national defense should never be taken lightly, and this is especially true in this instance. This legislation makes the necessary investments to keep our troops safe and deserves to be supported.

Mr. RAHALL. Mr. Speaker, while I support the conference agreement on the National De-

fense Authorization Act, I am extremely disappointed that it does not include language from previous years to prevent the Administration from moving forward with increases in TRICARE pharmacy copayments and enrollment fees.

As a cosponsor of the Military Retirees Health Care Protection Act, which would prohibit increases in TRICARE costs for servicemembers, I do not believe our brave soldiers and their families should have to bear the burden of closing our Nation's deficits.

For thirty-five years, I have fought to expand and protect affordable, quality health care for our servicemembers, and I will continue to do so.

Mr. STARK. Mr. Speaker, I rise in strong opposition to the National Defense Authorization Act because it will continue to waste more money on weapons we do not need and wars that are not necessary. This legislation prioritizes military spending over our economic stability, the health of our people, and the basic civil liberties guaranteed by the Constitution. The costs of this bill are simply too great.

Families in my district and across the country are facing unemployment, foreclosures, and the loss of their retirement savings. All levels of government are making difficult decisions to decrease budget deficits. Now is the time to focus our efforts on bringing the defense budget under control. Instead, this bill continues our unsustainable spending on wars and the military.

It is our job to spend taxpayer dollars wisely and efficiently. When it comes to defense, we have failed miserably. We have doubled our military spending since 2001, and spend six times more than China—the next highest-spending country. Continuing to spend 60 percent of our discretionary budget on an already bloated and redundant defense sector is more than just negligence; it is malicious. Every dollar we spend on war and weapons is a dollar we cannot spend on education, health care, infrastructure, or even deficit reduction. This bill does nothing to seriously rein in our defense budget.

To make matters worse, this defense authorization is costing American citizens more than just their tax dollars, but their civil liberties as well. Provisions within this legislation allow anyone—including Americans—to be detained indefinitely by the military if found to have “substantially supported” forces “associated” with a terrorist organization, or who “are engaged in hostilities” against the U.S. or “coalition partners.” As none of the quoted terms are defined, this vague language gives excessive and broad power to the military.

Our Constitution does not permit the Federal Government to detain American citizens without charge or trial, nor does it give the military the authority to act in place of our justice system. And yet this legislation would codify into law the authority of the military to indefinitely detain suspected terrorists—something never even seriously considered during the McCarthy-Cold War era. I could never support a measure that, in the name of security, violates Americans' constitutional rights.

This authorization is not an accurate reflection of American values. Our first priority is not, nor should it be, spending more money on defense than every other Western country

combined. Defense spending should not receive privileged budgetary treatment while the rest of our budget faces deep cuts, nor should it be used as a vehicle to suppress civil liberties. I urge all of my colleagues to oppose this wasteful and dangerous legislation.

Mr. POLIS. Mr. Speaker, I rise today in opposition to the Rule and the underlying bill.

The bill we have before us allows for the indefinite detention of terror suspects, including U.S. citizens, without being charged and without the right to a trial. If enacted, this would be the first time since the McCarthy era that Congress has authorized the indefinite imprisonment of American citizens without this fundamental right.

The bill's detainee provisions undermine our national security and violate the Constitutional principles we all adhere to. If we are truly considering the Nation's best interests—we should strip this bill of these harmful provisions.

The federal criminal justice system has worked effectively to prosecute suspected terrorists throughout both the Bush and Obama administrations. This system has proven invaluable in producing counterterrorism information precisely because it provides incentives for suspects to cooperate.

Further, the detainee provisions in this bill do not provide the president with the flexibility that is needed to successfully combat terrorism.

Many of our Nation's most respected military leaders and national security leadership have come out against the detention provisions in this bill. In the past weeks, the director of the FBI, director of National Intelligence, Secretary of Defense, and head of the National Security Division at the Department of Justice have all spoken out against these detainee provisions.

Instead of protecting our Nation, these detainee provisions will ultimately make our Nation less safe at a time when we need every counterterrorism tool available to defend our Nation from terrorist threats.

We will not defend our country by shredding the Constitution or denying U.S. citizens of their most fundamental rights. We can defend our country while securing the basic freedoms that make America unique among the communities of nations.

I urge Members to respect our fundamental constitutional rights and protect our country's security by opposing this bill.

Mr. HALL. Mr. Speaker, I urge my colleagues to support the Conference Report for H.R. 1540, the National Defense Authorization Act, which includes a reauthorization of the SBIR and STTR programs.

This long-term reauthorization will provide thousands of small businesses with the certainty necessary to facilitate innovation and create high-paying jobs. The legislation will also strengthen the program's research and development output by opening it up to more small businesses, and will ensure the greatest return on taxpayer investment by helping us combat waste, fraud, and abuse.

I would like to congratulate and thank Chairman GRAVES of the House Committee on Small Business for his leadership in this process, and for working to ensure that we produced a bill that both the House and Senate could proudly support.

I would also like to thank Subcommittee Chairman QUAYLE of the Committee on Science, Space, and Technology, for his work in improving this legislation and ensuring that it produces strong research outcomes.

Finally, I would like to thank our Committee's Ranking Member, Mrs. JOHNSON, who served as a co-sponsor of the original House legislation, for her work throughout this process.

This legislation has been a long time coming. I am confident that we have produced an outstanding bill that will improve the SBIR and STTR programs, will improve the quality of research and innovation from the programs, and will help small businesses create high-paying jobs.

Ms. SCHAKOWSKY. Thank you, Mr. Speaker, I rise today in strong opposition to the National Defense Authorization Act (NDAA) of 2012.

Mr. Speaker, I oppose this bill because it fails to rein in our out of control defense spending, it includes over \$115 billion in war funding, and, most of all, because it codifies dangerous detainee provisions that are at odds with the U.S. constitution.

At a time when we are discussing drastic cuts to domestic spending programs critical to millions of Americans, this bill provides a whopping \$670 billion in Pentagon spending—that's almost as much as the rest of the world, combined, spends on defense. We can reduce our defense spending without jeopardizing our national security, yet this bill continues what former Secretary Gates termed the "gusher" of defense funding.

In addition, this legislation codifies indefinite detention without charge or trial in military custody for foreign Al Qaeda terrorists suspected of involvement in attacks on the U.S. It also blocks the transfer of Guantanamo Bay detainees to the U.S., even for trial. It severely restricts the transfer of detainees to third countries.

Most disturbingly, the bill does not guarantee suspected terrorists a trial, even if they are U.S. citizens arrested within the United States, leaving open the possibility of indefinite detention. Passing this legislation throws fundamental rights of American citizens into serious jeopardy.

These provisions are both dangerous and unnecessary. The Secretary of Defense, Director of National Intelligence, and Director of the FBI have all publically opposed the bill's detainee language. Neither the military nor the national security establishment has sought the added detention authorities provided under this legislation.

Military detention and trial not only jeopardizes our American ideals, it is also not practical. The role of the military is to fight and win wars—not to detain and try criminals. Since 9/11, military commissions have convicted only six people on terror-related charges, while over 400 have been convicted in civilian courts. Military experts have expressed concerns about the still largely untested military tribunal system, as well as the overall capacity of the military to handle a large influx of terrorism-related cases.

Mr. Speaker, we can provide for the national security of the United States without jeopardizing our fundamental freedoms and rights.

Even some of our closest allies, including Germany and the UK, have expressed reticence to transfer suspected terrorists or share intelligence about them over concerns that these individuals will end up in U.S. military custody.

In his inaugural address, President Obama stated that we "reject as false the choice between our safety and our ideals." This bill would undermine 200 years of respect for fairness and due process. I strongly urge my colleagues to join me in opposing this dangerous and destructive legislation.

Mr. HOLT. Mr. Speaker, this could have been a landmark bill. Instead, it offers our nation more of the same—more spending on programs we don't need, and no rethinking of our priorities.

To be fair, there are some good provisions in this bill—a military pay raise, additional funding for programs important to military families. I am pleased that this bill authorizes \$216 million for cooperative tactical missile defense programs with Israel like Iron Dome. Indeed, it's astounding that some in the Republican Party have suggested that America should zero out our aid to Israel—a reckless idea that would endanger the security of our best ally in the Middle East.

I regret that the conferees elected to continue a series of dubious Cold War-era programs instead of taking this opportunity to do what we must do: rescale our armed forces to meet the real threats we face.

This bill authorizes \$8.5 billion for 31 F-35 Joint Striker Fighters and \$9 billion for missile defense programs. Neither of these kinds of programs will give us the ability to deal with the kind of asymmetric threats we currently face and will likely encounter in the future. It's worth remembering that our Cold War-legacy systems did nothing to stop the 9/11 attacks. They will do nothing to confront the cybersecurity threats we face. They will do nothing to address our imported oil vulnerability, or our strategic minerals vulnerability. Continued funding of these and other Cold War-era programs only proves that the Congress has no intention of seriously rethinking our defense spending priorities, without which we cannot possibly responsibly provide for "the common defense".

Additionally, this bill should be defeated because it contains provisions that would eviscerate Constitutional protections against indefinite detention.

I am not at all convinced by the arguments of proponents of this bill that sufficient changes have been made to the sections dealing with detainees to ensure that no U.S. citizen can be detained indefinitely in U.S. military custody. We need only remember the case of Jose Padilla, the accused terrorist and U.S. citizen who was held in a military brig for years without trial. This bill would do nothing to prevent that from happening again because it does nothing to change the language of the original Authorization for the Use of Military Force (AUMF) passed after the 9/11 attacks. That language makes the President of the United States the sole determiner of who is a member of Al Qaeda, or who may have "supported" Al Qaeda, etc. Since there is no way to immediately challenge the President's determination of who is a terrorist, there is no way to ensure that innocent Americans will not

be charged falsely with having committed terrorist acts. That is the true problem with the detainee-related implications of this bill.

Finally, I cannot support this bill because it does not even mention the recently disclosed scandal at the Dover Port Mortuary, much less take any action to correct the egregious desecration of the remains of hundreds—and perhaps thousands—of our fallen heroes.

The initial revelations about the mishandling or desecration of the remains of deceased servicemembers came about through the work of three heroic Air Force employees at Dover. Despite the risk of retaliation from their chain of command, they brought their allegations to the Office of Special Counsel, which ultimately prompted investigations by the Air Force Office of Special Investigations and the Army Inspector General. Separately, a constituent of mine—Mrs. Lynn Smith of Frenchtown, New Jersey—made me aware earlier this year that for at least several years, the unclaimed additional remains of fallen servicemembers were being cremated, mixed with medical waste, and dumped in a Virginia landfill.

When Mrs. Smith learned that this had happened to her husband, she suspected immediately that it had happened to others. She was right, as we learned late last month with the Pentagon finally provided a response—albeit incomplete—to my inquiry as to how many servicemember's unclaimed remains had been mishandled in this way. Right now, the number stands at 274. I strongly suspect that number is actually higher.

Although the House Armed Services Committee held a briefing with the Air Force secretary and his senior staff in mid-November, this issue is not even mentioned in this bill, which is inexcusable. At a minimum, the bill should've had condemned the Air Force's mishandling of the remains and directed that the Secretary of Defense establish a family advisory panel to make recommendations to the Pentagon and the Congress on how to improve the casualty notification and remains disposition process. Because this bill does not address this issue and the families impacted by it, I will not support H.R. 1540.

Ms. CLARKE of New York. Mr. Speaker, I rise today in opposition to the National Defense Authorization Act of 2012. As a member of the Committee on Homeland Security, I am well aware of the threats that face this nation from home and abroad, but even though this struggle is of the highest stakes, we must remember the very values and basic rights that set us apart from those who would seek to destroy us. We must remember that we cannot sacrifice our freedom or the freedom of others in order to maintain it. To follow such a path represents a fundamental contradiction and degrades any moral high ground we claim to possess. The indefinite detention provisions do just that; they continue a shameful precedent set in the wake of the attacks against our nation on 9/11 that allows our military to detain suspected terrorists, foreign and domestic, indefinitely and with limited ability for redress.

It has been reported that if enacted, the detention provisions would codify authority for indefinite detention without charge and mandatory military detention, authorizing their application on the basis of suspicion to virtually anyone picked up in the anti-terrorism efforts;

including those arrested on U.S. soil. In effect, the U.S. military would become the sole authority over terrorism suspects, to the exclusion of the U.S. judicial system.

Mr. Speaker, this blatant eradication of Habeas Corpus is a scary thing, particularly for the people of New York City who live under the constant threat of terrorism and the ever present surveillance of law enforcement. That, among other reasons is why I'm not voting against this bill, and I urge my colleagues to do the same.

Ms. BORDALLO. Mr. Speaker, I rise in opposition to H.R. 1540, the National Defense Authorization Act for Fiscal Year 2012. Although I have serious concerns about this legislation because of its lack of commitment to forces in the Asia-Pacific region, there are portions of the bill that are good for our national defense.

Chief among those provisions is section 512, which provides the Chief of the National Guard Bureau with a seat on the Joint Chiefs of Staff. Including section 512 brings to a conclusion more than seven years of work to align the roles and responsibilities of the Chief of the National Guard Bureau appropriately for an operational reserve force. The provision recognizes the unique and important role our National Guard has played in our Nation's defenses throughout history, particularly since the attacks of September 11. This year, on the 10th anniversary of these tragedies, the National Guard will finally have the recognition and appropriate responsibilities to ensure the requirements and capabilities of the National Guard are fully integrated into our national security infrastructure. Section 511 also establishes the position of Vice Chief of the National Guard Bureau which is necessary if the Chief of the National Guard Bureau is to sit on the Joint Chiefs of Staff.

I also strongly support inclusion of section 621, which provides a one-year extension of authority to reimburse travel expenses for inactive-duty training outside of normal commuting distances. This authority is critical to the Guam National Guard as well as units in Hawaii and Alaska. Section 621 is an important recruiting and retention tool for our National Guard.

Finally, the bill also maintains our committee's longstanding support for the C-27J Joint Cargo Aircraft program by providing authorization of appropriation for nine additional aircraft in Fiscal Year 2013. The C-27J is a critical tactical airlift asset for our Air Force and Air National Guard. I regret that language restricting the retirement of C-23 Sherpa aircraft was not maintained in the final bill, but I hope that the Department can clarify how it intends to meet airlift mission requirements given the reduction in aircraft procurement over the last several years.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today in opposition to H.R. 1540, the Defense Authorization Agreement for FY 2012.

I strongly oppose the conference language which amends section 1097b(a) of title 10 of United States Code which exempts important and hard-fought civil rights protections that were enacted to advance the goals of ensuring equal opportunity and promoting diversity in the workplace. There is no principled rea-

son for creation of this grave precedent exempting this class of subcontractors from the workplace discrimination laws applicable to all other companies that enjoy the privilege of doing business with the federal government. Subcontractors that do follow the law deserve a level playing field, instead of a Congressional exemption for their competitors.

If this provision becomes law, many of those TRICARE network providers that are federal subcontractors unlike other federal subcontractors will be exempt from systemic evaluations of contractors' employment practices. Additionally, their employees will lose the assurance that there is a federal agency independently monitoring their employers' compliance with nondiscrimination and affirmative action law. Being a federal contractor or subcontractor is a privilege and with that privilege comes a responsibility to comply with the law and make equal opportunity a reality for everyone.

This is unfortunate as I am very pleased that this legislation contains a comprehensive reauthorization of the Small Business Innovation Research, SBIR, program and the Small Business Technology Transfer, STTR, program. We have worked tirelessly over the last few months on a bipartisan, bicameral basis in an attempt to strike a deal on this reauthorization and I am pleased that these efforts have finally paid off.

We all recognize the important role that small businesses play in fueling technological innovation and creating jobs in the United States. That being the case, we should be doing what we can to foster a vibrant small business community and give our small businesses the tools that they need to succeed. The SBIR and STTR programs are such tools. They have been critically important programs for fostering innovation by small businesses and meeting the research and development needs of our Federal agencies.

I am particularly pleased that the SBIR/STTR reauthorization contained in this bill includes important provisions to ensure that outreach is carried out to small businesses that have traditionally been underrepresented in the SBIR and STTR programs. This was a top priority for me for this reauthorization since one of the four stated congressional objectives for the SBIR program is to increase participation by woman- and minority-owned small businesses. In its 2008 evaluation of the SBIR program, however, the National Research Council found that the program was not achieving this objective and recommended that targeted outreach be developed to improve the participation rates of these small businesses. The reauthorization bill included in the Defense Authorization bill includes funding for targeted outreach activities, consistent with the National Research Council recommendations. I am thrilled that we were able to find common ground on this important issue and have taken critical steps to ensure that all small businesses have access to these important programs.

Mr. Speaker, in conclusion I must quote Coretta Scott King as she once said, "Struggle is a never-ending process. Freedom is never really won. You earn it and win it in every generation." Moreover, I cannot in good faith support a bill that turns back the clock on civil rights, fairness and inclusion in this country.

Mr. PRICE of Georgia. Mr. Speaker, this Congress has enacted a defense authorization bill every year for the last half-century, generally with broad bipartisan support. The reason for this broad support is simple: under Republican and Democratic leadership alike, we have recognized that support for our Nation's men and women in uniform should remain above the partisan fray, unencumbered by controversial policy debates that are only tangentially related to the mission of our Armed Forces.

Throughout my service in Congress, I have almost always supported this annual measure, which authorizes funding for a wide range of programs upon which our military depends, from salaries and benefits to military health care to critical equipment and readiness accounts. I thus find it deeply unfortunate that the House Republican leadership chose to use this year's bill as a vehicle for advancing ill-advised policies that seek to tie the President's hands in the war on terror and expand the military's role in the detention and disposition of terror suspects, at the expense of our civilian justice system and our civil liberties.

To be sure, the original House version of this bill, which I opposed, was much worse. It would not only have indefinitely extended the Authorization for the Use of Military Force that was enacted in the wake of September 11, but would also have required suspects detained pursuant to that authorization to be prosecuted in military tribunals. My Republican colleagues' inexplicable insistence on forcing terror trials into military commissions instead of civilian courts flies in the face of the facts; our court system has a strong record of trying and convicting terrorism suspects, while the record of military commissions has been spotty at best. It is no wonder that the Obama Administration threatened to veto this bill—as any administration, Democrat or Republican, would almost certainly have done.

To their credit, our Democratic conferees succeeded in averting the worst aspects of the House bill in the conference report before us today. But they didn't go far enough. The measure would still require all foreign suspects detained in the war on terror to be kept in military custody, potentially disrupting critical anti-terrorism operations and muddying the waters of a process that should be crystal clear. As FBI Director Robert Mueller reiterated today, this provision would unnecessarily complicate interrogation and intelligence collection—the very capabilities that the provision's supporters claim they are trying to enhance. The conference report would also needlessly reaffirm our ability to detain terror suspects indefinitely, upholding an ambiguity in current law that should be resolved by the courts. And it would impose new consultation requirements that further restrain the discretion of the Attorney General to determine how to prosecute terror cases.

For these reasons, I intend to oppose the measure before us today, despite my strong support for the majority of its provisions. In the future, rather than using the defense authorization bill to advance their partisan agenda, I urge the Republican leadership to return to the past practice of leaving controversial policy debates for another time and place. Our men and women in uniform deserve nothing less.

Mr. TURNER of Ohio. Mr. Speaker, I rise today to speak in favor of passage of the conference report on the FY12 NDAA.

As the Chairman of the Strategic Forces Subcommittee, I'd like to briefly walk through some of the key provisions in the conference report.

First, concerning U.S.-Russia missile defense, the conference report contains a modified version of a provision offered by Mr. BROOKS of Alabama to require the President, before sharing any classified information about U.S. ballistic missile defenses, to prove that it is in the interest of the United States and to show how the information will be protected from third party transfers.

Second, regarding U.S. nuclear forces, the conference report imposes checks on the Administration's plans for nuclear reductions by requiring assessments of those reductions from the STRATCOM commander before any nuclear weapons reductions are made; requiring the Administration to disclose its plans for future reductions; and, re-asserting Congressional oversight of the nation's nuclear war plan.

Third, concerning LightSquared, we retained House and Senate provisions that will ensure that the FCC will not be able to attempt to slip one by Congress and the DOD in the dark of night again. And I note recent press reports that new proposals for LightSquared's network continue to impose unacceptable interference to DOD GPS systems.

Also, for the first time, DOD will be able to directly transfer funding to NNSA Weapons Activities for up to \$125 M per year if there are shortfalls in that budget in the event of an appropriations shortfall.

And the bill ensures that the credibility of the U.S. deterrent and extended deterrent will start to get equal billing with safety, security and reliability.

I also would like to thank Chairman HAL ROGERS and Chairman RODNEY FRELINGHUYSEN—I have appreciated their support for funding for NNSA's vital nuclear weapons programs, which are key to maintaining the safety, security, reliability and credibility of the U.S. nuclear weapons stockpile, and enabling any of the force reductions the Administration may plan, including those under the New START treaty.

I also hope that our NATO allies and the Administration read closely the provision on our extended nuclear deterrent in Europe and any future arms control negotiations with Russia, which states that if any negotiations occur they should focus on Russia's massive stockpile of tactical nuclear weapons and that for the purposes of the negotiations, consolidation or centralized storage of Russia's tactical nuclear weapons should not be viewed as elimination of those weapons.

This last position was recently endorsed by the NATO Parliamentary Assembly, the U.S. delegation to which I am the Chairman.

Now I would like to discuss an issue that is important to our men and women in uniform, is impacting our Armed Forces readiness and forces servicemembers to choose between service to their nation and their families. This is the issue of military child custody.

In a short time after becoming a member of the House Armed Services Committee, I was

struck to learn that this country's judicial system was using servicemember's deployments against them when making child custody determinations.

Just to be clear, we are asking an all volunteer force which consists of less than one percent of our population to engage in the longest conflict in our nation's history, endure more deployments than any other generation in our history, and do so at the peril of losing their children.

Recognizing this unconscionable injustice, the House Armed Services Committee has included language in the past 5 NDAA's to provide servicemembers a uniform national standard of protection. This provision has also made it through the House Veterans' Affairs Committee.

Unfortunately, despite overwhelming bipartisan support in the House and the support of the Department of Defense, the Senate once again failed our servicemembers and their families. It appears that they have done so using false information.

Earlier this year, Secretary Gates stated, "I have been giving this matter a lot of thought and believe we should change our position to one where we are willing to consider whether appropriate legislation can be crafted that provides servicemembers with a federal uniform standard of protection." This year, I worked with the DoD and the House Armed Services Committee to provide that legislation. Yet, the Senate failed to provide the protections in the final bill.

Given all the sacrifices made by our servicemembers, I ask that the Senate finds it within themselves to reconsider their position and work with us to provide the protections our men and women in uniform deserve. It's the right thing to do and we owe it to them.

Mrs. MALONEY. Mr. Speaker, I rise today in strong opposition to H.R. 1540, the National Defense Authorization Act for FY 2012. The conference report provisions regarding the treatment of terrorism detainees in U.S. custody contained in the bill simply do not go far enough to ensure that counterterrorism officials have the ability to effectively deal with the threats our country faces, while upholding our constitutional values.

These detainee provisions put into law the authority of the military to indefinitely detain without trial individuals determined to be members or substantial supporters of terrorist organizations. But the bill does not define in clear terms those who are subject to this provision and leaves open the possibility that even American citizens arrested on U.S. soil could be detained indefinitely.

I fully support many provisions in this bill, including those that provide our service members with the pay and equipment they need and deserve. I also strongly support provisions that make much-needed improvements to the sexual assault and harassment policies of the Defense Department, and ensure that victims have access to a military lawyer and maintain their option of confidential reporting even if they seek legal counsel.

But, the language regarding detainees contained in this bill threatens the rights and liberties of American citizens. We must state unequivocally that no American may be arrested on U.S. soil and detained indefinitely without

trial. This bill fails that test and compromises our most basic constitutional values.

That is why I vigorously oppose H.R. 1540 and urge my colleagues to join me in a strong "no" vote.

Mr. SMITH of Washington. Mr. Speaker, some have raised concerns about potential ambiguities in section 2207 of the FY2012 National Defense Authorization Act and I wanted to provide clarification on some of these matters. It was asked whether section 2207 restricts the obligation of funds for contract modifications to ongoing projects or awarding minor supporting contracts required to complete projects that have already begun. First, it is not the intent of the bill to restrict the Department of Defense from modifying current contracts or awarding required ancillary contracts in support of active projects because those prior-year funds have already been obligated and therefore are not subject to the restrictions set forth in section 2207. We understand that minor additional obligations may be required to complete those previously authorized projects, and we do not object to such minor obligations as long as they are within the scope of the original authorizations.

Others have asked me, can the Department of Defense use any funding to continue planning and program management activities or begin new studies that will help inform or develop any of the five requirements that are outlined in section 2207 that must be met before further funds are obligated? The language in section 2207 is not intended to restrict the Department of Defense's ability to use prior-year funding to conduct program management activities, planning and further studies or complete ongoing studies that will better inform or allow the Department to complete work on the five requirements that are called out in section 2207 of this bill. This provision is not intended to stop the military buildup, but there are questions that remain outstanding.

I am committed to working with the Gentledady from Guam to continue to address these issues regarding the stationing of Marine Corps forces on Guam.

Mr. BLUMENAUER. Mr. Speaker, today I voted against the National Defense Authorization Act for Fiscal Year 2012 (NDAA). While nothing is more important than providing the resources needed to keep America and our men and women in uniform safe, this authorization spends too much and is a missed opportunity for much needed reform.

First, however, I would like to thank Chairman McKEON and Ranking Member SMITH of the House Armed Services Committee for including elements of all three of my amendments in this final conference bill. One amendment lifts the veil on classified immunity for defense contractors, a practice that exposed 36 of our Oregon National Guardsmen to toxic chemicals in Iraq. The other two will help protect our troops on the battlefield and save billions of dollars through energy efficiency initiatives. Their inclusion, however, does not offset the overall authorization which fails to reflect America's priorities or our national security realities.

It is deeply unfortunate that this legislation includes the appalling detention provisions and that the bill continues to tie the President's hands by restricting his ability to transfer de-

tainees to the United States for trial in Federal Court are appalling. Preventing the administration from closing Guantanamo only serves to bolster Al Qaeda and erode America's security. There is no excuse—even in the name of fighting terrorism—for undermining our ideals. Beyond the practical security considerations, terrorism is an assault on those ideals and we should not further erode them in response to that threat.

One thing that most of the Occupy Wall Street and majority of the Tea Party advocates agree upon is that the United States is on an unsustainable path.

The economy is still floundering. We are losing the competition with other countries in the international arena when it comes to rebuilding and renewing America's infrastructure and making advances in education. Even our health care system, improved by the Affordable Care Act, still falls short of the systems in use by most of our major European competitors.

These glaring examples of unsustainability for our infrastructure, our education system and our health care system are all troubling. None of this, however, compares with the unsustainability of our massive defense and security spending. U.S. defense spending is bloated and not strategically oriented. We cannot continue to spend almost as much as the rest of the world—friend and foe alike—combined. We spend 6 times as much on defense as China, and 12 times that of Russia. Our Navy is larger than the next 13 navies combined.

People who are at the front deserve our best in terms of equipment, and they and their families need to be well-cared for, not just in the field, but when they come home. Our armed forces are stressed and continue to be hobbled by the reckless actions in Iraq and further challenged by the war in Afghanistan, and need to come home. We continue to spend in Afghanistan with no clear plan for withdrawal.

Today we have a reauthorization of the defense bill that fails to lay the foundation for the dramatic changes that are needed. Scaling back our open-ended spending commitments, nuclear weapons systems that we spend more on today than during the Cold War and are far more out of proportion to what we will ever need or use, patterns of deployment, for example, with our Navy, all cry out for reform. Long overdue elements to deal with cost effectiveness and the environmental footprint, energy costs at \$400 a gallon for fuel at the frontlines in Afghanistan, and tens of billions of dollars lost to inefficient air conditioning are missing.

The greatest threat to our future is losing control of our ability to make tough decisions that will enable us to sustain our military and, more importantly, to sustain the economy. In short, the NDAA ignores the big picture.

We should reject this blueprint and begin the process now of right-sizing the military, trimming our burdensome nuclear stockpiles and unnecessary programs, eliminating costly weapons programs, ending our misguided mission in Afghanistan, and moving away from a Cold War model of deployment with U.S. military bases all over Europe.

We have the most powerful military in the world and will by far even if we invest sub-

stantially less. Our problem is that the American public is being ill-served by government. We're not investing in our future, and our economy will not be able to sustain this ever-increasing military commitment, to say nothing of the demands of investing in our communities and our people, especially the young. This is another missed opportunity to set down a marker for real change, and to lead responsibly.

Mr. TURNER of Ohio. Mr. Speaker, in the FY12 NDAA a drafting error was uncovered in section 1045.

Subsection (c) of section 1045 reads "If, during any year beginning after the date of enactment of this Act, the President makes a proposal described in subsection b" the Commander of STRATCOM shall take a prescribed action.

This provision should have read, "If, during any year beginning after the date of enactment of this Act, the President makes a proposal described in paragraph 2" the Commander of STRATCOM shall take a prescribed action.

As the Joint Statement of Managers to the Conference Report makes clear:

Finally, the conference agreement would, in any year in which the President makes a proposal to reduce the number of nuclear weapons in the active or inactive stockpiles of the United States to a level that is lower than the level on the date of enactment of this Act, require the Commander of U.S. Strategic Command to conduct a net assessment of the current and proposed nuclear forces of the United States and of other countries to determine whether the proposed U.S. nuclear forces would be capable of meeting U.S. objectives of nuclear deterrence, extended deterrence, assurance of allies, and defense. The Secretary of Defense would be required to submit the Commander's unaltered net assessment, together with any explanatory views of the Secretary, to the Committees on Armed Services of the Senate and the House of Representatives. In any such year, the Administrator of the National Nuclear Security Administration would also be required to submit to the Committees on Armed Services of the Senate and the House of Representatives, a report describing the current capacities of the U.S. nuclear weapons infrastructure to respond to strategic developments or technical problems in the nuclear weapons stockpile.

While Congress addresses this, and any other technical corrections needed in the bill, I urge STRATCOM and the Administrator of the NNSA to construe this legislation per the clear intent.

Ms. RICHARDSON. Mr. Speaker, I rise in support of H.R. 1540, the National Defense Authorization Act for Fiscal Year 2012. This legislation, which provides \$662 billion in funding for fiscal year 2012, is not perfect but I will vote in favor of it for three principal reasons. First, it provides for troop and equipment readiness. Second, it provides much needed help and support for military families. Third, it authorizes critical investments in technology to ensure that the United States is prepared to defend against emerging threats now and in the future.

Mr. Speaker, it is of utmost importance that our troops deployed in Afghanistan, Iraq, and around the world have the equipment, resources, authorities, training, and time needed

to successfully complete their missions and return home. This bill does that.

H.R. 1540 also provides their families with the resources and support they need and deserve. Specifically, the bill provides for enlistment and reenlistment bonuses, retention and accession pay for critical skills, and hazardous duty pay. As my colleagues across both aisles would agree, it is our responsibility to ensure that our troops that have sacrificed for us receive the resources they need for success and the benefits they deserve.

Further, the bill recognizes the importance of investing in future capability and technology to meet emerging challenges on the battlefield of today and in the future. We live in an age in which the security challenges facing our nation are ever-evolving and increasing in technological sophistication and complexity. We must take the necessary steps to ensure that the United States stays in the forefront of technological advances and is equipped with vigorous capabilities in order to be able to successfully detect, deter, and defeat terrorist plots, cyber attacks, and other emerging threats. The bill before us will help us meet these challenges.

Let me briefly highlight some of the key provisions included in this legislation which I support:

#### I. TROOP AND EQUIPMENT READINESS

1. Provides \$22.8 billion for the training of all active-duty and reserve forces to increase readiness;
2. Authorizes \$396.8 million for C-17 modernization;
3. Provides \$6.3 billion to fund Navy ship and aircraft depot maintenance;
4. Provides \$4.5 billion for Army and Marine Corps equipment reset and depot maintenance;
5. Provides \$7.7 billion for Air Force weapon system sustainment;
6. Allocates just under \$1 billion to support the Army's planned return to full-spectrum training; and
7. Provides \$13 billion for Military Construction, base realignment and closures, and military family housing.

#### II. HELP FOR MILITARY FAMILIES

1. Provides a 1.6 percent military pay raise
2. Ensures fair TRICARE premiums

#### III. INVESTING IN FUTURE TECHNOLOGY

1. Extends important budget authorities to allow defense laboratories to recruit and retain the brightest scientists;
2. Expands developmental test and evaluation management for major defense acquisition programs;
3. Directs an assessment of mechanisms to employ non-U.S. citizens with critical scientific and technical skills; and
4. Expands pilot program for the integration of technology protection features during research and development to include contractor cost-sharing.

Mr. Speaker, I do not support the provisions in the bill regarding the treatment of detainees suspected of terrorism. I believe they are decidedly unhelpful and thus agree with the administration and those distinguished legal scholars who assert that mandatory military custody is "undue and dangerous," and that these provisions would "severely and reck-

lessly undermine" our Nation's counterterrorism efforts.

In conclusion, Mr. Speaker, I support the NDAA for FY 2012 because it authorizes the needed investments to keep our nation safe and enhances our defense infrastructure, along with taking care of our military personnel, and authorizing continued funding for the C-17 air transport.

Ms. MCCOLLUM. Mr. Speaker, I rise today to oppose adoption of the Conference Report on H.R. 1540; the National Defense Authorization Act for Fiscal Year 2012. This bill includes dangerous provisions that put fundamental American values at risk.

Section 1021 of this Conference Report authorizes the President of the United States to detain indefinitely—without charge, without trial, and without due process—any individual suspected of terrorism. The section is written so broadly it raises legal questions about whether indefinite detention may be applicable to American citizens detained on American soil. Specifically, this provision empowers the President to detain anyone who "substantially supported" forces "associated" with al-Qaeda or the Taliban that are "engaged in hostilities against the United States or its coalition partners." It is troubling and problematic that the legislation fails to define any of these terms.

In an editorial today titled "Politics Over Principle" the New York Times argued against the legislation saying it could grant presidents "the authority to throw American citizens into prison for life without charges or a trial." Senator LINDSEY GRAHAM, a sponsor of the Senate's defense authorization bill, stated clearly the far-reaching intent of this section. He said the indefinite detention provision: "does apply to American citizens, and it designates the world as the battlefield, including the homeland."

Proponents of these indefinite detention powers argue the language merely codifies policies instituted by the George W. Bush Administration and continued under the current administration. This argument ignores the fact these policies are quite possibly unconstitutional. Congress should be investigating and reforming existing policies, not codifying them as permanent American law.

Congress has a sacred duty to defend the liberties that generations of Americans fought to establish and preserve. This conference report sacrifices the most fundamental of those liberties while gaining little, if any, additional security. If the provisions of Section 1021 are enacted, it would be the first time Congress has enshrined indefinite detention into law since the McCarthy Era.

In addition, the Conference Report before us today is a disappointing statement about fiscal responsibility. When the Defense Authorization bill passed the House in May, it included my amendment to cap funding for military bands at \$200 million. This amendment would have saved taxpayers \$125 million. Unfortunately, the Senate stripped this relatively modest but sensible cut from the bill. By protecting a bloated budget for the military's bands, it would appear that the Senate is elevating pomp and circumstance to a national security priority at the expense of fiscal responsibility. If Congress does not have the gumption to limit spending on military bands to

\$200 million in a time of financial crisis, how will we be able to cut the \$600 billion from the defense budget required by the upcoming budget sequestration?

Mr. Speaker, I cannot vote for this national defense authorization. Congress should pass a bill that supports our troops and their families, responds to emerging threats to our national security. However, I cannot support legislation that erodes basic American freedoms.

I request unanimous consent to insert a copy of the aforementioned New York Times editorial into the RECORD with my remarks.

[From the New York Times, Dec. 15, 2011]

#### POLITICS OVER PRINCIPLE

The trauma of Sept. 11, 2001, gave rise to a dangerous myth that, to be safe, America had to give up basic rights and restructure its legal system. The United States was now in a perpetual state of war, the argument went, and the criminal approach to fighting terrorism—and the due process that goes along with it—wasn't tough enough.

President George W. Bush used this insidious formula to claim that his office had the inherent power to detain anyone he chose, for as long as he chose, without a trial; to authorize the torture of prisoners; and to spy on Americans without a warrant. President Obama came into office pledging his dedication to the rule of law and to reversing the Bush-era policies. He has fallen far short.

Mr. Obama refused to entertain any investigation of the abuses of power under his predecessor, and he has been far too willing to adopt Mr. Bush's extravagant claims of national secrets to prevent any courthouse accountability for those abuses. This week, he is poised to sign into law terrible new measures that will make indefinite detention and military trials a permanent part of American law.

The measures, contained in the annual military budget bill, will strip the F.B.I., federal prosecutors and federal courts of all or most of their power to arrest and prosecute terrorists and hand it off to the military, which has made clear that it doesn't want the job. The legislation could also give future presidents the authority to throw American citizens into prison for life without charges or a trial. The bill, championed by Republicans in the House and Senate, was attached to the military budget bill to make it harder for Mr. Obama to veto it.

Nearly every top American official with knowledge and experience spoke out against the provisions, including the attorney general, the defense secretary, the chief of the F.B.I., the secretary of state, and the leaders of intelligence agencies. And, for weeks, the White House vowed that Mr. Obama would veto the military budget if the provisions were left in. On Wednesday, the White House reversed field, declaring that the bill had been improved enough for the president to sign it now that it had passed the Senate.

This is a complete political cave-in, one that reinforces the impression of a fumbling presidency. To start with, this bill was utterly unnecessary. Civilian prosecutors and federal courts have jailed hundreds of convicted terrorists, while the tribunals have convicted a half-dozen.

And the modifications are nowhere near enough. Mr. Obama, his spokesman said, is prepared to sign this law because it allows the executive to grant a waiver for a particular prisoner to be brought to trial in a civilian court. But the legislation's ban on spending any money for civilian trials for any accused terrorist would make that waiver largely meaningless.

The bill has so many other objectionable aspects that we can't go into them all. Among the worst: It leaves open the possibility of subjecting American citizens to military detention and trial by a military court. It will make it impossible to shut the prison in Guantánamo Bay, Cuba. And it includes an unneeded expansion of the authorization for the use of military force in Afghanistan to include indefinite detention of anyone suspected of being a member of Al Qaeda or an amorphous group of "associated forces" that could cover just about anyone arrested anywhere in the world.

There is no doubt. This bill will make it harder to fight terrorism and do more harm to the country's international reputation. The White House said that if implementing it jeopardizes the rule of law, it expects Congress to work "quickly and tirelessly" to undo the damage. The White House will have to make that happen. After it abdicated its responsibility this week, we're not convinced it will.

Mr. VAN HOLLEN. Mr. Speaker, it is with great regret that I rise to oppose this Defense Authorization Conference Report. This is the first Defense Authorization Conference Report I have opposed since I was first elected in 2002.

I cannot support this Conference Report because it limits the tools available to detain and prosecute terror suspects and could have the unintended effect of weakening our national security. As currently written, the language in the Report also creates potentially dangerous and costly confusion about the roles of the military and law enforcement officials during the arrest of terror suspects. At the same time, certain provisions leave open the possibility that innocent U.S. citizens could be wrongfully and indefinitely detained at the direction of the President without appropriate access to civilian courts.

The mix of tools currently available to the Executive Branch has strengthened our national security. Civilian prosecutors and federal courts have convicted and imprisoned hundreds of terrorists, while the military tribunals have convicted only a half-dozen. Why would we want to tip the scales toward a less effective enforcement tool? Why tie our own hands?

Sections 1021 and 1022 of the Report will generate confusion as to whether the military or the FBI and civilian law enforcement agencies have custody over terror suspects. Today, in testimony before the Senate Judiciary Committee, FBI Director Mueller expressed concern and uncertainty about the confusing directives in the Report that could cause misunderstandings between the FBI and the military regarding the detention of covered individuals during the crucial early moments of an arrest when information gathering is most important. He described an example where a terrorist arrest in a city like New York could cause unnecessary confusion and conflict between city law enforcement and the military because New York City is not a military controlled area. He also worries about how the situation would play out if a group of detainees—some covered, others not—are captured at the same time and what impact this might have on the handling of their cases.

There is also much confusion about the indefinite detention authority in section 1021 of the measure. Some say that this section does

not apply to U.S. citizens, but if that was the intention of the conferees, American citizens should have been specifically exempted the way they were in Section 1022 regarding mandatory military detention. The fact that American citizens were expressly exempted from mandatory military detention under section 1022—but not exempted under section 1021—suggests that Congress is implicitly endorsing the idea that American citizens may be indefinitely detained under the Authorization for Use of Military Force. If Congress is going to spell out the rules of arrest and detention, it should have made clear that American citizens may not be indefinitely detained without due process of law.

How U.S. citizens are to be treated when detained as terror suspects and the question of jurisdictional leadership during terror-related arrests are matters of such supreme national consequence that they should not have been expeditiously appended to a National Defense Authorization Conference Report. These important issues should have had the benefit of debate and close examination that can only happen during regular order.

Mr. WAXMAN. Mr. Speaker, I will vote for H.R. 1540, the National Defense Authorization Act for Fiscal Year 2012, because it contains a number of important advancements. I am extremely disappointed, however, that we were unable to achieve more in our effort to change U.S. policy on the treatment of detainees.

H.R. 1540 contains a number of areas of progress, including a pay increase for our troops, important new protections for military personnel who are victims of sexual assault, concrete requirements for the Department of Defense to strengthen its audit-readiness, and increased cooperation with Israel on ballistic missile defense. In addition, it contains the toughest sanctions yet on the Central Bank of Iran to pressure the Iranian regime from continuing its pursuit of nuclear weapons. And, it blunts the defense spending increases of past years with significant cuts that are consistent with the end of the war in Iraq and the winding down of our involvement in Afghanistan.

When the House first considered H.R. 1540 earlier this year, I voted against it because of its misguided language on detainees. The bill's provision for military detention of American citizens was simply antithetical to American values. I joined with nearly three dozen Members of Congress in urging that the language on detainees be removed from the final version of the legislation.

I commend President Obama for insisting on a number of improvements, including a prohibition on military detention of U.S. citizens and lawful residents, the removal of language that would have banned the use of civilian courts to prosecute al-Qaeda suspects, and the elimination of language that would have provided an expanded authorization for the use of military force.

For these reasons I will vote for H.R. 1540. I will closely monitor the law's implementation, however, and press for further changes that are needed to protect our civil liberties and the rule of law, which Americans have fought to preserve at such great cost.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 493, the previous question is ordered.

Pursuant to clause 1(c) of rule XIX, further consideration of the conference report is postponed.

## RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 27 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 1740

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. BIGGERT) at 5 o'clock and 40 minutes p.m.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 1905, by the yeas and nays;  
H.R. 2105, by the yeas and nays;  
H.R. 3421, de novo;  
H.R. 1264, de novo.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

## IRAN THREAT REDUCTION ACT OF 2011

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 1905) to strengthen Iran sanctions laws for the purpose of compelling Iran to abandon its pursuit of nuclear weapons and other threatening activities, and for other purposes, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and pass the bill, as amended.

The vote was taken by electronic device, and there were—yeas 410, nays 11, not voting 12, as follows:

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1806

Messrs. MORAN, STARK, ELLISON, and AMASH changed their vote from “yea” to “nay.”

Messrs. CAPUANO, HONDA, and RUSH changed their vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. FILNER. Madam Speaker, on rollcall 927, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “yea.”

## EXPLANATION OF INJURY

(Mr. FRANK of Massachusetts asked and was given permission to address the House for 1 minute.)

Mr. FRANK of Massachusetts. Madam Speaker, I deeply appreciate the solicitude of my colleagues on my appearance. I want to first assure them that there is much less here than meets the eye. I am going to explain that because, as much as I appreciate the solicitude, responding to it 400

times would seem to me a bit excessive, literally adding insult to injury.

I just want to explain that I discovered a torn ligament. We're not exactly sure how it happened. It was easily repaired today. I am wearing this because the arm was blocked and is not mobile. It is simply to protect the arm.

Madam Speaker, I do want to anticipate any question. This had nothing to do with my retirement. I did not discover it until after my announcement of my retirement. And I would just add that at no point during my 31 years here was this ligament ever essential to the performance of my duties.

# IRAN, NORTH KOREA, AND SYRIA NONPROLIFERATION REFORM AND MODERNIZATION ACT OF 2011

The SPEAKER pro tempore. Without objection, 5-minute voting will continue.

There was no objection.

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 2105) to provide for the application of measures to foreign persons who transfer to Iran, North Korea, and Syria certain goods, services, or technology, and for other purposes, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN) that the House suspend the rules and pass the bill, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 418, nays 2, not voting 13, as follows:

[Roll No. 928]

## NAYS—2

## NOT VOTING—13

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1817

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. FILNER. Madam Speaker, on rollcall 928, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “yea.”

## PERSONAL EXPLANATION

Mr. LYNCH. Madam Speaker, on rollcall votes 927 and 928, had I been able to vote, I would have voted “aye” on both votes.

## FALLEN HEROES OF 9/11 ACT

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill (H.R. 3421) to award Congressional Gold Medals in honor of the men and women who perished as a result of the terrorist attacks on the United States on September 11, 2001.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. FITZPATRICK) that the House suspend the rules and pass the bill.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

## RECORDED VOTE

Mr. SMITH of Texas. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 416, noes 0, not voting 17, as follows:

[Roll No. 929]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE  
 The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1824

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. ISSA. Madam Speaker, on rollcall No. 929 due to Whip activities, I missed this vote but would have voted “aye.”

Mr. PRICE of Georgia. Madam Speaker, on rollcall No. 929, I was unavoidably detained. Had I been present, I would have voted “aye.”

Mr. FILNER. Madam Speaker, on rollcall No. 929, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “aye.”

## M.D. ANDERSON PLAZA

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill (H.R. 1264) to designate the property between the United States Federal Courthouse and the Ed Jones Building located at 109 South Highland Avenue in Jackson, Tennessee, as the “M.D.

Anderson Plaza” and to authorize the placement of a historical/identification marker on the grounds recognizing the achievements and philanthropy of M.D. Anderson, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. FLEISCHMANN) that the House suspend the rules and pass the bill, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WOMACK. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 418, nays 1, not voting 14, as follows:

## NOT VOTING—14

Bachmann Giffords Myrick  
 Coble Gutierrez Paul  
 Diaz-Balart Johnson, E. B.  
 Duffy LaTourette Sanchez, Loretta  
 Filner Lynch Young (FL)

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1831

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. FILNER. Madam Speaker, on rollcall 930, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "yea."

Mr. DUFFY. Madam Speaker, on rollcall No. 930, I was unavoidably detained. Had I been present, I would have voted "yea."

#### CONFERENCE REPORT ON H.R. 1540, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2012

The SPEAKER pro tempore. Pursuant to clause 1(c) of rule XIX, further consideration of the conference report to accompany the bill (H.R. 1540) to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, will now resume.

##### MOTION TO RECOMMIT

Mr. BISHOP of Georgia. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. BISHOP of Georgia. I am in its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Bishop of Georgia moves to recommit the conference report on the bill H.R. 1540 to the committee of conference with instructions to the managers on the part of the House to disagree to section 715 (regarding the determination of whether TRICARE network providers are considered subcontractors for purposes of the Federal Acquisition Regulation or any other law) in the conference substitute recommended by the committee of conference.

The SPEAKER pro tempore. The motion is not debatable.

Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

##### RECORDED VOTE

Mr. BISHOP of Georgia. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the

question of adoption of the conference report.

The vote was taken by electronic device, and there were—ayes 183, noes 234, not voting 16, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1858

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

DIRECTING THE CLERK OF THE HOUSE OF REPRESENTATIVES TO CORRECT THE ENROLLMENT OF THE BILL H.R. 1540

Mr. McKEON. Madam Speaker, I send to the desk a concurrent resolution and ask unanimous consent for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 92

*Resolved by the House of Representatives (the Senate concurring), That, in the enrollment of the bill H.R. 1540, the Clerk of the House of Representatives shall strike subsection (b) of section 310 of title 37, United States Code, as inserted by section 616(a)(2) of the bill, and insert the following:*

“(b) SPECIAL PAY AMOUNT.—(1) Except as provided in paragraph (2), the amount of special pay authorized by subsection (a) for qualifying service during a day or portion of a day shall be the amount equal to 1/30th of the maximum monthly amount of special pay payable to a member as specified in paragraph (3).

“(2) In the case of a member who is exposed to hostile fire or a hostile mine explosion event in or for a day or portion of a day, the Secretary concerned may, at the election of the Secretary, pay the member special pay under subsection (a) for such service in an amount not to exceed the maximum monthly amount of special pay payable to a member as specified in paragraph (3).

“(3) The maximum monthly amount of special pay payable to a member under this subsection for any month is \$225.”;

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR A CORRECTION TO THE ENROLLMENT OF THE BILL H.R. 2845

Mr. SHUSTER. Madam Speaker, I send to the desk a concurrent resolution and ask unanimous consent for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 93

*Resolved by the House of Representatives (the Senate concurring), That, in the enrollment of the bill H.R. 2845, the Clerk of the House of Representatives shall make the following correction: Strike all after the enacting clause and insert the following:*

SECTION 1. SHORT TITLE; AMENDMENT OF TITLE 49, UNITED STATES CODE; DEFINITIONS; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011”.

(b) AMENDMENT OF TITLE 49, UNITED STATES CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 49, United States Code.

(c) DEFINITIONS.—

(1) APPLICABILITY OF CHAPTER 601 DEFINITIONS.—In this Act, any term defined in chapter 601 of title 49, United States Code,

has the meaning given that term in that chapter.

(2) **HIGH-CONSEQUENCE AREA.**—In this Act, the term “high-consequence area” means an area described in section 60109(a) of title 49, United States Code.

(d) **TABLE OF CONTENTS.**—The table of contents for this Act is as follows:

- Sec. 1. Short title; amendment of title 49, United States Code; definitions; table of contents.
- Sec. 2. Civil penalties.
- Sec. 3. Pipeline damage prevention.
- Sec. 4. Automatic and remote-controlled shut-off valves.
- Sec. 5. Integrity management.
- Sec. 6. Public education and awareness.
- Sec. 7. Cast iron gas pipelines.
- Sec. 8. Leak detection.
- Sec. 9. Accident and incident notification.
- Sec. 10. Transportation-related onshore facility response plan compliance.
- Sec. 11. Pipeline infrastructure data collection.
- Sec. 12. Transportation-related oil flow lines.
- Sec. 13. Cost recovery for design reviews.
- Sec. 14. Biofuel pipelines.
- Sec. 15. Carbon dioxide pipelines.
- Sec. 16. Study of transportation of diluted bitumen.
- Sec. 17. Study of nonpetroleum hazardous liquids transported by pipeline.
- Sec. 18. Clarifications.
- Sec. 19. Maintenance of effort.
- Sec. 20. Administrative enforcement processes.
- Sec. 21. Gas and hazardous liquid gathering lines.
- Sec. 22. Excess flow valves.
- Sec. 23. Maximum allowable operating pressure.
- Sec. 24. Limitation on incorporation of documents by reference.
- Sec. 25. Pipeline safety training for State and local government personnel.
- Sec. 26. Report on minority-owned, woman-owned, and disadvantaged businesses.
- Sec. 27. Report on pipeline projects.
- Sec. 28. Cover over buried pipelines.
- Sec. 29. Seismicity.
- Sec. 30. Tribal consultation for pipeline projects.
- Sec. 31. Pipeline inspection and enforcement needs.
- Sec. 32. Authorization of appropriations.

## SEC. 2. CIVIL PENALTIES.

(a) **GENERAL PENALTIES; PENALTY CONSIDERATIONS.**—Section 60122 is amended—

- (1) in subsection (a)(1)—
  - (A) in the first sentence by striking “\$100,000” and inserting “\$200,000”; and
  - (B) in the last sentence by striking “\$1,000,000” and inserting “\$2,000,000”; and
- (2) in subsection (b)(1)(B) by striking “the ability to pay.”.

(b) **OPERATOR ASSISTANCE IN INVESTIGATIONS.**—Section 60118(e) is amended to read as follows:

“(e) **OPERATOR ASSISTANCE IN INVESTIGATIONS.**—

“(1) **ASSISTANCE AND ACCESS.**—If the Secretary or the National Transportation Safety Board investigates an accident or incident involving a pipeline facility, the operator of the facility shall—

“(A) make available to the Secretary or the Board all records and information that in any way pertain to the accident or incident, including integrity management plans and test results; and

“(B) afford all reasonable assistance in the investigation of the accident or incident.

“(2) **OPERATOR ASSISTANCE IN INVESTIGATIONS.**—

“(A) **IN GENERAL.**—The Secretary may impose a civil penalty under section 60122 on a person who obstructs or prevents the Secretary from carrying out inspections or investigations under this chapter.

“(B) **OBSTRUCTS DEFINED.**—

“(i) **IN GENERAL.**—In this paragraph, the term ‘obstructs’ includes actions that were known, or reasonably should have been known, to prevent, hinder, or impede an investigation without good cause.

“(ii) **GOOD CAUSE.**—In clause (i), the term ‘good cause’ may include actions such as restricting access to facilities that are not secure or safe for nonpipeline personnel or visitors.”.

(c) **ADMINISTRATIVE PENALTY CAPS INAPPLICABLE.**—Section 60120(a)(1) is amended by adding at the end the following: “The maximum amount of civil penalties for administrative enforcement actions under section 60122 shall not apply to enforcement actions under this section.”.

(d) **JUDICIAL REVIEW OF ADMINISTRATIVE ENFORCEMENT ORDERS.**—Section 60119(a) is amended—

(1) in the subsection heading by striking “AND WAIVER ORDERS” and inserting “, ORDERS, AND OTHER FINAL AGENCY ACTIONS”; and

(2) by striking “about an application for a waiver under section 60118(c) or (d) of this title” and inserting “under this chapter”.

## SEC. 3. PIPELINE DAMAGE PREVENTION.

(a) **MINIMUM STANDARDS FOR STATE ONE-CALL NOTIFICATION PROGRAMS.**—Section 6103(a) is amended to read as follows:

“(a) **MINIMUM STANDARDS.**—

“(1) **IN GENERAL.**—In order to qualify for a grant under section 6106, a State one-call notification program, at a minimum, shall provide for—

“(A) appropriate participation by all underground facility operators, including all government operators;

“(B) appropriate participation by all excavators, including all government and contract excavators; and

“(C) flexible and effective enforcement under State law with respect to participation in, and use of, one-call notification systems.

“(2) **EXEMPTIONS PROHIBITED.**—In order to qualify for a grant under section 6106, a State one-call notification program may not exempt municipalities, State agencies, or their contractors from the one-call notification system requirements of the program.”.

(b) **STATE DAMAGE PREVENTION PROGRAMS.**—Section 60134(a) is amended—

(1) in paragraph (1) by striking “and” after the semicolon;

(2) in paragraph (2)(B) by striking “(b).” and inserting “(b); and”; and

(3) by adding at the end the following:

“(3) does not provide any exemptions to municipalities, State agencies, or their contractors from the one-call notification system requirements of the program.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect 2 years after the date of enactment of this Act.

(d) **EXCAVATION DAMAGE.**—

(1) **STUDY.**—The Secretary of Transportation shall conduct a study on the impact of excavation damage on pipeline safety.

(2) **CONTENTS.**—The study shall include—

(A) an analysis of the frequency and severity of different types of excavation damage incidents;

(B) an analysis of exemptions to the one-call notification system requirements in each State;

(C) a comparison of exemptions to the one-call notification system requirements in each State to the types of excavation damage incidents in that State; and

(D) an analysis of the potential safety benefits and adverse consequences of eliminating all exemptions for mechanized excavation from State one-call notification systems.

(3) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

## SEC. 4. AUTOMATIC AND REMOTE-CONTROLLED SHUT-OFF VALVES.

Section 60102 is amended—

(1) by striking subsection (j)(3); and

(2) by adding at the end the following:

“(n) **AUTOMATIC AND REMOTE-CONTROLLED SHUT-OFF VALVES FOR NEW TRANSMISSION PIPELINES.**—

“(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this subsection, and after considering the factors specified in subsection (b)(2), the Secretary, if appropriate, shall require by regulation the use of automatic or remote-controlled shut-off valves, or equivalent technology, where economically, technically, and operationally feasible on transmission pipeline facilities constructed or entirely replaced after the date on which the Secretary issues the final rule containing such requirement.

“(2) **HIGH-CONSEQUENCE AREA STUDY.**—

“(A) **STUDY.**—The Comptroller General of the United States shall conduct a study on the ability of transmission pipeline facility operators to respond to a hazardous liquid or gas release from a pipeline segment located in a high-consequence area.

“(B) **CONSIDERATIONS.**—In conducting the study, the Comptroller General shall consider the swiftness of leak detection and pipeline shutdown capabilities, the location of the nearest response personnel, and the costs, risks, and benefits of installing automatic and remote-controlled shut-off valves.

“(C) **REPORT.**—Not later than 1 year after the date of enactment of this subsection, the Comptroller General shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.”.

## SEC. 5. INTEGRITY MANAGEMENT.

(a) **EVALUATION.**—Not later than 18 months after the date of enactment of this Act, the Secretary of Transportation shall evaluate—

(1) whether integrity management system requirements, or elements thereof, should be expanded beyond high-consequence areas; and

(2) with respect to gas transmission pipeline facilities, whether applying integrity management program requirements, or elements thereof, to additional areas would mitigate the need for class location requirements.

(b) **FACTORS.**—In conducting the evaluation under subsection (a), the Secretary shall consider, at a minimum, the following:

(1) The continuing priority to enhance protections for public safety.

(2) The continuing importance of reducing risk in high-consequence areas.

(3) The incremental costs of applying integrity management standards to pipelines outside of high-consequence areas where operators are already conducting assessments beyond what is required under chapter 601 of title 49, United States Code.

(4) The need to undertake integrity management assessments and repairs in a manner that is achievable and sustainable, and that does not disrupt pipeline service.

(5) The options for phasing in the extension of integrity management requirements beyond high-consequence areas, including the most effective and efficient options for decreasing risks to an increasing number of people living or working in proximity to pipeline facilities.

(6) The appropriateness of applying repair criteria, such as pressure reductions and special requirements for scheduling remediation, to areas that are not high-consequence areas.

(c) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report, based on the evaluation conducted under subsection (a), containing the Secretary's analysis and findings regarding—

(1) expansion of integrity management requirements, or elements thereof, beyond high-consequence areas; and

(2) with respect to gas transmission pipeline facilities, whether applying the integrity management program requirements, or elements thereof, to additional areas would mitigate the need for class location requirements.

(d) **DATA REPORTING.**—The Secretary shall collect any relevant data necessary to complete the evaluation required by subsection (a).

(e) **TECHNICAL CORRECTION.**—Section 60109(c)(3)(B) is amended to read as follows:

“(B) Subject to paragraph (5), periodic reassessments of the facility, at a minimum of once every 7 calendar years, using methods described in subparagraph (A). The Secretary may extend such deadline for an additional 6 months if the operator submits written notice to the Secretary with sufficient justification of the need for the extension.”.

(f) **RULEMAKING REQUIREMENTS.**—

(1) **REVIEW PERIOD DEFINED.**—In this subsection, the term “review period” means the period beginning on the date of enactment of this Act and ending on the earlier of—

(A) the date that is 1 year after the date of completion of the report under subsection (c); or

(B) the date that is 3 years after the date of enactment of this Act.

(2) **CONGRESSIONAL AUTHORITY.**—In order to provide Congress the necessary time to review the results of the report required by subsection (c) and implement appropriate recommendations, the Secretary shall not, during the review period, issue final regulations described in paragraph (3)(B).

(3) **STANDARDS.**—

(A) **FINDINGS.**—As soon as practicable following the review period, the Secretary shall issue final regulations described in subparagraph (B), if the Secretary finds, in the report required under subsection (c), that—

(i) integrity management system requirements, or elements thereof, should be expanded beyond high-consequence areas; and

(ii) with respect to gas transmission pipeline facilities, applying integrity manage-

ment program requirements, or elements thereof, to additional areas would mitigate the need for class location requirements.

(B) **REGULATIONS.**—Regulations issued by the Secretary under subparagraph (A), if any, shall—

(i) expand integrity management system requirements, or elements thereof, beyond high-consequence areas; and

(ii) remove redundant class location requirements for gas transmission pipeline facilities that are regulated under an integrity management program adopted and implemented under section 60109(c)(2) of title 49, United States Code.

(4) **SAVINGS CLAUSE.**—

(A) **IN GENERAL.**—Notwithstanding any other provision of this subsection, the Secretary, during the review period, may issue final regulations described in paragraph (3)(B), if the Secretary determines that a condition that poses a risk to public safety, property, or the environment is present or an imminent hazard exists and that the regulations will address the risk or hazard.

(B) **IMMINENT HAZARD DEFINED.**—In subparagraph (A), the term “imminent hazard” means the existence of a condition related to pipelines or pipeline operations that presents a substantial likelihood that death, serious illness, severe personal injury, or substantial endangerment to health, property, or the environment may occur.

(g) **REPORT TO CONGRESS ON RISK-BASED PIPELINE REASSESSMENT INTERVALS.**—Not later than 2 years after the date of enactment of this Act, the Comptroller General of the United States shall evaluate—

(1) whether risk-based reassessment intervals are a more effective alternative for managing risks to pipelines in high-consequence areas once baseline assessments are complete when compared to the reassessment interval specified in section 60109(c)(3)(B) of title 49, United States Code;

(2) the number of anomalies found in baseline assessments required under section 60109(c)(3)(A) of title 49, United States Code, as compared to the number of anomalies found in reassessments required under section 60109(c)(3)(B) of such title; and

(3) the progress made in implementing the recommendations in GAO Report 06-945 and the current relevance of those recommendations that have not been implemented.

## SEC. 6. PUBLIC EDUCATION AND AWARENESS.

(a) **NATIONAL PIPELINE MAPPING SYSTEM.**—Section 60132 is amended by adding at the end the following:

“(d) **MAP OF HIGH-CONSEQUENCE AREAS.**—The Secretary shall—

“(1) maintain, as part of the National Pipeline Mapping System, a map of designated high-consequence areas (as described in section 60109(a)) in which pipelines are required to meet integrity management program regulations, excluding any proprietary or sensitive security information; and

“(2) update the map biennially.

“(e) **PROGRAM TO PROMOTE AWARENESS OF NATIONAL PIPELINE MAPPING SYSTEM.**—Not later than 1 year after the date of enactment of this subsection, the Secretary shall develop and implement a program promoting greater awareness of the existence of the National Pipeline Mapping System to State and local emergency responders and other interested parties. The program shall include guidance on how to use the National Pipeline Mapping System to locate pipelines in communities and local jurisdictions.”.

(b) **INFORMATION TO EMERGENCY RESPONSE AGENCIES.**—

(1) **GUIDANCE.**—Not later than 18 months after the date of enactment of this Act, the

Secretary shall issue guidance to owners and operators of pipeline facilities on the importance of providing system-specific information about their pipeline facilities to emergency response agencies of the communities and jurisdictions in which those facilities are located.

(2) **CONSULTATION.**—Before issuing guidance under paragraph (1), the Secretary shall consult with owners and operators of pipeline facilities to determine the extent to which the owners and operators are already providing system-specific information about their pipeline facilities to emergency response agencies.

(c) **RESPONSE PLANS.**—

(1) **IN GENERAL.**—Chapter 601 is amended by adding at the end the following:

## “§ 60138. Response plans

“(a) **IN GENERAL.**—The Secretary of Transportation shall—

“(1) maintain on file a copy of the most recent response plan (as defined in part 194 of title 49, Code of Federal Regulations) prepared by an owner or operator of a pipeline facility; and

“(2) provide upon written request to a person a copy of the plan, which may exclude, as the Secretary determines appropriate—

“(A) proprietary information;

“(B) security-sensitive information, including information described in section 1520.5(a) of title 49, Code of Federal Regulations;

“(C) specific response resources and tactical resource deployment plans; and

“(D) the specific amount and location of worst case discharges (as defined in part 194 of title 49, Code of Federal Regulations), including the process by which an owner or operator determines the worst case discharge.

“(b) **RELATIONSHIP TO FOIA.**—Nothing in this section may be construed to require disclosure of information or records that are exempt from disclosure under section 552 of title 5.”.

(2) **CLERICAL AMENDMENT.**—The analysis for chapter 601 is amended by inserting after the item relating to section 60137 the following: “60138. Response plans.”.

## SEC. 7. CAST IRON GAS PIPELINES.

(a) **FOLLOW-UP SURVEYS.**—Section 60108(d) is amended by adding at the end the following:

“(4) Not later than December 31, 2012, and every 2 years thereafter, the Secretary shall conduct a follow-up survey to measure the progress that owners and operators of pipeline facilities have made in adopting and implementing their plans for the safe management and replacement of cast iron gas pipelines.”.

(b) **STATUS REPORT.**—Not later than December 31, 2013, the Secretary of Transportation shall transmit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that—

(1) identifies the total mileage of cast iron gas pipelines in the United States; and

(2) evaluates the progress that owners and operators of pipeline facilities have made in implementing their plans for the safe management and replacement of cast iron gas pipelines.

## SEC. 8. LEAK DETECTION.

(a) **LEAK DETECTION REPORT.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Commerce, Science, and

Transportation of the Senate and the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives a report on leak detection systems utilized by operators of hazardous liquid pipeline facilities and transportation-related flow lines.

(2) **CONTENTS.**—The report shall include—

(A) an analysis of the technical limitations of current leak detection systems, including the ability of the systems to detect ruptures and small leaks that are ongoing or intermittent, and what can be done to foster development of better technologies; and

(B) an analysis of the practicability of establishing technically, operationally, and economically feasible standards for the capability of such systems to detect leaks, and the safety benefits and adverse consequences of requiring operators to use leak detection systems.

(b) **RULEMAKING REQUIREMENTS.**—

(1) **REVIEW PERIOD DEFINED.**—In this subsection, the term “review period” means the period beginning on the date of enactment of this Act and ending on the earlier of—

(A) the date that is 1 year after the date of completion of the report under subsection (a); or

(B) the date that is 2 years after the date of enactment of this Act.

(2) **CONGRESSIONAL AUTHORITY.**—In order to provide Congress the necessary time to review the results of the report required by subsection (a) and implement appropriate recommendations, the Secretary, during the review period, shall not issue final regulations described in paragraph (3).

(3) **STANDARDS.**—As soon as practicable following the review period, if the report required by subsection (a) finds that it is practicable to establish technically, operationally, and economically feasible standards for the capability of leak detection systems to detect leaks, the Secretary shall issue final regulations that—

(A) require operators of hazardous liquid pipeline facilities to use leak detection systems where practicable; and

(B) establish technically, operationally, and economically feasible standards for the capability of such systems to detect leaks.

(4) **SAVINGS CLAUSE.**—

(A) **IN GENERAL.**—Notwithstanding any other provision of this subsection, the Secretary, during the review period, may issue final regulations described in paragraph (3) if the Secretary determines that a condition that poses a risk to public safety, property, or the environment is present or an imminent hazard exists and that the regulations will address the risk or hazard.

(B) **IMMINENT HAZARD DEFINED.**—In subparagraph (A), the term “imminent hazard” means the existence of a condition related to pipelines or pipeline operations that presents a substantial likelihood that death, serious illness, severe personal injury, or substantial endangerment to health, property, or the environment may occur.

#### **SEC. 9. ACCIDENT AND INCIDENT NOTIFICATION.**

(a) **REVISION OF REGULATIONS.**—Not later than 18 months after the date of enactment of this Act, the Secretary of Transportation shall revise regulations issued under sections 191.5 and 195.52 of title 49, Code of Federal Regulations, to establish specific time limits for telephonic or electronic notice of accidents and incidents involving pipeline facilities to the Secretary and the National Response Center.

(b) **MINIMUM REQUIREMENTS.**—In revising the regulations, the Secretary, at a minimum, shall—

(1) establish time limits for telephonic or electronic notification of an accident or incident to require such notification at the earliest practicable moment following confirmed discovery of an accident or incident and not later than 1 hour following the time of such confirmed discovery;

(2) review procedures for owners and operators of pipeline facilities and the National Response Center to provide thorough and coordinated notification to all relevant State and local emergency response officials, including 911 emergency call centers, for the jurisdictions in which those pipeline facilities are located in the event of an accident or incident, and revise such procedures as appropriate; and

(3) require such owners and operators to revise their initial telephonic or electronic notice to the Secretary and the National Response Center with an estimate of the amount of the product released, an estimate of the number of fatalities and injuries, if any, and any other information determined appropriate by the Secretary within 48 hours of the accident or incident, to the extent practicable.

(c) **UPDATING OF REPORTS.**—After receiving revisions described in subsection (b)(3), the National Response Center shall update the initial report on an accident or incident instead of generating a new report.

#### **SEC. 10. TRANSPORTATION-RELATED ONSHORE FACILITY RESPONSE PLAN COMPLIANCE.**

(a) **IN GENERAL.**—Subparagraphs (A) and (B) of section 311(m)(2) of the Federal Water Pollution Control Act (33 U.S.C. 1321(m)(2)) are each amended by striking “Administrator or” and inserting “Administrator, the Secretary of Transportation, or”.

(b) **CONFORMING AMENDMENT.**—Section 311(b)(6)(A) of the Federal Water Pollution Control Act (33 U.S.C. 1321(b)(6)(A)) is amended by striking “operating or” and inserting “operating, the Secretary of Transportation, or”.

#### **SEC. 11. PIPELINE INFRASTRUCTURE DATA COLLECTION.**

(a) **IN GENERAL.**—Section 60132(a) is amended by adding at the end the following:

“(4) Any other geospatial or technical data, including design and material specifications, that the Secretary determines are necessary to carry out the purposes of this section. The Secretary shall give reasonable notice to operators that the data are being requested.”.

(b) **DISCLOSURE LIMITED TO FOIA REQUIREMENTS.**—Section 60132, as amended by this Act, is further amended by adding at the end the following:

“(f) **PUBLIC DISCLOSURE LIMITED.**—The Secretary may not disclose information collected pursuant to subsection (a) except to the extent permitted by section 552 of title 5.”.

#### **SEC. 12. TRANSPORTATION-RELATED OIL FLOW LINES.**

Section 60102, as amended by this Act, is further amended by adding at the end the following:

“(o) **TRANSPORTATION-RELATED OIL FLOW LINES.**—

“(1) **DATA COLLECTION.**—The Secretary may collect geospatial or technical data on transportation-related oil flow lines, including unregulated transportation-related oil flow lines.

“(2) **TRANSPORTATION-RELATED OIL FLOW LINE DEFINED.**—In this subsection, the term ‘transportation-related oil flow line’ means a pipeline transporting oil off of the grounds of the well where it originated and across areas

not owned by the producer, regardless of the extent to which the oil has been processed, if at all.

“(3) **LIMITATION.**—Nothing in this subsection authorizes the Secretary to prescribe standards for the movement of oil through production, refining, or manufacturing facilities or through oil production flow lines located on the grounds of wells.”.

#### **SEC. 13. COST RECOVERY FOR DESIGN REVIEWS.**

(a) **IN GENERAL.**—Section 60117(n) is amended to read as follows:

“(n) **COST RECOVERY FOR DESIGN REVIEWS.**—

“(1) **IN GENERAL.**—

“(A) **REVIEW COSTS.**—For any project described in subparagraph (B), if the Secretary conducts facility design safety reviews in connection with a proposal to construct, expand, or operate a gas or hazardous liquid pipeline facility or liquefied natural gas pipeline facility, including construction inspections and oversight, the Secretary may require the person proposing the project to pay the costs incurred by the Secretary relating to such reviews. If the Secretary exercises the cost recovery authority described in this paragraph, the Secretary shall prescribe a fee structure and assessment methodology that is based on the costs of providing these reviews and shall prescribe procedures to collect fees under this paragraph. The Secretary may not collect design safety review fees under this paragraph and section 60301 for the same design safety review.

“(B) **PROJECTS TO WHICH APPLICABLE.**—Subparagraph (A) applies to any project that—

“(i) has design and construction costs totaling at least \$2,500,000,000, as periodically adjusted by the Secretary to take into account increases in the Consumer Price Index for all-urban consumers published by the Department of Labor, based on—

“(I) the cost estimate provided to the Federal Energy Regulatory Commission in an application for a certificate of public convenience and necessity for a gas pipeline facility or an application for authorization for a liquefied natural gas pipeline facility; or

“(II) a good faith estimate developed by the person proposing a hazardous liquid pipeline facility and submitted to the Secretary; or

“(ii) uses new or novel technologies or design, as determined by the Secretary.

“(2) **NOTIFICATION.**—For any new pipeline facility construction project in which the Secretary will conduct design reviews, the person proposing the project shall notify the Secretary and provide the design specifications, construction plans and procedures, and related materials at least 120 days prior to the commencement of construction. To the maximum extent practicable, not later than 90 days after receiving such design specifications, construction plans and procedures, and related materials, the Secretary shall provide written comments, feedback, and guidance on the project.

“(3) **PIPELINE SAFETY DESIGN REVIEW FUND.**—

“(A) **ESTABLISHMENT.**—There is established a Pipeline Safety Design Review Fund in the Treasury of the United States.

“(B) **DEPOSITS.**—The Secretary shall deposit funds paid under this subsection into the Fund.

“(C) **USE.**—Amounts in the Fund shall be available to the Secretary, in amounts specified in appropriations Acts, to offset the costs of conducting facility design safety reviews under this subsection.

“(4) NO ADDITIONAL PERMITTING AUTHORITY.—Nothing in this subsection may be construed as authorizing the Secretary to require a person to obtain a permit before beginning design and construction in connection with a project described in paragraph (1)(B).”.

(b) GUIDANCE.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall issue guidance to clarify the meaning of the term “new or novel technologies or design” as used in section 60117(n)(1)(B)(ii) of title 49, United States Code, as amended by subsection (a) of this section.

#### SEC. 14. BIOFUEL PIPELINES.

Section 60101(a)(4) is amended—

(1) in subparagraph (A) by striking “and” after the semicolon;

(2) by redesignating subparagraph (B) as subparagraph (C); and

(3) by inserting after subparagraph (A) the following:

“(B) nonpetroleum fuel, including biofuel, that is flammable, toxic, or corrosive or would be harmful to the environment if released in significant quantities; and”.

#### SEC. 15. CARBON DIOXIDE PIPELINES.

Section 60102(i) is amended—

(1) by striking “The Secretary shall regulate” and inserting the following:

“(1) TRANSPORTATION IN LIQUID STATE.—The Secretary shall regulate”.

(2) by adding at the end the following new paragraph:

“(2) TRANSPORTATION IN GASEOUS STATE.—

“(A) MINIMUM SAFETY STANDARDS.—The Secretary shall prescribe minimum safety standards for the transportation of carbon dioxide by pipeline in a gaseous state.

“(B) CONSIDERATIONS.—In establishing the standards, the Secretary shall consider whether applying the minimum safety standards in part 195 of title 49, Code of Federal Regulations, as in effect on the date of enactment of this paragraph, for the transportation of carbon dioxide in a liquid state to the transportation of carbon dioxide in a gaseous state would ensure safety.

“(3) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this subsection authorizes the Secretary to regulate piping or equipment used in the production, extraction, recovery, lifting, stabilization, separation, or treatment of carbon dioxide or the preparation of carbon dioxide for transportation by pipeline at production, refining, or manufacturing facilities.”.

#### SEC. 16. STUDY OF TRANSPORTATION OF DILUTED BITUMEN.

Not later than 18 months after the date of enactment of this Act, the Secretary of Transportation shall complete a comprehensive review of hazardous liquid pipeline facility regulations to determine whether the regulations are sufficient to regulate pipeline facilities used for the transportation of diluted bitumen. In conducting the review, the Secretary shall conduct an analysis of whether any increase in the risk of a release exists for pipeline facilities transporting diluted bitumen. The Secretary shall report the results of the review to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives.

#### SEC. 17. STUDY OF NONPETROLEUM HAZARDOUS LIQUIDS TRANSPORTED BY PIPELINE.

The Secretary of Transportation may conduct an analysis of the transportation of nonpetroleum hazardous liquids by pipeline

facility for the purpose of identifying the extent to which pipeline facilities are currently being used to transport nonpetroleum hazardous liquids, such as chlorine, from chemical production facilities across land areas not owned by the producer that are accessible to the public. The analysis should identify the extent to which the safety of the pipeline facilities is unregulated by the States and evaluate whether the transportation of such chemicals by pipeline facility across areas accessible to the public would present significant risks to public safety, property, or the environment in the absence of regulation. The results of the analysis shall be made available to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives.

#### SEC. 18. CLARIFICATIONS.

(a) INSPECTION AND MAINTENANCE.—Section 60108(a)(1) is amended by striking “an intrastate” and inserting “a”.

(b) OWNER AND OPERATOR.—Section 60102(a)(2)(A) is amended by striking “owners and operators” and inserting “any or all of the owners or operators”.

#### SEC. 19. MAINTENANCE OF EFFORT.

Section 60107(b) is amended by adding at the end the following: “For each of fiscal years 2012 and 2013, the Secretary shall grant such a waiver to a State if the State can demonstrate an inability to maintain or increase the required funding share of its safety program at or above the level required by this subsection due to economic hardship in that State. For fiscal year 2014, and each fiscal year thereafter, the Secretary may grant such a waiver to a State if the State can make the demonstration described in the preceding sentence.”.

#### SEC. 20. ADMINISTRATIVE ENFORCEMENT PROCEEDINGS.

(a) ISSUANCE OF REGULATIONS.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation shall issue regulations—

(A) requiring hearings under sections 60112, 60117, 60118, and 60122 of title 49, United States Code, to be convened before a presiding official;

(B) providing the opportunity for any person requesting a hearing under section 60112, 60117, 60118, or 60122 of such title to arrange for a transcript of the hearing, at the expense of the requesting person;

(C) ensuring expedited review of any order issued pursuant to section 60112(e) of such title;

(D) implementing a separation of functions between personnel involved with the investigation and prosecution of an enforcement case and advising the Secretary on findings and determinations; and

(E) prohibiting ex-parte communication relevant to the question to be decided in such a case by parties to an investigation or hearing.

(2) PRESIDING OFFICIAL.—The regulations issued under this subsection shall—

(A) define the term “presiding official” to mean the person who conducts any hearing relating to civil penalty assessments, compliance orders, safety orders, or corrective action orders; and

(B) require that the presiding official be an attorney on the staff of the Deputy Chief Counsel of the Pipeline and Hazardous Materials Safety Administration that is not engaged in investigative or prosecutorial functions, including the preparation of notices of

probable violations, notices relating to civil penalty assessments, notices relating to compliance, or notices of proposed corrective actions.

(3) EXPEDITED REVIEW.—The regulations issued under this subsection shall define the term “expedited review” for the purposes of paragraph (1)(C).

(b) STANDARDS OF JUDICIAL REVIEW.—Section 60119(a) is amended by adding at the end the following new paragraph:

“(3) A judicial review of agency action under this section shall apply the standards of review established in section 706 of title 5.”.

#### SEC. 21. GAS AND HAZARDOUS LIQUID GATHERING LINES.

(a) REVIEW.—The Secretary of Transportation shall conduct a review of existing Federal and State regulations for gas and hazardous liquid gathering lines located onshore and offshore in the United States, including within the inlets of the Gulf of Mexico.

(b) REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the review.

(2) RECOMMENDATIONS.—The report shall include the Secretary’s recommendations with respect to—

(A) the sufficiency of existing Federal and State laws and regulations to ensure the safety of gas and hazardous liquid gathering lines;

(B) the economic impacts, technical practicability, and challenges of applying existing Federal regulations to gathering lines that are not currently subject to Federal regulation when compared to the public safety benefits; and

(C) subject to a risk-based assessment, the need to modify or revoke existing exemptions from Federal regulation for gas and hazardous liquid gathering lines.

(c) OFFSHORE GATHERING LINES.—Section 60108(c) is amended by adding at the end the following:

“(8) If, after reviewing existing Federal and State regulations for hazardous liquid gathering lines located offshore in the United States, including within the inlets of the Gulf of Mexico, the Secretary determines it is appropriate, the Secretary shall issue regulations, after notice and an opportunity for a hearing, subjecting offshore hazardous liquid gathering lines and hazardous liquid gathering lines located within the inlets of the Gulf of Mexico to the same standards and regulations as other hazardous liquid gathering lines. The regulations issued under this paragraph shall not apply to production pipelines or flow lines.”.

#### SEC. 22. EXCESS FLOW VALVES.

Section 60109(e)(3) is amended—

(1) by redesignating subparagraph (B) as subparagraph (C); and

(2) by inserting after subparagraph (A) the following:

“(B) DISTRIBUTION BRANCH SERVICES, MULTIFAMILY FACILITIES, AND SMALL COMMERCIAL FACILITIES.—Not later than 2 years after the date of enactment of the Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011, and after issuing a final report on the evaluation of the National Transportation Safety Board’s recommendation on excess flow valves in applications other than service lines serving one single family residence,

the Secretary, if appropriate, shall by regulation require the use of excess flow valves, or equivalent technology, where economically, technically, and operationally feasible on new or entirely replaced distribution branch services, multifamily facilities, and small commercial facilities.”.

**SEC. 23. MAXIMUM ALLOWABLE OPERATING PRESSURE.**

(a) IN GENERAL.—Chapter 601, as amended by this Act, is further amended by adding at the end the following:

**“§ 60139. Maximum allowable operating pressure**

“(a) VERIFICATION OF RECORDS.—

“(1) IN GENERAL.—The Secretary of Transportation shall require each owner or operator of a pipeline facility to conduct, not later than 6 months after the date of enactment of this section, a verification of the records of the owner or operator relating to the interstate and intrastate gas transmission pipelines of the owner or operator in class 3 and class 4 locations and class 1 and class 2 high-consequence areas.

“(2) PURPOSE.—The purpose of the verification shall be to ensure that the records accurately reflect the physical and operational characteristics of the pipelines described in paragraph (1) and confirm the established maximum allowable operating pressure of the pipelines.

“(3) ELEMENTS.—The verification process under this subsection shall include such elements as the Secretary considers appropriate.

“(b) REPORTING.—

“(1) DOCUMENTATION OF CERTAIN PIPELINES.—Not later than 18 months after the date of enactment of this section, each owner or operator of a pipeline facility shall identify and submit to the Secretary documentation relating to each pipeline segment of the owner or operator described in subsection (a)(1) for which the records of the owner or operator are insufficient to confirm the established maximum allowable operating pressure of the segment.

“(2) EXCEEDANCES OF MAXIMUM ALLOWABLE OPERATING PRESSURE.—If there is an exceedance of the maximum allowable operating pressure with respect to a gas transmission pipeline of an owner or operator of a pipeline facility that exceeds the build-up allowed for operation of pressure-limiting or control devices, the owner or operator shall report the exceedance to the Secretary and appropriate State authorities on or before the 5th day following the date on which the exceedance occurs.

“(c) DETERMINATION OF MAXIMUM ALLOWABLE OPERATING PRESSURE.—

“(1) IN GENERAL.—In the case of a transmission line of an owner or operator of a pipeline facility identified under subsection (b)(1), the Secretary shall—

“(A) require the owner or operator to reconfirm a maximum allowable operating pressure as expeditiously as economically feasible; and

“(B) determine what actions are appropriate for the pipeline owner or operator to take to maintain safety until a maximum allowable operating pressure is confirmed.

“(2) INTERIM ACTIONS.—In determining the actions for an owner or operator of a pipeline facility to take under paragraph (1)(B), the Secretary shall take into account potential consequences to public safety and the environment, potential impacts on pipeline system reliability and deliverability, and other factors, as appropriate.

“(d) TESTING REGULATIONS.—

“(1) IN GENERAL.—Not later than 18 months after the date of enactment of this section,

the Secretary shall issue regulations for conducting tests to confirm the material strength of previously untested natural gas transmission pipelines located in high-consequence areas and operating at a pressure greater than 30 percent of specified minimum yield strength.

“(2) CONSIDERATIONS.—In developing the regulations, the Secretary shall consider safety testing methodologies, including, at a minimum—

“(A) pressure testing; and

“(B) other alternative methods, including in-line inspections, determined by the Secretary to be of equal or greater effectiveness.

“(3) COMPLETION OF TESTING.—The Secretary, in consultation with the Chairman of the Federal Energy Regulatory Commission and State regulators, as appropriate, shall establish timeframes for the completion of such testing that take into account potential consequences to public safety and the environment and that minimize costs and service disruptions.

“(e) HIGH-CONSEQUENCE AREA DEFINED.—In this section, the term ‘high-consequence area’ means an area described in section 60109(a).”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 601 is amended by inserting after the item relating to section 60138 the following:

“60139. Maximum allowable operating pressure.”.

**SEC. 24. LIMITATION ON INCORPORATION OF DOCUMENTS BY REFERENCE.**

Section 60102, as amended by this Act, is further amended by adding at the end the following:

“(p) LIMITATION ON INCORPORATION OF DOCUMENTS BY REFERENCE.—Beginning 1 year after the date of enactment of this subsection, the Secretary may not issue guidance or a regulation pursuant to this chapter that incorporates by reference any documents or portions thereof unless the documents or portions thereof are made available to the public, free of charge, on an Internet Web site.”.

**SEC. 25. PIPELINE SAFETY TRAINING FOR STATE AND LOCAL GOVERNMENT PERSONNEL.**

(a) IN GENERAL.—To further the objectives of chapter 601 of title 49, United States Code, the Secretary of Transportation may provide the services of personnel from the Pipeline and Hazardous Materials Safety Administration to provide training for State and local government personnel at a pipeline safety training facility that is established and operated by an agency or instrumentality of the United States, a unit of State or local government, or an educational institution.

(b) REIMBURSEMENTS FOR TRAINING EXPENDITURES.—

(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary may require reimbursement from sources other than the Federal Government for all expenses incurred by the Secretary in providing training for State and local government personnel under subsection (a), including salaries, expenses, transportation for Pipeline and Hazardous Materials Safety Administration personnel, and the cost of training materials.

(2) AUTHORIZATION OF APPROPRIATIONS.—Amounts collected as reimbursement under paragraph (1) are authorized to be appropriated for the purposes set forth in chapter 601 of title 49, United States Code.

**SEC. 26. REPORT ON MINORITY-OWNED, WOMAN-OWNED, AND DISADVANTAGED BUSINESSES.**

Not later than 1 year after the date of enactment of this Act, the Comptroller General

of the United States, based upon available information, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives a comprehensive report assessing the levels and types of participation and methods of facilitating the participation of minority-owned business enterprises, woman-owned business enterprises, and disadvantaged business enterprises in the construction and operation of pipeline facilities in the United States.

**SEC. 27. REPORT ON PIPELINE PROJECTS.**

(a) STUDY.—The Comptroller General of the United States shall conduct a comprehensive study regarding the process for obtaining Federal and State permits for projects to construct pipeline facilities.

(b) EVALUATION.—In conducting the study, the Comptroller General shall evaluate how long it takes to issue permits for pipeline construction projects, the relationship between the States and the Federal Government in issuing such permits, and any recommendations from the States for improving the permitting process.

(c) CONSULTATION.—In conducting the study, the Comptroller General shall consult with the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(d) REPORT.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

**SEC. 28. COVER OVER BURIED PIPELINES.**

(a) IN GENERAL.—Chapter 601, as amended by this Act, is further amended by adding at the end the following:

**“§ 60140. Cover over buried pipelines**

“(a) HAZARDOUS LIQUID PIPELINE INCIDENTS INVOLVING BURIED PIPELINES.—

“(1) STUDY.—The Secretary of Transportation shall conduct a study of hazardous liquid pipeline incidents at crossings of inland bodies of water with a width of at least 100 feet from high water mark to high water mark to determine if the depth of cover over the buried pipeline was a factor in any accidental release of hazardous liquids.

“(2) REPORT.—Not later than 1 year after the date of enactment of this section, the Secretary shall transmit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

“(b) ASSESSMENT OF CURRENT REQUIREMENTS FOR DEPTH OF COVER OVER BURIED PIPELINES.—

“(1) IN GENERAL.—If, following completion of the study under subsection (a), the Secretary finds that the depth of cover over buried pipelines is a contributing factor in the accidental release of hazardous liquids from the pipelines, the Secretary, not later than 1 year after the date of completion of the study, shall review and determine the sufficiency of current requirements for the depth of cover over buried pipelines.

“(2) LEGISLATIVE RECOMMENDATIONS.—

“(A) DEVELOPMENT.—If the Secretary determines under paragraph (1) that the current requirements for the depth of cover over

buried pipelines are insufficient, the Secretary shall develop legislative recommendations for improving the safety of buried pipelines at crossings of inland bodies of water with a width of at least 100 feet from high water mark to high water mark.

“(B) CONSIDERATION OF FACTORS.—In developing legislative recommendations under subparagraph (A), the Secretary shall consider the factors specified in section 60102(b)(2).

“(C) REPORT TO CONGRESS.—If the Secretary develops legislative recommendations under subparagraph (A), the Secretary shall submit to the committees referred to in subsection (a)(2) a report containing the legislative recommendations.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 601 is amended by inserting after the item relating to section 60139 the following:

“60140. Cover over buried pipelines.”.

#### SEC. 29. SEISMICITY.

In identifying and evaluating all potential threats to each pipeline segment pursuant to parts 192 and 195 of title 49, Code of Federal Regulations, an operator of a pipeline facility shall consider the seismicity of the area.

#### SEC. 30. TRIBAL CONSULTATION FOR PIPELINE PROJECTS.

Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall develop and implement a protocol for consulting with Indian tribes to provide technical assistance for the regulation of pipelines that are under the jurisdiction of Indian tribes.

#### SEC. 31. PIPELINE INSPECTION AND ENFORCEMENT NEEDS.

(a) INSPECTION AND ENFORCEMENT NEEDS.—Not later than 12 months after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that provides information on—

(1) the total number of full-time equivalent positions for pipeline inspection and enforcement personnel at the Pipeline and Hazardous Materials Safety Administration;

(2) out of the total number of such positions, how many of the positions are not filled and the reasons why the positions are not filled;

(3) the actions the Administrator of the Pipeline and Hazardous Materials Safety Administration is taking to fill the positions; and

(4) any additional inspection and enforcement resource needs of the Pipeline and Hazardous Materials Safety Administration.

(b) STAFFING.—Subject to the availability of funds, the Secretary may increase the number of positions for pipeline inspection and enforcement personnel at the Pipeline and Hazardous Materials Safety Administration by 10 full-time equivalent employees, if—

(1) on or before September 30, 2014, the Secretary fills the 135 full-time equivalent positions for pipeline inspection and enforcement personnel specified in section 18(e) of the Pipeline Inspection, Protection, Enforcement, and Safety Act of 2006 (120 Stat. 3498); and

(2) in preparing the report under subsection (a), the Secretary finds that additional pipeline inspection and enforcement personnel are necessary.

#### SEC. 32. AUTHORIZATION OF APPROPRIATIONS.

(a) GAS AND HAZARDOUS LIQUID.—Section 60125(a) is amended to read as follows:

“(a) GAS AND HAZARDOUS LIQUID.—

“(1) IN GENERAL.—To carry out the provisions of this chapter related to gas and hazardous liquid and section 12 of the Pipeline Safety Improvement Act of 2002 (49 U.S.C. 60101 note; Public Law 107-355), there is authorized to be appropriated to the Department of Transportation for each of fiscal years 2012 through 2015, from fees collected under section 60301, \$90,679,000, of which \$4,746,000 is for carrying out such section 12 and \$36,194,000 is for making grants.

“(2) TRUST FUND AMOUNTS.—In addition to the amounts authorized to be appropriated by paragraph (1), there is authorized to be appropriated for each of fiscal years 2012 through 2015 from the Oil Spill Liability Trust Fund to carry out the provisions of this chapter related to hazardous liquid and section 12 of the Pipeline Safety Improvement Act of 2002 (49 U.S.C. 60101 note; Public Law 107-355), \$18,573,000, of which \$2,174,000 is for carrying out such section 12 and \$4,558,000 is for making grants.”.

(b) EMERGENCY RESPONSE GRANTS.—Section 60125(b)(2) is amended by striking “2007 through 2010” and inserting “2012 through 2015”.

(c) ONE-CALL NOTIFICATION PROGRAMS.—Section 6107 is amended—

(1) in subsection (a) by striking “2007 through 2010.” and inserting “2012 through 2015.”;

(2) in subsection (b) by striking “2007 through 2010.” and inserting “2012 through 2015.”; and

(3) by striking subsection (c).

(d) STATE DAMAGE PREVENTION PROGRAMS.—Section 60134 is amended by adding at the end the following:

“(i) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary to provide grants under this section \$1,500,000 for each of fiscal years 2012 through 2015. Such funds shall remain available until expended.”.

(e) COMMUNITY PIPELINE SAFETY INFORMATION GRANTS.—Section 60130 is amended—

(1) in subsection (a)(1) by striking “\$50,000” and inserting “\$100,000”;

(2) in subsection (b)—

(A) by inserting “to grant recipients and their contractors” after “this section”; and

(B) by inserting “, for direct advocacy for or against a pipeline construction or expansion project,” after “for lobbying”; and

(3) in subsection (d) by striking “\$1,000,000 for each of the fiscal years 2003 through 2010” and inserting “\$1,500,000 for each of fiscal years 2012 through 2015”.

(f) PIPELINE TRANSPORTATION RESEARCH AND DEVELOPMENT.—Section 12 of the Pipeline Safety Improvement Act of 2002 (49 U.S.C. 60101 note) is amended—

(1) in subsection (d) by adding at the end the following:

“(3) ONGOING PIPELINE TRANSPORTATION RESEARCH AND DEVELOPMENT.—

“(A) IN GENERAL.—After the initial 5-year program plan has been carried out by the participating agencies, the Secretary of Transportation, in coordination with the Director of the National Institute of Standards and Technology, as appropriate, shall prepare a research and development program plan every 5 years thereafter and shall transmit a report to Congress on the status and results-to-date of implementation of the program every 2 years. The biennial report shall include a summary of updated research needs and priorities identified through the consultation requirements of paragraph (2).

“(B) CONSULTATION.—The Secretary shall comply with the consultation requirements

of paragraph (2) when preparing the program plan and in the selection and prioritization of research and development projects.

“(C) FUNDING FROM NON-FEDERAL SOURCES.—The Secretary shall ensure at least 30 percent of the costs of program-wide research and development activities are carried out using non-Federal sources.”.

(2) in subsection (f) by striking “2003 through 2006.” and inserting “2012 through 2015.”.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1900

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. AUSTIN SCOTT of Georgia). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

#### MANILAQ ASSOCIATION PROPERTY CONVEYANCE

Mr. HASTINGS of Washington. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 443) to provide for the conveyance of certain property from the United States to the Maniilaq Association located in Kotzebue, Alaska, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 443

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. CONVEYANCE OF PROPERTY.

(a) IN GENERAL.—As soon as practicable after the date of the enactment of this Act, but not later than 180 days after such date, the Secretary of Health and Human Services (in this Act referred to as the “Secretary”) shall convey to the Maniilaq Association located in Kotzebue, Alaska, all right, title, and interest of the United States in and to the property described in section 2 for use in connection with health and social services programs. The Secretary’s conveyance of title by warranty deed under this section shall, on its effective date, supersede and render of no future effect on any Quitclaim Deed the properties described in section 2 executed by the Secretary and the Maniilaq Association.

(b) CONDITIONS.—The conveyance required by this section shall be made by warranty deed without consideration and without imposing any obligation, term, or condition on the Maniilaq Association, or reversionary interest of the United States, other than that required by this Act or section 512(c)(2)(B) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 458aaa-11(c)(2)(B)).

#### SEC. 2. PROPERTY DESCRIBED.

The property, including all land and appurtenances, to be conveyed pursuant to section 1 is as follows:

(1) KOTZEBUE HOSPITAL AND LAND.—Re-Plat of Friends Mission Reserve, Subdivision No. 2,

U.S. Survey 2082, Lot 1, Block 12, Kotzebue, Alaska, containing 8.10 acres recorded in the Kotzebue Recording District, Kotzebue, Alaska, on August 18, 2009.

(2) KOTZEBUE QUARTERS AKA KIC SITE.—*Replat of Friends Mission Reserve, U.S. Survey 2082, Lot 1A, Block 13, Kotzebue, Alaska, containing 5.229 acres recorded in the Kotzebue Recording District, Kotzebue, Alaska, on December 23, 1991.*

(3) KOTZEBUE QUARTERS AKA NANA SITE.—*Lot 1B, Block 26, Tract A, Townsite of Kotzebue, U.S. Survey No. 2863 A, Kotzebue, Alaska, containing 1.29 acres recorded in the Kotzebue Recording District, Kotzebue, Alaska, on December 23, 1991.*

### SEC. 3. ENVIRONMENTAL LIABILITY.

(a) IN GENERAL.—*Notwithstanding any other provision of Federal law, the Maniilaq Association shall not be liable for any soil, surface water, groundwater, or other contamination resulting from the disposal, release, or presence of any environmental contamination, including any oil or petroleum products, or any hazardous substances, hazardous materials, hazardous waste, pollutants, toxic substances, solid waste, or any other environmental contamination or hazard as defined in any Federal law, on any property described in section 2 as of the date of the conveyance.*

(b) EASEMENT.—*The Secretary shall be accorded any easement or access to the property conveyed as may be reasonably necessary to satisfy any retained obligations and liability of the Secretary.*

(c) NOTICE OF HAZARDOUS SUBSTANCE ACTIVITY AND WARRANTY.—*The Secretary shall comply with section 120(h)(3)(A) and (B) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620(h)(3)(A)).*

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Washington (Mr. HASTINGS) and the gentleman from the Northern Mariana Islands (Mr. SABLAN) each will control 20 minutes.

The Chair recognizes the gentleman from Washington.

#### GENERAL LEAVE

Mr. HASTINGS of Washington. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

H.R. 443 is sponsored by our colleague from Alaska (Mr. YOUNG). The legislation directs the Indian Health Service to transfer three parcels of Federal land in Alaska to the Maniilaq Association. The association is a nonprofit entity that runs Federal Indian health services for Native people in northwest Alaska. The parcels of land subject to this legislation, which total about 15 acres, are currently the site of the existing Native health facility and of proposed long-term care facilities and employee housing.

The subject lands have already been conveyed by the Secretary to the asso-

ciation through a quit claim deed. The Federal Indian health laws, however, under these laws, transferring a land through the use of a quit claim deed could present some obstacles for the future use of the land by the association. H.R. 443 addresses this problem by directing the Secretary to convey the property through the use of a warranty deed. This method provides clean title to the land. The administration testified in support of the land transfer, and we have heard no other objection to this bill.

The bill was referred to the Committee on Energy and Commerce. The chairman of that committee, Mr. UPTON, has kindly forgone action on the bill in the interest of expediting its consideration on the House floor. I thank him for his cooperation and at this point would like to include in the RECORD an exchange of letters between our committees regarding this bill.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON ENERGY AND COMMERCE,

Washington, DC, December 7, 2011.

Hon. DOC HASTINGS,  
Chairman, Committee on Natural Resources,  
Washington, DC.

DEAR CHAIRMAN HASTINGS: I am writing concerning H.R. 443, to provide for the conveyance of certain property from the United States to the Maniilaq Association located in Kotzebue, Alaska, which was ordered reported out of your Committee on October 5, 2011. I wanted to notify you that the Committee on Energy and Commerce will forgo action on H.R. 443 so that it may proceed expeditiously to the House floor for consideration.

This is being done with the understanding that the Committee on Energy and Commerce is not waiving any of its jurisdiction, and the Committee will not in any way be prejudiced with respect to the appointment of conferees or its jurisdictional prerogatives on this or similar legislation.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 443, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during consideration of the bill on the House floor.

Sincerely,

FRED UPTON,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON NATURAL RESOURCES,  
Washington, DC, December 7, 2011.

Hon. FRED UPTON,  
Chairman, Committee on Energy and Commerce,  
Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 443, to provide for the conveyance of certain property from the United States to the Maniilaq Association located in Kotzebue, Alaska. As you know, the Committee on Natural Resources ordered the bill reported by unanimous consent on October 5, 2011. The Committee on Natural Resources is interested in bringing this legislation before the House of Representatives, and accordingly, appreciates that the Committee on Energy and Commerce will forego action on the bill.

The Committee on Natural Resources concurs that by foregoing consideration of H.R.

443 at this time, the Committee on Energy and Commerce does not waive any jurisdiction over the subject matter contained in this or similar legislation. In addition, should a conference on the bill be necessary, I would support your request to have the Committee on Energy and Commerce represented on the conference committee. Finally, I would be pleased to include your letter and this response in the bill report filed by the Committee on Natural Resources, as well as the Congressional Record during floor consideration, to memorialize our understanding.

Thank you for your cooperation.

Sincerely,

DOC HASTINGS,  
Chairman.

With that, Mr. Speaker, I urge the House to pass the bill, and I reserve the balance of my time.

Mr. SABLAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 443.

This bill would provide the Maniilaq Association with clear title to land previously conveyed to it by the United States. Elimination of this restriction would enable the association to obtain loans for improvements to the property without Federal involvement.

I urge my colleagues to support the passage of this legislation, and I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I am very pleased to yield such time as he may consume to the author of this legislation, the gentleman from Alaska (Mr. YOUNG).

Mr. YOUNG of Alaska. I thank the gentleman for yielding, and I want to thank Chairman HASTINGS and the ranking member for their cooperation in moving this bill.

As you said in your explanation, this is a noncontroversial bill. It solves the problem for the health providers of that area in Kotzebue.

I urge the House to pass the bill.

Mr. SABLAN. Mr. Speaker, I yield back the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I urge support of the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Washington (Mr. HASTINGS) that the House suspend the rules and pass the bill, H.R. 443, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HASTINGS of Washington. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

# RATTLESNAKE MOUNTAIN PUBLIC ACCESS ACT OF 2011

Mr. HASTINGS of Washington. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2719) to ensure public access to the summit of Rattlesnake Mountain in the Hanford Reach National Monument for educational, recreational, historical, scientific, cultural, and other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2719

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

## SECTION 1. SHORT TITLE.

*This Act may be cited as the “Rattlesnake Mountain Public Access Act of 2011”.*

## SEC. 2. FINDINGS.

*Congress finds the following:*

(1) *The Hanford Reach National Monument is public land that belongs to the American people.*

(2) *The United States Fish and Wildlife Service’s Comprehensive Conservation Plan (CCP) for the Monument restricts public access to large portions of the Monument, including the summit of Rattlesnake Mountain.*

(3) *Public access to Rattlesnake Mountain is important for educational, recreational, historical, scientific, and cultural purposes.*

(4) *Rattlesnake Mountain reaches an elevation of 3,660 feet above sea level—the highest elevation of the Monument, and provides unparalleled scenic views over the Monument, the Hanford Site, and the Columbia River.*

(5) *Public access to Rattlesnake Mountain will increase tourism interest in the Monument and will provide economic benefits to local governments.*

## SEC. 3. ENSURING PUBLIC ACCESS TO THE SUMMIT OF RATTLESNAKE MOUNTAIN IN THE HANFORD REACH NATIONAL MONUMENT.

(a) *IN GENERAL.—The Secretary of the Interior shall provide public access to the summit of Rattlesnake Mountain in the Hanford Reach National Monument for educational, recreational, historical, scientific, cultural, and other purposes, including—*

*(1) motor vehicle access; and*

*(2) pedestrian and other nonmotorized access.*

(b) *COOPERATIVE AGREEMENTS.—The Secretary of the Interior may enter into cooperative agreements to facilitate access to the summit of Rattlesnake Mountain—*

*(1) with the Secretary of Energy, the State of Washington, or any local government agency or other interested persons, for guided tours, including guided motorized tours to the summit of Rattlesnake Mountain; and*

*(2) with the Secretary of Energy, and with the State of Washington or any local government agency or other interested persons, to maintain the access road to the summit of Rattlesnake Mountain.*

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Washington (Mr. HASTINGS) and the gentleman from the Northern Mariana Islands (Mr. SABLON) each will control 20 minutes.

The Chair recognizes the gentleman from Washington.

### GENERAL LEAVE

Mr. HASTINGS of Washington. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2719 directs the Department of the Interior to ensure public access to the summit of Rattlesnake Mountain, located within the Hanford Reach National Monument in my district.

At 3,600 feet, Rattlesnake Mountain is the highest point in the region and provides unparalleled views for miles around the monument, the Hanford Site, the Columbia River, the Yakima River and the Snake River. Unfortunately, it took the Fish and Wildlife Service 8 years to write a management plan that effectively closed Rattlesnake Mountain to public access, despite the public comments favoring just the opposite.

After I introduced this bill last Congress, the Fish and Wildlife Service, in October of 2010, offered two public tours for selected individuals, and then suddenly reneged on the offer just days before the tours were to occur without any explanation. During a recent committee hearing on the bill, the Interior Department’s testimony suggested that the Fish and Wildlife Service supports tours of Rattlesnake Mountain, but very carefully didn’t go the extra step of ensuring that the Service would allow public access to the actual summit. Access to the mountain and access to the summit are two entirely different matters.

To put it bluntly, Mr. Speaker, the Service has had more than 10 years, and they say it will take several more before they can determine if it will allow the American people to have access to this portion of the monument. That is why this bill is so necessary to guarantee public access by law and to do so in a very timely manner.

Mr. Speaker, I might add the tallest mountain in Washington State is Mount Rainier at 14,410 feet. People have access up to that under certain conditions. This is a mountain that has no trees; it’s 3,600 feet. There’s no reason why people shouldn’t have access.

And to that extent, the legislation is supported by the Tri-Cities Development Council, the Board of Benton County Commissioners in which Rattlesnake Mountain is located, the Tri-Cities Regional Chamber of Commerce, the Tri-Cities Visitor and Convention Bureau, and the Back Country Horsemen of Washington.

The American people deserve to have access to public lands, including Rattlesnake Mountain. I ask that the House pass this reasonable legislation today to help make that possible.

□ 1910

I note that the bill was reported by the Committee on Natural Resources

by unanimous consent, and I appreciate the support of my colleagues on both sides of the aisle for this measure.

With that, I urge my colleagues to support the bill, and I reserve the balance of my time.

Mr. SABLON. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 2719, which would require the Fish and Wildlife Service to provide both motorized and non-motorized access to the summit of Rattlesnake Mountain. This bill would allow the Fish and Wildlife Service to enter into cooperative agreements with the Department of Energy, the State of Washington, local governments, and other interested persons to provide guided tours to the summit of the mountain and to maintain the access road to the summit.

In 2008 the Fish and Wildlife Service completed a management plan for this area and determined that Service-sponsored or led tours and a hiking trail are appropriate and compatible uses of the area. In October, at the hearing on H.R. 2719, the Fish and Wildlife Service supported the bill’s intent to provide appropriate public access on Rattlesnake Mountain that gives due consideration to all stakeholders, including the Yakima tribe.

I commend Chairman HASTINGS from Washington for introducing this bill.

I yield back the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I urge my colleagues to support this bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Washington (Mr. HASTINGS) that the House suspend the rules and pass the bill, H.R. 2719.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HASTINGS of Washington. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

## SUGAR LOAF FIRE PROTECTION DISTRICT LAND EXCHANGE ACT OF 2011

Mr. HASTINGS of Washington. Mr. Speaker, I move to suspend the rules and pass the bill (S. 278) to provide for the exchange of certain land located in the Arapaho-Roosevelt National Forests in the State of Colorado, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the amendment is as follows:

Amendment:

Strike out all after the enacting clause and insert:

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Sugar Loaf Fire Protection District Land Exchange Act of 2011”.

#### SEC. 2. DEFINITIONS.

In this Act:

(1) **DISTRICT.**—The term “District” means the Sugar Loaf Fire Protection District of Boulder, Colorado.

(2) **FEDERAL LAND.**—The term “Federal land” means—

(A) the parcel of approximately 1.52 acres of land in the National Forest that is generally depicted on the map numbered 1, entitled “Sugarloaf Fire Protection District Proposed Land Exchange”, and dated November 12, 2009; and

(B) the parcel of approximately 3.56 acres of land in the National Forest that is generally depicted on the map numbered 2, entitled “Sugarloaf Fire Protection District Proposed Land Exchange”, and dated November 12, 2009.

(3) **NATIONAL FOREST.**—The term “National Forest” means the Arapaho-Roosevelt National Forests located in the State of Colorado.

(4) **NON-FEDERAL LAND.**—The term “non-Federal land” means the parcel of approximately 5.17 acres of non-Federal land in unincorporated Boulder County, Colorado, that is generally depicted on the map numbered 3, entitled “Sugarloaf Fire Protection District Proposed Land Exchange”, and dated November 12, 2009.

(5) **SECRETARY.**—The term “Secretary” means the Secretary of Agriculture.

#### SEC. 3. LAND EXCHANGE.

(a) **IN GENERAL.**—Subject to the provisions of this Act, if the District offers to convey to the Secretary all right, title, and interest of the District in and to the non-Federal land, and the offer is acceptable to the Secretary—

(1) the Secretary shall accept the offer; and

(2) on receipt of acceptable title to the non-Federal land, the Secretary shall convey to the District all right, title, and interest of the United States in and to the Federal land.

(b) **APPLICABLE LAW.**—Section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716) shall apply to the land exchange authorized under subsection (a), except that—

(1) the Secretary may accept a cash equalization payment in excess of 25 percent of the value of the Federal land; and

(2) as a condition of the land exchange under subsection (a), the District shall—

(A) pay each cost relating to any land surveys and appraisals of the Federal land and non-Federal land; and

(B) enter into an agreement with the Secretary that allocates any other administrative costs between the Secretary and the District.

(c) **ADDITIONAL TERMS AND CONDITIONS.**—The land exchange under subsection (a) shall be subject to—

(1) valid existing rights; and

(2) any terms and conditions that the Secretary may require.

(d) **TIME FOR COMPLETION OF LAND EXCHANGE.**—It is the intent of Congress that the land exchange under subsection (a) shall be completed not later than 1 year after the date of enactment of this Act.

(e) **AUTHORITY OF SECRETARY TO CONDUCT SALE OF FEDERAL LAND.**—

(1) **IN GENERAL.**—In accordance with paragraph (2), if the land exchange under subsection (a) is not completed by the date that is 1 year after the date of enactment of this Act, the Secretary may offer to sell to the District the Federal land.

(2) **VALUE OF FEDERAL LAND.**—The Secretary may offer to sell to the District the Federal land for the fair market value of the Federal land.

(f) **DISPOSITION OF PROCEEDS.**—

(1) **IN GENERAL.**—The Secretary shall deposit in the fund established under Public Law 90-171 (commonly known as the “Sisk Act”) (16 U.S.C. 484a) any amount received by the Secretary as the result of—

(A) any cash equalization payment made under subsection (b); and

(B) any sale carried out under subsection (e).

(2) **USE OF PROCEEDS.**—Amounts deposited under paragraph (1) shall be available to the Secretary, without further appropriation and until expended, for the acquisition of land or interests in land in the National Forest System.

(g) **MANAGEMENT AND STATUS OF ACQUIRED LAND.**—The non-Federal land acquired by the Secretary under this section shall be—

(1) added to, and administered as part of, the National Forest; and

(2) managed by the Secretary in accordance with—

(A) the Act of March 1, 1911 (commonly known as the “Weeks Law”) (16 U.S.C. 480 et seq.); and

(B) any laws (including regulations) applicable to the National Forest.

(h) **REVOCATION OF ORDERS; WITHDRAWAL.**—

(1) **REVOCATION OF ORDERS.**—Any public order withdrawing the Federal land from entry, appropriation, or disposal under the public land laws is revoked to the extent necessary to permit the conveyance of the Federal land to the District.

(2) **WITHDRAWAL.**—On the date of enactment of this Act, if not already withdrawn or segregated from entry and appropriation under the public land laws (including the mining and mineral leasing laws) and the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.), the Federal land is withdrawn until the date of the conveyance of the Federal land to the District.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Washington (Mr. HASTINGS) and the gentleman from the Northern Mariana Islands (Mr. SABLAN) each will control 20 minutes.

The Chair recognizes the gentleman from Washington.

#### GENERAL LEAVE

Mr. HASTINGS of Washington. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

S. 278 will exchange approximately 5 acres of land between the Forest Service and the Sugar Loaf Fire Protection District in Colorado. The District has operated two fire stations on Forest Service land since 1967 but has been unable to install septic services or make other improvements to the fire stations since it does not own the land.

This bill would correct this issue by conveying the lands to the District in exchange for an inholding it currently owns within the Arapaho-Roosevelt National Forest, at no cost to the Federal Government. The Committee on Natural Resources has already favor-

ably reported the House version of this bill, H.R. 643, and if we pass this bill, the bill will go to the President's desk.

With that, I urge adoption of the measure and reserve the balance of my time.

Mr. SABLAN. Mr. Speaker, I yield myself such time as I may consume.

Since 1967 the Forest Service has issued two special use permits to the Sugar Loaf Fire Protection District to own and operate two fire stations on National Forest System land.

The District would like to own the parcels of land on which the fire stations sit in order to build an area for firefighter training and bathroom facilities. The land exchange authorized in this legislation will assist the Fire District in its mission and is in the public interest. I support passage of this measure.

Mr. Speaker, the gentleman from Colorado, Congressman POLIS, sponsored the House companion to this legislation, H.R. 643. I commend Congressman POLIS for his work on this bill and wish to yield him such time as he may consume.

Mr. POLIS. I thank the gentleman.

Mr. Speaker, I rise today to provide a description and some color for this important bill, which passed this body last session in the 111th Congress without any objection and did not make it through the Senate last session.

Well, I am proud to say that, since that point, Senate bill 278 has cleared the Senate. It's the companion to my bill, H.R. 643. There are some minor changes to comply with House rules that are going to be sent back to the Senate, and we sure hope that, expeditiously, we can get this bill to President Obama's desk because what we're trying to accomplish here is very simple and noncontroversial.

It's the result of a longtime effort, far too long, by the Sugar Loaf Fire Protection District in Sugar Loaf, Colorado. This Fire Protection District came to national notice for their heroic efforts in the Fourmile Canyon Fire last year, which, remarkably, while it led to considerable property damage led to no loss of life, thanks in no small part to their heroic efforts.

Sugar Loaf Fire Protection District and the U.S. Forest Service have always worked together very closely since the Fire District was created in 1967. The volunteer first responders at the Sugar Loaf Fire Protection District are the key to both wildland and residential fires in Boulder County, as well as car accidents and health emergencies in the communities and public lands that they so capably serve.

However, until this bill becomes law, they're unable to make any improvements to their facility. They can't even add a much-needed restroom facility so that their volunteers can have the same type of plumbing that we can expect in this day and age.

In its start, again, since 1967, the Fire District's physical home was established in an existing building on U.S. Forest Service land through a special use permit. Three years later a second building was constructed, another special use permit, both in important locations for accessibility on the few main roads that serve this mountainous area.

This bill will exchange the small amount of Federal land on which these facilities exist with private land that's been purchased by the Fire District for this transfer, land that's better suited for the scenic and recreational needs of the public lands. It's a net gain for our Federal Government.

While the U.S. Forest Service and these special use permits have been greatly appreciated over the 40-year history, it's important that the Fire District has the autonomy to direct its future, modernize its facilities, build basic amenities like running water and restrooms. And their location on public land has precluded them from making these modernizations, which we need to better protect both our wildlands and residential areas.

The surrounding communities have grown considerably over the past decades, and these volunteer fire departments and the buildings that serve them have taken on additional responsibilities as community meeting centers, making it even more critical that we update them to facilitate this role.

Mr. Speaker, I appreciate Chairman HASTINGS' and Ranking Member MARKEY's efforts in bringing this bill to the floor, hopefully seeing this bill through to law soon. This bill's been passed out of both Chambers of Congress now, but just hasn't been able to make it past the finish line within a single Congress in one form, barely running out of time in the Senate last year.

By the House agreeing to take up the Senate bill, I'm confident and thankful that this commonsense bill will finally become law.

Again, I thank Chairman HASTINGS and Ranking Member MARKEY for bringing this bill to the floor. I urge a "yes" vote on this measure.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

I just note to my friend from Colorado, he said that the bill passed the House last year and the Senate didn't act on it. I think it's very good strategy on his part to take the Senate bill. Now we, of course, have to perfect it, but we'll send it back and maybe this will be easier for them to act. I certainly hope so.

With that, I urge passage of the bill. I advise my friend that I am prepared to yield back if he yields back.

Mr. SABLON. Mr. Speaker, I yield back the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I again urge adoption of this

bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Washington (Mr. HASTINGS) that the House suspend the rules and pass the bill, S. 278, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. HASTINGS of Washington. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

□ 1920

#### BRIAN A. TERRY MEMORIAL ACT

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill (H.R. 2668) to designate the station of the United States Border Patrol located at 2136 South Naco Highway in Bisbee, Arizona, as the "Brian A. Terry Border Patrol Station."

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. DENHAM) that the House suspend the rules and pass the bill.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### FORT HOOD SHOOTINGS: WORKPLACE VIOLENCE OR TERRORISM?

The SPEAKER pro tempore. Under the Speaker's announced policy of January 5, 2011, the gentleman from Texas (Mr. CARTER) is recognized for 60 minutes as the designee of the majority leader.

Mr. CARTER. Mr. Speaker, 13 adults and one unborn child were killed and 31 individuals were wounded in a shooting attack at Fort Hood, Texas, on November 5, 2009. Since that time, the Department of Defense has taken no steps to award combat benefits to the casualties or even officially recognize the attack as a terrorist incident.

The House and Senate have included two reform measures in the NDAA, which we just passed, while additional attacks have been attempted by similar high-profile radical Islamic terrorists. It is past time for the government to deliver on this act.

Mr. Speaker, here we are almost 3 years later, and there's been a recent report that has come out; and in that report, it references this incident of this slaughter of American troops on Fort Hood soil in Texas. It references that it shall be taken up as part of workplace violence.

The Obama regime calls the Fort Hood shooting "workplace violence." Sure, it's workplace violence: it's where they work and it's violence. But we have a concept of what workplace violence is. And your normal workplace violence is not preceded by a shout by the shooter, "God is great," in the Arabic language. It's not preceded by discussions by the alleged perpetrator. It's alleged because he hasn't been convicted yet. And we, in a free American world, take the position that all are innocent until proven guilty. So we will call him the "alleged" shooter.

But there's clear evidence in reports by the Defense Department and by reports by the news media, reports by witnesses on the scene, reports by his fellow soldiers, reports by folks from Walter Reed Hospital where this American-trained, military-trained doctor worked that he had advocated that the American soldier was wrong and that he was contrary, and he spoke and preached Islamic terrorism.

So your normal workplace violence, that's not a part of the factor. Yet this is what happened in this case. Senator COLLINS on Wednesday blasted the Defense Department, and bless her for it, for classifying the Fort Hood massacre as workplace violence and suggested political correctness is being placed above the security of the Nation's Armed Forces at home.

I've been talking about this now since the day after this happened. We can't have a world where political correctness fails to define the criminal act. By its very nature, whether we're talking about military law and the criminal relations in military law, we're just talking about criminal acts in general, we have to be able to define them. Just to make the system work we have to be able to define them.

But more importantly, we owe a duty and a responsibility to the American soldier to call an event what it is and not try to put a smokescreen over it or cloud the issue or in any way worry about the feelings of groups, because the definition is the definition. This man identified himself that he was committing this act in the name of "God is great" in Arabic. He acknowledged when questioned that it was part of his mission. He acknowledged that he had dealt with terrorist spokesmen in the past and that the concept came from his interaction with Awlaki and others.

So this guy is an Islamic terrorist. There's no other way you can describe this gentleman.

But now years after the event as he sits in the Bell County Jail in Belton,

Texas, we continue to have reports coming down from our Defense Department that the folks that are responsible for our soldiers and responsible for those who died in this incident want to downplay this to be treated as an incident of workplace violence with all the white bread connotation that that has. To me, we ought to be ashamed of ourselves.

So let's look at some of the evidence we have that connects this to Islamic terrorism, recognizing the November 5, 2009, attack on Fort Hood, Texas, as an act of radical Islamic terrorism and jihad.

□ 1930

Anwar Awlaki connection. Now, Mr. Awlaki is no longer with us. We have taken that boy out. Yet the bottom line is, at the time this happened, they were directly connected.

This man preached, taught, and encouraged violence—Islamic terrorist violence: "Hasan's presentations to the DOD on jihad justification." He would argue with his fellow soldiers about the justification for having jihad against the American military. Mr. Hasan was a member of the United States Army. He was a major. He had been serving in the Medical Corps as a psychiatrist. He was trained with American taxpayer dollars, but he was preaching jihad to soldiers, and there was lots of evidence.

I had a bill, which was included in this recent defense bill that we just passed. It said that this guy was telling people that he'd believed in this kind of thing since medical school. Now he's a major, serving as a psychiatrist, advising our soldiers.

"Hasan purchased and practiced with high-capacity firearms prior to the attack." He went out and he bought firearms. He bought them at a local gun store. Of the guns that were used in the killings, one of them was a semiautomatic weapon with a large magazine capacity. He went out to the firing range and familiarized himself with these weapons prior to this incident.

You can't think of this as some guy who goes postal all of a sudden. This guy was planning this whole event. He shouts, "God is great" in Arabic, before he starts shooting, but they refer to it in the context of the broader threat of workplace violence. I think there is a very good argument that the evidence shows this was a premeditated act on the part of Major Hasan; and I believe when this case finally gets to trial that the evidence will be overwhelming that it was premeditated.

At the time of the event, Lieutenant General Cone, the III Corps Commander at Fort Hood, told NBC's "Today" show on the Friday after the shooting that the soldiers who witnessed the shooting rampage that left 13 people dead reported that the gunman shouted, "Allahu Akbar"—which means "God is great"—before opening fire at the Texas post.

The day after, it was being reported that he did this. Yet, in the initial report that came out from the Defense Department, the man's name didn't even appear. The relationship to any Islamic terrorism was not referenced. It was like any major from any outfit just wandered in and started shooting soldiers, like he was having a bad day or something.

Now we get another comment saying that we're going to treat this in the bigger scope of workplace violence. Certainly, we want to prevent workplace violence in every workplace, but the connotation is that this is just something that happened. It's not something that just happened because, quite honestly, since that time, others have been caught who reportedly were trying to imitate this shooter, Mr. Hasan.

We introduced a bill, the Fort Hood Families Benefits Protection Act. It would award both military and civilian casualties of the Fort Hood attack with combat status to ensure full benefits and eligibility for the Purple Heart and other awards and for the civilian award equivalence to the Secretary of Defense's Defense of Freedom medal.

Now, why did I ask for that? Because there was a precedent for it. When they flew the plane into the Pentagon on 9/11, this is what was the finding of the Department of Defense—that it was an act of terrorism, and therefore they should be treated as combat casualties, and those two medals were awarded. This didn't just come off the top of my head. This is what happened with the first terrorist attack in our country and with the second or third or whatever attack this one was.

When this man walked into that room, there were people in civilian garb, and there were people in uniform. He went out of his way to shoot the people in uniform. The civilians who were injured were injured because of misfire or misdirection. As he walked down that line, his target was all of those soldiers who were doing nothing more than either coming back from being off post and out of the country—or wherever they'd been—or preparing for their next duty stations, wherever they may be going—Iraq or Afghanistan. They were being processed and they were in this big room. He walked down the line, shooting everybody in uniform.

Now, when you're killing our combat soldiers and when you're crying out slogans of the jihad terrorists, why wouldn't you think it's a terrorist attack, and why shouldn't these people who died in the line of duty be treated like those at the Pentagon who died in the line of duty?

In fact, except for what we were able to put together in circumstantial evidence after the fact, at the time of the incident, we had no idea who flew that plane into the Pentagon. We just made

an educated guess. In this case, before this shooting started, the guy identified himself and what his mission was.

For some reason, in this world of political correctness, someone has the idea that this is good for the morale of our military soldiers or that it's good for something as, I think, the Chief of Staff said when this happened: Oh, this is sure going to hurt our Islamic outreach program.

Whether it's good for that or not, I hold nothing against the Islamic people nor does anybody at Fort Hood; but we hold a lot against Islamic terrorists who kill soldiers, and the Department of Defense should have the guts to step up and to stand up for these soldiers.

I see my good friend and colleague from Texas, former Judge LOUIE GOHMERT, has joined me here.

Congressman GOHMERT, I yield such time as you may require.

Mr. GOHMERT. I thank my friend, and I appreciate his taking the time to discuss this matter of national security.

I have the quote directly here from Army Chief of Staff General George W. Casey, Jr., who was the Chief of Staff at the time of the Fort Hood attack. He came out and had this prepared quote to give.

Mr. CARTER. He was Chief of Staff of the Army.

Mr. GOHMERT. Chief of Staff of the Army.

Mr. CARTER. Correct.

Mr. GOHMERT. This is a quote that, obviously, he and those helping him had prepared to give in response to 14 people being killed. We know one was an unborn child and that one of the people was a pregnant woman—a female soldier. So here is the quote that they had prepared after 13 of his soldiers lay either dying or dead at Fort Hood:

"I'm concerned that this increased speculation could cause a backlash against some of our Muslim soldiers . . . Our diversity, not only in our Army but in our country, is a strength; and as horrific as this tragedy was, if our diversity becomes a casualty, I think that's worse."

□ 1940

This is a general who is charged with leading soldiers and directing soldiers in war and in battle with an avowed enemy. Well, we have an enemy who has sworn to be at war with us. And one of those enemies was Major Hasan at Fort Hood, who went off on a shooting spree.

Now unfortunately, our leaders did not bother to monitor the security of our own soldiers, such that when Major Hasan made actual pronouncements in advance that he could not be deployed and be a Muslim because, in his interpretation of the Koran—thankfully it's not all of our Muslim soldiers in the U.S. military that have this interpretation—but his interpretation was that

he could not be deployed because that might require him to kill Muslims in a foreign country without cause.

And under the belief of some Muslims, like Major Hasan, if he were to kill a Muslim without cause—for example, in his way of thinking, it is appropriate cause, say, if a Muslim were to become a Christian, then that is a cause, in his mind, worthy of killing the individual, if they committed this horrible crime, in his mind, according to the Koran, of becoming a Christian. That's worth killing them for. But since he couldn't be sure that in a foreign country in a battle with Muslims that he might not be required to shoot someone who had not committed apostasy and not committed some act that justified murder under the Koran, then he could not be deployed. And if he were deployed, he would have to kill American soldiers to avoid having to go kill soldiers overseas.

It is interesting because you would think that the military would be concerned about this issue and that we would try to make sure that this incident that happened at Fort Hood would not happen again. You would think that when this private showed up on al Jazeera in uniform and told al Jazeera basically the same things that Major Hasan had, that people like General Casey would be concerned. But apparently, he was more concerned about our diversity than he was about the lives of his own soldiers.

So when you see this private on al Jazeera—and it's not hard. You can go online and find this on YouTube, his interview—he spoke in English. But the story was done actually in the language that al Jazeera prefers, and it's not English. He explained basically what Major Hasan did. And this is a line from al Jazeera, "I can't both deploy and be a Muslim." And we have the transcript of what he said, the transcript of the story. But basically, he was letting people like General Casey, that would bother to worry about the—well, not General Casey, because he is worried about diversity, and the safety of his soldiers is secondary to that. But for those who are concerned, number one, about the safety of those in this country and making sure that their own soldiers are tantamount, in their minds, they would be concerned when you have another soldier saying the same things Major Hasan did before the killing spree.

So we know that there are people in our special ops, in our military that noted this, that saw this, that said, This is a guy we had better watch. But because the people at the top are more concerned about diversity than they are about our soldiers' safety—I mean, it's bad enough that they put their lives on the line. They're willing to do that in combat. But you would think that there would be more concern for their own safety in their own units. Nothing was done about this private.

And despite this Justice Department trying to vilify gun dealers whom it forced into making sales to criminals who carry guns across the border, and despite the efforts that were made to maybe—and in fact, names were produced, pictures were produced of gun dealers out of the Fast and the Furious program—despite that, it was not General Casey, not one of his subordinates, not one of our own people in the military that reported this guy. No. Nothing was done, even though they knew he was ready to pull a Major Hasan, he could not be deployed, nothing was done. And it was not until he went to a gun dealer. The gun dealer became suspicious. The gun dealer reported him. Thank God for Americans like that gun dealer who realized, We've got our own soldiers' lives at stake here. He reported him.

Then locally he was dealt with and interdiction occurred, and he was not given the chance to kill the soldiers he wanted to, again at Fort Hood. Because if it weren't for the gun dealer and those intervening—not the military, not our intelligence, who surely monitor al Jazeera and would surely note a soldier in uniform with the screaming eagle patch on his arm, and that this is something we need to worry about.

But because we have become so politically correct, to the detriment and death of our own soldiers, nothing was done from intelligence, from State, from Justice. It took a local gun dealer to protect our soldiers at Fort Hood. And you wonder how many more times this is going to have to happen.

Heck, this soldier—you can go on Facebook, and you can find that he notes his activities and interests. CAIR, the Council on American-Islamic Relations. CAIR is named in the Holy Land Foundation trial as a coconspirator. There was evidence produced that showed that CAIR was also funding terrorism, funding Hamas, participating in that venture with the Holy Land Foundation, as found by the Fifth Circuit when they refused to eliminate CAIR's name from their pleadings. He identifies CAIR as one of his interests and activities. And our intelligence, our military, they didn't pick up on that. Why? Because that would be politically incorrect and might hurt our diversity.

We've got outstanding Muslim soldiers serving in our military who love and care about this country, like all other soldiers. But it is insane and I believe a violation of the commitment and oath that every officer takes—like I did when I went in the military—not to keep your eyes open and protect those people who are put to your service as your charges.

So here he is, Nasser Abdo. He went on al Jazeera. He makes it clear, he may have to kill American soldiers. He cannot allow himself to be deployed as a Muslim. He requested conscientious

objector status. And all we can do is thank God for the gun dealer that did what his superiors should have done in this case. It's time to end political correctness when it costs the lives of those protecting us.

I thank my friend for yielding.

Mr. CARTER. When you read the reports on Major Hasan, he was acting erratically. In the months before the attack, he promoted radical Islamic views while at Walter Reed Hospital. He exchanged email with Anwar al-Awlaki, a Yemeni cleric with terrorist ties. All of those references also pertained to the soldiers you were talking about right there. It is all part of a network.

□ 1950

Now, is every Muslim that is involved in the United States military involved in this? Absolutely not. I went to the National Training Center in California, and I met loyal, truly loyal and patriotic Muslim Americans who are helping our soldiers understand the nature, the language, the concepts, everything that they might be facing as they interact with Muslim civilians over in Iraq. And they do it in constructed villages.

I met a guy who was a former cab driver from Chicago who said, Man, I've come up in the world; I'm now mayor of this town, because he was negotiating with a mayor and city councilman for our soldiers as they came into the National Training Center. These people are patriots. They are living out in the desert just to help our soldiers understand.

I'm not anti those folks, but you can't have a world where you refuse to identify evil, and this is what you do when political correctness overcomes the truth.

Janet Napolitano personally testified: Violent Islamic terrorism was part and parcel of the Fort Hood killings, Homeland Security Napolitano said on February 24, 2010, about 3 months after the event, 4 months after the event, in a Senate Homeland Security Committee. She testified—accurately—and I praise her for it, that this was a terrorist act.

And yet we continue to have from the Department of Defense the soft-soaping of this whole issue and the disguising of this whole issue. And now with their statement that they are going to deal with it as they would deal with any workplace violence, you know, it just never stops.

The shoe bomber, the Christmas following this incident, the shoe bomber who did exactly what Major Hasan did, reading back what the press reported, acted erratically before his attack, promoted radical Islamic views, and exchanged emails with Awlaki in Yemen. He did all of those things. And when caught, referenced Major Hasan as one of his heroes. He got caught before he blew up an airplane. Praise God. Thank goodness.

So, you know, over 3 years since the incident, the Defense Department is still taking the position that this should be treated as normal workforce violence or something to that effect.

I yield to the gentleman.

Mr. GOHMERT. I think it is particularly interesting that this determination by the Army came, or our military leaders, came here in December. We just observed—it wasn't a celebration—we observed the anniversary of Pearl Harbor. As Judge CARTER pointed out numerous times, the victims of the 9/11 attack on the Pentagon have been recognized as victims of warfare. They were attacked by people of the same belief as Major Hasan, that he secures a place in paradise if he is killed while killing infidels like his soldier friends.

In fact, those soldiers that he was also hired to counsel as a counselor at Fort Hood, a local imam for Fort Hood, and yet one cannot help but wonder if these same folks who declared the deaths at the hands of a Muslim extremist at Fort Hood, if these same people in charge today had been in charge on December 7, 1941, then there is nothing to indicate their reasoning would have been different. All of those soldiers killed at Pearl Harbor, those entombed in the Arizona, those killed in that horrific surprise attack, actually they were at their duty stations. They were at work and someone came and killed them. Therefore, apparently under the reasoning as applied at Fort Hood, those killed at Pearl Harbor could also be considered as having been killed in workplace violence. It was violent. It was their workplace. Therefore, our mental geniuses that decided Fort Hood was workplace violence could say that about Pearl Harbor.

Mr. CARTER. Don't you wonder have we changed so much since the attack on Pearl Harbor that we don't recognize an enemy attack on us and we just want to stick our head in the sand and act like it didn't happen?

Here's an interesting report from Time magazine. They are asking the question, and they state: The U.S. military just released a report—this is that first report—not once mentioning Major Hasan's name or even discussing whether the killings had anything to do with his Muslim faith. The fort ignores the elephant in the room.

That's what I said. And it's true. It does ignore the elephant in the room. If before the first bullet is fired, a man shouts, Allahu Akhbar, that elephant is in the room. And all of the cover-up and all of the writing of the reports with reference to typical workforce violence, or treat it as workforce violence, it doesn't make sense. It was an attack on American soldiers in uniform.

I yield to the gentleman.

Mr. GOHMERT. With regard to that very issue, we know that in the 9/11 Commission there were hundreds of

mentions of Islam, jihad, all of these type things that we know were involved. And again, we thank God that the vast majority of Muslims love this country like we do. They are not about to kill Christians, Jews; but there are those in the radical element that believe otherwise. And we ought to be able to talk about it. We now know that this administration has seen to such a purging of our training material for Defense Department, Intelligence, State, that in the current lexicon from which the FBI, our intelligence folks are trained, there are zero mentions of Islam, zero mentions of jihad, zero mentions of the very things that created the worst attack on American soil in American history.

As one of our own officers told me: We have been blinded in this war with those using terrorism. We're not allowed to see our enemy. We're not allowed to describe our enemy. We're not allowed to talk about who the real enemy is. We're just expected to protect America with our eyes closed and our mouths shut. That's no way to protect America.

Mr. CARTER. This exhibit here is from the San Francisco Chronicle: Political Correctness on Fort Hood at the Pentagon. Political correctness is alive in the Pentagon. Witness the protecting the force lessons from Fort Hood. A Department of Defense report released last week on the November 5 shooting, if the report's purpose was to craft lessons to prevent future attacks, how could they leave out radical Islam? Ignoring Hasan's pro-terrorist Web postings, the report instead focuses on workplace violence programs to prevent workplace violence such as the post office's Going Postal program and the stress imposed on military health care providers.

□ 2000

The whole point of that San Francisco Chronicle article is to point out, I think, the irony of what we are teaching our soldiers to protect them from events like this and what we are excluding from the evidence. And I think that's blatantly not in the best interests of the soldier.

Mr. GOHMERT. Will the gentleman yield?

Mr. CARTER. Yes.

Mr. GOHMERT. There is an article dated February 9, 2010, in The Washington Times by Bill Gertz that says, the Army was warned about the jihadist threat in '08. It says:

Almost 2 years before the deadly Fort Hood shooting by a radicalized Muslim officer, the U.S. Army was explicitly warned that jihadism—Islamic holy war—was a serious problem and threat to personnel in the U.S., according to participants at a major Army-sponsored conference.

It references Patrick Poole, Army Lieutenant Colonel Joseph Myers, and Terri Wonder as individuals that participated. It says:

The shooting at a recruiting center in Little Rock, Arkansas, in June and the November shooting at Fort Hood, Texas, that killed 13 people have exposed the problem of the Army's deficiencies in understanding the nature of the domestic Islamic terrorist threat, Mr. Poole said.

The incidents have raised questions about whether the Army made any effort to "operationalize" the threat warnings from the 2008 conference and develop policies to counter the threats. "The answer quite clearly is no," Mr. Poole said.

And then it goes on to discuss this whole problem, and Mr. Poole said:

I noted because of our lack of understanding of Islamic doctrines, Islamic jihad and my view that our counterintelligence function is broken, outdated, being usurped in some cases by public affairs and equal opportunity officials, we were going to get soldiers killed in America on our own bases for that professional ignorance.

This is the kind of thing that should not be happening. This article was in 2010, before at least two other individuals had gone on Al Jazeera in uniform blasting our military and indicating they could not ever be deployed in a Muslim area.

It's also worth noting that the term "Islamophobe," that I'm sure is being generated right now about the two of us here talking about this issue, actually originated with the Organization of Islamic Conference, the OIC. They came up with the terms "Islamophobia" and "Islamophobe," and there is an ongoing effort to brand anybody who attempts to identify those by their beliefs who have gone about killing Americans, terrorizing Americans as an Islamophobe or as having Islamophobia.

We know that there are places like Harvard where a professor from India who wrote an article about the attacks that are ongoing on his homeland in India by Muslim extremists and how that should be dealt with, he was fired because Islamic activists at Harvard do not believe we should have free speech anymore. And as I mentioned on this floor earlier this week, one of the 2005 10-year goals of the Muslim Brotherhood here in America is to subvert our Constitution to sharia law by 2015. That effort is ongoing.

And when they continue to brand professors, soldiers, and intelligence officers as Islamophobes and that we need laws to prevent people from describing radical jihadists who want to kill our own American people, as long as that's being done and that's being allowed, then our First Amendment rights are being subverted to sharia law, and we're well on our way to their meeting their 2015 goal as more and more good folks have been won over into this idea, this thought, that, gee, if you say anything about radical jihadists and radical Islamists, you're the sick one and you need to be stopped.

This is an ongoing effort around the world, and we cannot allow it to overtake America. We should be able to

recognize those wonderful, patriotic Muslims in America for who they are, but we should also be able to recognize and talk about those who want to kill us and destroy our way of life for who they are. They're radical Islamic jihadists.

Mr. CARTER. I thank the gentleman.

You just referenced in your poster and showed us a picture of Mr. Abdo, the man that was saying he couldn't go to war. That was back on July 28, 2011, after the workplace violence. Another soldier made the same claim, and Abdo was also referenced in this story.

More and more of these folks are stepping up and saying they can't be deployed because they are Muslim and can't kill Muslims, and they reference Hasan, this man who is sitting in the Bell County jail awaiting trial probably this spring and is, I understand it, awaiting trial on a death penalty case, a potential death penalty case.

Everybody knew what it was when they attacked the Pentagon. What happened to us that we decided when, in front of 50 witnesses, somebody shoots a bunch of people and we can't recognize what that was? This was a surprise attack like Pearl Harbor. That was a premeditated murder like you and I have dealt with in the past with more witnesses than you could put on a stand. I mean, this is not going to be a hard case to prove because, fortunately, he didn't kill everybody in the room. In fact, he left an awful lot of witnesses there to testify.

He is just lucky he didn't get killed in an active shooter program that our two police officers used to respond effectively to his slaughter.

Mr. GOHMERT. If the gentleman would yield.

Mr. CARTER. I yield to the gentleman.

Mr. GOHMERT. Well, my friend the judge indicates he was lucky, unfortunately, in his perverted way of thinking. That also is a way of thinking that confounded Thomas Jefferson when he was negotiating with the Islamic Barbary pirates.

He actually believed he would have gone to paradise and had dozens of virgins at his disposal if he had been killed, so he doesn't necessarily think of himself as lucky. Nor would those in Iran, once a nuclear weapon or nuclear weapons are assuredly procured, be any different. They would believe, if they were to go up with the nuclear weapon that they carried into some place where lots of Americans were or Israelis were, then they would be assured of instantly being transported to paradise. Some of us have a different view of what they would find when they meet their Maker after this life, and I think they're going to be terribly surprised.

But our job and our oath is to our Constitution. It's to provide for the common defense against all enemies,

foreign and domestic. And when someone presents this kind of danger to our troops, it is just unfathomable that our military leaders would become so politically correct and so militarily neutered that they would not stand up for their own troops, for those whose care has been put under their service and attention.

I thank my friend for yielding.

□ 2010

Mr. CARTER. Mr. GOHMERT, let me read to you a resolution, H. Res. 495, which I dropped yesterday. It's a resolution recognizing the November 5, 2009, attack on Fort Hood, Texas, as an act of radical Islamic terrorism and jihad:

Whereas the United States Army Major Nidal Hasan is reported to have communicated on multiple occasions with radical Islamic terrorist, Anwar al-Awlaki, on the topic of justifying jihad on the United States and its Armed Forces;

Whereas Major Hasan delivered addresses to the Department of Defense personnel concerning the justification of jihad against the United States Armed Forces;

Whereas Major Hasan is reported to have planned and trained for an attack on unarmed members of the United States Armed Forces at Fort Hood, Texas, with the specific intent to kill and injure those troops before the deployment to overseas theaters of war;

Whereas Major Hasan is reported to have declared his attack to be an act of jihad in defense of Islam, shouting "God is great" in Arabic while gunning down unarmed military personnel and civilians;

Whereas Major Hasan is currently charged with murder of 13 and attempted murder of 32 United States citizens during that attack;

And whereas the Department of Defense submitted correspondence to the United States Senate Committee on Homeland Security which referred to the violent Islamic extremist attack on Fort Hood, Texas, in the context of a broader threat of workplace violence: Now, therefore, be it

*Resolved*, that the House of Representatives recognizes the attack on Fort Hood, Texas, as an act of radical Islamic terrorism and jihad against the United States Armed Forces.

I have submitted this to the House, and I'm going to be seeking support for this resolution.

I wonder sometimes what our Forefathers would think of how far we've gone out of kilter in recognizing who's our friend and who's our enemy, or how we are so concerned about what the speak police or the voice police would say to us about some language we use that we would be willing to put those men and women who wear the uniform of our armed services at risk rather than make a statement that might offend somebody.

I think our grandparents would look at this country and say, what happened, what happened to the United States of America that I fought for in World War II or Korea or Vietnam? When did it become evil for Americans to speak the truth? Why would people who have four stars on their shoulder, who we highly respect as leaders of our

armed services, tolerate being instructed in this concept of political correctness and be treating this as if it were an ordinary incident of workforce violence? How do we justify that? Where is the common sense in this effort? We're worried about hurting other people's feelings, and other people are killing us. I mean, this doesn't make any sense.

And most of all, let's not forget—because I attended the funeral of one of the civilians. I have met with some of the wives and children of these dead combat soldiers and talked to the parents that looked me in the eye and said, how do I figure this out? My kid was there to be deployed for the fourth time. He stood in harm's way for our country 3 years already, and he goes over to the deployment center for a routine matter dealing with paperwork and he gets attacked and killed in Texas, just right down the street from where he lives. And his children and his wife are without a brave American soldier who had proven his worth in combat in three deployments already.

This is something that his parent sits there and says, how could anything like this ever happen? I mean, I know to be praying every day for my child when he's in combat. This is the profession he has chosen; I respect it. I fear for him; I worry about him. I want to make sure—he or she, because our ladies are fighting just like our men. And now I get the word that my son is killed down the street from his kid's elementary school while he's going through a routine act of filling out paperwork in the Army?

And then what do we tell that parent when later we find out that a report has come out from the government saying "routine workforce violence"? Come on, come on. What's wrong with this? I think it's just tragic.

I introduced a bill that just said, look, acknowledge it for what it is. Nothing will draw disrespect for the Purple Heart, or others who are wounded in combat in a combat theater, to just acknowledge that these innocent people got attacked on their way to their next deployment, or on their way back from their last deployment, on our soil, on our military base, in our State of Texas. Can we at least give them the respect to acknowledge that they're part of the war effort, that this guy shot them because we are at war with terrorists? Give them combat credit. Give them the honor and respect that comes from that. But we're still not able to get that done.

We're going to keep trying. I have people call me from all over the country and say, how are we doing? You know, my kid at least ought to get a Purple Heart. My daughter ought to get a Purple Heart for the wound she received, and now she's debilitated and has to go out of the Army. My son, who's going through constant therapy

for his head wound, he ought to be recognized by the Army for what happened to him, the reality of what happened to him.

And so we won't make the easy acknowledgement that these folks were in combat. And the only reason they didn't fight this guy is because they were not armed. And the reason they were not armed is because you're not supposed to be armed on post. This guy attacks them. If they would have been armed, it would have been over when the first bullet fired. These are combat veterans.

But no, we are very strict—oh, we're now going to change this designation the Army has or that designation the Army has. But we aren't going to call this guy a terrorist. Don't mention the word "Islamic." Don't recognize his relationship with an Islamic terrorist. Ignore all that evidence, ignore the testimony of 50-some-odd witnesses and say we will treat it within the concept of workforce violence. What does that say to the wife or husband of that soldier, or the father or mother of that soldier, or the brother and sister of that soldier that was killed or wounded with a debilitating wound—many of which are still struggling with their wounds, just like they do in combat.

Yet we conveniently define things in that situation, but refuse to define the act that caused the situation. This just is not right. That's why I'm very grateful my friend Mr. GOHMERT and I came down here to talk about this. This is all about trying to just set the record straight. You know, let's call it like we see it, and let's don't think we have to protect anybody.

And it has absolutely nothing to do with the Muslim religion. If he was a Baptist and was shouting Baptist slogans as his reason for shooting somebody, we ought to call him a Baptist.

This is a tragedy. It's a terrible tragedy because these were soldiers, all of whom had been willing to go in harm's way on behalf of our country, and most of whom had gone into harm's way on behalf of our country and suffered through that miserable weather and those dark lonely nights, and all the other things that soldiers suffer through when they're addressing terrorism around the world.

□ 2020

I say around the world because we've still got plenty of places we're addressing terrorism, not just Iraq and Afghanistan. To have us be willing to soft-pedal what happened to them is an American tragedy, and I'm going to continue to talk about it.

Mr. Speaker, I yield back the balance of my time.

#### JOBS FOR AMERICANS

The SPEAKER pro tempore. Under the Speaker's announced policy of Jan-

uary 5, 2011, the gentleman from California (Mr. GARAMENDI) is recognized for 60 minutes as the designee of the minority leader.

Mr. GARAMENDI. Mr. Speaker, thank you for the opportunity this evening. I'm joined by my colleague from Ohio, MARCY KAPTUR.

I want to thank our colleague from Texas for the explanation he gave about the tragedy at Fort Hood. It was, indeed, an American tragedy, as were other acts of violence against this country, both within the country and around the world.

No doubt that there is radical Islam, no doubt that it is killing, not only Americans, but others around the world. And it is part of our task to find an appropriate way to deal with it. It's also part of our task to appropriately recognize the tremendous sacrifice made by our soldiers, both here, as in the Fort Hood incident, and certainly in Iraq and Afghanistan.

Today marks a very, very special day in American history. It is the end of one of the great American tragedies, and that is the war in Iraq. No matter how we may think of this today, I think we can be very confident that this war of choice was, indeed, a very bad choice. More than 4,000 Americans have been killed in this war, and perhaps several times that number injured.

Physical injuries, we often see them just off the floor as these men and women return from their medical treatment at the Bethesda hospital, and we mourn their physical loss.

The mental problems that our veterans have incurred after multiple deployments in Iraq will go on for years, as will the physical injuries. Post-traumatic stress syndrome is a major, major problem among the thousands of veterans, hundreds of thousands of veterans that have returned. These are issues that we must deal with.

And as we mark, today, the final withdrawal of American troops from Iraq, our heart, our compassion, and indeed our actions go out to those veterans who have served this Nation in this war. Whatever we may think of the war, we must always think well and appropriately of these soldiers, men and women, multiple tours, National Guard, the Reserves, and the active Army and Navy and Air Force and Marines, all serving this country.

Many things have happened here on the floor to deal with those issues that they have incurred. Just 2 weeks ago we passed major pieces of legislation that are a followup to earlier pieces of legislation for the veterans. The Democratic Congress, in 2009 and '10, enacted the most far-reaching veterans benefits since the end of World War II. A new GI bill is in place. Job opportunities and training are in place. Enhancement of the medical services through the Veterans Administration and many other

that were culminated last week—wrong word. Not culminated, but added to last week with the legislation that provides a very strong incentive for employers to hire unemployed veterans.

The unemployment rate for veterans is generally twice as high as the average American unemployment rate. Those benefits go to the employer, reducing their taxes by \$2,600 for every veteran they hire. If they hire a long-term unemployed veteran, it'll be \$5,600, and if it happens to be one of the disabled veterans, perhaps one that we often see outside this Chamber, then it's a \$9,600 reduction in the taxes for that employer. We hope employers all across this Nation hear this and reach out to the veterans in their community and give them a job.

The rest of the time we have tonight I'd like to talk about jobs for Americans. As much as we may want to think about the wars, and today we did, we passed the Defense Authorization Act, we have to also think about Americans here at home that need a job. We've been working for some time on a program that we call "Make It in America," a rebuilding of the strength of the American manufacturing industry.

Over the last 20 years, we have seen a rapid decline in the manufacturing base of America because that's where the middle class found its place. That's where the middle class found their opportunity to use the skills, whatever training they may have, whatever education they may have, and get a good, solid job that would support a family. Twenty million Americans were employed in manufacturing 20 years ago. Today, it is just over 11 million, almost a 50 percent decline.

We can't let this continue. We cannot allow the outsourcing of American jobs. We have to bring those jobs back home, and there are many ways that we can do that. And our "Make It in America" agenda by the Democratic Party here in Congress is taking root. And tonight we're going to talk about many parts of that.

Joining me is MARCY KAPTUR from Ohio, which once and will be the heart of the American manufacturing sector. I know you have many pieces of legislation, and I know your intense passion on rebuilding the manufacturing sector in America. So let's talk about some of the things that are going on here in Congress and what we can do.

Ms. KAPTUR. I want to thank Congressman GARAMENDI for, again, bringing us together to discuss the most important issue on the minds of the American people, and that is healing the economy here at home and producing a sufficient number of jobs to employ all Americans who want to work.

And I join the Congressman's comments about our veterans, veterans who have served our country so bravely, a great sense of self-sacrifice and

national sacrifice. We thank them, particularly during this holiday season, their families, their children, their relatives, their friends, their communities, all their employers, all of those who understand what this requires.

And I wanted to just mention that, in connecting our veterans coming home to the employment question, it's a very serious challenge that we face because, even in a State like Ohio, currently, of all those who remain unemployed in Ohio, and there are many, 52,000 are veterans, already. And it was correct, I think, for President Obama, in going to visit with our veterans and active military at this holiday season, that one of the issues that came up repeatedly was, well, with our veterans coming home, where are they going to work with so many unemployed already?

And to give an example, in Ohio and many other parts of the country, for every job that exists, 100 people apply or more. And even if we filled every job that exists, we would have millions of Americans still out of work.

And yet, we have huge, unmet national needs, and that's why making decisions here, both on the tax side and the spending side, to get our economic house in order and to rein in the abuses in the financial sector on Wall Street that have caused such damage here and abroad, is absolutely critical for us to deal with and to keep those at the top of our priority list.

I think Congressman GARAMENDI and I agree that some of the partisan wrangling here is really so nonproductive. And if you want to put the country back to work, that's what the debate should be about. We should have job thermometers here showing how well we're doing and how fast we are helping to grow this economy.

□ 2030

So as with Congressman GARAMENDI's support of the veterans tax credit for hiring, I obviously support that as well. But it's not sufficient because, as I understand it, the tax credit will yield about 40,000 openings around the country; 40,000 companies will hire maybe one worker, or however it will ultimately transpire, but we have a need to reinvest in America.

The most important factor in reinvestment is for our banks to have confidence and our people to have confidence that there's going to be stability for people in our economy. I think our party wrangling really works against that.

Wouldn't you agree, Congressman?

Mr. GARAMENDI. It really does, if I might take a moment here.

You raised one of the very important points. I know later in this discussion you're going to take this up in much more detail. But it's very, very clear that the financial sector, in their rush for profit, created the housing bubble. Didn't do it all by themselves. There

was plenty of greed on the part of certain people that bought houses, and the real estate community was involved in that, the mortgage community.

But here we are after bailing out Wall Street. What is Wall Street doing to bail out Main Street? Not much.

I heard a discussion earlier today from a banker that said, Oh, we're making all kinds of SBA loans. Yes, that's guaranteed. Those are loans guaranteed by the Federal Government. But what risks are they taking?

We passed the Dodd-Frank language, which was designed to rein in Wall Street. Good. Very good. As strong as I would like? No. I would go back and put in place the Glass-Steagall Act. I was the insurance commissioner before the Glass-Steagall Act disappeared, and insurance was over here and banks were over there and investment banking was separate. So that the kind of problem that existed in 2000 where the banks went berserk and crazy in greed creating all of these CDOs and other kinds of really fake instruments, they couldn't do it. But nonetheless, the Dodd-Frank is there. Our Republican colleagues are refusing to fund the implementation of that program, putting all of us at risk once again.

I want to go back to the manufacturing sector and some of the issues that arise there, and particularly the unemployment rate in your communities.

Now, we have to reauthorize the unemployment insurance program; otherwise, is it 3.3 million Americans are going to lose their unemployment insurance in the first of the year? And when you have such high unemployment as you do in your communities, what are they going to do? How are they going to feed their families, pay their mortgages? And when you provide an unemployment check, it immediately goes into the economy and creates \$1.6 for every dollar of the check.

And I know you see this in yours, and you've talked to me about the unemployment and the way in which the cessation of the unemployment insurance would just devastate people here at holiday season. So share with us what you were sharing, just this, earlier in the week when we were talking about this issue.

Ms. KAPTUR. The problem is, when you have 100 people out there looking for a given job, it means 99 won't get it. And these are people who want to work. They have a record of working. They have actually collected their benefits. They've paid into the insurance fund for unemployment in their respective States. But when the economy doesn't recover as fast as it must, then what happens is, after they use up their first 26 weeks of unemployment, what are they supposed to do? Where are they going to work in order to provide for their families?

We've had to, at the Federal level, extend unemployment because of this

massive recession that we are digging out of. We have had to extend people. These are people who want to work, who have worked, who have a working record. So they continue looking for jobs. And I can tell you, some of them have been looking for jobs for 3 and 4 years. It isn't that they don't want to work. How many have I talked to where they have sent out hundreds of resumes? They have gone door-to-door looking for work. They have tried, and yet the door keeps getting shut in their face.

At some point, any human being begins to think, There must be something wrong with me that I can't obtain work, when they have a very good record. Many of them are doing two and three jobs just to bring income in and then look to find a full-time job. It's very disruptive to family life. Many of them have moved in with their relatives now.

And they shouldn't feel like failures. I said to my audiences back home, It isn't your fault. You didn't do this to America. The biggest banks failed us. They failed our country. They've hurt us. They've created false money. Many of them became so rich that no normal person could even imagine what they're floating in.

But it isn't the fault of the ordinary worker. They shouldn't eat themselves up in self-agony. There's a lot of that out there.

Mr. GARAMENDI. I see it in my own district in California.

One of the things that we've been trying to do is to take up the President's call on this matter. The President, back in September, put forth the American Jobs Act. Many pieces of it. We'll talk about some of those pieces today.

But in the American Jobs Act, there was an extension of the unemployment insurance, which economists, left, right, and center, all say it's the best way to stimulate, to keep the economy moving. He suggested that we extend it for those who have been unemployed for 2 years or more. And I think it's the only humane and compassionate thing to do, particularly here at the holiday season.

He also made the suggestion that we continue the payroll tax reduction, which was 2 percent, that is from 5½ percent to 3½ percent. He suggested that the reduction be 3.1 percent.

Now, we are as concerned as our Republican colleagues about the deficit, and the President is, too. And he suggested that this needs to be paid for. We cannot borrow money from China to do the unemployment insurance or to do the payroll tax deduction.

Now, the payroll tax deduction, it's rather important. It's over \$1,500 in the pocket of every working person in this Nation. That's an enormous amount of money for a person that's earning \$10, \$20 an hour. So he wanted to do that.

How is he going to pay for it?

He suggested that we pay for this in what is called tax fairness, that we take the upper income, those people that have earned a million dollars a year or more, and increase the tax that they pay over a million dollars by 3½ percent. A 3½ percent increase above a million dollars—not below but above. Now, that's fairness, because these folks have had an enormous tax reduction over the last decade, part of the Bush tax cuts.

Unfortunately, that didn't happen, and you and I have been here. And perhaps we ought to share with the public what happened yesterday when a bill came to the floor to provide unemployment insurance extension and a payroll tax deduction. It was really not a shining day for the House of Representatives.

We'll go into some detail here, but essentially what happened was that the legislation put forth by our Republican colleagues basically said, okay, we'll continue the payroll tax deduction, not at 3.1 percent but at a 2 percent reduction, which is about a thousand dollars for an average worker, and that's good, certainly better than not doing anything; and we will also do the unemployment insurance, but only for half the time that the President suggested.

And here's the kicker. All of that will not be paid by those who earn more than a million, the millionaires and billionaires. That will be paid for by the middle class. It was the 99 percenters that were going to have to pay for this. Not the 1 percenters, but the 99 percenters. It was the great shell game, and a very, very sad day. Fortunately, the President said, I will veto that if it ever gets to my desk; and the Senate has said, No way; this is not fair to the working men and women of America.

□ 2040

Now, we were here, and we heard some of the debate. Share with us your thoughts about all that went on yesterday in that rather sad piece of legislation.

Ms. KAPTUR. Again, it's like a teeter-totter. It's like it's tipped in one direction.

Mr. GARAMENDI. Yes.

Ms. KAPTUR. I think everybody in our country knows that we all will have to sacrifice in order to pay down our long-term debt and that when we make public decisions that we help our economy grow.

In every business I go into, they say, MARCY, bring me customers, bring me customers.

Whether they're out of work and they receive unemployment benefits, which they have earned, or whether it's allowing an individual through a payroll tax holiday to have a few extra dollars of spending money, the advantage of helping the middle class is that it's

going to go directly into our economy. It goes to every small business. Whether it's to buy vegetables at the corner stand, whether it's to buy gasoline for your car, whether it's to buy clothing for your children, when you think about where those dollars will go, it's going to go to essentials. It won't be wasted money.

All of history shows us, because their incomes have really not gone up, because buying power has gone down for the average family and prices are going up, that the middle class is guarding every penny so much more carefully.

I had to go out and buy some throw rugs the other day because of all the rain in the Midwest that had caused water to rise in our basement. I couldn't believe the price of throw rugs. I thought, oh, my goodness, and I went to two or three stores. I don't have time to do that, but I was reacting to the increase in prices. The average family has great difficulty in buying those kinds of items, so those few hundreds of dollars mean everything, and they will use it to improve their homes, for example.

Mr. GARAMENDI. If I might interrupt for just a moment, you raised a very, very important point about the fate of the American middle class and of the extraordinary benefit that has grown for the top 1 percent. This is where the 99 percent comes in.

Let me just show you this chart. It has become one of my favorites. This chart is about the growth of income.

Down here on the bottom are the bottom 99 percent of Americans and the income that they have seen since 1979: virtually no real growth in the income of the working men and women, of the middle class of America. So, if you look at these lines, this is the top quartile; this is the middle quartile and the bottom quartile here: no growth or just a little tiny growth. Incidentally, most of that comes because now both the husband and wife are working, not because just one of the wage earners has seen it.

This top line, MARCY, is the 1 percenters. We can see, over the last 25, 30 years, the 1 percenters have done very, very nicely, and there are many reasons for this. One, they are very productive. They've been able to find good opportunities and to make the most of them. We wouldn't deny anybody that opportunity to become very, very wealthy in America if they play by the rules. I know, a little later, you're going to talk about some who have not played by the rules and who have become extraordinarily wealthy. But if you play by the rules, you ought to be able to do very well in America.

Yet what we're talking about here is tax fairness. A lot of this growth right here in the last decade was as a direct result of tax policy. Now, the George W. Bush tax cuts for the super wealthy, which were supposed to create jobs,

didn't create jobs. In fact, we had a loss of employment in the United States. Even if you discount and take out the great crash of 2007-8, in the George Bush era, the argument for reducing the high-income tax rate was that it would create jobs because these were the job creators. It didn't create jobs. It did not create jobs. So now we're talking about how do we keep this economy going, about how do we provide for those who don't have jobs. How do we put money back into the economy? As you say, it will be spent. We do it with tax fairness.

As the President suggested, for those people who earn more than \$1 million a year after all the deductions, the amount of income above \$1 million would be taxed an additional 3½ percent. That's fair. That's fair to the American workers, if they're unemployed or if they're looking for jobs, so that they'll have an opportunity.

Ms. KAPTUR. Congressman GARAMENDI, as you were talking, I was thinking about that chart that shows the flatness of income growth in the middle class, and I was thinking about the last several years and about our U.S. trade deficits.

Most Americans probably don't realize it, but annually, we rack up about \$500 billion more in imports coming into our country than exports going out, and it hits the working class—the middle class of people—very, very hard because it substitutes for the income that they would normally earn if they were manufacturing in this country as many cars as they used to.

What we see happening is a tipping toward the top, but really all sectors are affected by the fact that our trade deficit lops off most of the gross domestic product growth every year. A half-trillion dollars bleeding out of our economy for purchases of everything from electronics to energy to automobiles, which are things that should be made inside this country, is a huge draft on every income quartile in our country. Thus, your efforts to promote American-made goods are right on target.

Mr. GARAMENDI. Before we go back to Make It in America, which is our principal policy, at least among those of us who are talking about the Make It in America agenda, I want to just make it very clear that this debate over the payroll tax reduction and the unemployment insurance is not over. We've got a little bit of time to get this done before the end of the year when all of these opportunities for people to continue to survive terminate.

Right now, the Senate is going to take up the House bill, and it is our understanding that that bill is not going to move in the Senate. We need to get past this gamesmanship that we saw in the legislation that passed here just yesterday, and we need to get serious about finding a compromise that can deal with this problem.

Here is our wish list. This is the American wish list. We have Santa up here, but let's just say it's to the House of Representatives—all of us—and to the Senate. What we would like to have in the stocking is not a bad lump of coal but, rather, a payroll tax cut extension. We could probably settle for the present. If we were to compromise, we'd want 3 percent, but we could settle for the 2 percent reduction. That's \$1,000 in the pockets of every working man and woman in the State. That's 160 million people. That's an enormous thing for us to do.

So this is one of the things that we would wish would happen, that we wish that we would do—your Representatives, Democrat and Republican alike, and the Senators—for the working men and women of America so that they can have food on their tables and roofs over their heads.

The other deals with the unemployment insurance—5.7 million people are going to be losing their unemployment insurance in the coming year. What in the world are they going to do? Their jobs are not there, as you so clearly pointed out, Ms. KAPTUR. The jobs are not there, and they need help. That's where the unemployment insurance program will help them and will simultaneously help the economy, as Ms. KAPTUR pointed out. We can pay for this. We can pay for this with a Fair Tax system in America.

Ms. KAPTUR. I wanted to just comment obliquely here based on what you've been talking about.

In looking at job creation in a given region, if I look at the regions that I've been privileged to represent, we have many small companies or medium-sized companies. I happened to be speaking with one of them the other day, Hirzel, which is a major producer of tomato products in our region.

□ 2050

And I said, you know, I was looking for your spaghetti sauce on the shelves of one of our major grocery chains, and I couldn't find it. And it's the best sauce I have ever eaten. I said, How can I help you expand your product placement on the shelves of stores across the country? The owner of the company, a family-owned company—and they are the most wonderful people—he said to me, Well, you don't really understand, MARCY. We really aren't allowed on those shelves because one of the big spaghetti sauce manufacturers—and I won't mention the name—pays the grocery store a fee to keep all new products off their shelves. And even though Hirzel's is not a new product, it's regionally bound; and they can't get on the shelves of supermarkets because of what's called “slotting fees.”

Mr. GARAMENDI. We should work together. Excuse me for interrupting, but in my district, we have a ravioli

company. We're talking out of this world. Now, maybe your sauce on top of their raviolis we could actually get on the shelf.

Ms. KAPTUR. You know what, these large outfits that control retail sales in our country hurt innovation because what they do is they make deals with some of the biggest companies. Ask yourself, why, when you go through a supermarket and you want to find soda pop—they call it soda pop in some places, and they call it—what do they call it in your part of the country?

Mr. GARAMENDI. Obesity.

Ms. KAPTUR. Well, if you try to find different brands, you will see certain brands at eye level because they pay thousands of dollars to each grocery store to put it there. But if you want locally bottled soda, or pop, you are lucky if you can find it on the bottom shelf, and you probably can't.

So we have like gatekeepers. The public is largely unaware of this. Local meat. I represent a region that is both urban and rural. I love it. I am privileged to represent it. Try to get locally produced pork on the shelves of large supermarket chains. Good luck. You know, the same is true with vegetables. We could have so much more income growth and job growth in this country if we would have some consciousness by these big retailers and box stores to go local. We grow local. We make local. But then to try to move it to the shelf, it's almost impossible.

Mr. GARAMENDI. Black Friday, a week ago. It is all about the big retailers. But Small Saturday, now that was exciting. A lot of advertising out in California about, Go to your local shop. Buy local. Buy small. And it was just what you are talking about, and that is to find a way to provide opportunity, moving, in this case, customers to the local stores. Instead of the big box store, go down to Main Street. Stop at the local shop. Very, very powerful. And I suspect that many of us did that. We stopped at the local store, and we didn't go down to Home Depot. We went down to the Ace Hardware.

Ms. KAPTUR. This year, again, I went to craft shows. I buy dozens and dozens of gifts. And I find locally made items because I know the money will go right in the pockets of local people. And why is it these craft shows, they hold them in churches, and they hold them in auditoriums, why don't some of these big shopping center complexes invite them in? What's the problem with trying to help local innovation, local development? We find so many restrictions that make it hard.

One of the reasons we can't grow jobs fast enough is because certain interests in our society have such a lock on who can get in the door. There ought to be a section for local. We shouldn't have to pass a Federal law for that. People should be smart enough out there to do it. It creates more customers all ways

around, and a lot of us want to support local.

Mr. GARAMENDI. I don't think we're talking about a law or a new regulation here, but we're talking about something that we ought to do for our communities, and that is recognize that we're all part of a community.

You said something a few moments ago that caused me to come back to this issue. You talked about the trade deficit. And the way in which we are literally exporting our money, we're also exporting our jobs.

Last December—just a year ago—on this floor, we took up a piece of legislation that dealt with this issue. In the previous Tax Code, there were tax breaks given to American corporations for shipping jobs offshore. For offshoring American jobs, they got a tax reduction. And some of us said, Well, what in the world is that all about? So we scrambled and tried to find out where the codes were. And a bill came forth on the floor that eliminated about two-thirds of those tax breaks given to American corporations when they offshore jobs.

A very interesting division occurred here on the floor of this House. It was a straight-up bill. It wasn't complex. It was on that issue: Should American corporations continue to receive tax breaks for offshoring jobs? That was the bill. No riders. No hidden agendas. No extraneous sentences put in. This House divided right down the middle. The Democrats voted to end the tax cuts. The Republicans, not one Republican voted to end those tax breaks given to American corporations for offshoring jobs.

And I'm going, I don't get it, guys. You guys talk about jobs all the time. You talk about small businesses, and here you want to continue to subsidize the offshoring of American jobs? What's that all about? We never got an answer. But it speaks directly to the point that you were making earlier about policy choices. Our work is policy, policy choices: Are we going to do this, or are we going to do that? Are we going to continue to support American corporations for offshoring jobs, giving them our tax dollars? Are we going to continue to allow the oil companies to be subsidized?

The wealthiest industry in the world takes about \$15 billion a year of your tax money, and we give it to them. The oil, the gas, and the coal industries, about \$15 billion a year in tax subsidies. Why do we do that?

Ms. KAPTUR. You raise a very good point, Congressman. And I went into one of these dollar stores—I won't say which name it was—with one of my good friends the other day. I couldn't find a non-Chinese-made item on the shelf.

Mr. GARAMENDI. Wouldn't you love to go into Wal-Mart and find “Made in America”? Wouldn't that be something?

Ms. KAPTUR. I'm a city planner by training. So I look at the space in these stores, and I thought, I could do this. I could clear one of these aisles. I could consolidate over there. I could provide a place for locally made items, and let the local entrepreneurs compete. But give them a place on the shelf, and don't make them pay these exorbitant fees. It doesn't take an act of Congress for some business innovation in these big box stories. And I am thinking, you know, maybe America in some ways is losing her edge. Because if the CEOs in charge of these retail stores can't be creative enough to figure out how to help us encourage innovation at the local level, what are they getting paid so much for?

I think of all the local food products, all the hand-made sweaters, all of the artwork, all of the pottery that's made locally, the food products that can't get to shelf because they keep them out. Come on, men and women out there in the retail world. Show a little creativity here. We have a lot of innovation at the local level.

Mr. GARAMENDI. A little bit of patriotism.

Ms. KAPTUR. Boy, it takes a little bit of patriotism.

Mr. GARAMENDI. Let me give you another example of what we can do with policy. Right now we have a "Buy American" policy that really has not been enforced much. So I've introduced a piece of legislation, H.R. 613, that simply says that if it's our tax money—and every time we buy a gallon of gasoline or a gallon of diesel fuel, we pay either 18.5 cents for the gasoline or 26 cents for the diesel fuel in taxes, where's the money going? Some of it all too often, in fact, a lot of it all too often, winds up going offshore.

I will give you an example: the Oakland-San Francisco Bay Bridge, a multibillion dollar project, \$1 billion worth of steel going into that bridge. It will be a beautiful thing when it's completed. The bids for that came in for an American-made steel bridge or a Chinese-made steel bridge.

□ 2100

It was a 10 percent difference in cost. That's a lot of money. So the State of California Bridge Authority decided that they would take the 10 percent cheaper Chinese steel. The result is after years, the steel had problems. The welds had problems. The cost went well above 10 percent, and 3,000 jobs wound up in China, and zero jobs wound up in America.

So what this bill does, it simply says no more waivers. No more. If it is American tax dollars that are being used, it is going to be used to buy American-made equipment—buses, trains and the steel and concrete. It works.

In the stimulus bill, which all of our Republican friends want to dismiss, in

the stimulus bill there was one line for the several billion dollars of money that went into transit that said that money can only be used to buy American-made light rail, transit trains, and locomotives for Amtrak.

Siemens opened a factory in Sacramento, California, to build those light-rail cars and the locomotives because the policy, drafted here on this floor, passed by the Senate and signed into law by President Obama, said that tax money can only be used to buy American-made equipment. And it created hundreds of American jobs in Sacramento, California.

This bill, and another one like it that has now been introduced by the ranking member Democrat in the Transportation Committee, will bring hundreds of thousands of jobs when our tax money is going to be used to buy American-made equipment.

Ms. KAPTUR. I wanted to mention as you were talking, Congressman GARAMENDI, as a result of the refinancing of the U.S. automotive industry in northern Ohio—from Cleveland, Elyria, Lorain, Avon Lake, Sandusky, Toledo, Defiance, the whole corridor—what we are seeing is a reinvestment in the supplier chain. That includes steel such as Republic Steel. People don't realize how many jobs in America are connected to the automotive industry.

Your State of California, which manufactures a lot of semiconductors, half of the semiconductors procured in this country go into the automotive industry. If you think about carpeting, half of the carpeting sold in this country goes into automotive production. Plastics, glass—think about what is really in there. As a result of what we were able to do here, with a lot of flak from one side of the aisle, although there was some support, was to refinance the U.S. auto industry.

We just had an announcement in Avon Lake that the truck platform will be coming back to us from Mexico. So that is retention of jobs in Avon Lake. It is part of the rebirth of automotive and truck transportation across the north. We are producing vehicles like the Wrangler, one of the most popular vehicles in the country, obviously, and the new Cruze for General Motors.

But all the supplier chain, Republic Steel, they're putting in a new arc furnace. You're looking at the restoration of production. It's coming slowly, but it's coming. So we have to be proud of actions that were taken by the Government of the United States of America through the action of Congress and by the President to help save one of America's lodestar industries, which has now paid back its loans and is rehiring.

Mr. GARAMENDI. Let me just add to this. This was a result of the stimulus bill that put the money there, if need be, to rebuild certain sectors of America. President Obama courageously, and with enormous opposition from Re-

publicans, said, I will not let the American automotive industry die. This is a fundamental industry in the United States; I will not let it die.

And so he authorized the money that went to bail out General Motors and Chrysler. Ford didn't take advantage of it because they had a different financial situation. But the result of that is precisely what you've described. It is precisely the saving of the American automotive industry and all of supply chain that goes with it. A very courageous action by the President, one that worked for the benefit of America so that we can once again make it in America.

I'm going to wrap this up very quickly because I know you have a couple of things you want to talk about with regard to Wall Street.

Ms. KAPTUR. I would like to add one item, though.

Mr. GARAMENDI. Why don't you go ahead, and then I will wrap up at the end.

Ms. KAPTUR. Perfect. I just want to say a deep thanks to Congressman GARAMENDI for bringing us together tonight.

I wanted to say as a member of the China Commission, we had testimony yesterday from various witnesses on the economy, on the legal structure of China, on democracy and the lack thereof in that country. One of the points that we discussed was how closed the Chinese market is to products from around the world—much like Japan, much like Korea. You look at Singapore, many of the Asian nations keep our products out. And we're asking American companies to try to compete in a situation where our market is open and their market is closed. So we can't get access to those customers.

One of the points that was brought up by one of the top economists that testified before the China Commission was the fact that the Chinese Government backs those companies. Really, the government owns the companies, and they infuse billions of dollars. So think about this. The workers and companies of northern Ohio and the U.S. automotive industry are trying to compete in a global market where some of the major markets in the world, like Japan, are closed. And they've remained closed for decades. China does not welcome us in. We are literally competing against state-managed capitalism. It is not a free market. It is not a market economy we are dealing with. It is very controlled.

There was criticism by some that, oh gosh, look at Congress, they are helping the U.S. automotive industry. It showed a lack of understanding of what these companies face in the global marketplace. It is not a level playing field. It is simply not. And, unfortunately, we have never had a trade ambassador knowledgeable enough about the automotive industry—that came

out again yesterday—who can really successfully bargain to give us a level playing field in one of the most important industries that we have.

Mr. GARAMENDI. Let me just give you another example. I thank you for raising that very, very important issue.

Last year, this House by an overwhelming bipartisan vote set out to address the China situation. It was a piece of legislation that simply said that when any government anywhere around the world unfairly subsidizes its business sector in a way or to the detriment of American businesses, then that country will face sanctions. And specifically, it had to do with the Chinese currency. The Chinese currency is significantly undervalued, perhaps giving as much as a 20 percent advantage to China in its exports. Bipartisan, it passed here. It did not pass in the Senate. However, this year my Republican colleagues would not even allow that to come up for a vote here, even though it has now passed in the Senate. So the Chinese currency bill passed the Senate; it is languishing in this House. I do not understand why our Republican colleagues want to continue to allow China to have an unfair advantage.

I was going to wrap up with this. China subsidizes to a fare-thee-well its solar and wind industries. So much so that they have taken over the market and have led to the bankruptcy of a couple of American solar manufacturers, Solyndra being one example that is much discussed around here. But it was really as a result of China driving down the price of solar panels.

This bill, again one that I have introduced, and it comes directly from my district because we have a major wind farm and solar system there, it says that our tax money that presently goes to subsidize the purchase of solar systems and wind turbines must only be used to buy American-made wind turbines and solar panels. In other words, buy American, make it in America, and rebuild our industry.

I am going to just wrap up quickly.

It's the holiday season. It's that time when we think about our families. It's that time when we think about our communities. We have a real obligation here in the House of Representatives to put forth really solid legislation to support those men and women and families in America that, through no fault of their own, are unemployed or are having a very difficult time in making it in the current economy as wages are driven down and as opportunities for advancement are diminished.

□ 2110

What we hope for, and literally pray for, is a consensus, a compromise, in the next couple of days here on the floor of this House and with the Senate so that we can pass legislation that would actually help the American

workers, those that are unemployed and those that are seeking a job or have a job and are unable to make it, and with that payroll tax deduction put another \$1,000 in their pocket. And I want us to keep in mind that in America today there are 1.4 million children—1.4 million children—that are homeless. Their parents have lost their job, they've lost their home, and they're sleeping in cars. They're homeless. They may be able to find an opportunity at a motel. We've seen some of this on television. But this is in all of our communities. Every community in America has this problem.

And it's up to us here in Congress to use what compassion and wisdom we possess to find ways of addressing it. We have such an opportunity with the payroll tax deduction, with the welfare. And, unfortunately, the bill that passed here yesterday basically would put money into the right pocket through a payroll tax deduction or an unemployment check, and then take it out of the left pocket with an increase in fees, a reduction in medical services, the closing of clinics or other ways in which that money would be extracted.

Yes, it would balance. It wouldn't increase the deficit except for the working men and women of America. We think that's wrong, and we've offered a different solution.

My colleague from New York has come for a couple of short comments. I promised Ms. KAPTUR the last few moments of this. Welcome, Mr. TONKO. The East-West Show is back in session.

Mr. TONKO. Representative GARAMENDI, thank you again for leading us in what has been a very important discussion about job creation and job retention in our country. And I couldn't agree more than with your sentiments that include this concern about providing a benefit to the middle class in terms of a payroll tax holiday extender, but then also asking them to pay for that benefit. So it is like one hand is offering and the other hand is taking from our working families, middle class Americans. This is not the prescription for success.

What has been offered by the President is a payroll holiday extender, a tax holiday extender for both employers and employees. And there are many small businesses that stand to gain. The overwhelming majority of small businesses gain by that extension, and certainly the employees do. But it works best when you bring leverage into the equation that comes from the surcharge that is placed upon the most high income strata in our country.

And when you look at the charts from 1979 to the present day, there is no denying what statistics indicate. Facts can't be argued with. There has been this exponential rise in the growth of income for the top 1 percent to about 250 percent of an increase, all while, from 1979, middle-income Ameri-

cans have seen a flat-lining of their household income, and now it's even dipping. So why mess with this progress that has been realized, this steady climb upward—slow but steady—from an 8.2 million jobs loss hole? We have climbed steadily. Why would you mess with that obvious success that is coming back into the economy? Allow for America's middle class families to move forward, and allow for that benefit to be paid for by someone other than the middle class. Otherwise, it's giving and taking from the same audience. It makes no sense.

We stand by progress, we stand by progressive policy, and we stand by our middle class, our working families. Let's get it done for middle class America. Without a strong middle class, there is not a strong America.

Mr. GARAMENDI. I thank you very much, Mr. TONKO, for bringing that up.

I'm going to ask Ms. KAPTUR of Ohio to take the podium here and to tell us about Wall Street and some of the reforms that she is advocating.

Ms. KAPTUR. I thank the gentleman for yielding me this time and rise this evening on the subject of MF Global and the clear need for oversight by the Congress.

Mr. Speaker, Congress isn't doing its job to investigate the fraud that has infected our entire financial system, fraud perpetrated by Wall Street, and it has hurt the global financial system as well. I think the reason is that too many people have forgotten that gambling with other people's money often entices very addictive personalities who are incapable of self-policing. They need rules, they need limits, and they need oversight. Otherwise they just keep getting into the same trouble again and again, harming innocent people in the process by looting their assets.

The American people know that corruption on Wall Street is pervasive, and millions upon millions of our fellow citizens have been harmed by it. The Republican leadership in this House have failed in their responsibility to aggressively investigate crime in the financial services sector.

Earlier this month, I spoke about Bloomberg's report on how President Bush's Secretary of the Treasury, Hank Paulson, in 2000, inappropriately and behind closed doors in a private meeting tipped off his former colleagues at Goldman Sachs and a handful of Wall Street insiders about how Fannie Mae and Freddie Mac might collapse and what steps the government intended to take. All of this occurred on the very same day that Secretary Paulson led The New York Times to believe that those two companies would give a signal of confidence to the markets.

You can imagine what those financial insiders did with their investments before the rest of America was even aware.

I also reminded my colleagues that the Securities and Exchange Commission was finally rebutted recently in a New York court for settling fraud cases with major Wall Street banks like Citigroup in a way that allowed the biggest banks to walk away by simply paying a few fines without so much as admitting any wrongdoing.

I ask, where is this Congress' oversight of these most crucial financial machinations that have so harmed our Nation and world since the market crashed in 2008?

Finally, after months and months of press coverage, Congress is taking a tad of action. Last week, the House's Agriculture Committee held one of the first hearings we have seen all year. That hearing, called by Chairman FRANK LUCAS of Oklahoma and Ranking Member COLLIN PETERSON of Minnesota, began to shed some light on what is the eighth-largest bankruptcy in U.S. history at MF Global Holdings. Its misdeeds had been widely reported, but they deserve much closer scrutiny. We need to subpoena their full records and transactions that led to the collapse.

Even before last week's hearings, we knew that MF Global Holdings filed for Chapter 11 on October 30. Citizens in my district have been impacted and harmed as over \$1 billion disappeared from customer accounts. The Washington Post and other press reported weeks ago that the firm's CEO, former Governor Jon Corzine, had essentially placed a \$6.3 billion bet on the sovereign debt of several European Governments. After its most recent quarterly return showed almost \$200 million in losses, MF Global stock lost 67 percent of its value.

But this is not just a case of an investment firm being lured by the higher returns of riskier bonds. As investigators continue to piece together what happened at MF Global, there is increasing evidence of criminal activity. This case has all the trappings of a massive case of fraud.

Now, CME Group Incorporated, which audited MF Global's accounts, reported weeks ago that Mr. Corzine's company violated key Federal requirements to keep its accounts separate from their customer accounts. At last week's Agriculture Committee hearing, the public was once again told that as much as \$1.2 billion may still be missing from segregated customer accounts.

This isn't just a case of misplaced money. The financial press has been reporting a staggering amount of malfeasance in the days before MF Global filed for bankruptcy. In an apparent effort to buy themselves time, MF Global sent checks instead of wiring money. Many of those checks, we all know now, bounced. There are stories of requests to transfer funds being denied and even inaccurate account statements being issued. Even more egregious

are accounts of people receiving bounced checks going back and finding their accounts were also altered inappropriately. May I ask, if this doesn't sound like fraud, what is it?

□ 2120

The American people must demand more congressional oversight. Congress needs to produce more information.

I attended last week's hearing in the House Agriculture Committee. While some important questions were asked of Mr. Corzine, Congress' responsibility has been far from met. Anyone who carefully followed the hearing watched as Mr. Corzine dodged questions and provided hollow responses.

The Wall Street Journal provided us with an interesting assessment of Mr. Corzine's testimony that is worth entering in the RECORD. According to the Journal, Governor Corzine ducked or deflected questions 15 times. On five occasions, he used a well known strategy for avoiding accountability by using some variant of the phrase, "I did not intend to break any rules." He apologized or expressed regret six times for the damage his choices wrought on countless families and businesses. But the operative fact is \$1.2 billion; that is the amount that is missing from MF Global's segregated client funds for which Mr. Corzine could provide no explanation. In fact, astoundingly, this seasoned trader pleaded ignorance of what was happening at his own company.

Let me mention that the Commodity Futures Trading Commission, Jill Sommers, a representative who testified at the hearing, was very invaluable to public understanding.

The SPEAKER pro tempore (Mr. GRIFFITH of Virginia). The time of the gentleman from California has expired.

Ms. KAPTUR. Mr. Speaker, I believe that I have a Special Order and time remaining, my own Special Order for 30 minutes.

#### MF GLOBAL

The SPEAKER pro tempore. There being no majority Member to be recognized at this time, under the Speaker's announced policy of January 5, 2011, the gentlewoman from Ohio (Ms. KAPTUR) is recognized for 30 minutes.

Ms. KAPTUR. I thank the Speaker.

Let me rephrase this. At the hearing, the Commodity Futures Trading Commission's Jill Sommers' testimony was invaluable to the public. Her testimony places the MF Global collapse in proper perspective, and I'm quoting directly. She said:

"Lehman Brothers and Refco are the two most recent futures commission merchant bankruptcies. While the Lehman Brothers' bankruptcy was monumental in scale and the Refco bankruptcy involved serious fraud at the parent company, commodity customers

did not lose their money at either firm. In both instances, commodity customer accounts were wholly intact; that is they contained all open positions and all associated segregated collateral. That being the case, customer accounts were promptly transferred to healthy FCMs"—or futures commission merchants—"with the commodity customers having no further involvement in the bankruptcy proceeding. Unfortunately, that is not what happened at MF Global because customer accounts were not intact."

The fact that "customer accounts were not intact," as Commissioner Sommers described it, means that someone took other people's money. I believe most of us would call that theft. Even if some of the money is recovered by the bankruptcy process, that does not alter the fact that the process by which customer accounts were violated broke the law.

It is an understatement to say that many American families and businesses lost important investments. The mismanagement of this one firm has put hundreds of people's investments in jeopardy. They deserve answers. Congress has lead responsibility to ask hard questions, and here are some questions that demand reply.

On transfers of funds from customer accounts, Congress must ask examiners from Chicago Mercantile Exchange Group, who said that transfers at MF Global were made "in a manner that may have been designed to avoid detection," so let us ask: Should the person or persons who attempted to avoid this detection be held accountable, and how should that occur? It seems unlikely Mr. Corzine is not responsible. So which person, or persons, at MF Global made the decision to invade customer accounts? Congress must assure full tracing of those transactions.

A second group of questions should revolve around who are the responsible parties. If Mr. Corzine simply cannot recall or does not know what happened at MF Global, as he seemed to claim, who should Congress and investigators speak with at MF Global to ascertain his exact role and those of other top executives? Who's going to probe? That's the role of a congressional investigatory committee.

Who, besides Mr. Corzine, was directly responsible for segregating customer account funds from MF Global funds? Over \$1 billion did not walk off on its own. Some set of persons at MF Global moved those funds, and it's highly implausible that no one authorized that action. So what set of persons authorized those actions exactly?

Another set of questions should revolve around who approved MF Global's risk standards? We know that Michael Roseman, MF Global's former chief risk officer who resigned in March 2011, reportedly assessed that the strategy that MF Global was undertaking was too risky. Any assertion

that the strategy was prudent at the time, as Mr. Corzine is arguing, is against the facts of history because MF Global went bankrupt. Congress needs to take whatever steps are necessary to find out exactly who pressured Mr. Roseman to resign for blowing the whistle on the behavior inside that company.

Another set of questions can be asked about what other financial partners participated in MF Global's trades. There are allegations that the transfer of \$200 million to J.P. Morgan in the final days of MF Global was suspected by J.P. Morgan bankers of utilizing MF client funds. To what extent are these allegations true? At what point can we determine whether wire fraud was committed and, if so, by whom and to what extent? All of this begs the ultimate question of whether or not sufficient protections were exercised for customers to stop wire fraud.

Another set of questions can revolve around were any inside players aiding and abetting MF Global's behavior. We know that current Commodity Futures Trading Commission Chairman Mr. Gensler has recused himself from the case. Mr. Gensler actually worked for Mr. Corzine at Goldman Sachs, and they apparently carried on later in the same social and academic circles. The public has a right to know at what point Mr. Gensler had any knowledge or reason to believe that the customer accounts at MF Global might not have been intact; and then, how did he and his agency and his staff respond—day by day, hour by hour, email by email?

Finally, according to Reuters, companies like Koch Industries removed billions from MF Global just before it filed bankruptcy. How did that powerful company know when to take their money out and why did my constituents not know when to take their money out? Could, in fact, Koch Industries have gotten the same tip-off that Goldman's CEO Hank Paulson had given Freddie Mac investors and Fannie Mae investors just a few years before? How much of MF Global's money not wired rightfully belongs to the holders of segregated accounts that were inappropriately tapped by MF Global? How do my constituents get full restitution?

Yes, there are far too many questions—lots of questions—and far too few complete answers.

Yes, this Congress needs to take white collar crime more seriously. Who would accept an explanation, as we heard the other day, that "I did not intend to steal." It could be \$100 from the corner gas station, right? How can that be an acceptable answer for taking hundreds of millions and over \$1 billion?

Rigorous investigation matters. Congress needs more robust hearings. We need more thorough investigations.

□ 2130

What should concern all of us is that the financial industry's fraud and imprudence, yes, addictive behavior, is not limited to a case here or there. In the financial services sector, fraud has become systemic. It is endemic. It has harmed our Nation's economy to its vitals and has hurt millions of people across our country and the financial systems of other countries.

In 2009, the FBI testified before the House Judiciary Committee that the current financial crisis, and I'm quoting directly, "has produced one unexpected consequence: it has exposed prevalent fraud schemes that have been thriving in the global financial system. These fraud schemes are not new, but they are hitting the economy hard and the public is hurting as a result of market deterioration."

What a true statement. Regretfully, this isn't the first time that our country has seen a crime wave in the financial services industry. Indeed, the crimes and addictive behavior seem to be getting bigger, not smaller.

In the 1980s, it was the savings and loan crisis. Then the FBI responded with a staff of 1,000 agents and forensic experts based in 27 cities.

Do you know how many they had over there when this started? Forty-five. You could count them on your own hands.

Perpetrators went to jail back then but, rather, the Congresses at that time ignored the warnings of what had happened, and they gave an even bigger green light during the 1990s to more abuse by removing the rules of the road for banking during the 1990s.

Example, the upending of the Glass-Steagall Act in the late 1990s that blew the lid off prudent banking and allowed bankers and speculators to be in the same company. And look what has happened. We need to restore the Glass-Steagall Act, and I have a bill to do that, and there are dozens and dozens of cosponsors on that bill.

In 2000, the surreptitious undermining of derivative regulation by this Congress led to Wall Street's bullish plunder that we are now experiencing again, the result of addictive behavior of the 2000s.

You know, when you go back to the savings and loan crisis, that was much smaller than what we are enduring today. That is why I have a straightforward bill, H.R. 1350, the Financial Crisis Criminal Investigation Act. It authorizes an additional 1,000 agents and forensic experts for the white collar crime division of the FBI to investigate and prosecute these financial crimes. I encourage all of my colleagues to join me as a cosponsor. The Bureau does not have anywhere near the resources it needs to take on crimes of this magnitude and dimension.

Congress has long debated what level of regulation is needed to restrain fi-

nancial addicts. There should be no debate about the need to uphold the law, to recover innocent people's money, to prosecute the addicted gamblers, to set a strict standard of behavior in the financial sector so it simply never happens again, so that we can restore confidence and regular order, not insider abuse, to America's financial markets.

I think this Congress has an awesome responsibility to do its job, and it should not fear anyone. The committees of this House should be working overtime to probe the truth, to find the truth, to get at the truth of those who have harmed America, that have put so many millions of people out of work, where so many homes have been foreclosed that the property values of this country can't even find their footing at this point.

It's affecting capital formation; it's affecting the ability of local banks to make loans because they're not sure what's going to happen to valuation on their books. What could be more serious than the committees of this Congress doing their job?

I want to commend Congressman LUCAS of Oklahoma. I want to commend Congressman PETERSON of Minnesota. Wouldn't it be wonderful if they could continue their important work, but that the other committees of this Congress that have responsibility for oversight, Government Oversight and Reform, the Judiciary Committee, the Financial Services Committee, the Energy and Commerce Committee, were actually to do the work that needs to be done to put this country's banking and financial system back in a decent position with prudent rules and to finally quash the addictive behavior that has brought our country to this very dangerous point?

[From the New York Times, Dec. 11, 2011]

A ROMANCE WITH RISK THAT BROUGHT ON A PANIC

(By Azam Ahmeo, Ben Protess and Susanne Craig)

Soon after taking the reins of MF Global in 2010, Jon S. Corzine visited the Wall Street firm's Chicago offices for the first time, greeting the brokers, analysts and sales staff there.

One broker, Cy Monley, caught Mr. Corzine's eye. Unknown to MF Global's top management in New York, the employee, whose job was to match buyers and sellers in energy derivatives, was also trading a small account on the side, using the firm's capital.

"How are you making money on side bets? What else are you guys doing to make money here?" Mr. Corzine asked enthusiastically, his eyes widening, the broker recalled. The new chief executive grabbed a seat and spent an hour questioning Mr. Monley as other top executives from New York hovered impatiently nearby.

Although Mr. Corzine had been a United States senator, governor of New Jersey, co-head of Goldman Sachs and a confidant of leaders in Washington and Wall Street, he was at heart a trader, willing to gamble for a rich payoff.

Dozens of interviews reveal that Mr. Corzine played a much larger, hands-on role

in the firm's high-stakes risk-taking than has previously been known.

An examination of company documents and interviews with regulators, former employees and others close to MF Global portray a chief executive convinced that he could quickly turn the money-losing firm into a miniature Goldman Sachs.

In the final days before filing for bankruptcy, MF Global moved an estimated \$1.2 billion of customer funds to other institutions.

He pushed through a \$6.3 billion bet on European debt—a wager big enough to wipe out the firm five times over if it went bad—despite concerns from other executives and board members. And it is now clear that he personally lobbied regulators and auditors about the strategy.

His obsession with trading was apparent to MF Global insiders over his 19-month tenure. Mr. Corzine compulsively traded for the firm on his BlackBerry during meetings, sometimes dashing out to check on the markets. And unusually for a chief executive, he became a core member of the group that traded using the firm's money. His profits and losses appeared on a separate line in documents with his initials: JSC.

After joining MF Global, Jon S. Corzine invested heavily in the debt of troubled European countries.

Yet few appeared willing to check Mr. Corzine's trading ambitions.

The review of his tenure also sheds new light on the lack of controls at the firm and the failure of its watchdogs to curb outside risk-taking. The board, according to former employees, signed off on the European bet multiple times. And for the first time it is now clear that ratings agencies knew the risks for months but, as they did with subprime mortgages, looked the other way until it was too late, underscoring how three years after the financial crisis, little has changed on Wall Street.

MF Global filed for bankruptcy on Oct. 31. As the firm spun out of control, it improperly transferred some customer money on Oct. 21—days sooner than previous thought, *-F-s-gd* people briefed on the matter. And investigators are now examining whether MF Global was getting away with such illicit transfers as early as August, one person said, a revelation that would point to wrongdoing even before the firm was struggling to survive.

The consequences of the firm's collapse have been severe: Some \$1 billion in customer money remains missing and thousands of clients, including small farmers in Kansas or hedge funds in Connecticut, still do not have nearly a third of their funds.

Some of that money may never be recovered if, as some regulators now fear, MF Global used it to cover trading losses and replenish overdrawn bank accounts.

The bet on European sovereign debt is not thought to be directly connected to the missing money. But the fears about the firm's exposure to Europe tipped an anxious market, causing a run on MF Global that regulators suspect led the firm to fight for its life using customer money.

Mr. Corzine has not been accused of any wrongdoing. Through a spokesman, he declined to comment for this article.

While Mr. Corzine apologized for the firm's collapse when he appeared before the House Agriculture Committee on Thursday, he has continued to defend the European trade, calling it "prudent" at the time.

The European trade was initiated by Mr. Corzine late in the summer of 2010. The new

chief executive explained the bet to a small group of top traders, arguing that Europe would not let its brethren default. In just a few months, the trade swelled to \$6.3 billion, from \$1.5 billion.

Europe's debt crisis, meanwhile, continued to flare, raising questions about whether some of the Continent's bigger economies, Spain and Italy, might be ensnared in the maelstrom.

In August, some directors questioned the chief executive, asking him to reduce the size of the position. Mr. Corzine calmly assured them they had little to fear.

"If you want a smaller or different position, maybe you don't have the right guy here," he told them, according to a person familiar with the matter. He also told one senior board member that he would "be willing to step down" if they "had lost confidence in me." Mr. Corzine told Congress on Thursday, although he said he had not intended to make a threat.

The board relented.

#### A CURIOUS CAREER MOVE

Few would have guessed that Mr. Corzine, having led Goldman Sachs before serving in the Senate and as a governor of New Jersey, would wind up the chief executive of a little-known brokerage house.

At Goldman, which he joined in 1975, the young bond trader quickly gained a reputation as someone able to take big risks and generate big profits. Even after ascending to the top of the firm, he kept his own trading account to make bets with the firm's capital. In 1999, Mr. Corzine was ousted from Goldman amid a power struggle.

By 2010, having suffered a stinging defeat in his bid for re-election as the Democratic governor of New Jersey, Mr. Corzine hoped to resume his career on Wall Street.

A friend, J. Christopher Flowers, one of MF Global's largest investors, helped him get there. Mr. Corzine and Mr. Flowers worked at Goldman decades ago, and at one point, Mr. Flowers helped manage Mr. Corzine's vast wealth while he was a senator, according to Congressional records.

Mr. Corzine's arrival was a coup. MF Global had hired an executive search firm, Westwood Partners, to hunt for a new leader. But some members of the board, including David I. Schamis, who worked for Mr. Flowers, were recruiting Mr. Corzine.

He was a popular manager, former employees say. An avuncular presence with a beard and sweater vest, he had a knack for remembering names. Even in the firm's final hours, they recall that Mr. Corzine never lost his temper. His work ethic also impressed colleagues. He often started his day with a five-mile run, landing in the office by 6 a.m. and was regularly the last person to leave the office.

His intense routine was on par with his ambitions for the firm. With 15 top executives in the firm's boardroom on his first day, March 23, 2010, he said, "I think this firm has tremendous potential and I can't wait to get started," one person who attended said.

Mr. Corzine faced a steep challenge.

For years, MF Global aligned buyers and sellers of futures contracts for commodities like wheat or metals, and took a small commission along the way. But over the last decade, that business had become endangered. By the time Mr. Corzine arrived, near zero-percent interest rates and paper-thin commissions had led to five consecutive quarters of losses.

Soon after taking the helm, Mr. Corzine oversaw a wave of job cuts and overhauled

compensation, moving from steady commissions to salary and discretionary bonuses like the rest of Wall Street.

At the same time, Mr. Corzine filled the ranks with employees from Goldman Sachs and hedge funds like the Soros Fund Management. He recruited Bradley Abelow, a fellow Goldman alumnus and a top aide when he was governor, to be chief operating officer.

Mr. Corzine arrived just as Washington was pressing the big banks to curb their lucrative yet risky businesses. Spotting an opening, he fashioned new trading desks, including one just for mortgage securities and a separate unit to trade using the firm's own capital, a business known as proprietary trading.

Not to be outdone, Mr. Corzine was the most profitable trader in that team, known as the Principal Strategies Group, according to a person briefed on the matter. Mr. Corzine traded oil, Treasury securities and currencies and earned in excess of \$10 million for the firm in 2011, the person said.

Some inside MF Global worried that the expansion of the profitable trading business in New York came at the expense of its futures clearing operation, which was centered in Chicago. To drum up sales, Chicago brokers were pushed to introduce longtime clients to their counterparts in New York, a move that raised tensions.

At times, Mr. Corzine seemed unfamiliar with some aspects of the futures division. In June, speaking at the Sandler O'Neill Financial Services Conference at the St. Regis Hotel in Manhattan, Mr. Corzine stumbled. "Right now, if you thought about MF Global's retail business, you probably could only think of—" he said, then paused to recall the name of the division at MF Global that catered to individual investors.

He leaned over to an aide, who told him it was Lind-Waldock.

"Chief Risk Officer"

"I consider one of my most important jobs to be chief risk officer of our firm," Mr. Corzine told that conference.

Yet soon after joining MF Global, Mr. Corzine torpedoed an effort to build a new risk system, a much-needed overhaul, according to former employees. (A person familiar with Mr. Corzine's thinking said that he saw the need to upgrade, but that the system being proposed was "unduly expensive" and was focused in part on things the firm didn't trade.)

While risk at the firm had been sharply increased with the bet on European sovereign debt, there was a compelling argument for Mr. Corzine's strategy.

MF Global had obtained loans to buy debt of Italy, Ireland and other troubled European nations, while simultaneously pledging the bonds as collateral to support the loans. The loans would come due when the bonds matured, which would happen no later than the end of 2012. MF Global, Mr. Corzine reckoned, would profit on the spread between the interest paid on the loans and the coupons earned from the bonds.

But the size of the European position was making the firm's top risk officers, Michael Roseman and Talha Chaudhry, increasingly uncomfortable by late 2010, according to people familiar with the situation. They pushed Mr. Corzine to seek approval from the board if he wanted to expand it.

Mr. Roseman then gave a PowerPoint presentation for board members, explaining the sovereign debt trade as Mr. Corzine sat a few feet away. The presentation made clear the risks, which hinged on the nations not defaulting or the bonds losing so much value

they caused a cash squeeze. The directors approved the increase. Mr. Roseman eventually left the firm.

Within MF Global, Mr. Corzine welcomed discussion about his bet and his reasons for it, though some senior managers said they feared confronting such a prominent figure. Those who did challenge him recall making little progress. One senior trader said that each time he addressed his concerns, the chief executive would nod with understanding but do nothing.

These concerns were only internal at first because, while MF Global had disclosed the existence of the transactions in at least one filing in 2010, it never mentioned the extent to which they were used to finance the purchase of European debt.

The firm bought its European sovereign bonds making use of an arcane transaction known as repurchase-to-maturity. Repo-to-maturity allowed the company to classify the purchase of the bonds as a sale, rather than a risky bet subject to the whims of the market. That called to mind an earlier era of trading when firms used repo-to-maturity to finance the purchase of risk-free assets like United States Treasury securities. Mr. Corzine's specialty at Goldman many years earlier.

"It's like a bond trader from 15 years ago went to sleep and suddenly awoke to make these trades," one regulator who later reviewed the transactions remarked to a colleague.

Eventually, MF Global's auditor, PricewaterhouseCoopers, asked Mr. Corzine to report the European debt exposure to his investors. He personally met with the accounting firm in December 2010, two people said, and it was agreed that the transactions would be mentioned in a footnote in the firm's annual report, which was filed on May 20, 2011.

Mr. Speaker, I thank you very much for the time this evening, I thank my colleagues and those who are listening, and I yield back my remaining time.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 9 o'clock and 35 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 2339

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. DOLD) at 11 o'clock and 39 minutes p.m.

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. DIAZ-BALART (at the request of Mr. CANTOR) for today through December 16 on account of a family medical issue.

#### ADJOURNMENT

The SPEAKER pro tempore. Without objection, the House stands adjourned

until 10 a.m. tomorrow for morning-hour debate.

There was no objection.

Accordingly (at 11 o'clock and 40 minutes p.m.), under its previous order, the House adjourned until tomorrow, Thursday, December 15, 2011, at 10 a.m.

#### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

4297. A letter from the Under Secretary of Defense (Comptroller), Associate Director of National Intelligence, National Geospatial-Intelligence Agency, transmitting a report of a violation of the Antideficiency Act, National Geospatial-Intelligence Agency case number 10-04; to the Committee on Appropriations.

4298. A letter from the Chairman and President, Export-Import Bank, transmitting a report on transactions involving U.S. exports to the Kingdom of Saudi Arabia pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

4299. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting a report concerning methods employed by the Government of Cuba to comply with the United States-Cuba September 1994 "Joint Communiqué" and the treatment by the Government of Cuba of persons returned to Cuba in accordance with the United States-Cuba May 1995 "Joint Statement", together known as the Migration Accords; to the Committee on Foreign Affairs.

4300. A letter from the Chairman, Broadcasting Board of Governors, transmitting the semiannual report on the activities of the Office of Inspector General for the period from April 1, 2011 to September 30, 2011, pursuant to 5 U.S.C. app. (Insp. Gen. Act), section 5(b); to the Committee on Oversight and Government Reform.

4301. A letter from the Acting Staff Director, Commission on Civil Rights, transmitting the Commission's Performance and Accountability Report for fiscal year 2011; to the Committee on Oversight and Government Reform.

4302. A letter from the Chief Human Capital Officer, Corporation for National and Community Service, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

By Mr. CARNAHAN (for himself, Mr. BURTON of Indiana, Mr. CONNOLLY of Virginia, Mrs. ELLMERS, Mr. JONES, and Mr. WELCH):

H.R. 3660. A bill to establish the United States Office for Contingency Operations, and for other purposes; to the Committee on Foreign Affairs, and in addition to the Committees on Armed Services, and Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. TIBERI (for himself, Mr. NEAL, Mr. BUCHANAN, Mr. RANGEL, Mr. GERLACH, Mr. CROWLEY, Mr. TERRY, Mr. PASCRELL, and Mr. CLEAVER):

H.R. 3661. A bill to amend the Internal Revenue Code of 1986 to make permanent and expand the temporary minimum credit rate for the low-income housing tax credit program; to the Committee on Ways and Means.

By Mr. MCKEON (for himself, Mr. RUNYAN, Mr. AKIN, Mr. THORNBERRY, Mrs. HARTZLER, Mr. SHUSTER, Mr. AUSTIN SCOTT of Georgia, Mr. ROONEY, Mr. ROGERS of Alabama, Mr. TURNER of Ohio, Mr. PLATTS, Mr. BROOKS, Mr. HUNTER, Mr. WEST, Mr. CONAWAY, Mr. FLEMING, Mr. MILLER of Florida, Mr. LAMBORN, Mr. KLINE, Mr. RIGELL, Mr. WILSON of South Carolina, Mr. YOUNG of Florida, Mr. LOBIONDO, Mr. FRANKS of Arizona, Mr. PALAZZO, and Mrs. BLACKBURN):

H.R. 3662. A bill to amend the Balanced Budget and Emergency Deficit Control Act of 1985 to modify the discretionary spending limits to take into account savings resulting from the reduction in the number of Federal employees; to the Committee on Oversight and Government Reform, and in addition to the Committee on the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HURT (for himself, Mrs. HARTZLER, Mr. LUETKEMEYER, and Mr. LANKFORD):

H.R. 3663. A bill to amend the Federal Power Act to require the Federal Energy Regulatory Commission to minimize infringement on the exercise and enjoyment of

property rights in issuing hydropower licenses, and for other purposes; to the Committee on Energy and Commerce.

By Mr. BILBRAY (for himself and Mr. COHEN):

H.R. 3664. A bill to provide local communities with tools to make solar permitting more efficient, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on Science, Space, and Technology, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. DELAULO (for herself, Mr. WELCH, and Mr. BOSWELL):

H.R. 3665. A bill to require the Commodity Futures Trading Commission to impose fees and assessments to recover the cost of appropriations to the Commission; to the Committee on Agriculture.

By Mr. HULTGREN (for himself and Ms. KAPTUR):

H.R. 3666. A bill to direct the Secretary of Transportation to establish a program to assist veterans to acquire commercial driver's licenses, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mrs. McMORRIS RODGERS (for herself and Mr. THOMPSON of California):

H.R. 3667. A bill to provide for a Medicare primary care graduate medical education pilot project in order to improve access to the primary care workforce; to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MEEHAN (for himself and Ms. LINDA T. SANCHEZ of California):

H.R. 3668. A bill to prevent trafficking in counterfeit drugs; to the Committee on the Judiciary.

By Mr. RENACCI (for himself, Mr. QUIGLEY, Mr. BUCSHON, Mr. SCHRAEDER, Mr. OWENS, Mr. CARNEY, Mr. HIMES, and Mr. WEBSTER):

H.R. 3669. A bill to improve the accuracy and transparency of the Federal budget process; to the Committee on the Budget, and in addition to the Committees on Rules, Oversight and Government Reform, and Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. WALZ of Minnesota (for himself, Mr. BILIRAKIS, and Mr. OWENS):

H.R. 3670. A bill to require the Transportation Security Administration to comply with the Uniformed Services Employment and Reemployment Rights Act; to the Committee on Homeland Security, and in addition to the Committee on Veterans' Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ROGERS of Kentucky:

H.R. 3671. A bill making consolidated appropriations for the fiscal year ending September 30, 2012, and for other purposes; to the Committee on Appropriations, and in addition to the Committee on the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ROGERS of Kentucky:

H.R. 3672. A bill making appropriations for disaster relief requirements for the fiscal

year ending September 30, 2012, and for other purposes; to the Committee on Appropriations, and in addition to the Committee on the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. McKEON:

H. Con. Res. 92. Concurrent resolution directing the Clerk of the House of Representatives to correct the enrollment of the bill H.R. 1540; considered and agreed to.

By Mr. SHUSTER:

H. Con. Res. 93. Concurrent resolution providing for a correction to the enrollment of the bill H.R. 2845; considered and agreed to.

By Mr. ROGERS of Kentucky:

H. Con. Res. 94. Concurrent resolution directing the Clerk of the House of Representatives to make corrections in the enrollment of H.R. 3672; to the Committee on Appropriations, and in addition to the Committee on House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CARTER:

H. Res. 495. A resolution recognizing the November 5, 2009, attack on Fort Hood, Texas, as an act of radical Islamic terrorism and Jihad; to the Committee on Armed Services.

By Mr. DANIEL E. LUNGREN of California:

H. Res. 496. A resolution adjusting the amount provided for the expenses of certain committees of the House of Representatives in the One Hundred Twelfth Congress; to the Committee on House Administration.

## CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. BLUMENAUER:

H.R. 3658.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 18 of the Constitution.

By Mr. PAULSEN:

H.R. 3659.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 of the United States Constitution, to "provide for the common Defence and general Welfare of the United States."

By Mr. CARNAHAN:

H.R. 3660.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 1. "All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and a House of Representatives."

By Mr. TIBERI:

H.R. 3661.

Congress has the power to enact this legislation pursuant to the following:

This bill makes changes to existing law relating to Article I, Section 8 which provides that "The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the

common Defense and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States;" and Article 1, Section 7 which provides that "All bills for raising Revenue shall originate in the House of Representatives."

By Mr. McKEON:

H.R. 3662.

Congress has the power to enact this legislation pursuant to the following:

The constitutional authority on which this bill rests is the power of Congress to "provide for the common defense," "raise and support armies," and "provide and maintain a navy," as enumerated in Article I, Section 8 of the United States Constitution.

By Mr. HURT:

H.R. 3663.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3 of the Constitution of the United States.

By Mr. BILBRAY:

H.R. 3664.

Congress has the power to enact this legislation pursuant to the following:

Article 1 Section 8 of the U.S. Constitution reads in part: To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

By Ms. DELAULO:

H.R. 3665.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clauses 3 and 18 of the United States Constitution.

By Mr. HULTGREN:

H.R. 3666.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, Clause 18: To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States or in any Department or Officer thereof.

By Mrs. McMORRIS RODGERS:

H.R. 3667.

Congress has the power to enact this legislation pursuant to the following:

The bill is enacted pursuant to the power granted to Congress under Article I, Section 8, clause 3 to regulate Commerce with foreign nations and among the several States.

By Mr. MEEHAN:

H.R. 3668.

Congress has the power to enact this legislation pursuant to the following:

This bill is enacted pursuant to Article I, Section 8, Clause 3 of the Constitution of the United States and Article I, Section 8, Clause 18 of the Constitution of the United States.

By Mr. RENACCI:

H.R. 3669.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 9, Clause 7 of the United States Constitution, and Article 1, Section 8, Clause 1 of the United States Constitution.

By Mr. WALZ of Minnesota:

H.R. 3670.

Congress has the power to enact this legislation pursuant to the following:

This bill is enacted pursuant to the power granted to Congress under Article I, Section 8 of the United States Constitution.

By Mr. ROGERS of Kentucky:

H.R. 3671.

Congress has the power to enact this legislation pursuant to the following:

The principal constitutional authority for this legislation is clause 7 of section 9 of article I of the Constitution of the United States (the appropriation power), which states: "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law . . . ." In addition, clause 1 of section 8 of article I of the Constitution (the spending power) provides: "The Congress shall have the Power . . . to pay the Debts and provide for the common Defence and general Welfare of the United States . . . ." Together, these specific constitutional provisions establish the congressional power of the purse, granting Congress the authority to appropriate funds, to determine their purpose, amount, and period of availability, and to set forth terms and conditions governing their use.

By Mr. ROGERS of Kentucky:

H.R. 3672.

Congress has the power to enact this legislation pursuant to the following:

The principal constitutional authority for this legislation is clause 7 of section 9 of article I of the Constitution of the United States (the appropriation power), which states: "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law . . . ." In addition, clause 1 of section 8 of article I of the Constitution (the spending power) provides: "The Congress shall have the Power . . . to pay the Debts and provide for the common Defence and general Welfare of the United States . . . ." Together, these specific constitutional provisions establish the congressional power of the purse, granting Congress the authority to appropriate funds, to determine their purpose, amount, and period of availability, and to set forth terms and conditions governing their use.

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 190: Mr. DOYLE.

#### CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks,

limited tax benefits, or limited tariff benefits were submitted as follows:

OFFERED BY MR. ROGERS OF KENTUCKY

H.R. 3671, the Consolidated Appropriations Act, 2012, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

OFFERED BY MR. CAMP

The provisions that warranted a referral to the Committee on Ways and Means in the Welfare Integrity and Data Improvement Act do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

OFFERED BY MR. ROGERS OF KENTUCKY

H.R. 3672, the Disaster Relief Appropriations Act, 2012, does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## SENATE—Wednesday, December 14, 2011

The Senate met at 9:30 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal and ever blessed God, strengthen our Senators today to walk in Your steps. Help them to walk in Your humility so that they will strive to serve. Help them to walk in Your courage so that nothing will deflect them from the path of integrity. Help them to walk in Your endurance so that discouragement will not hinder them from reaching laudable goals. Help them to walk in Your loyalty so that nothing will destroy their devotion to You.

Lord, place Your truth in their minds, Your love in their hearts, and Your kindness on their lips.

We pray in Your merciful Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. INOUE).

The assistant legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, December 14, 2011.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York, to perform the duties of the Chair.

DANIEL K. INOUE,  
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the Chair as Acting President pro tempore.

### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### SCHEDULE

Mr. REID. Madam President, following leader remarks, the Senate will be in a period of morning business for 1 hour with the majority controlling the first half and the Republicans controlling the final half.

Following that morning business, the Senate will resume consideration of S.J. Res. 10 and S.J. Res. 24. Both of these resolutions regard the balanced budget amendment. At approximately 10:45, there will be two votes on those resolutions.

We also hope to consider the Department of Defense authorization conference report today as well as the House Republican payroll tax bill.

### PROTECTING MIDDLE-CLASS WORKERS

Mr. REID. Madam President, this has become a familiar scene on Capitol Hill. As time ticks down to the wire, the House has sent the Senate yet another bill that will not pass. Meanwhile, American families stare down a \$1,000 tax increase, and on January 1 they will be scrambling to afford the necessities because of Republican obstructionism that Americans don't understand.

It has become the Republican fall-back play: Waste precious time catering to tea party extremists when they could be working with Democrats to compromise.

Republican leaders have already spent weeks drumming up tea party support for legislation they knew was dead on arrival in the Senate. Now it is time to get this vote over with so real negotiations can begin to prevent a tax increase on 160 million middle-class Americans.

This morning I will ask unanimous consent to vote on the House-passed bill. Democrats were ready to vote on this legislation last night, but I can't set a vote at this time under Senate procedures without Senator MCCONNELL's approval. Even though we already knew the bill was dead, Senator MCCONNELL wasn't ready to hold a vote on it last night.

That is an about-face from just a few hours before—even as recently as yesterday morning, Tuesday morning—and on Monday, for example, when Sen-

ator MCCONNELL urged us to take up the House bill as soon as possible.

This is what he said:

My suggestion is that once this legislation comes over from the House, we pass it without delay.

That is what I tried to do last night—not pass it but at least have a vote on it.

Senator MCCONNELL repeated that call yesterday morning—Tuesday morning. Here is what he said yesterday morning:

I would suggest that our friends put the political games aside and give the American people the certainty and the jobs that they deserve. Take up the House bill, pass it right here in the Senate, and send it to the President . . . without theatrics and without delay.

Then yesterday afternoon Senator MCCONNELL said:

The first thing we need to find out is whether there are the votes in the Senate to pass what the House has passed.

So I say to my friend the Republican leader let's find out whether he has the votes in the Senate to pass what the House has passed. Let's vote on this now. We knew Monday the bill wouldn't pass the Senate, we also knew yesterday this bill wouldn't pass the Senate, and we still know it will not pass the Senate.

Here is why this legislation is a non-starter. I will give 3 of about 33 reasons: The bill cuts unemployment benefits for 1 million Americans at a time when there are not jobs for one out of every four people seeking work. It weakens safeguards that keep our air clean and our children healthy, and the President has already threatened to veto it. In fact, he said he will veto it.

Legislation written to appeal only to the extreme rightwing of the Republican Party can't pass the Senate. Republicans will see that again, whenever they allow us to vote on this legislation that my friend, the Republican leader, said let's vote on right away. Right away was last night.

So let's get this vote over with. Then we can begin serious negotiations on how to prevent a \$1,000 tax hike on American families. The sooner we put this useless, partisan charade behind us, the sooner we can negotiate a true bipartisan solution that protects middle-class workers.

Madam President, there has been a lot of talk about let's get to the omnibus, and let's pass it. However, it is not complete. There are major issues. We have made significant progress. There are still critical issues to be ironed out. There are issues that deal with foreign policy. There are issues that deal with

the environment. There are issues that deal with—we have about seven or eight—what some would refer to as game stoppers. We could complete that work, but it is something that is not done now.

There is no reason, while that work is continuing, to hold up the middle-class tax cut. Congress is not going to go home for vacation—remember, the bill that some want to pass, the omnibus bill, takes care of us, it takes care of legislators. It has Legislative Branch appropriations in it. So we shouldn't go home until we finish the business of the American people.

Preventing a \$1,000 tax increase on American families is the most pressing business we have, and we are not going to allow Republicans in Congress to take care of themselves without taking care of middle-class families as well.

We hope to complete this important work soon—this week. If we can't, we should pass a short continuing resolution to keep the government open while we work through each compromise. We have passed short-term CRs many times before, and we should do it again if that is what it takes to prevent a tax on the middle class.

The bottom line is this: It is time for the two sides to come together and compromise. As I told the Speaker Monday and as I spoke on the floor yesterday and I have said this to my friend the Republican leader the House can't pass legislation that will succeed over here unless they get Democrats to support their legislation. We cannot pass legislation here because of how the Republicans have set not a majority rule but we have to get 60 votes. We can't get 60 votes unless we get Republican assistance. So we need to compromise. Legislation is there to compromise, but it might take a little more time. Republicans should give Congress a few more days to finish its job rather than rushing home for vacation.

I have already talked about the importance of doing this legislation as quickly as we can. I think it is extremely important, and we understand that it could be done—the vote could take place, and it would take 20 minutes to do that.

#### UNANIMOUS CONSENT REQUESTS

Mr. REID. Madam President, I ask unanimous consent that following the two scheduled votes in the Senate, we proceed to the consideration of H.R. 3630, which is the House-passed legislation—the House-passed legislation that, out of 435 Members of Congress, got 10 Democratic votes—that there be 2 hours of debate equally divided between the two leaders or their designees prior to a vote on passage of the bill; that no amendments be in order prior to a vote on passage, and that the vote on passage be subject to a 60-vote

threshold—which my friend, the Republican leader, seems to believe is the standard around here anymore—further, that if the bill is not passed, it remain the pending business, and that following I be recognized.

The ACTING PRESIDENT pro tempore. Is there objection?

The Republican leader.

Mr. MCCONNELL. Madam President, reserving the right to object, our most immediate concern at this point is that despite Federal funding expiring 2 days from now—Friday night—my friend the majority leader is blocking action on the funding bill to keep the government open. That is our most immediate concern, and we should address it first because the deadline is literally just 2 days away. That comes first.

My good friend the majority leader has said shutting the government down would be extreme and that it is too risky to even entertain, and that issue is just 2 days away. Everyone knows the truth is that the bill would fund our troops, our border security, and the remaining funding for the rest of the fiscal year, and it is ready to go. They were prepared to sign the conference report earlier this week until leadership on this side said don't sign the report.

There is agreement on the funding bill but no agreement and no plan at all about how we are going to pass the payroll tax cut extension in the Senate. So we ought to finish our most immediate concern first.

Let me repeat that our friends across the aisle have no plan, and some might suggest no desire, to pass a payroll tax cut extension—the President's top priority—extend unemployment insurance or ensure seniors' access to medical care. They have made no attempt at all to produce a bill that can pass the Senate. It is their responsibility in the majority to do that. Instead, we have wasted week after week after week on one senseless show vote after another—votes that one member in the Democratic Senate leadership recently admitted were designed solely to score points on millionaires.

So let's deal first with the deadline that happens this Friday, 2 days from now—fund the government through the rest of the fiscal year—and then turn immediately to the payroll tax extension that expires later in January, and let's pass the job-creating and job-saving measures the House has passed.

Therefore, Madam President, I ask unanimous consent to modify the majority leader's request to say as follows: that the Senate would turn to the consideration of the House bill relating to the payroll tax repeal extension immediately after the Senate passes a conference report or a bill received from the House that funds the government through the end of the fiscal year.

The ACTING PRESIDENT pro tempore. Does the majority leader so modify the request?

Mr. REID. Reserving the right to object, my friend is living in a world of nonreality. Let's look for a way out.

The House of Representatives, which has a significant majority of Republicans, last week couldn't even pass a bill. That was in all the press. They couldn't get the votes. So what they did, in an effort to placate the far right so they could pass a bill with Republican votes, they stuck in a bunch of issues that are hard to comprehend—issues dealing with the environment that have nothing to do with this bill. Even a Republican Senator said that bill, standing alone, looks OK, but jammed in with everything else it doesn't look so good. They should be separate issues.

We have issues on the so-called omnibus or spending bill that have not yet been resolved, one dealing with Cuba, a very important piece of legislation in the minds of many Senators. One of the Senators who believes so strongly that this provision should be taken out is a Republican Senator from Florida. We have issues dealing with the environment which are extremely important: light bulbs, coal, and many other issues that haven't been resolved in this so-called omnibus.

So, Madam President, I think everyone can see very clearly that my friends on the other side of the aisle obviously want to have the government shut down.

As I have said before, and I will say again, they have had experience doing this. The presumptive Republican nominee Newt Gingrich tried that once and it didn't work so well. So I don't think it is going to work very well again. Everyone knows why the government is going to shut down, if, in fact, it does.

We have 160 million Americans who are out there cheering for us—cheering for us—that we can get them the tax relief they deserve. We have well more than 1 million Americans who have been out of work for a long period of time who are cheering for us. We have businesspeople out there who are cheering for us, that there are certain tax benefits that are important to creating jobs that we need to do before we leave here.

So, Madam President, I object and ask unanimous consent that if the Senate receives from the House a bill that continues funding for the Federal Government through December 21, 2011, it be in order for the majority leader, in consultation with the Republican leader, to proceed to the bill; further, that the bill be read three times and passed, all with no intervening action or debate.

The ACTING PRESIDENT pro tempore. Objection is heard for the first request.

Is there objection to the second request?

Mr. MCCONNELL. Madam President, I am not sure what the majority leader just said.

Mr. REID. Madam President, what I said is, I ask that if we get a bill from the House to have a CR, a continuing resolution, for another few days, that we be allowed to take it up. Under the rules of the Senate and the Congress, I cannot initiate a CR here. It is a tax measure and constitutionally has to start over there. So I have said that if the Senate receives from the House a bill that continues funding for the Federal Government—I said through December 21—any reasonable time is fine with me—it be in order for me, after I talk to the Republican leader, to proceed to the bill.

Mr. MCCONNELL. Madam President, reserving the right to object, we do not need to do that.

Representative JIM MORAN, Democrat of Virginia, one of the top members on the House Appropriations Committee, said this yesterday:

Our bill is done, and it should go to the president immediately. . . . We're not holding it up. . . . I can't speak for HARRY REID. I can't speak for him. As far as I'm concerned, it should be done.

A government shutdown is 2 days away. We have an agreement based on what all the appropriators on the conference report are saying. We can pass that and do first things first—prevent a government shutdown. I agree with the majority leader, a government shutdown is a terrible idea. He has said that repeatedly. We have all said it repeatedly. The way to avoid that is to get our work done. The work is done on the appropriations conference report. We ought to get signatures on it, and we ought to pass it, and we ought to do it in the next 2 days.

Now, Madam President, there were a series of other competing UCs here, and I am a little confused as to where we are.

Mr. REID addressed the Chair.

The ACTING PRESIDENT pro tempore. The majority leader.

Mr. MCCONNELL. I object to that one, by the way, the last one we were discussing.

The ACTING PRESIDENT pro tempore. Objection is heard.

Mr. REID. Madam President, I know Congressman MORAN. He is a fine man who has been in Congress many, many years. But he should step over here and talk to Senator MENENDEZ or MARCO RUBIO and see how they feel about Cuba and the language in that bill that changes things in relation to how they feel, which dramatically changes our relationship with Cuba, or how about the chairman of the Environment Committee, BARBARA BOXER. See how she feels about going back, in effect, to some saying the Dark Ages, changing lightbulbs, or how about dealing with

other environmental issues, dealing with coal. How about talking to some of the other Senators on that committee.

The bill is not complete. I think we could complete it very quickly if people sat down and focused on what we need to do to get out of here. But now it has not been completed. I do not care what JIM MORAN says or what MITCH MCCONNELL says, the bill is not completed.

But, Madam President, what is obviously extremely clear, which is extremely clear here, my friend the Republican leader has talked for days—I went through what he said on Monday, what he said on two separate occasions on Tuesday: Let's vote on this bill now. That is what he said. It is obvious that something has happened in the last few hours that suddenly they do not want to vote on their own bill.

Keep this in mind: The House has passed a bill that I have said and non-Democrats have said is a dead duck, DOA, dead on arrival. It is here. It is dead. And they do not want to vote on it. Do you think maybe they do not want to vote on it because Republican Senators are kind of embarrassed or ashamed of what is in that bill? I would think so.

Mr. MCCONNELL. Madam President, I would say, speaking of embarrassment, it is that we are doing an omnibus again. The reason we are doing an omnibus again here on the eve of Christmas is because we have not passed our appropriations bills. We have had almost as many show votes in the Senate this year, roughly an equal number of show votes—in other words, designed to fail, to go nowhere, to present a talking point for the President in his campaign—as we have had votes on real bills that we are supposed to pass.

So here we are once again. Three years this Democratic Senate has not passed a budget. Three years we have ended up either in omnibus or CR situations. And here we are again.

Now the appropriators in the House and Senate have labored long and hard. A couple days ago, they said they were ready to sign the report. My good friend the majority leader and the President said: Don't let them sign the report. We might actually have to pass the bill—a mysterious strategy to me.

All I am saying here is, first things first. If the majority leader is convinced the House-passed bill is DOA, why doesn't he start talking to the Speaker about how we might actually craft a bill that can pass both the Republican House and the Democratic Senate and quit wasting our time here in the Senate scoring points? A government shutdown is 2 days away.

So first things first. Let's keep the government from shutting down. These other measures do not expire until the end of the month. If the majority lead-

er is correct that the House bill will not pass the Senate, why doesn't he talk to the Speaker and work out something that can pass on a bipartisan basis because, regretfully, I would say to my friend the majority leader, the Republicans control the House. The Democrats control the Senate, unfortunately, from my point of view. This has to be worked out.

The last time I looked, Christmas is a week from Sunday. Time is a-wasting. We have fiddled all year long—all year long, one point-scoring bill after another, designed to fail, designed to divide us, designed to get no result, to give the President a talking point out on the campaign trail—and here we are, a few days before Christmas, and the silliness continues.

Now, if my friend the majority leader is so convinced the House-passed bill cannot pass the Senate, I would say again, talk to the Speaker and work out something that can pass both the House and the Senate. Time is a-wasting.

The ACTING PRESIDENT pro tempore. The majority leader.

Mr. REID. Madam President, talk about a diversion—that is what we just heard. My friend the Republican leader has talked from the very beginning of this Congress that his No. 1 goal is to defeat Obama for reelection. That is not looking so good. Romney is stumbling, Gingrich is plodding along, heading now everywhere.

But, Madam President, because the Republican leader has caused us—because we have the rules in the Senate, which I accept—has caused us to focus all of our attention on my friend trying to make sure the President is not reelected, we have spent months and months on things that were ordinarily done just like that.

Funding the government—we had numerous CRs for very short periods of time. Finally, we were able to get that done. Then came the debt ceiling, and we spent 3 months on that—3 months of wasting time here in the Senate. Never have we done that. As I indicated and has been spread on the record of this body many, many times, under Ronald Reagan, the debt ceiling was raised 18 times just like that.

Also, Madam President, anyone who understands Washington—and there are a lot more people who understand Washington than the people who are in this Chamber—my friend says: have him—me—go deal with the Speaker. Well, the issue there is kind of stunning how my friend has said this: Go talk to the Speaker. Everyone knows the Speaker cannot move forward with any negotiations until this bill is defeated here, period. Obviously, that is the case. The Speaker cannot negotiate with me until this bill is killed.

So I repeat, the spending bill my friend the Republican leader complains about is not completed. The issue facing the American people is whether

they are going to have tax relief the Democrats want to give them or whether they are going to face a shutdown that was first made very unpopular by Newt Gingrich. And there is going to be another one that will be just as unpopular.

The ACTING PRESIDENT pro tempore. The original unanimous consent is still pending.

Is there an objection?

Mr. MCCONNELL. I object.

The ACTING PRESIDENT pro tempore. Objection is heard.

Mr. REID. We will both object, just for good measure—a bipartisan objection.

Would the Chair announce the business of the day.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period of morning business for up to 1 hour, with Senators permitted to speak for up to 10 minutes each, with the majority controlling the first half and the Republicans controlling the second half of the time.

The Senator from New York.

#### BUDGET NEGOTIATIONS

Mr. SCHUMER. Madam President, I just listened with great eagerness to the discussion between the majority leader and the Republican leader, and I would like to make two points here and then several subsidiary points.

We need to do two things before we leave: We need to fund the government in a reasonable and rational way, and we need to help the middle class get tax relief because the middle class is suffering. We need to do both. As Leader REID said, to do both, you need both Democrats and Republicans to agree. If you try to do one without the other, you will not get anything done.

So last night Speaker BOEHNER sent a bill on middle-class tax relief that was such a Christmas tree that we knew it could not pass. And he knew it could not pass. We know why he did it. He did it because he could not get enough Republican votes in his caucus without all of these killer amendments to get it through. He could not get it through without those amendments.

So the Republican leader says: Well, if we know it cannot pass, why don't we start negotiating? There is one point here. We do not have to convince Speaker BOEHNER to start negotiating. He knows that. But we have to convince the hundred votes in his caucus who do not believe we should give middle-class tax relief, who are wedded to these amendments that will kill the bill here in the Senate because they are so unpalatable. It is not 1 or 2 amendments; it is 10 or 12 or 15 amendments. We need to show those hundred that this bill cannot pass.

We have to give middle-class tax relief, and we have to fund the government. So why wouldn't we vote on it now, dispose of it, and move on with the ultimate negotiations which will talk in tandem about funding the government long term and middle-class tax relief?

Now, why don't our colleagues on the other side of the aisle want to vote on that proposal? Is it because they fear embarrassing defections from their own side—defections that would show once again how too many Republicans in the Senate do not want to extend middle-class tax relief no matter what is attached to it? That is not a good reason.

What are we waiting for? The House bill is on a road to nowhere, so let's let the air out of the tires, and then we can move on. We all know how it is going to end—not with either Chamber imposing its will on the other but with a negotiation. So let's remove this bill from the floor, give Speaker BOEHNER some of the freedom he may need to negotiate, and get this all done.

As, again, Leader REID said—and he said it so well—we cannot pass the bills without both Democratic and Republican votes in the House and the Senate. Negotiating to come to an agreement makes ultimate sense.

I heard the Republican leader say: Well, the government runs out by Friday. There is an easy way to deal with that, which Leader REID asked for in a unanimous consent request and was rejected: fund the government for a short period of time.

So the logic here is to do three things: Vote on this bill. Put it aside. Fund the government for another short period of time. And then negotiate in earnest and produce both things America needs: an omnibus funding resolution that funds the government that has been worked on very hard by the Appropriations Committee—deal with the outstanding issues in that proposal. There are still serious outstanding issues. Anyone who has been around here knows that issues such as Cuba and the environment and abortion in DC are not easy to settle and have not been settled yet.

So we kill the bill the House sent to us—we vote on it. It will die. We know it does not have the votes. It probably does not have even the unanimous support on the Republican side. I would bet that is pretty likely. We do a short-term CR. We fund the government for a period of time. And we have earnest negotiations that will produce both middle-class tax relief and a funding resolution for the government. We should negotiate the two measures together because, as the leader said, you cannot pass them without both Democratic and Republican votes in either Chamber. Obviously, in this Chamber, there are not 60 votes without Republican support. And in the other Chamber—

because too many people are against even the agreement, too many on the Republican side are against the agreement we had for \$1.04 trillion in spending—they will need Democratic votes.

Mrs. MCCASKILL. Madam President, could I ask a question of the Senator from New York through the Chair?

Mr. SCHUMER. I would be happy to yield to my colleague.

Mrs. MCCASKILL. I am confused. The House passed a bill last night and has sent it to the Senate. Correct?

Mr. SCHUMER. That is correct.

Mrs. MCCASKILL. This is a Republican bill?

Mr. SCHUMER. That is correct.

Mrs. MCCASKILL. And we are ready to vote on it?

Mr. SCHUMER. We are.

Mrs. MCCASKILL. And the Republicans will not let us vote on it?

Mr. SCHUMER. That is correct.

Mrs. MCCASKILL. I am confused.

Mr. SCHUMER. So are we all.

Mrs. MCCASKILL. Why would the Republicans not let us vote on their bill?

Mr. SCHUMER. One of the theories is that there is dissension even on that bill among the Republican side, as there was on the previous bill that had middle-class tax relief in it.

Mrs. MCCASKILL. That is why we vote, to determine whether there is dissension.

Mr. SCHUMER. Agreed. The Senator from Missouri is exactly correct. If we voted, it would move the process of both funding the government—very important—and getting middle-class tax relief—also very important—forward.

Mrs. MCCASKILL. Well, I would certainly urge every single Senator, be they Democrat or Republican, to come to the floor and ask the question: Why are we not voting today on the bill that was passed by the House? We are ready to vote. You know, the American people do not get this game. The bill was passed in the House. Why are we not voting? Why is the Republican Party blocking its own bill?

Mr. SCHUMER. The Senator from Missouri is, as usual, thoughtful, politically astute, and right down the middle moderate. It makes no sense to block it. It is holding up progress, particularly because the Republican House has to be shown that this bill is not going to be the answer. The only way to both fund the government and provide middle-class relief is for Democrats and Republicans to get together, as the Democratic leader has said, almost until he is blue in the face.

Mrs. MCCASKILL. With all due respect to my friend and colleague from New York, I thank him for the answers, because I was confused that the Republicans are keeping us from voting on a Republican bill. But it is not the House we need show anything. We have a tendency around here to get focused on the back and forth among ourselves. It

is the American people we need to show that we are capable of standing up, casting a vote, seeing whether it passes or fails, and then negotiating and finding a way forward.

I would say to my colleague from New York, if the Republicans in the Senate are not willing to vote on their own legislation, then you have got to scratch your head.

I thank the Senator for the opportunity.

Mr. SCHUMER. Reclaiming my time, I would accept the modification of my argument made by the Senator from Missouri. The point, of course, we both agree on is we ought to vote. We ought to do it to show the world, whether it is the House, Senate, American people, or anybody else. That makes a great deal of sense.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Illinois.

Mr. DURBIN. Madam President, I thank my colleague from New York and colleague from Missouri for putting in context where we are today. But let's take one step back and look at what is the issue. The issue is basic: Will the payroll tax cut that currently helps 160 million Americans continue after January 1? That is the underlying question.

After all of the back and forth and politics, we believe it should. The President believes it should. Economists tell us that is the way to help us out of a recession and create more jobs. We have come up with a way to pay for it so it will not add to the deficit. Our proposal: a surtax on the wealthiest Americans, not on the first million dollars in income each year but on their second million dollars in income, a surtax.

We ask across America: Do you think that is fair to ask that sacrifice? Overwhelmingly, not just Democrats, Independents, Republicans, tea party Republicans believe that is fair. But, unfortunately, many on the Republican side are indentured political servants to a Washington lobbyist named Grover Norquist. They have signed an oath that they believe supersedes any other oath, to the Constitution or to the people they represent, that they will never, ever vote for a tax increase for the wealthy—not one penny. Not one penny.

So they wanted to stop the extension of this payroll tax cut for working families. They came up with a bill in the House of Representatives. The bill in the House of Representatives passed last night. It is so bad that the Senate Republicans will not let us bring it to the floor for a vote. They know what is going to happen. We saw it in the last 2 weeks. The Presiding Officer can remember. Senator HELLER of Nevada put up a Republican alternative on the payroll tax cut, and on the first vote, out of 43 Republicans, 20 supported his

measure, and out of the Republican leadership team, only Senator MCCONNELL voted for it. Clearly this is not a popular approach, even when it is written by Senate Republicans.

Now the House Republican approach is so unpopular they will not even call it on the floor—so unpopular. If anyone is wondering whether we are going to get home for Christmas, they should have listened to this exchange this morning, when the Republicans refused to even call their own vote.

I agree with the Senator from Missouri. We owe to it the American people to get to the bottom of this, and quickly, to assure them January 1 the payroll cut will continue for working families across America, to assure them that we will maintain unemployment benefits for the 14 million unemployed Americans struggling to find jobs—4 unemployed for every available job. It is basic that we need to do this, and if we are going to get down to it, then I am afraid our Senate Republican colleagues have to accept the reality.

There comes a moment for a vote. This is the moment, the vote on whether we are going forward to make sure that we extend the payroll tax cut for working families in a fair way. That is what is at hand.

#### BALANCED BUDGET AMENDMENT

Mr. DURBIN. Madam President, in about 30 minutes, we will have a rare chance on the floor of the Senate—it does not happen often. We will have consideration of two efforts to amend the Constitution of the United States. We all take this seriously. Each one of us, before we could exercise our responsibility as Senators, swore to uphold and defend that Constitution. Now we are being asked to amend it.

How often have we amended the Constitution? In the past 220 years since we passed the Bill of Rights, we have amended it 17 times: to abolish slavery, to give women the right to vote, significant historic decisions. What comes before us today are two amendments which, frankly, do not stand the test of whether they meet constitutional standards.

I am going to vote against both. I thank my colleague, Senator UDALL of Colorado, for offering a version. Senator MCCONNELL, Senator HATCH have offered their own. I do not believe either one of them is right for America. Here is what it comes down to. If we pass either of these constitutional amendments, we will be forced to cut government spending at exactly the wrong moment in time when it comes to our economy. When our economy is in trouble, revenues are down, we step in with stabilizers to try to make sure that we keep families afloat during difficult times and restore our economy to growth. Those stabilizers are threatened and endangered by these balanced budget amendments.

Secondly, the enforcement of these balanced budget amendments will be by our Federal courts. Can you imagine? Can you imagine that the day after we pass a budget, lawsuits spring up across America in the Federal courts challenging whether we have exceeded the constitutional requirement that no more than, say, 18 percent of the gross domestic product be spent, arguments that there has been a miscalculation? How long will that take to resolve in court and what happens to America in the meantime?

Then what remedies do the courts have? The Republicans have made it clear, because of their view, one of the remedies cannot be extending taxes on the wealthiest in America. They never want that to happen. Now they want to enshrine that theory in the Constitution. Turning to our courts for enforcement of spending is, in my mind, a direct violation of the spirit and letter of the law in the Constitution which gives to Congress exclusively the power of the purse. It is a bad idea. It is certainly not one we should support.

I also want to say that this approach is unnecessary. There comes a time—and we have reached it—when we need to have the political will, in a bipartisan fashion, to deal with our country's problems, whether it is the tax cut, extending the government's life into the next fiscal year, or dealing with our long-term deficit. It takes political will, maybe even political courage. It does not take a constitutional amendment.

Let's defeat both of these amendments. Let's show our respect for this Constitution that we have sworn to uphold and defend and not pass something that has not been thought through that may, in fact, harm America rather than help it.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### BALANCED BUDGET AMENDMENT

Mr. GRASSLEY. Madam President, the need for a balanced budget amendment is very great. You know how the national debt now is reaching a point where, if we don't intervene with a constitutional requirement for a balanced budget, it is going to become unsustainable. Statutes have not controlled deficit spending.

I was an author of one of those statutes—former Senator Harry F. Byrd of Virginia and I as a Member of the House—back in 1979. For 15 years that

law was on the books, and never in those 15 years was there a balanced budget amendment. It makes it very clear that laws will not control deficit spending.

I concluded a long time ago, as I voted on previous constitutional amendments requiring a balanced budget that didn't pass, that a constitutional amendment is a must to provide Congress with the necessary discipline. The example right now in Europe of their fiscal and deficit situation is sobering. Nations that allow debt to grow out of control risk default. One of those countries is practically in default. If we don't take effective corrective action, the European future could be ours and sooner than we think.

Each generation of Americans has enjoyed a brighter future than the previous generation. The failure of Congress to tame the deficit and the debt threatens the American dream for our children and grandchildren. The Constitution was designed to secure the blessings of liberty not only for ourselves but also for our children. This makes balancing the budget not just an economic issue but a moral issue as well, and creates a moral obligation to take action. A constitutional amendment is not only a first step in that direction but it will make sure the discipline is binding in future years.

The balanced budget amendment will enforce a lower debt. Members taking an oath to adhere to its provisions guarantees greater fiscal discipline than what we have without that constitutional provision. They will take that oath seriously, just as is the case for the 46 State constitutions that contain requirements their State legislatures balance their budgets. We always say the State legislatures and States are the political laboratories for our system of government. We ought to take the results of those laboratories and put them to use at the Federal level. I am urging my colleagues to vote for the resolution before us, which is S.J. Res. 10.

There have been complaints this resolution would transfer to the courts the power of the purse, but that is a misreading of S.J. Res. 10. The amendment prohibits the courts from raising taxes. The doctrine of standing, the doctrine of ripeness, and the doctrine of political question will prevent courts from deciding cases under the amendment.

This is a lesson we should have learned. I think it was 1997—nearly 15 years ago—when this body failed by one vote—and I am ashamed to tell you it was one Republican not voting for it—to enact such a constitutional requirement. But it didn't pass. If it had passed, we wouldn't be in the fiscal situation we are in right now. I urge my colleagues to vote for S.J. Res. 10.

I yield the floor.

Mrs. BOXER. Madam President, I oppose the two balanced budget amendments before us. Senator HATCH's proposal would cap spending at 18 percent of gross domestic product, forcing deep cuts to Social Security and other critical programs. Senator UDALL's alternative, while less extreme, is still not a proposal I can support.

I have consistently opposed balanced budget amendment proposals because Congress doesn't need a constitutional amendment to balance the budget. We have done it before.

In the 1990s, during President Clinton's term, we not only balanced the budget, but we created surpluses and 23 million new jobs. We cut wasteful spending, made smart investments, and ensured that everyone, including the wealthiest, paid their fair share.

In 1993, we passed a budget plan without a single Republican vote. By 1998, the budget had come into balance, and as President Clinton was leaving office in 2001, budget analysts were predicting surpluses as far as the eye could see.

Unfortunately, the Bush tax cuts and two wars put on a credit card created huge deficits.

To get our country back on a path to fiscal responsibility, we don't need a balanced budget amendment. That is why the Senate has voted down balanced budget amendments many times—most recently in 1995, 1996, and 1997. Instead, we need the political will to come together and make responsible choices for our country's future.

Many economists believe that balanced budget amendments are bad policy because they limit the ability of the Federal Government to respond during times of economic crisis and recession.

Limiting our ability to make smart, job-creating investments is no way to set a foundation for our country's long-term economic growth.

Finally, while these proposals include exceptions for times of war, there is no exception for natural disasters. A minority of Senators or Representatives could block Federal assistance for any disaster, no matter how severe.

I urge my colleagues to join me in rejecting this balanced budget amendment and recommitting ourselves to our duty as a Congress to promote fiscal responsibility and economic growth.

Mr. CHAMBLISS. Madam President, I rise today in full support of a balanced budget amendment. I am proud to be a cosponsor of S.J. Res. 10, along with all of my fellow Republicans.

Shortly, the Senate will vote on two proposals for balancing the Federal budget. One of those proposals, offered by my colleague from Utah, Senator HATCH, will provide a strong and meaningful change to the way this Congress performs its spending function.

I thank the Senator for his continued hard work on trying to balance the

budget, something he has been working on since 1995. Unfortunately, he, like all of the Members of this body, has seen the recent and disconcerting rise in debt.

It is appalling that we continue to head down a path to destruction and fiscal lunacy. The American people are fed up with this. How do we know that? Recent polls say that only 9 percent of the population believes in the spending path Congress has chosen.

For the fiscal year ending September 30, 2011, we had in excess of \$1.3 trillion in deficit spending. In November of this year we surpassed \$15 trillion in total debt. This rampant overspending will not end without a drastic change—without taking away the power to overspend.

Not only have the American people told us this, our financial markets have told us this as well. Unbearable debt in the European markets is depressing our domestic financial markets. If left unchecked our own debt will continue to lower economic outlook.

It is reprehensible that an issue of this magnitude and significance is subject to the partisan bickering and gamesmanship that often rears its head in politics.

I encourage my colleagues to give solemn consideration to the proposal before us, as it will turn us immediately away from our overspending.

We have to truly examine issues that are very difficult for a lot of us to deal with, and we have to make some very tough decisions.

Too frequently, we have engaged in political theater instead of earnest efforts to resolve these long-term budget issues. The American people expect and deserve an honest budget debate and an honest budget process. When we pass this legislation and it is ratified by the States, the American people will finally get an honest budget, and they will get it every year.

As many of my colleagues have noted, the idea of preventing a burdensome and crushing debt for future generations is a thing of the past. The time is now. The crisis is now. Congress has been shirking its budget responsibilities for so long that we are now the ones feeling the effects of the debt.

I would like to take a moment to talk about some of the things the Republican proposal accomplishes. The President will continue to submit his yearly budget proposal—a budget proposal that is not only balanced but limits the size of the Federal Government to 18 percent of GDP. By comparison, last year spending was at almost 24 percent of GDP.

Further, this legislation requires a supermajority to surpass the spending caps for things like emergency spending. We will end a longstanding budget gimmick of government spending in

the name of emergencies for things that are not truly emergencies.

The rules would be even stricter governing spending of money in times of war instead of the general exemption we have now. This proposal will also force Congress to fix and save Social Security.

Finally, one of the most important parts of this proposal is that a two-thirds vote of each House is required to increase taxes, helping prevent higher tax rates to pay for balancing the budget.

We can no longer allow the American people to suffer by not providing the economic basis for recovery and growth. The equation is simple: A balanced Federal budget that is free of excessive debt leads to a healthy economy and sustainable job-creation activities.

Mr. LIEBERMAN. Madam President, I rise today to speak about the two balanced budget amendment proposals currently pending before the Senate and to explain why I will vote against both even though I support a balanced budget amendment.

I fervently believe that the most pressing issue our country faces today is the need to gain control over the staggering Federal deficits and long-term debt that threaten our security. In thinking about the budget challenges we faced over the past year, I have often been reminded of something our second President said two centuries ago that remains hauntingly true today: "There are two ways to conquer and enslave a nation," as President Adams put it, "One is by sword and the other is by debt." President Adams' words have been echoed in our time by former Chairman of the Joint Chiefs of Staff, ADM Mike Mullen, who argued earlier this year that the national debt is the greatest long-term threat to our national security.

We can all agree that we must take on the challenge of addressing our deficit and debt. At the same time, as we have seen again and again over the past year, making tough choices is not an easy thing to do. Any responsible deficit reduction proposal will, by definition, be painful and unpopular because raising revenues and cutting benefits and favored Federal programs is painful and unpopular.

I am prepared to vote for a plan similar to that proposed by the Bowles-Simpson Commission, the Gang of 6, or the Rivlin-Domenici group because I believe this approach is responsible and addresses the toughest challenges we face head-on. Also, I would support a clean balanced budget amendment, which would compel Congress to make tough choices to raise revenues as necessary, rein in spending, and balance our budget.

However, the two proposals we are considering today, in my opinion, are

problematic and marred by extraneous and ill-advised provisions that should never be part of our Constitution. These votes say so loudly how dysfunctional Congress has become. I want to vote for a balanced budget amendment that says clearly that Federal Government spending cannot exceed revenues. Yet I can't vote for either of these amendments because each contains a partisan part that does not belong in our Constitution.

I do not take the idea of amending our Constitution lightly. As we consider these amendments, let's not forget that our Constitution is the supreme law of our land; it reflects America's first principles and highest ideals, guaranteeing the fundamental rights that have been the cornerstone of the freedom and opportunity at the heart of the American experience since our founding.

However, given the dire fiscal situation we face—coupled with the reality that time and again Congress has been unable to break away from its partisan gridlock to make the painful but necessary decisions that must be made to save our Republic—amending the Constitution may be the only way to compel a balanced budget.

I have come to this conclusion first because it is clear that our budget process is clearly broken. The truth is that we in Congress have failed to uphold our foremost constitutional duties; managing our budgeting process. With annual deficits over \$1 trillion and our national debt increasing over \$4 billion each day, this is no time for Congress to flout the very laws we established to keep our country's fiscal health afloat and manage the budget process responsibly.

I am speaking in particular about the framework for our budget process which was first enacted into law in 1921 when Congress established the annual budgeting requirement and later in 1974 when the formal process for establishing a coherent budget was enshrined in law.

The failure to pass a budget resolution for the past 3 years is symptomatic of the deep problems we face with regard to our budget, deficits, and debt. Likewise, statutory attempts such as pay-go have not produced the kinds of results we need. At the same time, as we have seen over the past several months, Republicans and Democrats cannot seem to agree on how to reform entitlements—the biggest driver of our debt and deficits—or reform the Tax Code to ensure that our tax system is fair for most Americans, less deferential to special interests, and able to sustain the financing of our country's priorities over the long term.

It is regrettable that it has come to this, but it seems that perhaps the only way to get Congress to balance the budget is to make it a constitutional requirement.

Unfortunately, both proposals before us today are marred by extraneous and, in my view, ill-advised and unnecessary provisions. The Republican version, for example, would require that total outlays for any fiscal year not exceed 18 percent of GDP and a two-thirds majority vote in both Chambers would be required to override this requirement. I believe it is unwise to impose, as part of our Constitution, an arbitrary spending cap that would handicap future Congresses without regard to the unknown economic realities that future generations of Americans may face. Unless we can see into the future, we should not be in the business of predicting what level of spending will be appropriate 25 or 50 years from now.

Furthermore, the Republican proposal prohibits any bill that increases Federal taxes from becoming law unless it is approved by a two-thirds majority of both Chambers. This provision essentially gives extraordinary constitutional protection to potentially egregious tax loopholes and revenue-draining tax expenditures—the same parts of the Tax Code we have been trying to reform.

Likewise, the Democratic balanced budget amendment is not without its own faults. A provision prohibiting Congress from passing any bill that provides a tax cut to millionaires during a year that we run a deficit is not a statement that needs to be part of our Constitution. Moreover, the Democratic alternative exempts Social Security, which would essentially prevent Congress from reforming the program, which I believe it essential to ensure its solvency for generations to come.

On the whole, both the Republican and Democratic balanced budget amendments are short-sided for different reasons. Instead of focusing on the single task of providing a balanced budget requirement, ideological arguments abound in both proposals, making it virtually impossible to support either one.

As a result, I will not support either proposal. Instead, I encourage my colleagues from both parties to support a clean version of a balanced budget amendment that is worthy of inclusion in our Constitution.

If we work together to see beyond the fog of partisanship, it will become clear that there is not much disagreement about the basic and deeply troubling facts of our current fiscal crisis. For this reason, first and foremost, I hope Congress will step up and act on a specific and comprehensive proposal to reduce the deficit. In the end, process reforms will not allow us to escape the hard decisions we must face.

Mr. RUBIO. Madam President, Washington politicians do not live by the same rules that virtually all families and small businesses play by. It is your responsibility to balance your budget, spend no more than what is in your

bank account, and have a plan to manage common expenses such as student, home, and car loans.

But in Washington, money is routinely borrowed from Peter to pay Paul, or in America's case, money is borrowed from China and others to pay for more government than we could ever afford. As a result, politicians have dug us into a hole of \$15 trillion in debt, with no end in sight. Now more than ever, we need a balanced budget amendment to the U.S. Constitution.

In Florida's State government, we worked under a balanced budget amendment, and every year we worked tirelessly, had contentious debates, and made very tough choices to pass a balanced budget year after year. That responsibility and accountability is not unique to Florida, as practically every other State also works under a balanced budget amendment. We need to bring this same kind of fiscal restraint to Washington. And unless we enshrine strong balanced budget principles in our Constitution, Washington politicians will never stop. That is why it is critically important that the Senate approve a strong balanced budget amendment.

The national debt is now over \$15 trillion. When I was sworn into office about a year ago, the debt was just over \$14 trillion. That means that in just 1 year, Congress has allowed our debt to increase by more than \$1 trillion. Virtually nothing could stop it from happening, despite the fact that 2011 has given us a startling glimpse into our future as European nations face their day of reckoning for decades of reckless spending.

This year's debt ceiling debate gave us an opportunity to get serious about controlling our debt and reform the way Washington spends money. But not enough people have been willing to come to grips with the reality that decades of reckless spending by both parties is leading us to a diminished future.

As the Senate debates a balanced budget amendment this week, it is important to note that not all balanced budget amendment proposals are created equal. The version that I have joined all 47 of my Senate Republican colleagues in supporting, S.J. Res. 10, includes three elements I believe are key to truly handcuffing out-of-control politicians: a two-thirds supermajority to raise taxes, a three-fifths supermajority to increase the debt limit, and a cap on all Federal spending at 18 percent of gross domestic product. The proposal put forth by Senator MARK UDALL, S.J. Res. 24, contains no cap on spending, no taxpayer protections, and no strict mechanisms to ensure that the amendment is actually followed. Unfortunately, if ratified, this proposal would simply be another ineffective, disingenuous Washington move that would make it easier to raise taxes and still allow for more spending.

The idea of not spending more money than we have is common sense for working families and small businesses. We need to bring that common sense to Washington, and we need a strong balanced budget amendment that is truly worthy of being added to our Constitution. The Senate must seize the moment by passing a real balanced budget amendment.

Ms. MIKULSKI. Mr. President, I rise to oppose the balanced budget amendment proposals before us today. I support a balanced budget. But I cannot support these proposals.

All year, we have been discussing and debating how to have a more frugal government. But while we are trying to be frugal, how can we also meet our responsibilities to national defense and maintain our social contract? To achieve that we have to put politics and partisanship aside, and work together to find the sensible center. And the balanced budget amendment does not allow for that.

I am for cuts. But our approach must be balanced like a three legged stool with responsible discretionary and military spending cuts; revenue; and reform that strengthens Medicare and Medicaid. The balanced budget amendment does not allow for that.

Before we adopt a balanced budget amendment, we should know exactly what it is that we are doing. We need to know just how these programs are going to be affected. What cuts are going to be taken. How deep. What programs. And most importantly what the consequences will be to the health, safety, and security of the American people.

How would a balanced budget amendment affect seniors? It attacks economic security for senior citizens through cuts to Social Security and Medicare. It breaks the social contract.

Under the Republican plan, it cuts spending to 1965 levels before Medicare existed and when the average Social Security benefit was about \$1,200 a year. That was 46 years ago, when making \$8,000 a year was considered a fantastic salary. Would you want to go back and make \$8,000 a year? I do not think so. I do not think we want to go back to that. Do we really want to go back to not having Medicare? Sure we need to reform and refresh Medicare, but do we want to end Medicare? I don't think so.

How would a balanced budget amendment affect our ability to respond to natural disasters, when the 24-hour news coverage is over and people return to their regularly scheduled programs? States that are hit by disasters are just beginning the recovery process and depend on their Federal partners. Times of disaster are not for making choices between one State or another. Government must be there. We are all in this together. Just one snowstorm, wildfire, or devastating flood away

from our own crisis. But the balanced budget amendment would force these terrible choices.

What about funding for America's veterans in order to be able to meet their acute care, provide primary care connected to service-connected disabilities, and long-term care for those who bear the permanent wounds of war? What about funding for disability pensions for veterans? The balanced budget amendment makes funding for American's veterans with service-connected disabilities vulnerable to mandatory budget cuts.

How will a balanced budget amendment affect the next generation? It denies educational opportunity to young people and an opportunity structure to working families. The balanced budget amendment puts funding for Head Start, Pell Grants, and funding that helps schools comply with Title IX funding for job training on the chopping block. I believe we must keep the doors of opportunity open, not slam them shut.

How will a balanced budget amendment affect our Federal workers and everyone who depends on their work? The State of Maryland is home to some of the flagship agencies of the Federal Government and 130,000 hardworking Federal employees live in Maryland. Agents at the Federal Bureau of Investigation work to protect our safety. Employees at the Social Security Administration provide actuarial information on how to keep it solvent and make sure the checks are out there on time. At NASA's Goddard Space Flight Center, they are scanning the universe for the secrets to life here on Earth. The mandatory budget cuts of the balanced budget amendment will require arbitrary cuts to the Federal workforce without certainty that the agencies will be capable of doing their job. These kinds of cuts are dangerous and harmful to the public.

The Founders did not include a provision requiring a balanced budget at all times. They did not include a provision limiting the size of government to an arbitrary percent of the size of our economy. Instead, in our Constitution, the Founders said that Congress would have the power to borrow on the credit of the United States and the responsibility to provide for the general welfare of the country.

Providing for the general welfare of the country means keeping the promise of our social contract to our seniors and our veterans. It means keeping the ladder of opportunity available to the next generation. And it means responding to natural disasters and maintaining a safe and secure homeland.

Make no mistake. We must balance the budget. But we must do it based on principles that preserve economic security for senior citizens, that provide opportunity for young people, and that ensure opportunity for working families.

I cannot and will not support any legislation that abandons these principles. Therefore, I will vote against this legislation.

The ACTING PRESIDENT pro tempore. The Senator from Utah.

Mr. HATCH. Madam President, in a short while, we will vote on two balanced budget amendments to the Constitution, at least one of which will be a true balanced budget amendment. One of those amendments, S.J. Res. 10, the amendment supported by every Senate Republican, addresses the fundamental crisis of our time; that is, the crisis of exploding debt caused by excessive spending. The other amendment does not address that crisis and, therefore, cannot put this country back on a sound fiscal footing.

The votes we cast today will tell the American people whether we honestly acknowledge the fiscal crisis posed by our \$15 trillion national debt and whether we are serious about prescribing an effective cure.

Exploding budget deficits and skyrocketing national debt are symptoms of an addiction to overspending. A real solution must address the real cause of this crisis, not just its symptoms. Congress will not kick its overspending addiction alone but only if required to do so by the Constitution itself.

One of the amendments before us today, S.J. Res. 24, simply cannot be a solution because it does not address the overspending that causes this crisis. This amendment, offered by my colleague from Colorado, Senator UDALL, on behalf of the Democrats, purports to require balanced budgets but, for purely political reasons, explicitly exempts significant portions of the very government spending that will most aggressively drive our future debt.

The Democratic alternative sets no overall limit on Government spending, allowing Congress to continue spending with impunity. The Democratic alternative does nothing to restrict the propensity of Congress and the President to raise taxes on families and businesses as a way of compensating for their failure to reduce spending and in order to fuel more spending in the future.

In fact, as my friend Senator KYL pointed out yesterday, the Democratic alternative actually makes it harder to cut taxes. To top it off, the Democrats' amendment not only sets no limits on Congress raising taxes, but it appears to allow judges to raise taxes to balance the budget.

In other words, the Democratic alternative allows Congress to continue doing exactly what has caused this crisis in the first place. It allows Members of Congress committed to a tax-and-spend philosophy to continue sending taxpayer dollars to special interests at the expense of the general fiscal health of this country. The so-called solution

that continues to enable out-of-control spending is no solution at all.

Maintenance of this tax-and-spend status quo is the priority of those who support the Democratic alternative. Just listen to their criticism of my amendment, S.J. Res. 10, the one supported by all Republican Senators—every one of us. The Democrats criticize my amendment's requirement that Congress balance its books as too stringent. They criticize it for not allowing more stimulus spending, my gosh, and they criticize it for not allowing easy tax increases.

The people of Utah, and most Americans for that matter, would respond that these are the very restrictions Congress needs. They would say these restrictions are long overdue and would be positive additions to our Constitution. It is no wonder the advocates of the wornout philosophy of tax and spend view the provisions of S.J. Res. 10, our constitutional amendment, as a threat.

They are a threat. Our amendment's provisions are a threat to those whose only plan is to sit on their hands while our debt continues to skyrocket. The strong balanced budget amendment offered by the Republicans directly addresses the real cause of our budget crisis and offers equally direct solutions. It requires supermajorities. That doesn't mean we can't do things. It just says we have to have supermajorities to raise taxes. It means it requires wide bipartisan agreement for deficit or excess spending, as well as for raising either taxes or the debt limit.

I would note a supermajority to raise the debt limit was in the balanced budget amendment that passed the Senate back in 1982. I know because I was the one pushing it. It passed the Senate.

Our amendment limits both spending and the tax increases that fuel more spending. This is more than a balanced budget amendment. It is a fiscal discipline amendment or a constitutional amendment for limited Government.

Much of the Western world now faces a debt crisis. The eurozone is nearly reaching the point of no return. The United States is closing in on that same point of no return with our total debt already equal to 100 percent of our entire economy—of our GDP. The national debt now amounts to about \$48,000 for every man, woman, and child in America. Interest payments alone on this debt are now greater than spending on most other Federal programs and would be even higher if interest rates were not at historic lows. Annual budget deficits are larger than the entire national debt when I introduced my first balanced budget amendment.

Let me say that again. Annual budget deficits—just the deficit this year and last year, just standing alone; this year's budget deficit and the annual

budget deficits of this President—are larger than the entire national debt when I introduced the first balanced budget amendment in 1979 and 10 times higher than when the Senate last voted on a balanced budget amendment in 1997.

More than two centuries ago, America's Founders warned of the dangers of debt. Thomas Jefferson, the forbearer of the Democratic Party, said public debt is the greatest of dangers to be feared. He would be aghast at what Democrats are trying to sell. Alexander Hamilton said there ought to be perpetual, anxious, and unceasing efforts to reduce debt as fast as possible. John Adams said the experience of other countries that accumulate debt should prevent us from doing so ourselves. He might as well have been speaking about Europe today. He would be appalled at what we are doing around here.

Watching the failure of Congress and the President to get spending and debt under control, these Founding Fathers must be turning over in their graves, and I believe we continue to reject their wisdom at our peril.

Despite all the evidence, opponents continue to claim Congress will make the tough fiscal choices by itself; that Congress does not need any help. After so many years of failure, that amounts to fiddling while our fiscal house is burning to the ground. That is the argument they make. Closing their eyes, shutting their ears, and repeating the mantra that Congress does not need a constitutional amendment is exactly what got us to the edge of the cliff we are standing on today and which we are about to go over, if we don't put some restraints on around here.

If spending were a drug, Congress would be a very pathetic addict. An addict ignores evidence and denies he has a problem. An addict claims over and over that he can stop his addictive behavior any time. But similar to a real addict, Congress cannot kick the habit on its own. Congress needs some help. The Constitution is the way to get that help, and the Founding Fathers would have loved this amendment.

Think of S.J. Res. 10 as a constitutional intervention. It will require not only that the Federal budget be balanced but that it be balanced in the right way. When we vote on these amendments, Senators will demonstrate where they stand on the great crisis of our time. Voting against any balanced budget amendment simply endorses the status quo. It ignores the evidence and pretends everything is fine, even as we head for the cliff. This is the only amendment that deserves the title of a balanced budget constitutional amendment.

Voting for the Democrats' alternative—S.J. Res. 24—also endorses the status quo because it barely touches the symptom—budget deficits and

debt—while ignoring the cause—government spending. Without covering all government spending and without setting real limits on spending and taxes, the Democrats' alternative does little more than put a bandaid on the problem. It isn't even a good bandaid that holds.

The only proposal before us that effectively responds to our budget crisis is S.J. Res. 10. It is the only proposal that addresses the real cause of the unbalanced budgets that are dragging us into fiscal quicksand.

This crisis threatens national security, economic prosperity, and maybe, most important of all, individual liberty. Congress will not solve this crisis by itself. S.J. Res. 10 is the only solution that addresses not only the symptoms of our fiscal crisis but the cause as well. These are the facts. These are simply the facts, and I encourage my colleagues to support S.J. Res. 10.

I heard the distinguished majority whip talking earlier, and just for a minute I think he was asking: Why do this. You know you can't win. We don't know we can't win. But even if we can't, some fights are worth fighting, especially when our national security, economic prosperity, and individual liberty are at stake. That is what we are living with right now.

The American people need to know where we stand, whether we will ever do anything real or do something real about our addiction to overspending. That is the bankruptcy of our country right now—the addiction to overspending. Our amendment ends that addiction. It provides 5 years to get there, so it is a reasonable provision. But it does force us to get there.

The Democratic amendment doesn't even attack the real problem. It is there for political purposes. It is there so Democrats can say: We voted for a balanced budget amendment, even though it, basically, has little to do with balancing the budget.

I was enamored with the talk of the Democrat budget chairman yesterday, Senator CONRAD from North Dakota. He went through all the problems we have and how deep they are and how problematic they are and what an addiction it is and all of that. Then he said we can do it by just doing what is right under the Constitution and forcing ourselves to do what is right and just balance the budget without a balanced budget amendment.

He couldn't have made a better case for the balanced budget amendment because I have been here for 35 years, and I can say there hasn't been a real effort except during the mid-1990s to do that. That was when the first Republican House of Representatives and Senate in over 40 years took place. It was when they did have a President, Bill Clinton, who recognized that the time had come to do something about spending.

I have to give him credit for that in contrast to our current President who

just demands more taxes and more spending all the time. There isn't anything or any person he wouldn't tax if he could get away with it except those unable to pay any taxes at all, and nobody wants to tax them.

The fact is, I think the distinguished Budget Committee chairman made a tremendous case for our amendment. I can say we have been going on way too long.

Back in 1997, we came within one vote of passing this amendment. That was twice now. Remember, in 1992 we actually passed an amendment, but Tip O'Neill and the Democrats killed it in the House at that time. But in 1997 we came within one vote. I actually had the votes as I walked to the floor, and then one of our weak-kneed Republicans who was threatened by the unions, who had been high up on the endorsement list, who wanted to be seen every time we had a press conference on this issue, buckled and voted the other way and we lost. Had we won that amendment in 1997, we wouldn't be in this colossal mess we are in today. Frankly, I, for one, hope we can get out of that mess, and the only way we are going to is through a constitutional amendment that does what this amendment we are presenting actually calls for.

I just do not believe our friends on the other side are ever going to quit taxing and spending, and I have 35 years to prove it—except when the first Republican Congress in over 40 years came into being, and they had a President who worked with them, a Democratic President, by the way. I wish we had a Democratic President here who would work with us. He would go down in history as one of the most popular Presidents in history if he would do so. But, no, he wants to tax and he wants to spend. Frankly, I am fed up with it, and I think a lot of people are fed up with it. The people out in the hinterlands are all fed up with it, and they realize we need to put some restraints on Congress it has to live up to.

That doesn't mean we can't get a supermajority to raise taxes or we can't get a supermajority to raise the debt limit or we can't get a supermajority to an undeclared war—to give a good reason why our friends on the other side might want to support this. But it does mean there will be restraints that will work and will keep this country secure and free.

I reserve the remainder of our time. I ask that any time be divided equally, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HATCH. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HATCH. Madam President, I ask unanimous consent to reserve the remainder of our time but to permit the distinguished Senator from Colorado to utilize his 5 minutes at this time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Colorado.

Mr. UDALL of Colorado. Madam President, I rise this morning to speak in favor of the legislation that I have authored to amend the Constitution to require that Congress, on behalf of the American people, balance the Federal budget.

Yesterday I spoke about the merits of a balanced budget amendment, and I appreciate the debate that has occurred on the Senate floor which was in the best traditions of the Senate. I particularly have enjoyed hearing Senator HATCH's point of view. I think we have some disagreements about how we implement a balanced budget amendment, but we both agree that we need to put the Federal Government's finances in balance. Perhaps if we both fall short today on these important votes, we can go back and work together in the best tradition of Senator HATCH and Senator Simon. Senator Simon, on our side, was a strong proponent in the 1990s of a balanced budget amendment. Senator HATCH referenced those efforts then.

Let me quickly summarize my arguments for why we need a balanced budget amendment. I start out thinking about Coloradans and the common sense they apply to their everyday finances, and there is a big dose of Colorado common sense in my proposal. It is aimed at finding common ground that both parties and a big majority of Americans can support, and it starts with a constitutional requirement to balance the budget. That is the heart of the issue. It is something on which many of us agree. But my proposal also asks us to avoid the mistakes of the last decade that have resulted in debt that is not only significant but it is exploding.

For example, it would prevent deficit-busting tax breaks for Americans who earn \$1 million or more a year. Why should we continue to give additional tax breaks to the wealthiest among us during times when we are in these tough deficit situations?

I would also create a Social Security lock box to keep Congress from raiding the trust fund to hide the true size of our annual deficits. We have been using the Social Security fund as a slush fund to remedy our budgeting problems. That would end.

In sum, the proposal I brought forward is straightforward, it is simple, and upholds the principle: We should pay for our government in a responsible manner.

I think, looking at the Presiding Officer, in your home State most Americans agree to that, most New Yorkers do. Most Coloradans certainly do.

I also want to be clear, there are some important differences between my approach and my dear friend Senator HATCH's approach. We will vote on his proposal today as well.

Senator HATCH's proposal—this is in my estimation—goes far beyond balancing our books, and it is a balanced budget amendment only in part. That is because it includes some unrealistic limitations on our government that could prevent us from securing the retirement of hard-working Americans, undermine our national defense, and send the United States back to a time before Social Security, Medicare, and a host of other important programs were put in place to protect our middle class, the true heart of our country.

Even worse, it locks in some special interest tax breaks that do nothing to grow our economy or create jobs. It, in effect, would turn the Constitution into a document that protects every special tax break that has been successfully lobbied over the years. That is not what our constituents, hard-working Americans, expect from a balanced budget amendment.

On the other hand, my approach is straightforward. It requires us to pay for what we spend. It creates flexibility depending on the economic conditions that we face and the year in which we find ourselves. But it wouldn't lead to the erosion of seniors' retirement security or it wouldn't lock in special interest tax breaks.

So I say to all of my colleagues, it is time to put aside our political differences, check our ultimatums at the door, and let's work across the aisle and challenge ourselves to put our country first through balancing the budget.

Our debt is \$15 trillion and it is growing. The bipartisan cochairmen of President Obama's commission on the debt have called our debt a cancer, and the former Chairman of the Joint Chiefs of Staff, Admiral Mullen, has said it is the single biggest threat to our national security. It is clear it is time to act. We have run out of time to act.

So, as I close, I just want to say the American people have demanded we get our fiscal house in order. As usual, they are a few steps ahead of us, and it is now time for us in the Congress to catch up. So I am asking my colleagues of both parties and both Chambers to support my proposal. This is the right approach. It will enhance our economic security. It will ensure that we keep faith with our children. We shouldn't pass off this unsustainable debt to our children.

Madam President, I urge my colleagues to support this important proposal. I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HATCH. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HATCH. How much time do I have?

The ACTING PRESIDENT pro tempore. There remains 45 seconds.

Mr. HATCH. I ask unanimous consent that I be able to complete these remarks. It might take a few seconds beyond.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. HATCH. Madam President, critics suggest a vote for our balanced budget amendment is a waste of the Chamber's time. That is pure bunk.

The same folks who say we should not be voting on the Republicans' balanced budget amendment have also offered up their own amendment to show their constituents that they too want to balance the budget.

I can tell you now that it is the Democratic alternative that misses the point, for a number of reasons. One, it doesn't address the true crisis. We have a crisis of spending. We are \$15 trillion in debt, and the Democratic alternative does nothing to address it.

No. 2, it carves out massive portions of government spending from their definition of Federal outlays. No. 3, even its balance requirements, the most basic feature of any balanced budget amendment, are easily overridden. No. 4, there is no cap on Federal spending. And, No. 5, there is no supermajority requirement for tax increases.

Put it all together and this is what you get with the Democratic balanced budget amendment. You get a constitutional amendment that is going to force Congress to raise taxes on families and businesses to pay for out-of-control government spending. The Democratic alternative should be rejected. It might look good from a distance but up close it does not even begin to address our Nation's fiscal crisis.

I yield the floor.

#### CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

PROPOSING AN AMENDMENT TO THE CONSTITUTION RELATIVE TO REQUIRING A BALANCED BUDGET—S.J. RES. 24

PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES RELATIVE TO BALANCING THE BUDGET—S.J. RES. 10—Resumed

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume the en bloc consideration of S.J. Res. 10 and S.J. Res. 24, which the clerk will report.

The legislative clerk read as follows:

A joint resolution (S.J. Res. 24) proposing an amendment to the Constitution relative to requiring a balanced budget.

A joint resolution (S.J. Res. 10) proposing an amendment to the Constitution of the United States relative to balancing the budget.

The ACTING PRESIDENT pro tempore. Under the previous order, there is 5 minutes of debate equally divided prior to votes on passage of the measures.

The Republican leader is recognized.

Mr. MCCONNELL. Madam President, yesterday and today my Republican colleagues here in the Senate have been coming to the floor one after another to deliver a simple, urgent message, one that I hear every time I am home in Kentucky: Washington simply must change course. The spending spree must end. We must put our Nation's fiscal house in order before it is too late.

This is not a partisan message. Everyone recognizes that both parties played a role in getting us to this point. But let's be clear, Republicans are the only ones in Congress right now who are attempting to do something meaningful about fiscal restraint. The only way we will actually achieve it is by acting together on serious legislation such as the balanced budget amendment Republicans are voting on today—not through thinly veiled cover votes such as the one Democrats plan to hold alongside this morning.

For nearly 3 years now, Republicans have stood up to the fiscal recklessness of this administration and pleaded with the President and Democrats in Congress to stop the spending spree—stop it—and work with us on a serious plan to put our Nation's fiscal house in order.

For nearly 3 years we have met nothing but resistance. I even read this week that some Democrats in Congress actually view our insistence on fiscal responsibility as a good political issue for them. They say Americans have moved on, that they do not want to hear about fiscal restraint anymore. Apparently these Democrats are content to let this crisis continue to build and build until it pops up in the polls again.

What Republicans have been saying this week is that we do not have that luxury. We cannot wait for a European-style calamity to happen right here to finally do something about our fiscal problems, nor should we want to. After all, we were not elected to get re-elected. We were elected to recognize the Nation's problems and to face up to them with foresight and with courage.

That is why Republicans have kept up our call for a serious and effective balanced budget amendment. We have seen all the statistics—that Congress now borrows more than 40 cents for every dollar it spends; that interest payments on the debt alone will soon crowd out spending on things such as education and defense; that annual deficits under this President routinely double and triple the previous record.

We know where it has gotten us. Under this President, the national debt has rocketed from \$10.1 trillion all the way up to 15.1 trillion, more than a 40-percent increase in the national debt under this President in a record time of less than 3 years, a run of fiscal mismanagement only matched in its recklessness by total unwillingness to correct it.

The President's most recent budget was so irresponsible that not a single Member of the Senate voted for it, not one. The President's budget was voted down unanimously here in the Senate.

What about the first ever downgrade of U.S. debt, did that prompt action? Not in this White House. It prompted a round of "shoot the messenger" instead. This President's entire approach to our Nation's fiscal problems has been to sit back and blame somebody else, even as he continues to make all of these problems worse.

There was a time when President Obama claimed to believe in the importance of paying our debts. As a Senator he stood on this very floor and chastised his predecessor for even asking the Congress to raise the Nation's debt limit. He called it a failure of leadership. Yet earlier this year, as President he demanded that Congress approve the single largest debt limit increase ever requested by a U.S. President—without any plan at all to cover the cost. It was this kind of fiscal recklessness that roused Republicans to recommit ourselves to the idea that, if we are going to preserve the American dream for our children, Congress has to stop spending more than it takes in, and it was the Democrats' resistance to that idea that convinced us the only way to make sure it happens is through a constitutional amendment that actually requires it.

For too long, the politics of the moment or of the next election have been put ahead of Congress's responsibility to balance the books. Too many promises have been made that cannot possibly ever be kept, and now the time for serious action has come; we must

prevent what is happening in Europe from happening here.

That is what our balanced budget amendment would do. By permanently limiting Congressional spending to the historical norm of 18 percent of gross national product, and through a new three-fifths supermajority of both Houses of Congress to raise the debt limit, the balanced budget amendment Republicans are proposing today would go a long way in preventing that day of reckoning from happening right here in America. Every single Senator should support it.

Democrats here in Washington know the American people want Congress to get its fiscal house in order. That is why they proposed a balanced budget amendment of their own. Unfortunately, they have no real intention of passing it. If they did, they would join us in supporting a bill that we know would lead to the kind of fiscal restraint the American people are asking for.

I ask my friends on the other side to join us. It is not too late. We are only going to solve this problem together. Republicans are doing our part. We need them to do theirs. The American people are asking us to act. Let's do it. If this President will not take America's fiscal problems seriously, Congress should do it for him.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Colorado.

Mr. UDALL of Colorado. Mr. President, as I rise to ask for the yeas and nays on the amendment, I point out my amendment is not a cover amendment. It includes many of the principles and provisions the House considered in a balanced budget amendment they voted on recently, and it also contains many of the provisions and principles that this body in the 1990s considered when Paul Simon and Senator HATCH and many others led on a balanced budget amendment proposal.

With that, I ask for the yeas and nays on S.J. Res. 24.

The ACTING PRESIDENT pro tempore. Is there a sufficient second?

There appears to be a sufficient second.

The question is, Shall the joint resolution pass?

The clerk will call the roll.

The legislative clerk called the roll.

The yeas and nays resulted—yeas 21, nays 79, as follows:

[Rollcall Vote No. 228 Leg.]

YEAS—21

Baucus	Feinstein	McCaskill
Begich	Gillibrand	Nelson (NE)
Bennet	Hagan	Nelson (FL)
Blumenthal	Heller	Stabenow
Brown (OH)	Klobuchar	Tester
Carper	Kohl	Udall (CO)
Casey	Manchin	Wyden

NAYS—79

Akaka	Ayotte	Bingaman
Alexander	Barrasso	Blunt

Boozman	Hutchison	Paul
Boxer	Inhofe	Portman
Brown (MA)	Inouye	Pryor
Burr	Isakson	Reed
Cantwell	Johanns	Reid
Cardin	Johnson (SD)	Risch
Chambliss	Johnson (WI)	Roberts
Coats	Kerry	Rockefeller
Coburn	Kirk	Rubio

Collins	Landrieu	Schumer
Conrad	Lautenberg	Sessions
Coons	Leahy	Shaheen
Corker	Lee	Shelby
Cornyn	Levin	Snowe
Crapo	Lieberman	Thune
DeMint	Lugar	Toomey
Durbin	McCain	Udall (NM)
Enzi	McConnell	Vitter
Franken	Menendez	Warner
Graham	Merkley	Webb
Grassley	Mikulski	Whitehouse
Harkin	Moran	Wicker
Hatch	Murkowski	
Hoeven	Murray	

The ACTING PRESIDENT pro tempore. On this vote, the yeas are 21, the nays are 79. Two-thirds of the Senate duly chosen and sworn not having voted in the affirmative, the joint resolution is rejected.

S.J. RES. 10

Under the previous order, there will now be 2 minutes of debate, equally divided, prior to a vote on S.J. Res. 10.

Who yields time? The Senator from Utah.

Mr. HATCH. Madam President, this is the last chance to vote for a constitutional amendment that will truly do something, that will tie the hands of Congress so they have to live within fiscal constraints. We are taxing and spending this country into bankruptcy. We have a \$15 trillion-plus national debt, growing to \$20 trillion to \$30 trillion. We don't have any restraint around here.

People say: If we just live up to the Constitution and restrain ourselves, we can do that. They have been saying that for 35 years. The only time we have come to a balanced budget around here is when we had the first Republican Congress in over 40 years and we had a President who was willing to support it.

This is our chance to try to do something for our country that will stop the outrageous, out-of-control spending. We need to do it. This amendment is the only one that can do it.

The ACTING PRESIDENT pro tempore. The Senator from Vermont.

Mr. LEAHY. Madam President, I have actually voted for a balanced budget. Democrats in this Chamber and in the other Chamber voted for one and it passed. Not a single Republican voted for it. During the Clinton administration, we were able to balance the budget and start paying down the debt. A huge surplus was left to his successor and it was squandered by that administration.

We should not enshrine the extreme provisions in the current proposal in our Constitution. We should not make it more difficult for Congress to respond to economic and natural disasters. Proponents of this amendment

say: Let's let the courts make these decisions. Let us not transform our courts into budget-cutting bodies. They are not equipped to perform that role. Even Justice Scalia, testifying before our committee, laughed at the idea that they could do that.

The Hatch-McConnell proposal will do nothing to spur economic growth or ease the partisan gridlock in the Congress. It will do the opposite. It will enshrine bad fiscal policy in the Constitution. A vote for this proposal is a vote for dramatic cuts in Social Security, Medicare, and veterans' benefits.

Partisan efforts like this may be good bumper-sticker politics, but they are bad solutions. I wish those who say they revere the Constitution would show it the respect it deserves rather than treating it like a blog entry.

I urge Senators to oppose this radical and ill-considered proposal to amend our Constitution.

Mr. VITTER. Madam President, I ask for the yeas and nays.

The ACTING PRESIDENT pro tempore. Is there a sufficient second? There appears to be a sufficient second.

The question is, Shall the joint resolution pass?

The clerk will call the roll.

The assistant legislative clerk called the roll.

The result was announced—yeas 47, nays 53, as follows:

[Rollcall Vote No. 229 Leg.]

#### YEAS—47

Alexander	Enzi	McConnell
Ayotte	Graham	Moran
Barrasso	Grassley	Murkowski
Blunt	Hatch	Paul
Boozman	Heller	Portman
Brown (MA)	Hoeven	Risch
Burr	Hutchison	Roberts
Chambliss	Inhofe	Rubio

Franken	Mikulski	Wyden
Gillibrand	Murray	

The ACTING PRESIDENT pro tempore. On this vote, the yeas are 47, the nays are 53. Two-thirds of the Senators voting not having voted in the affirmative, the joint resolution is rejected.

The Senator from Illinois.

#### MORNING BUSINESS

Mr. DURBIN. Madam President, I ask unanimous consent that the Senate proceed to a period of morning business until 5 p.m., with Senators permitted to speak for up to 10 minutes each.

The ACTING PRESIDENT pro tempore. Is there objection?

Without objection, it is so ordered.

#### UNANIMOUS CONSENT REQUEST— H.R. 3630

Mr. DURBIN. Madam President, last night the House of Representatives passed a tax cut bill, one that is doomed in the Senate and that the President has made it clear he will not sign.

It is important for us to move beyond this stalemate on an important issue that will literally affect 160 million working Americans.

Currently those working families enjoy a 2-percent payroll tax cut. For the average family in Illinois with a \$50,000 annual income, it means \$1,000 a year or more in terms of a tax cut. So if we fail to continue this payroll tax cut, families across Illinois and across America are going to see an increase in their payroll taxes of about \$100 to \$125 dollars a month. We cannot let that happen. These families are struggling paycheck to paycheck. We want to help them. We want to make sure we help this economy by putting more life into it, which creates more opportunity for profitability for business and new jobs.

We also need to maintain our unemployment insurance which we have provided during these difficult times for those families struggling to find work.

At this point it is clear we should move immediately—immediately—to consideration of the House tax cut bill, a bill which passed the House and should be taken up immediately in the Senate. There is no reason for delay. It has to be done before we go home. Let's not waste any more time. Let's bring it to a vote.

Therefore, I ask unanimous consent the Senate proceed to the consideration of H.R. 3630, which was just received in the Senate from the House; that there be 2 hours of debate equally divided between the two leaders or their designees prior to a vote on passage of the bill; that no amendments be in order prior to the vote, and that the vote on passage be subject to a 60-affirmative vote threshold; further, that if the bill is not passed, it remain the pending business and the majority leader be recognized.

The PRESIDING OFFICER (Mr. FRANKEN). Is there objection?

Mrs. HUTCHISON. Mr. President, I object on behalf of our leader. This is a matter that needs to be decided between our two leaders. That has not been done. The bill has just come over. There needs to be some time. Certainly we hope in the future to vote on it at a time when the two leaders can agree.

The PRESIDING OFFICER. Objection is heard.

Mr. DURBIN. Mr. President, I thank the Senator from Texas. I know her objection was on behalf of the Republican Senate leader. I would appeal to him and all Republicans on that side of the aisle, let's get down to the business of extending this payroll tax cut for working families and maintaining the unemployment insurance to help millions of Americans. Let's get it done before we even consider leaving for this holiday season.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

#### KEYSTONE XL PIPELINE

Mrs. HUTCHISON. Mr. President, at a time when our economy is staggering and global unrest is making long-term energy supplies uncertain, we are going to eventually be able to take up a bill that has been passed by the House that would bypass the President's decision to postpone until 2013, after the elections next year, a domestic infrastructure project that promises 20,000 immediate jobs, and 118,000 spinoff jobs, and provides a stable energy source from our trusted neighbor Canada.

After 3 years of unprecedented reviews by State and Federal agencies, the administration decided to delay the Keystone XL pipeline until after the 2012 election. Why? It would seem obvious that this is a decision that could now be made. The studies have been done. The jobs are needed. This is a privately financed traditional energy project. It is truly shovel ready. It is not a temporary government stimulus program based on wishful thinking, looking for things that can be done around the country. It is ready to go and it is privately financed, so there are no taxpayer dollars involved.

The pipeline is our Nation's access to the estimated 170 billion barrels of recoverable oil in western Canadian tar sands. It will provide energy from a reliable trading partner and friend, lessening our dependence on oil from turbulent Middle East and North African countries and from dictators and terrorism-supporting regimes in South America.

This turmoil leads to price spikes and supply interruptions that threaten our economy and our national security. If we can go forward with the pipeline project, it would have a tremendous impact on our Nation, where the project could stimulate \$2.3 billion in new spending and generate more than \$48 million in new tax revenues just in my home State of Texas.

The pipeline construction would result in 700,000 additional barrels of oils per day being sent to refineries in Texas. Our State's 26 refineries account for more than 25 percent of the total

U.S. oil production, which is approximately 5 percent of worldwide capacity. Texas refineries working at capacity are of great benefit to the consumers of America. Oil is provided faster and more efficiently to domestic consumers and industry, bringing down the cost of energy to everyone in our country.

Last night the House approved this legislation. President Obama continues to threaten to veto any bill that comes to his desk that involves the Keystone pipeline. So I think it is fair to ask: What is his plan? The administration recently announced the President's 5-year blueprint for the future of America's energy resources. For example, the plan limits the offshore energy development to less than 3 percent of offshore areas.

The administration is decreasing our energy resources while other countries continue to increase their energy wealth, just off our coast in some instances, some as close as 25 miles from the U.S. waters. With the right policies, the oil and gas industry could create 1.4 million new jobs and raise \$800 billion of additional government revenue by 2030. That would come from people working. That would come from people in the economy buying things, creating new jobs, and paying taxes because they are earning money. That is the way we should increase revenue in this country, not by stimulus programs that add to our deficit and to the debt that is going to be inherited by our children.

The administration is determined to pursue policies that limit our utilization of our own natural resources. Most other countries in the world are trying to develop their natural resources, and some do not have natural resources and wish they did. America has them but we are not using them.

We could—with a single pipeline—do something that would lower the cost of energy and create new jobs and raise additional government revenue. The fact that we are debating this project today in the face of a frozen economy and rising energy insecurity is unthinkable. We do not need more Solyndra fiascos. We do not need to waste additional billions of taxpayer dollars to support failed businesses that would not exist without federal subsidies.

This pipeline has not one taxpayer dollar in it. It is privately funded and will create private industry jobs that would be jobs that create more revenue for our country through the spending and the creation of still further jobs.

We would be doing it with a trusted neighbor and ally, Canada. This is something we should do. I would love to see us do it in a bipartisan way in this Senate as the House has already done.

I yield the floor.

The PRESIDING OFFICER. The Senator from Pennsylvania.

#### PAYROLL TAX CUT

Mr. CASEY. Mr. President, I rise to speak about the urgent need to prevent a tax increase in the year 2012 if the Congress does not act to extend the payroll tax cut from last year. This is fundamental when it comes to working families across the country. Some 160 million working Americans are depending upon the Congress to do its work, to do its duty, and conclude this year on a couple of matters.

The principal focus of most people's attention right now, in addition to making sure we have a budget in place for the next couple of weeks and months but also, most urgently, is to make sure we are doing everything possible to bring about a cut in the payroll tax again as we did last year. So we should be voting today. We should not be waiting. We know the House has acted. I would guess that what they passed in the House will not pass in the Senate, but we should vote. Vote today. Get that done. Then both sides can sit down and work out a compromise on the payroll tax cut so we can give those 160 million American workers some measure of certainty as they begin to celebrate the holidays and prepare for our new year.

When I talk to people in Pennsylvania, they say to me basically two things: Do something to create jobs or to create the environment or the condition that job creation will flow from and, they say, do it in a bipartisan way. Work together as we, meaning Americans back home, have to work together. They have to work together at home to meet a budget. They have to work together at their worksite to be able to move a company or their agenda forward for an employer.

What we need is a very simple agreement on a very basic bill, and it should be a bill that would extend and, I would argue, expand. I wish to go beyond the payroll tax cut of last year. What we should be doing is cutting it in half. I know there might be others who do not want to go that far. But what we have now from the House is a 350-page bill loaded with all kinds of provisions that have nothing to do with the payroll tax cut and nothing to do with moving the economy forward. It is kind of a political game they are playing.

For example, the Keystone pipeline will be the subject of a lot of debate and discussion. But that has nothing to do with providing 160 million working Americans with a payroll tax cut, so we should set that aside and focus on cutting the payroll tax. Some of the provisions in the Republican bill will do substantial harm to families individually but also to the larger economy. Cutting 40 weeks—let me say that again—cutting 40 weeks from unemployment insurance is one provision. That is the wrong thing to do when you have between 13 and 14 million Americans out of work, in Pennsylvania over

half a million people out of work, at last count 513,000 people out of work. They are telling us that we should cut unemployment insurance by 40 weeks.

Does that make any sense at all? Oh, by the way, what they leave out in that debate is what unemployment insurance does to the wider economy. You spend a buck on that, you get a lot more than a buck in return in terms of the economic impact. So unemployment insurance, when it is provided to people who lost their jobs through no fault of their own, helps the larger economy in addition to helping an individual worker or his or her family.

When it comes to the issue of the payroll tax cut itself, what we are talking about here is not something complicated and theoretical. We are talking about take-home pay, what goes in your pocket from your paycheck. We have got a choice here. If we go the right way and we extend the payroll tax cuts from last year, there is as much as \$1,000 in take-home pay as a result of that.

I had a bill which we worked to try to compromise and change—we changed our bill in order to compromise, I should say. I thought it would be better if we cut the payroll tax for workers in half. That would be as much as \$1,500 in your pocket for 2012. The other side objected to that. They wanted no payroll tax cut, apparently, for businesses, which I thought was a good idea. Then they also wanted to scale back what we could do for employees. But we are where we are. We will see what they are willing to do now. But let's not lose sight of what this is all about. If we do the right thing, we will have \$1,000 extra in take-home pay for 160 million American workers, but if we go the way of some people here in Washington and play political games, it will be zero extra dollars of take-home pay. Very simple. It is a very simple choice.

I would hope our friends on the Republican side would allow us to vote today on the Republican House bill.

It is not going to pass, but it does provide clarity so that both sides can then sit down. They have rejected my compromise. Now the House version will come over here. But we will have some clarity about where both sides stand.

We can sit down and negotiate and get a payroll tax cut done, but we cannot do that until they let us vote on what the House did. We need to have that vote today. I don't know why the Republican side would want to hold it up in the Senate. We should vote on that. It is about take-home pay and also about peace of mind. I think a lot of Americans would like to know now that they can celebrate the holidays and move into 2012 with some peace of mind, knowing they are going to have some money in their pockets they might not have otherwise. It will have a tremendous impact on the economy.

We know that from the data and from what happened in the first few months of 2011.

If the Congress fails to act, here is what it means for a State such as Pennsylvania. You can replicate this, I am sure, in other States as well. Mark Zandi, a respected economist on both sides of the aisle in Washington, looked at Pennsylvania and the impact of not extending the payroll tax cut for 2012. He said it would cost our State a little shy of 20,000 jobs in calendar year 2012—in a State, by the way, where in 2011 we created—or I should say the increase in jobs in Pennsylvania was more than 50,000 in 2011. That is not enough, and we need to do more, but certainly when you are creating jobs at that rate—and possibly in 2012 it could go above 50,000 jobs created in Pennsylvania. But not to act on the payroll tax and reduce that 50,000 or more by 20,000 jobs—and that is just one State—if you don't pass the payroll tax cut, that is the adverse impact on 1 State—20,000 jobs, according to Mark Zandi. That is a big mistake. We cannot afford to make those kinds of mistakes at this moment, which is very precarious in our economy, just when we are getting some—although not enough—good news about the economy.

We need to kick-start, jump-start job creation across the country. We can do that in large measure—although not completely—by a payroll tax cut.

It is time to move forward and time to move on. We should get this vote done on the House version, and then we can go to the negotiating table. While we are doing that, we can get some other things done. To hold up a vote on the House bill doesn't make any sense at all. We only have 17 days until the end of the year. We have other work to do as well. But the main thing we have to do right now is come together to protect 160 million American workers so that they can conclude the year and go into the holiday season and begin a new year with peace of mind to know they are going to have that payroll tax cut in their take-home pay and also to give those who are out of work and their families, their communities, and the country some assurance on unemployment insurance.

It is not time to play politics in Washington. This is the holiday season. If there is anytime in the year when people expect us to work together, it is at this time when we celebrate the holidays. We need to come together and compromise. I have compromised a couple of times in my legislation. I will not review that now, but I did that on my version of the payroll tax cut. We can all compromise more. We need to come together and stop putting up roadblocks to voting on measures that will lead us to a compromise.

The simple message for today is this: Let's vote on the House bill. If that doesn't pass, then we can go to the ne-

gotiating table and come up with a compromise to cut the payroll tax and put more take-home pay in the pockets of 160 million American workers.

With that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### LIHEAP

Ms. KLOBUCHAR. Mr. President, I am here today to talk about the importance of sustained funding and support for the Low-Income Home Energy Assistance Program, better known as LIHEAP. I know it is something my colleague, the Presiding Officer, cares very much about as well.

LIHEAP helps households pay home heating costs and targets funds for those families with the lowest incomes and the highest energy costs. In 2010, nearly 165,000 families in Minnesota used this critical lifeline.

As the Presiding Officer knows, our home State may be known as the land of ice hockey and ice fishing and other winter sports, but our tough winters can be downright dangerous to families struggling to pay their utility bills and trying to keep the heat on.

Even as Minnesota's economy has weathered the recession better than most, we have seen a great increase in need for assistance with heating bills. From 2008 to 2010, there was a 30-percent increase in families who needed energy assistance. Without sustained funding for LIHEAP at current levels, we risk pushing these 38,000 families out into the cold.

This October, I joined with Members from many cold weather States, as my colleague did, in a letter that urged the Department of Health and Human Services to release LIHEAP funds as quickly and at as high a level as possible. We must follow up on this action by fully funding LIHEAP.

On October 28, the Department of Health and Human Services released \$1.7 billion for LIHEAP. This is a start, but we need another \$3 billion to ensure we sustain level funding from last year. Depending on how and what the final appropriations are for fiscal year 2012, it is important to recognize we will need over \$1 billion to fully fund LIHEAP.

I believe seniors should not have to choose between paying for medication and their heating bills; that families should not have to choose between putting food on the table or keeping their furnaces on at night, and children should always have a warm home to sleep in at night. LIHEAP is targeting

those families who are most in need. In fact, the average household served by LIHEAP in Minnesota had an income of \$16,000, and 85 percent of the homes served by LIHEAP included at least one senior, a person with a disability, or a child under the age of 18. These families are struggling. Now is not the time to pull the rug out from under their feet.

LIHEAP is supported by nonprofit organizations such as Community Action of Minneapolis, the Salvation Army, State and local governments, and utility companies. These organizations know the value this program has to ensure that families have the tools they need to stay safe during the coldest winter nights. They also see how it creates economic activity by maintaining demand for utilities when household budgets are under the greatest strain and may be forced to go without.

According to economists, LIHEAP is a smart investment. For every dollar in benefits paid, \$1.13 is generated in economic activity. As a cosponsor of the LIHEAP Protection Act, introduced by Senator JACK REED of Rhode Island, I want to commend my colleagues on their leadership on this issue, and I look forward to working with them to ensure this legislation is passed and that funding for the critical program is maintained.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from California.

#### UNANIMOUS CONSENT REQUEST— H.R. 3630

Mrs. BOXER. Mr. President, I am going to eventually make a unanimous consent request. We have alerted our Republican friends to it. But before I do, I want to set the stage for why I am going to eventually ask we be allowed to go to H.R. 3630, which is at the desk, and that there be a debate and a vote on the Republican-passed payroll tax cut.

For the life of me, I don't understand why, as we approach the end of this year, Republicans do not want, right now, to have a vote on their own bill. Maybe it is because they do not have a lot of votes for it because it is a disaster. The President has spoken out very strongly for a payroll tax cut. We need that. It has been in effect, and if we don't extend it in this time of recovering from a deep dark recession, economists of all stripes have said we are going to see a reduction in economic growth. That is something we don't need right now.

Initially, Republicans said they didn't want anything to do with this tax cut. They loved the tax cuts for the millionaires and billionaires. Oh, that one they have a heart for but this one, they don't really like.

I think they took the heat back home, and good for the American people. They then decided they had to pass

it because if they didn't pass it, working people were going to notice that \$1,000 increase in their taxes.

So we are facing a very odd situation. Having served in the House for 10 years—I had left before Newt Gingrich became Speaker; I ran for the Senate. I know how things work over there. I can almost see—though I have no accuracy on this; it is simply my own feeling—the mindset: The President wants this tax cut so badly, let's do it, but let's load this up with things he is not going to be able to abide. Frankly, that is what they did.

Let's look at some of the things that are in this payroll tax cut. First of all, they added environmental riders. One of them I am very familiar with, and I want to spend a minute explaining.

The EPA passed a rule to control the filthiest and dirtiest boiler operations. These boilers are located in our communities. They spew forth things you really don't want to know about, but we better know. They are things such as mercury, arsenic, and lead. All these things cause cancer, and all of these things are dangerous to all of us, particularly to children and to pregnant women. So the EPA has crafted a rule—listen to this—that only goes after 5,500 of the 1.6 million boilers. Again, these are the filthiest and the dirtiest.

In crafting this rule, they had peer review science that showed this rule would prevent 8,100 premature deaths every single year. That is because we are talking about mercury, lead, and arsenic. These are not our friends.

Now, not being able to abide by this, those in the House are standing with the dirtiest polluters, and they put a stop to that rule. To me, this is shocking, as chairman of the Environment and Public Works Committee. If I saw you were driving a car in a certain direction, Mr. President, and I said to you, if you continue to drive your car in that direction, you are going to hurt people; you are actually going to be responsible for the deaths of 8,100 people in the course of a year, you would turn that car around. But, no, they are barreling forward. I am not even citing the stats—because I don't have them in my memory—on the number of missed workdays, the number of asthma cases, and the lost schooldays, but it is in the tens of thousands in a year.

So they attached what I call a real poison pill to the payroll tax cut. But that wasn't enough. Despite the objections from the Republican Governor of Nebraska, they pushed forward on the tar sands pipeline before the studies were done. By the way, the environmental impact report was done by a company that had ties to the developer. So before we rush to judgment on this, colleagues, we need to have more information. But, no, they are going to jam that through.

So those are two environmental riders that are in the bill that are very

dangerous for the American people. So it is sort of like, here is \$1,000 for you with the payroll tax cut, but we have just increased your risk of getting asthma or perhaps dying of cancer or a heart attack. Maybe that is why they object to having a vote on this bill.

Now, in this bill, the way they pay for things is unbelievable. They are so fearful of hurting the upper income people—those earning over \$1 million a year and paying for this payroll tax cut the way we do, with a small surtax on the millionaires and billionaires, which doesn't kick in until they get past the \$1 million mark—they go after the middle class. They raise premiums on Medicare for 25 percent of Medicare recipients who earn \$80,000 a year, and they raise it 15 percent for some of them in this time of recession. They cut the number of weeks an individual can get unemployment insurance, which also, at this time, is just plain cruel. They go after the salaries of middle-class workers, such as Federal firefighters, veterans, nurses, air traffic controllers, FBI agents, and all Federal employees while they allow government contractor employees to earn up to \$700,000 a year.

Senator GRASSLEY is here, and I know he probably disagrees with some of what I said, but I know he agrees on the Federal contractor issue. In this particular bill, which the House crafted, I say to my friends, they go after middle-class workers, but the government contractor workers can earn up to \$700,000 a year. To me, that is the only reason I can see why Republicans are objecting to having a vote on this so-called payroll tax bill—because it is so loaded with things that are going to hurt the American people.

So I think we ought to have that vote and kill this Christmas turkey, because it is a turkey. It is harmful to the middle class. It is literally going to cause an increase in premature deaths, in asthma cases, and it is literally going to hurt middle-class workers while it leaves the millionaires and billionaires alone. What kind of value system is that? Merry Christmas to the middle class. No, it isn't.

So, Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 3630, which was just received from the House; that there be 2 hours of debate equally divided between the two leaders or their designees prior to a vote on passage of the bill; that no amendments be in order prior to the vote; and that the vote on passage be subject to a 60-affirmative-vote threshold; further, if the bill is not passed, it remain the pending business and the majority leader be recognized.

The PRESIDING OFFICER. Is there objection? The Senator from Iowa.

Mr. GRASSLEY. Reserving the right to object, and I must object, but I wish to make clear that the Senator from

California understands I didn't come to the floor to object to her request, but on behalf of the Republican leader I do object.

The PRESIDING OFFICER. Objection is heard.

Mrs. BOXER. Mr. President, I thank my colleague. We are buddies. We work together on a lot of good government issues. But the minority leader, the Republican leader, is objecting.

So in summing this up, as I leave the floor, I would ask rhetorically, why on Earth the Republican leader is afraid to vote on a Republican bill, other than the fact that that bill, in my view, exposes a set of values that are not consistent with the American people.

I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I ask unanimous consent to speak for what time I might consume, but I wouldn't expect it would be more than 30 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I have come to the floor to speak about the Fast and Furious investigation. But I would also like to follow up and have this portion of my remarks follow the Senator from California because I think my side has a legitimate position to take on some job creation things that are in the House bill that has come over here; that if people just hear one side of the story, they might misunderstand we are not interested in creating jobs and we are only interested in putting stumbling blocks in the way of regulations or Presidential decisions that are made. But it is directly related to, in the case of rules by EPA that the Senator spoke about, it is a fact that under this administration there is an explosion of regulations. A lot of those regulations, because of their cost, have led to the elimination of a lot of jobs or a lot of jobs not being created as a result thereof.

So if we hear the President of the United States saying we ought to pass legislation that he is for to create jobs or we hear the President of the United States, one or two times a week, flying all over the country at taxpayers' expense to give political speeches and asking to put the pressure on Congress to pass his jobs bill at the very same time his departments are issuing regulations costing jobs or not creating jobs or the President making a decision that we shouldn't build a pipeline from Canada down to Texas so we can import more oil in a cost-effective way from our friend Canada—a reliable friend—instead of spending \$830 million every day—every day—to import oil and paying that to countries that either hate us or want to kill us, we think there is an inconsistency between the President who is going around the country giving speeches on

why Congress isn't passing his legislation to create jobs, when his administration is making decisions—in the case of the pipeline, 20,000 jobs could be created right now, union-paying jobs, good jobs, and 110,000 jobs on the side related thereto, plus what it does good for the energy policy of the United States to have that built. The President is standing in the way.

He says it needs another year of study. The State Department has already given two studies over a period of years saying it is OK to go ahead. It is not an environmental problem. The Nebraska legislature held it up for a little while because of the aquifer, but they have reached an agreement that it can go through their State in a little different direction.

We think we ought to create those 20,000 jobs and we ought to do it right now and this legislation that has come over from the House does that. This legislation coming over from the House puts some block of some regulations going into effect that is going to eliminate jobs or stop the creation of jobs.

So we are a little bit irritated about the inconsistency between an administration that wants us to pass legislation to create jobs when, at the very same time, one person is making a decision that we are not going to move ahead with job creation projects. This legislation allows to move ahead for that.

#### FAST AND FURIOUS

Mr. GRASSLEY. Mr. President, the reason I came to the Senate floor is to give my colleagues an update on the Fast and Furious investigation that I have been conducting since last January 31.

For almost 11 months now, I have been investigating Fast and Furious, an operation of the Bureau of Alcohol, Tobacco, and Firearms, ATF. On December 2, the Justice Department finally came clean about who helped draft its February 4 letter to Congress. That was a letter I wrote that they responded to since I opened the investigation on January 31. It only took them a few days to get a letter to me that had a tremendous number of falsehoods in it.

That letter falsely denied ATF whistleblower allegations that ATF walked guns. The revelation in the December 2 documents of this year were the last straw for me. They admitted the February 4 letter had falsehoods in it. I called for Assistant Attorney General Breuer to step down, and I don't do that lightly.

Earlier documents had already shown Mr. Breuer displayed a stunning lack of judgment in failing to respond adequately when told guns had walked in Operation Wide Receiver in the years 2006–07. The December 2 document showed that Mr. Breuer was far more

informed during the drafting of the February 4 letter than he admitted before the Judiciary Committee just 1 month earlier. These two issues led me to call for the resignation of Mr. Breuer, the highest ranking official in the Justice Department who knew about gunwalking in Operation Wide Receiver.

The December 2 documents also established a number of other key points. The first is that the Justice Department has a flawed process for responding to letters from Congress that involve whistleblowers. So any of my colleagues, any of the 99 other Senators who are writing letters to the Justice Department, understand they have a flawed process if it involved whistleblowers responding to us. I will show that to you. In the cover letter that accompanied the documents, the Justice Department wrote that, in drafting their February 4 response, which had these falsehoods in it:

Department personnel . . . relied on information provided by supervisors from the components in the best position to know the relevant facts.

They were listening to supervisors because they only listen to supervisors. That is the problem with not answering the letters in a truthful way, to me, 5 days later after I handed them to the Attorney General. I will show that in just a minute.

Clearly, the Justice Department did not rely on those in the best position to know the facts, since the letter was withdrawn on December 2 due to its inaccuracies.

I don't know how they can withdraw a letter that is in the public domain, but they just somehow withdraw the letter.

The whistleblowers were in the best position to know the facts. Frontline personnel—not supervisors—were in the best position to know the facts, not these senior bureaucrats or political appointees. Yet the Department failed to provide a credible process for whistleblowers, people who know what is happening on a day-to-day basis, and other frontline personnel to provide information without fear of retaliation.

Employees simply do not believe they are free to report misconduct because they see what happens to those who speak out. They know it is a career killer because the ATF and the Justice Department culture protects those who retaliate against whistleblowers. Yet whistleblowers in this case spoke out anyway.

In other words, these whistleblowers were speaking out, taking a chance on their professional future in Federal Government because they knew something wasn't right about the walking of guns. So they risked their career to make sure the truth was known.

The only crime committed by whistleblowers, generally, is the crime of committing truth. But when the Office

of Legislative Affairs sought information to respond to my inquiries, it didn't ask these brave whistleblowers what happened. Instead, it simply relied on self-serving denials of senior officials at ATF headquarters or the criminal division here in DC or the U.S. attorneys in Arizona.

In other words, the Department took the word of the very officials the whistleblowers alleged had mismanaged the situation in the very first place, without getting both sides of the story.

The U.S. attorney has since admitted in testimony to congressional investigators he was too strident when he first heard these accusations. He claimed he didn't know all the facts.

We can't rely on the chain of command when we have a whistleblower. By definition, whistleblowers emerge because the chain of command is broken. Whistleblowers come to Congress because they are unsuccessful in getting their supervisors to address fraud, waste, and abuse. Sometimes those supervisors attempt to cover tracks and paper over the problem. That is why we have to get the story straight from the horse's mouth. We can't let the facts be filtered through multiple layers of bureaucracy. After all, the bureaucracy is filled with the same supervisors who should have done something about the problem in the very first place before whistleblowers even come forward.

These problems are particularly prevalent in the Federal Government that is so very large it is virtually impossible for anyone to ever be held accountable for anything. So it is crucial those investigating whistleblower allegations go straight to those on the ground level with firsthand knowledge of the facts. Their goal should be to understand the underlying facts of the whistleblower allegations, not to intimidate whistleblowers into silence. Instead, inquiries all too often focus on the whistleblowers themselves and what skeletons they have in their closet. That approach is exactly what is wrong with the Federal Government and why it doesn't function as efficiently as it can. Because if more whistleblowers were listened to and wrongs were brought to the surface and transparency ruled, there would be more accountability.

The focus should be on whether the accusations are true so the problems can be corrected. Too often, however, the focus is on finding out what information the whistleblower disclosed so the agency can circle the wagons and build a defense. That needs to change. If the department is going to regain its credibility, it needs to provide straight answers, not talking points and spin.

The only way to provide straight answers is to make sure we get straight answers in the first place. That is one reason we have pushed in our investigation to be able to interview frontline personnel.

The Justice Department objected in a letter Tuesday night. In that letter, the Justice Department also objected to us talking to first- or second-level supervisors. This is exactly the sort of approach that prevents key information from getting to senior officials and to Congress and impedes Congress's constitutional responsibilities to see that the laws are faithfully executed. In other words, we don't just pass laws and say that is the end of it. We have to pass laws to make sure we are a check on the executive branch of government and that means to do the constitutional job of oversight. That means ask questions. That means we are entitled to answers—unless somebody is trying to cover up something. When they are trying to cover up something in the bureaucracy, I always tell them: If you get stonewalled, eventually the truth is going to come out. The more truth that comes out, the more egg you are going to have on your face. Mr. Breuer is one of those who has tremendous egg on his face.

Justice cites the so-called line personnel policy for refusing to provide officials for voluntary interviews. The policy is based purely on nothing but the Department's own preferences. This isn't any law or statute or even case law. The Department has frequently set aside the policy and made exceptions.

For example, line attorneys gave transcribed interviews under oath to Congress in the 1992 Rocky Flats Nuclear Weapons Facility investigation. As recently as October, assistant U.S. attorney Rachel Lieber, the line attorney responsible for the anthrax investigations, participated in an interview with PBS's "Frontline."

How can the Justice Department tell me or argue to Congress that Congress should not be allowed access to line attorneys when they give that same kind of access to the press? Those are the kinds of line personnel and individuals who have the actual answers. I kind of surmise that the reason the Justice Department will let a U.S. attorney or some FBI agents be interviewed on television is that some public affairs officer has looked at it and said: This is a good story. This is going to make us look good. But when Congress wants to interview line people, no, and we have a constitutional responsibility to do that.

I would like to suggest that the Justice Department let the public affairs people make a decision of who can talk to Congress because it might make them look a little better if they will let them talk to Congress or are they afraid we might find out something? It is irritating as heck.

In this case, had the Justice Department gone to the horse's mouth before sending an inaccurate letter to me on February 4, they would have been able to get the story straight. The memo I

have here I am not going to read, but I want to hold it up.

The memo is from an ATF line agent who substantiated the claims of the first ATF whistleblowers.

I ask unanimous consent a copy be printed in the RECORD immediately after my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. GRASSLEY. It is dated February 3, 2011, the day before the Justice Department sent their letter to me. The memo was passed up his chain in response to investigators on my staff talking to him about Operation Fast and Furious. He accurately described the problems with Fast and Furious. What he said was consistent with the claims I had already heard from other whistleblowers. Information such as this is why I was skeptical days later when the Department sent its February 4 letter to me, denying the allegations. In other words, I had proof they were lying to us.

The agent wrote in the memo about being ordered by a Fast and Furious case agent to hold back in their surveillance, so that they did not "burn the operation."

While watching straw purchasers hand off weapons to traffickers—violating the laws of this country but encouraged to do it by their own Justice Department—the case agent "told all the agents to leave the immediate area."

While a crime was being committed the agent said to the agents to leave the area immediately. The memo explicitly says:

The transaction between the suspects took place and the vehicle that took possession of the firearms eventually left the area without agents following it.

A crime is committed, U.S. agents there let them move on.

After the phone call to my staff, the ATF agent's supervisor requested that he write this memo documenting what he had told my investigators. This passed up the chain all the way to the ATF leadership. We know that because there are e-mails attaching the memo sent to senior headquarter officials. However, the Justice Department has refused to provide copies of those e-mails and will only allow them to be reviewed at Justice Department headquarters.

The Department has also refused to provide a copy of this memo. My staff had to obtain it from confidential sources.

One of the questions yet to be answered is who in the Justice Department saw the memo and when. Either way, once the Justice Department got hold of it they tried to keep it under wraps by refusing to give me a copy. They made my staff go to the Justice Department to view it, even though the entire memo simply recounts informa-

tion that was already provided to my staff. It is embarrassing to the Department because it shows that the truth was easily knowable before the false denial was sent to Congress on February 4. If they had asked for firsthand documentation such as this memo when they first got my letter in January, we would not be where we are today.

The second point these documents establish is that main Justice had problems of its own. It was not all the fault of the ATF or the U.S. attorney. Mr. Breuer's deputy, Deputy Attorney General Jason Weinstein, participated in drafting a false statement. The Justice Department's February 4 letter read:

ATF makes every effort to interdict weapons that have been purchased illegally and prevent their transportation to Mexico.

Documents show that line originated in a phone conversation, February 1, 2011, between Justice Department legislative affairs assistant director Billy Hoover from ATF and Jason Weinstein from main Justice's criminal division.

Like Assistant Attorney General Breuer, Mr. Weinstein knew that ATF had let hundreds of weapons walk in Operation Wide Receiver, which was an earlier, smaller scale case than Fast and Furious. In fact, in April 2010, he brought that fact to the attention of Mr. Breuer, his boss. April 2010 is 8 months before I got involved in this investigation. His e-mail to Mr. Breuer about Wide Receiver said:

As you'll recall from Jim's briefing, ATF let a bunch of guns walk in efforts to get upstream conspirators but only got straws, and didn't recover many guns. Some were recovered in [Mexico] after being used in crimes.

It is ironic that is how Mr. Weinstein described Wide Receiver. He was one of the officials who authorized wiretaps in Fast and Furious. Therefore, he was in a position to know that exact same description applied to Fast and Furious. Yet he allowed the myth to be perpetrated that ATF would never do such a thing. Mr. Weinstein saw the Justice Department's very first draft of the letter to Congress. In fact, as one of his Justice Department colleagues in the Deputy Attorney General's office said, "CRM," which happens to be the criminal division, and OLA, which is the Office of Legislative Affairs—"CRM and OLA basically drafted it."

Mr. Weinstein knew the letter contained a blatantly false line. Yet he did nothing to correct it and that line thus remained in every successive draft of the letter.

On December 2 this year, the Justice Department's latest spin was that its statement that "ATF makes every effort to interdict weapons" was "aspirational." Nevertheless, that did not stop them from withdrawing the letter for inaccuracies. Perhaps the "aspirational" language should be saved for mission statements. Responses to specific and serious allegations ought to,

in a commonsense way, stick to the facts, right? This was an oversight letter. I was not asking for some “feel good” fuzzy message about what ATF aspired to. I was asking for simple facts.

A U.S. Border Patrol agent had died, and at the scene of his death were two guns from Fast and Furious. So his death was connected to the ATF operation. Whistleblowers were reaching outside of the chain of command because supervisors would not listen. Instead of treating these allegations with the kind of seriousness they deserved, the Justice Department resorted to damage control.

I do not know what else my investigation is going to uncover, but we are going to pursue it until we get to the end of it because my goal is to find out who at the highest level of government, in Justice or the White House, approved this, and get them fired; make sure that the Terry family gets all of the information about the death of their son—to this point they have had hardly anything—and, No. 3, to make sure a stupid program like walking guns, Fast and Furious, et cetera, never happens again.

This week the investigation revealed that shortly after the February 4 letter, Lanny Breuer asked Mr. Weinstein to write up an analytical memo of Fast and Furious. This suggests that Mr. Breuer and his deputy Mr. Weinstein were down in the weeds on Operation Fast and Furious a lot earlier than previously admitted. Mr. Weinstein was in an excellent position to write such a memo, since Mr. Breuer has acknowledged that Mr. Weinstein was one of the individuals who approved wiretaps in the summer of 2010 as part of Operation Fast and Furious. However, we had to learn of this memo from sources not from the Justice Department but from outside of the Justice Department. The Justice Department has not provided it to us, even though it is clearly responsive to a House Oversight Government Reform Committee October 25 subpoena.

This type of maneuvering is what got the Justice Department in trouble to begin with. The Justice Department should produce this document immediately, along with all the other responsive documents.

This investigation will continue. People must be held accountable. The Justice Department must stop stonewalling today.

## EXHIBIT 1

U.S. DEPARTMENT OF JUSTICE, BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES,

Washington, DC, February 3, 2011.

Memorandum To: Special Agent in Charge, Dallas Field Division

Thru: Resident Agent in Charge, Lubbock Field Office

From: Gary M. Styers, Special Agent, Lubbock Field Office

Subject: Contact with Congressional Investigators

On February 2, 2011, at approximately 1500 hours, ATF Special Agent Gary Styers was contacted telephonically by Robert Donovan and Brian Downey, representing United States Senator Chuck Grassley and the Senate Judiciary Committee. Downey and Donovan after identifying themselves asked Special Agent Styers if he would be willing to answer some questions regarding the time Special Agent Styers spent on a detail to the Phoenix Field Division, Phoenix Group VII Office. Special Agent Styers said he would be willing to answer questions to the best of his knowledge.

Special Agent Styers was asked if he was familiar with the large firearms trafficking case in Phoenix Group VII and Special Agent Styers said he was. Downey and Donovan asked if Special Agent Styers knew the name of the case and he responded that it was “Fast and Furious.” Downey and Donovan then asked if Special Agent Styers knew who the case agent was and Special Agent Styers said it was Special Agent Hope McAllister. Special Agent Styers was also asked who the supervisor of the group was and Special Agent Styers said it was Group Supervisor David Voth. Downey and Donovan also asked who helped Special Agent McAllister. Special Agent Styers said that Special Agent McAllister had a Co-Case Agent from Immigration and Customs Enforcement (ICE) as well as an agent from Group VII. Downey and Donovan asked who was the Agent from ICE and Special Agent Styers told them it was Lane France.

Downey and Donovan asked Special Agent Styers if he knew what the agents were assigned to do on the investigation. Special Agent Styers explained that a group of agents were assigned to the case and that since the case was in the stage of an active wiretap, some agents were working within the group and Special Agent Styers was then asked about his general impression of the Fast and Furious case. Special Agent Styers stated that the case had systematically divided and isolated agents from the group. The case agent had solicited the advice of numerous experienced agents, including Special Agent Styers, regarding how to conduct and end the wiretap operations and case overall. Special Agent Styers gave the case agent his honest opinion and advice since Special Agent Styers had worked two wiretap investigations in his career. Special Agent Styers felt that his advice and opinions, as well as other agents’ advice and opinions were widely disregarded. Along with other agents within the group, Special Agent Styers explained that he was no longer asked to assist with Fast and Furious and concentrated on his assigned cases and provided necessary assistance to fellow agents within the detail and group.

Downey and Donovan asked Special Agent Styers what he felt was incorrect about the way the Fast and Furious case was conducted. Special Agent Styers explained that first and foremost, it is unheard of to have an active wiretap investigation without full

time dedicated surveillance units on the ground. Special Agent Styers relayed that no agents in the group were assigned to surveillance on the Fast and Furious case. Special Agent Styers said that other agencies or task force officers may have been used to conduct surveillance and respond to calls of FFLs, but it seemed that either the case agent or Group Supervisor would poll the office for agents who were available to respond at short notice.

Secondly, Special Agent Styers said that it appeared odd to have a majority of ATF Agents working on a wiretap investigation, who had never worked such a case. Especially, when numerous, permanent Group VII agents and detailers had previous wiretap experience.

Special Agent Styers was provided with contact information for Downey and Donovan and the conversation was ended. Special Agent Styers contacted the Lubbock Resident Agent in Charge, Jim Luera at 1545 hours after the conversation with Downey and Donovan ended, to inform him of the contact. Special Agent Styers was later asked to document the conversation herein and attempted to do so to the fullest extent possible.

Respectfully,

GARY M. STYERS.

Mr. GRASSLEY. Mr. President, I do not see another Member on the floor. Unless some staff person among the Republicans or Democrats tells me somebody is coming, I wish to take another 5 minutes, if I could.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, more like 7 or 8 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

## FCC HOLDS—LIGHTSQUARED

Mr. GRASSLEY. Mr. President, the cornerstone of Congress’s ability to effectively oversee the Federal Government is the free and open access to information—in other words, congressional oversight, what I was talking about in regard to Fast and Furious.

On another investigation 231 days ago, on April 27, I made a very simple request. I requested that the Federal Communications Commission turn over communications regarding its controversial approval of the LightSquared project. LightSquared is a company owned by a hedge fund called Harbinger Capital Partners that is seeking FCC approval to use its satellite spectrum to build a terrestrial wireless network. To accomplish its goals, LightSquared has already spent millions of dollars on lobbyists and made large political donations.

The problem is that LightSquared’s signals would, according to Federal Government tests, cause massive interference with the global positioning system, more commonly referred to as GPS. GPS, as you know, is a critical tool for anything from military drones and missiles to car and ship navigation. LightSquared’s initial plan, which the FCC conditionally approved,

would have interfered with just about every single GPS user.

The surprising fact is that there is no evidence the FCC even tested LightSquared's plan before approving it. In fact, the FCC granted this waiver—which is estimated to be worth at least \$10 billion to LightSquared—in a shortened comment period starting right around Thanksgiving, 2010. Giving a company a possible \$10 billion windfall in a holiday-shortened comment period without doing any testing is very suspicious. Risking our Nation's GPS assets, including the role they play in defending our Nation to accomplish this goal, is downright dangerous.

The question I am asking is, Why would the FCC do this? Of course, to get to the bottom of this question I asked the Federal Communications Commission for some documents—again, a simple question, a request for some information. The FCC, an agency with employees who are supposed to work for the American people, said no to my request. My staff was told the FCC intentionally ignored my document request. The FCC officials said they have determined that they will only be responsive to two Members of Congress: the Chairs of the House and Senate Commerce Committees, not even to ranking members of those same committees, and, of course, not to members of those committees whether you are majority or minority. Presumably, they would not even answer to the majority leader of the Senate or to the Speaker of the House, but for sure they surely are not answering to this senior Senator from Iowa. If you happen to be one of the 99.6 of the Congress who doesn't chair one of those two committees, from the FCC's point of view, sorry, you are out of luck. No documents for you. This attitude is unacceptable. I conveyed my concerns to the FCC on July 5 and asked again for documents. Again, I was stonewalled. This time the FCC claimed that since I cannot subpoena the FCC, it would not respond.

President Obama committed to run the most transparent administration in history. Yet the FCC is saying if you cannot force us to be open, we won't do it. I wrote another letter asking the FCC for documents on September 8, and again I was stonewalled.

This brings us to where we are today, 230-some days later. The FCC's decision to impede Congress's constitutional duty of oversight has forced me to make a difficult decision. I do not take that decision to hold up nominees lightly, but I never do it in secret. I always put a statement in the RECORD, and this is in addition to that statement. But when an agency flagrantly disregards congressional oversight, something must be done.

Before I publicly announced my intention to hold the nominees, I,

through staff, contacted the FCC officials. I informed them that if the documents were not forthcoming, I would hold up the Federal Communication Commission's nominees whom the President sent up here. I was surprised and disappointed by their response. Despite knowing my intentions, they chose not to provide any documents. As a result, I am honoring my promise to hold those nominees.

It is unfortunate the FCC has chosen this path. Due to the FCC's decision to hide its actions from the public and Congress, these nominations are now stalled in the Senate. The question I would ask today of my colleagues and the President of the Senate is: Why? The FCC has already told me it would likely provide these documents if certain members—chairmen of committees—asked for them, but somehow 99.6 percent of the Congress has no right to this information. In other words, 99.6 percent of the Members of Congress cannot do their constitutional job of oversight of the Federal Communications Commission. To paraphrase a very popular slogan these days, I guess that makes me part of the 99.6 percent.

My concern is not just specific to this document request. It is broader than that. In the future, any Member of Congress may request documents from the FCC. As the courts have put it, every Member has a voice and a vote in the process under the Constitution. Each one of us has the authority to request and receive information from the executive branch in order to inform those votes. That is what our court has said. That authority is inherent in each Member's responsibility to participate in the legislative process.

The creation of the committee system and the delegation of certain responsibilities to committee chairmen doesn't change that at all. Individual Members still have a right, as well as a responsibility, to inform themselves by requesting information directly from agencies. For Congress to have a complete view of how an agency works, we need to have access to documents. Turning off that flow of information shortcircuits transparency and hurts accountability.

In this case, the Federal Communication Commission's actions have real-world effects. The FCC's decision to grant a waiver to LightSquared created uncertainty for GPS users, and that includes our own National Defense Agency, the Department of Defense, and other Federal agencies. Another one is the Federal Aviation Administration which claims that 800 people would die as a result of LightSquared's initially proposed network. To the FAA, the FCC's decision could have killed people.

The Department of Defense wrote a letter to the FCC saying that it was not consulted by the FCC. Press reports say that General Shelton—who

heads up GPS for the Armed Forces—said that LightSquared's interference would harm the military's use of GPS. To the Department of Defense, the Federal Communication Commission's actions would have harmed national security.

These are only two agencies, but the Department of Transportation, NASA, and NOAA, among others, have already raised concerns about LightSquared's plan. The effects of the FCC's decision are not just limited to the Federal Government; they also affect ordinary Americans. Here are two examples: For Americans who hope that NextGen air traffic control will reduce air traffic delays, the FCC's action would have continued to increase air traffic wasting time, fuel, and ultimately money for the flying public. For Americans who use precision agriculture to save time and money, the FCC's actions would harm the accuracy and reliability of their equipment. This again leads to wasted energy, lower crop yields, and higher prices for products such as wheat and corn. At the end of the day, the FCC's actions would cost the American consumers money.

Does the FCC even care? I don't know. But the agency certainly has not provided any evidence that it took any of this information into consideration. What we see today is an agency that is completely unaccountable and unanswerable to 99.6 percent of the Congress and, by extension, the American public. This is simply wrong, and I will continue to hold the FCC's nominees until this attitude changes.

I yield the floor.

The PRESIDING OFFICER (Mr. UDALL of New Mexico). The Senator from Rhode Island is recognized.

#### BENEFITS EXPIRATION

Mr. REED. Mr. President, I rise today to urge my colleagues to immediately extend the payroll tax cut and to fully continue jobless benefits for millions of Americans. In less than 3 weeks 160 million Americans face an automatic tax increase and millions of out-of-work Americans will begin to lose their jobless benefits. In order to keep our economy on track, we must continue the payroll tax cut and jobless benefits for millions of out-of-work Americans.

My State of Rhode Island, in particular, has felt the economic downturn acutely. With four unemployed job seekers for every one job and middle-class families struggling to get by—the possibility that Congress would let the payroll tax cut and jobless benefits expire is unthinkable.

I have joined my colleagues on this side of the aisle and voted time and again to cut taxes for middle-class families, and each time our Republican colleagues have opposed the measure because they value tax breaks for the

top one-tenth of 1 percent of income earners more than they do tax cuts for middle-class Americans. Republicans have even rejected our effort to provide tax cuts to businesses and provide them incentives to hire. So in response, Democrats narrowed the focus of the tax cuts to employees. But, Republicans again refused to provide a tax cut for the middle class because it was paid for by asking the top one-tenth of 1 percent of Americans to contribute.

We have seen Republicans refuse to invest in our Nation's roads, bridges, schools, and in policies that will create jobs because Republicans cling to their belief that the wealthiest in our Nation should not have to share in the sacrifice every other American has made during these very difficult economic times. Republicans have voted in favor of millionaires and billionaires five times, costing middle-class Americans tax cuts and the continuation of jobless benefits and other policies that would help create and sustain jobs.

Republicans are not putting forth serious proposals. The House Republican extenders plan that passed that body yesterday is the latest example of not only brinksmanship but their ideological rigidity. Instead of reaching a sensible compromise that works for all Americans, the House Republicans voted to slash the current unemployment insurance program nearly in half and eliminate targeted relief for the hardest hit States like Rhode Island even as our job market is still weak and 14 million Americans are out of work. Republicans are in effect refusing to pass critical legislation, particularly with respect to continuing unemployment insurance. And instead of continuing unemployment insurance they are working to put an end to it by implementing aggressive waivers leading to block granting and creating artificial barriers to benefits—all with the long-term goal of dismantling the system. The Republicans would blunt one of the most effective countercyclical tools we have and ultimately throw it away.

At the core of the Republican Party's effort to reduce jobless benefits is the terribly misguided belief that Americans don't want to work. I say to my Republican colleagues—Americans do want to work. But we have to create jobs or incentivize the private sector to create jobs so they can work.

Instead of compromising and focusing on economic policies that will help create jobs and help the middle class, House Republicans focus on dead-on-arrival special interest pet projects such as the Keystone pipeline and further efforts to weaken the Clean Air Act.

The Republican plan ignores the reality and the challenges that face American families—to maintain their home, to maintain their job, to provide for the future of their families and their children and their retirement.

For those who have lost their jobs in one of the worst economic downturns we have ever faced, unemployment insurance is a lifeline. It is also important for Main Street businesses that rely on these dollars. Grocery stores and drugstores—they all depend on people having some cash to come in and take care of the necessities of life. Without the extension of jobless benefits, consumers will pull back spending, hurt local businesses, and decelerate the progress our economy has made.

We have had 21 months of private sector job growth. This is not sufficient to satisfy the needs across the country, but the growth stands in stark contrast to the absolute collapse of employment in the last months of the Bush administration. This job growth has not been an accident. It has been the result of decisions that the President and Congress made, which include the Recovery Act and other programs that keep the economy moving—not fast enough—but keep it moving forward.

The Economic Policy Institute has estimated that failing to extend UI benefits could result in a loss of \$72 billion of economic activity in 2012—\$72 billion of lost demand, which would slow down the economy and slow down job creation.

These are challenging times for millions of Americans. We cannot afford to let Congress be sidetracked by marginal issues. The core issues are very clear: extend tax cuts for middle-class Americans, continue unemployment benefits to those desperately searching for work. We are facing a tough job market; we have to pass these measures. We have to pass a clean tax cut for millions of working middle class families, and we have to continue jobless benefits in order to help millions of out-of-work Americans looking for a job.

I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. BOOZMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### KEYSTONE XL PIPELINE

Mr. BOOZMAN. Mr. President, when President Obama was sworn into office, the Nation's average price for a gallon of gasoline was under \$2. We all know that is not the case today. In most parts of the country, gas remains well over \$3 a gallon. In my home State of Arkansas, the price of gas ranges anywhere from just under \$3 to \$3.50 a gallon. The reason it stayed at a steady price is because there is a decreased demand because of the poor economy.

Business owners will tell you that when the price of gas hits \$3.50 a gal-

lon, it truly does affect how decisions are made. When it hits the \$4 mark, things start to shut down in terms of the economy because the average person's disposable income is going to the gas pump instead of local businesses.

Our country at this time lacks an energy policy. We are also facing a jobs crisis of enormous magnitude. And our President is standing in the way of one project that can help address both of these problems: the Keystone XL Pipeline.

The proposed 1,700-mile pipeline would transport 700,000 barrels of oil per day from Canada to U.S. refineries in the gulf coast. Canada's oil sands are among the largest oil reserves in the world. As global demand for oil surges and Canada increases production, the addition of the Keystone Pipeline will ensure that Americans benefit from reliable and secure oil from our largest trading partner and trusted ally.

The \$7 billion pipeline cost will be paid by the Keystone consortium and will fund nearly \$½ billion in salaries. It will result in the purchase of \$6.5 billion worth of materials, services, and other local economic activity. None of this will be funded with any Federal money. It is a no-brainer.

Some of these jobs are in my home State of Arkansas. Welspun Tubular Company, which makes pipes for the oil industry, has been producing pipe for the Keystone project. Unfortunately, due to the administration's delay on Keystone, the company has already begun to lay off workers in Little Rock. They have 500 miles of pipe that was produced for the project, ready to go, that is just sitting in the facility.

By delaying the start of the project, it is putting Americans out of work instead of putting Americans to work. Delaying this project costs thousands of well-paying jobs when Americans need reliable employment, and it hurts Arkansas businesses that have invested millions of dollars to help produce the pipeline. It is also a major step backward for energy policy goals of reducing our dependence on oil from unstable regimes.

When it comes to energy policy, I am kind of a T. Boone Pickens guy. I firmly believe that if it is American, we need to be using it. This goes for not only renewable forms of energy but the vast amount of fossil fuels we have been blessed with throughout the United States and directly off our shores. If we use what we have here in a responsible manner, we can be better positioned to pick and choose from whom we import our remaining oil.

Importing oil from Canada would accelerate America's independence from overseas oil by increasing the petroleum trade with one of our most reliable allies, one of our most reliable friends, instead of depending on the likes of Saudi Arabia and hostile regimes such as Venezuela for much of

our oil. The amount of oil provided through this project is equal to half the amount we import from the Middle East. I doubt that anyone in this body would argue that any of the countries we import oil from in that region are more stable than Canada.

President Obama needs to quit pandering to the radical environmentalists. He needs to do what is best for the country, not what he perceives is best for his reelection. The Keystone Pipeline is what is best for America. Let's move forward.

Mr. President, I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. McCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CARDIN). Without objection, it is so ordered.

#### WITHDRAWAL FROM IRAQ

Mr. McCAIN. Today the President of the United States traveled to Ft. Bragg, NC, to mark the end of the war in Iraq and to pay tribute to the more than 12.5 million men and women of our Armed Forces who have served and fought there since 2003. Those Americans deserve all of the praise and recognition they receive, for they have given up their comfort and safety. They have given up less demanding and more lucrative jobs. They have given parts of their bodies and cherished parts of their lives. They have given the quiet little sacrifices that often go unmentioned but often hurt the most: the anniversaries spent alone, the birth of a child missed, the first steps not seen, and the first words not heard.

They have given all of that, and always they are prepared to give more. They deserve to be honored by us all. I know the President's words of praise and appreciation for our troops today were sincere and heartfelt. I have every reason to believe he will do all in his power to keep his promises to take care of our troops and their families at home and to never forget how those noble Americans have done far more than their fair share for the betterment of our Nation.

The President is a patriot and a good American, and I know his heart swells with the same pride and sense of awe all of us feel when we are in the presence of our men and women in uniform. These are humbling feelings, feelings of wonderment and gratitude, and they unite all Americans whether they supported the war in Iraq or not.

But let me point out a fact the President did not acknowledge today, which is this: Our men and women in uniform have been able to come home from Iraq by the tens of thousands over the past 3 years, and not just come home but come home with honor having suc-

ceeded in their mission for the simple reason that the surge worked.

All of this is possible because in 2007, with the war nearly lost, we changed our strategy, changed our leaders in the field, and sent more troops. This policy was vehemently opposed at the time by then-Senator Obama and now President of the United States and his senior leaders right here on the floor of this Senate.

On January 10, 2007, the day the surge strategy was announced, then-Senator Obama said:

I am not persuaded that 20,000 additional troops in Iraq is going to solve the sectarian violence there. In fact, I think it will do the reverse.

On November 15, 2007, when it was clear to GEN David Petraeus and Ambassador Ryan Crocker and many of us that the surge was working, then-Senator Obama said:

The overall strategy is failed because we have not seen any change in behavior among Iraq's political leaders.

Finally, on January 28, 2008, when it was undeniable the surge was succeeding, he had this to say:

President Bush said that the surge in Iraq is working, when we know that's just not true.

At the time the President's preferred alternative was to begin an immediate withdrawal and have all U.S. troops out of Iraq by the end of 2009. I will let future historians be the judge of that proposed policy. All I will say is that for 3 years, the President has been harvesting the successes of the very strategy he consistently dismissed as a failure. I imagine this irony was not lost on a few of our troops at Fort Bragg today, most of whom deployed and fought as part of the surge.

The fact is, the President has consistently called for a complete withdrawal of all U.S. troops from Iraq at the earliest possible date, and he has never deviated from this position as President. Indeed, he always reaffirmed his campaign promise to end the war in Iraq and withdrawal of our troops. So perhaps it should not have come as a surprise when the President announced in October that he was ending negotiations with the Iraqi Government over whether to maintain a small number of U.S. troops in Iraq beyond this year to continue assisting Iraq security forces.

I continue to believe this decision represents a failure of leadership, both Iraqi and American; that it was a sad case of political expediency triumphing over military necessity, both in Baghdad and in Washington; and that it will have serious negative consequences for Iraq's stability and our national security interests.

I sincerely hope I am wrong, but I fear that GEN Jack Keane, who is one of the main architects of the surge, could be correct again when he said recently:

We won the war in Iraq, and we are now losing the peace.

Let me be clear. Like all Americans, I too am eager to bring our troops home. I do not want them to remain in Iraq or anywhere else for a day longer than necessary. But I also agree with our military commanders in Iraq who were nearly unanimous in their belief that some U.S. forces, approximately 20,000, should remain for a period of time to help the Iraqis secure the hard-earned gains that we had made together.

All of our top commanders in Iraq, by the way, chosen by the President of the United States—all of our top commanders in Iraq—General Petraeus, General Odierno, General Austin, all of them believed we needed to maintain a presence of U.S. troops there, and they consistently made that clear to many of us during our repeated visits to Iraq.

On February 3, the commander of U.S. forces in Iraq, GEN Lloyd Austin, and U.S. Ambassador to Iraq Jim Jeffrey testified to the Committee on Armed Services that for all of the progress the Iraqi security forces had made in recent years—and it has been substantial—they still have critical gaps in their capabilities that will endure beyond this year. Those shortcomings included enabling functions for counterterrorism operations, the control of Iraq's airspace, and other external security missions, intelligence collection and fusion, training and sustainment of the force.

Our commanders wanted U.S. troops to remain in Iraq beyond this year to continue assisting Iraqi forces in filling these gaps in their capabilities. Indeed, Iraqi commanders believed the exact same thing. In August, the chief of staff of Iraq's armed forces could not have been any clearer. He said:

The problem will start after 2011. The politicians must find other ways to fill the void after 2011. If I were asked about the withdrawal, I would say to politicians, the U.S. Army must stay until the Iraqi Army is fully ready in 2020.

During repeated travels to Iraq with my colleagues, I have met with all of the leaders of Iraq's major political blocs, and they too said they would support keeping a presence of U.S. troops in Iraq. So let's be clear. This is what our commanders recommended, it is what Iraqi commanders recommended, and it is what all of Iraq's key political leaders said privately that they were prepared to support. So what happened? What happened?

Advocates of withdrawal are quick to point out that the current security arrangement which requires all U.S. troops to be out of Iraq by the end of this year was concluded by the Bush administration. That is true. But it is also beside the point. The authors of that agreement always intended for it to be renegotiated at a later date to allow some U.S. forces to remain in Iraq.

As former Secretary of State Condoleezza Rice, whose State Department team negotiated the security agreements, has said:

There was an expectation that we would negotiate something that looked like a residual force for our training with the Iraqis. Everybody believed it would be better if there was some kind of residual force.

So if that is not the reason, I ask again: What happened? The prevailing narrative is that the U.S. and Iraqi leaders could not reach agreement over the legal protections needed to keep our troops in Iraq. To be sure, this was a matter of vital importance. But while this may have been a reason for our failure, the privileges and immunities issues are less causes than symptoms of the larger reason we could not reach agreement with the Iraqis. Because of his political promise to fully withdraw from Iraq, the President never brought the full weight of his office to bear in shaping the politics and the events on the ground in Iraq so as to secure a residual presence of U.S. troops. This left our commanders and our negotiators in Baghdad mostly trying to respond to events in Iraq, trying to shape events without the full influence of the American President behind them.

Last May, I traveled to Iraq with the Senator from South Carolina, Mr. GRAHAM. We met with all of the major Iraqi leaders. All of them were ready to come to an agreement on a future presence of U.S. troops in Iraq. But as Prime Minister Malaki explained to us, the administration at that time and for the foreseeable future had not given the Iraqi Government a number of troops and missions that it would propose to keep in Iraq.

For weeks after, the administration failed to make a proposal to the Iraqis, and when the Iraqis finally united in August and publicly asked the administration to begin negotiations, the response from Washington was again characterized by delay. This ensured that a serious negotiation could not begin much less succeed.

I know Iraq is a sovereign country. I know it has an elected government that must answer to public opinion. I know there could be no agreement over a future U.S. military presence in Iraq if Iraqis did not agree to it and build support for it. So this is as much a failure of Iraqi leadership as it is of American leadership. But to blame this on the Iraqis does not excuse the fact that we had an enormous amount of influence with Iraq's leaders and we did not exercise it to the fullest extent possible to achieve an outcome that was in our national security interest.

In fact, in the view of many, they deliberately refused to come up with a number. They deliberately refused to engage in serious negotiation with the Iraqis, with the ultimate purpose of fulfilling the Presidents's campaign pledge that he would get all U.S. troops out of Iraq.

That is not a violation of sovereignty. That is diplomacy, that is leadership. Leaders must shape events and public opinion not just respond to them, and starting in early 2009, from their desire to accelerate our withdrawal from Iraq faster than our commanders recommended, to their hands-off approach to the Iraqi process of government formation last year, to their record of delay and passivity on the question of maintaining a presence of U.S. troops beyond this year, this administration has consistently failed at the highest level to lead on Iraq.

I say again, perhaps this outcome should not have been a surprise. It is what the President has consistently promised to do, and that decision makes good political sense for this President. But such decisions should not be determined by domestic politics. The brave Americans who have fought so valiantly and have given so much did so not for political reasons but for the safety and security of their fellow citizens, for their friends, for their families, for their children's future, and for us.

This is a decisive moment in the history of America's relationship with Iraq and with all of the countries of the broader Middle East. This is a moment when the substantial influence we have long enjoyed in that part of the world could be receding—in fact, it is receding. We cannot allow that to be our Nation's future. We must continue to lead. We must not let short-term political gains dictate our longer term goals. We need to continue working to shape a freer, more just, and more secure future for both Iraq and for people across the Middle East, for it is in our own national security interest to do so.

Over 4,000 brave, young Americans gave their lives in this conflict. I hope and I pray—regardless of these decisions made in large part for political reasons—that their sacrifice was not in vain. I hope their families will not mourn the day their sons and daughters went out to fight for freedom for the Iraqi people.

Unfortunately, it is clear that this decision of a complete pullout of U.S. troops from Iraq was dictated by politics and not our national security interests. I believe history will judge this President's leadership with the scorn and disdain it deserves.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BLUNT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### KEYSTONE XL PROJECT

Mr. BLUNT. Mr. President, the House yesterday passed a bill that included

an effort to move forward on the Keystone XL Pipeline project, and I wish to talk about that project for a while today and American energy generally.

We all agree private sector job creation needs to be the No. 1 priority in Washington. One of the best ways to jump-start job creation is simply through good energy projects. The shortest path to more American jobs is more American energy.

Unfortunately, the President and the administration have delayed one of the largest domestic, shovel-ready projects until after the election next year. This is a project that is ready to go. The States this project would go through have cleared the way for the project. There is no government money involved. This just takes a government OK, saying: Yes, it is all right to create these jobs. These jobs not only have the short-term impact of creating the jobs that are created to build the pipeline but the long-term impact of all the economic activity that occurs because of this new North American energy to which we would have access. In delaying this program, the President is simply stalling the creation of thousands of jobs and postponing not only the growth in our economy but also a move toward more energy security.

Not too many years ago, I don't think one could say with a straight face that we need to do everything we can to create something that closely resembles energy independence. We are in a situation now with North American energy where we can do that. The numbers on the Keystone XL project speak for themselves.

This project would create 20,000 direct jobs during the construction phase—20,000 jobs. That is why the labor union movement in the country supports this project. Twenty thousand jobs to build the pipeline. It would generate \$20.9 billion in new private sector spending. It would generate around \$5 billion in new State, local, and Federal revenue when this project is being built and when this project is completed. Nationwide, the project would benefit 1,400 American job creators.

The Keystone XL project would also help reinforce America's energy security by reducing our dependence on other parts of the world. With Canada, our largest trading partner, it is a miracle relationship, this large border that we don't worry very much about, all the back-and-forth economic activity that occurs. In fact, for every \$1 we would send to Canada for that energy, they would send 91 cents back. So this is \$1 we are spending to get 91 cents back, to be more of an energy partner with our closest neighbor—we have clearly a bigger border with Canada than we do with Mexico—to be an energy partner with our closest neighbor rather than to worry about energy in places where, frankly, they don't like us very well. If they do like us, they

don't get the money back to us in the same way.

In fact, by comparison, of the 91 cents we would get back for every \$1 we send to Canada for North American energy coming out of Canada, we get 49 cents back from Saudi Arabia. That doesn't mean Saudi Arabia is a bad trading partner. It just means they are not as good a trading partner as the Canadians are. We get 33 cents back from Venezuela. So why would we want to send \$1 to Venezuela or \$1 to Saudi Arabia for energy if we could send \$1 to Canada and almost all of that \$1 comes right back to us?

Domestically, this project would help encourage more oil production in the Bakken formation in the Upper Great Plains. The Bakken formation—which I sure didn't know about 15 years ago and I don't know that anybody did—is thought to be the greatest new energy development since Prudhoe Bay in the 1960s. I read somewhere the other day that North Dakota has become the fourth or fifth energy-producing State in the country, passing Oklahoma. This is a great resource right at the incoming border of where this new pipeline and all this energy activity would be.

Regardless of the White House's decision to delay this project, the Canadian oil sands will be developed. It is not a question of whether there is going to be a market; it is who gets the market. The Canadians have said, as they should: If we don't build a pipeline through the United States to the refineries in the Southern part of the United States, we are going to build that same pipeline in another direction. Most likely, the pipeline will go to the Pacific coast and then the energy goes to Asia.

Why would we want energy going to Asia from a trading partner where we get 91 cents back rather than energy coming here? Why would we want to buy more energy from the Middle East and less energy than we could buy from our neighbor? Why would we think for a minute that the energy security of the country would be better served in any other way than this one?

So this is going to most likely go to Asia. If it doesn't go to Asia, I guess it can go to the Atlantic coast and go to Europe. But what everybody believes is, if it doesn't come here, they just turn the pipeline to the west instead of the south, and those oil sands, that great energy resource goes somewhere else rather than where it makes more sense for us to get it or more sense for them to send it.

This is as close to an energy no-brainer as I can think of. But the majority leader says this project is dead on arrival in the Senate. I don't believe he meant just dead on arrival if it was part of a package that extended the payroll tax. I think the quote was: "It is dead on arrival." It is not going to go anywhere in the coming year, at a

time when we need those jobs. Eventually, we all know as quickly as we can get it, we need to be more dependent on North American energy and less dependent on energy everywhere else.

There have been many reports that say the administration's timing is in consideration for the reelection effort. This appears to be about one American job instead of more American jobs, and we need to be concerned about more American jobs.

Some reports have noted that the President's advisers "fear that a decision in favor of the project could dampen enthusiasm among volunteers needed for door-to-door campaigning in battleground States."

I thought that bus went to battleground States. That should be enough to get to battleground States. We shouldn't have to worry about not having these volunteers because we choose to do what makes sense for us in the energy situation.

Others have noted that "the President decided to punt on this project in order to placate parts of the coalition that elected him in 2008."

Americans are looking for jobs, not more of the same from Washington. This isn't time for politics. We need to jump-start the private sector economy. Again, I will say, the quickest road to more American jobs is more American energies.

For the better part of 60 years, we have used more energy than we could produce. The marketplace is there. The consumer is there. The user is there. This is what capitalism is all about. It is what free enterprise is all about, figuring out how to connect the product with the consumer. So we know the consumer is there. Let's do what we can to connect that consumer with the energy needs they have.

According to a Gallup poll, the sharp decline in the workforce last month may have more of a reflection on the large number of Americans deciding to give up looking for work. Let's do things that energize the economy and energize the American workforce.

I am glad to be a sponsor of the North American Energy Security Act. The House again pursued this week a similar policy as part of their effort to vote on a payroll tax extension, with this as an effort to create new jobs. Whether it is the Keystone Pipeline or the Utility MACT rule that slows down people's decisions to make a job-creating decision or other EPA rules and potential rules that make people think twice and three times and eventually enough times you don't do it about job creation or what we need to do to get to the oil and gas shale reserves of the country or oil in the Gulf of Mexico, let's do what is necessary for North America. Let's make North American energy work for America. I don't know a better way to do that at less government cost or less government involvement than the Keystone Pipeline.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PAYROLL TAX CUT

Mr. COONS. Mr. President, I rise to share a feeling that many in my home State have expressed to me. I rise to share my frustration.

It is not just the frustration you may feel, as I have felt presiding over this body, when for hours at a time it is empty, when there is such precious and important work that we can and should be doing to get the people of this great country back to work, to strengthen our national security, to lay the groundwork for a strong recovery, to deal with the hundreds of issues this body should be dealing with. I am expressing my frustration at our inability to work together and to make real progress.

Today, I have had the blessing of being visited by a number of Delawareans for lunch, for business visits, for just some constituent catchup. As I do almost every day, I commuted down from Delaware this morning. As I have heard from folks on the train, as I have heard from folks in my office, as I have heard from folks who have written and called my offices in Delaware and in Washington, they are puzzled and they are frustrated. They don't understand why we can't move forward.

To paraphrase the good Senator from Missouri who just spoke, there is a no-brainer right in front of us, and it is the extension of the payroll tax cut. It is something that at least apparently has the support of both parties in both Houses. It is something a number of economists have said is an important contributor to the modest but steady economic growth that is helping pull America out of this terrible great recession.

So I ask: Why is it we sit here stalled, unclear on when we can proceed to a vote, to a consideration of a clean payroll tax cut? There have been a whole series of efforts to get us to the floor for a vote to an extension of the payroll tax cut. This is a simple enough matter.

Working Americans all over this country—I believe 160 million of them—will be hit with an increase in their payroll tax rate at the end of this month, just a few days now away, unless we act. My good friend Senator CASEY of Pennsylvania has suggested several versions of a payroll tax cut that would build upon and strengthen the payroll tax cut that the President

proposed and this body passed last year. The Casey compromise that has most recently been considered and debated in this body would put up to \$1,500 in the pockets of hard-working Americans all over this country and would contribute as much as 1.5 percent to GDP growth in the coming year. But in the last 2 weeks, we have seen our colleagues on the other side of the aisle four times block our efforts through filibusters and dilatory tactics to attempt to get to a payroll tax cut extension. The first Republican version was opposed by 26 Senate Republicans; the second version opposed by 25.

So on some level I have to ask, what are we doing? Since when do Republicans openly oppose tax cuts? I have been in this Senate just over 1 year. As you know, I was sworn in last November. In my freshman year, I have seen many moments when we have been unable to reach reasonable compromise, when we have been unable to move forward, and when we have flirted with having to shut down the whole Federal Government because we couldn't reach an appropriate compromise with our colleagues on the other side of the aisle. Now we, once again, stand here this Wednesday, knowing that unless we can act in partnership, we will shut down this government on Friday without a continuing resolution.

Last night, the House acted. They passed this payroll tax cut extension and sent it over to us, and I am puzzled as to why we are not moving to it on the floor today. I will tell you that when we get to move to it, I will vote against it, and I know many others here will as well. Why? Because H.R. 3630, which passed the House last night, is not just a clean extension of the payroll tax cut bill—in fact, far from it. It is loaded with a whole series of other policy riders, things that have nothing to do with the payroll tax cut extension which House leadership had to do in order to garner enough votes to move it.

Today we should be considering this bill sent to us last night, the Speaker asking us to take it up, and it has a whole series of provisions which I suspect many here and at home don't know about. I will briefly consider a few of them.

It undermines health care reform by punishing low- and middle-income families whose economic circumstances changed during the year. It cuts 40 weeks of unemployment benefits from the 99 weeks we would like to extend to 54 weeks. It overrides the President's decisionmaking process on the Keystone XL Pipeline—in my view, simply to embarrass the President—and it amends the Clean Air Act to block EPA's proposed rules on toxic air pollution from industrial boilers.

It would also freeze Federal pay through 2013 and impose a triple contribution, mandatory contribution to

Federal retirement programs, effectively cutting Federal employee pay and taking more than \$53 billion out of the pockets of Federal workers.

To me, in some ways most alarmingly, it allows States to impose drug-testing requirements on employees who have lost their jobs and are seeking unemployment.

In short, what came over to us from the House last night is the furthest thing possible from a clean extension of the payroll tax cut. It is a payroll tax cut with rider after rider sitting on the back of this horse that has weighed it down so greatly, it can clearly hardly move. It is a terrible bill, and in my view we should move to it, dispose of it, and get back to the business of the country.

Last, I am puzzled as to why we are not proceeding to it. My recollection—and I don't have the joy of sitting here on the floor all the time, but my recollection from what I read and heard is that the Republican leader has twice called on us to move to this bill. I believe he did so twice earlier this week, saying we should put partisanship aside and promptly take up whatever is sent over to us from the House by way of a payroll tax cut extension. I think I quote when I say his comment was:

I think the first thing we need to find out is whether there are the votes in the Senate to pass what the House has passed. And so I'd rather not speculate about what happens later. I'm hoping we are spending our time and energy trying to get this bill passed in the Senate, as well as in the House.

That is a perfectly reasonable attitude. We should proceed to this bill. We are here. We have the bill. We have been waiting almost literally the entire day without making any progress. We need to extend tax cuts for payrolls. We need to extend tax cuts that incentivize clean energy investments. We need to extend tax cuts that can help inspire innovation, research, and development.

There is a whole list of tax cuts that will expire at the end of this year without action. We need to pass the National Defense Authorization Act. We need to pass a continuing resolution to fund this government and the rest of this year's appropriations bills. There are so many important bills to which we must turn.

My sole question is, why, when we tried to proceed to this bill this morning, did the Republican leader object?

I am just a freshman, but I represent a State that is deeply frustrated and puzzled. Since when do Republicans load up a tax cut extension with so many riders that they are afraid to even bring it to a vote on the floor of this Chamber? I am puzzled. I am frustrated.

With that, I yield the floor.

The PRESIDING OFFICER (Mr. MERKLEY). The Senator from Wyoming.

#### THE KEYSTONE XL PIPELINE

Mr. BARRASSO. Mr. President, I would like to speak today in support of the Keystone XL Pipeline.

The Keystone XL Pipeline is one of the largest shovel-ready infrastructure projects in the United States. It would bring oil from North Dakota and from Canada to refineries along the gulf coast and in the Midwest. The pipeline would strengthen America's energy security and create tens of thousands of new jobs. These are good-paying jobs. But don't take my word for it, just consider what representatives of organized labor have had to say.

The president of the Building and Construction Trades Department of the AFL-CIO said:

[A]ny discussion of the Keystone XL project begins and ends with one word: JOBS.

He went on to say:

Throughout America's Heartland, the Keystone Pipeline represents the prospect for 20,000 immediate jobs . . . without one single dollar of government assistance.

The general president of the International Brotherhood of Teamsters said:

The Keystone Pipeline project will offer working men and women a real chance to earn a good wage and support their families in this difficult economic climate.

Consider the remarks of the general president of the Laborers' International Union of North America. He said:

This project . . . is not just a pipeline, but . . . a lifeline for thousands of desperate working men and women.

House Democrats also recognize the importance of this Keystone XL Pipeline. This summer, 47 House Democrats voted in favor of the bill to require a decision on the pipeline by November 1. On October 19, 22 House Democrats wrote a letter to the President. This is what they told President Obama:

America . . . cannot afford to say no to this privately funded . . . jobs-creating infrastructure project.

They went on to say:

It is in our national interest to have a Presidential Permit issued for the Keystone XL Pipeline as soon as possible.

Senate Democrats also support the Keystone XL Pipeline. Senator BAUCUS of Montana said:

We need to put Montanans back to work and cannot afford further delays to the Keystone XL Pipeline.

Senator TESTER, also from Montana, said:

The Keystone Pipeline will create Montana jobs and it should not have to wait 14 months for an up-or-down decision.

Senator MANCHIN of West Virginia said:

I'm for the Keystone Pipeline . . . all the trade unions, everyone's for it. It creates thousands of jobs.

Senator BEGICH and Senator LANDRIEU have also written in support of the pipeline.

Until recently, President Obama suggested that he too believed the pipeline to be in the interests of the United States. On April 6, the President held a townhall event in Pennsylvania. There, he received a question about Canadian oil sands production. In response, the President of the United States discussed the Keystone XL Pipeline. This is what he said:

... importing oil from countries that are stable and friendly is a good thing. . . .

Let me repeat. The President of the United States said:

... importing oil from countries that are stable and friendly is a good thing. . . .

However, on November 10, the President reversed course, and he showed a different side. After protests from environmentalists, the President decided to punt his decision on the pipeline until after the 2012 Presidential election.

Many in the press say the President delayed his decision so that environmental activists would turn out on election day to support him. If true, the President's decision to delay the approval of the pipeline was not only political, it was also cynical—cynical because these environmental activists believe they can shut down Canadian oil sands production. They believe they can shut down the production by stopping construction of the Keystone XL Pipeline. It simply is not true, and the President knows it. But maybe the President does not want to be honest with these environmental activists. Maybe he just doesn't want to disappoint them. He doesn't want his political base to stay home on election day.

But don't take it from me; consider what Austan Goolsbee had to say. Many Members of this Chamber know he is the former Chairman of the White House Council of Economic Advisers, this White House Council—President Obama's Council of Economic Advisers. This is what he said:

It is a bit naive to think that the tar sands would not be developed if they don't build that pipeline.

Eventually, it's going to be built. It may go to the Pacific, it may go through Nebraska, but it is going to be built somewhere.

Again, Mr. Goolsbee was President Obama's top economic adviser.

Why are the Canadian oil sands going to be developed? Because the oil sands are a huge national asset for Canada, and Canada will not allow that asset to be stranded.

Let's consider the findings of the Canadian Research Institute. This is an independent, not-for-profit research entity that was established in 1975. Its mission is to provide relevant, independent, and objective economic research on energy and environmental issues.

This June, they released a report. It was entitled "Economic Impacts of Staged Development of Oil Sands

Projects in Alberta from 2010 to 2035"—a 25-year future look. This report looked at a variety of scenarios, including one in which no new pipeline capacity is built. Under that scenario, the institute estimated that the total impact on Canada's GDP would be about \$2.3 trillion over those 25 years. It also estimated that the compensation for Canadian employees will reach almost \$650 billion over this same period. It estimated that the direct, indirect, and induced employment in Canada will grow from 390,000 jobs to a peak of 490,000 jobs in 2020, just 9 years from now. It also estimated that the royalties to Alberta will go from approximately \$3.6 billion in 2010 to a peak of \$22.6 billion in 2020—in 10 years, from \$3.6 billion to \$22.6 billion in royalties to Alberta.

Again, the Canadian Energy Research Institute made all of these estimates assuming that no additional pipeline capacity will be built. What do these estimates mean? They mean Canada will continue to develop its oil resources whether or not Keystone XL Pipeline or any other pipeline is built. It means the environmental activists trying to shut down oil sands production are naive at best.

It also means that the President, President Obama, is once again failing to lead, that he once again is failing to be forthright with the American people, and that he is unwilling and failing to make difficult decisions. The President is showing that he thinks his job is really the only job that matters.

Of course we all know Canada will not sit idly by. Canada will add additional pipeline capacity whether or not Keystone XL Pipeline is built.

Canada's Prime Minister, Stephen Harper, has said that the decision to delay approval of Keystone XL Pipeline demonstrates "the necessity of making sure that we're able to access Asian markets for our energy products." That is what the Canadian Prime Minister had to say. He was just in Washington last week. Alberta's Premier, Alison Redford, said that the decision to delay approval of the pipeline "is a clear reminder about the strategic importance of diversifying our export markets." "A clear reminder about the strategic importance of diversifying our export markets." In other words, Canada has a tremendous amount of oil, and Canada will ensure that its oil is brought to market. It may go to the United States, it may go to China, it may go to another country, but Canada's oil will be brought to market.

Thus, the question for President Obama is very simple, very straightforward: Is it in America's interests to reduce our dependence on oil from the Persian Gulf and from Venezuela? Is it in America's interest to create tens of thousands of new jobs at a time of 8.6 percent unemployment? The answer is abundantly obvious. The answer, of

course, is, yes, it is in America's best interests to reduce our dependence on oil from the Persian Gulf and Venezuela. It is in America's interest to create tens of thousands of new jobs at a time of 8.6 percent unemployment.

It is time that the President starts to say yes and stops saying no to jobs and to energy—yes to energy security, yes to tens of thousands of new good-paying jobs.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LAUTENBERG. Mr. President, I seek recognition in morning business.

The PRESIDING OFFICER. The Senator is recognized.

#### PAYROLL TAX CUT

Mr. LAUTENBERG. Mr. President, we are at a time in the calendar that usually is a time of excellent anticipation. Christmas is coming. The holidays are coming. People are trying to get their families in order, do the shopping, and all the things we have to do. It would seem this is a moment of fairly happy days and the holiday season is here. But these are not happy times for many Americans.

Across our country, families are fighting to keep their heads above water. Some parents do not know how they are going to put food on the table tonight, much less presents under the Christmas tree or during the Hanukkah holidays. That is why our side of the aisle is fighting to continue and expand a tax cut that has benefited millions of working families this year. This is a tax cut for people who need it—families who depend on a paycheck. With the payroll tax cut, the typical family in my State, the State of New Jersey, would receive an extra \$40 a week, starting next year. That is what a typical household in the Northeast pays for gasoline or health care each week.

Mr. President, \$40 a week adds up to \$2,100 a year. For parents who are struggling—as many are—to make ends meet, an extra \$2,100 goes a long way to help buy groceries or pay the electric bill or purchase medicines. It can help pay for childcare, preschool or college tuition—the necessities that help ensure children succeed in life.

To make sure all working families continue receiving this much needed relief next year, we are asking America's millionaires—people who earn over \$1 million a year—to pay their fair share of what the country needs to get ourselves back into reasonable balance.

But the Republicans will not even allow us to vote on a bill that their colleagues in the House approved last night.

I wish to just spend a minute here. The House passed a bill last night. It included tax relief for some and we should take it here and consider it. But the Republicans will not even let us bring up the bill that passed in the House last night, and there is a question as to why. Why will they not let us do it? There is, obviously, a hidden meaning.

But what we see is, the Republicans are acting like Scrooges. This picture I have in the Chamber shows a mean-looking guy, as we see. That is what they want to do for Christmas.

For GOP Scrooges, this is not the season of giving; it is time to take things away. He said: No payroll tax cut for you this year.

They want to take away the tax cut for ordinary working families. The Republican Scrooges want to take away unemployment insurance benefits for 1 million people—imagine, people who are dependent on unemployment insurance at times when they are out of work, to help sustain their families, put food on the table, to try and just keep their heads above water. But that does not matter to our friends on the Republican side.

Today in America there is only one job available for every four unemployed people. This is not the time to cut unemployment benefits.

Republicans also want to weaken safeguards that keep our air clean—filling our atmosphere with poisons and endangering the health of our children. They want to weaken those safeguards.

To add insult to injury, the Republicans are also trying to ram through a massive pipeline that will carry toxic materials into our country—toxic materials. We are so conscious of what damage the toxic environment can do to our families, to our children. But they want to have a pipeline that will carry toxic materials into our country. They want to make it easier for coal-fired industrial facilities to foul the air, spew toxins into our neighborhoods.

It is hard to believe. Instead of gifts, the Republican Scrooges want lumps of coal in the stockings and coal pollution in our lungs.

In many families, it is a tradition to teach children to welcome Santa Claus during the holidays. This year, we are going to tell our kids to hide away from the Republican Scrooges. We are not going to alarm our children and tell them things that are difficult may be even more difficult if some tax relief that is proposed for working-class families is not available to them.

The Republican priorities are different. They want to raise taxes on middle-class families—families who

work for a living—to protect luxuries for millionaires: nice boats, airplanes. I do not mind—they have made the money; it is what they buy with it—but at least carry their fair share of our financial needs in this country.

The Republican priorities say they are for lower taxes, but that only goes for the jet set. When it comes to cutting taxes for working families, the Republican mantra is: Hey, we have to take care of the wealthy. We have to watch out for the wealthy, make sure they are OK. Don't ask them to carry more of the load. It is not a good time to deal with them. After all, maybe they will be big contributors to our political campaigns.

Let's not kid ourselves. American millionaires do not need help. They do not need the Republicans' help. Since the 1980s, our country's wealthiest 1 percent of the working people have seen their average household income increase by 55 percent. Let me restate that. Since the 1980s, our country's wealthiest 1 percent have seen their average household income increase by 55 percent—enormous—but for the bottom 90 percent average household income has not increased at all. As a matter of fact, it has gone down because the cost of living has gone up much faster than even any raises that come through.

Even though incomes are growing for the very wealthy, their tax rates are actually going down. Their taxes are going down. We can also look at the chief executive officers to see how well the wealthy are faring.

CEOs at the largest companies are now paid an average salary of \$11 million a year. Note that. The largest companies' CEOs are now paid an average salary of \$11 million a year. That is 343 times as much as the average worker's salary of \$33,000 a year. This comparison is so hard to reconcile. The CEOs of the largest companies have an average salary of \$11 million a year, and the average worker's salary is \$33,000 a year. Where is the equity in this? When we send the people out to fight, put on the country's uniforms, do the jobs, build the foundations, make sure the country is strong—\$33,000 a year. That is tough.

Just a few decades ago, the pay gap between CEOs and workers was much more modest. The CEOs—again, the CEO, people at the top of these companies—were paid an average of 42 times as much as the average worker, as we see on this chart. The chart demonstrates that in the 1980s, the CEOs made 42 times the average worker's pay. So the difference was not that obvious or that big. In 2010, CEOs made 343 times the average worker's pay. There is no equity there.

I come from the corporate world, and I know what big salaries are. I have seen it in my own company. But the one thing you have to do is at least encourage the people who are working for

you to understand that they have a chance in life to provide the things we all talk about for our children—a college education, the prospect of a decent job, the prospect of being able to take care of our own family.

The numbers make it clear: Our goal should not be protecting millionaires. They do not need our help. We should be focused on protecting Medicare, food safety, home heating for the poor, and Head Start for little kids who have a first chance to learn—to learn—to understand education, to see how important it is to learn, to start reading books at an early age, to start having conversations with their parents about what is going on in this world.

They want to take those children out of the Head Start facility—so many of them, 200,000; it has been proposed in some of the House budgets—take them out of the Head Start school.

But our Republican colleagues do not want to hear about that. They continue asking the poor, the middle class, the elderly, and our children to bear the entire burden of these tough times.

The Republicans now remind me of what accountants are like. They are people who are obsessed, obligated to deal with the bottom line. There is no soul, no humanity, no compassion—not around here—unless it is for the wealthy. They have compassion for themselves.

Let's be clear: It does not hurt those of us who have been successful to pay our fair share. I remind those within my voice, who hear me, we have two wars going on. We have people paying a terrible price to serve our country's needs—a terrible price. This is a time for those who are fortunate enough to make above \$1 million to say: Hey, I want to help carry this burden. I do not want to ask people who are scratching for a living—just trying to make ends meet—I do not want to ask them to do more without saying I want to do my share.

I was lucky. I ran a very big company. I want to do my share. That is why I am here. That is what I am talking about. To those who make more than \$1 million a year, I say: Look in the mirror. Ask yourself if you could succeed without help from anyone else or did your country help you achieve your prosperity. Was it people who built the buildings and built the infrastructure and manned the jobs all across the country—service jobs? They built the foundation upon which those who make \$1 million a year build their futures, build their fortunes. That is what happens. But there is not the respect for the hard-working families that we like to see.

I ask our Republican colleagues, think about the true meaning of the holidays.

It is not Halloween, it is not trick or treat, because otherwise that is what the game looks like. This time of the

year is about coming together, caring about your fellow man. This should be a season of giving, not taking away the necessities from our country's most vulnerable.

We all remember at the end of "A Christmas Carol" when Ebenezer Scrooge opened his heart and became a hero. We need the same kind of miracle here in Congress. We need the Republican scrooges to have a change of heart and work with us to help our fellow Americans this holiday season. We need them to help us continue and expand the tax cuts for working families. We need them to help us continue unemployment insurance benefits for the jobless and clean air safeguards for our children. We need them to help us protect the programs that benefit the people who need them most, whom we need to keep our foundation strong.

To our Republican colleagues, we say, come on, let's work together. Let's do this. Let's put the acrimony aside. Let's put the selfishness aside and say, those who work every day for a living and try to keep things together—and we have millions of people who are looking for jobs who cannot find them right now—let's work together to make sure our children and grandchildren inherit an America that is even stronger than the one we inherited. Show the heart of America. That will be the best gift we can ever give them.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

#### UNEMPLOYMENT INSURANCE

Mrs. MURRAY. Mr. President, there are no more important issues for middle-class families across America than jobs and the economy. This is what they want their elected officials to be focused on. It is exactly what I think we ought to be working on every single day. That is why I have come to the Senate floor again and again to urge my Republican colleagues to stop blocking our attempts to extend and expand the middle-class tax cut so many of our families are counting on. That is why I come to the floor once again today to discuss the urgent need to maintain Federal unemployment benefits for middle-class families across our country. This should be an easy issue.

Unemployment benefits provide a lifeline for millions of families, and it would be simply wrong to cut off this support while the economy continues to struggle and so many of our workers are having so much trouble finding work. Right now, there are more than four unemployed workers for every single job opening. If every opening were filled tomorrow, we would still have more than 10 million workers across the country without a job to even apply for.

Additionally, nearly half of all unemployed workers have been out of a job

for 6 months or longer, which is higher than we have seen for more than 60 years.

So millions of Americans are unemployed today, not because they do not want to work and not because they do not have valuable skills but simply because they find themselves in an economy that is not creating jobs as quickly as we need it to. Those unemployed workers are desperate to get back on the job. Unemployment benefits make all the difference for them and their families while they scour the want ads and pound the pavement and send out resume after resume after resume.

I recently sent a letter to my constituents asking for their stories about what these benefits actually mean to them and their families. The response to that was unbelievable. Within a few days, I received hundreds of e-mails. People sent me videos. They sent me pictures of their families. I received story after story from workers and families from across my home State of Washington who are fighting to make ends meet in this very tough economy and who cannot afford to have the rug pulled out from underneath them.

One of those stories came from a woman named Vicki, who lives in Maple Valley, WA. She was an unemployed single mom, lost her apartment, and told me she now has to share a room with her son in a relative's home. Vicki told me she has made every effort—going to interviews, sending out her resumes to hundreds of employers, still not able to find a job.

She understands that in this economy finding a job will not be easy, but she is going to keep trying, and the support she receives from unemployment benefits has kept her and her family afloat and made all of the difference. She said those benefits allowed her to put food on the table for her family and gas in her car so she could go to job interviews. She told me, "If I lose my unemployment benefits, I do not know what I will be able to do to provide for my son."

She is not alone. I heard from older Americans such as Judy. She is a grandmother of five from Bothell, WA. Judy told me she had been working for 47 years before being laid off from her teaching job in 2009. She said over the last 12 years she has worked to teach adults the skills they need to move into jobs as bookkeepers and receptionists and schedulers. But in this economy, although she was an expert in her area, even she cannot find a job in those fields.

She wrote to me, saying:

I want to work, but nobody will hire older citizens no matter how much experience they have. I started looking for a job at the pay level I was at when I was laid off. But after being unemployed now for 2 years, I am even looking at jobs for less than half of that. Still I am told my experience does not match their requirements.

For Judy, unemployment benefits are not the solution. She wants a job. But

they provide her with some critical support while she looks for that last job before she can retire.

I also heard from Sheila from Bellevue, WA. Like Judy, she is close to retirement, but she was laid off last year from an engineering technician job that she told me she loved and now she is desperate to get back to work. After sending out over 500 resumes since then, she has had 4 interviews. In her e-mail to me, Sheila wrote:

I was devastated when I was laid off. I now look for work 7 days a week. I have worked hard my entire life. I do not want everything I have worked for to disappear.

She told me that is what would happen if her unemployment benefits run out now.

Finally, I received a video message from Scott in Olalla, WA. Scott told me that after working at the same company for 20 years, he was laid off in March and filed his first unemployment claim in the 30-plus years he has been in the workforce. He said he always thought unemployment insurance was for the other people, never thought he would be the one collecting it. Now he calls it a godsend for him and his family. In his video, Scott told me about the uncertainty his family would face if his benefits expired before he could get back on the job. If this happens, Scott said:

I cannot imagine what it would do to my family to lose our home. We spend our money wisely. We live well within our means. But if we lost our home, we would be just another statistic. The last thing I want to do is to explain to my wife and my daughter that we have to leave our home.

That is exactly what he said would happen if he loses his unemployment benefits in this tough economy.

Those are just a few of the many stories I have received. There are so many of them out there. Millions of the people across America, including about 100,000 in my home State of Washington, will stand to lose their benefits that they count on if Congress does not act by the end of this year, in a few short weeks. These workers are not looking for a handout. They do not want to be a burden, but they need support while they get back on their feet and back on the job.

In this struggling economy, maintaining these unemployment benefits is critical. The nonpartisan Congressional Budget Office has said maintaining unemployment benefits is one of the most effective policy tools we have now to boost the economy and get money into the pocket of our consumers. If they are cut off, it would not just be devastating for the families who count on this support, it is going to hurt our small businesses and communities to have billions of dollars pulled away from consumers who spend it every month on food and rent and clothing. We cannot afford to have this lifeline cut off. Our great country has

always been a place that stands with our middle-class families when times are tough and gives them the support they need to get back on their feet and back on the job and contributing to their communities once again.

I urge all of our colleagues to stand with us as the holidays approach, to maintain these unemployment insurance benefits that so many of our families are counting on, and to keep working to cut taxes for the middle class and get our economy moving again and put our country back to work.

On that last point, before I finish, I want to join our majority leader and so many others who today called on Republicans to stop blocking their own bill and allow it to be brought up for an up-or-down vote. We know the Republican bill that passed the House yesterday is going to fail. It is bad policy, and many in their own caucus apparently do not support it. Their bill takes some of the policies we are fighting for to support the middle class, including unemployment benefits, waters them down, and then adds a whole bunch of tea party red meat to attract the Republican support it needed to pass the House.

I am focused on delivering the tax cuts that middle-class families need and deserve, so I will vote against the Republican bill if it is allowed to come up. But I cannot believe that our Republican colleagues are now preventing us from taking a vote on their own bill and then not allowing us to come together, which we need to do in these last few days before the holidays, to get a bipartisan deal and get it to the American people. They expect us to do this job. That is what is holding us up.

I urge our colleagues to sit down, work out an agreement, so that we can all celebrate the holidays with our families, and the families out there who are counting on us will know we have done the job for them.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. THUNE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. HAGAN). Without objection, it is so ordered.

#### THE KEystone XL PIPELINE

Mr. THUNE. Madam President, I think there are a few things that many people across the country, and, hopefully, in the Congress, agree upon. One is that we need to focus like a laser on creating jobs. That is something I think there is universal agreement on here.

I also think there is universal agreement that we ought to become more

energy independent as a nation. We need to look for ways in which our country can lessen that dangerous dependence we have on foreign sources of energy. We import a good amount of our oil from other places around the world—some of them not so friendly regimes. That is why it is such a mystery as to why the Keystone XL Pipeline project is running into such resistance from the administration.

It is ironic in many respects because we had the President of the United States, several months ago, saying:

We are going to have to import some oil; and when it comes to the oil we import from other nations, obviously, we've got to look at neighbors like Canada and Mexico that are stable, steady, and reliable sources.

That is what the President said earlier this year, that if we are going to get energy, if we are going to import oil, we ought to import it from countries that are friendly to the United States. I argue there is no country more friendly to the United States than Canada, with whom we have a very robust trading relationship. We do about \$640 billion of bilateral trade annually with our Canadian neighbors. So thinking that we might be able to get oil from Canada, as opposed to from Venezuela or somewhere in the Middle East, seems like a good option for this country—a good option that policymakers here ought to be very supportive of.

That, again, makes it an even greater mystery as to why the administration has insisted on blocking or even making a decision about whether we can develop a project called the Keystone XL Pipeline, which would take advantage of those oil resources available in Canada and bring them into the United States, transport them through a pipeline that is 1,700 miles long to refineries where that product can be refined, and people here could benefit from it or it could be sold perhaps somewhere else. Nevertheless, it would benefit the economy.

Both in the initial stages when the project is under construction, as well as later on, it will create lots of jobs. In my State of South Dakota—the pipeline would come through South Dakota as it makes its way down to the refineries, and we would benefit from hundreds of jobs that would be created and \$½ billion in economic activity will be created alone in South Dakota. That is during the construction phase, not to mention all the State and local tax revenue that would benefit many of the local governments across my State and other States through which the pipeline would traverse.

It is increasingly a mystery—I don't know how else to describe it—a curiosity or something—to those of us who see the great benefit in getting our oil resources from a friendly country like Canada as to why this administration would be so opposed even to issuing a

decision on permitting this pipeline project that would enable that oil to come from Canada through to refineries in this country.

The other issue on which there is universal agreement is that we ought to put policies in place that create jobs. There is no greater shovel-ready project than the Keystone XL Pipeline. It would have an immediate impact of 20,000 jobs that will be created immediately—a \$7 billion initial investment and billions more over the years as this project continues to be utilized. Furthermore, I argue that it will create other opportunities for energy project development. Certainly, the Bakken oil find in North Dakota would stand to benefit from having a pipeline this accessible to it. It creates all kinds of spinoffs and other types of economic activity that would be good for jobs.

We will have something that lessens our dependence upon foreign sources of energy by about 700,000 barrels of oil a day, creates hundreds of thousands of jobs, and enhances the ability of State and local governments to collect revenues, which they desperately need for their own purposes and needs. Yet here we are looking at this project—or at least a decision on it—being blocked by this administration for no apparent reason other than politics, I argue.

We are heading into a political year, and the President is running for reelection next year. I think it is clear that the delay on a decision on this project for 18 months was clearly designed to get past the Presidential election so the President would not have to make a decision that splits his political base. We have the labor groups that are for it and the environmental groups that are opposed to it. I guess it must be a political decision for this administration to delay this project. It doesn't make sense for America and American workers.

The President says he gets up every day and he thinks about what he can do to create jobs. Well, here are 20,000 immediate jobs that we can benefit from right away—not to mention the many jobs that would come if this project was built.

As we look at the legislation sent to us from the House of Representatives, it includes this Keystone XL Pipeline language that would allow a decision to be made 60 days from its enactment. So we could accelerate at least the period in which this decision could be made.

Why is that important? Because this project is going to go on one way or the other. If it is not built in this country, it will be shipped somewhere else around the world—perhaps China or another country—and the American workers and the American economy will suffer, and the American need that we have for energy will not be met. We are not going to benefit or be advantaged by not having this project here

or if it goes someplace else. That makes absolutely no sense for our economy, no sense for jobs and for many States that are in support of this project.

I hope as this debate gets underway on the proposal sent from the House of Representatives, the sticking point, the thing that hangs it up is not the Keystone XL Pipeline. People will probably have honest disagreements about various provisions in the legislation being sent to us from the House, but one thing that should not delay or in any way detour this from being considered in the Senate is resistance or objections to a final decision being made on the Keystone XL Pipeline.

I want to read a few things for you that have been said by some of the folks across this country who think this is a good idea. Many represent working people—the labor unions. The Teamsters said:

The Keystone Pipeline project will offer working men and women a real chance to earn a good wage and support their families in this difficult economic climate.

The AFL-CIO said:

For America's skilled craft construction professionals, any discussion of the Keystone XL project begins and ends with one word: Jobs.

Look at what has been said by the Brotherhood of Electrical Workers:

At a time when jobs are the top global priority, the Keystone project will put thousands back to work and have ripple benefits throughout the North American economy. Our members look forward to being part of this historic project and pledge to deliver the highest quality work to make it a success.

That is what some of the labor leaders are saying. I want to read what some key Democrats in Congress have said about this. These are a few excerpts from Democratic Members of Congress:

America truly cannot afford to say "no" to this privately funded, \$20 billion jobs-creating infrastructure project, which could bolster our economic, energy, and national security. To that end, we respectfully urge you to ensure that the Presidential permit is issued for Keystone XL.

Here is another quote:

Mr. President, America needs the Keystone XL pipeline. It is in our national interest to have a permit issued for Keystone XL as soon as possible.

The Department of State's final environmental impact statement reaffirmed the findings of the two previous environmental impact statements; namely, that the pipeline will have no significant impact on the environment.

So we have a project that has been OK'ed by the environmental agencies in this country, the people who look at the environmental impacts, who have said this project is ready to go. We have labor organizations that are waiting and are saying this is important to getting people back to work. We have Democrats in Congress who have said

this is a project that we should be for. In fact, there was a vote on this language in a freestanding bill in the House recently. There were 47 Democrats who came out in support of the Keystone XL Pipeline legislation. So we have 47 Democrats on record.

Mr. CONRAD. Madam President, I have some sympathy for the position I hear the Senator enunciating—that the issue of the pipeline ought not to be the thing that prevents us from moving forward. I personally think the pipeline is absolutely in the national interest. It will help us reduce our dependence on foreign energy—at least foreign sources that are hostile to our interests.

The big question is—at least for this Senator—would the language permit a rerouting of the line within the State of Nebraska so that the question of the Ogallala aquifer would not be addressed? Is it the Senator's understanding that the language that has come to us from the House would permit Nebraska to reroute the line to avoid the aquifer?

Mr. THUNE. Madam President, through the Chair, I would say to my colleague from North Dakota that my understanding is the legislation does permit that to happen, and that is why I believe the State of Nebraska, including the Governor and our colleagues here in the Senate from Nebraska, have now come out in support of this. Whereas previously there had been some concern about the Ogallala aquifer, my understanding is the legislation allows for that issue to be addressed. And I have a statement here from the Governor of Nebraska expressing his support for this legislation. So it does strike me that at least that should not be an issue that in any way deters consideration of this pipeline and that we shouldn't have to wait 18 months.

I am saying to my colleague from North Dakota—and I think he recognizes the value of this, as he is from North Dakota, and obviously his is a State that could be favorably impacted by the economic activity resulting from this pipeline—that if we don't do this, somebody else is going to benefit from it. This is not going to wait around. There are vast oil sands reserves up in Canada, and they are looking for a place where they can get this to a refinery and get it refined. If the United States doesn't move forward, some other country is going to benefit.

Mr. CONRAD. If I could just say to my colleague, Canada is going to develop this resource. This oil is going to go somewhere. It is absolutely in our national interest for that oil to come to our country. If the language is, as the Senator represents, that it permits the rerouting of the line within Nebraska to avoid the issue with the Ogallala aquifer, then I, for one, on this side, would hope this could be part of the final package.

I hope this is something we can work through in the coming hours. This should not be the thing that prevents us from reaching across the aisle, reaching across the divide between the two Chambers and achieving a result that is critically important for the country.

I thank the Senator for allowing me to ask this question.

Mr. THUNE. I appreciate the question and comments of the Senator from North Dakota. I couldn't agree more with the sentiments he expressed.

I do believe we have in front of us something for which there is a lot of bipartisan support—an extension of unemployment insurance benefits, with some reforms, a payroll tax cut extension, a fix for the physician reimbursements under Medicare, and a number of other things that have been put into this with an eye toward not only addressing what are some very serious concerns—many of these things expire at the end of the year—but also something that would really create jobs, that has a jobs component to it that would do something positive for our economy.

I hope that we can find a way to come together and that this does not become a deterrent to the legislation that is going to be before us in the not too distant future—the proposal that came to us from the House of Representatives. I certainly hope that doesn't unravel as a result of the Keystone XL Pipeline language being included because I recognize—as the Senator from North Dakota has expressed, and many of his colleagues on his side, along with many of my colleagues on our side—the value of what this could do for jobs, what this could do for our economy, and what this could do for America's energy needs. This will enable us to do business with a friendly partner to the north—Canada—as opposed to continuing to import oil from other countries around the world with which we do not have that kind of a friendly and stable relationship.

I would hope the President would make a decision not to get in the way or assert pressure on Members on his side to vote against this simply because it includes this particular provision. It is good for America, it is good for the States that are impacted, and many of the local governments would benefit. It is certainly good for jobs and the economy, as has been voiced by the various labor unions across this country that represent working Americans. With 700,000 barrels of oil coming to America from Canada, we would be creating economic activity and jobs versus 700,000 barrels of oil going someplace else around the world and some other country benefitting and our becoming even more dependent on foreign sources of energy.

So, Madam President, again, I don't know what to say. This is a no-brainer,

and so I hope the Senate will find its way before we adjourn for the Christmas holiday to enact this legislation that has been put forward that would enable this project to be decided. It doesn't prescribe one way or the other what the President does; it just says the President either has to approve it or give a reason why it is not in the national interest.

I see the other Senator from North Dakota, Mr. HOEVEN, is here as well. He has been a leader and involved in getting this legislation introduced. I thank both my colleagues for recognizing its importance, and I hope we can move legislation that will get this project decided one way or the other. In my view, an affirmative decision would be preferable and would allow us to move forward.

Madam President, with that, I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

#### ECONOMIC POLICY

Mr. CONRAD. Madam President, I wanted to come to the floor to discuss the question of extending the payroll tax cut, dealing with unemployment insurance, dealing with compensation for doctors who treat Medicare patients, and also addressing the question of the alternative minimum tax and, of course, the other tax extenders as well.

This is a key moment for the country. As I expressed earlier—as Senator THUNE was addressing the body—I personally do not believe the Keystone Pipeline should hold us back. This is something upon which I think we could get broad agreement, especially if the language is as the Senator has represented and as Senator HOEVEN has assured me—that it permits the State of Nebraska to reroute that line so that the Ogallala aquifer is not in danger. In my judgment, it is entirely in the national interest to get the Keystone Pipeline advanced. So that should not be the issue that hangs us up.

As we look at things that are holding back the economy, unemployment remains far too high, the housing crisis continues, and we have weak consumer confidence and demand. That really is at the heart of our ongoing economic weakness. Personal debt is still near record levels. We have tightened borrowing standards for businesses and consumers. I hear very often that even good businesses with good track records at paying back loans can't secure the credit they need to expand. And we have State and local budget cutbacks that are continuing.

As we look at the private sector jobs picture, there is some good news because we have now had many months of expansion of private sector payrolls. In fact, if we go back to 2010, in March of the year, ever since then we have seen private sector payrolls increasing

to the tune of millions of jobs. So there is progress being made.

When we look at the reason there has been progress, I believe two of the most distinguished economists in the country gave us a background to understand why we are seeing this progress after one of the greatest financial debacles in our country's history. Alan Blinder, the former Deputy Chairman of the Federal Reserve, and Mark Zandi, who was an economic adviser to the McCain campaign, did an analysis of the Federal Government's response to the financial crisis and the recession. Here is what they found, and they are speaking of TARP and the stimulus:

We find that its effects on real GDP, jobs, and inflation are huge, and probably averted what could have been called Great Depression 2.0. When all is said and done, the financial and fiscal policies will have cost taxpayers a substantial sum, but not nearly as much as most had feared, and not nearly as much as if policymakers had not acted at all. If the comprehensive policy responses saved the economy from another depression, as we estimate, they were well worth their cost.

Madam President, we have a debate going on in this country about economic policy, and our friends on the other side believe that they have the answer, that they have the prescription. I would just remind those who might be listening that it was their policy and their prescription that led this country to the brink of economic collapse. They controlled the economic policy of this country for 8 years, and they put in place a series of policies that they said would dramatically expand job opportunities in this country and strengthen the economy. But we know what happened.

At the end of 2008, I was in the meeting here in the Capitol with the Bush administration's Secretary of the Treasury and Chairman of the Federal Reserve. They told us they were taking over AIG, the big insurance company, the next morning, and they told us that if they did not, they believed there would be a financial collapse within days. Going back to the same tired, failed economic policies that put us in that position is a mistake—a profound mistake. Hopefully we would learn from history.

I believe what is needed now is for America to take steps to strengthen the economy in the short term but to combine that with fiscal discipline over the mid and longer term so that we can get back on track and face up to this debt threat.

Two of the more distinguished economists in the country, in addition to the two I have already cited, have just concluded work for the Peterson Institute for International Economics. These are the Reinharts—Dr. Carmen Reinhart and Dr. Vincent Reinhart—and this is what they concluded following severe financial crises. They found that economic recoveries are shallower and

take much longer. Here is what they said in their analysis:

Real per capita GDP growth rates are significantly lower during the decade following severe financial crises. In the 10-year window following severe financial crises, unemployment rates are significantly higher than in the decade that preceded the crisis. The decade of relative prosperity prior to the fall was importantly fueled by an expansion in credit and rising leverage that spans about 10 years; it is followed by a lengthy period of retrenchment that most often only begins after the crisis and lasts almost as long as the credit surge.

What they are reporting to us, after looking at a long period of economic history and dozens of countries, is that after a financial crisis, recovery takes much longer than is typical from a standard recession.

We now have a bill that was sent over from the House that I believe has serious defects. I believe that bill is a non-starter.

First of all, the House leaders included extraneous provisions making it a partisan bill. President Obama has said he will veto it. Even the Senate GOP won't vote on it. So we have the curious circumstance where we have a bill sent to us by the House of Representatives, controlled by the Republican Party, and the Republican Party in the Senate won't permit a vote on the Republican bill. One might ask, why would that be? Perhaps the reason is they know there aren't many votes for it in this Chamber, just as there weren't many votes for it when it was previously offered on this side.

So more than just extending the payroll tax cut is at stake. We also need to extend unemployment insurance, and we need to fix the cut that is about to happen to doctors who treat Medicare patients. That is the so-called doc fix. We need a compromise, not just partisanship, from both sides. Both sides need to find a way to come together.

I have tried to indicate on this side a willingness to cross the partisan divide with respect to the Keystone Pipeline. Some on the other side have said that is important for their support for this legislation. I have said—at least speaking for me—that I am prepared to support the Keystone Pipeline because I do believe it is in the national interest.

As we look at the effect of allowing the expiring payroll tax cut to die, this is what Goldman Sachs said to us:

Should [the payroll tax cut and extended unemployment benefits] expire at the end of the year, fiscal drag will be intense in 2012.

In other words, because there will be a reduction in demand in the economy, we will see lower economic growth, we will see lower job creation, we will even see a risk of returning to recession. This is from Goldman Sachs, the U.S. Economic Analyst, "What Turns a Stall Into a Slump?" They are telling us one way to turn a stall into a slump is to fail to extend the payroll tax cuts and to extend unemployment insurance

benefits to those who have been out of work for extended periods of time.

That is not just the view of Goldman Sachs. I wrote a letter to the Congressional Budget Office—that is non-partisan—and I asked them which of the policy initiatives we could take would give us the biggest bang for the buck. What they told us is No. 1 would be extension of unemployment insurance. Why? Because the people who receive those benefits are most likely to spend the money. That means there would be increased demand in the economy, and that would give additional lift.

Let me be swift to add: For those who are concerned about deficit and debt, I am with you, absolutely, because our long-term threat is this growing debt. But CBO has told us in testimony before the Budget Committee there is no contradiction between taking steps in the short term to give lift to the economy and taking steps in the medium term and the longer term to rein in deficits and debt.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. CONRAD. Madam President, I ask unanimous consent for an additional 3 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CONRAD. I thank the Chair and I thank my colleagues.

This is what JPMorgan Chase has said on expiring payroll tax cut and emergency unemployment benefits:

For 2012, the more important issue is what happens to expiring stimulus measures. . . . Together, [the payroll tax cut and the emergency unemployment benefits] have lifted household disposable income by about \$150 billion this year. If they expire as scheduled, consumption growth early next year would be challenged. . . . In our baseline view, the drag from tightening fiscal policy [including expiration of the payroll tax cut and emergency unemployment benefits] could subtract 1.5%-2.0% from GDP growth next year.

Since GDP growth is only forecast at 2.5 to 3 percent, a reduction of 1.5 to 2 percent would be a dramatic reduction.

This is what Mark Zandi, the chief economist of Moody's Analytics, said:

If policymakers do nothing here, if Congress and the administration just sit on their hands and they do nothing, the odds are very high we'll go into recession early next year. . . . We have a payroll tax holiday, all of us. . . . We'd be in recession right now without it. . . . If they don't [extend] that, at the very minimum, we'll likely go into recession.

I hope very much that colleagues are listening. I hope very much that we are able to proceed to address this matter of extending the payroll tax cut and of extending unemployment insurance.

I think I want to end as I began. If we had not had the government response in TARP and stimulus, Zandi and Blinder—two of the top economists in this country, one who was an adviser to the McCain campaign, one who was the Deputy Chairman of the Federal Re-

serve—have said we would be in a depression today. We would be in a depression today, with 16-percent unemployment and 8 million fewer people having jobs. We ought to pay close attention to that advice. We ought to act on it, and we ought to do it together. We ought to find a way for principled compromise on both sides.

This body is bigger and better than we are demonstrating at this hour. We have the chance to prove to the American people that we are worthy of their confidence and that we are able to respond and do the urgent business of the Nation. I hope we don't disappoint them.

I thank the Chair and my colleagues for the courtesy of the additional time, and I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

#### EXTENSION OF MORNING BUSINESS

Mr. CONRAD. Madam President, I ask unanimous consent the period for morning business be extended until 7:30 p.m., with Senators permitted to speak up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from North Dakota.

#### KEYSTONE XL PIPELINE

Mr. HOEVEN. I wish to begin by thanking my esteemed colleague from the great State of North Dakota. I appreciate very much his support for this important project as he has again expressed. This is something we worked on for a great length of time. It is something we have quite a bit of background and experience with, energy production and the infrastructure needs that go with it. Again, I express my appreciation to Senator CONRAD for his support of the project, and also for expressing, and I think doing so in very eloquent terms and in terms that are very much appreciated, that he feels this is something that needs to advance; that he feels as we work forward in terms of determining how to handle the payroll tax cut holiday issue, this is something that can be helpful and constructive.

I am here to speak in support of the Keystone project. You might say, Why? Why is it important that we move forward with this project? Well, first and foremost, because it is a tremendous job creator, but also because it reduces our dependence on foreign sources of oil as well as improving environmental stewardship. I want to take a minute to talk about all three aspects of the legislation.

Together with my colleagues, I put forward the North American Energy Security Act of 2011. Essentially, that legislation clears the path to move for-

ward with the Keystone XL Pipeline project.

For those who may not be familiar with the Keystone XL Pipeline, I brought this chart that actually shows the route it travels. It is a 1,700-mile-long pipeline which runs from Alberta, Canada, down to our refineries in the gulf coast region. As you can see, it is this blue line laid out on the chart. Right next to it we have this red line. This is the Keystone Pipeline. I will take a minute to talk about that, because I think it is important in the context of what we are trying to do with Keystone XL.

Prior to being elected to the Senate, I served the State of North Dakota for 10 years as Governor. During that time, we worked with many companies to develop pipeline infrastructure in North Dakota as we produced more and more oil for this Nation, but we also worked with our neighbors from the North who provide oil to our country as well, in fact 2.2 million barrels a day, to move that product safely into our country.

The Keystone Pipeline, built by TransCanada, as you can see, tracks from Alberta, Canada, all the way down to Patoka, IL. So it is similar in that it brings Canadian crude into our refineries here in the United States, which is refined and reduces our dependence on other sources of oil. About 590,000 barrels a day flow through the Keystone Pipeline right now. So when we talk about the Keystone XL project, we are not talking about something which hasn't been done before. In fact, we just got done permitting this pipeline, which is almost identical, bringing oil from roughly the same place in Canada down to refineries into the United States. That has already been approved by EPA and the Department of State. It went through the requisite NEPA and study processes, it went through the proper processes with the Department of State, and it has been approved, 590,000 barrels a day coming into our country to reduce our dependence on oil from places such as the Middle East and Venezuela right now. So when we talk about Keystone XL, we are not talking about doing anything we haven't already done.

This pipeline—which would run a little bit to the west—again roughly starts up about the same place, Alberta, Canada, comes down further than the existing Keystone Pipeline down to our refineries. It is important to know that this isn't just about moving crude oil from Canada to the United States. This is also about moving oil within the United States.

In this part of our country, in North Dakota and in Montana, we are producing a tremendous amount of oil. My home State of North Dakota today is closing in on oil production of 500,000 barrels of oil a day. We will put 100,000 barrels a day of crude oil, such as sweet crude, into this pipeline as well. So it

is not just about moving Canadian oil in America, it is about moving oil within our country, production from the Bakken region in the Williston Basin, down to our refineries.

Also, you will notice that the pipeline comes down to Cushing, OK. Right now we have a backlog of oil in Cushing, OK, and this pipeline will move oil from Cushing down to the refineries in Texas and Louisiana. So it helps solve bottleneck issues, moving oil in our country, which will help reduce prices to consumers as you eliminate some of these bottlenecks and price disparities.

Again I go back to the point of my being here today, talking about this legislation, which is solutions-oriented legislation, problem-solving legislation. What it does is it creates jobs, it reduces our dependence on Middle East oil, and again it provides better environmental stewardship. So when I say it is solutions oriented, what do I mean by that? The issue, as I think most people who follow this issue will recall, the concern or the problem was in the Sandhills region of western Nebraska. Concern had been expressed about going through the Sandhills of Nebraska. That is an area where we have the Ogallala aquifer, and there was concern there that there might be an issue should there be any kind of breach in the pipeline. So that was the issue.

However, the State of Nebraska recently had a special session. In that special session, they said, Hey, we will work to reroute the project to eastern Nebraska, similar to the pipeline that already exists. That eliminates the problem. Now we don't have an issue anymore in the Sandhills area of Nebraska.

The legislation we have written and that has now been incorporated into the House bill takes that very solution and incorporates it into the legislation. It says the Nebraska Department of Environmental Quality can work with EPA and the State Department to reroute the project in Nebraska so there is no longer an issue. We solve the problem. It is problem-solving legislation.

We say as to the entire project that the administration, with State, the EPA, and so forth, has to make a decision on whether to approve the project within 60 days. Is it in our national interest? They have to make that decision within 60 days so the project can get started and we can start creating those construction jobs. But as to Nebraska, they are not bound by the 60 days. They have the time they need to incorporate the solution from the State's special session.

All we are saying is this project has been studied for 3 years. It has been studied for 3 years already. It has gone through the NEPA process. It has gone through the full EIS. State was ready to make a decision. It got held up be-

cause of Nebraska, and we specifically addressed that problem. Now it is time to go forward. That is why this is problem-solving legislation.

Again, this is about creating jobs. This is about reducing our dependence on Middle East oil. We absolutely address the issue of Nebraska. We do not set a 60-day time limit on it. As to the rest of the project, we can get started.

Let's talk about who supports the project. The Prime Minister of Canada, Stephen Harper, has talked to our President and said, look, our greatest ally is Canada. Canada says, this is a very important project for Canada. This is about producing our energy resources in Canada. This is about jobs and economic opportunity in Canada.

Let's join with our best ally and together create jobs and produce energy we can count on.

The issue has been brought up about environmental stewardship. For those who say we have some concerns about producing oil in the oil sands region of Canada, I submit Canada is doing what we are doing. North Dakota all the time is improving their technology in order to improve their environmental stewardship. For example, going to in situ mining rather than for excavation for things such as producing the oil sands.

The point we have to understand that is very important is, if the pipeline doesn't go this way, if the pipeline doesn't go south, it is going to go west. If this product does not come to the United States, this 700,000 barrels, it is going to the west coast of Canada, where it will be loaded on ships and it will go to China.

We have a choice to make. Do we want to reduce our dependence on oil from the Middle East and from Venezuela and other parts of the world where we have real security issues? Do we want to increase the relationship and the economic ties with our best ally in the world or do we want 700,000 barrels a day of Canadian oil going to China instead?

By the way, let's talk about the environmental stewardship. That means we have to haul it over there on oil tankers. We have to continue to bring our product in on oil tankers, so we have higher emissions instead of lower emissions. Instead of that oil being refined in the cleanest refineries in the world, which we have, it is going to be refined in refineries in China, which have much higher emissions.

Again, the whole focus of the legislation—I authored the bill. The whole focus in writing this bill was to say: How do we solve the problem? How do we deal with the concerns? How do we make sure we are being fair to people but that we move forward with real job creation, with producing more energy to increase our energy independence with our good friend and neighbor, our strongest ally—Canada? How do we

continue to do more in terms of private investment, deploying technologies, creating better environmental stewardship? It is about problem-solving legislation.

We can see we have not only the U.S. Chamber of Commerce now supporting this legislation, because they want to see job creation, but we have all the large building and trade unions supporting it as well—AFL-CIO, International Brotherhood of Teamsters, International Brotherhood of Electrical Workers, Labors International Union of North America, United Association, International Union of Operating Engineers.

It is America's workers who are clamoring for the expedited approval of this important project. We can't wait.

Mark Ayers, president, Building & Construction Trades Department, AFL-CIO:

The Keystone Pipeline project will offer working men and women a real chance to earn a good wage and support their families in this difficult economic climate.

James P. Hoffa, International Brotherhood of Teamsters:

At a time when jobs are the top global priority, the Keystone Project will put thousands back to work and have ripple benefits throughout the North American economy. Our members look forward to being part of this historic project and pledge to deliver the highest quality work to make it a success.

President Edwin D. Hill, International Brotherhood of Electrical Workers. The list goes on.

As I said, this project has been studied for 3 years. We have already built the sister project. We have gone through that whole process. This has been studied for 3 years already.

How much will this project cost the American taxpayer? This is a \$7 billion investment, but it is private investment. It is private investment that stimulates job creation. Not only will it not cost the American taxpayer one dime, The Perryman Group from Waco, TX, estimates it will create hundreds of millions of dollars in local and State revenues.

Our country faces some real challenges. One of those challenges is we have to get people back to work. We have 8.6 percent unemployment. We have 13.3 million people looking for work. We need to get them back to work. So government needs to create the legal, tax, and regulatory environment that stimulates private investment and gets people back to work. This legislation, this project, helps do that.

We have a deficit and a debt—a deficit of about \$1.3 trillion, a debt that is now \$15 trillion. When our President took office, our debt was \$10 trillion. The national debt was \$10 trillion. Today it is \$15 trillion.

We have to get a grip on our spending. We have to start finding savings, but at the same time we have to grow

this economy. We have to get private investment going and grow this economy. That growth in revenues and controlling our spending is what will reduce the deficit and the debt.

You know what, we have to do more to reduce our energy dependence on places such as the Middle East and Venezuela, where we have real challenges. This is the kind of project that can do it. I submit we need to move forward. This body has the opportunity to truly empower the kind of investment we need to move our economy forward, to create greater energy independence, and to help Americans get back to work. That is exactly what they want. I encourage my colleagues to support this legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

#### BALANCED BUDGET AMENDMENT

Mr. KIRK. Mr. President, too often we have set-piece speeches in the Senate without any resort to the traditional debate, where two sides are equally dividing time without a set script on a critical issue before our country. I would like to restart the true Senate tradition of debate with a debate with my colleague from Delaware.

I will yield to him right now.

Mr. COONS. I thank Senator KIRK. I am grateful for the Senator inviting me to join him in a real debate on the floor on an issue about which we disagree and about which we cast opposing votes earlier today. It is an issue of real import to our country. It is something that has been debated in the past and will be in the future but essentially whether we should have a balanced budget amendment.

Mr. KIRK. What I would like to do now, in sort of a chess clock style, is take 10 minutes, with unanimous consent, to be equally divided between me and the Senator from Delaware on the subject of the balanced budget amendment.

The PRESIDING OFFICER (Mr. WHITEHOUSE). Without objection, it is so ordered. For 10 minutes, the Senator from Illinois and the Senator from Delaware may engage in a colloquy. The Parliamentarian will keep track of the time of each, to the best of our capability.

Mr. KIRK. Mr. President, the United States needs to adopt a balanced budget amendment to the Constitution. It was a good idea when Thomas Jefferson backed it and it is an even more important idea today. What we are seeing in Europe is a collapse of government finance because they have spent too much, taxed too much, and borrowed too much. Not only do they have a crisis of their government debt, but they have higher taxes and lower economic performance because of that philosophy.

We cannot repeat that mistake. That is why the Senate should have adopted a balanced budget amendment. I will speak in bipartisan fashion—any of the balanced budget amendments we considered today would have been better, rather than to subject our country to a rising tide of debt and an economic model which is already, we are seeing, failing in Europe.

Mr. COONS. I could not agree more that we need to be responsible; that the United States and this Senate need to face our serious and crippling national deficits and debt.

It was a good idea when Thomas Jefferson recognized that a balanced budget amendment was a bad idea. Thomas Jefferson actually, several years later, after supporting a balanced budget amendment, acted as President in ways that demonstrated he understood that real opportunities required extraordinary capabilities by the Federal Government.

I was a county executive. Others in this Chamber who were mayors or Governors lived with balanced budget requirements and it imposed great restrictions on us. It forced us to make tough decisions on annual timelines, so I understand why it is tempting to consider passing one of the balanced budget amendments that were before this Chamber today.

But there is a difference between the Federal Government and the State and local governments. Thomas Jefferson acted decisively to make the Louisiana Purchase possible and to finance the War of 1812. During the current economic downturn, if the Federal Government had not been able to borrow and invest in restoring growth to this country, we would not have had a great recession, we would have had a second depression. I am convinced of it, and it is one of the reasons I think, had the balanced budget amendment been in place, we would have been in even greater trouble than we have been over the last few years.

Mr. KIRK. What we see now, today, though, is that we are awash in \$15 trillion in debt and that since the creation of the triple A credit rating by Standard & Poor's, the United States has now lost that rating.

When young Americans are born today, they already owe the Federal Government \$40,000. So they will have a lower income and a higher tax burden throughout their working lives because of the debts put on them.

The biggest reason for a balanced budget amendment, though, is we have a structural inability to represent young Americans. They cannot vote until they are age 18. Yet the representatives of their parents can transfer tremendous burdens onto that young generation of Americans. The essence of the American dream is that our children's lives will be better than our own. But given the weight of the

debt we are now transferring onto the backs of the next generation, that may no longer be possible.

We absolutely have to have a structural way to prevent one generation from transferring new spending and new debt to the new generation so the American ideal is preserved and so they have a fighting chance to have a better life than their parents.

Mr. COONS. This Senate can, should, and has shown the ability to reach balanced budgets—no, in fact, surpluses—within living memory. In fact, when President Clinton was the President, this Senate and the House acted together. They adopted budgetary self-restraint.

Why amend the Constitution of the United States, our most foundational document, when we have within our own power, recently demonstrated in the late 1990s, the capacity to control ourselves?

The Senator and I agree we are leaving to our children an enormous, crushing legacy of a national debt that has exceeded safe boundaries. But why amend the Constitution in order to force the Senate to do our job? Instead, I think we should embrace some of the tough, big, bold, bipartisan proposals that have been put on the table—whether the Bowles-Simpson Commission or others. The framework of a broad deal that requires sacrifice from all, changes to the spiraling Federal spending, and changes in the direction of the country is on the table before us. Why take a detour into amending America's foundational document rather than simply stepping up and doing the job that is before us?

Mr. KIRK. The job of each generation is to make sure the Constitution deals with critical problems facing the country, so we amended the Constitution so we could prohibit slavery. We amended the Constitution so we could grant women the right to vote. We should amend the Constitution to prevent one generation from encumbering the next generation.

America is the greatest experiment in self-government and, more important, the underlying value of self-rule ever designed. But we have seen in recent days that self-control disappear. We work in the Senate, now well onto I think 900 days, without a budget. This is the most successful corporation, the most successful enterprise on Earth, representing the real aspiration for human dignity and freedom. Yet that is in danger if we become indebted to China and other countries in ways that no previous generation of Americans have done. This country has regularly amended the Constitution to fix inequities in our society, and the growing inequity we see today is debt and deficits, especially to other countries. Therefore, we should amend the Constitution to protect those who cannot yet vote from an economic fate that would otherwise befall them.

Mr. COONS. Mr. President, how much time remains?

The PRESIDING OFFICER. On the Senator's side, 2 minutes 20 seconds; on the side of the Senator from Illinois, 1 minute 16 seconds.

Mr. COONS. Mr. President, as the good Senator from Illinois suggests, we are, indeed, encumbering future generations with a debt that has risen above \$40,000 per American. This is a central challenge of our time, one in which our national security leadership has cited as critical to ensuring our security and our liberty going forward. But, in my view, the balanced budget amendment that was advanced through S.J. Res. 10 earlier today would compel exactly the sort of intergenerational burdens that my good friend from Illinois suggests he seeks to avoid.

Let me be clear. The requirements of that balanced budget amendment include a spending cap, a supermajority requirement to raise the national debt, and a two-thirds requirement for any increase in Federal revenue. Those in combination would compel drastic, immediate, and substantial reductions in a wide range of programs—such as Social Security, Medicare, Medicaid, veterans benefits—that if imposed would have not just a short-term, very negative impact on our current economy but a significant restructuring of the longstanding relationships between individual citizens and generations.

Yes, leaving a legacy of debt to the next generation is a terrible thing for us to do, but leaning on the crutch of the Constitution and the fig leaf of a constitutional amendment to avoid doing our responsibility—a job which the Senate is fully capable of doing—avoids that responsibility to the next generation.

I close with this question: As we say in the law, if there is a right, what is the remedy? If we were to pass this constitutional amendment, how would it be enforced if the Senate in the future were to fail to balance the budget? Would lifetime Federal judges around the country be imposing choices in terms of budget cuts, spending cuts, revenue changes? I think that would be no better—in fact, far worse—than the Senate simply doing its job.

Today I voted against this balanced budget amendment because I think we have it within our power to show self-control and to secure the future for the next generation of Americans.

Mr. KIRK. I would close by saying the Senator and I agree. I think the Simpson-Bowles plan is the right way to go, and my hope is that we join together on a bipartisan basis to reduce expected Federal borrowing by \$4 trillion along the lines of that bipartisan Presidential commission. But, unfortunately, the Simpson-Bowles plan is gathering dust. The supercommittee that was given procedural powers to possibly put that forward also col-

lapsed. We have not been able to do our job, and we are now encumbering the next generation with even greater amounts of debt—historic amounts.

I think the Founding Fathers did not contemplate the ability to borrow as much from other countries as we now have, and with the United States as the center of freedom and democracy around the world there is a lot riding on the credit of the United States.

My colleague from Delaware talks about a very vital future—especially for people like my own mother—of Social Security and Medicare, but I think she understands that a bankrupt country cannot support Social Security and Medicare. We have to defend the credit of the United States, and therefore I think a balanced budget amendment is essential to the long-term future of the United States.

With that, I thank my colleague.

Mr. President, we have just finished. I hope we do return to a tradition of actual debate, and I thank my colleague for the chance to carry out this debate.

Mr. COONS. I thank the Senator.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

The PRESIDING OFFICER. The Senator from Louisiana.

Ms. LANDRIEU. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TRIBUTE TO MAJOR GENERAL BENNY LANDRENEAU

Ms. LANDRIEU. Mr. President, while we have a bit of quiet time on the Senate floor this evening, I thought I would make brief remarks about the extraordinary career of MG Benny Landreneau. General Landreneau recently retired as the most senior Adjutant General in the Nation, with nearly 14 years of service as head of the Louisiana National Guard, serving under three Governors, and nearly four decades of service to the State of Louisiana and our Nation.

Over many years I have had the joy and pleasure of calling General Landreneau a friend and a colleague and I have worked closely with him and the 11,000 members of our Louisiana National Guard. Through the September 11 attacks on our country and through Hurricanes Katrina, Rita, Gustaf, and Ike and the recent BP oil-spill—one of the largest environmental disasters in our Nation's history—General Landreneau has proven his leadership to the people of Louisiana and our Nation time and time again.

Benny, as he is known by his friends, credits his father with inspiring him to

serve in the National Guard. His father Joseph Audley Landreneau was a World War II veteran and engineering soldier and a combat veteran. Benny, who grew up in Vidrine, LA, chose to follow in his father's footsteps and quickly rose through the ranks in the Louisiana National Guard.

As a young man, in 1969 he enlisted as a light weapons infantryman in the 773rd Maintenance Battalion. Two and a half years later he graduated from Officer Candidate School and became a second lieutenant platoon leader as part of the 3671st Maintenance Company. From those very early beginnings in the National Guard, he progressed rapidly through the ranks.

During his time with the Guard, General Landreneau was part of several major campaigns, including a deployment during Desert Storm. During the first gulf war General Landreneau and his 527th Engineer Battalion were tasked with any number of important missions, including the No. 1 mission for the gulf war commander himself, GEN Fred Franks.

General Franks needed an unmanned aerial vehicle landing strip built immediately, so he knew who to call to get that job done. He called Benny Landreneau and his battalion. Need I say that it was done, I am sure, under budget and before time.

After the 527th returned to the command headquarters, General Franks called General Landreneau to thank him for what he did, which was extraordinary, and asked the general what he could do as a return favor. Without blinking an eye, General Landreneau just said:

Sir, please, if you could get us home for Mother's Day, it would be appreciated.

So all of the mostly guys were home from other States—some women in the battalion as well—and they were thrilled to be home with their parents.

In 1996, shortly after the gulf war, General Landreneau retired from the Department of Agriculture and Natural Resources where he served also as a State conservationist for almost 30 years. Since that time, he has taken the National Guard in Louisiana from a strategic reserve force to an operational force that continues to lead the Nation both on and off the battlefield, and I will talk about off the battlefield in just a minute.

General Landreneau was quoted as saying:

The Louisiana National Guard soldiers and airmen are part of the finest National Guard in America. It is their dedication and professionalism, their commitment and their hard work that has made the Louisiana National Guard the finest guard in America. The Louisiana National Guard has performed in such an outstanding matter in accepting these new challenges of being an operational force and responding to the wars in Afghanistan and Iraq and deploying throughout the world when called on and, at the same time, being able to take up the work of their State emergencies—

Which have been too numerous to count— and being able to respond to the citizens of this State in an outstanding fashion.

This is due in part, I say, to his leadership and vision.

General Landreneau has also been instrumental in implementing one of the most phenomenal programs in our country: the Louisiana National Guard Youth ChalleNGe Program. It is part of the National Youth ChalleNGe Program. This is what I mean by off-the-battlefield expertise as well as on-the-battlefield expertise.

Some years ago—I think about 15—when General Conway was the general for the National Guard, he helped to start this program that now has graduated over 100,000 young people between the ages of 16 and 18 who are unfortunately drifting from the straight and narrow path. They haven't ended up in prison yet, but they are headed that way. They have given up on themselves. They have gotten into a little bit of trouble and need a second chance. This program offers them that chance.

Under General Landreneau's leadership, we run three of the dozens of programs operating in the United States. I might say we run the best three, having been granted and acknowledged with awards in ceremonies for many years in Louisiana and having graduated the largest number of young people. This has been done because of General Landreneau's extraordinary commitment to the citizens of our State and to the young people of our State and the respect he has of his rank and file for these men and women to go beyond their regular duties and responsibilities and step up and say: There is an epidemic in America. Our dropout rate is too high. What can the National Guard do, in addition to everything else they do both abroad and at home, to help? It is extraordinary.

His grandchildren and his children are proud of him. I know he is very proud of them.

He has assembled over the last 14 years arguably the most tested staff in the Nation. He is being succeeded as Adjutant General by GEN Glenn Curtis, who has served as General Landreneau's right-hand man for the last 6 years. It is the hallmark of his leadership that General Landreneau leaves his staff ready to step up, ready to serve, and ready to continue the excellent service they have given to the people of our State and our Nation. Although General Curtis will bring his own brand of leadership to the National Guard, there is no doubt, as he has said to me many times, he has learned at the elbow of GEN Benny Landreneau.

In conclusion, I would like to personally, on behalf of the people of our State, thank GEN Benny Landreneau for his many years of service and dedi-

cation to the people of Louisiana and our country. I want him to know he has positively impacted our State in ways that will long be remembered. The people of Louisiana are grateful for his service and for his dedication, and we honor his admirable career in the National Guard.

Thank you, Mr. President. I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. FRANKEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BEGICH). Without objection, it is so ordered.

Mr. FRANKEN. Mr. President, I ask unanimous consent that Senator WHITEHOUSE and I be permitted to engage in a colloquy.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CLIMATE CHANGE

Mr. FRANKEN. Mr. President, I rise today to address an alarming trend that I see in our national discourse. As legislators, our decisions need to be rooted in facts. Science driven by data and rigorous analysis needs to inform our policymaking.

Scientists are the ones who made the United States the world's innovator in the last century. Scientists are the people who gave us antibiotics, for example. Do you like being able to use antibiotics? Well, then, thank scientists.

Scientists put a man on the Moon—several men, actually—and got him back safely. These are rocket scientists.

Scientists made it possible for Americans to watch this speech on C-SPAN—that is C-SPAN, the Cable Satellite Public Affairs Network—also rocket scientists.

Scientists also came up with such useful things as the Internet.

A scientist from the University of Minnesota, a Noble Prize-winning agronomist named Norman Borlaug, is credited with saving over 1 billion lives worldwide. He did this by using science to develop a high-yield, disease-resistant wheat that was planted in Pakistan, India, and elsewhere around the world.

By engineering our next-generation weapons systems, scientists ensure that our military will continue to be the most powerful in the world.

We rely on science and scientists, and if we are to progress as a country, if we and future generations of Americans are to be healthy and prosperous and safe, we better put science right at the center of our decisionmaking. Yet, right now, foundations and think tanks

funded by the fossil fuel industry are spreading misinformation about the integrity of climate science, much as think tanks paid by the tobacco industry used misinformation to cast doubt about the health hazards of smoking.

Ignoring or flatout contradicting what climate scientists are telling us about the warming climate and the warming planet can lead to really bad decisions on natural energy and environmental policies here in Congress. So today Senator WHITEHOUSE and I want to take some time to talk about climate science and about the fact that a scientific consensus on climate change has been reached. Climate change is happening and is being driven by human activities.

From the National Academy of Sciences, to the American Meteorological Society, to the American Academy for the Advancement of Science, all of the preeminent scientific institutions agree that manmade greenhouse gas emissions are warming the planet and are a threat to our economy, to our security, and to our health, and so do the overwhelming majority of actively publishing climatologists.

This graph, taken from a study published by the National Academy of Sciences, shows responses to the survey question: Do you think human activity is a significant contributing factor in changing mean global temperatures?

What you see here is that as climate expertise goes up, so does the affirmation that climate change is real and is caused by human beings. Among the most expert pool of respondents, climatologists who are actively publishing on climate change, represented by this bar right here, the rightmost bar, 97 percent of that category of scientists answered yes. Of course, there are a few articles published by climate skeptics in peer-reviewed journals, but the vast majority—97 percent—of the peer-reviewed literature supports the notion that people are causing the Earth's climate to change.

What are peer-reviewed articles? Well, they are articles scientists write after conducting experiments. The experimentation is designed to test a hypothesis. If the hypothesis holds up, the scientist writes a paper describing the experiment and sends to it a professional journal. The journal then sends to it other experts in the field—peer reviewers—who see if they can tear any holes in the theory. They question the methodology. They check the math. Very often, they send the paper back with questions. And the researchers will make changes to satisfy the reviewers' inquiries. If in the end the peer reviewers think the work is sound, they recommend the paper for publication. Then, after publication, other scientists in the field are free to read the paper and plug away and disprove it if they can. That is a peer-reviewed paper.

I repeat, the vast majority of peer-reviewed literature supports the notion that people are causing the Earth's climate to change, and 97 percent of published climatologists say yes when asked: Do you think human activity is a significant contributing factor in changing mean global temperatures?

Mr. WHITEHOUSE. Mr. President, as Senator FRANKEN has pointed out, despite the efforts to mislead and create doubt, the jury is not out on whether climate change is happening and being caused by manmade carbon pollution; the verdict is, in fact, in, and the verdict is clear, as shown by this group of scientific organizations that signed a letter supporting our efforts to do something about carbon pollution in the Senate back in October of 2009: the American Association for the Advancement of Science, the American Chemical Society, the Geophysical Union, the Meteorological Society, the Natural Science Collections Alliance, the Botanical Society of America.

Virtually every significant scientific organization accepts that these are the facts and that the verdict is in, and, indeed, there is some recent added support. The scientific community continues to examine this question.

A recent report by James Hansen and Makiko Sato says:

Climate change is likely to be the predominant scientific, economic, political and moral issue of the 21st century. The fate of humanity and nature may depend upon early recognition and understanding of human-made effects on Earth's climate.

They continue:

Earth is poised to experience strong amplifying polar feedbacks in response to moderate global warming. Thus, goals of limiting human-made warming to 2 degrees Celsius are not sufficient—they are prescriptions for disaster.

Another recent report, "Climate Change and European Marine Ecosystem Research," reads as follows:

There is no doubt that rapid global warming and ocean acidification are real, and very high confidence that both are forced by human activities and emissions of carbon dioxide. Climate change effects are especially evident in the oceans.

I will get into that later on in our colloquy a little bit further.

Levels of atmospheric CO<sub>2</sub> are accelerating.

A third report, "The World Energy Outlook for 2011," says:

Global energy-related carbon dioxide emissions reached 30.4 Gt in 2010, 5.3% above 2009, representing almost unprecedented annual growth. In the New Policies Scenario, our central scenario, CO<sub>2</sub> emissions continue to increase, reaching 36.4 Gt in 2035, and leading to an emissions trajectory consistent with a long-term global temperature increase of 3.5 degrees Centigrade.

What does that mean?

The expected warming of more than 3.5 degrees Centigrade in the New Policies Scenario would have severe consequences: a sea level rise of up to 2 metres, causing disloca-

tion of human settlements and changes to rainfall patterns, drought, flood, and heat-wave incidence that would severely affect food production, human disease and mortality.

There are also iconic American companies that have made the considered business judgment that climate change is real and we need to prepare. But we can get more on that later in the colloquy.

Mr. FRANKEN. Yet, in spite of all of this—and these are all new reports on top of this 97 percent number that was established. Yet the conservative media and some of my colleagues in Congress seem to think it is just fine to ignore what these scientists are saying.

Let me illustrate this with an analogy. Say you went to a doctor and the doctor told you: You better start eating more sensibly and start exercising, because you are tremendously overweight. I see that you have a family history of heart disease, and your father died of a heart attack at an early age. You have to go on a diet and start working out a little bit.

You say: You know what. I want a second opinion. So you go to a second doctor and he says: OK, you have a family history of heart disease. Your father died of a heart attack at a young age, and you weigh over 300 pounds. You smoke three packs a day. Your cholesterol is out of control, your blood pressure is through the roof. It would be irresponsible of me as a doctor not to immediately send you to this place at the Mayo Clinic that I know. I think you have to go there.

You say: Thanks, doctor, but I want a third opinion. So you go to the third doctor and the third doctor reads the chart and looks at you and goes: Wow, I am amazed that you are still alive.

You say: You know what. I want a fourth opinion. And then you go to the fourth, fifth, sixth, and seventh doctors. They are all saying the same thing. But you keep asking for more opinions.

Finally, you go to the 25th doctor. The 25th doctor says: It is a good thing you came to me, because all this diet and exercise would have been a complete waste. You are doing fine. Those other doctors are in the pockets of the fresh fruit and vegetable people. He says: Enjoy life, eat whatever you want, keep smoking, and watch a lot of TV. That is my advice.

Then you learn the doctor was paid a salary by the makers of Twinkies, which, don't get me wrong, are a delicious snack food and should be eaten in moderation. Am I making sense here?

Mr. WHITEHOUSE. It is actually quite a good example, because we have some of the phony science that has attacked the science of climate change, which is actually a pretty good comparison to what the Senator described.

Take, for instance, the bogus Marshall Institute, which was founded in

1984 by a physicist who had been the chief scientist behind the tobacco industry's campaign to convince Americans that tobacco is actually OK for you, and that there was doubt about whether it would actually do you any harm. A few years later, he organized something called the Oregon Petition, which denied that climate change was happening. They phoned up the Oregon Petition to look like official papers of the National Academy of Sciences. So the National Academy of Sciences had to take the unusual step of responding that the petition "does not reflect the conclusion of expert reports of the academy," and further, that it was "a deliberate attempt to mislead." So he is an "expert" saying that tobacco is OK for you. Suddenly, he turns up as a climate denier, and he phonyes up his report to look like—

Mr. FRANKEN. Was he part of a foundation?

Mr. WHITEHOUSE. This is founded by the Marshall Institute. There are others of these out there. The other example is the Heartland Institute, another so-called think tank with backers from tobacco and the fossil fuel industries, founded also in 1984. It has written reports to try to manufacture doubt about climate science and about the risks of secondhand smoke. Heartland received nearly \$700,000 from ExxonMobil through 2006. Their bogus policy documents include false claims that climate change is poorly understood, and simply wrong assertions, that there is no consensus about the causes, effects, or future rate of global warming.

Picking these two—but there are others in the constellation of bogus science—they are commonly funded by the Bradley Foundation, the folks who brought you the John Birch Society; by the Scaife foundations, which are constantly behind rightwing causes; the Olan Foundation, which is against public health causes; ExxonMobil; and by the Koch brothers. Although it may look like different voices, it is actually the same money speaking through different fronts.

Mr. FRANKEN. This is actually an interesting area. There is a well-established link between the scientists who have worked for think tanks such as George C. Marshall Institute, Heartland Institute, and other foundations, which were funded at first by tobacco money and, since then, by the fossil fuel industry. These scientists have been paid to spread misinformation in order to cast doubt. That is all they have to do—on a whole host of scientific issues—first, tobacco and acid rain, the hole in the ozone layer, and now climate change.

Take tobacco, for example. Scientists were paid to testify in court that there was no proof that smoking caused cancer or was addictive, even after the industry scientists knew darn well that

cigarettes were addictive and did cause cancer and heart disease. In fact, the tobacco industry was found guilty in 2004 of plotting to conceal the health risks and addictiveness of cigarettes from the public. The judge found that the tobacco industry had “devised and executed a scheme to defraud consumers and potential consumers about the hazards of cigarettes—hazards that their own internal company documents proved they had known since the 1950s.”

The whole purpose of this scheme was to provide misinformation, to confuse the public, to manufacture doubt, and that is what is happening right now with climate change. Public data from the Security and Exchange Commission and from charitable organization reports to the IRS report showed that between 2005 and 2008, ExxonMobil gave about \$9 million to groups linked to climate change denial, while foundations associated with the private oil company Koch Industries gave nearly \$25 million. The third major funder was the American Petroleum Institute. All in all, the energy industry spent hundreds of millions of dollars, even billions of dollars, on lobbying against climate change legislation between 1999 and 2010, including a large spike in spending from 2008 to 2010.

Mr. WHITEHOUSE. And it is not enough that they have a stable of paid-for scientists to create doubt, to create phony science that raises the level of doubt; they also go out of their way to attack legitimate scientists. You would not think this would carry much weight in a proper debate, but amplified by the corporate money behind it, and designed, as the Senator said, with the purpose not to win the argument but to create doubt so that the public moves on, it is actually worse.

One example of this attack on lifetime scientists has been the phony so-called Climategate scandal, which was an effort to derail international climate science and climate negotiations.

Mr. FRANKEN. Climategate. Sometimes the Senator and I refer to it as “Climategate-gate.”

Mr. WHITEHOUSE. Yes, Climategate-gate. In fact, the real scandal here wasn’t what the scientists did; the real scandal was the phony attack on the scientists.

Mr. FRANKEN. I thank my colleague for bringing this up. Let’s talk about that. This is the leak of thousands of e-mails from scientists at the University of East Anglia Climate Research Unit back in 2009. It was done right before the Copenhagen conference, right?

Mr. WHITEHOUSE. I believe that is correct.

Mr. FRANKEN. OK. The conservative media—remember, this doubt is amplified in the conservative echo chamber, talk radio, et cetera. You know what it is, the Wall Street Journal editorial page, Fox News, et cetera. Conserv-

ative media pounced, taking quotes out of context to sensational lies like this “scandal.” Most of the attacks were directed at an e-mail by Phil Jones, a climate scientist working with the East Anglia Climate Research Unit, in which in this e-mail he referred to using “Mike’s Nature trick of adding in the real temps to each series for the last 20 years to hide the decline.” That sounds very bad, “trick” and “hide the decline.” That went viral in the conservative media—evidence that the scientific consensus on climate change was a giant hoax. We had a Member of this body who said the science behind this consensus “is the same science that, through climategate, has been totally rebuffed and no longer legitimate, either in reality or in the eyes of the American people and the people around the world.”

But it turns out that the trick being referred to in the e-mail is actually a technique to use the most accurate data available. Pre-1960, temperature data would include measurements from thermometers, tree rings, and other so-called temperature proxies. Post-1960—this is the trick—they excluded tree ring data from some specific kinds of trees that were widely recognized by the scientific community to be unreliable after 1960. So the decline refers—they refer to it as—it isn’t a decline in global temperatures, as the deniers claim.

Since 1960, we have had pretty good measurement of temperatures around the world with things such as thermometers. They knew this tree ring gave an apparent decline in temperature, as measured by these specific kinds of trees that were known to be inaccurate compared to all the sensors we have for measuring—and there are thousands and thousands and thousands of measurements of the temperature around the Earth every minute, every day.

So this was the “trick”—a technique to use the most accurate data available of global temperatures from things, again, called thermometers, and one that excluded data widely known to the scientific community to be inaccurate. That is what the “trick” was. That is all. That is what Phil Jones referred to in his e-mail. Ironically, he was trying to be precise.

Mr. WHITEHOUSE. And it provoked considerable review afterward because of the alarmist claims that were made in this phony attack on the climate science. A number of pretty respectable organizations took a look at this. One was the university itself, and the university itself reached the conclusion on the specific allegations made against the behavior of CRU scientists, “We find that their rigor and honesty as scientists are not in doubt. In addition, we do not find that their behavior has prejudiced the balance of advice given

the policymakers. In particular, we did not find any evidence of behavior that might undermine the conclusions of the IPCC assessment.” That was the university review.

Not enough? The National Science Foundation also—

Mr. FRANKEN. The university could be biased.

Mr. WHITEHOUSE. That is why we go on to the National Science Foundation, which found no direct evidence of research misconduct and therefore said, “We are closing this investigation with no further action.”

Parliament looked into it as well, because the university was in Great Britain. And the House of Commons did an investigation. The Commons’ investigation concluded that the challenged actions by Professor Jones and others “were in line with common practice in the climate science community.” They went on to say:

Insofar as we have been able to consider accusations of dishonesty, we consider that there is no case to answer.

No case to answer. Finally, they said:

We have found no reason in this unfortunate episode to challenge the scientific consensus as expressed by Professor Bennington that “global warming is happening and that it is induced by human activity.”

So the studies that looked at whether the climate science was phony or whether the climategate scandal was phony have all come down supporting the science and pointing out that climategate should properly be known as climategate-gate because it was the scandal that was phony.

Mr. FRANKEN. Now, let’s make a distinction between people who are climate skeptics and people who are climate deniers. This is kind of an important distinction. There is nothing wrong with skepticism. In fact, we love skeptics. Scientists are, by nature, skeptical. If someone has a new idea, they need to prove conclusively they are right before 97 percent of scientists will believe them. This has already happened for an overwhelming majority of climate scientists who have concluded, again, that global warming is happening and that it is caused by mankind. But there are a small number of them who still have questions.

On the other hand, a climate denier is someone who would not be convinced no matter how overwhelming the evidence. And, as I pointed out, a lot of these deniers are being paid by polluters to say what they want.

Now, shortly after climategate, or climategate-gate, a physicist at the University of California Berkeley, Richard Muller, who was skeptical of the prevailing views on climate science, decided to test the temperature records. Muller, a skeptic, started the Berkeley Earth Surface Temperature Study to reevaluate the record and weed out scientific biases. This was gold to climate deniers. In fact, among

the funders for the Muller study was the Charles Koch Foundation. But things didn't work out the way the deniers had hoped.

In late March, Dr. Muller testified before the House Science and Technology Committee with his initial findings on temperature increases since the late 1950s. This is what he said:

Our result is very similar to that reported by the prior groups—a rise of about .7 degrees Celsius since 1957. This agreement with the prior analysis surprised us.

Because, as I say, they were skeptics. Muller basically recreated the blade of the so-called hockey stick graph, or the temperature graph, that had come under attack in climategate.

This graph shows Muller's estimates against the previous estimates. Muller's Berkeley is black. You will see it is just identical, pretty much. This past October Dr. Muller's group released its findings, and to the dismay of skeptics and deniers these findings further confirmed the prevailing science behind climate change and the work of the scientists attacked during climategate-gate.

We can see the results on the chart. This gray band indicates a 95-percent statistical spacial uncertainty. But it is exactly—and his line is the black line—exactly what the other scientists measured.

The summary of the findings begins by saying, bluntly, “global warming is real,” and goes on to say:

Our biggest surprise was that the new results agreed so closely with the warming values published previously by other teams in the U.S. and U.K.

Including East Anglia.

This confirms these studies were done carefully and that potential biases identified by climate change skeptics did not seriously affect their conclusion.

So even though these claims that the consensus on global warming is a hoax have been refuted so convincingly—by a skeptic no less; funded by Charles Koch, no less—some of the deniers keep repeating it. The science is settled and climategate, or climategate-gate, was just a big distraction. So now let's move on and figure out how we are going to attack the challenge of climate change.

Mr. WHITEHOUSE. The challenge of climate change being extremely real, one of the things that is so frustrating about this campaign of phony, manufactured doubt is that in real life we are seeing the predictions of climate science come true around us.

Climate scientists predicted the atmosphere would warm, and the atmosphere is warming. Climate scientists predicted the ocean would absorb heat, and sure enough, the ocean has absorbed heat and ocean waters are warming. Climate scientists predicted the ocean would absorb CO<sub>2</sub> and that would then lower the pH level of our ocean waters. The ocean is now more

acidic than it has been in 2 million years, threatening coral reefs, shellfish, and the tiny creatures, such as plankton, that make up the base of the entire oceanic food chain.

Climate scientists predicted glaciers and Arctic sea ice would melt and, sure enough, we are seeing record melting. We just saw that notorious leftwing publication, USA Today, report:

Federal Report Arctic Much Worse Since 2006. Federal officials say the Arctic region has changed dramatically in the past 5 years for the worse. It is melting at a near record pace and it is darkening and absorbing too much of the sun's heat.

Climate scientists predicted ecosystem shifts, and we are seeing ecosystem shifts, such as the million-plus-acre forests in the American West—dead to the bark beetle, gone from being green and healthy forests to just mile after mile of brown and dead trees.

Mr. FRANKEN. Explain why the bark beetle is doing this. What is happening and how does that relates to climate change?

Mr. WHITEHOUSE. The bark beetle relates to climate change because what was keeping those trees free from the bark beetle was cold winters that killed off the bark beetle larvae. As temperatures have warmed, the larvae lived through the winters, and they attacked the trees. So trees that were protected by cold winters are no longer protected, and there are literally millions of acres of forest lost in the West.

On a smaller scale, but more important to me in my home State of Rhode Island, the preeminent fish that was taken out of Narragansett Bay was called the winter flounder. My wife wrote her Ph.D. thesis about the winter flounder. It was a very significant cash crop for our fishermen and is now virtually gone because the mean water temperature of Narragansett Bay is up nearly 4 degrees.

Scientists also predicted we would be loading the dice for extreme weather with climate change, and we are seeing an unusual amount of extreme weather. The number of billion-dollar disasters has hit a record. A recent press clip noted:

With an almost biblical onslaught of twist-ers, floods, snow, drought, heat, and wildfire, the U.S., in 2011, has seen more weather catastrophes that caused at least \$1 billion in damage than it did in all of the 1980s, even after the dollar figures from back then are adjusted for inflation.

Serious, grown-up corporate entities, like the biggest insurance companies in the world, are noticing this and are concerned. Munich Reinsurance has written the following:

The high number of weather-related natural catastrophes and record temperatures, both globally and in different regions of the world, provide further indications of advancing climate change.

Throughout the corporate world we are seeing this. Here is a list of compa-

nies that have gone public with the need for us to do something about climate change: American Electric, Bank of America, Chrysler, Cysco, DuPont, Duke Energy, eBay, Toyota, Timberland, Starbucks, Google, GM, General Electric, Ford, Siemens, PepsiCo, Nike, Nishiland, and John Deere. I am picking these at random, but these are not fringe organizations. These are the core of the American business community, and they recognize what is going on.

I want to single out one company, which is Coca-Cola. I was going to bring to the floor the new can of Coca-Cola as an exhibit to demonstrate this major international corporation—this huge American success story based in Atlanta—has taken probably the most iconic product in America—the Coke can—and has redesigned it to reflect what the climate change is doing in the Arctic and to polar bears. Unfortunately, my Coke can was confiscated by the cloakroom staff because I am not allowed to bring exhibits to the floor unless they are this. I should have snuck it out here, but that is why I don't have it.

Coca-Cola is a serious American business, and here is what they say:

The consensus on climate science is increasingly unequivocal—global climate change is happening and man-made greenhouse gas emissions are a crucial factor. The implications of climate change for our planet are profound and wide-ranging, with expected impacts on biodiversity, water resources, public health, and agriculture.

So we put against that the core business community—iconic companies such as Coca-Cola, putting their very label behind the need to address climate change—and the phony-baloney-paid-for scientists who are creating this doubt, and it is time to close this episode.

Mr. FRANKEN. I am glad the Senator brings up the phony-baloney doubt, especially with this extreme weather we have been experiencing. Some of my colleagues on the other side have pointed to the extreme snowstorms—at least one of my colleagues has—in the Northeast over the last several winters as evidence that global warming is a hoax. Again, this is completely misleading. Intensifying blizzards aren't due to the Earth getting cooler, they are due to increased moisture content in the air. Warmer air holds more moisture.

Now, basically, it doesn't have to be that cold for it to snow. It just has to be 32 degrees or below. What is snow? It is frozen water. So it is about water. The atmosphere is now holding more water because it is warmer. Warmer air holds more water than colder air. The main point is that these increased natural disasters have real costs.

A few months ago we had a hearing in the Energy and Natural Resources Committee on the Forest Service's management of the intense forest fires

we had out West this year. In that hearing, Forest Service Chief Tom Tidwell told me he is seeing longer forest fire seasons out West—more than 30 days longer than what we used to have even a decade ago. Forest Service climate experts—and these are scientists—have said that a major contributing factor to these longer fire seasons and more intense fires is climate change.

The cost of these fires, passed on to all levels of government and to society as a whole, is huge. It is something that Members on both sides of the aisle recognize and are concerned about. Several of my Republican colleagues in that hearing expressed their concerns about the cost.

They referred to a report from the Western Forestry Leadership Coalition, which estimates that the combined direct and indirect costs of forest fires can be as much as 30 times the cost of fire suppression alone. We need to factor in the cost of forest rehabilitation, the loss of tax revenues for local governments, loss of businesses that depend on forest resources from property losses, not to mention the immeasurable cost of lives which are lost due to the fires.

I wish to underscore for Members of this body that when we have discussions about important issues such as cost of wildfire response, we are talking about the cost of responding to climate change. If forestry specialists at the U.S. Forest Service tell us these fires are getting worse due to climate change, we should be listening to them.

Mr. WHITEHOUSE. If the Senator doesn't mind, if I change elements from fire to water since I represent an ocean State, another place where climate change is creating dangerous consequences is in our oceans. Let me cite a few reports that have come out recently.

Climate Change & European Marine Ecosystem Research says:

Close to one-third of the carbon dioxide produced by humans from burning fossil fuels and other sources has been absorbed by the oceans since the beginning of industrialization, and that has buffered the cause and effects of climate change.

A resulting lowered pH—

When carbon goes into the ocean, it acidifies it. It lowers the pH.

A resulting lowered pH and saturation states of the carbonate minerals that form the shells and body structures of many marine organisms makes these groups especially vulnerable. The growth of individual coral skeletons and the ability of reefs to remain structurally viable are likely to be severely affected. Continuing acidification may also affect the ability of the oceans to take up CO<sub>2</sub>.

So they will not be absorbing the one-third that they have absorbed any longer. It will stay in the atmosphere and atmospheric concentrations will increase even faster.

The Annual Review of Marine Science reports that:

Growing human pressures, including climate change, are having profound and diverse consequences for marine ecosystems. These effects are globally pervasive and irreversible on ecological time scales. Direct consequences include increasing ocean temperature and acidity, rising sea level, increased ocean stratification, decreased sea ice, and altered patterns of ocean circulation, precipitation, and fresh water.

The context for this is a pretty astounding one; that is, when we look back through history, we don't look at changes in terms of decades or even generations. We look at changes in terms of millions of years.

There is a special issue of Oceanography with a feature on ocean acidification, and it is called "Ocean Acidification in Deep Time."

We have now an atmosphere that already contains more carbon dioxide than at any time in the last 800,000 years of earth history and probably more than has occurred in several tens of millions of years.

We have had agriculture as humans for about 10,000 years, to give you an idea of what 800,000 years or several tens of millions of years means. The report goes on:

There are no precedents in recent earth history for what will be the immediate and direct consequences of the release of CO<sub>2</sub> into the atmosphere and its concurrent dissolution in the ocean's waters.

But we are playing with very dangerous effects when we ignore climate change at the behest of a tiny minority of scientists and their polluter industry funders behind them.

Mr. FRANKEN. There are folks who get the cost of inaction, and that includes the Department of Defense.

In its 2010 Quadrennial Defense Review—or QDR—the DOD identified climate and energy as among the major national security challenges that America faces now and in the future.

To give you a perspective on the significance of this, "Crafting a Strategic Approach to Climate and Energy" was alongside other priorities laid out in the QDR with titles like, "Succeed in Counterinsurgency, Stability and Counterterrorism Operations," and "Prevent Proliferation of Weapons of Mass Destruction."

This is serious stuff. It matters for DOD because climate change is predicted to increase food and water scarcity, increase the spread of disease, and spur mass migration and environmental refugees due to more intense storms, floods, and droughts.

Mr. WHITEHOUSE. We had similar testimony in the Senate Intelligence Committee. The witness who testified before us released his testimony before the House Intelligence Committee and very much the same conclusion:

We judge that global climate change will have wide-ranging implications for U.S. national security interests over the next 20 years.

The factors that would affect U.S. national security interests as a result

of climate change would include food and water shortages, increased health problems, including the spread of disease, increased potential for conflict, ground subsidence—the Earth lowering—flooding, coastal erosion, extreme weather events, increases in the severity of storms in the Gulf of Mexico, disruptions in U.S. and Arctic infrastructure, and increases in immigration from resource-scarce regions of the world.

There are probably climate deniers who say: That is all part of the conspiracy. The Defense Department is in on it. All those companies are in on it. The intelligence community is in on it.

But if there is a hoax, what is more mainstream than National Geographic? Is National Geographic in on it too? They would have to be because they did a special report a few years ago on climate change and they showed a polar bear stranded on the melting ice. Here is what they said:

It's here. Melting glaciers, heat waves, rising seas, trees flowering earlier, lakes freezing later, migratory birds delaying their flight south. The unmistakable signs of climate change are everywhere.

How do we know this? We know this because of the science. What do they say about the science?

How do we know our climate is changing? Historical records, decades of careful observations and precise measurements—

As the Senator said, with things such as thermometers—around the globe along with basic scientific principles.

If you think National Geographic is in on it and you can't have faith in the Defense establishment and you can't have faith in the corporate establishment and you can't have faith even in National Geographic, perhaps you can have faith in the Pope, who said recently:

I hope that all members of the international community can agree on a responsible, credible, and supportive response to this worrisome and complex phenomenon, keeping in mind the needs of the poorest populations and of future generations.

The press release from Catholic News Service then quotes one of his bishops, Cardinal Rodriguez, who says:

Our climate is changing. Urgent action is necessary.

He called on our political leaders around the world "to curb the threat of climate change and set the world on a path to a more just and sustainable future."

Mr. FRANKEN. OK. Well, the Pope—I mean, didn't the Catholic Church go after Galileo?

Look, between the science supporting climate change and the reality of the dangers that climate change brings, we have to ramp up our efforts to master this challenge, and that means wise investments in clean energy R&D and deployment. They are just a good place to start. Plus, these investments encourage the growth of domestic clean

energy—a domestic clean energy economy which would create jobs—and has created jobs—grow our manufacturing base, and keep us competitive in global energy markets. That is so important because Germany, China, Denmark, and countries all over the world are winning this race.

One of the great parts about this job is spending half the time here and half the time home in Minnesota. Minnesota is a national leader in clean energy.

In 2007, Minnesota passed the highest renewable energy standard in the country at the time, and all our utilities are on track to meet the goal of 25 percent renewable by 2025.

Our largest utility, Xcel Energy, is on its way to 30 percent by 2020. We have universities such as the University of Minnesota Morris which is pushing the frontiers of innovation in greening its campus through a biomass gasification system which provides heating and cooling and electricity, wind turbines that produce power, and LEED-certified buildings. Our farmers have led the country in biofuels, and our universities are leading R&D efforts for the transitions to cellulosic and other advanced biofuels.

By the way, the first commercial cellulosic plant that is scaled up to commercial levels is being built right now. St. Paul has the largest district energy system in North America. It is heating and cooling all of downtown St. Paul with woody biomass. SAGE Electrochromics is a manufacturing plant in Minnesota that has cutting-edge window glass technology that uses a little photovoltaic cell to control and turn these—these windows turn completely opaque and block out all UV during the summer. During the winter, they are these beautiful, huge windows that let in all the light. It isn't like a Polaroid. It is an incredible technology.

The University of Minnesota has just received two grants from the Advanced Research Projects Agency at the Department of Energy, ARPA-E, that was patterned after DARPA, the Defense Advanced Research Projects Agency that created the Internet. Across the State, businesses and cities are working together to make our buildings more energy efficient, using Minnesota-made technologies such as Marvin and Anderson windows. Minnesota, by the way, is the Silicon Valley of windows. We have 3M window films or McQuay heating and air-conditioning systems.

Just last month, I partnered with our cities and counties to launch the Back to Work Minnesota Initiative, aiming to break down barriers in financing retrofits, retrofitting public and commercial buildings across Minnesota. What is great about that, this pays for itself. You finance this and you retrofit a building; it puts people in the build-

ing trades to work who are in a depression, and it puts manufacturers that build energy-efficient materials and equipment, geothermal furnace systems and furnaces, heat exchange furnaces, pumps, and you save energy. The energy efficiency pays for the retrofit in 4 or 5 years and you can capitalize this and we are finding innovative ways to do that. It pays for itself and you lower our carbon footprint. You use less energy, create jobs, save money. It is win-win-win-win. This is something we have to do. It is insane not to.

Mr. WHITEHOUSE. We are proud of what is going on in Rhode Island as well. We plan to meet 16 percent of our energy needs through renewable energy sources by 2020, and that is on top of a goal to cut energy use by 10 percent. So we will cut energy use by 10 percent and, of the remaining 90, get 16 percent of that out of renewable energy sources. Everybody is getting involved—utilities, towns, the State, the private sector. One of our cities, East Providence, is right now converting a brownfield which has been vacant for 40 years, nearly, into New England's largest solar institution. As my colleague says, there will be a payback and they will earn money on that for their taxpayers.

Our State of Rhode Island has been the national leader at how you map and prepare for offshore wind development. In the State and Federal waters off the coast of Rhode Island we are positioned to lead the country in offshore wind siting, with all the jobs that building those giant wind turbines and assembling them and erecting them offshore creates.

We have exciting companies such as BioProcess Algae, of Portsmouth, RI, which opened a spectacular facility in Iowa, which takes the exhaust from ethanol plants and runs it through algae farms and creates biofuels. They are at the cutting edge of that technology.

When you see these great technologies and these great opportunities—in this colloquy, we are ending on what I hope is a very strong, positive note for the economy. If we can pull away from the lies and the phony science and the polluter-paid nonsense that has so far distracted us from doing our duty as a nation, we can get into the race that is going on in this world for the energy future. The economy of this century is going to be driven by the \$6 trillion clean energy industry. We do not want to fall out the back of that race and leave it to the Chinese and the Europeans. We want to be winning that race and the jobs and the economic success that can bring that not only can power our homes and our factories, it can power our economy back to security for all Americans.

I thank Senator FRANKEN for inviting me to join him in this colloquy. I think

our time is coming close to expiring, so I yield the remainder of our time to you, and I ask unanimous consent Senator FRANKEN be allowed as much time as he needs to conclude. This has been a wonderful opportunity for me.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FRANKEN. Mr. President, I thank Senator WHITEHOUSE for his leadership. Algal—by the way, algal is the pronunciation of this. Algal energy is amazing. We are fueling jet fighters with jet fuel made from algae.

Both the President and Energy Secretary Chu have said we are in America's Sputnik moment. They are absolutely right. Fifty years ago we were in a global space race. Today we are in a global clean energy race. Whichever country takes the most action today to develop and make clean energy technologies will dominate the global economy in this century.

That means supporting financing for clean energy and energy efficiency projects. It means tax credits for clean energy manufacturing, providing incentives for retrofitting residential and public and commercial buildings. It means supporting basic research and keeping alive initiatives that support clean energy technology innovation. These need to be our priorities as we make energy policy and budget decisions.

We can pay for these investments by cutting expensive, outdated subsidies for oil companies that are making record profits. There is a lot more to be done if we are going to win this global clean energy race, but it is not going to be easy. It means unifying as a country and starting to do things differently than we have been doing them.

Albert Einstein said:

We can't solve problems by using the same kind of thinking we used when we created them.

I am convinced we can win this race. No other country is better positioned. But first people need to understand the stakes. Climate change is real, and failure to address it is bad for our standing in the global economy, bad for the Federal budget, and bad for our national security. We can do better than that for our children and our grandchildren and posterity.

Mr. President, I thank Senator WHITEHOUSE and I yield the floor.

I suggest the absence of a quorum.

Mr. CARPER. Will the Senator withhold?

Mr. FRANKEN. I take that back.

The PRESIDING OFFICER. The Senator from Delaware.

#### BOILER MACT

Mr. CARPER. Mr. President, there is not the absence of a quorum, but I appreciate my colleague mentioning that. I said to him earlier today, maybe yesterday, Senator FRANKEN is

a joy to have around here. Some of us know he brings a real special touch for trying to infuse some civility into this place again. He came up a year or two ago with the idea of a secret Santa exchange. We actually did it this year. I was not going to mention it tonight. My secret Santa turned out to be the Senator from Alaska, Senator MURKOWSKI, the colleague of the Presiding Officer. She gave me a most wonderful handmade gift that she and her staff created.

Delaware is the only State that doesn't have a national park. What they did is they created, on a sheet of paper like this—only it was a firm sheet of paper, not a regular sheet of paper, but they literally—this was the State of Delaware and they created a national park so we have a pop-up national park with a bus going around and our pictures riding along in the bus. I don't care what else I get for Christmas, that is going to be the best Christmas present for this year. I don't see how anybody tops that.

But that provides not only some civility but also some levity in a place that could use both, so I thank the Senator for all his contributions, but especially that one.

On something more serious. What I want to do is talk about the regulation EPA has been working on for a while. It is called the boiler MACT. The idea is maximum achievable technology here. If you go back in time, go back to about 1990—in 1970, in this country, Congress passed and the President signed—Richard Nixon actually signed—the Clean Air Act of 1970, a Republican President who had a Republican head of EPA. That was able to be implemented at the time we had the Cuyahoga River up in Cleveland, OH, that actually was on fire. There were lots of terrible things happening in our environment in this country.

Better things started to happen, not just cleaner water, wastewater treatment, and cleaner air, but it led in 1990 to the passage of the Clean Air Act Amendments of 1990. One of the requirements of the Clean Air Act Amendments of 1990 was in that legislation the Congress directed EPA to finalize regulations to reduce what are called air toxics from boilers by the year 2000. So the Clean Air Act was adopted in 1970. In 1990, 20 years later, the Clean Air Act Amendments were adopted, and in the Clean Air Act Amendments of 1990 Congress said: EPA, we want you to finalize regulations to reduce air toxics from boilers by the year 2000, 10 years.

The year 2000 came and went without any action. The Bush administration, George W. Bush administration, finalized a rule. I think it was in the year 2004. But they excluded many industrial boilers from having to comply. As it turned out, there are a lot of boilers in this country. I was stunned to find

out there are about a half million boilers in this country. A lot of them are fairly small—schools or churches or smaller buildings, hospitals. But a bunch of them are pretty good size.

In any event, the Bush administration in the year 2004 came up with a rule, proposed a rule, but they excluded many industrial boilers from having to comply. In fact, the rule may not have been just proposed, it might actually have been finalized.

But, as a result, the regulation was vacated in 2007, 3 years later, by the Circuit Court of Appeals right here in the District of Columbia. So, 2004, EPA finally gets around to finalizing the rule that they were called to do some 14 years earlier by the Congress. And 3 years later the D.C. Circuit Court of Appeals knocks it down and vacates that ruling on boilers.

It was not until June of 2010—and that is a full 10 years after the congressional deadline for action—it was not until 2010 that the EPA issued a proposal for boiler air toxic rules that addressed all the major emitters.

As with most air pollution regulation these days, EPA was under court order to finalize the rule by a set date. The court had said to EPA: We want you to finalize the rule by a set date. That date was the beginning of this year, January of 2011.

During the public comment period, the EPA received thousands of comments and new information from, among others, industry. In fact, they received so much in the way of comments and new information, in December of 2010—that was a month before the date set under the court order to finalize the rule—a month before that date was to occur, EPA asked the courts, a month before the January 2011 deadline, to extend the deadline for promulgating the final air toxic standards to April of next year, to April of 2012.

The courts said: No, don't think so. They said: EPA, you have had enough time to finish. They allowed EPA only until January 21 of this year to go ahead and actually promulgate these regulations.

Even though EPA didn't have a lot of time to process the comments, EPA was able to finalize a rule in February of this year that yielded the same benefits—I think this is pretty interesting—a rule that realized the same benefits in terms of reducing toxic emissions, mercury and arsenic, lead, that kind of thing—the same level of reductions in those emissions as in the June 2010 proposal that they made, but they cut in half the cost of compliance. That is pretty impressive, isn't it? They cut in half the cost of compliance, got the same amount of reductions in emissions of these air toxic substances for half the cost. However, EPA did not stop there. Wanting to address industry's concerns, the EPA

opened public comment yet again to consider a reproposal of their regulations.

I know some people think EPA has been guilty of a rush to judgment in this regard. I think if you go through the chronology objectively, this is not a rush to judgment. I hope, if nothing else, to convey tonight that the EPA has moved deliberately, some say way too slowly, in order to address this. There are others who think way too fast, still too fast.

Anyway, last month the EPA proposed the boiler MACT regulation to try to address stakeholder concerns and I think they have done a workmanlike job, a good job. In this new proposal, of the 1½ million boilers in the United States, less than 1 percent would be affected—less than 1 percent would be affected by these emission limits.

I have a chart to show what it looks like. This is a good way to actually think of this.

The pie represents the 1.5 million boilers in the United States. Some are very small, and some are large industrial boilers. Less than 1 percent need the technology to meet the emission limits prescribed by EPA. That is the red tiny slice here. About another 13 percent of the 1.5 million boilers in the United States would need to follow best practice standards in ensuring that the emissions from those boilers are in order. And the rest—1.3 million boilers or a vast majority of boilers, a little over 85 percent—are not affected by the rules.

Not everybody likes the fact that less than 1 percent of the boilers are affected by these rules, and some of our friends in the environmental community understand that we have been very unhappy with how slowly this whole thing has proceeded.

The last thing I want to mention here—maybe two more things—in terms of moving from this point forward, how long would these less than 1 percent have to comply with the regs that have finally been promulgated? I am told the sources would have up to 4 years to comply. The EPA is still taking public comment and hopes to finalize this regulation by late spring.

The bottom line is that we have delayed long enough. Only 1 percent of our largest sources will need to clean up. The EPA has certainly tried to address many problems—maybe not all the problems but most problems—and they are still taking public comments. I am not sure we need to delay this boiler MACT any further.

There are a lot of people who sneeze during the course of their lives, as I have just done here on the floor. That was just a coincidence, but a lot of people in this country suffer because of the quality of our air. We have made great improvements in cleaning up the quality of our air. We still have too

many people who suffer from asthma and other respiratory diseases. The kinds of problems and emissions we are talking about here deal less with asthma and respiratory diseases; we are talking about substances that can kill people. In the case of the substances we are talking about here, they have the ability to kill more than 8,000 people a year.

We don't have many large towns in Delaware. In Wilmington, we have about 75,000 people. In Dover—the central part of our State—we have about 30,000 people. And if you take 8,000 people, that is about as many people as live in any of the—well, Newark, where we have the University of Delaware, has about 30,000 people. But other than that, we don't have a lot of large towns. For us, 8,000 people could be the fourth or fifth largest town in my State. That is a lot of people. At the end of the day, even if these rules are fully implemented, we are not going to save all of those 8,000 people, but a lot of those lives will be saved in the coming years, and we need to do that.

We need to let this process go forward and do our dead level best—the EPA has tried to be responsive to concerns that have been raised—to provide for a cleaner environment and not to dampen our economic recovery.

The last word I would add is that I think the idea that we have to choose one over the other is a false choice. We don't have to do that. We can have a cleaner environment and we can have jobs. If you look at the growth of our Nation's economy since 1970, when the Clean Air Act was adopted, or 1990 when the Clean Air Act amendments were adopted, we have seen dramatic growth in our budget. We have seen growth in our economy, and we have seen the quality of air become a lot cleaner over that period of time. So one does not preclude the other.

While some serious concerns have been raised about the earlier proposals by the EPA, a lot of those concerns have been addressed. I think we need to get on with it.

With that, Mr. President, I think we are going to wrap it up here around 7:30, which is in another 10 minutes or so. I am looking around, and I don't see anybody else waiting to speak, so I will note the absence of a quorum and bid you good night.

I yield the floor.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### EXTENSION OF MORNING BUSINESS

Mr. CARPER. Mr. President, I ask unanimous consent that the period for

morning business be extended until 8:30 p.m., with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TRIBUTE TO LIEUTENANT GENERAL PATRICIA D. HOROHO

Mr. INOUE. Mr. President, today I rise to congratulate LTG Patricia D. Horoho on becoming the U.S. Army's 43rd Surgeon General. This is a momentous time for military medicine, with two historic firsts for the U.S. Army and for the Department of Defense. On December 5, 2011, General Horoho became the first woman and the first nurse to assume command of the U.S. Army's Medical Command. Then, just 2 days later, she became the Army's 43rd Army Surgeon General, making history again by becoming the first woman and the first nurse in the Department of Defense to be sworn in as Surgeon General.

Lieutenant General Horoho earned her bachelor of science degree from the University of North Carolina at Chapel Hill in 1982. She received her master of science degree as a clinical trauma nurse specialist from the University of Pittsburgh. Her military education includes graduating from the Army's Command and General Staff College and the Industrial College of the Armed Forces, where she earned a second master of science degree in national resource strategy.

Lieutenant General Horoho has earned numerous civilian and military awards and recognitions throughout her distinguished career. Her civilian accolades include recognition in 1993 as one of the top 100 nurses in the State of North Carolina. She was selected as the USO's Woman of the Year in 2009. Most recently, the University of North Carolina School of Nursing selected her as the Alumna of the Year on November 30, 2011.

Some of Lieutenant General Horoho's previous military assignments include Deputy Surgeon General; Chief of the Army Nurse Corps; Commander of the Western Regional Medical Command in Fort Lewis, WA; Commander of the Madigan Army Medical Center in Tacoma, WA; Commander of the Walter Reed Health Care System in Washington, DC; and Commander of the DeWitt Health Care Network in Fort Belvoir, VA.

Lieutenant General Horoho brings extensive leadership, education, and experience to her new position as the 43rd Army Surgeon General. I applaud the many accomplishments which have brought her to the highest level of rank and responsibility in military medicine, and I wish her success as she begins her new position.

#### RECOGNIZING THE NATIONAL GUARD

Mr. BROWN of Massachusetts. Mr. President, today I would like to congratulate the National Guard on 375 years of service.

It was on December 13, 1636, in Massachusetts that our Nation's military heritage was born. It was the members of the Massachusetts Bay Colony who stood together and founded an organization to protect and defend the peoples of the Bay Colony. They provided watch to ensure the security of their fellow settlers in Massachusetts, and they drilled to ensure they were prepared to fight if called upon.

From these grassroots origins comes today's National Guard: the most prepared, best equipped, and most mobile National Guard our Nation—or any nation—has ever had. Like the guardsmen of the first days of this Nation, today's guardsmen continue to answer the call to duty. They serve as leaders in our homeland defense response and disaster relief, and over the past 10 years, our guardsmen have served with courage and honor in Iraq and Afghanistan, right alongside our Active-Duty Forces. They are fighting on many fronts overseas and fulfilling many different missions.

Sometimes they are coming home with devastating injuries. When they return, these citizen soldiers and airmen face the challenges of recovery, readjustment, and finding jobs. The unemployment rate of today's National Guard remains well above the national average. To ensure that we honor the service of these guardsmen and veterans, I introduced the Hire A Hero Act which gives a tax credit to small businesses that hire veterans and members of the National Guard and Reserves, and I am pleased to say that the legislation has become law.

I have also pushed to ensure that all our National Guardsmen receive fair housing allowances. I introduced an amendment included in this year's National Defense Authorization Act that makes certain every guardsman who gets deployed will receive the housing allowance they need and deserve. When a guardsman is ordered to Active Duty for a contingency operation, the housing allowance for that guardsman currently reverts back to his or her home-of-record status rather than the current housing allowance of his or her present duty station, despite any significant loss of income. Basically, guardsmen are being punished financially for being deployed to a war zone. My amendment to this year's National Defense Authorization Act will rectify this inequity.

Also included in this year's National Defense Authorization Act is a monumental provision recognizing the significance of today's National Guard. As a 32-year member of the Massachusetts National Guard and a member of the

Senate Armed Services and Veterans' Affairs Committees, I am proud to have cosponsored the amendment to make the Chief of the National Guard Bureau a full member of the Joint Chiefs of Staff. It is a long overdue measure that gives the National Guard the recognition and respect that it deserves. I am proud to have supported it, and I look forward to its final passage.

Today our National Guardsmen continue the tradition of service begun by the militia of 1636, and I want to pay special recognition to the guardsmen of the 26th Yankee Brigade serving overseas and to their families for their service and sacrifice. Massachusetts's own 26th Yankee Brigade is currently serving in Afghanistan. When asked, they answered the call to duty. This summer while I was in Afghanistan, I was fortunate enough to see firsthand the selflessness, courage, and professionalism of "The Nation's First." They are a credit to the State of Massachusetts, the National Guard, and to this Nation.

Congratulations to the National Guard for its 375 years of service to this Nation and to all the guardsmen who are prepared to support and defend this great Nation in its times of need.

#### KEYSTONE XL PIPELINE

Mr. LEAHY. Mr. President, the House Republicans have sent us a payroll tax bill that is more of a political campaign commercial than a piece of serious legislation. Extending this tax break for ordinary Americans evidently has been a tough sell in the other body, unlike the eagerness found there for even more tax relief for the very wealthy. Among the many unrelated, controversial provisions they have attached as sweeteners is one that would force the President to approve the Keystone XL tar sands oil pipeline. Proponents of this tar sands project provision argue that it belongs on this bill because building the pipeline would create jobs.

Any construction project creates jobs. We could create thousands of jobs by investing in clean solar and wind energy, as the Chinese have done. And people can disagree about building the Keystone Pipeline, but there is a lot more to it than the short-term jobs it would create, and trying to jam it through Congress on this bill in the waning hours of the session is little more than a political stunt.

It was about 15 months ago that I first learned about the plan to build a pipeline to transport crude oil from tar sand strip mines in Alberta across the U.S.-Canada border and down through the Midwestern United States to refineries and ports in Texas.

Tar sands are a particularly dirty source of petroleum, from extraction to refinement. As I looked into this issue I saw some of the photographs of the

boreal forest area where it is extracted, and I was shocked. Anyone who is interested in this issue, whether or not you think building the pipeline is a good idea, should look at the photographs. They depict an extraordinarily beautiful landscape that has been ravaged by heavy machinery, vast ponds filled with polluted water and sludge, and a scared wasteland where forests used to be. It is one of the more graphic examples of how our collective, insatiable thirst for oil has pillaged the fragile environment of this planet. Our demand for fossil fuels will continue to grow exponentially unless we come up with a comprehensive, national energy plan and have the will to implement it.

We all know that the extraction of oil, minerals, timber, and other natural resources often harms the environment. But there are degrees of harm. Removing the tops of mountains and dumping the refuse in rivers and ravines or extracting heavy oil from tar sands are among the most energy intensive and destructive.

Under the law, the State Department has the responsibility to approve or disapprove the pipeline because it crosses an international boundary. More than a year ago, I and 10 other Senators sent a letter to the State Department raising concerns about the proposed pipeline and the impact of tar sands oil on global warming and asking a number of questions about the Department's decisionmaking process. Eight months later we received a response, which answered some of our questions and raised others.

I and other Senators sent two additional letters to the Department about the pipeline, most recently about reports of a possible conflict of interest between the contractor that performed the environmental review, Cardno/Entrix, and the energy company, TransCanada.

There have also been e-mails indicating a less-than-arm's-length relationship between a State Department official at the U.S. Embassy in Ottawa and a lobbyist for TransCanada. And a month ago the State Department's inspector general announced the beginning of an investigation into whether conflicts of interest tainted the environmental review process.

What began as basic questions and fundamental concerns about the pipeline has evolved into a significant controversy regarding the impact the pipeline will have upon our Nation's energy policy and continuing dependence on fossil fuels, the irreversible harm to the environment and the acceleration of climate change, and the potential for oil spills that could contaminate a key aquifer underlying an area of critical agricultural importance that hundreds of thousands of midwesterners depend on for irrigation and drinking water.

From the beginning, I have expressed misgivings about the State Depart-

ment's ability to conduct a thorough, credible investigation of a project of this complexity that involves issues about which it has limited expertise. There are reports of inexperienced staff handling the lion's share of the work, and it is not surprising that the Environmental Protection Agency and the Department of Energy have raised concerns and identified flaws in the State Department's analysis.

It is my impression that the State Department, from the outset, approached this with a sense of inevitability. What they did not anticipate was the strong reaction of Members of Congress of both parties, including several from Midwestern States that have been coping with multiple oil spills from the original Keystone Pipeline that company officials have treated as inconsequential. They also did not anticipate the strong opposition from ordinary Americans who pay close attention to environmental and energy policy issues, for whom tar sands oil is particularly repugnant.

Concerns about the consequences of this project have united not only those living along the proposed route but people across the Nation, including in Vermont, as well as in Canada, who care about the environment, both in this country and in Canada, and who understand the need to wean our Nation from oil and other fossil fuels and to invest in renewables and energy efficiency.

Every President since the 1970s has spoken of the need to reduce our dependence on fossil fuels and particularly foreign oil. But despite all the speeches, year after year we are more dependent on these finite, polluting sources of energy than ever before.

Today, energy companies are spending staggering amounts of money in search of new sources of oil and gas in some of the most inhospitable places on Earth, where its extraction involves great risks to the people involved, the environment, and endangered species. We even send our young service men and women halfway around the world to fight wars, in part to ensure our continued access to a ready supply of oil. It has become a national security priority.

We have lost valuable time, and there are no quick fixes. No matter what we do today, later this week, or later this month, this country will be dependent on fossil fuels for many years to come. But simply replacing Middle Eastern oil with Canadian oil without creating new, dependable sources of renewable energy and improving efficiency in the energy we use does not alleviate the national security and economic risks associated with a global oil market that is vulnerable to manipulation and disruption.

There is also much more we could do to make use of what we have by wasting less, improving end-use efficiency,

and increasing our use of renewable sources of energy. While TransCanada and its supporters extol the virtues of the Keystone XL Pipeline, as the minority leader and others have done, simply by reducing waste we could eliminate entirely the need for the energy produced from the oil that would flow through the pipeline.

I come from a State that shares a border with Canada. My wife's family is Canadian. I have a great fondness for that "giant to the north." But this issue is not about U.S. relations with Canada. We are inseparable neighbors, friends, and allies. There are strong views about this pipeline, pro and con, in both countries. As Americans, we have to do what is right for our country's energy future, for the environment, for our citizens.

Some have argued that if this pipeline is not built, TransCanada will simply build a pipeline to the coast of British Columbia and export the oil to China. But there are significant obstacles and no indication that such an alternative route is a viable option. Others maintain that the carbon emissions from extracting and refining this oil would not appreciably exceed those from oil shipped by tanker from the Middle East, but they do not address the environmental harm and pollution caused by the strip mining and separation process.

TransCanada has flooded the media with dire warnings about the American jobs that will be lost if the pipeline is rejected, which our Republican friends have echoed, trying to turn this into a campaign issue. But most of these are construction jobs that will disappear once the pipeline is built. And the choice is not between jobs or no jobs. They do not mention the tens or hundreds of thousands of American jobs that could be created by investing in other cleaner, renewable sources of energy, which, unlike tar sands oil, will not be used up in a few short decades.

Last month, in response to concerns about the sensitive and crucial aquifer that the pipeline would traverse in the Midwest, the White House announced that the State Department will consider alternative routes through Nebraska and that this would delay a decision on the pipeline until 2013. This is positive, but it ignores the many other reasons to reject this project altogether.

It is my hope that on further reflection, the President will treat the debate over the Keystone XL Pipeline as an opportunity to draw a line between our past and future energy policies.

Fossil fuels are finite, inefficient, and dirty. The cost we pay at the gas pump bears no resemblance to the long-term environmental and health costs borne by society as a whole.

We cannot lessen our reliance on fossil fuels by simply talking about it. We cannot do it by putting our goals for a

better future under the pillow and leaving any real action to future generations. We cannot do it by hoping that a scientific genius will suddenly discover an unlimited source of energy that costs pennies and does not pollute, nor should we do it by spending huge amounts of money, time, talent and American ingenuity to search the farthest reaches of the globe for every last drop of oil, regardless of how dangerous or harmful to the environment.

Will the Keystone XL tar sands oil pipeline have the cataclysmic consequences that some of its opponents predict? No one can say for sure. If anyone had asked officials at British Petroleum on April 9, 2010, about the probability of a disaster like the one that occurred the next day when the Deepwater Horizon exploded in the Gulf of Mexico, they likely would have dismissed it as farfetched. It turns out they were violating multiple safety regulations.

Are we going to change the pipeline's route to avoid the aquifer, only to continue to act as if global warming is nothing to worry about, that we can continue to burn more and more fossil fuels, emitting more and more carbon into the atmosphere, and destroying the landscape while we are at it?

This pipeline would perpetuate a costly dependence that has gone on for a century, for which we all share in the blame. Keystone XL would once again do nothing to address the problems associated with fossil fuels. It would virtually assure more oil spills, it would do nothing to promote conservation and reduce waste, and it would do nothing to spur investment in clean energy alternatives.

Most important, it would provide yet another excuse for once again punting the urgent, national security imperative of developing a sustainable energy policy for this country. That is what the decision about the Keystone XL tar sands oil pipeline has come to represent regardless of what route it takes.

#### RECOGNIZING GOLDEN VALLEY, MINNESOTA

Mr. FRANKEN. Mr. President, I want to take this opportunity to honor the 125th Anniversary of the incorporation of Golden Valley, MN. As a child growing up in St. Louis Park, I have many fond memories of time spent in my neighboring town to the north, Golden Valley. As next-door neighbors, our cities shared a commitment to civic engagement, strong families, and a tight-knit community that worked for the wellbeing of all its citizens. We can see the results of those values today.

On its 125th birthday, Golden Valley has much to be proud of, a high quality education system, high living standards, and model businesses ranging from Fortune 500 companies to family-

owned small businesses. Clearly, Golden Valley is doing something right.

As a representative of the great people of Minnesota, I can see that it's cities like Golden Valley make my State the best place to live in the country. My colleagues here might get tired of hearing how our State consistently does things better, but I will never get tired of telling those stories. Congratulations to the residents of Golden Valley.

#### ADDITIONAL STATEMENTS

##### REMEMBERING GIL CHAVEZ

• Mr. BENNET. Mr. President, today I come before you with a heavy heart to honor the life of Gil Chavez. Mr. Chavez died on November 30, 2011, of injuries sustained in a car accident outside of West High School in Denver, CO. He was 63 years old.

Mr. Chavez was a true community leader in every sense of the word. After graduating from Denver's West High School in 1967, Mr. Chavez spent the next 30 years of his life giving back to the school through teaching, coaching, and counseling. He was always there for his students, so much so that after retiring, he came back to volunteer coach for the wrestling team beside his son, Gil Junior, the current head coach at West. Mr. Chavez's family continues his legacy of always striving for excellence in all that they endeavor.

Gil Chavez was a committed educator and coach who was a role model to the students he worked with. He was a sincere motivator, and he backed up his words with promises that he kept to his students. Mr. Chavez was always there for those who needed him with an ear to listen, with help figuring out classes or locating a tutor, and always believing in those who needed it most.

To Mr. Chavez's entire family, I cannot imagine the sorrow you must be feeling. I hope that, in time, the pain of your loss will be eased by your pride in Gil's life and by your knowledge that his community will never forget him. His memory will live on in the team, the school, the community, and all those he has touched along the way.●

#### TRIBUTE TO COLONEL WILLIAM M. VOIGT

• Mr. SESSIONS. Mr. President, today I wish to praise an exceptional man, COL William M. Voigt.

Colonel Voigt has been one of the foremost civil and military leaders in Birmingham and in my State of Alabama for around a half century now. I was proud to join Colonel Voigt recently in Birmingham when he accepted his well-deserved award as the 2011 National Veteran of the Year.

I have had the pleasure to know Bill personally for many years and to observe his devotion to his country. His patriotism is unsurpassed.

Colonel Voigt served his country with 30 years in the Alabama Air National Guard and another 5 years of service with the U.S. Air Force Reserve. He has achieved not only a bachelor of science in business administration from Auburn University and a master's in business administration from the University of Alabama in Birmingham but has also graduated from the Air War College, the Industrial College of the Armed Forces, the Air Command and Staff College, and the Squadron Officer School.

In addition to his own education, COL Bill Voigt has given his time and efforts to an impressive and exhaustive list of nonprofits and service organizations. On top of this, he has served for over 20 years as the president of the National Veterans Day organization.

Birmingham is the birthplace of Veterans Day. The very first Veterans Day celebration was held in Birmingham by this very organization in 1947. It was only in 1954, 7 years later, that Congress agreed to the value of this wonderful event and made Veterans Day the national holiday it is today.

The Birmingham National Veterans Day celebration is believed to be not only the oldest but also the largest in the country. The day includes a parade and a large awards dinner. The entire effort is a monumental planning exercise. For 20 years Bill Voigt made it happen.

This year's dinner was a very special one. The organization's president, James A. Holt, Congressman SPENCER BACHUS, Congresswoman TERRI SEWELL, and others took part in the excellent program. I was honored to be a part of the program also. The superb keynote speaker was RADM Tom Steffens (retired), a U.S. Navy SEAL for 34 years. It was a special program indeed, but the remarks all revolved around Colonel Voigt. I know he and his wonderful family were most proud.

Colonel Voigt represents the model for the type of person we should push our youth to emulate. He is a man who has proven time and time again that he is willing to serve his country, his community, and his fellow veterans who have fought for the ideals and goals of the United States of America.

Mr. President, it is my honor to pay tribute to this great man and by extension this wonderful annual Veterans Day event.●

#### RECOGNIZING SOUTHCENTRAL FOUNDATION

● Mr. BEGICH. Mr. President, I wish to recognize Southcentral Foundation, an Alaska Native-owned, nonprofit health care organization serving nearly 60,000 Alaska Native and American Indian people. Southcentral Foundation received the 2011 Malcolm Baldrige National Quality Award, an award administered by the Baldrige Performance

Excellence Program to honor the country's most innovative organizations. The Baldrige Award is the only formal recognition of the performance excellence of both public and private U.S. organizations given by the President of the United States. Southcentral Foundation is the Alaska's first health care organization to receive this award.

Southcentral Foundation was established in 1982 to improve the health and social conditions of Alaska Native and American Indian people, enhance culture, and empower individuals and families to take charge of their lives. They employ over 1,500 people, of which 53 percent are Alaska Natives or American Indians. As mayor of Anchorage and now as Senator, I watched the growth of this excellent nonprofit from a small outpatient facility to a beautiful, culturally designed campus encompassing many buildings to serve their customer-owners.

Southcentral Foundation's innovative Nuka system of care combines medical, dental, behavioral, and traditional practices and creates relationships that focus on supporting wellness instead of just treating illness. This system has received national and international attention for its successes in health outcomes, operational efficiencies, and customer and employee satisfaction. It is a truly exemplary health care system that is one of the best in the country.

The award will be presented by President Barack Obama in April, 2012.●

#### IN RECOGNITION OF MR. BILL VANDERWENDE AND MR. DAVE BAKER

● Mr. CARPER. Mr. President, today I wish to recognize Mr. William "Bill" Vanderwende and Mr. David "Dave" Baker for their leadership, vision and commitment to Delaware's agriculture community through their roles as Chairman and Vice-Chairman, respectively, of the Delaware Nutrient Management Commission. Both have dedicated their lives to Delaware and its farming communities, benefitting and protecting the farming industry and the thousands of farmers and citizens who rely on our state's priceless natural resources.

As the Chairman and Vice-Chairman of the 19-member Delaware Nutrient Management Commission since its inception in 1999, Bill and Dave have led the Commission through years of development—made up of innovation, labor and compromise—that resulted in Delaware's premier Nutrient Management Program—one that serves as a model for other States. Moreover, Bill and Dave helped guide Delaware through U.S. Environmental Protection Agency approval of the State's controlled animal feeding operation regulations, helping to preserve our State's rich agricultural resources,

while protecting farmers and their livelihood for generations to come. When I was Governor of the State of Delaware, I worked closely with both Bill and Dave on the development of the Delaware Nutrient Management Program and know well their passion and loyalty to doing what is right for the First State's agricultural community, as well as for our environment and our neighbors' environments.

The Delaware Nutrient Management Program was established in June 1999 as a result of the Delaware Nutrient Management Law. The mission of the Delaware Nutrient Management Program is to manage those activities involving the generation and application of nutrients in order to help maintain and improve the quality of Delaware's ground and surface waters and to help meet or exceed federally mandated water quality standards, in the interest of the overall public welfare. The responsibilities of the Delaware Nutrient Management Commission include: considering the establishment of critical areas for voluntary and regulatory programs; establishing Best Management Practices to reduce nutrients in the environment; developing educational and awareness programs; considering incentive programs to redistribute excess nutrients; establishing the elements and general direction of the State Nutrient Management Program; and, developing nutrient management regulations.

In 2001, under the team's leadership, the Delaware Nutrient Management Commission outlined a Memorandum of Understanding with the Delaware Department of Agriculture, the Delaware Department of Natural Resources and Environmental Control, and the chief executives of all poultry companies operating in Delaware—an agreement that was the first of its kind. This unique partnership between the agriculture and environmental sectors in Delaware has helped contribute to the progress Delaware has achieved in nutrient management. Currently, the First State leads the nation in nutrient management planning participation. Ninety-nine percent of all farmers who are required to have a nutrient management plan do, indeed, have one.

The Delaware Nutrient Management Commission's strong working relationships with the Delaware Department of Agriculture, the Delaware Department of Natural Resources and Environmental Control, the U.S. Environmental Protection Agency, Delaware's Congressional delegation, and with Delaware's Governor and the State's General Assembly has contributed to the implementation of on-the-ground solutions for nutrient management that encourage environmental stewardship and have positive benefits to agriculture and its farmers.

A native of Harrington, DE, Bill Vanderwende is a man of family, faith

and farming and serves as a proud, life-long member of Delaware's farming tradition. For over 40 years, Bill and Ellen—his wife of almost 60 years—along with their 4 children, 10 grandchildren and several employees, have run a dairy, grain and vegetable farming operation in Bridgeville with 700 head of dairy and 3,000 crop acres. Bill has represented Delaware's dairy industry for decades.

Bill's leadership in the agricultural community stretches beyond the Nutrient Management Commission. Bill has been a distinguished member of the Sussex County Conservation District Board of Supervisors for 20 years, serving as chairman since 1992. In addition, Bill served as a member of the Governor's Advisory Council on Agriculture, a member of the Governor's Advisory Council on Soil and Water, and as Vice-Chairman of Delaware Aglands Preservation Foundation Board of Trustees. Bill and the Vanderwende family have also received numerous awards recognizing their positive impact and influence on Delaware's farming tradition, including Bill's honor as the recipient of the 2009 Secretary's Award for Distinguished Service to Agriculture given by the Delaware Department of Agriculture and the Vanderwendes' 1993 Farm Bureau award for the Farm Family of the Year.

Over the years, Dave Baker has made a remarkable contribution to Delaware's agricultural community through his work, leadership and thoughtful attention to detail. His commitment to Delaware's and our nation's farmlands, as well as his commitment to his family and community is unmistakable. Since moving to Middletown, DE in 1952, Dave Baker has remained close to his roots. Today, just outside of his hometown, Dave lives with his wife Barbara. Together, they have a son Erik and two grandchildren. There, Dave is the President of Baker Farms, a 3,000-acre grain farm. He also founded Delaware Egg Farm—now Puglisi Egg Farms Delaware—Delaware's largest egg producing operation.

In addition to his role of Vice-Chairman of the Delaware Nutrient Management Commission, Dave is Chairman of the Commission's Planning and Personnel subcommittees. Moreover, Dave's agricultural acumen and outstanding leadership in the field of agriculture has been recognized in Delaware and well beyond our borders. Most recently, he received the 2010 Secretary's Award for Distinguished Service to Agriculture given by the Delaware Department of Agriculture. During my term as Governor, Dave was the Chairman of the Nutrient Management Advisory Committee, the organization responsible for drafting Delaware's ground breaking nutrient management statute. He is also a past president of the Delaware Council of Farm Organi-

zations. Nationally, he has served on the American Egg Board and the Poultry Advisory Committee for the Farm Bureau, and regionally, he is a past chair of the Egg Clearinghouse and the Northeast United Egg Producers.

Delaware is fortunate to have such an outstanding team led by Bill Vanderwende and Dave Baker to carry on a legacy of farming values that shape, honor and preserve our State's treasured agricultural heritage. Bill and Dave's leadership on the Nutrient Management Commission reaches those not just in our agricultural community, not just in our State, but the millions of Americans who are impacted by Delaware's decisions on nutrient management. The continued leadership of these two men will keep our farming industry prosperous, while protecting our natural resources for generations to come. It is with a genuine sense of honor and pride that I rise today to extend the heartfelt congratulations and thanks of our entire Congressional delegation to our friends and outstanding Delaware residents, Bill Vanderwende and Dave Baker.●

#### RECOGNIZING ORONO MIDDLE SCHOOL

● Ms. COLLINS. Mr. President, today, I commend Orono Middle School of Orono, ME, on being named a 2011 National Blue Ribbon School of Excellence. This prestigious recognition of high accomplishment was bestowed by U.S. Secretary of Education Arne Duncan.

Created in 1982, the Blue Ribbon Schools award is considered the highest honor an American school can obtain. Schools singled out for this national recognition reflect the goals of our Nation's education reforms for high standards and accountability. Specifically, the Blue Ribbon Schools Program is designed to honor public and private schools that are either academically superior in their States or that demonstrate dramatic gains in student achievement.

This award recognizes that Orono Middle School students achieve at the highest level academically. Orono Middle School is a top-performing school on State-required assessments, and staff at the school use assessments throughout the academic year as a tool for improving and customizing instruction. The school also involves students in extracurricular activities, which helps forge a strong school community where students are connected and encouraged to pursue their interests.

I applaud not only the students but also the teachers, staff, administrators, and parents of Orono Middle School. Together, they are succeeding in their mission to generate confidence and momentum for learning. They are making a difference in the lives of their students, helping them reach their full po-

tential as independent, responsible learners and citizens.

I am pleased that the U.S. Department of Education has selected Orono Middle School for this well-deserved honor, and I congratulate the entire community for this outstanding achievement.●

#### RECOGNIZING COOL AS A MOOSE

● Ms. SNOWE. Mr. President, across the country the holiday shopping season is in full swing. For many, holiday shopping can be a stressful time, as picking out the ideal gift can often be overwhelming. Luckily, my home State of Maine has several small businesses which offer gift solutions in a fun and festive setting. Today I wish to commend and recognize one of these small businesses, Cool As A Moose, whose retail stores offer unique and creative gifts for the holiday season and throughout the year.

Cool As A Moose first opened its doors in 1986 in the coastal town of Bar Harbor. Whether a customer longs for a moose hat or an adorable stuffed animal lobster, this small business offers customers an array of clever products and creative apparel. The company, now owned by Maine resident Kip Stone, has expanded to include stores in Freeport, Portland, and most recently Brunswick. The retailer also has an online presence and two licensed locations in Halifax and Quebec City, Canada.

The establishment of a store and headquarters in Brunswick this past May was critical, as it brought jobs to an area of Maine that recently struggled after the closure of the Brunswick Naval Air Station. Kip's tireless search for an ideal location lasted 2 years, as he sought to find an environment that would allow him to open both a store and have space for his other company, Artforms, which supplies many of the designs for the retail store. Kip selected the Old Grand City restaurant and storefront for the flagship store. With this purchase and renovation, Kip furthered a critical mission by helping to revitalize the Brunswick downtown area.

As can be seen from this small company's expansion, since its founding, this store's friendly customer service and engaging atmosphere have led to tremendous success. Most recently, Cool As A Moose was honored as the 2011 Merchant of the Year by the Maine Merchants Association. This honor is richly deserved as this small business consistently strives to improve each community it serves through volunteering and supporting area non-profits.

Small businesses such as Cool As A Moose are the heart of the economy, and this holiday season I hope Americans will gather with me in supporting

these retailers. In these tough economic times, this small firm's willingness to expand and continually strive to put local communities first is especially refreshing. I am proud to extend my congratulations to Kip Stone and everyone at Cool As A Moose for their tremendous efforts and offer my best wishes for continued success.●

#### TRIBUTE TO OFFICER JAMES BONNEAU

● Ms. STABENOW. Mr. President, on behalf of myself and Senator LEVIN, I wish to pay tribute to James "Jim" Bonneau, a member of the Jackson Police Department in Jackson, MI, who has been posthumously awarded the Congressional Badge of Bravery.

Officer Bonneau was born in Canton, MI to Marc and Amy Bonneau. Growing up he always wanted to help others and become a police officer. After graduating from Canton High in 2002, he earned a degree in criminal justice from Eastern Michigan University. In 2007, he followed his dream and joined the Jackson Police Department, which put him through Lansing Community College's Mid-Michigan Police Academy.

Bonneau excelled at the academy and graduated at the top of his class. He was well liked by the faculty and his fellow classmates. Even though he was with the department for two short years, his excellence on the job and connection with the community he served made a difference and touched many lives.

On March 9, 2010, Officer Bonneau and Blackman Township Public Safety Officer Darin McIntosh responded to a domestic disturbance call. The suspect fired multiple shots at both officers wounding Officer Bonneau in the chest and Officer McIntosh in the leg. Though mortally wounded, Officer Bonneau showed bravery and determination while he relayed critical information to central dispatch regarding the incident. His actions ensured that the responding officers knew what to expect upon entering the home. Tragically, he later died from his injuries.

Officer Bonneau's exceptional acts of bravery and presence of mind while in the line of duty earned him a well-deserved nomination and award of the State and Local Law Enforcement Congressional Badge of Bravery.

On behalf of the City of Jackson and the State of Michigan, we express our gratitude to Officer Bonneau and his family for his bravery and commitment to law enforcement. He made the ultimate sacrifice so that others may live in safety.●

#### MESSAGES FROM THE HOUSE

At 10:35 a.m., a message from the House of Representatives, delivered by

Mr. Novotny, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3630. An act to provide incentives for the creation of jobs, and for other purposes.

At 2:38 p.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bill, without amendment:

S. 384. An act to amend title 39, United States Code, to extend the authority of the United States Postal Service to issue a semipostal to raise funds for breast cancer research.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 313. An act to amend the Controlled Substances Act to clarify that persons who enter into a conspiracy within the United States to possess or traffic illegal controlled substances outside the United States, or engage in conduct within the United States to aid or abet drug trafficking outside the United States, may be criminally prosecuted in the United States, and for other purposes.

H.R. 2767. An act to designate the facility of the United States Postal Service located at 8 West Silver Street in Westfield, Massachusetts, as the "William T. Trant Post Office Building".

H.R. 3246. An act to designate the facility of the United States Postal Service located at 15455 Manchester Road in Ballwin, Missouri, as the "Specialist Peter J. Navarro Post Office Building".

At 7:25 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1540) to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.

At 7:54 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1905. An act to strengthen Iran sanctions laws for the purpose of compelling Iran to abandon its pursuit of nuclear weapons and other threatening activities, and for other purposes.

H.R. 2105. An act to provide for the application of measures to foreign persons who transfer to Iran, North Korea, and Syria certain goods, services, or technology, and for other purposes.

H.R. 3421. An act to award Congressional Gold Medals in honor of the men and women who perished as a result of the terrorist attacks on the United States on September 11, 2011.

The message also announced that the House has agreed to the following con-

current resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 92. Concurrent resolution directing the Clerk of the House of Representatives to correct the enrollment of the bill H.R. 1540.

H. Con. Res. 93. Concurrent resolution providing for a correction to the enrollment of the bill H.R. 2845.

#### MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 313. An act to amend the Controlled Substances Act to clarify that persons who enter into a conspiracy within the United States to possess or traffic illegal controlled substances outside the United States, or engage in conduct within the United States to aid or abet drug trafficking outside the United States, may be criminally prosecuted in the United States, and for other purposes; to the Committee on the Judiciary.

H.R. 1905. An act to strengthen Iran sanctions laws for the purpose of compelling Iran to abandon its pursuit of nuclear weapons and other threatening activities, and for other purposes; to the Committee on Foreign Relations.

H.R. 2105. An act to provide for the application of measures to foreign persons who transfer to Iran, North Korea, and Syria certain goods, services, or technology, and for other purposes; to the Committee on Foreign Relations.

H.R. 2767. An act to designate the facility of the United States Postal Service located at 8 West Silver Street in Westfield, Massachusetts, as the "William T. Trant Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3246. An act to designate the facility of the United States Postal Service located at 15455 Manchester Road in Ballwin, Missouri, as the "Specialist Peter J. Navarro Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

#### MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 3630. An act to provide incentives for the creation of jobs, and for other purposes.

#### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-4291. A communication from the Director of Defense Procurement and Acquisition Policy, Department of Defense, transmitting, pursuant to law, the report of a rule entitled "Defense Federal Acquisition Regulation Supplement: Utilization of Domestic Photovoltaic Devices" ((RIN0750-AH43)(DFARS Case 2011-D046)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Armed Services.

EC-4292. A communication from the Chief Counsel, Federal Emergency Management Agency, Department of Homeland Security,

transmitting, pursuant to law, the report of a rule entitled "Final Flood Elevation Determinations" ((44 CFR Part 67)(Docket No. FEMA-2011-0002)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Banking, Housing, and Urban Affairs.

EC-4293. A communication from the Chief Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Final Flood Elevation Determinations" ((44 CFR Part 67)(Docket No. FEMA-2011-0002)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Banking, Housing, and Urban Affairs.

EC-4294. A communication from the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Updated Statements of Legal Authority to Reflect Continuation of Emergency Declared in Executive Order 12938" (RIN0694-AF44) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Banking, Housing, and Urban Affairs.

EC-4295. A communication from the General Counsel of the Department of Housing and Urban Development, transmitting, pursuant to law, a report relative to a vacancy in the position of Inspector General, Department of Housing and Urban Development; to the Committee on Banking, Housing, and Urban Affairs.

EC-4296. A communication from the General Counsel, Department of Housing and Urban Development, transmitting, pursuant to law, (15) reports relative to vacancy announcements within the Department; to the Committee on Banking, Housing, and Urban Affairs.

EC-4297. A communication from the Deputy Assistant Administrator for Operations, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Northeastern United States; Northeast Skate Complex Fishery; Secretarial Emergency Action" (RIN0648-BB32) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4298. A communication from the Deputy Assistant Administrator for Operations, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Exclusive Economic Zone Off Alaska; Bering Sea and Aleutian Islands Crab Rationalization Program" (RIN0648-AX47) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4299. A communication from the Deputy Assistant Administrator for Operations, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery Off the Southern Atlantic States; Amendment 15B" (RIN0648-BB55) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4300. A communication from the Deputy Assistant Administrator for Operations, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Magnu-

son-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Northeast (NE) Multispecies Fishery; Framework Adjustment 46" (RIN0648-BB08) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4301. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Atlantic Highly Migratory Species; North and South Atlantic Swordfish Quotas" (RIN0648-BA90) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4302. A communication from the Deputy Assistant Administrator for Regulatory Programs, Office of Protected Resources, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "List of Fisheries for 2012" (RIN0648-BA76) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4303. A communication from the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Amendments to the Export Administration Regulations: Facilitating Enhanced Public Understanding of the Provisions That Implement the Comprehensive U.S. Sanctions Against Syria Pursuant to the Syria Accountability and Lebanese Sovereignty Restoration Act of 2003" (RIN0694-AF29) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4304. A communication from the Attorney-Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Shipping and Transportation; Technical, Organizational, and Conforming Amendments" ((RIN1625-AB77)(Docket No. USCG-2011-0618)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4305. A communication from the Assistant Secretary, Office of Electricity Delivery and Energy Reliability, Department of Energy, transmitting, pursuant to law, a report entitled "Five-Year Program Plan for Fiscal Years 2008 to 2012 for Electric Transmission and Distribution Programs"; to the Committee on Energy and Natural Resources.

EC-4306. A communication from the Secretary of Energy, transmitting, pursuant to law, a report entitled "Response to Findings and Recommendations of the Hydrogen and Fuel Cell Technical Advisory Committee (HTAC) during Fiscal Years 2008 and 2009"; to the Committee on Energy and Natural Resources.

EC-4307. A communication from the Chairman, Nuclear Regulatory Commission, transmitting, pursuant to law, a semiannual report relative to the status of the Commission's licensing and regulatory duties; to the Committee on Environment and Public Works.

EC-4308. A communication from the Administrator of the General Services Administration, transmitting, pursuant to law, the Administration's fiscal year 2011 Agency Financial Report; to the Committee on Homeland Security and Governmental Affairs.

EC-4309. A communication from the Acting District of Columbia Auditor, transmitting, pursuant to law, a report entitled, "District of Columbia Agencies' Compliance with Fiscal Year 2010 Small Business Enterprise Expenditure Goals"; to the Committee on Homeland Security and Governmental Affairs.

EC-4310. A communication from the Secretary of Education, transmitting, pursuant to law, the Department's Semiannual Report to Congress on Audit Follow-up for the period of April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4311. A communication from the Chairman of the National Credit Union Administration, transmitting, pursuant to law, the Semi-Annual Report of the Inspector General for the period from April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4312. A communication from the Chairman of the Broadcasting Board of Governors, transmitting, pursuant to law, the Office of Inspector General's Semiannual Report for the period of April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4313. A communication from the Deputy Assistant Administrator of Diversion Control, Drug Enforcement Administration, Department of Justice, transmitting, pursuant to law, the report of a rule entitled "Chemical Mixtures Containing Listed Forms of Phosphorous and Change in Application Process" (RIN1117-AA66) received in the Office of the President of the Senate on December 12, 2011; to the Committee on the Judiciary.

EC-4314. A communication from the National Executive Secretary, Navy Club of the United States of America, transmitting, pursuant to law, a report relative to the national financial statement of the organization, and national staff and convention minutes for the year ending July 31, 2011; to the Committee on the Judiciary.

#### EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

S. 534

At the request of Mr. KERRY, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 534, a bill to amend the Internal Revenue Code of 1986 to provide a reduced rate of excise tax on beer pro-

duced domestically by certain small producers.

S. 547

At the request of Mrs. MURRAY, the name of the Senator from West Virginia (Mr. ROCKEFELLER) was added as a cosponsor of S. 547, a bill to direct the Secretary of Education to establish an award program recognizing excellence exhibited by public school system employees providing services to students in pre-kindergarten through higher education.

S. 587

At the request of Mr. CASEY, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 587, a bill to amend the Safe Drinking Water Act to repeal a certain exemption for hydraulic fracturing, and for other purposes.

S. 685

At the request of Mr. LUGAR, the name of the Senator from Utah (Mr. LEE) was added as a cosponsor of S. 685, a bill to repeal the Federal sugar program.

S. 707

At the request of Mr. DURBIN, the names of the Senator from California (Mrs. BOXER), the Senator from Oregon (Mr. MERKLEY), the Senator from Delaware (Mr. CARPER) and the Senator from Minnesota (Mr. FRANKEN) were added as cosponsors of S. 707, a bill to amend the Animal Welfare Act to provide further protection for puppies.

S. 1355

At the request of Mrs. FEINSTEIN, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of S. 1355, a bill to regulate political robocalls.

S. 1494

At the request of Mrs. BOXER, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1494, a bill to reauthorize and amend the National Fish and Wildlife Foundation Establishment Act.

S. 1544

At the request of Mr. TESTER, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1544, a bill to amend the Securities Act of 1933 to require the Securities and Exchange Commission to exempt a certain class of securities from such Act.

S. 1578

At the request of Mr. TOOMEY, the name of the Senator from Utah (Mr. LEE) was added as a cosponsor of S. 1578, a bill to amend the Safe Drinking Water Act with respect to consumer confidence reports by community water systems.

S. 1597

At the request of Mr. BROWN of Ohio, the name of the Senator from West Virginia (Mr. ROCKEFELLER) was added as a cosponsor of S. 1597, a bill to provide assistance for the modernization,

renovation, and repair of elementary school and secondary school buildings in public school districts and community colleges across the United States in order to support the achievement of improved educational outcomes in those schools, and for other purposes.

S. 1746

At the request of Mr. SCHUMER, the names of the Senator from Hawaii (Mr. AKAKA), the Senator from Connecticut (Mr. BLUMENTHAL), the Senator from Louisiana (Ms. LANDRIEU) and the Senator from West Virginia (Mr. MANCHIN) were added as cosponsors of S. 1746, a bill to amend the Immigration and Nationality Act to stimulate international tourism to the United States.

S. 1824

At the request of Mr. TOOMEY, the name of the Senator from Delaware (Mr. COONS) was added as a cosponsor of S. 1824, a bill to amend the securities laws to establish certain thresholds for shareholder registration under that Act, and for other purposes.

S. 1880

At the request of Mr. BARRASSO, the name of the Senator from New Hampshire (Ms. AYOTTE) was added as a cosponsor of S. 1880, a bill to repeal the health care law's job-killing health insurance tax.

S. 1903

At the request of Mrs. GILLIBRAND, the names of the Senator from North Carolina (Mrs. HAGAN) and the Senator from New Jersey (Mr. MENENDEZ) were added as cosponsors of S. 1903, a bill to prohibit commodities and securities trading based on nonpublic information relating to Congress, to require additional reporting by Members and employees of Congress of securities transactions, and for other purposes.

S. 1925

At the request of Mr. LEAHY, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 1925, a bill to reauthorize the Violence Against Women Act of 1994.

S. 1927

At the request of Mr. PAUL, the name of the Senator from Missouri (Mr. BLUNT) was added as a cosponsor of S. 1927, a bill to modify the criteria used by the Corps of Engineers to dredge small ports.

S. 1932

At the request of Mr. LUGAR, the name of the Senator from Utah (Mr. HATCH) was added as a cosponsor of S. 1932, a bill to require the Secretary of State to act on a permit for the Keystone XL pipeline.

S. 1961

At the request of Mr. REED, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1961, a bill to provide level funding for the Low-Income Home Energy Assistance Program.

S. RES. 347

At the request of Mr. REID, his name was added as a cosponsor of S. Res. 347, a resolution recognizing the 40th anniversary of the National Cancer Act of 1971 and the more than 12,000,000 survivors of cancer alive today because of the commitment of the United States to cancer research and advances in cancer prevention, detection, diagnosis, and treatment.

At the request of Mr. BROWN of Ohio, the name of the Senator from Iowa (Mr. GRASSLEY) was added as a cosponsor of S. Res. 347, *supra*.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. LIEBERMAN (for himself, Mr. BLUMENTHAL, Ms. COLLINS, Mr. BURR, Mr. AKAKA, Mr. TESTER, and Ms. LANDRIEU):

S. 1990. A bill to require the Transportation Security Administration to comply with the Uniformed Services Employment and Reemployment Rights Act; to the Committee on Commerce, Science, and Transportation.

Mr. LIEBERMAN. Mr. President, I rise to introduce legislation that would guarantee the jobs of Transportation Service Officers, TSO, who are called to active military duty, putting them on the same playing field as every other civilian employee called up to serve their nation in the uniformed services in times of need.

I want to thank my cosponsors for their support of this measure, including my colleague from Connecticut, Senator RICHARD BLUMENTHAL, and the Ranking Member of the Homeland Security and Governmental Affairs Committee, Senator SUSAN COLLINS. Other cosponsors include Senators BURR, AKAKA, TESTER and LANDRIEU.

This is a very simple and straightforward bill that would close a loophole in the law that leaves Transportation Security Officers called to full time military service vulnerable to dismissal from their jobs upon return to civilian life.

The jobs of all other non-military public and private sector employees called up to active duty are protected under the Uniformed Services Employment and Reemployment Rights Act of 1994, USERRA. USERRA entitles a reservist, a member of the National Guard, or a veteran who is called to duty to return to their civilian jobs once their service is complete. The service member must meet certain, basic requirements, such as providing advance notice to their employer of their impending service and missing no more than 5 years of work under any one employer due to their service.

According to the law itself, the purpose of USERRA is to "encourage non-career service in the uniformed services by eliminating or minimizing the disadvantages to civilian careers and

employment which can result from such service."

The law also minimizes the disruption to those who are called up to service by providing for their prompt reemployment when they return to civilian life and protects them from discrimination based on their active duty in the uniformed services.

This is simple fairness to those with the courage, determination, and love of country to serve in the uniformed services beyond any required service or normal tour of duty, and certainly at an age older than most soldiers.

TSOs, however, are not statutorily protected against dismissal from their jobs upon return from military service. In the aftermath of 9/11, when Congress moved with lightening speed to strengthen the safety of air travel, we provided the Transportation Security Administration with the broad authority it would need to hire and deploy tens of thousands of new workers in a matter of weeks. TSOs became a select category of federal employees who were considered vital to the national security, and because of the unusual circumstances and broad authority given to TSA, they were exempted from many labor laws.

The Aviation and Transportation Security Act, ATSA, passed in November 2001, gives the TSA Administrator authority over all terms and conditions of a TSO's employment. Specifically, Section 111(d) of ATSA states: "notwithstanding any other provision of law, the Undersecretary for Transportation Security may employ, appoint, discipline, terminate, and fix terms and conditions of employment . . . as the Undersecretary determines to be necessary."

The Transportation Security Administration employs 3,500 reservists and another 15,000 veterans. The agency frequently recruits veterans, reservists, and members of the National Guard and benefits from their employment. We should make it easier for TSA to attract the best and brightest to its ranks, by ensuring these men and women have the job protections they need and deserve.

TSA has said that it complies administratively and voluntarily with USERRA. But without the force of law, reservists and National Guard members cannot count on redress if they believe TSA has violated USERRA.

According to The Veterans of Foreign Wars, at least two TSOs so far have tried to appeal TSA actions based on perceived violations of USERRA. Both were thwarted in their efforts when the Office of Special Counsel and the Merit System Protection Board ruled that Section 111(d) of ATSA bars TSOs from USERRA coverage.

TSOs find themselves in a clearly unjust and inadvertent position. Therefore, the legislation my colleagues and I are introducing today would simply

require TSA to comply with USERRA, providing TSOs the statutory protection of reemployment to which every other type of worker, in the private or public sectors, is eligible.

I ask my colleagues for their support to right this unintentional wrong.

Mr. President, I ask unanimous consent that the text of the bill be printed into the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1990

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. APPLICABILITY OF THE UNIFORMED SERVICES EMPLOYMENT AND REEMPLOYMENT RIGHTS ACT TO THE TRANSPORTATION SECURITY ADMINISTRATION.**

(a) IN GENERAL.—Section 111(d) of the Aviation and Transportation Security Act (49 U.S.C. 44935 note; Public Law 107-71) is amended—

(1) by striking “Notwithstanding” and inserting the following:

“(1) GENERAL AUTHORITY.—Except as provided in paragraph (2), and notwithstanding”; and

(2) by adding at the end the following:

“(2) UNIFORMED SERVICES EMPLOYMENT AND REEMPLOYMENT RIGHTS ACT.—In carrying out the functions authorized under paragraph (1), the Under Secretary shall be subject to the provisions set forth in chapter 43 of title 38, United States Code.”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the date that is 270 days after the date of the enactment of this Act.

**AMENDMENTS SUBMITTED AND PROPOSED**

SA 1462. Mr. REID (for Mr. KERRY (for himself and Mr. LUGAR)) proposed an amendment to the bill H.R. 515, to reauthorize the Belarus Democracy Act of 2004.

SA 1463. Mr. REID (for Mrs. FEINSTEIN (for herself and Mr. CHAMBLISS)) proposed an amendment to the bill H.R. 1892, to authorize appropriations for fiscal year 2012 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

**TEXT OF AMENDMENTS**

**SA 1462.** Mr. REID (for Mr. KERRY (for himself and Mr. LUGAR)) proposed an amendment to the bill H.R. 515, to reauthorize the Belarus Democracy Act of 2004; as follows:

On page 6, line 19, strike “and” and insert “expanded its visa ban list, imposed additional financial sanctions on certain state-owned enterprises, and initiated preparations to freeze the assets of several individuals in Belarus. The”.

On page 10, line 9, strike “continue to”.

**SA 1463.** Mr. REID (for Mrs. FEINSTEIN (for herself and Mr. CHAMBLISS)) proposed an amendment to the bill H.R. 1892, to authorize appropriations for fiscal year 2012 for intelligence and

intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

**SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

(a) SHORT TITLE.—This Act may be cited as the “Intelligence Authorization Act for Fiscal Year 2012”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; Table of contents.

Sec. 2. Definitions.

**TITLE I—INTELLIGENCE ACTIVITIES**

Sec. 101. Authorization of appropriations.

Sec. 102. Classified Schedule of Authorizations.

Sec. 103. Personnel ceiling adjustments.

Sec. 104. Intelligence Community Management Account.

**TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM**

Sec. 201. Authorization of appropriations.

**TITLE III—GENERAL PROVISIONS**

Sec. 301. Increase in employee compensation and benefits authorized by law.

Sec. 302. Restriction on conduct of intelligence activities.

Sec. 303. Annual report on hiring of National Security Education Program participants.

Sec. 304. Enhancement of authority for flexible personnel management among the elements of the intelligence community.

Sec. 305. Preparation of nuclear proliferation assessment statements.

Sec. 306. Cost estimates.

Sec. 307. Updates of intelligence relating to terrorist recidivism of detainees held at United States Naval Station, Guantanamo Bay, Cuba.

Sec. 308. Notification of transfer of a detainee held at United States Naval Station, Guantanamo Bay, Cuba.

Sec. 309. Enhanced procurement authority to manage supply chain risk.

Sec. 310. Burial allowance.

Sec. 311. Modification of certain reporting requirements.

Sec. 312. Review of strategic and competitive analysis conducted by the intelligence community.

**TITLE IV—MATTERS RELATING TO ELEMENTS OF THE INTELLIGENCE COMMUNITY**

Subtitle A—Office of the Director of National Intelligence

Sec. 401. Intelligence community assistance to counter drug trafficking organizations using public lands.

Sec. 402. Application of certain financial reporting requirements to the Office of the Director of National Intelligence.

Sec. 403. Public availability of information regarding the Inspector General of the Intelligence Community.

Sec. 404. Clarification of status of Chief Information Officer in the Executive Schedule.

Sec. 405. Temporary appointment to fill vacancies within Office of the Director of National Intelligence.

Subtitle B—Central Intelligence Agency

Sec. 411. Acceptance of gifts.

Sec. 412. Foreign language proficiency requirements for Central Intelligence Agency officers.

Sec. 413. Public availability of information regarding the Inspector General of the Central Intelligence Agency.

Sec. 414. Creating an official record of the Osama bin Laden operation.

Sec. 415. Recruitment of personnel in the Office of the Inspector General.

Subtitle C—National Security Agency

Sec. 421. Additional authorities for National Security Agency security personnel.

Subtitle D—Other Elements

Sec. 431. Codification of Office of Intelligence and Analysis of the Department of Homeland Security as element of the intelligence community.

Sec. 432. Federal Bureau of Investigation participation in the Department of Justice leave bank.

Sec. 433. Accounts and transfer authority for appropriations and other amounts for intelligence elements of the Department of Defense.

Sec. 434. Report on training standards of defense intelligence workforce.

**TITLE V—OTHER MATTERS**

Sec. 501. Report on airspace restrictions for use of unmanned aerial vehicles along the border of the United States and Mexico.

Sec. 502. Sense of Congress regarding integration of fusion centers.

Sec. 503. Strategy to counter improvised explosive devices.

Sec. 504. Sense of Congress regarding the priority of railway transportation security.

Sec. 505. Technical amendments to the National Security Act of 1947.

Sec. 506. Technical amendments to title 18, United States Code.

Sec. 507. Budgetary effects.

**SEC. 2. DEFINITIONS.**

In this Act:

(1) CONGRESSIONAL INTELLIGENCE COMMITTEES.—The term “congressional intelligence committees” means—

(A) the Select Committee on Intelligence of the Senate; and

(B) the Permanent Select Committee on Intelligence of the House of Representatives.

(2) INTELLIGENCE COMMUNITY.—The term “intelligence community” has the meaning given that term in section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4)).

**TITLE I—INTELLIGENCE ACTIVITIES**

**SEC. 101. AUTHORIZATION OF APPROPRIATIONS.**

Funds are hereby authorized to be appropriated for fiscal year 2012 for the conduct of the intelligence and intelligence-related activities of the following elements of the United States Government:

(1) The Office of the Director of National Intelligence.

(2) The Central Intelligence Agency.

(3) The Department of Defense.

(4) The Defense Intelligence Agency.

(5) The National Security Agency.

(6) The Department of the Army, the Department of the Navy, and the Department of the Air Force.

(7) The Coast Guard.

(8) The Department of State.

(9) The Department of the Treasury.

(10) The Department of Energy.

(11) The Department of Justice.

- (12) The Federal Bureau of Investigation.
- (13) The Drug Enforcement Administration.
- (14) The National Reconnaissance Office.
- (15) The National Geospatial-Intelligence Agency.
- (16) The Department of Homeland Security.

#### SEC. 102. CLASSIFIED SCHEDULE OF AUTHORIZATIONS.

(a) SPECIFICATIONS OF AMOUNTS AND PERSONNEL LEVELS.—The amounts authorized to be appropriated under section 101 and, subject to section 103, the authorized personnel ceilings as of September 30, 2012, for the conduct of the intelligence activities of the elements listed in paragraphs (1) through (16) of section 101, are those specified in the classified Schedule of Authorizations prepared to accompany the bill H.R. 1892 of the One Hundred Twelfth Congress.

(b) AVAILABILITY OF CLASSIFIED SCHEDULE OF AUTHORIZATIONS.—

(1) AVAILABILITY TO COMMITTEES OF CONGRESS.—The classified Schedule of Authorizations referred to in subsection (a) shall be made available to the Committee on Appropriations of the Senate, the Committee on Appropriations of the House of Representatives, and to the President.

(2) DISTRIBUTION BY THE PRESIDENT.—Subject to paragraph (3), the President shall provide for suitable distribution of the classified Schedule of Authorizations, or of appropriate portions of the Schedule, within the executive branch.

(3) LIMITS ON DISCLOSURE.—The President shall not publicly disclose the classified Schedule of Authorizations or any portion of such Schedule except—

(A) as provided in section 601(a) of the Implementing Recommendations of the 9/11 Commission Act of 2007 (50 U.S.C. 415c)

(B) to the extent necessary to implement the budget; or

(C) as otherwise required by law.

(c) USE OF FUNDS FOR CERTAIN ACTIVITIES IN THE CLASSIFIED ANNEX.—In addition to any other purpose authorized by law, the Director of the Federal Bureau of Investigation may expend funds authorized in this Act as specified in the Federal Bureau of Investigation Policy Implementation section of the classified annex accompanying this Act.

#### SEC. 103. PERSONNEL CEILING ADJUSTMENTS.

(a) AUTHORITY FOR INCREASES.—The Director of National Intelligence may authorize the employment of civilian personnel in excess of the number of full-time equivalent positions for fiscal year 2012 authorized by the classified Schedule of Authorizations referred to in section 102(a) if the Director of National Intelligence determines that such action is necessary for the performance of important intelligence functions, except that the number of personnel employed in excess of the number authorized under such section may not, for any element of the intelligence community, exceed 3 percent of the number of civilian personnel authorized under such section for such element.

(b) AUTHORITY FOR CONVERSION OF ACTIVITIES PERFORMED BY CONTRACT PERSONNEL.—

(1) IN GENERAL.—In addition to the authority in subsection (a) and subject to paragraph (2), if the head of an element of the intelligence community makes a determination that activities currently being performed by contract personnel should be performed by employees of such element, the Director of National Intelligence, in order to reduce a comparable number of contract personnel, may authorize for that purpose employment of additional full-time equivalent

personnel in such element equal to the number of full-time equivalent contract personnel performing such activities.

(2) CONCURRENCE AND APPROVAL.—The authority described in paragraph (1) may not be exercised unless the Director of National Intelligence concurs with the determination described in such paragraph.

(c) TREATMENT OF CERTAIN PERSONNEL.—The Director of National Intelligence shall establish guidelines that govern, for each element of the intelligence community, the treatment under the personnel levels authorized under section 102(a), including any exemption from such personnel levels, of employment or assignment—

(1) in a student program, trainee program, or similar program;

(2) in a reserve corps or as a reemployed annuitant; or

(3) in details, joint duty, or long-term, full-time training.

(d) NOTICE TO CONGRESSIONAL INTELLIGENCE COMMITTEES.—The Director of National Intelligence shall notify the congressional intelligence committees in writing at least 15 days prior to the initial exercise of an authority described in subsection (a) or (b).

#### SEC. 104. INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT.

(a) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for the Intelligence Community Management Account of the Director of National Intelligence for fiscal year 2012 the sum of \$576,393,000. Within such amount, funds identified in the classified Schedule of Authorizations referred to in section 102(a) for advanced research and development shall remain available until September 30, 2013.

(b) AUTHORIZED PERSONNEL LEVELS.—The elements within the Intelligence Community Management Account of the Director of National Intelligence are authorized 777 full-time or full-time equivalent personnel as of September 30, 2012. Personnel serving in such elements may be permanent employees of the Office of the Director of National Intelligence or personnel detailed from other elements of the United States Government.

(c) CLASSIFIED AUTHORIZATIONS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts authorized to be appropriated for the Intelligence Community Management Account by subsection (a), there are authorized to be appropriated for the Community Management Account for fiscal year 2012 such additional amounts as are specified in the classified Schedule of Authorizations referred to in section 102(a). Such additional amounts for advanced research and development shall remain available until September 30, 2013.

(2) AUTHORIZATION OF PERSONNEL.—In addition to the personnel authorized by subsection (b) for elements of the Intelligence Community Management Account as of September 30, 2012, there are authorized such additional personnel for the Community Management Account as of that date as are specified in the classified Schedule of Authorizations referred to in section 102(a).

#### TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

##### SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated for the Central Intelligence Agency Retirement and Disability Fund for fiscal year 2012 the sum of \$514,000,000.

#### TITLE III—GENERAL PROVISIONS

##### SEC. 301. INCREASE IN EMPLOYEE COMPENSATION AND BENEFITS AUTHORIZED BY LAW.

Appropriations authorized by this Act for salary, pay, retirement, and other benefits for Federal employees may be increased by such additional or supplemental amounts as may be necessary for increases in such compensation or benefits authorized by law.

##### SEC. 302. RESTRICTION ON CONDUCT OF INTELLIGENCE ACTIVITIES.

The authorization of appropriations by this Act shall not be deemed to constitute authority for the conduct of any intelligence activity which is not otherwise authorized by the Constitution or the laws of the United States.

##### SEC. 303. ANNUAL REPORT ON HIRING OF NATIONAL SECURITY EDUCATION PROGRAM PARTICIPANTS.

Not later than 90 days after the end of each of fiscal years 2012, 2013, and 2014, the head of each element of the intelligence community shall submit to the congressional intelligence committees a report, which may be in classified form, containing the number of personnel hired by such element during such fiscal year that were at any time a recipient of a grant or scholarship under the David L. Boren National Security Education Act of 1991 (50 U.S.C. 1901 et seq.).

##### SEC. 304. ENHANCEMENT OF AUTHORITY FOR FLEXIBLE PERSONNEL MANAGEMENT AMONG THE ELEMENTS OF THE INTELLIGENCE COMMUNITY.

Section 102A of the National Security Act of 1947 (50 U.S.C. 403-1) is amended by adding at the end the following new subsection:

“(v) AUTHORITY TO ESTABLISH POSITIONS IN EXCEPTED SERVICE.—(1) The Director of National Intelligence, with the concurrence of the head of the covered department concerned and in consultation with the Director of the Office of Personnel Management, may—

“(A) convert competitive service positions, and the incumbents of such positions, within an element of the intelligence community in such department, to excepted service positions as the Director of National Intelligence determines necessary to carry out the intelligence functions of such element; and

“(B) establish new positions in the excepted service within an element of the intelligence community in such department, if the Director of National Intelligence determines such positions are necessary to carry out the intelligence functions of such element.

“(2) An incumbent occupying a position on the date of the enactment of the Intelligence Authorization Act for Fiscal Year 2012 selected to be converted to the excepted service under this section shall have the right to refuse such conversion. Once such individual no longer occupies the position, the position may be converted to the excepted service.

“(3) In this subsection, the term ‘covered department’ means the Department of Energy, the Department of Homeland Security, the Department of State, or the Department of the Treasury.”.

##### SEC. 305. PREPARATION OF NUCLEAR PROLIFERATION ASSESSMENT STATEMENTS.

Section 102A of the National Security Act of 1947 (50 U.S.C. 403-1), as amended by section 304 of this Act, is further amended by adding at the end the following new subsection:

“(w) NUCLEAR PROLIFERATION ASSESSMENT STATEMENTS INTELLIGENCE COMMUNITY ADDENDUM.—The Director of National Intelligence, in consultation with the heads of the

appropriate elements of the intelligence community and the Secretary of State, shall provide to the President, the congressional intelligence committees, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Senate an addendum to each Nuclear Proliferation Assessment Statement accompanying a civilian nuclear cooperation agreement, containing a comprehensive analysis of the country's export control system with respect to nuclear-related matters, including interactions with other countries of proliferation concern and the actual or suspected nuclear, dual-use, or missile-related transfers to such countries."

#### SEC. 306. COST ESTIMATES.

(a) IN GENERAL.—Section 506A of the National Security Act of 1947 (50 U.S.C. 415a-1) is amended—

(1) in subsection (a)(2)—

(A) by inserting "(A)" after "(2)"; and

(B) by adding at the end the following new subparagraph:

"(B) For major system acquisitions requiring a service or capability from another acquisition or program to deliver the end-to-end functionality for the intelligence community end users, independent cost estimates shall include, to the maximum extent practicable, all estimated costs across all pertinent elements of the intelligence community. For collection programs, such cost estimates shall include the cost of new analyst training, new hardware and software for data exploitation and analysis, and any unique or additional costs for data processing, storing, and power, space, and cooling across the life cycle of the program. If such costs for processing, exploitation, dissemination, and storage are scheduled to be executed in other elements of the intelligence community, the independent cost estimate shall identify and annotate such costs for such other elements accordingly.";

(2) in subsection (e)(2)—

(A) by inserting "(A)" after "(2)";

(B) in subparagraph (A), as so designated, by striking "associated with the acquisition of a major system," and inserting "associated with the development, acquisition, procurement, operation, and sustainment of a major system across its proposed life cycle,";

(C) by adding at the end the following:

"(B) In accordance with subsection (a)(2)(B), each independent cost estimate shall include all costs required across elements of the intelligence community to develop, acquire, procure, operate, and sustain the system to provide the end-to-end intelligence functionality of the system, including—

"(i) for collection programs, the cost of new analyst training, new hardware and software for data exploitation and analysis, and any unique or additional costs for data processing, storing, and power, space, and cooling across the life cycle of the program; and

"(ii) costs for processing, exploitation, dissemination, and storage scheduled to be executed in other elements of the intelligence community."

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date that is 180 days after the date of the enactment of this Act.

#### SEC. 307. UPDATES OF INTELLIGENCE RELATING TO TERRORIST RECIDIVISM OF DETAINEES HELD AT UNITED STATES NAVAL STATION, GUANTANAMO BAY, CUBA.

(a) UPDATES AND CONSOLIDATION OF LANGUAGE.—

(1) IN GENERAL.—Title V of the National Security Act of 1947 (50 U.S.C. 413 et seq.) is amended by inserting after section 506H the following new section:

"SUMMARY OF INTELLIGENCE RELATING TO TERRORIST RECIDIVISM OF DETAINEES HELD AT UNITED STATES NAVAL STATION, GUANTANAMO BAY, CUBA

"SEC. 506I. (a) IN GENERAL.—The Director of National Intelligence, in consultation with the Director of the Central Intelligence Agency and the Director of the Defense Intelligence Agency, shall make publicly available an unclassified summary of—

"(1) intelligence relating to recidivism of detainees currently or formerly held at the Naval Detention Facility at Guantanamo Bay, Cuba, by the Department of Defense; and

"(2) an assessment of the likelihood that such detainees will engage in terrorism or communicate with persons in terrorist organizations.

"(b) UPDATES.—Not less frequently than once every 6 months, the Director of National Intelligence, in consultation with the Director of the Central Intelligence Agency and the Secretary of Defense, shall update and make publicly available an unclassified summary consisting of the information required by subsection (a) and the number of individuals formerly detained at Naval Station, Guantanamo Bay, Cuba, who are confirmed or suspected of returning to terrorist activities after release or transfer from such Naval Station."

(2) INITIAL UPDATE.—The initial update required by section 506I(b) of such Act, as added by paragraph (1) of this subsection, shall be made publicly available not later than 10 days after the date the first report following the date of the enactment of the Intelligence Authorization Act for Fiscal Year 2012 is submitted to members and committees of Congress pursuant to section 319 of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 10 U.S.C. 801 note).

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents in the first section of the National Security Act of 1947 is amended by inserting after the item relating to section 506H the following new item:

"Sec. 506I. Summary of intelligence relating to terrorist recidivism of detainees held at United States Naval Station, Guantanamo Bay, Cuba."

#### SEC. 308. NOTIFICATION OF TRANSFER OF A DETAINEE HELD AT UNITED STATES NAVAL STATION, GUANTANAMO BAY, CUBA.

(a) REQUIREMENT FOR NOTIFICATION.—The President shall submit to Congress, in classified form, at least 30 days prior to the transfer or release of an individual detained at Naval Station, Guantanamo Bay, Cuba, as of June 24, 2009, to the country of such individual's nationality or last habitual residence or to any other foreign country or to a freely associated State the following information:

(1) The name of the individual to be transferred or released.

(2) The country or the freely associated State to which such individual is to be transferred or released.

(3) The terms of any agreement with the country or the freely associated State for the acceptance of such individual, including the amount of any financial assistance related to such agreement.

(4) The agencies or departments of the United States responsible for ensuring that the agreement described in paragraph (3) is carried out.

(b) DEFINITION.—In this section, the term "freely associated States" means the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

(c) CONSTRUCTION WITH OTHER REQUIREMENTS.—Nothing in this section shall be construed to supersede or otherwise affect the following provisions of law:

(1) Section 1028 of the National Defense Authorization Act for Fiscal Year 2012.

(2) Section 8120 of the Department of Defense Appropriations Act, 2012.

#### SEC. 309. ENHANCED PROCUREMENT AUTHORITY TO MANAGE SUPPLY CHAIN RISK.

(a) DEFINITIONS.—In this section:

(1) COVERED AGENCY.—The term "covered agency" means any element of the intelligence community other than an element within the Department of Defense.

(2) COVERED ITEM OF SUPPLY.—The term "covered item of supply" means an item of information technology (as that term is defined in section 11101 of title 40, United States Code) that is purchased for inclusion in a covered system, and the loss of integrity of which could result in a supply chain risk for a covered system.

(3) COVERED PROCUREMENT.—The term "covered procurement" means—

(A) a source selection for a covered system or a covered item of supply involving either a performance specification, as provided in section 3306(a)(3)(B) of title 41, United States Code, or an evaluation factor, as provided in section 3306(b)(1) of such title, relating to supply chain risk;

(B) the consideration of proposals for and issuance of a task or delivery order for a covered system or a covered item of supply, as provided in section 4106(d)(3) of title 41, United States Code, where the task or delivery order contract concerned includes a contract clause establishing a requirement relating to supply chain risk; or

(C) any contract action involving a contract for a covered system or a covered item of supply where such contract includes a clause establishing requirements relating to supply chain risk.

(4) COVERED PROCUREMENT ACTION.—The term "covered procurement action" means any of the following actions, if the action takes place in the course of conducting a covered procurement:

(A) The exclusion of a source that fails to meet qualifications standards established in accordance with the requirements of section 3311 of title 41, United States Code, for the purpose of reducing supply chain risk in the acquisition of covered systems.

(B) The exclusion of a source that fails to achieve an acceptable rating with regard to an evaluation factor providing for the consideration of supply chain risk in the evaluation of proposals for the award of a contract or the issuance of a task or delivery order.

(C) The decision to withhold consent for a contractor to subcontract with a particular source or to direct a contractor for a covered system to exclude a particular source from consideration for a subcontract under the contract.

(5) COVERED SYSTEM.—The term "covered system" means a national security system, as that term is defined in section 3542(b) of title 44, United States Code.

(6) SUPPLY CHAIN RISK.—The term "supply chain risk" means the risk that an adversary may sabotage, maliciously introduce unwanted function, or otherwise subvert the design, integrity, manufacturing, production, distribution, installation, operation, or maintenance of a covered system so as to

surveil, deny, disrupt, or otherwise degrade the function, use, or operation of such system.

(b) **AUTHORITY.**—Subject to subsection (c) and in consultation with the Director of National Intelligence, the head of a covered agency may, in conducting intelligence and intelligence-related activities—

(1) carry out a covered procurement action; and

(2) limit, notwithstanding any other provision of law, in whole or in part, the disclosure of information relating to the basis for carrying out a covered procurement action.

(c) **DETERMINATION AND NOTIFICATION.**—The head of a covered agency may exercise the authority provided in subsection (b) only after—

(1) any appropriate consultation with procurement or other relevant officials of the covered agency;

(2) making a determination in writing, which may be in classified form, that—

(A) use of the authority in subsection (b)(1) is necessary to protect national security by reducing supply chain risk;

(B) less intrusive measures are not reasonably available to reduce such supply chain risk; and

(C) in a case where the head of the covered agency plans to limit disclosure of information under subsection (b)(2), the risk to national security due to the disclosure of such information outweighs the risk due to not disclosing such information;

(3) notifying the Director of National Intelligence that there is a significant supply chain risk to the covered system concerned, unless the head of the covered agency making the determination is the Director of National Intelligence; and

(4) providing a notice, which may be in classified form, of the determination made under paragraph (2) to the congressional intelligence committees that includes a summary of the basis for the determination, including a discussion of less intrusive measures that were considered and why they were not reasonably available to reduce supply chain risk.

(d) **DELEGATION.**—The head of a covered agency may not delegate the authority provided in subsection (b) or the responsibility to make a determination under subsection (c) to an official below the level of the service acquisition executive for the agency concerned.

(e) **SAVINGS.**—The authority under this section is in addition to any other authority under any other provision of law. The authority under this section shall not be construed to alter or effect the exercise of any other provision of law.

(f) **EFFECTIVE DATE.**—The requirements of this section shall take effect on the date that is 180 days after the date of the enactment of this Act and shall apply to contracts that are awarded on or after such date.

(g) **SUNSET.**—The authority provided in this section shall expire on the date that section 806 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 10 U.S.C. 2304 note) expires.

#### SEC. 310. BURIAL ALLOWANCE.

(a) **AUTHORIZATION TO PROVIDE.**—

(1) **IN GENERAL.**—The head of an agency or department containing an element of the intelligence community may pay to the estate of a decedent described in paragraph (2) a burial allowance at the request of a representative of such estate, as determined in accordance with the laws of a State.

(2) **DESCRIPTION.**—A decedent described in this paragraph is an individual—

(A) who served as a civilian officer or employee of such an agency or department;

(B) who died as a result of an injury incurred during such service; and

(C) whose death—

(i) resulted from hostile or terrorist activities; or

(ii) occurred in connection with an intelligence activity having a substantial element of risk.

(b) **USE OF BURIAL ALLOWANCE.**—A burial allowance paid under subsection (a) may be used to reimburse such estate for burial expenses, including recovery, mortuary, funeral, or memorial service, cremation, burial costs, and costs of transportation by common carrier to the place selected for final disposition of the decedent.

(c) **AMOUNT OF BURIAL ALLOWANCE; RELATIONSHIP TO OTHER PROVISIONS.**—A burial allowance paid under subsection (a) shall be—

(1) in an amount not greater than—

(A) the maximum reimbursable amount allowed under Department of Defense Instruction 1344.08 or successor instruction; plus

(B) the actual costs of transportation referred to in subsection (b); and

(2) in addition to any other benefit permitted under any other provision of law, including funds that may be expended as specified in the General Provisions section of the classified annex accompanying this Act.

(d) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Director of the Office of Personnel Management, in consultation with the Director of National Intelligence, the Secretary of Labor, and the Secretary of Defense, shall submit to Congress a report on the feasibility of implementing legislation to provide for burial allowances at a level which adequately addresses the cost of burial expenses and provides for equitable treatment when an officer or employee of a Federal agency or department dies as the result of an injury sustained in the performance of duty.

#### SEC. 311. MODIFICATION OF CERTAIN REPORTING REQUIREMENTS.

(a) **INTELLIGENCE REFORM AND TERRORISM PREVENTION ACT OF 2004.**—Section 1041(b) of the Intelligence Reform and Terrorism Prevention Act of 2004 (50 U.S.C. 403-1b(b)) is amended by striking paragraphs (3) and (4).

(b) **INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2003.**—Section 904(d)(1) of the Intelligence Authorization Act for Fiscal Year 2003 (50 U.S.C. 402c(d)(1)) is amended by striking “on an annual basis”.

(c) **INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1995.**—Section 809 of the Intelligence Authorization Act for Fiscal Year 1995 (50 U.S.C. App. 2170b) is amended—

(1) by striking subsection (b); and

(2) in subsection (c), by striking “reports referred to in subsections (a) and (b)” and inserting “report referred to in subsection (a)”.

(d) **REPORT ON TEMPORARY PERSONNEL AUTHORIZATIONS FOR CRITICAL LANGUAGE TRAINING.**—Paragraph (3)(D) of section 102A(e) of the National Security Act of 1947 (50 U.S.C. 403-1(e)), as amended by section 306 of the Intelligence Authorization Act for Fiscal Year 2010 (Public Law 111-259; 124 Stat. 2661), is amended by striking “The” and inserting “For each of the fiscal years 2010, 2011, and 2012, the”.

#### SEC. 312. REVIEW OF STRATEGIC AND COMPETITIVE ANALYSIS CONDUCTED BY THE INTELLIGENCE COMMUNITY.

(a) **REVIEW.**—The Director of National Intelligence shall direct the Director's Senior Advisory Group to conduct a comprehensive review of the strategic and competitive anal-

ysis of international terrorism and homegrown violent extremism conducted by elements of the intelligence community during the 12 month period beginning on the date of the enactment of this Act.

(b) **RECOMMENDATIONS.**—Not later than 15 months after the date of the enactment of this Act, the Director of the National Intelligence shall submit to the congressional intelligence committees—

(1) a report on the results of the review conducted under subsection (a); and

(2) any actions taken by the Director to implement the recommendations, if any, of the Director's Senior Advisory Group based on such results.

#### TITLE IV—MATTERS RELATING TO ELEMENTS OF THE INTELLIGENCE COMMUNITY

##### Subtitle A—Office of the Director of National Intelligence

#### SEC. 401. INTELLIGENCE COMMUNITY ASSISTANCE TO COUNTER DRUG TRAFFICKING ORGANIZATIONS USING PUBLIC LANDS.

(a) **CONSULTATION.**—The Director of National Intelligence shall consult with the heads of the Federal land management agencies on the appropriate actions the intelligence community can take to assist such agencies in responding to the threat from covered entities that are currently or have previously used public lands in the United States to further the operations of such entities.

(b) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Director of National Intelligence shall submit to the congressional intelligence committees, the Committee on the Judiciary of the Senate, and the Committee on the Judiciary of the House of Representatives a report on the results of the consultation under subsection (a). Such report shall include—

(1) an assessment of the intelligence community collection efforts dedicated to covered entities, including any collection gaps or inefficiencies; and

(2) an assessment of the ability of the intelligence community to assist Federal land management agencies in identifying and protecting public lands from illegal drug grows and other activities and threats of covered entities, including through the sharing of intelligence information.

(c) **DEFINITIONS.**—In this section:

(1) **COVERED ENTITY.**—The term “covered entity” means an international drug trafficking organization or other actor involved in drug trafficking generally.

(2) **FEDERAL LAND MANAGEMENT AGENCY.**—The term “Federal land management agency” includes—

(A) the Forest Service of the Department of Agriculture;

(B) the Bureau of Land Management of the Department of the Interior;

(C) the National Park Service of the Department of the Interior;

(D) the Fish and Wildlife Service of the Department of the Interior; and

(E) the Bureau of Reclamation of the Department of the Interior.

(3) **PUBLIC LANDS.**—The term “public lands” means land under the management of a Federal land management agency.

#### SEC. 402. APPLICATION OF CERTAIN FINANCIAL REPORTING REQUIREMENTS TO THE OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE.

For each of the fiscal years 2010, 2011, and 2012, the requirements of section 3515 of title 31, United States Code, to submit an audited financial statement shall not apply to the

Office of the Director of National Intelligence if the Director of National Intelligence determines and notifies Congress that audited financial statements for such years for such Office cannot be produced on a cost-effective basis.

**SEC. 403. PUBLIC AVAILABILITY OF INFORMATION REGARDING THE INSPECTOR GENERAL OF THE INTELLIGENCE COMMUNITY.**

Section 103H of the National Security Act of 1947 (50 U.S.C. 403-3h) is amended by adding at the end the following new subsection:

“(o) INFORMATION ON WEBSITE.—(1) The Director of National Intelligence shall establish and maintain on the homepage of the publicly accessible website of the Office of the Director of National Intelligence information relating to the Office of the Inspector General of the Intelligence Community including methods to contact the Inspector General.

“(2) The information referred to in paragraph (1) shall be obvious and facilitate accessibility to the information related to the Office of the Inspector General of the Intelligence Community.”.

**SEC. 404. CLARIFICATION OF STATUS OF CHIEF INFORMATION OFFICER IN THE EXECUTIVE SCHEDULE.**

Section 5315 of title 5, United States Code, is amended by inserting after the item relating to the Chief Information Officer, Small Business Administration the following new item:

“Chief Information Officer of the Intelligence Community.”.

**SEC. 405. TEMPORARY APPOINTMENT TO FILL VACANCIES WITHIN OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE.**

Section 103 of the National Security Act of 1947 (50 U.S.C. 403-3) is amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following new subsection:

“(e) TEMPORARY FILLING OF VACANCIES.—With respect to filling temporarily a vacancy in an office within the Office of the Director of National Intelligence (other than that of the Director of National Intelligence), section 3345(a)(3) of title 5, United States Code, may be applied—

“(1) in the matter preceding subparagraph (A), by substituting ‘an element of the intelligence community, as that term is defined in section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4)),’ for ‘such Executive agency’; and

“(2) in subparagraph (A), by substituting ‘the intelligence community’ for ‘such agency’.”.

**Subtitle B—Central Intelligence Agency**

**SEC. 411. ACCEPTANCE OF GIFTS.**

Section 12 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 4031(a)) is amended—

(1) in subsection (a)—

(A) by inserting “(1)” after “(a)”; and

(B) by striking the second and third sentences and inserting the following:

“(2) Any gift accepted under this section (and any income produced by any such gift)—

“(A) may be used only for—”

“(i) artistic display;

“(ii) purposes relating to the general welfare, education, or recreation of employees or dependents of employees of the Agency or for similar purposes; or

“(iii) purposes relating to the welfare, education, or recreation of an individual described in paragraph (3); and

“(B) under no circumstances may such a gift (or any income produced by any such gift) be used for operational purposes.

“(3) An individual described in this paragraph is an individual who—

“(A) is an employee or a former employee of the Agency who suffered injury or illness while employed by the Agency that—

“(i) resulted from hostile or terrorist activities;

“(ii) occurred in connection with an intelligence activity having a significant element of risk; or

“(iii) occurred under other circumstances determined by the Director to be analogous to the circumstances described in clause (i) or (ii);

“(B) is a family member of such an employee or former employee; or

“(C) is a surviving family member of an employee of the Agency who died in circumstances described in clause (i), (ii), or (iii) of subparagraph (A).

“(4) The Director may not accept any gift under this section that is expressly conditioned upon any expenditure not to be met from the gift itself or from income produced by the gift unless such expenditure has been authorized by law.

“(5) The Director may, in the Director’s discretion, determine that an individual described in subparagraph (A) or (B) of paragraph (3) may accept a gift for the purposes described in paragraph (2)(A)(iii).”; and

(2) by adding at the end the following new subsection:

“(f) The Director, in consultation with the Director of the Office of Government Ethics, shall issue regulations to carry out the authority provided in this section. Such regulations shall ensure that such authority is exercised consistent with all relevant ethical constraints and principles, including—

“(1) the avoidance of any prohibited conflict of interest or appearance of impropriety; and

“(2) a prohibition against the acceptance of a gift from a foreign government or an agent of a foreign government.”.

**SEC. 412. FOREIGN LANGUAGE PROFICIENCY REQUIREMENTS FOR CENTRAL INTELLIGENCE AGENCY OFFICERS.**

(a) IN GENERAL.—Section 104A(g) of the National Security Act of 1947 (50 U.S.C. 403-4a(g)) is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A)—

(i) by inserting “in the Directorate of Intelligence career service or the National Clandestine Service career service” after “an individual”;

(ii) by inserting “or promoted” after “appointed”; and

(iii) by striking “individual—” and inserting “individual has been certified as having a professional speaking and reading proficiency in a foreign language, such proficiency being at least level 3 on the Interagency Language Roundtable Language Skills Level or commensurate proficiency level using such other indicator of proficiency as the Director of the Central Intelligence Agency considers appropriate.”;

(B) by striking subparagraphs (A) and (B); and

(2) in paragraph (2), by striking “position or category of positions” both places that term appears and inserting “position, category of positions, or occupation”.

(b) EFFECTIVE DATE.—Section 611(b) of the Intelligence Authorization Act for Fiscal Year 2005 (Public Law 108-487; 50 U.S.C. 403-4a note) is amended—

(1) by inserting “or promotions” after “appointments”; and

(2) by striking “that is one year after the date”.

(c) REPORT ON WAIVERS.—Section 611(c) of the Intelligence Authorization Act for Fiscal Year 2005 (Public Law 108-487; 118 Stat. 3955) is amended—

(1) in the first sentence—

(A) by striking “positions” and inserting “individual waivers”; and

(B) by striking “Directorate of Operations” and inserting “National Clandestine Service”; and

(2) in the second sentence, by striking “position or category of positions” and inserting “position, category of positions, or occupation”.

(d) REPORT ON TRANSFERS.—Not later than 45 days after the date of the enactment of this Act, and on an annual basis for each of the following 3 years, the Director of the Central Intelligence Agency shall submit to the congressional intelligence committees a report on the number of Senior Intelligence Service employees of the Agency who—

(1) were transferred during the reporting period to a Senior Intelligence Service position in the Directorate of Intelligence career service or the National Clandestine Service career service; and

(2) did not meet the foreign language requirements specified in section 104A(g)(1) of the National Security Act of 1947 (50 U.S.C. 403-4a(g)(1)) at the time of such transfer.

**SEC. 413. PUBLIC AVAILABILITY OF INFORMATION REGARDING THE INSPECTOR GENERAL OF THE CENTRAL INTELLIGENCE AGENCY.**

Section 17 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403q) is amended by adding at the end the following new subsection:

“(h) INFORMATION ON WEBSITE.—(1) The Director of the Central Intelligence Agency shall establish and maintain on the homepage of the Agency’s publicly accessible website information relating to the Office of the Inspector General including methods to contact the Inspector General.

“(2) The information referred to in paragraph (1) shall be obvious and facilitate accessibility to the information related to the Office of the Inspector General.”.

**SEC. 414. CREATING AN OFFICIAL RECORD OF THE OSAMA BIN LADEN OPERATION.**

(a) FINDINGS.—Congress finds the following:

(1) On May 1, 2011, United States personnel killed terrorist leader Osama bin Laden during the course of a targeted strike against his secret compound in Abbottabad, Pakistan.

(2) Osama bin Laden was the leader of the al Qaeda terrorist organization, the most significant terrorism threat to the United States and the international community.

(3) Osama bin Laden was the architect of terrorist attacks which killed nearly 3,000 civilians on September 11, 2001, the most deadly terrorist attack against our Nation, in which al Qaeda terrorists hijacked four airplanes and crashed them into the World Trade Center in New York City, the Pentagon in Washington, D.C., and, due to heroic efforts by civilian passengers to disrupt the terrorists, near Shanksville, Pennsylvania.

(4) Osama bin Laden planned or supported numerous other deadly terrorist attacks against the United States and its allies, including the 1998 bombings of United States embassies in Kenya and Tanzania and the 2000 attack on the U.S.S. Cole in Yemen, and

against innocent civilians in countries around the world, including the 2004 attack on commuter trains in Madrid, Spain and the 2005 bombings of the mass transit system in London, England.

(5) Following the September 11, 2001, terrorist attacks, the United States, under President George W. Bush, led an international coalition into Afghanistan to dismantle al Qaeda, deny them a safe haven in Afghanistan and ungoverned areas along the Pakistani border, and bring Osama bin Laden to justice.

(6) President Barack Obama in 2009 committed additional forces and resources to efforts in Afghanistan and Pakistan as “the central front in our enduring struggle against terrorism and extremism”.

(7) The valiant members of the United States Armed Forces have courageously and vigorously pursued al Qaeda and its affiliates in Afghanistan and around the world.

(8) The anonymous, unsung heroes of the intelligence community have pursued al Qaeda and affiliates in Afghanistan, Pakistan, and around the world with tremendous dedication, sacrifice, and professionalism.

(9) The close collaboration between the Armed Forces and the intelligence community prompted the Director of National Intelligence, General James Clapper, to state, “Never have I seen a more remarkable example of focused integration, seamless collaboration, and sheer professional magnificence as was demonstrated by the Intelligence Community in the ultimate demise of Osama bin Laden.”.

(10) While the death of Osama bin Laden represents a significant blow to the al Qaeda organization and its affiliates and to terrorist organizations around the world, terrorism remains a critical threat to United States national security.

(11) President Obama said, “For over two decades, bin Laden has been al Qaeda’s leader and symbol, and has continued to plot attacks against our country and our friends and allies. The death of bin Laden marks the most significant achievement to date in our Nation’s effort to defeat al Qaeda.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the raid that killed Osama bin Laden demonstrated the best of the intelligence community’s capabilities and teamwork;

(2) for years to come, Americans will look back at this event as a defining point in the history of the United States;

(3) it is vitally important that the United States memorialize all the events that led to the raid so that future generations will have an official record of the events that transpired before, during, and as a result of the operation; and

(4) preserving this history now will allow the United States to have an accurate account of the events while those that participated in the events are still serving in the Government.

(c) REPORT ON THE OPERATION THAT KILLED OSAMA BIN LADEN.—Not later than 90 days after the completion of the report being prepared by the Center for the Study of Intelligence that documents the history of and lessons learned from the raid that resulted in the death of Osama bin Laden, the Director of the Central Intelligence Agency shall submit such report to the congressional intelligence committees.

(d) PRESERVATION OF RECORDS.—The Director of the Central Intelligence Agency shall preserve any records, including intelligence information and assessments, used to generate the report described in subsection (c).

#### SEC. 415. RECRUITMENT OF PERSONNEL IN THE OFFICE OF THE INSPECTOR GENERAL.

(a) STUDY.—The Inspector General of the Office of Personnel Management, in consultation with the Inspector General of the Central Intelligence Agency, shall carry out a study of the personnel authorities and available personnel benefits of the Office of the Inspector General of the Central Intelligence Agency. Such study shall include—

(1) identification of any barriers or disincentives to the recruitment or retention of experienced investigators within the Office of the Inspector General of the Central Intelligence Agency; and

(2) a comparison of the personnel authorities of the Inspector General of the Central Intelligence Agency with personnel authorities of Inspectors General of other agencies and departments of the United States, including a comparison of the benefits available to experienced investigators within the Office of the Inspector General of the Central Intelligence Agency with similar benefits available within the offices of Inspectors General of such other agencies or departments.

(b) RECOMMENDATIONS.—Not later than 120 days after the date of the enactment of this Act, the Inspector General of the Office of Personnel Management shall submit to the congressional intelligence committees and the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Oversight and Government Reform of the House of Representatives—

(1) a report on the results of the study conducted under subsection (a); and

(2) any recommendations for legislative action based on such results.

(c) FUNDING.—Of the funds authorized to be appropriated by this Act, the Director of National Intelligence shall transfer to the Inspector General of the Office of Personnel Management such sums as may be necessary to carry out this section.

#### Subtitle C—National Security Agency

#### SEC. 421. ADDITIONAL AUTHORITIES FOR NATIONAL SECURITY AGENCY SECURITY PERSONNEL.

(a) AUTHORITY TO TRANSPORT APPREHENDED PERSONS.—Paragraph (5) of section 11(a) of the National Security Agency Act of 1959 (50 U.S.C. 402 note) is amended to read as follows:

“(5) Agency personnel authorized by the Director under paragraph (1) may transport an individual apprehended under the authority of this section from the premises at which the individual was apprehended, as described in subparagraph (A) or (B) of paragraph (1), for the purpose of transferring such individual to the custody of law enforcement officials. Such transportation may be provided only to make a transfer of custody at a location within 30 miles of the premises described in subparagraphs (A) and (B) of paragraph (1).”.

(b) CONFORMING AMENDMENT RELATING TO TORT LIABILITY.—Paragraph (1) of section 11(d) of the National Security Agency Act of 1959 (50 U.S.C. 402 note) is amended—

(1) in subparagraph (B), by striking “or” at the end;

(2) in subparagraph (C), by striking the period at the end and inserting “; or”; and

(3) by adding at the end the following new subparagraph:

“(D) transport an individual pursuant to subsection (a)(2).”.

#### Subtitle D—Other Elements

#### SEC. 431. CODIFICATION OF OFFICE OF INTELLIGENCE AND ANALYSIS OF THE DEPARTMENT OF HOMELAND SECURITY AS ELEMENT OF THE INTELLIGENCE COMMUNITY.

Section 3(4)(K) of the National Security Act of 1947 (50 U.S.C. 401a(4)(K)) is amended to read as follows:

“(K) The Office of Intelligence and Analysis of the Department of Homeland Security.”.

#### SEC. 432. FEDERAL BUREAU OF INVESTIGATION PARTICIPATION IN THE DEPARTMENT OF JUSTICE LEAVE BANK.

Subsection (b) of section 6372 of title 5, United States Code, is amended to read as follows:

“(b)(1) Except as provided in paragraph (2) and notwithstanding any other provision of this subchapter, neither an excepted agency nor any individual employed in or under an excepted agency may be included in a leave bank program established under any of the preceding provisions of this subchapter.

“(2) Notwithstanding any other provision of law, the Director of the Federal Bureau of Investigation may authorize an individual employed by the Bureau to participate in a leave bank program administered by the Department of Justice under this subchapter if in the Director’s judgment such participation will not adversely affect the protection of intelligence sources and methods.”.

#### SEC. 433. ACCOUNTS AND TRANSFER AUTHORITY FOR APPROPRIATIONS AND OTHER AMOUNTS FOR INTELLIGENCE ELEMENTS OF THE DEPARTMENT OF DEFENSE.

(a) IN GENERAL.—Chapter 21 of title 10, United States Code, is amended by inserting after section 428 the following new section:

#### “§ 429. Appropriations for Defense intelligence elements: accounts for transfers; transfer authority

“(a) ACCOUNTS FOR APPROPRIATIONS FOR DEFENSE INTELLIGENCE ELEMENTS.—The Secretary of Defense may transfer appropriations of the Department of Defense which are available for the activities of Defense intelligence elements to an account or accounts established for receipt of such transfers. Each such account may also receive transfers from the Director of National Intelligence if made pursuant to Section 102A of the National Security Act of 1947 (50 U.S.C. 403-1), and transfers and reimbursements arising from transactions, as authorized by law, between a Defense intelligence element and another entity. Appropriation balances in each such account may be transferred back to the account or accounts from which such appropriations originated as appropriation refunds.

“(b) RECORDATION OF TRANSFERS.—Transfers made pursuant to subsection (a) shall be recorded as expenditure transfers.

“(c) AVAILABILITY OF FUNDS.—Funds transferred pursuant to subsection (a) shall remain available for the same time period and for the same purpose as the appropriation from which transferred, and shall remain subject to the same limitations provided in the act making the appropriation.

“(d) OBLIGATION AND EXPENDITURE OF FUNDS.—Unless otherwise specifically authorized by law, funds transferred pursuant to subsection (a) shall only be obligated and expended in accordance with chapter 15 of title 31 and all other applicable provisions of law.

“(e) DEFENSE INTELLIGENCE ELEMENT DEFINED.—In this section, the term ‘Defense intelligence element’ means any of the Department of Defense agencies, offices, and elements included within the definition of ‘intelligence community’ under section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4)).”

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter I of such chapter is amended by adding at the end the following new item:

“429. Appropriations for Defense intelligence elements: accounts for transfers; transfer authority.”.

#### SEC. 434. REPORT ON TRAINING STANDARDS OF DEFENSE INTELLIGENCE WORKFORCE.

(a) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Director of National Intelligence and the Under Secretary of Defense for Intelligence shall submit to the Permanent Select Committee on Intelligence and the Committee on Armed Services of the House of Representatives and the Select Committee on Intelligence and the Committee on Armed Services of the Senate a report on the training standards of the defense intelligence workforce. Such report shall include—

(1) a description of existing training, education, and professional development standards applied to personnel of defense intelligence components; and

(2) an assessment of the ability to implement a certification program for personnel of the defense intelligence components based on achievement of required training, education, and professional development standards.

(b) DEFINITIONS.—In this section:

(1) DEFENSE INTELLIGENCE COMPONENTS.—The term “defense intelligence components” means—

(A) the National Security Agency;

(B) the Defense Intelligence Agency;

(C) the National Geospatial-Intelligence Agency;

(D) the National Reconnaissance Office;

(E) the intelligence elements of the Army, the Navy, the Air Force, and the Marine Corps; and

(F) other offices within the Department of Defense for the collection of specialized national intelligence through reconnaissance programs.

(2) DEFENSE INTELLIGENCE WORKFORCE.—The term “defense intelligence workforce” means the personnel of the defense intelligence components.

#### TITLE V—OTHER MATTERS

##### SEC. 501. REPORT ON AIRSPACE RESTRICTIONS FOR USE OF UNMANNED AERIAL VEHICLES ALONG THE BORDER OF THE UNITED STATES AND MEXICO.

Not later than 90 days after the date of the enactment of this Act, the Secretary of Homeland Security shall submit to the congressional intelligence committees, the Committee on Homeland Security of the House of Representatives, and the Committee on Homeland Security and Governmental Affairs of the Senate a report on whether restrictions on the use of airspace are hampering the use of unmanned aerial vehicles by the Department of Homeland Security along the international border between the United States and Mexico.

##### SEC. 502. SENSE OF CONGRESS REGARDING INTEGRATION OF FUSION CENTERS.

It is the sense of Congress that ten years after the terrorist attacks upon the United States on September 11, 2001, the Secretary of Homeland Security, in consultation with

the Director of National Intelligence, should continue to integrate and utilize fusion centers to enlist all of the intelligence, law enforcement, and homeland security capabilities of the United States in a manner that is consistent with the Constitution to prevent acts of terrorism against the United States.

##### SEC. 503. STRATEGY TO COUNTER IMPROVISED EXPLOSIVE DEVICES.

(a) STRATEGY.—

(1) ESTABLISHMENT.—The Director of National Intelligence and the Secretary of Defense shall establish a coordinated strategy utilizing all available personnel and assets for intelligence collection and analysis to identify and counter network activity and operations in Pakistan and Afghanistan relating to the development and use of improvised explosive devices.

(2) CONTENTS.—The strategy established under paragraph (1) shall identify—

(A) the networks that design improvised explosive devices, provide training on improvised explosive device assembly and employment, and smuggle improvised explosive device components into Afghanistan;

(B) the persons and organizations not directly affiliated with insurgents in Afghanistan who knowingly enable the movement of commercial products and material used in improvised explosive device construction from factories and vendors in Pakistan into Afghanistan;

(C) the financiers, financial networks, institutions, and funding streams that provide resources to the insurgency in Afghanistan; and

(D) the links to military, intelligence services, and government officials who are complicit in allowing the insurgent networks in Afghanistan to operate.

(b) REPORT AND IMPLEMENTATION.—Not later than 120 days after the date of the enactment of this Act, the Director of National Intelligence and the Secretary of Defense shall—

(1) submit to the congressional intelligence committees and the Committees on Armed Services of the House of Representatives and the Senate a report containing the strategy established under subsection (a); and

(2) implement such strategy.

##### SEC. 504. SENSE OF CONGRESS REGARDING THE PRIORITY OF RAILWAY TRANSPORTATION SECURITY.

It is the sense of Congress that—

(1) the nation's railway transportation (including subway transit) network is broad and technically complex, requiring robust communication between private sector stakeholders and the intelligence community to identify, monitor, and respond to threats;

(2) the Department of Homeland Security Office of Intelligence and Analysis maintains a constructive relationship with other Federal agencies, state and local governments, and private entities to safeguard our railways; and

(3) railway transportation security (including subway transit security) should continue to be prioritized in the critical infrastructure threat assessment developed by the Office of Intelligence and Analysis and included in threat assessment budgets of the intelligence community.

##### SEC. 505. TECHNICAL AMENDMENTS TO THE NATIONAL SECURITY ACT OF 1947.

The National Security Act of 1947 (50 U.S.C. 401 et seq.) is amended—

(1) in section 3(6) (50 U.S.C. 401a(6)), by striking “Director of Central Intelligence” and inserting “Director of National Intelligence”;

(2) in section 506(b) (50 U.S.C. 415a(b)), by striking “Director of Central Intelligence.” and inserting “Director of National Intelligence.”; and

(3) in section 506A(c)(2)(C) (50 U.S.C. 415a-1(c)(2)(C)), by striking “National Foreign Intelligence Program” both places that term appears and inserting “National Intelligence Program”.

##### SEC. 506. TECHNICAL AMENDMENTS TO TITLE 18, UNITED STATES CODE.

Section 351(a) of title 18, United States Code, is amended—

(1) by inserting “the Director (or a person nominated to be Director during the pendency of such nomination) or Principal Deputy Director of National Intelligence,” after “in such department.”; and

(2) by striking “Central Intelligence,” and inserting “the Central Intelligence Agency.”.

##### SEC. 507. BUDGETARY EFFECTS.

The budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this Act, submitted for printing in the Congressional Record by the Chairman of the Senate Budget Committee, provided that such statement has been submitted prior to the vote on passage.

#### AUTHORITY FOR COMMITTEES TO MEET

##### COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on December 14, 2011, at 10 a.m. in room SR-253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on December 14, 2011.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON FINANCE

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on December 14, 2011, at 9:45 a.m., in room 215 of the Dirksen Senate Office Building, to conduct a hearing entitled “Alternative Energy Tax Incentives: The Effect of Short-Term Extensions on Alternative Technology Investment, Domestic Manufacturing, and Jobs.”

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON FOREIGN RELATIONS

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on December 14, 2011, at 10 a.m., to hold a European Affairs subcommittee hearing entitled, “The State of Human

Rights and the Rule of Law in Russia: U.S. Policy Options.”

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR,  
AND PENSIONS

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet during the session of the Senate on December 14, 2011, at 10 a.m., in room SD-430 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND  
GOVERNMENTAL AFFAIRS

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on December 14, 2011, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. REED. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on December 14, 2011, at 10 a.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled “Oversight of the Federal Bureau of Investigation.”

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SECURITIES, INSURANCE, AND  
INVESTMENT

Mr. REED. Mr. President, I ask unanimous consent that the Committee on Securities, Insurance, and Investment be authorized to meet during the session of the Senate on December 14, 2011, at 9:30 a.m., to conduct a hearing entitled “Examining Investor Risks in Capital Raising.”

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. BARRASSO. Mr. President, I ask unanimous consent that Clay Robbins, who is an intern serving in the office of Senator MERKLEY, the Presiding Officer, have the privilege of the floor for the remainder of the day.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FRANKEN. Mr. President, I ask unanimous consent that my legislative fellows, Erin Boyd and Sharon Hessney, be given the privileges of the floor for the duration of today’s session.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed

to executive session to consider the following nominations: Calendar Nos. 380, 411, 458, and 459; that the nominations be confirmed en bloc; the motions to reconsider be considered made and laid upon the table, with no intervening action or debate; that no further motions be in order to any of the nominations; that any related statements be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed are as follows:

IN THE NAVY

The following named officers for appointment in the United States Navy to the grade indicated under title 10, U.S.C., section 624:

To be rear admiral

Rear Adm. (1h) Barry L. Bruner  
Rear Adm. (1h) Jerry K. Burroughs  
Rear Adm. (1h) James D. Cloyd  
Rear Adm. (1h) Michael T. Franken  
Rear Adm. (1h) Bradley R. Gehrke  
Rear Adm. (1h) Robert P. Girrier  
Rear Adm. (1h) Paul A. Grosklags  
Rear Adm. (1h) Sinclair M. Harris  
Rear Adm. (1h) Margaret D. Klein  
Rear Adm. (1h) Richard B. Landolt  
Rear Adm. (1h) Brian L. Losey  
Rear Adm. (1h) William F. Moran  
Rear Adm. (1h) Troy M. Shoemaker  
Rear Adm. (1h) Dixon R. Smith  
Rear Adm. (1h) Robert L. Thomas, Jr.

IN THE COAST GUARD

The following named officer for appointment to serve as the Director of the Coast Guard Reserve pursuant to title 14, U.S.C., section 53 in the grade indicated:

To be rear admiral (lower half)

RDML David R. Callahan

IN THE COAST GUARD

The following named officer for appointment in the United States Coast Guard Reserve to the grade indicated under title 10, U.S.C., section 12203:

To be rear admiral (lower half)

Capt. Kurt B. Hinrichs

The following named officers for appointment in the United States Coast Guard to the grade indicated under title 14, U.S.C., section 271:

To be rear admiral (lower half)

Captain Mark E. Butt  
Captain Linda L. Fagan  
Captain Thomas W. Jones  
Captain Steven D. Poulin  
Captain James E. Rendon  
Captain Joseph A. Servidio

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will resume legislative session.

UNANIMOUS CONSENT

AGREEMENT—CALENDAR NO. 337

Mr. REID. Mr. President, I ask unanimous consent that following morning business tomorrow morning, Thursday, December 15, the Senate proceed to executive session to consider Calendar

No. 337; that there be 30 minutes for debate, equally divided in the usual form; that upon the use or yielding back of time, the Senate resume legislative session, and at a time to be determined by the majority leader, in consultation with the Republican leader, the Senate return to executive session, resume consideration of the nomination, and there be an additional 2 minutes for debate, equally divided in the usual form prior to a vote on Calendar No. 337; that the motion to reconsider be considered made and laid upon the table, with no intervening action or debate; that no further motions be in order to the nomination; that any statements related to the nomination be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. As the Chair knows, Calendar No. 337 is Morgan Christen of Alaska.

REAUTHORIZING THE BELARUS  
DEMOCRACY ACT OF 2004

Mr. REID. Mr. President, I ask unanimous consent that the Foreign Relations Committee be discharged from further consideration of H.R. 515 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The bill clerk read as follows:

A bill (H.R. 515) to reauthorize the Belarus Democracy Act of 2004.

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 1462

Mr. REID. Mr. President, I ask unanimous consent that the Kerry amendment No. 1462 be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 1462) was agreed to, as follows:

On page 6, line 19, strike “and” and insert “expanded its visa ban list, imposed additional financial sanctions on certain state-owned enterprises, and initiated preparations to freeze the assets of several individuals in Belarus. The”.

On page 10, line 9, strike “continue to”.

The PRESIDING OFFICER. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read the third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

The bill (H.R. 515), as amended, was passed, as follows:

H.R. 515

Resolved, That the bill from the House of Representatives (H.R. 515) entitled “An Act

to reauthorize the Belarus Democracy Act of 2004.”, do pass with the following amendments:

**[1]**On page 6, line 19, strike “and” and insert “expanded its visa ban list, imposed additional financial sanctions on certain state-owned enterprises, and initiated preparations to freeze the assets of several individuals in Belarus. The”.

**[2]**On page 10, line 9, strike “continue to”.

Mr. REID. Mr. President, I ask unanimous consent that the motion to reconsider be laid upon the table, with no intervening action or debate, and that any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2012

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to Calendar No. 161.

The PRESIDING OFFICER. The clerk will report the bill by title.

The bill clerk read as follows:

A bill (H.R. 1892) to authorize appropriations for fiscal year 2012 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mrs. FEINSTEIN. Mr. President, I am very pleased to rise today in support of the Senate’s passage of the Intelligence Authorization Act of Fiscal Year 2012. I understand that the House of Representatives intends to consider this legislation on the suspension calendar later this week, so it should be enacted prior to the end of this session.

This will be the third time in less than 15 months that the Congress will enact an intelligence authorization bill—including bills for fiscal years 2010, 2011, and 2012—after a 6 year hiatus in passing such legislation. What this means is that Congress, through the Senate and House Intelligence Committees, is restoring oversight over the intelligence community and fulfilling our responsibility to thoroughly examine intelligence policies and budgets.

Unlike the last two authorization bills, this bill was completed contemporaneously with, instead of after, the appropriations process that funds intelligence efforts. The classified annex to this legislation authorizes appropriations for intelligence activities and has helped guide the work of the appropriations committees as they considered intelligence spending. The days when the intelligence community can bypass the intelligence committees and deal solely with the appropriations committees are over.

Since receiving the President’s budget request for the intelligence community in February, the Intelligence Com-

mittee has recognized that the massive increase in intelligence spending over the past decade has come to an end. Our original bill, reported to the Senate in August of this year, reduced intelligence spending below the President’s request. Since then, we have worked closely with the House Intelligence Committee, the Senate Appropriations Committee, and the executive branch to reflect the spending reductions set in the Budget Control Act of 2011. The legislation we are approving today keeps funding for intelligence essentially flat from fiscal year 2011, representing a meaningful reduction from the President’s request.

As we look to 2013, many more difficult decisions will need to be made to make further reductions to intelligence spending. It is my belief that real reductions in intelligence spending can be accomplished without sacrificing capability, but this will require a rigorous review and the executive branch being more forthcoming than it has been to date about where it believes cuts are possible.

Of course, the bill also provides significant legislative provisions to give the intelligence community the authorities and flexibilities it needs to continue protecting our national security and providing policymakers the information they need to make foreign policy and security decisions; and other provisions for the effective and appropriate functioning of our intelligence apparatus.

I note that passage of the last intelligence authorization bill occurred shortly after the strike leading to the death of Usama bin Laden in Abbottabad, Pakistan. Since then, the intelligence community has had continued success in tracking and removing terrorist threats to the United States. Senior leaders and commanders of al-Qaida, including all of its affiliate groups as well as militant organizations involved in the Afghan war, have been removed from the fight, and terrorist plots and plotting have been disrupted. Among them, a plot to kill the Saudi Ambassador to the United States was thwarted due to the skillful and cooperative efforts of the FBI, DEA, CIA, and others.

Intelligence has factored into significant policy decisions and U.S. actions, including with respect to interdicting the proliferation of weapons, setting economic sanctions, protecting ISAF forces in Afghanistan, blocking cyber attacks against our government and certain critical infrastructure companies, and contributing to the NATO effort in Libya.

It is my hope that the provisions in this bill will continue to aid the intelligence community as it conducts its missions; ensure better stewardship of taxpayer dollars; and support its thousands of civilians and military employ-

Among other things, this bill includes: A section that provides for burial allowances for intelligence employees killed in the line of duty, similar to those for members of the U.S. military; New procurement authorities that enable intelligence agencies to protect against supply chain risk to information technologies; a measure authorizing new accounts at the Department of Treasury that will enable defense intelligence agencies to become financially auditable; Provisions that strengthen congressional oversight of the transfer of detainees from Guantanamo Bay; a section that will improve the accuracy of intelligence community cost estimates; and Provisions that provide the Director of National Intelligence with needed personnel management authorities.

As I noted, the bill contains a 275-page classified schedule and annex that authorizes intelligence funding and implements the committee’s oversight findings over the past year. That annex is available to all Senators in the intelligence committee’s offices.

Mr. President, let me note my sincere appreciation for the close collaboration of Senator CHAMBLISS, the vice chairman of the committee, throughout the legislative process. He and his staff—in particular Martha Scott Poindexter and Jacqueline Russell—have continued the bipartisan approach that the committee followed in the last Congress, and we have together agreed to every provision in the bill.

As can be imagined, it has taken enormous effort to produce a third bill in such a short time frame. I sincerely thank the efforts of the staff to review the President’s requested funding levels and legislative provisions, to draft legislation, and to negotiate a final product. In particular, I thank Lorenzo Goco, the Deputy Staff Director who has overseen the legislative efforts, Michael Davidson, the general counsel of the Senate Intelligence Committee until this past Labor Day, and Christine Healey, who has carried the load of the legislative work throughout and who replaced Mr. Davidson as general counsel. I also extend my appreciation for the work of Eric Losick and Mike Buchwald, majority counsel on the Committee, and Jack Livingston and Kathleen Rice, the minority counsel.

Similarly, the Committee’s budget staff has worked diligently and expertly in their preparation of the classified annex to this bill and in working with intelligence agencies to understand and guide their efforts. I thank the committee’s budget director, Peggy Evans, and the budget staff through this period: Hayden Milberg, Randy Bookout, Andrew Kerr, John Dickas, Paul Matulic, Matt Pollard, Amy Hopkins, Jamal Ware, Iram Ali, Jeffrey Howard, Andy Grotto, Jim Smythers, Brian Miller, Eric Chapman, John Maguire, Tyler Stephens, Evan

Gottesman, Brian Walsh, Ryan Tully, and Christian Cook.

I also appreciate the work and relationship with Chairman ROGERS and Ranking Member RUPPERSBERGER of the House Permanent Select Committee on Intelligence. The version of the legislation approved today builds on the House legislation, and our two committees have consulted closely throughout this process. We held a joint open hearing on the tenth anniversary of the September 11, 2001, attacks and I look forward to continuing to work together next year to enact the fiscal year 2013 intelligence authorization bill.

Let me also note my appreciation for two other Senate committees. The Senate Appropriations Subcommittee on Defense has closely followed our authorizations as it drafted its appropriations bill. This underscores the work done in our bill, and limits to a minimum the cases where the authorization and appropriations levels do not match.

We have also worked over the past week with the Senate Armed Services Committee to include language in the classified annex to this bill concerning the Military Intelligence Program and a military construction program authorized for the National Security Agency. The Armed Services Committee and the Intelligence Committee both exercise jurisdiction over military construction projects with intelligence funding; in this instance, the two committees have both included authorizations for the High Performance Computing Center II, and have jointly agreed to the language included in this annex.

Finally, Mr. President, I note that while there is no committee report or conference report associated with the text that we are approving today, the Intelligence Committee issued a report to accompany the bill it reported to the Senate in August. As the legislation has changed since House passage of its authorization bill and consideration today of this amendment, I ask unanimous consent to have printed in the RECORD a section-by-section analysis of the legislation so as to provide for the legislative history needed to explain the authors' intent and better clarify the effects of the provisions included.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

For purposes of the legislative history of the Intelligence Authorization Act for Fiscal Year 2012, the Managers Amendment we will pass today is an amendment in the nature of a substitute to H.R. 1892. In large measure, the legislative text of H.R. 1892 and this Managers Amendment follows the legislative text of S. 1458, reported from the Select Committee on Intelligence on August 1, 2011, Report No. 112-43. The Managers Amendment also includes a classified Schedule of Authorizations and annex; this is a modified version

of the classified Schedule and annex that were passed by the House of Representatives. They have been made available to the Executive Branch and appropriate congressional committees. The report language in the annex should be understood to represent congressional intent where reference is made to the Committee.

#### SECTION-BY-SECTION ANALYSIS AND EXPLANATION

##### TITLE I—BUDGET AND PERSONNEL AUTHORIZATIONS

###### *Section 101. Authorization of appropriations*

Section 101 lists the United States Government departments, agencies, and other elements for which the Act authorizes appropriations for intelligence and intelligence-related activities for Fiscal Year 2012.

###### *Section 102. Classified Schedule of Authorizations*

Section 102(a) provides that the details of the amounts authorized to be appropriated for intelligence and intelligence-related activities and the applicable personnel levels for Fiscal Year 2012 are contained in the classified Schedule of Authorizations and that the classified Schedule of Authorizations shall be made available to the Committees on Appropriations of the Senate and House of Representatives and to the President. Section 102(b) provides that the President shall not publicly disclose the classified Schedule except as provided in Section 601(a) of the Implementing Recommendations of the 9/11 Commission Act of 2007; to the extent necessary to implement the budget; or as otherwise required by law. Section 102(c) authorizes the Director of the Federal Bureau of Investigation (FBI) to expend funds authorized in the Act for a purpose further described in the classified annex.

###### *Section 103. Personnel Ceiling Adjustments*

Section 103 is intended to provide additional flexibility to the Director of National Intelligence (DNI) in managing the civilian personnel of the Intelligence Community. Section 103(a) provides that the DNI may authorize employment of civilian personnel (expressed as full-time equivalent positions) in Fiscal Year 2012 in excess of the number of authorized full-time equivalent positions by an amount not exceeding 3 percent of the total limit applicable to each IC element under Section 102. The DNI may do so only if necessary to the performance of important intelligence functions.

Section 103(b) provides additional flexibility when the heads of Intelligence Community elements determine that work currently performed by contract personnel should be performed by government employees. It does so by authorizing the DNI to authorize employment of additional full-time equivalent personnel in a number equal to the number of full-time equivalent contract personnel currently performing that work. Under this section, any exercise of this authority should be implemented in accordance with a plan that includes adequate support for personnel. It is intended that the exercise of this authority should result in an actual reduction of the number of contract personnel and not a shift of resources to hire other contract personnel.

The DNI must report the decision to allow an Intelligence Community element to exceed the personnel ceiling or to convert contract personnel under Section 103(a) and (b) in advance to the congressional intelligence committees.

During consideration of the Fiscal Year 2008 request, the congressional intelligence

committees learned that practices within different elements of the Intelligence Community on the counting of personnel with respect to legislatively-fixed ceilings were inconsistent, and included not counting certain personnel at all against personnel ceilings. The committees requested that the Intelligence Community Chief Human Capital Officer ensure that by the beginning of Fiscal Year 2010 there would be a uniform and accurate method of counting all Intelligence Community employees under a system of personnel levels expressed as full-time equivalents. The committees also expressed their view that the DNI express the personnel levels for civilian employees of the Intelligence Community as full-time equivalent positions in the congressional budget justifications for Fiscal Year 2010. The DNI has done so. In addition, the DNI has issued a policy to ensure a uniform method for counting Intelligence Community employees. Subsection (c) confirms in statute the obligation of the DNI to establish these guidelines.

###### *Section 104. Intelligence Community Management Account*

Section 104 authorizes appropriations for the Intelligence Community Management Account (ICMA) of the DNI and sets the authorized full-time equivalent personnel levels for the elements within the ICMA for Fiscal Year 2012.

Subsection (a) authorizes appropriations of \$576,393,000 for Fiscal Year 2012 for the activities of the ICMA. Subsection (b) authorizes 777 full-time or full-time equivalent personnel for elements within the ICMA for Fiscal Year 2012 and provides that such personnel may be permanent employees of the Office of the Director of National Intelligence (ODNI) or detailed from other elements of the United States Government.

Subsection (c) authorizes additional appropriations and full-time equivalent personnel for the classified Community Management Account as specified in the classified Schedule of Authorizations and permits the funding for advanced research and development to remain available through September 30, 2013.

##### TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

###### *Section 201. Authorization of appropriations*

Section 201 authorizes appropriations in the amount of \$514,000,000 for Fiscal Year 2012 for the Central Intelligence Agency (CIA) Retirement and Disability Fund. For Fiscal Year 2011, Congress authorized \$292,000,000. While that level was consistent with prior authorizations, it did not fully fund, as prior authorizations had not fully funded, the obligations of the Fund. The Fiscal Year 2012 increase is based on the Administration's determination, which the congressional intelligence committees support, that the obligations of this retirement and disability system should be fully funded.

##### TITLE III—GENERAL INTELLIGENCE COMMUNITY MATTERS

###### *Section 301. Increase in employee compensation and benefits authorized by law*

Section 301 provides that funds authorized to be appropriated by this Act for salary, pay, retirement, and other benefits for federal employees may be increased by such additional or supplemental amounts as may be necessary for increases in compensation or benefits authorized by law.

###### *Section 302. Restriction on conduct of intelligence activities*

Section 302 provides that the authorization of appropriations by the Act shall not be

deemed to constitute authority for the conduct of any intelligence activity that is not otherwise authorized by the Constitution or laws of the United States.

*Section 303. Annual report on hiring of National Security Education Program participants*

Section 303 requires a report not later than 90 days after the end of the fiscal years 2012, 2013, and 2014, by the head of each element of the Intelligence Community on the number of personnel hired by such element during such fiscal year who were at any time recipients of a grant or scholarship under the David L. Boren National Security Education Act of 1991 (50 USC 1901 et seq.). The report may be in classified form.

*Section 304. Enhancement of authority for flexible personnel management among the elements of the intelligence community*

Section 304 adds a subsection to Section 102A of the National Security Act of 1947 to promote the ability to manage all the elements of the Intelligence Community as a single cohesive community. The new Subsection 102A(v) enables the DNI, with the concurrence of the head of the covered department concerned and in coordination with the Director of the Office of Personnel Management (OPM), to convert competitive service positions within an Intelligence Community element of the covered department to excepted positions and to establish new positions in the excepted service within an Intelligence Community element of a covered department. Under Section 304, an incumbent occupying a position on the date of enactment selected to be converted to the excepted service shall have the right to refuse the conversion. Once such individual no longer occupies the position, the position may be converted.

Because of their unique intelligence, investigative and national security missions, most Intelligence Community elements are in the excepted civil service. However, civilian employees in several smaller Intelligence Community elements are still covered under competitive service rules. The ability to convert those positions to the excepted service will enable the Intelligence Community to maintain a system throughout the Intelligence Community that is responsive to the needs of the Intelligence Community both for secrecy and the ability to quickly respond to personnel requirements. The DNI has requested a similar authority in the past. Under Section 304, the covered departments are the Department of Energy, the Department of Homeland Security, the Department of State, and the Department of the Treasury.

Although new positions in the excepted service may be created within an element of the Intelligence Community within the covered departments under this authority, the personnel ceilings referred to in Section 102(a) still apply to the number of personnel in an element. It is not intended for this conversion authority to be used to increase the number of full-time equivalent personnel in an intelligence element above the applicable personnel ceilings.

*Section 305. Preparation of nuclear proliferation assessment statements*

As set forth in the Atomic Energy Act, the United States may enter into a Civilian Nuclear Agreement (or "123 Agreement") with another nation or multinational organization. After negotiating the terms of the 123 Agreement, the Administration submits the terms to Congress for review along with a Nuclear Proliferation Assessment Statement (NPAS). Under current law, the NPAS is

drafted by the State Department, in consultation with the Director of Central Intelligence; the Act has not been amended to reflect the establishment of the Director of National Intelligence. In multiple reports, the Government Accountability Office has identified various problems with this process, including insufficient time for consultation with the Intelligence Community, a lack of adequate formal interagency guidance for NPAS development, and ambiguity as to whether Intelligence Community comments were fully incorporated into the final NPAS. Section 305 is a modification of Section 305 of S. 1458 as reported from the Senate Intelligence Committee and is intended to clarify the role of the DNI and the Intelligence Community in the NPAS process.

Section 305 amends the National Security Act of 1947 to require the DNI, in consultation with the heads of the appropriate elements of the Intelligence Community and the Secretary of State, to provide an addendum to each NPAS accompanying a civilian nuclear cooperation agreement, containing a comprehensive analysis of the country's export control system with respect to nuclear-related matters. The DNI is to provide the addendum to the President, the congressional intelligence committees and the congressional foreign relations committees.

*Section 306. Cost estimates*

Section 306 amends Section 506A of the National Security Act of 1947 to require that independent cost estimates include all costs associated with a major system acquisition even when a service or capability to deliver end-to-end functionality will be provided by another Intelligence Community agency or element. This additional requirement in the preparation of the independent cost estimate will assist Congress and the Executive Branch in evaluating the full cost of an acquisition, including the costs to process, exploit, disseminate, and store the information such major systems collect. The amendments made by Section 306 become effective 180 days after enactment.

*Section 307. Updates of intelligence relating to terrorism recidivism of detainees held at United States Naval Station, Guantanamo Bay, Cuba*

Section 307 provides for a regular unclassified summary of intelligence relating to recidivism of detainees formerly held at Guantanamo Bay to be made public by the DNI. Section 334 of the Intelligence Authorization Act for Fiscal Year 2010, Public Law 111-259, required the DNI, along with the Director of the CIA and the Director of the Defense Intelligence Agency, to make publicly available, on a one-time basis, an unclassified summary that includes the intelligence relating to former Guantanamo detainees. Under Section 319 of the Supplemental Appropriations Act of 2009, Public Law 111-32, the President is required to submit classified quarterly reports to Congress that include classified information about detainees' recidivist activities.

Section 307 amends the National Security Act of 1947 to require the semiannual updating of the Section 334 report, which is to include an unclassified summary of intelligence relating to recidivism of detainees currently or formerly held at Guantanamo Bay and an assessment of the likelihood that such detainees will engage in terrorism or communicate with persons in terrorist organizations. The initial update shall be made publicly available not later than 10 days after the date that the first report following enactment is submitted to members and

committees pursuant to Section 319 of the Supplemental Appropriations Act, 2009. The summary will be prepared by the DNI, in consultation with the Director of the CIA and the Director of the Defense Intelligence Agency, and will include the number of confirmed or suspected recidivists.

*Section 308. Notification of transfer of a detainee held at United States Naval Station, Guantanamo Bay, Cuba*

Section 308 requires the President to submit to Congress, in classified form, at least 30 days prior to the transfer or release of an individual detained at Naval Station, Guantanamo Bay, Cuba, as of June 24, 2009, the following information: (1) the name of the individual to be transferred or released; (2) the country or freely associated state to which the individual is to be transferred; (3) the terms of any agreement with the country or state for the acceptance of such individual, including the amount of any financial assistance related to such agreement; and (4) the agencies or departments of the United States responsible for ensuring the agreement is carried out.

Section 308 is a modification of Section 306 of S. 1458, which amended similar notification requirements found in Public Law 111-83, 123 Stat. 2178, and Public Law 111-88, 123 Stat. 2963. Section 308 requires the notification be at least 30 days, rather than 15 days, prior to transfer and requires information be provided concerning what agencies or departments of the United States, if any, are responsible for ensuring any agreement with the receiving country or state is carried out. Nothing in this section is to be construed to supersede or otherwise affect Section 1028 of the National Defense Authorization Act for Fiscal Year 2012 or Section 8120 of the Department of Defense Appropriations Act, 2012.

*Section 309. Enhanced procurement authority to manage supply chain risk*

Section 309 authorizes the heads of those elements of the Intelligence Community outside the Department of Defense to take certain procurement actions under certain circumstances to reduce the risk that an adversary may sabotage, maliciously introduce unwanted functions, or otherwise subvert information systems so as to surveil, deny, disrupt or otherwise degrade them. Section 309 is based on Section 806 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

Section 309(a) defines the following terms: covered agency, covered item of supply, covered procurement, covered procurement action, covered system, and supply chain risk. The definitions of these terms are modifications of the definitions of these terms as found in Section 309 of S. 1458, to include specific references to appropriate provisions of existing law.

Under subsection (b), the head of a covered agency, in consultation with the DNI, is authorized to carry out a covered procurement action and limit the disclosure of information concerning the basis for such action. Covered procurement actions are subject to the conditions in subsection (c), including appropriate consultation with procurement officials within the covered agency and a determination made in writing that the use of the authority is necessary to protect national security. In addition, there must be a determination that less intrusive measures are not reasonably available. Where the head of the covered agency plans to limit disclosure of information relating to the basis for carrying out a covered procurement action,

the risk to national security due to disclosing such information must outweigh the risk of not disclosing such information.

The head of the covered agency must give notice to the congressional intelligence committees of a determination to exercise this authority. Subsection (d) limits delegation of the authority to take a covered procurement action to no lower than the level of the service acquisition executive for the agency concerned. Subsection (e) provides that the authority under the section is in addition to any other authority under any other provision of law. The authority provided in Section 309 is not intended to alter or effect the exercise of any other provision of law, including other procurement authorities available to an intelligence agency head to protect the national security.

The requirements of Section 309 take effect 180 days after enactment and expire on the date that Section 806 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 expires, which will occur in January 2014.

#### *Section 310. Burial allowances*

Section 310 authorizes the head of a department or agency that contains an element of the Intelligence Community to pay a burial allowance to the estate of a civilian officer or employee of such department or agency who dies as the result of hostile or terrorist activities or intelligence activities having a substantial element of risk. The burial allowance is to reimburse the estate for burial expenses, including recovery, mortuary, funeral, or memorial service, cremation, burial costs, and costs of transportation. The amount of the burial allowance is not to be greater than the maximum reimbursable amount available to the uniformed services under Department of Defense Instruction 1344.08 or its successor, now set at \$8,800, plus actual transportation costs, and is in addition to any other benefit permitted under any other provision of law, including funds that may be expended as specified in the General Provisions of the classified annex accompanying this Act.

In addition, Section 310 requires the Director of the OPM, in consultation with the DNI and the Secretaries of Labor and Defense, to submit a report to Congress no later than 180 days after enactment on the feasibility of implementing legislation to provide for burial allowances at a level that adequately addresses the cost of burial expenses and provides for equitable treatment when any officer or employee of the federal government dies as the result of an injury sustained in the performance of official duties.

#### *Section 311. Modification of certain reporting requirements*

The Congress frequently requests information from the Intelligence Community in the form of reports, the contents of which are specifically defined by statute. The reports prepared pursuant to these statutory requirements provide Congress with an invaluable source of information about specific matters of concern.

Congressional reporting requirements, and particularly recurring reporting requirements, however, can place a significant burden on the resources of the Intelligence Community. The congressional intelligence committees are therefore reconsidering these reporting requirements on a periodic basis to ensure that the reports that have been requested are the best mechanism for the Congress to receive the information it seeks. In some cases, annual reports can be replaced with briefings or notifications that provide

the Congress with more timely information and offer the Intelligence Community a direct line of communication to respond to congressional concerns.

In response to a request from the DNI, the congressional intelligence committees examined a set of recurring reporting requirements nominated by the Intelligence Community. Because the majority of recurring reports provide critical information relevant to challenges facing the Intelligence Community today, Section 311 eliminates or modifies only four statutory reporting requirements, all from past intelligence authorization acts or the Intelligence Reform and Terrorism Prevention Act of 2004.

#### *Section 312. Review of strategic and competitive analysis conducted by the intelligence community*

Section 312 requires the DNI to direct the Director's Senior Advisory Group to conduct a comprehensive review of the strategic and competitive analysis of international terrorism and homegrown violent extremism conducted by elements of the Intelligence Community during the 12 month period following enactment. Within 15 months of enactment, the Director shall submit to the congressional intelligence committees a report on the results of the review and any actions taken by the Director to implement the recommendations, if any, of the Senior Advisory Group based on such results.

#### **TITLE IV—MATTERS RELATING TO ELEMENTS OF THE INTELLIGENCE COMMUNITY**

##### **Subtitle A—Office of the Director of National Intelligence**

#### *Section 401. Intelligence community assistance to counter drug trafficking organizations using public lands*

Section 401 requires the DNI to consult with the heads of the federal land management agencies on the appropriate actions the Intelligence Community can take to assist such agencies in responding to the threat from international drug trafficking organizations or other drug traffickers that are currently or have previously used public lands in the United States to further their operations. The DNI is to submit a report to the congressional intelligence and judiciary committees within 180 days of enactment on the results of this consultation.

#### *Section 402. Application of certain financial reporting requirements to the Office of the Director of National Intelligence*

Section 402 provides a limited grace period for the ODNI in meeting the requirements of 31 USC 3515 until Fiscal Year 2013. The DNI, in requesting this legislative provision, stated that the grace period will allow time for the implementation of system improvements as well as process changes in the financial management system currently supporting the ODNI. Together these efforts are intended to yield financial statements that meet the prescribed legal and audit standards.

Although the ODNI, under 31 USC 3515, is required to prepare and submit to the Congress and the Director of the Office of Management and Budget an audited financial statement for the preceding fiscal year by March 1st, Section 369 of the Intelligence Authorization Act for Fiscal Year 2010, enacted on October 7, 2010, directs the DNI "to develop a plan and schedule to achieve a full, unqualified audit of each element of the intelligence community not later than September 30, 2013." Section 402 will align the statutory requirement for auditability with the plan for achieving auditability set forth in the Fiscal Year 2010 Act.

#### *Section 403. Public availability of information regarding the Inspector General of the Intelligence Community*

Section 403 requires the DNI to establish and maintain on the publicly accessible ODNI website information relating to the Inspector General for the Intelligence Community including methods to contact the Inspector General. Section 403 is based on a similar requirement in Section 8L of the Inspector General Act, as added by the Inspector General Reform Act of 2008, 5 USC App., and is similar to Section 413, applicable to the CIA Inspector General. The information about the Inspector General is to be obvious and facilitate access to the Inspector General. Given that most of the Inspector General's reports will be classified, Section 403 does not require that Inspector General reports and audits be posted on the publicly accessible website.

#### *Section 404. Clarification of Status of Chief Information Officer in the Executive Schedule*

Section 404 amends 5 USC 5315 to establish the salary level of the Chief Information Officer of the Intelligence Community at Level IV of the Executive Schedule, the level of other chief information officers in the federal government with comparable duties and responsibilities. The Chief Information Officer of the Intelligence Community is a position established in Section 103G of the National Security Act, added by Section 303 of Public Law 108-487, the Intelligence Authorization Act for Fiscal Year 2005, and amended by Section 404 of Public Law 111-259, the Intelligence Authorization Act for Fiscal Year 2010.

#### *Section 405. Temporary appointment to fill vacancies within Office of the Director of National Intelligence*

Section 405 permits the President to make temporary appointments to fill vacancies in offices within the ODNI that require Senate confirmation (except the DNI, for whom by Section 103A(a)(6) of the National Security Act of 1947 the Principal Deputy DNI is next in line) with an individual who serves in another element of the Intelligence Community. A similar provision was requested by the DNI.

The Vacancies Act (5 USC 3345(a)(1)) provides that upon a vacancy in a Senate-confirmed position (1) the first assistant of the office may begin serving as the acting officer immediately and automatically upon the occurrence of the vacancy; (2) another officer who has already received Senate confirmation may be directed by the President to serve as the acting officer; and (3) certain other senior agency officials may be designated by the President to serve in an acting capacity. Given the relatively small size of the ODNI, the fact that a significant number of the personnel within the ODNI are on detail to the office from other elements of the Intelligence Community, and the fact that positions in the ODNI to which the Vacancies Act applies serve the entire Intelligence Community (such as the Director of the National Counterterrorism Center or the Inspector General for the Intelligence Community), an individual employed within the Intelligence Community but outside the ODNI may be best suited to fill a key leadership position temporarily.

Section 405 addresses this issue by expanding the President's choice for appointment under the third category of the Vacancies Act to include senior officials from any element of the Intelligence Community. Nothing in Section 401 modifies or precludes the utilization of sections 3345(a)(1) or (2) of title 5 to fill vacancies.

Subtitle B—Central Intelligence Agency

*Section 411. Acceptance of gifts*

Section 411 is a provision that arose out of the CIA's review of benefits available to the survivors of CIA employees killed in the line of duty following the December 2009 attack at Khowst, Afghanistan. The CIA concluded that the Director of the CIA did not have the authority under Section 12 of the CIA Act to accept and use gifts for purposes related to the welfare, education and recreation of those survivors. Under current law, the Director of the CIA may "accept, hold, administer, and use gifts of money, securities and other property whenever the Director determines it would be in the interest of the United States . . . for purposes relating to the general welfare, education, or recreation of employees or dependents of employees of the Agency or for similar purposes. . . ."

Section 411 amends Section 12 of the CIA Act to authorize the Director (or the Director's designee) both to accept gifts and to use them for the welfare of employees injured in the line of duty without legal concern whether those actions are for the general welfare of the CIA employee population as a whole. It also provides that gifts may be used for the assistance of the family of CIA officers who were injured or who died from hostile or terrorist activities or in connection with other intelligence activities having a substantial element of risk. Gifts for injured employees and their families or survivors are to be accepted by the CIA on behalf of the CIA employees concerned, and not directly by such employees or their family members. The Director is authorized to assign the gifts accepted under the new authority provided by this section to the CIA officers and their surviving family members.

Section 411 provides that any exercise of authority under Section 12, including the acceptance of gifts to provide for the general welfare, education, or recreation of the CIA employee population as a whole, shall be made according to regulations developed by the Director of the CIA in consultation with the Director of the Office of Government Ethics, consistent with all relevant ethical constraints and principles.

*Section 412. Foreign language proficiency requirements for Central Intelligence Agency officers*

Section 412 makes amendments in Section 104A(g) of the National Security Act of 1947 which imposes foreign language requirements on certain personnel within the CIA. Section 412 is intended to tie the need for foreign language skills to officers in occupations where foreign language ability is most important, rather than to specific positions, within the Directorate of Intelligence career service or the National Clandestine Service career service. It is intended to eliminate the need for the Director of the CIA to approve waivers for the promotion, appointment, or transfer of personnel such as attorneys or human resources officers for whom the requirement is not intended to apply. Section 412 sets the language proficiency at the objective level of level 3 on the Interagency Language Roundtable Language Skills Level or a commensurate proficiency level.

Section 412 requires the Director of the CIA to provide a report within 45 days of enactment, and three subsequent annual reports, to the congressional intelligence committees on the number of personnel transferred to a Senior Intelligence Service position in the Directorate of Intelligence career service or the National Clandestine career

service who did not meet the foreign language requirements of Section 104A(g). Section 412 also makes technical corrections to delete outdated references to the Directorate of Operations.

*Section 413. Public availability of information regarding the Inspector General of the Central Intelligence Agency*

Section 413 requires the Director of the CIA to establish and maintain on the publicly accessible CIA website information relating to the CIA Inspector General including methods to contact the Inspector General. Section 413 is based on a similar requirement in the Inspector General Reform Act, 5 USC App. 8L, and is similar to Section 403. The information about the Inspector General is to be obvious and facilitate access to the Inspector General. Given that most of the Inspector General's reports will be classified, Section 413 does not require that Inspector General reports and audits be posted on the publicly accessible website. Section 413 is based upon a request of the CIA Inspector General.

*Section 414. Creating an official record of the Osama bin Laden operation*

Section 414 makes findings concerning the raid of May 1, 2011, that killed terrorist leader Osama bin Laden in his compound in Abbottabad, Pakistan. Section 414 includes a statement of the sense of Congress that the events that transpired before, during, and as a result of the raid be memorialized to allow the United States to have an accurate account of these events in the future. Section 414 requires the Director of the CIA to provide to the congressional intelligence committees the report being prepared by the Center for the Study of Intelligence that documents the history of and lessons learned from the raid not later than 90 days after its completion and to preserve any records, including intelligence information and assessments, used to generate this report.

*Section 415. Recruitment of personnel in the Office of the Inspector General*

Section 415 requires the Inspector General of the OPM, in consultation with the Inspector General of the CIA, to conduct a study of the personnel authorities and available personnel benefits of the Office of the Inspector General of the CIA. The study shall include identification of any barriers and disincentives to the recruitment or retention of experienced investigators within the Office of the Inspector General of the CIA. The study shall compare the personnel authorities of the CIA Inspector General with the personnel authorities of other federal Inspectors General, including a comparison of the benefits available to experienced investigators within the offices of other federal Inspectors General with those available to investigators within the Office of the CIA Inspector General. The OPM Inspector General is to submit the report to the congressional intelligence and homeland security committees not later than 120 days after enactment.

Subtitle C—National Security Agency

*Section 421. Additional authorities for National Security Agency security personnel*

Section 421 amends Section 11 of the National Security Agency Act of 1959 to authorize NSA security personnel to transport apprehended individuals from NSA premises to the custody of law enforcement officials. Under current law, when NSA security personnel apprehend an individual, they must wait with the individual until local law enforcement personnel arrive to complete the transfer of custody. This can require NSA

personnel to wait, frequently for hours, often with the apprehended individual in a security vehicle, for the transfer to local law enforcement. According to the DNI, from 2004 to 2009, on 448 occasions, the apprehension of an individual engaged NSA personnel and transportation resources for over 2 hours.

Section 421 provides a limited expansion of authority for NSA security personnel to transport apprehended individuals to the custody of local law enforcement within 30 miles of NSA premises. This authority is to be used sparingly by NSA security personnel under a well-established regime of administrative controls and management oversight, and only with prior consent from the accepting jurisdiction.

Subtitle D—Other Elements

*Section 431. Codification of Office of Intelligence and Analysis of the Department of Homeland Security as an element of the intelligence community*

Section 431 amends Section 3(4)(K) of the National Security Act of 1947 in order to include the Office of Intelligence and Analysis of the Department of Homeland Security within the term "intelligence community" for purposes of the Act. This provides for a more specific reference to the Office of Intelligence and Analysis, in addition to the intelligence element of the Coast Guard, that is part of the Intelligence Community, in the same manner as Congress has done in Section 3(4)(I) and (J) for the State and Treasury Department elements of the Intelligence Community.

*Section 432. Federal Bureau of Investigation participation in the Department of Justice leave bank*

Section 432 provides for participation of employees of the FBI in the Department of Justice's Voluntary Leave Bank Program. The Voluntary Leave Bank Program allows federal employees to donate to and to receive donations from a leave "bank" to cover absences necessitated by extraordinary medical conditions. Current law does not allow participation by FBI employees in the Department's program, although the FBI is part of the Department. While 5 USC 6372(c) would allow FBI to establish its own voluntary leave bank program, the Director of the FBI has determined that it would be more cost effective and efficient to allow FBI employees to participate in the larger Department of Justice program and has requested a legislative provision to accomplish this objective for the overall benefit of the Bureau and its personnel.

Under Section 432, the Director is to consider the protection of sources and methods in allowing for participation in the leave bank program. In providing for leave bank opportunities to cover absences necessitated by extraordinary medical conditions, it is intended that the Director consider any impact on operations of the Bureau when making a decision on whether to allow FBI employees to take part in the program.

*Section 433. Accounts and transfer authority for appropriations and other amounts for intelligence elements of the Department of Defense*

Section 433 authorizes the Secretary of Defense to transfer defense appropriations available for the activities of the defense intelligence elements into an account or accounts established for receipt of such funds. These accounts may receive transfers and reimbursement from transactions, authorized by law, between the defense intelligence elements and other entities, and the DNI may also transfer funds into these accounts. Appropriations transferred pursuant to this

section shall remain available for the same time period, and for the same purposes, as the appropriations from which funds were transferred. This section is intended to ensure improved auditing of defense intelligence appropriations.

*Section 434. Report on training standards of defense intelligence workforce*

Section 434 requires not later than 180 days after enactment the DNI and the Under Secretary of Defense for Intelligence to submit to the congressional intelligence and armed services committees a report on the training standards of the defense intelligence workforce. The report is to include a description of existing training, education, and professional development standards applied to the personnel of defense intelligence components, and an assessment of the ability to implement a certification program based on achievement of required training, education, and professional development standards.

TITLE V—OTHER MATTERS

*Section 501. Report on airspace restrictions for use of unmanned aerial vehicles along the border of the United States and Mexico*

Section 501 requires the Secretary of Homeland Security not later than 90 days after enactment to submit to the congressional intelligence and homeland security committees a report on whether restrictions on the use of airspace are hampering the use of unmanned aerial vehicles by the Department of Homeland Security along the international border between the United States and Mexico.

*Section 502. Sense of Congress regarding integration of fusion centers*

Section 502 states that it is the sense of Congress that the Secretary of Homeland Security, in consultation with the DNI, should continue to integrate and utilize fusion centers to enlist all of the intelligence, law enforcement, and homeland security capabilities of the United States in a manner that is consistent with the Constitution to prevent acts of terrorism against the United States.

*Section 503. Strategy to counter improvised explosive devices*

Section 503 requires the DNI and the Secretary of Defense to establish a coordinated strategy utilizing all available personnel and assets for intelligence collection and analysis to identify and counter network activity and operations in Pakistan and Afghanistan relating to the development and use of improvised explosive devices. Not later than 120 days after enactment, the DNI and the Secretary of Defense are to submit a report containing the strategy to the congressional intelligence and armed services committees and implement such strategy.

*Section 504. Sense of Congress regarding the priority of railway transportation security*

Section 504 states that it is the sense of Congress that railway transportation security, including subway transit security, should continue to be prioritized in the critical infrastructure threat assessment developed by the Office of Intelligence and Analysis of the Department of Homeland Security and included in threat assessment budgets of the Intelligence Community.

*Section 505. Technical amendments to the National Security Act of 1947*

Section 505 updates certain references in sections 3(6), 506(b) and 506A of the National Security Act of 1947 from the “Director of Central Intelligence” and the “National Foreign Intelligence Program” to the “Director of National Intelligence” and the “National Intelligence Program.”

*Section 506. Technical amendments to Title 18, United States Code*

Section 506 updates references in 18 USC 351(a) to the Director and Deputy Director of Central Intelligence and provides that the amended section includes the DNI, the Principal Deputy DNI, and the Director and Deputy Director of the CIA among officials covered by the provision.

*Section 507. Budgetary effects*

Section 507 states that the budget effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this Act, submitted for printing in the Congressional Record by the Chairman of the Senate Budget Committee, provided that such statement has been submitted prior to the vote on passage.

Mrs. FEINSTEIN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. CHAMBLISS. Mr. President, I rise to join Chairman FEINSTEIN in thanking my colleagues for their support of the fiscal year 2012 Intelligence Authorization Act. Over the past several months, the committee has worked hard to resolve the final details of the bill and concerns raised by other committees and individual Members. The end result of this effort is a solid bill that ensures vigorous congressional oversight and provides needed authorities to the intelligence community.

Of course, the vast majority of what the committee authorized is classified, so I cannot discuss specifics. I can say that the classified annex is designed to improve the operations of the intelligence community—from counterterrorism and counterproliferation to the wars in Afghanistan and Iraq and everything in between.

This bill also implements fiscal discipline. Difficult economic times demand austerity, but cuts in this bill are specific and targeted to eliminate waste while preserving the critical work the intelligence community does to protect our country.

In the unclassified area—and one of great importance to me—we reached an agreeable compromise with the Administration that gives the committee the information we need about the transfer of Guantanamo Bay detainees. As the recidivism rate among former detainees rises over 27 percent, it is critical that the committee have full insight into the transfer and resettlement process. The vast majority of detainees are free when they are transferred, and this committee needs to know whether the countries charged with monitoring them are capable and willing to do so. Several provisions in this bill will help the committee do that.

The bill also addresses concerns from other committees with national security interests and from the House. As we go forward, I hope the committees of the Senate will do a better job of

making sure that committees with oversight of national security issues get the information they need, without automatic objections based on perceived jurisdictional lines. Too often, the intelligence committee includes other committees on receipt of reports or other products, but does not get the same treatment in return. That’s just not good for oversight or for fulfilling our responsibility to the American people.

I am also pleased that we were able to reach reasonable solutions for authorities requested by the intelligence community. The bill allows for the reimbursement of burial expenses for certain government employees who are killed as the result of hostile or terrorist activities or die in connection with a risky intelligence activity. In these difficult financial times, we worked hard to make sure that the provision is in line with benefits for the families of fallen soldiers and with the funeral costs generally paid by ordinary Americans. We also ensured that individuals in the same agency, like the FBI, are entitled to receive the same reimbursement. The bill also refines the administration of the CIA’s foreign language proficiency requirements and allows for more flexible personnel management by the Director of National Intelligence.

I thank Chairman FEINSTEIN for her hard work and leadership in getting this bill through the Senate. I also thank the committee staff for once again showing their dedication and commitment to protecting the national security of this country.

Mr. REID. Mr. President, I ask unanimous consent that the Feinstein substitute amendment, which is at the desk, be agreed to; the bill, as amended, be agreed to; the motions to reconsider be laid upon the table, with no further intervening action or debate; and any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 1463) was agreed to.

(The amendment is printed in today’s RECORD under “Text of Amendments.”)

The amendment was ordered to be engrossed and the bill read a third time.

The bill (H.R. 1892), as amended, was read the third time and passed.

# APPOINTMENT

THE PRESIDING OFFICER. The Chair announces, on behalf of the President pro tempore, pursuant to P.L. 110-315, the appointment of the following to be a member of the National Advisory Committee on Institutional Quality and Integrity: Ms. Jill Derby of Nevada, vice Daniel Klaich of Nevada.

ORDERS FOR THURSDAY,  
DECEMBER 15, 2011

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. on Thursday, December 15, 2011; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day; that following any leader remarks, the Senate be in a period of morning business for 1 hour, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the final half; that following morning business, the Senate proceed to executive session, under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE PLACED ON THE  
CALENDAR—H.R. 3630

Mr. REID. Mr. President, I understand that H.R. 3630 is at the desk and due for a second reading.

The PRESIDING OFFICER. The clerk will report the bill by title for the second time.

The bill clerk read as follows:

A bill (H.R. 3630) to provide incentives for the creation of jobs, and for other purposes.

Mr. REID. I now object to any further proceedings at this time.

The PRESIDING OFFICER. Objection is heard. The bill will be placed on the calendar.

## PROGRAM

Mr. REID. Mr. President, we expect to consider the DOD authorization conference report tomorrow. We also expect to consider the House Republican payroll tax cut bill or some version thereof.

ADJOURNMENT UNTIL 9:30 A.M.  
TOMORROW

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 8:10 p.m., adjourned until Thursday, December 15, 2011, at 9:30 a.m.

## CONFIRMATIONS

Executive nominations confirmed by the Senate December 14, 2011:

## IN THE NAVY

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE UNITED STATES NAVY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 624:

*To be rear admiral*

REAR ADM. (LH) BARRY L. BRUNER  
REAR ADM. (LH) JERRY K. BURROUGHS  
REAR ADM. (LH) JAMES D. CLOYD  
REAR ADM. (LH) MICHAEL T. FRANKEN  
REAR ADM. (LH) BRADLEY R. GEHRKE  
REAR ADM. (LH) ROBERT P. GIRRIER  
REAR ADM. (LH) PAUL A. GROSKLAGS  
REAR ADM. (LH) SINCLAIR M. HARRIS  
REAR ADM. (LH) MARGARET D. KLEIN  
REAR ADM. (LH) RICHARD B. LANDOLT  
REAR ADM. (LH) BRIAN L. LOSEY  
REAR ADM. (LH) WILLIAM F. MORAN  
REAR ADM. (LH) TROY M. SHOEMAKER  
REAR ADM. (LH) DIXON R. SMITH  
REAR ADM. (LH) ROBERT L. THOMAS, JR.

## IN THE COAST GUARD

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT TO SERVE AS THE DIRECTOR OF THE COAST GUARD RESERVE PURSUANT TO TITLE 14, U.S.C., SECTION 53 IN THE GRADE INDICATED:

*To be rear admiral (lower half)*

RDML DAVID R. CALLAHAN

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES COAST GUARD RESERVE TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 12203:

*To be rear admiral (lower half)*

CAPT. KURT B. HINRICHS

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE UNITED STATES COAST GUARD TO THE GRADE INDICATED UNDER TITLE 14, U.S.C. SECTION 271:

*To be rear admiral (lower half)*

CAPTAIN MARK E. BUTT  
CAPTAIN LINDA L. PAGAN  
CAPTAIN THOMAS W. JONES  
CAPTAIN STEVEN D. POULIN  
CAPTAIN JAMES E. RENDON  
CAPTAIN JOSEPH A. SERVIDIO

## EXTENSIONS OF REMARKS

IN MEMORY OF JAMES "JIM"  
CRAIG

**HON. MIKE PENCE**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. PENCE. Mr. Speaker, I rise today to pay tribute to the memory of James R. "Jim" Craig, who passed away on December 9, 2011. Jim will long be remembered in the community of Pendleton, Indiana as an American hero and a civic leader.

Jim was born on May 30, 1923, in Noblesville to Sydney and Kathryn Craig. Since 1934, Jim called Pendleton home. After graduating from Westtown Pennsylvania Friends School in 1941, Jim went on to study at Purdue University.

During his time at Purdue, he learned of the attack on Pearl Harbor. Like many young men, Jim wanted to serve and defend his country. After enlisting in the United States Marine Corps, Jim received his commission as a Second Lieutenant. He was placed in command of the 1st Platoon, 24th Marines and saw action at Iwo Jima. Jim's platoon suffered many casualties in the battle and that had a lasting effect on him, as described in the book, *The Last Lieutenant*, written by his nephew Dr. John C. Shively.

Jim married his beloved Patricia Lee Carroll on October 21, 1944. In 1947, he graduated from Purdue University and went on to own Pendleton Lumber Company until 1960. He was employed at Pendleton Savings and Loan until 1978 and then worked as a real estate broker until 2000.

Jim was a member of the First United Methodist Church in Pendleton, and was very active in many civic groups and activities including the Boy Scouts of America, the Pendleton Junior Baseball League, the Madison County Community Foundation, and the South Madison Community Foundation. Jim took part in the 1964 School Reorganization, was a Salvation Army life-member, served on the Kettle Drive, the Pendleton Lions Club, and volunteered at St. John's Hospital. Jim founded the Pendleton Swim Club and was a U.S. Swimming official. Jim also was a Pendleton Chamber of Commerce member and served on the Pendleton Planning Commission.

I had the privilege of getting to know Jim as part of my duties representing the Sixth Congressional District. Jim was a fixture at town hall meetings and I will fondly remember his participation in those events.

Jim was also blessed with a wonderful, loving family. He is survived by his wife, Patricia, of 67 years and their six children. Jim was blessed with sixteen grandchildren and eight great-grandchildren. Through them, I am confident Jim's legacy will live on thanks to the lessons he instilled in those around him.

Mr. Speaker, the Bible tells us, "The Lord is close to the brokenhearted," and that is my

prayer for the family of Jim Craig. Let us all keep Jim and his family in our thoughts and prayers as we mark the passing of this American hero.

COMMENDING REP. NOBLE  
ELLINGTON UPON THE OCCASION  
OF HIS RETIREMENT

**HON. RODNEY ALEXANDER**

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. ALEXANDER. Mr. Speaker, it is with great pride that I rise today to commend Rep. Noble Ellington, who has devoted over two decades to serving the citizens of Louisiana. His unwavering dedication and staunch support of those living in the Bayou State are deserving of our gratitude and appreciation.

Noble has served in the Louisiana Legislature since 1988, where I had my first opportunity to work alongside this devoted public servant as we both represented the people of Jackson Parish. Not only did I have the privilege of calling him a colleague for many years following, but it was there that I first had the honor of knowing him as a friend. Looking back on those years, Noble's upbeat spirit and his ability to be kind to everyone is what I remember most.

A man of many talents, Noble's career includes successful business endeavors in addition to his public service. For 40 years, he has been the owner of Noble Ellington Cotton Company, Inc., and is the director of Franklin State Bank and Franklin Cotton Warehouse.

A true product of northeast Louisiana, Noble was raised on a farm in Richland Parish and received his education from Mangham High School and Louisiana Tech University in Ruston, LA. He has made his home in Winnsboro with his wife, Brenda Armstrong, and is the proud parent of four children and five grandchildren.

He is a driving force in Louisiana for his committed leadership on various business, civic and governmental boards and committees. He currently serves as the National Chairman of the American Legislative Exchange Council resulting in positive, nationwide attention for our State.

Through his numerous accomplishments, Noble has earned the respect and regard of those with whom he has served and the gratitude of the people he has diligently represented.

Mr. Speaker, I ask my colleagues to join me in extending best wishes to Rep. Noble Ellington upon his retirement and wishing him future success in all his efforts.

PROMOTING GLOBAL INTERNET  
FREEDOM

**HON. CHRISTOPHER H. SMITH**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. SMITH of New Jersey. Mr. Speaker, last week I held a hearing on global online freedom.

About 2 billion people in the world regularly communicate or get information on the Internet. Well over half a billion people do so in repressive countries. As Internet use has become a vital and even the standard means to disseminate beliefs, ideas and opinions, so we see a growing number of countries that censor or conduct surveillance on the Internet, in conflict with internationally recognized human rights laws and standards.

In 2006, I held the first major hearing on Internet freedom, in this very room, in response to Yahoo!'s turning over the personally identifying information of its e-mail account holder, Shi Tao, to the Chinese Government—who tracked him down and sentenced him to 10 years for sending abroad e-mails that revealed the details of Chinese government press controls. At that hearing Yahoo!, Google, Microsoft, and Cisco testified as to what we might ruefully call their "worst practices" of cooperation with the Internet police of totalitarian governments like China's. That same week I introduced the first Global Online Freedom Act, as a means to help Internet users in repressive states. In 2008 the Global Online Freedom Act was passed by three House committees.

In the last half dozen years the Internet, in many countries, has been transformed from a freedom plaza to big brother's best friend. The technologies to track, monitor, block, filter, trace, remove, attack, hack, and remotely take over Internet activity, content and users has exploded. Many of these technologies are made in the U.S.A. Many of them have important and legitimate law-enforcement applications. But, sadly, many of them are also being exported, every day, to some of the most unsavory governments in the world—whose use of them is far from legitimate. Every day we learn about more activists being arrested through the use of newly-developed technologies—much of it American technology—in China, Belarus, Egypt, Syria and many other countries around the world. The stakes are life and death for online democracy activists, and they deserve our support and protection.

For example, Belarus is blocking social networking sites like Twitter and Facebook and aggressively shutting down opposition Internet sites. Kazakhstan, which already blocks a number of popular blogs and media sites, is also in the process of creating a "national Internet," where all domestic domain names will have to operate on physical servers within

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

its borders. Syria is using sophisticated tools to limit the ability of the opposition to organize and to track down peaceful protestors. China has created the Great Firewall and wants to create its own sanitized version of the Internet that will essentially isolate China from much of what is happening in the rest of the world. And, when protests break out, it simply shuts down the Internet, as it did in Tibet and Xinjiang in recent years.

In Vietnam, Facebook has been blocked for two years and under a new executive decree, a number of bloggers and journalists who write for independent online publications have been arrested. Egypt continues to detain blogger Alaa Abdel Fattah for his online criticisms of the Egyptian army. And today, we just learned that in addition to the already extensive online censorship in Iran, the U.S. "virtual embassy" in Iran has been blocked after only one day of operation.

Last week, I introduced a bill that responds to the growing use of the Internet as a tool of repression, and to changes in the technologies of repression. The new Global Online Freedom Act of 2011 (GOFA), H.R. 3605, fundamentally updates legislation that I first introduced in 2006 (and which in 2008 advanced through three House committees).

The new GOFA requires the State Department to beef up its reporting on Internet freedom in the annual Country Report on Human Rights Practices, and to identify by name Internet-restricting countries. This country designation will be useful not only in a diplomatic context in helping to advance Internet freedom through naming and shaming countries, but will also provide U.S. technology companies with the information they need in deciding how to engage in repressive foreign countries.

Second, the bill requires Internet companies listed on U.S. stock exchanges to disclose to the Securities and Exchange Commission how they conduct their human rights due diligence, including with regard to the collection and sharing of personally identifiable information with repressive countries, and the steps they take to notify users when they remove content or block access to content. This provision of the bill will help democratic activists and human rights defenders hold Internet companies accountable by creating a new transparency standard for Internet companies. This provision will also require foreign Internet service companies that are listed here in the U.S. to report this information as well—this will include such big-name Chinese companies such as Baidu, Sohu, and Sina.

Finally, in response to many reports that we've all seen in the papers recently of U.S. technology being used to track down or conduct surveillance of activists through the Internet or mobile devices, this bill will prohibit the export of hardware or software that can be used for potentially illicit activities such as surveillance, tracking and blocking to the governments of Internet-restricting countries. Current export control laws do not take into account the human rights impact of these exports and therefore do not create any incentive for U.S. companies to evaluate their role in assisting repressive regimes. This section will not only help stop the sale of these items to repressive governments, but will create an important foreign policy stance for the United States that

will help ensure that dissidents abroad know we are on their side, and that U.S. businesses are not profiting from this repression.

This export control law is long overdue, and thoroughly consistent with the approach Congress has taken, for example, in restricting exports of certain crime control equipment to China. It makes no sense for us to allow U.S. companies to sell technologies of repression to dictators, and then turn around and have to spend millions of dollars to develop and deploy circumvention tools and other technologies to help protect dissidents from the very technologies that U.S. companies exported to their persecutors.

Today's hearing is an important moment to take stock of where we are and how we can move forward to promote and defend Internet freedom around the world. What we do here in the United States is critically important to achieving our goals. We must send a strong message to companies that they have a unique role to play in preserving online freedom; and send an even stronger message to repressive governments that the Internet must not become a tool of repression.

---

#### HONORING MS. HORTENSE BRICE

#### HON. BOBBY L. RUSH

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. RUSH. Mr. Speaker, I rise today to pay tribute to Ms. Hortense Brice, a dedicated teacher from my hometown of Chicago, Illinois. We can all agree, Mr. Speaker, that one of the greatest services a citizen can offer our nation is dedicating their lives to teaching the next generation. Passing wisdom, knowledge, and inspiration is the greatest gift in one of the most honorable professions.

It is in that tradition, Mr. Speaker, that Hortense Brice has dedicated her life for the last 41 years. A life dedicated not only to the education of others but to her personal education as well. She worked hard not only for her Bachelor of Science Degree from Illinois State University but also for her Master's Degree in Curriculum and Instruction from the University of Illinois at Chicago. After her Master's Degree she trained for 36 hours in Science Education at the Illinois Institute of Technology.

For most people, graduating from college marks the end of their academic careers and the beginning of their financial ones. For Hortense however this was not the case. Her drive for knowledge pushed her to enroll in further workshops, conferences, and graduate-level courses in a number of scientific fields and at many respected institutions of higher learning. She did this not just for a love of learning but also, so that when teaching her pupils, she would be able to pass on an expertise and deep seated knowledge that they would not be subject to otherwise. This is exactly what she did when she created the first biotechnology curriculum in the Chicago Public School system.

To teach is to lead. Hortense Brice has embodied, and still embodies, such a principle. She created the first Biotechnology Center of

Excellence at Lindblom Math and Science Academy, supporting professional development for Chicago Public School teachers. The belief that it is just as important to teach the next generation of teachers as it is the next generation of pupils was at the foundation of Hortense's work. She arranged for high school teachers from the Chicago Public Schools to enroll in a 2-year biotechnology training course at the University of Illinois, and secured a grant from the National Science Association that helped provide further training for more high school educators.

While doing all of this Hortense Brice still taught elements of biotechnology at Whitney M. Young Magnet High School, and the first full-year biotechnology course at Lindblom Math and Science Academy in Chicago, Illinois. She taught by example and her hard work ethic inside and outside the classroom served as an inspiration to pupils and colleagues alike.

With her experience and education she had a unique insight into what the education curriculum lacked and what it needed. For example, in 2006 after noticing a gap in the curriculum she worked with the After School Matters program to develop a successful pharmaceutical drug curriculum for high schools pupils.

Even with her retirement in June 2009 Hortense still continues to attend science training programs, including a 5-day biotechnology immersion program held by the Biotechnology Institute at the BIO International Convention. Though her teaching career is over her pursuit of knowledge will never be. It is this love of knowledge that has made her such an inspirational teacher and educational advocate. It is why she was recognized as an outstanding educator, researcher and trainer for the next generation of young scientists by the iBio Institute, who gave her the Knowledge Builder Award for grades 6–12. It is the very same reason why I am speaking about her today.

Mr. Speaker, I strongly believe that to be ignorant is to be left in the darkness, the only thing that can conquer such darkness is the light of education. Hortense Brice embodies such a light.

It is for that reason that I rise today to recognize Hortense Brice for her dedication to the teaching of advanced science in high school students in the Chicago Public Schools and to congratulate her on her retirement.

---

#### RECOGNITION OF GREGORY C. BRADY UPON HIS RETIREMENT FROM THE DEPARTMENT OF JUSTICE

#### HON. JEFF FORTENBERRY

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. FORTENBERRY. Mr. Speaker, today I would like to honor and pay tribute to Gregory C. Brady, a fellow Nebraskan and the Principal Deputy General Counsel for the Office of Justice Programs, in the U.S. Department of Justice, who is retiring after 46 years of remarkable public service in the interests of justice. His tireless dedication to the multi-faceted

work of the Department, reflected in his many career accomplishments, have earned him great respect and recognition in the Office of Justice Programs and its component agencies, and throughout the Department and among his fellow attorneys at bar. I want to take a moment to memorialize his extraordinary and inspiring accomplishments.

Greg Brady was born and reared in Nebraska, graduating from the University of Nebraska in 1962, with a Bachelor of Arts degree, and in 1965, with a Juris Doctorate. Thereafter, Mr. Brady served a three-year tour of duty in the Judge Advocate General Corps of the U.S. Navy (from which, after prosecuting and defending scores of cases, he was honorably discharged with the rank of Lieutenant). Mr. Brady began his service with the Department of Justice in December 1968, as an Assistant United States Attorney in the District of Columbia, and has been continuously serving the Department of Justice, and the public, faithfully and in an exemplary manner ever since.

In the United States Attorney's Office, he demonstrated his flexibility of mind and zealous devotion to duty in countless criminal (misdemeanors, felonies, grand juries, etc.) and civil cases that he litigated, at the trial and appellate levels, many of which cases involved groundbreaking questions of law. *Mitchell v. Laird*, for example, 488 F.2d 611 (D.C. Cir. 1973), was brought unsuccessfully by thirteen members of the U.S. House of Representatives to enjoin the involvement of U.S. military personnel in the Vietnam conflict, and involved complex Constitutional questions of standing, executive prerogative, and justiciability. *United States v. Crowder*, 543 F.2d 312 (D.C. Cir. 1976)—which Mr. Brady's arguments (opposed by those of Mr. Robert Bennett) initially won at the District Court, then lost before a Circuit Court panel, and then won in an en banc proceeding of the Circuit Court—was the first case in the country to approve use of a search warrant to require a suspect to submit to surgery so the police could obtain a bullet as evidence of his criminal activity. (The case against Crowder (a two-time murderer) for the murder of a prominent Washington dentist was considered weak, because the only evidence known to the police that could link him firmly to the earlier crime were the bullets lodged in his arm and leg, from his murder-victim's gun. It was Mr. Brady's idea to try to obtain a search warrant for the bullets; he also thought of the stratagem of deputizing the (anxious) physicians from Georgetown University Hospital as U.S. Marshals for purposes of the surgery. Judge McGowan's concurrence (as does Judge Leventhal's dissent) goes out of its way to praise Mr. Brady's prosecution for the procedural orderliness and fair play it consistently demonstrated in the case. The case was featured in a Time magazine article.) This kind of legal creativity and strict adherence to the rule of law remains typical of Mr. Brady, nearly thirty of whose cases are officially reported in the published court records.

Having attained the rank of Deputy Chief of the Appellate Division at the United States Attorney's Office here in the City, Mr. Brady began his career with the Justice Department's Law Enforcement Assistance Administration (the predecessor agency to the Office

of Justice Programs) in February 1974, formally in the Office of the General Counsel, but actually detailed to assist in the creation and development of grant and support programs to assist States in improving the management of prosecution offices, combating career criminals, and reducing white-collar crime. His prosecutorial experience in the Navy and the United States Attorney's Office made him invaluable to the program, which, itself, is at the heart of the core mission of the Office of Justice Programs. In 1980 (at his request), Mr. Brady returned to the direct practice of law, in the agency's Office of the General Counsel, dispensing advice and rendering opinions on countless matters relating to every conceivable area of administrative law.

In 1984, on account of his vast practical and administrative experience, he was asked to found, and become the first Director of, a new Office of Justice Programs component, which eventually was to become the Office for Victims of Crime—a signal initiative of President Reagan's administration. And he did found that office, on firm and sound lines, co-authoring what eventually was enacted as the Victim Compensation and Assistance Act of 1984 (Pub. L. 98–473), which clearly sets forth the purposes and organic principles of the office—purposes and principles that remain in place today. His mission at that office accomplished, some three years later, the leadership of the Office of Justice Programs acquiesced in Mr. Brady's request to return to its Office of the General Counsel, where he has served ever since.

He has been the principal ethics officer at the Office of Justice Programs since 1988 (in which capacity he has provided excellent guidance, training, and advice to the General Counsel, Presidential appointees, and career employees, alike), and in 1996 became the Deputy General Counsel, after having served for years as Associate General Counsel; he became Principal Deputy General Counsel in 2001.

For the last twenty-four years, Mr. Brady has applied a firm sense of purpose and integrity to instructing numberless Department employees in how to negotiate the minefields of ethical situations associated with administration of a multi-billion-dollar-a-year grant-making operation. At a time when the corporate world has endured significant ethical and moral lapses, Mr. Brady's personal efforts consistently have guided officials of the Department with a minimum of public conflict or scandal, and with the result that there is a clear public perception—necessary to the success of any government program—of evenhandedness in the administration of the Office of Justice Programs' criminal-justice grant programs.

Mr. Brady's love of the law and its practitioners in the legal profession manifested itself in his generous devotion of time and attention to mentoring law students and newly-minted attorneys during the critical development stages of their careers. As Deputy General Counsel over the past twenty years, he has guided (even shepherded) them, with his approachable, kindly, and affable manner. His deep understanding and wide experience in the law made him an inspiring and effective teacher. Mr. Brady genuinely delighted in see-

ing the progress and development of attorneys, and their embrace of the highest standards of the legal profession; and the number and variety of law firms and government agencies that have been affected by individuals originally trained by him is impressive. (These include an Assistant Attorney General, as well as the Executive Director of a Government Corporation and a past Presidential appointee responsible for juvenile-justice issues.) In the Office of the General Counsel, he has demonstrated outstanding legal research, presentation, and advocacy skills, and has been a true role model for all of the attorneys, greatly assisting in their professional development.

And "role model" is, in fact, the apt term: for Mr. Brady is no one-dimensional work-is-my-life attorney. Despite his aggressive work schedule, he has lived his vocation as a family man (he is the father of three adored daughters and grandfather to two no-less-adored granddaughters) to the full, and his community has known that he can be depended upon to volunteer his time for others. To give but one example: For over twenty years, he has been a night-time volunteer (i.e., after putting in a full-day's work) at a crisis/suicide hotline in Prince William County, Virginia. In 2001, he was named their "Exceptional Volunteer of the Year." His tireless volunteer work in his community and parish have earned him numerous Attorney-General commendations over the years.

It is no small thing to stress that Mr. Brady has performed all of these tasks with unfailing courtesy, professionalism, and kindness (to say nothing of his ever-present humor and sharp wit). The long and short of it is that Mr. Brady simply is someone who, quietly and unassumingly, has kept the Department of Justice (and especially the Office of Justice Programs) running. Although his career in the Department hardly has been typical (at least in that it does not mostly involve litigation), Mr. Brady epitomizes the ideal of a Department of Justice attorney. For this reason, he has received both the Attorney General's Mary C. Lawton Lifetime Service Award (one of the Department's very highest awards), as well as the Office of Justice Programs' Assistant Attorney General's Lifetime Achievement Award. And for his years of dedicated public service, he received a personal commendation from President George W. Bush.

Gregory C. Brady has dedicated his professional life to public service, and his many accomplishments during the forty-six years of that professional life are a credit to him, to his family, to his home State of Nebraska, to the Department of Justice, and to his local community of which he is such an active, generous, and vibrant member.

TO CELEBRATE THE LIFE OF  
SIMONE "SAM" SAVIA

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 14, 2011

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to celebrate the life of Simone "Sam" Savia, who passed away peacefully on

December 9, 2011, surrounded by his beloved family, after seven decades of service to his local volunteer fire department.

Sam, a lifelong resident of Vienna, Virginia, was born in the mid 1920's. He grew up a few steps away from the original fire station in Vienna where he and his brothers were frequent visitors. In 1941, Sam, then 15, joined the Vienna Volunteer Fire Department (VVFD), which had lowered the age requirement to address a manpower shortage created when most of the town's young men had been called to serve in WWII.

When Sam joined the VVFD, the town bore little resemblance to the bustling commercial and residential area it is today. There were no fire hydrants, as the town did not yet have water or sewer service, and the department's pumper truck would pull water from ponds, streams or one of the town's three cisterns. Sam recalled during an interview earlier this year with the Fairfax Times that there was no county fire training academy in those days so he and his fellow volunteers learned the "hard way" by trial and error on the job.

Sam selflessly served on the Vienna Volunteer Fire Department for 70 years. He held numerous leadership positions including Assistant Secretary, Treasurer, Secretary, Vice President, multiple terms as President, and multiple terms as a member of the Board of Directors. Responding to innumerable emergency calls over many decades, it is impossible to calculate the number of lives and properties he helped save. As a life member of the VVFD, Sam continued to actively perform various administrative jobs in the department after he retired from operational duty.

Sam also contributed greatly to other community causes. In the early years of the station, the VVFD sponsored the Old Dominion Baseball League and Sam was instrumental in the construction of Waters Field. After the VVFD stopped sponsoring baseball, the Vienna Host Lions Club in 1954 called on Sam to organize little league baseball in the town. Sam set up the program, coached teams, and helped construct the necessary fields. The Jessup-Savia Field at Nottoway honors Sam in recognition to his tremendous contributions to little league and youth in Vienna.

Sam also served as president of the Vienna Lions Club and on the Vienna Centennial Coordinating Committee. In recognition of his years of service to the community, Sam was named the 2006 Citizen of the Year by the Vienna-Tyson's Regional Chamber of Commerce.

On July 25, 2011, the Vienna Volunteer Fire Department hosted a ceremony honoring Sam for his seven decades of service to the Department. During this ceremony, July 25, 2011 was proclaimed Sam Savia Day by the Town of Vienna in recognition of his contributions to the community, and the Commonwealth of Virginia followed suit by approving House Joint Resolution 5170 commending Sam for his service. The department also renamed its apparatus building the Sam Savia Apparatus Facility so future generations of firefighters and citizens in Vienna will remember this man who dedicated his life to public safety, his family, and his community.

Mr. Speaker, I ask that my colleagues join me to celebrate the life and deeds of Sam

Savia, and to express our deepest condolences to his wife Gertrude, their children, and their entire family.

**MAYOR CHARLES CROWLEY RETIRES AFTER A JOB VERY WELL DONE**

### **HON. BARNEY FRANK**

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. FRANK of Massachusetts. Mr. Speaker, on December 27th, Mayor Charles Crowley of the city of Taunton will be chairing his last City Council meeting. It has been a great privilege and pleasure for me during the last four years and nine months to work with Mayor Crowley, as the Member of the U.S. House of Representatives for the city of Taunton. Officially, he is an extremely thoughtful and creative chief executive, who combines a capacity to do serious policy analysis with important management skills. We have collaborated on a number of issues important to the city of Taunton, involving transportation, housing, and economic development, and I have found it easy to represent the city under Charlie Crowley's mayoralty, because he does his homework in a way that makes being the advocate for the city he presides over easy.

For someone who is interested in history, talking with Charlie Crowley is always fascinating. Mayor Crowley is a first-rate historian, and I have rarely been with him dealing with a particular policy when I haven't learned something relevant and interesting about the history of the events or the place we are addressing.

Charlie Crowley has been a friend as well as a colleague. He retires entitled to a sense of satisfaction about the great job he has done—especially in an era when being Mayor of a city is one of the hardest jobs around.

### **CAMP ASHRAF**

### **HON. TED POE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. POE of Texas. Mr. Speaker, Camp Ashraf is a small little camp in Iraq made up of a few thousand Iranian freedom fighters. They are unarmed civilians who, like us, don't like the tiny tyrant in the desert.

But the Camp is under siege.

PM Maliki wants to close the camp by December 31.

If the Camp is closed, many of the residents could be killed.

You see, Iraqi soldiers can't be trusted. In 2009 and 2011, they killed dozens of innocent civilians in the Camp.

Now Iran is promising all sorts of goodies if Iraq closes down the Camp.

Iran hates anyone who disagrees with its regime, so it wants nothing better than to have all these people in the Camp forcibly removed and eliminated.

But there is one tiny problem with Iran and Iraq's dirty little scheme: The world is watching.

Since the massacres, Camp residents have applied for UNHCR political refugee status.

It will take the U.N. 6 months to process their applications.

The U.N. Secretary General just wrote me yesterday to say that he has personally encouraged Maliki to not close the Camp down.

Sixty-five of my colleagues asked President Obama to raise this issue when he met with PM Maliki yesterday—we don't know if he did or not.

Maliki could be tried with war crimes if there is a New Year's massacre.

It should be the official policy of the United States to urge the government of Iraq to protect the residents, not return them to Iran, and not close the Camp until the U.N. can finish its political refugee process.

I am thankful to the Chair and Ranking Member of the Foreign Affairs committee for their support of this policy.

We cannot allow Maliki to once again slaughter innocent civilians.

And that's just the way it is.

### **RECOGNIZING THE MORTGAGE-BURNING SERVICE AT LITTLE UNION BAPTIST CHURCH**

### **HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize the Little Union Baptist Church, in Dumfries, Virginia, on the occasion of its June 11, 2011, "Mortgage-Burning Service."

The Deed for the first site of Little Union Baptist Church was signed on September 9, 1901, a gift of the land from John Thomas and Mary Bates Thomas to church trustees. For Mary Bates Thomas in particular, this gift represented a great achievement in the life of a truly amazing woman. Mary Bates was born into slavery in Northern Virginia. As a slave, Ms. Bates learned to read and write and participated in the camp meetings praising God and maintaining her undying faith in the face of such great hardship.

Following emancipation, Mary Bates Thomas became a pillar of her community, running a small general store with her husband John Thomas, reading and writing letters for the illiterate, and acting as a healer and midwife. Recognizing the need of her community for a church of its own, Mary Bates Thomas and her husband donated the land on which the church, which would come to be known as Little Union Baptist, was built. Its diminutive name may have reflected its intimate membership early on, but the church acted as a focal point of the community and a great source of comfort and pride in times of both joy and difficulty.

In over one hundred years of serving the community, the Little Union family has grown in size, yet its mission, handed down from Mrs. Bates Thomas to the church leadership and today through the guidance of Reverend James Green, has always remained: "to establish a fellowship in Jesus Christ that will promote the Gospel throughout the community and the world."

Mary Bates Thomas would surely be proud to see what her church has become. Due to the generosity of the congregation, the able leadership of the church, and God's grace, today we may celebrate Little Union Baptist's satisfaction of its mortgage. Now in complete ownership of its house of worship, the church will be able use its resources in even greater support of other outreach ministries.

Mr. Speaker, I ask that my colleagues join me in celebrating the "Mortgage Burning Service" for Little Union Baptist Church. I would like to extend my sincere appreciation to the Little Union church family for establishing and maintaining a healthy house of worship that spreads the spirit of charity and provides counsel to those in need of guidance.

#### THE WATER FOR THE WORLD ACT OF 2012

**HON. EARL BLUMENAUER**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. BLUMENAUER. Mr. Speaker, as America prepares for the holiday season, it is important to pause and reflect on what we can do for others as well as ourselves. I hope that Congress will give a gift of life, health and hope by helping people around the world with something that most Americans take for granted: safe drinking water.

Nearly 900 million of the world's poorest don't have clean drinking water, and fully 2.6 billion lack access to improved sanitation. This shortfall poses a significant challenge for development and security around the world, reinforcing a cycle of poverty and instability that represents both a humanitarian disaster and a national security threat.

Water-related diseases are particularly brutal in how they target children: 90% of all deaths caused by diarrheal diseases are children under 5 years of age, mostly in developing countries. In all, 1.8 million children under the age of 5 die every year, more than from AIDS, tuberculosis and malaria combined. The economic impacts are devastating: inadequate sanitation in India alone costs that country \$53.8 billion, or 6.4 percent of its GDP every year.

What's more, dirty water directly affects every area of development. Children cannot attend school if they are sick from dirty water, and adults suffering from water-borne illnesses overwhelm hospitals and cannot go to work. Hours spent looking for and collecting clean water mean hours not spent adding to a family's economic well-being. In short, the best intentioned efforts at development fail if the basic necessity of clean water is not met.

In this period of good tidings, there is good news with water. The solution to this problem is cheap and relatively straightforward. We don't have to spend millions searching for a cure. Sometimes something as simple as teaching the value of hand washing, or providing access to technology we already have is all it takes to save millions of lives and increase economic development. What we lack is leadership and accountability.

It's time for Congress to act again. The Water for the World Act of 2012 builds on cur-

rent U.S. efforts to provide those in need with greater access to clean water and sanitation. And in this period of tight budgets, it is important that the Water for the World Act doesn't ask for any increase in funding, but rather improves the effectiveness, transparency and accountability of international aid programs. Given the strains on federal resources and the depth of need, it is essential that we are able to target our efforts more efficiently.

The Water for the World Act also gives the State Department and U.S. Agency for International Development the tools needed to leverage the investments they are already making by elevating the current positions within the State Department and USAID to coordinate the diplomatic policy of the U.S. on global freshwater issues and to implement country-specific water strategies.

There is nothing more fundamental to the human condition and global health than access to clean water and sanitation. More needs to be done, and it needs to be done well. Taxpayers are rightly demanding better results and greater transparency from foreign aid. This bill provides the tools and incentives to do just that.

#### SUDAN PRESS CONFERENCE

**HON. FRANK R. WOLF**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. WOLF. Mr. Speaker, I submit remarks I delivered at a Sudan press conference today hosted by the U.S. Commission on International Religious Freedom.

#### SUDAN PRESS CONFERENCE,

1 P.M., DECEMBER 14, 2011, RAYBURN FOYER

We are surrounded today by photos which convey a dark but familiar story—Sudanese people, brutalized, marginalized and terrorized by their own government.

And yet, it seems this same regime has been afforded the privilege of legal representation in Washington by the Obama administration.

Earlier this week, I was outraged to learn that the genocidal government of Sudan led by Omar Hassan Bashir—an internationally indicted war criminal—now has a lawyer, Mr. Bart Fisher, on retainer in Washington.

According to a news report in Africa Intelligence, Mr. Fisher was hired with the express purpose of trying "to lift American sanctions against it."

In documentation posted on the Department of Justice Web site, it appears that Mr. Fisher was granted a license by the Office of Foreign Assets Control (OFAC) at Treasury to provide this representation and that he plans to engage in political activities, among them, "Representations (including petitions) . . . to U.S. government agencies regarding sanctions . . ."

If true, I am appalled that this has been permitted and can't help but wonder if Mr. Fisher's political contributions were a factor. The administration should reverse this approval.

Martin Luther King famously said, "In the end, we will remember not the words of our enemies, but the silence of our friends."

I can't help but wonder what the people of Sudan are thinking at this particular juncture when the administration struggles to

find its voice on their behalf, while at the same time seemingly empowering the voice of their oppressors.

Would we even dream of allowing Milosevic, Karadzic or Gaddafi to have representation in the nation's capital?

Bashir's crimes are well-known and documented. This is the same man that is accused by the International Criminal Court of five counts of crimes against humanity, including murder, rape, torture, extermination, and two counts of war crimes.

I've been to Sudan five times, including in July 2004 when Senator Sam Brownback and I were the first congressional delegation to go to Darfur. We spoke with women who had been raped just days earlier.

The Arab janjaweed militias, armed by Khartoum, told these women that they wanted to make "lighter skinned babies."

In addition to horrific human rights abuses and crimes committed by Bashir and his National Congress Party (NCP), Sudan remains on the State Department's list of state sponsors of terrorism. It is well known that the same people currently in control in Khartoum gave safe haven to Osama bin Laden in the early 1990s. Moreover, Khartoum was a revolving door for Hamas and other designated terrorist groups.

But Bashir's crimes are not merely at thing of the past as we will hear in greater detail today. At a recent Tom Lantos Human Rights Commission hearing on the crisis in Southern Kordofan and Blue Nile states in Sudan, former Member of Congress and President of United to End Genocide, Tom Andrews, spoke about his experiences while visiting the region.

He said that there were reports of, "Sudanese armed forces and their allied militias going door to door targeting people based upon their religion, and based upon the color of their skin."

Let me repeat that . . . people were being targeted for killing based upon their religion and the color of their skin.

According to the USCIRF delegation that recently visited Sudan and met with refugees in Yida camp, all of the pastors with whom they spoke said they fled Southern Kordofan after learning that the Sudanese military was undertaking house searches for Christians and SPLM-N supporters.

If this were happening in southern France, the world would be outraged. The world would take action. And yet, this story rarely features above the fold.

We stand just blocks from a museum that cries out "Never Again." Meanwhile, it appears that this administration is complicit in allowing the genocidaire Bashir an advocate in Washington.

Which begs the question, who lobbies for the people whose faces are represented in this room?

Yesterday I wrote the president along with the Departments of State Treasury and Justice requesting immediate clarification about this matter and will continue to press them—just as I have done during previous administrations.

I am submitting this correspondence and relevant information into the Congressional Record for all to see.

We must not be silent in the face of this injustice.

If President Obama, Secretary Clinton and Secretary Geithner stand by and allow this to happen, history will be their judge.

RECOGNIZING THE 20TH ANNIVERSARY OF LITERACY VOLUNTEERS OF AMERICA—PRINCE WILLIAM

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to recognize the 20th Anniversary of Literacy Volunteers of America—Prince William.

Founded in 1991 by local librarian Dona Swanson to help teach a library patron to read, Literacy Volunteers of America—Prince William has since grown to 300 volunteers and 600 students. Despite its impressive growth, LVA-PW has maintained its direct service approach, providing individualized adult literacy tutoring based on the personal needs and goals of adult learners seeking to improve their education and employment skills. LVA-PW's programs are well-researched and constantly tracked and evaluated by staff to ensure their effectiveness. This has proven to be a highly successful model; in 2010, LVA-PW's adult learners received a total of 12,000 hours of instruction, with nearly 80% achieving at least one of their personal goals.

Literacy Volunteers of America—Prince William has established itself as an institution in the community, fostering local partnerships to strengthen both their own services and those of other community groups, including the Prince William County Library System, the Virginia Employment Center, Northern Virginia Community College, the Prince William County Adult Education Program, and local businesses through workplace literacy programs. Literacy Volunteers of America—Prince William has additionally been recognized in the past as Community Service Organization of the Year by the Prince William Regional Chamber of Commerce, Volunteer Organization of the Quarter by Prince William County, and Friday's Hero by the local Channel 9 News. Most recently, LVA-PW Executive Director Kim Sells received the Nancy Jiranek Award for Outstanding Virginia Adult Literacy Executive Director from the Virginia Literacy Foundation.

Mr. Speaker, I ask that my colleagues join me in recognizing the 20th Anniversary of Literacy Volunteers of America—Prince William. I also express my gratitude to LVA-PW's volunteer tutors and trainers, Board of Directors, and staff for helping to empower members of the community by increasing life skills and workforce potential through literacy.

MARKING THE END OF THE WAR  
IN IRAQ

**HON. LAURA RICHARDSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Ms. RICHARDSON. Mr. Speaker, I rise today in recognition of this great day in American history—the day that marks the end of the Iraq war. Although for years we all hoped

and prayed that this day would come, there is an overwhelming feeling of relief when hope becomes a reality. Today we stand together as a nation and rejoice as we look forward to the return of thousands of men and women whose countless sacrifices, remarkable service, and enormous achievements in the name of our great Nation will never be forgotten.

Nearly 1.5 million Americans served in the war in Iraq, with 30,000 wounded and nearly 4,500 casualties. In my district, we suffered the loss of 12 remarkable servicemen. We remember Long Beach residents: Pfc. Stephen A. Castellano; Sgt. 1st Class Randy D. Collins; Sgt. Anthony J. Davis, Jr.; Sgt. Israel Garcia; Pvt. Ernesto R. Guerra; Pfc. Lyndon A. Marcus, Jr.; Spec. Roberto L. Martinez Salazar; Spec. Astor A. SunsinPineda; Pfc. David T. Toomalatai; Pfc. George D. Torres; and Staff Sgt. Joshua Whitaker, as well as Carson resident Pfc. Daniel P. Cagle of Carson who were all killed in action.

Perhaps the most consequential victory of the War on Terror came earlier this year when Osama bin Laden's life was finally ended by a group of Navy SEALs who deftly carried-out a covert operation at bin Laden's secret compound in Abbottabad, Pakistan. I am extremely thankful for President Obama and his Administration's firm leadership in the effort to bring bin Laden to justice. With a renewed sense that justice has been served, we must return our focus now to protecting our citizens at home, and assuring our veterans a prosperous future.

As President Obama said earlier today "It's important for us to express our thanks in words, but it's even more for us to express our thanks in deeds." It is now our turn to stand up for our troops at home as they courageously stood up for us in battle.

Our troops are returning home to a tough economy. They are returning home to an unemployment rate for veterans that is 2.5% higher than the national average. I urge my colleagues on both sides of the aisle to put aside our differences and come together in our commitment to ensure veterans returning home receive all the resources they need. No measure of action we take in Congress can ever truly repay our troops for their sacrifices, but I vow to do all that I can to ensure that the country they fought and sacrificed for gives back to them all that they deserve.

Finally, Mr. Speaker, while keeping the American people safe should always be our top priority, now we must refocus our priorities and our resources into protecting our homeland, educating, training and employing the American workforce, and ensuring our veterans a prosperous future in the nation they fought to defend. Over the last ten years, American taxpayers have spent billions rebuilding Iraq. We must now be willing to make the same investment of time and resources to rebuild our economy so that it provides a standard of living and quality of life worthy of the heroic sacrifices made by the men and women who risked their lives to defend our way of life and freedom.

RECOGNIZING THE 200TH ANNIVERSARY OF THE GRAND LODGE OF FREE AND ACCEPTED MASONS OF THE DISTRICT OF COLUMBIA

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to recognize the 200th Anniversary of the Grand Lodge of Free and Accepted Masons of the District of Columbia.

Freemasonry has been active in the United States for over two hundred and fifty years. Since its founding in 1811, the Grand Lodge of Free and Accepted Masons of the District of Columbia has encouraged interaction and discourse among individuals of differing beliefs by promoting community service, civic responsibility, and civil debate.

The Grand Lodge of D.C. has participated in the development and strengthening of our national institutions of government, including the United States Congress and Judiciary, Presidency, and Executive Branch Agencies, as well as the Capital's historic landmarks such as the White House, Smithsonian Institution, Washington Monument, and Washington National Cathedral. The Grand Lodge of D.C. has been greatly involved with the enrichment of Washington, D.C., with members establishing prominent institutions such as the Corcoran Gallery and George Washington University, and has been actively engaged in charitable projects. The Masonic Foundation of DC has provided tens of thousands of dollars each year in financial scholarships to college students who attended D.C. public schools. Participation in numerous community service projects include Hands on DC, Adams Morgan Day, Susan G. Komen Race for the Cure, Department of Veterans Affairs Hospital, United States Holocaust Memorial Museum, Doctors Without Borders, So Others May Eat, St. Baldrick's Foundation for childhood cancer research, DC Community of Hope, DC Central Kitchen, and DC Special Olympics.

The Grand Lodge of D.C. has been involved domestically and abroad in countries such as Armenia, Cuba, and the Philippines. It also hosted the 2008 World Conference of Masonic Grand Lodges, the largest gathering of Masonic leaders in history, to discuss ways to build a global civil society.

Mr. Speaker, I ask that my colleagues join me in celebrating the 200th Anniversary of the Grand Lodge of Free and Accepted Masons of the District of Columbia. For 200 years, the Grand Lodge of D.C. has supported the Freemasonry founding principles of "Brotherly Love, Relief and Truth," and continues to do so today, supporting the American ideal that individuals can coexist peacefully and come together to form a community, regardless of background and differences.

## OUR UNCONSCIONABLE NATIONAL DEBT

### HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 14, 2011

Mr. COFFMAN of Colorado. Mr. Speaker, on January 26, 1995, when the last attempt at a balanced budget amendment passed the House by a bipartisan vote of 300–132, the national debt was \$4,801,405,175,294.28.

Today, it is \$15,060,274,082,298.88. We've added \$10,258,868,907,004.60 dollars to our debt in 16 years. This is \$10 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

## PERSONAL EXPLANATION

### HON. MARIO DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 14, 2011—

Mr. DIAZ-BALART. Mr. Speaker, due to a family medical issue, I was unable to cast the following votes. If I had been present, I would have voted as follows:

December 7, 2011—

Rollcall vote 892—I would have voted “yes”

Rollcall vote 893—I would have voted “yes”

Rollcall vote 894—I would have voted “yes”

Rollcall vote 895—I would have voted “no”

Rollcall vote 896—I would have voted “no”

Rollcall vote 897—I would have voted “no”

Rollcall vote 898—I would have voted “no”

Rollcall vote 899—I would have voted “no”

Rollcall vote 900—I would have voted “no”

Rollcall vote 901—I would have voted “yes”

Rollcall vote 902—I would have voted “yes”

Rollcall vote 903—I would have voted “yes”

Rollcall vote 904—I would have voted “yes”

Rollcall vote 905—I would have voted “yes”

Rollcall vote 906—I would have voted “no”

Rollcall vote 907—I would have voted “no”

Rollcall vote 908—I would have voted “no”

Rollcall vote 909—I would have voted “no”

Rollcall vote 910—I would have voted “no”

Rollcall vote 911—I would have voted “no”

Rollcall vote 912—I would have voted “yes”

December 12, 2011—

Rollcall vote 913—I would have voted “yes”

Rollcall vote 914—I would have voted “yes”

Rollcall vote 915—I would have voted “yes”

Rollcall vote 916—I would have voted “no”

## RECOGNIZING THE PARTNERSHIP OF RACHEL CARSON MIDDLE SCHOOL AND DOMINION POWER

### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 14, 2011

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to recognize the partnership of Rachel Carson Middle School and Dominion Power in efforts to support green energy.

Through their partnership, Carson Middle School was able to recently install on its roof

an array of 11 photovoltaic solar panels, which have already generated over 1,000 kilowatt-hours of electricity—enough to power a house for more than a month.

Rachel Carson Middle School is a Fairfax County public school with over 1200 students. The solar project was initiated in the spring of 2009 and driven by a group of former eighth grade students, its teacher sponsor, Mr. Kirk Treacle, and its Going Green Club, formerly established as Carson FREE—which stands for Future Renewable Energy Effort. The group was established in hopes that solar electric would be used in addition to several other prospective forms of renewable energy at school. The Going Green Club is researching wind, geothermal, solar thermal, and algae oil as future possibilities. The solar project was funded by grants from Dominion Power, the Earth Day Network, Lowe's, and InterfaceFLOR as well as donations from InScope International, Katydid Inc., the Carson PTA, and other individuals with no taxpayer money used.

The photovoltaic panels are “grid-tied” so the electricity they produce helps power the school and decreases the amount of electricity that must be generated by other means, reducing pollution. While serving as a clean energy resource, the photovoltaic system is also used as an accessible, educational resource with students participating in an energy workshop using the new photovoltaic installation and online data logger. The system's connections to the science curriculum in areas of energy, electricity, and the environment serve as great additions to the school.

Mr. Speaker, I ask that my colleagues join me in recognizing the partnership of Rachel Carson Middle School and Dominion Power. Together, they have succeeded in taking a great step towards cleaner energy for the future. I extend my congratulations to the school and thank Rachel Carson Middle School and Dominion Power for their valuable efforts.

## EASTERN WASHINGTON HONORS RETIRING WASHINGTON FARM BUREAU PRESIDENT STEVE APPEL

### HON. CATHY McMORRIS RODGERS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 14, 2011

Mrs. McMORRIS RODGERS. Mr. Speaker, today I rise to recognize the extraordinary career of one of Eastern Washington's most exemplary leaders, Mr. Steve Appel. After devoting over 37 years of service to the Farm Bureau—the last 17 of which have been as Washington Farm Bureau's esteemed President—Steve has decided to retire. His career comes to an end with a long list of distinguished accomplishments and a record of success for the state of Washington.

As a third-generation family farmer, Steve grew wheat and barley in southeast Washington state and worked for decades to promote U.S. agriculture interests at home and abroad. A Washington State University alumnus, Steve leaves behind a distinguished career in Washington's agriculture community.

Steve was elected as Washington Farm Bureau president in 1994 and represents the longest-serving state President in the organization's history. His vision for the organization's growth was tremendous. In fact, in just the last five years, the Bureau experienced an 85 percent increase in membership alone. Under his leadership, Washington Farm Bureau pioneered the first-ever association health plan and industrial insurance safety and health program, which provide health insurance to rural Washingtonians in areas where such services were previously unavailable.

In addition to serving as the Bureau's President, Steve served as Vice President of the American Farm Bureau Federation—the world's largest general agriculture organization with over six million members—from 2001 through 2007. As the Pacific Northwest's first farmer to serve as an officer in the AFBF, he directed and implemented the organization's grassroots development process. Steve has also served on the Whitman County Planning Commission, Whitman County Soil Conservation Board, and the Eastern Washington Advisory Committee for the Washington Policy Center.

But his leadership extends far beyond his elected and appointed positions. He has testified on many congressional committees and remains extremely engaged in domestic and international trade issues. In his capacity as chairman of AFBF's trade advisory committee, Steve partook in a trade mission to Cuba and Mexico to advocate for advanced trade opportunities between the United States and Latin America.

While Steve is retiring as President of the Washington Farm Bureau, he will continue to serve as a vocal leader and member of the WFB Health Care Trust Board of Directors and the Board of Directors for Farm Bureau Bank. He leaves behind an indelible legacy in the agriculture community and will continue to play an instrumental role in the years to come.

Steve has been more than just a leader for the Farm Bureau; he's been a model for the state of Washington. When asked how he managed his success, he often says, “I live by something my dad said a lot: ‘You do the best job you know how to do and leave the rest to the man upstairs.’” I congratulate Steve on his remarkable leadership and thank him for the profound differences he made—and will continue to make—in the state of Washington.

## DAVID MARVIN BLUMBERG'S 60TH BIRTHDAY

### HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 14, 2011

Mr. BRADY of Texas. Mr. Speaker I rise today to honor the celebration of David Marvin Blumberg's 60th birthday.

David was born on December 26, 1951 in Jacksonville, Florida. He is the fourth of five children born to Marvin Bernard and Mary Louise Blumberg. David obtained his Masters Degree of Public Administration in 1994 from the University of North Florida.

He was honorably discharged from his service in the USAF in 1974 after having worked

as an instrument mechanic on the Minute Man 1, 2, & 3 missiles at Vandenberg AFB, CA.

David worked alongside his father at Marvin Blumberg and Sons from 1974–1982. He was certified as an FAA Air Traffic controller and worked in that capacity from 1982–2006.

Presently he is serving as an Air Traffic Safety Risk Management Facilitator and Instructor nationwide.

David is the proud father of Lauren, Will, Olivia, Nathan and Natalie. He has one grandchild, Walker Brooks Haas.

David plays the drums in a band comprised of other Air Traffic Controllers who raise money for charities and to date they have raised over \$650,000 for local and national charities.

David will be moving to Fort Worth, Texas to supplement the Federal Aviation Administration's Safety Risk Management staff.

His band Aire Traffic will be playing future benefit concerts to raise money for the Juvenile Diabetes Foundation and for the Joseph Sam's School for Special Needs Children in Fayetteville, GA.

Please join me in wishing David Blumberg a very happy 60th birthday.

RECOGNIZING ARIANNA  
MCQUILLEN, RECIPIENT OF A  
BUICK AND GENERAL MOTORS  
FOUNDATION SCHOLARSHIP

### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise to congratulate Arianna McQuillen, of Fairfax Station, on her selection as a Buick and General Motors Foundation Scholarship Recipient. She has been identified as one of 100 outstanding students from across the United States to receive up to \$25,000 in a renewable scholarship. She plans to attend Massachusetts Institute of Technology and specialize in robotics.

Arianna is very involved in our community, working on projects such as cleaning the Occoquan watershed, planting trees, preparing care packages for soldiers abroad and tutoring young students.

Her academic record is proof that she is a high-achieving student. She studied at Lake Braddock Secondary School, where her interests varied from math and science to art and the environment. She has won many awards in areas ranging from debate to art. She is a National Merit Scholar, a 2010 Beat the Odds Scholarship Recipient, an Advanced Placement Scholar, and a National Achievement Semi-Finalist.

Mr. Speaker, I ask my colleagues to join me in recognizing Arianna McQuillen's remarkable achievements and wishing her continued success as she pursues her degree at MIT.

HONORING SLOVAK EXPLOSIVE  
ORDINANCE DISPOSAL (EOD)  
MAJOR BARTAKOVICS AND EOD  
TEAM

### HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. SHUSTER. Mr. Speaker, I rise today to honor Slovak Explosive Ordinance Disposal, EOD, Maj. Roland Bartakovics and the entire Slovak EOD team for their role in resisting an assault by armed insurgents on Camp Nathan Smith in Kandahar. I would like to recognize the Slovaks for their bravery during a failed enemy attack on the base.

The camp in Kandahar, which houses the Kandahar Provincial Reconstruction Team, KPRT, was attacked by four armed insurgents with rocket-propelled grenades and small fire arms. The attack lasted nearly 11 hours, and was ended by the Afghan National Police supported by coalition forces, including the Slovak EOD team. Thanks to the determined professionalism of the Slovak unit, at no point did the attackers gain access to the compound.

I would like to offer my condolences to the families and loved ones of those killed and injured during the attack. The heroic leadership of the entire Slovak unit will forever be remembered. Their service and dedication has brought great pride to their nation, families and communities.

Echoed throughout Afghanistan, the KPRT reflects a productive civilian-military partnership. The United States stands with the Afghan people and their government in pursuing the mutual goal of a stable and prosperous Afghanistan. The United States owes a great debt of gratitude to Maj. Roland Bartakovics and the entire Slovak EOD team for putting themselves in harm's way in the pursuit of freedom.

RECOGNIZING THE YOEMEN  
MARCHING BAND OF CAMERON  
HIGH SCHOOL IN CAMERON,  
TEXAS

### HON. JOHN R. CARTER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. CARTER. Mr. Speaker, I would like to recognize the Yoemen Marching Band of Cameron High School who placed third out of the 297 bands in state 2A marching competition in San Antonio on November 7, 2011.

The 97 member band is under the direction of Stephen Moss, head director, and Craig George and Danielle Roberts, assistant directors. Only ten bands performed in the finals competition, and the Yoemen Marching Band received a 1st place vote from all five judges, which advanced them to the UIL State Marching Contest in San Antonio for the first time in the history of the school. The band competed in the preliminary competition at the UIL State Marching Contest, which advanced them to the finals portion of the competition. The Yoemen Marching Band came in 2nd place behind the two time champion Queen City.

This 2nd place finish advanced the band to the highly coveted finals competition that same evening. The Yoeman High School Marching Band was also selected to play at the World War II Memorial in Washington DC and was one of the ten bands selected to play in the Houston Livestock Show and Rodeo Parade this past spring.

I congratulate the Cameron High School Yoemen Marching Band on their accomplishments and I am proud to represent them in the United States Congress.

RECOGNIZING THE SEMI-FINALISTS FOR THE ASIAN AMERICAN SUCCESS YOUTHCON SCHOLARSHIP PROGRAM

### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. CONNOLLY of Virginia. Mr. Speaker, it is my great honor to rise today to recognize the finalists of the 2011 Asian American Success (AASuccess) YouthCon Scholarship program. Each year, AASuccess grants scholarships and recognition awards to 6 students in the Washington, DC Metropolitan Area.

Founded in April 2006 by Dave Nguyen, Irina Nguyen, David Montanari, Sumesh Kaushal and Malou Gemeniano, the missions of AASuccess are to promote academic excellence of young Asian American and other minority students, foster mentorship and partnership between career professionals and student members, and promote "The Act of Giving Back" in the Asian American community. AASuccess offers 4 different programs to achieve their goals; the AAS Life Skills Academy, Scholarship Program, Giving Back Program, and the Arc360 Web TV Program.

Scholarships are awarded in amounts ranging from \$500.00 to \$1000.00, and winners are selected based on academic performance, civic engagement, and completion of an essay. Using famous images from Saigon for inspiration, the theme for this year's essay asked applicants to consider their freedom, and the connection between protection of personal freedoms and civic duties. This thought provoking topic has encouraged students to reflect on and consider some of the most crucial questions we face today.

While there will be 6 scholarship winners, it is my great pleasure to recognize the following 12 finalists:

Ms. Sungmin Sohn; Mr. Vihan Tham; Ms. Khanh-Ni Thi Nguyen; Ms. Mai Ly; Ms. Julie Hoang; Mr. Dylan Vu; Mr. Tristin Tran; Mr. Maxwell Tran; Mr. Minh Pham; Ms. Kirby Taylor; Ms. Julia Ngoc-Kim Nguyen; Ms. Krystal Sing.

Mr. Speaker, I ask my colleagues to join me in applauding the efforts of these students, and in congratulating them on their academic and civic accomplishments. I also commend AASuccess for their efforts to ensure and encourage professional development and success of students in our community.

## HOUSE DEMOCRACY PARTNERSHIP

**HON. DAVID DREIER**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. DREIER. Mr. Speaker, when I was first elected to this body in 1980, the preeminent national security threat that gravely concerned us all was the Soviet Union. A decade later, as we know very well, the Soviet Union collapsed and the Cold War came to an end. As we quickly near the twentieth anniversary of that transformative event, we should not forget the role that the United States Congress played in supporting democratic development in the legislatures of many of the former Warsaw Pact and Soviet republics. The Frost-Solomon Task Force partnered with the newly democratically elected members of post-Soviet legislatures to offer support and guidance in building an independent, co-equal legislative branch of government. A key part of that effort was the role our Congressional Research Service played in building strong, independent, nonpartisan research and analysis capabilities for these nascent institutions. Many of these countries are now members of NATO, the European Union, and in some cases, the Eurozone. They are fully integrated into the Trans-Atlantic partnership.

However, the work of democratic development in the region is not over. I have the privilege of leading, along with my friend and colleague Rep. DAVID PRICE, the House Democracy Partnership (HDP). Our commission is committed to helping strengthen legislatures in new and re-emerging democracies by engaging with our counterparts throughout the world. Two of our partner countries are Ukraine and the Republic of Georgia. Both are former Soviet republics working to consolidate their democracies. To date, their efforts have been met with varying levels of success, but HDP has been honored to work with reformers in both countries as they strive to throw off the shackles of their authoritarian past.

The world has watched over the past week as Russia's citizens have stood up and demanded greater political freedom and transparency, which is indeed a hopeful step. However, there is another country in Eastern Europe that has resisted all efforts to transform itself into a modern democracy and maintains itself as an authoritarian dictatorship. The country of Belarus remains Europe's only dictatorship. Under the unyielding grip of dictator Aleksandr Lukashenko, the people of Belarus are denied the basic freedoms of assembly, association, and expression. The press is heavily restricted and intimidated. The internet is censored. Independent nongovernmental organizations are not allowed to operate. There is little freedom of religion. And 100,000 Belarusians have been barred from leaving the country. For the people of Belarus, the oppression of the past did not dissolve with the Soviet Union, but remains a bitter reality.

While their neighbors in Central and Eastern Europe are able to freely elect their own leaders, Belarusians have witnessed one stage-managed election after another under the current regime. Lukashenko has held illegal referenda to change the constitution, eliminate

term limits, and dissolve an elected parliament. In December 2010, the Government of Belarus conducted a presidential election that failed to meet basic standards of the Organization for Security and Cooperation in Europe (OSCE), and followed that election by detaining and beating more than 600 peaceful opposition protestors. Seven of nine opposition presidential candidates were jailed and what remains of the independent media was attacked. Rather than address the OSCE's criticisms, the OSCE was kicked out of the country by the government.

To highlight the continued abuses of the Lukashenko regime and once again demonstrate Congressional support for the aspirations of the Belarusian people, the House voted to renew the Belarus Democracy Act of 2004, with a unanimous vote on July 6 of this year. This bill not only imposes additional sanctions on the leaders of the corrupt Belarusian regime, but allows the United States to work with groups who are promoting freedom and democracy, particularly media groups such as Radio Free Europe/Radio Liberty, the Voice of America, European Radio for Belarus, and Belsat.

The U.S. Congress will continue to stand with the Belarusian people as they fight for self determination and the rule of law. I look forward to the day that they are able to join their European neighbors on the right side of history with a lasting, peaceful and prosperous democracy.

RECOGNIZING THE 20TH ANNIVERSARY OF THE TAMPA BAY ESTUARY PROGRAM

**HON. C.W. BILL YOUNG**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. YOUNG of Florida. Mr. Speaker, I rise today to honor the 20th Anniversary of the Tampa Bay Estuary Program, which has been a key factor in restoring and improving the ecological health of Tampa Bay. Designated by Congress as an 'estuary of national significance' under the National Estuary Program in 1990, the Tampa Bay Estuary program is one of only 28 programs in the United States and four in Florida.

Unique environments that are found where rivers meet the sea, estuaries are vital components to the world's ecosystem. Estuaries improve water quality by filtering pollutants, act as buffers to protect shorelines from erosion and flooding, serve as nursery grounds for the majority of commercial and recreational fish and shellfish consumed by Americans, and provide essential food and habitat for birds, fish and other wildlife.

Created by Congress in 1987, the National Estuary Program works to identify and restore nationally significant estuaries that are threatened by pollution. Through an amendment to an appropriations bill, we worked quickly to ensure that Tampa Bay was included as one of the first estuary programs, recognizing its importance to the ecosystem of Florida and Pinellas County. Since then, the Tampa Bay Estuary Program has operated as a partner-

ship of thousands of volunteers, elected officials, resource managers and commercial and recreational resource users who work together to restore and improve the ecological health of Tampa Bay.

The program has made significant progress in improving Tampa Bay during the last two decades. Important achievements over the years include the recovery of more than 6,000 acres of life-sustaining sea grasses, the restoration of more than 5,000 acres of coastal habitats, and improved water quality and clarity to levels not seen since the 1950s. The Tampa Bay National Estuary Program has done a tremendous job in cleaning, preserving and maintaining the health and vitality of Tampa Bay and today this estuary is not only a precious natural habitat for many species of fish, birds and flora, but also a beautiful playground for swimmers, boaters and general admirers.

Mr. Speaker, it has been an honor to have been a partner in this incredible successful partnership that has made an invaluable contribution to restoring this unique Florida ecosystem. The hard work and dedication of the staff and their community partners ensures that the Tampa Bay Estuary Program will continue to build upon their success in the future. Please join me in congratulating all those who have been a part of the Tampa Bay Estuary Program for a job well done over these past 20 years.

CONGRATULATING NATIONAL GUARD ON 375TH ANNIVERSARY

**HON. CHARLES F. BASS**

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. BASS of New Hampshire. Mr. Speaker, I rise today to offer my heartfelt congratulations to the National Guard in honor of its 375th anniversary and a particular thank you to the men and women that serve in the New Hampshire National Guard. The origins of the New Hampshire National Guard can be traced back to 1623 with a proud tradition of protecting the lives and property of Granite State residents. New Hampshire Guardsmen have always answered the call to serve our great state and nation and since the terrorist attacks of September 11th, more than 2,000 New Hampshire Guardsmen have served overseas as part of Operations Enduring Freedom, Iraqi Freedom, and New Dawn. Collectively, the New Hampshire Guardsmen have received the highest honors our military bestows including the Silver Star, Bronze Star, Army Commendation Medals, Combat Infantry and Combat Action Badges and Purple Hearts.

New Hampshire's citizen soldiers and airmen have served domestically as well by mobilizing under Operation Noble Eagle, aiding the victims of severe weather, and rescuing lost hikers in the White Mountains. I am proud to represent the brave men and women of New Hampshire's National Guard and look forward to honoring them for their service in the years to come.

CONGRESSIONAL COMMISSION ON  
CHINA HEARING ON "CHINA'S  
CENSORSHIP OF THE INTERNET  
AND SOCIAL MEDIA: THE HUMAN  
TOLL AND TRADE IMPACT"

**HON. CHRISTOPHER H. SMITH**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, December 14, 2011*

Mr. SMITH of New Jersey. Mr. Speaker, as Chairman of the Congressional-Executive Commission on China, I would ask that the following opening statements be submitted to the RECORD for the November 17, 2001 hearing on "China's Censorship of the Internet and Social Media: The Human Toll and Trade Impact."

CHINA'S CENSORSHIP OF THE INTERNET AND SOCIAL MEDIA: THE HUMAN TOLL AND TRADE IMPACT

STATEMENT OF HON. CHRISTOPHER SMITH, A U.S. REPRESENTATIVE FROM NEW JERSEY, CHAIRMAN, CONGRESSIONAL-EXECUTIVE COMMISSION ON CHINA

The Commission will come to order. I want to welcome all of our distinguished witnesses to this very important hearing. We really appreciate the attendance of all of our panelists and guests. It's a pleasure to welcome everyone to this important roundtable on "China's Censorship of the Internet and Social Media: The Human Toll and Trade Impact." As recent events have shown, the issue of Internet censorship has only grown in terms of importance and magnitude, and I thank the Congressional-Executive Commission on China staff for organizing a hearing on this pressing issue, and for the tremendous scholarly work they have done not only in presenting our annual report, which is filled with facts and information that is actionable, but for the ongoing work that they do to monitor the gross abuses of human rights in China.

As the Congressional-Executive Commission on China's 2011 annual human rights report demonstrates, China's leadership has grown more assertive in its violation of rights, disregarding the very laws and international standards that they claim to uphold, while tightening their grip on Chinese society. As Chinese citizens have increasingly called for freedoms and reforms, China has only strengthened its controls over many areas of society—particularly over the Internet.

While China has witnessed a boom in the popularity of social media and Internet sites, Chinese citizens that access online sites today remain under the watchful eye of the State. By some accounts, China has imprisoned more Internet activists than any other country in the world, and its Internet environment ranks among the most restrictive globally. Chinese citizens are unable to voice a range of criticism that Americans undoubtedly take for granted each day: Chinese citizens that tweet about local corruption may face the threat of abuse or harassment. Citizens that express dissatisfaction over tainted food supplies that injure children—the most vulnerable population of our society—may come to hear a knock at the door. And, citizens that voice the human desire for democracy and rights protections we value so dearly may disappear into the official custody of the State, where they face torture and incarceration.

For Chinese citizens, the line that can't be crossed is unclear. While mentions of the

1989 Tiananmen protests are surely prohibited, China's censorship remains at the whimsy of governmental agencies that seek to limit what they perceive to be any destabilizing commentary. In China, the Internet provides no transparency—and citizens must weigh their choices each time they click to send an email or press a button or post personal views online. Who can forget Shi Tao, who for merely posting information about what he is not allowed to do, with regards to Tiananmen Square, garnered a ten year prison sentence when Yahoo opened up their personally identifiable information and gave it to the Chinese secret police that lead to his conviction. There are no lists of banned words. There are no registers of prohibited topics. In China, there is no transparency. There are only consequences, and dire ones at that.

Today, we welcome two panels that will address China's Internet censorship from two perspectives. The witnesses will not only provide personal accounts of how China's censorship affects individuals and families, but also detail how China's actions hinder the rights of U.S. businesses that seek to compete fairly in China. These panels will expose China's bold disregard for its own laws and its international obligations, specifically in terms of its controls on internet activity and expression.

In the first panel today, we will hear personal accounts of the consequences Chinese citizens face in seeking to express their fundamental rights of expression. We will hear from a son and a pastor that have seen firsthand the anxious and unforgiving hand of China's Internet police. We will hear how the simplest calls for freedom and reforms can lead to the separation of loved ones and partition of families.

In the second panel, we will hear how China's Internet restrictions and controls not only hurt its citizens, but also hurt countries seeking to better China through international trade and cooperation. On a commercial level, China similarly lacks the kind of transparency and fairness that we expect in global trading partners. China has not only failed to comply with its WTO commitments, it has exploited our expectations to create an unlevel playing field, hurting the competitiveness of U.S. businesses and workers alike.

We recognize that the Internet and social media can and should be used to provide people with greater access to honest information and to open up commercial opportunities for businesses operating in global markets. We know that the promise of information technology can not be achieved when it is used by repressive governments to find, capture, convict and so often torture ordinary citizens for voicing concerns publicly. Information technology can not be advanced when it involves the systemic exclusion of commercial competitors and rampant disregard for transparency and intellectual property.

China is one of the most repressive and restrictive countries when it comes to the control of the Internet and the impact goes far beyond the commercial losses for U.S. companies that want to participate in that market. There are serious human rights implications and we have seen the damage inflicted countless times through the arrest of bloggers and prodemocracy activists who have used the Internet to communicate with colleagues or disseminate views and then have been arrested. What makes this situation even worse is that sometimes it is U.S. companies, and my colleagues will recall I

held the first of a series of hearings where we had Microsoft, Yahoo, Cisco, and Google before our committee—it was my subcommittee on human rights—held up their hands and promised to tell the whole truth and nothing but, and then said they couldn't tell us what they were censoring and would not tell us how they were being complicit. Harry Wu, who is here, and has been a leader on this issue, pointed out that Cisco has so enabled the secret police to track down people using police net, and that the use of cyber police, ubiquitous throughout all of China, in order to capture the best, bravest, and smartest in China, who will bring that country to democracy if only allowed to do so.

NOVEMBER 17, 2011 TESTIMONY BEFORE THE CONGRESSIONAL-EXECUTIVE COMMISSION ON CHINA HEARING ON "CHINA'S CENSORSHIP OF THE INTERNET AND SOCIAL MEDIA: THE HUMAN TOLL AND TRADE IMPACT"

GILBERT B. KAPLAN, PARTNER, KING & SPALDING, PRESIDENT, COMMITTEE TO SUPPORT U.S. TRADE LAWS—INTRODUCTION

China's censorship of the Internet and its restrictions on the free flow of information have a very significant impact on U.S. economic and trade interests. China continues to impose debilitating burdens on foreign Internet service providers through its censorship regime, its blocking of foreign websites, and its "Great Firewall" infrastructure, which inhibit or prevent all together U.S. companies' ability to do business in China, and their ability to compete with Chinese domestic companies. China's Internet service providers have capitalized on this discriminatory treatment of U.S. companies and have consequently experienced great success. Earlier this year, for example, RenRen (known as "China's Facebook") filed for a U.S. public offering, symbolizing its success to date and its plans for expansion. Meanwhile, Facebook is blocked in China. These measures have been ongoing for years, and have had an overwhelming adverse impact on market share for U.S. companies perhaps to the extent that such market share can never be recovered.

China's blocking and filtering measures, and the fog of uncertainty surrounding what China's censors will and will not permit, violate numerous of China's international obligations, including provisions of the WTO General Agreement on Trade and Services ("GATS") and China's WTO Protocol of Accession.

The negative impact of these violations on America's premier Internet companies is profound. There are several corporate victims of China's exclusionary practices. Although there is public information identifying several large companies that have been blocked or restricted by the Great Firewall, including YouTube, Facebook, Twitter, Vimeo, Google, and the Huffington Post, to name a few, there are many other companies that have been blocked from access in China that I am not able to identify by name specifically because these companies fear retaliation. These companies come from various sectors, including energy, labor mediation, tourism, education, web hosting, and advertising, among others. The fact that these large, well-established companies and other fast-growing U.S. firms, so successful in every other major market in the world, are reluctant to come forward with specific information that would form the basis of a WTO complaint against the Chinese government is powerful testament to 1) the importance of the Chinese Internet market—the largest in the world—to these firms' continued success, and 2) the risk of retaliation

that these firms face if they are seen as lending direct support to a trade complaint against China. Moreover, companies not yet in existence, but for which China could represent a significant business opportunity, do not even have a voice in the matter and perhaps never will.

I represent the First Amendment Coalition, an award-winning, non-profit public interest organization dedicated to advancing free speech for individuals and companies just like those denied access to China's Internet market. I have been working with them to address the issue of China's Internet restrictiveness since 2007. The issues regarding internet censorship and internet blockage are trade issues cognizable under the WTO, as well as freedom of speech issues. They are a harmful trade barrier to U.S. business which must be ended.

The First Amendment Coalition was able to persuade the Office of the U.S. Trade Representative ("USTR") to take the critical step of requesting detailed information from China on its internet restrictions under Article 111:4 of GATS, which mandates transparency in a Member's application of measures affecting services. OATS Article 111:4 reads as follows.

Each Member shall publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Agreement.

USTR's request to China follows a three year effort by the First Amendment Coalition to get the U.S. government to take a tough stance to address China internet restrictions in violation of international trade rules, free speech, and human rights. The U.S. request to China under GATS Article 111:4 is highly significant not only because it is the very first time any WTO Member has utilized that provision of the GATS agreement, but also because it is the first time that the U.S. government, or any country, has made a formal submission through the WTO to China to address internet censorship.

Contrary to GATS Article 111:4, China's measures with respect to Internet services have not been published promptly, and in fact, the blocking and filtering measures have not been published at all. In this regard, we have been unable to document written directives or specific governmental instructions concerning China's measures constituting the "Great Firewall," but this in effect lends support to the argument that China is not transparent in its practices related to controlling and censoring Internet content. Indeed, China has published few, if any, regulations related to Internet services. The Chinese government recently issued an official decision, currently available only in Chinese, which appears not to contain "any new concrete policies but it does set the stage for future moves to rein in parts of the Internet at the possible expense of the commercial Internet companies."

The historic action taken by USTR is also a significant and important step because, in addition to promoting transparency and free speech, it may result in China providing information in response to U.S. questions that will assist small and medium-sized U.S. businesses in entering the Chinese market, which they currently are unable to do given the lack of certain vital information involving use of the Internet. As USTR indicated in its press release,

[a]n Internet website that can be accessed in China is increasingly a critical element

for service suppliers aiming to reach Chinese consumers, and a number of U.S. businesses, especially small- and medium-sized enterprises, have expressed concerns regarding the adverse business impacts from periodic disruptions to the availability of their websites in China.

Small and medium-sized U.S. businesses are particularly disadvantaged by China's Great Firewall because, unlike bigger U.S. companies, they do not have the resources to physically set up shop in China so they are simply excluded from the Chinese market. Some of the information requested from China by USTR included the following:

With respect to China's rules governing website blocking: Who is responsible for determining when a website should be blocked? What are the criteria for blocking access? Where are the guidelines published? Who does the actual blocking? How can a service supplier know if their website has been blocked? Are decisions to block appealable? Is the process used to prevent access the same or different for foreign and domestic content?

With respect to the State Internet Information Office ("SIIO") established by the State Council: What are the responsibilities and authorities of SIIO? Will SIIO handle licenses, approval processes, and questions on filtering and other laws?

With respect to inadvertent blocking where one site is blocked when it shares an IP address with a website China has deemed harmful: How does it occur? Can it be avoided? Will Chinese authorities notify the owner of the web hosting service so that it may ensure other sites are not inadvertently blocked? How can companies resolve inadvertent blocking?

With respect to the broad nature of the eleven categories of content which Internet service providers may not disseminate: Are there any criteria to determine when content falls within the eleven categories? Are government requests to filter specific terms communicated directly to Internet information service providers? Are the same terms subject to filtering made available to Internet information service providers inside and outside of China?

With respect to the prevention of "illegal information" as that term is used in the White Paper on the Internet in China: How is illegal information defined? Is a written government order required for a private corporation or relevant authority to block the transmission of illegal information? What types of technical measures are service suppliers expected to use to prevent transmission of the illegal information? Are the technical measures to block illegal information applied automatically to domestic and foreign traffic? If not, how are they applied? Does Internet content from outside of China go through a separate monitoring process for illegal information than Internet content created inside of China? If so, how do they differ?

We hope and expect that the Government of China will answer these questions fully and promptly, fulfilling its obligations under the WTO to maintain an open internet and not discriminate against U.S. business.

The remainder of this submission will review in greater detail the Internet restrictions in China, the adverse trade impact caused by those restrictions, and how those restrictions would appear to violate China's international trade obligations.

#### I. CHINA'S INTERNET RESTRICTIONS

U.S. and foreign Internet companies have faced a long history of discriminatory treat-

ment in China, to their disadvantage and to the advantage of their Chinese competitors. China has for many years maintained a policy, popularly known as the "Great Firewall," under which it has exerted strict control over the use of the limited system of fiber optic cables that connects networks in China to the outside world. As we understand it, China has installed certain hardware, known as "tappers" or "network sniffers," at each entry point so that when a user in China attempts to access a good or service located on a server outside of China, the tappers create mirror copies of the data packets that flow back and forth between the two servers, and the mirror copies are delivered to a set of computers that automatically review the data packets. The computers can be, and often are, pre-programmed to block a particular domain name server ("DNS"), Internet Protocol ("IP") address, or Universal Resource Locator ("URL") address.

The government of China ("GOC") also employs tens of thousands of individuals whose sole mission is to search the Internet for objectionable content. Their work often results in the blocking of additional DNS, IP, and URL addresses.

Following USTR's Article 111:4 request, China defended its Internet censorship as an effort to "safeguard the public." Although the ruling Communist Party claims its monitoring and blocking is to promote "constructive" websites, stop the spread of "harmful information," and develop what it calls a healthy internet culture, it is unclear what content is subject to blocking and often the blocked content has nothing resembling "harmful information." Additionally, the blocking appears motivated by other competitive or political agendas. For example, access to the Android Marketplace was blocked within China just after Google announced it would help the Dalai Lama to visit South Africa virtually.

#### HARM CAUSED BY CHINA'S RESTRICTIONS

Chinese internet restrictions have disadvantaged American businesses, to the benefit of Chinese businesses. According to news reports, Facebook and Twitter, for example, have been blocked in China. In their absence, copycat websites based in China (with censored content) have been able to flourish. It seems unlikely that Facebook and Twitter will be able to regain the market share lost to their Chinese competitors even if they were unblocked at some point in the future. Chinese users have already developed a preference for certain social media sites, and it is doubtful that they would have an incentive to switch services. The loss of a huge potential market for these companies indicates the extent of the harm caused by the Chinese actions. In addition to the direct loss of access to Chinese consumers by these companies comes the loss from all of the advertisers that would ordinarily be offering their services on the Internet pages of these social media service providers. The number of Internet users in China has exceeded 500 million, growing at double digit rates since 2008, roughly twice the size of the U.S. market, which grew only 2.5 to 4.5 percent in the same timeframe. China is now the largest market for Internet users and U.S. businesses are effectively being blocked from or only given highly restricted access to that market. U.S. companies excluded from the Chinese market are not just large tech companies but small and medium businesses including "travel sites, engineering firms and consulting firms, which have found their sites blocked and have complained to the trade office." A 2011 report by the McKinsey

Global Institute estimates that there is a ten percent increase in productivity for small and medium businesses from internet usage. This productivity growth is denied U.S. companies that are blocked from providing their services in China.

U.S. companies are subject to the strict controls that completely disrupt their service, or at a minimum seriously delay the transmission of information. Users of these websites, if they actually endure the wait and do not move to a competitor service supplier, suffer from a decrease in the quality of service, causing commercial harm to U.S. companies.

It would be very useful for this Commission to undertake, directly or perhaps through an economic consulting firm, an economic analysis of the overall harm caused to U.S. companies by the Chinese blockage and censorship of the internet. I think that would be one useful follow-up to this hearing.

### III. CHINA'S INTERNET RESTRICTIONS VIOLATE ITS INTERNATIONAL TRADE OBLIGATIONS

The Chinese Government's actions appear to constitute various violations of WTO agreements to which China is a party, particularly the GATS Agreement. The Chinese actions in question, although often based on unwritten policies and practices, would still constitute "measures" that can be challenged under the World Trade Organization Dispute Settlement procedures. In this regard, the Appellate Body and various WTO panels have confirmed that actionable "measures" subject to WTO dispute settlement include not only written laws and regulations, but other government actions as well. Panels have also recognized the subtleties of government pressure on private companies as "measures" that may be challenged at the WTO.

In addition to USTR's current GATS Article 11:4 request, there are more aggressive steps that the United States could take to protect its vital economic interests. While we believe that China currently is preparing its official response to USTR's Article 11:4 request, if China fails to respond or fails to respond meaningfully, the United States would then have a readily apparent basis to initiate formal dispute settlement proceedings in the WTO. Paragraph 1 of GATS Article XXIII says "[i]f any Member should consider that any other Member fails to carry out its obligations or specific commitments under this Agreement, it may with a view to reaching a mutually satisfactory resolution of the matter have recourse to the dispute settlement understanding."

In addition to a potential violation under GATS Article III on transparency, there are other WTO obligations that China appears to violate with its Internet restrictions, including other GATS provisions, as is discussed below.

Initiation of a WTO dispute settlement proceeding against Chinese Internet restrictions by the United States would signal to the U.S. business community, to consumers around the world, and to China, that the U.S. government will assert its rights under WTO agreements when China fails to fulfill its WTO obligations, even in those areas that may be of a more sensitive nature. Unfortunately, these sensitivities give rise to a number of obstacles to U.S. initiation and prosecution of a formal WTO dispute against China.

As noted, it is difficult to find companies willing to come forward to support a potential case against China for fear of retaliation. Due to this fear, specific facts needed

by the U.S. government to support many claims under the WTO are difficult to document. In addition, also as noted, many of the Chinese laws, regulations, policies, and practices regarding Internet services are not written down, although they are enforced de facto.

### A. CHINA'S INTERNET CENSORSHIP VIOLATES OTHER PROVISIONS OF GATS

China made specific commitments regarding market access and national treatment for services in various service sectors. China's Internet policies would appear to violate many of these specific commitments under the GATS, including in the areas of Data Processing Services, Photographic Services, Telecommunication Services, Mobile Voice and Data Services, Audiovisual Services, Tourism and Travel Related Services, and Transport Services. By pursuing these policies, China denies market access to U.S. companies and discriminates against the services of U.S. companies in favor of Chinese companies.

Although U.S. companies offer a wide range of services over the Internet, four service sectors that would appear to suffer disproportionately under Chinese policies are: (1) Advertising services (the primary revenue source for U.S. suppliers of Internet-based services, particularly those operating search engines, social networking, and data/photo sharing, is through advertising and U.S. services suppliers obtain revenue from the development and posting of targeted advertisements on their webpages and facilitating access to other websites by their users clicking on the advertisements); (2) Data processing and tabulation services (relevant U.S. services suppliers are providing consumers with the ability to access certain tools over the Internet that enable them to make, edit, and share videos or photos, or other data and that allow them to search for content on other websites and the U.S. services supplier is necessarily processing data for the consumer and providing a tool to access defined data bases or the Internet generally); (3) On-line information and database retrieval; and (4) Videos, including entertainment software and (CPC 83202), distribution services ("Video/entertainment distribution services").

There follows below a brief discussion of some of the specific GATS claims that might be made against the Chinese measures in question and some of the factors that would need to be considered in prosecuting such claims.

### I. NATIONAL TREATMENT

China's restrictions on U.S. Internet companies appear to violate the national treatment provision in Article XVII of the GATS, which provides that "each Member shall accord to services and service suppliers of any other Member, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers."

The Chinese measures at issue would seem to fall within one or more of at least four services subsectors for which China has inscribed a specific commitment, without limitation on national treatment, in its WTO Services Schedule. As such, China's measures must comply with the obligations in Article XVII for these subsectors. Current Chinese treatment of U.S. Internet companies, including filtering and blocking through the "Great Firewall" and mandated disabling of certain service functions, modifies the conditions of competition in favor of Chinese suppliers such as Baidu (considered the

"Google" of China); as such, these measures are inconsistent with Article XVII of the GATS.

If China's measures were challenged in a WTO proceeding, a Panel would first determine whether China's measures are indeed "affecting" the supply of these services. As noted by the Appellate Body in EC-Bananas III:

[T]he term of "affecting" reflects the intent of the drafters to give a broad reach to the GATS. The ordinary meaning of the word "affecting" implies a measure that has "an effect on", which indicates a broad scope of application. This interpretation is further reinforced by the conclusions of previous panels that the term 'affecting' in the context of Article III of the GATT is wider in scope than such terms as 'regulating' or 'governing.'

It is therefore not necessary for China's measures to be directly regulating or governing the business of U.S. Internet service providers, but merely that the measures have an effect on these services, and their providers' ability to do business in China. China's measures clearly have "an effect on" these services—indeed, a very detrimental one.

Second, the United States would need to demonstrate that China's measures accord "less favorable" treatment to U.S. suppliers than to China's domestic suppliers of "like" services. As set forth in GATS Article XVII:3, the test for less favorable treatment is whether the measure "modifies the conditions of competition in favor of services or service suppliers of China compared to like services or services suppliers of the United States. Persuading a panel in this regard would require the production of extensive data and specific information demonstrating the competitive disadvantage suffered by U.S. companies due to China's measures. A comparison of blockages of websites, upload times for content of websites, and other significant impediments to Internet service providers would likely reveal significant and swift loss of market share by U.S. providers.

### 2. MARKET ACCESS

Article XVI:2 of the GATS prohibits Members from maintaining or adopting quantitative limitations on service operations or service output. China's restrictions on certain U.S. Internet companies' services constitutes a de facto quantitative limitation on such services, therefore violating this provision.

### 3. DOMESTIC REGULATION

Under Article VI of the GATS, for services sectors in which specific commitments have been undertaken, China must administer its measures in a "reasonable, objective and impartial manner" and, for all services sectors, must ensure that tribunals or procedures are available for the prompt review and remedy of administrative decisions. China's restrictions on U.S. Internet companies are subjective and non-transparent, and there are no tribunals or procedures for the review of these administrative decisions. The restrictions therefore violate China's obligations under Articles VI:1 and VI:2(a) of the GATS.

China's "Great Firewall" filtering and blocking practices would also seem to violate the GATS Annex on Telecommunications, which states in paragraphs 4 and 5 that "each Member shall ensure that relevant information on conditions affecting access to and use of public telecommunications transport networks and services is publicly available" and that "each Member shall ensure that any service supplier of any

other Member is accorded access to and use of public telecommunications transport networks and services on reasonable and non-discriminatory terms and conditions." In addition, paragraph 5(c) imposes an obligation on China to ensure that U.S. services suppliers may use the public telecommunications transport networks and services "for the movement of information within and across borders" and "for access to information contained in databases or otherwise stored in machine-readable form" in the United States or in the territory of another WTO Member. China's filtering and blocking on Internet content clearly restricts the availability of these telecommunications networks in a discriminatory fashion.

#### CONCLUSION

We appreciate the Commission holding this hearing and inviting me to testify. We also appreciate the efforts of USTR in submitting

the GATS 111:4 questions. We urge the Commission to take into account our views in its ongoing work on this issue. We also urge the Commission to monitor China's responses to these questions as well as USTR's continuing efforts on this very important issue. An open and accessible internet in China is a prerequisite to U.S. success in the Chinese market, and a goal that we must continue to fight for until it is achieved.

---

#### SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference.

This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, December 15, 2011 may be found in the Daily Digest of today's RECORD.
